¹ Owned and contolled capacity excludes assets to be abandoned and assets held for sale.

² Non-trading MtM gains/(losses) include ineffective hedges associated with assets and contracts that no longer qualify for normal purchases and sales treatment under FAS 133.

³ The NEG expresses value-at-risk as a dollar amount of the potential loss in the fair value of the portfolios based on a 95% confidence level using a one-day liquidation period.

⁴ Balance excludes price risk management assets (liabilities) held for sale.
