NOTE A-SUMMARY OF ACCOUNTING POLICIES

General

The accompanying unaudited condensed financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and with the instructions to Form 10QSB. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements.

In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Accordingly, the results from operations for the three and six month period ended June 30, 2005 are not necessarily indicative of the results that may be expected for the year ending December 31, 2005. The unaudited condensed financial statements should be read in conjunction with the December 31, 2004 financial statements and footnotes thereto included in the Company's SEC Form 10 KSB.

Business and Basis of Presentation

Seawright Holdings, Inc. (the "Company") was formed on October 14, 1999 under the laws of the state of Delaware. The Company was a "development stage enterprise" (as defined in statement of Financial Accounting Standards No. 7) in prior periods until December 31, 2004. The Company is currently engaged in spring water bottling and distribution business.

The consolidated financial statements include the accounts of the Company, and its wholly-owned subsidiary, Seawright Springs LLC. Significant intercompany transactions have been eliminated in consolidation.

Reclassification

Certain reclassifications have been made to conform prior periods' data to the current presentation. These reclassifications had no effect on reported losses.

Stock Based Compensation

In December 2002, the FASB issued SFAS No. 148, "Accounting for stock-based Compensation- Transition and Disclosure- an amendment of SFAS 123." This statement amends SFAS No.123, "Accounting for Stock based Compensation" to provide alternative methods of transition for a voluntary change to the fair value based method of accounting for stock based employee compensation. In addition, this statement amends the disclosure requirements of SFAS No.123 to require prominent disclosures in both annual and interim financial compensation and the effect of the method used on reported results. The company has chosen to continue to account for stock-based compensation using the intrinsic value method prescribed in APB Opinion No.25 and related interpretations. Accordingly, compensation expense for stock options is measured as the excess, if any, of the fair market value of the Company's stock at the date of the grant over the exercise price of the related option. The Company has adopted the annual disclosure provisions of SFAS No.148 in its financial reports for the year ended December 31, 2004 and has adopted the interim disclosure provisions for its financial reports for the subsequent periods.

Edgar Filing: SEAWRIGHT HOLDINGS INC - Form 10QSB

Had compensation costs for the Company's stock options been determined based on the fair value at the grant dates for the awards, the Company's net loss and losses per share would have been as follows:

On December 16, 2004, the Financial Accounting Standards Board (FASB) issued FASB Statement No. 123R (revised 2004), "Share-Based Payment" which is a revision of FASB Statement No. 123, "Accounting for Stock-Based Compensation". Statement 123R supersedes APB opinion No. 25, "Accounting for Stock Issued to Employees", and amends FASB Statement No. 95, "Statement of Cash Flows". Generally, the approach in Statement 123R is similar to the approach described in Statement 123. However, Statement 123R requires all share-based payments to employees, including grants of employee stock options, to be recognized in the income statement based on their fair values. Pro-forma disclosure is no longer an alternative. On April 14, 2005, the SEC amended the effective date of the provisions of this statement. The effect of this amendment by the SEC is that the Company will have to comply with Statement 123R and use the Fair Value based method of accounting no later than the first quarter of 2006. Management has not determined the impact that this statement will have on Company's consolidated financial statements.

Revenue Recognition

For revenue from product sales, the Company recognizes revenue in accordance with Staff Accounting Bulletin No. 104, REVENUE RECOGNITION ("SAB104"), which superceded Staff Accounting Bulletin No. 101, REVENUE RECOGNITION IN FINANCIAL STATEMENTS ("SAB101"). SAB 101 requires that four basic criteria must be met before revenue can be recognized: (1) persuasive evidence of an arrangement exists; (2) delivery has occurred; (3) the selling price is fixed and determinable; and (4) collectibility is reasonably assured. Determination of criteria (3) and (4) are based on management's judgments regarding the fixed nature of the selling prices of the products delivered and the collectibility of those amounts. Provisions for discounts and rebates to customers, estimated returns and allowances, and other adjustments are provided for in the same period the related sales are recorded. The Company defers any revenue for which the product has not been delivered or is subject to refund until such time that the Company and the customer jointly determine that the product has been delivered or no refund will be required. SAB 104 incorporates Emerging Issues Task Force 00-21 ("EITF 00-21"), MULTIPLE-DELIVERABLE REVENUE ARRANGEMENTS. EITF 00-21 addresses accounting for arrangements that may involve the delivery or performance of multiple products, services and/or rights to use assets.

NOTE A-SUMMARY OF ACCOUNTING POLICIES (CONTINUED)

New Accounting Pronouncements

In March 2005, the FASB issued FASB Interpretation (FIN) No. 47, "Accounting for Conditional Asset Retirement Obligations, an interpretation of FASB Statement No. 143," which requires an entity to recognize a liability for the fair value of a conditional asset retirement obligation when incurred if the liability's fair value can be reasonably estimated. The Company is required to adopt the provisions of FIN 47 no later than its first quarter of fiscal 2006. The Company does not expect the adoption of this Interpretation to have a material impact on its consolidated financial position, results of operations or cash flows.

In May 2005 the FASB issued Statement of Financial Accounting Standards (SFAS) No. 154, "Accounting Changes and Error Corrections, a replacement of APB Opinion No. 20 and FASB Statement No. 3." SFAS 154 requires retrospective application to prior periods' financial statements for changes in accounting principle, unless it is impracticable to determine either the period-specific effects or the cumulative effect of the change. SFAS 154 also requires that retrospective application of a change in accounting principle be limited to the direct effects of the change. Indirect effects of a change in accounting principle, such as a change in non-discretionary profit-sharing payments resulting from an accounting change, should be recognized in the period of the accounting change. SFAS 154 also requires that a change in depreciation, amortization, or depletion method for long-lived, non-financial assets be accounted for as a change in accounting estimate effected by a change in accounting principle. SFAS 154 is effective for accounting changes and corrections of errors made in fiscal years beginning after December 15, 2005. Early adoption is permitted for accounting changes and corrections of errors made in fiscal years beginning after the date this Statement is issued. The Company does not expect the adoption of this SFAS to

Edgar Filing: SEAWRIGHT HOLDINGS INC - Form 10QSB

have a material impact on its consolidated financial position, results of operations or cash flows.

NOTE B - MARKETABLE SECURITIES

During the period ended June 30, 2005 and the year ended December 31, 2004, the Company classified all of its marketable securities as trading as the securities are bought and held principally for the purpose of selling them in the near term. The Company actively and frequently traded securities with the objective of generating profits on short-term differences in price. The trading securities are marked to market on a monthly basis. At June 30, 2005 and December 31, 2004, the Company's trading securities are carried at fair value of \$941,777 and \$1,556,405, respectively. During the six months ended June 30, 2004, total realized loss amounted to \$34,774 and unrealized holding gains amounted to \$36,885. The Company included \$2,111 of net gain on trading securities in its other income during the period ended June 30, 2005.

(a) In February 2005, the Company paid in full the principal and all accrued interest of the note outstanding at December 31, 2004. Pursuant to the note agreement, the Company was granted a \$60,000 principal reduction discount when all principal and accrued interest are paid in full before the second anniversary of the note agreement. The Company has accounted for the \$60,000 principal reduction discount as other income during the period ended June 30, 2005.

Edgar Filing: SEAWRIGHT HOLDINGS INC - Form 10QSB

(b) In May 2005, pursuant to a contract for purchase of unimproved property between the Company and A.B.C. Farms, LLC (the "Seller"), the Company paid to the Seller \$725,000, of which \$225,000 was paid in cash and the Company issued to the Seller a promissory note in the amount of \$500,000, which comprises the remainder of the consideration for the purchase of the property.

NOTE D - PRIVATE PLACEMENT AND CONVERTIBLE PROMISSORY NOTES PAYABLE

The Company entered into a Private Placement Memorandum in August 2004 to offer up to 1,000 units of equity/notes payable instrument. Each unit consists of 2,500 shares of common stock of the Company, \$1,500 of convertible promissory notes ("Convertible Notes"), and 300 warrants to purchase 300 shares of the Company's common stock at \$0.85 per share. The Convertible Notes accrues interest at 11% per annum, payable and due in September 2009. The noteholder has the option to convert any unpaid note principal and accrued interest to the Company's common stock at a rate of \$0.85 per share anytime after six months from the issuance date of the note.

As of December 31, 2004, the Company received total proceeds of \$2,620,116, net of placement costs and fees of \$331,884, for 984 units subscribed. Pursuant to the terms of the Private Placement Memorandum, the Company issued to the investors Convertible Notes in an aggregate of \$1,476,000. The Company is obligated to issue 2,460,000 shares of its common stock, valued at \$1,144,116, to the investors in connection with the private placement. An aggregate of 2,404,978 shares were issued to the investors at December 31, 2004, and the Company has accounted for the remaining 54,998 shares not been issued at December 31, 2004 as common stock subscription payable in the amount of \$25,581 (fractional shares of 24 shares of common stock will not be issued). The 54,998 shares of common stock were issued to the investors in January 2005. The Company also issued to investors an aggregate of 295,200 warrants as of December 31, 2004.

In accordance with EMERGING ISSUES TASK FORCE ISSUE 98-5, ACCOUNTING FOR CONVERTIBLE SECURITIES WITH A BENEFICIAL CONVERSION FEATURES OR CONTINGENTLY ADJUSTABLE CONVERSION RATIOS ("EITF 98-5"), the Company recognized an imbedded beneficial conversion feature present in the Convertible Notes. The Company allocated a portion of the proceeds equal to the intrinsic value of that feature to additional paid-in capital. As of December 31, 2004, the Company recognized and measured an aggregate of \$402,859 of the proceeds, which is equal to the intrinsic value of the imbedded beneficial conversion feature, to additional paid-in capital and a discount against the Convertible Note. In January 2005, the Company recognized and measured additional \$8,181 of the proceeds, which

is equal to the intrinsic value of the imbedded beneficial conversion feature, to additional paid-in capital and a discount against the Convertible Note. The debt discount attributed to the beneficial conversion feature is amortized over the Convertible Note's maturity period (five years) as interest expense.

In connection with the placement of the Convertible Notes, the Company issued non-detachable warrants granting the holders the right to acquire 285,200 shares of the Company's common stock at \$0.85 per share as of December 31, 2004. The warrants expire five years from the issuance. In accordance with EMERGING ISSUES TASK FORCE ISSUE 00-27, APPLICATION OF ISSUE NO. 98-5 TO CERTAIN CONVERTIBLE INSTRUMENTS ("EITF - 0027"), the Company recognized the value attributable to the warrants in the amount of \$205,365 to additional paid-in capital and a discount against the Convertible Notes during the year ended December 31, 2004. In connection with the additional 15 units sold in January 2005, the Company issued additional 4,500 warrants and recognized the value attributable to the warrants in the amount of \$2,887 to additional paid-in capital and a discount against the Convertible Notes during the period ended June 30, 2005. The Company valued the warrants in accordance with EITF 00-27 using the Black-Scholes pricing model and the following assumptions: contractual terms of 5 years, an average risk free interest rate of 3.38%, a dividend yield of 0%, and volatility of 296%. The debt discount attributed to the value of the warrants issued is

Edgar Filing: SEAWRIGHT HOLDINGS INC - Form 10QSB

amortized over the Convertible Note's maturity period (five years) as interest expense.

The Company amortized the Convertible Notes debt discount attributed to the beneficial conversion feature and the value of the attached warrants and recorded non-cash interest expense of \$61,929 and \$0 for the period ended June 30, 2005 and 2004, respectively.

NOTE E - PUT AGREEMENT

In April 2004, the Company issued 160,000 shares of its common stock to a shareholder in exchange for previously issued stock options exercised at \$.5625 per share (Note G), for a total of \$90,000. In exchange for the shares, the holder of the options paid \$63,500 in cash, and tendered 5,000 shares of the Company's previously issued Series A preferred stock valued at \$5 per share. The remaining balance of \$1,500 was accounted for as financing expenses and was charged to operations during the year ended December 31, 2004.

In October 2004, the Company entered into an agreement ("put agreement") granting the shareholder an option to put the 160,000 shares of common stock to the Company one year from the date of the agreement for \$1.25 per share. The shareholder agreed to cancel 677,500 stock options exercisable at \$.5625 per share (Note G).

The Company accounted for the put agreement in accordance with Statement of Financial Accounting Standards No. 150, "Accounting for Certain Financial Instruments with Characteristics of both Liabilities and Equity", and classified the shares issued and the put option as accrued liabilities, as the shares issued and put agreement embody obligations to repurchase the Company's equity shares that require the Company to settle by transferring its assets. The put option was measured initially at \$90,000 and subsequently at fair value of \$112,000 and \$146,000 at June 30, 2005 and December 31, 2004, respectively. In connection with the put agreement, the Company recognized a non-cash earning of \$34,000 during the period ended June 30, 2005, which was a result of the decrease in the price of the Company's common stock between June 30, 2005 and December 31, 2004.

NOTE H - OTHER INCOME AND EXPENSE

The Company's President has advanced funds to the Company for working capital purposes. The Company has paid in full the amount due to the Company's President during the year ended December 31, 2004. Additionally, total payment the Company remitted exceeded total balance due to the Company's President in the amount of \$144,006 during the year ended December 31, 2004 and \$50,500 during the period ended June 30, 2005. The Company has accounted for the excess payment of \$144,006 and \$50,500 to the Company's President as other expense for the year ended December 31, 2004 and for the period ended June 30, 2005, respectively. In April 2005, the Company received a repayment of \$140,000 from the Company's President, and has accordingly accounted for the repayment received as other income.

NOTE I - INTANGIBLE

In June 27, 2005, the Company purchased intellectual property including trademarks, service marks, trade dress, trade names, brand names, designs and logos as well as formulas for flavored sparkling waters and teas from a competitor. Under the terms of the agreement, the Company paid a purchase price of \$10,000 with royalties to be paid for the first 4,000,000 cases of bottled water or tea sold under the trademarks. As of the fifth anniversary of the effective date of the purchase, if the Company has not sold 4,000,000 cases of product under the trademark, the seller shall be entitled to a payment of \$50,000 less any royalties previously paid under the agreement. The royalty payable under this intangible has been recorded at its present value of \$29,063 at June 30, 2005 and is included in other long-term liabilities, and the discount will be amortized and charged to interest expense in future periods. The intangible assets acquired will be amortized over a period of 5 years.

The Company has adopted SFAS No. 142, Goodwill and Other Intangible Assets, whereby the Company periodically test its intangible assets for impairment. On an annual basis, and when there is reason to suspect that their values have been diminished or impaired, these assets are tested for impairment, and write-downs will be included in results from operations.

The intangible assets acquired and their carrying value at June 30, 2005 are:

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATION.

When used in this Form 10-QSB and in our future filings with the Securities and Exchange Commission, the words or phrases "will likely Result", "management expects", "we expect", "will continue", "is Anticipated", "estimated" or similar expressions are intended to identify forward-looking statements. Readers are cautioned not to place undue reliance on any such forward-looking statements, each of which speak only as of the date made. These statements are subject to risks and uncertainties, some of which are described below. We have no obligation to publicly release the result of any revisions that may be made to any forward-looking statements to reflect anticipated events or circumstances occurring after the date of such statements.

The forward-looking statements in the discussion that follows are subject to significant risks and uncertainties about us, our current and planned products, our current and proposed marketing and sales, and our projected results of operations. There are several important factors that could cause actual results to differ materially from historical results and percentages and results anticipated by the forward-looking statements. We have sought to identify the most significant risks to its business, but cannot predict whether or to what extent any of such risks may be realized nor can there be any assurance that we have identified all possible risks that might arise. Investors should carefully consider all of such risks before making an investment decision with respect to our stock. The following discussion and analysis should be read in conjunction with the financial statements of our Company and notes thereto. This discussion should not be construed to imply that the results discussed herein will necessarily continue into the future, or that any conclusion reached herein will necessarily be indicative of actual operating results in the future. Such discussion represents only the best present assessment from our Management.

Edgar Filing: SEAWRIGHT HOLDINGS INC - Form 10QSB

Plan of Operation

The Company was a "development stage enterprise" (as defined in statement of Financial Accounting Standards No. 7) in prior periods until December 31, 2004. During the six-month period ended June 30, 2005, the Company has generated \$1,505 of revenue from operations. In 2003, the Company purchased property containing a spring located in Mt. Sidney in the Shenandoah Valley area of Virginia. The spring has a flow in excess of 1,000,000 gallons of water daily. The Company has developed the packaging for selling its water under the brand name Seawright Springs and currently has three proprietary PET bottles in a 10 ounce size, a 16.9 ounce size and a 33.8 ounce size. During June 2005, the

17

Company purchased intellectual property including trademarks, service marks, trade dress, trade names, brand names, designs and logos as well as formulas for flavored sparkling waters and teas from a competitor. The Company is positioning its water in an effort to compete in the luxury brand category of the water market. The Company will be offering both a sparkling and non-sparkling brand. In addition to selling water under the Company's own brand, the Company will continue to seek opportunities to sell its considerable daily supply of water to other bottlers.

Comparison of Financial Results

Three and Six Months Ended June 30, 2005 and June 30, 2004

Revenues

During the three and six-month periods ended June 30, 2005, \$974 and \$1,505 of revenue, respectively, was generated from the Mt. Sidney spring from on site sales. Management remains forward thinking with the intent to increase sales to a more substantial figure through the remainder of the year. As the Company was a development stage company until December 31, 2004, no revenues were generated in the six-month period ended June 30, 2004.

Costs and Expenses

During the three and six months periods ended June 30, 2005, total operating costs and expenses were \$211,362 and \$328,915, respectively. The expenses were incurred in connection with the establishment of our spring water business including consulting and engineering services, testing and spring maintenance and costs associated with the administration and overhead of our business such as accounting, legal and office expenses. This compared with expenses for the three and six-month periods ended June 30, 2004 of \$59,489 and \$105,879, respectively. The increases in expenses are due to the increased expenditures on the spring site operations principally related to consulting and engineering.

The Company has incurred interest expenses of \$114,597 and \$186,771 for the three and six-month periods ended June 30, 2005, respectively; and \$17,714 and \$34,717 for the three and six-month periods ended June 30, 2004, respectively. The increase was primarily attributable to the issuance of convertible notes payable in connection with the Private Placement Memorandum dated August 2004. The convertible notes accrue interest at 11% per annum. Included in the above interest expense amounts are \$61,929 of non-cash interest expense in connection with amortization of debt discount.

The Company actively and frequently traded securities with the objective of generating profits on short-term differences in price. The trading securities

Edgar Filing: SEAWRIGHT HOLDINGS INC - Form 10QSB

are marked to market by the Company on a monthly basis. During the three and six-month period ended June 30, 2005, the Company incurred a total of \$21,519 and \$2,111, respectively, of net realized and unrealized trading gains on its trading securities.

In connection with a put agreement entered into by the Company on the Company's common stock, the Company recognized non-cash earnings of \$24,000 during the first quarter of 2005, and an additional \$10,000 during the second quarter of 2005. These earnings were a result of the decrease in the price of the Company's common stock in the first two quarters of this year.

During the year ended December 31, 2004 and the first quarter of 2005, the Company overpaid amounts owed to the Company's President in the amount of \$144,006 and \$50,500, respectively. The Company has accounted for these excess payments as other expense for the year ended December 31, 2004 and for the period ended June 30, 2005, respectively. In April 2005, the Company's President repaid the Company an aggregate amount of \$140,000. The Company's consolidated financial statements reflect a net other income of \$89,500 for the period ended June 30, 2005.

Liquidity and Capital Resources

As of June 30, 2005, the Company had a working capital surplus of \$270,110. In the six-month period ended June 30, 2005, cash flow used in operations was \$260,477. We used proceeds from the private placement to repay the remaining note related to the purchase of the Mt. Sidney spring site. As a result of our early payment on that note we were able to take advantage of \$60,000 discount. This has been accounted for as a gain on extinguishment of debt.

18

In August 2004 the Company issued a Private Placement Memorandum to offer up to 1,000 units of equity/notes payable instruments. Each unit consisted of 2,500 shares of common stock of the Company, \$1,500 of convertible promissory notes ("Convertible Notes"), and 300 warrants to purchase 300 shares of the Company's common stock at \$0.85 per share. The Convertible Notes accrue interest at 11% per annum, payable and due in September 2009. The noteholders have the option to convert any unpaid note principal and accrued interest to the Company's common stock at a rate of \$0.85 per share anytime after six months from the issuance date of the note.

As of June 30, 2005, the Company had received total proceeds of \$2,665,116, net of placement costs and fees, and had issued to the investors \$1,498,500 of Convertible Notes.

Our accounts payable and accrued liabilities of \$78,688 are composed predominantly of liabilities to our consultants and vendors associated with the Mt. Sidney spring, our accountants and lawyers and accrued interest on our convertible notes payable.

We have raised the capital necessary to meet our expected working capital and financing needs for the next year.

Our independent certified public accountants have stated in their report included in our December 31, 2004 Form 10-KSB, that we have incurred operating losses since our inception, and that we are dependent upon management's ability to develop profitable operations. These factors among others may raise substantial doubt about our ability to continue as a going concern.

Purchase of Seawright Springs

Edgar Filing: SEAWRIGHT HOLDINGS INC - Form 10QSB

In October 2003, we took title to the property known as Seawright Springs in Mt Sidney, Virginia for \$1 million and a \$50,000 assignment fee. Stafford Street Capital LLC, a business entirely owned by our principal shareholder Joel P. Sens, contracted to purchase the property in June 2003 and assigned all its interests in the contract in October 2003 to Seawright Springs LLC, an entity wholly owned by Seawright Holdings Inc. \$300,000 was immediately due on settlement, with a further \$700,000 subject to a Promissory Note carrying a rate of 6% per annum. Under the terms of the note, \$100,000 plus interest was re-paid in April 2004 and \$200,000 plus interest was repaid in October 2004. Proceeds from the 2004 and 2005 issuances of convertible notes and common shares were used in part to meet remaining obligation under the Promissory Note which was paid in full during the quarter ended March 31, 2005 and paid in advance of due dates resulting in a \$60,000 discount which was accounted for as a gain on extinguishment of debt. Had the Promissory Note not been paid off early, \$162,500 plus interest would have been due in October 2006 and the remaining principal of \$237,500 and interest would have been due in October 2008, the fifth anniversary of the acquisition.

A note was issued in respect of the \$50,000 assignor fee to Stafford Street Capital. A further Promissory Note was issued in October 2003 to Joel P. Sens, for \$65,000 with interest accruing at a rate of 10% per annum and payable in October 2004. Proceeds from the Joel Sens note and the Company's previous preferred stock offering were used to meet the immediate liability under the purchase agreement for Seawright Springs. The \$115,000 Notes to Joel P. Sens were repaid in September and October 2004.

The Company has plans for capital expenditures at the spring site. These expenditures are currently estimated to be between \$400,000 and \$500,000 and will include the renovation of the spring catchment, which protects the water spring from outside elements, the erection of a loadout facility to better enable trucks to come in and out of the facility to pick up bulk loads of water for transport, new piping and filtration equipment, the addition of a 20,000 gallon storage tank and tank pad site that will allow for additional storage capacity to be added on as needed basis.

During June 2005, the Company purchased a parcel of land located approximately 10 miles south of the Mt. Sidney, Virginia location. The Company has also entered into an agreement to acquire a second parcel of land in the same vicinity. The purchased parcel is 33.52 acres which the Company acquired for

19

\$725,000. The second parcel is approximately 3.46 acres which the Company has agreed to purchase, subject to certain conditions, for a purchase price of \$240,000. The purchase of the second parcel is subject to a study period which the Company is now currently undertaking. The Company made a refundable \$10,000 deposit on the 3.46 acre site in April 2005.

Although no assurances can be given, both sites are expected to be re-zoned to commercial use from general agriculture use according to the master zoning plan of the city of Staunton, Virginia. The Company may determine in the future to use a portion of these properties for developing a bottling facility.

Product Research and Development

We do anticipate reviewing other lines of investment and business.

Acquisition or Disposition of Plant and Equipment

We do not anticipate the sale of any significant property, plant or equipment

Edgar Filing: SEAWRIGHT HOLDINGS INC - Form 10QSB

during the next twelve months. We anticipate the acquisition of plant and equipment and other improvements for the Mt. Sidney spring site.

Number of Employees

As of June 30, 2005, we have one employee. We do not anticipate hiring additional employees in the next 12 months. In order for us to attract and retain quality personnel, we anticipate we will have to offer competitive salaries to future employees. Any future increase in personnel will depend upon the line of business or investment entered into and the availability of funding for those operations.

Off-Balance Sheet Arrangements

We have not had, and at June 30, 2005 do not have, any off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that is material to investors.

Trends, Risks and Uncertainties

We have sought to identify what we believe to be the most significant risks to its business, but cannot predict whether or to what extent any of such risks may be realized nor can there be any assurances that we have identified all possible risks that might arise. Investors should carefully consider all of such risk factors before making an investment decision with respect to our stock.

Limited operating history; anticipated losses; uncertainly of future results

We have only a limited operating history upon which an evaluation of our business and its prospects can be based. Our prospects must be evaluated with a view to the risks encountered by a company in an early stage of development, particularly in light of the uncertainties relating to our future operations and line of business and investment.

Potential fluctuations in quarterly operating results

Our quarterly operating results may fluctuate significantly in the future as a result of a variety of factors, most of which are outside our control, including: seasonal trends in demand; the amount and timing of capital expenditures and other costs relating to the expansion of our operations; the introduction of new services and products by us or our competitors; price competition or pricing changes in the industry; technical difficulties; general economic conditions, and economic conditions specific to the spring water market. Our quarterly results may also be significantly affected by the impact of the accounting treatment of acquisitions, financing transactions or other matters. Particularly at our early stage of development, such accounting treatment can have a material impact on the results for any quarter. Due to the foregoing factors, among others, it is likely that our operating results will fall below our expectations or investors' expectations in some future quarter.

20

Management of Growth

Our future success will be highly dependent upon our ability to successfully manage the expansion of our operations There can be no assurance that we will be able to achieve or manage any such growth.

Our future success depends upon our ability to address potential market

Edgar Filing: SEAWRIGHT HOLDINGS INC - Form 10QSB

opportunities while managing our expenses to match our ability to finance our operations. This need to manage our expenses will place a significant strain on our management and operational resources. If we are unable to manage our expenses effectively, our business, results of operations, and financial condition will be materially adversely affected.

Risks associated with acquisitions

As part of our business strategy in the future, we could acquire assets and businesses relating to or complementary to our operations. Any acquisitions would involve risks commonly encountered in acquisitions of companies. These risks would include, among other things, the following: we could be exposed to unknown liabilities of the acquired companies; we could incur acquisition costs and expenses higher than it anticipated; fluctuations in our quarterly and annual operating results could occur due to the costs and expenses of acquiring and integrating new businesses or technologies; we could experience difficulties and expenses in assimilating the operations and personnel of the acquired businesses; our ongoing business could be disrupted and its management's time and attention diverted; we could be unable to integrate successfully.

Other Risks

The Company is also subject to risks associated with economic conditions generally and the economy in those areas where the Company has or expects to have assets and operations; competitive and other factors affecting the Company's operations, markets, products and services; those risks associated with the Company's ability to successfully negotiate with certain customers, risks relating to estimated contract costs, estimated losses on uncompleted contracts and estimates regarding the percentage of completion of contracts, associated costs arising out of the Company's activities and the matters discussed in this report; risks relating to changes in interest rates and in the availability, cost and terms of financing; risks related to the performance of financial markets; risks related to changes in domestic laws, regulations and taxes; risks related to changes in business strategy or development plans; risks associated with future profitability; and other factors discussed elsewhere in this report and in documents filed by the Company with the Securities and Exchange Commission. Many of these factors are beyond the Company's control.

ITEM 3. CONTROLS AND PROCEDURES

The Company's chief executive officer and chief financial officer have evaluated, as of the period covered by this quarterly report, the effectiveness of the design, maintenance and operation of the Company's disclosure controls and procedures. The Company's chief executive officer and chief financial officer have determined that the Company's disclosure controls and procedures were effective in ensuring that the information required to be disclosed by the Company in the reports that it files under the Exchange Act is accurate and is recorded, processed, summarized and reported within the time periods specified in the Commission's rules and regulations.

Disclosure controls and procedures, no matter how well designed and implemented, can provide only reasonable assurance of achieving an entity's disclosure objectives. The likelihood of achieving such objectives is affected by limitations inherent in disclosure controls and procedures. These include the fact that human judgment in decision making can be fully faulty and that breakdowns in internal control can occur because of human failures such as errors or mistakes or intentional circumvention of the established process.

Edgar Filing: SEAWRIGHT HOLDINGS INC - Form 10QSB

During the most recent fiscal quarter, there have been no changes in internal control over financial reporting or in other factors that could have materially affected, or are reasonably likely to materially affect, these financial reporting controls.
