UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

FORM 10-Q

(Mark One)

☒ QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended September 30, 2010

OR

☐ TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

COMMISSION FILE NUMBER 000-21846

AETHLON MEDICAL, INC.

(Exact name of registrant as specified in its charter)

NEVADA
(State or other jurisdiction of incorporation or
organization)

13-3632859
(I.R.S. Employer Identification No.)

8910 UNIVERSITY CENTER LANE, SUITE 660, SAN DIEGO, CA 92122

(Address of principal executive offices) (Zip Code)

(858) 459-7800
(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. YES ☒ NO ☐

Edgar Filing: AETHLON MEDICAL INC - Form 10-Q

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (ss.232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). YES ☐ NO ☐

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer ☐

Accelerated filer ☐

Non-accelerated filer ☐

Smaller reporting company ☒

(Do not check if a smaller reporting company)

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). YES ☐ NO ☒

As of November 15, 2010, the registrant had outstanding 70,476,081 shares of common stock, \$.001 par value.

AETHLON MEDICAL, INC.
(A Development Stage Company)
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)
September 30, 2010

NOTE 1. NATURE OF BUSINESS AND BASIS OF PRESENTATION

Aethlon Medical, Inc. ("Aethlon", "We" or the "Company") is a development stage medical device company focused on expanding the applications of our Hemopurifier (R) platform technology, which is designed to rapidly reduce the presence of infectious viruses and other toxins from human blood. In this regard, our core focus is the development of therapeutic devices that treat acute viral conditions, chronic viral diseases and pathogens targeted as potential biological warfare agents. The Hemopurifier(R) combines the established scientific principles of affinity chromatography and hemodialysis as a means to mimic the immune system's response of clearing viruses and toxins from the blood before cell and organ infection can occur. The Hemopurifier(R) cannot cure viral conditions but can prevent viruses and toxins from infecting unaffected tissues and cells. We have completed pre-clinical blood testing of the Hemopurifier(R) to treat HIV and Hepatitis-C, and have completed human safety trials on Hepatitis-C infected patients in India and are in the process of obtaining regulatory approval from the U.S. Food and Drug Administration ("FDA") to initiate clinical trials in the United States.

The commercialization of the Hemopurifier(R) will require the completion of human efficacy and safety-related clinical trials. The approval of any application of the Hemopurifier(R) in the United States will necessitate the approval of the FDA to initiate human studies. Such studies could take years to demonstrate safety and effectiveness in humans and there is no assurance that the Hemopurifier(R) will be cleared by the FDA as a device we can market to the medical community. We also expect to face similar regulatory challenges from foreign regulatory agencies should we attempt to commercialize and market the Hemopurifier(R) outside of the United States. As a result, we have not generated revenues from the sale of any Hemopurifier(R) application. Additionally, there have been no independent validation studies of our Hemopurifiers(R) to treat infectious disease. We manufacture our products on a small scale for testing purposes but have yet to manufacture our products on a large scale for commercial purposes. All of our pre-clinical human blood studies have been conducted in our laboratories under the direction of Dr. Richard Tullis, our Chief Science Officer.

We are classified as a development stage enterprise under accounting principles generally accepted in the United States of America ("GAAP"), and have not generated revenues from our principal operations.

Our common stock is quoted on the Over-the-Counter Bulletin Board administered by the Financial Industry Regulatory Authority ("OTCBB") under the symbol "AEMD.OB".

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with the instructions to Form 10-Q and applicable sections of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by GAAP for complete financial statements. In the opinion of management, all adjustments necessary to make the financial statements not misleading have been included. The condensed consolidated balance sheet as of March 31, 2010 was derived from our audited financial statements. Operating results for the six months ended September 30, 2010 are not necessarily indicative of the results that may be expected for the year ending March 31, 2011. For further information, refer to our Annual Report on Form 10-K for the year ended March 31, 2010, which includes audited financial statements and footnotes as of March 31, 2010 and for the years ended March 31, 2010 and 2009 and the period January 31, 1984 (Inception) through March 31, 2010.

NOTE 2. LIQUIDITY

The accompanying unaudited condensed consolidated financial statements have been prepared on a going concern basis, which contemplates, among other things, the realization of assets and the satisfaction of liabilities in the ordinary course of business. We have experienced continuing losses from operations, are in default on certain debt, have negative working capital of approximately \$8,607,000, recurring losses from operations and a deficit accumulated during the development stage of approximately \$48,997,000 at September 30, 2010, which among other matters, raises significant doubt about our ability to continue as a going concern. We have not generated significant revenue or any profit from operations since inception. A significant amount of additional capital will be necessary to advance the development of our products to the point at which they may become commercially viable. Our current financial resources are insufficient to fund our capital expenditures, working capital and other cash requirements (consisting of accounts payable, accrued liabilities, amounts due to related parties and amounts due under various notes payable) for the fiscal year ending March 31, 2011 ("fiscal 2011"). In addition, it is doubtful that we will, in the foreseeable future, receive the \$300,000 plus interest due to us under a certain secured promissory note in the amount of \$300,000 that we hold. (See Notes 4, 6, 12 and ____). Therefore, for all of the foregoing reasons, we will be required to seek additional funds through debt and/or equity financing arrangements to finance our current and long-term operations.

We are currently addressing our liquidity needs by exploring investment capital opportunities through the private placement of common stock or issuance of additional debt. We believe that our access to additional capital, together with existing cash resources, will be sufficient to meet our liquidity needs for fiscal 2011. However, no assurance can be given that we will receive any funds in connection with our capital raising efforts.

The unaudited condensed consolidated financial statements do not include any adjustments relating to the recoverability of assets that might be necessary should we be unable to continue as a going concern.

NOTE 3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The summary of our significant accounting policies presented below is designed to assist the reader in understanding our condensed consolidated financial statements. Such financial statements and related notes are the representations of our management, who are responsible for their integrity and objectivity. In the opinion of management, these accounting policies conform to GAAP in all material respects, and have been consistently applied in preparing the accompanying condensed consolidated financial statements.

PRINCIPLES OF CONSOLIDATION

The accompanying condensed consolidated financial statements include the accounts of Aethlon Medical, Inc. and its wholly-owned subsidiaries Aethlon, Inc., Hemex, Inc., Syngen Research, Inc., Cell Activation, Inc. and Exosome Sciences, Inc. (collectively hereinafter referred to as the "Company" or "Aethlon").

Hemex, Inc. was dormant and was dissolved effective March 15, 2010 and Aethlon, Inc., Syngen Research, Inc. and Cell Activation, Inc. were dormant and were dissolved effective November 25, 2009. In December 2009, we formed Exosome Sciences, Inc. to conduct our future cancer-related activities. There exist no material intercompany transactions or balances between Aethlon and any of our subsidiaries.

LOSS PER COMMON SHARE

Basic loss per common share is computed by dividing net loss available to common stockholders by the weighted average number of common shares assumed to be outstanding during the period of computation. Diluted loss per common share is computed similar to basic loss per share except that the denominator is increased to include the number of additional common shares that would have been outstanding if the potential common shares had been issued, and if the additional common shares were dilutive. As we had net losses for all periods presented, basic and diluted loss per common share are the same, since additional potential common shares have been excluded as their effect would be antidilutive.

The potentially dilutive common shares outstanding at September 30, 2010 and 2009, which include common shares underlying outstanding stock options, warrants and convertible debentures were 78,287,876 and 50,868,288, respectively.

PATENTS

We capitalize the cost of patents, some of which were acquired, and amortize such costs over the estimated useful life, upon issuance of the patent.

RESEARCH AND DEVELOPMENT EXPENSES

We incurred research and development expenses during the three and six month periods ended September 30, 2010 and 2009, which are included in various operating expense line items in the accompanying condensed consolidated statements of operations. Our research and development expenses in those periods were as follows:

September 30,	September 30,
------------------	------------------

	2010	2009
Three months ended	\$ 100,044	\$ 168,648
Six months ended	\$ 189,843	\$ 245,937

FAIR VALUE OF FINANCIAL INSTRUMENTS

The carrying amount of the Company's cash, accounts payable and accrued liabilities approximates their estimated fair values due to the short-term maturities of these financial instruments. Warrants and embedded conversion features classified as derivative liabilities are reported at their estimated fair value, with changes in fair value being reported in current period results of operations (see Note 9).

Management has concluded that it is not practical to determine the estimated fair value of amounts due to related parties because the transactions cannot be assumed to have been consummated at arm's length, the terms are not deemed to be market terms, there are no quoted values available for these instruments, and an independent valuation would not be practicable due to the lack of data regarding similar instruments, if any, and the associated potential costs.

EQUITY INSTRUMENTS FOR SERVICES PROVIDED BY OTHER THAN EMPLOYEES

We account for transactions involving goods and services provided by third parties where we issue equity instruments as part of the total consideration using the fair value of the consideration received (i.e., the value of the goods or services) or the fair value of the equity instruments issued, whichever is more reliably measurable.

In transactions, when the value of the goods and/or services is not readily determinable and (1) the fair value of the equity instruments is more reliably measurable and (2) the counterparty receives equity instruments in full or partial settlement of the transactions, we use the following methodology:

- (a) For transactions where goods have already been delivered or services rendered, the equity instruments are issued on or about the date the performance is complete (and valued on the date of issuance).
- (b) For transactions where the instruments are issued on a fully vested, non-forfeitable basis, the equity instruments are valued on or about the date of the contract.
- (c) For any transactions not meeting the criteria in (a) or (b) above, we re-measure the consideration at each reporting date based on its then current stock value.

IMPAIRMENT OR DISPOSAL OF LONG-LIVED ASSETS

We review our long-lived assets for impairment whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. If the cost basis of a long-lived asset is greater than the projected future undiscounted net cash flows from such asset (excluding interest), an impairment loss is recognized. Impairment losses are calculated as the difference between the cost basis of an asset and its estimated fair value. We believe that no impairment occurred at or during the three or six months ended September 30, 2010.

BENEFICIAL CONVERSION FEATURE OF CONVERTIBLE NOTES PAYABLE

The convertible feature of certain notes payable provides for a rate of conversion that is below the market value of our common stock. Such feature is normally characterized as a "Beneficial Conversion Feature" ("BCF"). We record the estimated fair value of the BCF, when applicable, in the condensed consolidated financial statements as a discount from the face amount of the notes. Such discounts are accreted to interest expense over the term of the notes using the effective interest method.

DERIVATIVE LIABILITIES AND CLASSIFICATION

We evaluate free-standing derivative instruments (or embedded derivatives) to properly classify such instruments within equity or as liabilities in our financial statements. Our policy is to settle instruments indexed to our common shares on a first-in-first-out basis.

The classification of a derivative instrument is reassessed at each balance sheet date. If the classification changes as a result of events during a reporting period, the instrument is reclassified as of the date of the event that caused the reclassification. There is no limit on the number of times a contract may be reclassified.

On April 1, 2009 we adopted new guidance, as codified in Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 815-40, Derivatives and Hedging, Accounting for Derivative Financial Instruments Indexed to, and Potentially Settled in, a Company's Own Stock (previously EITF 07-5), that requires us to apply a two-step model in determining whether a financial instrument or an embedded feature is indexed to our own stock and thus enables it to qualify for equity classification. We have identified several convertible debt or warrant agreements in which the embedded conversion feature or exercise price contains certain provisions that may result in

an adjustment of the conversion or exercise price, which results in the failure of the these instruments to be considered to be indexed to our stock. Accordingly, under this guidance, we are required to classify these instruments as derivative liabilities (see Note 9).

We re-measure the estimated fair value of derivative liabilities at each reporting period and record changes in fair value in other expense (income) in the current statement of operations.

REGISTRATION PAYMENT ARRANGEMENTS

We account for contingent obligations to make future payments or otherwise transfer consideration under a registration payment arrangement separately from any related financing transaction agreements, and any such contingent obligations are recognized only when it is determined that it is probable that we will become obligated for future payments and the amount, or range of amounts, of such future payments can be reasonably estimated (see Note 7).

STOCK-BASED COMPENSATION

Employee stock options and rights to purchase shares under stock participation plans are accounted for under the fair value method. Accordingly, share-based compensation is measured when all granting activities have been completed, generally the grant date, based on the fair value of the award. The exercise price of options is generally equal to the market price of the Company's common stock (defined as the closing price as quoted on the OTCBB) on the date of grant. Compensation cost recognized by the Company includes (a) compensation cost for all equity incentive awards granted prior to, but not yet vested as of April 1, 2006, based on the grant-date fair value estimated in accordance with the original provisions of the then current accounting standards, and (b) compensation cost for all equity incentive awards granted subsequent to April 1, 2006, based on the grant-date fair value estimated in accordance with the provisions of subsequent accounting standards. We use a Binomial Lattice option pricing model for estimating fair value of options granted (see Note 10).

INCOME TAXES

Deferred tax assets and liabilities are recognized for the future tax consequences attributable to the difference between the consolidated financial statements and their respective tax basis. Deferred income taxes reflect the net tax effects of (a) temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts reported for income tax purposes, and (b) tax credit carryforwards. We record a valuation allowance for deferred tax assets when, based on our best estimate of taxable income (if any) in the foreseeable future, it is more likely than not that some portion of the deferred tax assets may not be realized.

RECLASSIFICATIONS

Certain prior year and inception to date amounts have been reclassified to conform to the current period presentation. These reclassifications had no effect on previously reported results of operations or accumulated deficit.

SIGNIFICANT RECENT ACCOUNTING PRONOUNCEMENTS

There were no recent accounting pronouncements issued by the FASB or the Securities and Exchange Commission during the three months ended September 30, 2010 or that were issued in prior periods but do not become effective until future periods that in the opinion of management had, or are expected to have a material impact on our present or future consolidated financial statements.

NOTE 4. NOTES PAYABLE

Principal amounts of notes payable consist of the following at September 30, 2010 and March 31, 2010:

	September 30, 2010	March 31, 2010
12% Notes payable, past due	\$185,000	\$285,000
10% Note payable, past due	5,000	5,000
Total Notes Payable	\$190,000	\$290,000

12% NOTES

From August 1999 through May 2005, we entered into various borrowing arrangements for the issuance of notes payable from private placement offerings (the "12% Notes"). On April 21, 2010, a holder of \$100,000 of the 12% Notes converted his principal balance and \$71,758 of accrued interest into 687,033 shares of common stock at an

agreed conversion price of \$0.25 per share. We incurred a loss upon this conversion of \$68,703 since the closing price of our common stock was \$0.35 at the date of conversion. At September 30, 2010, 12% Notes with a principal balance of \$185,000 are outstanding, all of which are past due, in default, and bearing interest at the default rate of 15%. At September 30, 2010, interest payable on the 12% Notes totaled \$256,687.

10% NOTES

At September 30, 2010, one 10% Note in the amount of \$5,000, which is past due and in default, remained outstanding. At September 30, 2010, interest payable on this note totaled \$4,625.

Management's plans to satisfy the remaining outstanding balance on these 12% and 10% Notes include converting the notes to common stock at market value or repayment with available funds.

NOTE 5. CONVERTIBLE NOTES PAYABLE

Convertible Notes Payable consist of the following at September 30, 2010:

	Principal	Unamortized Discount	Net Amount
Amended and Restated Series A 12% Convertible Notes	\$ 900,000	\$ --	\$ 900,000
2008 10% Convertible Notes	45,000	--	45,000
December 2006 10% Convertible Notes, past due	17,000	--	17,000
May & June 2009 10% Convertible Notes	300,000	(37,518)	262,482
July & August 2009 10% Convertible Notes	252,500	(27,668)	224,832
October & November 2009 10% Convertible Notes	205,250	(201,617)	3,633
February 2010 10% Convertible Note	660,000	(230,645)	429,355
April 2010 10% Convertible Note	75,000	(74,763)	237
June 2010 12% Convertible Notes	21,189	--	21,189
July 2010 6% Convertible Notes	890,000	(889,970)	30
September 2010 10% Convertible Notes	743,600	(743,598)	2
Total - Convertible Notes	\$ 4,109,539	\$ (2,205,779)	\$ 1,903,760

Convertible Notes Payable consisted of the following at March 31, 2010:

	Principal	Unamortized Discount	Amount
Amended Series A 10% Convertible Notes, past due	\$ 900,000	\$ --	\$ 900,000
2008 10% Convertible Notes	45,000	--	45,000
December 2006 10% Convertible Notes, past due	17,000	--	17,000
May & June 2009 10% Convertible Notes	300,000	(120,649)	179,351
July & August 2009 10% Convertible Notes	338,250	(98,458)	239,792
October & November 2009 10% Convertible Notes	380,250	(380,203)	47
January 2010 10% Convertible Notes	250,000	(249,993)	7
February 2010 10% Convertible Note	660,000	(409,198)	250,802
Total - Convertible Notes	\$ 2,890,500	\$ (1,258,501)	\$ 1,631,999

AMENDED AND RESTATED SERIES A 12% CONVERTIBLE NOTES

In June 2010, we entered into Amended and Restated 12% Series A Convertible Promissory Notes (the "Amended and Restated Notes") with the holders of certain promissory notes previously issued by the Company ("Amended Series A 10% Convertible Notes" or the "Prior Notes"), and all amendments to the Prior Notes.

The Amended and Restated Notes, in the principal amount of \$900,000, are convertible into an aggregate of 4,500,000 shares of our Common Stock and mature on December 31, 2010. In connection with the restructuring we paid \$54,001 of accrued and default interest through the date of the restructuring, liquidated damages of \$205,000 and \$54,003 of prepaid interest through the expiration date in the aggregate amount of \$313,004 through the issuance of units ("Units") at a fixed rate of \$0.20 per Unit, each Unit consisting of one share of the Company's Common Stock and one Common Stock Purchase Warrant to purchase one share of our Common Stock at a fixed exercise price of \$0.20 per share as prescribed in the Amended and Restated Note Agreement. As a result of this Unit issuance, we did not have any accrued interest owing to the holders of the Amended and Restated Notes at September 30, 2010.

In addition to the extension of the expiration date of the Amended and Restated Notes to December 31, 2010, we agreed to increase the annual interest rate from ten percent to twelve percent. We also agreed to change the exercise prices on all of the warrants held by the noteholders to \$0.20 per share, to change certain formerly contingent warrants to non-contingent warrants and to extend the expiration date of their warrants to February 2016. The following table summarizes the number of shares of our Common Stock issuable upon the conversion of the Amended and Restated Notes or the exercise of the various warrants issued or issuable pursuant to the Amended and Restated Notes.

Note Conversion	4,500,000
Warrants	11,646,125
Total	16,146,125

For accounting purposes, the amendment of the 12% Series A Convertible Notes was treated as a debt extinguishment in accordance with FASB ASC 470-50, Debt-Modifications and Extinguishments, as the terms of the restructured agreements were deemed to be substantially different than those of the prior agreements.

Based on conversion and exercise price re-set provisions included in the Amended and Restated Notes warrant agreements, the embedded conversion feature and the related warrants, with an aggregate estimated fair value of approximately \$3,089,000, were classified as derivative liability instruments (See Note 9).

Consequently, at the amendment date we recorded a loss on extinguishment of \$2,226,924 as follows:

Reacquisition price	\$ 4,385,925
Less carrying value of notes and related instruments	(2,159,001)
Loss on extinguishment	\$ 2,226,924

2008 10% CONVERTIBLE NOTES

2008 10% Convertible Notes in the aggregate amount of \$45,000 remain outstanding and in default at September 30, 2010. These notes are convertible into our common stock at \$0.50 per share. At September 30, 2010, interest payable on those notes totaled \$10,853. The 2008 10% Convertible Notes notes matured in January and February 2010.

DECEMBER 2006 10% CONVERTIBLE NOTES

At September 30, 2010, \$17,000 of the December 2006 10% Notes remained outstanding and in default. These notes are convertible into our common stock at \$0.17 per share. At September 30, 2010, interest payable on those notes totaled \$9,421.

MAY & JUNE 2009 10% CONVERTIBLE NOTES

In May and June 2009, we raised an aggregate amount of \$350,000 from the sale to accredited investors of 10% convertible notes ("May & June 2009 10% Convertible Notes"). The May & June 2009 10% Convertible Notes mature at various dates between November 2010 through December 2010 and are convertible into our common stock at a fixed conversion price of \$0.20 per share prior to maturity. Upon conversion of the May and June 2009 10% Convertible Notes the note holders will receive a matching three year warrant to purchase unregistered shares of our common stock at a price of \$0.20 per share.

After consideration of the warrants, we recorded a discount associated with the beneficial conversion feature of \$233,735 related to the May & June 2009 10% Convertible Notes and we are amortizing that discount over the terms of the respective convertible notes using the effective interest method.

At September 30, 2010, interest payable on those notes totaled \$39,544.

JULY & AUGUST 2009 10% CONVERTIBLE NOTES

In July and August 2009, we raised an aggregate amount of \$668,250 from the sale to three investment funds of 10% convertible notes ("July & August 2009 10% Convertible Notes"). Each note carries a one-year term and is

convertible into our common stock at 80% of market with a floor of \$0.15 cents and a ceiling of \$0.25 cents per share. As additional consideration, the investors also received 1,336,500 three year warrants to purchase our common stock at \$0.50 per share, although that exercise price is subject to change based on certain conditions. The conversion feature may additionally be adjusted in the event of future financing by the Company. Because the conversion feature and warrant exercise price each can be reset based on future events, they are classified as derivative liability instruments.

Based on the initial estimated fair value of the conversion feature and warrants, we recorded a discount associated with the derivative liability of \$475,762. We are amortizing this discount using the effective interest method. Deferred financing costs incurred in connection with this financing totaled \$60,750, which were capitalized and are being amortized using the effective interest method.

During the fiscal year ended March 2010, one of the investors converted \$330,000 of principal and \$22,559 of accrued interest into common stock. We accelerated and recorded as interest expense the remaining discount associated with that portion of the principal balance of the July & August 2009 10% Convertible Notes.

During the six months ended September 30, 2010, the holders of the two remaining July and August 2009 10% Convertible Notes elected to convert \$85,750 of principal and \$1,667 of accrued interest into 414,957 shares of common stock based upon the conversion formula of the notes.

At September 30, 2010, interest payable on those notes totaled \$34,993.

OCTOBER & NOVEMBER 2009 10% CONVERTIBLE NOTES

In October and November 2009, we raised \$430,000 from the sale to accredited investors of 10% convertible notes ("October & November 2009 10% Convertible Notes"). The October & November 2009 10% Convertible Notes mature at various dates between April 2011 and May 2011 and are convertible into our common stock at a fixed conversion price of \$0.25 per share prior to maturity. The investors also received matching three year warrants to purchase unregistered shares of our common stock at a price of \$0.25 per share.

We measured the fair value of the warrants and the beneficial conversion feature of the notes and recorded a 100% discount against the principal of the notes. We are amortizing this discount using the effective interest method.

During the six months ended September 30, 2010, one of the holders of the October & November 2009 10% Convertible Notes elected to convert \$175,000 of principal and \$8,750 of accrued interest into 735,000 shares of common stock based upon the conversion formula of the notes.

Deferred financing costs of \$20,250 incurred in connection with this financing were issued in the form of a convertible note with warrants on the same terms as those received by the investors. We capitalized the \$20,250 of deferred financing costs and are amortizing them over the term of the notes using the effective interest method.

At September 30, 2010, interest payable on these notes totaled \$20,525.

JANUARY 2010 10% CONVERTIBLE NOTES

In January 2010, we raised \$250,000 from the sale to an accredited investor of two 10% convertible notes. The convertible notes mature in July 2011 and are convertible into our common stock at a fixed conversion price of \$0.25 per share prior to maturity. The investor also received matching three year warrants to purchase 1,000,000 unregistered shares of our common stock at a price of \$0.25 per share. This investment concluded our 10% convertible debt round that began in October 2009. In aggregate, we issued \$700,250 in 10% convertible notes in that financing round.

We measured the fair value of the warrants and the beneficial conversion feature of the notes and recorded a 100% discount against the principal of the notes. We are amortizing this discount using the effective interest method.

In July 2010, the holder of the January 2010 10% Convertible Notes elected to convert the entire principal balance of \$250,000 and \$12,500 of accrued interest into 1,050,000 shares of common stock based upon the conversion formula of the notes.

FEBRUARY 2010 10% CONVERTIBLE NOTE

On February 12, 2010, we raised \$280,015 in cash and received a secured promissory note in the amount of \$300,000 (see Note 13) in exchange for the issuance by the Company of a \$660,000 principal amount 10% convertible promissory note (the "Note") to an accredited investor (the "Investor"). The Note included an original issue discount of ten percent, or \$60,000, and an origination fee of three percent, or \$9,000. We also paid legal fees of \$10,985. The Note issued by the Company matures in February 2011. The Investor Note matures on April 1, 2011, with prepayments of principal and interest by the Investor to the Company due and payable scheduled to begin on September 1, 2010.

The conversion price per share is equal to eighty percent (80%) of the average of the three lowest closing bid prices of our common stock as reported by Bloomberg L.P. on the Principal Market for the ten (10) trading days preceding the

conversion date, subject to a maximum price per share of \$0.30 and a minimum price per share of \$0.20 (the "Floor Price"). The Note is convertible into a maximum of 3,300,000 shares of our common stock at the minimum price per share of \$0.20. The Investor also received 660,000 three-year warrants to purchase shares of our common stock at \$0.50 per share, although that exercise price is subject to change based on certain conditions. The conversion feature, including the Floor Price, may additionally be adjusted in the event of future financing by the Company. Because the conversion feature and warrant exercise price each can be reset based on future events, they have been classified as derivative liabilities.

Based on an independent valuation relating to this transaction, we recorded a discount associated with the derivative liability of \$478,476 associated with the conversion feature. We are amortizing this discount using the effective interest method.

At September 30, 2010, interest payable on this note totaled \$41,643.

In addition, beginning in September 2010, the Company and the Investor have been in disagreement regarding (i) the continuation of the Floor Price at \$0.20 and (ii) the Investor's obligation to pay the principal and interest due to the Company under the secured promissory note issued by the Investor in the amount of \$300,000. (See Note 12 and Note 13).

APRIL 2010 10% CONVERTIBLE NOTE

In April 2010, we raised \$75,000 from the sale to an accredited investor of a 10% convertible note. The convertible note matures in October 2011 and is convertible into our common stock at a fixed conversion price of \$0.25 per share prior to maturity. The investor also received three year warrants to purchase 300,000 unregistered shares of our common stock at a price of \$0.25 per share.

We measured the fair value of the warrants and the beneficial conversion feature of the notes and recorded a 100% discount against the principal of the notes. We are amortizing this discount using the effective interest method.

At September 30, 2010, interest payable on this note totaled \$3,313.

JUNE 2010 12% CONVERTIBLE NOTES

In June 2010, in connection with the present and past negotiations with the law firm representing the holders of the "Amended and Restated Notes," we issued two convertible notes to that law firm ("June 2010 12% Convertible Notes") totaling \$64,153 on the same terms as the Amended and Restated Notes. That amount represented the amount of their legal fees plus accrued interest. As we also paid the law firm accrued and prepaid interest up to December 31, 2010 in the aggregate amount of approximately \$6,000 through the Unit Issuance, there was no accrued interest balance at September 30, 2010.

JULY 2010 6% CONVERTIBLE NOTES

In July 2010, we entered into a Note and Warrant Purchase Agreement (the "Purchase Agreement") with Tonaquint, Inc., a Utah corporation (the "Investor") whereby we issued and sold, and the Investor purchased: (i) a Convertible Promissory Note of the Company in the principal amount of \$890,000 (the "Company Note") and (ii) a Warrant to purchase Common Stock of the Company (the "Warrant"). As consideration for the issuance and sale of the Company Note and Warrant, the Investor paid cash in the amount of \$400,000 and issued two Secured Trust Deed Notes to us (the "Trust Notes") each in the principal amount of \$200,000. The variance of \$90,000 represents payment obligations with respect to certain fees and expenses and an original issue discount.

The Company Note is convertible into shares of the Company's Common Stock, at the option of the Investor, at a price per share equal to (a) the principal and interest due under the Company Note divided by (b) 80% of the average of the closing bid price for the three (3) trading days with the lowest closing bid prices during the twenty (20) trading days immediately preceding the conversion date (the "Conversion Price"). In no event shall the Conversion Price be greater than the "Ceiling Price", which is \$0.30 per share. The principal and interest subject to conversion under the Note shall be eligible for conversion in tranches ("Tranches"), as follows: (1) an initial Tranche in an amount equal to \$450,000 and any interest and/or fees accrued thereon under the terms of the Company Note and the other Transaction Documents (as defined below and in the Purchase Agreement), and (2) two additional subsequent Tranches each in an amount equal to \$220,000 and any interest or fees accrued thereon under the terms of the Company Note or the other Transaction Documents. The first subsequent Tranche shall correspond to payment of the first Trust Note and the second subsequent Tranche shall correspond to payment of the second Trust Note (as defined in the Purchase Agreement). The Investor's right to convert any of the subsequent Tranches is conditioned upon the Investor's payment in full of the Trust Notes corresponding to such subsequent Tranche. Accordingly, principal and interest under the Company Note may only be converted by the Investor in proportion to the amounts paid under each of the Trust Notes. However, up to \$450,000 may be converted at the Investor's option at any time, representing amounts paid by the Investor on the closing of the transaction on July 15, 2010 (the "Closing").

The Company Note will bear interest at a rate of 6% per annum. The maturity date of the Company Note is July 15, 2011. The Company Note contains "anti-dilution" protection, such that if the Company issues and sells Common Stock, or securities convertible into or exercisable for Common Stock of the Company, at a price per share that is less than the applicable Conversion Price, then the Conversion Price is adjusted downward to match such lower issuance price. However, in no event will the Conversion Price based on anti-dilution adjustments be lower than the "Floor Price" which is \$0.20 per share. The Company Note also contains other standard adjustment features for stock splits, recapitalizations and similar occurrences. The Company Note contains standard events of default related to payment, performance of certain covenants and bankruptcy events. We have granted the Investor a security interest in the Trust Notes under the terms of the Security Agreement. The sole collateral for the Company's payment and performance obligation under the Company Note is the Trust Notes.

The Warrant entitles the Investor to purchase such number of shares of Common Stock as shall equal \$800,000.00 divided by \$0.231 per share. The Warrant contains "anti-dilution" protection, such that if we issue and sell Common Stock, or securities convertible into or exercisable for Common Stock of the Company, at a price per share that is less than the price, then the price is adjusted downward to match such lower issuance price. The Warrant also contains other standard adjustment features for stock splits, recapitalizations and similar occurrences.

At September 30, 2010, interest payable on this note totaled \$11,125.

SEPTEMBER 2010 10% CONVERTIBLE NOTES

On September 3, 2010, we entered into a Subscription Agreement with three accredited investors (the "Purchasers") providing for the issuance and sale of convertible promissory notes and corresponding warrants in the aggregate principal amount of \$1,430,000. The initial closing under the Subscription Agreement resulted in the issuance and sale of (i) convertible promissory notes in the aggregate principal amount of \$743,600, (ii) five-year warrants to purchase an aggregate of 3,718,000 shares of our common stock at an exercise price of \$0.31125 per share, and (iii) five-year warrants to purchase an aggregate of 3,718,000 shares of our common stock at an exercise price of \$0.43575 per share. The convertible promissory notes bear interest compounded monthly at the annual rate of ten percent (10%) and mature on September 3, 2011. The aggregate gross cash proceeds were \$650,000, the balance of the principal amount representing a due diligence fee and an original issuance discount. The convertible promissory notes are convertible at the option of the holders into shares of our common stock at a price per share equal to eighty percent (80%) of the average of the three lowest closing bid prices of the common stock as reported by Bloomberg L.P. for the principal market on which the common stock trades or is quoted for the ten (10) trading days preceding the proposed conversion date. Subject to adjustment as described in the notes, the conversion price may not be more than \$0.30 nor less than \$0.20. There are no registration requirements with respect to the shares of common stock underlying the notes or the warrants.

On or before March 3, 2011, the Purchasers shall, subject to certain conditions in the Subscription Agreement, including our common stock shall not have a closing price of \$0.20 per share or less for five consecutive trading days, purchase an additional \$743,600 of convertible notes and corresponding warrants all on the same terms and conditions as the notes and warrants, including the due diligence fee and the original issuance discount, issued and sold at the initial closing on September 3, 2010. Should the second closing be consummated as set forth in the Subscription Agreement, we will receive additional gross cash proceeds of \$650,000 at the second closing.

At September 30, 2010, interest payable on these notes totaled \$5,749.

NOTE 6. EQUITY TRANSACTIONS

During the six months ended September 30, 2010, we issued 698,823 shares of common stock to consultants pursuant to our S-8 registration statement covering our Amended and Restated 2003 Consultant Stock Plan for services valued at \$202,613 based upon the fair value of the shares issued. The services were for regulatory affairs, corporate communications, business development and financial consulting. The average issuance price was approximately \$0.29 per share.

During the six months ended September 30, 2010, we issued 41,907 shares of restricted common stock to a consultant for investor relations services valued at \$12,500 based on the value of the services provided. The average issuance price was approximately \$0.30 per share.

During the six months ended September 30, 2010, we issued 3,101,812 shares of restricted common stock in exchange for the conversion of principal and interest of several notes payable and convertible notes payable in an aggregate amount of \$748,389 at an average conversion price of \$0.24 per share based upon the conversion formulae in the respective notes.

In April 2010, we issued 8,333 shares of restricted common stock to a broker-dealer as partial payment of the registration fee of an investor conference. The shares were valued at \$3,000 based on the closing stock price of \$0.36 per share.

In April 2010, we entered into a one year consulting agreement with an individual for media relations services. We agreed to pay the consultant 22,727 warrants to purchase our common stock at a fixed exercise price of \$0.33 per share on a monthly basis. The agreement values these warrant issuances at \$5,000 per month. Through September 30, 2010, we have recorded warrants to purchase 113,635 shares of our stock per this agreement.

In May 2010, a warrant holder exercised warrants to purchase 1,599,348 shares of common stock at the agreed exercise prices, which resulted in proceeds of \$283,600. As an inducement to this warrant holder, we agreed to issue to him 1,599,348 replacement warrants on the same terms as the warrants that he exercised.

In June 2010, we issued 1,586,040 shares of restricted common stock and 1,586,040 warrants to purchase our common stock at a price of \$0.20 per share to the holders of our Amended and Restated Series A 12% Convertible Notes as a Unit payment of accrued and prepaid interest and liquidated damages (see Note 5).

In July 2010, we issued 157,706 shares of restricted common stock valued at \$0.28 per share based upon the closing stock price as a payment of \$44,000 under a separation agreement with an executive services company.

In August 2010, we issued 12,204 shares of restricted common stock to a broker-dealer as partial payment of the registration fee of an investor conference. The shares were valued at \$3,295 based on the closing stock price of \$0.27 per share.

In August 2010, we issued 250,000 shares of restricted common stock valued at the closing price of \$0.27 in payment for investor relations services.

In August 2010, we issued 29,630 shares of restricted common stock valued at the closing price of \$0.27 in payment for financial consulting services.

NOTE 7. ACCRUED LIQUIDATED DAMAGES

We follow the guidance of ASC 825-20, Financial Instruments, Registration Payment Arrangements, regarding our registration payment arrangements. We have registration payment arrangements associated with convertible notes (see Note 5) related to the registration of warrants and the common stock underlying the convertible notes. These warrants have lives extending through 2016. The terms of certain of these arrangements do not provide for a maximum potential amount of damages.

On October 7, 2008, the SEC declared effective a registration statement that covered all of the shares and warrants that at that time were subject to registration rights agreements.

However, the above referenced registration statement ceased being effective in July 2009. As a result, as of September 30, 2010, we have accrued potential liquidated damages in the aggregate amount of \$680,000, which represents amounts owed through September 30, 2010, plus the additional amounts, estimated at \$36,000 per month, that will be owed through July 2011, at which time we currently expect to have an effective registration statement back on file with the SEC. The actual amount of liquidated damages owed for the period subsequent to September 30, 2010 through the date that the registration statement is declared effective may be more or less than the amount estimated as of September 30, 2010 in the event that the actual length of time required for us to achieve an effective registration statement differs from our current estimate. We also intend to negotiate the amount of liquidated damages due and, as such, the ultimate amounts we may actually pay may be less than the amount currently accrued.

NOTE 8. OTHER CURRENT LIABILITIES

At September 30, 2010 and March 31, 2010, our other current liabilities were comprised of the following items:

	September 30, 2010	March 31, 2010
Accrued interest	\$ 438,420	\$ 452,339
Accrued legal fees	201,902	236,902
Deferred rent	5,737	2,336
Other	71,364	75,363
Total other current liabilities	\$ 717,423	\$ 766,940

As of the date of this report, various promissory and convertible notes payable in the aggregate principal amount of \$252,000 (as identified in Notes 4 and 5 above) have reached maturity and are past due. We are continually reviewing other financing arrangements to retire all past due notes. At September 30, 2010, we had accrued interest in the amount of \$281,590 associated with these defaulted notes in accrued liabilities payable (see Notes 4 and 5).

NOTE 9. FAIR VALUE MEASUREMENTS

On April 1, 2008, we adopted guidance issued by the FASB that defines fair value, and establishes a three-level valuation hierarchy for disclosures of fair value measurement that enhances disclosure requirements for fair value measures. Financial instruments measured at fair value on a recurring basis as of September 30, 2010 are classified based on the valuation technique level noted in the table below:

	Total	Active Markets for Identical Instruments Level 1	Significant Observable Inputs Level 2	Unobservable Inputs Level 3
Assets:				
None	\$ --	\$ --	\$ --	\$ --
Liabilities:				
Derivative liabilities	\$ 5,403,168	\$ --	\$ --	\$ 5,403,168

Based on the changes in the estimated fair value of our derivative liabilities in the respective periods, we have recorded a gain of \$1,668,877 for the six months ended September 30, 2010 and a loss of \$37,434 for the six months ended September 30, 2009 in other expense (income) in the accompanying condensed consolidated statements of operations.

The table below sets forth a summary of changes in the fair value of our Level 3 derivative liabilities for the six months ended September 30, 2010:

	Fair Value at March 31, 2010	Recorded Fair Value of Derivative Liabilities in the six month period ended September 2010	Change in Estimated Fair Value Recognized in Results of Operations	Fair Value at September 30, 2010
Derivative liabilities	\$ 1,054,716	\$ 6,017,329	\$ (1,668,877)	\$ 5,403,168

The fair value of derivative liabilities that we recorded in the six months ended September 2010 was related to the restructuring of the Amended and Restated Convertible Notes and to the embedded derivatives and associated warrants related to a number of our convertible note offerings (see Note 5) and was based upon an independent valuation report.

NOTE 10. STOCK COMPENSATION

On September 27, 2010, our Board of Directors granted the following stock options, all with an exercise price of \$0.25 per share, the closing price of our common stock on that date:

To our CEO, an option to acquire an aggregate of 2,500,000 shares of our common stock. The option vested as to 1,000,000 shares on the grant date and will vest as to the remaining 1,500,000 shares one-third each year over three years on each anniversary of the grant date. Unless earlier exercised or terminated, the option will expire September 27, 2020.

To our CSO, an option to acquire an aggregate of 1,000,000 shares of our common stock. The option vested as to 500,000 shares on the grant date and will vest as to the remaining 500,000 shares one year from the grant date. Unless earlier exercised or terminated, the option will expire September 27, 2020.

To Mr. Franklyn S. Barry, Jr., one of the Company's non-employee directors, an option to acquire an aggregate of 500,000 shares of our common. The option vested as to 250,000 shares on the grant date and will vest as to the remaining 250,000 shares one-third each year over three years on each anniversary of the grant date. Unless earlier exercised or terminated, the option will expire September 27, 2020.

To Mr. Edward G. Broenniman, another of our non-employee directors, an option to acquire an aggregate of 600,000 shares of our common stock. The option vested as to 300,000 shares on the grant date and will vest as to the remaining 300,000 shares one-third each year over three years on each anniversary of the grant date. Unless earlier exercised or terminated, the option will expire September 27, 2020.

To James Frakes, appointed as CFO on September 27, 2010, an option to acquire an aggregate of 500,000 shares of our common stock. The option vested as to 250,000 shares on the grant date and will vest as to the remaining 250,000 shares one year from the grant date.

To three employees, options to acquire an aggregate of 450,000 shares of our common stock. The options vested as to 225,000 shares on the grant date and will vest as to the remaining 225,000 shares one year from the grant date.

On May 21, 2010, the Board of Directors of the Company amended the expiration terms of certain outstanding stock options such that all outstanding stock options of the Company shall have a term that is for not less than ten (10) years following the original date of grant. No other terms or features of the stock options were modified or amended. Stock options held by Mr. James Joyce, our Chief Executive Officer and Chairman of the Board of Directors, Dr. Richard Tullis, our Chief Science Officer and member of the Board of Directors, Mr. Franklyn Barry, a member of the Board of Directors, and Mr. Edward Broenniman, a member of the Board of Directors, were modified accordingly. Of the foregoing (i) options to purchase 2,231,100 shares held by Mr. Joyce were extended to February 23, 2015; (ii) options to purchase 867,175 shares held by Dr. Tullis were extended to February 23, 2015; (iii) options to purchase 308,725 shares held by Mr. Broenniman were extended to February 23, 2015; and (iv) options to purchase 264,550 shares held by Mr. Barry were extended to February 23, 2015. All of the foregoing options are at an exercise price of \$0.38 per share. The foregoing represents only a portion of the total options and shares owned by our directors and officers.

This option extension resulted in an additional charge of \$491,377 in the six months ended September 30, 2010 based upon the change in the fair value resulting from the extension to the term of the options based upon the binomial lattice option valuation model.

In addition, in September 2009, we committed to issue 4,000,000 shares of restricted common stock to our Chief Executive Officer at a price per share of \$0.29, which vests in equal installments over a thirty six month period commencing June 30, 2010. As a result, we have recorded stock-based compensation charges of \$128,889 during the six months ended September 30, 2010 based on the shares restricted share grant that vested during the period.

Our total stock-based compensation for the six months ended September 30, 2010 includes the following:

Incremental fair value of option modifications	\$ 491,377
Vesting of restricted stock grant	128,889
Vesting of stock options	677,902
Total Stock-Based Compensation	\$ 1,298,168

The following table summarizes share-based compensation expenses relating to shares and options granted and the effect on basic and diluted loss per common share during the three and six months ended September 30, 2010 and 2009:

	Three Months Ended September 30, 2010	Three Months Ended September 30, 2009	Six Months Ended September 30, 2010	Six Months Ended September 30, 2009
Payroll and related	\$ 680,665	\$ 164,888	\$ 1,298,168	\$ 298,747
Total share-based compensation expense included in net loss	\$ 680,665	\$ 164,888	\$ 1,298,168	\$ 298,747
Basic and diluted loss per common share	\$ (0.01)	\$ (0.00)	\$ (0.02)	\$ (0.01)

All of the stock-based compensation expense recorded during the three months ended September 30, 2010 and 2009 and the six months ended September 30, 2010 and 2009, which totaled \$680,665, \$164,888, \$1,298,168 and \$298,747, respectively, is included in payroll and related expense in the accompanying condensed consolidated statements of operations. Stock-based compensation expense recorded during the three and six months ended September 30, 2010 increased basic and diluted loss per common share by \$0.01 and \$0.02. Stock-based compensation expense recorded during the six months ended September 30, 2010 increased basic and diluted loss per common share by \$0.01 and the stock-based compensation expense recorded during the three months ended September 30, 2009 had no effect on basic and diluted loss per share.

We review share-based compensation on a quarterly basis for changes to the estimate of expected award forfeitures based on actual forfeiture experience. The cumulative effect of adjusting the forfeiture rate for all expense amortization is recognized in the period the forfeiture estimate is changed. The effect of forfeiture adjustments for the

three months ended September 30, 2010 was insignificant.

The expected volatility is based on the historic volatility. The expected life of options granted is based on the "simplified method" as described in the SEC's guidance due to changes in the vesting terms and contractual life of current option grants compared to our historical grants.

Options outstanding that have vested and are expected to vest as of September 30, 2010 are as follows:

	Number of Shares	Weighted Average Exercise Price	Weighted Average Remaining Contractual Term in Years
Vested	15,088,560	\$ 0.35	6.19
Expected to vest	3,875,000	0.26	9.71
Total	18,963,560		

At September 30, 2010, there was approximately \$1,846,110 of unrecognized compensation cost related to share-based payments, including the restricted stock grant, which is expected to be recognized over a weighted average period of 3.22 years.

On September 30, 2010, our stock options had a negative intrinsic value since the closing price on that date of \$0.26 per share was below the weighted average exercise price of our stock options

NOTE 11. WARRANTS

A summary of warrant activity during the six months ended September 30, 2010 is presented below:

	Amount	Range of Exercise Price	Weighted Average Exercise Price
Warrants outstanding at March 31, 2010	25,987,465	\$ 0.15 - \$0.76	\$ 0.31
Exercised	(1,599,348)	\$ 0.17 - \$0.18	
Issued	16,066,945	\$ 0.17 - \$0.44	
Cancelled/Expired	(1,864,791)	\$ 0.25 - \$0.60	
Warrants outstanding at September 30, 2010	38,590,271	\$ 0.15 - \$0.76	\$ 0.29
Warrants exercisable at September 30, 2010	38,590,271	\$ 0.15 - \$0.76	\$ 0.29

The following outlines the significant weighted average assumptions used to estimate the fair value information presented, with respect to warrants utilizing the Binomial Lattice option pricing models during the six months ended September 30, 2010:

Risk free interest rate	0.16%-2.29%
Average expected life	0.25 to 10 years
Expected volatility	42.0% - 115.1%
Expected dividends	None

NOTE 12. COMMITMENTS AND CONTINGENCIES

LEGAL MATTERS

From time to time, claims are made against us in the ordinary course of business, which could result in litigation. Claims and associated litigation are subject to inherent uncertainties and unfavorable outcomes could occur, such as monetary damages, fines, penalties or injunctions prohibiting us from selling one or more products or engaging in other activities.

On February 12, 2010, we entered into a convertible note and warrant financing transaction with an accredited investor (the "Investor") whereby we raised \$280,015 in cash and received a secured promissory note in the amount of \$300,000 from the Investor (the "Investor Note") in exchange for the issuance by the Company of a \$660,000 principal amount 10% convertible promissory note (the "Company Note") to the Investor. The Company Note included an original issue discount of ten percent, or \$60,000, and an origination fee of three percent, or \$9,000. We

also paid legal fees of \$10,985. The Company Note matures in February 2011. The Investor Note matures on April 1, 2011, with prepayments of principal and interest by the Investor to the Company due and payable scheduled to begin on September 1, 2010.

The conversion price per share under the Company Note is equal to eighty percent (80%) of the average of the three lowest closing bid prices of our common stock as reported by Bloomberg L.P. on the Principal Market for the ten (10) trading days preceding the conversion date, subject to a maximum price per share of \$0.30 and a minimum price per share of \$0.20 (the "Floor Price"). The Company Note is convertible into a maximum of 3,300,000 shares of our common stock at the minimum price per share of \$0.20. The Investor also received 660,000 three-year warrants to purchase shares of our common stock at \$0.50 per share, although that exercise price is subject to change based on certain conditions. The conversion feature, including the Floor Price, may additionally be adjusted in the event of future financings by the Company.

On September 1, 2010, the Investor failed to make to the \$100,000 principal and interest payment due to the Company under the Investor Note. Subsequently, the Investor submitted to the Company a request for partial conversion of the Company Note at a price per share below the Floor Price asserting that the Floor Price had been eliminated by virtue of the Company's July 2010 convertible note and warrant financing transaction with Tonaquint, Inc. (See Notes 4, 6, 13 and 14) The Company and the Investor are in disagreement regarding (i) the continuation of the Floor Price at \$0.20 and whether the Investor presently has the right to require conversions of principal and interest under the Company Note at prices below \$0.20, and (ii) the Investor's obligation to pay the principal and interest installments due to the Company under the Investor Note which were due and payable on each of September 1, 2010, October 1, 2010 and November 1, 2010. In numerous items of correspondence between and among the Company, the Investor and their respective counsel and representatives during the period September through the date hereof, each of the Company and the Investor has sent notices of default and demands for payment against the other, and each has threatened to commence litigation proceedings against the other. The dispute between the Investor and the Company remains unresolved despite ongoing negotiations and attempts for settlement. The Company continues to assert that it is not in default under the terms of the Company Note and related transaction documents and the Investor continues to assert that it is not in default under the terms of the Investor Note and related transaction documents. In light of the dispute, it is uncertain whether or not the Company will, in the foreseeable future, obtain the \$300,000 plus interest due to the Company by the Investor under the Investor Note. To date, no litigation proceedings have been commenced. Should litigation be commenced by the Investor, the Company will vigorously defend its position.

The occurrence of an unfavorable outcome in any specific period could have a material adverse effect on our results of operations for that period or future periods. Other than as mentioned here, we are not presently a party to any pending or threatened legal proceedings.

LEASES

In October 2009, we entered into two new leases for office and laboratory space. The terms of the new leases are three years and two years, respectively, and the initial base lease payments are \$6,045 per month and \$1,667 per month, respectively.

NOTE 13. NOTE RECEIVABLE

On February 12, 2010, we received a full recourse secured promissory note ("Investor Note") in the amount of \$300,000 in connection with our issuance of a \$660,000 principal amount 10% convertible promissory note to one accredited investor (See Note 5). The Investor Note bears interest payable to us at five percent per annum and has a maturity date of April 1, 2011. Accordingly, the Investor Note is classified as a current asset as of September 30, 2010 in the accompanying condensed consolidated balance sheets. We recognize interest income on the Investor Note as it is earned under the terms of the note. The Investor Note has a prepayment option. However, the Company and the Investor are in a dispute concerning payment of the Investor Note and certain of the Company's obligations under the \$660,000 note issued by the Company. (See Note 12). Accordingly, due to uncertainty relating to the collectibility of the Investor Note, we have fully reserved the \$300,000 secured note receivable and have recorded a \$300,000 charge to other expense in the six month period ended September 30, 2010.

On July 15, 2010, we received two Secured Trust Deed Notes to us (the "Trust Notes") each in the principal amount of \$200,000 in connection with our issuance of a \$890,000 principal amount 6% convertible promissory note to one accredited investor (See Note 5). The Trust Notes bear interest payable to us at five percent per annum and have maturity dates of September 15, 2011 and November 15, 2011. Accordingly, one Trust Note is classified as a current asset as of September 30, 2010 in the accompanying condensed consolidated balance sheets and the other Trust Note is classified as a non-current asset as of September 30, 2010. We recognize interest income on the Investor Note and Trust Notes as it is earned under the terms of the notes. The Investor Note and Trust Notes have prepayment options.

At September 30, 2010, we had accrued interest income relating to the Investor Note of \$11,667.

NOTE 14. SUBSEQUENT EVENTS

In October 2010 and through November 8, 2010, we issued 426,574 shares of restricted common stock in exchange for the conversion of principal and interest related to our July and August 2009 Convertible Notes and our February 2010 Notes (see Note 5) in an aggregate amount of \$116,711 at an average conversion price of \$0.18 per share based upon the conversion formulae in the respective notes.

In October 2010 and through November 8, 2010, we issued 439,174 shares of common stock to consultants pursuant to our S-8 registration statement covering our Amended and Restated 2003 Consultant Stock Plan for services valued at \$232,290 based upon the fair value of the shares issued. The services were for regulatory affairs, corporate communications, business development and financial consulting. The average issuance price was approximately \$0.27 per share.

In October 2010, our Board of Directors named Rodney Kenley as our president.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

The following discussion of our financial condition and results of operations should be read in conjunction with, and is qualified in its entirety by, the condensed consolidated financial statements and notes thereto included in Item 1 in this Quarterly Report on Form 10-Q. This item contains forward-looking statements that involve risks and uncertainties. Actual results may differ materially from those indicated in such forward-looking statements.

FORWARD LOOKING STATEMENTS

All statements, other than statements of historical fact, included in this Form 10-Q are, or may be deemed to be, "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended ("the Securities Act"), and Section 21E of the Exchange Act of 1934, as amended (the "Exchange Act"). Such forward-looking statements involve assumptions, known and unknown risks, uncertainties and other factors which may cause the actual results, performance, or achievements of Aethlon Medical, Inc. ("we", "us" or "the Company") to be materially different from any future results, performance, or achievements expressed or implied by such forward-looking statements contained in this Form 10-Q. Such potential risks and uncertainties include, without limitation, completion of our capital-raising activities, FDA approval of our products, other regulations, patent protection of our proprietary technology, product liability exposure, uncertainty of market acceptance, competition, technological change, and other risk factors detailed in other of our filings with the Securities and Exchange Commission. The forward-looking statements are made as of the date of this Form 10-Q, and we assume no obligation to update the forward-looking statements, or to update the reasons actual results could differ from those projected in such forward-looking statements.

THE COMPANY

We are a developmental stage medical device company focused on expanding the applications of our Hemopurifier(R) platform technology which is designed to rapidly reduce the presence of infectious viruses and other toxins from human blood. We focus on developing therapeutic devices to treat acute viral conditions brought on by pathogens targeted as potential biological warfare agents and chronic viral conditions including HIV/AIDS and Hepatitis-C. The Hemopurifier(R) combines the established scientific technologies of hemodialysis and affinity chromatography as a means to mimic the immune system's response of clearing viruses and toxins from the blood before cell and organ infection can occur. The Hemopurifier(R) cannot cure these afflictions but can lower viral loads and may allow compromised immune systems to overcome otherwise serious or fatal medical conditions.

WHERE YOU CAN FIND MORE INFORMATION

We are subject to the informational requirements of the Securities Exchange Act and must file reports, proxy statements and other information with the SEC. The reports, information statements and other information we file with the Commission can be inspected and copied at the Commission Public Reference Room, 450 Fifth Street, N.W. Washington, D.C. 20549. You may obtain information on the operation of the Public Reference Room by calling the SEC at (800) SEC-0330. The Commission also maintains a Web site (<http://www.sec.gov>) that contains reports, proxy and information statements and other information regarding registrants, like us, which file electronically with the Commission. Our headquarters are located at 8910 University Center Lane, Suite 660, San Diego, CA 92122. Our phone number at that address is (858) 459-7800. Our Web site is www.aethlonmedical.com.

RESULTS OF OPERATIONS

THREE MONTHS ENDED SEPTEMBER 30, 2010 COMPARED TO THE THREE MONTHS ENDED
SEPTEMBER 30, 2009

Operating Expenses

Consolidated operating expenses for the three months ended September 30, 2010 were \$1,409,679 in comparison with \$797,877 for the comparable quarter a year ago. This increase of \$611,802, or 77%, was due to increases in payroll and related expenses of \$587,424 and general and administrative expenses of \$28,133, which was partially offset by a decrease in professional fees of \$3,755.

The \$587,424 increase in payroll and related expenses was primarily due to a \$543,697 increase in non-cash charges largely related to stock option grants made to our officers and directors during the 2010 period.

The \$28,133 increase in general and administrative expenses was primarily due to a \$40,284 increase in our trade show and investor relations costs and a \$15,475 increase in medical insurance, which were partially offset by expense reductions in a number of our other general and administrative expenses.

The \$3,755 decrease in our professional fees was primarily due to reductions in our legal and investor relations fees.

Other Expenses (Income)

Other expenses (income) consist primarily of the change in the fair value of our derivative liability and interest expense. Other expenses for the three months ended September 30, 2010 were \$1,032,014 in comparison with a gain of \$72,177 for the comparable quarter a year ago.

Change in Fair Value of Derivative Liability

Both periods include changes in the fair value of derivative liability. For the three months ended September 30, 2010, the change in the estimated fair value of derivative liability was a gain of \$1,125,755 and for the three months ended September 30, 2009, the change in estimated fair value was a gain of \$282,096.

Interest Expense

Interest expense was \$2,165,952 for the three months ended September 30, 2010 compared to \$ 176,055 in the corresponding prior period, an increase of \$1,740,697. The various components of our interest expense are shown in the following table:

	Quarter Ended 9/30/10	Quarter Ended 9/30/09	Change
Interest expense	\$ 95,749	\$ 80,150	\$ 15,599
Amortization of deferred financing costs	54,962	13,219	41,743
Liquidated damages	356,000	--	356,000
Interest recorded in connection with warrant extension	138,468	--	138,468
Interest recorded in connection with additional derivative liabilities	1,145,225	--	1,145,225
Amortization of debt discounts	375,548	82,686	292,862
Total Interest Expense	\$ 2,165,952	\$ 176,055	\$ 1,989,897

As noted in the above table, the most significant factor in the \$1,989,897 increase in interest expense was the \$1,145,225 non-cash interest charge related to recording the fair value of derivative liabilities in excess of the principal amount of the related notes. We also recorded non-cash interest of \$138,468 as a result of extending the expiration date of certain warrants and a \$356,000 charge for accruing additional liquidated damages. There were no corresponding expenses in those areas in the prior period.

Our amortization of note discounts and deferred financing costs increased by \$292,862 and \$41,743, respectively, as we began to amortize the discounts and deferred financing costs associated with new convertible notes that we had entered into over the prior twelve months. The amortization of note discounts also included accelerated amounts due to the conversion of \$250,000 of notes during the September 2010 period.

Other Expense

In the three months ended September 30, 2010, we fully reserved for a \$300,000 secured note receivable due to unlikely collectibility (see Notes 5, 12 and 13). As a result of establishing this reserve, we recorded a non-cash charge of \$300,000 to other expenses.

Net Loss

As a result of the increased expenses noted above, we recorded a consolidated net loss of approximately \$2,742,000 and \$726,000 for the quarters ended September 30, 2010 and 2009, respectively.

Basic and diluted loss per common share were (\$0.04) for the three month period ended September 30, 2010 compared to (\$0.01) for the period ended September 30, 2009.

SIX MONTHS ENDED SEPTEMBER 30, 2010 COMPARED TO THE SIX MONTHS ENDED SEPTEMBER 30, 2009

Operating Expenses

Consolidated operating expenses for the six months ended September 30, 2010 were \$2,571,986 in comparison with \$1,439,832 for the comparable period a year ago. This increase of \$1,132,154, or 79%, was due to increases in payroll and related expenses of \$1,142,953 and general and administrative expenses of \$49,893, which was partially offset by a decrease in professional fees of \$60,692.

The \$1,142,953 increase in payroll and related expenses was primarily due to a \$999,421 increase in non-cash charges related the extension of certain stock option grants and to new stock option grants made to our officers and directors during the 2010 period.

The \$49,893 increase in general and administrative expenses was primarily due to a \$47,580 increase in our trade show and investor relations costs and a \$28,187 increase in medical insurance, which were partially offset by expense reductions in a number of our other general and administrative expenses.

The \$60,692 decrease in our professional fees was primarily due to a \$87,754 decrease in our investor relations service fees, which was partially offset by increases in our legal and accounting professional fees.

Other Expenses (Income)

Other expenses (income) consist primarily of the change in the fair value of our derivative liability, a debt extinguishment charge and interest expense. Other expenses for the six months ended September 30, 2010 were \$3,664,972 in comparison with \$281,607 for the comparable period a year ago.

Change in Fair Value of Derivative Liability

Both periods include changes in the fair value of derivative liability. For the six months ended September 30, 2010, the change in the estimated fair value of derivative liability was a gain of \$1,668,877 and for the six months ended September 30, 2009, the change in estimated fair value was a gain of \$244,762.

Loss on Extinguishment of Debt

In June 2010, we entered into Amended and Restated 12% Series A Convertible Promissory Notes (the "Amended and Restated Notes") with the holders of certain promissory notes previously issued by the Company ("Amended Series A 10% Convertible Notes" or the "Prior Notes"), and all amendments to the Prior Notes. In connection with amendments to the Prior Notes, during the three months ended June 30, 2010, we recorded a loss on extinguishment of debt of \$2,226,924 and a related loss on settlement of accrued interest and damages of \$68,703. There were no comparable expenses in the three months ended June 30, 2009. For accounting purposes, the amendment of the 12% Series A Convertible Notes was treated as a debt extinguishment in accordance with FASB ASC 470-50, Debt Modifications and Extinguishments as the terms of the restructured agreements were deemed to be substantially different than those of the prior agreements.

Based on conversion and exercise price re-set provisions included in the amended convertible debt and new and amendment warrant agreements, the embedded conversion feature of the Amended and Restated 12% Convertible Notes and the related warrants were classified as derivative liability instruments (See Note 9).

Consequently, at the amendment date we recorded a loss on extinguishment of \$2,226,924 as follows:

Reacquisition	
Price	\$ 4,385,925
Less carrying	
value of notes and	
related	
instruments	(2,159,001)
	\$ 2,226,924

Loss on
extinguishment

Interest Expense

Interest expense was \$2,752,119 for the six months ended September 30, 2010 compared to \$492,712 in the corresponding prior period, an increase of \$2,259,407. The various components of our interest expense are shown in the following table:

	Six Months Ended 9/30/10	Six Months Ended 9/30/09	Change
Interest expense	\$ 228,227	\$ 163,808	\$ 64,419
Amortization of deferred financing costs	91,276	13,219	78,057
Liquidated damages	392,000	--	392,000
Interest recorded in connection with warrant extension	138,468	--	138,468
Interest recorded in connection with additional derivative liabilities	1,145,225	--	1,145,225
Amortization of debt discounts	756,923	315,685	441,238
Total Interest Expense	\$ 2,752,119	\$ 492,712	\$ 2,259,407

As noted in the above table, the most significant factor in the \$2,259,407 increase in interest expense was the \$1,145,225 non-cash interest charge related to recording the fair value of derivative liabilities in excess of the principal amount of the related notes. We also recorded non-cash interest of \$138,468 as a result of extending the expiration date of certain warrants and a \$392,000 charge for accruing additional liquidated damages. There were no corresponding expenses in those areas in the prior period.

Our amortization of note discounts and deferred financing costs increased by \$441,238 and \$78,057, respectively, as we began to amortize the discounts and deferred financing costs associated with new convertible notes that we had entered into over the prior twelve months. The amortization of note discounts also included accelerated amounts due to the conversion of \$250,000 of notes during the September 2010 period.

Other Expense

In the six months ended September 30, 2010, we fully reserved for a \$300,000 secured note receivable due to unlikely collectibility (see Notes 5, 12 and 13). As a result of establishing this reserve, we recorded a non-cash charge of \$300,000 to other expenses.

Net Loss

As a result of the increased expenses noted above, we recorded a consolidated net loss of approximately \$6,237,000 and \$1,721,000 for the six months ended September 30, 2010 and 2009, respectively.

Basic and diluted loss per common share were (\$0.09) for the six month period ended September 30, 2010 compared to (\$0.03) for the period ended September 30, 2009.

LIQUIDITY AND CAPITAL RESOURCES

We are a development stage medical device company that has not yet engaged in significant commercial activities. The primary focus of our resources is the advancement of our proprietary Hemopurifier(R) platform treatment technology, which is designed to rapidly reduce the presence of infectious viruses and toxins in human blood. Our focus is to prepare our Hemopurifier(R) to treat chronic viral conditions, acute viral conditions and viral-based bioterror threats in human clinical trials.

To date, we have funded our capital requirements for the current operations from net funds received from the public and private sale of debt and equity securities, as well as from the issuance of common stock in exchange for services. Our cash position at September 30, 2010 was approximately \$487,000 compared to approximately \$68,000, at March 31, 2010, representing an increase of approximately \$419,000. During the six months ended September 30, 2010, operating activities used net cash of approximately \$963,000, while we received approximately \$1,389,000 from financing activities from the issuance of common stock and convertible notes. In addition, during this period we used approximately \$7,000 in investing activities related to expenditures related to patent applications and fixed asset acquisitions.

During the six month period ended September 30, 2010, net cash used in operating activities resulted primarily from our net loss of approximately \$6,237,000 offset by the non-cash debt extinguishment charge of approximately \$2,227,000, recording the fair value of derivatives in excess of note principal amounts of \$1,145,000, by the amortization of note discounts of approximately \$848,000, fair market value of common stock of approximately \$319,000 issued in payment for services, and approximately \$1,298,000 in stock-based compensation. Those factors were partially offset by the non-cash gain of approximately \$1,669,000 relating to the change in the estimated fair value of derivative liability.

A decrease in working capital during the six months ended September 30, 2010 in the amount of approximately \$3,738,000 changed our negative working capital position to approximately (\$8,607,000) at September 30, 2010 from a negative working capital of approximately (\$4,869,000) at March 31, 2010. The decrease in working capital noted above resulted primarily from an increase during the six months ended September 30, 2010 of approximately \$4,348,000 in the derivative liabilities balance during the period.

Currently, our current financial resources remain insufficient to fund our working capital and other cash requirements for the remainder of our fiscal year ending March 31, 2011. Therefore we will be required to seek additional funds through debt and/or equity financing arrangements to finance our current and long-term operations. In addition, it is doubtful that we will, in the foreseeable future, receive the \$300,000 plus interest owed to us under the Investor Note associated with our February 2010 Convertible Note Financing as certain of the terms of the convertible note transaction are currently in dispute with the Investor. That dispute is described under Part II, Item 1 of this Report, as well as in the footnotes to the financial statements filed with this Report. We are currently addressing our liquidity needs by exploring investment capital opportunities through the private placement of common stock or issuance of additional debt. We believe that our access to additional capital, together with existing cash resources, will be sufficient to meet our short term liquidity needs for fiscal 2011. However, no assurance can be given that we will receive any funds in connection with our capital raising efforts.

We plan to continue research and development activities related to our Hemopurifier(R) platform technology, with particular emphasis on the advancement of our treatment for "Category A" pathogens as defined by the Federal Government under Project Bioshield and the All Hazards Preparedness Act of 2006. The Company has filed an Investigational Device Exemption ("IDE") with the FDA in order to proceed with human safety studies of the Hemopurifier(R). Such studies, complemented by planned IN VIVO and appropriate animal IN VITRO studies, should allow us to proceed to the Premarket Approval ("PMA") process. The PMA process is the last major FDA hurdle in determining the safety and effectiveness of Class III medical devices (of which the Hemopurifier(R) is one).

Subject to the availability of working capital, we anticipate continuing to increase spending on research and development over the next 12 months. Additionally, associated with our anticipated increase in research and development expenditures, we anticipate purchasing additional amounts of equipment during this period to support our laboratory and testing operations. Operations to date have consumed substantial capital without generating revenues, and will continue to require substantial and increasing capital funds to conduct necessary research and development and pre-clinical and clinical testing of our Hemopurifier(R) products, as well as market any of those products that receive regulatory approval. We do not expect to generate revenue from operations for the foreseeable future, and our ability to meet our cash obligations as they become due and payable is dependent for at least the next several years on our ability to sell securities, borrow funds or a combination thereof. Future capital requirements will depend upon many factors, including progress with pre-clinical testing and clinical trials, the number and breadth of our clinical programs, the time and costs involved in preparing, filing, prosecuting, maintaining and enforcing patent claims and other proprietary rights, the time and costs involved in obtaining regulatory approvals, competing technological and market developments, as well as our ability to establish collaborative arrangements, effective commercialization, marketing activities and other arrangements. We expect to continue to incur increasing negative cash flows and net losses for the foreseeable future, and presently require a minimum of \$175,000 per month to sustain operations.

At the date of this filing, we plan to invest significantly into purchases of our raw materials and into our contract manufacturing arrangement subject to successfully raising additional capital.

CRITICAL ACCOUNTING POLICIES

The preparation of condensed consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires the Company to make a number of estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements. Such estimates and assumptions affect the reported amounts of expenses during the reporting period. On an ongoing basis, we evaluate estimates and assumptions based upon historical experience and various other factors and circumstances. We believe our estimates and assumptions are reasonable in the circumstances; however, actual results may differ from these estimates under different future conditions.

We believe that the estimates and assumptions that are most important to the portrayal of our financial condition and results of operations, in that they require the most difficult, subjective or complex judgments, form the basis for the accounting policies deemed to be most critical to us. These critical accounting policies relate to measurement of stock purchase warrants issued with notes payable, beneficial conversion feature of convertible notes payable, impairment of intangible assets and long lived assets, stock compensation, and the classification of warrant obligations, and evaluation of contingencies. We believe estimates and assumptions related to these critical accounting policies are appropriate under the circumstances; however, should future events or occurrences result in unanticipated consequences, there could be a material impact on our future financial condition or results of operations.

There have been no changes to our critical accounting policies as disclosed in our Form 10-K for the year ended March 31, 2010.

OFF-BALANCE SHEET ARRANGEMENTS

We have no obligations required to be disclosed herein as off-balance sheet arrangements.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

As a Smaller Reporting Company as defined by rule 12b-2 of the Exchange Act and in Item 10(f)(1) of Regulation S-K, we are electing scaled disclosure reporting obligations and therefore are not required to provide the information requested by this item.

ITEM 4. CONTROLS AND PROCEDURES.

DISCLOSURE CONTROLS AND PROCEDURES

Under the supervision and with the participation of our management, including our Chief Executive Officer ("CEO") and our Chief Financial Officer ("CFO"), we evaluated the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) of the Exchange Act) as of a date (the "Evaluation Date") as of the end of the period covered by this Quarterly Report.

Based on such evaluation, our Chief Executive Officer and Chief Financial Officer concluded that, as of the end of such period, our disclosure controls and procedures are not effective in recording, processing, summarizing and reporting, on a timely basis, information required to be disclosed by us in the reports that we file or submit under the Exchange Act and are not effective in ensuring that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

CHANGES IN INTERNAL CONTROL OVER FINANCIAL REPORTING

There have been no changes in our internal control over financial reporting during the last fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS.

From time to time, claims are made against us in the ordinary course of business, which could result in litigation. Claims and associated litigation are subject to inherent uncertainties and unfavorable outcomes could occur, such as monetary damages, fines, penalties or injunctions prohibiting us from selling one or more products or engaging in other activities.

On February 12, 2010, we entered into a convertible note and warrant financing transaction with Gemini Master Fund, Ltd ("Gemini") whereby we raised \$280,015 in cash and received a secured promissory note in the amount of \$300,000 from Gemini (the "Gemini Note") in exchange for the issuance by the Company of a \$660,000 principal amount 10% convertible promissory note (the "Company Note") to Gemini. The Company Note included an original issue discount of ten percent. The Company Note matures in February 2011. The Gemini Note matures on April 1, 2011, with prepayments of principal and interest by Gemini to the Company due and payable beginning on September 1, 2010.

The conversion price per share under the Company Note is subject to a minimum price per share of \$0.20 (the "Floor Price"). The conversion feature, including the Floor Price, may be adjusted in the event of future financings by the Company, depending upon the terms of such financings.

On September 1, 2010, Gemini failed to make to the \$100,000 principal and interest payment due to the Company under the Gemini Note. Subsequently, Gemini submitted to the Company a request for partial conversion of the Company Note at a price per share below the Floor Price asserting that the Floor Price had been eliminated by virtue of the Company's July 2010 convertible note and warrant financing transaction Tonaquint, Inc., which provided for a variable price conversion feature subject to an overall cap on shares issuable. Gemini asserts that the terms of the Tonaquint, Inc. transaction caused the Floor Price to be eliminated entirely. The Company and Gemini are in disagreement regarding (i) the continuation of the Floor Price at \$0.20 and whether Gemini presently has the right to require conversions of principal and interest under the Company Note at prices below \$0.20, and (ii) Gemini's obligation to pay the principal and interest installments due to the Company under the Gemini Note which were due and payable on each of September 1, 2010, October 1, 2010 and November 1, 2010. In numerous items of correspondence between and among the Company, Gemini and their respective counsel and representatives during the period September through the date hereof, each of the Company and Gemini has sent notices of default and demands for payment against the other. The Company continues to assert that it is not in default under the terms of the Company Note and related transaction documents and Gemini continues to assert that it is not in default under the terms of the Gemini Note and related transaction documents. Gemini has threatened to commence litigation proceedings against the Company. To date, no litigation proceedings have been commenced. Should litigation be commenced by Gemini, the Company will vigorously defend its position.

The occurrence of an unfavorable outcome in any specific period could have a material adverse effect on our results of operations for that period or future periods. Other than as set forth here, we are not presently a party to any pending or threatened legal proceedings.

ITEM 1A. RISK FACTORS.

As a Smaller Reporting Company as defined by rule 12b-2 of the Exchange Act and in Item 10(f)(1) of Regulation S-K, we are electing scaled disclosure reporting obligations and therefore are not required to provide the information requested by this item.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS.

During the quarter ended September 30, 2010, we issued the following securities which were not registered under the Securities Act of 1933, as amended, and have not been included previously in a Current Report on Form 8-K. We did not employ any form of general solicitation or advertising in connection with the offer and sale of the securities described below. In addition, we believe the purchasers of the securities are "accredited investors" as defined in Rule 501(a) of the Securities Act. For these reasons, among others, the offer and sale of the following securities were made in reliance on the exemption from registration provided by Section 4(2) of the Securities Act or Regulation D promulgated by the SEC under the Securities Act:

During the quarter ended September 30, 2010, we issued 26,530 shares of restricted common stock to a consultant for investor relations services valued at \$7,500 based on the value of the services provided. The average issuance price was approximately \$0.28 per share.

During the quarter ended September 30, 2010, we issued 1,553,493 shares of restricted common stock in exchange for the conversion of principal and interest of several notes payable and convertible notes payable in an aggregate amount of \$362,881 at an average conversion price of \$0.23 per share based upon the conversion formulae in the respective notes.

In July 2010, we issued 157,706 shares of restricted common stock valued at \$0.28 per share based upon the closing stock price as a payment of \$44,000 under a separation agreement with an executive services company.

In August 2010, we issued 12,204 shares of restricted common stock to a broker-dealer as partial payment of the registration fee of an investor conference. The shares were valued at \$3,295 based on the closing stock price of \$0.27 per share.

In August 2010, we issued 250,000 shares of restricted common stock valued at the closing price of \$0.27 in payment for investor relations services.

In August 2010, we issued 29,630 shares of restricted common stock valued at the closing price of \$0.27 in payment for financial consulting services.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES.

As of the date of this report, various promissory and convertible notes payable in the aggregate principal amount of \$252,000 have reached maturity and are past due. We are continually reviewing other financing arrangements to retire all past due notes. At September 30, 2010, we had accrued interest in the amount of \$281,590 associated with these notes and accrued liabilities payable.

ITEM 4. (REMOVED AND RESERVED)

ITEM 5. OTHER INFORMATION.

Not applicable

ITEM 6. EXHIBITS.

(a) Exhibits. The list of exhibits set forth in the "Exhibit Index" on the page immediately following the signature page hereto is incorporated herein by reference.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.
