Item 8.01. Other Events

OGE Energy Corp. is the parent company of Oklahoma Gas and Electric Company (“OG&E”), a regulated electric utility with approximately 785,000 customers in Oklahoma and western Arkansas, and OGE Enogex Holdings LLC and its subsidiaries, a midstream natural gas pipeline business with principal operations in Oklahoma.

Arkansas Rate Case Order

As previously disclosed, on September 28, 2010, OG&E filed a rate case with the Arkansas Public Service Commission (“APSC”) requesting a rate increase of \$17.7 million, to recover the cost of significant electric system expansions and upgrades, including high-voltage transmission lines, that have been completed since the last rate filing in August 2008, as well as increased operating costs. OG&E also sought recovery, through a rider, of the Arkansas jurisdictional portion of (i) costs associated with transmission upgrades and facilities that have been approved by the Southwest Power Pool (“SPP”) in its regional planning processes and constructed by other non-OG&E transmission owners throughout the SPP that have been allocated to OG&E through the Federal Energy Regulatory Commission approved transmission rates and (ii) SPP administrative fees.

On May 13, 2011, OG&E reached a settlement agreement with all the parties in the case. On June 17, 2011, the APSC approved the settlement agreement and OG&E implemented new electric rates effective June 20, 2011. A copy of the Company’s press release announcing the approval of the settlement agreement is attached as Exhibit 99.01 and incorporated herein by reference. Also, a copy of the APSC order is attached as Exhibit 99.02 and incorporated herein by reference. Key items of the APSC order include:

- The recovery of and a return on significant electric system expansions and upgrades, including high-voltage transmission lines, as well as increased operating costs, totaling \$8.8 million annually;
- Authorization for OG&E to recover the actual cost of third-party transmission charges and SPP administrative fees through a rider mechanism which will remain in effect until new rates are implemented after OG&E’s next general rate case. The Arkansas jurisdictional portion of the combined costs is expected to be approximately \$1 million in 2011; and
- The deferral of certain expenses associated with a customer education program in an amount not to exceed \$0.3 million per year for a maximum of two years.

2011 Oklahoma Rate Case Filing

As part of the Joint Stipulation and Settlement Agreement reached in OG&E’s 2009 Oklahoma rate case filing, the parties agreed that OG&E would file a rate case on or before June 30, 2011. On May 27, 2011, OG&E requested an extension until the end of July 2011 for filing the Oklahoma rate case.
