Item 2.02. Results of Operations and Financial Condition

OGE Energy Corp. (the "Company") is the parent company of Oklahoma Gas and Electric Company ("OG&E"), a regulated electric utility with approximately 789,000 customers in Oklahoma and western Arkansas, and OGE Enogex Holdings LLC and its subsidiaries ("Enogex"), a midstream natural gas pipeline business with principal operations in Oklahoma.

On November 3, 2011, the Company issued a press release describing the Company's consolidated financial results for the quarter ended September 30, 2011, which is furnished as Exhibit 99.01 and incorporated herein by reference. As described in the press release, the Company reported earnings of \$1.80 per diluted share for the quarter ended September 30, 2011 as compared to \$1.65 per diluted share for the quarter ended September 30, 2010. At OG&E, earnings were higher primarily due to a higher gross margin mainly due to extremely hot weather in OG&E's service territory as well as higher transmission revenues and new customer growth. This increase in earnings was partially offset by lower earnings at Enogex primarily due to higher operating expenses due to system expansion and an outage at Enogex's Cox City processing plant partially offset by higher gross margins in Enogex's transportation and processing businesses.

OG&E posted earnings of \$1.60 per diluted share in the third quarter of 2011 as compared to \$1.43 per diluted share in the third quarter of 2010. Enogex posted earnings of \$0.19 per diluted share in the third quarter of 2011 as compared to \$0.23 per diluted share in the third quarter of 2010. The holding company posted earnings of \$0.01 per diluted share in the third quarter of 2011 as compared to a loss of \$0.01 per diluted share in the third quarter of 2010. For further information, see the press release attached as Exhibit 99.01.
