SECURITIES AND EXCHANGE COMMISSION

WASHINGTON, D.C. 20549

FORM 10-Q

x QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT
OF 1934

For the quarterly period ended September 30, 2015

OR

.. TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT
OF 1934

Commission File Number 0-29480

HERITAGE FINANCIAL CORPORATION
(Exact name of registrant as specified in its charter)

Washington
(State or other jurisdiction of
incorporation or organization)

91-1857900
(I.R.S. Employer
Identification No.)

201 Fifth Avenue SW, Olympia, WA
(Address of principal executive offices)
(360) 943-1500
(Registrant's telephone number, including area code)

98501
(Zip Code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See definitions of "large accelerated filer", "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer x
Non-accelerated filer Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the last practicable date:

As of October 27, 2015 there were 29,967,410 shares of the registrant's common stock, no par value per share, outstanding.

FORWARD LOOKING STATEMENTS:

“Safe Harbor” statement under the Private Securities Litigation Reform Act of 1995: This Quarterly Report on Form 10-Q (“Form 10-Q”) contains forward-looking statements that are subject to risks and uncertainties, including, but not limited to: our ability to successfully integrate any assets, liabilities, customers, systems, and management personnel we have acquired, including those from the Cowlitz Bank, Pierce Commercial Bank, Northwest Commercial Bank, Valley Community Bancshares, Inc. and Washington Banking Company transactions described in this Form 10-Q, or may in the future acquire, into our operations and our ability to realize related revenue synergies and cost savings within expected time frames or at all, and any goodwill charges related thereto and costs or difficulties relating to integration matters, including but not limited to customer and employee retention, which might be greater than expected; the credit risks of lending activities, including changes in the level and trend of loan delinquencies and write-offs and changes in our allowance for loan losses and provision for loan losses that may be effected by deterioration in the housing and commercial real estate markets, which may lead to increased losses and non-performing assets in our loan portfolio, and may result in our allowance for loan losses no longer being adequate to cover actual losses, and require us to increase our allowance for loan losses; changes in general economic conditions, either nationally or in our market areas; changes in the levels of general interest rates, and the relative differences between short and long term interest rates, deposit interest rates, our net interest margin and funding sources; risks related to acquiring assets in or entering markets in which we have not previously operated and may not be familiar; fluctuations in the demand for loans, the number of unsold homes and other properties and fluctuations in real estate values in our market areas; results of examinations of us by the Board of Governors of the Federal Reserve System and of our bank subsidiary by the Federal Deposit Insurance Corporation (“FDIC”), the Washington State Department of Financial Institutions, Division of Banks or other regulatory authorities, including the possibility that any such regulatory authority may, among other things, initiate an enforcement action against the Company or our bank subsidiary which could require us to increase our allowance for loan losses, write-down assets, change our regulatory capital position, affect our ability to borrow funds or maintain or increase deposits, or impose additional requirements on us, any of which could affect our ability to continue our growth through merger, acquisitions or similar transactions and adversely affect our liquidity and earnings; legislative or regulatory changes that adversely affect our business including changes in regulatory policies and principles, or the interpretation of regulatory capital or other rules including as a result of Basel III; our ability to control operating costs and expenses; the impact of the Dodd-Frank Wall Street Reform and Consumer Protection Act and the implementing regulations; further increases in premiums for deposit insurance; the use of estimates in determining fair value of certain of our assets, which estimates may prove to be incorrect and result in significant declines in valuation; difficulties in reducing risk associated with the loans on our Condensed Consolidated Statements of Financial Condition; staffing fluctuations in response to product demand or the implementation of corporate strategies that affect our workforce and potential associated charges; failure or security breach of computer systems on which we depend; our ability to retain key members of our senior management team; costs and effects of litigation, including settlements and judgments; our ability to implement our expansion strategy of pursuing acquisitions and de novo branching; increased competitive pressures among financial service companies; changes in consumer spending, borrowing and savings habits; the availability of resources to address changes in laws, rules, or regulations or to respond to regulatory actions; adverse changes in the securities markets; inability of key third-party providers to perform their obligations to us; changes in accounting policies and practices, as may be adopted by the financial institution regulatory agencies or the Financial Accounting Standards Board, including additional guidance and interpretation on accounting issues and details of the implementation of new accounting methods; and other economic, competitive, governmental, regulatory, and technological factors affecting our operations, pricing, products and services and other risks detailed from time to time in our filings with the Securities and Exchange Commission including our Annual Report on Form 10-K for the year ended December 31, 2014.

The Company cautions readers not to place undue reliance on any forward-looking statements. Moreover, you should treat these statements as speaking only as of the date they are made and based only on information then actually

known to the Company. The Company does not undertake and specifically disclaims any obligation to revise any forward-looking statements to reflect the occurrence of anticipated or unanticipated events or circumstances after the date of such statements. These risks could cause our actual results for future periods to differ materially from those expressed in any forward-looking statements by, or on behalf of, us, and could negatively affect the Company's operating results and stock price performance.

As used throughout this report, the terms "we", "our", "us", or the "Company" refer to Heritage Financial Corporation and its consolidated subsidiaries, unless the context otherwise requires.

HERITAGE FINANCIAL CORPORATION AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
For the Three and Nine Months Ended September 30, 2015 and 2014
(Unaudited)

(1) Description of Business, Basis of Presentation, Significant Accounting Policies and Recently Issued Accounting Pronouncements

(a) Description of Business

Heritage Financial Corporation ("Heritage" or the "Company") is a bank holding company that was incorporated in the State of Washington in August 1997. The Company is primarily engaged in the business of planning, directing and coordinating the business activities of its wholly-owned subsidiary, Heritage Bank (the "Bank"). The Bank is a Washington-chartered commercial bank and its deposits are insured by the FDIC under the Deposit Insurance Fund. The Bank is headquartered in Olympia, Washington and conducts business from its 67 branch offices located throughout Washington State and the greater Portland, Oregon area. The Bank's business consists primarily of commercial lending and deposit relationships with small businesses and their owners in its market areas and attracting deposits from the general public. The Bank also makes real estate construction and land development loans and consumer loans and originates first mortgage loans on residential properties primarily located in its market area. The Company has expanded its footprint through mergers and acquisitions. The largest of these transactions was the strategic merger with Washington Banking Company ("Washington Banking") and its wholly owned subsidiary bank, Whidbey Island Bank ("Whidbey"). Effective May 1, 2014, Washington Banking merged with and into Heritage and Whidbey merged with and into Heritage Bank and this transaction is referred to herein as the "Washington Banking Merger". In connection with the Washington Banking Merger, Heritage also acquired as a subsidiary the Washington Banking Master Trust, a Delaware statutory business trust. Pursuant to the merger agreement, Heritage assumed the performance and observance of the covenants to be performed by Washington Banking under an indenture relating to \$25.0 million in trust preferred securities issued in 2007 and the due and punctual payment of the principal of and premium and interest on such trust preferred securities. For additional information, see Note (8) Junior Subordinated Debentures.

(b) Basis of Presentation

The accompanying unaudited Condensed Consolidated Financial Statements have been prepared in accordance with the accounting principles generally accepted in the United States ("GAAP") for interim financial information and pursuant to the rules and regulations of the Securities and Exchange Commission ("SEC"). Accordingly, they do not include all of the information and footnotes required by U.S. GAAP for complete financial statements. It is recommended that these unaudited Condensed Consolidated Financial Statements and accompanying Notes be read with the audited Consolidated Financial Statements and the accompanying Notes included in the Company's Annual Report on Form 10-K for the year ended December 31, 2014 ("2014 Annual Form 10-K"). In management's opinion, all adjustments (consisting only of normal recurring adjustments) considered necessary for a fair presentation have been included. Operating results for the three and nine months ended September 30, 2015 are not necessarily indicative of the results that may be expected for the year ending December 31, 2015. In preparing the unaudited Condensed Consolidated Financial Statements, management is required to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues, expenses and related disclosures. Management believes that the judgments, estimates and assumptions used in the preparation of the financial statements are appropriate based on the facts and circumstances at the time. Actual results, however, could differ from those estimates. Certain prior period amounts have been reclassified to conform to the current period's presentation. Specifically, the Company has eliminated the classification of "noncovered" and "covered" loans from the Condensed Consolidated Financial Statements based on the termination of the FDIC shared-loss agreements during the three months ended September 30, 2015. For more information on the termination agreement, see Note (5) Indemnification Asset. Accordingly, all loans receivable previously reported as "noncovered" and those previously reported as "covered" by

FDIC shared-loss agreements have been combined and reclassified as "loans receivable" for all periods presented. Reclassifications had no effect on prior periods' net income or stockholders' equity.

Table of Contents

(c) Significant Accounting Policies

The significant accounting policies used in preparation of the Company's Condensed Consolidated Financial Statements are disclosed in the 2014 Annual Form 10-K. There have not been any material changes in the Company's significant accounting policies from those contained in the 2014 Annual Form 10-K.

(d) Recently Issued Accounting Pronouncements

Financial Accounting Standards Board ("FASB") Accounting Standards Update ("ASU" or "Update") 2014-09, Revenue from Contracts with Customers, was issued in May 2014. Under this Update, FASB created a new Topic 606 which is in response to a joint initiative of FASB and the International Accounting Standards Board to clarify the principles for recognizing revenue and to develop a common revenue standard for U.S. GAAP and international financial reporting standards that would:

Remove inconsistencies and weaknesses in revenue requirements.

Provide a more robust framework for addressing revenue issues.

Improve comparability of revenue recognition practices across entities, industries, jurisdictions, and capital markets.

Provide more useful information to users of financial statements through improved disclosure requirements.

Simplify the preparation of financial statements by reducing the number of requirements to which an entity must refer.

The Update is effective for annual reporting periods beginning after December 15, 2017, including interim periods within that reporting period. Early application is not permitted. The Company is currently evaluating the impact that this Update will have on its Condensed Consolidated Financial Statements.

FASB ASU 2014-11, Transfers and Servicing: Repurchase-to-Maturity Transactions, Repurchase Financings, and Disclosures, was issued in June 2014. This Update aligns the accounting for repurchase-to-maturity transactions and repurchase agreements executed as a repurchase financing with the accounting for other typical repurchase agreements, such as secured borrowings. The guidance eliminates sale accounting and supersedes the guidance under which a transfer of a financial asset and a contemporaneous repurchase financing could be accounted for on a combined basis as a forward agreement. The Update requires new and expanded disclosures that are effective for interim or annual reporting periods beginning after December 15, 2014, with certain requirements applicable for periods beginning after March 31, 2015. The adoption of this Update did not have a material impact on the Company's Condensed Consolidated Financial Statements.

FASB ASU 2015-14, Revenue from Contracts with Customers, was issued in August 2015 and defers the effective date of the above-mentioned ASU 2014-09 for certain entities. Public business entities, certain not-for-profit entities, and certain employee benefit plans should apply the guidance in Update 2014-09 to annual reporting periods beginning after December 15, 2017, including interim reporting periods within that reporting period. Earlier application is now permitted, but only as of annual reporting periods beginning after December 15, 2016, including interim reporting periods within that reporting period. The Company is a public business entity and will not early adopt as permitted in this Update. The Company is currently evaluating the impact that this Update will have on its Condensed Consolidated Financial Statements upon adoption.

FASB ASU 2015-14, Business Combinations (Topic 805), was issued in September 2015. Topic 805 requires that an acquirer retrospectively adjust provisional amounts recognized in a business combination, during the measurement period. To simplify the accounting for adjustments made to provisional amounts, the Update requires that the acquirer recognize adjustments to provisional amounts that are identified during the measurement period in the reporting period in which the adjustment amount is determined. The acquirer is required to also record, in the same period's financial statements, the effect on earnings of changes in depreciation, amortization, or other income effects, if any, as a result of the change to the provisional amounts, calculated as if the accounting had been completed at the acquisition date. In addition, an entity is required to present separately on the face of the income statement or disclose in the notes to the financial statements the portion of the amount recorded in current-period earnings by line item that would have been recorded in previous reporting periods if the adjustment to the provisional amounts had been recognized as of the acquisition date. The Update did not have an impact on the Company's Condensed Consolidated Financial Statements as of September 30, 2015.

(2) Investment Securities

The Company's investment policy is designed primarily to provide and maintain liquidity, generate a favorable return on assets without incurring undue interest rate and credit risk, and complement the Bank's lending activities. Securities are classified as either available for sale or held to maturity when acquired.

14

Table of Contents

The Company has evaluated these securities and has determined that the decline in their value is temporary. The unrealized losses are primarily due to increases in market interest rates and larger spreads in the market for mortgage-related products. The fair value of these securities is expected to recover as the securities approach their maturity date and/or as the pricing spreads narrow on mortgage-related securities. The Company has the ability and intent to hold the investments until recovery of the market value which may be the maturity date of the securities. During the nine months ended September 30, 2015, the Company sold its entire portfolio of private residential collateralized mortgage obligations with a carrying value of \$829,000, all of which were classified as held-to-maturity. Since acquisition, these securities had been downgraded below the Company's acceptable investment grades. As a result of these downgrades and the effects on the risk-weighting of sub-investment grade securities based on the final rule effective in July 2013 of the Federal banking regulators' capital adequacy standards of the Basel Committee on Banking Supervision, commonly called "Basel III", the Company's intent to hold these securities changed and management elected to divest of its interest in the downgraded securities. The Company recorded a realized loss of \$125,000 on this sale during the nine months ended September 30, 2015. The Company's intent and ability to hold the remaining held-to-maturity securities was not impacted by this sale.

Prior to the above mentioned sale of the private residential collateralized mortgage obligations, to analyze the unrealized losses, the Company estimated expected future cash flows of these investments by estimating the expected future cash flows of the underlying collateral and applying those collateral cash flows, together with any credit enhancements such as subordinated interests owned by third parties, to the security. The expected future cash flows of the underlying collateral were determined using the remaining contractual cash flows adjusted for future expected credit losses (which considers current delinquencies and nonperforming assets, future expected default rates and collateral value by vintage and geographic region) and prepayments. The expected cash flows of the security were then discounted at the interest rate used to recognize interest income on the security to arrive at a present value amount. The average prepayment rate and average discount rate used in the valuation of the present value as of September 30, 2014 were 6.0% and 9.4%, respectively.

For the nine months ended September 30, 2015, there were no investment securities determined to be other-than-temporarily impaired and the Company recorded no unrealized losses for the nine months ended September 30, 2015 in earnings or other comprehensive income. In comparison, for the nine months ended September 30, 2014, there were four private residential collateralized mortgage obligations determined to be other-than-temporarily impaired. All unrealized losses for the three and nine months ended September 30, 2014 were deemed to be credit related, and the Company recorded the impairment in earnings.

The following table summarizes activity for the nine months ended September 30, 2014 related to the amount of impairments on held to maturity securities. There were no initial or subsequent impairments recorded during the nine months ended September 30, 2015.

	Life-to-Date Gross Other-Than-Temporary Impairments (1)	Life-to-Date Other-Than-Temporary Impairments Included in Other Comprehensive Income	Life-to-Date Net Other-Than-Temporary Impairments Included in Earnings
	(In thousands)		
December 31, 2013	\$2,603	\$1,152	\$1,451
Subsequent impairments	45	—	45
September 30, 2014	\$2,648	\$1,152	\$1,496

(1) Life-to-date gross other-than-temporary impairments disclosed in this table are not reflective of subsequent recoveries, if any. As of September 30, 2015, the Company had no securities with other-than-temporary impairments because all such securities were sold as of September 30, 2015.

Table of Contents

(c) Pledged Securities

The following table summarizes the amortized cost and fair value of available for sale and held to maturity securities that are pledged as collateral for the following obligations at September 30, 2015 and December 31, 2014:

	September 30, 2015		December 31, 2014	
	Amortized Cost	Fair Value	Amortized Cost	Fair Value
	(In thousands)			
Washington and Oregon state to secure public deposits	\$218,478	\$222,564	\$150,507	\$153,785
Federal Reserve Bank of San Francisco and Federal Home Loan Bank to secure borrowing arrangements	509	510	4,430	4,460
Repurchase agreements	29,712	30,111	43,676	44,457
Other securities pledged	2,136	2,173	14,828	14,922
Total	\$250,835	\$255,358	\$213,441	\$217,624

At September 30, 2015 and December 31, 2014, the total carrying value of pledged securities was \$254.2 million and \$216.7 million, respectively.

(3) Loans Receivable

The Company originates loans in the ordinary course of business and has also acquired loans through FDIC-assisted and open bank transactions.

Loans acquired in a business combination may be further classified as “purchased” loans. Loans purchased with evidence of credit deterioration since origination for which it is probable that not all contractually required payments will be collected are accounted for under FASB Accounting Standards Codification ("ASC") 310-30, Loans and Debt Securities Acquired with Deteriorated Credit Quality. These loans are identified as “purchased credit impaired” ("PCI") loans. Loans purchased that are not accounted for under FASB ASC 310-30 are accounted for under FASB ASC 310-20, Receivables—Nonrefundable Fees and Other Costs and are referred to as "non-PCI" loans.

On August 4, 2015, the Company signed an agreement with the FDIC to terminate the shared-loss agreements. As a result, the Company eliminated the designation of "covered" and "noncovered" loans from current and all prior periods. All loans, including purchased loans, are included in the "loans receivable" classification. For additional information on the termination agreement with the FDIC, see Note (5) FDIC Indemnification Asset.

(a) Loan Origination/Risk Management

The Company categorizes loans in one of the four segments of the total loan portfolio: commercial business, one-to-four family residential, real estate construction and land development and consumer. Within these segments are classes of loans to which management monitors and assesses credit risk in the loan portfolios. The Company has certain lending policies and procedures in place that are designed to maximize loan income within an acceptable level of risk. Management reviews and approves these policies and procedures on a regular basis. A reporting system supplements the review process by providing management with frequent reports related to loan production, loan quality, concentrations of credit, loan delinquencies, and nonperforming and potential problem loans. The Company also conducts internal loan reviews and validates the credit risk assessment on a periodic basis and presents the results of these reviews to management. The loan review process complements and reinforces the risk identification and assessment decisions made by loan officers and credit personnel, as well as the Company’s policies and procedures. A discussion of the risk characteristics of each loan portfolio segment is as follows:

Commercial Business:

There are three significant classes of loans in the commercial portfolio segment: commercial and industrial loans, owner-occupied commercial real estate and non-owner occupied commercial real estate. The owner and non-owner occupied commercial real estate are both considered commercial real estate loans. As the commercial and industrial loans carry different risk characteristics than the commercial real estate loans, they are discussed separately below.

Commercial and industrial. Commercial and industrial loans are primarily made based on the identified cash flows of the borrower and secondarily on the underlying collateral provided by the borrower. The cash flows of borrowers, however, may not be as expected and the collateral securing these loans may fluctuate in value. Most commercial and

Table of Contents

industrial loans are secured by the assets being financed or other business assets such as accounts receivable or inventory and may include a personal guarantee; however, some short-term loans may be made on an unsecured basis. In the case of loans secured by accounts receivable, the availability of funds for the repayment of these loans may be substantially dependent on the ability of the borrower to collect amounts due from its customers.

Commercial real estate. The Company originates commercial real estate loans within its primary market areas. These loans are subject to underwriting standards and processes similar to commercial and industrial loans, in addition to those of real estate loans. These loans are viewed primarily as cash flow loans and secondarily as loans secured by real estate. Commercial real estate involves more risk than other classes of loans in that the lending typically involves higher loan principal amounts, and payments on loans secured by real estate properties are dependent on successful operation and management of the properties. Repayment of these loans may be more adversely affected by conditions in the real estate market or the economy. Owner-occupied commercial real estate loans are generally of lower credit risk than non-owner occupied commercial real estate loans as the borrowers' businesses are likely dependent on the properties.

One-to-Four Family Residential:

The majority of the Company's one-to-four family residential loans are secured by single-family residences located in its primary market areas. The Company's underwriting standards require that single-family portfolio loans generally are owner-occupied and do not exceed 80% of the lower of appraised value at origination or cost of the underlying collateral. Terms of maturity typically range from 15 to 30 years. Historically, the Company sold most single-family loans in the secondary market and retained a smaller portion in its loan portfolio. From the second quarter of 2013 until May 1, 2014, the Company only originated single-family loans for its loan portfolio. As a result of the Washington Banking Merger, since May 1, 2014 the Company is originating and selling a majority of its single-family mortgages.

Real Estate Construction and Land Development:

The Company originates construction loans for one-to-four family residential and for five or more family residential and commercial properties. The one-to-four family residential construction loans generally include construction of custom homes whereby the home buyer is the borrower. The Company also provides financing to builders for the construction of pre-sold homes and, in selected cases, to builders for the construction of speculative residential property. Substantially all construction loans are short-term in nature and priced with variable rates of interest. Construction lending can involve a higher level of risk than other types of lending because funds are advanced partially based upon the value of the project, which is uncertain prior to the project's completion. Because of the uncertainties inherent in estimating construction costs as well as the market value of a completed project and the effects of governmental regulation of real property, the Company's estimates with regard to the total funds required to complete a project and the related loan-to-value ratio may vary from actual results. As a result, construction loans often involve the disbursement of substantial funds with repayment dependent, in part, on the success of the ultimate project and the ability of the borrower to sell or lease the property or refinance the indebtedness. If the Company's estimate of the value of a project at completion proves to be overstated, it may have inadequate security for repayment of the loan and may incur a loss if the borrower does not repay the loan. Sources of repayment for these types of loans may be pre-committed permanent loans from approved long-term lenders, sales of developed property or an interim loan commitment from the Company until permanent financing is obtained. These loans are closely monitored by on-site inspections and are considered to have higher risks than other real estate loans due to their ultimate repayment being dependent upon successful completion of the construction project, interest rate changes, government regulation of real property, general economic conditions and the availability of long-term financing.

Consumer:

The Company originates consumer loans and lines of credit that are both secured and unsecured. The underwriting process for these loans ensures a qualifying primary and secondary source of repayment. Underwriting standards for home equity loans are significantly influenced by statutory requirements, which include, but are not limited to, a maximum loan-to-value percentage of 80%, collection remedies, the number of such loans a borrower can have at one time and documentation requirements. To monitor and manage consumer loan risk, policies and procedures are

developed and modified, as needed. The majority of consumer loans are for relatively small amounts disbursed among many individual borrowers which reduces the credit risk for this type of loan. To further reduce the risk, trend reports are reviewed by management on a regular basis.

As a result of the Washington Banking Merger, the Company began originating indirect consumer loans. These loans are for new and used automobile and recreational vehicles that are originated indirectly by selected dealers located in the Company's market areas. The Company has limited its purchase of indirect loans primarily to dealerships that are established and well known in their market areas and to applicants that are not classified as sub-prime.

Table of Contents

Loans receivable at September 30, 2015 and December 31, 2014 consisted of the following portfolio segments and classes:

	September 30, 2015 (In thousands)	December 31, 2014
Commercial business:		
Commercial and industrial	\$618,390	\$570,453
Owner-occupied commercial real estate	603,372	594,986
Non-owner occupied commercial real estate	703,771	643,636
Total commercial business	1,925,533	1,809,075
One-to-four family residential	70,577	69,530
Real estate construction and land development:		
One-to-four family residential	49,745	49,195
Five or more family residential and commercial properties	73,328	64,920
Total real estate construction and land development	123,073	114,115
Consumer	284,541	259,294
Gross loans receivable	2,403,724	2,252,014
Net deferred loan costs (fees)	320	(937)
Loans receivable, net	2,404,044	2,251,077
Allowance for loan losses	(29,004)	(27,729)
Total loans receivable, net	\$2,375,040	\$2,223,348

(b) Concentrations of Credit

Most of the Company's lending activity occurs within Washington State, and to a lesser extent Oregon. The Company's primary market areas are concentrated along the I-5 corridor from Whatcom County to Clark County in Washington State and Multnomah County in Oregon, as well as other contiguous markets. The Washington Banking Merger allowed the expansion of the Company's market area north of Seattle, Washington to the Canadian border. The majority of the Company's loan portfolio consists of (in order of balances at September 30, 2015) non-owner occupied commercial real estate, commercial and industrial and owner-occupied commercial real estate. As of September 30, 2015 and December 31, 2014, there were no concentrations of loans related to any single industry in excess of 10% of the Company's total loans.

(c) Credit Quality Indicators

As part of the on-going monitoring of the credit quality of the Company's loan portfolio, management tracks certain credit quality indicators including trends related to (i) the risk grade of the loans, (ii) the level of classified loans, (iii) net charge-offs, (iv) nonperforming loans, and (v) the general economic conditions of the United States of America, and specifically the states of Washington and Oregon. The Company utilizes a risk grading matrix to assign a risk grade to each of its loans. Loans are graded on a scale of 0 to 10. A description of the general characteristics of the risk grades is as follows:

Grades 0 to 5: These grades are considered "pass grade" and include loans with negligible to above average but acceptable risk. These borrowers generally have strong to acceptable capital levels and consistent earnings and debt service capacity. Loans with the higher grades within the "pass" category may include borrowers who are experiencing unusual operating difficulties, but have acceptable payment performance to date. Increased monitoring of financials and/or collateral may be appropriate. Loans with this grade show no immediate loss exposure.

Grade 6: This grade includes "Watch" loans and is considered a "pass grade". The grade is intended to be utilized on a temporary basis for pass grade borrowers where a potentially significant risk-modifying action is anticipated in the near term.

Grade 7: This grade includes "Other Assets Especially Mentioned" ("OAEM") loans in accordance with regulatory guidelines, and is intended to highlight loans with elevated risks. Loans with this grade show signs of deteriorating profits and capital, and the borrower might not be strong enough to sustain

Table of Contents

a major setback. The borrower is typically higher than normally leveraged, and outside support might be modest and likely illiquid. The loan is at risk of further decline unless active measures are taken to correct the situation.

Grade 8: This grade includes "Substandard" loans in accordance with regulatory guidelines, which the Company has determined have a high credit risk. These loans also have well-defined weaknesses which make payment default or principal exposure likely, but not yet certain. The borrower may have shown serious negative trends in financial ratios and performance. Such loans may be dependent upon collateral liquidation, a secondary source of repayment or an event outside of the normal course of business. Loans with this grade can be placed on accrual or nonaccrual status based on the Company's accrual policy.

Grade 9: This grade includes "Doubtful" loans in accordance with regulatory guidelines, and the Company has determined these loans to have excessive credit risk. Such loans are placed on nonaccrual status and may be dependent upon collateral having a value that is difficult to determine or upon some near-term event which lacks certainty. Additionally, these loans generally have a specific valuation allowance or have been partially charged-off for the amount considered uncollectible.

Grade 10: This grade includes "Loss" loans in accordance with regulatory guidelines, and the Company has determined these loans have the highest risk of loss. Such loans are charged-off or charged-down when payment is acknowledged to be uncertain or when the timing or value of payments cannot be determined. "Loss" is not intended to imply that the loan or some portion of it will never be paid, nor does it in any way imply that there has been a forgiveness of debt. Numerical loan grades for all commercial business loans and real estate construction and land development loans are established at the origination of the loan. Prior to November 2014, one-to-four family residential loans and consumer loans ("non-commercial loans") were not numerically graded at origination date as these loans were determined to be "pass graded" loans. A numeric grade was assigned to these non-commercial loans if subsequent to origination, the credit department evaluated the credit and determined it necessary to classify the loan. Subsequent to November 2014, non-commercial loans were designated a loan grade "4" at origination date to reflect a "pass grade". The Bank follows the FDIC's Uniform Retail Credit Classification and Account Management Policy for subsequent classification in the event of payment delinquencies or default. Loan grades are reviewed on a quarterly basis, or more frequently if necessary, by the credit department. Typically, an individual loan grade will not be changed from the prior period unless there is a specific indication of credit deterioration or improvement. Credit deterioration is evidenced by delinquency, direct communications with the borrower, or other borrower information that becomes known to management. Credit improvements are evidenced by known facts regarding the borrower or the collateral property. The loan grades relate to the likelihood of losses in that the higher the grade, the greater the loss potential. Loans with a pass grade may have some estimated inherent losses, but to a lesser extent than the other loan grades. The OAEM loan grade is transitory in that the Company is waiting on additional information to determine the likelihood and extent of the potential loss. The likelihood of loss for OAEM graded loans, however, is greater than Watch graded loans because there has been measurable credit deterioration. Loans with a Substandard grade are generally loans for which the Company has individually analyzed for potential impairment. For Doubtful and Loss graded loans, the Company is almost certain of the losses, and the unpaid principal balances are generally charged-off to the realizable value.

Table of Contents

The following tables present the balance of the loans receivable by credit quality indicator as of September 30, 2015 and December 31, 2014.

	September 30, 2015				
	Pass	OAEM	Substandard	Doubtful	Total
	(In thousands)				
Commercial business:					
Commercial and industrial	\$584,337	\$9,906	\$23,839	\$308	\$618,390

Potential problem loans are loans classified as OAEM, Substandard, Doubtful and Loss that are currently accruing interest and are not considered impaired, but which management is monitoring because the financial information of the borrower causes concern as to their ability to meet their loan repayment terms. Potential problem loans also include PCI loans as these loans continue to accrete loan discounts established at acquisition based on the guidance of

ASC 310-30. Potential problem loans as of September 30, 2015 and December 31, 2014 were \$113.3 million and \$162.9 million, respectively. The balance of potential problem loans guaranteed by a governmental agency, which guarantee reduces the Company's credit exposure, was \$920,000 and \$2.0 million as of September 30, 2015 and December 31, 2014, respectively.

Table of Contents

(d) Nonaccrual Loans

Nonaccrual loans, segregated by segments and classes of loans, were as follows as of September 30, 2015 and December 31, 2014:

	September 30, 2015 (In thousands)	December 31, 2014
Commercial business:		
Commercial and industrial	\$4,387	\$5,784
Owner-occupied commercial real estate	2,806	2,295
Non-owner occupied commercial real estate	—	517
Total commercial business	7,193	8,596
One-to-four family residential	40	—
Real estate construction and land development:		
One-to-four family residential	2,612	2,831
Total real estate construction and land development	2,612	2,831
Consumer	62	145
Gross nonaccrual loans	\$9,907	\$11,572

The Company had \$1.4 million and \$1.6 million of nonaccrual loans guaranteed by governmental agencies at September 30, 2015 and December 31, 2014, respectively.

PCI loans are not included in the nonaccrual loan table above because these loans are accounted for under ASC 310-30, which provides that accretable yield is calculated based on a loan's expected cash flow even if the loan is not performing under its conventional terms.

(e) Past due loans

The Company performs an aging analysis of past due loans using the categories of 30-89 days past due and 90 or more days past due. This policy is consistent with regulatory reporting requirements.

Table of Contents

The balances of past due loans, segregated by segments and classes of loans, as of September 30, 2015 and December 31, 2014 were as follows:

	September 30, 2015					90 Days or More and Still Accruing (1)

Table of Contents

(f) Impaired loans

Impaired loans include nonaccrual loans and performing troubled debt restructured loans ("TDRs"). The table below excludes \$11.7 million and \$10.4 million, respectively, as of September 30, 2015 and December 31, 2014, of certain performing TDR loans classified as PCI loans. The majority of these loans have remaining fair value discounts compared to outstanding principal balances and may not have further impairment. The balance of impaired loans as of September 30, 2015 and December 31, 2014 are set forth in the following tables.

	September 30, 2015				
	Recorded Investment With No Specific Valuation Allowance	Recorded Investment With Specific Valuation Allowance	Total Recorded Investment	Unpaid Contractual Principal Balance	Related Specific Valuation Allowance

Table of Contents

The Company had governmental guarantees of \$1.8 million and \$2.4 million related to the impaired loan balances at September 30, 2015 and December 31, 2014, respectively.

The average recorded investment of impaired loans for the three and nine months ended September 30, 2015 and 2014 are set forth in the following table.

	Three Months Ended		Nine Months Ended	
	September 30,		September 30,	
	2015	2014	2015	2014
	(In thousands)			
Commercial business:				
Commercial and industrial	\$8,692	\$15,296	\$10,776	\$15,115
Owner-occupied commercial real estate	4,882	3,811	4,151	3,500
Non-owner occupied commercial real estate	10,256	8,525	8,893	7,960
Total commercial business	23,830	27,632	23,820	26,575
One-to-four family residential	259	573	315	692
Real estate construction and land development:				
One-to-four family residential	3,639	5,689	4,312	5,640
Five or more family residential and commercial properties	1,997	2,091	2,032	2,178
Total real estate construction and land development	5,636	7,780	6,344	7,818
Consumer	159	970	329	930
Total	\$29,884	\$36,955	\$30,808	\$36,015

For the three and nine months ended September 30, 2015 and 2014, no interest income was recognized subsequent to a loan's classification as nonaccrual. For the three months ended September 30, 2015 and 2014, the Bank recorded \$278,000 and \$188,000, respectively, of interest income related to performing TDR loans. For the nine months ended September 30, 2015 and 2014, the Bank recorded \$905,000 and \$721,000, respectively, of interest income related to performing TDR loans.

(g) Troubled Debt Restructured Loans

A troubled debt restructured loan is a restructuring in which the Bank, for economic or legal reasons related to a borrower's financial difficulties, grants a concession to the borrower that it would not otherwise consider. TDRs are considered impaired and are separately measured for impairment under FASB ASC 310-10-35, "Receivables - Overall - Subsequent Measurement," whether on accrual ("performing") or nonaccrual ("nonperforming") status.

The majority of the Bank's TDR loans are a result of granting extensions of maturity on troubled credits which have already been adversely classified. The Bank grants such extensions to reassess the borrower's financial status and to develop a plan for repayment. Certain modifications with extensions also include interest rate reductions, which is the second most prevalent concession. Certain TDRs were additionally re-amortized over a longer period of time. The Bank also advanced funds to a troubled speculative home builder to complete established projects. These modifications would all be considered a concession for a borrower that could not obtain similar financing terms from another source other than from the Bank.

The financial effects of each modification will vary based on the specific restructure. For the majority of the Bank's TDRs, the loans were interest-only with a balloon payment at maturity. If the interest rate is not adjusted and the modified terms are consistent with other similar credits being offered, the Bank may not experience any loss associated with the restructure. If, however, the restructure involves forbearance agreements or interest rate modifications, the Bank may not collect all the principal and interest based on the original contractual terms. The Bank estimates the necessary allowance for loan losses on TDRs using the same guidance as used for other impaired loans.

Table of Contents

The recorded investment balance and related allowance for loan losses of performing and nonaccrual TDR loans as of September 30, 2015 and December 31, 2014 were as follows:

	September 30, 2015		December 31, 2014	
	Performing TDRs	Nonaccrual TDRs	Performing TDRs	Nonaccrual TDRs
	(In thousands)			
TDR loans	\$32,460	\$6,639	\$29,053	\$7,256
Allowance for loan losses on TDR loans	2,033	655	1,908	1,035

The unfunded commitment to borrowers related to TDRs was \$585,000 and \$1.8 million at September 30, 2015 and December 31, 2014, respectively.

Loans that were modified as TDRs during the three and nine months ended September 30, 2015 and 2014 are set forth in the following tables:

	Three Months Ended September 30,			
	2015		2014	
	Number of Contracts (1)	Outstanding Principal Balance (1)(2)	Number of Contracts (1)	Outstanding Principal Balance (1)(2)

Real estate construction and land development:				
One-to-four family residential	6	2,681	5	1,406
Five or more family residential and commercial properties	1	415	—	—
Total real estate construction and land development	7	3,096	5	1,406
Consumer	2	144	4	284
Total TDR loans	51	\$27,518	33	\$10,963

Number of contracts and outstanding principal balance represent loans which have balances as of period end as (1) certain loans may have been paid-down or charged-off during the three and nine months ended September 30, 2015 and 2014.

Includes subsequent payments after modifications and reflects the balance as of period end. As the Bank did not forgive any principal or interest balance as part of the loan modification, the Bank's recorded investment in each loan at the date of modification (pre-modification) did not change as a result of the modification (post-modification), except when the modification was the initial advance on a one-to-four family residential real estate construction and land development loan under a master guidance line. There were no advances on these types of loans during the three and nine months ended September 30, 2015 and the three months ended September 30, 2014. During the nine months ended September 30, 2014, the Company's initial advance at the time of modification on these construction loans totaled \$45,000 and the total commitment amount was \$190,000. Of the 15 loans modified during the three months ended September 30, 2015, and the 51 loans modified during the nine months ended September 30, 2015, six loans with a total outstanding principal balance of \$2.3 million had no prior modifications. The remaining loans included in the tables above for the three and nine months ended September 30, 2015 were previously reported as TDRs. The Bank typically grants shorter extension periods to continually monitor the troubled credits despite the fact that the extended date might not be the date the Bank expects the cash flow. The Company does not consider these modifications a subsequent default of a TDR as new loan terms, specifically maturity dates, were granted. The potential losses related to these loans would have been considered in the period the loan was first reported as a TDR and adjusted, as necessary, in the current periods based on more recent information. The related specific valuation allowance at September 30, 2015 for loans that were modified as TDRs during the three and nine months ended September 30, 2015 was \$416,000 and \$1.6 million, respectively. The loans modified during the previous twelve months ended September 30, 2015 and 2014 that subsequently defaulted during the three and nine months ended September 30, 2015 and 2014 are included in the following tables:

	Three Months Ended September 30, 2015		2014	
	Number of Contracts	Outstanding Principal Balance	Number of Contracts	Outstanding Principal Balance

(Dollars in thousands)

Commercial business:				
Commercial and industrial	1	\$98	3	\$775
Non-owner occupied commercial real estate	—	—	2	77
Total commercial business	1	98	5	852
Total	1	\$98	5	\$852

26

Table of Contents

	Nine Months Ended September 30, 2015		2014	
	Number of Contracts	Outstanding Principal Balance	Number of Contracts	Outstanding Principal Balance
	(Dollars in thousands)			
Commercial business:				
Commercial and industrial	2	\$1,858	3	\$775
Non-owner occupied commercial real estate	—	—	2	77
Total commercial business	2	1,858	5	852
Total	2	\$1,858	5	\$852

There was one commercial and industrial loan of \$1.8 million at September 30, 2015 that was modified during the previous twelve months and subsequently defaulted during the nine months ended September 30, 2015 because the borrower did not make specific curtailment, or additional, payments on the the loan in prior periods, but for which the required payment was made during the three months ended September 30, 2015. All other loans included in the tables above for both periods defaulted as the loans were greater than 90 days past due. The Bank had a specific valuation allowance of \$177,000 at September 30, 2015 related to the credits which defaulted during the nine months ended September 30, 2015.

(h) Purchased Credit Impaired Loans

The Company acquired PCI loans in the Washington Banking Merger and in previously completed acquisitions which are accounted for under FASB ASC 310-30. These previous acquisitions include the FDIC-assisted acquisitions of Cowlitz Bank ("Cowlitz") and Pierce Commercial Bank ("Pierce") on July 30, 2010 and November 8, 2010, respectively. In addition, the Company completed the acquisitions of Northwest Commercial Bank ("NCB") on January 9, 2013 and Valley Community Bancshares, Inc. ("Valley") on July 15, 2013.

The following table reflects the outstanding principal balance and recorded investment at September 30, 2015 and December 31, 2014 of the PCI loans:

	September 30, 2015		December 31, 2014	
	Outstanding Principal	Recorded Investment	Outstanding Principal	Recorded Investment
	(In thousands)			
Commercial business:				
Commercial and industrial	\$21,168	\$15,721	\$31,779	\$25,174
Owner-occupied commercial real estate	27,397	24,729	41,236	36,874
Non-owner occupied commercial real estate	32,227	30,960	33,291	31,442
Total commercial business	80,792	71,410	106,306	93,490
One-to-four family residential	5,456	5,149	6,106	5,713
Real estate construction and land development:				
One-to-four family residential	7,256	4,379	8,559	5,531
Five or more family residential and commercial properties	3,104	3,231	4,861	4,765
Total real estate construction and land development	10,360	7,610	13,420	10,296
Consumer	6,914	7,989	8,928	9,772
Gross PCI loans	\$103,522	\$92,158	\$134,760	\$119,271

On the acquisition dates, the amount by which the undiscounted expected cash flows of the PCI loans exceeded the estimate fair value of the loan is the "accretable yield". The accretable yield is then measured at each financial reporting date and represents the difference between the remaining undiscounted expected cash flows and the current carrying

value of the PCI loans.

27

Table of Contents

The following table summarizes the accretable yield on the PCI loans resulting from the Cowlitz, Pierce, NCB, and Valley acquisitions and the Washington Banking Merger for the three and nine months ended September 30, 2015 and 2014.

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2015	2014	2015	2014
	(In thousands)			
Balance at the beginning of the period	\$18,731	\$27,320	\$21,092	\$17,249
Accretion	(1,661) (2,254) (5,399) (5,989
Disposal and other	22	(2,756) (2,382) (4,527
Change in accretable yield	1,586	723	5,367	16,300
Balance at the end of the period	\$18,678	\$23,033	\$18,678	\$23,033

(4) Allowance for Loan Losses

The allowance for loan losses is maintained at a level deemed appropriate by management to provide for probable incurred credit losses in the loan portfolio. The allowance has three components, including a specific valuation allowance for impaired loans, a general allowance for non-impaired loans, and an allowance for PCI loans.

Prior to the termination of the FDIC shared-loss agreements on August 4, 2015 and when credit deterioration occurred subsequent to the acquisition dates, a provision for loan losses was charged to earnings for the full amount of the impairment without regard to the coverage of the FDIC shared-loss agreements for the once covered loans acquired in the Cowlitz acquisition and Washington Banking Merger (including Washington Banking's prior acquisitions of City Bank and North County Bank).

Table of Contents

The following tables detail activity in the allowance for loan losses disaggregated by segment and class for the three and nine months ended September 30, 2015:

	Balance at Beginning of Period	Charge-offs	Recoveries	Provision for Loan Losses	Balance at End of Period
	(In thousands)				
Three Months Ended September 30, 2015

Table of Contents

(5) FDIC Indemnification Asset

Changes in the FDIC indemnification asset during the three and nine months ended September 30, 2015 and 2014 were as follows:

	Three Months Ended September 30, 2015		2014		Nine Months Ended September 30, 2015		2014	
	(In thousands)							
Balance at the beginning of the period	\$388	\$8,887			\$1,116	\$4,382		
Additions as a result of the Washington Banking Merger	—	—			—	7,174		
Cash payments received or receivable from the FDIC	—	(3,102))	(231))	(5,843))	
FDIC share of additional estimated (gains) losses	—	(249))	(352))	556		
Net amortization	—	(398))	(145))	(1,131))	
Change due to termination of FDIC shared-loss agreements	(388))	—		(388))	—	
Balance at the end of the period	\$—	\$5,138			\$—	\$5,138		

On August 4, 2015, the Bank and the FDIC entered into an agreement terminating the FDIC shared-loss agreements for all three of the FDIC-assisted acquisitions (Cowlitz Bank, and Washington Banking's acquisitions of City Bank and North County Bank). The Bank paid consideration of \$7.1 million to the FDIC for the termination of the shared-loss agreements related to these acquisitions. The termination of the shared-loss agreements resulted in a pre-tax gain of \$1.7 million (included in "other income" in the Condensed Consolidated Statements of Income) and the elimination of the FDIC indemnification asset and the FDIC clawback liability (included in "accrued expenses and other liabilities" in the Condensed Consolidated Statements of Financial Condition) which was recorded as of the termination date. The FDIC indemnification asset and FDIC clawback liability amounts were \$388,000 and \$9.3 million, respectively, as of June 30, 2015. All rights and obligations of the parties under the FDIC shared-loss agreements, including the clawback provisions, were eliminated under the termination agreement. It is not anticipated that the termination of the FDIC shared-loss agreements will have any impact on the yields for the loans that were previously covered under these agreements. All future charge-offs, recoveries, gains, losses and expenses related to covered assets will now be recognized entirely by the Bank since the FDIC will no longer be sharing in such charge-offs, recoveries, gains, losses and expenses.

(6) Other Real Estate Owned

Changes in other real estate owned during the three and nine months ended September 30, 2015 and 2014 were as follows:

	Three Months Ended September 30, 2015		2014		Nine Months Ended September 30, 2015		2014	
	(In thousands)							
Balance at the beginning of the period	\$3,017	\$8,106			\$3,355	\$4,559		
Additions	611	459			2,424	677		
Additions from acquisitions	—	—			—	7,121		
Proceeds from dispositions	(1,560))	(1,315))	(3,199))	(5,173))
Gain (loss) on sales, net	3	(378))	(94))	(312))	
Valuation adjustment	—	—			(415))	—	
Balance at the end of the period	\$2,071	\$6,872			\$2,071	\$6,872		

Table of Contents

(7) Goodwill and Other Intangible Assets

(a) Goodwill

The Company's goodwill represents the excess of the purchase price over the fair value of net assets acquired in the Washington Banking Merger on May 1, 2014, and the acquisitions of Valley on July 15, 2013, Western Washington Bancorp in 2006 and North Pacific Bank in 1998. The Company's goodwill is assigned to the Bank and is evaluated for impairment at the Bank level (reporting unit).

There were no additions to goodwill during the three and nine months ended September 30, 2015 and the three months ended September 30, 2014. The Company recorded \$89.7 million in goodwill during the nine months ended September 30, 2014 as a result of the Washington Banking Merger. For additional information on the Washington Banking Merger, see Note (14) Business Combination.

At September 30, 2015, the Company's step-one analysis concluded that the reporting unit's fair value was greater than its carrying value and therefore no goodwill impairment charges were required for the three and nine months ended September 30, 2015. The Company did not record any goodwill impairment charges for the three and nine months ended September 30, 2015 or for the three and nine months ended September 30, 2014. Even though there was no goodwill impairment at September 30, 2015, adverse events may impact the recoverability of goodwill and could result in a future impairment charge which could have a material impact on the Company's operating results.

b) Other Intangible Assets

The other intangible assets represent the core deposit intangible ("CDI") acquired in business combinations. The useful life of the CDI related to the Washington Banking Merger, the acquisitions of Valley, NCB, Pierce, Cowlitz, and Western Washington Bancorp were estimated to be ten, ten, five, four, nine and eight years, respectively.

The following table presents the change in the other intangible assets for the periods indicated:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2015	2014	2015	2014
	(In thousands)			
Balance at the beginning of the period	\$9,835	\$12,164	\$10,889	\$1,615
Additions as a result of acquisitions	—	—	—	11,194
Less: Amortization	523	603	1,577	1,248
Balance at the end of the period	\$9,312	\$11,561	\$9,312	\$11,561

(8) Junior Subordinated Debentures

As part of the Washington Banking Merger, the Company assumed trust preferred securities and junior subordinated debentures with a total fair value of \$18.9 million at May 1, 2014.

Washington Banking Master Trust ("Trust"), a Delaware statutory business trust, was a wholly-owned subsidiary of Washington Banking created for the exclusive purposes of issuing and selling capital securities and utilizing sale proceeds to acquire junior subordinated debt issued by Washington Banking. During 2007, the Trust issued \$25.0 million of trust preferred securities with a 30-year maturity, callable after the fifth year by Washington Banking. The trust preferred securities have a quarterly adjustable rate based upon the three-month London Interbank Offered Rate ("LIBOR") plus 1.56%. On the Washington Banking Merger date of May 1, 2014, the Company acquired the Trust, which retained the Washington Banking Master Trust name, and assumed the performance and observance of the covenants under the indenture related to the trust preferred securities.

The adjustable rate of the trust preferred securities at September 30, 2015 was 1.89%. The weighted average rate of the junior subordinated debentures was 4.01% and 3.57% for the three months ended September 30, 2015 and 2014, respectively, and 4.36% and 3.58% for the nine months ended September 30, 2015 and 2014, respectively. The weighted average rate includes the accretion of the discount established at the merger date which is amortized over the life of the trust preferred securities.

The junior subordinated debentures are the sole assets of the Trust, and payments under the junior subordinated debentures are the sole revenues of the Trust. At September 30, 2015, the balance of the junior subordinated

debentures was \$19.4 million. All of the common securities of the Trust are owned by the Company.

Table of Contents

Heritage has fully and unconditionally guaranteed the capital securities along with all obligations of the Trust under the trust agreements.

(9) Repurchase Agreements

The Company utilizes repurchase agreements with one-day maturities as a supplement to funding sources. Repurchase agreements are secured by pledged investment securities available for sale. Under the repurchase agreements, the Company is required to maintain an aggregate market value of securities pledged greater than the stated margin balance. The Company is required to pledge additional securities to cover any declines below the stated margin balance. The class of collateral pledged for the Company's repurchase agreement obligations as of September 30, 2015 and December 31, 2014, totaling \$22.8 million and \$32.2 million, respectively, were mortgage backed securities and collateralized mortgage obligation - residential: U.S. Government-sponsored agencies. Additional information on the total value of securities pledged for repurchase agreements is found in Note (2) Investment Securities.

(10) Stockholders' Equity**(a) Earnings Per Common Share**

The following table illustrates the reconciliation of weighted average shares used for earnings per common share computations for the three and nine months ended September 30, 2015 and 2014:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2015	2014	2015	2014
	(Dollars in thousands)			
Net income:				
Net income	\$9,492	\$7,068	\$27,996	\$13,759
Less: Dividends and undistributed earnings allocated to participating securities	(84) (59) (247) (114
Net income allocated to common shareholders	\$9,408	\$7,009	\$27,749	\$13,645
Basic:				
Weighted average common shares outstanding	29,960,133	30,293,559	30,086,057	24,085,132
Less: Restricted stock awards	(263,404) (230,134) (268,999) (198,255
Total basic weighted average common shares outstanding	29,696,729	30,063,425	29,817,058	23,886,877
Diluted:				
Basic weighted average common shares outstanding	29,696,729	30,063,425	29,817,058	23,886,877
Incremental shares from stock options	22,395	36,671	22,718	50,539
Total diluted weighted average common shares outstanding	29,719,124	30,100,096	29,839,776	23,937,416

Potential dilutive shares are excluded from the computation of earnings per share if their effect is anti-dilutive. For the three months ended September 30, 2015 and 2014, potential anti-dilutive shares outstanding related to options to acquire common stock totaled 2,650 and 9,640, respectively, as the assumed proceeds from exercise price, tax benefits and future compensation was in excess of the market value. For the nine months ended September 30, 2015 and 2014, potential anti-dilutive shares outstanding related to options to acquire common stock totaled 4,883 and 25,088, respectively, for the same reasons indicated for the three-month periods.

Table of Contents

(b) Dividends

The timing and amount of cash dividends paid on the Company's common stock depends on the Company's earnings, capital requirements, financial condition and other relevant factors. Dividends on common stock from the Company depend substantially upon receipt of dividends from the Bank, which is the Company's predominant source of income. The following table summarizes the dividend activity for the nine months ended September 30, 2015 and calendar year 2014.

Declared	Cash Dividend per Share	Record Date	Paid Date
January 29, 2014	\$0.08	February 10, 2014	February 24, 2014
March 27, 2014	\$0.08	April 8, 2014	April 23, 2014
July 24, 2014	\$0.09	August 7, 2014	August 21, 2014
October 23, 2014	\$0.09	November 6, 2014	November 20, 2014
November 11, 2014	\$0.16	December 2, 2014	December 12, 2014
January 28, 2015	\$0.10	February 10, 2015	February 24, 2015
April 22, 2015	\$0.11	May 7, 2015	May 21, 2015
July 22, 2015	\$0.11	August 6, 2015	August 20, 2015

The FDIC and the Washington State Department of Financial Institutions, Division of Banks have the authority under their supervisory powers to prohibit the payment of dividends by the Bank to the Company. Additionally, current guidance from the Board of Governors of the Federal Reserve System ("Federal Reserve Board") provides, among other things, that dividends per share on the Company's common stock generally should not exceed earnings per share, measured over the previous four fiscal quarters. Current regulations allow the Company and the Bank to pay dividends on their common stock if the Company's or the Bank's regulatory capital would not be reduced below the statutory capital requirements set by the Federal Reserve Board and the FDIC.

(c) Stock Repurchase Program

The Company has had various stock repurchase programs since March 1999. On October 23, 2014, the Company's Board of Directors authorized the repurchase of up to 5% of the Company's outstanding common shares, or approximately 1,513,000 shares, under the eleventh stock repurchase plan. The number, timing and price of shares repurchased will depend on business and market conditions, and other factors, including opportunities to deploy the Company's capital. On August 30, 2012, the Board of Directors approved the Company's tenth stock repurchase plan, authorizing the repurchase of up to 5% of the Company's outstanding shares of common stock, or approximately 757,000 shares. The Company repurchased 704,975 shares under the tenth stock repurchase plan, leaving 52,025 shares unpurchased.

The following table provides total repurchased shares and average share prices under the applicable plans for the periods indicated:

	Three Months Ended September 30,		Nine Months Ended September 30,		Plan Total (1)
	2015	2014	2015	2014	
Tenth Plan					
Repurchased shares	—	108,075	—	108,075	704,975
Stock repurchase average share price \$—	—	\$16.88	\$—	\$16.88	\$15.85
Eleventh Plan					
Repurchased shares	—	—	441,966	—	441,966
Stock repurchase average share price \$—	—	\$—	\$16.64	\$—	\$16.64

(1) Represents shares repurchased and average share price paid during the duration of the repurchase plans.

In addition to the stock repurchases disclosed in the table above, the Company repurchased shares to pay withholding taxes on the vesting of restricted stock. During the three months ended September 30, 2015 and 2014,

Table of Contents

the Company repurchased 388 and 2,751 shares of common stock at an average price of \$17.63 and \$16.11, respectively, to pay withholding taxes on the vesting of restricted stock that vested during the respective periods. During the nine months ended September 30, 2015 and 2014, the Company repurchased 21,998 and 18,549 shares of common stock at an average price of \$17.07 and \$16.99, respectively, to pay withholding taxes on the vesting of restricted stock that vested during the respective periods.

(11) Accumulated Other Comprehensive
Income (Loss)

The changes in accumulated other comprehensive income (loss) (“AOCI”) by component, during the three and nine months ended September 30, 2015 and 2014 are as follows:

	Three Months Ended September 30, 2015		
	Changes in fair value of available for sale securities ⁽¹⁾	Accretion of other-than- temporary impairment on held to maturity securities ⁽¹⁾	Total
	(In thousands)		
Balance of AOCI at the beginning of period	\$2,198	\$—	\$2,198
Other comprehensive income before reclassification	3,064	—	3,064
Amounts reclassified from AOCI for gain on sale of investment securities included in net income	(255) —	(255
Net current period other comprehensive income	2,809	—	2,809
Balance of AOCI at the end of period	\$5,007	\$—	\$5,007

⁽¹⁾ All amounts are net of tax.

	Nine Months Ended September 30, 2015		
	Changes in fair value of available for sale securities ⁽¹⁾	Accretion of other-than- temporary impairment on held to maturity securities ⁽¹⁾	Total
	(In thousands)		
Balance of AOCI at the beginning of period	\$3,567	\$(189) \$3,378
Other comprehensive income before reclassification	2,324	11	2,335
Amounts reclassified from AOCI for gain on sale of investment securities included in net income	(884) 178	(706

(12) Stock-Based Compensation

Stock options generally vest ratably over three years and expire five years after they become exercisable or vest ratably over four years and expire ten years from date of grant. Restricted stock awards issued generally have a five-year cliff vesting or four year ratable vesting schedule. The Company issues new shares of common stock to satisfy share option exercises and restricted stock awards.

On July 24, 2014, the Company's shareholders approved the Heritage Financial Corporation 2014 Omnibus Equity Plan (the "Plan") that provides for the issuance of 1,500,000 shares of the Company's common stock in the form of stock options, stock appreciation rights, stock awards (which includes restricted stock units, restricted stock, performance units, performance shares or bonus shares) and cash incentive awards.

As of September 30, 2015, there remained 1,262,567 shares available for future issuances under the Company's stock-based compensation plans.

(a) Stock Option Awards

For the three and nine months ended September 30, 2015 and the three months ended September 30, 2014, the Company did not recognize compensation expense or a related tax benefit for the outstanding stock options as all compensation expense had been previously recognized. For the nine months ended September 30, 2014, the Company recognized compensation expense related to stock options of \$20,000 with no related tax benefit. The intrinsic value

and cash proceeds from options exercised during the nine months ended September 30, 2015 was \$223,000 and \$666,000, respectively. The intrinsic value and cash proceeds from options exercised during the nine months ended September 30, 2014 was \$385,000 and \$766,000, respectively.

Table of Contents

The following table summarizes the stock option activity for the nine months ended September 30, 2015 and 2014:

	Shares	Weighted-Average Exercise Price	Weighted-Average Remaining Contractual Term (In years)	Aggregate Intrinsic Value (In thousands)
Outstanding at December 31, 2013	194,482	\$ 15.82		
Granted (1)	90,248	10.72		
Exercised	(70,854)) 10.79		
Forfeited or expired	(43,984)) 22.80		
Outstanding at September 30, 2014	169,892	\$ 13.41	3.30	\$455
Outstanding at December 31, 2014	156,407	\$ 13.59		
Granted	—	—		
Exercised	(53,198)) 12.45		
Forfeited or expired	(12,278)) 16.73		
Outstanding at September 30, 2015	90,931	\$ 13.84	3.05	\$456
Vested and expected to vest at September 30, 2015	90,931	\$ 13.84	3.05	\$456
Exercisable at September 30, 2015	90,931	\$ 13.84	3.05	\$456

Options granted during the nine months ended September 30, 2014 represent only the stock options issued in conjunction with the Washington Banking Merger. See Note (14) Business Combination for additional information. The weighted average exercise price reflects the exchange ratio applied to the original Washington Banking exercise price pursuant to the merger agreement.

(b) Restricted and Unrestricted Stock Awards

For the three and nine months ended September 30, 2015, the Company recognized compensation expense related to restricted and unrestricted stock awards of \$409,000 and \$1,125,000, respectively, and a related tax benefit of \$144,000 and \$395,000, respectively. For the three and nine months ended September 30, 2014, the Company recognized compensation expense related to restricted and unrestricted stock awards of \$357,000 and \$896,000, respectively, and a related tax benefit of \$125,000 and \$315,000, respectively. As of September 30, 2015, the total unrecognized compensation expense related to non-vested restricted and unrestricted stock awards was \$3.2 million and the related weighted average period over which it is expected to be recognized is approximately 2.5 years. The vesting date fair value of restricted stock awards that vested during the nine months ended September 30, 2015 and 2014 was \$1.6 million and \$1.2 million, respectively.

The following tables summarize the restricted and unrestricted stock award activity for the nine months ended September 30, 2015 and 2014:

	Shares	Weighted-Average Grant Date Fair Value
Nonvested at December 31, 2013	202,939	\$14.29
Granted	130,548	16.03
Vested	(73,336)) 14.26
Forfeited	(6,806)) 14.66
Nonvested at September 30, 2014	253,345	\$15.19
Nonvested at December 31, 2014	238,669	\$15.20
Granted	121,320	16.72
Vested	(91,642)) 15.12
Forfeited	(2,837)) 15.71
Nonvested at September 30, 2015	265,510	\$15.92

(13) Fair Value Measurements

Fair value is the exchange price that would be received for an asset or paid to transfer a liability (exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. There are three levels of inputs that may be used to measure fair values:

Level 1: Valuations for assets and liabilities traded in active exchange markets, or interest in open-end mutual funds that allow the Company to sell its ownership interest back to the fund at net asset value on a daily basis. Valuations are obtained from readily available pricing sources for market transactions involving identical assets, liabilities, or funds.

Level 2: Valuations for assets and liabilities traded in less active dealer, or broker markets, such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active or valuations using methodologies with observable inputs.

Level 3: Valuations for assets and liabilities that are derived from other valuation methodologies, such as option pricing models, discounted cash flow models and similar techniques using unobservable inputs, and not based on market exchange, dealer, or broker traded transactions. Level 3 valuations incorporate certain assumptions and projections in determining the fair value assigned to such assets or liabilities.

(a) Recurring and Nonrecurring Basis

The Company used the following methods and significant assumptions to estimate fair value of certain assets on a recurring and nonrecurring basis:

Investment Securities Available for Sale and Held to Maturity:

The fair values of all investment securities are based upon the assumptions market participants would use in pricing the security. If available, investment securities are determined by quoted market prices which is generally the case for mutual funds and other equities (Level 1). For investment securities where quoted market prices are not available, fair values are calculated based on market prices on similar securities (Level 2). Level 2 includes U.S. Treasury, U.S. Government and agency debt securities, municipal securities, corporate securities and mortgage-backed securities and collateralized mortgage obligations-residential. For investment securities where quoted prices or market prices of similar securities are not available, fair values are calculated by using observable and unobservable inputs such as discounted cash flows or other market indicators (Level 3). Security valuations are obtained from third party pricing services for comparable assets or liabilities.

Impaired Loans:

At the time a loan is considered impaired, its impairment is measured based on the present value of expected future cash flows discounted at the loan's effective interest rate, a loan's observable market prices, or fair market value of the collateral if the loan is collateral-dependent. Impaired loans for which impairment is measured using the discounted cash flow approach are not considered to be measured at fair value because the loan's effective interest rate is not a fair value input, and for the purposes of fair value disclosures, the fair value of these loans are measured commensurate with non-impaired loans. Generally, the Company utilizes the fair market value of the collateral, which is commonly based on recent real estate appraisals, to measure impairment. These appraisals may utilize a single valuation approach or a combination of approaches including comparable sales and the income approach. Adjustments are routinely made in the appraisal process by the independent appraisers to adjust for differences between the comparable sales and income data available. Such adjustments are usually significant and typically result in a Level 3 classification of the inputs for determining fair value. Non-real estate collateral may be valued using an appraisal, net book value per the borrower's financial statements, or aging reports, adjusted or discounted based on management's historical knowledge, changes in market conditions from the time of the valuation, and management's expertise and knowledge of the client and client's business (Level 3). Impaired loans are evaluated on a quarterly basis for additional impairment and adjusted accordingly.

Other Real Estate Owned:

Assets acquired through or instead of loan foreclosure are initially recorded at fair value less costs to sell when acquired, establishing a new cost basis. These assets are subsequently accounted for at lower of cost or fair value less estimated costs to sell. Fair value is commonly based on recent real estate appraisals. These appraisals may utilize a

single valuation approach or a combination of approaches including comparable sales and the income approach. Adjustments are routinely made in the appraisal process by the independent appraisers to adjust for differences between the comparable sales and income data available. Such adjustments are usually significant and typically result in Level 3 classification of the inputs for determining fair value.

Table of Contents

Appraisals for both collateral-dependent impaired loans and other real estate owned are performed by certified general appraisers for commercial properties or certified residential appraisers for residential properties whose qualifications and licenses have been reviewed and verified by the Company. Once received, the Company reviews the assumptions and approaches utilized in the appraisal as well as the resulting fair value in comparison with independent data sources such as recent market data or industry-wide statistics. On a quarterly basis, the Company compares the actual selling price of collateral that has been liquidated to the most recent appraised value to determine what additional adjustment should be made to the appraisal value to arrive at fair value.

The following tables summarize the balances of assets measured at fair value on a recurring basis as of September 30, 2015 and December 31, 2014.

	September 30, 2015			
	Total	Level 1	Level 2	Level 3
	(In thousands)			
Investment securities available for sale:				
U.S. Treasury and U.S. Government-sponsored agencies	\$15,162	\$—	\$15,162	\$—
Municipal securities	189,769	—	189,769	—
Mortgage backed securities and collateralized mortgage obligations—residential:

	December 31, 2014			
	Total	Level 1	Level 2	Level 3
	(In thousands)			
Investment securities available for sale:				
U.S. Treasury and U.S. Government-sponsored agencies	\$21,427	\$—	\$21,427	\$—
Municipal securities	173,037	—	173,037	—
Mortgage backed securities and collateralized mortgage obligations—residential:				
U.S Government-sponsored agencies	542,399	—	542,399	—
Corporate obligations	4,010	—	4,010	—
Mutual funds and other equities	1,973	1,973	—	—
Total	\$742,846	\$1,973	\$740,873	\$—

There were no transfers between Level 1 and Level 2 during the three and nine months ended September 30, 2015 and 2014.

The Company may be required to measure certain financial assets and liabilities at fair value on a nonrecurring basis. These adjustments to fair value usually result from application of lower-of-cost-or-market accounting or write-downs of individual assets.

Table of Contents

The tables below represent assets measured at fair value on a nonrecurring basis at September 30, 2015 and December 31, 2014 and the related net losses (gains) recorded in earnings during three and nine months ended September 30, 2015 and 2014.

	Fair Value at September 30, 2015					Net Losses (Gains) Recorded in Earnings During the Three Months Ended September 30, 2015	Net Losses (Gains) Recorded in Earnings During the Nine Months Ended September 30, 2015
	Basis ⁽¹⁾	Total	Level 1	Level 2	Level 3		
	(In thousands)						
Impaired loans:

(1) Basis represents the unpaid principal balance of impaired loans and amortized cost of investment securities held to maturity.

Table of Contents

The following table presents quantitative information about Level 3 fair value measurements for financial instruments measured at fair value on a non-recurring basis at September 30, 2015 and December 31, 2014.

September 30, 2015				
	Fair Value (Dollars in thousands)	Valuation Technique(s)	Unobservable Input(s)	Range of Inputs; Weighted Average
Impaired loans	\$862	Market approach	Adjustment for differences between the comparable sales	(8.50%) - 10.4%; 0.95%
December 31, 2014				
	Fair Value (Dollars in thousands)	Valuation Technique(s)	Unobservable Input(s)	Range of Inputs; Weighted Average
Impaired loans	\$1,908	Market approach	Adjustment for differences between the comparable sales	(47.5%) - 96.2%; 7.0%

The nonrecurring fair value measurement disclosures in the tables above exclude impaired loans that are collateral dependent buy for which the collateral value exceeds the Company's recorded investment, as well as excludes impaired loans that are measured using the discounted cash flow approach because the discount rate used is generally not a fair value input.

(b) Fair Value of Financial Instruments

Because broadly traded markets do not exist for most of the Company's financial instruments, the fair value calculations attempt to incorporate the effect of current market conditions at a specific time. These determinations are subjective in nature, involve uncertainties and matters of significant judgment and do not include tax ramifications; therefore, the results cannot be determined with precision, substantiated by comparison to independent markets and may not be realized in an actual sale or immediate settlement of the instruments. There may be inherent weaknesses in any calculation technique, and changes in the underlying assumptions used, including discount rates and estimates of future cash flows, could significantly affect the results. For all of these reasons, the aggregation of the fair value calculations presented herein do not represent, and should not be construed to represent, the underlying value of the Company.

Table of Contents

The tables below present the carrying value amount of the Company's financial instruments and their corresponding estimated fair values at the dates indicated.

	September 30, 2015		Fair Value Measurements Using:
