PATHFINDER BANCORP, INC. ANNOUNCES SECOND QUARTER EARNINGS

Oswego, New York, July 28, 2004 Pathfinder Bancorp, Inc., the mid-tier holding company of Pathfinder Bank, (NASDAQ SmallCap Market; symbol: PBHC, listing: PathBcp) reported net income of \$434,000, or \$0.18 per share, for the three months ended June 30, 2004 as compared to \$517,000, or \$0.21 per share for the same period in 2003. For the six months ended June 30, 2004, the Company reported net income of \$757,000, or \$0.31 per share, compared to \$1.0 million, or \$0.42 per share, for the same period in 2003.

"The Company has achieved strong deposit growth of \$27 million, or 13%, during the first half of 2004, primarily in checking and municipal accounts," according to Thomas W. Schneider, President and Chief Executive Officer. "Loan growth has been more muted as the local economy continues to lag national growth. The margin compression the Company experienced in the first quarter has stabilized as asset repricing has equalized," continued Schneider. "The reduction in earnings compared to the prior year quarter resulted from higher securities gains in 2003."

Net interest income for the quarter ended June 30, 2004 decreased slightly when

Edgar Filing: PATHFINDER BANCORP INC - Form 8-K

compared to the same period during 2003. Interest income decreased \$195,000, or 5%, partially offset by a decrease in interest expense of \$136,000, or 9%. Net interest rate spread decreased to 3.22% for the second quarter of 2004 from 3.60% for the same period in 2003. Average interest-earning assets increased 9% to \$276.7 million in the quarter ended June 30, 2004 as compared to \$253.0 million in the quarter ended June 30, 2003, while the yield on those assets decreased 80 basis points to 5.36% compared to 6.16% for the same period in 2003. The increase in average earning assets is primarily attributable to a \$16.4 million increase in investment securities and a \$6.5 million increase in interest-earning deposits. Average interest-bearing liabilities increased \$20.9 million, while the cost of funds decreased 41 basis points to 2.15% from 2.56% for the same period in 2003. The increase in the average balance of interest-bearing liabilities resulted primarily from a \$24.2 million, or 13%, growth in average deposits. The growth in deposits primarily resulted from attracting new municipal deposit customers.

Provision for loan losses for the quarter ended June 30, 2004 decreased 59% to \$107,000 from \$260,000 for the same period in 2003. The Company's ratio of allowance for loan losses to period end loans has increased to 0.99% at June 30, 2004 from 0.91% at December 31, 2003. Nonperforming loans to period end loans remained fairly steady at 1.62% at June 30, 2004, compared to 1.59% at December 31, 2003.

Non-interest income, net of gains and losses from the sale of securities, loans and foreclosed real estate, decreased slightly to \$481,000 for the quarter ended June 30, 2004 compared to \$483,000 for the same period in the prior year. The decrease in non-interest income is primarily attributable to an \$11,000 increase in service charges on deposit accounts, and a \$5,000 increase in bank owned life insurance, offset by an \$18,000 decrease in other charges, commissions and fees. Net gains and losses from the sale of securities, loans and foreclosed real estate decreased \$240,000 to \$251,000 for the quarter ended June 30, 2004 compared to \$491,000 for the same period in the prior year.

Operating expenses remained consistent at \$2.3 million for the quarter ended June 30, 2004 and June 30, 2003. During the second quarter of 2004, salary and employee benefits, building occupancy expenses and data processing expenses increased \$97,000, \$8,000 and \$11,000, respectively. These increases were offset by a \$12,000 decrease in professional and other services and a \$116,000 decrease in other operating expenses. The increase in salaries and employee benefits was primarily due to the salaries and benefits associated with an increase in personnel and an increase in employee benefit costs. The decrease in professional and other services and other operating expenses primarily resulted from operating costs associated with a foreclosed real estate property not recurring in 2004 as the property was sold during 2003, and expenses relating to personnel realignment in 2003, not recurring in 2004.
