**PROXY STATEMENT
FOR ANNUAL MEETING OF STOCKHOLDERS
TO BE HELD ON MAY 23, 2013**

INFORMATION CONCERNING THE ANNUAL MEETING AND VOTING

General

The Board of Directors (the "Board") of Dynamic Materials Corporation, a Delaware corporation, is soliciting proxies for use at the Annual Meeting of Stockholders to be held on May 23, 2013, at 8:30 a.m., local time, or at any adjournment or postponement thereof, for the purposes described in this proxy statement and in the accompanying Notice of Annual Meeting. The Annual Meeting will be held at the St. Julien Hotel, which is located at 900 Walnut Street, Boulder, Colorado. On or about April 12, 2013, we will mail to all stockholders entitled to vote at the meeting, a Notice of Internet Availability of Proxy Materials that contains specific instructions on how to access Annual Meeting materials via the Internet, as well as instructions on how to request paper copies. Unless the context otherwise requires, references to "the company," "we," "us" or "our" refer to Dynamic Materials Corporation.

Solicitation

We will bear the entire cost of solicitation of proxies, including preparation, assembly, printing and mailing of the Notice of Internet Availability of Proxy Materials and any additional information furnished to stockholders. Copies of solicitation materials will be furnished to banks, brokerage houses, fiduciaries, and custodians holding in their names shares of our common stock beneficially owned by others to forward to such beneficial owners. We may reimburse persons representing beneficial owners of common stock for their costs of forwarding solicitation materials to such beneficial owners. Original solicitation of proxies via the Internet may be supplemented by mail, telephone, telegram, or personal solicitation by our directors, officers, or other regular employees. No additional compensation will be paid to directors, officers, or other regular employees for such services.

Outstanding Shares and Quorum

Only holders of record of common stock at the close of business on April 1, 2013, will be entitled to notice of and to vote at the Annual Meeting. At the close of business on April 1, 2013, we had 13,683,307 shares of common stock outstanding and entitled to vote. Each holder of record of common stock on such date will be entitled to one vote for each share held on all matters to be voted upon at the Annual Meeting.

A majority of the outstanding shares of common stock entitled to vote represented in person or by proxy will constitute a quorum at the Annual Meeting. However, if a quorum is not represented at the Annual Meeting, the stockholders entitled to vote at the meeting, present in person or represented by proxy, have the power to adjourn the Annual Meeting from time to time, without notice other than by announcement at the Annual Meeting, until a quorum is present or represented. At any such adjourned meeting at which a quorum is present or represented, any business may be transacted that might have been transacted at the originally scheduled meeting.

Voting Rights and Procedures

Votes cast by proxy or in person will be counted by one or more persons appointed by us to act as inspectors (the "Election Inspectors") for the Annual Meeting. The Election Inspectors will treat shares represented by proxies that reflect abstentions as shares that are present and entitled to vote for the

Edgar Filing: DYNAMIC MATERIALS CORP - Form DEF 14A

Table of Contents

purpose of determining the presence of a quorum. Abstentions will not have any effect for the election of directors but, with respect to the other proposals, will have the same effect as a vote against the proposal.

Broker non-votes occur when a broker holding stock in street name votes the shares on some matters but not others. Brokers are permitted to vote on routine, non-controversial proposals in instances where they have not received voting instruction from the beneficial owner of the stock but are not permitted to vote on non-routine matters. The missing votes on non-routine matters are deemed to be "broker non-votes." The Election Inspectors will treat broker non-votes as shares that are present and entitled to vote for the purpose of determining the presence of a quorum. The only "routine" proposal on our ballot this year is the ratification of the appointment of Ernst & Young LLP as our independent registered public accounting firm for the fiscal year ending December 31, 2013. Therefore no broker non-votes are expected to exist in connection with that proposal. Brokers are no longer permitted to vote shares for the election of directors without customer direction and will not be permitted to vote on the non-binding, advisory vote on executive compensation, the amendment to our stock incentive plan or adoption of our performance-based plan. **Therefore, we urge you to give voting instructions to your broker on all proposals.**

Directors are elected by a plurality of the votes cast by the shares entitled to vote in the election at a meeting at which a quorum is present. Proxies may not be voted for a greater number of persons than there are nominees. It is intended that unless authorization to vote for one or more nominees for director is withheld, proxies will be voted for the election of all of the eight nominees named in this Proxy Statement.

The affirmative vote of a majority of the votes cast in person or by proxy by stockholders represented and entitled to vote at the meeting is required for approval of the amendment to the Company's 2006 Stock Incentive Plan and approval of the Company's Performance Based Plan. If approved, the Performance Based Plan will be effective January 1, 2013.

The selection of our auditors will be ratified if the number of votes of authorized shares of our common stock cast in favor of the respective proposal exceeds the votes cast opposing the proposal. The non-binding advisory vote on the compensation of our named executive officers will be approved if the number of votes of authorized shares of our common stock cast in favor of the respective proposal exceeds the votes cast opposing the proposal. Accordingly, a majority of votes cast is required to approve these proposals.

Abstentions will have no effect on the election of directors, but will have the same effect as a "no" vote with respect to the other proposals.

Revocability of Proxies

Any person giving a proxy pursuant to this solicitation has the power to revoke it at any time prior to the Annual Meeting. It may be revoked by filing with our Secretary at our principal executive office, 5405 Spine Road, Boulder, Colorado 80301, a written notice of revocation or a duly executed proxy bearing a later date, or it may be revoked by attending the meeting and voting in person. Attendance at the meeting will not, by itself, revoke a proxy. If no direction is indicated, the shares will be voted FOR each of the proposals set forth in this proxy statement. The persons named in the proxies will have discretionary authority to vote all proxies with respect to additional matters that are properly presented for action at the Annual Meeting.

Stockholder Proposals

Proposals of stockholders that are intended to be presented at our 2014 Annual Meeting of Stockholders must be received by us not later than December 13, 2013, in order to be included in the proxy statement and proxy relating to that annual meeting.

Notice of any stockholder proposal to be considered at our 2014 Annual Meeting, but not included in the proxy materials, must be submitted in writing and received by us not later than 60 days and not earlier than 90 days prior to the first anniversary of this year's annual meeting date; provided, however, that in the event that fewer than 70 days' notice or public announcement of the date of the meeting is given or made to stockholders, to be timely, notice by the stockholder must be received not later than the close of business of the tenth day following the day on which we first publicly announce the meeting date.

Table of Contents**PROPOSAL 1 ELECTION OF DIRECTORS**

There are eight nominees for election to the Board. Each director to be elected will hold office until the 2014 Annual Meeting of Stockholders. In any event, a director elected pursuant to this proxy statement will hold office until his successor is elected and is qualified, or until such director's earlier death, resignation, or removal.

Shares represented by executed proxies will be voted, if authority to do so is not withheld, for the election of the eight nominees named below. In the event that any nominee should be unavailable for election as a result of an unexpected occurrence, such shares will be voted for the election of such substitute nominee as the Corporate Governance and Nominating Committee of the Board may propose. Each person nominated for election has agreed to serve if elected, and the Board has no reason to believe that any nominee will be unable to serve.

NOMINEES

The names of the nominees and certain information about them are set forth below. In addition, we have included information about each nominee's specific experience, qualifications, attributes or skills that led our Board of Directors to conclude that the nominee should serve as a director of the Company at the time we are filing this proxy statement, in light of our business and corporate strategy.

Directors are encouraged to attend our Annual Meeting of Stockholders. All of our directors attended the 2012 Annual Meeting of Stockholders held on May 24, 2012 and are planning on attending the 2013 Annual Meeting of Stockholders.

Table of Contents

During the fiscal year ended December 31, 2012, each of our current directors attended more than 75% of the aggregate of (i) the number of meetings of the Board held during the period in which he was a director and (ii) the number of meetings of the committees on which he served.

Director Independence

The Board has determined that five of our eight current directors, Messrs. Cohen, Ferris, Graff, Hueber and Munera, all of whom are nominated for re-election, are "independent" directors under the rules promulgated by the Securities and Exchange Commission ("SEC") and the applicable rules of the NASDAQ. In making its determinations of independence, in addition to consideration of the relevant SEC and NASDAQ rules, the Board considered factors for each director such as any other directorships, any employment or consulting arrangements, and any relationship with our customers or suppliers. The Board determined that there were no related-party transactions or other relationships that needed to be considered in evaluating whether these directors are "independent." Mr. Longe, our President and Chief Executive Officer, Mr. Cariou, our former President and Chief Executive Officer, and Mr. Rospek, the former Chief Executive of our DYNAmeter subsidiary, are the only Board members who are not independent based on these criteria.

All current members of the Audit Committee, the Compensation Committee, and the Corporate Governance and Nominating Committee are independent directors. With the committee assignments that will be effective following the Annual Meeting, the Corporate Governance and Nominating Committee will include two non-employee directors who are not independent and three independent directors. Our independent, non-executive directors hold regularly scheduled meetings in executive session, at which only independent, non-executive directors are present.

Board Leadership Structure

The Company does not have a policy on whether the Chairman and Chief Executive Officer positions should be separate or combined. Currently we have separated the positions of Chairman and Chief Executive Officer. Our Chief Executive Officer is responsible for setting the strategic direction for the Company and the day to day leadership and performance of the Company, while our Chairman of the Board provides guidance to the Chief Executive Officer and sets the agenda for Board meetings and presides over meetings of the full Board.

Board Committees and Meetings

During the fiscal year ended December 31, 2012, the Board held six meetings, including one telephonic meeting. The Board currently has an Audit Committee, a Compensation Committee, a Corporate Governance and Nominating Committee and a Safety Committee.

The Audit Committee

The Audit Committee meets with our independent registered public accounting firm at least four times a year to review quarterly financial results and the annual audit, discuss financial statements and related disclosures, and receive and consider the accountants' comments as to controls, adequacy of staff and management performance and procedures in connection with the annual audit and financial controls. The Audit Committee also appoints the independent registered public accounting firm. Messrs. Graff, Cohen, Ferris, Hueber and Munera were members of the Audit Committee for the full year ended December 31, 2012, with Mr. Graff serving as Chairman. Effective following the Annual Meeting, the members of the Audit Committee will be Messrs. Graff, Cohen and Ferris, with Mr. Graff continuing to serve as its Chairman. All members of the Audit Committee are non-employee directors whom the Board has determined to be "independent" as that concept is defined in Section 10A of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), the rules promulgated by the SEC thereunder, and the applicable rules of the NASDAQ. The Audit Committee has determined that Mr. Graff qualifies as an

Table of Contents

"audit committee financial expert" under the rules of the SEC. The Audit Committee met six times during the 2012 fiscal year.

In 2000, the Board adopted a written Charter of the Audit Committee, which was subsequently updated and revised in 2004, 2007 and 2012. The Charter of the Audit Committee requires the Audit Committee be comprised of three or more independent directors, at least one of whom has relevant financial or accounting experience. The Charter of the Audit Committee charges the Audit Committee with the responsibility of reviewing any related party transactions for potential conflicts of interest pursuant to our Related Party Transaction Policy and Procedures, which are described in more detail under, "Certain Relationships and Related Transactions." The Charter of the Audit Committee may be viewed on our website, www.dynamicmaterials.com.

The Compensation Committee

The Compensation Committee makes recommendations concerning salaries and incentive compensation, grants equity-based awards to employees and non-employee directors under our stock incentive plan and otherwise determines compensation levels and performs such other functions regarding compensation as the Board may delegate. The Compensation Committee is also responsible for reviewing and approving the Compensation Discussion and Analysis included in the Company's proxy statement. Messrs. Allen, Cohen, Ferris, Hueber and Munera were members of the Compensation Committee for the full year ended December 31, 2012, with Mr. Cohen serving as the Chairman. Effective following the Annual Meeting, the members of the Compensation Committee will be Messrs. Cohen, Ferris, Hueber and Munera, with Mr. Cohen continuing to serve as its Chairman. All members of the Compensation Committee are non-employee directors whom the Board has determined to be "independent" under SEC rules and the applicable rules of the NASDAQ. During the 2012 fiscal year, the Compensation Committee met five times.

In 2006, the Board adopted a written Charter of the Compensation Committee, which was subsequently updated and revised in 2007 and 2012. The Charter of the Compensation Committee may be viewed on our website, www.dynamicmaterials.com.

The Corporate Governance and Nominating Committee

The Corporate Governance and Nominating Committee nominates directors and sets corporate governance policies for the Board and Company. Messrs. Allen, Ferris, Hueber and Munera were members of the Corporate Governance and Nominating Committee for the full fiscal year ended December 31, 2012. Mr. Munera serves as Chairman of the Committee. Effective following the Annual Meeting, the members of the Corporate Governance and Nominating Committee will be Messrs. Ferris, Cariou, Graff, Hueber and Rospek, with Mr. Ferris serving as its Chairman. The main purposes of this Committee are (i) to identify and recommend individuals to the Board for nomination as members of the Board and its committees; (ii) to develop and recommend to the Board corporate governance principles applicable to the Company; (iii) to oversee the Board's annual evaluation of its performance; and (iv) to undertake such other duties as the Board may from time to time delegate to the Committee. Members of the Corporate Governance and Nominating Committee identified, selected and nominated Messrs. Ferris (in 2010), Cohen (in 2011) and Longe (in 2012) for election to the Board. The Corporate Governance and Nominating Committee held five meetings during the 2012 fiscal year. The Charter of the Corporate Governance and Nominating Committee, which was adopted in 2006 and revised in 2012, may be viewed on our website, www.dynamicmaterials.com.

The Corporate Governance and Nominating Committee does not have a formal policy with regard to the consideration of any director nominees recommended by its stockholders because historically we have not received recommendations from our stockholders and the costs of establishing and maintaining procedures for the consideration of stockholder nominations would have been unduly burdensome. However, any recommendations received from stockholders will be evaluated in the same manner that

Table of Contents

potential nominees recommended by Board members, management or other parties are evaluated. Stockholders may nominate persons for election to the Board of Directors in accordance with our Bylaws. Any stockholder nominations proposed for Board consideration should include the nominee's name and qualifications for Board membership and should be mailed to Dynamic Materials Corporation, c/o Corporate Secretary, 5405 Spine Road, Boulder, Colorado 80301, or faxed to (303) 604-1897. We do not intend to treat stockholder recommendations in any manner differently from other recommendations. No such suggestions were received during 2012.

Qualifications for consideration as a director nominee may vary according to the particular area of expertise being sought as a complement to the existing Board composition. However, in making its nominations, the Corporate Governance and Nominating Committee considers, among other things, an individual's business experience, industry experience, financial background, breadth of knowledge about issues affecting our business, time available for meetings and consultation, integrity, independence, diversity of experience, leadership and other particular skills and experience possessed by the individual. Diversity is considered in the nominating process as described above and in our Governance and Nominating Committee Charter, which provides that we develop and recommend to the Board the criteria for Board membership, including, among other things, integrity, independence, diversity of experience, leadership and the ability to exercise sound judgment. We do not have a separate Board diversity policy.

We do not currently employ an executive search firm or pay a fee to any other third party to locate qualified candidates for director positions.

Director Leadership of Safety Committee

In 2009, at the direction of the Board, the Company established a Quality and Safety Committee (subsequently renamed the Safety Committee) comprised of the Company's Chief Executive Officer, two independent directors and up to three Company managers. Mr. Hueber serves as the Chairman of this Committee. Messrs. Allen and Cariou are also members of this Committee, together with managers of some of the Company's U.S. and European operating divisions. Effective following the Annual Meeting, the members of the Safety Committee who are directors will be Messrs. Hueber, Cariou, Longe and Rospek, with Mr. Hueber continuing to serve as its Chairman. The purpose of this Committee is to review, at least annually, the Company's performance in meeting its safety objectives established by management and to facilitate the Board's oversight of these critical operational issues. The Safety Committee met once during the 2012 fiscal year as it inspected the Company's Nobelclad France manufacturing facility.

Risk Oversight

Our senior management manages the risks facing the Company under the oversight and supervision of the Board. While the full Board is ultimately responsible for risk oversight at our Company, two of our Board committees assist the Board in fulfilling its oversight function in certain areas of risk. The Audit Committee assists the Board in fulfilling its oversight responsibilities with respect to risk in the areas of financial reporting and internal controls. The Safety Committee assists the Board in fulfilling its oversight responsibilities with respect to the management of risks related to operations and safety. Other general business risks such as economic and regulatory risks are monitored by the full Board. Risk management and assessment reports are regularly provided by management to these committees and the full Board.

Compensation Risk Assessment

Our Compensation Committee considered whether our compensation program encouraged excessive risk-taking by employees at the expense of long-term Company value. Based upon its assessment, the Compensation Committee does not believe that our compensation program encourages excessive or inappropriate risk-taking. The Compensation Committee believes that the design of our compensation program, which includes a mix of annual and long-term incentives, cash and equity awards and retention incentives, is balanced and does not motivate imprudent risk-taking.

Communications with the Board

The Board believes that it is important for stockholders to have a process to send communications to the Board. Accordingly, stockholders desiring to send a communication to the Board, or to a specific director, may do so by delivering a letter to our Secretary at Dynamic Materials Corporation, c/o Corporate Secretary, 5405 Spine Road, Boulder, Colorado 80301 or fax to (303) 604-1897. The mailing envelope or fax cover sheet must contain a clear notation indicating that the enclosed letter is a "Stockholder-Board Communication" or "Stockholder-Director Communication." All such letters must identify the author as a stockholder and clearly state whether the intended recipients of the letter are all members of the Board or certain specified individual directors. The Secretary will open such communications and make copies and then circulate them to the appropriate director or directors.

PROPOSAL 2 APPROVAL OF THE AMENDMENT TO THE COMPANY'S 2006 STOCK INCENTIVE PLAN

We are asking stockholders to approve an amendment to the Dynamic Materials Corporation 2006 Stock Incentive Plan (the "2006 Plan") to increase the number of shares of our common stock available for award by 675,000 shares. This amount is slightly less than 5% of the Company's currently outstanding shares of common stock. The amendment to increase the number of shares under the 2006 Plan is included in this proxy statement as Appendix A. Capitalized terms not otherwise defined in this section have the meaning set forth in the 2006 Plan.

Purpose of the 2006 Stock Incentive Plan

The purpose of the 2006 Plan is to attract and retain the best available personnel for positions of substantial responsibility, to provide additional incentive to Participants and to optimize the profitability and growth of the Company through incentives that are consistent with the Company's goals and that link the personal interests of Participants to those of the Company's stockholders. The 2006 Plan permits the grant of the following types of incentive awards: (1) Options, (2) Restricted Stock, (3) Restricted Stock Units ("RSUs"), (4) Stock Appreciation Rights ("SARs"), (5) Performance Shares, (6) Performance Units and (7) Other Stock-Based Awards. Over the past several years, the only awards we have issued under the 2006 Plan are restricted stock and RSU's, the restrictions on which typically lapse over a three year vesting period.

Background

The number of shares of the Company's Common Stock initially reserved for issuance under the 2006 Plan was 942,500 (which included 92,500 shares rolled over from our 1997 Equity Incentive Plan). As of March 31, 2013, the Company granted an aggregate of 942,500 shares of restricted stock and restricted stock units under the 2006 Plan, leaving zero shares available for future grant. The Company has also issued 7,500 shares of restricted stock units, subject to stockholder approval of this amendment, to Rolf Rospek, the former Chief Executive of our DYNAenergetics subsidiary and a current director of the Company.

If the amendment is approved, the number of shares available for future grants under the 2006 Plan will increase by 675,000. If stockholder approval is not obtained, then the amendment to the 2006 Plan will not be implemented, and the 2006 Plan will continue in effect pursuant to its current terms. Approval of the amendment will ensure that the Company is able to continue recruiting and retaining talented employees and directors and award, as a portion of their compensation package, equity awards that further align the employees' and directors' interests with the Company's stockholders.

Summary of the 2006 Stock Incentive Plan

The following paragraphs provide a summary of the principal features of the 2006 Plan and do not purport to be complete and are subject to and qualified in its entirety by the actual terms of the plan.

Background and Objectives. The objectives of the 2006 Plan are to attract and retain the best available personnel for positions of substantial responsibility, to provide additional incentive to Participants and to optimize the profitability and growth of the Company through incentives that are consistent with the Company's goals and that link the personal interests of Participants to those of the Company's stockholders. The 2006 Plan permits the grant of the following types of incentive awards: (1) Options, (2) Restricted Stock, (3) Restricted Stock Units ("RSUs"), (4) Stock Appreciation Rights ("SARs"), (5) Performance Shares, (6) Performance Units and (7) Other Stock-Based Awards (each individually, an "Award").

Table of Contents

Shares Subject to the 2006 Plan. The number of shares of the Company's Common Stock ("Shares") initially reserved for issuance under the 2006 Plan was 942,500 Shares (which included 92,500 shares rolled over from our 1997 Equity Incentive Plan). Upon approval of the amendment, the number of Shares will be increased to 1,617,500. In addition, the following Shares shall not be considered as having been issued under the 2006 Plan or the Prior Plan: (i) Shares that are potentially deliverable under an Award or a Prior Plan award that expires or is canceled, forfeited, settled in cash or otherwise settled without the delivery of Shares, (ii) Shares that are held back or tendered (either actually or by attestation) to cover the Exercise Price or tax withholding obligations with respect to an Award or a Prior Plan award, (iii) Shares that are issued pursuant to Awards that are assumed, converted or substituted in connection with a merger, acquisition, reorganization or similar transaction and (iv) Shares that are repurchased in the open market with Option Proceeds from Awards or a Prior Plan award, provided that the aggregate number of Shares deemed not issued pursuant to the repurchase of Shares with Options Proceeds shall not exceed the amount of such proceeds divided by the Fair Market Value of a Share on the date of exercise of the Option or Prior Plan option giving rise to such proceeds. However, for purposes of determining the number of Shares available for grant as Incentive Stock Options, only Shares that are subject to an Award or a Prior Plan award that expires or is canceled, forfeited or settled in cash shall be treated as not having been issued under the 2006 Plan or the Prior Plan. The market value of a Share as of April 3, 2013 was \$16.54.

Administration. The 2006 Plan is administered by a committee of the Board (the "Committee"). The Board of Directors has currently designated the Compensation Committee as the Committee for the 2006 Plan. Subject to the provisions of the 2006 Plan, the Committee has the authority to: (1) select the persons to whom Awards are to be granted, (2) determine whether and to what extent Awards are to be granted, (3) determine the size and type of Awards, (4) approve forms of agreement for use under the 2006 Plan, (5) determine the terms and conditions applicable to Awards, (6) establish performance goals for any Performance Period and determine whether such goals were satisfied, (7) amend any outstanding Award subject to shareholder approval as described below and participant consent in certain circumstances, (8) construe and interpret the 2006 Plan and any Award Agreement and apply its provisions and (9) subject to certain limitations, take any other actions deemed necessary or advisable for the administration of the 2006 Plan. All decisions, interpretations and other actions of the Committee shall be final and binding on all holders of Options or rights and on all persons deriving their rights therefrom. Subject to applicable law, the Committee may delegate its authority under the 2006 Plan.

Eligibility to Receive Awards. The 2006 Plan provides that Awards may be granted to Participants, except that Incentive Stock Options may be granted only to Employees. The approximate number of persons eligible to participate in the 2006 Plan is 50.

Code Section 162(m). The Company has designed the 2006 Plan so that it permits the issuance of Awards that are intended to qualify as performance-based under Section 162(m) of the Internal Revenue Code of 1986, as amended (the "Code").

No Repricing. The 2006 Plan prohibits repricing of Options and SARs, including by way of an exchange for another Award, unless stockholder approval is obtained.

Terms and Conditions of Stock Options. Each Option granted under the 2006 Plan is evidenced by an Award Agreement between the optionee and the Company and is subject to the following terms and conditions:

Exercise Price. The Committee sets the Exercise Price of the Shares subject to each Option, provided that the Exercise Price cannot be less than 100% of the Fair Market Value of the Company's Common Stock on the Option grant date. In addition, the Exercise Price of an Incentive Stock Option must be at least 110% of Fair Market Value if, on the grant date, the Participant owns stock possessing more than 10% of the total combined voting power of all classes of stock of the Company or any of its subsidiaries (a "10% Stockholder").

Table of Contents

Form of Consideration. The means of payment for Shares issued upon exercise of an option is specified in each option agreement. Payment generally may be made by cash, other Shares of Common Stock owned by the optionee, any other method permitted by the Committee, or by a combination of the foregoing.

Exercise of the Option. Each Award Agreement will specify the term of the Option and the date when the Option is to become exercisable, provided that except as specified in an Award Agreement upon a termination of employment or a Change in Control or Subsidiary Disposition, no Option may be exercisable prior to one (1) year from the date of grant. The 2006 Plan provides that in no event shall an Option granted under the 2006 Plan be exercised more than ten (10) years after the date of grant. Moreover, in the case of an Incentive Stock Option granted to a 10% Stockholder, the term of the Option shall be for no more than five (5) years from the date of grant.

Termination of Employment. If an optionee's employment terminates for any reason (including death or permanent disability), all Options held by such optionee under the 2006 Plan expire upon the earlier of (i) such period of time as is set forth in his or her Award agreement or (ii) the expiration date of the Option. The optionee may exercise all or part of his or her Option at any time before such expiration to the extent that such Option was exercisable at the time of termination of employment.

Terms and Conditions of Stock Appreciation Rights. SAR grants may be either freestanding or tandem with Option grants. Each SAR grant shall be evidenced by an agreement that shall specify the Exercise Price, the term of the SAR, the conditions of the exercise, and other such terms and conditions as the Committee shall determine.

The Exercise Price of SARs may not be less than 100% of the Fair Market Value of the Company's Common Stock on the grant date of the Award. The Committee, subject to the provisions of the 2006 Plan, shall have the discretion to determine the terms and conditions of SARs granted under the 2006 Plan. Each Award Agreement will specify the term of the SAR and the date when the SAR is to become exercisable, provided that except as specified in an Award Agreement upon termination of employment or a Change in Control or Subsidiary Disposition, no freestanding SAR may be exercisable prior to one year from date of grant.

Upon exercise of a SAR, the holder of the SAR shall be entitled to receive payment in an amount equal to the product of (i) the difference between the Fair Market Value of a share on the date of exercise and the Exercise Price and (ii) the number of shares for which the SAR is exercised. At the discretion of the Committee, payment to the holder of a SAR may be in cash, Shares of Common Stock or a combination thereof. To the extent that a SAR is settled in cash, the shares available for issuance under the 2006 Plan shall not be diminished as a result of the settlement.

SARs granted under the 2006 Plan expire as determined by the Committee, but in no event later than ten (10) years from the date of grant. No SAR may be exercised by any person after its expiration.

Share Limit for Stock Options and SARs. In order that such Awards may qualify as performance-based compensation under Section 162 (m) of the Code, no Participant may be granted Options and SARs to purchase more than 425,000 Shares in any 36-month period. If the Options are Incentive Stock Options, the maximum aggregate number of options that may be granted with respect thereto in any 12-month to any one Participant shall be 150,000 options.

Terms and Conditions of Restricted Stock and Restricted Stock Unit Grants. Each Restricted Stock and RSU grant shall be evidenced by an agreement that shall specify the purchase price (if any) and such other terms and conditions as the Committee shall determine.

The Committee shall have the discretion to determine (i) the number of Shares subject to a Restricted Stock Award or Restricted Stock Unit granted to any Participant and (ii) the conditions for vesting that

Table of Contents

must be satisfied, provided that there shall be a minimum vesting period of three years, which period may, at the discretion of the Committee, lapse on a pro-rated, graded, or cliff basis, except that the Committee has the discretion to provide for a shorter vesting period (not less than one year) for up to 5% of the shares available for Full-Value Awards under the 2006 Plan for Restricted Stock Units and up to 20% for Restricted Stock Awards.

Performance Share Grants. Each Performance Share grant shall be evidenced by an agreement that shall specify such other terms and conditions as the Committee, in its sole discretion, shall determine.

The Committee shall have complete discretion to determine (i) the number of Shares of Common Stock subject to a Performance Share Award and (ii) the conditions that must be satisfied for grant or for vesting, provided that, except in certain circumstances, there shall be a minimum vesting period of one year.

Share Limit for Restricted Stock, Restricted Stock Units, Performance Shares and Other Stock-Based Awards. In order that such Awards may qualify as performance-based compensation under Section 162(m) of the Code, no Participant shall be granted Restricted Stock, RSUs, Performance Shares, or Other Stock-Based Awards covering, in the aggregate, more than 425,000 Shares in any 36-month period.

Performance Units. Performance Units are similar to Performance Shares, except that they are cash-based and may be settled in Shares, cash or a combination of the two. The Shares available for issuance under the 2006 Plan shall not be diminished as a result of the settlement of a Performance Unit in cash. Each Performance Unit grant shall be evidenced by an Award Agreement that shall specify such terms and conditions as shall be determined at the discretion of the Committee, provided that there shall be a minimum vesting period of one year.

Limit for Performance Units. In order that such Awards may qualify as performance-based compensation under Section 162(m) of the Code, no Participant shall be granted a Performance Unit Award providing for a payment value of more than \$5,000,000 in any one fiscal year.

Other Stock-Based Awards. The Committee has the right to grant other stock-based Awards that may include, without limitation, grants of Shares based on attainment of performance goals, payment of Shares as a bonus in lieu of cash based on performance goals, and the payment of shares in lieu of cash under other Company incentive or bonus programs. The Committee shall have the discretion to determine the vesting of any such Award, provided that, except as specified in an Award Agreement upon a termination of employment or a Change in Control or Subsidiary Disposition, there shall be a minimum vesting period of three years, except that the Committee has the discretion to provide for a shorter vesting period (not less than one year) for up to 20% of the shares available for Full-Value Awards under the 2006 Plan, and provided further that an Award with a payment of Shares in lieu of cash under other Company incentive or bonus programs shall not be subject to a minimum vesting period.

Performance-Based Awards. The Committee may grant Award which are intended to qualify as "performance-based compensation" for purposes of deductibility under Section 162(m) of the Code. For any such Award, the Committee will establish the performance objectives to be used within 90 days after the commencement of the Performance Period, or, if less, 25% of the Performance Period applicable to such Award. The performance objectives to be used shall be selected from the following list of measures (collectively, the "Performance Measures"): total stockholder return, stock price, net customer sales, volume, gross profit, gross margin, operating profit, operating margin, management profit, earnings from continuing operations before income taxes, earnings from continuing operations, earnings per share from continuing operations, net operating profit after tax, net earnings, net earnings per share, return on assets, return on investment, return on equity, return on invested capital, cost of capital, average capital employed, cash value added, economic value added, cash flow, cash flow from operations, working capital,

working capital as a percentage of net customer sales, asset growth, asset turnover, market share, customer satisfaction and employee satisfaction. The targeted level or levels of performance with respect to the Performance Measures may be established at such levels and on such terms as the Committee may determine, in its discretion, on a corporate-wide basis or with respect to one or more business units, divisions, subsidiaries, business segments or functions, and in either absolute terms or relative to the performance of one or more comparable companies or an index covering multiple companies. Unless otherwise determined by the Committee, measurement of performance goals with respect to the Performance Measures above shall exclude the impact of charges for restructurings, discontinued operations, extraordinary items and other unusual or non-recurring items, as well as the cumulative effects of tax or accounting changes, each as determined in accordance with generally accepted accounting principles or identified in the Company's financial statements, notes to the financial statements, management's discussion and analysis or other filings the SEC. Awards that are not intended to qualify as "performance-based compensation" under Section 162(m) of the Code may be based on these or such other performance measures as the Committee may determine.

Non-Transferability of Awards. An Award granted under the 2006 Plan which is an Incentive Stock Option may not be sold, pledged, assigned, hypothecated, transferred or disposed of in any manner other than by will or by the laws of descent or distribution and may be exercised, during the lifetime of the recipient, only by the recipient. Other Awards will be transferable to the extent provided in the Award, except that no Award may be transferred for consideration.

Adjustments Upon Changes in Capitalization. In the event of any non reciprocal transaction between the Company and the stockholders of the Company that causes the per share value of shares underlying an Award to change, such as a stock dividend, stock split, spin off, rights offering, or recapitalization through a large, nonrecurring cash dividend, the Board shall, and in the event of any other change in corporate capitalization, such as a merger, consolidation, any reorganization (whether or not such reorganization comes within the definition of such term in Section 368 of the Code) or any partial or complete liquidation of the Company, the Board, in its sole discretion, may cause there to be made an equitable adjustment to the number and kind of shares that may be issued under the 2006 Plan, or to any individual under the 2006 Plan, and to the number and kind of shares or other property subject to and the exercise price (if applicable) of any then outstanding Awards, and such adjustment shall be conclusive and binding for all purposes of the 2006 Plan.

Change in Control. Except as provided in an Award Agreement, in the event of a Change in Control, if the successor corporation does not assume, convert, or replace outstanding options or SARs, those options or SARs shall become immediately vested and exercisable, provided that the Committee may, in its sole discretion, provide that such options and SARs are cashed out in connection with such Change in Control. Except as provided in an Award Agreement, any period of restriction or other restriction imposed on Restricted Stock, Restricted Stock Units, and other Stock-based Awards shall lapse unless such awards are assumed, converted, or replaced in connection with a Change in Control. Notwithstanding the foregoing, if any options, SARs, Restricted Stock, Restricted Stock Units, or Other Stock-Based Awards are assumed, converted, or replaced in connection with a Change in Control, such awards shall vest or become exercisable, as appropriate, upon a participant's termination of employment without Cause during the 24 month period following such Change in Control. Except as provided in an Award Agreement, any Performance Shares, Performance Units, and other performance-based awards shall vest on a pro rata monthly basis based on the performance level attained on the date of the Change in Control, if determinable, or target level, if not determinable.

Amendment, Suspensions and Termination of the 2006 Plan. The Company's Board of Directors may amend, suspend or terminate the 2006 Plan at any time; provided, however, that stockholder approval is required for any amendment to the extent necessary to comply with the NASDAQ listing standards or applicable laws. In addition, no amendment, suspension or termination may adversely impact an Award

Table of Contents

previously granted without the written consent of the Participant to whom such Award was granted unless required by applicable laws.

Federal Tax Aspects

The following paragraphs are a summary of the material U.S. federal income tax consequences associated with Awards granted under the 2006 Plan. The summary is based on existing U.S. laws and regulations, and there can be no assurance that those laws and regulations will not change in the future. The summary does not purport to be complete and does not discuss the tax consequences upon a Participant's death, or the provisions of the income tax laws of any municipality, state or foreign country in which the Participant may reside.

Incentive Stock Options. No taxable income is recognized when an Incentive Stock Option is granted or exercised, although the exercise is an adjustment item for alternative minimum tax purposes and may subject the optionee to the alternative minimum tax. If the Participant exercises the Option and then later sells or otherwise disposes of the Shares more than two years after the grant date and more than one year after the exercise date, the difference between the sale price and the Exercise Price generally will be taxed as long-term capital gain or loss. If these holding periods are not satisfied, the Participant will recognize ordinary income and be subject to withholding at the time of the sale or other disposition equal to the difference between the Exercise Price and the lower of (i) the Fair Market Value of the Shares at the date of the Option exercise or (ii) the sale price of the Shares. Any gain or loss recognized on such a premature disposition of the Shares in excess of the amount treated as ordinary income will be treated as long-term or short-term capital gain or loss, depending on the holding period.

Nonqualified Stock Options. No taxable income is recognized when a Nonqualified Stock Option is granted to a Participant with an Exercise Price equal to the Fair Market Value on the date of grant. Upon exercise, the Participant will recognize ordinary income in an amount equal to the excess of the Fair Market Value of the Shares on the exercise date over the Exercise Price. Any taxable income recognized in connection with the exercise of a Nonqualified Stock Option by an Employee is subject to tax withholding by the Company. Any additional gain or loss recognized upon later disposition of the Shares is capital gain or loss, which may be long-term or short-term capital gain or loss depending on the holding period.

Stock Appreciation Rights. No taxable income is recognized when a stock appreciation right is granted to a Participant. Upon exercise, the Participant will recognize ordinary income in an amount equal to the amount of cash received and the Fair Market Value of any Shares received. Any additional gain or loss recognized upon later disposition of the Shares is capital gain or loss, which may be long-term or short-term capital gain or loss depending on the holding period.

Restricted Stock, Restricted Stock Units, Performance Shares, and Performance Units. A Participant generally will not have taxable income upon grant of Restricted Stock, RSUs, Performance Shares, or Performance Units. Instead, the Participant will recognize ordinary income at the time of vesting, or, if later, settlement, equal to the Fair Market Value (on the vesting date) of the Shares or cash received minus any amount paid.

For Restricted Stock only, a Participant instead may elect to be taxed at the time of grant. This election is made within 30 days of the date of grant and is irrevocable. The amount included in a Participant's income at the time of grant is equal to the Fair Market Value of the underlying stock on the date of grant of the Restricted Stock. The Participant's holding period begins on the date of the election. If such an election is made and the Participant then forfeits the restricted stock, the Participant may not deduct as a loss the amount previously included in gross income.

Other Stock-Based Awards. A Participant generally will recognize income upon receipt of the Shares subject to Award (or, if later, at the time of vesting of such shares).

Table of Contents

Tax Effect for the Company. The Company generally will be entitled to a tax deduction in connection with an Award under the 2006 Plan in an amount equal to the ordinary income realized by a Participant and at the time the Participant recognizes such income (for example, the exercise of a Nonqualified Stock Option). Special rules limit the deductibility of compensation paid to the chief executive officer and to each of the next four most highly compensated executive officers. Under Section 162(m) of the Code, unless various conditions are met that enable compensation to qualify as "performance-based," the annual compensation paid to any of these specified executives will be deductible only to the extent that it does not exceed \$1,000,000. However, the 2006 Plan has been designed to permit the Committee to grant Awards that qualify as performance-based for purposes of satisfying the conditions of Section 162(m) of the Code, thereby permitting the Company to receive federal income tax deduction in connection with such Awards even to the extent that they exceed \$1,000,000.

Code Section 409A. Section 409A of the Code generally provides that any deferred compensation arrangement that does not meet specific requirements regarding (i) timing of payouts, (ii) advance election of deferrals, and (iii) restrictions on acceleration of payouts will result in immediate taxation of any amounts deferred to the extent not subject to a substantial risk of forfeiture. In addition to regular income taxes that result from such immediate taxation, a participant is subject to an interest penalty and an additional 20% in income taxes on the amounts immediately taxable as a result of a Section 409A violation. Payments that are subject to Section 409A and made by a publicly-held company upon the separation from service of certain officers and other individuals are subject to a 6-month delay.

Section 409A is broadly applicable to certain types of equity-based and cash-based compensation. For example, RSUs may be classified as deferred compensation subject to the requirements of Section 409A. Awards issued under the 2006 Plan are intended to be exempt from or comply with the requirements of Section 409A of the Code.

PROPOSAL 3 APPROVAL OF THE COMPANY'S PERFORMANCE-BASED PLAN

On March 11, 2013, The Compensation Committee approved the Dynamic Materials Corporation Performance-Based Plan (the "Plan") for the five year period ending December 31, 2017. Based on this approval and the Board's approval, the Board is submitting the Plan for stockholder approval. Under the plan, executive officers of the Company may receive annual cash incentive compensation based upon the achievement of a pre-established performance goal. As discussed further under the heading of "Compensation Discussion and Analysis," annual cash incentives are an integral part of the Company's compensation program. The plan is substantially similar in purpose to the Company's 2008 Performance-Based Plan, which had a five year term, and which was approved by the Company's stockholders at the 2009 annual meeting. Unlike the previous plan which contained one specific formula for the calculation of the performance compensation based upon the Company's net income, the Plan gives the Compensation Committee the flexibility of setting different performance goals each year. Capitalized terms not otherwise defined in this section have the meaning set forth in the Plan.

The Plan was designed to enable the annual bonus that may be earned by executive officers of the Company to be deductible in its entirety. Section 162(m) of the U.S. Internal Revenue Code of 1986, as amended (the "Code") generally limits to \$1,000,000 the deduction that a publicly-held company may claim in any year for compensation paid to each of its executive officers. However, an exception to this deduction limit applies to qualifying "performance-based" compensation, as defined under the Code. For a program such as the Plan to qualify for the performance-based compensation exception, the Company must obtain stockholder approval of the material terms of the program, including the eligible employees, the specific formula by which the bonus is calculated or the maximum amount payable to any individual for any specified period, and the performance criteria on which performance goals are based. In addition, other requirements for deductibility must be met. The material terms that the stockholders approve constitute the framework within which the Compensation Committee would set actual performance goals. The Board recommends approval of the Plan by our stockholders, so that compensation paid in accordance with the Plan will be eligible to qualify as performance-based compensation under the Code, provided the other requirements for deductibility are met.

Consistent with the Company's compensation philosophy, the Company expects that its incentive compensation program may result in one or more named executive officers receiving annual compensation in excess of \$1 million in some years. The Board accordingly recommends approval of the Plan to make awards granted under the Plan eligible for tax deductibility and believes that stockholder approval of the Plan is in the best interests of the Company and its stockholders.

The affirmative vote of a majority of the votes cast in person or by proxy by stockholders represented and entitled to vote at the meeting is required for approval of the Plan. If our stockholders do not approve the Plan, no payments relating to the specified performance goals under the Plan will be made to executives in excess of the deduction limits of Section 162(m) of the Code. We reserve the right to pay discretionary bonuses, or other types of compensation outside of the Plan. No executive has a guaranteed right to any discretionary bonus as a substitute for an award granted under the Plan in the event the specified performance goals are not met or that stockholders fail to approve the material terms of the Plan.

The following is a brief description of the material features of the Plan, which is qualified in its entirety by reference to the Plan. A copy of the full text of the Plan is attached to this proxy statement as Appendix B.

Summary of the Performance-Based Plan

Purpose. The purpose this Plan is intended to enable the Company to attract, retain, motivate and reward qualified senior executive officers by providing them with the opportunity to earn competitive annual bonus compensation directly linked to business unit performance and overall Company performance. Compensation paid under this Plan is intended to qualify as "performance-based"

Table of Contents

compensation" within the meaning of Section 162(m), so as to exempt such compensation from the deduction limits imposed by Section 162(m) and to make such compensation deductible by the Company for Federal income tax purposes.

Administration. The Compensation Committee will administer and interpret the Plan. The Compensation Committee will certify whether such performance goals have been met, and determine the amount of the Award to be paid following the end of the relevant Performance Period. The Compensation Committee's determinations under this Plan will be final and conclusive. The Compensation Committee shall have full power and authority to administer and interpret the Plan and to adopt such rules, regulations, agreements, guidelines and instruments for the administration of the Plan and for the conduct of its business as the Compensation Committee deems necessary or advisable.

Eligibility. Participation in the Plan is limited to officers of the Company selected by the Compensation Committee provided that in all events the Chief Executive Officer and Chief Financial Officer are participants. As part of this Proposal 3, the Compensation Committee is seeking stockholder approval to include two additional executives of the Company as Plan participants at a later date upon the election of the Compensation Committee: the Senior Vice President and General Manager, Nobelclad and Senior Vice President and General Manager, DYNAenergetics.

Establishment and Terms of Performance Periods. The Compensation Committee shall establish one or more Performance Periods under the Plan. Each Performance Goal must be established in writing no later than 90 days after the commencement of the relevant Performance Period or such shorter time period required for the pre-establishment of performance goals under Section 162(m). For each Performance Period the Compensation Committee shall (i) designate the Participants for such Performance Period, (ii) establish one or more objective Performance Goals for each Participant or class of Participants, and (iii) adopt objective formulas or standards for computing the amounts of Awards payable under the Plan based on actual results compared to the Performance Goals. The Performance Goals and target Award may be different, or may be weighted differently, for different Participants or classes of Participants.

The objective performance goals for each Performance Period shall be based upon one or more of the following performance criteria, as determined by the Compensation Committee: revenues or sales; EBITDA; adjusted pre-tax income; net income; operating income; earnings per share of the Company; book value per share; stockholders' equity; adjusted pre-tax return on stockholders' equity; expense management; total shareholder return; return on investment before or after the cost of capital; improvements in capital structure; profitability of the Company or an identifiable business segment, unit or product; maintenance or improvement of profit margins; stock price; market share; costs; cash flow; working capital; changes in net assets, whether or not multiplied by a constant percentage intended to represent the cost of capital; return on assets; debt ratings; debt or net debt to EBITDA ratio; debt or net debt to total capital ratios; debt or net debt to equity ratios; gross margins; closings/deliveries; net orders/growth; SG&A and expense management; procurement of land/well located lots; operating margins; mortgage capture rates; acquisitions/entrance into new markets; inventory turnover; liquidity; interest coverage; cost targets, reductions and savings; productivity and efficiencies; strategic business criteria; human resources management; supervision of litigation; economic value added; customer satisfaction; credit rating; debt to equity; cash to debt; inventory; land and other asset acquisitions; debt management; new debt issues; debt retirement. The foregoing criteria may relate to the Company, one or more of its subsidiaries, divisions or units, or any combination of the foregoing, and may be applied on an absolute basis and/or be relative to one or more peer group companies or other industries, or any combination thereof, as the Compensation Committee shall determine.

Notwithstanding the degree to which the applicable Performance Goals are satisfied, the Compensation Committee shall have the discretion to reduce the amount of any Participant's Award payout below the standard or formula amount to reflect individual performance and/or unanticipated factors.

Table of Contents

Compensation Limit. In no event will an amount be payable under the Plan to a Participant with respect to a Performance Period exceed the lesser of 150% of that Participant's base salary for such Performance Period or \$1,500,000.

Expiration. Unless earlier terminated, this Plan shall terminate on December 31, 2017, provided that the Company may continue to make payments hereunder following December 31, 2017 for Performance Periods that end on or prior to December 31, 2017. The Board may at any time amend or terminate this Plan, except that no amendment will be effective without approval by the Company's shareholders if such approval is necessary to qualify amounts payable hereunder as "performance-based compensation" under Section 162(m). No termination of this Plan shall affect performance goals and related Awards established by the Committee prior to such termination.

Certification of Bonus. Following the conclusion of any year and prior to the payment of any awards, the Compensation Committee will certify in writing the levels of attainment of the performance goals for the year and calculation of the total payable award for each participant. Awards shall be paid as soon as practicable following certification by the Compensation Committee, and no later than the 15th day of the third month following the end of the relevant performance period.

Federal Income Tax Consequences. Participants in the Plan will recognize in the year of payment ordinary income equal to the bonus award amount, which will be subject to applicable income and employment tax withholding by us. Under current guidance, we expect that awards under the Plan will satisfy the short-term deferral exception to Section 409A of the Code, which imposes restrictions on non-qualified deferred compensation arrangements.

We expect that we will be entitled to claim a deduction for federal income tax purposes equal to the amount of ordinary income recognized by the participant without regard to the \$1,000,000 per year deduction limit under Section 162(m) of the Code if the Plan is approved by our stockholders and the awards otherwise satisfy the requirements of Section 162(m) and other relevant provisions of the Code. Section 162(m) of the Code limits the deductibility of compensation paid to each of certain of our executive officers to no more than \$1,000,000 per year except for qualified performance-based compensation defined in applicable tax regulations. Generally, the executives subject to this limit consist of individuals who, on the last day of the taxable year, are the chief executive officer and the three highest compensated officers (other than the chief executive officer and the chief financial officer).

New Plan Benefits. The following table sets forth the potential awards payable to the executive officers, non-executive officer directors and employees for awards granted in 2013, subject to stockholder approval. The awards in the first column represent amounts which would have been received by each named executive officer for 2012 if the Performance-Based Plan, subject to stockholder approval of the plan as described in Proposal 3, had been in effect for that year. The awards in the second column represent awards granted during 2013 under the 2006 Plan, as amended, subject to stockholder approval of

PROPOSAL 4 ADVISORY VOTE TO APPROVE EXECUTIVE COMPENSATION

As described under the heading "Compensation Discussion and Analysis," our executive compensation program is designed to (1) attract, motivate and retain high-caliber managerial talent; (2) provide competitive compensation opportunities; (3) create incentives to achieve both short-term performance measures and long-term strategic goals; and (4) provide incentive programs that are linked to stockholder value. For additional information about our executive compensation program, please read the "Compensation Discussion and Analysis" beginning on page 29.

At our 2011 Annual Meeting, our stockholders voted in favor of holding an annual advisory vote on executive compensation. In line with this recommendation, our Board has decided to include an advisory stockholder vote on executive compensation in our proxy materials every year until the next required advisory vote on the frequency of stockholder advisory votes on executive compensation. We are asking our stockholders to indicate their support for the compensation of our named executive officers, as described in this proxy statement. This proposal, commonly known as a "say-on-pay" proposal, gives our stockholders the opportunity to express their views on the compensation of our named executive officers. This vote is not intended to address any specific item of compensation, but rather the overall compensation of our named executive officers and the philosophy, objectives and practices described in this proxy statement. Accordingly, we are asking our stockholders to vote "FOR" approval of the following resolution at our 2012 annual meeting:

"RESOLVED, that the compensation paid to the Company's named executive officers, as disclosed pursuant to the compensation disclosure rules of the Securities and Exchange Commission, including the Compensation Discussion and Analysis, compensation tables and narrative discussion is hereby APPROVED."

Requisite Vote

The advisory vote on the compensation of our named executive officers will be approved if the number of votes of authorized shares of our common stock cast in favor of this proposal exceeds the votes cast opposing this proposal. Abstentions and broker non-votes will not be counted as votes cast on the proposal. However, this say-on-pay vote is advisory, and therefore not binding on the Company, the Compensation Committee or our Board. Our Board and our Compensation Committee value the opinions of our stockholders and will consider the outcome of the vote when considering future decisions on the compensation of our named executive officers.

Table of Contents**PROPOSAL 5 RATIFICATION OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM**

The Audit Committee of the Board has selected Ernst & Young LLP ("E&Y") as our independent registered public accounting firm for the fiscal year ending December 31, 2013. E&Y has been so engaged since 2002.

Ratification of the selection of E&Y by stockholders is not required by law. However, as a matter of internal policy and good corporate governance, such selection is being submitted to the stockholders for ratification at the Annual Meeting and it is the present intention of the Board to continue this policy. If the stockholders do not ratify this appointment, the Audit Committee will reconsider whether to retain E&Y. If the selection of E&Y is ratified, the Audit Committee, in its discretion, may direct the appointment of a different independent registered public accounting firm at any time it decides that such a change would be in the best interest of the Company and its stockholders.

A representative of E&Y will be present at the annual meeting and will be available to respond to appropriate questions. We do not anticipate that the representative will make a prepared statement at the meeting; however, he or she will have the opportunity to do so if he or she so desires.

The Company paid the following fees to E&Y for the audit of the consolidated financial statements and for other services provided in the years ended December 31, 2012 and 2011.

	2012	2011
Audit Fees	\$ 693,574	\$ 625,324

- (1) Consists of reimbursement of costs incurred in connection with performance of work on the audit including transportation and meal expenses.
- (2) Tax Fees included fees related to federal and state tax compliance, tax advice and tax planning.

Audit Committee Pre-Approval Policies and Procedures

In accordance with the SEC's rules requiring the Audit Committee to pre-approve all audit and non-audit services provided by our independent auditor, the Audit Committee has adopted a formal policy on auditor independence requiring the approval by the Audit Committee of all professional services rendered by our independent auditor prior to the commencement of the specified services. The Audit Committee approved all services performed by E&Y in fiscal year 2012 in accordance with our formal policy on auditor independence.

Requisite Vote

The selection of our auditors will be ratified if the number of votes of authorized shares of our common stock cast in favor of the proposal exceeds the votes cast opposing the proposal. Abstentions and broker non-votes will not be counted as votes cast on the proposal.

REPORT OF THE AUDIT COMMITTEE OF THE BOARD OF DIRECTORS

As of December 31, 2012, the Audit Committee of Dynamic Materials Corporation (the "Company") was comprised of Messrs. Richard P. Graff (Chairman), Robert A. Cohen, James J. Ferris, Bernard Hueber and Gerard Munera, each of whom the Board of Directors of the Company has determined to be independent as that concept is defined in Section 10A of the Exchange Act, the rules promulgated by the SEC thereunder; and the applicable rules of the NASDAQ. As required by the written Charter of the Audit Committee, the Audit Committee reviewed and discussed the Company's audited financial statements with the Company's management. The Audit Committee has also discussed with Ernst & Young LLP ("E&Y"), the Company's independent registered public accounting firm, the matters required to be discussed by the Statement on Auditing Standards No. 61, as amended. The Audit Committee has received from E&Y the written disclosures and the letter required by the applicable requirements of the Public Company Accounting Oversight Board regarding the independent accountant's communications with the Audit Committee concerning independence, and the Audit Committee has discussed with E&Y that firm's independence. Based upon these discussions and the Audit Committee's review, the Audit Committee recommended to the Board of Directors that the Company include the audited financial statements in the Company's Annual Report on Form 10-K for the year ended December 31, 2012.

COMPENSATION PROCEDURES

Our executive compensation program is administered by our Compensation Committee. Below is a discussion of the process and procedures followed by the Compensation Committee in determining the 2012 compensation for our named executive officers as well as in setting the 2013 compensation levels and frame-work for 2013 performance bonus opportunities.

Roles of the Parties Involved in Executive Compensation Decisions

Role of Compensation Committee. As provided in the Compensation Committee Charter, the Compensation Committee is composed of at least three non-employee directors who are also "independent directors," as defined under the applicable corporate governance rules of NASDAQ, and operates pursuant to its charter. The Compensation Committee determines the compensation arrangements of our named executive officers and recommends to the Board for its consideration and approval, the aggregate amount of equity-based compensation for our other employees. The Compensation Committee seeks to ensure that our compensation policies and practices are consistent with our values and pay philosophy and support the successful recruitment, development and retention of executive talent who are focused on achieving our business objectives and optimizing our long-term financial returns to stockholders. Additional information regarding the Compensation Committee is contained in the section of this proxy statement entitled, "Board of Directors Board Committees and Meetings The Compensation Committee."

Role of Independent Compensation Consultant. Since early 2006, the Compensation Committee has engaged an independent compensation consultant to assist the Compensation Committee in making compensation decisions with respect to the named executive officers. Harlon Group has served as the compensation consultant to the Compensation Committee since mid-2009. Harlon Group is an independent firm that provides consultation services to boards of directors and their compensation committees and does not provide any other services to us. The Compensation Committee engaged Harlon Group to review the Company's overall executive officer and director compensation in comparison to other comparably-sized public companies in industries similar to the Company's, to help the Compensation Committee identify the appropriate mix of compensation components for compensating our executive officers and to facilitate the Compensation Committee's determination of our executive officers' performance bonus payments. Harlon Group does not provide any other services to the Company or our management or have any other direct or indirect business relationships with us or our management. The Compensation Committee has assessed the independence of Harlon Group and concluded that its work does not raise any conflicts of interest.

Role of Chief Executive Officer in Compensation Decisions. Our Chief Executive Officer confers with the chairman of the Compensation Committee in determining the base salary compensation for the executive officers other than himself. For 2012 our Chief Executive Officer also proposed recommendations to the Compensation Committee as to the 2012 performance bonus for each of the named executive officers other than the Chief Executive Officer. The Compensation Committee also asked for the input of our Chief Operating Officer as to the 2012 performance bonus for each of the named executive officers other than the Chief Executive Officer and Chief Operating Officer.

Meetings of Compensation Committee

The 2012 salary and framework for performance bonuses for Messrs. Cariou, Santa, Rospek and Banker were set by the Compensation Committee at its November 2011 and January 2012 meetings. The Compensation Committee approved the amount of Mr. Longe's 2012 salary and guaranteed bonus, which was negotiated between the Company and Mr. Longe in connection with his commencement of employment with us in July 2012 as our Chief Operating Officer and set forth in his employment agreement. The formula for the incentive bonus for Messrs. Cariou, Santa and Banker that was earned for

2012 is contained in the Company's Performance-Based Plan that was approved by stockholders at the 2009 annual stockholders meeting. The formula for Mr. Rospek's incentive bonus was approved by the Compensation Committee following consultation with our Chief Executive Officer and included in Mr. Rospek's January 2011 employment agreement. The Compensation Committee had two meetings in November 2012 and January 2013 to determine 2012 performance bonuses for Messrs. Cariou, Santa, Banker and Rospek and 2012 equity grants for all of the named executive officers as well as to set compensation for 2013 for the named executive officers. The Compensation Committee also reviewed and refined its philosophy on compensating our executive officers at each of the meetings at which it set compensation for 2012 and 2013.

At the direction of the Compensation Committee, Harlon Group prepared various materials and analysis to assist the Compensation Committee in its review and determination of compensation for the named executive officers.

Comparator Group Research

At the direction of the Compensation Committee, Harlon Group researched market compensation levels and trends and presented its reports to the Compensation Committee in November 2011 for 2012 compensation decisions and in November 2012 for 2013 compensation decisions. This research focused on all aspects of compensation for our named executive officers. The research included identifying compensation levels by executive position, with a break-out by salary, bonus and equity grants. Among other things, the research also identified the proportion of total pay that is based on performance as well as the compensation for various executive officer positions relative to one another. The research compared the Company's historic levels of executive compensation to that of the median and mean of comparator groups. In mid-2012 the Compensation Committee instructed Harlon Group to provide a reset comparator group to reflect the larger contribution, on a percentage basis, made by the oilfield products segment to the Company's financial results

2012 Compensation 2010-2011 Comparator Group. Harlon Group gathered research data from several different data sources, including various executive compensation surveys of companies in metal fabrication and advanced metals industries with comparable annual revenues (ranging from \$138 million to \$520 million). Data for those few competing companies in our primary industry is not available. Our competitors are either privately-held, foreign-owned and/or are wholly-owned subsidiaries or divisions of larger companies and no applicable compensation information is publicly-available. Rather, we have reviewed the executive compensation packages of a "comparator group" of similarly-sized, public companies that operate in metal fabrication and advanced metals industries, for 2012 consisting of: Altra Holdings, Inc.; AZZ Incorporated; Cabot Microelectronics Corp.; CARBO Ceramics, Inc.; Chart Industries Inc.; Gorman-Rupp Company; Great Lakes Dredge & Dock Corporation; Haynes International Inc.; Houston Wire & Cable Company; Insteel Industries, Inc.; L.B. Foster Company; LMI Aerospace, Inc.; McGrath RentCorp; Preformed Line Products; RTI International Metals, Inc.; Sun Hydraulics Corporation; T-3 Energy Services, Inc.; and Universal Stainless & Alloy Products, Inc. Though not an exact match to our Company, we believe that these metal fabrication and advanced metals industries companies are our closest relevant comparators.

2013 Compensation Reset 2012 Comparator Group. For 2013 compensation decisions, Harlon Group gathered research data from several different data sources, including various executive compensation surveys of companies in metal fabrication, advanced metals and oilfield products and services industries and comparable annual revenues (ranging from \$137 million to \$480 million, and a median of \$253 million). The reset "comparator group" consists of: Cal Drive International, Inc., Compx International Inc., Forbes Energy Services Ltd., Friedman Industries, Incorporated, The Gorman Rupp Company, Gulf Island Fabrication, Inc., Insteel Industries, Inc., Material Sciences Corporation, MFRI, Inc., NN, Inc., PGT, Inc., RBC Bearings Incorporated, Sun Hydraulics Corporation; Synalloy Corporation, and Universal Stainless & Alloy Products, Inc.

COMPENSATION COMMITTEE INTERLOCKS AND INSIDER PARTICIPATION

During the fiscal year ended December 31, 2012, the Compensation Committee was composed of Messrs. Allen, Cohen, Ferris, Hueber and Munera, with Mr. Allen serving as the Chairman until May 24, 2012 and Mr. Cohen serving as Chairman thereafter. We do not have any interlocking relationships between any member of our Compensation Committee and any of our executive officers that would require disclosure under the applicable rules promulgated under the U.S. federal securities laws.

COMPENSATION DISCUSSION AND ANALYSIS

Philosophy and Objectives of Our Executive Compensation Program

Our compensation philosophy is to (i) provide a compensation program that attracts, motivates, and retains high-caliber managerial talent; (ii) offer compensation opportunities that are competitive with those provided by other comparable U.S. public companies as determined by our market research; (iii) create incentive compensation opportunities that emphasize the importance of achieving both short-term performance measures (*i.e.*, annual) and long-term strategic goals; and (iv) sponsor incentive pay programs which are linked to stockholder value. The primary elements of our executive compensation program include base salary, an annual incentive bonus based on the net income of the Company, an annual performance bonus based on achievement of non-objective criteria and equity grants of restricted stock or units.

Below is a brief summary of the objectives of our executive compensation program:

1. **Linkage to Performance.** Our executive compensation program is designed to link executive compensation to the Company's performance as well as the individual executive's performance. A sizable portion of each named executive officer's total compensation package is linked to accomplishing specific and measurable goals, including growing revenue profitably and increasing stockholder value. For 2012, the Compensation Committee used net income as the performance measure for the award of incentive bonuses and will use revenues and EBITDA as the performance measure for the award of 2013 incentive bonuses. Our equity awards are performance based because they take into account the increase or decrease in the trading price of our common stock over a period of years.

We believe that the interests of our named executive officers should be closely aligned with those of our stockholders. We have historically granted shares of restricted stock to our executive officers to reinforce a long-term focus on delivering value to stockholders. We also provided retirement compensation in 2008 in the form of shares of restricted stock, the restrictions of

Table of Contents

which lapsed in early 2013, five years following the date of grant. The Compensation Committee believes that our incentive bonuses and equity awards provide compensation opportunities that are driven by the Company's performance.

2.

Stock Ownership Guidelines. Our Compensation Committee and Board strongly believe that the best way to strengthen the link between our named executive officers (and directors) and stockholders is to encourage these individuals to own a significant amount of our common stock. After a three-year phase-in period, each of the individuals is expected to own our common stock with a minimum value as follows: our Chief Executive Officer is expected to hold common stock with a value that is at least five times his base salary; each of our Chief Financial Officer and Senior Vice President, Customers and Technology is expected to hold common stock with a value that is at least three times his base salary; and within three years of election as a non-employee director, each non-employee director is expected to hold common stock with a value that is at least five times the director's annual cash fees from serving as a director. Restricted stock and stock options are not counted for purposes of these guidelines.

3.

Pay Mix. We strive for a pay mix that reflects our compensation philosophy and performance-based compensation culture. A high proportion of total pay of our named executive officers is based on incentive and performance bonuses and equity awards that tie compensation to the Company's performance as well as the performance of the executive. Approximately two-thirds or more of the total compensation packages of our named executive officers is intended to be delivered through non-salary, short-term and long-term incentives.

4.

Competitive Compensation Levels. We operate in a competitive business environment; therefore, our compensation program is intended to support our goal of attracting and retaining highly talented employees. We believe our named executive officers should be compensated relative to the market median of comparable companies and consistent with the Company's performance.

During 2012, we compared the compensation of our named executive officers to market data gathered by our compensation consultant to help establish compensation levels for each executive. See "Compensation Procedures Comparator Group Research" above. We selected median as the targeted level of compensation as we do not intend to pay compensation at levels significantly below or above the midpoint of our competitive market, taking into account the Company's performance compared to that of the comparator group. In comparing actual total direct compensation paid to our named executive officers for 2010 and 2011 against the actual median of our comparator group for the same years, we note that our compensation for those years was slightly below the median of the comparator group. Our philosophy on annual and long-term incentive compensation is that it should vary with our performance, relative to budgets, goals and expectations.

5.

Perquisites. In 2012, our named executive officers received certain supplemental life insurance benefits. Coverage under the supplemental life insurance policies for 2012 was \$750,000 for our Chief Executive Officer, \$500,000 for our Chief Operating Officer, \$415,000 for each of the other two U.S.-based named executive officers, our Chief Financial Officer and Senior Vice President, Customers and Technology and €250,000 (\$321,450 based on the average exchange rate for 2012) for the Chief Executive Officer of our DYNAenergetics subsidiary. Also in 2012 we leased automobiles for each of our named executive officers. We paid all operating expenses associated with the leased automobiles. We paid \$30,025 of housing and relocation expenses in connection with the hiring of our new Chief Operating Officer in 2012 and his relocation near our corporate office.

6.

Retirement Benefits. Through the end of 2012, we did not sponsor any retirement plan for executives that would provide a pension benefit above the level provided to our other employees. We provide all eligible employees, including the U.S.-based named executive officers, with a

Table of Contents

401(k) savings plan to which we make matching contributions. The 401(k) savings plan allows eligible employees to defer a percentage of their eligible compensation on a pre-tax basis, subject to the applicable dollar limit set by the Internal Revenue Service. We make a matching contribution of 100% of an employee's contribution up to 3% of eligible compensation and 50% of an employee's contribution on the next 2% of eligible compensation. Under the terms of the employment agreement for our European-based named executive officer, we made payments of €56,169 (\$72,222 based on the average exchange rate for 2012) under a retirement insurance policy. As described below, in 2008, we granted three of the named executive officers supplemental retirement plan compensation in the form of restricted stock that vested in early 2013, five years from the date of grant.

7.

Employment Contracts and Severance Protection. Each of our named executive officers had employment agreements with us with a term ending on December 31, 2012, other than Mr. Longe's Chief Operating Officer employment agreement, which has no specified term but rather specified notice and payment provisions upon termination by the Company. The primary purpose of the employment agreements was to set forth with clarity the terms and conditions of the executive's employment, to protect us from certain business risks (e.g., disclosure of trade secrets and improper competitive conduct), and to specify our right to terminate the employment relationship under various conditions. The employment agreements also protect the executive from certain risks, including termination of employment without cause. The agreements other than Mr. Longe's employment agreement do not, however, provide any special terms pertaining to a change in control of the Company. In 2013 we entered into a new employment agreement with Mr. Longe in connection with his role as our Chief Executive Officer as well as a severance payment agreement with Mr. Santa. We do not have employment agreements with the other officers who we expect to be our named executive officers for 2013. A summary of the provisions of the employment agreements for our named executive officers can be found below under "Employment Agreements."

Primary Elements of Our Executive Compensation Program

Our philosophy regarding each element of our executive compensation program is as follows:

1.

Base salary is what we pay our named executive officers for their efforts for doing their job, given their scope of responsibility and their accountability for results that impact our success;

2.

An annual incentive bonus is what we pay our named executive officers for the short-term results of their efforts, measured by the net income of the Company or a business segment of the Company;

3.

An annual performance bonus is what we pay our named executive officers for the results of their efforts judged by the Compensation Committee by reference to specified individual non-objective performance goals; and

4.

Long-term/stock incentive compensation is what we pay executives as both rewards for performance during the past year and as forward looking incentives to promote long-term results for their efforts, for growing the value of the enterprise, and for enhancing value for our stockholders.

Base Salary. When establishing base salaries for our named executive officers, the Compensation Committee considers compensation paid for similar positions at comparable companies included in compensation surveys. Using this information, it establishes salary guidelines that reflect the responsibilities of the executive in relation to similar positions in comparable companies. The Compensation Committee considers the named executive officer's performance against certain corporate objectives, such as successful execution of our strategies; comparisons of budgeted amounts to actual

Table of Contents

amounts; and our overall profitability. Other factors, such as specific job responsibilities, length of time in their current position, and the potential for future advancement influence the Compensation Committee's final determination of salaries for the named executive officers.

Annual Incentive Bonus. Pursuant to our Performance-Based Plan approved by our stockholders, we provide annual incentive bonus awards for our Chief Executive Officer, Chief Financial Officer and Senior Vice President, Customers and Technology to promote the achievement of our short-term (*i.e.*, annual) business objectives, which are also tied to stockholder value. The amount of the incentive bonus is based on the net income of the Company recognized for that fiscal year. The annual incentive bonus is paid in cash following completion of the audited financial statements of the Company for that year and certification, pursuant to Section 162(m) of the Internal Revenue Code, by the Compensation Committee. Under the terms of his employment agreement, we provide a similar annual incentive bonus award for the Chief Executive Officer of our DYNAenergetics subsidiary, the amount of which is based in part on the net income of the Company and in part on the operating income of our Oilfield Products segment recognized for that fiscal year.

Annual Performance Bonus. We provide annual performance bonus awards for our named executive officers to promote individual performance in meeting or exceeding objectives contained in the Company's strategy. This strategy and the performance objectives are updated and reviewed annually. The amount of the performance bonus award varies by the extent to which the named executive officer's target objectives are achieved. The total amount of performance bonus that may be awarded is set at a percentage of the named executive officer's base salary as provided in their respective employment agreements. At the start of each fiscal year, the Compensation Committee reviews and approves our non-objective performance goals for the named executive officers. Our objectives consist of operating, strategic, and financial goals that are considered critical to our fundamental long-term goal of building stockholder value.

After the end of the fiscal year, the Compensation Committee evaluates the performance of each named executive officer in meeting these target objectives. Awards are paid in cash following the determination of the award amounts.

Long-Term Incentives and Retirement Benefits. We currently provide long-term incentive awards to our named executive officers through our 2006 Stock Incentive Plan. While the 2006 Stock Incentive Plan permits a broad range of types of equity grants, the past several years we have only made awards in the form of restricted stock grants. The purpose of the 2006 Stock Incentive Plan is to enable us to attract, retain and motivate our named executive officers and to align a significant portion of executive compensation with the long-term interests of our stockholders.

In January 2013, we made grants of restricted stock to our named executive officers. These grants typically vest in equal installments over three years, subject to continued employment with us. In light of Mr. Banker's retirement on December 31, 2012 and Mr. Cariou's planned retirement on March 1, 2013, in lieu of shares to these executives we paid cash in an amount equal to the value of the shares of stock awarded based on the closing price of the Company's stock on the following day. The purposes of the restricted stock grants typically are to retain the executive over a long timeframe and further strengthen the link between the named executive officer's compensation and the goal of building long-term value for stockholders. To the extent that dividends are declared and paid by the Company, any such dividends are paid on shares of restricted stock held by our named executive officers both prior to and after their vesting dates. In January 2012, we made similar grants of restricted stock, vesting over three years, to our named executive officers. We also made a special grant of restricted stock, vesting at the end of five years, to three of our named executive officers in January 2011. In anticipation of the retirements of Messrs. Cariou and Banker after long service to the Company, the Compensation Committee accelerated the lapse of all remaining restrictions on all restricted stock previously granted to these two executives, effective upon their respective retirement dates.

Table of Contents

In January 2008, we established a Supplemental Executive Retirement Plan ("SERP") to provide additional retirement benefits to Messrs. Cariou, Santa and Banker based upon their salary levels, ages and years of service with the Company. The SERP benefit consists of shares of restricted stock granted under the 2006 Stock Incentive Plan. The Compensation Committee used the principles of a "defined benefit" pension plan to determine the number of shares of restricted stock to be granted to each of the executives. The shares of restricted stock vested in January 2013, five years from date of grant.

In consideration of Mr. Cariou's long and successful service to the Company, the Compensation Committee made a special award to Mr. Cariou upon his March 1, 2013 retirement of 70,000 shares of common stock, payable in shares or cash, at Mr. Cariou's election, equal to the closing price on his retirement date. Mr. Cariou elected to receive payment of this special award through the issuance of 37,650 shares of common stock and a cash payment of \$550,274, which was equal to 32,350 shares multiplied by the March 1, 2013 closing price of \$17.01 per share.

2012 Advisory Vote on Executive Compensation

At our 2012 annual meeting of stockholders, we received an approximately 94% vote approving, on a non-binding advisory basis, our 2011 executive compensation. This vote accounts for all of the shares that voted for or against this "say-on-pay" proposal and does not include the "broker non-votes" or small number of shares that abstained from voting on this proposal. We believe this vote demonstrates our stockholders' approval of the Compensation Committee's compensation philosophy and the manner and amount in which it set compensation for 2011. We followed a similar approach in 2012.

Compensation Decisions for Our Named Executive Officers

Compensation of Chief Executive Officer. In determining the compensation of Mr. Cariou, our President and Chief Executive Officer for 2012, the Compensation Committee focused on (i) competitive levels of compensation for chief executive officers who are leading a company of similar size and complexity and (ii) the importance of retaining a chief executive officer with the strategic, financial and leadership skills to ensure our continued growth and success, especially during the period his successor was to be selected and groomed for the transition. Harlon Group has advised us that Mr. Cariou's base salary, annual incentive target opportunity, and equity-based compensation for 2012 are consistent with reasonable and competitive practices for high-performing chief executive officers.

A key task for Mr. Cariou in 2011 and 2012 was to assist the Board in planning for and implementing the Chief Executive Officer succession initiative upon his retirement. Mr. Cariou was instrumental in this critical process which led to the hiring of Mr. Longe as the Company's Chief Operating Officer in mid-2012 and his becoming the Company's President and Chief Executive Officer on March 1, 2013. So as to remove any compensation considerations from the decision as to the appropriate date for Mr. Longe's appointment as Chief Executive Officer and Mr. Cariou's retirement from that position, the Compensation Committee determined to pay Mr. Cariou as compensation for 2013 an amount equal to his 2012 compensation, regardless of the date in 2013 that Mr. Cariou and the Board determined as the time for the transition to a new Chief Executive Officer.

During 2012, Mr. Cariou continued to demonstrate strong leadership and vision for us, to implement key strategic initiatives that strengthen us and increase long-term stockholder value, and to enhance our competitiveness. Despite the difficult economic and market challenges facing the Company in 2012, we believe Mr. Cariou's leadership has been exceptional in enabling the Company to maintain a similar level of sales and margins to what it achieved in 2011 while wisely using Company resources in furthering opportunities for the Company's growth. We believe Mr. Cariou's efforts have been essential in our ability to hire and smoothly transition the Company's leadership to Mr. Longe.

Base Salary. For 2012, Mr. Cariou's base salary was \$483,147, a 3% increase from 2011.

Table of Contents

Annual Bonus. We paid Mr. Cariou a total bonus of \$419,226 for his performance in 2012. This bonus was comprised of two components: an incentive bonus pursuant to the Company's Performance-Based Plan and a performance bonus determined at the discretion of the Compensation Committee. Mr. Cariou's 2012 annual incentive bonus was \$292,400, which is 2.5% of our annual consolidated net income for the year. The performance bonus was \$126,826, which represented 26.3% (out of a possible 35% maximum target) of Mr. Cariou's salary. The Compensation Committee determined the amount of this performance bonus based on its assessment of contributions by Mr. Cariou in achieving important non-objective corporate goals related to development, leadership and executive management, organic growth, safety, quality and risk management, operational and financial performance and investor relations.

Long-Term Incentives. In light of Mr. Cariou's pending retirement, in January 2013 we awarded him \$465,000 in cash, in lieu of the usual long-term incentive restricted stock award. This amount is equivalent to 30,000 shares of the Company's stock at the closing price on January 16, 2013, the effective date of the award. The award reflects our view of the value of Mr. Cariou's long-term contribution to, and leadership of the Company and the long-term benefits realized by our stockholders. In January 2012, we made a grant of 30,000 shares of restricted stock to Mr. Cariou, vesting over three years or on earlier retirement.

Compensation of the Other Named Executive Officers.

Kevin T. Longe *Chief Operating Officer (our Chief Executive Officer effective as of March 1, 2013).*

Base Salary. For 2012, Mr. Longe's annualized base salary was \$350,000. His base salary was increased to \$450,000 effective upon Mr. Longe becoming our President and Chief Executive Officer on March 1, 2013.

Annual Bonus. We paid Mr. Longe a starting bonus of \$200,000 for his performance in 2012.

Mr. Longe is eligible for a 2013 total bonus opportunity in an amount up to 180% of his base salary. 70% of this bonus opportunity will be based on objective performance criteria established by the Compensation Committee and 30% of the bonus opportunity will be based on non-objective criteria as determined by the Compensation Committee.

Long-Term Incentives. Mr. Longe was not eligible to receive a long-term incentive award for 2012. When Mr. Longe became our Chief Executive Officer in March 2013, he was awarded 30,000 shares of restricted stock. These shares of restricted stock are scheduled to vest annually in equal installments over three years.

Richard A. Santa *Senior Vice President, Chief Financial Officer and Secretary.*

Base Salary. For 2012, Mr. Santa's base salary was \$301,970, a 3% increase from 2011. The Compensation Committee determined to increase Mr. Santa's base salary to \$309,519 for 2013 (an increase of 2.5%).

Annual Bonus. We paid Mr. Santa a total bonus of \$175,542 for his performance in 2012. This bonus was comprised of two components: an incentive bonus pursuant to the Company's Performance-Based Plan and a performance bonus determined at the discretion of the Compensation Committee. Mr. Santa's 2012 annual incentive bonus was \$116,960, which is 1.0% of our annual consolidated net income for the year. The Compensation Committee awarded a performance bonus of \$58,582, which represented 19.4% (out of a possible 25% maximum target) of Mr. Santa's salary. The Compensation Committee determined the amount of this performance bonus based on how well the Committee believed Mr. Santa achieved important non-objective corporate goals related to operational and financial performance, safety, quality and risk management, development, leadership and executive management, organic growth and investor relations.

Table of Contents

Mr. Santa is eligible for a 2013 total bonus opportunity in an amount up to 108% of his base salary. 70% of this bonus opportunity will be based on objective performance criteria established by the Compensation Committee and 30% of the bonus opportunity will be based on non-objective criteria as determined by the Compensation Committee.

Long-Term Incentives. We granted Mr. Santa a restricted stock award of 12,500 shares effective January 16, 2013. These shares of restricted stock are scheduled to vest annually in equal installments over three years. The grant reflects (i) our view of the value of Mr. Santa's long-term contribution to, and leadership of, the Company and the long-term benefits realized by our stockholders, (ii) the Compensation Committee's and the Board's desire to retain Mr. Santa and foster his desire to exceed their expectations, and (iii) competitive marketplace practices. In January 2012, we made a similar grant of 12,500 shares of restricted stock to Mr. Santa, vesting over three years.

John G. Banker *Senior Vice President, Customers and Technology (Retired December 31, 2012).*

Base Salary. For 2012, Mr. Banker's base salary was \$301,970, a 3% increase from 2011.

Annual Bonus. We paid Mr. Banker a total bonus of \$175,089 for his performance in 2012. This bonus was comprised of two components: an incentive bonus pursuant to the Company's Performance-Based Plan and a performance bonus determined at the discretion of the Compensation Committee. Mr. Banker's 2012 annual incentive bonus was \$116,960, which is 1.0% of our annual consolidated net income for the year. The Compensation Committee awarded a performance bonus of \$58,129, which represented 19.25% (out of a possible 25% maximum target) of Mr. Banker's salary. The Compensation Committee determined the amount of this performance bonus based on how well the Committee believed Mr. Banker achieved important non-objective corporate goals related to sales growth, safety, quality and risk management, development, leadership and executive management.

Long-Term Incentives. In light of Mr. Banker's pending retirement, in January 2013 we awarded him \$193,750 in cash, in lieu of the usual long-term incentive restricted stock award. This amount is equivalent to 12,500 shares of the Company's stock at the closing price on January 16, 2013, the effective date of the award. The award reflects our view of the value of Mr. Banker's long-term contribution to the Company and the long-term benefits realized by our stockholders. In January 2012, we made a grant of 12,500 shares of restricted stock to Mr. Banker, vesting over three years or on earlier retirement.

Rolf Rospek *Director and DYNAenergetics Chief Executive Officer (Retired December 31, 2012).*

Base Salary. For 2012, Mr. Rospek's base salary was €195,700 (\$251,631 based on the average exchange rate for 2012) an increase of 3% from 2011.

Annual Bonus. We paid Mr. Rospek a total bonus of \$166,695 for his performance in 2012. This bonus was comprised of two components: an incentive bonus pursuant to the Company's Performance-Based Plan and a performance bonus determined at the discretion of the Compensation Committee. Mr. Rospek's annual incentive bonus was \$128,950, which is an amount equal to the sum of (1) 0.5% of the Company's annual net income and (2) 1.0% of the annual operating income of the oilfield products segment of the Company. The Compensation Committee awarded a performance bonus of \$37,745, which represented 15% (out of a possible 25% maximum target) of Mr. Rospek's salary. The Compensation Committee determined the amount of this performance bonus based on operational and financial performance, development, leadership and executive management, organic growth, safety, quality and risk management.

Long-Term Incentives. We granted Mr. Rospek a restricted stock unit award of 12,500 shares effective January 16, 2013. These shares of restricted stock vest annually in equal installments over three years; provided, however, if the Company's consulting agreement with Mr. Rospek is not extended beyond its December 31, 2014 term, the remaining restrictions on the restricted stock will automatically lapse

Table of Contents

on December 31, 2014. The grant reflects our view of the value of Mr. Rospek's long-term contribution to the Company and the long-term benefits realized by our stockholders. In January 2012, we made a similar grant of 12,500 shares restricted stock units to Mr. Rospek, vesting over three years.

Consulting Agreement. In September 2012, we entered into a consulting agreement to use Mr. Rospek's consulting services on a part-time basis in 2013 and 2014 following his retirement from the Company. See "Employment Agreement-Rolf Rospek."

Note on Currency Translation. Mr. Rospek's compensation is paid to him in Euros. All amounts described in U.S. Dollars were converted using an average exchange rate for 2012 of approximately 1.2858.

Impact of Regulatory Requirements

Income Tax Considerations. Under Section 162(m) of the Internal Revenue Code, unless various conditions are met that enable compensation to qualify as "performance-based," the annual compensation paid to each of our three U.S.-based named executive officers who are covered employees will be tax-deductible only to the extent that it does not exceed \$1,000,000. The 2006 Stock Incentive Plan as well as the Performance Based Plan have been designed to permit the Compensation Committee to grant awards that may qualify as performance-based compensation for purposes of Section 162(m) of the Code provided certain other requirements are met. The Compensation Committee generally intends that compensation paid by us will be tax-deductible. However, it may choose to pay nondeductible compensation if it deems it necessary or desirable to attract, retain and reward the executive talent necessary for our success. For example, the restricted stock awards issued under the SERP in 2008 and other restricted stock awards that include time-based vesting do not satisfy the conditions of Section 162(m) of the Code for qualifying performance-based compensation, and we anticipate that amounts payable under the SERP at the end of the five year period and other restricted stock awards that, together with other compensation paid in that year, exceed \$1,000,000 will not be deductible for federal income tax purposes.

Accounting Considerations. We are required to treat stock options and restricted stock as an expense under FASB ASC Topic 718, "Share-Based Payments." The Compensation Committee takes this requirement into account in setting the awards under the 2006 Stock Incentive Plan and the vesting schedule that attaches to those awards.

Summary

The Compensation Committee and the Board set executive compensation policy and pay opportunities for our named executive officers by keeping in mind competitive practice for a company like Dynamic Materials Corporation, the importance of incentivizing performance, and the continuing need to align the executives' interests with those of our stockholders.

On January 9, 2008, the Board approved the SERP for the named executive officers. Under the terms of the SERP, on January 9, 2008, the Compensation Committee granted 35,000, 25,000 and 30,000 restricted shares of Company stock to Messrs. These restricted shares were issued from the 2006 Stock Incentive Plan and vested on Mr. Banker's December 31, 2012 retirement date as to the shares awarded him and on the regularly scheduled vesting date of January 9, 2013 for shares awarded to Messrs. Cariou and Santa.

Table of Contents**POTENTIAL PAYMENTS UPON TERMINATION**

The table below sets forth the potential payments to our named executive officers under various termination scenarios including termination without cause, termination as a result of death or disability and termination as a result of retirement, under the terms of their respective current employment agreements, the 2006 Stock Incentive Plan, and the 1997 Equity Incentive Plan. For purposes of this table, we have assumed the date of termination of employment (regardless of the circumstances) is December 31, 2012, and that termination occurred under the terms of the current employment agreements, which are effective beginning January 1, 2010 for Messrs. Cariou, Santa and Banker and beginning January 1, 2011 for Mr. Rospek. The price of our common stock on December 31, 2012 was \$13.90. We have not included the financial effect of a termination for cause as the named executive officers are not entitled to any further compensation or benefits following such a termination. Furthermore, the amounts shown in the tables below do not include payments to the extent they are provided on a non-discriminatory basis to salaried employees generally upon termination of employment, including accrued salary and vacation pay. Payment of salary continuation upon termination will be made in monthly payments while any salary owed upon termination will be paid in a single lump sum. Payment of these amounts after termination without cause is generally conditioned upon the former executive's execution of release and waivers and continued compliance with non-competition, non-solicitation, and confidentiality obligations. We may make changes to the current employment and termination arrangements with our executive officers or enter into new arrangements from time to time. See "Employment Agreements" above.

Messrs. Rospek and Banker retired from employment with the company on December 31, 2012 and Mr. Cariou retired from employment on March 1, 2013.

The grant date fair value of the restricted stock awarded to each director on May 24, 2012 was \$63,468 for the 3,600 shares granted to each independent director. The 2012 restricted stock awards vest one-third on each of the first three anniversary dates. Restricted stock awards are forfeited for no consideration if a director's service is terminated for any reason. As of December 31, 2012, Messrs. Allen, Cohen, Ferris, Graff and Hueber each had no outstanding options and 3,600 shares of restricted stock and Mr. Munera had 10,000 options outstanding and 3,600 shares of restricted stock. During 2012, aggregate dividends of \$0.16 per share were paid on shares of restricted stock.
- (4) In fourth quarter 2012, the Board authorized a one-time prepayment of first quarter 2013 fees paid to our U.S. Board members. Compensation for Non-Employee Directors

In 2012, each of our non-employee directors received an annual retainer of \$12,000. The directors also received per meeting fees of \$2,000 for in-person attendance at Board meetings, \$1,000 for Board meeting attendance by telephone, and \$1,000 for attendance at committee meetings. In addition, each independent director received per meeting fees of \$2,000 for attendance at executive sessions. The non-executive Chairman of the Board, Mr. Allen, receives an additional annual retainer for service in that position of \$12,000 per year. Chairmen of the Board's committees receive an additional annual retainer for service in that position of \$6,000 (Audit Committee), \$4,000 (Compensation Committee), \$2,000 (Nominating and Corporate Governance Committee), and \$2,000 (Quality and Safety Committee) per year. The members of the Board were also eligible for reimbursement of their expenses incurred in connection with attendance at Board meetings.

Table of Contents

In 2012, we granted 3,600 shares of restricted stock to each individual serving as a non-employee director at the time of his re-election to the Board at our annual meeting of stockholders. The 2012 restricted stock awards vest one-third on each of the first three anniversary dates. Our intent is that approximately one-half of a non-employee director's annual fees will be cash, and the other one-half will be stock. Under our stock ownership guidelines, our non-employee directors are expected to hold stock worth at least five times their annual cash fees for serving as a director. Additional information about our stock ownership guidelines are contained in the section this proxy statement entitled "Compensation Discussion and Analysis Philosophy and Objectives of our Executive Compensation Program Stock Ownership Guidelines."

The Compensation Committee determined new compensation packages for non-employee directors beginning January 1, 2013. Non-employee directors will receive an annual retainer of \$50,000 with an additional annual retainer of \$15,000 to the Chairman of the Board and \$8,000 to the chairman of each of the Board's four committees. The annual retainers will be paid quarterly. If two meetings are missed by a director, the retainer will be reduced by 25% and reduced further on a pro rata basis for each additional meeting missed. Beginning in 2013, the Company has eliminated per meeting fees for directors. In addition to the cash retainers, each non-employee director will be granted on the date of the Company's annual stockholder meeting a restricted stock award with a value equivalent to \$60,000 that will vest one-third on each of the first three anniversary dates.

(a) The Committee shall establish one or more Performance Periods under the Plan. Each Performance Goal must be established in writing no later than 90 days after the commencement of the relevant Performance Period or such shorter time period required for the pre-establishment of performance goals under Section 162(m).

(b) For each Performance Period, the Committee shall (i) designate the Participants for such Performance Period, (ii) establish one or more objective Performance Goals for each Participant or class of Participants, and (iii) adopt objective formulas or standards for computing the amounts of Awards payable under the Plan based on actual results compared to the Performance Goals. The Performance Goals and target Award may be different, or may be weighted differently, for different Participants or classes of Participants.

ADMINISTRATION.

The Committee will administer and interpret this Plan. In accordance with Section 5 of this Plan, the Committee will certify whether such performance goals have been met, and determine the amount of the Award to be paid. The Committee's determinations under this Plan will be final and conclusive. The Committee shall have full power and authority to administer and interpret the Plan and to adopt such rules, regulations, agreements, guidelines and instruments for the administration of the Plan and for the conduct of its business as the Committee deems necessary or advisable.

AMOUNT, CERTIFICATION, AND PAYMENT OF BONUSES

(a) Following the conclusion of any Performance Period, prior to the payment of any Awards in the form of cash bonuses under this Plan with respect to that Performance Period, the Committee shall certify in writing the levels of attainment of the Performance Goals for that Performance Period and the calculation of the Award amount payable to each Participant.

(b) The payable portion of Awards shall be paid as soon as practicable following certification by the Committee, but in no event later than the 15th day of the third month following the end of the applicable Performance Period.

(d) Notwithstanding the degree to which the applicable Performance Goals are satisfied, the Committee shall have the discretion to reduce the amount of any Participant's Award payout below the standard or formula amount to reflect individual performance and/or unanticipated factors.

(f) In no event will the Award payable to a Participant with respect to a Performance Period exceed 180% of that Participant's base salary for such Performance Period.

CERTAIN ACCELERATING PAYMENT EVENTS.

Normally, an Award is only payable upon the attainment of Performance Goals. However, in the event of death or Disability, the affected Participant will be entitled to any payout of his or her outstanding Award under this Plan without regard to the actual attainment of Performance Goals. Such payout shall occur as soon as administratively practicable following the end of the Performance Period during which such death or Disability occurred, but in no event later than the 15th day of the third month following the end of such Performance Period.

GENERAL PROVISIONS.

Shareholder Approval Required. This Plan is subject to approval of the Company's shareholders and shall be submitted for such approval at the 2013 Annual Meeting of Shareholders. If this Plan is not approved by the shareholders at that meeting, no bonus amounts shall be paid with respect to the Awards made under this Plan.

Termination; Amendment. Unless earlier terminated, this Plan shall terminate on December 31, 2017, provided that the Company may continue to make payments hereunder following December 31, 2017 for Performance Periods that end on or prior to December 31, 2017. The Board may at any time amend or terminate this Plan, except that no amendment will be effective without approval by the Company's shareholders if such approval is necessary to qualify amounts payable hereunder as "performance-based compensation" under Section 162(m). No termination of this Plan shall affect performance goals and related Awards established by the Committee prior to such termination.

No Employment or Bonus Rights. Nothing in this Plan will be construed as conferring upon any Participant any right to continue in the employment of the Company or any of its subsidiaries.

Nonalienation of Benefits. Except as expressly provided herein or otherwise required by applicable law, no Participant or beneficiary will have the power or right to alienate, transfer, anticipate, sell, assign, pledge, attach, or otherwise encumber the Participant's interest under this Plan.

Withholding. Any Award payable to a Participant or a beneficiary under this Plan will be subject to any applicable Federal, state and local income and employment taxes and any other amounts that the Company or a subsidiary is required at law to deduct and withhold from such Award.

Plan Unfunded. The entire cost of this Plan shall be paid from the general assets of the Company. The rights of any Participant or beneficiary to receive an Award under this Plan shall be only those of a general unsecured creditor, and neither the Company nor the Board or the Committee shall be responsible for the adequacy of the general assets of the Company to meet and discharge Plan liabilities.

Severability. If any provision of this Plan is held unenforceable, the remainder of this Plan will continue in full force and effect without regard to such unenforceable provision and will be applied as though the unenforceable provision were not contained in this Plan.
