Table of Contents

**IRON MOUNTAIN INCORPORATED**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

**(In Thousands, Except Share and Per Share Data)**

**(Unaudited)**

**(1) General**

The interim consolidated financial statements are presented herein and, in the opinion of management, reflect all adjustments of a normal recurring nature necessary for a fair presentation. Interim results are not necessarily indicative of results for a full year. Iron Mountain Incorporated, a Delaware corporation ("IMI"), and its subsidiaries ("we" or "us") store records, primarily paper documents and data backup media, and provide information management services in various locations throughout North America, Europe, Latin America and Asia Pacific. We have a diversified customer base consisting of commercial, legal, banking, health care, accounting, insurance, entertainment and government organizations.

The unaudited consolidated financial statements have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission (the "SEC"). Certain information and footnote disclosures normally included in the annual financial statements prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP") have been omitted pursuant to those rules and regulations, but we believe that the disclosures included herein are adequate to make the information presented not misleading. The Consolidated Financial Statements and Notes thereto, which are included herein, should be read in conjunction with the Consolidated Financial Statements and Notes thereto for the year ended December 31, 2013 included in our Annual Report on Form 10-K filed on February 28, 2014.

On June 2, 2011, we sold (the "Digital Sale") our online backup and recovery, digital archiving and eDiscovery solutions businesses of our digital business (the "Digital Business") to Autonomy Corporation plc, a corporation formed under the laws of England and Wales ("Autonomy"), pursuant to a purchase and sale agreement dated as of May 15, 2011 among IMI, certain subsidiaries of IMI and Autonomy (the "Digital Sale Agreement"). Additionally, on April 27, 2012, we sold our records management operations in Italy. The financial position, operating results and cash flows of the Digital Business and our Italian operations, including the gain on the sale of the Digital Business and the loss on the sale of our Italian operations, for all periods presented, have been reported as discontinued operations for financial reporting purposes. See Note 10 for a further discussion of these events.

**(2) Summary of Significant Accounting Policies**

a. Principles of Consolidation

The accompanying financial statements reflect our financial position, results of operations, comprehensive income (loss), equity and cash flows on a consolidated basis. All intercompany account balances have been eliminated.

b. Cash, Cash Equivalents and Restricted Cash

Cash and cash equivalents include cash on hand and cash invested in highly liquid short-term securities, which have remaining maturities at the date of purchase of less than 90 days. Cash and cash equivalents are carried at cost, which approximates fair value.

We have restricted cash associated with a collateral trust agreement with our insurance carrier related to our workers' compensation self-insurance program. The restricted cash subject to this

Table of Contents

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

**(In Thousands, Except Share and Per Share Data)**

**(Unaudited)**

**(2) Summary of Significant Accounting Policies (Continued)**

agreement was \$33,860 as of both December 31, 2013 and March 31, 2014, and is included in current assets on our Consolidated Balance Sheets. Restricted cash consists primarily of U.S. Treasuries.

c.

Foreign Currency

Local currencies are the functional currencies for our operations outside the U.S., with the exception of certain foreign holding companies and our financing centers in Switzerland, whose functional currency is the U.S. dollar. In those instances where the local currency is the functional currency, assets and liabilities are translated at period-end exchange rates, and revenues and expenses are translated at average exchange rates for the applicable period. Resulting translation adjustments are reflected in the accumulated other comprehensive items, net component of Iron Mountain Incorporated Stockholders' Equity and Noncontrolling Interests in the accompanying Consolidated Balance Sheets. The gain or loss on foreign currency transactions, calculated as the difference between the historical exchange rate and the exchange rate at the applicable measurement date, including those related to (1) our previously outstanding 7<sup>1</sup>/<sub>4</sub>% GBP Senior Subordinated Notes due 2014 (the "7<sup>1</sup>/<sub>4</sub>% Notes"), (2) our 6<sup>3</sup>/<sub>4</sub>% Euro Senior Subordinated Notes due 2018 (the "6<sup>3</sup>/<sub>4</sub>% Notes"), (3) the borrowings in certain foreign currencies under our revolving credit facility and (4) certain foreign currency denominated intercompany obligations of our foreign subsidiaries to us and between our foreign subsidiaries, which are not considered permanently invested, are included in other expense (income), net, in the accompanying Consolidated Statements of Operations. The total gain or loss on foreign currency transactions amounted to a net loss of \$3,565 and \$6,438 for the three months ended March 31, 2013 and 2014, respectively.

d.

Goodwill and Other Intangible Assets

Goodwill and intangible assets with indefinite lives are not amortized but are reviewed annually for impairment or more frequently if impairment indicators arise. Other than goodwill, we currently have no intangible assets that have indefinite lives and which are not amortized. Separable intangible assets that are not deemed to have indefinite lives are amortized over their useful lives. We annually assess whether a change in the life over which our intangible assets are amortized is necessary or more frequently if events or circumstances warrant.

We have selected October 1 as our annual goodwill impairment review date. We performed our most recent annual goodwill impairment review as of October 1, 2013 and noted no impairment of goodwill at such date. As of December 31, 2013 and March 31, 2014, no factors were identified that would alter our October 1, 2013 goodwill assessment. In making this assessment, we relied on a number of factors including operating results, business plans, anticipated future cash flows, transactions and marketplace data. There are inherent uncertainties related to these factors and our judgment in applying them to the analysis of goodwill impairment. When changes occur in the composition of one or more reporting units, the goodwill is reassigned to the reporting units affected based on their relative fair values.

Table of Contents

**IRON MOUNTAIN INCORPORATED**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

**(In Thousands, Except Share and Per Share Data)**

**(Unaudited)**

**(2) Summary of Significant Accounting Policies (Continued)**

Our reporting units at which level we performed our goodwill impairment analysis as of October 1, 2013 were as follows: (1) North America; (2) United Kingdom, Ireland, Norway, Belgium, France, Germany, Luxembourg, Netherlands and Spain ("Western Europe"); (3) the remaining countries in Europe in which we operate, excluding Russia and the Ukraine ("Emerging Markets"); (4) Latin America; (5) Australia, China, Hong Kong and Singapore ("Asia Pacific"); and (6) India, Russia and the Ukraine ("Emerging Market Joint Ventures"). Based on our goodwill impairment assessment, all of our reporting units with goodwill had estimated fair values as of October 1, 2013 that exceeded their carrying values by greater than 15%. As of December 31, 2013, the carrying value of goodwill, net amounted to \$1,849,440, \$375,954, \$88,599, \$93,149 and \$56,210 for North America, Western Europe, Emerging Markets, Latin America and Asia Pacific, respectively. Our Emerging Market Joint Ventures reporting unit had no goodwill as of December 31, 2013.

Beginning January 1, 2014, as a result of the changes in our reportable segments associated with our reorganization (see Note 7 for a description of our reportable operating segments), we now have 12 reporting units. Our North American Records and Information Management Business segment includes the following three reporting units: (1) North American Records and Information Management; (2) technology escrow services that protect and manage source code ("Intellectual Property Management") and (3) the storage, assembly and detailed reporting of customer marketing literature and delivery to sales offices, trade shows and prospective customers' sites based on current and prospective customer orders ("Fulfillment Services"). The North American Data Management Business segment is a separate reporting unit. The Emerging Businesses reporting unit (which primarily relates to our data center business in the United States and which is a component of Corporate and Other) is also a reporting unit. Additionally, the International Business segment consists of the following seven reporting units: (1) United Kingdom, Ireland, Norway, Austria, Belgium, France, Germany, Luxembourg, Netherlands, Spain and Switzerland ("New Western Europe"); (2) the remaining countries in Europe in which we operate, excluding Russia and the Ukraine ("New Emerging Markets"); (3) Latin America; (4) Australia and Singapore; (5) China and Hong Kong ("Greater China"); (6) India; and (7) Russia and the Ukraine. We have reassigned goodwill associated with the reporting units impacted by the reorganization among the new reporting units on a relative fair value basis. The fair value of each of our new reporting units was determined based on the application of preliminary fair value multiples of revenue and earnings, which is our best estimate and preliminary assessment of the goodwill allocations to each of the new reporting units on a relative fair value basis.

Table of Contents**IRON MOUNTAIN INCORPORATED****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****(In Thousands, Except Share and Per Share Data)****(Unaudited)****(2) Summary of Significant Accounting Policies (Continued)**

The carrying value of goodwill, net for each of our reporting units as of March 31, 2014 is as follows:

	<b>Carrying Value as of March 31, 2014</b>
North American Records and Information Management(1)	\$ 1,401,347
Intellectual Property Management(1)	50,439
Fulfillment Services(1)	8,407
North American Data Management(1)	365,049
Emerging Businesses	
New Western Europe	389,752
New Emerging Markets	90,619
Latin America	92,298
Australia and Singapore	65,853
Greater China	2,237
India	
Russia and Ukraine	
<b>Total</b>	<b>\$ 2,466,001</b>

(1)

We will finalize our preliminary estimates of fair value for these new reporting units once we finalize multi-year cash flow forecasts of such reporting units and conclude on fair value of each new reporting unit based on the combined weighting of both fair value multiples and discounted cash flow valuation techniques. To the extent final fair values of our new reporting units differ from our preliminary estimates, we will reassign goodwill amongst the new reporting units in a future period in which final information as of January 1, 2014 is available to complete the fair values and the corresponding allocation of goodwill amongst the new reporting units.

We concluded that we had an interim triggering event and, therefore, we performed an interim goodwill impairment test as of January 1, 2014 on the basis of these new reporting units during the first quarter of 2014. We concluded that the goodwill for each of our new reporting units was not impaired as of such date. While we continue to refine our preliminary estimates of fair value of certain of our new reporting units for purposes of reallocating goodwill, we do not believe that any such changes to preliminary fair value estimates will result in a change in our conclusion that there is no goodwill impairment as of January 1, 2014.

<b>Total</b>	<b>\$ 974,503</b>	<b>\$ (308,496)</b>	<b>\$ 666,007</b>

(1)

Included in Other Assets, net in the accompanying Consolidated Balance Sheets.

Amortization expense associated with amortizable intangible assets (including deferred financing costs) was \$12,016 and \$13,626 for the three months ended March 31, 2013 and 2014, respectively.

e.

**Stock-Based Compensation**

We record stock-based compensation expense, utilizing the straight-line method, for the cost of stock options, restricted stock, restricted stock units ("RSUs"), performance units ("PUs") and shares of stock issued under our employee stock purchase plan ("ESPP") (together, "Employee Stock-Based Awards").

Stock-based compensation expense for Employee Stock-Based Awards included in the accompanying Consolidated Statements of Operations for the three months ended March 31, 2013 and 2014 was \$5,710 (\$4,887 after tax or \$0.03 per basic and diluted share) and \$7,141 (\$5,134 after tax or \$0.03 per basic and diluted share), respectively.

Stock-based compensation expense for Employee Stock-Based Awards included in the accompanying Consolidated Statements of Operations related to continuing operations is as follows:

	<b>Three Months Ended March 31,</b>	
	<b>2013</b>	<b>2014</b>
Cost of sales (excluding depreciation and amortization)	\$ 70	\$ 190
Selling, general and administrative expenses	5,640	6,951

Edgar Filing: IRON MOUNTAIN INC - Form 10-Q

Total stock-based compensation	\$ 5,710	\$ 7,141
--------------------------------	----------	----------

The benefits associated with the tax deductions in excess of recognized compensation cost are required to be reported as financing activities in the accompanying Consolidated Statements of Cash Flows. This requirement reduces reported operating cash flows and increases reported financing cash flows. As a result, net financing cash flows from continuing operations included \$1,705 and \$(185) for

Table of Contents**IRON MOUNTAIN INCORPORATED****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****(In Thousands, Except Share and Per Share Data)****(Unaudited)****(2) Summary of Significant Accounting Policies (Continued)**

the three months ended March 31, 2013 and 2014, respectively, from the benefits (deficiency) of tax deductions compared to recognized compensation cost. The tax benefit of any resulting excess tax deduction increases the Additional Paid-in Capital ("APIC") pool. Any resulting tax deficiency is deducted from the APIC pool.

*Stock Options*

Under our various stock option plans, options were granted with exercise prices equal to the market price of the stock on the date of grant. The majority of our options become exercisable ratably over a period of five years from the date of grant and generally have a contractual life of ten years from the date of grant, unless the holder's employment is terminated sooner. Certain of the options we issue become exercisable ratably over a period of ten years from the date of grant and have a contractual life of 12 years from the date of grant, unless the holder's employment is terminated sooner. As of March 31, 2014, ten-year vesting options represented 7.1% of total outstanding options. As of March 31, 2014, three-year vesting options represented 28.3% of total outstanding options. Our non-employee directors are considered employees for purposes of our stock option plans and stock option reporting. Options granted to our non-employee directors generally become exercisable one year from the date of grant.

The weighted average fair value of options granted for the three months ended March 31, 2013 and 2014 was \$7.69 and \$5.60 per share, respectively. These values were estimated on the date of grant using the Black-Scholes option pricing model. The following table summarizes the weighted average assumptions used for grants in the respective period:

Weighted Average Assumptions	Three Months Ended	
	March 31,	
	2013	2014
Expected volatility	33.8%	33.9%
Risk-free interest rate	1.13%	2.06%
Expected dividend yield	3%	4%
Expected life	6.3 years	6.8 years

Expected volatility is calculated utilizing daily historical volatility over a period that equates to the expected life of the option. The risk-free interest rate was based on the U.S. Treasury interest rates whose term is consistent with the expected life of the stock options. Expected dividend yield is considered in the option pricing model and represents our current annualized expected per share dividends over the current trade price of our common stock. The expected life (estimated period of time outstanding) of the stock options granted is estimated using the historical exercise behavior of employees.

## (2) Summary of Significant Accounting Policies (Continued)

A summary of option activity for the three months ended March 31, 2014 is as follows:

	Options	Weighted Average Exercise Price	Weighted Average Remaining Contractual Term	Aggregate Intrinsic Value
Outstanding at December 31, 2013	5,145,739	\$ 24.09		
Granted	525,268	30.70		
Exercised	(136,656)	20.63		
Forfeited	(80,463)	23.24		
Expired	(59)	25.31		
Outstanding at March 31, 2014	5,453,829	\$ 24.79	5.05	\$ 19,635
Options exercisable at March 31, 2014	4,043,021	\$ 23.99	4.15	\$ 16,411
Options expected to vest	1,297,099	\$ 27.06	7.69	\$ 3,088

The following table provides the aggregate intrinsic value of stock options exercised for the three months ended March 31, 2013 and 2014:

	Three Months Ended March 31,	
	2013	2014
Aggregate intrinsic value of stock options exercised	\$ 5,446	\$ 977

*Restricted Stock and Restricted Stock Units*

Under our various equity compensation plans, we may also grant restricted stock or RSUs. Our restricted stock and RSUs generally have a three to five year vesting period from the date of grant. All RSUs accrue dividend equivalents associated with the underlying stock as we declare dividends. Dividends will generally be paid to holders of RSUs in cash upon the vesting date of the associated RSU and will be forfeited if the RSU does not vest. We accrued approximately \$1,790 and \$434 of cash dividends on RSUs for the three months ended March 31, 2013 and 2014, respectively. We paid approximately \$366 and \$831 of cash dividends on RSUs for the three months ended March 31, 2013 and 2014, respectively. The fair value of restricted stock and RSUs is the excess of the market price of our common stock at the date of grant over the

purchase price (which is typically zero).

Table of Contents**IRON MOUNTAIN INCORPORATED****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****(In Thousands, Except Share and Per Share Data)****(Unaudited)****(2) Summary of Significant Accounting Policies (Continued)**

A summary of restricted stock and RSU activity for the three months ended March 31, 2014 is as follows:

	Restricted Stock and RSUs	Weighted- Average Grant-Date Fair Value
Non-vested at December 31, 2013	1,435,230	\$ 29.76
Granted	598,423	27.32
Vested	(438,353)	31.60
Forfeited	(65,298)	32.31
Non-vested at March 31, 2014	1,530,002	\$ 28.17

No restricted stock vested during each of the three months ended March 31, 2013 and 2014. The total fair value of RSUs vested during the three months ended March 31, 2013 and 2014 was \$8,607 and \$13,844, respectively.

*Performance Units*

Under our various equity compensation plans, we may also make awards of PUs. For the majority of PUs, the number of PUs earned is determined based on our performance against predefined targets of revenue or revenue growth and return on invested capital ("ROIC"). The number of PUs earned may range from 0% to 150% (for PUs granted prior to 2014) and 0% to 200% (for PUs granted in 2014) of the initial award. The number of PUs earned is determined based on our actual performance as compared to the targets at the end of either the one-year performance period (for PUs granted prior to 2014) or the three-year performance period (for PUs granted in 2014). Certain PUs granted in 2013 and 2014 will be earned based on a market condition associated with the total return on our common stock in relation to a subset of the S&P 500 rather than the revenue growth and ROIC targets noted above. The number of PUs earned based on this market condition may range from 0% to 200% of the initial award. All of our PUs will be settled in shares of our common stock and are subject to cliff vesting three years from the date of the original PU grant. For those PUs subject to a one-year performance period, employees who subsequently terminate their employment after the end of the one-year performance period and on or after attaining age 55 and completing 10 years of qualifying service (the "retirement criteria") shall immediately and completely vest in any PUs earned based on the actual achievement against the predefined targets as discussed above (but delivery of the shares remains deferred). As a result, PUs subject to a one-year performance period are generally expensed over the shorter of (1) the vesting period, (2) achievement of the retirement criteria, which may occur as early as January 1 of the year following the year of grant, or (3) a maximum of three years. Outstanding PUs accrue dividend equivalents associated with the underlying stock as we declare dividends. Dividends will generally be paid to holders of PUs in cash upon the settlement date of the associated PU and will be forfeited if the PU does not vest. We accrued approximately \$573 and \$150 of cash dividends on PUs for the three months ended March 31, 2013 and 2014, respectively.

Table of Contents**IRON MOUNTAIN INCORPORATED****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****(In Thousands, Except Share and Per Share Data)****(Unaudited)****(2) Summary of Significant Accounting Policies (Continued)**

During the three months ended March 31, 2014, we issued 173,260 PUs. As our PUs are earned based on our performance against revenue or revenue growth and ROIC targets during their applicable performance period, we forecast the likelihood of achieving the predefined revenue or revenue growth and ROIC targets in order to calculate the expected PUs to be earned. We record a compensation charge based on either the forecasted PUs to be earned (during the applicable performance period) or the actual PUs earned (at the one-year anniversary date for PUs granted prior to 2014, and at the three-year anniversary date for PUs granted in 2014) over the vesting period for each of the awards. For the 2013 and 2014 PUs that will be earned based on a market condition, we utilized a Monte Carlo simulation to fair value these awards at the date of grant, and such fair value will be expensed over the three-year performance period. The total fair value of earned PUs that vested during the three months ended March 31, 2013 and 2014 was \$908 and \$4,030, respectively. There were no cash dividends paid on PUs for the three months ended March 31, 2013. We paid approximately \$221 of cash dividends on PUs for the three months ended March 31, 2014. As of March 31, 2014, we expected 100% achievement of the predefined revenue and ROIC targets associated with the awards of PUs made in 2014.

A summary of PU activity for the three months ended March 31, 2014 is as follows:

	Original PU Awards	PU Adjustment(1)	Total PU Awards	Weighted- Average Grant-Date Fair Value
Non-vested at December 31, 2013	334,548	(23,732)	310,816	\$ 33.18
Granted	173,260	(52,475)	120,785	22.84
Vested	(136,801)	(11,819)	(148,620)	27.12
Forfeited	(3,384)		(3,384)	34.27
Non-vested at March 31, 2014	367,623	(88,026)	279,597	\$ 31.92

(1)

Represents an increase or decrease in the number of original PUs awarded based on either (a) the final performance criteria achievement at the end of the defined performance period of such PUs or (b) a change in estimated awards based on the forecasted performance against the predefined targets.

*Employee Stock Purchase Plan*

We offer an ESPP in which participation is available to substantially all U.S. and Canadian employees who meet certain service eligibility requirements. The ESPP provides a way for our eligible employees to become stockholders on favorable terms. The ESPP provides for the purchase of our common stock by eligible employees through successive offering periods. We have historically had two six-month offering periods per year, the first of which generally runs from June 1 through November 30 and the second of which generally runs from December 1 through May 31. During each offering period, participating employees accumulate after-tax payroll contributions, up to a maximum of 15% of their compensation, to pay the purchase price at the end of the offering. Participating employees may withdraw from an offering before the purchase date and obtain a refund of the amounts withheld as

**IRON MOUNTAIN INCORPORATED**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

**(In Thousands, Except Share and Per Share Data)**

**(Unaudited)**

**(2) Summary of Significant Accounting Policies (Continued)**

payroll deductions. At the end of the offering period, outstanding options under the ESPP are exercised, and each employee's accumulated contributions are used to purchase our common stock. The price for shares purchased under the ESPP is 95% of the fair market price at the end of the offering period, without a look-back feature. As a result, we do not recognize compensation expense for the ESPP shares purchased. In the three months ended March 31, 2013 and 2014, there were no offering periods which ended under the ESPP, and no shares were issued. As of March 31, 2014, we have 1,000,000 shares available under the ESPP.

---

As of March 31, 2014, unrecognized compensation cost related to the unvested portion of our Employee Stock-Based Awards was \$55,903 and is expected to be recognized over a weighted-average period of 2.2 years.

We generally issue shares of our common stock for the exercises of stock options, restricted stock, RSUs, PUs and shares of our common stock under our ESPP from unissued reserved shares.

f.

Income (Loss) Per Share Basic and Diluted

Basic income (loss) per common share is calculated by dividing income (loss) by the weighted average number of common shares outstanding. The calculation of diluted income (loss) per share is consistent with that of basic income (loss) per share but gives effect to all potential common shares (that is, securities such as options, warrants or convertible securities) that were outstanding during the period, unless the effect is antidilutive.

Table of Contents**IRON MOUNTAIN INCORPORATED****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****(In Thousands, Except Share and Per Share Data)****(Unaudited)****(2) Summary of Significant Accounting Policies (Continued)**

The following table presents the calculation of basic and diluted income (loss) per share:

	<b>Three Months Ended March 31,</b>	
	<b>2013</b>	<b>2014</b>

g.

Revenues

Our revenues consist of storage rental revenues as well as service revenues and are reflected net of sales and value added taxes. Storage rental revenues, which are considered a key driver of financial performance for the storage and information management services industry, consist primarily of recurring periodic rental charges related to the storage of materials or data (generally on a per unit basis). Service revenues include charges for related service activities, which include: (1) the handling of records, including the addition of new records, temporary removal of records from storage, refiling of removed records and the destruction of records; (2) courier operations, consisting primarily of the pickup and delivery of records upon customer request; (3) secure shredding of sensitive documents and

Table of Contents

**IRON MOUNTAIN INCORPORATED**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

**(In Thousands, Except Share and Per Share Data)**

**(Unaudited)**

**(2) Summary of Significant Accounting Policies (Continued)**

the related sale of recycled paper, the price of which can fluctuate from period to period; (4) other services, including the scanning, imaging and document conversion services of active and inactive records, or Document Management Solutions ("DMS"), which relate to physical and digital records, and project revenues; (5) customer termination and permanent withdrawal fees; (6) data restoration projects; (7) special project work; (8) Fulfillment Services; (9) consulting services; and (10) technology services and product sales (including specially designed storage containers and related supplies).

We recognize revenue when the following criteria are met: persuasive evidence of an arrangement exists, services have been rendered, the sales price is fixed or determinable and collectability of the resulting receivable is reasonably assured. Storage rental and service revenues are recognized in the month the respective storage rental or service is provided, and customers are generally billed on a monthly basis on contractually agreed-upon terms. Amounts related to future storage rental or prepaid service contracts for customers where storage rental fees or services are billed in advance are accounted for as deferred revenue and recognized ratably over the period the applicable storage rental or service is provided or performed. Revenues from the sales of products, which is included as a component of service revenues, is recognized when products are shipped and title has passed to the customer. Revenues from the sales of products have historically not been significant.

h.

Allowance for Doubtful Accounts and Credit Memo Reserves

We maintain an allowance for doubtful accounts and credit memos for estimated losses resulting from the potential inability of our customers to make required payments and potential disputes regarding billing and service issues. When calculating the allowance, we consider our past loss experience, current and prior trends in our aged receivables and credit memo activity, current economic conditions and specific circumstances of individual receivable balances. If the financial condition of our customers were to significantly change, resulting in a significant improvement or impairment of their ability to make payments, an adjustment of the allowance may be required. We consider accounts receivable to be delinquent after such time as reasonable means of collection have been exhausted. We charge-off uncollectible balances as circumstances warrant, generally, no later than one year past due.

i.

Income Taxes

We provide for income taxes during interim periods based on our estimate of the effective tax rate for the year. Discrete items and changes in our estimate of the annual effective tax rate are recorded in the period they occur. Our effective tax rate is subject to variability in the future due to, among other items: (1) changes in the mix of income from foreign jurisdictions; (2) tax law changes; (3) volatility in foreign exchange gains (losses); (4) the timing of the establishment and reversal of tax reserves; (5) our ability to utilize foreign tax credits and net operating losses that we generate; and (6) our proposed conversion to a real estate investment trust for federal income tax purposes ("REIT"). We are subject to income taxes in the U.S. and numerous foreign jurisdictions. We are subject to examination by various tax authorities in jurisdictions in which we have business operations or a taxable presence. We regularly assess the likelihood of additional assessments by tax authorities and provide for these matters as appropriate. Although we believe our tax estimates are appropriate, the final determination of tax audits and any related litigation could result in changes in our estimates.

**IRON MOUNTAIN INCORPORATED**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

**(In Thousands, Except Share and Per Share Data)**

**(Unaudited)**

**(2) Summary of Significant Accounting Policies (Continued)**

Accounting for income taxes requires the recognition of deferred tax assets and liabilities for the expected future tax consequences of temporary differences between the tax and financial reporting basis of assets and liabilities and for loss and credit carryforwards. Valuation allowances are provided when recovery of deferred tax assets does not meet the more likely than not standard as defined in GAAP.

Our effective tax rates for the three months ended March 31, 2013 and 2014 were 67.8% and 42.6%, respectively. The primary reconciling items between the federal statutory rate of 35% and our overall effective tax rate were differences in the rates of tax at which our foreign earnings are subject, including foreign exchange gains and losses in different jurisdictions with different tax rates and state income taxes (net of federal tax benefit). During the three months ended March 31, 2013, foreign currency gains were recorded in higher tax jurisdictions associated with our marking-to-market of debt and derivative instruments while foreign currency losses were recorded in lower tax jurisdictions associated with our marking-to-market of intercompany loan positions, which increased our first quarter 2013 effective tax rate by 22.5%. On January 2, 2013, the American Taxpayer Relief Act of 2012 (the "ATRA") was signed into law. In part, the ATRA retroactively reinstated and extended the controlled foreign corporation look-through rule, which provides for the exception from January 1, 2012 to December 31, 2013 of certain foreign earnings from U.S. federal taxation as Subpart F income. As a result, our income tax provision for the first quarter of 2013 included a discrete tax benefit of \$4,025 relating to the previously expired period from January 1, 2012 to December 31, 2012. During the three months ended March 31, 2014, there were foreign currency losses recorded in jurisdictions with tax rates lower than the federal statutory rate of 35% associated with our marking-to-market of intercompany loans, which increased our first quarter 2014 effective tax rate by 1.1%. The controlled foreign corporation look-through rule, which provided for the exception of certain foreign earnings from U.S. federal taxation as Subpart F income, expired on December 31, 2013. As a result, our first quarter 2014 effective tax rate was increased by 1.3%.

We have a net tax over book outside basis difference related to our foreign subsidiaries. We do not expect this net basis difference to reverse in the foreseeable future and we intend to reinvest any future undistributed earnings of certain foreign subsidiaries indefinitely outside the U.S. We have instances where we have book over tax outside basis differences for certain foreign subsidiaries. These basis differences arose primarily through undistributed book earnings of such foreign subsidiaries of \$51,954 and could be reversed through a sale of such foreign subsidiaries, the receipt of dividends from such subsidiaries or certain other events or actions on our part, each of which would result in an increase in our provision for income taxes. It is not practicable to calculate the amount of unrecognized deferred tax liability on these book over tax outside basis differences because of the complexities of the hypothetical calculation. We may record additional deferred taxes on book over tax outside basis differences related to certain foreign subsidiaries in the future depending upon a number of factors, decisions and events in connection with our potential conversion to a REIT, including favorable indications from the U.S. Internal Revenue Service (the "IRS") with regard to our private letter ruling requests, finalization of countries to be included in our plan to convert to a REIT, shareholder approval of certain modifications to our corporate charter and final board of director approval of our conversion to a REIT.

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

**(In Thousands, Except Share and Per Share Data)**

**(Unaudited)**

**(2) Summary of Significant Accounting Policies (Continued)**

On September 13, 2013, the IRS released final tangible property regulations under Sections 162(a) and 263(a) of the Internal Revenue Code of 1986 (the "Code"), regarding the deduction and capitalization of expenditures related to tangible property. The final regulations replace temporary regulations that were issued in December 2011. Also released were proposed regulations under Section 168 of the Code regarding dispositions of tangible property. These final and proposed regulations will be effective for our tax year beginning on January 1, 2014. Early adoption was available, and as such, we early adopted the regulations in 2013. Changes for tax treatment elected by us or required by the regulations will generally be effective prospectively; however, implementation of many of the regulations' provisions will require a calculation of the cumulative effect of the changes on prior years, and it is expected that such amount will have to be included in the determination of our taxable income over a four-year period beginning in 2013. Transition guidance providing the procedural rules to comply with such regulations is expected to be released in the near term. We do not believe these regulations will have a material impact on our consolidated results of operations, cash flows and financial position.

We have elected to recognize interest and penalties associated with uncertain tax positions as a component of the provision (benefit) for income taxes in the accompanying Consolidated Statements of Operations. We recorded an increase of \$545 and \$966 for gross interest and penalties for the three months ended March 31, 2013 and 2014, respectively. We had \$4,874 and \$5,598 accrued for the payment of interest and penalties as of December 31, 2013 and March 31, 2014, respectively.

j.

**Concentrations of Credit Risk**

Financial instruments that potentially subject us to market risk consist principally of cash and cash equivalents (including money market funds and time deposits), restricted cash (primarily U.S. Treasuries) and accounts receivable. The only significant concentrations of liquid investments as of both December 31, 2013 and March 31, 2014 relate to cash and cash equivalents and restricted cash held on deposit with one global bank and one "Triple A" rated money market fund, and two global banks and two "Triple A" rated money market funds, respectively, all of which we consider to be large, highly-rated investment-grade institutions. As per our risk management investment policy, we limit exposure to concentration of credit risk by limiting the amount invested in any one mutual fund to a maximum of \$50,000 or in any one financial institution to a maximum of \$75,000. As of December 31, 2013 and March 31, 2014, our cash and cash equivalents and restricted cash balance was \$154,386 and \$203,766, respectively, including money market funds and time deposits amounting to \$36,613 and \$59,157, respectively. A substantial portion of the money market funds is invested in U.S. Treasuries.

k.

**Fair Value Measurements**

Entities are permitted under GAAP to elect to measure many financial instruments and certain other items at either fair value or cost. We did not elect the fair value measurement option.

Table of Contents**IRON MOUNTAIN INCORPORATED****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****(In Thousands, Except Share and Per Share Data)****(Unaudited)****(2) Summary of Significant Accounting Policies (Continued)**

Our financial assets or liabilities are required to be measured using inputs from the three levels of the fair value hierarchy. A financial asset or liability's classification within the hierarchy is determined based on the lowest level input that is significant to the fair value measurement.

The three levels of the fair value hierarchy are as follows:

Level 1 Inputs are unadjusted quoted prices in active markets for identical assets or liabilities that we have the ability to access at the measurement date.

Level 2 Inputs include quoted prices for similar assets and liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the asset or liability (i.e., interest rates, yield curves, etc.), and inputs that are derived principally from or corroborated by observable market data by correlation or other means (market corroborated inputs).

Level 3 Unobservable inputs that reflect our assumptions about the assumptions that market participants would use in pricing the asset or liability.

The following tables provide the assets and liabilities carried at fair value measured on a recurring basis as of December 31, 2013 and March 31, 2014, respectively:

Description	Fair Value Measurements at December 31, 2013 Using			
	Total Carrying Value at December 31, 2013	Quoted prices in active markets (Level 1)	Significant other observable inputs (Level 2)	Significant unobservable inputs (Level 3)
Money Market Funds(1)	\$ 33,860	\$	\$ 33,860	\$
Time Deposits(1)	2,753		2,753	
Trading Securities	13,386	12,785(2)	601(1)	
Derivative Assets(3)	72		72	
Derivative Liabilities(3)	5,592		5,592	

Description	Fair Value Measurements at March 31, 2014 Using			
	Total Carrying Value at March 31, 2014	Quoted prices in active markets (Level 1)	Significant other observable inputs (Level 2)	Significant unobservable inputs (Level 3)
Money Market Funds(1)	\$ 37,018	\$	\$ 37,018	\$
Time Deposits(1)	22,139		22,139	
Trading Securities	13,515	12,971(2)	544(1)	
Derivative Assets(3)	577		577	
Derivative Liabilities(3)	1,822		1,822	

(1)

Edgar Filing: IRON MOUNTAIN INC - Form 10-Q

Money market funds and time deposits (including certain trading securities) are measured based on quoted prices for similar assets and/or subsequent transactions.

Table of Contents**IRON MOUNTAIN INCORPORATED****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****(In Thousands, Except Share and Per Share Data)****(Unaudited)****(2) Summary of Significant Accounting Policies (Continued)**

- (2) Securities are measured at fair value using quoted market prices.
- (3) Our derivative assets and liabilities primarily relate to short-term (six months or less) foreign currency contracts that we have entered into to hedge our intercompany exposures denominated in British pounds sterling, Euro and Australian dollars. We calculate the fair value of such forward contracts by adjusting the spot rate utilized at the balance sheet date for translation purposes by an estimate of the forward points observed in active markets.

Disclosures are required in the financial statements for items measured at fair value on a non-recurring basis. We did not have any material items that are measured at fair value on a non-recurring basis for the three months ended March 31, 2013 and 2014.

l.  
Use of Estimates

The preparation of financial statements in conformity with GAAP requires us to make estimates, judgments and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities at the date of the financial statements and for the period then ended. On an ongoing basis, we evaluate the estimates used. We base our estimates on historical experience, actuarial estimates, current conditions and various other assumptions that we believe to be reasonable under the circumstances. These estimates form the basis for making judgments about the carrying values of assets and liabilities and are not readily apparent from other sources. Actual results may differ from these estimates.

m.  
Accumulated Other Comprehensive Items, Net

Accumulated other comprehensive items, net consists of the following:

	December 31, 2013	March 31, 2014
Foreign currency translation adjustments	\$ (9,586)	\$ (7,909)
Market value adjustments for securities, net of tax	926	926
	\$ (8,660)	\$ (6,983)

n.  
Other Expense (Income), Net

Other expense (income), net consists of the following:

**(Unaudited)**

**(2) Summary of Significant Accounting Policies (Continued)**

- o. Property, Plant and Equipment and Long-Lived Assets

We develop various software applications for internal use. Computer software costs associated with internal use software are expensed as incurred until certain capitalization criteria are met. Payroll and related costs for employees directly associated with, and devoting time to, the development of internal use computer software projects (to the extent time is spent directly on the project) are capitalized. During the three months ended March 31, 2013 and 2014, we capitalized \$9,228 and \$4,897 of costs, respectively, associated with the development of internal use computer software projects. Capitalization begins when the design stage of the application has been completed and it is probable that the project will be completed and used to perform the function intended. Capitalization ends when the asset is ready for its intended use. Depreciation begins when the software is placed in service. Computer software costs that are capitalized are periodically evaluated for impairment.

We review long-lived assets and all amortizable intangible assets for impairment whenever events or changes in circumstances indicate the carrying amount of such assets may not be recoverable. Recoverability of these assets is determined by comparing the forecasted undiscounted net cash flows of the operation to which the assets relate to their carrying amount. The operations are generally distinguished by the business segment and geographic region in which they operate. If the operation is determined to be unable to recover the carrying amount of its assets, then intangible assets are written down first, followed by the other long-lived assets of the operation, to fair value. Fair value is determined based on discounted cash flows or appraised values, depending upon the nature of the assets.

Consolidated gain on disposal/write-down of property, plant and equipment, net was \$539 for the three months ended March 31, 2013 and consisted primarily of gains associated with the retirement of leased vehicles accounted for as capital lease assets associated primarily with our North American Records and Information Management Business. Consolidated gain on disposal/write-down of property, plant and equipment, net was \$8,307 for the three months ended March 31, 2014 and consisted primarily of approximately \$9,262 of gains associated with two facilities we disposed of in the United Kingdom.

**(3) Derivative Instruments and Hedging Activities**

Every derivative instrument is required to be recorded in the balance sheet as either an asset or a liability measured at its fair value. Periodically, we acquire derivative instruments that are intended to hedge either cash flows or values that are subject to foreign exchange or other market price risk and not for trading purposes. We have formally documented our hedging relationships, including identification of the hedging instruments and the hedged items, as well as our risk management objectives and strategies for undertaking each hedge transaction. Given the recurring nature of our revenues and the long-term nature of our asset base, we have the ability and the preference to use long-term, fixed interest rate debt to finance our business, thereby preserving our long-term returns on invested capital. We target approximately 75% of our debt portfolio to be fixed with respect to interest rates. Occasionally, we may use interest rate swaps as a tool to maintain our targeted level of fixed rate debt. In addition, we may use borrowings in foreign currencies, either obtained in the U.S. or by our

Table of Contents**IRON MOUNTAIN INCORPORATED****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****(In Thousands, Except Share and Per Share Data)****(Unaudited)****(3) Derivative Instruments and Hedging Activities (Continued)**

foreign subsidiaries, to hedge foreign currency risk associated with our international investments. Sometimes we enter into currency swaps to temporarily hedge an overseas investment, such as a major acquisition, while we arrange permanent financing or to hedge our exposure due to foreign currency exchange movements related to our intercompany accounts with and between our foreign subsidiaries. As of December 31, 2013 and March 31, 2014, none of our derivative instruments contained credit-risk related contingent features.

We have entered into a number of separate forward contracts to hedge our exposures in British pounds sterling, Australian dollars and Euros. As of March 31, 2014, we had (1) outstanding forward contracts to purchase \$302,009 U.S. dollars and sell 182,500 British pounds sterling to hedge our intercompany exposures with our United Kingdom operations; (2) an outstanding forward contract to purchase \$61,707 U.S. dollars and sell 67,000 Australian dollars to hedge our intercompany exposures with our Australian operations; and (3) outstanding forward contracts to purchase 167,000 Euros and sell \$229,578 U.S. dollars to hedge our intercompany exposures with our European operations. At the maturity of the forward contracts, we may enter into new forward contracts to hedge movements in the underlying currencies. At the time of settlement, we either pay or receive the net settlement amount from the forward contract and recognize this amount in other (income) expense, net in the accompanying Consolidated Statements of Operations as a realized foreign exchange gain or loss. At the end of each month, we mark the outstanding forward contracts to market and record an unrealized foreign exchange gain or loss for the mark-to-market valuation. We have not designated these forward contracts as hedges. During the three months ended March 31, 2013 and 2014, there was \$5,799 in net cash receipts and \$7,199 in net cash payments, respectively, included in cash from operating activities from continuing operations related to settlements associated with these foreign currency forward contracts.

Our policy is to record the fair value of each derivative instrument on a gross basis. The following table provides the fair value of our derivative instruments as of December 31, 2013 and March 31, 2014 and their gains and losses for the three months ended March 31, 2013 and 2014:

Derivatives Not Designated as Hedging Instruments	Asset Derivatives			
	December 31, 2013		March 31, 2014	
	Balance Sheet Location	Fair Value	Balance Sheet Location	Fair Value

		2013	2014
Foreign exchange contracts	Other (income) expense, net	\$ (11,150)	\$ 2,922
<b>Total</b>		<b>\$ (11,150)</b>	<b>\$ 2,922</b>

We have designated a portion of our 6<sup>3</sup>/<sub>4</sub>% Notes as a hedge of net investment of certain of our Euro denominated subsidiaries. For the three months ended March 31, 2013 and 2014, we designated on average 105,667 and 64,208 Euros, respectively, of the 6<sup>3</sup>/<sub>4</sub>% Notes as a hedge of net investment of certain of our Euro denominated subsidiaries. As a result, we recorded foreign exchange gains of \$4,123 (\$2,513, net of tax) and foreign exchange gains of \$145 (\$88, net of tax) related to the change in fair value of such debt due to currency translation adjustments, which is a component of accumulated other comprehensive items, net included in Iron Mountain Incorporated Stockholders' Equity for the three months ended March 31, 2013 and 2014, respectively. As of March 31, 2014, cumulative net gains of \$7,572, net of tax are recorded in accumulated other comprehensive items, net associated with this net investment hedge.

**(4) Acquisitions**

We account for acquisitions using the acquisition method of accounting, and, accordingly, the results of operations for each acquisition have been included in our consolidated results from their respective acquisition dates. Cash consideration for our various acquisitions was primarily provided through borrowings under our credit facilities and cash equivalents on-hand. The unaudited pro forma results of operations (including revenue and earnings) for the current and prior periods are not presented due to the insignificant impact of the 2013 and 2014 acquisitions on our consolidated results of operations. Noteworthy 2014 acquisitions are as follows:

In January 2014, in order to enhance our international operations, we acquired Tape Management Services Pty Ltd, a storage and data management company with operations in Australia, for approximately \$15,300.

In February 2014, in order to enhance our international operations, we acquired RM Arşiv Yönetim Hizmetleri Ticaret Anonim Şirketi, a storage rental and records management business with operations in Turkey, for approximately \$20,900, of which \$16,750 was paid in the first quarter of 2014, with the remainder to be paid out based upon a customary working capital adjustment and whether we make claims for indemnification against the former owners of the business.

Table of Contents**IRON MOUNTAIN INCORPORATED****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****(In Thousands, Except Share and Per Share Data)****(Unaudited)****(4) Acquisitions (Continued)**

A summary of the cumulative consideration paid and the preliminary allocation of the purchase price paid for acquisitions in the first quarter of 2014 is as follows:

Cash Paid (gross of cash acquired)	\$ 32,081(1)
Total Consideration	32,081
Fair Value of Identifiable Assets Acquired:	
Cash, Accounts Receivable, Prepaid Expenses, Deferred Income Taxes and Other	3,177
Property, Plant and Equipment(2)	5,317
Customer Relationship Assets(3)	14,376
Other Assets	34
Liabilities Assumed and Deferred Income Taxes(4)	(14,794)
Total Fair Value of Identifiable Net Assets Acquired	8,110
Goodwill Initially Recorded	\$ 23,971

- 
- (1) Included in cash paid for acquisitions in the Consolidated Statements of Cash Flows for the three months ended March 31, 2014 are net cash acquired of \$(1,595) offset by contingent and other payments of \$295 related to acquisitions made in previous years.
- (2) Consists primarily of racking structures, leasehold improvements and computer hardware and software.
- (3) The weighted average lives of customer relationship assets associated with acquisitions to date in 2014 was 10 years.
- (4) Consists primarily of accounts payable, accrued expenses, notes payable, deferred revenue and deferred income taxes.

The acquisitions made in 2014 and certain acquisitions made in 2013 (G4S Secure Data Solutions Colombia S.A.S., G4S Document Delivery S.A.S and Cornerstone Records Management, LLC) were based on estimates of the fair value of net assets acquired and are subject to adjustment. We are not aware of any information that would indicate that the final purchase price allocations for certain 2013 and the 2014 acquisitions will differ meaningfully from preliminary estimates. The purchase price allocations of certain 2013 and the 2014 acquisitions are subject to finalization of the assessment of the fair value of intangible assets (primarily customer relationship assets), property, plant and equipment (primarily racking structures), operating leases, contingencies and income taxes (primarily deferred income taxes).

Total Long-term Debt	4,171,722		4,343,689	
Less Current Portion	(52,583)		(55,084)	
Long-term Debt, Net of Current Portion	\$ 4,119,139		\$ 4,288,605	

- (1) The capital stock or other equity interests of most of our U.S. subsidiaries, and up to 66% of the capital stock or other equity interests of our first-tier foreign subsidiaries, are pledged to secure these debt instruments, together with all intercompany obligations (including promissory notes) of subsidiaries owed to us or to one of our U.S. subsidiary guarantors. In addition, Iron Mountain Canada Operations ULC (f/k/a Iron Mountain Canada Corporation) ("Canada Company") has pledged 66% of the capital stock of its subsidiaries, and all intercompany obligations (including promissory notes) owed to or held by it, to secure the Canadian dollar subfacility under these debt instruments. The fair value (Level 3 of fair value hierarchy described at Note 2.k.) of this long-term debt approximates the carrying value (as borrowings under these debt instruments are based on current variable market interest rates (plus a margin that is subject to change based on our consolidated leverage ratio)), as of December 31, 2013 and March 31, 2014, respectively.
- (2) The fair values (Level 1 of fair value hierarchy described at Note 2.k.) of these debt instruments are based on quoted market prices for these notes on December 31, 2013 and March 31, 2014, respectively.
- (3) Collectively, the "Parent Notes." IMI is the direct obligor on the Parent Notes, which are fully and unconditionally guaranteed, on a senior or senior subordinated basis, as the case may be, by substantially all of its direct and indirect 100% owned U.S. subsidiaries (the

## Edgar Filing: IRON MOUNTAIN INC - Form 10-Q

"Guarantors"). These guarantees are joint and several obligations of the Guarantors. Canada Company and the remainder of our subsidiaries do not guarantee the Parent Notes.

(4)

Canada Company is the direct obligor on the Senior Subsidiary Notes, which are fully and unconditionally guaranteed, on a senior basis, by IMI and the Guarantors. These guarantees are joint

**(Unaudited)**

**(5) Debt (Continued)**

and several obligations of IMI and the Guarantors. See Note 6 to Notes to Consolidated Financial Statements.

- (5) We believe the fair value (Level 3 of fair value hierarchy described at Note 2.k.) of this debt approximates its carrying value.

On August 7, 2013, we amended our existing credit agreement. The revolving credit facilities (the "Revolving Credit Facility") under our credit agreement, as amended (the "Credit Agreement"), allow IMI and certain of its U.S. and foreign subsidiaries to borrow in U.S. dollars and (subject to sublimits) a variety of other currencies (including Canadian dollars, British pounds sterling, Euros, Brazilian reais and Australian dollars, among other currencies) in an aggregate outstanding amount not to exceed \$1,500,000. We have the right to request an increase in the aggregate amount available to be borrowed under the Credit Agreement up to a maximum of \$2,000,000. At the time of the amendment, we repaid all term loans outstanding under our term loan facility of our prior credit agreement. The Revolving Credit Facility terminates on June 27, 2016, at which point all obligations under the Credit Agreement become due. IMI and substantially all of its U.S. subsidiaries guarantee all obligations under the Credit Agreement, and have pledged the capital stock or other equity interests of most of their U.S. subsidiaries, up to 66% of the capital stock or other equity interests of their first-tier foreign subsidiaries, and all intercompany obligations (including promissory notes) owed to or held by them to secure the Credit Agreement. In addition, Canada Company has pledged 66% of the capital stock of its subsidiaries, and all intercompany obligations (including promissory notes) owed to or held by it to secure the Canadian dollar subfacility under the Credit Agreement. The interest rate on borrowings under the Credit Agreement varies depending on our choice of interest rate and currency options, plus an applicable margin, which varies based on our consolidated leverage ratio. Additionally, the Credit Agreement requires the payment of a commitment fee on the unused portion of the Revolving Credit Facility, which fee ranges from between 0.3% to 0.5% based on certain financial ratios. There are also fees associated with any outstanding letters of credit. As of March 31, 2014, we had \$1,108,537 of outstanding borrowings under the Revolving Credit Facility, \$603,020 of which was denominated in U.S. dollars, 92,900 of which was denominated in Canadian dollars, 158,200 of which was denominated in British pounds sterling, 104,715 of which was denominated in Euros and 14,900 of which was denominated in Australian dollars; we also had various outstanding letters of credit totaling \$4,945. The remaining amount available for borrowing under the Revolving Credit Facility as of March 31, 2014, based on IMI's leverage ratio, the last 12 months' earnings before interest, taxes, depreciation and amortization and rent expense ("EBITDAR"), other adjustments as defined in the Credit Agreement and current external debt, was \$386,518 (which amount represents the maximum availability as of such date). The average interest rate in effect under the Revolving Credit Facility was 2.7% and ranged from 2.4% to 4.9% as of March 31, 2014. For the three months ended March 31, 2013 and 2014, we recorded commitment fees and letters of credit fees of \$610 and \$658, respectively, based on the unused balances under the Revolving Credit Facility and outstanding letters of credit.

In January 2014, we redeemed the 150,000 British pounds sterling (approximately \$247,000) in aggregate principal amount outstanding of our 7<sup>1</sup>/<sub>4</sub>% Notes at 100% of par, plus accrued and unpaid interest, utilizing borrowings under our Revolving Credit Facility and cash on-hand.

Table of Contents

**IRON MOUNTAIN INCORPORATED**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

**(In Thousands, Except Share and Per Share Data)**

**(Unaudited)**

**(5) Debt (Continued)**

The Credit Agreement, our indentures and other agreements governing our indebtedness contain certain restrictive financial and operating covenants, including covenants that restrict our ability to complete acquisitions, pay cash dividends, incur indebtedness, make investments, sell assets and take certain other corporate actions. The covenants do not contain a rating trigger. Therefore, a change in our debt rating would not trigger a default under the Credit Agreement, our indentures or other agreements governing our indebtedness. The Credit Agreement uses EBITDAR-based calculations as the primary measures of financial performance, including leverage and fixed charge coverage ratios. IMI's Credit Agreement net total lease adjusted leverage ratio was 5.0 and 5.1 as of December 31, 2013 and March 31, 2014, respectively, compared to a maximum allowable ratio of 6.5, and its net secured debt lease adjusted leverage ratio was 2.2 and 2.5 as of December 31, 2013 and March 31, 2014, respectively, compared to a maximum allowable ratio of 4.0. IMI's bond leverage ratio (which is not lease adjusted), per the indentures, was 5.1 as of both December 31, 2013 and March 31, 2014, compared to a maximum allowable ratio of 6.5. IMI's Credit Agreement fixed charge coverage ratio was 2.5 as of both December 31, 2013 and March 31, 2014, compared to a minimum allowable ratio of 1.5 under the Credit Agreement. Noncompliance with these leverage and fixed charge coverage ratios would have a material adverse effect on our financial condition and liquidity.

**(6) Selected Consolidated Financial Statements of Parent, Guarantors, Canada Company and Non-Guarantors**

The following data summarizes the consolidating results of IMI on the equity method of accounting as of December 31, 2013 and March 31, 2014 and for the three months ended March 31, 2013 and 2014 and are prepared on the same basis as the consolidated financial statements.

The Parent Notes and the Senior Subsidiary Notes are guaranteed by the subsidiaries referred to below as the Guarantors. These subsidiaries are 100% owned by IMI. The guarantees are full and unconditional, as well as joint and several.

Additionally, IMI and the Guarantors guarantee the Senior Subsidiary Notes which were issued by Canada Company. Canada Company does not guarantee the Parent Notes. The other subsidiaries that do not guarantee the Parent Notes or the Senior Subsidiary Notes are referred to below as the Non-Guarantors.

In the normal course of business we periodically change the ownership structure of our subsidiaries to meet the requirements of our business. In the event of such changes, we recast the prior period financial information within this footnote to conform to the current period presentation in the period such changes occur. Generally, these changes do not alter the designation of the underlying subsidiaries as Guarantors or Non-Guarantors. However, they may change whether the underlying subsidiary is owned by the Parent, a Guarantor, Canada Company or a Non-Guarantor. If such a change occurs, the amount of investment in subsidiaries in the below balance sheets and equity in the earnings (losses) of subsidiaries, net of tax in the below statements of operations with respect to the relevant Parent, Guarantors, Canada Company, Non-Guarantors and Eliminations columns also would change.

Table of Contents**IRON MOUNTAIN INCORPORATED****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****(In Thousands, Except Share and Per Share Data)****(Unaudited)****(6) Selected Consolidated Financial Statements of Parent, Guarantors, Canada Company and Non-Guarantors (Continued)**

In July 2013, certain of Canada Company's operating subsidiaries (the "Amalgamated Entities") were amalgamated into Canada Company and, as part of our proposed conversion to a REIT, Canada Company contributed certain assets and liabilities into two newly-formed wholly owned entities (the "Canadian Subsidiaries"). The assets, liabilities, equity, results of operations and cash flows of the Amalgamated Entities, previously presented within the Non-Guarantors column, are now presented within the Canada Company column. The assets, liabilities, equity, results of operations and cash flows of the Canadian Subsidiaries, previously presented within the Canada Company column, are now presented within the Non-Guarantors column.

**(7) Segment Information**

As a result of the restructuring of our operations late in 2013 and early in 2014, we evaluated changes to our internal financial reporting to better align our internal reporting to how we will manage our business going forward. This evaluation resulted in changes to our reportable segments effective January 1, 2014 and, as a result, we have restated previously reported segment information. As a result of the changes to our reportable segments, the former North American Business segment has been separated into two unique reportable segments, which we refer to as (1) North American Records and Information Management Business segment and (2) North American Data Management Business segment. In addition, the Emerging Businesses segment, which was previously reported as a component of the former North American Business segment, is now reported as a component of the Corporate and Other segment.

Our reportable operating segments and Corporate and Other are described as follows:

**North American Records and Information Management Business** storage and information management services throughout the United States and Canada, including the storage of paper documents, as well as other media such as microfilm and microfiche, master audio and videotapes, film, X-rays and blueprints, including healthcare information services, vital records services, service and courier operations, and the collection, handling and disposal of sensitive documents for corporate customers ("Records Management"); information destruction services ("Destruction"); DMS; Fulfillment Services; and Intellectual Property Management.

**North American Data Management Business** the storage and rotation of backup computer media as part of corporate disaster recovery plans throughout the United States and Canada, including service and courier operations ("Data Protection & Recovery"); server and computer backup services; digital content repository systems to house, distribute, and archive key media assets; and storage, safeguarding and electronic or physical delivery of physical media of all types, primarily for entertainment and media industry clients.

**International Business** storage and information management services throughout Europe, Latin America and Asia Pacific, including Records Management, Data Protection & Recovery, Destruction and DMS. Our European operations provide Records Management, Data Protection & Recovery and DMS throughout Europe, and Destruction services are primarily provided in the United Kingdom and Ireland. Our Latin America operations provide Records Management, Data Protection & Recovery, Destruction and DMS throughout Argentina, Brazil, Chile, Colombia, Mexico and Peru. Our Asia Pacific operations provide Records Management, Data Protection & Recovery, Destruction and DMS throughout Australia, with Records Management and Data Protection & Recovery services also provided in certain cities in India, Singapore, Hong Kong-SAR and China.

**Corporate and Other** consists of our data center business in the United States, the primary product offering of our Emerging Businesses segment, as well as costs related to executive and staff functions, including finance, human resources and information technology, which benefit the enterprise as a whole. These costs are primarily related to the general management of these functions on a corporate level and the design and development of programs, policies and procedures that are then implemented in the individual segments, with each segment bearing its own cost of implementation. Corporate and Other also includes stock-based employee compensation expense associated with all Employee Stock-Based Awards.

Table of Contents**IRON MOUNTAIN INCORPORATED****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****(In Thousands, Except Share and Per Share Data)****(Unaudited)****(7) Segment Information (Continued)**

An analysis of our business segment information and reconciliation to the accompanying Consolidated Financial Statements is as follows:

	<b>North American Records and Information Management Business</b>	<b>North American Data Management Business</b>	<b>International Business</b>	<b>Corporate and Other</b>	<b>Total Consolidated</b>
<b>Three Months Ended March 31, 2013</b>					
Total Revenues	\$ 440,015	\$ 98,827	\$ 204,553	\$ 3,636	\$ 747,031
Depreciation and Amortization	40,853	4,342	27,006	8,000	80,201
Depreciation	37,559	4,137	20,432	7,967	70,095
Amortization	3,294	205	6,574	33	10,106
Adjusted OIBDA	162,828	59,417	47,898	(42,667)	227,476
Total Assets(1)	3,547,159	631,266	1,808,829	310,926	6,298,180
Expenditures for Segment Assets	39,922	4,185	33,028	22,845	99,980
Capital Expenditures	36,930	4,126	31,517	22,845	95,418
Cash Paid (Received) for Acquisitions, Net of Cash Acquired	(74)				(74)
Additions to Customer Relationship and Acquisition Costs	3,066	59	1,511		4,636
<b>Three Months Ended March 31, 2014</b>					
Total Revenues	446,132	96,724	224,430	2,840	770,126
Depreciation and Amortization	45,506	5,030	28,759	7,138	86,433
Depreciation	40,821	4,965	21,789	7,138	74,713
Amortization	4,685	65	6,970		11,720
Adjusted OIBDA	167,409	54,268	58,763	(51,916)	228,524
Total Assets(1)	3,646,819	651,858	2,126,111	281,829	6,706,617

Capital Expenditures	42,561	5,507	32,707	27,081	107,856
Cash Paid (Received) for Acquisitions, Net of Cash Acquired	(916)		31,697		30,781
Additions to Customer Relationship and Acquisition Costs	7,621		537		8,158

(1)

Excludes all intercompany receivables or payables and investment in subsidiary balances.

The accounting policies of the reportable segments are the same as those described in Note 2. Adjusted OIBDA for each segment is defined as operating income before depreciation, amortization, intangible impairments, (gain) loss on disposal/write-down of property, plant and equipment, net and REIT Costs (defined below) directly attributable to the segment. Internally, we use Adjusted OIBDA as the basis for evaluating the performance of, and allocating resources to, our operating segments.

Table of Contents**IRON MOUNTAIN INCORPORATED****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****(In Thousands, Except Share and Per Share Data)****(Unaudited)****(7) Segment Information (Continued)**

A reconciliation of Adjusted OIBDA to income from continuing operations before provision (benefit) for income taxes on a consolidated basis is as follows:

	<b>Three Months Ended</b>	
	<b>March 31,</b>	
	<b>2013</b>	<b>2014</b>
Adjusted OIBDA	\$ 227,476	\$ 228,524
Less: Depreciation and Amortization	80,201	86,433
Gain on Disposal/Write-down of Property, Plant and Equipment, Net	(539)	(8,307)
REIT Costs(1)	24,972	8,323
Interest Expense, Net	63,182	62,312
Other Expense (Income), Net	2,739	5,317
<b>Income from Continuing Operations before Provision (Benefit) for Income Taxes</b>	<b>\$ 56,921</b>	<b>\$ 74,446</b>

- 
- (1) Includes costs associated with our 2011 proxy contest, the previous work of the former Strategic Review Special Committee of the board of directors and the proposed REIT conversion ("REIT Costs").

**(8) Commitments and Contingencies**

a. **Litigation General**

We are involved in litigation from time to time in the ordinary course of business. A portion of the defense and/or settlement costs associated with such litigation is covered by various commercial liability insurance policies purchased by us and, in limited cases, indemnification from third parties. Our policy is to establish reserves for loss contingencies when the losses are both probable and reasonably estimable. We record legal costs associated with loss contingencies as expenses in the period in which they are incurred. The matters described below represent our significant loss contingencies. We have evaluated each matter and, if both probable and estimable, accrued an amount that represents our estimate of any probable loss associated with such matter. In addition, we have estimated a reasonably possible range for all loss contingencies including those described below. We believe it is reasonably possible that we could incur aggregate losses in addition to amounts currently accrued for all matters up to an additional \$42,700 over the next several years, of which certain amounts would be covered by insurance or indemnity arrangements.

b. **Government Contract Billing Matter**

Since October 2001, we have provided services to the U.S. Government under several General Services Administration ("GSA") multiple award schedule contracts (the "Schedules"). From October 1, 2001 through March 31, 2014, we billed approximately \$77,000 under the

Edgar Filing: IRON MOUNTAIN INC - Form 10-Q

Schedules. The earliest of the Schedules was renewed in October 2006 with certain modifications to its terms. The Schedules contain a price reductions clause ("Price Reductions Clause") that requires us to offer to reduce the prices

Table of Contents

**IRON MOUNTAIN INCORPORATED**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

**(In Thousands, Except Share and Per Share Data)**

**(Unaudited)**

**(8) Commitments and Contingencies (Continued)**

billed under the Schedules to correspond to the prices billed to certain benchmark commercial customers. In 2011, we initiated an internal review covering the contract period commencing in October 2006, and we discovered potential non-compliance with the Price Reductions Clause. We voluntarily disclosed the potential non-compliance for that period to the GSA and its Office of Inspector General ("OIG") in June 2011.

In April 2012, the U.S. Government sent us a subpoena seeking information that substantially overlaps with the subjects that are covered by the voluntary disclosure process that we initiated with the GSA and OIG in June 2011, except that the subpoena seeks information dating back to 2000, including the initial GSA schedule period of 2001 to 2006, and seeks information about non-GSA federal and state and local customers. Despite the substantial overlap, we understand that the subpoena relates to a separate inquiry, under the civil False Claims Act, that has been initiated independent of the GSA and OIG voluntary disclosure matter.

We continue to review this matter and provide the U.S. Government with information, including pricing practices and the proposed pricing adjustment amount to be refunded. The U.S. Government, however, may not agree with our determination of the refund amount and may request additional pricing adjustments, refunds, civil penalties, up to treble damages and/or interest.

Given the above, it is reasonably possible that an adjustment to our estimates may be required in the future as a result of updated facts and circumstances. To the extent that an adjustment to our estimates is necessary in a future period, we will assess, at that time, whether the adjustment is a result of a change in estimate or the correction of an error. A change in estimate would be reflected as an adjustment through the then-current period statement of operations. A correction of an error would require a quantitative and qualitative analysis to determine the approach to correcting the error. A correction of an error could be reflected in the then-current period statement of operations or as a restatement of prior period financial information, depending upon the underlying facts and circumstances and our quantitative and qualitative analysis.

c.

State of Massachusetts Assessment

During the third quarter of 2012, we applied for an abatement of assessments from the state of Massachusetts. The assessments, issued in the second quarter of 2012, related to a corporate excise audit of the 2004 through 2006 tax years in the aggregate amount of \$8,191, including tax, interest and penalties through the assessment date. The applications for abatement were denied during the third quarter of 2012. On October 19, 2012 we filed petitions with the Massachusetts Appellate Tax Board challenging the assessments. We intend to defend this matter vigorously at the Massachusetts Appellate Tax Board. In addition, during the second quarter of 2013, Massachusetts assessed tax for the 2007 and 2008 tax years in the aggregate amount of \$4,120, including tax, interest and penalties through the assessment date. The assessment is for issues consistent with those assessed in the earlier years. In the third quarter of 2013, we filed an application for abatement for the 2007 and 2008 tax years, which Massachusetts denied on October 15, 2013. On December 13, 2013, we filed a petition with the Massachusetts Appellate Tax Board to challenge the assessment for the 2007 and 2008 tax years and will vigorously defend the matter. Additionally, the state is auditing us for the 2009-2011 tax years.

**(Unaudited)**

**(8) Commitments and Contingencies (Continued)**

d.

Italy Fire

On November 4, 2011, we experienced a fire at a facility we leased in Aprilia, Italy. The facility primarily stored archival and inactive business records for local area businesses. Despite quick response by local fire authorities, damage to the building was extensive, and the building and its contents were a total loss. We continue to assess the impact of the fire, and, although our warehouse legal liability insurer has reserved its rights to contest coverage related to certain types of potential claims, we believe we carry adequate insurance. We have been sued by three customers, and all three of those matters have been settled. We have also received correspondence from other customers, under various theories of liabilities. We deny any liability with respect to the fire and we have referred these claims to our warehouse legal liability insurer for an appropriate response. We do not expect that this event will have a material impact on our consolidated financial condition, results of operations and cash flows. As discussed in Note 10, we sold our Italian operations on April 27, 2012, and we indemnified the buyers related to certain obligations and contingencies associated with the fire.

Our policy related to business interruption insurance recoveries is to record gains within other (income) expense, net in our Consolidated Statements of Operations and proceeds received within cash flows from operating activities in our Consolidated Statements of Cash Flows. Such amounts are recorded in the period the cash is received. Our policy with respect to involuntary conversion of property, plant and equipment is to record any gain or loss within (gain) loss on disposal/write-down of property, plant and equipment, net within operating income in our Consolidated Statements of Operations and proceeds received within cash flows from investing activities within our Consolidated Statements of Cash Flows. Losses are recorded when incurred and gains are recorded in the period when the cash received exceeds the carrying value of the related property, plant and equipment. As a result of the sale of the Italian operations, statements of operation and cash flow impacts related to the fire will be reflected as discontinued operations.

e.

Argentina Fire

On February 5, 2014, we experienced a fire at a facility we own in Buenos Aires, Argentina. As a result of the quick response by local fire authorities, the fire was contained before the entire facility was destroyed and all employees were safely evacuated; however, a number of first responders lost their lives, or in some cases, were severely injured. The cause of the fire is currently being investigated. We believe we carry adequate insurance and are in the process of assessing the impact of the fire but do not expect that this event will have a material impact to our consolidated financial condition. Revenues from our operations at this facility represent less than 0.5% of our consolidated revenues.

**(9) Stockholders' Equity Matters**

Under the terms of an authorization to repurchase shares, as of March 31, 2014, we had a remaining amount available for repurchase under our share repurchase program of \$66,035, which represents approximately 1% in the aggregate of our outstanding common stock based on the closing stock price on such date.

Table of Contents**IRON MOUNTAIN INCORPORATED****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****(In Thousands, Except Share and Per Share Data)****(Unaudited)****(9) Stockholders' Equity Matters (Continued)**

In February 2010, our board of directors adopted a dividend policy under which we have paid, and in the future intend to pay, quarterly cash dividends on our common stock. Declaration and payment of future quarterly dividends is at the discretion of our board of directors. In fiscal year 2013 and in the first quarter of 2014, our board of directors declared the following dividends:

<b>Declaration Date</b>	<b>Dividend Per Share</b>	<b>Record Date</b>	<b>Total Amount</b>	<b>Payment Date</b>
March 14, 2013	\$ 0.2700	March 25, 2013	\$ 51,460	April 15, 2013
June 6, 2013	0.2700	June 25, 2013	51,597	July 15, 2013
September 11, 2013	0.2700	September 25, 2013	51,625	October 15, 2013
December 16, 2013	0.2700	December 27, 2013	51,683	January 15, 2014
March 14, 2014	0.2700	March 25, 2014	51,812	April 15, 2014

In December 2013, our board of directors approved, and we entered into, a REIT Status Protection Rights Agreement (the "Rights Agreement") which provides for a dividend of one preferred stock purchase right (a "Right") for each share of our common stock outstanding on December 20, 2013. Each Right entitles the holder to purchase from us one one-thousandth of a share of our Series A Junior Participating Preferred Stock for a purchase price of \$114.00, subject to adjustment as provided in the Rights Agreement and our Amended Certificate of Designations for our Series A Junior Participating Preferred Stock, each of which was filed with the SEC on December 9, 2013, on a Current Report on Form 8-K. We anticipate that we will seek stockholder approval to impose ownership limitations in our charter documents, as is customary for REITs, if we are ultimately successful in converting to a REIT. The Rights Agreement is intended to help protect our potential status as a REIT under the Code until the approval of those ownership limitations by our stockholders, or, if earlier, until the Rights expire, which will be no later than December 9, 2014.

**(10) Discontinued Operations***Digital Operations*

On June 2, 2011, we sold the Digital Business to Autonomy pursuant to the Digital Sale Agreement. In the Digital Sale, Autonomy purchased (1) the shares of certain of IMI's subsidiaries through which we conducted the Digital Business and (2) certain assets of IMI and its subsidiaries relating to the Digital Business. The Digital Sale qualified as discontinued operations and, as a result, the financial position, operating results and cash flows of the Digital Business, for all periods presented, have been reported as discontinued operations for financial reporting purposes.

Table of Contents**IRON MOUNTAIN INCORPORATED****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****(In Thousands, Except Share and Per Share Data)****(Unaudited)****(10) Discontinued Operations (Continued)**

The table below summarizes certain results of operations of the Digital Business:

	<b>Three Months Ended March 31,</b>	
	<b>2013</b>	<b>2014</b>
Income (Loss) Before Provision (Benefit) for Income Taxes of Discontinued Operations	\$ 88	\$ (1,000)
Provision (Benefit) for Income Taxes	7	(375)
<b>Income (Loss) from Discontinued Operations, Net of Tax</b>	<b>\$ 81</b>	<b>\$ (625)</b>

During the three months ended March 31, 2014, we recognized a loss before provision for income taxes of discontinued operations of \$1,000 associated with the Digital Business, primarily related to settlements of legal matters directly related to the disposed business.

*Italian Operations*

We sold our Italian operations on April 27, 2012, and we agreed to indemnify the buyers of our Italian operations for certain possible obligations and contingencies associated with the fire in Italy discussed more fully in Note 8.d. Our Italian operations were previously included within the International Business segment. For all periods presented, the financial position, operating results and cash flows of our Italian operations have been reported as discontinued operations for financial reporting purposes.

The table below summarizes certain results of our Italian operations:

	<b>Three Months Ended March 31,</b>	
	<b>2013</b>	<b>2014</b>
Income (Loss) Before Provision (Benefit) for Income Taxes of Discontinued Operations	\$ 2,712	\$ 22
Provision (Benefit) for Income Taxes	609	9
<b>Income (Loss) from Discontinued Operations, Net of Tax</b>	<b>\$ 2,103</b>	<b>\$ 13</b>

During the three months ended March 31, 2013, we recognized income before provision for income taxes of discontinued operations of \$2,712 associated with our Italian operations, which primarily represents the recovery of insurance proceeds in excess of carrying value.

**(11) Restructuring**

## Edgar Filing: IRON MOUNTAIN INC - Form 10-Q

In the third quarter of 2013, we implemented a plan that calls for certain organizational realignments to advance our growth strategy and reduce operating costs. As a result, we recorded restructuring costs of approximately \$2,425 in the first quarter of 2014, primarily related to employee

Table of Contents

**IRON MOUNTAIN INCORPORATED**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

**(In Thousands, Except Share and Per Share Data)**

**(Unaudited)**

**(11) Restructuring (Continued)**

severance and associated benefits. Of the total restructuring costs incurred in 2014, \$2,101 and \$324 are reflected in the results of operations of our North American Records and Information Management Business and Corporate and Other segments, respectively. In our Consolidated Statements of Operations for the three months ended March 31, 2014, \$1,363 and \$1,062 of these restructuring costs are recorded in selling, general and administrative expenses and cost of sales, respectively. We expect to incur an additional \$3,334 of employee severance and associated benefit costs in the remainder of 2014 in connection with this organizational realignment primarily in our Corporate and Other segment.

**(12) Subsequent Events**

In April 2014, in order to enhance our international operations, we acquired the stock of OSG Records Management (Europe) Limited, a storage rental and records management business with operations in Poland, for approximately \$16,500.

Table of Contents

**IRON MOUNTAIN INCORPORATED**

**Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations**

*The following discussion and analysis of our financial condition and results of operations for the three months ended March 31, 2014 should be read in conjunction with our Consolidated Financial Statements and Notes thereto for the three months ended March 31, 2014, included herein, and for the year ended December 31, 2013, included in our Annual Report on Form 10-K filed on February 28, 2014 (our "Annual Report").*

**FORWARD-LOOKING STATEMENTS**

We have made statements in this Quarterly Report on Form 10-Q that constitute "forward-looking statements" as that term is defined in the Private Securities Litigation Reform Act of 1995 and other securities laws. These forward-looking statements concern our operations, economic performance, financial condition, goals, beliefs, future growth strategies, investment objectives, plans and current expectations, such as our (1) commitment to future dividend payments, (2) expected 2014 consolidated internal revenue growth rate and capital expenditures in 2014, (3) expected target leverage ratio, and (4) proposed conversion to a real estate investment trust for federal income tax purposes ("REIT"), including (i) the status of our pending private letter ruling (collectively, "PLRs") requests; (ii) the estimated timing of any such conversion to a REIT; (iii) the estimated range of tax payments and other costs expected to be incurred in connection with our proposed conversion to a REIT; and (iv) the anticipated benefits from our organizational realignment. These forward-looking statements are subject to various known and unknown risks, uncertainties and other factors. When we use words such as "believes," "expects," "anticipates," "estimates" or similar expressions, we are making forward-looking statements. Although we believe that our forward-looking statements are based on reasonable assumptions, our expected results may not be achieved, and actual results may differ materially from our expectations.

Important factors relating to our proposed conversion to a REIT that could cause actual results to differ from expectations include, among others, with regard to our estimated tax and other REIT conversion costs, our estimates may not be accurate, and such costs may turn out to be materially different than our estimates due to unanticipated outcomes in the PLRs from the U.S. Internal Revenue Service ("IRS"), the timing of a conversion to a REIT, changes in our support functions and support costs, the unsuccessful execution of internal planning, including restructurings and cost reduction initiatives, or other factors.

In addition, important factors that could cause actual results to differ from expectations include, among others:

the cost to comply with current and future laws, regulations and customer demands relating to privacy issues;

the impact of litigation or disputes that may arise in connection with incidents in which we fail to protect our customers' information;

changes in the price for our storage and information management services relative to the cost of providing such storage and information management services;

changes in customer preferences and demand for our storage and information management services;

the adoption of alternative technologies and shifts by our customers to storage of data through non-paper based technologies;

the cost or potential liabilities associated with real estate necessary for our business;

Table of Contents

the performance of business partners upon whom we depend for technical assistance or management expertise outside the U.S.;

changes in the political and economic environments in the countries in which our international subsidiaries operate;

claims that our technology violates the intellectual property rights of a third party;

changes in the cost of our debt;

the impact of alternative, more attractive investments on dividends;

our ability or inability to complete acquisitions on satisfactory terms and to integrate acquired companies efficiently; and

other trends in competitive or economic conditions affecting our financial condition or results of operations not presently contemplated.

Other risks may adversely impact us, as described more fully under "Item 1A. Risk Factors" in our Annual Report.

You should not rely upon forward-looking statements except as statements of our present intentions and of our present expectations, which may or may not occur. You should read these cautionary statements as being applicable to all forward-looking statements wherever they appear. Except as required by law, we undertake no obligation to release publicly the result of any revision to these forward-looking statements that may be made to reflect events or circumstances after the date hereof or to reflect the occurrence of unanticipated events. Readers are also urged to carefully review and consider the various disclosures we have made in this document, as well as our other periodic reports filed with the Securities and Exchange Commission ("SEC").

**Non-GAAP Measures**

*Adjusted Operating Income Before Depreciation, Amortization, Intangible Impairments, (Gain) Loss on Disposal/Write-down of Property, Plant and Equipment, Net, and REIT Costs ("Adjusted OIBDA")*

Adjusted OIBDA is defined as operating income before depreciation, amortization, intangible impairments, (gain) loss on disposal/write-down of property, plant and equipment, net, and REIT Costs (as defined below). Adjusted OIBDA Margin is calculated by dividing Adjusted OIBDA by total revenues. We use multiples of current or projected Adjusted OIBDA in conjunction with our discounted cash flow models to determine our overall enterprise valuation and to evaluate acquisition targets. We believe Adjusted OIBDA and Adjusted OIBDA Margin provide our current and potential investors with relevant and useful information regarding our ability to generate cash flow to support business investment. These measures are an integral part of the internal reporting system we use to assess and evaluate the operating performance of our business. Adjusted OIBDA does not include certain items that we believe are not indicative of our core operating results, specifically: (1) (gain) loss on disposal/write-down of property, plant and equipment, net; (2) intangible impairments; (3) REIT Costs; (4) other expense (income), net; (5) income (loss) from discontinued operations, net of tax; (6) gain (loss) on sale of discontinued operations, net of tax; and (7) net income (loss) attributable to noncontrolling interests.

Adjusted OIBDA also does not include interest expense, net and the provision (benefit) for income taxes. These expenses are associated with our capitalization and tax structures, which we do not consider when evaluating the operating profitability of our core operations. Finally, Adjusted OIBDA does not include depreciation and amortization expenses, in order to eliminate the impact of capital investments, which we evaluate by comparing capital expenditures to incremental revenue generated and as a percentage of total revenues. Adjusted OIBDA and Adjusted OIBDA Margin should be

## Edgar Filing: IRON MOUNTAIN INC - Form 10-Q

### Table of Contents

considered in addition to, but not as a substitute for, other measures of financial performance reported in accordance with accounting principles generally accepted in the United States of America ("GAAP"), such as operating or net income (loss) or cash flows from operating activities from continuing operations (as determined in accordance with GAAP).

#### *Reconciliation of Operating Income to Adjusted OIBDA (in thousands):*

	<b>Three Months Ended March 31,</b>	
	<b>2013</b>	<b>2014</b>
Operating Income	\$ 122,842	\$ 142,075
Add: Depreciation and Amortization	80,201	86,433
Gain on Disposal/Write-down of Property, Plant and Equipment, net	(539)	(8,307)
REIT Costs(1)	24,972	8,323
Adjusted OIBDA	\$ 227,476	\$ 228,524

- 
- (1) Includes costs associated with our 2011 proxy contest, the previous work of the former Strategic Review Special Committee of the board of directors (the "Special Committee") and the proposed REIT conversion (collectively, "REIT Costs").

#### *Adjusted Earnings per Share from Continuing Operations ("Adjusted EPS")*

Adjusted EPS is defined as reported earnings per share from continuing operations excluding: (1) (gain) loss on disposal/write-down of property, plant and equipment, net; (2) intangible impairments; (3) REIT Costs; (4) other expense (income), net; and (5) the tax impact of reconciling items and discrete tax items. We do not believe these excluded items to be indicative of our ongoing operating results, and they are not considered when we are forecasting our future results. We believe Adjusted EPS is of value to our current and potential investors when comparing our results from past, present and future periods.

#### *Reconciliation of Reported EPS Fully Diluted from Continuing Operations to Adjusted EPS Fully Diluted from Continuing Operations:*

	<b>Three Months Ended March 31,</b>	
	<b>2013</b>	<b>2014</b>
Reported EPS Fully Diluted from Continuing Operations	\$ 0.10	\$ 0.22
Add: Gain on Disposal/Write-down of Property, Plant and Equipment, net		(0.04)
Other Expense, net	0.01	0.03
REIT Costs	0.13	0.05
Tax Impact of Reconciling Items and Discrete Tax Items	0.03	
Adjusted EPS Fully Diluted from Continuing Operations	\$ 0.27	\$ 0.26

### **Critical Accounting Policies**

## Edgar Filing: IRON MOUNTAIN INC - Form 10-Q

Our discussion and analysis of our financial condition and results of operations are based upon our Consolidated Financial Statements, which have been prepared in accordance with GAAP. The preparation of these financial statements requires us to make estimates, judgments and assumptions

Table of Contents

that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities at the date of the financial statements and for the period then ended. On an ongoing basis, we evaluate the estimates used. We base our estimates on historical experience, actuarial estimates, current conditions and various other assumptions that we believe to be reasonable under the circumstances. These estimates form the basis for making judgments about the carrying values of assets and liabilities and are not readily apparent from other sources. Actual results may differ from these estimates. Our critical accounting policies include the following, which are listed in no particular order:

*Revenue Recognition*

*Accounting for Acquisitions*

*Impairment of Tangible and Intangible Assets*

*Income Taxes*

Further detail regarding our critical accounting policies can be found in "Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations" in our Annual Report, and the Consolidated Financial Statements and the Notes included therein, filed with the SEC on February 28, 2014. Management has determined that no material changes concerning our critical accounting policies have occurred since December 31, 2013.

**Overview**

The following discussions set forth, for the periods indicated, management's discussion and analysis of results. Significant trends and changes are discussed for the three month period ended March 31, 2014 within each section.

*Potential REIT Conversion*

In June 2012, we announced that our board of directors, following a thorough analysis of alternatives and careful consideration of the topic, and after the unanimous recommendation of the Special Committee, unanimously approved a plan for us to pursue conversion (the "Conversion Plan") to a REIT. Even though we have not yet determined if we will be able to convert to a REIT, we began operating our business in a manner consistent with being a REIT effective January 1, 2014 so that we and our stockholders will benefit from our REIT status in 2014 if we are ultimately successful in becoming a REIT in 2014. As part of the Conversion Plan and as previously disclosed, we are seeking PLRs from the IRS on a number of technical tax issues. If we do not receive favorable PLRs from the IRS on particular critical issues, we will not be able to convert to a REIT in 2014 or at all. At this time, we are not able to predict when the IRS will provide definitive responses to our outstanding PLR requests, and, as disclosed in our Annual Report, we do not intend to provide additional interim updates with respect to any of the specific PLR requests or, generally, our progression through the IRS's PLR process.

We currently estimate the operating and capital expenditures associated with the Conversion Plan through the end of 2014 to be approximately \$185.0 million to \$200.0 million. Of these amounts, approximately \$153.3 million was incurred through 2013, including approximately \$35.9 million of capital expenditures. Additionally, approximately \$10.5 million was incurred in the first quarter of 2014, including approximately \$2.2 million of capital expenditures. If the Conversion Plan is successful, we also expect to incur an additional \$10.0 million to \$15.0 million in annual REIT compliance costs in future years.

Table of Contents

*Restructuring*

In the third quarter of 2013, we implemented a plan that calls for certain organizational realignments to advance our growth strategy and reduce operating costs. As a result, we recorded restructuring costs of approximately \$2.4 million in the first quarter of 2014, primarily related to employee severance and associated benefits. Of the total restructuring costs incurred in 2014, \$2.1 million and \$0.3 million are reflected in the results of operations of our North American Records and Information Management Business and Corporate and Other segments, respectively. In our Consolidated Statements of Operations for the three months ended March 31, 2014, \$1.4 million and \$1.0 million of these restructuring costs are recorded in selling, general and administrative expenses and cost of sales, respectively. We expect to incur an additional \$3.3 million of employee severance and associated benefit costs in the remainder of 2014 in connection with this organizational realignment primarily in our Corporate and Other segment.

*General*

As a result of the restructuring of our operations late in 2013 and early in 2014, we evaluated changes to our internal financial reporting to better align our internal reporting to how we will manage our business going forward. This evaluation resulted in changes to our reportable segments effective January 1, 2014 and, as a result, we have restated previously reported segment information. As a result of the changes to our reportable segments, the former North American Business segment has been separated into two unique reportable segments, which we refer to as (1) North American Records and Information Management Business segment and (2) North American Data Management Business segment. In addition, the Emerging Businesses segment, which was previously reported as a component of the former North American Business segment, is now reported as a component of the Corporate and Other segment.

Our revenues consist of storage rental revenues as well as service revenues. Storage rental revenues, which are considered a key driver of financial performance for the storage and information management services industry, consist primarily of recurring periodic rental charges related to the storage of materials or data (generally on a per unit basis) that are typically retained by customers for many years. Service revenues include charges for related service activities, which include: (1) the handling of records, including the addition of new records, temporary removal of records from storage, refile of removed records and the destruction of records; (2) courier operations, consisting primarily of the pickup and delivery of records upon customer request; (3) secure shredding of sensitive documents and the related sale of recycled paper, the price of which can fluctuate from period to period; (4) other services, including the scanning, imaging and document conversion services of active and inactive records, or Document Management Solutions ("DMS"), which relate to physical and digital records, and project revenues; (5) customer termination and permanent withdrawal fees; (6) data restoration projects; (7) special project work; (8) the storage, assembly, and detailed reporting of customer marketing literature and delivery to sales offices, trade shows and prospective customers' sites based on current and prospective customer orders ("Fulfillment Services"); (9) consulting services; and (10) technology services and product sales (including specially designed storage containers and related supplies). Our service revenue growth has been negatively impacted by declining activity rates as stored records are becoming less active. The amount of information available to customers through the Internet or their own information systems has been steadily increasing in recent years. As a result, while customers continue to store their records with us, they are less likely than they have been in the past to retrieve records for research purposes, thereby reducing service activity levels. While we expect this trend to continue through 2014, the rate of decline in service activity has begun to moderate in recent periods.

We recognize revenue when the following criteria are met: persuasive evidence of an arrangement exists, services have been rendered, the sales price is fixed or determinable and collectability of the

Table of Contents

resulting receivable is reasonably assured. Storage rental and service revenues are recognized in the month the respective storage rental or service is provided, and customers are generally billed on a monthly basis on contractually agreed-upon terms. Amounts related to future storage rental or prepaid service contracts for customers where storage rental fees or services are billed in advance are accounted for as deferred revenue and recognized ratably over the period the applicable storage rental or service is provided or performed. Revenues from the sales of products, which is included as a component of service revenues, is recognized when products are shipped and title has passed to the customer. Revenues from the sales of products have historically not been significant.

Cost of sales (excluding depreciation and amortization) consists primarily of wages and benefits for field personnel, facility occupancy costs (including rent and utilities), transportation expenses (including vehicle leases and fuel), other product cost of sales and other equipment costs and supplies. Of these, wages and benefits and facility occupancy costs are the most significant. Trends in total wages and benefits in dollars and as a percentage of total consolidated revenue are influenced by changes in headcount and compensation levels, achievement of incentive compensation targets, workforce productivity and variability in costs associated with medical insurance and workers' compensation. Trends in facility occupancy costs are impacted by the total number of facilities we occupy, the mix of properties we own versus properties we occupy under operating leases, fluctuations in per square foot occupancy costs, and the levels of utilization of these properties.

The expansion of our international and secure shredding businesses has impacted the major cost of sales components. Our international operations are more labor intensive than our operations in North America and, therefore, labor costs are a higher percentage of segment revenue than in our North American operations. Our secure shredding operations incur lower facility costs and higher transportation costs as a percentage of revenues compared to our core physical businesses.

Selling, general and administrative expenses consist primarily of wages and benefits for management, administrative, information technology, sales, account management and marketing personnel, as well as expenses related to communications and data processing, travel, professional fees, bad debts, training, office equipment and supplies. Trends in total wage and benefit dollars as a percentage of total consolidated revenue are influenced by changes in headcount and compensation levels, achievement of incentive compensation targets, workforce productivity and variability in costs associated with medical insurance. The overhead structure of our expanding international operations, as compared to our North American operations, is more labor intensive and has not achieved the same level of overhead leverage, which may result in an increase in selling, general and administrative expenses, as a percentage of consolidated revenue, as our international operations become a more meaningful percentage of our consolidated results.

Our depreciation and amortization charges result primarily from the capital-intensive nature of our business. The principal components of depreciation relate to storage systems, which include racking structures, building and leasehold improvements, computer systems hardware and software, and buildings. Amortization relates primarily to customer relationship acquisition costs and is impacted by the nature and timing of acquisitions.

Our consolidated revenues and expenses are subject to variations caused by the net effect of foreign currency translation on revenues and expenses incurred by our entities outside the U.S. It is difficult to predict the future fluctuations of foreign currency exchange rates and how those fluctuations will impact our Consolidated Statement of Operations. Due to the expansion of our international operations, some of these fluctuations have become material on individual balances. However, because both the revenues and expenses are denominated in the local currency of the country in which they are derived or incurred, the impact of currency fluctuations on our operating income and operating margin is partially mitigated. In order to provide a framework for assessing how our underlying businesses performed excluding the effect of foreign currency fluctuations, we compare the percentage change in the results from one period to another period in this report using constant currency presentation. The constant currency growth rates are calculated by translating the 2013 results at the 2014 average exchange rates.

## Edgar Filing: IRON MOUNTAIN INC - Form 10-Q

### Table of Contents

The following table is a comparison of underlying average exchange rates of the foreign currencies that had the most significant impact on our U.S. dollar-reported revenues and expenses:

	Average Exchange Rates for the Three Months Ended March 31,		Percentage Strengthening / (Weakening) of Foreign Currency
	2013	2014	
Australian dollar	\$ 1.039	\$ 0.896	(13.8)%
Brazilian real	\$ 0.501	\$ 0.423	(15.6)%
British pound sterling	\$ 1.552	\$ 1.655	6.6%
Canadian dollar	\$ 0.992	\$ 0.907	(8.6)%
Euro	\$ 1.321	\$ 1.370	3.7%

### Results of Operations

*Comparison of Three Months Ended March 31, 2014 to Three Months Ended March 31, 2013 (in thousands):*

	Three Months Ended March 31,		Dollar Change	Percentage Change
	2013	2014		
Revenues	\$ 747,031	\$ 770,126	\$ 23,095	3.1%
Operating Expenses	624,189	628,051	3,862	0.6%
Operating Income	122,842	142,075	19,233	15.7%
Other Expenses, Net	104,492	99,354	(5,138)	(4.9)%
Income from Continuing Operations, Net of Tax	18,350	42,721	24,371	132.8%
Income (Loss) from Discontinued Operations, Net of Tax	2,184	(612)	(2,796)	(128.0)%
Net Income	20,534	42,109	21,575	105.1%
Net Income Attributable to Noncontrolling Interests	1,148	442	(706)	61.5%
Net Income Attributable to Iron Mountain Incorporated	\$ 19,386	\$ 41,667	\$ 22,281	114.9%
Adjusted OIBDA(1)	\$ 227,476	\$ 228,524	\$ 1,048	0.5%
Adjusted OIBDA Margin(1)	30.5%	29.7%		

(1)

See "Non-GAAP Measures Adjusted Operating Income Before Depreciation, Amortization, Intangible Impairments and REIT Costs ('Adjusted OIBDA')" in this Quarterly Report on Form 10-Q for the definition, reconciliation and a discussion of why we believe these measures provide relevant and useful information to our current and potential investors.

## Edgar Filing: IRON MOUNTAIN INC - Form 10-Q

### Table of Contents

(2)

Our internal revenue growth rate represents the weighted average year-over-year growth rate of our revenues after removing the effects of acquisitions, divestitures and foreign currency exchange rate fluctuations. We calculate internal revenue growth in local currency for our international operations.

Consolidated storage rental revenues increased \$16.4 million, or 3.7%, to \$458.9 million for the three months ended March 31, 2014 from \$442.5 million for the three months ended March 31, 2013. The growth rate for the three months ended March 31, 2014 consists primarily of internal revenue growth of 1.4%. Acquisitions contributed 3.7% of the increase in reported storage rental revenues in the three months ended March 31, 2014 over the same period in 2013. Foreign currency exchange rate fluctuations decreased our reported storage rental revenues by 1.4% for the three months ended March 31, 2014 compared to the same prior year period. Our consolidated storage rental revenue growth in the first three months of 2014 was driven by sustained storage rental internal growth of 2.3% and 5.2% in our North American Data Management and International Business segments, respectively, partially offset by negative storage rental internal growth of 0.3% in our North American Records and Information Management segment. Global records management net volumes as of March 31, 2014 increased by 6.7% over the ending volume at March 31, 2013, supported by strong international volume growth of 15.2%, primarily driven by recently completed acquisitions and solid increases from emerging markets in central Europe and Latin America.

Consolidated service revenues increased \$6.7 million, or 2.2%, to \$311.2 million for the three months ended March 31, 2014 from \$304.6 million for the three months ended March 31, 2013. Service revenue internal growth was negative 0.7% for the three months ended March 31, 2014. The negative service revenue internal growth for the three months ended March 31, 2014 reflects a trend toward reduced retrieval/re-file activity and the related transportation revenues of both our North American Records and Information Management and North American Data Management segments, however, this rate of decline has begun to moderate in recent periods. Foreign currency exchange rate fluctuations decreased reported total service revenues by 1.5% for the three months ended March 31, 2014 compared to the same prior year period. Acquisitions contributed an increase of 4.4% of total reported service revenues in the three months ended March 31, 2014 compared to the same prior year period.

For the reasons stated above, our consolidated revenues increased \$23.1 million, or 3.1%, to \$770.1 million for the three months ended March 31, 2014 from \$747.0 million for the three months ended March 31, 2013. Internal revenue growth was 0.5% for the three months ended March 31, 2014. For the three months ended March 31, 2014, foreign currency exchange rate fluctuations decreased our reported consolidated revenues by 1.4% compared to the same prior year period, primarily due to the weakening of the Australian dollar, Brazilian real and Canadian dollar, offset by an increase of the British pound sterling and the Euro against the U.S. dollar, based on an analysis of weighted average rates for the comparable periods. Acquisitions contributed an increase of 4.0% of total reported revenues in the three months ended March 31, 2014 compared to the same prior year period.

#### *Internal Growth Eight-Quarter Trend*

	2012				2013			2014
	Second Quarter	Third Quarter	Fourth Quarter	First Quarter	Second Quarter	Third Quarter	Fourth Quarter	First Quarter
Storage Rental Revenue	3.5%	2.4%	3.2%	2.5%	2.3%	2.3%	1.3%	1.4%
Service Revenue	(5.2)%	(7.8)%	(2.4)%	(6.5)%	(1.9)%	(0.9)%	(4.4)%	(0.7)%
Total Revenue	(0.3)%	(2.1)%	0.8%	(1.4)%	0.5%	1.0%	(1.1)%	0.5%

We expect our consolidated internal revenue growth rate for 2014 to be approximately 0% to 2%. During the past eight quarters our storage rental revenue internal growth rate has ranged between 1.3% and 3.5%. Storage rental revenue internal growth rates have been stable over the past eight

Table of Contents

quarters. Volume growth in the North American Records and Information Management and North American Data Management Business segments have been relatively flat over this period, and, as a result, storage rental revenue internal growth has been driven primarily by net price increases. Recently, we initiated sales force programs focused on increasing volume, although we anticipate that, in the near term, these programs may have a dilutive impact on net price increases. Within our International Business segment, the developed markets are generating consistent low-to-mid single-digit storage rental revenue growth while the emerging markets are producing strong double-digit storage rental revenue growth by capturing the first-time outsourcing trends for physical records storage and management in those markets. The internal revenue growth rate for service revenue is inherently more volatile than the storage rental revenue internal growth rate due to the more discretionary nature of certain services we offer, such as large special projects, and, as a commodity, the volatility of pricing for recycled paper. These revenues, which are often event-driven and impacted to a greater extent by economic downturns as customers defer or cancel the purchase of certain services as a way to reduce their short-term costs, may be difficult to replicate in future periods. The internal growth rate for total service revenues reflects the following: (1) consistent pressures on activity-based service revenues related to the handling and transportation of items in storage in the North American Records and Information Management Business and the North American Data Management Business segments and secure shredding revenues; and (2) softness in some of our other service lines, such as fulfillment services.

**OPERATING EXPENSES****Cost of Sales**

Consolidated cost of sales (excluding depreciation and amortization) consists of the following expenses (in thousands):

	Three Months Ended March 31,		Dollar Change	Percentage Change		% of Consolidated Revenues		Percentage Change (Favorable)/ Unfavorable
	2013	2014		Actual	Constant Currency	2013	2014	
Labor	\$ 157,305	\$ 164,620	\$ 7,315	4.7%	6.9%	21.1%	21.4%	0.3%
Facilities	106,945	114,593	7,648	7.2%	8.6%	14.3%	14.9%	0.6%
Transportation	30,689	29,124	(1,565)	(5.1)%	(2.3)%	4.1%	3.8%	(0.3)%
Product Cost of Sales and Other	26,137	26,808	671	2.6%	3.1%	3.5%	3.5%	0.0%
	\$ 321,076	\$ 335,145	\$ 14,069	4.4%	6.3%	43.0%	43.5%	0.5%

*Labor*

Labor expense increased to 21.4% of consolidated revenues in the three months ended March 31, 2014 compared to 21.1% in the comparable prior year period. Labor expense for the three months ended March 31, 2014 increased by 6.9% on a constant currency basis compared to the three months ended March 31, 2013 primarily due to incremental labor costs associated with acquisitions. Labor costs were favorably impacted by 2.2 percentage points due to currency rate changes during the three months ended March 31, 2014.

*Facilities*

Facilities costs increased to 14.9% of consolidated revenues in the three months ended March 31, 2014 compared to 14.3% in the comparable prior year period. The largest component of our facilities cost is rent expense, which, on a reported dollar basis, increased by \$1.4 million to \$70.1 million for the three months ended March 31, 2014 compared to the same period in 2013, primarily due to the impact

## Edgar Filing: IRON MOUNTAIN INC - Form 10-Q

### Table of Contents

of acquisitions. Other facilities costs increased by \$6.2 million on a reported dollar basis for the three months ended March 31, 2014 compared to the same period in 2013, primarily due to higher insurance costs of \$3.5 million associated with the recent fire at one of our facilities in Buenos Aires, Argentina, as well as higher utilities and building maintenance costs. Facilities costs were favorably impacted by 1.4 percentage points due to currency rate changes during the three months ended March 31, 2014.

### *Transportation*

Transportation expenses decreased by \$0.7 million in constant currency terms during the three months ended March 31, 2014 compared to the same period in 2013 as a result of a decrease in vehicle lease expense, primarily associated with our United Kingdom operations, due to the capitalization of leased vehicles upon renewal. The lease cost did not change, but the categorization of charges did, resulting in the cost now being reflected as depreciation and interest related to these new leases. Transportation expenses were favorably impacted by 2.8 percentage points due to currency rate changes during the three months ended March 31, 2014.

### *Product Cost of Sales and Other*

Product cost of sales and other, which includes cartons, media and other service, storage and supply costs, is highly correlated to service revenue streams, primarily project revenues. For the three months ended March 31, 2014, product cost of sales and other increased by \$0.7 million compared to the same period in 2013 on an actual basis. These costs were favorably impacted by 0.5 percentage points due to currency rate changes during the three months ended March 31, 2014.

### **Selling, General and Administrative Expenses**

Selling, general and administrative expenses consists of the following expenses (in thousands):

	Three Months Ended March 31,		Dollar Change	Percentage Change		% of Consolidated Revenues		Percentage Change (Favorable)/ Unfavorable
	2013	2014		Actual	Constant Currency	2013	2014	
General and Administrative	\$ 143,624	\$ 131,001	\$ (12,623)	(8.8)%	(8.1)%	19.2%	17.0%	(2.2)%
Sales, Marketing & Account Management	53,615	54,553	938	1.7%	2.5%	7.2%	7.1%	(0.1)%
Information Technology	23,900	24,506	606	2.5%	3.9%	3.2%	3.2%	0.0%
Bad Debt Expense	2,312	4,720	2,408	104.2%	111.5%	0.3%	0.6%	0.3%
	\$ 223,451	\$ 214,780	\$ (8,671)	(3.9)%	(3.1)%	29.9%	27.9%	(2.0)%

### *General and Administrative*

General and administrative expenses decreased to 17.0% of consolidated revenues during the three months ended March 31, 2014 compared to 19.2% in the comparable prior year period. In constant currency terms, general and administrative expenses decreased by \$11.6 million during the three months ended March 31, 2014 compared to the same period in 2013. Included in general and administrative expenses for the three months ended March 31, 2014 were \$8.3 million of REIT Costs compared to \$25.0 million in the comparable prior year period. The decrease was partially offset by incremental restructuring costs of \$1.4 million in the three months ended March 31, 2014 attributable to the organizational restructuring initiated in the fourth quarter of 2013, as well as incremental costs associated with recent acquisitions. General and administrative expenses were favorably impacted by 0.7 percentage points due to currency rate changes during the three months ended March 31, 2014.

Table of Contents

*Sales, Marketing & Account Management*

Sales, marketing and account management expenses decreased to 7.1% of consolidated revenues during the three months ended March 31, 2014 compared to 7.2% in the comparable prior year period. In constant currency terms, the increase of \$1.3 million during the three months ended March 31, 2014 compared to the same period in 2013 is primarily due to incremental sales, marketing and account management costs associated with acquisitions. Sales, marketing and account management expenses were favorably impacted by 0.8 percentage points due to currency rate changes during the three months ended March 31, 2014.

*Information Technology*

In constant currency terms, information technology expenses increased \$0.9 million during the three months ended March 31, 2014 compared to the same period in 2013 primarily due to incremental information technology costs associated with acquisitions. Information technology expenses were favorably impacted by 1.4 percentage points due to currency rate changes during the three months ended March 31, 2014.

*Bad Debt Expense*

Consolidated bad debt expense for the three months ended March 31, 2014 increased \$2.4 million to \$4.7 million (0.6% of consolidated revenues) from \$2.3 million (0.3% of consolidated revenues) in the same period in 2013. We maintain an allowance for doubtful accounts that is calculated based on our past loss experience, current and prior trends in our aged receivables, current economic conditions, and specific circumstances of individual receivable balances. We continue to monitor our customers' payment activity and make adjustments based on their financial condition and in light of historical and expected trends.

**Depreciation, Amortization, and (Gain) Loss on Disposal/Write-down of Property, Plant and Equipment, Net**

Depreciation expense increased \$4.6 million for the three months ended March 31, 2014 compared to the three months ended March 31, 2013, primarily due to the increased depreciation of property, plant and equipment acquired through business combinations.

Amortization expense increased \$1.6 million for the three months ended March 31, 2014 compared to the three months ended March 31, 2013, primarily due to the increased amortization of customer relationship intangible assets acquired through business combinations.

Consolidated gain on disposal/write-down of property, plant and equipment, net was \$8.3 million for the three months ended March 31, 2014 and consisted primarily of approximately \$9.3 million of gains associated with two facilities we disposed of in the United Kingdom. Consolidated gain on disposal/write-down of property, plant and equipment, net was \$0.5 million for the three months ended March 31, 2013 and consisted primarily of gains associated with the retirement of leased vehicles accounted for as capital lease assets associated primarily with our North American Records and Information Management Business.

**OPERATING INCOME and ADJUSTED OIBDA**

As a result of the foregoing factors, (1) consolidated operating income increased \$19.2 million, or 15.7%, to \$142.1 million (18.4% of consolidated revenues) for the three months ended March 31, 2014 from \$122.8 million (16.4% of consolidated revenues) for the three months ended March 31, 2013; (2) consolidated Adjusted OIBDA increased \$1.0 million, or 0.5%, to \$228.5 million (29.7% of

Table of Contents

consolidated revenues) for the three months ended March 31, 2014 from \$227.5 million (30.5% of consolidated revenues) for the three months ended March 31, 2013.

**OTHER EXPENSES, NET**

**Interest Expense, Net**

Consolidated interest expense, net decreased \$0.9 million to \$62.3 million (8.1% of consolidated revenues) for the three months ended March 31, 2014 from \$63.2 million (8.5% of consolidated revenues) for the three months ended March 31, 2013 primarily due to the early retirement of (1) the 175.0 million CAD of our 7<sup>1</sup>/<sub>2</sub>% Senior Subordinated Notes due 2017, (2) the \$50.0 million of our 8% Senior Subordinated Notes due 2018, (3) the \$300.0 million of our 8% Senior Subordinated Notes due 2020 and (4) the \$137.5 million of our 8<sup>3</sup>/<sub>8</sub>% Senior Subordinated Notes due 2021 in August 2013. This decrease was partially offset by the issuance of \$600.0 million in aggregate principal of the 6% Senior Notes due 2023 by Iron Mountain Incorporated ("IMI"), the issuance of 200.0 million CAD in aggregate principal of the 6<sup>1</sup>/<sub>8</sub>% Senior Notes due 2021 by Iron Mountain Canada Operations ULC (f/k/a Iron Mountain Canada Corporation) ("Canada Company") in August 2013. Our weighted average interest rate was 5.8% and 6.3% at March 31, 2014 and March 31, 2013, respectively.

**Other (Income) Expense, Net (in thousands)**

	Three Months Ended March 31,		Dollar Change
	2013	2014	
Foreign currency transaction losses (gains) , net	\$ 3,565	\$ 6,438	\$ 2,873
Other, net	(826)	(1,121)	(295)
	\$ 2,739	\$ 5,317	\$ 2,578

Net foreign currency transaction losses of \$6.4 million, based on period-end exchange rates, were recorded in the three months ended March 31, 2014. Losses resulted primarily from changes in the exchange rate of each of the Argentine peso, Russian ruble and Euro against the U.S. dollar compared to December 31, 2013, as these currencies relate to our intercompany balances with and between our Latin American and European subsidiaries, as well as losses on Australian dollar and British pound sterling forward contracts, which were partially offset by gains primarily from changes in the exchange rate of each of the Brazilian real, British pound sterling and Australian dollar, as these currencies relate to our intercompany balances with and between our Latin American, European and Australian subsidiaries.

Net foreign currency transaction losses of \$3.6 million, based on period-end exchange rates, were recorded in the three months ended March 31, 2013. Losses resulted primarily from changes in the exchange rate of each of the British pound sterling, Euro and Russian ruble against the U.S. dollar compared to December 31, 2012, as these currencies relate to our intercompany balances with and between our European subsidiaries, which were partially offset by gains as a result of British pound sterling denominated debt and forward currency swap contracts and Euro denominated bonds issued by IMI.

**Provision for Income Taxes**

We provide for income taxes during interim periods based on our estimate of the effective tax rate for the year. Discrete items and changes in our estimate of the annual effective tax rate are recorded in the period they occur. Our effective tax rate is subject to variability in the future due to, among other items: (1) changes in the mix of income from foreign jurisdictions; (2) tax law changes; (3) volatility in foreign exchange gains (losses); (4) the timing of the establishment and reversal of tax reserves; (5) our

Table of Contents

ability to utilize foreign tax credits and net operating losses that we generate; and (6) our proposed REIT conversion for federal income tax purposes. We are subject to income taxes in the U.S. and numerous foreign jurisdictions. We are subject to examination by various tax authorities in jurisdictions in which we have business operations or a taxable presence. We regularly assess the likelihood of additional assessments by tax authorities and provide for these matters as appropriate. Although we believe our tax estimates are appropriate, the final determination of tax audits and any related litigation could result in changes in our estimates.

Our effective tax rates for the three months ended March 31, 2013 and 2014 were 67.8% and 42.6%, respectively. The primary reconciling items between the federal statutory rate of 35% and our overall effective tax rate were differences in the rates of tax at which our foreign earnings are subject, including foreign exchange gains and losses in different jurisdictions with different tax rates and state income taxes (net of federal tax benefit). During the three months ended March 31, 2013, foreign currency gains were recorded in higher tax jurisdictions associated with our marking-to-market of debt and derivative instruments while foreign currency losses were recorded in lower tax jurisdictions associated with our marking-to-market of intercompany loan positions, which increased our first quarter 2013 effective tax rate by 22.5%. On January 2, 2013, the American Taxpayer Relief Act of 2012 (the "ATRA") was signed into law. In part, the ATRA retroactively reinstated and extended the controlled foreign corporation look-through rule, which provides for the exception from January 1, 2012 to December 31, 2013 of certain foreign earnings from U.S. federal taxation as Subpart F income. As a result, our income tax provision for the first quarter of 2013 included a discrete tax benefit of \$4.0 million relating to the previously expired period from January 1, 2012 to December 31, 2012. During the three months ended March 31, 2014, there were foreign currency losses recorded in jurisdictions with tax rates lower than the federal statutory rate of 35% associated with our marking-to-market of intercompany loans, which increased our first quarter 2014 effective tax rate by 1.1%. The controlled foreign corporation look-through rule, which provided for the exception of certain foreign earnings from U.S. federal taxation as Subpart F income, expired on December 31, 2013. As a result, our first quarter 2014 effective tax rate was increased by 1.3%.

**INCOME FROM CONTINUING OPERATIONS**

As a result of the foregoing factors, consolidated income from continuing operations for the three months ended March 31, 2014 increased \$24.4 million, or 132.8%, to \$42.7 million (5.5% of consolidated revenues) from income from continuing operations of \$18.4 million (2.5% of consolidated revenues) for the three months ended March 31, 2013.

**INCOME (LOSS) FROM DISCONTINUED OPERATIONS, NET OF TAX**

Loss from discontinued operations, net of tax was \$0.6 million for the three months ended March 31, 2014 primarily related to legal reserves. Income from discontinued operations, net of tax was \$2.2 million for the three months ended March 31, 2013, which primarily represents the recovery of insurance proceeds in excess of carrying value.

**NONCONTROLLING INTERESTS**

For the three months ended March 31, 2013 and 2014, net income attributable to noncontrolling interests resulted in a decrease in net income attributable to IMI of \$1.1 million and \$0.4 million, respectively. These amounts represent our noncontrolling partners' share of earnings/losses in our majority-owned international subsidiaries that are consolidated in our operating results.

Table of Contents

**Segment Analysis (in thousands)**

As a result of the restructuring of our operations late in 2013 and early in 2014, we evaluated changes to our internal financial reporting to better align our internal reporting to how we will manage our business going forward. This evaluation resulted in changes to our reportable segments effective January 1, 2014 and, as a result, we have restated previously reported segment information. We changed the composition of our North American Physical Business segment to the following three operating segments: (1) North American Records and Information Management, (2) North American Data Management and (3) Emerging Businesses. The Emerging Businesses segment, which was previously reported in the North American Physical Business segment, is now reported as a component of the Corporate and Other segment.

Our reportable operating segments are North American Records and Information Management Business, North American Data Management Business, International Business and Corporate and Other. See Note 7 to Notes to Consolidated Financial Statements. Our North American Records and Information Management Business segment offers storage and information management services throughout the United States and Canada, including the storage of paper documents, as well as other media such as microfilm and microfiche, master audio and videotapes, film, X-rays and blueprints, including healthcare information services, vital records services, service and courier operations, and the collection, handling and disposal of sensitive documents for corporate customers ("Records Management"); information destruction services ("Destruction"); DMS; the storage, assembly, and detailed reporting of customer marketing literature and delivery to sales offices, trade shows and prospective customers' sites based on current and prospective customer orders and technology escrow services that protect and manage source code. Our North American Data Management Business segment offers the storage and rotation of backup computer media as part of corporate disaster recovery plans throughout the United States and Canada, including service and courier operations ("Data Protection & Recovery"); server and computer backup services; digital content repository systems to house, distribute, and archive key media assets; and storage, safeguarding and electronic or physical delivery of physical media of all types, primarily for entertainment and media industry clients. Our International Business segment offers storage and information management services throughout Europe, Latin America and Asia Pacific, including Records Management, Data Protection & Recovery, Destruction and DMS. Our European operations provide Records Management, Data Protection & Recovery and DMS throughout Europe, and Destruction services are primarily provided in the United Kingdom and Ireland. Our Latin America operations provide Records Management, Data Protection & Recovery, Destruction and DMS throughout Argentina, Brazil, Chile, Colombia, Mexico and Peru. Our Asia Pacific operations provide Records Management, Data Protection & Recovery, Destruction and DMS throughout Australia, with Records Management and Data Protection & Recovery services also provided in certain cities in India, Singapore, Hong Kong-SAR and China. Corporate and Other consists of our data center business in the United States, the primary product offering of our Emerging Businesses segment, as well as costs related to executive and staff functions, including finance, human resources and information technology, which benefit the enterprise as a whole. These costs are primarily related to the general management of these functions on a corporate level and the design and development of programs, policies and procedures that are then implemented in the individual segments, with each segment bearing its own cost of implementation. Corporate and Other also includes stock-based employee compensation expense associated with all stock options, restricted stock, restricted stock units, performance units and shares of stock issued under our employee stock purchase plan.

- (1) See Note 7 to Notes to the Consolidated Financial Statements for definition of Adjusted OIBDA and for the basis on which allocations are made and a reconciliation of Adjusted OIBDA to operating income.

During the three months ended March 31, 2014, reported revenue in our North American Records and Information Management Business segment increased 1.4% compared to the three months ended March 31, 2013, primarily attributable to the impact of acquisitions of 3.3%, partially offset by negative internal growth of 0.6%. The negative internal growth was primarily the result of a trend toward reduced retrieval/re-file activity and the related transportation revenues. For the three months ended March 31, 2014, foreign currency exchange rate fluctuations decreased our reported revenues for the North American Records and Information Management Business segment by 1.3% compared to the same prior year period due to the weakening of the Canadian dollar against the U.S. dollar. Adjusted OIBDA as a percentage of segment revenue increased 50 basis points during the three months ended March 31, 2014 compared to the same period of 2013, primarily due to a decrease in compensation expense as a result of the organizational restructuring initiated in the fourth quarter of 2013.

During the three months ended March 31, 2014, reported revenue in our North American Data Management Business segment decreased 2.1% compared to the three months ended March 31, 2013, primarily due to negative internal growth of 2.0%. The negative internal growth was primarily driven by negative service internal growth of 8.7% in the three months ended March 31, 2014, which was due to declines in service revenue activity levels as the business becomes more archival in nature. For the three months ended March 31, 2014, foreign currency exchange rate fluctuations decreased our

## Edgar Filing: IRON MOUNTAIN INC - Form 10-Q

### Table of Contents

reported revenues for the North American Data Management Business segment by 0.6% compared to the same prior year period due to the weakening of the Canadian dollar against the U.S. dollar. Adjusted OIBDA as a percentage of segment revenue declined 400 basis points during the three months ended March 31, 2014 compared to the same period of 2013, primarily due to the aforementioned negative internal growth, as well as costs not declining in proportion to the decline in revenue.

### *International Business*

	Three Months Ended March 31,		Dollar Change	Percentage Change		
	2013	2014		Actual	Constant Currency	Internal Growth

(1)

See Note 7 to Notes to the Consolidated Financial Statements for definition of Adjusted OIBDA and for the basis on which allocations are made and a reconciliation of Adjusted OIBDA to operating income.

Reported revenues in our International Business segment increased 9.7% during the three months ended March 31, 2014 over the same prior year period. Internal growth for the three months ended March 31, 2014 was 4.7%, supported by solid 5.2% storage rental internal growth and 4.1% total service internal growth. Acquisitions contributed 7.7% to total reported revenue growth in the three months ended March 31, 2014. Foreign currency fluctuations in 2014 resulted in decreased revenue in the three months ended March 31, 2014, as measured in U.S. dollars, of approximately 2.7% as compared to the same prior year period, primarily due to the weakening of the Australian dollar and Brazilian real, offset by an increase of the British pound sterling and the Euro against the U.S. dollar. Adjusted OIBDA as a percentage of segment revenue increased on a portfolio basis in the three months ended March 31, 2014 compared to the same prior year period, primarily due to increased operating income from productivity gains, pricing actions and disciplined cost management.

### *Corporate and Other*

Table of Contents

During the three months ended March 31, 2014, expenses in the Corporate and Other segment as a percentage of consolidated revenue increased compared to the three months ended March 31, 2013, primarily due to increased insurance costs of \$3.5 million associated with the recent fire at one of our facilities in Buenos Aires, Argentina, professional fees of \$2.9 million and higher stock-based compensation of \$1.4 million.

**Liquidity and Capital Resources**

The following is a summary of our cash balances and cash flows (in thousands) as of and for the three months ended March 31,

	2013	2014
Cash flows from operating activities continuing operations	\$ 105,735	\$ 55,641
Cash flows from investing activities continuing operations	(100,498)	(128,903)
Cash flows from financing activities continuing operations	(14,088)	120,839
Cash and cash equivalents at the end of period	229,999	169,906

Net cash provided by operating activities from continuing operations was \$55.6 million for the three months ended March 31, 2014 compared to \$105.7 million for the three months ended March 31, 2013. The 47.4% period over period decrease resulted primarily from an increase in cash used in working capital of \$44.6 million primarily related to timing of cash interest and other operating accounts payable payments and accruals, and a decrease in net income, including non-cash charges and realized foreign exchange losses, of \$5.5 million.

Our business requires capital expenditures to support our expected revenue growth and ongoing operations as well as new products and services and increased profitability. These expenditures are included in the cash flows from investing activities from continuing operations. The nature of our capital expenditures has evolved over time along with the nature of our business. We make capital expenditures to support a number of different objectives. The majority of our capital goes to support business-line growth and our ongoing operations, but we also expend capital to support the development and improvement of products and services and projects designed to increase our profitability. These expenditures are generally small and discretionary in nature. Cash paid for our capital expenditures, cash paid for acquisitions (net of cash acquired) and additions to customer acquisition costs during the three months ended March 31, 2014 amounted to \$107.9 million, \$30.8 million and \$8.2 million, respectively. For the three months ended March 31, 2014, these expenditures were funded with cash flows provided by operating activities from continuing operations, cash equivalents on hand and borrowings under our Revolving Credit Facility (defined below). Excluding potential future acquisitions and Conversion Plan related capital expenditures, we expect our capital expenditures to be approximately \$340.0 million in the year ending December 31, 2014. Included in our estimated capital expenditures for 2014 is approximately \$90.0 million of real estate and approximately \$5.0 million associated with the Conversion Plan.

Net cash provided by financing activities from continuing operations was \$120.8 million for the three months ended March 31, 2014. During the three months ended March 31, 2014, we received \$421.4 million in net proceeds primarily from our Credit Agreement (defined below). We used the proceeds from these transactions for the retirement of \$247.3 million of our 7<sup>1</sup>/<sub>4</sub>% GBP Senior Subordinated Notes due 2014 and to pay dividends in the amount of \$52.7 million on our common stock.

*Share Repurchases and Dividends*

Under the terms of an authorization to repurchase shares, as of March 31, 2014, we had a remaining amount available for repurchase under our share repurchase program of \$66.0 million, which represents approximately 1% in the aggregate of our outstanding common stock based on the closing stock price on such date.

## Edgar Filing: IRON MOUNTAIN INC - Form 10-Q

### Table of Contents

In February 2010, our board of directors adopted a dividend policy under which we have paid, and in the future intend to pay, quarterly cash dividends on our common stock. Declaration and payment of future quarterly dividends is at the discretion of our board of directors. In fiscal year 2013 and in the first quarter of 2014, our board of directors declared the following dividends:

Declaration Date	Dividend Per Share	Record Date	Total Amount (in thousands)	Payment Date
March 14, 2013	\$ 0.2700	March 25, 2013	\$ 51,460	April 15, 2013
June 6, 2013	0.2700	June 25, 2013	51,597	July 15, 2013
September 11, 2013	0.2700	September 25, 2013	51,625	October 15, 2013
December 16, 2013	0.2700	December 27, 2013	51,683	January 15, 2014
March 14, 2014	0.2700	March 25, 2014	51,812	April 15, 2014

### *Potential REIT Conversion*

In April 2011, we announced a three-year strategic plan that included stockholder payouts through a combination of share buybacks, ongoing quarterly dividends and potential one-time dividends of approximately \$2.2 billion through 2013, with approximately \$1.2 billion to be paid out by May 2012. We fulfilled the commitment to return \$1.2 billion of cash to stockholders by May 2012. The Conversion Plan, however, included several modifications to the previously announced stockholder payout plan. In accordance with tax rules applicable to REIT conversions, and assuming we are successful in converting to a REIT effective January 1, 2014, we anticipate making distributions to stockholders of our undistributed accumulated earnings and profits attributable to all taxable periods ending on or prior to December 31, 2013 as well as of certain other extraordinary items of taxable income that we expect to recognize in 2014 in connection with our proposed conversion to a REIT, such as depreciation recapture in respect of our accounting method changes commenced in our pre-REIT period as well as foreign earnings and profits that we repatriate as dividend income (collectively, the "Special Distributions"), which is estimated to be approximately \$1.3 billion to \$1.45 billion. On October 11, 2012, we announced the declaration by our board of directors of a special distribution of \$700 million (the "2012 Special Distribution") payable, at the election of the stockholders, in either common stock or cash. The 2012 Special Distribution, which is a portion of the Special Distributions, was paid in a combination of common stock and cash on November 21, 2012 (the "Distribution Date"). In the 2012 Special Distribution we paid cash in the aggregate amount of approximately \$140.0 million (including cash paid in lieu of fractional shares) and we issued approximately 17.0 million shares of common stock, or approximately \$560.0 million in value. These shares impacted weighted average shares outstanding from the date of issuance, thus impacting our earnings per share data prospectively from the Distribution Date. If we are successful in converting to a REIT in 2014, we anticipate that the balance of the Special Distributions will be paid in the second half of 2014 (the "2014 Special Distribution") in a combination of common stock and cash, with at least 80% of the 2014 Special Distribution in the form of common stock and up to 20% in cash. With regard to our levels of indebtedness, we plan to operate within our target leverage ratio range of 4x 5x EBITDAR as defined in our Credit Agreement (defined below). We may, however, temporarily operate above the high end of this range due to the timing of cash outlays related to the Conversion Plan.

There are significant tax payments and other costs associated with implementing the Conversion Plan, and certain tax liabilities may be incurred regardless of whether we ultimately succeed in converting to a REIT. In addition, we have undertaken and completed major modifications to our internal systems, including accounting, information technology and real estate, in connection with the Conversion Plan. We currently estimate that we will incur approximately \$395.0 million to \$425.0 million in costs to support the Conversion Plan, including approximately \$210.0 million to \$225.0 million of related tax payments associated with a change in our method of depreciating and

## Edgar Filing: IRON MOUNTAIN INC - Form 10-Q

### Table of Contents

amortizing various assets, including certain of our racking structures, from our prior method to methods that are consistent with the characterization of such assets as real property. The total tax on recapture of depreciation and amortization expenses across all relevant assets is expected to be paid out over up to five years beginning in 2012, with approximately \$80.0 million paid in 2012 and \$53.0 million paid in 2013. No additional payments were made in the first quarter of 2014. These tax liabilities were already reflected as long-term deferred income taxes on our Consolidated Balance Sheets. As such, there will be no income statement impact associated with the payment of these tax liabilities. Additionally, we currently estimate the operating and capital expenditures associated with the Conversion Plan through the end of 2014 to be approximately \$185.0 million to \$200.0 million. Of these amounts, approximately \$153.3 million was incurred through 2013, including approximately \$35.9 million of capital expenditures. Additionally, approximately \$10.5 million was incurred in the first quarter of 2014, including approximately \$2.2 million of capital expenditures.

### *Financial Instruments and Debt*

Financial instruments that potentially subject us to market risk consist principally of cash and cash equivalents (including money market funds and time deposits), restricted cash (primarily U.S. Treasuries) and accounts receivable. The only significant concentrations of liquid investments as of March 31, 2014 relate to cash and cash equivalents and restricted cash held on deposit with two global banks and two "Triple A" rated money market funds, all of which we consider to be large, highly-rated investment-grade institutions. As per our risk management investment policy, we limit exposure to concentration of credit risk by limiting the amount invested in any one mutual fund to a maximum of \$50.0 million or in any one financial institution to a maximum of \$75.0 million. As of March 31, 2014, our cash and cash equivalents and restricted cash balance was \$203.8 million, including money market funds and time deposits amounting to \$59.2 million. A substantial portion of the money market fund is invested in U.S. Treasuries. As of March 31, 2014, we had approximately \$154.1 million of our cash and cash equivalents in foreign entities (excluding foreign branches of U.S. entities). We do not intend to repatriate this cash and cash equivalents in the foreseeable future, and we have both the ability and the intent to reinvest these funds indefinitely outside the U.S.

Our consolidated debt as of March 31, 2014 comprised the following (in thousands):

Revolving Credit Facility(1)	\$ 1,108,537
6 <sup>3</sup> / <sub>4</sub> % Euro Senior Subordinated Notes due 2018 (the "6 <sup>3</sup> / <sub>4</sub> % Notes")(2)	349,854
7 <sup>3</sup> / <sub>4</sub> % Senior Subordinated Notes due 2019 (the "7 <sup>3</sup> / <sub>4</sub> % Notes")(2)	400,000
8 <sup>3</sup> / <sub>8</sub> % Senior Subordinated Notes due 2021 (the "8 <sup>3</sup> / <sub>8</sub> % Notes")(2)	411,550
6 <sup>1</sup> / <sub>8</sub> % CAD Senior Notes due 2021 (the "Senior Subsidiary Notes")(3)	181,020
6% Senior Notes due 2023 (the "6% Notes")(2)	600,000
5 <sup>3</sup> / <sub>4</sub> % Senior Subordinated Notes due 2024 (the "5 <sup>3</sup> / <sub>4</sub> % Notes")(2)	1,000,000
Real Estate Mortgages, Capital Leases and Other	292,728
Total Long-term Debt	4,343,689
Less Current Portion	(55,084)
Long-term Debt, Net of Current Portion	\$ 4,288,605

(1) The capital stock or other equity interests of most of our U.S. subsidiaries, and up to 66% of the capital stock or other equity interests of our first-tier foreign subsidiaries, are pledged to secure these debt instruments, together with all intercompany obligations (including promissory notes) of subsidiaries owed to us or to one of our U.S. subsidiary guarantors. In addition, Canada Company has pledged 66% of the capital stock of its subsidiaries, and all intercompany obligations (including promissory notes) owed to or held by it, to secure the Canadian Dollar subfacility under these debt instruments.

Table of Contents

- (2) Collectively, the "Parent Notes." IMI is the direct obligor on the Parent Notes, which are fully and unconditionally guaranteed, on a senior or senior subordinated basis, as the case may be, by substantially all of its direct and indirect 100% owned U.S. subsidiaries (the "Guarantors"). These guarantees are joint and several obligations of the Guarantors. Canada Company and the remainder of our subsidiaries do not guarantee the Parent Notes.
- (3) Canada Company is the direct obligor on the Senior Subsidiary Notes, which are fully and unconditionally guaranteed, on a senior basis, by IMI and the Guarantors. These guarantees are joint and several obligations of IMI and the Guarantors. See Note 6 to Notes to Consolidated Financial Statements.

On August 7, 2013, we amended our existing credit agreement. The revolving credit facilities (the "Revolving Credit Facility") under our credit agreement, as amended (the "Credit Agreement"), allow IMI and certain of its U.S. and foreign subsidiaries to borrow in U.S. dollars and (subject to sublimits) a variety of other currencies (including Canadian dollars, British pounds sterling, Euros, Brazilian reais and Australian dollars, among other currencies) in an aggregate outstanding amount not to exceed \$1.5 billion. We have the right to request an increase in the aggregate amount available to be borrowed under the Credit Agreement up to a maximum of \$2.0 billion. At the time of the amendment, we repaid all term loans outstanding under our term loan facility of our prior credit agreement. The Revolving Credit Facility terminates on June 27, 2016, at which point all obligations under the Credit Agreement become due. IMI and substantially all of its U.S. subsidiaries guarantee all obligations under the Credit Agreement, and have pledged the capital stock or other equity interests of most of their U.S. subsidiaries, up to 66% of the capital stock or other equity interests of their first-tier foreign subsidiaries, and all intercompany obligations (including promissory notes) owed to or held by them to secure the Credit Agreement. In addition, Canada Company has pledged 66% of the capital stock of its subsidiaries, and all intercompany obligations (including promissory notes) owed to or held by it to secure the Canadian dollar subfacility under the Credit Agreement. The interest rate on borrowings under the Credit Agreement varies depending on our choice of interest rate and currency options, plus an applicable margin, which varies based on our consolidated leverage ratio. Additionally, the Credit Agreement requires the payment of a commitment fee on the unused portion of the Revolving Credit Facility, which fee ranges from between 0.3% to 0.5% based on certain financial ratios. There are also fees associated with any outstanding letters of credit. As of March 31, 2014, we had \$1.1 billion of outstanding borrowings under the Revolving Credit Facility, \$603.0 million of which was denominated in U.S. dollars, 92.9 million of which was denominated in Canadian dollars, 158.2 million of which was denominated in British pounds sterling, 104.7 million of which was denominated in Euros and 14.9 million of which was denominated in Australian dollars; we also had various outstanding letters of credit totaling \$4.9 million. The remaining amount available for borrowing under the Revolving Credit Facility as of March 31, 2014, based on IMI's leverage ratio, the last 12 months' earnings before interest, taxes, depreciation and amortization and rent expense ("EBITDAR"), other adjustments as defined in the Credit Agreement and current external debt, was \$386.5 million (which amount represents the maximum availability as of such date). The average interest rate in effect under the Revolving Credit Facility was 2.7% and ranged from 2.4% to 4.9% as of March 31, 2014. For the three months ended March 31, 2013 and 2014, we recorded commitment fees and letters of credit fees of \$0.6 million and \$0.7 million, respectively, based on the unused balances under the Revolving Credit Facility and outstanding letters of credit.

In January 2014, we redeemed the 150.0 million British pounds sterling (approximately \$247.0 million) in aggregate principal amount outstanding of our 7<sup>1</sup>/<sub>4</sub>% Notes at 100% of par, plus accrued and unpaid interest, utilizing borrowings under our Revolving Credit Facility and cash on-hand.

The Credit Agreement, our indentures and other agreements governing our indebtedness contain certain restrictive financial and operating covenants, including covenants that restrict our ability to complete acquisitions, pay cash dividends, incur indebtedness, make investments, sell assets and take

Table of Contents

certain other corporate actions. The covenants do not contain a rating trigger. Therefore, a change in our debt rating would not trigger a default under the Credit Agreement, our indentures or other agreements governing our indebtedness. The Credit Agreement uses EBITDAR-based calculations as the primary measures of financial performance, including leverage and fixed charge coverage ratios. IMI's Credit Agreement net total lease adjusted leverage ratio was 5.0 and 5.1 as of December 31, 2013 and March 31, 2014, respectively, compared to a maximum allowable ratio of 6.5, and its net secured debt lease adjusted leverage ratio was 2.2 and 2.5 as of December 31, 2013 and March 31, 2014, respectively, compared to a maximum allowable ratio of 4.0. IMI's bond leverage ratio (which is not lease adjusted), per the indentures, was 5.1 as of both December 31, 2013 and March 31, 2014, compared to a maximum allowable ratio of 6.5. IMI's Credit Agreement fixed charge coverage ratio was 2.5 as of both December 31, 2013 and March 31, 2014, compared to a minimum allowable ratio of 1.5 under the Credit Agreement. Noncompliance with these leverage and fixed charge coverage ratios would have a material adverse effect on our financial condition and liquidity.

Our ability to pay interest on or to refinance our indebtedness depends on our future performance, working capital levels and capital structure, which are subject to general economic, financial, competitive, legislative, regulatory and other factors which may be beyond our control. There can be no assurance that we will generate sufficient cash flow from our operations or that future financings will be available on acceptable terms or in amounts sufficient to enable us to service or refinance our indebtedness or to make necessary capital expenditures.

*Acquisitions*

In January 2014, in order to enhance our international operations, we acquired Tape Management Services Pty Ltd, a storage and data management company with operations in Australia, for approximately \$15.3 million.

In February 2014, in order to enhance our international operations, we acquired RM Arşiv Yönetim Hizmetleri Ticaret Anonim Şirketi, a storage rental and records management business with operations in Turkey, for approximately \$20.9 million, of which \$16.8 million was paid in the first quarter of 2014, with the remainder to be paid out based upon a customary working capital adjustment and whether we make claims for indemnification against the former owners of the business.

In April 2014, in order to enhance our international operations, we acquired the stock of OSG Records Management (Europe) Limited, a storage rental and records management business with operations in Poland, for approximately \$16.5 million.

*Contractual Obligations*

We expect to meet our cash flow requirements for the next twelve months from cash generated from operations, existing cash, cash equivalents, borrowings under the Credit Agreement and other financings, which may include senior or senior subordinated notes, secured credit facilities, securitizations and mortgage or capital lease financings, and the issuance of equity. We expect to meet our long-term cash flow requirements using the same means described above. We are highly leveraged and, as a C-Corporation, we expect to continue to be highly leveraged for the foreseeable future. However, if we convert to a REIT, we expect our long-term capital allocation strategy will naturally shift toward increased use of equity to support lower leverage, though our leverage has increased, in the short-term, to fund the costs of the Conversion Plan.

*Net Operating Losses and Foreign Tax Credit Carryforwards*

We have federal net operating loss carryforwards, which expire in 2021 through 2033, of \$87.3 million (\$30.6 million, tax effected) at March 31, 2014 to reduce future federal taxable income. We have assets for state net operating losses of \$2.7 million (net of federal tax benefit), which expire in

Table of Contents

2014 through 2025, subject to a valuation allowance of approximately 45%. We have assets for foreign net operating losses of \$56.0 million, with various expiration dates (and in some cases no expiration date), subject to a valuation allowance of approximately 72%. We also have foreign tax credits of \$9.2 million, which will begin to expire in 2025.

*Inflation*

Certain of our expenses, such as wages and benefits, insurance, occupancy costs and equipment repair and replacement, are subject to normal inflationary pressures. Although to date we have been able to offset inflationary cost increases through increased operating efficiencies and the negotiation of favorable long-term real estate leases, we can give no assurance that we will be able to offset any future inflationary cost increases through similar efficiencies, leases or increased storage rental or service charges.

**Item 4. Controls and Procedures**

*Disclosure Controls and Procedures*

The term "disclosure controls and procedures" is defined in Rules 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934, as amended (the "Exchange Act"). These rules refer to the controls and other procedures of a company that are designed to ensure that information is recorded, processed, summarized and communicated to management, including its principal executive and principal financial officers, as appropriate to allow timely decisions regarding what is required to be disclosed by a company in the reports that it files under the Exchange Act. As of March 31, 2014 (the "Evaluation Date"), we carried out an evaluation, under the supervision and with the participation of our management, including our chief executive officer and chief financial officer, of the effectiveness of our disclosure controls and procedures. Based upon that evaluation, our chief executive officer and chief financial officer concluded that, as of the Evaluation Date, our disclosure controls and procedures are effective.

*Changes in Internal Control over Financial Reporting*

Our management, with the participation of our principal executive officer and principal financial officer, is responsible for establishing and maintaining adequate internal control over financial reporting as defined in Rules 13a-15(f) and 15d-15(f) of the Exchange Act. Our internal control system is designed to provide reasonable assurance to our management and board of directors regarding the preparation and fair presentation of published financial statements.

There have been no changes in our internal control over financial reporting (as defined in Rules 13a-15(f) under the Securities Act of 1934) during the quarter ended March 31, 2014 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

**Part II. Other Information**

**Item 2. Unregistered Sales of Equity Securities and Use of Proceeds**

We did not sell any unregistered securities during the three months ended March 31, 2014, nor did we repurchase any shares of our common stock during the three months ended March 31, 2014. As of March 31, 2014, we had approximately \$66.0 million available for future repurchase under our authorized stock repurchase program.
