UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

FORM 10-Q
 QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended September 30, 2017

OR
 TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____
Commission file number 1-8267

EMCOR GROUP, INC.
(Exact Name of Registrant as Specified in Its Charter)
Delaware 11-2125338
(State or Other Jurisdiction of (I.R.S. Employer
Incorporation or Organization) Identification Number)

301 Merritt Seven 06851-1092
Norwalk, Connecticut
(Address of Principal Executive Offices) (Zip Code)
(203) 849-7800
(Registrant's Telephone Number, Including Area Code)

N/A
(Former Name, Former Address and Former Fiscal Year, if Changed Since Last Report)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (Section 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer
Non-accelerated filer (Do not check if a smaller reporting company) Smaller reporting company
Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined by Rule 12b-2 of the Exchange Act). Yes No

Applicable Only To Corporate Issuers

Number of shares of Common Stock outstanding as of the close of business on October 23, 2017: 58,813,795 shares.

EMCOR Group, Inc. and Subsidiaries

Notes to Condensed Consolidated Financial Statements (Unaudited)

NOTE 1 Basis of Presentation

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with instructions to the Quarterly Report on Form 10-Q and Rule 10-01 of Regulation S-X. Consequently, certain information and note disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States have been condensed or omitted. References to the “Company,” “EMCOR,” “we,” “us,” “our” and similar words refer to EMCOR Group, Inc. and its consolidated subsidiaries unless the context indicates otherwise. Readers of this report should refer to the consolidated financial statements and the notes thereto included in our latest Annual Report on Form 10-K filed with the Securities and Exchange Commission. In our opinion, the accompanying unaudited condensed consolidated financial statements contain all adjustments (consisting only of those of a normal recurring nature) necessary to present fairly our financial position and the results of our operations. The results of operations for the three and nine months ended September 30, 2017 are not necessarily indicative of the results to be expected for the year ending December 31, 2017.

NOTE 2 New Accounting Pronouncements

On January 1, 2017, we adopted the accounting pronouncement issued by the Financial Accounting Standards Board (“FASB”) to simplify the presentation of deferred income taxes within the balance sheet. This pronouncement eliminates the requirement that deferred tax assets and liabilities are presented as current or noncurrent based on the nature of the underlying assets and liabilities. Instead, the pronouncement requires that all deferred tax assets and liabilities, including valuation allowances, be classified as noncurrent. We adopted this pronouncement on a retrospective basis. As a result of such adoption, approximately \$41.7 million of net deferred tax assets, which were previously presented as “Prepaid expenses and other” in the Condensed Consolidated Balance Sheet as of December 31, 2016, were reclassified as a reduction to “Other long-term obligations.”

On January 1, 2017, we adopted the accounting pronouncement issued by the FASB to simplify the accounting for goodwill impairment. This guidance eliminates the requirement that an entity calculate the implied fair value of goodwill when measuring an impairment charge. Instead, an entity would record an impairment charge based on the excess of a reporting unit’s carrying amount over its fair value. We adopted this pronouncement on a prospective basis. The adoption of this guidance did not have a material impact on our financial position and/or results of operations.

In February 2016, an accounting pronouncement was issued by the FASB to replace existing lease accounting guidance. This pronouncement is intended to provide enhanced transparency and comparability by requiring lessees to record right-of-use assets and corresponding lease liabilities on the balance sheet for most leases. Expenses associated with leases will continue to be recognized in a manner similar to current accounting guidance. This pronouncement is effective for annual and interim periods beginning after December 15, 2018, with early adoption permitted. The adoption is required to be applied on a modified retrospective basis for each prior reporting period presented. We have not yet determined the effect that the adoption of this pronouncement may have on our financial position and/or results of operations.

In May 2014, an accounting pronouncement was issued by the FASB to clarify existing guidance on revenue recognition. This guidance includes the required steps to achieve the core principle that a company should recognize revenue when it transfers promised goods or services to customers in an amount that reflects the consideration to which the company expects to be entitled in exchange for those goods or services. This pronouncement is effective for fiscal years and interim periods beginning after December 15, 2017, with early adoption permitted. The guidance permits the use of one of two retrospective transition methods. We anticipate adopting the standard on January 1, 2018 using the modified retrospective method. We have substantially completed the process to evaluate the impact of the new pronouncement on our contracts, including identifying potential differences that will result from applying the requirements of the new guidance. As a result of the review of our various types of revenue arrangements, we do not anticipate that the adoption will have a material impact on our financial position and/or results of operations, particularly as it relates to revenues generated from long-term construction, service maintenance, and time and materials contracts. With respect to our shop services operations within our United States industrial services segment, which currently recognize revenue related to the engineering, manufacturing and repair of shell and tube heat

exchangers when the product is shipped and all other revenue recognition criteria have been met, the adoption of the new standard will accelerate the timing of revenue recognition for certain contracts for which control is transferred to our customers over time instead of at a point in time. We have also drafted revised accounting policies and have evaluated the enhanced disclosure requirements on our business processes, controls and systems.

6

Table of Contents

EMCOR Group, Inc. and Subsidiaries

Notes to Condensed Consolidated Financial Statements (Unaudited)

NOTE 3 Acquisitions of Businesses

On January 4, 2017 and March 1, 2017, we acquired two companies for a total consideration of \$84.8 million. One company provides fire protection and alarm services primarily in the Southern region of the United States, and its results have been included in our United States mechanical construction and facilities services segment. The other company provides mobile mechanical services within the Western region of the United States, and its results have been included in our United States building services segment. In connection with these acquisitions, we acquired working capital of \$9.6 million and other net assets of \$0.3 million and have preliminarily ascribed \$28.7 million to goodwill and \$46.2 million to identifiable intangible assets. We expect that all of the acquired goodwill will be deductible for tax purposes.

The purchase price allocations for the businesses acquired in 2017 are still preliminary and subject to change during their respective measurement periods. The acquisition of these businesses was accounted for by the acquisition method, and the prices paid for them have been allocated to their respective assets and liabilities, based upon the estimated fair value of their assets and liabilities at the dates of their respective acquisitions by us.

On April 15, 2016, we completed the acquisition of Ardent Services, L.L.C. and Rabalais Constructors, LLC (collectively, "Ardent"). This acquisition has been included in our United States electrical construction and facilities services segment. Ardent provides electrical and instrumentation services to the energy infrastructure market in North America, and this acquisition further strengthens our position in electrical construction and services and broadens our capabilities across the industrial and energy sectors, especially in the Gulf Coast, Midwest and Western regions of the United States. Under the terms of the transaction, we acquired 100% of Ardent's equity interests for total consideration of \$201.4 million. In connection with the acquisition of Ardent, we acquired working capital of \$34.1 million and other net assets of \$3.9 million and have ascribed \$121.9 million to goodwill and \$41.5 million to identifiable intangible assets. We expect that \$99.7 million of the acquired goodwill will be deductible for tax purposes. The weighted average amortization period for the identifiable intangible assets is approximately 13.5 years. We completed the final allocation of Ardent's purchase price during the first quarter of 2017 with an insignificant impact.

On April 1, 2016, we acquired a company for an immaterial amount. This company provides mobile mechanical services within the Southeastern region of the United States, and its results have been included in our United States building services segment. The purchase price for this acquisition was finalized in 2016.

NOTE 4 Disposition of Assets

Due to a historical pattern of losses in the construction operations of our United Kingdom segment and our negative assessment of construction market conditions in the United Kingdom for the foreseeable future, we ceased construction operations in the United Kingdom during the third quarter of 2014. The results of the construction operations of our United Kingdom segment for all periods are presented in the Condensed Consolidated Financial Statements as discontinued operations.

The results of discontinued operations are as follows (in thousands):

	For the three months ended September 30, 2017		For the nine months ended September 30, 2016	
Revenues	\$(81)	\$40	\$863	\$108
Loss from discontinued operation, net of income taxes	\$(207)	\$(406)	\$(729)	\$(1,584)
Diluted loss per share from discontinued operation	\$(0.00)	\$(0.01)	\$(0.01)	\$(0.03)

The loss from discontinued operations for the three and nine months ended September 30, 2017 was primarily due to legal costs related to the settlement of final contract balances on certain construction projects completed in prior years, partially offset by revenues recognized in the second quarter of 2017 upon the settlement of a previously outstanding contract claim.

Table of Contents

EMCOR Group, Inc. and Subsidiaries

Notes to Condensed Consolidated Financial Statements (Unaudited)

NOTE 4 Disposition of Assets - (Continued)

Included in the Condensed Consolidated Balance Sheets at September 30, 2017 and December 31, 2016 are the following major classes of assets and liabilities associated with the discontinued operation (in thousands):

	September 30, 2017	December 31, 2016
Assets of discontinued operation:		
Current assets	\$ 360	\$ 1,233

Liabilities of discontinued operation:

Current liabilities	\$ 3,511	\$ 4,036
---------------------	----------	----------

At September 30, 2017, the assets and liabilities of the discontinued operation consisted of accounts receivable, contract retentions and contract warranty obligations that are expected to be collected or fulfilled in the ordinary course of business. Additionally at September 30, 2017, there remained less than \$0.1 million of obligations related to employee severance, which are expected to be paid in 2018. The settlement of the remaining assets and liabilities may result in additional income and/or expenses. Such income and/or expenses are expected to be immaterial and will be reflected as discontinued operations as incurred.

NOTE 5 Earnings Per Share

Calculation of Basic and Diluted Earnings (Loss) per Common Share

The following tables summarize our calculation of Basic and Diluted Earnings (Loss) per Common Share ("EPS") for the three and nine months ended September 30, 2017 and 2016 (in thousands, except share and per share data):

	For the three months ended September 30,	
	2017	2016
Numerator:		
Income from continuing operations attributable to EMCOR Group, Inc. common stockholders	\$64,804	\$ 51,937
Loss from discontinued operation, net of income taxes	(207)	(406)
Net income attributable to EMCOR Group, Inc. common stockholders	\$64,597	\$ 51,531
Denominator:		
Weighted average shares outstanding used to compute basic earnings (loss) per common share	59,061,768	60,889,484
Effect of dilutive securities—Share-based awards	357,432	428,573

NOTE 7 Debt

Debt in the accompanying Condensed Consolidated Balance Sheets consisted of the following amounts (in thousands):

	September 30, 2017	December 31, 2016
Revolving credit facility	\$ 125,000	\$ 125,000
Term loan	288,608	300,000
Unamortized debt issuance costs	(4,548)	(5,437)
Capitalized lease obligations	4,788	3,732
Other	22	31
Total debt	413,870	423,326
Less: current maturities	15,364	15,030
Total long-term debt	\$ 398,506	\$ 408,296

Credit Agreement

Until August 3, 2016, we had a credit agreement dated as of November 25, 2013 (as amended, the “2013 Credit Agreement”), which provided for a revolving credit facility of \$750.0 million (the “2013 Revolving Credit Facility”) and a term loan of \$350.0 million (the “2013 Term Loan”). On August 3, 2016, we amended and restated the 2013 Credit Agreement to provide for a \$900.0 million revolving credit facility (the “2016 Revolving Credit Facility”) and a \$400.0 million term loan (the “2016 Term Loan”) (collectively referred to as the “2016 Credit Agreement”) expiring August 3, 2021. The proceeds of the 2016 Term Loan were used to repay amounts drawn under the 2013 Term Loan, as well as a portion of the outstanding balance under the 2013 Revolving Credit Facility. We may increase the 2016 Revolving Credit Facility to \$1.3 billion if additional lenders are identified and/or existing lenders are willing to increase their current commitments. We may allocate up to \$300.0 million of available capacity under the 2016 Revolving Credit Facility to letters of credit for our account or for the account of any of our subsidiaries. Obligations under the 2016 Credit Agreement are guaranteed by most of our direct and indirect subsidiaries and are secured by substantially all of our assets. The 2016 Credit Agreement contains various covenants providing for, among other things, maintenance of certain financial ratios and certain limitations on payment of dividends, common stock repurchases, investments, acquisitions, indebtedness and capital expenditures. We were in compliance with all such covenants as of September 30, 2017 and December 31, 2016. A commitment fee is payable on the average daily unused amount of the 2016 Revolving Credit Facility, which ranges from 0.15% to 0.30%, based on certain financial tests. The fee was 0.15% of the unused amount as of September 30, 2017. Borrowings under the 2016 Credit Agreement bear interest at (1) a base rate plus a margin of 0.00% to 0.75%, based on certain financial tests, or (2) United States dollar LIBOR (1.24% at September 30, 2017) plus 1.00% to 1.75%, based on certain financial tests. The base rate is determined by the greater of (a) the prime commercial lending rate announced by Bank of Montreal from time to time (4.25% at September 30, 2017), (b) the federal funds effective rate, plus ½ of 1.00%, (c) the daily one month LIBOR rate, plus 1.00%, or (d) 0.00%. The interest rate in effect at September 30, 2017 was 2.24%. Fees for letters of credit issued under the 2016 Revolving Credit Facility range from 1.00% to 1.75% of the respective face amounts of outstanding letters of credit and are computed based on certain financial tests. We capitalized an additional \$3.0 million of debt issuance costs associated with the 2016 Credit Agreement. Debt issuance costs are amortized over the life of the agreement and are included as part of interest expense. The 2016 Term Loan required us to make principal payments of \$5.0 million on the last day of March, June, September and December of each year, which commenced with the calendar quarter ended December 31, 2016. On December 30, 2016, we made a payment of \$100.0 million, of which \$5.0 million represented our required quarterly payment and \$95.0 million represented a prepayment of outstanding principal. Such prepayment was applied against the remaining mandatory quarterly payments on a ratable basis. As a result, commencing with the calendar quarter ended March 31, 2017, our required quarterly payment has been reduced to \$3.8 million. All unpaid principal and interest is due on August 3, 2021. As of September 30, 2017 and December 31, 2016, the balance of the 2016 Term Loan was \$288.6 million and \$300.0 million, respectively. As of

September 30, 2017 and December 31, 2016, we had approximately \$111.8 million and \$91.9 million of letters of credit outstanding, respectively. There were \$125.0 million in borrowings outstanding under the 2016 Revolving Credit Facility as of September 30, 2017 and December 31, 2016.

Table of Contents

EMCOR Group, Inc. and Subsidiaries

Notes to Condensed Consolidated Financial Statements (Unaudited)

NOTE 8 Fair Value Measurements

We use a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy, which gives the highest priority to quoted prices in active markets, is comprised of the following three levels:

Level 1 – Unadjusted quoted market prices in active markets for identical assets and liabilities.

Level 2 – Observable inputs, other than Level 1 inputs. Level 2 inputs would typically include quoted prices in markets that are not active or financial instruments for which all significant inputs are observable, either directly or indirectly.

Level 3 – Prices or valuations that require inputs that are both significant to the measurement and unobservable.

The following tables provide the assets and liabilities carried at fair value measured on a recurring basis as of September 30, 2017 and December 31, 2016 (in thousands):

Asset Category	Assets at Fair Value as of September 30, 2017			
	Level 1	Level 2	Level 3	Total
Cash and cash equivalents ⁽¹⁾	\$480,496	\$ —	—	—\$480,496
Restricted cash ⁽²⁾	2,082	—	—	2,082
Deferred compensation plan assets ⁽³⁾	20,372	—	—	20,372
Total	\$502,950	\$ —	—	—\$502,950
Asset Category	Assets at Fair Value as of December 31, 2016			
	Level 1	Level 2	Level 3	Total
Cash and cash equivalents ⁽¹⁾	\$464,617	\$ —	—	—\$464,617
Restricted cash ⁽²⁾	2,043	—	—	2,043
Deferred compensation plan assets ⁽³⁾	12,153	—	—	12,153
Total	\$478,813	\$ —	—	—\$478,813

Cash and cash equivalents include money market funds with original maturity dates of three months or less, which (1) are Level 1 assets. At September 30, 2017 and December 31, 2016, we had \$187.0 million and \$154.6 million, respectively, in money market funds.

(2) Restricted cash is classified as “Prepaid expenses and other” in the Condensed Consolidated Balance Sheets.

(3) Deferred compensation plan assets are classified as “Other assets” in the Condensed Consolidated Balance Sheets.

We believe that the carrying values of our financial instruments, which include accounts receivable and other financing commitments, approximate their fair values due primarily to their short-term maturities and low risk of counterparty default. The carrying value of our debt associated with the 2016 Credit Agreement approximates its fair value due to the variable rate on such debt.

NOTE 9 Income Taxes

For the three months ended September 30, 2017 and 2016, our income tax provision from continuing operations was \$38.6 million and \$30.8 million, respectively, based on an effective income tax rate, before discrete items and less amounts attributable to noncontrolling interests, of 37.1% and 38.1%, respectively. The actual income tax rate on income from continuing operations, less amounts attributable to noncontrolling interests, for the three months ended September 30, 2017 and 2016, inclusive of discrete items, was 37.3% and 37.2%, respectively. For the nine months ended September 30, 2017 and 2016, our income tax provision from continuing operations was \$98.5 million and \$82.7 million, respectively, based on effective income tax rates, before discrete items and less amounts attributable to noncontrolling interests, of 37.4% and 37.8%, respectively. The actual income tax rates on income from continuing operations, less amounts attributable to noncontrolling interests, for the nine months ended September 30, 2017 and 2016, inclusive of discrete items, were 36.0% and 36.7%, respectively. The increase in the 2017 income tax provision was primarily due to increased income from continuing operations. The decrease in the 2017 actual income tax rate on income from continuing operations was due to the net impact of discrete items, inclusive of the reversal of reserves for

previously unrecognized income tax benefits in the first quarter of 2017.

Table of Contents

EMCOR Group, Inc. and Subsidiaries

Notes to Condensed Consolidated Financial Statements (Unaudited)

NOTE 9 Income Taxes - (Continued)

As of September 30, 2017 and December 31, 2016, the amount of unrecognized income tax benefits was \$1.9 million and \$4.0 million (of which \$0.7 million and \$2.2 million, if recognized, would favorably affect our effective income tax rate), respectively.

We report interest expense and/or income related to unrecognized income tax benefits in the income tax provision. As of September 30, 2017 and December 31, 2016, we had approximately \$0.2 million and \$0.5 million, respectively, of accrued interest expense related to unrecognized income tax benefits included as a liability in the Condensed Consolidated Balance Sheets. For the three months ended September 30, 2017 and 2016, less than \$0.1 million of interest expense and less than \$0.1 million of interest income, respectively, was recognized in the income tax provision. For the nine months ended September 30, 2017 and 2016, \$0.3 million and less than \$0.1 million of interest income, respectively, was recognized in the income tax provision.

We do not anticipate any significant changes to our reserves for uncertain tax positions in the next twelve months.

We file income tax returns with the Internal Revenue Service and various state, local and foreign tax agencies. The Company is currently under examination by various taxing authorities for the years 2012 through 2015. During the first quarter of 2017, the Company settled an examination with a taxing authority which resulted in the recognition of \$3.3 million of income tax benefits upon the reversal of reserves for previously uncertain tax positions.

NOTE 10 Common Stock

As of September 30, 2017 and December 31, 2016, there were 58,806,509 and 59,946,984 shares of our common stock outstanding, respectively.

During the three months ended September 30, 2017 and 2016, we issued 19,679 and 47,050 shares of common stock, respectively, primarily upon: (a) the purchase of common stock pursuant to our employee stock purchase plan and (b) the satisfaction of required conditions under certain of our share-based compensation plans. During the nine months ended September 30, 2017 and 2016, we issued 213,060 and 353,116 shares of common stock, respectively, primarily upon: (a) the satisfaction of required conditions under certain of our share-based compensation plans, (b) the purchase of common stock pursuant to our employee stock purchase plan and (c) the exercise of stock options.

On September 26, 2011, our Board of Directors authorized us to repurchase up to \$100.0 million of our outstanding common stock. On December 5, 2013, October 23, 2014 and October 28, 2015, our Board of Directors authorized us to repurchase up to an additional \$100.0 million, \$250.0 million and \$200.0 million of our outstanding common stock, respectively. During 2017, we have repurchased approximately 1.4 million shares of our common stock for approximately \$88.6 million. Since the inception of the repurchase programs through September 30, 2017, we have repurchased approximately 12.8 million shares of our common stock for approximately \$573.0 million. As of September 30, 2017, there remained authorization for us to repurchase approximately \$77.0 million of our shares. Subsequent to September 30, 2017, our Board of Directors authorized us to repurchase up to an additional \$100.0 million of our outstanding common stock. The repurchase programs have no expiration date and do not obligate the Company to acquire any particular amount of common stock and may be suspended, recommenced or discontinued at any time or from time to time without prior notice. We may repurchase our shares from time to time to the extent permitted by securities laws and other legal requirements, including provisions in our 2016 Credit Agreement placing limitations on such repurchases. The repurchase programs have been and will be funded from our operations.

NOTE 11 Retirement Plans

Our United Kingdom subsidiary has a defined benefit pension plan covering all eligible employees (the "UK Plan"); however, no individual joining the company after October 31, 2001 may participate in the UK Plan. On May 31, 2010, we curtailed the future accrual of benefits for active employees under such plan.

NOTE 11 Retirement Plans - (Continued)

Components of Net Periodic Pension Cost

The components of net periodic pension cost of the UK Plan for the three and nine months ended September 30, 2017 and 2016 were as follows (in thousands):

	For the three months ended September 30, 2017		For the nine months ended September 30, 2016	
Interest cost	\$2,162	\$2,465	\$6,331	\$7,846
Expected return on plan assets	(3,388)	(3,398)	(9,919)	(10,816)
Amortization of unrecognized loss	738	489	2,160	1,556
Net periodic pension cost (income)	\$(488)	\$(444)	\$(1,428)	\$(1,414)

Employer Contributions

For the nine months ended September 30, 2017, our United Kingdom subsidiary contributed approximately \$3.5 million to the UK Plan and anticipates contributing an additional \$1.3 million during the remainder of 2017.

NOTE 12 Commitments and Contingencies

Government Contracts

As a government contractor, we are subject to U.S. government audits and investigations relating to our operations, including claims for fines, penalties and compensatory and treble damages, and possible suspension or debarment from doing business with the government. Based on currently available information, we believe the outcome of ongoing government disputes and investigations will not have a material impact on our financial position, results of operations or liquidity.

Legal Matters

One of our subsidiaries was a subcontractor to a mechanical contractor (“Mechanical Contractor”) on a construction project where an explosion occurred in 2010. The Mechanical Contractor has asserted claims, in the context of an arbitration proceeding against our subsidiary, alleging that our subsidiary is responsible for a portion of the damages for which the Mechanical Contractor may be liable as a result of: (a) personal injury suffered by individuals as a result of the explosion and (b) the Mechanical Contractor’s legal fees and associated management costs in defending against any and all such claims. The Mechanical Contractor previously asserted claims under the Connecticut and Massachusetts Unfair and Deceptive Trade Practices Acts, but such claims were recently withdrawn. The general contractor (as assignee of the Mechanical Contractor) on the construction project, and for whom the Mechanical Contractor worked, has alleged that our subsidiary is responsible for losses asserted by the owner of the project and/or the general contractor because of delays in completion of the project and for damages to the owner’s property. We believe, and have been advised by counsel, that we have a number of meritorious defenses to all such matters. We believe that the ultimate outcome of such matters will not have a material adverse effect on our consolidated financial position, results of operations or liquidity. Notwithstanding our assessment of the final impact of this matter, we are not able to estimate with any certainty the amount of loss, if any, which would be associated with an adverse resolution.

We are involved in several other proceedings in which damages and claims have been asserted against us. We believe that we have a number of valid defenses to such proceedings and claims and intend to vigorously defend ourselves. Other potential claims may exist that have not yet been asserted against us. We do not believe that any such matters will have a material adverse effect on our financial position, results of operations or liquidity. Litigation is subject to many uncertainties and the outcome of litigation is not predictable with assurance. It is possible that some litigation matters for which liabilities have not been recorded could be decided unfavorably to us, and that any such unfavorable decisions could have a material adverse effect on our financial position, results of operations or liquidity.

Restructuring expenses

Restructuring expenses, primarily relating to employee severance obligations, were less than \$0.1 million and \$1.0 million for the three and nine months ended September 30, 2017, respectively, and \$0.5 million and \$1.3 million for the three and nine months ended September 30, 2016, respectively. As of September 30, 2017, the balance of these restructuring obligations yet to be paid was less than \$0.1 million and is expected to be paid during the remainder of 2017. No material expenses in connection with restructuring from continuing operations are expected to be incurred during the remainder of 2017.

NOTE 12 Commitments and Contingencies - (Continued)

The changes in restructuring activity by reportable segments during the nine months ended September 30, 2017 and 2016 were as follows (in thousands):

	United States mechanical construction and facilities services segment	United States building services segment	Total
Balance at December 31, 2015	\$ —	\$ 81	\$ 81
Charges	401	870	1,271
Payments	(108)	(770)	(878)
Balance at September 30, 2016	\$ 293	\$ 181	\$ 474
Balance at December 31, 2016	\$ 188	\$ 13	\$ 201
Charges	181	773	954
Payments	(369)	(737)	(1,106)
Balance at September 30, 2017	\$ —	\$ 49	\$ 49

NOTE 13 Segment Information

Our reportable segments reflect certain reclassifications of prior year amounts from our United States mechanical construction and facilities services segment to our United States building services segment due to changes in our internal reporting structure.

We have the following reportable segments, which provide services associated with the design, integration, installation, start-up, operation and maintenance of various systems: (a) United States electrical construction and facilities services (involving systems for electrical power transmission and distribution; premises electrical and lighting systems; process instrumentation in the refining, chemical process, food process and mining industries; low-voltage systems, such as fire alarm, security and process control; voice and data communication; roadway and transit lighting; and fiber optic lines); (b) United States mechanical construction and facilities services (involving systems for heating, ventilation, air conditioning, refrigeration and clean-room process ventilation; fire protection; plumbing, process and high-purity piping; controls and filtration; water and wastewater treatment; central plant heating and cooling; cranes and rigging; millwrighting; and steel fabrication, erection and welding); (c) United States building services; (d) United States industrial services; and (e) United Kingdom building services. The “United States building services” and “United Kingdom building services” segments principally consist of those operations which provide a portfolio of services needed to support the operation and maintenance of our customers’ facilities, including commercial and government site-based operations and maintenance; facility maintenance and services, including reception, security and catering services; outage services to utilities and industrial plants; military base operations support services; mobile maintenance and services; floor care and janitorial services; landscaping, lot sweeping and snow removal; facilities management; vendor management; call center services; installation and support for building systems; program development, management and maintenance for energy systems; technical consulting and diagnostic services; infrastructure and building projects for federal, state and local governmental agencies and bodies; and small modification and retrofit projects, which services are not generally related to customers’ construction programs. The “United States industrial services” segment principally consists of those operations which provide industrial maintenance and services, including those for refineries and petrochemical plants, including on-site repairs, maintenance and service of heat exchangers, towers, vessels and piping; design, manufacturing, repair and hydro blast cleaning of shell and tube heat exchangers and related equipment; refinery turnaround planning and engineering services; specialty welding services; overhaul and maintenance of critical process units in refineries and petrochemical plants; and specialty technical services for refineries and petrochemical plants.

Table of Contents

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

We are one of the largest electrical and mechanical construction and facilities services firms in the United States. In addition, we provide a number of building services and industrial services. Our services are provided to a broad range of commercial, industrial, utility and institutional customers through approximately 75 operating subsidiaries and joint venture entities. Our offices are located in the United States and the United Kingdom.

Impact of Acquisitions

In order to provide a more meaningful period-over-period discussion of our operating results, we may discuss amounts generated or incurred (revenues, gross profit, selling, general and administrative expenses and operating income) from companies acquired. The amounts discussed reflect the acquired companies' operating results in the current reported period only for the time period these entities were not owned by EMCOR in the comparable prior reported period.

Overview

The following table presents selected financial data for the three months ended September 30, 2017 and 2016 (in thousands, except percentages and per share data):

	For the three months ended	
	September 30,	
	2017	2016
Revenues	\$1,886,691	\$1,923,174
Revenues (decrease) increase from prior year	(1.9)%	13.2 %
Operating income	\$106,459	\$86,064
Operating income as a percentage of revenues	5.6 %	4.5 %
Net income attributable to EMCOR Group, Inc.	\$64,597	\$51,531
Diluted earnings per common share from continuing operations	\$1.09	\$0.85

The results for the 2017 third quarter set new company records in terms of quarterly operating income, net income attributable to EMCOR Group, Inc. and diluted earnings per common share from continuing operations, despite the challenges faced by our United States industrial services segment during the quarter. In addition, our operating margin (operating income as a percentage of revenues) was a new company record for a third quarter. The decrease in revenues for the 2017 third quarter was primarily attributable to our field services operations within our United States industrial services segment due to: (a) decreased demand for our specialty services offerings, including large project activity, and (b) a decrease in turnaround activities, as the third quarter of 2017 was negatively impacted by Hurricane Harvey, which resulted in the deferral of, and may lead to the potential cancellation of, previously scheduled turnaround projects. In addition, revenues decreased within our United States building services segment, primarily attributable to: (a) the loss of certain contracts not renewed pursuant to rebid within our commercial and government site-based services operations and (b) a reduction in large project activity within our energy services operations. These decreases were partially offset by an increase in revenues from our United States mechanical construction and facilities services segment due to increased activity within the healthcare, hospitality and commercial market sectors. In addition, companies acquired in 2017, which are reported in our United States mechanical construction and facilities services segment and our United States building services segment, generated incremental revenues of \$34.7 million.

Operating income and operating margin increased within all of our reportable segments, except for our United States industrial services segment. The overall increase in operating income and operating margin was mainly attributable to the results of our domestic construction segments, which were favorably impacted by an increase in gross profit within the majority of the market sectors in which we operate. In addition, the results of our United States electrical construction and facilities services segment for the 2016 third quarter were negatively impacted by \$6.9 million of losses incurred on a transportation construction project. Companies acquired in 2017 contributed incremental operating income of \$1.3 million, inclusive of \$2.3 million of amortization expense associated with identifiable intangible assets.

Table of Contents

Operating Segments

Our reportable segments reflect certain reclassifications of prior year amounts from our United States mechanical construction and facilities services segment to our United States building services segment due to changes in our internal reporting structure.

We have the following reportable segments, which provide services associated with the design, integration, installation, start-up, operation and maintenance of various systems: (a) United States electrical construction and facilities services (involving systems for electrical power transmission and distribution; premises electrical and lighting systems; process instrumentation in the refining, chemical process, food process and mining industries; low-voltage systems, such as fire alarm, security and process control; voice and data communication; roadway and transit lighting; and fiber optic lines); (b) United States mechanical construction and facilities services (involving systems for heating, ventilation, air conditioning, refrigeration and clean-room process ventilation; fire protection; plumbing, process and high-purity piping; controls and filtration; water and wastewater treatment; central plant heating and cooling; cranes and rigging; millwrighting; and steel fabrication, erection and welding); (c) United States building services; (d) United States industrial services; and (e) United Kingdom building services. The “United States building services” and “United Kingdom building services” segments principally consist of those operations which provide a portfolio of services needed to support the operation and maintenance of our customers’ facilities, including commercial and government site-based operations and maintenance; facility maintenance and services, including reception, security and catering services; outage services to utilities and industrial plants; military base operations support services; mobile maintenance and services; floor care and janitorial services; landscaping, lot sweeping and snow removal; facilities management; vendor management; call center services; installation and support for building systems; program development, management and maintenance for energy systems; technical consulting and diagnostic services; infrastructure and building projects for federal, state and local governmental agencies and bodies; and small modification and retrofit projects, which services are not generally related to customers’ construction programs. The “United States industrial services” segment principally consists of those operations which provide industrial maintenance and services, including those for refineries and petrochemical plants, including on-site repairs, maintenance and service of heat exchangers, towers, vessels and piping; design, manufacturing, repair and hydro blast cleaning of shell and tube heat exchangers and related equipment; refinery turnaround planning and engineering services; specialty welding services; overhaul and maintenance of critical process units in refineries and petrochemical plants; and specialty technical services for refineries and petrochemical plants.

Results of Operations

Revenues

The following tables present our operating segment revenues from unrelated entities and their respective percentages of total revenues (in thousands, except for percentages):

	For the three months ended			
	September 30,			
	2017	% of Total	2016	% of Total
Revenues:				
United States electrical construction and facilities services	\$457,919	24 %	\$458,553	24 %
United States mechanical construction and facilities services	760,084	40 %	691,818	36 %
United States building services	437,107	23 %	460,715	24 %
United States industrial services	145,679	8 %	239,052	12 %
Total United States operations	1,800,789	95 %	1,850,138	96 %
United Kingdom building services	85,902	5 %	73,036	4 %
Total worldwide operations	\$1,886,691	100%	\$1,923,174	100%

Table of Contents

	For the nine months ended September 30,			
	2017	% of Total	2016	% of Total
Revenues:				
United States electrical construction and facilities services	\$1,350,157	24 %	\$1,227,474	22 %
United States mechanical construction and facilities services	2,173,030	38 %	1,925,793	34 %

United Kingdom building services	244,078	4 %	251,256	4 %
Total worldwide operations	\$5,674,360	100%	\$5,601,560	100%

As described below in more detail, our revenues for the three months ended September 30, 2017 decreased to \$1.89 billion compared to \$1.92 billion for the three months ended September 30, 2016, and our revenues for the nine months ended September 30, 2017 increased to \$5.67 billion compared to \$5.60 billion for the nine months ended September 30, 2016. The decrease in revenues for the three months ended September 30, 2017 was primarily attributable to a decrease in revenues from our United States industrial services segment and our United States building services segment, partially offset by an increase in revenues from our United States mechanical construction and facilities services segment. The increase in revenues for the nine months ended September 30, 2017 was primarily attributable to increased revenues from both of our domestic construction segments. Companies acquired in 2017 and 2016, which are reported in our United States electrical construction and facilities services segment, our United States mechanical construction and facilities services segment and our United States building services segment, generated incremental revenues of \$34.7 million and \$156.5 million for the three and nine months ended September 30, 2017, respectively.

Revenues of our United States electrical construction and facilities services segment were \$457.9 million and \$1,350.2 million for the three and nine months ended September 30, 2017, respectively, compared to revenues of \$458.6 million and \$1,227.5 million for the three and nine months ended September 30, 2016, respectively. The decrease in revenues for the three months ended September 30, 2017 was primarily attributable to a decrease in revenues from electrical construction projects with customers in the industrial and power generation industries, partially offset by an increase in revenues from institutional and commercial construction projects. The increase in revenues for the nine months ended September 30, 2017 was primarily attributable to an increase in revenues from commercial and transportation construction projects. The increase in revenues within the commercial market sector for both periods was primarily as a result of work performed on numerous telecommunication construction projects. The results for the nine months ended September 30, 2017 included \$50.4 million of incremental revenues generated by the acquisition of Ardent Services, L.L.C. and Rabalais Constructors, LLC (collectively, "Ardent").

Our United States mechanical construction and facilities services segment revenues for the three months ended September 30, 2017 were \$760.1 million, a \$68.3 million increase compared to revenues of \$691.8 million for the three months ended September 30, 2016. Revenues of this segment for the nine months ended September 30, 2017 were \$2,173.0 million, a \$247.2 million increase compared to revenues of \$1,925.8 million for the nine months ended September 30, 2016. The increase in revenues for both periods was primarily attributable to an increase in revenues from healthcare, commercial and hospitality construction projects. In addition, revenues for the nine months ended September 30, 2017 benefited from an increase in revenues from water and wastewater construction projects, partially offset by a decrease in revenues from institutional construction projects. The results for the three and nine months ended September 30, 2017 included \$17.9 million and \$55.7 million, respectively, of incremental revenues generated by a company acquired in 2017.

Revenues of our United States building services segment for the three months ended September 30, 2017 decreased by \$23.6 million compared to the three months ended September 30, 2016, and revenues for the nine months ended September 30, 2017 decreased by \$51.6 million compared to the nine months ended September 30, 2016. The

decrease in revenues for both periods was primarily attributable to: (a) the loss of certain contracts not renewed pursuant to rebid within our commercial and government site-based services operations and (b) a reduction in large project activity within our energy services operations. In addition, the decrease in revenues for the nine months ended September 30, 2017 was partially due to a reduction in snow removal activities within our commercial site-based services operations. These decreases were partially offset by an increase in revenues from our mobile mechanical services operations as a result of greater project, service and controls activities. The results for the three and nine months ended September 30, 2017 included \$16.8 million and \$50.4 million, respectively, of incremental revenues generated by companies acquired in 2017 and 2016.

Table of Contents

Revenues of our United States industrial services segment for the three months ended September 30, 2017 decreased by \$93.4 million compared to the three months ended September 30, 2016, and revenues for the nine months ended September 30, 2017 decreased by \$238.4 million compared to the nine months ended September 30, 2016. This segment's results for the three months ended September 30, 2017 were negatively impacted by Hurricane Harvey, which resulted in the deferral of, and may lead to the potential cancellation of, previously scheduled turnaround projects. In addition, the decrease in revenues for both periods was attributable to decreased large project activity from our specialty services offerings within our field services operations.

Our United Kingdom building services segment revenues were \$85.9 million for the three months ended September 30, 2017 compared to revenues of \$73.0 million for the three months ended September 30, 2016. For the nine months ended September 30, 2017, revenues for this segment were \$244.1 million compared to revenues of \$251.3 million for the nine months ended September 30, 2016. This segment's revenues for the three and nine months ended September 30, 2017 were negatively impacted by \$0.3 million and \$22.1 million, respectively, related to the effect of unfavorable exchange rates for the British pound versus the United States dollar. The unfavorable exchange rates for the nine months ended September 30, 2017 resulted, in part, from the decision by the United Kingdom to exit the European Union. Excluding the impact of unfavorable exchange rates, the increase in revenues for both periods was the result of increased revenues from new contract awards within the commercial and institutional market sectors, partially offset by a decrease in project activity with existing customers.

Backlog

The following table presents our operating segment backlog from unrelated entities and their respective percentages of total backlog (in thousands, except for percentages):

	September 30, 2017	% of Total	December 31, 2016	% of Total	September 30, 2016	% of Total
Backlog:						
United States electrical construction and facilities services	\$1,219,755	31 %	\$1,221,237	31 %	\$1,154,939	30 %
United States mechanical construction and facilities services	1,816,413	46 %	1,818,536	47 %	1,834,335	47 %
United States building services	701,569	18 %	663,340	17 %	706,188	18 %
United States industrial services	57,476	1 %	50,279	1 %	51,200	1 %
Total United States operations	3,795,213	96 %	3,753,392	96 %	3,746,662	96 %
United Kingdom building services	167,955	4 %	149,530	4 %	156,032	4 %
Total worldwide operations	\$3,963,168	100 %	\$3,902,922	100 %	\$3,902,694	100 %

Our backlog at September 30, 2017 was \$3.96 billion compared to \$3.90 billion at both December 31, 2016 and September 30, 2016. The increase in backlog at September 30, 2017 compared to backlog at December 31, 2016 was attributable to an increase in backlog from our United States building services segment, our United Kingdom building services segment and our United States industrial services segment, inclusive of acquisitions. Backlog increases with awards of new contracts and decreases as we perform work on existing contracts. Backlog is not a term recognized under United States generally accepted accounting principles; however, it is a common measurement used in our industry. We include a project within our backlog at such time as a contract is awarded and agreement on contract terms has been reached. Backlog includes unrecognized revenues to be realized from uncompleted construction contracts plus unrecognized revenues expected to be realized over the remaining term of services contracts. However, we do not include in backlog contracts for which we are paid on a time and material basis and a fixed amount cannot be determined, and if the remaining term of a services contract exceeds 12 months, the unrecognized revenues attributable to such contract included in backlog are limited to only the next 12 months of revenues provided for in the contract award. Our backlog also includes amounts related to services contracts for which a fixed price contract value is not assigned when a reasonable estimate of total revenues can be made from budgeted amounts agreed to with our customer. Our backlog is comprised of: (a) original contract amounts, (b) change orders for which we have received written confirmations from our customers, (c) pending change orders for which we expect to receive confirmations in the ordinary course of business and (d) claim amounts that we have made against customers for which we have determined we have a legal basis under existing contractual arrangements and as to which we consider recovery to be probable. Such claim amounts were immaterial for all periods presented. Our backlog does not include anticipated

revenues from unconsolidated joint ventures or variable interest entities nor anticipated revenues from pass-through costs on contracts for which we are acting in the capacity of an agent and which are reported on the net basis. We believe our backlog is firm, although many contracts are subject to cancellation at the election of our customers. Historically, cancellations have not had a material adverse effect on us.

Table of Contents

Cost of sales and Gross profit

The following table presents our cost of sales, gross profit (revenues less cost of sales) and gross profit margin (gross profit as a percentage of revenues) (in thousands, except for percentages):

	For the three months ended		For the nine months ended	
	September 30,		September 30,	
	2017	2016	2017	2016
Cost of sales	\$1,591,621	\$1,655,130	\$4,838,449	\$4,835,667
Gross profit	\$295,070	\$268,044	\$835,911	\$765,893
Gross profit, as a percentage of revenues	15.6	% 13.9	% 14.7	% 13.7

Our gross profit increased by \$27.0 million for three months ended September 30, 2017 compared to the three months ended September 30, 2016. Gross profit increased by \$70.0 million for the nine months ended September 30, 2017 compared to the nine months ended September 30, 2016. Our gross profit margin was 15.6% and 13.9% for the three months ended September 30, 2017 and 2016, respectively. Gross profit margin was 14.7% and 13.7% for the nine months ended September 30, 2017 and 2016, respectively. Gross profit and gross profit margin for both periods were favorably impacted by improved operating performance within all of our domestic segments, except for our United States industrial services segment. The Company's gross profit and gross profit margin for the three and nine months ended September 30, 2016 were negatively impacted by \$6.9 million and \$17.4 million, respectively, of losses incurred on a transportation construction project within our United States electrical construction and facilities services segment, which resulted in a 0.3% negative impact on the Company's gross profit margin for both prior year periods. In addition, gross profit and gross profit margin within our United States mechanical construction and facilities services segment for the nine months ended September 30, 2017 were favorably impacted by the recovery of certain contract costs previously disputed on a project that was completed in 2016, resulting in \$18.1 million of gross profit and a 0.2% favorable impact on the Company's gross profit margin.

Selling, general and administrative expenses

The following table presents our selling, general and administrative expenses and SG&A margin (selling, general and administrative expenses as a percentage of revenues) (in thousands, except for percentages):

	For the three		For the nine	
	months ended		months ended	
	September 30,		September 30,	
	2017	2016	2017	2016
Selling, general and administrative expenses	\$188,565	\$181,441	\$552,903	\$530,654
Selling, general and administrative expenses, as a percentage of revenues	10.0	% 9.4	% 9.7	% 9.5

Our selling, general and administrative expenses for the three months ended September 30, 2017 increased by \$7.1 million to \$188.6 million compared to \$181.4 million for the three months ended September 30, 2016. Selling, general and administrative expenses for the nine months ended September 30, 2017 increased by \$22.2 million to \$552.9 million compared to \$530.7 million for the nine months ended September 30, 2016. The increase in selling, general and administrative expenses for the three and nine months ended September 30, 2017 included \$3.8 million and \$20.0 million, respectively, of incremental expenses directly related to companies acquired in 2017 and 2016, including amortization expense attributable to identifiable intangible assets of \$0.7 million and \$3.1 million, respectively. In addition to the impact of acquisitions, selling, general and administrative expenses increased in both periods due to: (a) an increase in salaries, primarily within our United States mechanical construction and facilities segment, partially as a result of an increase in headcount due to higher revenues than in the same prior year periods, (b) an increase in the provision for doubtful accounts, primarily within our United States building services segment and (c) an increase in medical insurance costs. These increases were partially offset by lower incentive compensation expense for both periods partially due to the lower projected annual operating results for our United States industrial services segment than in the same prior year period, which resulted in decreased accruals for this segment's incentive compensation plans. In addition, selling, general and administrative expenses for the nine months ended September 30, 2016 included \$3.8 million of transaction costs associated with the acquisition of Ardent. Selling, general and

administrative expenses as a percentage of revenues were 10.0% and 9.7% for the three and nine months ended September 30, 2017, respectively, compared to 9.4% and 9.5% for the three and nine months ended September 30, 2016, respectively. The increase in SG&A margin for the three months ended September 30, 2017 was due to: (a) unabsorbed overhead costs within our United States industrial services segment due to the deferral of certain turnaround activity as a result of Hurricane Harvey and (b) an increase in both the provision for doubtful accounts and medical insurance costs as discussed above.

Table of Contents

Restructuring expenses

Restructuring expenses, primarily relating to employee severance obligations, were less than \$0.1 million and \$1.0 million for the three and nine months ended September 30, 2017, respectively, and \$0.5 million and \$1.3 million for the three and nine months ended September 30, 2016, respectively. As of September 30, 2017, the balance of these restructuring obligations yet to be paid was less than \$0.1 million and is expected to be paid during the remainder of 2017. No material expenses in connection with restructuring from continuing operations are expected to be incurred during the remainder of 2017.

Operating income

The following tables present our operating income (loss) and operating income (loss) as a percentage of segment revenues from unrelated entities (in thousands, except for percentages):

	For the three months ended September 30,					
	2017	% of Segment Revenues		2016	% of Segment Revenues	
Operating income (loss):						
United States electrical construction and facilities services	\$46,583	10.2	%	\$30,927	6.7	%
United States mechanical construction and facilities services	57,484	7.6	%	38,890	5.6	%
United States building services	25,981	5.9	%	23,125	5.0	%
United States industrial services	(4,844)	(3.3)	%	14,586	6.1	%

Total worldwide operations	106,459	5.6	%	86,064	4.5	%
Other corporate items:						
Interest expense	(3,324)			(3,479)		
Interest income	277			161		
Income from continuing operations before income taxes	\$103,412			\$82,746		
	For the nine months ended September 30,					
	2017	% of Segment Revenues		2016	% of Segment Revenues	
Operating income (loss):						
United States electrical construction and facilities services	\$109,735	8.1	%	\$70,645	5.8	%
United States mechanical construction and facilities services	150,971	6.9	%	100,607	5.2	%
United States building services	60,375	4.6	%	55,658	4.1	%
United States industrial services	16,573	2.8	%	66,600	8.0	%
Total United States operations	337,654	6.2	%	293,510	5.5	%
United Kingdom building services	9,109	3.7	%	9,160	3.6	%
Corporate administration	(63,755)	—		(67,431)	—	
Restructuring expenses	(954)	—		(1,271)	—	
Total worldwide operations	282,054	5.0	%	233,968	4.2	%
Other corporate items:						
Interest expense	(9,464)			(8,973)		
Interest income	607			518		
Income from continuing operations before income taxes	\$273,197			\$225,513		

As described below in more detail, operating income was \$106.5 million and \$282.1 million for the three and nine months ended September 30, 2017, respectively, compared to \$86.1 million and \$234.0 million for the three and nine months ended September 30, 2016, respectively. Operating margin was 5.6% and 5.0% for the three and nine months

ended September 30, 2017, respectively, compared to 4.5% and 4.2% for the three and nine months ended September 30, 2016, respectively. Operating income and operating margin for the nine months ended September 30, 2017 benefited from the recovery of certain contract costs previously

Table of Contents

disputed on a project completed in 2016 within our United States mechanical construction and facilities services segment, which resulted in a 0.3% favorable impact on the Company's operating margin.

Operating income of our United States electrical construction and facilities services segment for the three and nine months ended September 30, 2017 was \$46.6 million and \$109.7 million, respectively, compared to operating income of \$30.9 million and \$70.6 million for the three and nine months ended September 30, 2016, respectively. The increase in operating income for both periods was attributable to an increase in gross profit from: (a) the transportation market sector, due to large project activity, (b) the commercial market sector, primarily as a result of work performed on numerous telecommunication construction projects, and (c) construction projects within the institutional market sector. In addition, the results for the three and nine months ended September 30, 2016 included losses of \$6.9 million and \$17.4 million, respectively, incurred on a construction project in the Northeastern United States. The increase in operating margin for both 2017 periods was attributable to improved operating performance, partially as a result of increased gross profit margin from numerous construction projects within the commercial and transportation market sectors. Operating margin for the prior year periods was negatively impacted by 1.4% and 1.3% for the three and nine months ended September 30, 2016, respectively, as a result of the losses incurred on the construction project discussed above.

Our United States mechanical construction and facilities services segment operating income for the three months ended September 30, 2017 was \$57.5 million, an \$18.6 million increase compared to operating income of \$38.9 million for the three months ended September 30, 2016. Operating income for the nine months ended September 30, 2017 was \$151.0 million, a \$50.4 million increase compared to operating income of \$100.6 million for the nine months ended September 30, 2016. The increase in operating income for both periods was attributable to an increase in gross profit from the majority of the market sectors in which we operate. Additionally, this segment's operating income for the nine months ended September 30, 2017 benefited from the recovery of certain contract costs previously disputed on a project completed in 2016, which resulted in \$18.1 million of gross profit. A company acquired in 2017 contributed incremental operating income of \$0.1 million and \$1.3 million, net of \$2.0 million and \$6.1 million of amortization expense associated with identifiable intangible assets, for the three and nine months ended September 30, 2017, respectively. The increase in operating margin for both periods was attributable to an increase in gross profit margin. The recovery of the disputed contract costs discussed above favorably impacted this segment's operating margin by 0.7% for the nine months ended September 30, 2017.

Operating income of our United States building services segment for the three months ended September 30, 2017 increased by \$2.9 million compared to operating income for the three months ended September 30, 2016, and its operating income for the nine months ended September 30, 2017 increased by \$4.7 million compared to the nine months ended September 30, 2016. The increase in operating income for the three months ended September 30, 2017 was primarily attributable to increases in operating income from: (a) our energy services operations and (b) our commercial site-based services operations, partially as a result of decreased selling, general and administrative expenses due to restructuring activities. The increase in operating income for the nine months ended September 30, 2017 was due to increases in operating income from: (a) our mobile mechanical services operations, as a result of increases in gross profit from project, service and control activities, and (b) our energy services operations. The increase in operating income for our energy services operations for both periods primarily resulted from improved operating performance, as the results for the three months ended September 30, 2016 included a loss incurred on a large project. Additionally, companies acquired in 2017 and 2016 within our mobile mechanical services operations, contributed incremental operating income of \$1.2 million and \$2.6 million, net of \$0.3 million and \$1.2 million of amortization expense associated with identifiable intangible assets, for the three and nine months ended September 30, 2017, respectively. The increase in operating income for the nine months ended September 30, 2017 was partially offset by a decrease in gross profit from our commercial site-based services operations partially due to a reduction in snow removal activities. The increase in operating margin for both periods was attributable to an increase in gross profit margin.

Our United States industrial services segment operating loss for the three months ended September 30, 2017 was \$4.8 million compared to operating income of \$14.6 million for the three months ended September 30, 2016. Operating income for the nine months ended September 30, 2017 was \$16.6 million, a \$50.0 million decrease compared to

operating income of \$66.6 million for the nine months ended September 30, 2016. This segment's results for the three months ended September 30, 2017 were negatively impacted by Hurricane Harvey, which resulted in the deferral of, and may lead to the potential cancellation of, previously scheduled turnaround projects. In addition, the decrease in operating income for both periods was attributable to a decrease in gross profit from specialty services offerings within our field services operations as a result of reduced large project activity. The decrease in operating margin for both periods was attributable to a decrease in gross profit margin and an increase in the ratio of selling, general and administrative expenses to revenues. The increase in SG&A margin for the three months ended September 30, 2017 was primarily the result of unabsorbed overhead costs as a result of the project deferrals due to Hurricane Harvey and lower specialty services revenues.

Our United Kingdom building services segment operating income was \$3.9 million and \$9.1 million for the three and nine months ended September 30, 2017, respectively, compared to operating income of \$2.6 million and \$9.2 million for the three and

Table of Contents

nine months ended September 30, 2016, respectively. This segment's results included a decrease in operating income of \$0.7 million for the nine months ended September 30, 2017 relating to the effect of unfavorable exchange rates for the British pound versus the United States dollar. Excluding the impact of exchange rates, operating income increased in both periods, primarily due to an increase in gross profit from new contract awards, partially offset by a decrease in gross profit from project activity. The increase in operating margin for the three months ended September 30, 2017 was attributable to an increase in gross profit margin and a decrease in SG&A margin.

Our corporate administration operating loss for the three months ended September 30, 2017 was \$22.6 million compared to \$23.5 million for the three months ended September 30, 2016. Our corporate administration operating loss for the nine months ended September 30, 2017 was \$63.8 million compared to \$67.4 million for the nine months ended September 30, 2016. The decrease in corporate administration expenses for the nine months ended September 30, 2017 was primarily due to a decrease in other professional fees, as the same prior year period included \$3.8 million of transaction costs associated with the acquisition of Ardent.

Interest expense for the three months ended September 30, 2017 and 2016 was \$3.3 million and \$3.5 million, respectively. Interest expense for the nine months ended September 30, 2017 and 2016 was \$9.5 million and \$9.0 million, respectively. The increase in interest expense for the nine months ended September 30, 2017 was primarily due to increased outstanding borrowings in the first quarter of 2017 and a higher United States dollar LIBOR rate. Interest income for the three months ended September 30, 2017 and 2016 was \$0.3 million and \$0.2 million, respectively. Interest income for the nine months ended September 30, 2017 and 2016 was \$0.6 million and \$0.5 million, respectively.

For the three months ended September 30, 2017 and 2016, our income tax provision from continuing operations was \$38.6 million and \$30.8 million, respectively, based on an effective income tax rate, before discrete items and less amounts attributable to noncontrolling interests, of 37.1% and 38.1%, respectively. The actual income tax rate on income from continuing operations, less amounts attributable to noncontrolling interests, for the three months ended September 30, 2017 and 2016, inclusive of discrete items, was 37.3% and 37.2%, respectively. For the nine months ended September 30, 2017 and 2016, our income tax provision from continuing operations was \$98.5 million and \$82.7 million, respectively, based on effective income tax rates, before discrete items and less amounts attributable to noncontrolling interests, of 37.4% and 37.8%, respectively. The actual income tax rates on income from continuing operations, less amounts attributable to noncontrolling interests, for the nine months ended September 30, 2017 and 2016, inclusive of discrete items, were 36.0% and 36.7%, respectively. The increase in the 2017 income tax provision was primarily due to increased income from continuing operations. The decrease in the 2017 actual income tax rate on income from continuing operations was due to the net impact of discrete items, inclusive of the reversal of reserves for previously unrecognized income tax benefits in the first quarter of 2017.

Discontinued operations

Due to a historical pattern of losses in the construction operations of our United Kingdom segment and our negative assessment of construction market conditions in the United Kingdom for the foreseeable future, we ceased construction operations in the United Kingdom during the third quarter of 2014. The results of the construction operations of our United Kingdom segment for all periods are presented in the Condensed Consolidated Financial Statements as discontinued operations.

Liquidity and Capital Resources

The following table presents our net cash provided by (used in) operating activities, investing activities and financing activities (in thousands):

	For the nine months ended September 30,	
	2017	2016
Net cash provided by operating activities	\$238,284	\$128,924
Net cash used in investing activities	\$(106,712)	\$(260,339)
Net cash (used in) provided by financing activities	\$(118,624)	\$154,341
Effect of exchange rate changes on cash and cash equivalents	\$2,931	\$(5,199)

Our consolidated cash balance increased by approximately \$15.9 million from \$464.6 million at December 31, 2016 to \$480.5 million at September 30, 2017. Net cash provided by operating activities for the nine months ended September 30, 2017 was \$238.3 million compared to net cash provided by operating activities of \$128.9 million for the nine months ended September 30, 2016. The increase in cash provided by operating activities was primarily due to a \$32.7 million increase in net income and improved cash flows from accounts receivable. Net cash used in investing activities was \$106.7 million for the nine months ended September 30, 2017 compared to net cash used in investing activities of \$260.3 million for the nine months ended September 30, 2016. The decrease in net cash used in investing activities was primarily due to a reduction in payments for acquisitions of

Table of Contents

businesses. Net cash flows from financing activities for the nine months ended September 30, 2017 decreased by approximately \$273.0 million compared to the nine months ended September 30, 2016 primarily as a result of borrowings of \$220.0 million under our revolving credit facility in the prior year. Net cash used in financing activities for the nine months ended September 30, 2017 was primarily for the repurchase of common stock. Cash flows from discontinued operations were immaterial and are not expected to significantly affect future liquidity.

The following is a summary of material contractual obligations and other commercial commitments (in millions):

Contractual Obligations	Total	Payments Due by Period			
		Less than 1 year	1-3 years	3-5 years	After 5 years
Revolving credit facility (including interest at 2.24%) ⁽¹⁾	\$ 135.9	\$2.8	\$5.7	\$127.4	\$ —
Term loan (including interest at 2.24%) ⁽¹⁾	311.4	21.6	42.2	247.6	—
Capital lease obligations	5.1	1.5	3.0	0.6	—
Operating leases	293.6	67.0	111.0	67.1	48.5
Open purchase obligations ⁽²⁾	1,059.7	892.8	166.2	0.7	—
Other long-term obligations, including current portion ⁽³⁾	416.9	64.5	342.5	9.9	—
Liabilities related to uncertain income tax positions ⁽⁴⁾	2.1	—	—	—	2.1
Total Contractual Obligations	\$ 2,224.7	\$ 1,050.2	\$ 670.6	\$ 453.3	\$ 50.6

Other Commercial Commitments	Total Committed	Amount of Commitment Expiration by Period			
		Less than 1 year	1-3 years	3-5 years	After 5 years
Letters of credit	\$ 112.1	\$112.1	\$—	\$—	\$—

On August 3, 2016, we entered into a \$900.0 million revolving credit facility (the “2016 Revolving Credit Facility”) and a \$400.0 million term loan (the “2016 Term Loan”) (collectively referred to as the “2016 Credit Agreement”). The (1)proceeds of the 2016 Term Loan were used to repay amounts drawn under our prior credit agreement. As of September 30, 2017, the amount outstanding under the 2016 Term Loan was \$288.6 million. As of September 30, 2017, there were borrowings outstanding of \$125.0 million under the 2016 Revolving Credit Facility.

Represents open purchase orders for material and subcontracting costs related to construction and services (2)contracts. These purchase orders are not reflected in EMCOR’s Condensed Consolidated Balance Sheets and should not impact future cash flows, as amounts should be recovered through customer billings.

Represents primarily insurance related liabilities and liabilities for deferred income taxes, incentive compensation and deferred compensation, classified as other long-term liabilities in the Condensed Consolidated Balance Sheets. Cash payments for insurance and deferred compensation related liabilities may be payable beyond three years, but it is not practical to estimate these payments; therefore, these liabilities are reflected in the 1-3 years payment (3)period. We provide funding to our post retirement plans based on at least the minimum funding required by applicable regulations. In determining the minimum required funding, we utilize current actuarial assumptions and exchange rates to forecast estimates of amounts that may be payable for up to five years in the future. In our judgment, minimum funding estimates beyond a five year time horizon cannot be reliably estimated and, therefore, have not been included in the table.

(4)Includes \$0.2 million of accrued interest.

Until August 3, 2016, we had a credit agreement dated as of November 25, 2013 (as amended, the “2013 Credit Agreement”), which provided for a revolving credit facility of \$750.0 million (the “2013 Revolving Credit Facility”) and a term loan of \$350.0 million (the “2013 Term Loan”). On August 3, 2016, we amended and restated the 2013 Credit Agreement to provide for a \$900.0 million revolving credit facility (the “2016 Revolving Credit Facility”) and a \$400.0

million term loan (the “2016 Term Loan”) (collectively referred to as the “2016 Credit Agreement”) expiring August 3, 2021. The proceeds of the 2016 Term Loan were used to repay amounts drawn under the 2013 Term Loan, as well as a portion of the outstanding balance under the 2013 Revolving Credit Facility. We may increase the 2016 Revolving Credit Facility to \$1.3 billion if additional lenders are identified and/or existing lenders are willing to increase their current commitments. We may allocate up to \$300.0 million of available capacity under the 2016 Revolving Credit Facility to letters of credit for our account or for the account of any of our subsidiaries. Obligations under the 2016 Credit Agreement are guaranteed by most of our direct and indirect subsidiaries and are secured by substantially all of our assets. The 2016 Credit Agreement contains various covenants providing for, among other things, maintenance of certain financial ratios and certain limitations on payment of dividends, common stock repurchases, investments, acquisitions, indebtedness and capital expenditures. We were in compliance with all such covenants as of September 30, 2017 and December 31, 2016. A commitment fee is payable on the average daily unused amount of the 2016 Revolving Credit Facility, which ranges from 0.15% to 0.30%, based on certain financial tests. The fee was 0.15% of the unused amount as of September 30, 2017. Borrowings under

Table of Contents

the 2016 Credit Agreement bear interest at (1) a base rate plus a margin of 0.00% to 0.75%, based on certain financial tests, or (2) United States dollar LIBOR (1.24% at September 30, 2017) plus 1.00% to 1.75%, based on certain financial tests. The base rate is determined by the greater of (a) the prime commercial lending rate announced by Bank of Montreal from time to time (4.25% at September 30, 2017), (b) the federal funds effective rate, plus ½ of 1.00%, (c) the daily one month LIBOR rate, plus 1.00%, or (d) 0.00%. The interest rate in effect at September 30, 2017 was 2.24%. Fees for letters of credit issued under the 2016 Revolving Credit Facility range from 1.00% to 1.75% of the respective face amounts of outstanding letters of credit and are computed based on certain financial tests. We capitalized an additional \$3.0 million of debt issuance costs associated with the 2016 Credit Agreement. Debt issuance costs are amortized over the life of the agreement and are included as part of interest expense. The 2016 Term Loan required us to make principal payments of \$5.0 million on the last day of March, June, September and December of each year, which commenced with the calendar quarter ended December 31, 2016. On December 30, 2016, we made a payment of \$100.0 million, of which \$5.0 million represented our required quarterly payment and \$95.0 million represented a prepayment of outstanding principal. Such prepayment was applied against the remaining mandatory quarterly payments on a ratable basis. As a result, commencing with the calendar quarter ended March 31, 2017, our required quarterly payment has been reduced to \$3.8 million. All unpaid principal and interest is due on August 3, 2021. As of September 30, 2017 and December 31, 2016, the balance of the 2016 Term Loan was \$288.6 million and \$300.0 million, respectively. As of September 30, 2017 and December 31, 2016, we had approximately \$111.8 million and \$91.9 million of letters of credit outstanding, respectively. There were \$125.0 million in borrowings outstanding under the 2016 Revolving Credit Facility as of September 30, 2017 and December 31, 2016.

The terms of our construction contracts frequently require that we obtain from surety companies (“Surety Companies”) and provide to our customers payment and performance bonds (“Surety Bonds”) as a condition to the award of such contracts. The Surety Bonds secure our payment and performance obligations under such contracts, and we have agreed to indemnify the Surety Companies for amounts, if any, paid by them in respect of Surety Bonds issued on our behalf. In addition, at the request of labor unions representing certain of our employees, Surety Bonds are sometimes provided to secure obligations for wages and benefits payable to or for such employees. Public sector contracts require Surety Bonds more frequently than private sector contracts and, accordingly, our bonding requirements typically increase as the amount of public sector work increases. As of September 30, 2017, based on the percentage-of-completion of our projects covered by Surety Bonds, our aggregate estimated exposure, assuming defaults on all our then existing contractual obligations, was approximately \$1.1 billion. Surety Bonds are issued by Surety Companies in return for premiums, which vary depending on the size and type of bond.

From time to time, we discuss with our current and other Surety Bond providers the amounts of Surety Bonds that may be available to us based on our financial strength and the absence of any default by us on any Surety Bond issued on our behalf and believe those amounts are currently adequate for our needs. However, if we experience changes in our bonding relationships or if there are adverse changes in the surety industry, we may (i) seek to satisfy certain customer requests for Surety Bonds by posting other forms of collateral in lieu of Surety Bonds, such as letters of credit, parent company guarantees or cash, in order to convince customers to forego the requirement for Surety Bonds, (ii) increase our activities in our business segments that rarely require Surety Bonds, such as our building and industrial services segments, and/or (iii) refrain from bidding for certain projects that require Surety Bonds. There can be no assurance that we would be able to effectuate alternatives to providing Surety Bonds to our customers or to obtain, on favorable terms, sufficient additional work that does not require Surety Bonds. Accordingly, if we were to experience a reduction in the availability of Surety Bonds, we could experience a material adverse effect on our financial position, results of operations and/or cash flows.

In the ordinary course of business, we, at times, guarantee obligations of our subsidiaries under certain contracts. Generally, we are liable under such an arrangement only if our subsidiary fails to perform its obligations under the contract. Historically, we have not incurred any substantial liabilities as a consequence of these guarantees.

We do not have any other material financial guarantees or off-balance sheet arrangements other than those disclosed herein.

We are a party to lawsuits and other proceedings in which other parties seek to recover from us amounts ranging from a few thousand dollars to over \$10.0 million. We do not believe that any such matters will have a material adverse

effect on our financial position, results of operations or liquidity.

On September 26, 2011, our Board of Directors authorized us to repurchase up to \$100.0 million of our outstanding common stock. On December 5, 2013, October 23, 2014 and October 28, 2015, our Board of Directors authorized us to repurchase up to an additional \$100.0 million, \$250.0 million and \$200.0 million of our outstanding common stock, respectively. During 2017, we have repurchased approximately 1.4 million shares of our common stock for approximately \$88.6 million. Since the inception of the repurchase programs through September 30, 2017, we have repurchased approximately 12.8 million shares of our common stock for approximately \$573.0 million. As of September 30, 2017, there remained authorization for us to repurchase approximately \$77.0 million of our shares. Subsequent to September 30, 2017, our Board of Directors authorized us to repurchase up to an additional \$100.0 million of our outstanding common stock. The repurchase programs have no expiration date and do not obligate

Table of Contents

the Company to acquire any particular amount of common stock and may be suspended, recommenced or discontinued at any time or from time to time without prior notice. We may repurchase our shares from time to time to the extent permitted by securities laws and other legal requirements, including provisions in our 2016 Credit Agreement placing limitations on such repurchases. The repurchase programs have been and will be funded from our operations.

We have paid quarterly dividends since October 25, 2011. We currently pay a regular quarterly dividend of \$0.08 per share. Our 2016 Credit Agreement places limitations on the payment of dividends on our common stock. However, we do not believe that the terms of such agreement currently materially limit our ability to pay a quarterly dividend of \$0.08 per share for the foreseeable future. The payment of dividends has been and will be funded from our operations. Our primary source of liquidity has been, and is expected to continue to be, cash generated by operating activities. We also maintain our 2016 Revolving Credit Facility that may be utilized, among other things, to meet short-term liquidity needs in the event cash generated by operating activities is insufficient or to enable us to seize opportunities to participate in joint ventures or to make acquisitions that may require access to cash on short notice or for any other reason. Negative macroeconomic trends may have an adverse effect on liquidity. During economic downturns, there have typically been fewer small discretionary projects from the private sector, and our competitors have aggressively bid larger long-term infrastructure and public sector contracts. Short-term liquidity is also impacted by the type and length of construction contracts in place and large turnaround activities in our United States industrial services segment that are billed in arrears pursuant to contractual terms that are standard within the industry. Performance of long duration contracts typically requires greater amounts of working capital. While we strive to maintain a net over-billed position with our customers, there can be no assurance that a net over-billed position can be maintained. Our net over-billings, defined as the balance sheet accounts “Billings in excess of costs and estimated earnings on uncompleted contracts” less “Cost and estimated earnings in excess of billings on uncompleted contracts”, were \$396.8 million and \$358.5 million as of September 30, 2017 and December 31, 2016, respectively.

Long-term liquidity requirements can be expected to be met initially through cash generated from operating activities and our 2016 Revolving Credit Facility. Based upon our current credit ratings and financial position, we can reasonably expect to be able to incur long-term debt to fund acquisitions. Over the long term, our primary revenue risk factor continues to be the level of demand for non-residential construction services and for building and industrial services, which is influenced by macroeconomic trends including interest rates and governmental economic policy. In addition, our ability to perform work is critical to meeting long-term liquidity requirements.

We believe that our current cash balances and our borrowing capacity available under our 2016 Revolving Credit Facility or other forms of financing available to us through borrowings, combined with cash expected to be generated from operations, will be sufficient to provide short-term and foreseeable long-term liquidity and meet our expected capital expenditure requirements.

Certain Insurance Matters

As of September 30, 2017 and December 31, 2016, we utilized approximately \$111.4 million and \$91.5 million, respectively, of letters of credit obtained under our 2016 Revolving Credit Facility as collateral for our insurance obligations.

New Accounting Pronouncements

We review new accounting standards to determine the expected financial impact, if any, that the adoption of such standards will have. See Part I. Item 1, “Financial Statements – Notes to Condensed Consolidated Financial Statements – Note 2, New Accounting Pronouncements”, for further information regarding new accounting standards, including the anticipated dates of adoption and the effects on our consolidated financial position, results of operations or liquidity.

Application of Critical Accounting Policies

Our condensed consolidated financial statements are based on the application of significant accounting policies, which require management to make significant estimates and assumptions. Our significant accounting policies are described in Note 2 – Summary of Significant Accounting Policies of the notes to consolidated financial statements included in Item 8 of our annual report on Form 10-K for the year ended December 31, 2016. We believe that some of the more critical judgment areas in the application of accounting policies that affect our financial condition and results of operations are the impact of changes in the estimates and judgments pertaining to: (a) revenue recognition from

(i) long-term construction contracts for which the percentage-of-completion method of accounting is used and
(ii) services contracts; (b) collectibility or valuation of accounts receivable; (c) insurance liabilities; (d) income taxes;
and (e) goodwill and identifiable intangible assets.

28

Table of Contents

Revenue Recognition for Long-term Construction Contracts and Services Contracts

We believe our most critical accounting policy is revenue recognition from long-term construction contracts for which we use the percentage-of-completion method of accounting. Percentage-of-completion accounting is the prescribed method of accounting for long-term contracts in accordance with Accounting Standard Codification (“ASC”) Topic 605-35, “Revenue Recognition – Construction-Type and Production-Type Contracts”, and, accordingly, is the method used for revenue recognition within our industry. Percentage-of-completion is measured principally by the percentage of costs incurred to date for each contract to the estimated total costs for such contract at completion. Certain of our electrical contracting business units measure percentage-of-completion by the percentage of labor costs incurred to date for each contract to the estimated total labor costs for such contract. Pre-contract costs from our construction projects are generally expensed as incurred. Application of percentage-of-completion accounting results in the recognition of costs and estimated earnings in excess of billings on uncompleted contracts in the Condensed Consolidated Balance Sheets. Costs and estimated earnings in excess of billings on uncompleted contracts reflected in the Condensed Consolidated Balance Sheets arise when revenues have been recognized but the amounts cannot be billed under the terms of contracts. Such amounts are recoverable from customers upon various measures of performance, including achievement of certain milestones, completion of specified units or completion of a contract. Costs and estimated earnings in excess of billings on uncompleted contracts also include amounts we seek or will seek to collect from customers or others for errors or changes in contract specifications or design, contract change orders in dispute or unapproved as to both scope and price or other customer-related causes of unanticipated additional contract costs (claims and unapproved change orders). Such amounts are recorded at estimated net realizable value and take into account factors that may affect our ability to bill and ultimately collect unbilled revenues. The profit associated with claim amounts is not recognized until the claim has been settled and payment has been received. During 2017, we recognized \$18.1 million of gross profit associated with the recovery of certain contract costs previously disputed on a project completed in the prior year. There were no other material amounts recognized associated with claim settlements during the periods presented. Due to uncertainties inherent in estimates employed in applying percentage-of-completion accounting, estimates may be revised as project work progresses. Application of percentage-of-completion accounting requires that the impact of revised estimates be reported prospectively in the condensed consolidated financial statements. In addition to revenue recognition for long-term construction contracts, we recognize revenues from the performance of services for maintenance, repair and retrofit work consistent with the performance of services, which are generally on a pro-rata basis over the life of the contractual arrangement. Expenses related to all services arrangements are recognized as incurred. Revenues related to the engineering, manufacturing and repairing of shell and tube heat exchangers are recognized when the product is shipped and all other revenue recognition criteria have been met. Costs related to this work are included in inventory until the product is shipped. Provisions for the entirety of estimated losses on uncompleted contracts are made in the period in which such losses are determined. During the three and nine months ended September 30, 2016, we incurred \$6.9 million and \$17.4 million, respectively, of losses on a transportation project within our United States electrical construction and facilities services segment as a result of productivity issues attributable to unfavorable job-site conditions. There were no other significant losses recognized during the three and nine months ended September 30, 2017 and 2016.

Accounts Receivable

We are required to estimate the collectibility of accounts receivable. A considerable amount of judgment is required in assessing the likelihood of realization of receivables. Relevant assessment factors include the creditworthiness of the customer, our prior collection history with the customer and related aging of the past due balances. At September 30, 2017 and December 31, 2016, our accounts receivable of \$1,537.8 million and \$1,495.4 million, respectively, included allowances for doubtful accounts of \$16.9 million and \$12.3 million, respectively. The increase in our allowance for doubtful accounts was due to an increase in our provision for doubtful accounts, partially offset by the write-off of previously reserved for accounts receivable. Specific accounts receivable are evaluated when we believe a customer may not be able to meet its financial obligations due to deterioration of its financial condition or its credit ratings. The allowance for doubtful accounts requirements are based on the best facts available and are re-evaluated and adjusted on a regular basis as additional information is received.

Insurance Liabilities

We have loss payment deductibles for certain workers' compensation, automobile liability, general liability and property claims, have self-insured retentions for certain other casualty claims and are self-insured for employee-related healthcare claims. Losses are recorded based upon estimates of our liability for claims incurred and for claims incurred but not reported. The liabilities are derived from known facts, historical trends and industry averages utilizing the assistance of an actuary to determine the best estimate for the majority of these obligations. We believe the liabilities recognized on our balance sheets for these obligations are adequate. However, such obligations are difficult to assess and estimate due to numerous factors, including severity of injury, determination of liability in proportion to other parties, timely reporting of occurrences and effectiveness of safety and risk management programs. Therefore, if our actual experience differs from the assumptions and estimates used for recording the liabilities, adjustments may be required and will be recorded in the period that the experience becomes known. Our estimated net

Table of Contents

insurance liabilities for workers' compensation, automobile liability, general liability and property claims increased by \$2.8 million for the nine months ended September 30, 2017 compared to the year ended December 31, 2016, primarily due to higher revenues, including the impact of acquired companies. If our estimated insurance liabilities for workers' compensation, automobile liability, general liability and property claims had increased by 10%, it would have resulted in \$15.9 million of additional expense for the nine months ended September 30, 2017.

Income Taxes

We had net deferred income tax liabilities at September 30, 2017 and December 31, 2016 of \$110.9 million and \$117.4 million, respectively, primarily resulting from differences between the carrying value and income tax basis of certain identifiable intangible assets and depreciable fixed assets, which will impact our taxable income in future periods. Included within these net deferred income tax liabilities are deferred income tax assets. A valuation allowance is required when it is more likely than not that all or a portion of a deferred income tax asset will not be realized. As of September 30, 2017 and December 31, 2016, the total valuation allowance on deferred income tax assets, related to state net operating carryforwards, was approximately \$3.5 million.

Goodwill and Identifiable Intangible Assets

As of September 30, 2017, we had \$1,010.4 million and \$497.3 million, respectively, of goodwill and net identifiable intangible assets (primarily consisting of our contract backlog, developed technology/vendor network, customer relationships, non-competition agreements and trade names), primarily arising out of the acquisition of companies. As of December 31, 2016, goodwill and net identifiable intangible assets were \$979.6 million and \$487.4 million, respectively. The changes to goodwill since December 31, 2016 were related to the acquisition of two companies in 2017 and a purchase price adjustment related to the Ardent acquisition. The determination of related estimated useful lives for identifiable intangible assets and whether those assets are impaired involves significant judgments based upon short and long-term projections of future performance. These forecasts reflect assumptions regarding the ability to successfully integrate acquired companies, as well as macroeconomic conditions. ASC Topic 350, "Intangibles – Goodwill and Other" ("ASC 350") requires that goodwill and other identifiable intangible assets with indefinite useful lives not be amortized, but instead tested at least annually for impairment (which we test each October 1, absent any impairment indicators), and be written down if impaired. ASC 350 requires that goodwill be allocated to its respective reporting unit and that identifiable intangible assets with finite lives be amortized over their useful lives.

We test for impairment of our goodwill at the reporting unit level. Our reporting units are consistent with the reportable segments identified in Note 13, "Segment Information", of the notes to condensed consolidated financial statements. In assessing whether our goodwill is impaired, we compare the fair value of the reporting unit, determined based upon discounted estimated future cash flows, to the carrying amount, including goodwill. If the fair value exceeds the carrying amount, no impairment loss is recognized. However, if the carrying amount of the reporting unit exceeds the fair value, the goodwill of the reporting unit is impaired and an impairment loss in the amount of the excess is recognized and charged to operations. No impairment of our goodwill was recognized during the three and nine months ended September 30, 2017 and 2016.

As of September 30, 2017, we had \$1,010.4 million of goodwill on our balance sheet and, of this amount, 38.1% relates to our United States industrial services segment, 25.3% relates to our United States building services segment, 24.2% relates to our United States mechanical construction and facilities services segment and 12.4% relates to our United States electrical construction and facilities services segment. As of the date of our latest impairment test, October 1, 2016, the carrying values of our United States industrial services segment, our United States building services segment, our United States mechanical construction and facilities services segment and our United States electrical construction and facilities services segment were approximately \$695.1 million, \$462.4 million, \$277.3 million and \$268.8 million, respectively. The fair values of our United States industrial services segment, our United States building services segment, our United States mechanical construction and facilities services segment and our United States electrical construction and facilities services segment exceeded their carrying values by approximately \$69.2 million, \$268.6 million, \$791.4 million, and \$526.3 million, respectively. The weighted average cost of capital used in testing goodwill for impairment was 11.4%, 11.0% and 11.5% for our domestic construction segments, our United States building services segment and our United States industrial services segment, respectively. The perpetual growth rate used was 2.7% for all of our domestic segments.

We also test for the impairment of trade names that are not subject to amortization by calculating the fair value using the “relief from royalty payments” methodology. This approach involves two steps: (a) estimating reasonable royalty rates for each trade name and (b) applying these royalty rates to a net revenue stream and discounting the resulting cash flows to determine fair value. This fair value is then compared with the carrying value of each trade name. If the carrying amount of the trade name is greater than the implied fair value of the trade name, an impairment in the amount of the excess is recognized and charged to operations. No impairment of our trade names was recognized during the three and nine months ended September 30, 2017 and 2016.

Table of Contents

In addition, we review for the impairment of other identifiable intangible assets that are being amortized whenever facts and circumstances indicate that their carrying values may not be fully recoverable. This test compares their carrying values to the undiscounted pre-tax cash flows expected to result from the use of the assets. If the assets are impaired, the assets are written down to their fair values, generally determined based on their future discounted cash flows. No impairment of our other identifiable intangible assets was recognized during the three and nine months ended September 30, 2017 and 2016.

We have certain businesses, particularly within our United States industrial services segment, whose results are highly impacted by the demand for some of our offerings within the industrial and oil and gas markets. Future performance of this segment, along with a continued evaluation of the conditions of its end user markets, will be important to ongoing impairment assessments. Should this segment's actual results suffer a decline or expected future results be revised downward, the risk of goodwill impairment or impairment of other identifiable intangible assets would increase.

Our development of the present value of future cash flow projections used in impairment testing is based upon assumptions and estimates by management from reviews, among other things, of our operating results, business plans, anticipated growth rates and margins, and weighted average cost of capital. Those assumptions and estimates can change in future periods, and other factors used in assessing fair value are outside the control of management, such as interest rates. There can be no assurance that estimates and assumptions made for purposes of our goodwill and identifiable asset impairment testing will prove to be accurate predictions of the future. If our assumptions regarding future business performance or anticipated growth rates and/or margins are not achieved, or there is a rise in interest rates, we may be required to record goodwill and/or identifiable asset impairment charges in future periods.

Although we have not yet conducted our October 1, 2017 goodwill and other impairment tests, there have been no impairments recognized through the first nine months of 2017. It is not possible at this time to determine if any such future impairment charge would result or, if it does, whether such a charge would be material.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

We have not used any derivative financial instruments during the nine months ended September 30, 2017, including trading or speculating on changes in interest rates or commodity prices of materials used in our business.

We are exposed to market risk for changes in interest rates for borrowings under the 2016 Credit Agreement, which provides for a revolving credit facility and a term loan. Borrowings under the 2016 Credit Agreement bear interest at variable rates. As of September 30, 2017, there were borrowings of \$125.0 million outstanding under the 2016 Revolving Credit Facility and the balance of the 2016 Term Loan was \$288.6 million. This instrument bears interest at (1) a base rate plus a margin of 0.00% to 0.75%, based on certain financial tests, or (2) United States dollar LIBOR (1.24% at September 30, 2017) plus 1.00% to 1.75%, based on certain financial tests. The base rate is determined by the greater of (a) the prime commercial lending rate announced by Bank of Montreal from time to time (4.25% at September 30, 2017), (b) the federal funds effective rate, plus ½ of 1.00%, (c) the daily one month LIBOR rate, plus 1.00%, or (d) 0.00%. The interest rate in effect at September 30, 2017 was 2.24%. Based on the \$413.6 million borrowings outstanding under the 2016 Credit Agreement, if overall interest rates were to increase by 100 basis points, interest expense, net of income taxes, would increase by approximately \$2.5 million in the next twelve months. Conversely, if overall interest rates were to decrease by 100 basis points, interest expense, net of income taxes, would decrease by approximately \$2.5 million in the next twelve months. Fees for letters of credit issued under the 2016 Revolving Credit Facility range from 1.00% to 1.75% of the respective face amounts of outstanding letters of credit and are computed based on certain financial tests. The 2016 Credit Agreement expires on August 3, 2021. There is no guarantee that we will be able to renew the 2016 Credit Agreement at its expiration.

We are also exposed to construction market risk and its potential related impact on accounts receivable or costs and estimated earnings in excess of billings on uncompleted contracts. The amounts recorded may be at risk if our customers' ability to pay these obligations is negatively impacted by economic conditions. We continually monitor the creditworthiness of our customers and maintain on-going discussions with customers regarding contract status with respect to change orders and billing terms. Therefore, we believe we take appropriate action to manage market and other risks, but there is no assurance that we will be able to reasonably identify all risks with respect to collectibility of these assets. See also the previous discussions of Revenue Recognition from Long-term Construction Contracts and

Services Contracts and Accounts Receivable under the heading, “Application of Critical Accounting Policies” in Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations.

Amounts invested in our foreign operations are translated into U.S. dollars at the exchange rates in effect at the end of the period. The resulting translation adjustments are recorded as accumulated other comprehensive (loss) income, a component of equity, in the Condensed Consolidated Balance Sheets. We believe the exposure to the effects that fluctuating foreign currencies may have on our consolidated results of operations is limited because the foreign operations primarily invoice customers and

Table of Contents

collect obligations in their respective local currencies. Additionally, expenses associated with these transactions are generally contracted and paid for in their same local currencies.

In addition, we are exposed to market risk of fluctuations in certain commodity prices of materials, such as copper and steel, which are used as components of supplies or materials utilized in our construction, building services and industrial services operations. We are also exposed to increases in energy prices, particularly as they relate to gasoline prices for our fleet of over 10,000 vehicles. While we believe we can increase our contract prices to adjust for some price increases in commodities, there can be no assurance that such price increases, if they were to occur, would be recoverable. Additionally, our fixed price contracts do not allow us to adjust our prices and, as a result, increases in material or fuel costs could reduce our profitability with respect to projects in progress.

ITEM 4. CONTROLS AND PROCEDURES.

Based on an evaluation of our disclosure controls and procedures (as required by Rule 13a-15(b) of the Securities Exchange Act of 1934), our President and Chief Executive Officer, Anthony J. Guzzi, and our Executive Vice President and Chief Financial Officer, Mark A. Pompa, have concluded that our disclosure controls and procedures (as defined in Rule 13a-15(e) of the Securities Exchange Act of 1934) are effective as of the end of the period covered by this report.

There have not been any changes in the Company's internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Securities Exchange Act of 1934) during the fiscal quarter ended September 30, 2017 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II. – OTHER INFORMATION.**ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS.**

The following table summarizes repurchases of our common stock made by us during the quarter ended September 30, 2017:

Period	Total Number of Shares Purchased ⁽¹⁾	Average Price Paid Per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Approximate Dollar Value of Shares That May Yet be Purchased Under the Plan or Programs
July 1, 2017 to July 31, 2017	None	None	None	\$102,141,865
August 1, 2017 to August 31, 2017	384,633	\$65.44	384,633	\$76,972,856
September 1, 2017 to September 30, 2017	None	None	None	\$76,972,856

On September 26, 2011, our Board of Directors authorized us to repurchase up to \$100.0 million of our outstanding common stock. On December 5, 2013, October 23, 2014 and October 28, 2015, our Board of Directors authorized us to repurchase up to an additional \$100.0 million, \$250.0 million and \$200.0 million of our outstanding common stock, respectively. As of September 30, 2017, there remained authorization for us to repurchase approximately \$77.0 million of our shares. Subsequent to September 30, 2017, our Board of Directors (1) authorized us to repurchase up to an additional \$100.0 million of our outstanding common stock. No shares have been repurchased by us since the programs have been announced other than pursuant to these publicly announced programs. The repurchase programs have no expiration date and do not obligate the Company to acquire any particular amount of common stock and may be suspended, recommenced or discontinued at any time or from time to time without prior notice. We may repurchase our shares from time to time as permitted by securities laws and other legal requirements.

ITEM 4. MINE SAFETY DISCLOSURES.

Information concerning mine safety violations or other regulatory matters required by Section 1503(a) of the Dodd-Frank Wall Street Reform and Consumer Protection Act and Item 104 of Regulation S-K (17 CFR 229.104) is

included in Exhibit 95 to this quarterly report.

ITEM 6. EXHIBITS.

For the list of exhibits, see the Exhibit Index immediately following the signature page hereof, which Exhibit Index is incorporated herein by reference.
