Ida-West Operating Services, Inc. (Idaho)	Boise, Idaho Electrical Generation
South Forks Hydro Company (Idaho)	Boise, Idaho Electrical Generation
Ida-West Acquisition Company (Idaho)	Boise, Idaho Electrical Generation

IDACORP, Inc. (Company) owns no property used in the generation, transmission, or distribution of electricity or for the production, transmission and distribution of natural or manufactured gas. IDACORP, Inc. has no public utility subsidiaries that own properties used in the production, transmission and distribution of natural or manufactured gas.

Idaho Power Company (IPC) is an electric public utility engaged in the generation, purchase, transmission, distribution and sale of electric energy in an approximately 24,000-square-mile area in southern Idaho and eastern Oregon, with an estimated population of 895,000. IPC is the only public utility subsidiary of IDACORP, Inc. that owns properties used in the generation, transmission or distribution of electric energy. IPC holds franchises in approximately 71 cities in Idaho and nine cities in Oregon, and holds certificates from the respective public utility regulatory authorities to serve all or a portion of 24 counties in Idaho and three counties in Oregon. As of December 31, 2004, IPC supplied electric energy to approximately 440,000 general business customers and had 1,757 full-time employees.

IPC's system includes 15 hydroelectric generating plants located in southern Idaho and two located in eastern Oregon (see Company's Annual Report on Form 10-K file number 1-3198 for more information). IPC also owns one gas-fired plant located in Idaho and shares ownership in three coal-fired generating plants located in Wyoming, Oregon and Nevada. Another gas-fired plant is under construction in Idaho and is due on-line later in 2005.

IPC owns approximately 4,671 miles of high voltage transmission lines, 23 step-up transmission substations located at power plants, 19 transmission substations, 7 transmission switching stations and 212 energized distribution substations. These facilities are located in Idaho, Oregon, Wyoming, Nevada and Montana.

IPC's generating facilities are interconnected through its integrated transmission system and are operated on a coordinated basis to achieve maximum load-carrying capability and reliability. IPC's transmission system is directly interconnected with the transmission systems of the Bonneville Power Administration, Avista Corporation, PacifiCorp, NorthWestern Energy and Sierra Pacific Power Company. Such interconnections, coupled with transmission line capacity made available under agreements with some of the above entities, permit the interchange, purchase and sale of power among all major electric systems in the west.

3. THE FOLLOWING INFORMATION FOR THE LAST CALENDAR YEAR (2004) WITH RESPECT TO CLAIMANT AND EACH OF ITS SUBSIDIARY PUBLIC UTILITY COMPANIES:

(A) NUMBER OF KWH OF ELECTRIC ENERGY SOLD (AT RETAIL OR WHOLESALE), AND MCF. OF NATURAL OR MANUFACTURED GAS DISTRIBUTED AT RETAIL.

(B) NUMBER OF KWH OF ELECTRIC ENERGY AND MCF. OF NATURAL OR MANUFACTURED GAS DISTRIBUTED AT RETAIL OUTSIDE THE STATE IN WHICH EACH SUCH COMPANY IS ORGANIZED.

(C) NUMBER OF KWH OF ELECTRIC ENERGY AND MCF. OF NATURAL OR MANUFACTURED GAS SOLD AT WHOLESALE OUTSIDE THE STATE IN WHICH EACH SUCH COMPANY IS ORGANIZED, OR AT THE STATE LINE.

(D) NUMBER OF KWH OF ELECTRIC ENERGY AND MCF. OF NATURAL OR MANUFACTURED GAS PURCHASED OUTSIDE THE STATE IN WHICH EACH SUCH COMPANY IS ORGANIZED OR AT THE STATE LINE.

Claimant:None

Idaho Power Company:

	MWh (in thousands)		Dollars (in thousands)	
	Retail	Wholesale	Retail	Wholesale
(a) Number of MWh of electric energy sold:				
Idaho	12,574	587	\$ 607,509	\$ 22,612
Oregon	665	223	28,327	7,942
Nevada	-	609	-	26,099
