FORWARD-LOOKING STATEMENTS

This quarterly report contains forward-looking statements that involve risks and uncertainties, including statements regarding our capital needs, business plans and expectations. Such forward-looking statements involve risks and uncertainties regarding the market price of gold and copper, availability of funds, government regulations, operating costs, exploration costs, outcomes of exploration programs and other factors. Forward-looking statements are made, without limitation, in relation to operating plans, property exploration and development, availability of funds, environmental reclamation, operating costs and permit acquisition. Any statements contained herein that are not statements of historical facts may be deemed to be forward-looking statements. In some cases, you can identify forward-looking statements by terminology such as "may", "will", "should", "expect", "plan", "intend", "anticipate", "believe", "estimate", "predict", "potential" or "continue", the negative of such terms or other comparable terminology. Actual events or results may differ materially. In evaluating these statements, you should consider various factors, including the risks outlined in this quarterly report. These factors may cause our actual results to differ materially from any forward-looking statement. While these forward-looking statements, and any assumptions upon which they are based, are made in good faith and reflect our current judgment regarding our business plans, our actual results will almost always vary, sometimes materially, from any estimates, predictions, projections, assumptions or other future performance suggested herein. We do not intend to update any of the forward-looking statements to conform these statements to actual results, except as required by applicable law, including the securities laws of the United States.

PART I FINANCIAL INFORMATION

Item 1. Financial Statements

NOTES TO FINANCIAL STATEMENTS
JULY 31, 2007

(Unaudited)
(Stated in U.S. Dollars)

1. BASIS OF PRESENTATION AND NATURE OF OPERATIONS

The unaudited financial information furnished herein reflects all adjustments which, in the opinion of management, are necessary to fairly state the Company's financial position and the results of its operations for the periods presented. These third quarter financial statements should be read in conjunction with the Company's financial statements and notes thereto included in the Company's Form SB-2 for the period ended October 31, 2006. The Company assumes that the users of the interim financial information herein have read, or have access to, the audited financial statements for the preceding period, and that the adequacy of additional disclosure needed for a fair presentation may be determined in that context. Accordingly, footnote disclosure, which would substantially duplicate the disclosure contained in the Company's Form SB-2 for the period ended October 31, 2006, has been omitted. The results of operations for the nine month period ended July 31, 2007 are not necessarily indicative of results for the entire year ending October 31, 2007.

Organization

Auror Capital Corp. (the Company) was incorporated in the State of Nevada, U.S.A., on March 16, 2006. The Company's principal executive offices are in Vancouver, British Columbia, Canada.

Exploration Stage Activities

The Company has been in the exploration stage since its formation and has not yet realized any revenues from its planned operations. The Company was formed for the purpose of acquiring exploration and development stage natural resource properties. The Company has not commenced business operations. The Company is an exploration stage company as defined in the Securities and Exchange Commission (S.E.C.) Industry Guide No. 7.

Going Concern

The accompanying financial statements have been prepared assuming the Company will continue as a going concern.

As shown in the accompanying financial statements, the Company has incurred a net loss of \$53,915 for the period from March 16, 2006 (inception) to July 31, 2007, and has no sales. The future of the Company is dependent upon its ability to obtain financing and upon future profitable operations from the development of its natural resource properties. Management has plans to seek additional capital through a private placement and public offering of its common stock. The financial statements do not include any adjustments relating to the recoverability and classification of recorded assets, or the amounts of and classification of liabilities that might be necessary in the event the Company cannot continue in existence.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Company have been prepared in accordance with generally accepted accounting principles in the United States. Because a precise determination of many assets and liabilities is dependent upon future events, the preparation of financial statements for a period necessarily involves the use of estimates which have been made using careful judgement.

The financial statements have, in management's opinion, been properly prepared within reasonable limits of materiality and within the framework of the significant accounting policies summarized below:

a) **Organization and Start-up Costs**

Costs of start up activities, including organizational costs, are expensed as incurred.

b) **Mineral Property Interests**

The Company is an exploration stage mining company and has not yet realized any revenue from its operations. It is primarily engaged in the acquisition, exploration and development of mining properties. Exploration costs are expensed as incurred regardless of the stage of development or existence of reserves. Costs of acquisition are capitalized subject to impairment testing, in accordance with Financial Accounting Standards 144 (FAS 144), Accounting for the Impairment or Disposal of Long-Lived Assets , when facts and circumstances indicate impairment may exist.

The Company regularly performs evaluations of any investment in mineral properties to assess the recoverability and/or the residual value of its investments in these assets. All long-lived assets are reviewed for impairment whenever events or circumstances change which indicate the carrying amount of an asset may not be recoverable.

Management periodically reviews the carrying value of its investments in mineral leases and claims with internal and external mining related professionals. A decision to abandon, reduce or expand a specific project is based upon many factors including general and specific assessments of mineral deposits, anticipated future mineral prices, anticipated future costs of exploring, developing and operating a production mine, the expiration term and ongoing expenses of maintaining mineral properties and the general likelihood that the Company will continue exploration on such project. The Company does not set a pre-determined holding period for properties with unproven deposits, however, properties which have not demonstrated suitable metal concentrations at the conclusion of each phase of an exploration program are re-evaluated to determine if future exploration is warranted, whether there has been any impairment in value and that their carrying values are appropriate.

AUROR CAPITAL CORP.
(An Exploration Stage Company)
NOTES TO FINANCIAL STATEMENTS
JULY 31, 2007

(Unaudited)
(Stated in U.S. Dollars)

2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

b) Mineral Property Interests (Continued)

If an area of interest is abandoned or it is determined that its carrying value cannot be supported by future production or sale, the related costs are charged against operations in the year of abandonment or determination of value. The amounts recorded as mineral leases and claims represent costs to date and do not necessarily reflect present or future values.

The Company's exploration activities and proposed mine development are subject to various laws and regulations governing the protection of the environment. These laws are continually changing, generally becoming more restrictive. The Company has made, and expects to make in the future, expenditures to comply with such laws and regulations.

The accumulated costs of properties that are developed on the stage of commercial production will be amortized to operations through unit-of-production depletion.

c) Financial Instruments

The Company's financial instruments consist of cash, and accounts payable and accrued liabilities.

Unless otherwise noted, it is management's opinion that this Company is not exposed to significant interest or credit risks arising from these financial instruments. The fair value of these financial instruments approximates their carrying values, unless otherwise noted.

d) Basic and Diluted Loss Per Share

In accordance with Statement of Financial Accounting Standards No. 128 (SFAS 128), Earnings Per Share, the basic loss per common share is computed by dividing net loss available to common stockholders by the weighted average number of common shares outstanding. Diluted loss per common share is computed similar to basic loss per common share except that the denominator is increased to include the number of additional common shares that would have been outstanding if the potential common shares had been issued and if the additional common shares were dilutive. At July 31, 2007, the Company has no common stock equivalents that were anti-dilutive and excluded in the earnings per share computation.

(Unaudited)
(Stated in U.S. Dollars)

2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

e) Foreign Currency Translation

The Company's functional currency is the Canadian dollar. Transactions in Canadian currency are translated into U.S. dollars as follows:

- i) monetary items at the exchange rate prevailing at the balance sheet date;
- ii) non-monetary items at the historical exchange rate;
- iii) revenue and expense at the average rate in effect during the applicable accounting period.

Translation adjustments resulting from this process are recorded in Stockholders' Equity as a component of Accumulated Other Comprehensive Income (Loss).

Gains and losses arising on translation or settlement of foreign currency denominated transactions or balances are recorded in the Statement of Operations.

AUROR CAPITAL CORP.

NOTES TO FINANCIAL STATEMENTS
JULY 31, 2007

(Unaudited)
(Stated in U.S. Dollars)

4. SHARE CAPITAL (Continued)

On December 12, 2006, pursuant to a private placement, the Company sold 265,500 shares of its common stock at \$0.10 per share for cash.

On February 7, 2007, pursuant to a private placement, the Company issued 97,000 common shares at \$0.10 per share for cash.

The Company has no stock option plan, warrants or other dilutive securities.

5. COMPARATIVE FIGURES

Certain prior period comparative figures have been reclassified to conform to the financial statement presentation adopted for 2007.

F-8

Item 2. Management's Discussion and Analysis

The following discussion of our financial condition, changes in financial condition and results of operations for the three and nine months ended July 31, 2007 should be read in conjunction with our unaudited interim financial statements and related notes for the three and nine months ended July 31, 2007.

Overview of Our Business

We are an exploration stage company engaged in the acquisition and exploration of mineral properties. We are the owner of the Katrina mineral claim which is located in the Kamloops Mining Division of the Province of British Columbia. We believe that the Katrina mineral claim may be prospective for commercially exploitable deposits of gold. The Katrina mineral claim does not contain any substantiated mineral deposits or reserves of minerals. Minimal exploration has been carried out on our Katrina mineral claim. Accordingly, additional exploration of our Katrina mineral claim is required before any determination as to whether any commercially viable mineral deposit may exist on our Katrina mineral claim. Our plan of operations is to carry out preliminary exploration work on our Katrina mineral claim in order to ascertain whether our mineral claim warrants advanced exploration to determine whether they possess commercially exploitable deposits of gold, silver, copper and/or zinc. We will not be able to determine whether or not our mineral claim contains a commercially exploitable mineral deposit, or reserve, until appropriate exploratory work is done and an economic evaluation based on that work concludes economic viability.

We acquired the Katrina mineral claims on April 28, 2006. We have obtained a geological report on our Katrina mineral claim that has recommended a five phase exploration program on our property. We have completed an initial phase and the two stages comprising the second phase of this recommended exploration program. We received a geological report on the results of the second stage of the second phase of our exploration at the end of August 2007. This geological report concluded that the results of the second stage of the second phase were successful in that there was confirmation of a potential geologically significant mineral zone structure and recommended that we proceeded to a first stage of the third phase of the exploration program. We have determined to proceed as recommended in the geological report and anticipate that we will commence the third phase of the exploration program by the end of our current fiscal year. We plan to continue exploration of our mineral claims for so long as the results of the geological exploration that we complete indicate the further exploration of our mineral claims is recommended and we have sufficient financing.

The estimated cost of this five phase exploration program is \$91,000. As at July 31, 2007, we had cash of \$57,302 and working capital of \$56,766. Based on these financial resources, we have sufficient funds to enable us to complete the initial four phases of our exploration program. We will, however, require additional financing in order to complete the fifth phase of exploration of our mineral claims and any additional exploration required to determine whether any mineral deposit exists on our mineral claims. Even if we determine that a mineral deposit exists on our mineral claims, an economic evaluation must be completed before the economic viability of commercial exploitation of our mineral claims could be completed. Both advanced exploration and an economic determination will be contingent upon the results of our preliminary exploration programs and our ability to raise additional financing in order to proceed with advanced exploration and an economic evaluation. There is no assurance that we will be able to obtain any additional financing to fund our exploration activities.

We are considered an exploration or exploratory stage company as we are involved in the examination and investigation of land that we believe may contain valuable minerals, for the purpose of discovering the presence of ore, if any, and its extent. Since we are an exploration stage company, there is no assurance that a commercially viable mineral deposit exists on any of our properties, and a great deal of further exploration will be required before a final evaluation as to the economic and legal feasibility for our future exploration is determined. We have no known reserves of any type of mineral. To date, we

have not discovered an economically viable mineral deposit on the mineral property, and there is no assurance that we will discover one.

We have no revenues, have achieved losses since inception, have been issued a going concern opinion by our auditors and rely upon the sale of our securities to fund operations. We will not generate revenues even if our exploration program indicates that a mineral deposit may exist on our mineral claims. Accordingly, we will dependent on future additional financing in order to maintain our operations and continue our exploration activities.

We were incorporated as Auror Capital Corp. under the laws of Nevada on March 16, 2006. Our principal offices are located at 2466 West 12th Avenue, Vancouver, British Columbia. Our telephone number is 604-787-4860.

Plan of Operations

We have not earned revenues to date. Our plan of operations is as described below:

1. We have determined to proceed with the first stage of the third phase of the recommended exploration program on our Katrine mineral claims based on the geological report received by us in August 2007. Phase three will consist of a two stage general and detailed examination of potential exploration sites and is estimated to cost approximately \$10,000. We expect to commence the first stage of the third phase of our exploration program in the fall of 2007, depending on the availability of our consulting geologist.
2. If warranted by the results of phase three, we intend to proceed with phase four of our recommended exploration program. Phase four is estimated to cost \$18,000 and will be comprised of a test diamond drilling program. We anticipate that we will have sufficient funding in order to conduct the phase four drilling program.
3. We anticipate spending approximately \$1,000 in ongoing general and administrative expenses per month for the next twelve months, for a total anticipated expenditure of \$12,000 over the next twelve months. The general and administrative expenses for the year will consist primarily of professional fees for the audit and legal work relating to our regulatory filings throughout the year, as well as transfer agent fees, annual mineral claim fees and general office expenses.
4. We anticipate spending approximately \$40,000 in complying with our obligations as a reporting company under the *Securities Exchange Act of 1934*. These expenses will consist primarily of professional fees relating to the preparation of our financial statements and completing our annual report, quarterly report, current report and proxy statement filings with the Securities and Exchange Commission (the SEC).

As at July 31, 2007, we had cash reserves of \$57,302 and working capital of \$56,766. We anticipate that our cash and working capital will be sufficient to enable us to complete phases three and four of our exploration program, to pay for the professional fees relating to our obligations as a reporting company under the *Securities Exchange Act of 1934* and our general and administrative expenses for the next twelve months. However, our ability to complete phase five of the recommended work program will be subject to us obtaining additional financing as these expenditures will exceed our cash reserves.

During the twelve month period following the date of this quarterly report, we anticipate that we will not generate any revenue. Accordingly, we will be required to obtain additional financing in order to continue our plan of operations. We believe that debt financing will not be an alternative for funding additional phases of exploration as we do not have tangible assets to secure any debt financing. We anticipate that additional funding will be in the form of equity financing from the sale of our common stock. However, we do not have any financing arranged and we cannot provide investors with any assurance that we will be able to raise sufficient funding from the sale of our common stock to fund phase

three of our exploration program. In the absence of such financing, we will not be able to continue exploration of our mineral claims and our business plan will fail. Even if we are successful in obtaining equity financing to fund phase five of our exploration program, there is no assurance that we will obtain the funding necessary to pursue any advanced exploration of our mineral claims following the completion of phase five. If we do not continue to obtain additional financing, we will be forced to abandon our mineral claims and our plan of operations

We may consider entering into a joint venture arrangement to provide the required funding to develop the mineral claims. We have not undertaken any efforts to locate a joint venture partner for the mineral claims. Even if we determined to pursue a joint venture partner, there is no assurance that any third party would enter into a joint venture agreement with us in order to fund exploration of our mineral claims. If we entered into a joint venture arrangement, we would likely have to assign a percentage of our interest in our mineral claims to the joint venture partner.

Critical Accounting Policies

Going Concern

As shown in the accompanying financial statements, we have incurred a net loss of \$53,915 for the period from March 16, 2006 (inception) to July 31, 2007, and has no sales. Our future is dependent upon our ability to obtain financing and upon future profitable operations from the development of its natural resource properties. Management has plans to seek additional capital through a private placement and public offering of its common stock. The financial statements do not include any adjustments relating to the recoverability and classification of recorded assets, or the amounts of and classification of liabilities that might be necessary in the event we cannot continue in existence.

Exploration Stage Activities

We have been in the exploration stage since its formation and have not yet realized any revenues from its planned operations. We are an exploration stage company as defined in the SEC Industry Guide No. 7.

Results Of Operations Three and Nine months ended July 31, 2007

References to the discussion below to fiscal 2007 are to our current fiscal year which will end on October 31, 2007. References to fiscal 2006 are to our fiscal year ended October 31, 2006.

	Three Months Ended July 31, 2007 (Unaudited)	Nine Months Ended July 31, 2007 (Unaudited)	Cumulative Period from Inception March 16, 2006 to July 31, 2007 (Unaudited)
Revenue	\$ -	\$ -	\$ -
Expenses			
Exploration expenses	2,619	6,210	9,524
General and administrative	8,256	8,870	9,797
Professional fees	14,153	26,544	34,594
Net Loss For The Period	\$ (25,028)	\$ (41,624)	\$ (53,915)

Revenues

We have had no operating revenues since our inception on March 16, 2006 through to the period ended July 31, 2007. We anticipate that we will not generate any revenues for so long as we are an exploration stage company.

Exploration Expenses

We have incurred a total of \$9,524 in exploration expenses from the period from March 16, 2006 (date of incorporation) through to the period ended July 31, 2007. Exploration expenses include amounts that we pay to our consulting geologist, Laurence Sookochoff, in connection with the completion of exploration activities carried out on our mineral claim.

General and Administrative

We incurred a total of \$9,797 in general and administrative expenses from the period from March 16, 2006 (date of incorporation) through to the period ended July 31, 2007.

Professional Fees

Professional fees include our accounting and auditing expenses incurred in connection with the preparation and audit of our financial statements and professional fees that we pay to our legal counsel. Our accounting and auditing expenses were incurred in connection with the preparation of our audited financial statements and unaudited interim financial statements and our preparation and filing of a registration statement with the SEC. Our legal expenses represent amounts paid to legal counsel in connection with our corporate organization. Legal expenses will be ongoing during fiscal 2007 as we are subject to the reporting obligations of the *Securities Exchange Act of 1934*.

Liquidity And Capital Resources

We had cash of \$57,302 and working capital of \$56,766 as at July 31, 2007, compared to cash of \$68,003 and a working capital of \$60,864 as at October 31, 2006.

Plan Of Operations

We estimate that our total expenditures over the next twelve months will be approximately \$85,000, as outlined above under the heading *Plan of Operations* . We anticipate that our cash and working capital will be sufficient to enable us to complete phases three and four of our exploration program, to pay for the professional fees relating to our obligations as a reporting company under the *Securities Exchange Act of 1934* and our general and administrative expenses for the next twelve months. However, our ability to complete phase five of the recommended work program will be subject to us obtaining additional financing as these expenditures will exceed our cash reserves. We anticipate that our cash and working capital will be sufficient to enable us to sustain our operations for the next twelve months, provided that we do not complete phase five during this period. If we determine to proceed with phase five during the next twelve months, then we will require additional financing.

Cash Used In Operating Activities

We used cash in operating activities in the amount of \$53,379 during the period from our inception on March 16, 2006 through to July 31, 2007 and \$48,226 during the nine months ended July 31, 2007. Cash used in operating activities was funded by cash from financing activities.

Cash From Investing Activities

We used cash in investing activities in the amount of \$4,582 during the period from our inception on March 16, 2006 through to July 31, 2007, which amount was attributable to our purchase of the Katrina mineral claim, and \$nil during the nine months ended July 31, 2007.

Cash from Financing Activities

We generated cash from financing activities in the amount of \$111,250 during the period from our inception on March 16, 2006 through to July 31, 2007 and \$33,250 during the nine months ended July 31, 2007. Cash generated by financing activities is attributable to the private placement financings of our common stock that we have completed since our incorporation.

Going Concern

We have not attained profitable operations and are dependent upon obtaining financing to pursue any extensive business activities. For these reasons our auditors stated in their report that they have substantial doubt we will be able to continue as a going concern.

Future Financings

We anticipate continuing to rely on equity sales of our common shares in order to continue to fund our business operations. Issuances of additional shares will result in dilution to our existing stockholders. There is no assurance that we will achieve any additional sales of our equity securities or arrange for debt or other financing to fund our planned activities.

Off-Balance Sheet Arrangements

We have no significant off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that is material to stockholders.

Item 3. Controls and Procedures

As required by Rule 13a-15 under the *Securities Exchange Act of 1934*, we carried out an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures as of July 31, 2007, being the date of our most recently completed quarter. This evaluation was carried out under the supervision and with the participation of our Chief Executive Officer and Chief Financial Officer, Mr. Ian McBean. Based upon that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures are effective to ensure that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified by the rules and forms of the SEC.

Disclosure controls and procedures are controls and other procedures that are designed to ensure that information required to be disclosed in our reports filed or submitted under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the SEC's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed in our reports filed under the Exchange Act is accumulated and communicated to management, including our Chief Executive Officer and our Chief Financial Officer, to allow timely decisions regarding required disclosure.

During the fiscal quarter ended July 31, 2007, there were no changes in our internal control over financial reporting that have materially affected, or are reasonably likely to affect, our internal control over financial reporting during the

quarter ended July 31, 2007.

The term internal control over financial reporting is defined as a process designed by, or under the supervision of, the registrant's principal executive and principal financial officers, or persons performing similar functions, and effected by the registrant's board of directors, management and other personnel, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles and includes those policies and procedures that:

- (a) Pertain to the maintenance of records that in reasonable detail accurately and fairly reflect the transactions and dispositions of the assets of the registrant;
- (b) Provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the registrant are being made only in accordance with authorizations of management and directors of the registrant; and
- (c) Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the registrant's assets that could have a material effect on the financial statements.

PART II OTHER INFORMATION

Item 1. Legal Proceedings

We currently are not a party to any material legal proceedings and to our knowledge, no such proceedings are threatened or contemplated.
