NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(unaudited)

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of presentation

The consolidated financial statements included herein, presented in accordance with United States generally accepted accounting principles and stated in U.S. dollars, have been prepared by the Company, pursuant to the rules and regulations of the Securities and Exchange Commission. Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted pursuant to such rules and regulations, although the Company believes that the disclosures are adequate to make the information presented not misleading. The interim financial statements are condensed and should be read in conjunction with the Company's latest annual financial statements and that interim disclosures generally do not repeat those in the annual statements.

These statements reflect all adjustments, consisting of normal recurring adjustments, which in the opinion of management, are necessary for fair presentation of the information contained therein.

Principles of consolidation

The consolidated financial statements include the accounts of The Alkaline Water Company Inc. (a Nevada Corporation), Alkaline Water Corp. (an Arizona Corporation) and Alkaline 88, LLC (an Arizona Limited Liability Company).

All significant intercompany balances and transactions have been eliminated. The Alkaline Water Company Inc. (a Nevada Corporation), Alkaline Water Corp. (an Arizona Corporation) and Alkaline 88, LLC (an Arizona Limited Liability Company) will be collectively referred herein to as the Company. Any reference herein to The Alkaline Water Company Inc., the Company, we, our or us is intended to mean The Alkaline Water Company Inc., including the subsidiaries indicated above, unless otherwise indicated.

Reverse split

Effective December 30, 2015, the Company effected a fifty for one reverse stock split of its authorized and issued and outstanding shares of common stock. As a result, the authorized common stock has decreased from 1,125,000,000 shares of common stock, with a par value of \$0.001 per share, to 22,500,000 shares of common stock, with a par value of \$0.001 per share. All shares and per share amounts have been retroactively restated to reflect such split.

On January 21, 2016, stockholders of our company approved, by written consents, an amendment to the articles of incorporation of our company to increase the number of authorized shares of our common stock from 22,500,000 to 200,000,000.

The Company received written consents representing 20,776,000 votes from the holders of shares of its common stock and our Series A Preferred Stock voting as a single class, representing approximately 61% of the voting power of its outstanding common stock and its outstanding Series A Preferred Stock voting as a single class as of the record date (January 12, 2016). On January 21, 2016, there were no written consents received by the Company representing a vote against, abstention or broker non-vote with respect to the proposal.

Our authorized preferred stock was not affected by the reverse stock split and continues to be 100,000,000 shares of preferred stock, with a par value of \$0.001 per share. In addition, the number of issued and outstanding shares of Series A Preferred Stock continues to be 20,000,000. However, holders of Series A Preferred Stock had 0.2 vote per share of Series A Preferred Stock, instead of 10 votes per share of Series A Preferred Stock, as a result of the reverse stock split.

On January 22, 2016, the Company amended the certificate of designation for our Series A Preferred Stock by filing an amendment to certificate of designation with the Secretary of State of the State of Nevada. The Company amended the certificate of designation for our Series A Preferred Stock by deleting Section 2.2 of the certificate of designation, which proportionately increases or decreases the number of votes per share of Series A Preferred Stock in the event of any dividend or other distribution on our common stock payable in its common stock or a subdivision or consolidation of the outstanding shares of its common stock. Accordingly, holders of Series A Preferred Stock will have 10 votes per share of Series A Preferred Stock, instead of 0.2 votes per share of Series A Preferred Stock.

On March 30, 2016, the Company designated 3,000,000 shares of the authorized and unissued preferred stock of our company as Series C Preferred Stock by filing a Certificate of Designation with the Secretary of State of the State of Nevada. Each share of the Series C Preferred Stock will be convertible, without the payment of any additional consideration by the holder and at the option of the holder, into one fully paid and non-assessable share of our common stock at any time after (i) the Company achieves consolidated revenue equal to or greater than \$15,000,000 in any 12 month period, ending on the last day of any quarterly period of our fiscal year; or (ii) a Negotiated Trigger Event, defined as an event upon which the Series C Preferred Stock will be convertible as may be agreed by our company and the holder in writing from time to time.

On May 3, 2017, we designated 3,000,000 shares of the authorized and unissued preferred stock of our company as Series D Preferred Stock by filing a Certificate of Designation with the Secretary of State of the State of Nevada. Each share of the Series D Preferred Stock will be convertible, without the payment of any additional consideration by the holder and at the option of the holder, into one fully paid and non-assessable share of our common stock at any time after (i) we achieve the consolidated revenue of our company and all of its subsidiaries equal to or greater than \$40,000,000 in any 12 month period, ending on the last day of any quarterly period of our fiscal year; or (ii) a Negotiated Trigger Event, defined as an event upon which the Series D Preferred Stock will be convertible as may be agreed by our company and the holder in writing from time to time.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ significantly from those estimates.

Cash and Cash Equivalents

The Company considers all highly liquid instruments with an original maturity of three months or less to be considered cash equivalents. The carrying value of these investments approximates fair value. The Company had \$441,827 and \$603,805 in cash and cash equivalents at June 30, 2017 and March 31, 2017, respectively.

Accounts Receivable and Allowance for Doubtful Accounts

The Company generally does not require collateral, and the majority of its trade receivables are unsecured. The carrying amount for accounts receivable approximates fair value.

Accounts receivable consisted of the following as of June 30, 2017 and March 31, 2017:

| | <u>June 30,</u> | <u>March 31,</u> |
|---------------------------------------|------------------------|-------------------------|
| | 2017 | 2017 |
| Trade receivables | \$ 2,283,626 | \$ 1,419,281 |
| Less: Allowance for doubtful accounts | (-0-) | (-0-) |
| Net accounts receivable | \$ 2,283,626 | \$ 1,419,281 |

Accounts receivable are periodically evaluated for collectability based on past credit history with clients. Provisions for losses on accounts receivable are determined on the basis of loss experience, known and inherent risk in the account balance and current economic conditions.

Inventory

Inventory represents raw and blended chemicals and other items valued at the lower of cost or market with cost determined using the weight average method which approximates first-in first-out method, and with market defined as the lower of replacement cost or realizable value.

As of June 30, 2017 and March 31, 2017, inventory consisted of the following:

| | <u>June 30,</u> | <u>March 31,</u> |
|-----------------|------------------------|-------------------------|
| | 2017 | 2017 |
| Raw materials | \$ 578,889 | \$ 587,689 |
| Finished goods | 258,422 | 232,300 |
| Total inventory | \$ 837,311 | \$ 819,989 |

Property and Equipment

The Company records all property and equipment at cost less accumulated depreciation. Improvements are capitalized while repairs and maintenance costs are expensed as incurred. Depreciation is calculated using the straight-line method over the estimated useful life of the assets or the lease term, whichever is shorter. Depreciation periods are as follows for the relevant fixed assets:

| | |
|-------------------------------|---------|
| Equipment | 5 years |
| Equipment under capital lease | 5 years |

Stock-Based Compensation

The Company accounts for stock-based compensation to employees in accordance with Accounting Standards Codification (ASC) 718. Stock-based compensation to employees is measured at the grant date, based on the fair value of the award, and is recognized as expense over the requisite employee service period. The Company accounts for stock-based compensation to other than employees in accordance with ASC 505-50. Equity instruments issued to other than employees are valued at the earlier of a commitment date or upon completion of the services, based on the fair value of the equity instruments and is recognized as expense over the service period. The Company estimates the fair value of stock-based payments using the Black-Scholes option-pricing model for common stock options and warrants and the closing price of the Company's common stock for common share issuances.

Revenue Recognition

The Company recognizes revenue when all of the following conditions are satisfied: (1) there is persuasive evidence of an arrangement; (2) the product or service has been provided to the customer; (3) the amount to be paid by the customer is fixed or determinable; and (4) the collection of such amount is probable.

The Company records revenue when it is realizable and earned upon shipment of the finished products. The Company does not accept returns due to the nature of the product. However, the Company will provide credit to our customers for damaged goods.

Fair Value Measurements

The valuation of our embedded derivatives and warrant derivatives are determined primarily by the multinomial distribution (Lattice) model. An embedded derivative is a derivative instrument that is embedded within another contract, which under the convertible note (the host contract) includes the right to convert the note by the holder, certain default redemption right premiums and a change of control premium (payable in cash if a fundamental change occurs). In accordance with ASC 815 *Accounting for Derivative Instruments and Hedging Activities*, as amended, these embedded derivatives are marked-to-market each reporting period, with a corresponding non-cash gain or loss charged to the current period. A warrant derivative liability is also determined in accordance with ASC 815. Based on ASC 815, warrants which are determined to be classified as derivative liabilities are marked-to-market each reporting period, with a corresponding non-cash gain or loss charged to the current period. The practical effect of this has been that when our stock price increases so does our derivative liability resulting in a non-cash loss charge that reduces our earnings and earnings per share. When our stock price declines, the Company records a non-cash gain, increasing our earnings and earnings per share. As such, fair value is a market-based measurement that should be determined based on assumptions that market participants would use in pricing an asset or liability. As a basis for considering such assumptions, there exists a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value as follows:

- Level 1 unadjusted quoted prices in active markets for identical assets or liabilities that the Company has the ability to access as of the measurement date.
- Level 2 inputs other than quoted prices included within Level 1 that are directly observable for the asset or liability or indirectly observable through corroboration with observable market data.
- Level 3 unobservable inputs for the asset or liability only used when there is little, if any, market activity for the asset or liability at the measurement date.

This hierarchy requires the Company to use observable market data, when available, and to minimize the use of unobservable inputs when determining fair value.

To determine the fair value of our embedded derivatives, management evaluates assumptions regarding the probability of certain future events. Other factors used to determine fair value include our period end stock price, historical stock volatility, risk free interest rate and derivative term. The fair value recorded for the derivative liability varies from period to period. This variability may result in the actual derivative liability for a period either above or below the estimates recorded on our consolidated financial statements, resulting in significant fluctuations in other income (expense) because of the corresponding non-cash gain or loss recorded.

Income Taxes

In accordance with ASC 740 *Accounting for Income Taxes*, the provision for income taxes is computed using the asset and liability method. Under the asset and liability method, deferred income tax assets and liabilities are determined based on the differences between the financial reporting and tax bases of assets and liabilities and are measured using the currently enacted tax rates and laws. A valuation allowance is provided for the amount of deferred tax assets that, based on available evidence, are not expected to be realized.

Basic and Diluted Loss Per Share

Basic and diluted earnings or loss per share (EPS) amounts in the consolidated financial statements are computed in accordance ASC 260-10 *Earnings per Share*, which establishes the requirements for presenting EPS. Basic EPS is based on the weighted average number of common shares outstanding. Diluted EPS is based on the weighted average number of common shares outstanding and dilutive common stock equivalents. Basic EPS is computed by dividing net income or loss available to common stockholders (numerator) by the weighted average number of common shares outstanding (denominator) during the period. Potentially dilutive securities were excluded from the calculation of diluted loss per share, because their effect would be anti-dilutive.

Newly Issued Accounting Pronouncements

In July 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update No. 2015-11 (ASU 2015-11) "Simplifying the Measurement of Inventory". According to ASU 2015-11 an entity should measure inventory within the scope of this update at the lower of cost and net realizable value. Net realizable value is the estimated selling prices in the ordinary course of business, less reasonably predictable costs of completion, disposal, and transportation. Subsequent measurement is unchanged for inventory measured using LIFO or the retail inventory method. The amendments in ASU 2015-11 more closely align the measurement of inventory in GAAP with the measurement of inventory in International Financial Reporting Standards (IFRS). The Board has amended some of the other guidance in Topic 330 to more clearly articulate the requirements for the measurement and disclosure of inventory. However, the Board does not intend for those clarifications to result in any changes in practice. Other than the change in the subsequent measurement guidance from the lower of cost or market to the lower of cost and net realizable value for inventory within the scope of ASU 2015-11, there are no other substantive changes to the guidance on measurement of inventory. For public business entities, the amendments in ASU 2015-11 are effective for fiscal years beginning after December 15, 2016, including interim periods within those fiscal years. For all other entities, the amendments in ASU 2015-11 are effective for fiscal years beginning after December 15, 2016, and interim periods within fiscal years beginning after December 15, 2017. The amendments in ASU 2015-11 should be applied prospectively with earlier application permitted as of the beginning of an interim or annual reporting period.

The Board decided that the only disclosures required at transition should be the nature of and reason for the change in accounting principle. An entity should disclose that information in the first annual period of adoption and in the interim periods within the first annual period if there is a measurement-period adjustment during the first annual period in which the changes are effective.

The Company has evaluated other recent accounting pronouncements through June 2017 and believes that none of them will have a material effect on our financial statements.

NOTE 2 GOING CONCERN

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern, which contemplates the recoverability and/or acquisition and sale of assets and the satisfaction of liabilities in the normal course of business. Since its inception, the Company has been engaged substantially in financing activities, developing its business plan and building its initial customer and distribution base for its products. As a result, the Company incurred accumulated net losses from Inception (June 19, 2012) through the period ended June 30, 2017 of (\$25,160,288). In addition, the Company's development activities since inception have been financially sustained through debt and equity financing.

The ability of the Company to continue as a going concern is dependent upon its ability to raise additional capital from the sale of common stock and, ultimately, the achievement of significant operating revenues. These financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts, or amounts and classification of liabilities that might result from this uncertainty.

NOTE 3 PROPERTY AND EQUIPMENT

Fixed assets consisted of the following at:

| | June 30, 2017 | March 31, 2017 |
|--------------------------------------|---------------|----------------|
| Machinery and Equipment | \$ 1,200,293 | \$ 1,012,000 |

| Office Equipment | 79,681 | 79,681 |
| Leasehold Improvements | 3,979 | 3,979 |
| Less: Accumulated Depreciation | (993,420) | (897,141) |
| Fixed Assets, net | \$ 1,101,452 | \$ 1,120,148 |

Depreciation expense for the three months ended June 30, 2017 and 2016 was \$96,279 and \$89,439, respectively.

NOTE 4 REVOLVING FINANCING

On February 1, 2017, The Alkaline Water Company Inc. and its subsidiaries (the Company) entered into a Credit and Security Agreement (the Credit Agreement) with SCM Specialty Finance Opportunities Fund, L.P. (the Lender).

The Credit Agreement provides the Company with a revolving credit facility (the Revolving Facility), the proceeds of which are to be used to repay existing indebtedness of the Company, transaction fees incurred in connection with the Credit Agreement and for working capital needs of the Company.

Under the terms of the Credit Agreement, the Lender has agreed to make cash advances to the Company in an aggregate principal at any one time outstanding not to exceed the lesser of (i) \$3 million (the Revolving Loan Commitment Amount) and (ii) the Borrowing Base (defined to mean, as of any date of determination, 85% of net eligible billed receivables plus 65% of eligible unbilled receivables, minus certain reserves).

The Credit Agreement has a term of three years, unless earlier terminated by the parties in accordance with the terms of the Credit Agreement.

The principal amount of the Revolving Facility outstanding bears interest at a rate per annum equal to (i) a fluctuating interest rate per annum equal at all times to the rate of interest announced, from time to time, within Wells Fargo Bank at its principal office in San Francisco as its prime rate, plus (ii) 3.25%, payable monthly in arrears.

To secure the payment and performance of the obligations under the Credit Agreement, the Company granted to the Lender a continuing security interest in all of the Company's assets and agreed to a lockbox account arrangement in respect of certain eligible receivables.

In connection with the Credit Agreement, the Company paid to the Lender a \$30,000 facility fee. The Company agreed to pay to Lender monthly an unused line fee in amount equal to 0.083% per month of the difference derived by subtracting (i) the average daily outstanding balance under the Revolving Facility during the preceding month, from (ii) the Revolving Loan Commitment Amount. The unused line fee will be payable monthly in arrears. The Company also agreed to pay the Lender as additional interest a monthly collateral management fee equal to 0.35% per month calculated on the basis of the average daily balance under the Revolving Facility outstanding during the preceding month. The collateral management fee will be payable monthly in arrears. Upon a termination of the Revolving Facility, the Company agreed to pay the Lender a termination fee in an amount equal to 2% of the Revolving Loan Commitment Amount if the termination occurs before February 1, 2020. The Company must also pay certain fees in the event that receivables are not properly deposited in the appropriate lockbox account.

The interest rate will be increased by 5% in the event of a default under the Credit Agreement. Events of default under the Credit Agreement, some of which are subject to certain cure periods, include a failure to pay obligations when due, the making of a material misrepresentation to the Lender, the rendering of certain judgments or decrees against the Company and the commencement of a proceeding for the appointment of a receiver, trustee, liquidator or conservator or filing of a petition seeking reorganization or liquidation or similar relief.

The Credit Agreement contains customary representations and warranties and various affirmative and negative covenants including the right of first refusal to provide financing for the Company and the financial and loan covenants, such as the loan turnover rate, minimum EBTDA, fixed charge coverage ratio and minimum liquidity requirements.

NOTE 5 DERIVATIVE LIABILITY

On May 1, 2014, the Company completed the offering and sale of an aggregate of shares of our common stock and warrants. Each share of common stock sold in the offering was accompanied by a warrant to purchase one-half of a share of common stock. The warrants include down-round provisions that reduce the exercise price of a warrant and convertible instrument. As required by ASC 815 Derivatives and Hedging, if the Company either issues equity shares for a price that is lower than the exercise price of those instruments or issues new warrants or convertible instruments that have a lower exercise price, the investors will be entitled to down-round protection. The Company evaluated whether its warrants and convertible debt instruments contain provisions that protect holders from declines in its stock price or otherwise could result in modification of either the exercise price or the shares to be issued under the respective warrant agreements. The Company determined that a portion of its outstanding warrants and conversion instruments contained such provisions thereby concluding were not indexed to the Company's own stock and therefore a derivative instrument.

On August 20, 2014, the Company entered into a warrant amendment agreement with certain holders of the Company's outstanding common stock purchase warrants whereby the Company agreed to reduce the exercise price of the Existing Warrants the Holders are to be issued new common stock purchase warrants of the Company in the form of the Existing Warrants to purchase up to a number of shares of our common stock equal to the number of Existing Warrants exercised by the Holders

The Company analyzed the warrants and conversion feature under ASC 815 Derivatives and Hedging to determine the derivative liability as of June 30, 2017 was \$3,407.

NOTE 6 STOCKHOLDERS EQUITYPreferred Shares

On October 7, 2013, the Company amended its articles of incorporation to create 100,000,000 shares of preferred stock by filing a Certificate of Amendment to Articles of Incorporation with the Secretary of State of Nevada. The preferred stock may be divided into and issued in series, with such designations, rights, qualifications, preferences, limitations and terms as fixed and determined by our board of directors. The Series A Preferred Stock had 10 votes per share (reduced to 0.2 votes per share as a result of the fifty for one reverse stock split, which became effective as of December 30, 2015) and are not convertible into shares of our common stock.

Grant of Series A Preferred Stock

On October 8, 2013, the Company issued a total of 20,000,000 shares of non-convertible Series A Preferred Stock to Steven Nickolas and Richard Wright (10,000,000 shares to each), our directors and executive officers, in consideration for the past services, at a deemed value of \$0.001 per share. The company valued these shares based on the cost considering the time and average billing rate of these individuals and recorded a \$20,000 stock compensation cost for the year ended March 31, 2014.

Our authorized preferred stock was not affected by the reverse stock split and continues to be 100,000,000 shares of preferred stock, with a par value of \$0.001 per share. In addition, the number of issued and outstanding shares of Series A Preferred Stock continues to be 20,000,000. However, holders of Series A Preferred Stock had 0.2 vote per share of Series A Preferred Stock, instead of 10 votes per share of Series A Preferred Stock, as a result of the reverse-stock split.

On January 22, 2016, the Company amended the certificate of designation for our Series A Preferred Stock by filing an amendment to certificate of designation with the Secretary of State of the State of Nevada. The Company amended the certificate of designation for our Series A Preferred Stock by deleting Section 2.2 of the certificate of designation, which proportionately increases or decreases the number of votes per share of Series A Preferred Stock in the event of any dividend or other distribution on our common stock payable in its common stock or a subdivision or consolidation of the outstanding shares of its common stock. Accordingly, holders of Series A Preferred Stock will have 10 votes per share of Series A Preferred Stock, instead of 0.2 votes per share of Series A Preferred Stock.

Grant of Series C Convertible Preferred Stock

On March 30, 2016, the Company designated 3,000,000 shares of the authorized and unissued preferred stock of our company as Series C Preferred Stock by filing a Certificate of Designation with the Secretary of State of the State of Nevada. Each share of the Series C Preferred Stock will be convertible, without the payment of any additional consideration by the holder and at the option of the holder, into one fully paid and non-assessable share of our common stock at any time after (i) the Company achieves consolidated revenue equal to or greater than \$15,000,000 in any 12 month period, ending on the last day of any quarterly period of our fiscal year; or (ii) a Negotiated Trigger Event, defined as an event upon which the Series C Preferred Stock will be convertible as may be agreed by our company and the holder in writing from time to time.

Effective March 31, 2016, the Company issued a total of 3,000,000 shares of our Series C Preferred Stock to Steven Nickolas and Richard Wright (1,500,000 shares to each), pursuant to their employment agreements dated effective March 1, 2016.

On May 3, 2017, the Company designated 3,000,000 shares of the authorized and unissued preferred stock of our company as Series D Preferred Stock by filing a Certificate of Designation with the Secretary of State of the State of Nevada. Each share of the Series D Preferred Stock will be convertible, without the payment of any additional consideration by the holder and at the option of the holder, into one fully paid and non-assessable share of our common stock at any time after (i) we achieve the consolidated revenue of our company and all of its subsidiaries equal to or greater than \$40,000,000 in any 12 month period, ending on the last day of any quarterly period of our fiscal year; or (ii) a Negotiated Trigger Event, defined as an event upon which the Series D Preferred Stock will be convertible as may be agreed by our company and the holder in writing from time to time. The company then issued a total of 3,000,000 shares of our Series D Preferred Stock to our directors, officers, consultants and employees. We issued these shares relying on the registration exemption provided for in Section 4(a)(2) of the Securities Act of 1933.

Common Stock

The Company is authorized to issue 1,125,000,000 shares of \$0.001 par value common stock. On May 31, 2013, the Company effected a 15-for-1 forward stock split of our \$0.001 par value common stock. All shares and per share amounts have been retroactively restated to reflect such split. Prior to the acquisition of Alkaline Water Corp., the Company had 109,500,000 shares of common stock issued and outstanding. On May 31, 2013, the Company issued 43,000,000 shares in exchange for a 100% interest in Alkaline Water Corp. For accounting purposes, the acquisition of Alkaline Water Corp. by The Alkaline Water Company Inc. has been recorded as a reverse acquisition of a company and recapitalization of Alkaline Water Corp. based on the factors demonstrating that Alkaline Water Corp. represents the accounting acquirer. Consequently, after the closing of this agreement the Company adopted the business of Alkaline Water Corp. s wholly-owned subsidiary, Alkaline 88, LLC. As part of the acquisition, the former management of the Company agreed to cancel 75,000,000 shares of common stock.

On December 30, 2015, the Company effected a fifty for one reverse stock split of its authorized and issued and outstanding shares of common stock. As a result, the authorized common stock has decreased from 1,125,000,000 shares of common stock, with a par value of \$0.001 per share, to 22,500,000 shares of common stock, with a par value of \$0.001 per share. All shares and per share amounts have been retroactively restated to reflect such split.

On January 21, 2016, stockholders of our company approved, by written consents, an amendment to the articles of incorporation of our company to increase the number of authorized shares of our common stock from 22,500,000 to 200,000,000.

The Company received written consents representing 20,776,000 votes from the holders of shares of its common stock and our Series A Preferred Stock voting as a single class, representing approximately 61% of the voting power of its outstanding common stock and its outstanding Series A Preferred Stock voting as a single class as of the record date (January 12, 2016). On January 21, 2016, there were no written consents received by the Company representing a vote against, abstention or broker non-vote with respect to the proposal.

Investing Activities

Net cash used in investing activities was \$77,583 for the three months ended June 30, 2017, as compared to \$116,929 used in investing activities for the three months ended June 30, 2016. The decrease in net cash used by investing

Cash Requirements

We believe that cash flow from operations will not meet our present and near-term cash needs and thus we will require additional cash resources, including the sale of equity or debt securities, to meet our planned capital expenditures and working capital requirements for the next 12 months. We estimate that our capital needs over the next 12 months will be up to \$3,000,000. We will require additional cash resources to, among other things, expand broker network, increase manufacturing capacity, expand retail distribution and add support staff. If our own financial resources and future cash-flows from operations are insufficient to satisfy our capital requirements, we may seek to sell additional equity or debt securities or obtain additional credit facilities. The sale of additional equity securities will result in dilution to our stockholders. The incurrence of indebtedness will result in increased debt service obligations and could require us to agree to operating and financial covenants that could restrict our operations or modify our plans to grow the business. Financing may not be available in amounts or on terms acceptable to us, if at all. Any failure by us to raise additional funds on terms favorable to us, or at all, will limit our ability to expand our business operations and could harm our overall business prospects.

Off-Balance Sheet Arrangements

We have no off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that is material to our stockholders.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

PART II OTHER INFORMATION

Item 1. Legal Proceedings.

The Company is a defendant in a lawsuit filed on April 6, 2017 by Water Engineering Solutions, Inc. (WES), in the Maricopa County, Arizona, Superior Court, Water Engineering Solutions, Inc. v. The Alkaline Water Company, Inc., et al., cause number CV2017-005487. WES seeks damages arising out of the alleged breach of a written manufacturing agreement between the Company and WES. WES alleges that the Company has failed to purchase equipment from WES as required under the manufacturing agreement. The Company denies the allegations of the claims, and has moved to dismiss pursuant to the terms of the agreement which require that all disputes be resolved by arbitration. In response, WES filed an amended complaint apparently abandoning its breach of contract claim, and instead seeking damages for alleged misappropriation of claimed trade secrets relating to the equipment which the Company purchased under the manufacturing agreement. The Company intends to renew its motion to dismiss based on the arbitration provisions of that agreement. The Company intends to defend the claim vigorously, whether in court or in arbitration proceedings.

The Company is a defendant in a lawsuit filed on April 11, 2017 by Steven Nickolas, the former Chief Executive Officer of the Company, in the Maricopa County, Arizona, Superior Court, Nickolas v. The Alkaline Water Company, Inc., et al., cause number CV2017-053064. Mr. Nickolas seeks damages arising out of the alleged breach of a written employment agreement between the Company and Mr. Nickolas. Mr. Nickolas alleges that the Company wrongfully terminated the employment agreement and has failed to pay wages due under the employment agreement. The Company denies the allegations of the claims, and has counterclaimed against Mr. Nickolas for damages suffered by the Company as a result of numerous breaches of fiduciary duty owed to the Company by Mr. Nickolas in his capacity as officer and director of the company, including diversion of corporate assets to personal matters, and actively interfering with the Company's suppliers and customers. The Company intends to defend against Mr. Nickolas's claims vigorously and to pursue its counterclaims.

The Company is nominal defendant in a lawsuit filed on April 6, 2017 by Steven Nickolas, a shareholder of the Company, derivatively on behalf of the Company, against Richard Wright, David Guarino, and Aaron Keay (current directors of the Company), and Daniel Lorey (current employee of the Company) and the Company's former accounting firm, Seale & Beers, LLC. The lawsuit is pending in the Maricopa County, Arizona, Superior Court, Steven Nickolas, derivatively on behalf of the Alkaline Water Company, v. Richard Wright, et al. cause number CV2017-005488 (the Derivative Action). Mr. Nickolas alleges a range of conduct breaching fiduciary and general duties owed to the Company. Some of these allegations were first raised by Mr. Nickolas in August, 2016 and, at that time, the Company appointed an independent director, Mr. Keay, to conduct an investigation of the allegations. Mr. Keay conducted the investigation and concluded that the claims were without merit. Though the Company is a nominal defendant in this action, the Company believes the claims in the action are baseless and has denied the claims. The Company anticipates that the other defendants will defend the action vigorously, and is paying the cost of defending against the claims, subject to a reservation of rights in the event of a finding the principal defendants breached duties owed to the Company and are not eligible for indemnification.

Steven Nickolas also filed virtually an identical lawsuit to the Derivative Action in his individual capacity against Richard Wright, David Guarino, and Dan Lorey. The lawsuit was filed on April 6, 2017 and is pending in the Maricopa County, Arizona, Superior Court, Steven Nickolas vs. Richard Wright et al. cause number CV2017-005486

(the Individual Action). The allegations in the Individual Action are nearly identical to those in the Derivative Action. The Company anticipates that the defendants will defend the action vigorously, and is paying the cost of defending against the claims, subject to a reservation of rights in the event of a finding the principal defendants breached duties owed to the Company and are not eligible for indemnification.

The Company is a defendant in a lawsuit filed on June 1, 2017 by Black Mountain Equities, Inc. (BM) in the San Diego County, California, Superior Court, Black Mountain Equities, Inc. v. The Alkaline Water Company, Inc., et al., cause number 37-2017-00019820-CU-BT-CTL. BM is seeking damages of \$151,000 for intentional interference with contractual relations arising from the Company attempting to put a stop on the transfer of certain stock in the Company from a third party to the Plaintiff. The Company intends to defend the claim vigorously.

The Company is a defendant in a lawsuit filed on August 9, 2017 by Steven Nickolas, a shareholder of the Company. The lawsuit is pending in the Maricopa County, Arizona, Superior Court, Nickolas v. The Alkaline Water Company, Inc., et al., cause number CV2017-007786. Mr. Nickolas seeks declaratory relief, monetary damages, specific performance and injunctive relief arising from the alleged failure of the Company to allow him to convert his Series C Preferred Stock of the Company to common stock of the Company. The Company intends to defend these claims vigorously.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

On August 17, 2017, we issued 1,500,000 shares of our common stock to Steven P. Nickolas upon conversion of 1,500,000 shares of our Series C Preferred Stock held by Mr. Nickolas. The shares of our Series C Preferred Stock became convertible into shares of our common stock without the payment of any additional consideration by Mr. Nickolas and at the option of Mr. Nickolas because the termination of the employment agreement between our company and Mr. Nickolas was an event constituting a Negotiated Trigger Event as defined in the Certificate of Designation for our Series C Preferred Stock. We issued these shares relying on the registration exemption provided for in Section 4(a)(2) of the Securities Act of 1933.

In consideration for services rendered and to be rendered to our company pursuant to a services agreement dated July 26, 2016, we intend to issue a consultant 262,596 shares of our common stock.
