Certain statements included herein constitute forward-looking statements that may state Gold Reserve's or its management's intentions, hopes, beliefs, expectations or predictions for the future. In this report, forward-looking statements are necessarily based upon a number of estimates and assumptions that, while considered reasonable by management at this time, are inherently subject to significant business, economic and competitive uncertainties and contingencies.

## Edgar Filing: GOLD RESERVE INC - Form 6-K

Numerous factors could cause actual results to differ materially from those in the forward-looking statements, including without limitation; the outcome of any potential proceedings under the Venezuelan legal system or before arbitration tribunals as provided in investment treaties entered into between Venezuela, Canada and Barbados to determine the compensation due to Gold Reserve in the event that Gold Reserve and the Venezuelan government do not reach an agreement regarding construction and operation of the Brisas project, or the Brisas project is transferred to the Venezuelan government and the parties do not reach agreement on compensation; concentration of operations and assets in Venezuela; corruption and uncertain legal enforcement; requests for improper payments; competition with companies that are not subject to or do not follow Canadian and U.S. laws and regulations; regulatory, political and economic risks associated with Venezuelan operations (including changes in previously established laws, legal regimes, rules or processes); the ability to obtain, maintain or re-acquire the necessary permits or additional funding for the development of the Brisas project; the result or outcome of the trial regarding Rusoro Mining Ltd. 's enjoined hostile takeover bid; significant differences or changes in any key findings or assumptions previously determined by us or our experts in conjunction with our 2005 bankable feasibility study (as updated or modified from time to time) due to actual results in our expected construction and production at the Brisas Project (including capital and operating cost estimates); the method and manner of our determination of reserves, risk that actual mineral reserves may vary considerably from estimates presently made; impact of currency, metal prices and metal production volatility; fluctuations in energy prices; changes in proposed development plans (including technology used); our dependence upon the abilities and continued participation of certain key employees; the prices, production levels and supply of and demand for gold and copper produced or held by Gold Reserve; the potential volatility of Gold Reserve 's Class A common shares; the price and value of Gold Reserve 's notes, including any conversion of notes into Gold Reserve 's Class A common shares; the prospects for exploration and development of projects by Gold Reserve; and risks normally incident to the operation and development of mining properties.
