QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT
OF 1934

For the quarterly period ended December 31, 2012
or

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT of
1934

For the transition period from _____ to _____

Commission File Number: 0-19599

WORLD ACCEPTANCE CORPORATION
(Exact name of registrant as specified in its charter.)
South Carolina
(State or other jurisdiction of incorporation or
organization)

57-0425114
(I.R.S. Employer Identification Number)

108 Frederick Street
Greenville, South Carolina 29607
(Address of principal executive offices)
(Zip Code)
(864) 298-9800
(registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for shorter period than the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§ 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check One):

Large Accelerated Filer

Accelerated Filer
Smaller reporting company

Edgar Filing: WORLD ACCEPTANCE CORP - Form 10-Q

Non-accelerated filer (Do not check if a smaller reporting company)

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

The number of outstanding shares of the issuer's no par value common stock as of February 4, 2013 was 12,339,238.

WORLD ACCEPTANCE CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2012 and 2011
(Unaudited)

NOTE 1 – BASIS OF PRESENTATION

The consolidated financial statements of the Company at December 31, 2012, and for the three and nine months ended were prepared in accordance with the instructions for Form 10-Q and are unaudited; however, in the opinion of management, all adjustments (consisting only of items of a normal recurring nature) necessary for a fair presentation of the financial position at December 31, 2012, and the results of operations and cash flows for the periods ended December 31, 2012 and 2011, have been included. The results for the interim periods are not necessarily indicative of the results that may be expected for the full year or any other interim period.

The preparation of consolidated financial statements in conformity with U.S. generally accepted accounting principles (“GAAP”) requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent liabilities at the date of the consolidated financial statements and the reported amount of revenues and expenses during the reporting period. Actual results could differ from those estimates.

The consolidated financial statements do not include all disclosures required by U.S. GAAP and should be read in conjunction with the Company’s audited consolidated financial statements and related notes for the fiscal year ended March 31, 2012, included in the Company’s 2012 Annual Report to Shareholders.

NOTE 2 – SUMMARY OF SIGNIFICANT POLICIES

New Accounting Pronouncements Adopted

Fair Value Measurement

In May 2011, the FASB issued an accounting pronouncement (ASU 2011-04) related to fair value measurement (FASB ASC Topic 820), which amends current guidance to achieve common fair value measurement and disclosure requirements in U.S. GAAP and International Financial Reporting Standards. The amendments generally represent clarification of FASB ASC Topic 820, but also include instances where a particular principle or requirement for measuring fair value or disclosing information about fair value measurements has changed. This pronouncement is effective for fiscal years, and interim periods within those years, beginning after December 15, 2011. The Company adopted this pronouncement for our fiscal year beginning April 1, 2012. The adoption did not have a material effect on our consolidated financial statements.

Comprehensive Income

ASU 2011-05, “Comprehensive Income (Topic 220) — Presentation of Comprehensive Income” (“ASU 2011-05”) amends Topic 220, “Comprehensive Income,” to require that all non-owner changes in stockholders’ equity be presented in either a single continuous statement of comprehensive income or in two separate but consecutive statements. Additionally, ASU 2011-05 requires entities to present, on the face of the financial statements, reclassification adjustments for items that are reclassified from other comprehensive income to net income in the statement or statements where the components of net income and the components of other comprehensive income are presented. The option to present components of other comprehensive income as part of the statement of changes in stockholders’ equity was eliminated. ASU 2011-05 is effective for annual and interim periods beginning after December 15, 2011; however certain

provisions related to the presentation of reclassification adjustments have been deferred by ASU 2011-12 “Comprehensive Income (Topic 820) — Deferral of the Effective Date for Amendments to the Presentation of Reclassifications of Items Out of Accumulated Other Comprehensive Income in Accounting Standards Update No. 2011-05.” ASU 2011-05 is not expected to have a significant impact on our financial statements. The Company adopted this pronouncement for our annual and interim reporting beginning April 1, 2012.

Table of Contents

Testing Goodwill for Impairment

ASU 2011-08, “Testing Goodwill for Impairment,” permits an entity to make a qualitative assessment of whether it is more likely than not that a reporting unit’s fair value is less than its carrying amount before applying the two-step goodwill impairment test. If an entity concludes it is not more likely than not that the fair value of a reporting unit is less than its carrying amount, it need not perform the two-step impairment test. The ASU is effective for annual and interim goodwill impairment tests performed for fiscal years beginning after December 15, 2011, with early adoption permitted. The adoption did not have any impact on the Company’s consolidated financial statements. The Company adopted this pronouncement for our fiscal year beginning April 1, 2012.

Accounting Standards to be Adopted

We reviewed significant newly issued accounting pronouncements and concluded that they are either not applicable to our business or that no material effect is expected on the financial statements as a result of future adoption.

NOTE 3 – FAIR VALUE

Fair Value Disclosures

The Company carries certain financial instruments, derivative assets and liabilities, at fair value on a recurring basis. Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. The Company determines the fair values of its financial instruments based on the fair value hierarchy, which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value.

Financial assets and liabilities measured at fair value are grouped in three levels. The levels prioritize the inputs used to measure the fair value of the assets or liabilities. These levels are:

- Level 1 – Quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2 – Inputs other than quoted prices that are observable for assets and liabilities, either directly or indirectly. These inputs include quoted prices for similar assets or liabilities in active markets and quoted prices for identical or similar assets or liabilities in market that are less active.
- Level 3 – Unobservable inputs for assets or liabilities reflecting the reporting entity’s own assumptions.

The Company’s interest rate swap, which expired on December 8, 2011, was valued using the “income approach” valuation technique. This method used valuation techniques to convert future amounts to a single present amount. The measurement was based on the value indicated by current market expectations about those future amounts. As of December 31, and March 31, 2012, the Company had no financial assets or liabilities that were measured at fair market value.

Fair Value of Long-Term Debt

The book value and estimated fair value of our long-term debt was as follows (in thousands):

	December 31, 2012	March 31, 2012
Book value:		
Senior notes payable	\$492,700	229,250

Edgar Filing: WORLD ACCEPTANCE CORP - Form 10-Q

Junior subordinated note payable	—	50,000
	\$492,700	279,250
Estimated fair value:		
Senior notes payable	\$492,700	229,250
Junior subordinated note payable	—	50,000
	\$492,700	279,250

Table of Contents

The carrying value of the senior notes payable and the junior subordinated note payable approximated their fair value, as the notes payable are at a variable interest rate.

Other

There were no assets or liabilities measured at fair value on a non-recurring basis as of December 31, 2012 or March 31, 2012.

NOTE 4 – ALLOWANCE FOR LOAN LOSSES

The following is a summary of the changes in the allowance for loan losses for the periods indicated (unaudited):

	Three months ended		Nine months ended	
	December 31,		December 31,	
	2012	2011	2012	2011
Balance at beginning of period	\$61,328,777	54,164,473	54,507,299	48,354,994

Table of Contents

The following is a summary of the past due receivables as of:

	December 31, 2012	March 31, 2012	December 31, 2011	
Recency basis:				
30-60 days past due	\$37,651,933	22,457,591	30,909,259	
61-90 days past due	21,318,509	13,381,637	19,265,876	
91 days or more past due	13,356,644	10,569,627	12,614,281	
Total	\$72,327,086	46,408,855	62,789,416	
Percentage of period-end gross loans receivable	6.1	% 4.8	% 5.9	%
Contractual basis:				
30-60 days past due	\$45,193,214	24,853,508	32,995,879	
61-90 days past due	25,758,105	17,320,264	23,108,341	
91 days or more past due	25,546,143	21,306,902	23,135,468	
Total	\$96,497,462	63,480,674	79,239,688	
Percentage of period-end gross loans receivable	8.2	% 6.5	% 7.4	%

NOTE 5 – AVERAGE SHARE INFORMATION

The following is a summary of the basic and diluted average common shares outstanding:

	Three months ended December 31,		Nine months ended December 31,	
	2012	2011	2012	2011
Basic:				
Weighted average common shares outstanding (denominator)	12,837,327	14,747,139	13,144,131	15,046,415
Diluted:				
Weighted average common shares outstanding	12,837,327	14,747,139	13,144,131	15,046,415
Dilutive potential common shares stock options	262,962	372,540	287,137	395,233
Conversion premium on convertible notes	—	—	—	11,925
Weighted average diluted shares outstanding (denominator)	13,100,289	15,119,679	13,431,268	15,453,573

Options to purchase 436,206 and 47,219 shares of common stock at various prices were outstanding during the three months ended December 31, 2012 and 2011 respectively, but were not included in the computation of diluted EPS because the option exercise price was antidilutive.

Options to purchase 289,440 and 16,468 shares of common stock at various prices were outstanding during the nine months ended December 31, 2012 and 2011, respectively, but were not included in the computation of diluted EPS because the option exercise price was antidilutive.

During the nine months ended December 31, 2011, the warrants related to the Company's former convertible notes payable were not included in the computation of dilutive earnings per share because the effect of such instruments was anti-dilutive. The warrants, which expired on February 9, 2012, had a strike price of \$73.97 and were generally exercisable at any time through February 9, 2012. The Company issued and sold the warrants in a transaction exempt from the registration requirements of the Securities Act of 1933, as amended, by virtue of section 4(2) thereof. There

were no underwriting commissions or discounts in connection with the sale of the warrants.

Table of Contents

NOTE 6 – STOCK-BASED COMPENSATION

Stock Option Plans

The Company has a 2002 Stock Option Plan, a 2005 Stock Option Plan, a 2008 Stock Option Plan, and a 2011 Stock Option Plan for the benefit of certain directors, officers, and key employees. Under these plans, 4,100,000 shares of authorized common stock have been reserved for issuance pursuant to grants approved by the Compensation and Stock Option Committee of the Board of Directors. Stock options granted under these plans have a maximum duration of 10 years, may be subject to certain vesting requirements, which are generally five years for officers, directors, and key employees, and are priced at the market value of the Company's common stock on the date of grant of the option. At December 31, 2012, there were 478,088 shares available for grant under the plans.

Stock based compensation is recognized as provided under FASB ASC Topic 718-10 and FASB ASC Topic 505-50. FASB ASC Topic 718-10 requires all share-based payments to employees, including grants of employee stock options, to be recognized as compensation expense over the requisite service period (generally the vesting period) in the consolidated financial statements based on their fair values. The impact of forfeitures that may occur prior to vesting is also estimated and considered in the amount recognized. Stock option compensation is recognized as an expense over the unvested portion of all stock option awards granted based on the fair values estimated at grant date in accordance with the provisions of FASB ASC Topic 718-10. The Company has applied the Black-Scholes valuation model in determining the fair value of the stock option awards. Compensation expense is recognized only for those options expected to vest, with forfeitures estimated based on historical experience and future expectations.

The weighted-average fair value at the grant date for options issued during the three and nine months ended December 31, 2012 was \$36.04. The weighted-average fair value at the grant date for options issued during the three and nine months ended December 31, 2011 was \$36.15. This fair value was estimated at grant date using the weighted-average assumptions listed below.

	Three months ended December 31,		Nine months ended December 31,	
	2012	2011	2012	2011
Dividend yield	—%	—%	—%	—%
Expected volatility	56.15%	56.85%	56.15%	56.85%
Average risk-free interest rate	0.80%	1.12%	0.80%	1.12%
Expected life	5.6 years	6.0 years	5.6 years	6.0 years
Vesting period	5.0 years	5.0 years	5.0 years	5.0 years

The expected stock price volatility is based on the historical volatility of the Company's stock for a period approximating the expected life. The expected life represents the period of time that options are expected to be outstanding after their grant date. The risk-free rate reflects the interest rate at grant date on zero-coupon U.S. governmental bonds having a remaining life similar to the expected option term.

Option activity for the nine months ended December 31, 2012 was as follows:

	Shares	Weighted Average Exercise Price	Weighted Average Remaining Contractual Term	Aggregate Intrinsic Value
Options outstanding, beginning of year	1,041,500	\$37.95		
Granted	556,000	71.40		
Exercised	(249,035)) 28.59		
Forfeited	(10,850)) 45.82		
Expired	(300)) 43.04		

Edgar Filing: WORLD ACCEPTANCE CORP - Form 10-Q

Options outstanding, end of period	1,337,315	\$53.53	8.08	\$28,118,105
Options exercisable, end of period	291,055	\$33.35	5.10	\$11,993,350

13

Table of Contents

The aggregate intrinsic value reflected in the table above represents the total pre-tax intrinsic value (the difference between the closing stock price on December 31, 2012 and the exercise price, multiplied by the number of in-the-money options) that would have been received by option holders had all option holders exercised their options as of December 31, 2012. This amount will change as the stock's market price changes. The total intrinsic value of options exercised during the periods ended December 31, 2012 and 2011 was as follows:

	December 31, 2012	December 31, 2011
Three months ended	\$5,377,474	\$7,051,893
Nine months ended	\$10,327,163	\$9,452,314

As of December 31, 2012, total unrecognized stock-based compensation expense related to non-vested stock options amounted to approximately \$26.9 million, which is expected to be recognized over a weighted-average period of approximately 4.4 years.

Restricted Stock

On December 7, 2012, the Company granted 69,600 shares of restricted stock (which are equity classified), with a grant date fair value of \$74.08 per share, respectively, to certain officers and certain independent directors. On December 11, 2012 the Company granted 1,200 shares of restricted stock (which are equity classified), with a grant date fair value of \$73.41 per share, respectively, to a certain officer. The 70,800 shares will vest on April 30, 2015 based on the Company's achievement of the following performance goals as of March 31, 2015:

EPS Target	Restricted Shares Eligible for Vesting (Percentage of Award)
\$10.29	100%
\$9.76	67%
\$9.26	33%
Below \$9.26	0%

On December 7, 2012, the Company granted 350,900 shares of restricted stock (which are equity classified), with a grant date fair value of \$74.08 per share, respectively, to certain officers and certain independent directors. On December 11, 2012, the Company granted 7,800 shares of restricted stock (which are equity classified), with a grant date fair value of \$73.41 per share, respectively, to a certain officer. The 358,700 shares will vest as follows, if the Company achieves the following performance goals during any successive trailing four quarters during the measurement period beginning on October 1, 2012 and ending March 31, 2017:

Trailing 4 quarter EPS Target	Restricted Shares Eligible for Vesting (Percentage of Award)
\$13.00	25%
\$14.50	25%
\$16.00	25%
\$18.00	25%

On April 30, 2012, the Company granted 10,000 shares of restricted stock (which are equity classified) with a grant date fair value of \$66.51 per share to certain independent directors. All of the shares granted vested immediately.

Table of Contents

On November 7, 2011, the Company granted 15,077 shares of restricted stock (which are equity classified), with a grant date fair value of \$67.70 per share, to certain executive officers. One-third of the restricted stock vested immediately, one-third vested on November 7, 2012, and one-third will vest on November 7, 2013, respectively. On that same date, the Company granted an additional 24,200 shares of restricted stock (which are equity classified), with a grant date fair value of \$67.70 per share, to certain officers. One-third of the restricted stock vested on November 7, 2012, and one-third of the restricted stock will vest on November 7, 2013 and 2014, respectively. On that same date, the Company granted an additional 11,139 shares of restricted stock (which are equity classified), with a grant date fair value of \$67.70 per share, to certain executive officers. The 11,139 shares will vest on April 30, 2014 based on the Company's compounded annual EPS growth according to the following schedule:

Vesting Percentage	Compounded Annual EPS Growth
100%	15% or higher
67%	12% - 14.99%
33%	10% - 11.99%
0%	Below 10%

On April 29, 2011, the Company granted 10,000 shares of restricted stock (which are equity classified) with a grant date fair value of \$67.95 per share to certain independent directors. All of the shares granted vested immediately.

On November 8, 2010, the Company granted 29,080 shares of restricted stock (which are equity classified), with a grant date fair value of \$43.04 per share, to certain officers. One-third of the restricted stock vested immediately, one-third vested on November 8, 2011 and the final third vested on November 8, 2012, respectively. On that same date, the Company granted an additional 15,871 shares of restricted stock (which are equity classified), with a grant date fair value of \$43.04 per share, to certain executive officers. The 15,871 shares will vest on April 30, 2013 based on the Company's compounded annual EPS growth according to the following schedule:

Vesting Percentage	Compounded Annual EPS Growth
100%	15% or higher
67%	12% - 14.99%
33%	10% - 11.99%
0%	Below 10%

Compensation expense related to restricted stock is based on the number of shares expected to vest and the fair market value of the common stock on the grant date. The Company recognized approximately \$1.0 million and \$0.8 million, respectively, of compensation expense for the three months ended December 31, 2012 and 2011 and recognized approximately \$2.8 million and \$2.3 million, respectively, for the nine months ended December 31, 2012 and 2011 related to restricted stock, which is included as a component of general and administrative expenses in the Company's Consolidated Statements of Operations. For purposes of accruing the expense, all shares are expected to vest.

As of December 31, 2012, there was approximately \$32.4 million of unrecognized compensation cost related to unvested restricted stock awards granted, which is expected to be recognized over the next 3.6 years.

A summary of the status of the Company's restricted stock as of December 31, 2012, and changes during the nine months ended December 31, 2012, are presented below:

	Shares	Weighted Average Fair Value at Grant Date
Outstanding at March 31, 2012	93,999	\$50.90
Granted during the period	439,500	73.89
Vested during the period, net of cancellations	(41,285) 46.30

Edgar Filing: WORLD ACCEPTANCE CORP - Form 10-Q

Canceled during the period	(14,758) 41.51
Outstanding at December 31, 2012	477,456	\$72.61

Table of Contents

Total share-based compensation included as a component of net income during the three months and nine months ended December 31, 2012 and 2011 was as follows:

	Three months ended December 31,		Nine months ended December 31,	
	2012	2011	2012	2011
Share-based compensation related to equity classified units:				
Share-based compensation related to stock options	\$2,370,084	2,050,346	4,863,099	3,716,308
Share-based compensation related to restricted stock units	1,012,904	848,506	2,848,405	2,296,183
Total share-based compensation related to equity classified awards	\$3,382,988	2,898,852	7,711,504	6,012,491

NOTE 7 – ACQUISITIONS

The Company evaluates each acquisition to determine if the acquired enterprise meets the definition of a business. Those acquired enterprises that meet the definition of a business are accounted for as a business combination under FASB ASC Topic 805-10 and all other acquisitions are accounted for as asset purchases. All acquisitions have been from independent third parties.

The following table sets forth the acquisition activity of the Company for the nine months ended December 31, 2012 and 2011:

	2012	2011
Number of business combinations	3	1
Number of asset purchases	6	19
Total acquisitions	9	20
Purchase Price	\$1,687,990	3,060,356
Tangible assets:		
Net loans	1,255,798	2,412,286
Furniture, fixtures & equipment	8,000	7,500
	1,263,798	2,419,786
Excess of purchase prices over carrying value of net tangible assets	\$424,192	640,570
Customer lists	173,838	565,570
Non-compete agreements	45,000	75,000
Goodwill	205,354	—
Total intangible assets	\$424,192	640,570

When the acquisition results in a new office, the Company records the transaction as a business combination, since the office acquired will continue to generate loans. The Company typically retains the existing employees and the office location. The purchase price is allocated to the estimated fair value of the tangible assets acquired and to the

estimated fair value of the identified intangible assets acquired (generally non-compete agreements and customer lists). The remainder is allocated to goodwill. During the nine months ended December 31, 2012, three acquisitions were recorded as business combinations.

Table of Contents

When the acquisition is of a portfolio of loans only, the Company records the transaction as an asset purchase. In an asset purchase, no goodwill is recorded. The purchase price is allocated to the estimated fair value of the tangible and intangible assets acquired. There were six acquisitions recorded as asset acquisitions during the nine months ended December 31, 2012.

The Company's acquisitions include tangible assets (generally loans and furniture and equipment) and intangible assets (generally non-compete agreements, customer lists, and goodwill), both of which are recorded at their fair values, which are estimated pursuant to the processes described below.

Acquired loans are valued at the net loan balance. Given the short-term nature of these loans, generally four months, and that these loans are subject to continual repricing at current rates, management believes the net loan balances approximate their fair value.

Furniture and equipment are valued at the specific purchase price as agreed to by both parties at the time of acquisition, which management believes approximates their fair values.

Non-compete agreements are valued at the stated amount paid to the other party for these agreements, which the Company believes approximates the fair value. The fair value of the customer lists is based on a valuation model that utilizes the Company's historical data to estimate the value of any acquired customer lists. In a business combination the remaining excess of the purchase price over the fair value of the tangible assets, customer list, and non-compete agreements is allocated to goodwill. The offices the Company acquires are small privately owned offices, which do not have sufficient historical data to determine attrition. The Company believes that the customers acquired have the same characteristics and perform similarly to its customers. Therefore, the Company utilized the attrition patterns of its customers when developing the method. This method is re-evaluated periodically.

Customer lists are allocated at an office level and are evaluated for impairment at an office level when a triggering event occurs, in accordance with FASB ASC Topic 360-10-5. If a triggering event occurs, the impairment loss to the customer list is generally the remaining unamortized customer list balance. In most acquisitions, the original fair value of the customer list allocated to an office is less than \$100,000, and management believes that in the event a triggering event were to occur, the impairment loss to an unamortized customer list would be immaterial.

The results of all acquisitions have been included in the Company's consolidated financial statements since the respective acquisition dates. The pro forma impact of these purchases as though they had been acquired at the beginning of the periods presented would not have a material effect on the consolidated results of operations as reported.

NOTE 8 – DEBT

On November 19, 2012, the Company entered into a third amendment (the "Third Amendment") to the Amended and Restated Revolving Credit Agreement, originally dated as of September 17, 2010 (as cumulatively amended, the "Revolving Credit Agreement"), among the Company, the lenders and other banks named therein, and Wells Fargo Bank, National Association ("Wells Fargo"), as successor Administrative Agent and successor Collateral Agent.

Among other changes, the Third Amendment amends the Revolving Credit Agreement as follows: extends its term through November 19, 2014; changes the revolving credit commitment amount to up to \$680.0 million; changes the relative commitments of the lenders under the Revolving Credit Agreement; adds an alternate test for the commitment fee that retains the current fee of 0.40% per annum on the unused portion of the commitments unless the unused portion equals or exceeds 55% of the commitments, in which case the fee increases to 0.50% per annum; and modifies various covenants under the Revolving Credit Agreement.

The Company's domestic subsidiaries that are parties to an amended and restated security agreement and an amended and restated guaranty agreement entered in connection with the Revolving Credit Agreement acknowledged and consented to the Third Amendment and confirmed that their obligations under these agreements remain in full force and effect with respect to the Company's obligations after giving effect to the Third Amendment.

The foregoing description of the Third Amendment, including certain terms in this description which are defined in the Revolving Credit Agreement, is qualified in its entirety by the terms of the Amended and Restated Credit Agreement, dated as of September 17, 2010 among the Company, the lenders named therein and Bank of Montreal, as Administrative Agent (now, by amendment, Wells Fargo), filed as Exhibit 10.1 to the Company's Form 8-K filed September 21, 2010, as initially amended by the terms of the first amendment, dated as of August 31, 2011, to the Amended and Restated Credit Agreement, filed as Exhibit 10.1 to the Company's Form 8-K filed September 1, 2011, as further amended by the second amendment, dated as of May 1, 2012, to the Amended and Restated Credit Agreement, which is filed as Exhibit 10.1 to the Company's Form 8-K filed May 1, 2012, and as further amended by the Third Amendment, which is filed as Exhibit 10.1 to the Company's Form 8-K filed November 20, 2012.

Table of Contents

The Company's notes payable consist of a \$680.0 million senior notes payable revolving credit facility with \$492.7 million outstanding at December 31, 2012. Subject to a borrowing base formula, the Company may borrow at the rate of LIBOR plus 3.0% with a minimum of 4.0%. At December 31, 2012 and March 31, 2012, the Company's effective interest rate, including the commitment fee, was 4.3% and 4.4%, respectively, and the unused amount available under the revolver at December 31, 2012 was \$151.7 million. The Company also had \$35.6 million that may become available under the revolving credit facility if it grows the net eligible finance receivables. The revolving credit facility has a commitment fee of 0.40% per annum on the unused portion of the commitment. Borrowings under the revolving credit facility mature on November 19, 2014.

The Company has disclosed the borrowings and payments on senior notes payable in the consolidated statement of cash flows for the nine months ended December 31, 2012 and 2011. The updated disclosure of borrowings and payments for 2011 did not change the total cash provided by the financing activities for the nine month period ended December 31, 2011.

Substantially all of the Company's assets are pledged as collateral for borrowings under the revolving credit agreement.

NOTE 9 – DERIVATIVE FINANCIAL INSTRUMENTS

On December 8, 2008, the Company entered into an interest rate swap with a notional amount of \$20.0 million to economically hedge a portion of the cash flows from its floating rate revolving credit facility. Under the terms of the interest rate swap, the Company paid a fixed rate of 2.4% on the \$20.0 million notional amount and received payments from a counterparty based on the 1 month LIBOR rate for a term that ended December 8, 2011. Interest rate differentials paid or received under the swap agreement were recognized as adjustments to interest expense.

The (losses) gains recognized in the Company's Consolidated Statements of Operations as a result of the interest rate swap were as follows:

	Three months ended December 31, 2011	Nine months ended December 31, 2011
Realized losses		
Interest rate swap - included as a component of interest expense	\$(82,716) (305,459
Unrealized gains		
Interest rate swap- included as a component of other income	\$108,975	319,235

The Company does not enter into derivative financial instruments for trading or speculative purposes. The purpose of this swap was to reduce the exposure to variability in future cash flows attributable to a portion of its LIBOR-based borrowings. The Company did not account for this swap using the cash flow hedge accounting provisions of FASB ASC Topic 815-10-15; therefore, the changes in fair value of the swap was included in earnings as other income or expenses.

By using derivative instruments, the Company is exposed to credit and market risk. Credit risk, which is the risk that a counterparty to a derivative instrument will fail to perform, exists to the extent of the fair value gain in a derivative. Market risk is the adverse effect on the financial instruments from a change in interest rates. The Company manages the market risk associated with interest rate contracts by establishing and monitoring limits as to the types and degree of risk that may be undertaken. The market risk associated with derivatives used for interest rate

risk management activities is fully incorporated in the Company's market risk sensitivity analysis.

Table of Contents

NOTE 10 – INCOME TAXES

The Company is required to assess whether the earnings of our two Mexican foreign subsidiaries, Servicios World Acceptance Corporation de México, S. de R.L. de C.V. (“SWAC”) and WAC de México, S.A. de C.V., SOFOM ENR (“WAC de Mexico”), will be permanently reinvested in the respective foreign jurisdiction or if previously untaxed foreign earnings of the Company will no longer be permanently reinvested and thus become taxable in the United States. If these earnings were ever repatriated to the United States, the Company would be required to accrue and pay taxes on the cumulative undistributed earnings. As of December 31, 2012, the Company has determined that approximately \$0.9 million of cumulative undistributed net earnings of SWAC and approximately \$6.4 million of cumulative undistributed net earnings of WAC de México, as well as the future net earnings and losses of both foreign subsidiaries, will be permanently reinvested.

The Company adopted the provision of FASB ASC Topic 740-10 on April 1, 2007. As of December 31, 2012 and March 31, 2012, the Company had \$3.1 million and \$2.9 million, respectively, of total gross unrecognized tax benefits including interest. Approximately \$1.53 million and \$1.46 million, respectively, represent the amount of net unrecognized tax benefits that are permanent in nature and, if recognized, would affect the annual effective tax rate. At December 31, 2012, approximately \$1.7 million of gross unrecognized tax benefits are expected to be resolved during the next 12 months through the expiration of the statute of limitations and the settlement of state tax liabilities. The Company’s continuing practice is to recognize interest and penalties related to income tax matters in income tax expense. As of December 31, 2012, the Company had \$357,000 accrued for gross interest, of which \$181,000 was a current period end expense.

The Company is subject to U.S. and Mexican income taxes, as well as various other state and local jurisdictions. With few exceptions, the Company is no longer subject to U.S. federal, state and local, or non-U.S. income tax examinations by tax authorities for years before 2009, although carryforward attributes that were generated prior to 2009 may still be adjusted upon examination by the taxing authorities if they either have been or will be used in a future period.

NOTE 11 – LITIGATION

At December 31, 2012, the Company and certain of its subsidiaries have been named as defendants or are otherwise involved in various legal actions and proceedings arising from their normal business activities, including matters in which damages in various amounts are claimed. In view of the inherent difficulty in predicting the outcome of legal matters, particularly where the claimants seek very large or indeterminate damages, the matters present novel legal theories, potentially involve a large number of parties or are in the early stages, the Company generally cannot predict the eventual outcome of these pending matters, nor the timing of the ultimate resolution of such matters or the eventual loss, fines, penalties, settlement or other impact, if any, related to such matters. The Company does not believe, however, that any reasonably possible losses arising from any currently pending legal matters will be material to the Company’s consolidated financial statements.

PART 1. FINANCIAL INFORMATION

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Results of Operations

The following table sets forth certain information derived from the Company's consolidated statements of operations and balance sheets, as well as operating data and ratios, for the periods indicated (unaudited):

	Three months ended December 31,		Nine months ended December 31,		
	2012	2011	2012	2011	
	(Dollars in thousands)				
Average gross loans receivable ¹	\$ 1,124,333	1,003,584	1,063,557	956,723	
Average net loans receivable ²	816,671	733,613	774,896	700,266	
Expenses as a % of total revenue:					
Provision for loan losses	25.0	% 26.6	% 22.1	% 22.7	%
General and administrative	50.0	% 48.7	% 49.8	% 49.1	%
Total interest expense	2.9	% 2.5	% 2.9	% 2.7	%
Operating income ³	25.0	% 24.7	% 28.1	% 28.1	%
Return on average assets (trailing 12 months)	13.0	% 13.4	% 13.0	% 13.4	%
Offices opened or acquired, net	13	12	49	53	
Total offices (at period end)	1,186	1,120	1,186	1,120	

(1) Average gross loans receivable have been determined by averaging month-end gross loans receivable over the indicated period.

(2) Average loans receivable have been determined by averaging month-end gross loans receivable less unearned interest and deferred fees over the indicated period.

(3) Operating income is computed as total revenues less provision for loan losses and general and administrative expenses, as a percentage of total revenues.

Comparison of Three Months Ended December 31, 2012 Versus
Three Months Ended December 31, 2011

Net income increased to \$20.7 million for the three months ended December 31, 2012, or 5.6%, from the three month period ended December 31, 2011. Operating income (revenues less provision for loan losses and general and administrative expenses) increased, approximately \$3.8 million, or 11.4%, interest expense increased by approximately \$1.1 million, or 31.9%, and income tax expense increased by \$1.7 million, or 15.8%.

Table of Contents

Total revenues rose to \$149.6 million during the quarter ended December 31, 2012, a 10.1% increase over the \$135.9 million for the corresponding quarter of the previous year. The Company calculates interest revenue on its loans using the rule of 78s, and recognizes the interest revenue using the collection method, which is a cash method of recognizing the revenue. The Company believes that the combination of these two methods does not differ materially from the effective interest method, which is an accrual method for recognizing the revenue. While we do see substantial fluctuations in the amount of cash collected on a month to month basis depending on the number of business days in a month, these fluctuations generally level off during a given quarter. As discussed in the June 30, 2012 Form 10-Q, management believed a timing issue occurred between the September 30, 2012 quarter and the December 31, 2012 quarter. As expected this shift did occur resulting in a shift of interest and fee revenue, currently estimated to be between \$2.0 and \$2.5 million dollars. The remaining increase was attributable to new offices and an increase in revenues from offices open throughout both quarterly periods. Revenues from the 1,063 offices open throughout both quarterly periods increased by approximately 7.3%. At December 31, 2012, the Company had 1,186 offices in operation, an increase of 49 offices from March 31, 2012.

Interest and fee income for the quarter ended December 31, 2012 increased by \$13.2 million, or 11.3%, over the same period of the prior year. This increase resulted from a \$83.1 million increase, or 11.3%, in average net loans receivable over the two corresponding periods.

Insurance commissions and other income increased by approximately \$500,000, or 2.6%, between the two quarterly periods. Insurance commissions increased by approximately \$852,000, or 6.6%, during the most recent quarter when compared to the prior year quarter due to the increase in loans in those states where credit insurance is sold in conjunction with the loan. Other income decreased by approximately \$357,000, or 6.0%. The decrease was mostly attributed to \$240,000 reduction in Paradata sales revenue and by the Company recognizing a \$109,000 gain on the interest rate swap in the prior year quarter, no similar gain was recognized in the current quarter.

The provision for loan losses during the three months ended December 31, 2012 increased by \$1.3 million, or 3.6% due to an 11.3% increase in average net loans, from the same quarter last year. This increase was offset by a decrease in our net charge-offs as a percentage of average net loans, which decreased from 15.9% to 15.6% (annualized) when comparing the two quarter end periods. Over the last ten years, charge-off ratios during the third fiscal quarter have ranged from a high of 19.6% in fiscal 2008 to a low of 15.6% in fiscal 2006 and fiscal 2013. The percent of loans delinquent 91 days or more as a percent of gross loans also decreased from 1.18% as of December 31, 2011 to 1.13% at December 31, 2012. Since loans 91 days or more past due are reserved 100%, this reduction resulted in a \$650,000 reduction to the provision expense. Accounts that were 61+ days past due decreased from 3.0% to 2.9% of gross loans on a recency basis and remained flat at 4.3% on a contractual basis when comparing the two quarter end statistics.

General and administrative expenses for the quarter ended December 31, 2012 increased by \$8.6 million, or 12.9% over the same quarter of fiscal 2012. Of the total increase, approximately, \$2.0 million related to salary expense, the majority of which was attributable to the year over year increase in our branch network and normal merit increases to employees. In addition, health insurance cost for employees increased approximately \$1.1 million when comparing the two quarterly periods, primarily due to increased claims. Incentives increased approximately \$1.4 million from prior year quarter. In the prior year, estimated incentives were reduced based on projections at that time. A similar reduction to the estimated incentives accruals were not required in the current year. Overall, general and administrative expenses, when divided by average open offices, increased by approximately 6.6% when comparing the two periods. The total general and administrative expense as a percent of total revenues was 50.0% for the three months ended December 31, 2012 and was 48.7% for the three months ended December 31, 2011.

Interest expense increased by approximately \$1.1 million when comparing the two corresponding quarterly periods as a result of a 42.1% increase in the average debt balance, partially offset by a decrease in the effective interest

rate. The effective interest rate decreased from 4.6% to 4.3% during the current quarter.

The Company's effective income tax rate increased to 37.4% for the quarter ended December 31, 2012 compared to 35.3% for the prior year quarter. The increase was primarily due to the recognition of the benefit of state refund claims that resulted in a discrete event in the prior year quarter.

Comparison of Nine Months Ended December 31, 2012 Versus
Nine Months Ended December 31, 2011

Net income increased to \$66.2 million for the nine months ended December 31, 2012, an increase of 5.0%, from the nine months ended December 31, 2011. Operating income increased approximately \$8.3 million, or 7.6%; interest expense increased by 16.2% and income taxes increased by 9.6%.

Table of Contents

Total revenues rose to \$421.9 million during the nine months ended December 31, 2012, a 7.8% increase over the \$391.2 million for the corresponding nine months of the previous year. This increase was attributable to new offices and an increase in revenues from offices open throughout both quarterly periods. Revenues from the 1,063 offices open throughout both nine month periods increased by approximately 5.5%.

Interest and fee income for the nine months ended December 31, 2012 increased by \$26.7 million, or 7.8%, over the same period of the prior year. This increase resulted from a \$74.6 million increase, or 10.7%, in average net loans receivable over the two corresponding periods.

Insurance commissions and other income increased by approximately \$3.9 million, or 7.7%, between the two nine month periods. Insurance commissions increased by approximately \$3.8 million, or 10.7%, during the most recent nine months when compared to the same period in the prior year due to the increase in loans in those states where credit insurance is sold in conjunction with the loan. Other income increased by approximately \$126,000 or 0.8%, over the corresponding nine months.

The provision for loan losses during the nine months ended December 31, 2012 increased by \$4.4 million, or 4.9% due to loan growth, from the same period of the prior year. Accounts that were 61+ days past due decreased slightly from 3.0% to 2.9% of gross loans on a recency basis and remained relatively consistent at 4.3% on a contractual basis when comparing the two quarter end statistics. Net charge-offs as a percentage of average net loans decreased from 14.4% to 14.0% (annualized) when comparing the two nine month periods.

General and administrative expenses for the nine months ended December 31, 2012 increased by \$17.9 million, or 9.3% over the same period of fiscal 2012. Health insurance cost for employees increased approximately \$2.3 million when comparing the two periods, primarily due to increased claims. In addition, equity compensation increased by \$1.7 million associated with the additional cost of the November 2011 grant compared to the November 2010 grant. Overall, general and administrative expenses, when divided by average open offices, increased by approximately 3.3% when comparing the two periods. During the first nine months of fiscal 2013, the Company opened or acquired 49 branches compared to 53 branches opened or acquired in the first nine months of fiscal 2012. The total general and administrative expense as a percent of total revenues increased from 49.1% for the nine months ended December 31, 2011 to 49.8% for the nine months ended December 31, 2012.

Interest expense increased by approximately \$1.7 million when comparing the two corresponding nine month periods as a result of a 43.7% increase in the average debt balance, partially offset by a decrease in the effective interest rate. The effective interest rate decreased from 5.6% to 4.5% during the current nine month period.

The Company's effective income tax rate increased to 37.5% for the nine months ended December 31, 2012 compared to 36.5% for the first nine months of the prior year. The increase was primarily the result of the state refund settlement in the prior year period as described above.

Regulatory Matters

Missouri Ballot Initiative

As previously disclosed, the proponents of a 2012 ballot initiative to limit consumer loan annual interest rates in Missouri to 36% failed to secure inclusion of this initiative on Missouri's November 2012 general election ballot. On November 21, 2012, the proponents filed an identical ballot initiative to have the limitation placed on the November 2014 ballot. The Company, through its state and federal trade associations, is working in opposition to this new ballot initiative; however, it is uncertain whether these efforts will be successful in preventing the initiative from being placed on the November 2014 election ballot or in defeating the initiative if it is ultimately placed on the ballot. As

discussed further in the Company's report on Form 10-K for the fiscal year ended March 31, 2012 and the Company's other reports filed with or furnished to the SEC from time to time, the Company's operations are subject to extensive state and federal laws and regulations, and changes in those laws or regulations or their application could have a material adverse effect on the Company's business, results of operations, prospects or ability to continue operations in the jurisdictions affected by these changes. See Part I, Item 1, "Description of Business-Government Regulation" and Part I, Item 1A, "Risk Factors" in the Company's report on Form 10-K for the fiscal year ended March 31, 2012 for more information regarding these regulations and related risks and the Company's Form 8-K filed August 2, 2012 for more information regarding the potential impact of adoption of such a ballot initiative in Missouri.

Table of Contents

Canning v. National Labor Relations Board

The D.C. Circuit issued its decision in the case of Canning v. National Labor Relations Board on January 25, 2013, which invalidated the President's appointment of three members to the NLRB on grounds that the appointments pursuant to the exercise of his "recess appointment" authority were unconstitutional under the circumstances.

The President similarly appointed Richard Cordray as the first Director of the CFPB pursuant to his recess appointment authority at approximately the same time as the NLRB appointments. Mr. Cordray's appointment is similarly being challenged in the D.C. District Court.

The CFPB was not a party to the Canning decision, and Mr. Cordray's appointment was not directly affected by that decision. It is also possible that the Canning decision will be appealed to the U.S. Supreme Court, which could overturn or modify the Canning decision or interpretation of the President's recess appointment authority. However, if Mr. Cordray's appointment is invalidated or his authority remains clouded because of this issue, it may affect our industry, as the operational authorities of the CFPB, which are set forth in Title X of the Dodd-Frank Act, distinguish between certain powers which were exercisable prior to the appointment of a Director and those which are exercisable only when the CFPB has a Director.

One of the CFPB powers which requires a Director is supervising non-depository institutions pursuant to the provisions of Section 1024 of the Dodd-Frank Act, which includes the authority to: (i) prescribe rules defining the scope of non-depository institutions subject to CFPB's supervision; (ii) prescribe rules establishing recordkeeping requirements that CFPB determines are needed to facilitate non-depository supervision; and (iii) conduct examinations of non-depository institutions.

We are a non-depository institution, as described in the Dodd-Frank Act, and it is unclear how the recent Canning ruling or pending action to invalidate Mr. Cordray's appointment will affect our industry and if we will be supervised by the CFPB until the recess appointment issue is resolved.

Critical Accounting Policies

The Company's accounting and reporting policies are in accordance with U. S. GAAP and conform to general practices within the finance company industry. Certain accounting policies involve significant judgment by the Company's management, including the use of estimates and assumptions which affect the reported amounts of assets, liabilities, revenues, and expenses. As a result, changes in these estimates and assumptions could significantly affect the Company's financial position and results of operations. The Company considers its policies regarding the allowance for loan losses, share-based compensation and income taxes to be its most critical accounting policies due to the significant degree of management judgment involved.

Allowance for Loan Losses

The Company has developed policies and procedures for assessing the adequacy of the allowance for loan losses that take into consideration various assumptions and estimates with respect to the loan portfolio. The Company's assumptions and estimates may be affected in the future by changes in economic conditions, among other factors. Additional information concerning the allowance for loan losses is discussed under "Management's Discussion and Analysis of Financial Conditions and Results of Operations - Credit Quality" in the Company's report on Form 10-K for the fiscal year ended March 31, 2012.

Share-Based Compensation

The Company measures compensation cost for share-based awards at fair value and recognizes compensation over the service period for awards expected to vest. The fair value of restricted stock is based on the number of shares granted and the quoted price of the Company's common stock, and the fair value of stock options is determined using the Black-Scholes valuation model. The Black-Scholes model requires the input of highly subjective assumptions, including expected volatility, risk-free interest rate and expected life, changes to which can materially affect the fair value estimate. In addition, the estimation of share-based awards that will ultimately vest requires judgment, and to the extent actual results or updated estimates differ from the Company's current estimates, such amounts will be recorded as a cumulative adjustment in the period estimates are revised. The Company considers many factors when estimating expected forfeitures, including types of awards and historical experience. Actual results, and future changes in estimates, may differ substantially from the Company's current estimates.

Table of Contents

Income Taxes

Management uses certain assumptions and estimates in determining income taxes payable or refundable, deferred income tax liabilities and assets for events recognized differently in its financial statements and income tax returns, and income tax expense. Determining these amounts requires analysis of certain transactions and interpretation of tax laws and regulations. Management exercises considerable judgment in evaluating the amount and timing of recognition of the resulting income tax liabilities and assets. These judgments and estimates are re-evaluated on a periodic basis as regulatory and business factors change.

No assurance can be given that either the tax returns submitted by management or the income tax reported on the Consolidated Financial Statements will not be adjusted by either adverse rulings by the U.S. Tax Court, changes in the tax code, or assessments made by the Internal Revenue Service ("IRS"), state taxing authorities, or Mexico taxing authorities. The Company is subject to potential adverse adjustments, including but not limited to: an increase in the statutory federal or state income tax rates, the permanent non-deductibility of amounts currently considered deductible either now or in future periods, and the dependency on the generation of future taxable income, including capital gains, in order to ultimately realize deferred income tax assets.

The Company adopted FASB ASC Topic 740 on April 1, 2007. Under FASB ASC Topic 740, the Company will include the current and deferred tax impact of its tax positions in the financial statements when it is more likely than not (likelihood of greater than 50%) that such positions will be sustained by taxing authorities, with full knowledge of relevant information, based on the technical merits of the tax position. While the Company supports its tax positions by unambiguous tax law, prior experience with the taxing authority, and analysis of what it considers to be all relevant facts, circumstances and regulations, management must still rely on assumptions and estimates to determine the overall likelihood of success and proper quantification of a given tax position.

Liquidity and Capital Resources

The Company has financed and continues to finance its operations, acquisitions and office expansion through a combination of cash flows from operations and borrowings from its institutional lenders. The Company has generally applied its cash flows from operations to fund its increasing loan volume, fund acquisitions, repay long-term indebtedness, and repurchase its common stock. As the Company's gross loans receivable increased from \$671.2 million at March 31, 2009 to \$972.7 million at March 31, 2012, net cash provided by operating activities for fiscal years 2012, 2011 and 2010 was \$219.4 million, \$199.8 million and \$183.6 million, respectively.

The Company believes stock repurchases to be a viable component of the Company's long-term financial strategy and an excellent use of excess cash when the opportunity arises. Subject to appropriate authorizations, the Company may use a substantial portion of recent and any future increases under its revolving credit facility (described further below) to fund additional stock repurchases. As of February 6, 2013, the Company has \$11.0 million in aggregate remaining repurchase capacity under all of the Company's outstanding stock repurchase authorizations.

The Company plans to open or acquire at least 50 branches in the United States and 10 branches in Mexico during fiscal 2013. Expenditures by the Company to open and furnish new offices averaged approximately \$25,000 per office during fiscal 2012. New offices have also required from \$100,000 to \$400,000 to fund outstanding loans receivable originated during their first 12 months of operation.

The Company acquired nine loan portfolios during the first nine months of fiscal 2013. Gross loans receivable purchased in these transactions were approximately \$1.6 million in the aggregate at the date of purchase. The Company believes that attractive opportunities to acquire new offices or receivables from its competitors or to acquire offices in communities not currently served by the Company will continue to become available as conditions in local

economies and the financial circumstances of owners change.

The Company has a \$680.0 million base credit facility with a syndicate of banks. The credit facility will expire on November 19, 2014. Funds borrowed under the revolving credit facility bear interest at the LIBOR rate plus 3.0% per annum with a minimum 4.0% interest rate. During the nine months ended, December 31, 2012, the effective interest rate, including the commitment fee, on borrowings under the revolving credit facility was 4.3%. The Company pays a commitment fee equal to 0.40% per annum of the daily unused portion of the commitments unless the unused portion equals or exceeds 55% of the commitments, in which case the fee increases to 0.50% per annum. Amounts outstanding under the revolving credit facility may not exceed specified percentages of eligible loans receivable. On December 31, 2012, \$492.7 million was outstanding under this facility, and there was \$151.7 million of unused borrowing availability under the borrowing base limitations. The Company also has \$35.6 million that may become available under the revolving credit facility if it grows the net eligible finance receivables.

Table of Contents

The Company's credit agreements contain a number of financial covenants, including minimum net worth and fixed charge coverage requirements. The credit agreements also contain certain other covenants, including covenants that impose limitations on the Company with respect to (i) declaring or paying dividends or making distributions on or acquiring common or preferred stock or warrants or options; (ii) redeeming or purchasing or prepaying principal or interest on subordinated debt; (iii) incurring additional indebtedness; and (iv) entering into a merger, consolidation or sale of substantial assets or subsidiaries. The Company believes that it was in compliance with these agreements as of December 31, 2012, and does not believe that these agreements will materially limit its business and expansion strategy.

The Company believes that cash flow from operations and borrowings under its revolving credit facility or other sources will be adequate to fund the expected cost of opening or acquiring new offices, including funding initial operating losses of new offices and funding loans receivable originated by those offices and the Company's other offices and the scheduled repayment of the other notes payable (for the next 12 months and for the foreseeable future beyond that). Except as otherwise discussed in this report and in Part 1, Item 1A, "Risk Factors" in the Company's Form 10-K for the year ended March 31, 2012 (as supplemented by any subsequent disclosures in information the Company files with or furnishes to the SEC from time to time, including, but not limited to, any disclosures in Part II, Item 1A, "Risk Factors" in any of the Company's Forms 10-Q for quarters ended during fiscal 2013), management is not currently aware of any trends, demands, commitments, events or uncertainties that it believes will or could result in, or are or could be reasonably likely to result in, the Company's liquidity increasing or decreasing in any material way. From time to time, the Company has needed and obtained, and expects that it will continue to need on a periodic basis, an increase in the borrowing limits under its revolving credit facility. The Company has successfully obtained such increases in the past and anticipates that it will be able to do so in the future as the need arises; however, there can be no assurance that this additional funding will be available (or available on reasonable terms) if and when needed.

Share Repurchase Program

The Company's long term profitability has demonstrated over many years our ability to grow our loan portfolio (the Company's only earning asset) and generate excess cash flow. We have and will continue to use our cash flow and excess capital to repurchase shares, assuming that the repurchased shares are accretive to earnings per share, which should provide better returns for shareholders in the future. We prefer share repurchases to dividends for several reasons. First, repurchasing shares should increase the value of the remaining shares. Second, repurchasing shares as opposed to dividends provides shareholders the option to defer taxes by electing to not sell any of their holdings. Finally, repurchasing shares provides shareholders with maximum flexibility to increase, maintain or decrease their ownership depending on their view of the value of the Company's shares, whereas a dividend does not provide this flexibility.

Since 1996, the Company has repurchased approximately 14.3 million shares for an aggregate purchase price of approximately \$524.7 million. As of December 31, 2012 our debt outstanding was \$492.7 million and our shareholders' equity was \$359.5 million resulting in a debt-to-equity ratio of 1.37:1. Our first priority is to ensure we have enough capital to fund loan growth. To the extent we have excess capital we intend to continue repurchasing stock, as authorized by our Board of Directors, which is consistent with our past practice. We will continue to monitor on our debt to equity ratio and are committed to maintaining a debt level that will allow us to continue to execute on our business objectives, while not putting undue stress on our balance sheet.

Historically, management has filed a Form 8-K with the Securities and Exchange Commission to announce any new authorization the Board of Directors has given regarding stock repurchases. Management plans to continue to make filings with the Securities and Exchange Commission or otherwise publicly announce future stock repurchase authorizations. When we have Board authorization to repurchase shares, we have historically repurchased shares in the open market and in accordance with applicable regulations regarding company repurchase programs and our own self-imposed trading policies. As mentioned above, when we have excess capital and the market price of our stock is trading at a level that is accretive to earnings per share, we anticipate that we will continue to repurchase shares.

Inflation

The Company does not believe that inflation, within reasonably anticipated rates, will have a material adverse effect on its financial condition. Although inflation would increase the Company's operating costs in absolute terms, the Company expects that the same decrease in the value of money would result in an increase in the size of loans demanded by its customer base. It is reasonable to anticipate that such a change in customer preference would result in an increase in total loan receivables and an increase in absolute revenues to be generated from that larger amount of loans receivable. That increase in absolute revenues should offset any increase in operating costs. In addition, because the Company's loans are relatively short in both contractual term and average life, it is unlikely that loans made at any given point in time will be repaid with significantly inflated dollars.

Table of Contents

Quarterly Information and Seasonality

The Company's loan volume and corresponding loans receivable follow seasonal trends. The Company's highest loan demand occurs each year from October through December, its third fiscal quarter. Loan demand is generally the lowest and loan repayment is highest from January to March, its fourth fiscal quarter. Loan volume and average balances remain relatively level during the remainder of the year. This seasonal trend causes fluctuations in the Company's cash needs and quarterly operating performance through corresponding fluctuations in interest and fee income and insurance commissions earned, since unearned interest and insurance income are accreted to income on a collection method. Consequently, operating results for the Company's third fiscal quarter are significantly lower than in other quarters and operating results for its fourth fiscal quarter are generally higher than in other quarters.

Recently Adopted Accounting Pronouncements

See Note 2 to our accompanying unaudited Consolidated Financial Statements.

Forward-Looking Information

This report on Form 10-Q, including “Management’s Discussion and Analysis of Financial Condition and Results of Operations,” contains various “forward-looking statements,” within the meaning of Section 21E of the Securities Exchange Act of 1934, that are based on management’s belief and assumptions, as well as information currently available to management. Statements other than those of historical fact, as well as those identified by the words “anticipate,” “estimate,” “intend,” “plan,” “expect,” “believe,” “may,” “will,” and “should” any variation of the foregoing and expressions are forward-looking statements. Although the Company believes that the expectations reflected in any such forward-looking statements are reasonable, it can give no assurance that such expectations will prove to be correct. Any such statements are subject to certain risks, uncertainties and assumptions. Should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, the Company’s actual financial results, performance or financial condition may vary materially from those anticipated, estimated or expected. Among the key factors that could cause the Company’s actual financial results, performance or condition to differ from the expectations expressed or implied in such forward-looking statements are the following: recently enacted, proposed or future legislation and the manner in which it is implemented; the nature and scope of regulatory authority, particularly discretionary authority, that may be exercised by regulators having jurisdiction over the Company’s business or consumer financial transactions generically; changes in interest rates; risks related to expansion and foreign operations; risks inherent in making loans, including repayment risks and value of collateral; the timing and amount of revenues that may be recognized by the Company; changes in current revenue and expense trends (including trends affecting delinquencies and charge-offs); changes in the Company’s markets and general changes in the economy (particularly in the markets served by the Company); the unpredictable nature of litigation; and other matters discussed in this report and in Part I, Item 1A, “Risk Factors” in the Company’s most recent annual report on Form 10-K filed with the Securities and Exchange Commission (“SEC”) and the Company’s other reports filed with, or furnished to, the SEC from time to time. The Company does not undertake any obligation to update any forward-looking statements it makes.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

Interest Rate Risk

The Company’s financial instruments consist of the following: cash and cash equivalents, loans receivable and senior notes payable. Fair value approximates carrying value for all of these instruments. Loans receivable are originated at

prevailing market rates and have an average life of approximately four months. Given the short-term nature of these loans, they are continually repriced at current market rates. The Company's outstanding debt under its revolving credit facility was \$492.7 million at December 31, 2012. At December 31, 2012, interest on borrowings under this facility was based on LIBOR plus 3.0%, with a minimum of 4.0% per annum.

Based on the outstanding balance at December 31, 2012, a change of 1.0% in the interest rates would cause a change in interest expense of approximately \$1.0 million on an annual basis.

Table of Contents

Foreign Currency Exchange Rate Risk

In September 2005 the Company began opening offices in Mexico, where its local businesses utilize the Mexican peso as their functional currency. The consolidated financial statements of the Company are denominated in U.S. dollars and are therefore subject to fluctuation as the U.S. dollar and Mexican peso foreign exchange rates change. International revenues from our non-U.S. operations accounted for approximately 7.1% and 6.8% of total revenues during the nine months ended December 31, 2012 and 2011, respectively. There have been, and there may continue to be, period-to-period fluctuations in the relative portions of our international revenues to total consolidated revenues.

Our international operations are subject to risks, including but not limited to differing economic conditions, changes in political climate, social unrest, differing tax structures, other regulations and restrictions, and foreign exchange rate volatility. Accordingly, our future consolidated financial position as well as our consolidated results of operations results could be adversely affected by changes in these or other factors. Foreign exchange rate fluctuations may adversely impact our financial position as the assets and liabilities of our foreign operations are translated into U.S. dollars in preparing our consolidated balance sheet. Our exposure to foreign exchange rate fluctuations arises in part from balances in our intercompany accounts included on our subsidiary balance sheets. These intercompany accounts are denominated in the functional currency of the foreign subsidiaries and are translated to U.S. dollars at each reporting period end. Additionally, foreign exchange rate fluctuations may impact our consolidated results from operations as exchange rate fluctuations will impact the amounts reported in our consolidated statement of income. The effect of foreign exchange rate fluctuations on our consolidated financial position is recognized within shareholders' equity through accumulated other comprehensive income (loss). The net translation adjustment for the nine months ended December 31, 2012 was a loss of approximately \$0.7 million. The Company's foreign currency exchange rate exposures may change over time as business practices evolve and could have a material effect on the Company's financial results. The Company will continue to monitor and assess the effect of foreign currency fluctuations and may institute hedging strategies.

The Company performs a foreign exchange sensitivity analysis on a quarterly basis which assumes a hypothetical 10% increase and decrease in the value of the U.S. dollar relative to the Mexican peso. The foreign exchange risk sensitivity of both net loans receivable and consolidated net income is assessed using hypothetical scenarios and assumes that earnings in Mexican pesos are recognized evenly throughout a period. The actual results may differ from the results noted in the tables below particularly due to assumptions utilized or if events occur that were not included in the methodology.

The foreign exchange risk sensitivity of net loans denominated in Mexican pesos and translated into US dollars, which were approximately \$38.8 million and \$32.4 million at December 31, 2012 and 2011, respectively, on the reported net loans receivable amount is summarized in the following table:

Foreign Exchange Sensitivity Analysis of Loans Receivable, Net of Unearned Amounts

For the period ended December 31, 2012

Foreign exchange spot rate, U.S. dollars to Mexican pesos	-10%	0%	10%	
Loans receivable, net of unearned	\$788,639,560	\$792,170,610	\$796,486,332	
% change from base amount	(0.45)%	—	% 0.54
\$ change from base amount	\$(3,531,050)	\$—	\$4,315,722

For the period ended December 31, 2011

Foreign exchange spot rate, U.S. dollars to Mexican pesos	-10%	0%	10%	
Loans receivable, net of unearned	\$775,286,848	778,229,305	\$781,825,381	
% change from base amount	(0.38)%	—	% 0.46

\$ change from base amount	\$(2,942,457)	\$—	\$3,596,076

Table of Contents

The following table summarizes the results of the foreign exchange risk sensitivity analysis on reported net income as of the dates indicated below:

Foreign Exchange Sensitivity Analysis of Net Income

	For the nine months ended December 31, 2012			
Foreign exchange spot rate, U.S. dollars to Mexican pesos	-10%	0%	10%	
Net Income	\$65,973,675	\$66,190,438	\$66,455,372	
% change from base amount	(0.33)% —	% 0.40	%
\$ change from base amount	\$(216,763)	\$0	\$264,934	
	For the nine months ended December 31, 2011			
Foreign exchange spot rate, U.S. dollars to Mexican pesos	-10%	0%	10%	
Net Income	\$62,841,058	\$63,067,857	\$63,345,055	
% change from base amount	(0.36)% —	% 0.44	%
\$ change from base amount	\$(226,799)	\$0	\$277,198	

Item 4. Controls and Procedures

An evaluation was carried out under the supervision and with the participation of the Company's management, including its Chief Executive Officer ("CEO") and Chief Financial Officer ("CFO"), of the effectiveness of the Company's disclosure controls and procedures as of December 31, 2012. Based on that evaluation, the Company's management, including the CEO and CFO, has concluded that the Company's disclosure controls and procedures are effective as of December 31, 2012. During the third quarter of fiscal 2013, there was no change in the Company's internal control over financial reporting that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

From time to time the Company is involved in routine litigation relating to claims arising out of its operations in the normal course of business. While the outcome of litigation is by its nature uncertain, based on current knowledge the Company does not believe that it is presently a party to any such pending legal proceedings that would have a material adverse effect on its financial condition. See Note 11 of the unaudited consolidated financial statements.

Item 1A. Risk Factors

There have been no material changes to the risk factors previously disclosed under Part I, Item 1A of the Company's Annual Report on Form 10-K for the year ended March 31, 2012.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

The Company's credit agreements contain certain restrictions on the payment of cash dividends on its capital stock. See "Management's Discussion and Analysis of Financial Condition and Results of Operations – Liquidity and Capital Resources."

On November 19, 2012, the Board of Directors authorized the Company to repurchase up to \$75 million of the Company's common stock. This repurchase authorization follows, and is in addition to, similar repurchase authorizations of \$25 million announced on August 2, 2012 and June 11, 2012. After taking into account all shares repurchased through February 6, 2013, the Company has \$11.0 million in aggregate remaining repurchase capacity under all of the Company's outstanding repurchase authorizations. The timing and actual number of shares repurchased will depend on a variety of factors, including the stock price, corporate and regulatory requirements and other market and economic conditions. Although the repurchase authorizations above have no stated expiration date, the Company's stock repurchase program may be suspended or discontinued at any time. The following table provides information with respect to purchases made by the Company of shares of the Company's common stock during the three months ended December 31, 2012:

	Total Number of Shares Purchased	Average Price Paid per Share	Total Dollar Value of Shares Purchased as part of Publicly Announced Plans or Programs	Approximate Dollar Value of Shares That May Yet be Purchased Under the Plans or Programs	
October 1 through October 31, 2012	—	\$—	—	\$25,281,661	
November 1 through November 30, 2012	327,730	67.91	22,255,991	78,025,671	*
December 1 through December 31, 2012	596,207	73.17	43,623,724	34,401,946	
Total for the quarter	923,937	71.30	65,879,715		

*On November 19, 2012, the Board of Directors authorized the Company to repurchase up to \$75 million of the Company's common stock. This repurchase authorization follows, and is in addition to, similar repurchase authorizations of \$25 million announced on August 2, 2012 and June 11, 2012..

Item 5 .Other Information

None.
