**Item 2.02      DISCLOSURE OF RESULTS OF OPERATIONS AND FINANCIAL CONDITION**

On January 17, 2008, the registrant issued a news release announcing the impact of its asbestos reserve study and providing preliminary indications for its fourth quarter and full year 2007 results. A copy of that news release is furnished herewith as Exhibit 99.1 and is incorporated herein by reference.

The news release furnished herewith contains information regarding the registrant's after-tax operating income. After-tax operating income differs from net income, the most directly comparable generally accepted accounting principle financial measure, only by the exclusion of after-tax net realized capital gains and losses on investments. Management believes that presentation of after-tax operating income provides useful information to investors because it more accurately measures and predicts the registrant's results of operations by removing the variability arising from the management of the registrant's investment portfolio. In addition, management, analysts and investors use after-tax operating income to evaluate the financial performance of the registrant and the insurance industry in general.
