The Plan Administrator and Participants

ADC Telecommunications, Inc. Retirement Savings Plan

We have audited the accompanying statement of net assets available for benefits of ADC Telecommunications, Inc. Retirement Savings Plan as of December 31, 2002, and the related statement of changes in net assets available for benefits for the year then ended. These financial statements and schedule are the responsibility of the Plan's management.

We conducted our audit in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2002, and the changes in its net assets available for benefits for the year then ended, in conformity with accounting principles generally accepted in the United States.

Our audit was performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2002 is presented for purposes of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated in all material respects, in relation to the basic financial statements taken as a whole.

ADC Telecommunications, Inc. Retirement Savings Plan

Notes to Financial Statements

December 31, 2002

1. Plan Description

General

ADC Telecommunications, Inc. Retirement Savings Plan (the Plan) is a defined contribution plan covering substantially all domestic salaried employees of ADC Telecommunications, Inc. (ADC or the Company). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The following is not a comprehensive description of the Plan and, therefore, does not include all situations and limitations covered by the Plan. Participants should refer to the plan document for more complete information.

Plan Operations

American Express Trust Company (the Trustee) is the trustee and record-keeper of the Plan. ADC Telecommunications, Inc. is the plan sponsor. The Trustee is responsible for holding investment assets of the Plan, executing investment transactions, and making disbursements to participants. All audit, legal, and plan administrative-related expenses are paid by the Company except for investment management fees which are netted against investment income. During 2002 and 2001, the Company paid \$97,451 and \$114,166, respectively, in expenses related to the Plan.

Eligibility

Employees in recognized employment, as defined, may contribute to the Plan immediately. Company contributions commence following one year of service, as defined by the Plan.

Contributions and Vesting

Edgar Filing: ADC TELECOMMUNICATIONS INC - Form 11-K

Under the provisions of the Plan, participants may elect to make contributions from 1% to 25% of their pretax earnings (1% to 15% prior to July 1, 2002). The Company matches 100% of an eligible participant's contributions up to the first 6% of eligible compensation. The Company may also make performance match contributions. Amounts credited to the accounts of participants for employer or employee contributions are fully vested.

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) plan earnings and is charged with an allocation of investment management fees. Allocations are based on participant earnings on account balances, as defined. The Company's matching contribution and performance contribution (if paid) are paid in cash and subsequently invested as directed by the participant. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Distributions

Those participants whose employment terminates due to retirement, death, disability, or other reasons are entitled to a lump-sum distribution of a benefit equal to the amount credited to their account.

Participant Loans

A participant may obtain a loan generally up to the lesser of one half of the participant's account balance or \$50,000. The loan must be repaid with interest at 1% above the prime rate over a maximum of 15 years. Participants repay loans through payroll deductions.

As participant loan repayments are received, they are immediately invested in the investment fund(s) in accordance with that participant's investment allocation election.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and terminate the Plan, subject to the provisions set forth in ERISA. In the event of termination, the participants shall receive 100% of their account balances.

2. Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Valuation of Investments

Investments are recorded at fair value. Common stock and mutual fund values are determined using quoted market prices. Common/collective funds are valued by the trustee based on the values of the underlying investments. The participant loans are valued at their outstanding balances, which approximate fair value. Changes in the fair value of investments between years are included in net realized/unrealized depreciation in fair value of investments in the accompanying Statements of Changes in Net Assets Available for Benefits. Purchases and sales of securities are recorded on a trade-date basis.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States requires management to make estimates that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

3. Investments

Upon enrollment in the Plan, a participant may direct employee contributions in any of 13 investment options.

Investment securities, in general, are exposed to risks such as interest rate, credit, and overall volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term. Such changes could materially affect the amounts reported in the participant account balances and statements of net assets available for benefits.

Edgar Filing: ADC TELECOMMUNICATIONS INC - Form 11-K
