MARINER ENERGY INC Form 425 November 03, 2005

Filed by Forest Oil Corporation

Pursuant to Rule 425 under the Securities Act of 1933

Subject Company: Mariner Energy, Inc.

File No. 333-129096

These materials are not a substitute for the registration statement that was filed with the Securities and Exchange Commission in connection with the transaction, or the proxy statement/prospectus-information statement to be mailed to stockholders. The registration statement has not yet been declared effective. Investors are urged to read the proxy statement/prospectus-information statement which will contain important information, including detailed risk factors, when it becomes available. The proxy statement/prospectus-information statement and other documents that will be filed by Forest and Mariner with the Securities and Exchange Commission will be available free of charge at the SEC s website, www.sec.gov, or by directing a request when such a filing is made to Forest Oil Corporation, 707 17th Street, Suite 3600, Denver, CO 80202, Attention: Investor Relations; or by directing a request when such a filing is made to Mariner Energy, Inc., 2101 CityWest Blvd., Bldg. 4, Ste. 900, Houston, TX 77042-2831, Attention: Investor Relations.

Mariner, Forest and their respective directors, and executive officers may be considered participants in the solicitation of proxies in connection with the proposed transaction. Information about the participants in the solicitation will be set forth in the proxy statement/prospectus-information statement when it becomes available.

					November 3, 2005

### THE NEW FST Operations Spin-Off Drives Value

Innovative transaction provides new optionality and returns value directly to Forest s shareholders

Opportunistic tax-free spin / merge of offshore Gulf operations creates two highly focused and valuable enterprises

Investment in Mariner Energy creates high quality, well positioned GOM independent with excellent track record and growth outlook

Remaining Forest creates highly-focused onshore resource company to execute a more focused acquire and exploit strategy

Forest s portfolio of long-life, concentrated assets in high quality basins provides a foundation for sustainable organic growth

STREAMLINED ASSET BASE, IMPROVED FOCUS AND
BETTER POSITIONED FOR GROWTH

[LOGO]

#### **KEY TRANSACTION TERMS**

**Asset Contribution** 344 Bcfe of Forest offshore proved reserves (12/31/04)

\$200 Million of debt

Liability Contribution \$50 Million of derivatives at 6/30/2005

\$157 Million of ARO

Tax-free Reverse Morris Trust transaction

Structure Spin-off of offshore Gulf of Mexico operations

Stock-for-stock merger of SpinCo and Mariner

Mariner Equity 58.2% Forest shareholders
Ownership 41.8% Mariner shareholders

Mariner Management & Scott D. Josey, Chairman & CEO

Governance 7 member board

2 members to be mutually agreed by Forest and Mariner

Q4 2005 / Q1 2006 (economic effective date of July 1, 2005)\*

**Expected Close** Forest and Mariner shareholders will each own freely tradable registered stock in

Mariner upon closing

3

<sup>\*</sup> Subject to Mariner shareholder vote and SEC registration requirements and Forest bondholder consent

#### FOCUSED STRATEGY

Critical mass in core areas

#### 4 Point Philosophy

1.	Leadership
	Superb technical talent pool
	Deep managerial bench
	Proven acquiror
2.	Strategies
	Sustainable growth at high returns
	Intense focus on costs
3.	Discipline
	Rigorous evaluation criteria
	Capital budget adherence
4.	Focus
	Focused onshore portfolio

# Revised 4 Point Strategy

1.	Grow organically
	12% prod. growth in 2006 (10% organic)  Exploit new portfolio and resource plays
2.	Identify attractive acquisition opportunities
	Strong track record and momentum  Target prospect rich opportunities supported by land  Tax-efficient acquiror (\$706 MM NOLs)
3.	Reduce costs
	Cost control in all areas
4.	Preserve financial flexibility
	Strong free cash flow profile  Remain in targeted Net Debt / Book Cap range of 30% - 40%

#### AND COMPELLING INVESTOR APPEAL

#### Uniquely positioned mid-cap with critical mass in multiple high quality basins

Extensive drilling inventory in Texas Panhandle / Mid-Continent area

Large scale Permian footprint and Haley Atoka exposure

High quality Alberta Plains and Canadian Foothills inventory

Significant Rockies acreage position

High impact Onshore Louisiana and Texas exploration

Significant acreage in developing Alaska gas

#### Well-balanced resource play with visible organic growth profile

Extensive exploitation inventory; over 2,350 projects

Attractive exploration upside; 7.1 million net undeveloped acres

# Successful acquisition and exploitation track record fueling steady replenishment of drilling opportunities

In excess of \$1 billion in strategic acquisitions over last 2 years adding 681 Bcfe at an all-in cost of \$1.51 / Mcfe

#### Demonstrated ability to be disciplined with capital spending

Excellent tax loss carryforward position (US \$466 MM and Canada \$240 MM)

# SUSTAINABLE GROWTH PROFILE

[CHART]

# EXTENSIVE PROSPECT INVENTORY

Key Growth Platforms	Project Inventory	Net Reserve Potential (Bcfe)
Buffalo Wallow (Texas Panhandle) From 40 to 20-acre spacing	362	396

#### THE NEW FST Summary of Opportunity

Unlocks intrinsic shareholder value in a tax efficient manner and clarifies the value proposition

Intensifies focus on two discreet asset bases, each with critical mass and competitive advantage

Integrates offshore portfolio into high growth vehicle with deepwater exploration potential

Unleashes Forest s management to aggressively execute the onshore resource-focused growth strategy

#### **Value Proposition**

Public valuations and M&A transactions support values of \$2.86 per proved reserve and \$13,370 per flowing Mcfe/d for remaining Forest

Public valuations and M&A transactions support values of \$3.59 per proved reserve and \$9,938 per flowing Mcfe/d for Mariner/Spinco

# **EBITDA Reconciliation**

	1H05
EBITDA	77.5
Changes in working capital	(14.9)
Non-cash hedge gain	(2.5)
Amortization/other	0.6
Stock compensation exp.	9.5
Net interest expense	(3.0)
Income tax benefit	5.5
Net cash provided by operating activities	72.7

#### **CAUTIONARY STATEMENTS**

The United States Securities and Exchange Commission permits oil and gas companies, in their filings with the SEC, to disclose only proved reserves that a company has demonstrated by actual production or conclusive formation tests to be economically and legally producible under existing economic and operating conditions. We use the terms probable and possible reserves, reserve potential or upside or other descriptions of volumes of reserves potentially recoverable through additional drilling or recovery techniques that the SEC s guidelines strictly prohibit Forest from including in filings with the SEC. These estimates are by their nature more speculative than estimates of proved reserves and accordingly are subject to substantially greater risk of being actually realized by us. Investors are urged to consider closely the disclosure in Forest s Form 10-K for fiscal year ended December 31, 2004, available from Forest at 707 17th Street, Suite 3600, Denver, CO 80202, Attention: Investor Relations. You can also obtain this form from the SEC by calling 1-800-SEC-0330.

This presentation includes forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. All statements, other than statements of historical facts, that address activities that Forest and Mariner assumes, plans, expects, believes, projects, estimates or anticipates (and other similar expressions) will, should or may occur in the future are forward-looking statements. The forward-looking statements provided in this presentation are based on management s current belief, based on currently available information, as to the outcome and timing of future events. Forest and Mariner cautions that their future natural gas and liquids production, revenues and expenses and other forward-looking statements are subject to all of the risks and uncertainties normally incident to the exploration for and development and production and sale of oil and gas. These risks include, but are not limited to, price volatility, inflation or lack of availability of goods and services, environmental risks, drilling and other operating risks, regulatory changes, the uncertainty inherent in estimating future oil and gas production or reserves, and other risks as described in Forest s 2004 Annual Report on Form 10-K as filed with the Securities and Exchange Commission. Also, the financial results of Forest s foreign operations are subject to currency exchange rate risks. Any of these factors could cause Forest s or Mariner s actual results and plans to differ materially from those in the forward-looking statements.

This material is not a substitute for the registration statement on Form S-4 that Mariner will file with the Securities and Exchange Commission in connection with the transaction, or the proxy statement/prospectus-information statement to be mailed to stockholders. Investors are urged to read the proxy statement/prospectus-information statement which will contain important information, including detailed risk factors, when it becomes available. The proxy statement/prospectus-information statement and other documents that will be filed by Forest and Mariner with the Securities and Exchange Commission will be available free of charge at the SEC s website or by directing a request when such a filing is made to Forest Oil Corporation, 707 17th Street, Suite 3600, Denver, CO 80202, Attention: Investor Relations; or by directing a request when such a filing is made to Mariner Energy, Inc., 2101 CityWest Blvd., Bldg. 4, Ste. 900, Houston, TX 77042-2831, Attention: Investor Relations.

Mariner, Forest and their respective directors, and executive officers may be considered participants in the solicitation of proxies in connection with the proposed transaction. Information about the participants in the solicitation will be set forth in the proxy statement/prospectus-information statement when it becomes available.
