Item 1.01.

Entry into a Material Definitive Agreement.

On December 31, 2005, the Board of Directors of BIO-key International, Inc. (the "Company") approved the acceleration of vesting of certain of the outstanding options to purchase shares of the Company's common stock with option exercise prices greater than the fair market value of the Company's common stock on such date. The acceleration applies to all such options outstanding as of December 31, 2005 under the Company's 1996 Stock Option Plan, 1999 Stock Option Plan and 2004 Stock Option Plan, except for options held by the Company's executive officers subject to Section 16(b) of the Securities Exchange Act of 1934, as amended, and the members of the Company's Board of Directors. Options to purchase up to approximately 4.1 million shares of the Company's common stock, or approximately 58% of the total shares of the Company's common stock subject to outstanding options, with a weighted average exercise price of approximately \$1.17 and varying remaining vesting schedules, are expected to be subject to this acceleration and become immediately vested and exercisable as of December 31, 2005. The number of shares, exercise prices and other terms of the options subject to the acceleration remain unchanged.

As a result of this acceleration, the Company expects to reduce its exposure to the effects of the Financial Accounting Standards Board's Statement of Financial Accounting Standards No. 123 (revised 2004), Share-Based Payment (FAS 123R), which requires companies to recognize stock-based compensation expense associated with stock options based on the fair value method. The Company currently estimates a reduction in stock-based compensation expense associated with this acceleration of approximately \$330 thousand for fiscal year 2006 and approximately \$334 thousand for fiscal year 2007.
