**Delivery of Shareholder Documents.** The Securities and Exchange Commission (the "SEC") permits funds to deliver only one copy of shareholder documents, including prospectuses, proxy statements and shareholder reports, to fund investors with multiple accounts at the same residential or post office box address. This practice is often called "householding" and it helps eliminate duplicate mailings to shareholders.

# Eaton Vance, or your financial adviser, may household the mailing of your documents indefinitely unless you instruct Eaton Vance, or your financial adviser, otherwise.

If you would prefer that your Eaton Vance documents not be householded, please contact Eaton Vance at 1-800-262-1122, or contact your financial adviser.

Your instructions that householding not apply to delivery of your Eaton Vance documents will be effective within 30 days of receipt by Eaton Vance or your financial adviser.

**Portfolio Holdings.** Each Eaton Vance Fund and its underlying Portfolio (if applicable) will file a schedule of its portfolio holdings on Form N-Q with the SEC for the first and third quarters of each fiscal year. The Form N-Q will be available on the Eaton Vance website www.eatonvance.com, by calling Eaton Vance at 1-800-262-1122 or in the EDGAR database on the SEC's website at www.sec.gov. Form N-Q may also be reviewed and copied at the SEC's public reference room in Washington, D.C. (call 1-800-732-0330 for information on the operation of the public reference room).

**Proxy Voting.** From time to time, funds are required to vote proxies related to the securities held by the funds. The Eaton Vance Funds or their underlying Portfolios (if applicable) vote proxies according to a set of policies and procedures approved by the Funds' and Portfolios' Boards. You may obtain a description of these policies and procedures and information on how the Funds or Portfolios voted proxies relating to portfolio securities during the most recent 12 month period ended June 30, without charge, upon request, by calling 1-800-262-1122. This description is also available on the SEC's website at www.sec.gov.

#### MANAGEMENT S DISCUSSION OF FUND PERFORMANCE

The Fund

#### Performance

• Based on share price, Eaton Vance Limited Duration Income Fund (the Fund ) a closed-end fund traded on the American Stock Exchange (AMEX) had a total return of 5.32% for the year ended April 30, 2006.(1) That return was the result of a decrease in share price to \$17.09 on April 30, 2006, from \$17.69 on April 30, 2005, and the reinvestment of \$1.513 in monthly dividends.

• Based on net asset value (NAV), the Fund had a total return of 7.72% for the year ended April 30, 2006.(1) That return was the result of a decrease in NAV per share to \$18.21 on April 30, 2006, from \$18.43 on April 30, 2005, and the reinvestment of \$1.513 in dividends.

• Based on its April 30, 2006, monthly dividend of \$0.1261 and a closing share price of \$17.09 on that date, the Fund had a market yield of 8.85%.(2)

#### Recent Fund Developments

• The Fund s managers continued to diversify the Fund s bond and senior loan investments across a wide range of industry sectors. The Fund had exposure to companies that typically respond to economic growth, as well as non-cyclical companies whose earnings are less dependent on economic expansion.

• The portion of the Fund that invests in floating-rate loans generally benefited from an environment of rising short-term interest rates; however, credit spreads continued to narrow and new issuance surged. Management kept the loan Portfolio well diversified across a wide range of industry sectors and holdings. Building and development (including manufacturers of building products and companies that manage and/or own apartments, shopping malls and commercial office buildings, among others), health care, leisure goods/activities/movies and chemicals/plastics and publishing were the largest industry weightings.

• During the year, the high-yield portion of the Fund saw an increased focus on shorter-duration bonds, which performed relatively well amid a flattening yield curve. The performance of the Fund s highyield holdings was also bolstered by exposure to the air transportation and building materials sectors. Investments in wireless telecommunication service providers also fared well, as many of these companies enjoyed continuing strong cash flow, subscriber growth and, in some cases, the benefits of refinancing older, higher-coupon debt. In the relatively strong market, no particular high-yield bond sector dramatically hurt performance. However, railroads, metals and homebuilders areas in which the Fund held small positions were among the market s laggards.

• Within the mortgage-backed securities (MBS) portion of the Fund, management continued to emphasize seasoned MBS with shorter average maturities and more predictable prepayment rates than unseasoned MBS. Seasoned MBS prepayment rates declined over the 12-month period. Accordingly, yield spreads on the Fund s seasoned MBS tightened by approximately 70 basis points (0.70%) during the same annual period. This tightening resulted in outperformance versus U.S. Treasuries.

• At April 30, 2006, the Fund had leverage in the amount of approximately 35.2% of the Fund s total assets. The Fund is leveraged through the issuance of Auction Preferred Shares and its securities lending program. Use of financial leverage creates an opportunity for increased income, but, at the same time, creates special risks (including the likelihood of greater volatility of net asset value and market price of common shares).

The views expressed throughout this report are those of the portfolio managers and are current only through the end of the period of the report as stated on the cover. These views are subject to change at any time based upon market or other conditions, and the investment adviser disclaims any responsibility to update such views. These views may not be relied on as investment advice and, because investmen decisions for a fund are based on many factors, may not be relied on as an indication of trading intent on behalf of any Eaton Vance fund.

(1) Performance results reflect the effect of leverage resulting from the Fund s issuance of Auction Preferred Shares and its securities lending program. In the event of a rise in long-term interest rates, the value of the Fund s investment portfolio could decline, which would reduce the asset coverage for its Auction Preferred Shares.

(2) The Fund s market yield is calculated by dividing the most recent dividend per share by the share market price at the end of the period and annualizing the result.

Past performance is no guarantee of future results. Returns are historical and are calculated by determining the percentage change in net asset value or share price (as applicable) with all distributions reinvested. Investment return and principal value will fluctuate so that shares, when sold, may be worth more or less than their original cost. Performance is for the stated time period only; due to market volatility, the Fund s current performance may be lower or higher than the quoted return. For performance as of the most recent month end, please refer to www.eatonvance.com.

Shares of the Fund are not insured by the FDIC and are not deposits or other obligations of, or guaranteed by, any depository institution. Shares are subject to investment risks, including possible loss of principal invested. Yield will vary.
