Non-income producing security.

Restricted security, not readily marketable; security is valued at fair value as determined in good faith by, or under the direction of, the Board of Directors, under procedures established by the Board of Directors.

As of January 31, 2009, the aggregate amount of open commitments for the Fund is \$2,961,114.

Represents contributed capital. ADR American Depositary Receipts. Global Depositary Receipts.

GDR

PN Preferred Shares.

PNA Preferred Shares, Class A.

Security Valuation - The net asset value of the Fund is determined daily as of the close of regular trading on the New York Stock Exchange, Inc. (the Exchange) on each day the Exchange is open for business. Equity investments are valued at market value, which is generally determined using the closing price on the exchange or market on which the security is primarily traded at the time of valuation (the Valuation Time). If no sales are reported, equity investments are generally valued at the most recent bid quotation as of the Valuation Time or at the lowest ask quotation in the case of a short sale of securities. Debt securities with a remaining maturity greater than 60 days are valued in accordance with the price supplied by a pricing service, which may use a matrix, formula or other objective method that takes into consideration market indices, yield curves and other specific adjustments. Debt obligations that will mature in 60 days or less are valued on the basis of amortized cost, which approximates market value, unless it is determined that using this method would not represent fair value. Investments in mutual funds are valued at the mutual fund s closing net asset value per share on the day of valuation. Securities and other assets for which market quotations are not readily available, or whose values have been materially affected by events occurring before the Fund s Valuation Time, but after the close of the securities primary market, are valued at fair value as determined in good faith by, or under the direction of, the Board of Directors under procedures established by the Board of Directors. The Fund may utilize a service provided by an independent third party which has been approved by the Board of Directors to fair value certain securities. When fair-value pricing is employed, the prices of securities used by a fund to calculate its net asset value may differ from quoted or published prices for the same securities. At January 31, 2009, the Fund held 8.13% of its net assets in securities valued at fair value as determined in good faith under procedures established by the Board of Directors with an aggregate cost of \$16,419,193 and fair value of \$8,989,739. The Fund s estimate of fair value assumes a willing buyer and a willing seller neither acting under the compulsion to buy or sell. Although these securities may be resold in privately negotiated transactions, the prices realized on such sales could differ from the prices originally paid by the fund or the current carrying values, and the difference could be material.

Restricted Securities - Certain of the Fund s investments are restricted as to resale and are valued at fair value as determined in good faith by, or under the direction of, the Board of Directors under procedures established by the Board of Directors in the absence of readily ascertainable market values.

The Fund may incur certain costs in connecting with the disposition of the above securities.

The Fund adopted Financial Accounting Standards Board Statement of Financial Accounting Standards No. 157, Fair Value Measurements (FAS 157), effective November 1, 2008. In accordance with FAS 157, fair value is defined as the price that the Fund would receive upon selling an investment in a timely transaction to an independent buyer in the principal or most advantageous market of the investment. FAS 157 established a three-tier hierarchy to maximize the use of observable market data and minimize the use of unobservable inputs and to establish classification of fair value measurements for disclosure purposes. Inputs refer broadly to the assumptions that market participants would use in pricing the asset or liability, including assumptions about risk, for example, the risk inherent in a particular valuation technique used to measure fair value including such a pricing model and/or the risk inherent in the inputs to the valuation technique. Inputs may be observable or unobservable. Observable inputs are inputs that reflect the assumptions market participants would use in pricing the asset or liability developed based on market data obtained from sources independent of the reporting entity. Unobservable inputs are inputs that reflect the reporting entity s own assumptions about the assumptions market participants would use in pricing the asset or liability developed based on the best information available in the circumstances. The three-tier hierarchy of inputs is summarized in the three broad Levels listed below.

- Level 1 quoted prices in active markets for identical investments
- Level 2 other significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.)
- Level 3 significant unobservable inputs (including the Fund s own assumptions in determining the fair value of investments)

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

The following is a summary of the inputs used as of January 31, 2009 in valuing the Fund s investments carried at value:

Valuation Inputs	Investments in Securities	Other Financial Instruments*
Level 1 - Quoted Prices	\$ 33,626,678	\$
Level 2 - Other Significant Observable Inputs	66,452,449	
Level 3 - Significant Unobservable Inputs	8,989,739	
Total	\$ 109,068,866	\$

^{*}Other financial instruments include futures, forwards, and swap contracts.

Following is a reconciliation of investments in which significant unobservable inputs (Level 3) were used in determining value:

	Investments in Securities		Other Financial Instruments*
Balance as of 10/31/08	\$	9,290,520	\$
Accrued discounts/premiums			
Realized gain/loss and change in unrealized appreciation		(130,601)	
Net purchases/sales		(170,180)	
Net transfers in and/or out of Level 3			
Balance as of 01/31/09	\$	8,989,739	
Net change in unrealized appreciation from investments still held as of			
01/31/09		122,884	\$

^{*}Other financial instruments include futures, forwards and swap contracts.

Federal Income Tax Cost - At January 31, 2009, the identified cost for federal income tax purposes, as well as the gross unrealized appreciation from investments for those securities having an excess of value over cost, gross unrealized depreciation from investments for those securities having an excess of cost over value and the net unrealized depreciation from investments were \$145,292,264, \$9,483,604, \$(45,707,002) and \$(36,223,398), respectively.

Other information regarding the Fund is available in the Fund s most recent Report to Shareholders. This information is also available on the Fund s website at www.credit-suisse.com/us as well as on the website of the Securities and Exchange Commission at www.sec.gov.

Item 2:	Controls and Procedures
principal financia Rule 30a-3(c) und disclosure control	As of a date within 90 days from the filing date of this report, the principal executive officer and l officer concluded that the registrant s disclosure controls and procedures (as defined in der the Investment Company Act of 1940 (the Act)), were effective based on their evaluation of the ls and procedures required by Rule 30a-3(b) under the Act and Rules 13a-15(b) or 15d-15(b) under l Exchange Act of 1934.
30a-3(d) under th	There were no changes in the registrant s internal control over financial reporting (as defined in Rule e Act) that occurred during the registrant s last fiscal quarter that have materially affected, or are to materially affect, the registrant s internal control over financial reporting.
Item 3:	Exhibits
1. report.	The certifications of the registrant as required by Rule 30a-2(a) under the Act are exhibits to this
