**Item 7.01. Regulation FD Disclosure**

On January 26, 2010, The Travelers Companies, Inc. (the "Company") held its regularly scheduled conference call regarding its financial results for the fourth quarter and full year 2009. During the call, a participant asked, "... what's happening with loss cost trends in the commercial lines of business? The Company does not have a reporting segment called "commercial lines", and as a consequence would not have responded on that basis. In response to the question, the Company responded with respect to the entire company, saying, in part, "... what's embedded in our guidance would be a very modest deterioration in the loss and [loss adjustment expense] component. In light of the fact that the question was asked with respect to "commercial lines" and answered with respect to the entire company, the Company seeks to affirm the statement and clarify that it in fact related to the entire company.

For additional information, please refer to the Form 8-K, including the Company's earnings press release and financial supplement for the fourth quarter and full year 2009, filed by the Company on January 26, 2010 with the Securities and Exchange Commission and the related webcast presentation which is available for review/replay on the Company's website under the Investor section ([www.travelers.com](http://www.travelers.com)).
