**Item 1.01. Entry into a Material Definitive Agreement.**

In its Quarterly Report on Form 10-Q for the period ended March 31, 2010, the Company disclosed that it would exceed a source-wide, rolling 12-month volatile organic compounds (VOC) emissions cap on the Company's Atchison facility imposed in a 2006 Consent Agreement with the Kansas Department of Health and Environment (KDHE) and was negotiating a second amendment to the Consent Agreement with the KDHE (a previously disclosed amendment addressed an earlier instance of noncompliance with the emission limit). The Company has agreed to the second amendment, which is filed herewith as an exhibit, along with the first amendment to the Consent Agreement. As previously reported, the second amendment requires the Company to complete a closed-loop, process cooling water system project, resulting in significant VOC reduction, in accordance with a scheduled timeline extending over an approximate seventeen month period which ends on September 30, 2011. The Company has agreed to a \$5,000 per month penalty for any month that it exceeds the rolling 12-month cap, as well as a \$1,000 per day penalty for each day it fails to file monthly progress reports or exceeds established completion dates for various stages of the project.
