Table of Contents

US ECOLOGY, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

NOTE 1. GENERAL

Basis of Presentation

The accompanying unaudited consolidated financial statements include the results of operations, financial position and cash flows of US Ecology, Inc. and its wholly-owned subsidiaries. All significant intercompany balances have been eliminated. Throughout these financial statements words such as we, us, our, US Ecology and the Company refer to US Ecology, Inc. and its subsidiaries.

In the opinion of management, the accompanying unaudited consolidated financial statements include all adjustments necessary to present fairly, in all material respects, the results of the Company for the periods presented. These consolidated financial statements have been prepared by the Company pursuant to the rules and regulations of the Securities and Exchange Commission (SEC). Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States (GAAP) have been omitted pursuant to the rules and regulations of the SEC. These consolidated financial statements should be read in conjunction with the consolidated financial statements and accompanying notes included in the Company s Annual Report on Form 10-K for the fiscal year ended December 31, 2011. The results of operations and cash flows for the three and six months ended June 30, 2012 are not necessarily indicative of results to be expected for the entire fiscal year.

The Company s Consolidated Balance Sheet as of December 31, 2011 has been derived from the Company s audited Consolidated Balance Sheet as of that date.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements, as well as the reported amounts of revenue and expenses during the reporting period. Actual results could differ materially from the estimates and assumptions that we use in the preparation of our financial statements. As it relates to estimates and assumptions in amortization rates and environmental obligations, significant engineering, operations and accounting judgments are required. We review these estimates and assumptions no less than annually. In many circumstances, the ultimate outcome of these estimates and assumptions will not be known for decades into the future. Actual results could differ materially from these estimates and assumptions due to changes in applicable regulations, changes in future operational plans and inherent imprecision associated with estimating environmental impacts far into the future.

Financial Instruments

Cash on deposit, short-term investments, accounts receivable, short-term borrowings, accounts payable and accrued liabilities as presented in the consolidated financial statements approximate fair value because of the short-term nature of these instruments. The carrying amount of our long-term debt approximates fair value because interest rates are variable and, accordingly, approximate current market rates for instruments with similar risk and maturities. Restricted cash balances represent funds held in third-party managed trust accounts as collateral for our financial assurance obligations for post-closure activities at our non-operating facilities. Restricted cash balances are maintained by third-party trustees and are invested in money market accounts. The balances are adjusted monthly to fair market value based on quoted prices in active markets for identical assets.

Recently Issued Accounting Pronouncements

In June 2011, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2011-05, *Comprehensive Income (Topic 220): Presentation of Comprehensive Income*, requiring an entity to present components of net income and other comprehensive income in one continuous statement, referred to as the statement of comprehensive income, or in two separate but consecutive statements. The new guidance eliminates the option to report other comprehensive income and its components in the statement of changes in equity. While the new guidance changes the presentation of comprehensive income, there are no changes to the components that are recognized in net income or other comprehensive income under current accounting guidance. This new guidance is effective for fiscal years ending after December 15, 2012, and interim periods within those years, with early adoption permitted. The Company adopted this ASU in the first quarter of fiscal year 2012 and elected to present the components of net income and other comprehensive income in two separate but consecutive statements.

Table of Contents**NOTE 2. ACCUMULATED OTHER COMPREHENSIVE INCOME (LOSS)**

Changes in accumulated other comprehensive income (loss) consisted of the following:

\$s in thousands	Accumulated Other Comprehensive Income (Loss)	
Balance at December 31, 2010	\$	676
Foreign currency translation		(793)
Balance at December 31, 2011		(117)
Foreign currency translation		135
Balance at June 30, 2012	\$	18

NOTE 3. CONCENTRATIONS AND CREDIT RISK*Major Customers*

No customer accounted for more than 10% of total revenue for the three and six months ended June 30, 2012. For the three and six months ended June 30, 2011, the U.S. Army Corps of Engineers (USACE) accounted for 10% and 15% of total revenue, respectively. No other customer accounted for more than 10% of total revenue for the three and six months ended June 30, 2011.

No customer accounted for more than 10% of total trade receivables as of June 30, 2012. General Electric, Inc. accounted for approximately 18% of total trade receivables as of December 31, 2011. No other customers accounted for more than 10% of total trade receivables as of December 31, 2011.

Credit Risk Concentration

We maintain most of our cash with nationally recognized financial institutions like Wells Fargo Bank, National Association (Wells Fargo). Substantially all balances are uninsured and are not used as collateral for other obligations. We believe that concentrations of credit risk on accounts receivable are limited due to the number, diversification and character of the obligors and our credit evaluation process.

NOTE 4. RECEIVABLES

Edgar Filing: US ECOLOGY, INC. - Form 10-Q

Receivables consisted of the following:

\$s in thousands	June 30, 2012	December 31, 2011
Trade	\$ 28,989	\$ 27,229
Unbilled revenue	1,260	1,500
Other	1,229	1,400
Total receivables	31,478	30,129
Allowance for doubtful accounts	(310)	(311)
Receivables, net	\$ 31,168	\$ 29,818

Table of Contents**NOTE 5. PROPERTY AND EQUIPMENT**

Property and equipment consisted of the following:

\$s in thousands	June 30, 2012	December 31, 2011
Cell development costs	\$ 61,896	\$ 61,749
Land and improvements	14,668	13,929
Buildings and improvements	54,703	51,409
Railcars	17,375	17,375
Vehicles and other equipment	37,709	33,594
Construction in progress	8,800	4,031
Total property and equipment	195,151	182,087
Accumulated depreciation and amortization	(88,085)	(82,112)
Property and equipment, net	\$ 107,066	\$ 99,975

Depreciation expense for the three months ended June 30, 2012 and 2011 was \$3.6 million and \$3.2 million, respectively. Depreciation expense for the six months ended June 30, 2012 and 2011 was \$6.8 million and \$6.3 million, respectively.

NOTE 6. BUSINESS COMBINATION

On May 31, 2012, the Company acquired 100% of the outstanding shares of Dynecol, Inc. (Dynecol), a chemical and industrial byproducts treatment and reuse facility located in Detroit, Michigan. The total purchase price consisted of \$11.3 million in cash and was funded through borrowings under the Reducing Revolving Line of Credit facility. The purchase price is subject to post-closing adjustments based on agreed upon working capital requirements. Post-closing adjustments are expected to be finalized and settled in the third quarter of 2012.

The following table summarizes the consideration paid for Dynecol and the preliminary fair value of assets acquired and liabilities assumed at the acquisition date.

\$s in thousands	June 30, 2012
Current assets	\$ 2,281
Property and equipment	6,552
Identifiable intangible assets	1,940
Current liabilities	(1,268)
Total identifiable net assets	9,505
Goodwill	1,745
Total purchase price	\$ 11,250

Edgar Filing: US ECOLOGY, INC. - Form 10-Q

Goodwill of \$1.7 million arising from the acquisition is the result of several factors. Dynecol has a talented assembled workforce of approximately 40 employees principally serving the mid-western and eastern U.S. industrial markets for nearly 40 years. The acquisition of Dynecol strengthens our mid-western and eastern U.S. presence to better serve key North American hazardous waste markets. In addition, Dynecol provides us with an opportunity to win more Event Business work; expand penetration with national accounts; improve and enhance transportation, logistics, and service offerings with existing customers; and attract new customers. All of the goodwill recognized was assigned to our Operating Disposal Facilities segment and is expected to be deductible for income tax purposes over a fifteen-year amortization period.

Edgar Filing: US ECOLOGY, INC. - Form 10-Q

Table of Contents

The following unaudited pro forma financial information presents the combined results of operations as if Dynecol had been combined with us beginning on January 1, 2011. The pro forma financial information includes the accounting impact of the business combination, including the amortization of intangible assets, depreciation of property, plant and equipment and interest expense. The unaudited pro forma financial information is presented for informational purposes only and is not indicative of the results of operations that would have been achieved if the acquisition had taken place at the beginning of the period presented, nor should it be taken as an indication of our future consolidated results of operations.

\$s in thousands, except per share amounts	Three Months Ended June 30,		Six Months Ended June 30,	
	2012	2011	2012	2011
Pro forma combined:				
Revenue	\$ 42,011	\$ 43,329	\$ 78,494	\$ 80,881
Net income	\$ 6,248	\$ 5,122	\$ 10,739	\$ 8,632
Earnings per share				
Basic	\$ 0.34	\$ 0.28	\$ 0.59	\$ 0.47
Diluted	\$ 0.34	\$ 0.28	\$ 0.59	\$ 0.47

The amounts of revenue and operating income from Dynecol included in US Ecology's consolidated statements of operations were \$1.1 million and \$73,000, respectively, for each of the three and six month periods ended June 30, 2012. Acquisition-related costs of \$121,000 and \$137,000 were included in selling, general and administrative expenses in the Company's consolidated statements of operations for the three and six months ended June 30, 2012, respectively.

NOTE 7. GOODWILL AND INTANGIBLE ASSETS

The Company's entire goodwill balance has been assigned to the Operating Disposal Facilities reporting segment. Changes in goodwill for the six months ended June 30, 2012 consisted of the following:

\$s in thousands	Goodwill
Balance at December 31, 2011	21,200
Dynecol acquisition	1,745
Foreign currency translation	108
Balance at June 30, 2012	23,053

Intangible assets consisted of the following:

\$s in thousands	June 30, 2012	December 31, 2011
Amortizing intangible assets:		
Developed software	\$ 344	\$ 342
Database	98	98
Customer relationships	5,182	3,991
Technology - Formulae and processes	8,947	8,902
Permits, licenses and lease	27,480	27,340

Edgar Filing: US ECOLOGY, INC. - Form 10-Q

Non-compete agreements	20	
Total amortizing intangible assets	42,071	40,673
Accumulated amortization	(2,326)	(1,601)
Nonamortizing intangible assets:		
Permits and licenses	750	
Tradenname	167	166
Total intangible assets, net	\$ 40,662	\$ 39,238

Amortization expense for the three months ended June 30, 2012 and 2011 was \$374,000 and \$362,000, respectively. Amortization expense for the six months ended June 30, 2012 and 2011 was \$724,000 and \$718,000, respectively.

Table of Contents

NOTE 8. DEBT

On October 29, 2010, we entered a credit agreement (the Credit Agreement), as amended, with Wells Fargo which provided for an aggregate commitment from Wells Fargo of \$95.0 million. The Credit Agreement provides for a \$20.0 million revolving line of credit (the Revolving Line of Credit) with a maturity date of June 15, 2013 and a \$75.0 million reducing revolving line of credit (the Reducing Revolving Line of Credit) with a maturity date of November 1, 2015.

Revolving Line of Credit

The Revolving Line of Credit provides up to \$20.0 million in revolving credit loans or letters of credit for working capital needs (the Commitment Amount). Under the Revolving Line of Credit, revolving loans are available based on the Prime Rate or LIBOR, at the Company's option, plus an applicable margin, which is determined according to a pricing grid under which the interest rate decreases or increases based on our ratio of funded debt to earnings before interest, taxes, depreciation and amortization (EBITDA). At June 30, 2012, the effective interest rate on the Revolving Line of Credit was 1.50%. Interest only payments are due either monthly or on the last day of any interest period, as applicable. At June 30, 2012, there were no borrowings outstanding under the Revolving Line of Credit. The availability under the Revolving Line of Credit was \$16.0 million with \$4.0 million of the line of credit issued in the form of a standby letter of credit utilized as collateral for closure and post-closure financial assurance.

Reducing Revolving Line of Credit

The Reducing Revolving Line of Credit provided an initial commitment amount of \$75.0 million (the Reducing Revolving Commitment Amount). Proceeds from the Reducing Revolving Line of Credit were used to acquire all of the shares of Seaway TLC Inc. and its wholly-owned subsidiaries Stablex Canada, Inc. and Gulfstream TLC, Inc. (collectively Stablex) in 2010 and to acquire all of the shares of Dynecol in 2012, with the remaining borrowings available under the Reducing Revolving Line of Credit used to provide financing for working capital needs. The initial Reducing Revolving Commitment Amount is reduced by \$2.8 million on the last day of each June, September, December and March beginning June 30, 2011, continuing through November 1, 2015. Under the Reducing Revolving Line of Credit revolving loans are available based on the Prime Rate or LIBOR, at the Company's option, plus an applicable margin, which is determined according to a pricing grid under which the interest rate decreases or increases based on our ratio of funded debt to EBITDA. At June 30, 2012, the effective interest rate of the Reducing Revolving Line of Credit was 1.50%. Interest only payments are due either monthly or on the last day of any interest period, as applicable. At June 30, 2012, there was \$50.0 million outstanding on the Reducing Revolving Line of Credit with availability for additional borrowings of \$11.1 million.

In addition to standard fees, there are origination fees and commitment fees based on the average daily unused portion of the Commitment Amount and the Reducing Revolving Commitment Amount. The Credit Agreement contains certain quarterly financial covenants, including a maximum funded debt ratio, a maximum fixed charge coverage ratio, a minimum required tangible net worth and a minimum current ratio. In addition, we may only declare quarterly or annual dividends if on the date of declaration, no event of default has occurred, or no other event or condition has occurred that would constitute an event of default after giving effect to the payment of the dividend. Obligations under the Credit Agreement are guaranteed by US Ecology and all of its subsidiaries.

At June 30, 2012, we were in compliance with all of the financial covenants in the Credit Agreement.

NOTE 9. CLOSURE AND POST-CLOSURE OBLIGATIONS

Our accrued closure and post-closure obligations represent the expected future costs, including corrective actions, associated with closure and post-closure of our operating and non-operating disposal facilities. Liabilities are recorded when work is probable and the costs can be reasonably estimated. We perform periodic reviews of both non-operating and operating facilities and revise accruals for estimated closure and post-closure, remediation or other costs as necessary. Recorded liabilities are based on our best estimates of current costs and are updated periodically to include the effects of existing technology, presently enacted laws and regulations, inflation and other economic factors.

Table of Contents

Changes to reported closure and post-closure obligations consisted of the following:

\$s in thousands	Three Months Ended June 30, 2012		Six Months Ended June 30, 2012	
Closure and post-closure obligations, beginning of period	\$	17,614	\$	17,338
Accretion expense		335		670
Payments		(103)		(186)
Currency translation		(19)		5
Closure and post-closure obligations, end of period		17,827		17,827
Less current portion		(2,858)		(2,858)
Long-term portion	\$	14,969	\$	14,969

NOTE 10. INCOME TAXES

During the six months ended June 30, 2012, there were no material changes to our unrecognized tax benefits disclosed in our Annual Report on Form 10-K for the fiscal year ended December 31, 2011. We do not anticipate our total unrecognized tax benefits to increase or decrease materially within the next twelve months.

Our effective tax rate for the three months ended June 30, 2012 was 38.6%, up slightly from 38.5% for the three months ended June 30, 2011.

Our effective tax rate for the six months ended June 30, 2012 was 38.8%, down from 39.7% for the six months ended June 30, 2011. The decrease in our effective tax rate reflects higher earnings and lower non-tax deductible expenses in the first six months of 2012 compared to the same period of 2011.

We file a consolidated U.S. federal income tax return with the Internal Revenue Service as well as income tax returns in various states and Canada. We may be subject to examination by taxing authorities in the U.S. and Canada for tax years 2008 through 2011. Additionally, we may be subject to examinations by various state and local taxing jurisdictions for tax years 2007 through 2011. We are currently not aware of any examinations by taxing authorities.

NOTE 11. COMMITMENTS AND CONTINGENCIES

In the ordinary course of conducting business, we are involved in judicial and administrative proceedings involving federal, state, provincial or local governmental authorities, including regulatory agencies that oversee our permits and compliance with those permits. Fines or penalties may be assessed by our regulators as a result of review or inspection of our operating practices. Actions may also be brought by individuals or groups in connection with permitting of planned facilities, alleged violations of existing permits, or alleged damages suffered from exposure to hazardous substances purportedly released from our operated sites, as well as other litigation. We maintain insurance intended to cover property and damage claims asserted as a result of our operations. Periodically, management reviews and may establish reserves for legal and

administrative matters, or fees expected to be incurred in connection therewith.

In April 2012, we received a confidential settlement communication from the United States Environment Protection Agency (U.S. EPA) alleging that the thermal recycling operation at our Robstown, Texas facility does not comply with certain rules and regulations. The communication included a draft consent agreement and final order directed to us and the thermal recycling unit's owner-operator. The U.S. EPA draft consent agreement asserts various technical compliance and permitting violations and proposes corrective actions to resolve the matter as well as proposed total penalties of \$1.4 million against both us and the thermal recycling unit's owner-operator. We do not believe the alleged non-compliance matters represent a threat to human health or the environment and we are presently working with the U.S. EPA, as well as evaluating the matter in consultation with our legal counsel, the owner-operator of the thermal recycling unit and the Texas Department of Environmental Quality, which has direct oversight responsibility for our Robstown facility's operating permit, including the operation of the thermal recycling unit. It is possible that as part of the resolution to this matter we may apply to modify existing or obtain new operating licenses or permits or otherwise make decisions that could limit or eliminate our thermal recycling services, require significant capital expenditures and/or increase operating costs. Such outcomes could result in lower revenue and earnings as well as possible impairment charges for infrastructure improvements supporting operation of the thermal recycling unit. It is also possible that as a result of the U.S. EPA's final position we would be required or voluntarily choose to discontinue thermal recycling services, either temporarily or permanently, and we may pursue legal action in an attempt to avoid such an outcome. For the six months ended June 30, 2012, our thermal recycling service contributed 11%

Table of Contents

(\$8.1 million) of total revenue and 10% (\$1.8 million) of total operating income. For 2011, our thermal recycling service contributed 11% (\$17.2 million) of total revenue and 11% (\$3.7 million) of total operating income. In response to the EPA's proposal the Company counter-offered to settle the matter for \$260,000. The settlement would be shared between the Company and the thermal recycling unit's owner-operator. Negotiations are ongoing with the EPA, which has neither accepted nor rejected the Company's counter-offer. Based on the Company's counter-offer, we recognized a charge of \$130,000 during the second quarter of 2012 in Selling, general and administrative expenses in the Consolidated Statement of Operations related to this matter.

Other than the above matter, we are not currently a party to any material pending legal proceedings and are not aware of any other claims that could have a materially adverse effect on our financial position, results of operations or cash flows.

NOTE 13. TREASURY STOCK

During the three and six months ended June 30, 2012, the Company issued 7,500 and 22,300 shares, respectively, of restricted stock from our treasury stock at an average cost of \$16.68 per share.

NOTE 14. OPERATING SEGMENTS

We operate within two segments, Operating Disposal Facilities and Non-Operating Disposal Facilities. These segments reflect our internal reporting structure and nature of services offered. The Operating Disposal Facility segment represents disposal facilities accepting hazardous and radioactive waste. The Non-Operating Disposal Facility segment represents facilities which are not accepting hazardous and/or radioactive waste or formerly proposed new facilities.

Edgar Filing: US ECOLOGY, INC. - Form 10-Q

Table of Contents

Income taxes are assigned to Corporate, but all other items are included in the segment where they originated. Inter-company transactions have been eliminated from the segment information and are not significant between segments.

Summarized financial information concerning our reportable segments is shown in the following tables:

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders of
US Ecology, Inc.
Boise, Idaho

We have reviewed the accompanying consolidated balance sheet of US Ecology, Inc. and subsidiaries (the Company) as of June 30, 2012, the related consolidated statements of operations and comprehensive income for the three-month and six-month periods ended June 30, 2012 and 2011, and the consolidated statements of cash flows for the six-month periods ended June 30, 2012 and 2011. These interim financial statements are the responsibility of the Company's management.

We conducted our reviews in accordance with the standards of the Public Company Accounting Oversight Board (United States). A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States), the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our reviews, we are not aware of any material modifications that should be made to such consolidated interim financial statements for them to be in conformity with accounting principles generally accepted in the United States of America.

We have previously audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheet of US Ecology, Inc. and subsidiaries as of December 31, 2011, and the related consolidated statements of operations, stockholders' equity and cash flows for the year then ended (not presented herein); and in our report dated February 29, 2012, we expressed an unqualified opinion on those consolidated financial statements. In our opinion, the information set forth in the accompanying consolidated balance sheet as of December 31, 2011 is fairly stated, in all material respects, in relation to the consolidated balance sheet from which it has been derived.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

OVERVIEW

US Ecology is a hazardous, PCB, non-hazardous and radioactive waste services company providing treatment, disposal, recycling and transportation services to commercial and government entities including, but not limited to, oil refineries, chemical production facilities, manufacturers, electric utilities, steel mills, biotechnology companies, military installations, waste brokers/aggregators and medical and academic institutions. The majority of the waste received at our facilities is produced in the United States.

On May 31, 2012, the Company acquired 100% of the outstanding shares of Dynecol, Inc. (Dynecol), a chemical and industrial byproducts treatment and reuse facility located in Detroit, Michigan, for a total purchase price of \$11.3 million. The acquisition of Dynecol strengthens our mid-western and eastern U.S. presence to better serve key North American hazardous waste markets. In addition, Dynecol provides us with an opportunity to win more Event Business work; expand penetration with national accounts; improve and enhance transportation, logistics, and service offerings with existing customers; and attract new customers. For our one month of ownership, the amounts of revenue and operating income from Dynecol included in US Ecology's consolidated statement of operations were \$1.1 million and \$73,000, respectively, for each of the three and six month periods ended June 30, 2012.

We generate revenue from fees charged to treat and dispose of waste at our five fixed disposal facilities located near Grand View, Idaho; Richland, Washington; Beatty, Nevada; Robstown, Texas; Detroit, Michigan; and Blainville, Québec, Canada. We manage a dedicated fleet of railcars, a small fleet of trucks and trailers and arrange for the transportation of waste to our facilities. Transportation services contributed significant revenue in recent years. We also utilize this railcar fleet to provide transportation services for disposal at facilities operated by other companies on a less frequent basis. We or our predecessor companies have been in the waste business since 1952.

Our customers may be divided into categories to better evaluate period-to-period changes in our treatment and disposal revenue based on service mix and type of business (recurring customer Base Business or discrete waste clean-up project Event Business). Each of these categories is described in the table below with information on the percentage of total treatment and disposal revenues for each category for the three and six months ended June 30, 2012 and 2011.

Customer Category	Description	% of Treatment and Disposal Revenue (1),(2) for the Three Months ended June 30,	
		2012	2011
Broker	Companies that collect and aggregate waste from their direct customers, generally comprised of Base Business with periodic Event Business for larger projects.	52%	45%
Other industry	Electric utilities, chemical manufacturers, steel mill and other industrial customers not included in other categories, comprised of both recurring Base and Event Business.	17%	15%

Edgar Filing: US ECOLOGY, INC. - Form 10-Q

Government	Federal and State government clean-up project waste, comprised of both Base and Event Business.	13%	12%
Refinery	Petroleum refinery customers, comprised of both Base and Event Business.	8%	12%
Private Clean-up	Private sector clean-up project waste, typically Event Business.	6%	12%
Rate regulated	Northwest and Rocky Mountain Compact customers paying rate-regulated disposal fees set by the State of Washington, predominantly Base Business.	4%	4%

(1) Excludes all transportation service revenue

(2) Excludes Dynecol which was acquired on May 31, 2012

Table of Contents

A significant portion of our disposal revenue is attributable to discrete Event Business projects which vary widely in size, duration and unit pricing. For the three and six months ended June 30, 2012, approximately 36% and 32%, respectively, of our treatment and disposal revenue, excluding Dynecol, was derived from Event Business projects. The one-time nature of Event Business, diverse spectrum of waste types received and widely varying unit pricing necessarily creates variability in revenue and earnings. This variability may be influenced by general and industry-specific economic conditions, funding availability, changes in laws and regulations, government enforcement actions or court orders, public controversies, litigation, weather, real estate redevelopment project timing, government appropriation and funding cycles and other factors. The types and amounts of waste received from Base Business also vary from quarter to quarter. As a result of this variability we can experience significant quarter-to-quarter and year-to-year differences in revenue, gross profit, gross margin, operating income and net income. Also, while many large projects are pursued months or years in advance of work performance, both large and small clean-up project opportunities routinely arise with little prior notice. This uncertainty, which is inherent to the hazardous and radioactive waste disposal business, is factored into our projections and externally communicated business outlook statements. Our projections combine historical experience with identified sales pipeline opportunities, new or expanded service line projections and prevailing market conditions.

Depending on project-specific customer needs and competitive economics, transportation services may be offered at or near our cost to help secure new business. For waste transported by rail from the eastern United States and other locations distant from our Grand View, Idaho facility, transportation-related revenue can account for as much as three-fourths (75%) of total project revenue. While bundling transportation and disposal services reduces overall gross profit as a percentage of total revenue (gross margin), this value-added service has allowed us to win multiple projects that management believes we could not have otherwise competed for successfully. Our Company-owned railcar fleet, which supplements railcars obtained under operating leases, has reduced our reliance on short-term rentals and ultimately has reduced transportation expenses.

The increased waste volumes resulting from projects won through this bundling strategy drive operating leverage and increase profitability. While waste treatment and other variable costs are project-specific, the earnings contribution from individual projects generally increases as overall disposal volumes increase. Management believes that maximizing operating income, net income and earnings per share is a higher priority than maintaining or increasing gross margin. We plan to continue aggressively bidding bundled transportation and disposal services based on this strategy.

To maximize utilization of our railcar fleet, we periodically deploy available railcars to transport waste from clean-up sites to disposal facilities operated by other companies. Such transportation services may be bundled with for-profit logistics and field services support work.

We serve oil refineries, chemical production plants, steel mills, waste brokers/aggregators serving small manufacturers and other industrial customers that are generally affected by adverse economic conditions and a tight credit environment. Such conditions may cause our customers as well as those they serve to curtail operations, resulting in lower waste production and/or delayed spending on off-site waste shipments, maintenance, waste clean-up projects and other work. Factors that can impact general economic conditions and the level of spending by our customers include, but are not limited to, consumer and industrial spending, increases in fuel and energy costs, conditions in the real estate and mortgage markets, labor and healthcare costs, access to credit, consumer confidence and other global economic factors affecting spending behavior. Market forces may also induce customers to reduce or cease operations, declare bankruptcy, liquidate or relocate to other countries, any of which could adversely affect our business. To the extent our business is either government funded or driven by government regulations or enforcement actions, we believe it is less susceptible to general economic conditions. However, spending by government agencies may also be reduced due to declining tax revenues resulting from a weak economy or changes in policy. Disbursement of funds appropriated by Congress may also be delayed for administrative or other reasons.

Table of Contents**RESULTS OF OPERATIONS**

Other Financial Data:								
Adjusted EBITDA (1)	\$ 15,420		\$ 11,877		\$ 26,002		\$ 20,479	

(1) For all periods presented, Adjusted EBITDA is defined as net income before net interest expense, income tax expense, depreciation, amortization, stock based compensation, accretion of closure and post-closure liabilities, foreign currency gain/loss and other income/expense, which are not considered part of usual business operations. Adjusted EBITDA is a complement to results provided in accordance with GAAP and we believe that such information provides additional useful information to analysts, stockholders and other users to understand the Company's operating performance. Since Adjusted EBITDA is not a measurement determined in accordance with GAAP and is thus susceptible to varying calculations, Adjusted EBITDA as presented may not be comparable to other similarly titled measures of other companies. Items excluded from Adjusted EBITDA are significant components in understanding and assessing our financial performance. Adjusted EBITDA should not be considered in isolation or as an alternative to, or substitute for, net income, cash flows generated by operations, investing or financing activities, or other financial statement data presented in the consolidated financial statements as indicators of financial performance or liquidity. Adjusted EBITDA has limitations as an analytical tool and should not be considered in isolation or a substitute for analyzing our results as reported under GAAP. Some of the limitations are:

Edgar Filing: US ECOLOGY, INC. - Form 10-Q

- Adjusted EBITDA does not reflect changes in, or cash requirements for, our working capital needs;
- Adjusted EBITDA does not reflect our interest expense, or the requirements necessary to service interest or principal payments on our debt;
- Adjusted EBITDA does not reflect our income tax expenses or the cash requirements to pay our taxes;
- Adjusted EBITDA does not reflect our cash expenditures or future requirements for capital expenditures or contractual commitments; and
- although depreciation and amortization charges are non-cash charges, the assets being depreciated and amortized will often have to be replaced in the future, and Adjusted EBITDA does not reflect any cash requirements for such replacements.

Edgar Filing: US ECOLOGY, INC. - Form 10-Q

Table of Contents

The following reconciliation itemizes the differences between reported Net income and Adjusted EBITDA for the three and six months ended June 30, 2012 and 2011:

\$s in thousands	Three Months Ended June 30, 2012		Six Months Ended June 30, 2012		2011	
Net income	\$	6,362	\$	4,685	\$	10,885
Income tax expense		3,999		2,929		6,899
Interest expense		204		436		428
Interest income		(4)		(5)		(9)
Foreign currency (gain) loss		921		(218)		(170)
Other income		(522)		(73)		(602)
Depreciation and amortization of plant and equipment		3,571		3,227		6,794
Amortization of intangibles		374		362		724
Stock-based compensation		180		210		383
Accretion of closure & post-closure liabilities		335		324		670
Adjusted EBITDA	\$	15,420	\$	11,877	\$	26,002
					\$	20,479

THREE MONTHS ENDED JUNE 30, 2012 COMPARED TO THREE MONTHS ENDED JUNE 30, 2011

Revenue. Revenue increased 1% to \$40.0 million for the second quarter of 2012, up from \$39.5 million for the second quarter of 2011. A 13% increase in treatment and disposal (T&D) revenue was partially offset by a 48% decrease in transportation service revenue. The decrease in transportation service revenue reflects fewer Event Business projects utilizing the Company's transportation and logistics services.

During the second quarter of 2012 we disposed of a total of 261,000 tons of waste, or 21% more than the 215,000 tons disposed of in the second quarter of 2011. Average selling price decreased 6% during the second quarter of 2012 compared to the same quarter last year as a result of a relatively higher volume of direct disposal material and other changes in service mix.

Dynecol, which was acquired on May 31, 2012, contributed \$1.1 million of total revenue during the second quarter of 2012. Revenue from Dynecol is excluded from quarterly percentages of Base and Event Business and customer category information in the following paragraphs.

During the second quarter of 2012, T&D revenue from recurring Base Business customers was 16% higher than the second quarter of 2011 and comprised 64% of T&D revenue. This compares to 60% of T&D revenue in the second quarter of 2011. As discussed further below, this increase primarily reflects higher broker and other industry Base Business T&D revenue.

Event Business revenue in the second quarter of 2012 was consistent compared to the same quarter in 2011 and was 36% of T&D revenue for the second quarter of 2012. This compares to 40% of T&D revenue in the second quarter of 2011. As discussed further below, this decrease primarily reflects lower private clean-up Event Business T&D revenue, partially offset by higher government and broker Event Business T&D revenue.

The following table summarizes our second quarter 2012 T&D revenue growth (both Base and Event Business) by customer type as compared with the second quarter of 2011.

**Treatment and Disposal Revenue Growth
Three Months Ended June 30, 2012 vs.
Three Months Ended June 30, 2011**

Other industry	27%
Broker	27%
Government	22%
Rate regulated	0%
Refinery	-27%
Private clean-up	-48%

Table of Contents

Our other industry revenue category increased 27% in the second quarter of 2012 compared to the second quarter of 2011 on strong shipments from the broadly diversified group of industrial customers we serve.

Our broker business increased 27% in the second quarter of 2012 compared to the second quarter of 2011. This increase was the result of shipments across our broad range of government and industry waste generators directly served by our multiple broker customers including higher volumes of brokered thermal recycling projects.

Government clean-up business revenue increased 22% in the second quarter of 2012 compared to the second quarter of 2011. This increase primarily reflects higher shipments from the USACE in the second quarter of 2012 compared to the second quarter of 2011. Event Business under our USACE contract contributed \$3.6 million, or 9%, of total revenue in the second quarter of 2012 compared to \$3.8 million, or 10%, of total revenue in the second quarter of 2011. Excluding transportation service revenue, T&D revenue with the USACE increased approximately 13% in the second quarter of 2012 compared with the second quarter of 2011. This increase was due to project-specific timing at the multiple USACE clean-up sites. No USACE projects served by the Company were cancelled or, to our knowledge, awarded to competitors during the quarter.

Rate-regulated business at our Richland, Washington low-level radioactive waste disposal facility in the second quarter of 2012 was consistent with the second quarter of 2011. Our Richland facility operates under a State-approved annual revenue requirement.

Treatment and disposal revenue from our refinery customers decreased 27% in the second quarter of 2012 compared to the second quarter of 2011. This decrease primarily reflects lower volumes partially offset by improved pricing on thermal recycling projects.

T&D revenue from private clean-up customers decreased 48% in the second quarter of 2012 compared to the second quarter of 2011. This decrease primarily reflects the completion of an east coast industrial cleanup project in 2011 that was not fully replaced in the second quarter of 2012.

Gross Profit. Gross profit for the second quarter of 2012 increased 32% to \$17.3 million, up from \$13.1 million in the second quarter of 2011. This increase primarily reflects higher volumes of waste disposed in the second quarter of 2012 compared to the second quarter of 2011. Gross margin was 43% in the second quarter of 2012, up from 33% in the second quarter of 2011. T&D gross margin (which excludes transportation revenue and costs) was 48% in the second quarter of 2012 compared to 43% in the second quarter of 2011. The increase in gross margin and T&D gross margin primarily reflects increased volumes and a favorable service mix in the second quarter of 2012 compared to the same period of 2011.

Selling, General and Administrative (SG&A). As a percentage of total revenue, SG&A expenses for the second quarters of 2012 and 2011 were 16% and 13%, respectively. SG&A expenses were \$6.4 million in the second quarter of 2012 and \$5.3 million in the second quarter of 2011. The increase primarily reflects higher variable incentive compensation resulting from stronger financial performance in the second quarter of 2012 compared to the second quarter of 2011. The increase was also partially attributable to \$116,000 in SG&A expenses and \$121,000 in business development expenses in the second quarter of 2012 associated with Dynecol, which was acquired on May 31, 2012.

Edgar Filing: US ECOLOGY, INC. - Form 10-Q

Interest expense. Interest expense in the second quarter of 2012 was \$204,000, down from \$436,000 in the second quarter of 2011, primarily reflecting lower debt levels and lower interest rates in the second quarter of 2012.

Foreign Currency Gain (Loss). We recognized a \$921,000 foreign currency loss in the second quarter of 2012 compared with a \$218,000 foreign currency gain in the second quarter of 2011. Foreign currency gains and losses reflect changes in business activity conducted in a currency other than the United States dollar (USD), our functional currency. Our Stablex facility is owned by our Canadian subsidiary, whose functional currency is the Canadian dollar (CAD). As part of our treasury management strategy we established intercompany loans between our parent company, US Ecology, and Stablex. These intercompany loans are payable by Stablex to US Ecology in CAD requiring us to revalue the outstanding loan balance through our statements of operations based on USD/CAD currency movements from period to period. At June 30, 2012, we had \$52.5 million of intercompany loans subject to currency revaluation.

Other income. Other income includes non-operating business activities and unusual revenue and expenses. Other income in the second quarter of 2012 was \$522,000 compared with \$73,000 in the second quarter of 2011. The increase primarily reflects \$474,000 of other income recorded in connection with the sale of an excess water right at our Grand View, Idaho property during the second quarter of 2012.

Income tax expense. Our effective tax rate for the second quarter of 2012 was 38.6%, up from 38.5% in the second quarter of 2011. As of June 30, 2012 we had unrecognized tax benefits of \$460,000 (including interest of \$22,000) that, if recognized, would favorably affect the effective tax rate. We expect our full year effective income tax rate to approximate 38.8%.

Table of Contents

SIX MONTHS ENDED JUNE 30, 2012 COMPARED TO SIX MONTHS ENDED JUNE 30, 2011

Revenue. Revenue decreased 1% to \$73.0 million for the first six months of 2012, down from \$73.7 million for the first six months of 2011. An 11% increase in T&D revenue was more than offset by a 50% decrease in transportation service revenue. The decrease in transportation service revenue was due to fewer Event Business projects utilizing the Company's transportation and logistics services.

During the first six months of 2012 we disposed of a total of 476,000 tons of waste, or 15% more than the 415,000 tons disposed of in the first six months of 2011. Average selling price decreased 3% during the first six months of 2012 compared to the first six months of 2011 as a result of a relatively higher volume of direct disposal material and other changes in service mix.

Dynecol, which was acquired on May 31, 2012, contributed \$1.1 million of total revenue during the first six months of 2012. Revenue from Dynecol is excluded from quarterly percentages of Base and Event Business and customer category information in the following paragraphs.

During the first six months of 2012, T&D revenue from recurring Base Business customers was 16% higher than the first six months of 2011 and comprised 68% of T&D revenue. This compares to 63% of T&D revenue in the first six months of 2011. As discussed further below, this increase primarily reflects higher broker and other industry Base Business T&D revenue.

Event Business revenue in the first six months of 2012 decreased 4% compared to the first six months of 2011 and was 32% of T&D revenue for the first six months of 2012. This compares to 37% of T&D revenue in the first six months of 2011. As discussed further below, this decrease primarily reflects lower private clean-up Event Business T&D revenue, partially offset by higher broker Event Business T&D revenue.

The following table summarizes our second quarter 2012 revenue growth (both Base and Event Business) by customer type as compared with the first six months of 2011.

**Treatment and Disposal Revenue Growth
Six Months Ended June 30, 2012 vs.
Six Months Ended June 30, 2011**

Other industry	28%
Broker	24%
Government	-2%
Rate regulated	-6%
Refinery	-15%
Private clean-up	-44%

Our other industry revenue category increased 28% in the first six months of 2012 compared to the first six months of 2011 on strong shipments from the broadly diversified group of industrial customers we serve.

Edgar Filing: US ECOLOGY, INC. - Form 10-Q

Our broker business increased 24% in the first six months of 2012 compared to the first six months of 2011. This increase was the result of shipments across our broad range of government and industry waste generators directly served by our multiple broker customers including higher volumes of brokered thermal recycling projects.

Government clean-up business revenue decreased 2% in the first six months of 2012 compared to the first six months of 2011. This decrease primarily reflects lower shipments from the USACE in the first six months of 2012 compared to the first six months of 2011. Event Business under our USACE contract contributed \$5.2 million, or 7%, of total revenue in the first six months of 2012 compared to \$7.4 million, or 10%, of total revenue in the first six months of 2011. Excluding transportation service revenue, T&D revenue with the USACE decreased approximately 11% in the first six months of 2012 compared with the first six months of 2011. This decrease was due to project-specific timing at the multiple USACE clean-up sites. No USACE projects served by the Company were cancelled or, to our knowledge, awarded to competitors during the quarter.

Rate-regulated business at our Richland, Washington low-level radioactive waste disposal facility decreased 6% in the first six months of 2012 compared to the first six months of 2011. Our Richland facility operates under a State-approved annual revenue requirement.

Treatment and disposal revenue from our refinery customers decreased 15% in the first six months of 2012 compared to the first six months of 2011. This decrease primarily reflects lower volumes partially offset by improved pricing on thermal recycling projects.

Table of Contents

T&D revenue from private clean-up customers decreased 44% in the first six months of 2012 compared to the first six months of 2011. This decrease primarily reflects the completion of an east coast industrial cleanup project in 2011 that was not fully replaced in the first six months of 2012.

Gross Profit. Gross profit for the first six months of 2012 increased 30% to \$29.4 million, up from \$22.5 million for the first six months of 2011. This increase primarily reflects higher volumes of waste disposed in the first six months of 2012 compared to the first six months of 2011. Gross margin was 40% in the first six months of 2012, up from 31% in the first six months of 2011. T&D gross margin (which excludes transportation revenue and costs) was 45% in the first six months of 2012 compared to 40% in the first six months of 2011. The increase in gross margin and T&D gross margin primarily reflects increased volumes and a favorable service mix in the first six months of 2012 compared to the same period of 2011.

Selling, General and Administrative. As a percentage of total revenue, SG&A expenses for the first six months of 2012 and 2011 were 16% and 14%, respectively. SG&A expenses were \$12.0 million in the first six months of 2012 and \$10.2 million in the first six months of 2011. The increase primarily reflects higher variable incentive compensation resulting from stronger financial performance in the first six months of 2012 compared to the first six months of 2011.

Interest expense. Interest expense for the first six months of 2012 was \$428,000, down from \$882,000 for the first six months of 2011, primarily reflecting lower debt levels and lower interest rates in the first six months of 2012.

Foreign Currency Gain (Loss). We recognized a \$170,000 foreign currency gain in the first six months of 2012 compared with a \$1.5 million foreign currency gain in the first six months of 2011. Foreign currency gains and losses reflect changes in business activity conducted in a currency other than the USD, our functional currency. Our Stablex facility is owned by our Canadian subsidiary, whose functional currency is the CAD. As part of our treasury management strategy we established intercompany loans between our parent company, US Ecology, and Stablex. These intercompany loans are payable by Stablex to US Ecology in CAD requiring us to revalue the outstanding loan balance through our statements of operations based on USD/CAD currency movements from period to period. At June 30, 2012, we had \$52.5 million of intercompany loans subject to currency revaluation.

Other income. Other income includes non-operating business activities and unusual revenue and expenses. Other income for the first six months of 2012 was \$602,000 compared with \$172,000 for the first six months of 2011. The increase primarily reflects \$474,000 of other income recorded in connection with the sale of an excess water right at our Grand View, Idaho property during the first six months of 2012.

Income tax expense. Our effective tax rate for the first six months of 2012 was 38.8%, down from 39.7% for the first six months of 2011. The decrease in our effective tax rate reflects higher earnings and lower non-tax deductible expenses for the first six months of 2012 compared with the first six months of 2011. We expect our full year effective income tax rate to approximate 38.8%. As of June 30, 2012 we had unrecognized tax benefits of \$460,000 (including interest of \$22,000) that, if recognized, would favorably affect the effective tax rate.

CRITICAL ACCOUNTING POLICIES

Financial statement preparation requires management to make estimates and judgments that affect reported assets, liabilities, revenue and expenses and disclosure of contingent assets and liabilities. The accompanying consolidated financial statements are prepared using the same critical accounting policies disclosed in our Annual Report on Form 10-K for the fiscal year ended December 31, 2011.

LIQUIDITY AND CAPITAL RESOURCES

Our primary sources of liquidity are cash and cash equivalents, cash generated from operations and borrowings under the Credit Agreement. At June 30, 2012, we had \$5.9 million in cash and cash equivalents immediately available for operations. We assess our liquidity in terms of our ability to generate cash to fund our operating, investing, and financing activities. Our primary ongoing cash requirements will be to fund operations, capital expenditures, interest, and principal payments and continue paying dividends pursuant to our dividend policy. We believe future operating cash flows will be sufficient to meet our future operating and investing cash needs for the foreseeable future. Furthermore, existing cash balances and availability of additional borrowings under our Credit Agreement provide additional sources of liquidity should they be required.

Operating Activities. For the six months ended June 30, 2012, net cash provided by operating activities was \$15.6 million. This primarily reflects net income of \$10.9 million and depreciation and amortization and accretion of \$8.2 million, partially offset by a decrease in accounts payable and accrued liabilities of \$3.7 million. Impacts on net income are due to the factors discussed above under Results of Operations. The decrease in accounts payable and accrued liabilities is primarily attributable to the payment of fiscal 2011 accrued customer refunds related to our rate-regulated business in Richland, Washington. Days sales outstanding were 68 days as of June 30, 2012, compared to 66 days at December 31, 2011.

Table of Contents

For the six months ended June 30, 2011, net cash provided by operating activities was \$15.2 million. This primarily reflects net income of \$7.9 million, decreases in accounts receivable of \$3.1 million, increases in deferred income tax liabilities of \$690,000 and depreciation and amortization and accretion of \$7.7 million. Partially offsetting these sources of cash were decreases in income tax payable of \$2.5 million and unrealized foreign currency non-cash translation gains of \$1.6 million. The decrease in accounts receivable is primarily attributable to the timing of significant customer payments received in the first six months of 2011. Days sales outstanding were 67 days as of June 30, 2011, compared to 65 days at December 31, 2010.

Investing Activities. For the six months ended June 30, 2012, net cash used in investing activities was \$16.8 million primarily related to our acquisition of Dynecol for \$11.2 million, net of cash acquired, and capital expenditures of \$5.7 million. Significant capital projects included construction of additional disposal capacity at our Grand View, Idaho and Blainville, Québec, Canada locations and equipment purchases at our operating disposal facilities.

For the six months ended June 30, 2011, net cash used in investing activities was \$5.6 million primarily related to capital expenditures of \$5.7 million. Significant capital projects included construction of additional disposal capacity and treatment facility upgrades at our Beatty, Nevada location, construction of a new catalyst handling equipment in Robstown, Texas and equipment purchases at our operating disposal facilities.

Financing Activities. For the six months ended June 30, 2012, net cash provided by financing activities was \$2.7 million, consisting primarily of \$22.0 million of borrowings under the Credit Agreement incurred primarily to finance the Dynecol acquisition, partially offset by repayments under the Credit Agreement of \$12.5 million and payment of dividends to our stockholders of \$6.6 million.

For the six months ended June 30, 2011, net cash used in financing activities was \$11.6 million and included repayments, net of borrowings, on our credit facility of \$5.0 million and payment of dividends to our stockholders of \$6.6 million.

CONTRACTUAL OBLIGATIONS AND GUARANTEES

There were no material changes in the amounts of our contractual obligations and guarantees during the six months ended June 30, 2012. For detailed information on our contractual obligations and guarantees, refer to our Annual Report on Form 10-K for the fiscal year ended December 31, 2011.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We are exposed to changes in interest rates as a result of our borrowings under the Credit Agreement with Wells Fargo. Under the Credit Agreement, revolving loans are available based on the Prime Rate or LIBOR, at the Company's option, plus an applicable margin, which is determined according to a pricing grid under which the interest rate decreases or increases based on our ratio of funded debt to EBITDA. At June 30, 2012, we had \$50.0 million of borrowings on the Reducing Revolving Line of Credit bearing an interest rate of 1.50%. If interest rates were to rise, we would be subject to higher interest payments if outstanding balances remain unchanged. Based on the outstanding indebtedness of \$50.0 million under our Credit Agreement at June 30, 2012, if market rates used to calculate interest expense were to average 1% higher in

the next twelve months, our interest expense would increase by approximately \$500,000.

Foreign Currency Risk

We are subject to currency exposures and volatility because of currency fluctuations. The majority of our transactions are in USD; however, our Stablex subsidiary conducts business in both Canada and the United States. In addition, contracts for services Stablex provides to U.S. customers are generally denominated in USD. During the six months ended June 30, 2012, Stablex transacted approximately 37% of its revenue in USD and at any time has cash on deposit in USD and outstanding USD trade receivables and payables related to these transactions. These USD cash, receivable and payable accounts are vulnerable to foreign currency translation gains or losses. Exchange rate movements also affect the translation of Canadian generated profits and losses into USD.

We established intercompany loans between Stablex and US Ecology, Inc. as part of a tax and treasury management strategy allowing for repayment of third-party bank debt used to complete the acquisition. These intercompany loans are payable using CAD and are subject to mark-to-market adjustments with movements in the CAD. At June 30, 2012, we had \$52.5 million of intercompany loans outstanding between Stablex and US Ecology. During the six months ended June 30, 2012, the CAD strengthened as compared to the USD resulting in a \$252,000 foreign currency translation gain being recognized in the Company's Consolidated Statement of Operations related to the intercompany loans. Based on intercompany balances as of June 30, 2012, a \$0.01 CAD increase or decrease in currency rate compared to the USD at June 30, 2012 would have generated a gain or loss of approximately \$25,000 for the six months ended June 30, 2012.

We had a total pre-tax foreign currency loss of \$921,000 and a total pre-tax foreign currency gain of \$170,000 for the three and six months ended June 30, 2012, respectively. We currently have no foreign exchange contracts, option contracts or other foreign currency hedging arrangements. Management evaluates the Company's risk position on an ongoing basis to determine whether foreign exchange hedging strategies should be employed.

ITEM 4. CONTROLS AND PROCEDURES

Management of the Company, including the Chief Executive Officer and the Chief Financial Officer of the Company, have evaluated the effectiveness of the Company's disclosure controls and procedures (as defined in Rule 13a-15(e) of the Securities Exchange Act of 1934, as amended (the Exchange Act)) as of June 30, 2012. Based on this evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that our disclosure controls and procedures, including the accumulation and communication of disclosures to the Company's Chief Executive Officer and Chief Financial Officer as appropriate to allow timely decisions regarding required disclosure, are effective to provide reasonable assurance that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified by the rules and forms of the SEC.

There were no changes in our internal control over financial reporting that occurred during the most recently completed fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Table of Contents

PART II - OTHER INFORMATION

Cautionary Statement for Purposes of Safe Harbor Provisions of the Private Securities Litigation Reform Act of 1995

This quarterly report on Form 10-Q contains forward-looking statements within the meaning of the federal securities laws. Statements that are not historical facts, including statements about the Company's beliefs and expectations, are forward-looking statements. Forward-looking statements include statements preceded by, followed by or that include the words may, could, would, should, believe, expect, anticipate, plan, estimate, target, project, intend and similar expressions. These statements include, among others, statements regarding our financial and operating results, strategic objectives and means to achieve those objectives, the amount and timing of capital expenditures, repurchases of its stock under approved stock repurchase plans, the amount and timing of interest expense, the likelihood of our success in expanding our business, financing plans, budgets, working capital needs and sources of liquidity.

Forward-looking statements are only predictions and are not guarantees of performance. These statements are based on management's beliefs and assumptions, which in turn are based on currently available information. Important assumptions include, among others, those regarding demand for Company services, expansion of service offerings geographically or through new or expanded service lines, the timing and cost of planned capital expenditures, competitive conditions and general economic conditions. These assumptions could prove inaccurate. Forward-looking statements also involve known and unknown risks and uncertainties, which could cause actual results to differ materially from those contained in any forward-looking statement. Many of these factors are beyond our ability to control or predict. Such factors include the replacement of non-recurring event clean-up projects, a loss of a major customer, our ability to permit and contract for timely construction of new or expanded disposal cells, our ability to renew our operating permits or lease agreements with regulatory bodies, loss of key personnel, compliance with and changes to applicable laws, rules, or regulations, fluctuations in foreign currency markets, access to insurance, surety bonds and other financial assurances, a deterioration in our labor relations or labor disputes, our ability to perform under required contracts, failure to realize anticipated benefits and operational performance from acquired operations, adverse economic conditions, government funding or competitive pressures, incidents or adverse weather conditions that could limit or suspend specific operations, access to cost effective transportation services, lawsuits, market conditions, our willingness or ability to pay dividends, implementation of new technologies and our ability to effectively close and integrate future acquisitions.

Except as required by applicable law, including the securities laws of the United States and the rules and regulations of the Securities and Exchange Commission (the SEC), we are under no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise. You should not place undue reliance on our forward-looking statements. Although we believe that the expectations reflected in forward-looking statements are reasonable, we cannot guarantee future results or performance. Before you invest in our common stock, you should be aware that the occurrence of the events described in the Risk Factors section in this report could harm our business, prospects, operating results, and financial condition.

Investors should also be aware that while we do, from time to time, communicate with securities analysts, it is against our policy to disclose to them any material non-public information or other confidential commercial information. Accordingly, stockholders should not assume that we agree with any statement or report issued by any analyst irrespective of the content of the statement or report. Furthermore, we have a policy against issuing or confirming financial forecasts or projections issued by others. Thus, to the extent that reports issued by securities analysts contain any projections, forecasts or opinions, such reports are not the responsibility of US Ecology, Inc.

ITEM 1. LEGAL PROCEEDINGS

In April 2012, we received a confidential settlement communication from the United States Environment Protection Agency (U.S. EPA) alleging that the thermal recycling operation at our Robstown, Texas facility does not comply with certain rules and regulations. The communication included a draft consent agreement and final order directed to us and the thermal recycling unit s owner-operator. The U.S. EPA draft consent agreement asserts various technical compliance and permitting violations and proposes corrective actions to resolve the matter as well as proposed total penalties of \$1.4 million against both us and the thermal recycling unit s owner-operator. We do not believe the alleged non-compliance matters represent a threat to human health or the environment and we are presently working with the U.S. EPA, as well as evaluating the matter in consultation with our legal counsel, the owner-operator of the thermal recycling unit and the Texas Department of Environmental Quality, which has direct oversight responsibility for our Robstown facility s operating permit, including the operation of the thermal recycling unit. It is possible that as part of the resolution to this matter we may apply to modify existing or obtain new operating licenses or permits or otherwise make decisions that could limit or eliminate our thermal recycling services, require significant capital expenditures and/or increase operating costs. Such outcomes could result in lower revenue and earnings as well as possible impairment charges for infrastructure improvements supporting operation of the thermal recycling unit. It is also possible that as a result of the U.S. EPA s final position we would be required or voluntarily choose to discontinue thermal recycling services, either temporarily or permanently, and we may pursue legal action in an attempt to avoid such an outcome. For the six months ended June 30, 2012, our thermal recycling service contributed 11% (\$8.1 million) of total revenue and 10% (\$1.8 million) of total operating income. For 2011, our thermal recycling service contributed 11% (\$17.2 million) of total revenue and 11% (\$3.7 million) of total operating income. In response to the EPA s proposal the Company counter-offered to settle the matter for \$260,000. The settlement would be shared between the Company and the thermal recycling unit s owner-operator. Negotiations are ongoing with the EPA, which has neither accepted nor rejected the Company s counter-offer. Based on the Company s counter-offer, we recognized a charge of \$130,000 during the second quarter of 2012 in Selling, general and administrative expenses in the Consolidated Statement of Operations related to this matter.

Table of Contents

Other than the above matter, we are not currently a party to any material pending legal proceedings and are not aware of any other claims that could have a materially adverse effect on our financial position, results of operations or cash flows.

None.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES

None.

ITEM 4. MINE SAFETY DISCLOSURES

Not applicable.

ITEM 5. OTHER INFORMATION

On August 1, 2012, our Board of Directors (Board) approved discretionary cash incentive payments to the following executive officers in recognition of our financial results for the three and six month periods ended June 30, 2012 in addition to the significant effort undertaken in connection with the acquisition of Dynecol, Inc. that closed on May 31, 2012. The executive officers and incentive payments are as follow:

Executive Officer	Incentive Payment
-------------------	-------------------

Edgar Filing: US ECOLOGY, INC. - Form 10-Q

Jeffrey R. Feeler <i>Vice President and CFO</i>	\$	50,000
Steven D. Welling <i>Sr. Vice President of Sales & Marketing</i>	\$	42,500
Simon G. Bell <i>Vice President of Operations</i>	\$	42,500
Eric L. Gerratt <i>Vice President and Controller</i>	\$	30,000
John Cooper <i>Vice President and CIO</i>	\$	25,000

Additionally, on August 1, 2012, the Board adopted a policy to clarify the Board's interpretation of the provisions of the executive officers employment contracts and management incentive plans in which the executive officers participate. The Board's policy provides that in event of the termination of employment of an executive officer without cause by the Company or for good reason by the officer, any cash incentive earned under any management incentive plan will be paid on a pro-rata basis based on the number of days the executive officer was employed by the Company during the fiscal year in which employment was terminated. Any such payment will be made in accordance with the terms of any management incentive plan in effect at the time, except that any requirement that the recipient must be an employee at the time of payment would not apply.
