SUMMIT HOTEL PROPERTIES, INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

Note 1 - Description of Business

Summit Hotel Properties, Inc. (the Company) is a self-managed hotel investment company that was organized on June 30, 2010 as a Maryland corporation. The Company holds both general and limited partnership interests in Summit Hotel OP, LP (the Operating Partnership), a Delaware limited partnership also organized on June 30, 2010. On February 14, 2011, the Company closed on its initial public offering (IPO) of 26,000,000 shares of common stock and a concurrent private placement of 1,274,000 shares of common stock. Effective February 14, 2011, the Operating Partnership and Summit Hotel Properties, LLC (the Predecessor) completed the merger of the Predecessor with and into the Operating Partnership (the Merger). Unless the context otherwise requires, we, us, and our refer to the Company and its subsidiaries.

Summit Hotel OP, LP, the Operating Partnership subsidiary of the Company, filed a Form 15 on December 12, 2013 to voluntarily suspend its duty to file periodic and other reports with the Securities and Exchange Commission (the SEC) and to voluntarily deregister its common units of limited partnership interest under the Securities and Exchange Act of 1934 (the Exchange Act). As a result of filing the Form 15 with the SEC, the Operating Partnership is no longer required to file annual, quarterly or periodic reports with the SEC. The filing of the Form 15 by the Operating Partnership does not affect the registration of the Company's common stock under the Exchange Act or the Company's obligations as a reporting issuer under the Exchange Act.

At September 30, 2014, our portfolio consisted of 91 upscale and upper midscale hotels with a total of 11,589 guestrooms located in 21 states. We have elected to be taxed as a real estate investment trust (REIT) for federal income tax purposes commencing with our short taxable year ended December 31, 2011. To qualify as a REIT, we cannot operate or manage our hotels. Accordingly, substantially all of our hotels are leased to subsidiaries (TRS Lessees) of our taxable REIT subsidiary (TRS). We indirectly own 100% of the outstanding equity interests in all of our TRS Lessees.

Note 2 Basis of Presentation and Significant Accounting Policies

Basis of Presentation

The accompanying consolidated financial statements of the Company consolidate the accounts of the Company and all entities that are controlled by ownership of a majority voting interest as well as variable interest entities for which the company is the primary beneficiary. All significant intercompany balances and transactions have been eliminated in the consolidated financial statements.

We prepared these consolidated financial statements in conformity with U.S. generally accepted accounting principles (GAAP) for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X of the Exchange Act. Accordingly, they do not include all of the information and footnotes required by GAAP for complete audited consolidated financial statements. In the opinion of

Edgar Filing: Summit Hotel Properties, Inc. - Form 10-Q

management, all adjustments (consisting of normal recurring items) considered necessary for a fair presentation in accordance with GAAP have been included. Results for the three and nine months ended September 30, 2014 may not be indicative of the results that may be expected for the full year 2014. For further information, please read the financial statements included in our Form 10-K for the year ended December 31, 2013.

Segment Disclosure

Accounting Standards Codification (ASC), ASC 280, Segment Reporting, establishes standards for reporting financial and descriptive information about an enterprise's reportable segments. We have determined that we have one reportable segment, with activities related to investing in real estate. Our investments in real estate are geographically diversified and the chief operating decision makers evaluate operating performance on an individual asset level. As each of our assets has similar economic characteristics, the assets have been aggregated into one reportable segment.

Table of Contents

Assets Held for Sale and Discontinued Operations

We classify assets as held for sale in the period in which certain criteria are met, including when the sale of the asset within one year is probable. Assets held for sale are no longer depreciated and are carried at the lower of carrying amount or fair value, less selling costs.

Historically, we presented the results of operations of hotel properties that had been sold or otherwise qualified as assets held for sale in discontinued operations if the operations and cash flows of the hotel properties had been or would be eliminated from our ongoing operations. Following adoption of ASU 2014-08 (see *New Accounting Standards* below) in the first quarter of 2014, we anticipate that the majority of future property sales will not be classified as discontinued operations.

We periodically review our hotel properties and our land held for development based on established criteria such as age, type of franchise, adverse economic and competitive conditions, and strategic fit, to identify properties which we believe are either non-strategic or no longer complement our business.

Non-controlling Interests

Non-controlling interests represent the portion of equity in a subsidiary held by owners other than the consolidating parent. Non-controlling interests are reported in the consolidated balance sheets within equity, separately from stockholders' equity. Revenue, expenses and net income (loss) attributable to both the Company and the non-controlling interests are reported in the consolidated statements of operations.

Our consolidated financial statements include non-controlling interests related to common units of limited partnership interests (*Common Units*) in the Operating Partnership held by unaffiliated third parties and, prior to the second quarter of 2014, third-party ownership of a 19% interest in a consolidated joint venture.

Income Taxes

We have elected to be taxed as a REIT under certain provisions of the Internal Revenue Code. To qualify as a REIT, we must meet certain organizational and operational requirements, including a requirement to distribute annually to our stockholders at least 90% of our REIT taxable income, determined without regard to the deduction for dividends paid and excluding net capital gains, which does not necessarily equal net income as calculated in accordance with GAAP. As a REIT, we generally will not be subject to federal income tax (other than taxes paid by our TRS) to the extent we distribute 100% of our REIT taxable income to our stockholders. If we fail to qualify as a REIT in any taxable year, we will be subject to federal income tax on our taxable income at regular corporate income tax rates and generally will be unable to re-elect REIT status until the fifth calendar year after the year in which we failed to qualify as a REIT, unless we satisfy certain relief provisions.

Edgar Filing: Summit Hotel Properties, Inc. - Form 10-Q

We account for federal and state income taxes of our TRS using the asset and liability method. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between carrying amounts of existing assets and liabilities based on GAAP and respective carrying amounts for tax purposes, and operating losses and tax-credit carryforwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date of the change in tax rates. However, deferred tax assets are recognized only to the extent that it is more likely than not they will be realized based on consideration of available evidence, including future reversals of taxable temporary differences, future projected taxable income and tax planning strategies.

Table of Contents

Fair Value Measurement

Fair value measures are classified into a three-tiered fair value hierarchy, which prioritizes the inputs used in measuring fair value as follows:

Level 1: Observable inputs such as quoted prices in active markets.

Level 2: Directly or indirectly observable inputs, other than quoted prices in active markets.

Level 3: Unobservable inputs in which there is little or no market data, which require a reporting entity to develop its own assumptions.

Assets and liabilities measured at fair value are based on one or more of the following valuation techniques:

Market approach: Prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities.

Cost approach: Amount required to replace the service capacity of an asset (replacement cost).

Income approach: Techniques used to convert future amounts to a single amount based on market expectations (including present-value, option-pricing, and excess-earnings models).

Our estimates of fair value were determined using available market information and appropriate valuation methods. Considerable judgment is necessary to interpret market data and develop estimated fair value. The use of different market assumptions or estimation methods may have a material effect on the estimated fair value amounts. We classify assets and liabilities in the fair value hierarchy based on the lowest level of input that is significant to the fair value measurement.

We elected not to use the fair value option for cash and cash equivalents, restricted cash, trade receivables, prepaid expenses and other, debt, accounts payable, and accrued expenses. With the exception of our fixed-rate debt, the carrying amounts of these financial instruments approximate their fair values due to their short-term nature or variable interest rates.

New Accounting Standards

In April 2014, the FASB issued ASU No. 2014-08, Presentation of Financial Statements (Topic 205) and Property, Plant, and Equipment (Topic 360): Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity. The ASU changed the criteria for reporting discontinued operations while enhancing related disclosures. Criteria for discontinued operations will now include only disposals that represent a strategic shift in operations with a major effect on operations and financial results. The ASU is to be applied on a prospective basis and would be effective for us beginning January 1, 2015; however, we have elected early adoption in the first quarter of 2014, which is permitted for disposals and classifications as held for sale, which have not been reported previously. While we have elected early adoption for our consolidated financial statements and footnote disclosures, the AmericInn Hotel & Suites, Aspen Hotel & Suites and Hampton Inn in Fort Smith, AR will be included in discontinued operations as these hotels were classified as held for sale in our consolidated financial statements in prior periods. The AmericInn Hotel & Suites and Aspen Hotel & Suites were sold in January 2014. The Hampton Inn in Fort Smith, AR was sold in September 2014.

Edgar Filing: Summit Hotel Properties, Inc. - Form 10-Q

On May 28, 2014, the FASB issued ASU No. 2014-09, Revenue from Contracts with Customers, which requires an entity to recognize the amount of revenue to which it expects to be entitled for the transfer of promised goods or services to customers. The ASU will replace most existing revenue recognition guidance in U.S. GAAP when it becomes effective. The new standard is effective for the Company on January 1, 2017 and early adoption is not permitted. The standard permits the use of either the retrospective or cumulative effect transition method. The Company is evaluating the effect that ASU 2014-09 will have on its consolidated financial statements and related disclosures. The Company has not yet selected a transition method nor has it determined the effect of the standard on its consolidated financial statements.

In August 2014, the FASB issued ASU No. 2014-15, Disclosure of Uncertainties about an Entity's Ability to Continue as a Going Concern, which requires management to perform interim and annual assessments of an entity's ability to continue as a going concern within one year of the date the financial statements are issued and provides guidance on determining when and how to disclose going concern uncertainties in the financial statements. Certain disclosures will be required if conditions give rise to substantial doubt about an entity's ability to continue as a going concern. This guidance is effective for the Company on January 1, 2017.

Note 6 - Debt

Our debt is comprised of a senior unsecured credit facility and mortgage loans secured by various hotel properties. The weighted average interest rate, after giving effect to our interest rate derivatives, for all borrowings was 4.40% at September 30, 2014 and 5.03% at December 31, 2013. Our total fixed-rate and variable-rate debt, after giving effect to our interest rate derivatives, follows (in thousands):

	September 30, 2014		December 31, 2013
Fixed-rate debt	\$ 469,604	\$	358,590
Variable-rate debt	154,699		76,999

Fixed-rate debt not recorded at fair value	\$ 366,627	\$ 353,076	\$ 329,544	\$ 319,429	Level 2 - Market approach

At September 30, 2014 and December 31, 2013, we had variable rate debt of \$103.0 million and \$104.0 million, respectively, which had effectively been converted to fixed interest rates through derivative financial instruments which are carried at fair value. Differences between carrying value and fair value of our fixed-rate debt are primarily due to changes in interest rates. Inherently, fixed-rate debt is subject to fluctuations in fair value as a result of changes in the current market rate of interest on the valuation date. For additional information on our use of derivatives as interest rate hedges, refer to Note 11 - Derivative Financial Instruments and Hedging.

Senior Unsecured Credit Facility

At September 30, 2014, we have a \$300.0 million senior unsecured credit facility. Deutsche Bank AG New York Branch (Deutsche Bank) is the administrative agent and Deutsche Bank Securities Inc. is the sole lead arranger. The syndication of lenders includes Deutsche Bank; Bank of

America, N.A.; Royal Bank of Canada; Key Bank; Regions Bank; Fifth Third Bank; Raymond James Bank, N.A.; and U.S. Bank National Association. Certain of our existing and future subsidiaries that own or lease an unencumbered asset are required to guaranty this credit facility.

The senior unsecured credit facility is comprised of a \$225.0 million revolving credit facility (the \$225 Million Revolver) and a \$75.0 million term loan (the \$75 Million Term Loan). This credit facility has an accordion feature which will allow us to increase the commitments under the \$225 Million Revolver and the \$75 Million Term Loan by an aggregate of \$100.0 million prior to October 10, 2017. The \$225 Million Revolver will mature on October 10, 2017, which can be extended to October 10, 2018 at our option, subject to certain conditions. The \$75 Million Term Loan will mature on October 10, 2018.

At September 30, 2014, the maximum amount of borrowing permitted under the senior unsecured credit facility was \$300.0 million, of which we had \$203.0 million borrowed, \$13.8 million in standby letters of credit, and \$83.2 million available to borrow.

The loan was amended to bear interest at a fixed rate of 5.39% and the maturity date was extended to April 1, 2020.

On March 28, 2014, we amended two loans with General Electric Capital Corp., cross-collateralized by the Hilton Garden Inn (Lakeshore) and the Hilton Garden Inn (Liberty Park), both located in Birmingham, AL. Both loans were amended to bear interest at a fixed rate of 5.39% and the maturity dates were extended to April 1, 2020.

On May 6, 2014, we closed on a \$25.0 million loan with Compass Bank. The loan carries a variable rate of 30-day LIBOR plus 240 basis points, amortizes over 25 years, and has a May 6, 2020 maturity date. The loan is secured by first mortgage liens on the Hampton Inn & Suites hotels located in San Diego (Poway), CA, Ventura (Camarillo), CA and Fort Worth, TX. The net proceeds from this loan were used to pay down the \$225 Million Revolver.

Pending Hotel Property Acquisition

Edgar Filing: Summit Hotel Properties, Inc. - Form 10-Q

We have a purchase agreement with a hotel property developer to acquire a Hampton Inn & Suites in downtown Minneapolis, MN for \$38.7 million, which price includes change orders to date. The purchase is subject to certain conditions including the completion of construction of the hotel in accordance with agreed upon architectural and engineering designs, receipt of a Hampton Inn & Suites franchise, and receipt of a certificate of occupancy. As this acquisition is contingent upon the satisfaction of these customary closing conditions, there is no assurance that it will be completed.

The Preferred Shares do not have any maturity date and are not subject to mandatory redemption or sinking fund requirement. The Company may not redeem the Series A preferred shares, Series B preferred shares or Series C preferred shares prior to October 28, 2016, December 11, 2017, and March 20, 2018, respectively, except in limited circumstances relating to the Company's continuing qualification as a REIT or in connection with certain changes in control. Non-controlling Interests in Operating Partnership

Pursuant to the limited partnership agreement of our Operating Partnership, beginning on February 14, 2012, the unaffiliated third parties who hold Common Units in our Operating Partnership have the right to cause us to redeem their Common Units in exchange for cash based upon the fair value of an equivalent number of our shares of common stock at the time of redemption; however, the Company has the option to redeem with shares of our common stock on a one-for-one basis. The number of shares of our common stock issuable upon redemption of Common Units may be adjusted upon the occurrence of certain events such as share dividend payments, share subdivisions or combinations.

At September 30, 2014 and December 31, 2013, unaffiliated third parties owned 1,025,307 and 811,425, respectively, of Common Units of the Operating Partnership, representing an approximate 1% limited partnership interest in the Operating Partnership.

We classify outstanding Common Units held by unaffiliated third parties as non-controlling interests in the Operating Partnership, a component of equity in the Company's consolidated balance sheets. The portion of net income (loss) allocated to these Common Units is reported on the Company's consolidated statement of operations as net income (loss) attributable to non-controlling interests of the Operating Partnership.

Non-controlling Interests in Joint Venture

On February 11, 2013, we formed a joint venture with an affiliate of IHG to purchase a Holiday Inn Express & Suites in San Francisco, CA. Prior to June 30, 2014, we owned an 81% controlling interest in the joint venture and our partner owned a 19% interest, which we classified as non-controlling interest in joint venture on our consolidated balance sheets. For the periods prior to June 30, 2014, the portion of net income (loss) allocated to our partner was reported on our consolidated statements of operations as net income (loss) attributable to non-controlling interests in joint venture. On June 30, 2014, we acquired the remaining non-controlling interest for \$8.2 million and the hotel property became wholly-owned by us.

Other Joint Venture Interests

We own a majority interest in a joint venture that owns a fee simple interest in a hotel property and we also own a minority interest in a related joint venture (Leasehold Venture) that holds a leasehold interest in the property. We control the Leasehold Venture as we are the managing member of the entity. Additionally, the majority of the profits and losses of the Leasehold Venture are absorbed by us. As a result, we have concluded that the Leasehold Venture represents a variable interest entity that should be consolidated into our consolidated financial statements. As such, all of the net assets and operating results of the Leasehold Venture are included in our consolidated financial statements for the periods presented.

Note 9 Equity-Based Compensation

Stock options granted may be either incentive stock options or nonqualified stock options. Vesting terms may vary with each grant, and stock option terms are generally five to ten years. We have outstanding equity-based awards in the form of stock options and restricted stock awards. All of our existing equity-based awards are classified as equity awards.

The total option grant was exercised on August 7, 2014 and resulted in the issuance of 4,253 shares of common stock pursuant to a net share settlement. Accordingly, we did not receive any cash consideration upon the exercise of these options.

Time-Based Restricted Stock Awards

On May 28, 2014 and March 1, 2013, respectively, we awarded time-based restricted stock awards for 116,981 and 106,518 shares of common stock to our executive officers and management. These awards vest over a three-year period based on continued service (25%, 25%, and 50% upon completion of each sequential year of service), or upon a change in control, and are subject to the other conditions described in our 2011 Equity Incentive Plan. The holders of these awards have the right to vote the related shares of common stock and receive all dividends declared and paid whether or not vested.

The fair value of time-based restricted stock awards granted is calculated based on the market value on the date of grant.

On the effective date of the severance and release agreement, the restrictions lapsed on 23,035 common shares granted under time-based restricted stock awards.

Performance-Based Restricted Stock Awards

On May 28, 2014 and March 1, 2013, respectively, we awarded performance-based restricted stock awards for 161,935 and 185,572 shares of common stock to our executive officers. These awards vest ratably on January 1 of each year in the three-year period following the grant date subject to the attainment of certain performance goals and continued service, or upon a change in control and are subject to the other conditions described in our 2011 Equity Incentive Plan. The holders of these awards have the right to vote the related shares of common stock and any dividends declared will be accumulated and will be subject to the same vesting conditions as the awards.

Table of Contents

Our performance-based restricted stock awards are market-based awards and are accounted for based on the fair value of our common stock on the grant date. These awards vest based on a performance measurement that requires the Company's total stockholder return (TSR) to exceed the TSR for the SNL U.S. REIT Hotel Index for a designated one, two or three-year performance period. The fair value of performance-based restricted stock awards granted was estimated using a Monte Carlo simulation valuation model.

At September 30, 2014, three of our interest rate swaps were in an asset position and one was in a liability position. We have not posted, and are not required under the terms of the swaps to post, any collateral related to these agreements and are not in breach of any financial provisions of the agreements. If we had breached any agreement provisions at September 30, 2014, we could have been required to settle our obligations under these agreements that were in a liability position at their aggregate termination value, including accrued interest, of \$1.7 million at

Table of Contents**Note 12 Income Tax**

Income taxes for the interim periods presented have been included in our consolidated financial statements on the basis of an estimated annual effective tax rate. Our effective tax rate is affected by the mix of earnings and losses by taxing jurisdictions. Our earnings (losses), other than in our TRS, are not generally subject to federal corporate and state income taxes due to our REIT election.

Due to the decrease in cumulative losses over the past three years, management believes that sufficient positive evidence could become available in the future to reach a conclusion that the valuation allowance will no longer be needed, in whole or in part. Acceleration of improved operating results or significant taxable income from specific non-recurring transactions could further affect this assessment. The likelihood of realizing the benefit of deferred tax assets and the related need for a valuation allowance is assessed on an ongoing basis. This assessment requires estimates and significant management judgment as to future operating results, as well as an evaluation of the effectiveness of our tax planning strategies. At this time, we are not able to reasonably estimate when sufficient positive evidence will require reversals of the valuation allowance or the effect such reversal will have on our effective tax rate.

We recorded an income tax provision attributable to continuing operations of \$0.4 million, \$1.1 million, \$0.8 million and \$1.3 million for the three month periods ended September 30, 2014 and 2013 and the nine month periods ended September 30, 2014 and 2013, respectively. We had no unrecognized tax benefits at September 30, 2014. We expect no significant changes in unrecognized tax benefits within the next year. We recognize interest expense and penalties associated with unrecognized tax benefits as a component of tax expense.

Note 13 Fair Value

The following table presents information about our financial instruments measured at fair value on a recurring basis as of September 30, 2014 and December 31, 2013. In instances in which the inputs used to measure fair value fall into different levels of the fair value hierarchy, we classify assets and liabilities based on the lowest level of input that is significant to the fair value measurement. Our assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment, and considers factors specific to the asset or liability.

Disclosures concerning financial instruments measured at fair value are as follows (in thousands):

Income (loss) from discontinued operations attributable to common stockholders	\$ (58)	\$ (3,258)	\$ 275	\$ (2,398)

As discussed above, we have elected to early adopt ASU No. 2014-08 which changes the criteria for discontinued operations to include only disposals that represent a strategic shift in operations with a major effect on operations and results. While we have elected early adoption for our consolidated financial statements and footnote disclosures, hotels that were classified as held for sale in prior periods will continue to be reported in discontinued operations. Under this ASU, the Company anticipates that the majority of future property sales will not be classified as discontinued operations.

Note 15 Earnings per Share

We apply the two-class method of computing earnings per share, which requires the calculation of separate earnings per share amounts for our non-vested time-based restricted stock awards with nonforfeitable dividends and for our common stock. Our non-vested time-based restricted stock awards with nonforfeitable rights to dividends are considered securities which participate in undistributed earnings with common stock. Under the two-class computation method, net losses are not allocated to participating securities unless the holder of the security has a contractual obligation to share in the losses. Our non-vested time-based restricted stock awards with nonforfeitable dividends do not have such an obligation so they are not allocated losses.

Table of Contents**Overview**

We focus primarily on acquiring and owning premium-branded, select-service hotels in the upscale and upper midscale segments of the U.S. lodging industry, as these segments are currently defined by Smith Travel Research (STR). Since completion of our IPO on February 14, 2011 and through September 30, 2014, we have acquired 49 hotels containing 6,938 guestrooms for purchase prices aggregating \$1.0 billion. As of September 30, 2014, we own 91 hotels containing 11,589 guestrooms located in 21 states. Subsequent to September 30, 2014, we sold one hotel and as of October 31, 2014, we own 90 hotels with 11,463 guestrooms located in 21 states. Except for six hotels, five of which are subject to ground leases and one of which is subject to a PILOT (payment in lieu of taxes) lease, we own our hotels in fee simple. Our hotels are located in markets in which we have extensive experience and that exhibit multiple demand generators, such as business and corporate headquarters, retail centers, airports and tourist attractions.

Almost all of our hotels operate under premium franchise brands owned by Marriott International, Inc. (Marriott) (Courtyard by Marriott®, Residence Inn by Marriott®, SpringHill Suites by Marriott®, Fairfield Inn & Suites by Marriott®, and TownePlace Suites by Marriott®), Hilton Worldwide (Hilton) (DoubleTree by Hilton®, Hampton Inn®, Hampton Inn & Suites®, Homewood Suites® and Hilton Garden Inn®), Intercontinental Hotel Group (IHG) (Holiday Inn®, Holiday Inn Express®, Holiday Inn Express & Suites® and Staybridge Suites®) and an affiliate of Hyatt Hotels Corporation (Hyatt) (Hyatt Place® and Hyatt House®).

We have elected to be taxed as a REIT for federal income tax purposes commencing with our short taxable year ended December 31, 2011. To qualify as a REIT, we cannot operate or manage our hotels. Accordingly, we lease all of our hotels to our TRS lessees.

At September 30, 2014, all of our hotel properties are operated pursuant to hotel management agreements with third party hotel management companies as follows:

Management Company	Number of Properties	Number of Guestrooms
Interstate Management Company, LLC and its affiliate Noble Management Group, LLC	50	5,649
Select Hotel Group, LLC	12	1,681

Stonebridge Realty Advisors, Inc.	1	210
Total	91	11,589

Our TRS lessees may also employ other hotel managers in the future. We do not, and will not, have any ownership or economic interests in any of the hotel management companies engaged by our TRS lessees.

Our revenues are derived from hotel operations and consist of room revenue and other hotel operations revenue. As a result of our focus on premium-branded, select-service hotels in the upscale and upper midscale segments of the U.S. lodging industry, substantially all of our revenues are room revenues generated from sales of hotel rooms. We also generate, to a much lesser extent, other hotel operations revenue, which consists of ancillary revenue related to meeting rooms and other guest services provided at our hotels.

Industry Trends and Outlook

Room-night demand in the U.S. lodging industry is correlated to macroeconomic trends. Key drivers of demand include growth in gross domestic product, or GDP, corporate profits, capital investments and employment. Following periods of recession, recovery of room-night demand for lodging historically has lagged improvements in the overall economy. However, in the economic recovery beginning in early 2010, room-night demand has led improvements in the overall economy. Although we expect that our hotels will continue to realize meaningful RevPAR gains as the economy and lodging industry continue to improve, the risk exists that global and domestic economic conditions may cause the economic recovery to stall, which likely would adversely affect our growth and financial performance expectations.

The U.S. lodging industry is experiencing a positive trend in underlying fundamentals through the first nine months of 2014 that is expected to continue into 2015 as the U.S. economy continues to improve. We have a positive outlook about macro-economic conditions and their effect on room-night demand. While the supply of new hotels under construction has increased and is expected to accelerate in 2015, we expect that our near-term results will not be adversely affected by increased lodging supply in our markets at this time.

 - (2) The amounts reflect actual total renovation costs.
 - (3) The amounts reflect actual-to-date and estimated remaining costs to complete.
 - (4) The purchase price and renovation costs are funded by mortgage debt, advances on our senior unsecured revolving line of credit facility, cash and the issuance of Operating Partnership Common Units described in footnote 1 to this table. Additional information about the mortgage debt financing is provided below in *Outstanding Indebtedness* *Term Loans*.

Of the total renovation costs detailed in the table above, \$22.6 million have been incurred as of September 30, 2014. There is no assurance that our actual renovation costs will not exceed our estimates.

Dispositions

Pursuant to our strategy to continually evaluate our hotel properties and land held for development, we sold three hotel properties in the first nine months of 2014. Historically, when a property was identified as being held for sale, we reclassified the property on our consolidated balance sheets, evaluated for potential impairment and, in the case of a hotel property, reported historical and future results of operations in discontinued operations.

As discussed in the footnotes to the consolidated financial statements, we have elected to early adopt ASU No. 2014-08 which changes the criteria for discontinued operations to include only disposals that represent a strategic shift in operations with a major effect on operations and results. While we have elected early adoption of ASU No. 2014-08, the sale of the AmericInn Hotel & Suites, Aspen Hotel & Suites and Hampton Inn in Fort Smith, AR will be included in discontinued operations as these hotels were classified as held for sale in prior periods. Under this ASU, the Company anticipates that the majority of future property sales will not be classified as discontinued operations.

One hotel was recorded in discontinued operations during the nine months ended September 30, 2014, for which a \$0.4 million impairment charge was recorded during the period. Additional impairments of \$4.3 million were recorded during the nine months ended September 30, 2014 for properties that were not recorded as discontinued operations as a result of the early adoption of ASU No. 2014-08.

Results of Operations

The comparisons that follow should be reviewed in conjunction with the unaudited interim consolidated financial statements included elsewhere in this Quarterly Report on Form 10-Q. As noted above, in the first nine months of 2014, we sold the AmericInn Hotel & Suites, Aspen Hotel & Suites, and Hampton Inn in Fort Smith, AR. As these properties were classified as held for sale prior to the Company's adoption of ASU No. 2014-08, we classified these hotel properties as discontinued operations for the nine month periods ended September 30, 2014 and 2013, and their operating results are not included in the discussion below.

Comparison of Three Months Ended September 30, 2014 with Three Months Ended September 30, 2013

Our total portfolio consisted of 91 hotels at September 30, 2014 and 82 hotels at September 30, 2013, exclusive of hotels classified as discontinued operations. Our same-store portfolio consisted of 66 hotels for the three months ended September 30, 2014 (third quarter of 2014) and the three months ended September 30, 2013 (third quarter of 2013). We define same-store hotels as properties that we own as of the current reporting date and that we have owned for the entire prior fiscal year. Key operating metrics for our total portfolio and same-store portfolio are as follows (dollars in thousands, except ADR and RevPAR):

	Three Months Ended September 30,				Dollar Change		Percentage Change	
	2014		2013		Same-Store		Same-Store	
	Total Portfolio (91 hotels)	Same-Store Portfolio (66 hotels)	Total Portfolio (82 hotels)	Same-Store Portfolio (66 hotels)	Total Portfolio (91/82 hotels)	Same-Store Portfolio (66 hotels)	Total Portfolio (91/82 hotels)	Same-Store Portfolio (66 hotels)

RevPAR	\$ 98.90	\$ 89.67	\$ 83.56	\$ 80.59	\$ 15.34	\$ 9.08	18.4%	11.3%

Revenue. Total revenues, including room and other hotel operations revenues, increased \$27.1 million in the third quarter of 2014 compared with the third quarter of 2013. The increase in revenues is due to an increase in same-store revenues of \$6.6 million and an increase in revenues from the 19 hotel properties acquired in 2013 and six hotel properties acquired in the first nine months of 2014 (the Acquired Hotels) of \$20.5

Edgar Filing: Summit Hotel Properties, Inc. - Form 10-Q

million.

The same-store revenue increase of \$6.6 million, or 11.3%, was due to increases in occupancy to 78.9% in the third quarter of 2014 compared with 75.7% in the third quarter of 2013, and an increase in ADR to \$113.71 in the third quarter of 2014 from \$106.54 in the third quarter of 2013. The increases in occupancy and ADR resulted in an 11.3% increase in same-store RevPAR to \$89.67 in the third quarter of 2014 compared with \$80.59 in the third quarter of 2013. These increases were due to the improving economy, hotel industry fundamentals and capital improvements made at 17 hotel properties in 2013.

A summary of our hotel operating expenses for our same-store portfolio (66 hotels) for third quarter of 2014 and 2013 follows (dollars in thousands):

	Three Months Ended September 30,		Percentage Change	Percentage of Revenue	
	2014	2013		Three Months Ended September 30, 2014	2013
Rooms expense	\$ 16,404	\$ 15,792	3.9%	25.1%	26.9%

Total hotel operating expenses	\$ 41,852	\$ 38,876	7.7%	64.0%	66.2%

Hotel Operating Expenses. Hotel operating expenses increased \$14.4 million in the third quarter of 2014 compared with the third quarter of 2013. The increase is due in part to the additional operating expenses from the Acquired Hotels of \$11.4 million. In addition, the increase in same-store hotel operating expenses is due to \$3.0 million of variable costs related to the increase in revenue. Expenses at the same-store hotels declined as a percentage of revenue from 66.2% in the third quarter of 2013 to 64.0% in the third quarter of 2014 due to consistent fixed expenses despite increasing revenues at the same-store hotel properties.

Table of Contents

Depreciation and Amortization. Depreciation and amortization expense increased \$3.0 million in the third quarter of 2014 compared with third quarter of 2013, primarily due to the depreciation associated with the Acquired Hotels.

Corporate General and Administrative. Corporate general and administrative expenses increased by \$2.8 million in the third quarter of 2014 compared with third quarter of 2013. The increase in expense was primarily due to increases in equity-based compensation of \$0.7 million, expenses related to the transition of directors and executive officers of \$0.2 million, and an increase in bonus accruals of \$1.6 million based on year-to-date performance.

Other Income/Expense. The \$0.1 million reduction in other expense, net was primarily due to an increase in other income (expense) of \$1.0 million offset by an increase in interest expense of \$0.9 million.

Revenue. Total revenues, including room and other hotel operations revenues, increased \$83.3 million in the first nine months of 2014 compared with the first nine months of 2013. The increase in revenues is due to an increase in same-store revenues of \$16.2 million and a \$67.1 million increase in revenues from the Acquired Hotels.

The same-store revenue increase of \$16.2 million, or 9.5%, was due to an increase in occupancy to 76.9% in the first nine months of 2014 compared with 74.3% in the first nine months of 2013, and an increase in ADR to \$111.94 in the first nine months of 2014 from \$105.68 in the first nine months of 2013. The increases in occupancy and ADR resulted in a 9.5% increase in same-store RevPAR to \$86.06 in the first nine months of 2014 compared with \$78.56 in the first nine months of 2013. These increases were due to the improving economy and hotel industry fundamentals and capital improvements made at 17 hotel properties in 2013.

A summary of our hotel operating expenses for our same-store portfolio (66 hotels) for the first nine months of 2014 and the first nine months of 2013 follows (dollars in thousands):

Hotel Operating Expenses. Hotel operating expenses increased \$50.5 million in the first nine months of 2014 compared with the first nine months of 2013. The increase is due in part to a \$41.3 million increase in operating expenses at the Acquired Hotels. In addition, the increase in same-store hotel operating expenses is due to \$9.2 million of variable costs related to the increase in revenue. Expenses at the same-store hotels declined as a percentage of revenue from 66.1% in the first nine months of 2013 to 65.3% in the first nine months of 2014, due to consistent fixed expenses despite increasing revenues at the same-store hotel properties.

Table of Contents

Depreciation and Amortization. Depreciation and amortization expense increased \$11.7 million in the first nine months of 2014 compared with the first nine months of 2013, primarily due to the depreciation associated with the Acquired Hotels.

Corporate General and Administrative. Corporate general and administrative expenses increased \$5.3 million in the first nine months of 2014 compared with the first nine months of 2013. Approximately \$1.0 million of the increase was due to increased professional fees and expenses related to establishing new procedures and systems for intercompany account reconciliations, as well as performing the reconciliation of the balance sheets of individual hotels and our consolidated balance sheets for the years ended 2013 and 2012. Additional increases in expenses were due to increases in equity-based compensation of \$1.2 million, expenses related to the transition of directors and executive officers of \$0.8 million, and an increase in bonus accruals of \$1.1 million based on year-to-date performance.

Other Income/Expense. The \$4.2 million increase in other expense, net in the first nine months of 2014 compared with the first nine months of 2013 was primarily the result of an increase in interest expense on debt incurred to finance the acquisition of the Acquired Hotels. This increase was slightly offset by an increase in other income (expense) of \$1.0 million.

Cash Flows

The increase in net cash provided by operating activities of \$32.8 million for the first nine months of 2014 compared with the first nine months of 2013 primarily resulted from a \$22.5 million increase in earnings, before depreciation and amortization. The increase in depreciation and amortization was primarily related to the Acquired Hotels. Additionally, the change in prepaid expenses was lower for the first nine months of 2014 compared with the first nine months of 2013 due to lower acquisition activity during the nine months ended September 30, 2014, which resulted in lower escrow balances related to the acquisition of properties during the period.

The \$228.5 million decrease in net cash used in investing activities for the first nine months of 2014 compared with the first nine months of 2013 primarily resulted from a \$210.7 million decrease in acquisitions of hotel properties, a \$37.8 million change in restricted cash due to net cash reserves of \$18.2 million being released during the nine months ended September 30, 2014 compared to a net cash reserve increase of \$19.6 million during the nine months ended September 30, 2013, and a \$10.1 million reduction in investments in hotels under development; partially offset by an \$8.2 million payment to acquire the remaining 19% non-controlling interest in a joint venture that owns the Holiday Inn Express & Suites in San Francisco, CA and a \$21.9 million change in net proceeds from asset dispositions.

The \$304.6 million decrease in net cash provided by financing activities for the first nine months of 2014 compared with the first nine months of 2013 resulted from a \$389.4 million decrease in proceeds from equity offerings, a decrease in proceeds from issuance of debt of \$159.7 million and an \$8.4 million increase in dividends and distributions, partially offset by a \$251.2 million decrease in payments on debt.

Table of Contents**Discontinued Operations**

Pursuant to our strategy, we continually evaluate our hotel properties for potential sale and redeployment of capital. Historically, when a hotel property was sold or identified as being held for sale, we reported its historical and future results of operations, including impairment charges, in discontinued operations. As discussed above, while we have elected early adoption of ASU No. 2014-08 for our consolidated financial statements and footnote disclosures, hotels that were classified as held for sale in prior periods will continue to be reported in discontinued operations. In the first nine months of 2014, we reported the following hotel properties in discontinued operations:

- AmericInn Hotel & Suites in Fort Smith, AR
- Aspen Hotel & Suites in Fort Smith, AR
- Hampton Inn in Fort Smith, AR

The AmericInn Hotel & Suites and the Aspen Hotel & Suites located in Fort Smith, AR were sold on January 17, 2014. The Hampton Inn in Fort Smith, AR was sold on September 9, 2014.

Non-GAAP Financial Measures

Edgar Filing: Summit Hotel Properties, Inc. - Form 10-Q

We consider funds from operations (FFO) and earnings before interest, taxes, depreciation and amortization (EBITDA), both of which are non-GAAP financial measures, to be useful to investors as key supplemental measures of our operating performance.

We caution investors that amounts presented in accordance with our definitions of FFO and EBITDA may not be comparable to similar measures disclosed by other companies, since not all companies calculate these non-GAAP measures in the same manner. FFO and EBITDA should be considered along with, but not as alternatives to, net income (loss) as a measure of our operating performance. FFO and EBITDA may include funds that may not be available for our discretionary use due to functional requirements to conserve funds for capital expenditures, property acquisitions, debt service obligations and other commitments and uncertainties. Although we believe that FFO and EBITDA can enhance the understanding of our financial condition and results of operations, these non-GAAP financial measures are not necessarily better indicators of any trend as compared to a comparable GAAP measure such as net income (loss).

Table of Contents**Funds From Operations**

As defined by the National Association of Real Estate Investment Trusts, (NAREIT), FFO represents net income or loss (computed in accordance with GAAP), excluding preferred dividends, gains (or losses) from sales of property, impairment, items classified by GAAP as extraordinary, the cumulative effect of changes in accounting principles, plus depreciation and amortization, and adjustments for unconsolidated partnerships and joint ventures. We present FFO because we consider it an important supplemental measure of our operational performance and believe it is frequently used by securities analysts, investors and other interested parties in the evaluation of REITs, many of which present FFO when reporting their results. FFO is intended to exclude GAAP historical cost depreciation and amortization, which assumes that the value of real estate assets diminishes ratably over time. Historically, however, real estate values have risen or fallen with market conditions. Because FFO excludes depreciation and amortization unique to real estate, gains and losses from property dispositions and impairment losses, it provides a performance measure that, when compared year over year, reflects the effect to operations from trends in occupancy, room rates, operating costs, development activities and interest costs, providing perspective not immediately apparent from net income. Our computation of FFO differs from the NAREIT definition and may differ from the methodology for calculating FFO utilized by other equity REITs and, accordingly, may not be comparable to such other REITs because the amount of depreciation and amortization we add back to net income or loss includes amortization of deferred financing costs and amortization of franchise royalty fees. FFO should not be considered as an alternative to net income (loss) (computed in accordance with GAAP) as an indicator of our liquidity, nor is it indicative of funds available to fund our cash needs, including our ability to pay dividends or make distributions.

The following is a reconciliation of our GAAP net income to FFO for the three and nine months ended September 30, 2014 and 2013 (in thousands):

EBITDA represents net income or loss, excluding: (i) interest, (ii) income tax expense and (iii) depreciation and amortization. We believe EBITDA is useful to an investor in evaluating our operating performance because it provides investors with an indication of our ability to incur and service debt, to satisfy general operating expenses, to make capital expenditures and to fund other cash needs or reinvest cash into our business. We also believe it helps investors meaningfully evaluate and compare the results of our operations from period to period by removing the effect of our asset base (primarily depreciation and amortization) from our operating results. Our management also uses EBITDA as one measure in determining the value of acquisitions and dispositions.

The following is a reconciliation of our GAAP net income to EBITDA for the three and nine months ended September 30, 2014 and 2013 (in thousands):

Liquidity and Capital Resources

Our short-term liquidity requirements consist primarily of operating expenses and other expenditures directly associated with our hotel properties, recurring maintenance and capital expenditures necessary to maintain our hotel properties in accordance with brand standards, capital expenditures to improve our hotel properties, acquisitions, interest expense and scheduled principal payments on outstanding indebtedness, note funding obligations, and distributions to our stockholders.

Our long-term liquidity requirements consist primarily of the costs of acquiring additional hotel properties, renovations and other non-recurring capital expenditures that periodically are made with respect to our hotel properties, and scheduled debt payments, including maturing loans.

To satisfy the requirements for qualification as a REIT, we must meet a number of organizational and operational requirements, including a requirement that we distribute annually at least 90% of our REIT taxable income to our stockholders, determined without regard to the deduction for dividends paid and excluding any net capital gains. We intend to distribute a sufficient amount of our taxable income to maintain our status

Edgar Filing: Summit Hotel Properties, Inc. - Form 10-Q

as a REIT and to avoid tax on undistributed income. Therefore, if sufficient funds are not available to us from hotel dispositions, our senior unsecured revolving credit facility and mortgage loans, we will need to raise additional capital to grow our business and invest in additional hotel properties.

We expect to satisfy our liquidity requirements with cash provided by operations, working capital, and short-term borrowings under our senior unsecured revolving credit facility. In addition, we may fund the purchase price of hotel acquisitions and cost of required capital improvements by borrowing under our senior unsecured revolving credit facility, assuming existing mortgage debt, issuing securities (including Common Units issued by the Operating Partnership), or incurring other mortgage debt. Further, we may seek to raise capital through public or private offerings of our equity or debt securities. However, certain factors may have a material adverse effect on our ability to access these capital sources, including our degree of leverage, the value of our unencumbered hotel properties, borrowing restrictions imposed by lenders and market conditions. We will continue to analyze which sources of capital are most advantageous to us at any particular point in time, but financing may not be consistently available to us on terms that are attractive, or at all. We believe that our cash provided by operations, working capital, borrowings available under our senior unsecured revolving credit facility and other sources of funds available to us will be sufficient to meet our ongoing liquidity requirements for at least the next 12 months.

Restricted Cash

During the second quarter of 2014, we submitted requests to our lenders for the release of approximately \$20.0 million of our restricted cash. This cash was released to the Company during the third quarter of 2014. The balance of restricted cash at September 30, 2014 was \$35.3 million, and we anticipate that the balance will be released to us as we meet the usage requirements to satisfy the restrictions. However, no assurance can be given that the balance of our restricted cash will become available to us to satisfy our short or long-term liquidity needs.

Table of Contents**Outstanding Indebtedness**

At September 30, 2014, we had \$421.3 million in debt secured by mortgages on 49 hotel properties. We also had \$203.0 million outstanding under our senior unsecured credit facility that was supported by 37 hotel properties unencumbered by mortgage debt.

A summary of our debt at September 30, 2014 is as follows (dollars in thousands):

Senior Unsecured Credit Facility

At September 30, 2014, we have a \$300.0 million senior unsecured credit facility. Deutsche Bank AG New York Branch (Deutsche Bank) is the administrative agent and Deutsche Bank Securities Inc. is the sole lead arranger. The syndication of lenders includes Deutsche Bank, Bank of America, N.A., Royal Bank of Canada, Key Bank, Regions Bank, Fifth Third Bank, Raymond James Bank, N.A., and U.S. Bank National Association. Certain of our existing and future subsidiaries that own or lease an unencumbered asset, as described below, will be required to guaranty this credit facility.

The senior unsecured credit facility is comprised of a \$225.0 million revolving credit facility (the \$225 Million Revolver) and a \$75.0 million term loan (the \$75 Million Term Loan). This credit facility has an accordion feature which will allow us to increase the commitments under the \$225 Million Revolver and the \$75 Million Term Loan by an aggregate of \$100.0 million prior to October 10, 2017. The \$225 Million Revolver will mature on October 10, 2017, which can be extended to October 10, 2018 at our option, subject to certain conditions. The \$75 Million Term Loan will mature on October 10, 2018.

Outstanding borrowings on this credit facility are limited to the least of (i) the aggregate commitments of all of the lenders, (ii) the aggregate value of the unencumbered assets, less our consolidated unsecured indebtedness, all as calculated pursuant to the terms of the credit facility documentation, multiplied by 60%, and (iii) the principal amount that when drawn under the credit facility would result in an unsecured interest expense, calculated on a pro forma basis for the next consecutive four fiscal quarters after taking such draws into account, equal to 50% of the net operating income of the unencumbered assets, as adjusted pursuant to the credit facility documentation.

Payment Terms. We are obligated to pay interest at the end of each selected interest period, but not less than quarterly, with all outstanding principal and accrued but unpaid interest due at the maturity. We have the right to pay all or any portion of the outstanding borrowings from time to time without penalty or premium. We pay interest on advances at varying rates, based upon, at our option, either (i) 1, 2, 3, or 6-month LIBOR, plus a LIBOR margin between 1.75% and 2.50%, depending upon our leverage ratio (as defined in the credit facility documentation), or (ii) the applicable base rate, which is the greatest of the administrative agent's prime rate, the federal funds rate plus 0.50%, or 1-month LIBOR plus 1.00%, plus a base rate margin between 0.75% and 1.50%, depending upon our leverage ratio. In addition, on a quarterly basis, we are required to pay a fee on the unused portion of the credit facility equal to the unused amount multiplied by an annual rate of either (i) 0.30%, if the unused amount is equal to or greater than 50% of the maximum aggregate amount of the credit facility, or (ii) 0.20%, if the unused amount is less than 50% of the maximum aggregate amount of the credit facility.

Financial and Other Covenants. We are required to comply with a series of financial and other covenants to borrow under this credit facility. The material financial covenants include a maximum leverage ratio, a minimum consolidated tangible net worth, a maximum dividend payout ratio, a minimum consolidated fixed charge coverage ratio, a maximum ratio of secured indebtedness to total asset value, a maximum ratio of secured recourse indebtedness to total asset value, a maximum ratio of consolidated unsecured indebtedness to total unencumbered asset value, and a maximum ratio of unencumbered adjusted net operating income to assumed unsecured interest expense.

We are also subject to other customary covenants, including restrictions on investment and limitations on liens and maintenance of properties. This credit facility also contains customary events of default, including, among others, the failure to make payments when due under the terms of any of the credit facilities, breach of any covenant continuing beyond any cure period, and bankruptcy or insolvency.

Edgar Filing: Summit Hotel Properties, Inc. - Form 10-Q

Unencumbered Assets. This credit facility is unsecured; however, borrowings are limited by the value of hotel properties that qualify as unencumbered assets supporting this credit facility. At September 30, 2014, 37 of our hotel properties qualify as, and are deemed to be, unencumbered assets that support this credit facility. Among other conditions, unencumbered assets must not be subject to liens or security interests, and the owner and operating lessee of such unencumbered asset must execute a guaranty supplement pursuant to which the owner and operating lessee become subsidiary guarantors of the credit facility. In addition, hotel properties may be added to or removed from the unencumbered asset pool at any time so long as there is a minimum of 20 hotel properties in the unencumbered asset pool, the unencumbered assets meet certain diversity requirements (such as limits on concentrations in any particular market), and the then-current borrowings on the credit facility do not exceed the maximum available under the credit facility given the availability limitations described above. Further, to be eligible as an unencumbered asset, the hotel property must: be franchised with a nationally-recognized franchisor; have been in operation a minimum of one year; satisfy certain ownership, management and operating lessee criteria; and not be subject to material defects, such as liens, title defects, environmental contamination and other standard lender criteria.

Table of Contents

At September 30, 2014, the maximum amount of borrowing permitted under the senior unsecured credit facility was \$300.0 million, of which we had \$203.0 million borrowed, \$13.8 million in standby letters of credit and \$83.2 million available to borrow under the \$225 Million Revolver.

At October 31, 2014, 36 of our unencumbered hotel properties are included in the borrowing base which supports the senior unsecured credit facility. As a result, the maximum amount of borrowing permitted under the senior unsecured credit facility was \$300.0 million, of which we had \$195.0 million borrowed, \$13.8 million in standby letters of credit and \$91.2 million available to borrow.

Term Loans

At September 30, 2014, we had \$496.3 million in term loans outstanding. These term loans are secured primarily by first mortgage liens on hotel properties.

On January 9, 2014, as part of our acquisition of the 182-guestroom Hilton Garden Inn in Houston, TX, we assumed a \$17.8 million mortgage loan with a fixed interest rate of 6.22%, an amortization period of 30 years, and a maturity date of November 1, 2016.

On January 10, 2014, as part of our acquisition of the 98-guestroom Hampton Inn in Santa Barbara (Goleta), CA, we assumed a \$12.0 million mortgage loan with a fixed interest rate of 6.133%, an amortization period of 25 years, and a maturity date of November 11, 2021.

On March 14, 2014, as part of our acquisition of the 210-guestroom DoubleTree by Hilton in San Francisco, CA, we assumed a \$13.3 million mortgage loan with a fixed interest rate of 5.98%, an amortization period of 30 years, and a maturity date of March 8, 2016.

On March 28, 2014, we amended two loans with GE Capital Financial, cross - collateralized by the Courtyard by Marriott and the SpringHill Suites by Marriott, both located in Scottsdale, AZ. The loans were amended to bear interest at a fixed rate of 5.39% and the maturity date was extended to April 1, 2020.

On March 28, 2014, we amended two loans with General Electric Capital Corp., cross - collateralized by the Hilton Garden Inn (Lakeshore) and the Hilton Garden Inn (Liberty Park), both located in Birmingham, AL. Both loans were amended to bear interest at a fixed rate of 5.39% and the maturity dates were extended to April 1, 2020.

On May 6, 2014, we closed on a \$25.0 million loan with Compass Bank. The loan carries a variable rate of 30-day LIBOR plus 240 basis points, amortizes over 25 years, and has a May 6, 2020 maturity date. The loan is secured by first mortgage liens on the Hampton Inn & Suites hotels located in San Diego (Poway), CA, Ventura (Camarillo), CA and Fort Worth, TX. The net proceeds from this loan were used to pay down the \$225 Million Revolver.

For additional information regarding our term loans, please read our consolidated financial statements and related notes thereto, appearing elsewhere in this Form 10-Q.

Equity Transactions

On October 1, 2014, we issued 75,733 shares of common stock for Common Units of our Operating Partnership which were tendered for redemption.

Recent Developments

On October 21, 2014, we sold the Country Inn & Suites and an adjacent land parcel of 5.64 acres in San Antonio, TX for \$7.9 million. Proceeds were used to pay down the balance of the \$225 Million Revolver.

Capital Expenditures

In the first nine months of 2014, we spent \$30.1 million on renovations, including \$20.3 million on hotel properties that we owned at the beginning of 2013 and \$9.8 million on hotel properties acquired since the beginning of 2013. We currently have renovations underway at four of our hotel properties. We anticipate spending a total of \$7.0 million to \$10.0 million on hotel property renovations in the remainder of 2014. We expect to fund these renovations with cash provided by operations, working capital, borrowings under our senior unsecured revolving credit facility, and other potential sources of capital, to the extent available to us.

Table of Contents**Off-Balance Sheet Arrangements**

From time to time, we enter into off-balance sheet arrangements to facilitate our operations. At September 30, 2014, we had \$13.8 million in outstanding stand-by letters of credit, of which \$0.7 million was supporting performance bonds related to workers' compensation insurance and other operational matters and \$13.1 million was supporting a purchase agreement for the Hampton Inn & Suites in downtown Minneapolis, MN.

Contractual Obligations

The timing of required payments related to our long-term debt and other contractual obligations at September 30, 2014 follows (in thousands):

	Total	Payments Due By Period			
		Less than One Year	One to Three Years	Four to Five Years	More than Five Years
Debt obligations (1)	\$ 743,014	\$ 37,181	\$ 161,630	\$ 242,679	\$ 301,524
Operating lease obligations (2)	22,260	672	1,376	1,120	19,092

Total	\$ 785,101	\$ 57,680	\$ 163,006	\$ 243,799	\$ 320,616

-
- (1) The amounts shown include amortization of principal, maturities, and estimated interest payments. Interest payments on variable rate debt have been estimated using the rates in effect at September 30, 2014, after giving effect to interest rate swaps.
- (2) The amounts consist primarily of ground leases and corporate office leases.
- (3) The amounts represents purchase orders and executed contracts for renovation projects at our hotel properties.
- (4) This represents the remaining amounts to be advanced under a note funding obligation.

In addition to the contractual obligations in the above table, at September 30, 2014 we are also obligated under a purchase agreement with a hotel property developer to acquire a Hampton Inn & Suites in downtown Minneapolis, MN for \$38.7 million, which price includes change orders to date. The purchase is subject to certain conditions, including the completion of construction of the hotel in accordance with agreed upon architectural and engineering designs, receipt of a Hampton Inn & Suites franchise, and receipt of a certificate of occupancy. Therefore, there is no assurance that the acquisition will be completed. In January 2014, we issued a standby letter of credit for \$13.1 million in support of this purchase agreement. This letter of credit was issued under our senior unsecured credit facility.

Inflation

Edgar Filing: Summit Hotel Properties, Inc. - Form 10-Q

Operators of hotel properties, in general, possess the ability to adjust room rates daily to reflect the effects of inflation. However, competitive pressures may limit the ability of our management companies to raise room rates.

Seasonality

Certain segments of the hotel industry are seasonal in nature. Leisure travelers tend to travel more during the summer. Business travelers occupy hotels relatively consistently throughout the year, but decreases in business travel occur during summer and the winter holidays. The hotel industry is also seasonal based upon geography. Hotels in the southern U.S. tend to have higher occupancy rates during the winter months. Hotels in the northern U.S. tend to have higher occupancy rates during the summer months. Due to our portfolio's geographic diversification, our total revenue has not experienced significant seasonality.

Critical Accounting Policies

There have been no significant changes in our critical accounting policies or estimates from those disclosed in our Annual Report on Form 10-K for the year ended December 31, 2013.

Table of Contents

Item 3. Quantitative and Qualitative Disclosures about Market Risk.

Market risk includes risks that arise from changes in interest rates, foreign currency exchange rates, commodity prices, equity prices and other market changes that affect market-sensitive instruments. In pursuing our business strategies, the primary market risk to which we are currently exposed, and to which we expect to be exposed in the future, is interest rate risk. Our primary interest rate exposure is to 30-day LIBOR. We primarily use fixed interest rate financing to manage our exposure to fluctuations in interest rates. On a limited basis we also use derivative financial instruments to manage interest rate risk.

At September 30, 2014, we were party to four interest rate swap agreements with a total notional amount of \$103.3 million, where we receive variable rate payments in exchange for making fixed rate payments. These agreements are accounted for as cash flow hedges and have an aggregate termination value, including accrued interest, of \$1.7 million at September 30, 2014.

At September 30, 2014, after giving effect to our interest rate swap agreements, \$469.6 million, or 75.2%, of our debt had fixed interest rates and \$154.7 million, or 24.8%, had variable interest rates. Assuming no increase in the outstanding balance of our variable rate debt, if interest rates increase by 1.0% our cash flow would decrease by approximately \$1.5 million per year.

As our fixed rate debts mature, they will become subject to interest rate risk. In addition, as our variable rate debts mature, lenders may impose interest rate floors on new financing arrangements because of the low interest rates experienced during the past few years. We currently have no scheduled maturities of debt in 2014. However, \$10.9 million of our long-term debt is scheduled to amortize in the next twelve months, of which \$10.2 million has fixed interest rates.

Item 4. Controls and Procedures.

Controls and Procedures

Disclosure Controls and Procedures

Under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, we have evaluated the effectiveness of the design and operation of our disclosure controls and procedures pursuant to Rule 13a-15(b) under the Exchange Act as of the end of the period covered by this report. Based on that evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that, as of the end of the period covered by this report, these disclosure controls and procedures were effective to provide reasonable assurance that information required to be disclosed in the reports filed or submitted under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to our management to allow timely decisions regarding required disclosure.

Changes in Internal Control Over Financial Reporting

We have continued the implementation of changes to our internal controls over financial reporting to remediate the material weakness identified in our Annual Report on Form 10-K for the year ended December 31, 2013. In the course of preparing our 2013 Annual Report and the consolidated financial statements included therein, our management identified a deficiency in the design of our internal control over financial reporting in that we did not have in place controls and procedures that would allow us to reconcile the balance sheets of our individual hotels included in our final consolidated balance sheet to the balance sheet information provided by our third party property managers for each individual hotel. As a result of the design deficiency, the intercompany accounts between the entities which form the consolidated company had not been reconciled in 2013 and in prior periods.

To prepare the consolidated financial statements for the year ended December 31, 2013 and for the quarter ended March 31, 2014, the audit committee of our board of directors engaged a nationally recognized consulting and accounting firm to assist our management with the reconciliation of the intercompany accounts for 2012, 2013 and the first quarter of 2014. The Company has developed internal processes and procedures to have its accounting staff reconcile intercompany accounts on a monthly basis as part of its normal accounting close process. Furthermore, the Company has developed and implemented processes and procedures to reconcile the balance sheets of our individual hotels to the balance sheet information provided by our third party property managers at quarter end.

Notwithstanding the previously identified material weakness that we are remediating, our management has concluded that the consolidated financial statements included in our 2013 Annual Report and in the Quarterly Reports on Form 10-Q for the periods ended March 31, 2014, June 30, 2014, and

Table of Contents

September 30, 2014 present fairly in all material respects the consolidated financial position, results of operations and cash flows of the Company and its subsidiaries.

Our management continues to work diligently to further identify and implement procedures and controls to remediate the material weakness and strengthen our overall internal controls. We are continuing to retain and develop resources to improve our processes, procedures and internal control environment.
