NEENAH PAPER, INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Tabular amounts in millions, except as noted)

Note 1. Background and Basis of Presentation

Background

Neenah Paper, Inc. (Neenah or the Company), is a Delaware corporation incorporated in April 2004. The Company has two primary operations: its technical products business and its fine paper and packaging business. On January 1, 2015, we changed the name of our fine paper business to fine paper and packaging. The name change better reflects the increasing importance, and plans for continued growth, of our premium packaging products. The technical products business is an international producer of fiber-formed, coated and/or saturated specialized media that delivers high performance benefits to customers. Included in this segment are filtration media, tape and abrasives backings products, and durable label and specialty substrate products. The fine paper and packaging business is a supplier of branded premium printing, packaging and other high end specialty papers primarily in North America. The Company's premium writing, text and cover papers, and specialty papers are used in commercial printing and imaging applications for corporate identity packages, invitations, personal stationery and high-end advertising, as well as premium labels and luxury packaging.

On July 1, 2015, the Company reorganized its internal management structure and, accordingly, addressed its segment reporting structure. As a result of this reorganization, the Other operating segment (composed of the non-premium Index, Tag and Vellum Bristol product lines acquired as part of the purchase of the Wausau brands) was combined with the Fine Paper and Packaging operating segment to reflect the manner in which this business is managed. In addition, as part of the FiberMark acquisition, the Company acquired certain product lines composed of non-strategic papers sold to converters for end uses such as covering materials for datebooks, diaries, yearbooks and traditional photo albums. Due to the non-strategic nature of these products, management decided that they would not be managed as part of either the existing Fine Paper and Packaging or Technical Material businesses. As a result, effective August 1, 2015, these product lines represent an operating segment which does not meet the quantitative threshold for a reportable segment and are accordingly reported as an Other operating segment. See Note 12, Business Segment Information.

On September 7, 2015, the Company reached an agreement for the sale of its paper mill located in Lahnstein, Germany (the Lahnstein Mill) to the Kajo Neukirchen Group (the Buyer) for cash proceeds of approximately \$9 million. The sale was completed on October 31, 2015. For the three and nine months ended September 30, 2015, discontinued operations reported on the condensed consolidated statements of operations reflect the results of operations and the estimated loss on sale of the Lahnstein Mill. The condensed consolidated statements of operations for the three and nine months ended September 30, 2014 have been restated to report results of the Lahnstein Mill as discontinued operations. As of September 30, 2015 and December 31, 2014, the assets and liabilities of the Lahnstein Mill are classified as assets held for sale on the condensed consolidated balance sheet. See Note 11, Discontinued Operations and Assets Held for Sale.

On August 1, 2015, the Company purchased all of the outstanding equity of ASP FiberMark, LLC (FiberMark) from ASP FiberMark Holdings, LLC (American Securities) for a purchase price of approximately \$120 million (the FiberMark Acquisition). The purchase price of \$120 million, subject to adjustments for acquired cash and a working capital true up, resulted in a cash payment of \$123 million at closing, and was financed

Edgar Filing: Neenah Paper Inc - Form 10-Q

through \$80 million of cash on hand and the balance from available borrowing capacity on the Company's revolving credit facility. FiberMark is a specialty coatings and finishing company with a strong presence in luxury packaging and technical products. In September 2015, the Company announced the planned closure of the acquired Fitchburg, Massachusetts mill (the Fitchburg Mill) in the fourth quarter of 2015 to consolidate its manufacturing footprint. As of September 30, 2015, the assets and liabilities of the Fitchburg Mill are classified as Assets Held for Sale on the condensed consolidated balance sheet. See Note 3, Acquisitions and Note 11, Discontinued Operations and Assets Held for Sale.

On July 1, 2014, the Company purchased all of the outstanding equity of Crane Technical Materials, Inc. from Crane & Co., Inc. for approximately \$72 million. The acquired technical materials business provides performance-oriented wet laid nonwovens media for filtration end markets as well as environmental, energy and industrial uses. The technical materials business has two manufacturing facilities in Pittsfield, Massachusetts. The results of this business are reported in the Technical Products segment from the date of acquisition. See Note 3, Acquisitions.

Basis of Consolidation and Presentation

These statements have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission (the SEC) and, in accordance with those rules and regulations, do not include all information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America (GAAP). Management believes that the disclosures made are adequate for a fair presentation of the Company's results of operations, financial position and cash flows. In the opinion of management, the condensed consolidated financial statements reflect all adjustments, consisting only of normal recurring adjustments, necessary to present fairly the results of operations, financial position and cash flows for the interim periods presented herein. The preparation of condensed consolidated financial statements in conformity with GAAP requires management to make extensive use of estimates and assumptions that affect the reported amounts and disclosures. Actual results may vary from these estimates.

Table of Contents

These condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and notes thereto included in the Company's most recent Annual Report on Form 10-K. The results of operations for any interim period are not necessarily indicative of the results of operations to be expected for the full year.

The condensed consolidated financial statements of Neenah and its subsidiaries included herein are unaudited. The condensed consolidated financial statements include the financial statements of the Company and its wholly owned and majority owned subsidiaries. All significant intercompany balances and transactions have been eliminated from the condensed consolidated financial statements.

Earnings per Share (EPS)

The Company's restricted stock units (RSUs) are paid non-forfeitable common stock dividends and thus meet the criteria of participating securities. Accordingly, EPS has been calculated using the two-class method, under which earnings are allocated to both common stock and participating securities. Basic EPS has been computed by dividing net income allocated to common stock by the weighted average common shares used in computing basic EPS. For the computation of basic EPS, weighted average RSUs outstanding have been excluded from the calculation of weighted average shares outstanding.

Diluted EPS has been computed by dividing net income allocated to common stock by the weighted average number of common shares used in computing basic EPS, further adjusted to include the dilutive impact of the exercise or conversion of common stock equivalents, such as stock options, stock appreciation rights (SARs) and target awards of Restricted Stock Units with performance conditions (Performance Units), into shares of common stock as if those securities were exercised or converted. For the three and nine months ended September 30, 2015, approximately 90,000 and 45,000 potentially dilutive options, respectively, were excluded from the computation of dilutive common shares because the exercise price of such options exceeded the average market price of the Company's common stock for the respective three month and nine month periods during which the options were outstanding. For the three and nine months ended September 30, 2014, approximately 5,000 and 20,000 potentially dilutive options, respectively, were excluded from the computation of dilutive common shares because the exercise price of such options exceeded the average market price of the Company's common stock for the respective three month and nine month periods during which the options were outstanding.

The following table presents the computation of basic and diluted EPS (dollars in millions except per share amounts, shares in thousands):

Earnings (Loss) Per Basic Common Share

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2015	2014	2015	2014

Fair Value of Financial Instruments

The Company measures the fair value of financial instruments in accordance with Accounting Standards Codification (ASC) Topic 820, Fair Value Measurements and Disclosures (ASC Topic 820) which establishes a framework for measuring fair value. ASC Topic 820 provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques attempt to maximize the use of observable inputs and minimize the use of unobservable inputs.

The Company's investments in marketable securities are accounted for as available-for-sale securities in accordance with ASC Topic 320, Investments - Debt and Equity Securities (ASC Topic 320). Pursuant to ASC Topic 320, marketable securities are reported at fair value on the condensed consolidated balance sheet and temporary unrealized holding gains and losses are reported in other comprehensive income until realized upon sale. As of September 30, 2015, the Company had \$3.2 million in marketable securities classified as Other Assets on the condensed consolidated balance sheet. The cost of such marketable securities was \$3.2 million. Fair value for the Company's marketable securities was estimated from Level 1 inputs. The Company's marketable securities are restricted to the payment of certain post-retirement benefits.

Edgar Filing: Neenah Paper Inc - Form 10-Q

The fair value of short and long-term debt is estimated using rates currently available to the Company for debt of the same remaining maturities. The following table presents the carrying value and the fair value of the Company's debt.

	September 30, 2015		December 31, 2014	
	Carrying Value	Fair Value (a)	Carrying Value	Fair Value (a)
2021 Senior Notes (5.25% fixed rate)	\$ 175.0	\$ 173.8	\$ 175.0	\$ 169.6
Global Revolving Credit Facilities (variable rates)	62.3	62.3	48.7	48.7
Second German Loan Agreement (2.5% fixed rate)	8.9	8.7	10.6	9.0
Total debt	\$ 246.2	\$ 244.8	\$ 234.3	\$ 227.3

(a) The fair value for all debt instruments was estimated from Level 2 measurements.

Table of Contents**Note 2. Accounting Standard Changes**

In May 2014, the Financial Accounting Standards Board (the FASB) issued Accounting Standards Update (ASU) No. 2014-09 (ASU 2014-09), *Revenue from Contracts with Customers* (ASC Topic 606). ASU 2014-09 supersedes the revenue recognition guidance in ASC Topic 605, Revenue Recognition. The core principle of the guidance in ASU 2014-09 is that an entity should recognize revenue to depict the transfer of promised goods and services to customers in an amount that reflects the consideration to which the entity expects to be entitled in the exchange for those goods or services. ASU 2014-09 is effective for annual reporting periods beginning after December 15, 2016; however, in August 2015, the FASB issued ASU No. 2015-14, *Revenue From Contracts With Customers* (Topic 606) (ASU No. 2015-14) which affirmed its previously proposed one year deferral of the effective date for ASU 2014-09 to annual reporting periods and the interim periods within those years beginning after December 15, 2017. The Company is still evaluating the impact of adopting ASU 2014-09, but the adoption of ASU 2014-09 is not expected to have a material impact on the Company's consolidated financial position, results of operations or cash flows.

In April 2015, the FASB issued ASU No. 2015-03, *Interest-Imputation of Interest* (ASU 2015-03). ASU 2015-03 requires that unamortized debt issuance costs be presented in the balance sheet as a direct deduction from the carrying amount of the debt liability, consistent with debt discounts or premiums. ASU 2015-03 is effective for fiscal years, and the interim periods within those years, beginning after December 15, 2015. In August 2015, the FASB issued ASU No. 2015-15, *Imputation of Interest* (Subtopic 835-30) (ASU No. 2015-15). ASU No. 2015-15 updates the changes in ASU No. 2015-03 based on an announcement of the staff of the U.S. Securities and Exchange Commission. ASU No. 2015-15 provides an exception to ASU No. 2015-03 allowing debt issuance costs related to line-of-credit arrangements to continue to be presented as an asset regardless of whether there are any outstanding borrowings under such arrangement. The adoption of ASU 2015-03 and ASU No. 2015-15 is not expected to have a material impact on the Company's consolidated financial position.

In July 2015, the FASB issued ASU No. 2015-11, *Inventory* (Topic 330) (ASU No. 2015-11). ASU No. 2015-11 makes changes to the subsequent measurement of inventory. Currently, an entity is required to measure its inventory at the lower of cost or market, whereby market can be replacement cost, net realizable value, or net realizable value less an approximately normal profit margin. ASU No. 2015-11 requires that inventory be measured at the lower of cost and net realizable value, thereby eliminating the use of the other two market methodologies. Net realizable value is defined as the estimated selling prices in the ordinary course of business less reasonably predictable costs of completion, disposal, and transportation. These changes do not apply to inventories measured using LIFO (last-in, first-out) or the retail inventory method. Currently, the Company applies the net realizable value market option to measure non-LIFO inventories at the lower of cost or market. ASU No. 2015-11 is effective for fiscal years, and the interim periods within those years, beginning after December 15, 2016. The adoption of ASU No. 2015-11 is not expected to have a material impact on the Company's consolidated financial position.

In September 2015, the FASB issued ASU No. 2015-16, *Business Combinations* (Topic 805) - *Simplifying the Accounting for Measurement-Period Adjustments* (ASU No. 2015-16). ASU No. 2015-16 changes the accounting for measurement-period adjustments related to business combinations. Currently, an acquiring entity is required to retrospectively adjust the balance sheet amounts of the acquiree recognized at the acquisition date with a corresponding adjustment to goodwill during the measurement period, as well as revise comparative information for prior periods presented within financial statements as needed, including revising income effects, such as depreciation and amortization, as a result of changes made to the balance sheet amounts of the acquiree. Such adjustments are required when new information is obtained about facts and circumstances that existed as of the acquisition date that, if known, would have affected the measurement of the amounts initially recognized or would have resulted in the recognition of additional assets or liabilities. The measurement period is the period after the acquisition date during which the acquirer may adjust the balance sheet amounts recognized for a business combination (generally up to one year from the date of acquisition). ASU No. 2015-16 eliminates the requirement to make such retrospective adjustments, and, instead requires the acquiring entity to record these adjustments in the reporting period they are determined. Additionally, the changes require the acquiring entity to present separately on the face of the income statement or disclose in the notes to the financial statements the portion of the amount recorded in current-period income by line item that would have been recorded in previous reporting periods if the adjustment to the balance sheet amounts had been recognized as of the acquisition date. ASU No. 2015-16 is effective for fiscal years, and the interim periods within those years, beginning after December 15, 2015. The Company is still evaluating the impact of adopting ASU 2015-16 on its consolidated financial position, results of operations and cash flows.

Edgar Filing: Neenah Paper Inc - Form 10-Q

As of September 30, 2015, no other amendments to the ASC had been issued that will have or are reasonably likely to have a material effect on the Company's financial position, results of operations or cash flows.

F-8

Table of Contents**Note 3. Acquisitions***Acquisition of FiberMark*

On August 1, 2015, the Company purchased all of the outstanding equity of ASP FiberMark, LLC (FiberMark) from ASP FiberMark Holdings, LLC (American Securities) for approximately \$123 million. FiberMark is a specialty coatings and finishing company with a strong presence in luxury packaging and technical products. In September 2015, the Company announced the planned closure of the acquired Fitchburg Mill in the fourth quarter of 2015 to consolidate its manufacturing footprint. As of September 30, 2015, the assets and liabilities of the Fitchburg Mill are classified as Assets Held for Sale on the condensed consolidated balance sheet. See Note 11, Discontinued Operations and Assets Held for Sale.

The Company accounted for the transaction using the acquisition method in accordance with ASC Topic 805 Business Combinations. The preliminary allocation of the purchase price is based on estimates of the fair value of assets acquired and liabilities assumed as of August 1, 2015 and are subject to adjustment as additional information is obtained. The Company has up to 12 months from the closing of the acquisition to finalize its valuations. Changes to the valuation of assets and liabilities acquired may result in adjustments to the carrying value of assets and liabilities acquired or goodwill. The Company has not identified any material unrecorded pre-acquisition contingencies. Prior to the end of the one-year purchase price allocation period, if information becomes available which would indicate it is probable that such events had occurred as of the acquisition date and the amounts can be reasonably estimated, such items will be included in the final purchase price allocation and may result in an adjustment to the carrying value of assets and liabilities acquired or goodwill. The Company did not recognize any in-process research and development assets as part of the acquisition.

The following table summarizes the preliminary allocation of the purchase price to the estimated fair value of the assets acquired and liabilities, including \$0.3 million of estimated amounts to be paid as part of the true-up of working capital, assumed:

Assets Acquired		
Cash and cash equivalents	\$	4.8
Accounts receivable		13.7
Inventories		25.6
Deferred income taxes		2.3
Prepaid and other current assets		1.9
Property, plant and equipment		68.9
Non-amortizable intangible assets		1.4
Amortizable intangible assets		25.5
Acquired goodwill		26.7
Total assets acquired		170.8
Liabilities Assumed		
Accounts payable		8.0
Accrued expenses		6.1
Deferred income taxes		23.6
Noncurrent employee benefits		9.8
Total liabilities assumed		47.5
Net assets acquired	\$	123.3

Edgar Filing: Neenah Paper Inc - Form 10-Q

The Company estimated the preliminary fair value of the assets and liabilities acquired in accordance with ASC Topic 820, Fair Value Measurements and Disclosures. The preliminary fair value of amortizable and non-amortizable intangible assets was estimated by applying a royalty rate to projected revenue, net of tax impacts and adjusted for present value considerations. The Company estimated the preliminary fair value of acquired property, plant and equipment using a combination of cost and market approaches. In general, the preliminary fair value of other acquired assets and liabilities was estimated using the cost basis of the acquired FiberMark business.

F-9

Table of Contents

The excess of the purchase price over the preliminary estimated fair value of the tangible net assets and identifiable intangible assets acquired was recorded as acquired goodwill. The factors contributing to the amount of goodwill recognized are based on several strategic and synergistic benefits that are expected to be realized from the acquisition of FiberMark. These benefits include entry into profitable new markets for premium packaging, performance materials and specialty papers with new capabilities and recognized brands, synergies from combining the business with Neenah's existing infrastructure, and the opportunity to accelerate sales growth in areas like premium packaging. None of the goodwill recognized as part of the FiberMark acquisition will be deductible for income tax purposes. However, the Company did acquire all of the tax attributes associated with the FiberMark assets and liabilities, including an insignificant amount of tax deductible goodwill. Approximately \$19.7 million, \$6.5 million and \$0.5 million of the goodwill acquired in the FiberMark acquisition is allocated to the Technical Products, Fine Paper and Packaging and Other segments, respectively.

For the three and nine months ended September 30, 2015, the Company incurred \$2.0 million of acquisition and integration costs. The Company expects to incur an additional \$3.2 million of integration costs during the fourth quarter. For the three months ended September 30, 2015, net sales and income from operations before income taxes for the acquired businesses were \$24.1 million and \$0.8 million (excluding the acquisition related costs described above), respectively.

The following selected pro forma consolidated statements of operations data for the nine months ended September 30, 2015 and 2014 was prepared as though the FiberMark acquisition had occurred on January 1, 2014. The information does not reflect future events that may occur after September 30, 2015 or any operating efficiencies or inefficiencies that may result from the FiberMark acquisition. Therefore, the information is not necessarily indicative of results that would have been achieved had the businesses been combined during the periods presented or the results that the Company will experience going forward.

	Nine Months Ended September 30,	
	2015	2014
Net sales	\$ 753.6	\$ 761.8
Operating income	82.8	77.8
Income from continuing operations	47.2	45.3
Income (loss) from discontinued operations	(6.9)	1.0
Net income	40.3	46.3
Earnings (Loss) Per Common Share		
Basic		
Continuing operations	\$ 2.79	\$ 2.70
Discontinued Operations	(0.41)	0.06
	\$ 2.38	\$ 2.76
Diluted		
Continuing operations	\$ 2.75	\$ 2.65
Discontinued Operations	(0.40)	0.06
	\$ 2.35	\$ 2.71

Acquisition of Crane Technical Materials

On July 1, 2014, the Company purchased all of the outstanding equity of the Crane Technical Materials business for approximately \$72 million. The acquired technical materials business provides performance-oriented wet laid nonwovens media for filtration end markets as well as environmental, energy and industrial uses. The results of this business are reported in the Technical Products segment from the date of acquisition.

Edgar Filing: Neenah Paper Inc - Form 10-Q

The Company accounted for the transaction using the acquisition method in accordance with ASC Topic 805 Business Combinations. The allocation of the purchase price is based on the fair value of assets acquired and liabilities assumed as of July 1, 2014. The Company did not identify any material unrecorded pre-acquisition contingencies. The Company did not acquire any in-process research and development assets as part of the acquisition.

F-10

Table of Contents**Note 4. Supplemental Balance Sheet Data**

The following table presents inventories by major class:

	September 30, 2015	December 31, 2014
Raw materials	\$ 31.0	\$ 26.1
Work in progress	34.2	16.8
Finished goods	61.7	65.8
Supplies and other	4.5	6.5
	131.4	115.2
Adjust FIFO inventories to LIFO cost	(11.6)	(14.0)
Total	\$ 119.8	\$ 101.2

The FIFO values of inventories valued on the LIFO method were \$117.4 million and \$95.7 million as of September 30, 2015 and December 31, 2014, respectively.

The following table presents changes in accumulated other comprehensive income (AOCI) for the nine months ended September 30, 2015:

	Unrealized foreign currency translation loss	Net gain (loss) from pension and other postretirement liabilities	Accumulated other comprehensive income (loss)
AOCI December 31, 2014	\$ (5.8)	\$ (62.6)	\$ (68.4)
Other comprehensive loss before reclassifications	(9.1)		(9.1)
Amounts reclassified from AOCI		5.4	5.4
Income (loss) from other comprehensive income items	(9.1)	5.4	(3.7)
Provision for income taxes		2.0	2.0
Other comprehensive income (loss)	(9.1)	3.4	(5.7)
AOCI September 30, 2015	\$ (14.9)	\$ (59.2)	\$ (74.1)

For the three and nine months ended September 30, 2015, the Company reclassified \$1.8 million and \$5.4 million of costs, respectively, from accumulated other comprehensive income to cost of products sold and selling, general and administrative expenses on the condensed consolidated statements of operations. For the three and nine months ended September 30, 2015, the Company recognized an income tax benefit of \$0.7 million and \$2.0 million, respectively, related to such reclassifications classified as Provision for income taxes on the condensed consolidated statements of operations.

For the three and nine months ended September 30, 2014, the Company reclassified \$1.1 million and \$3.4 million, respectively, of costs from accumulated other comprehensive income to cost of products sold and selling, general and administrative expenses on the condensed consolidated statements of operations. For the three and nine months ended September 30, 2014, the Company recognized an income tax benefit of \$0.4 million and \$1.3 million, respectively, related to such reclassifications classified as Provision for income taxes on the condensed consolidated statements of operations.

Table of Contents**Note 5. Debt**

Long-term debt consisted of the following:

	September 30, 2015	December 31, 2014
2021 Senior Notes (5.25% fixed rate) due May 2021	\$ 175.0	\$ 175.0
Global Revolving Credit Facilities (variable rates) due December 2019	62.3	48.7
Second German Loan Agreement (2.5% fixed rate) due in 32 equal quarterly installments ending September 2022	8.9	10.6
Total debt	246.2	234.3
Less: Debt payable within one year	1.3	1.4
Long-term debt	\$ 244.9	\$ 232.9

2021 Senior Notes

In May 2013, the Company completed an underwritten offering of eight-year senior unsecured notes (the 2021 Senior Notes) at a face amount of \$175 million. The 2021 Senior Notes bear interest at a rate of 5.25%, payable in arrears on May 15 and November 15 of each year, commencing on November 15, 2013, and mature on May 15, 2021. The 2021 Senior Notes are fully and unconditionally guaranteed by substantially all of the Company's domestic subsidiaries. The 2021 Senior Notes were sold in a private placement transaction, have not been registered under the Securities Act of 1933, as amended, and may not be offered or sold absent registration or an applicable exemption from registration requirements.

The 2021 Senior Notes contain terms, covenants and events of default with which the Company must comply, which the Company believes are ordinary and standard for notes of this nature. As of September 30, 2015, the Company was in compliance with all terms of the indenture for the 2021 Senior Notes.

Amended and Restated Secured Revolving Credit Facility

In December 2014, the Company amended and restated its existing credit facility by entering into the Third Amended and Restated Credit Agreement (the Third Amended and Restated Credit Agreement) by and among the Company and certain of its domestic subsidiaries as the Domestic Borrowers, Neenah Services GmbH & Co. KG (Neenah Services) and certain of its German subsidiaries as the German Borrowers, certain other subsidiaries as the German Guarantors, the financial institutions signatory to the Third Amended and Restated Credit Agreement as lenders (the Lenders), and JPMorgan Chase Bank, N.A., as agent for the Lenders.

The Third Amended and Restated Credit Agreement, among other things: (1) provides for a secured revolving credit facility for the Domestic Borrowers in the maximum principal amount of \$125 million (the U.S. Revolving Credit Facility); (2) provides a secured, multicurrency,

Edgar Filing: Neenah Paper Inc - Form 10-Q

revolving credit facility for the German Borrowers in the maximum principal amount of \$75 million (the German Revolving Credit Facility, and together with the U.S. Revolving Credit Facility, the Global Revolving Credit Facilities); (3) causes the Company and the other Domestic Borrowers to guarantee, among other things, the obligations of the German Borrowers arising under the German Revolving Credit Facility; (4) provides for the Global Revolving Credit Facilities to mature on December 18, 2019; and (5) provides for an accordion feature permitting one or more increases in the Global Revolving Credit Facilities in an aggregate principal amount not exceeding \$50 million, such that the aggregate commitments under the Global Revolving Credit Facilities do not exceed \$250 million. In addition, the Domestic Borrowers may request letters of credit under the U.S. Revolving Credit Facility in an aggregate face amount not to exceed \$20 million outstanding at any time, and the German Borrowers may request letters of credit under the German Revolving Credit Facility in an aggregate face amount not to exceed \$2 million outstanding at any time.

Availability under the Global Revolving Credit Facilities varies over time depending on the value of the Company's inventory, receivables and various capital assets. As of September 30, 2015, the Company had \$62.3 million outstanding under the Global Revolving Credit Facilities and \$126.6 million of available credit (based on exchange rates at September 30, 2015). As of September 30, 2015, the weighted-average interest rate on outstanding Global Revolving Credit Facility borrowings was 1.90 percent per annum. As of December 31, 2014, the Company had \$48.7 million outstanding under the Global Revolving Credit Facilities at a weighted-average interest rate of 1.8 percent per annum.

Table of Contents

Terms, Covenants and Events of Default. In general, borrowings under the Global Revolving Credit Facilities will bear interest at LIBOR (which cannot be less than zero percent) plus an applicable margin ranging from 1.50% to 2.00%, depending on the amount of availability under the Third Amended and Restated Credit Agreement. In addition, the Company may elect an Alternate Borrowing Rate (ABR) for borrowings under the Global Revolving Credit Facilities. ABR borrowings under the Global Revolving Credit Facilities will bear interest at the highest interest rate shown in the following table:

	Applicable Margin	
	U.S. Revolving Credit Facility	German Revolving Credit Facility
Prime rate	0.00% - 0.50%	Not applicable
Federal funds rate +0.50%	0.00% - 0.50%	Not applicable
Monthly LIBOR (which cannot be less than zero percent) +1.00%	1.50% - 2.00%	Not applicable
Overnight LIBOR (which cannot be less than zero percent)	Not applicable	1.50% - 2.00%

The Company is also required to pay a monthly commitment fee on the unused amounts available under the Global Revolving Credit Facilities at a per annum rate of 0.25%.

Subject to certain conditions, the Third Amended and Restated Credit Agreement permits the Company to make up to \$10 million in cash repurchases of its outstanding common stock during each fiscal year, beginning in 2015, and to pay up to \$25 million in cash dividends to its stockholders during any period of 12 consecutive months; however, such stock repurchases can be made, and such cash dividends can be paid, on an unlimited basis if pro forma aggregate availability under the Global Revolving Credit Facilities is greater than or equal to the greater of (i) \$25 million and (ii) 12.5% of the aggregate commitment under the Global Revolving Credit Facilities, at all times during the 60-day period ending on the date of such repurchase or dividend payment.

The Third Amended and Restated Credit Agreement contains covenants with which the Company and its subsidiaries must comply during the term of the agreement, which the Company believes are ordinary and standard for agreements of this nature. If the aggregate availability under the Global Revolving Credit Facilities is less than the greater of (i) \$25 million and (ii) 12.5% of the maximum aggregate commitments under the Global Revolving Credit Facilities as then in effect, the Company will be subject to increased reporting obligations and controls until such time as availability is more than the greater of (a) \$35 million and (b) 17.5% of the maximum aggregate commitments under the Global Revolving Credit Facilities as then in effect.

If aggregate availability under the Global Revolving Credit Facilities is less than the greater of (i) \$20 million and (ii) 10% of the maximum aggregate commitments under the Global Revolving Credit Facilities as then in effect, the Company is required to comply with a fixed charge coverage ratio (as defined in the Third Amended Credit agreement) of not less than 1.1 to 1.0 for the preceding four-quarter period, tested as of the end of each quarter. As of September 30, 2015, aggregate availability under the Global Revolving Credit Facilities exceeded the minimum required amount, and the Company is not required to comply with such fixed charge coverage ratio.

The Company's ability to pay cash dividends on its common stock is limited under the terms of both the Third Amended and Restated Credit Agreement and the 2021 Senior Notes. As of September 30, 2015, the Company's ability to pay cash dividends on its common stock under the most restrictive terms of its debt agreements was limited to a total of \$25 million in a 12-month period. However, the Company can pay dividends in excess of \$25 million in a 12-month period by utilizing restricted payment baskets as defined in the indenture for the 2021 Senior Notes and the Third Amended and Restated Credit Agreement.

Other Debt

As of September 30, 2015, Neenah Germany had 7.9 million (\$8.9 million, based on exchange rates at September 30, 2015) outstanding under a project financing agreement (the Second German Loan Agreement). The Second German Loan Agreement matures in September 2022 and principal is repaid in equal quarterly installments beginning in December 2014.

Table of Contents

Note 6. Pension and Other Postretirement Benefits

Pension Plans

Except as described below for the FiberMark acquisition, substantially all active employees of the Company's U.S. operations participate in defined benefit pension plans and/or defined contribution retirement plans. In addition, the Company maintains a supplemental retirement pension plan (SERP) which is a non-qualified defined benefit plan and a supplemental retirement contribution plan (SRCP) which is a non-qualified defined contribution benefit plan. The Company provides benefits under the SERP and the SRCP to the extent necessary to fulfill the intent of its defined benefit and defined contribution retirement plans without regard to the limitations set by the Internal Revenue Code on qualified defined benefit and defined contribution plans. Neenah Germany has defined benefit plans designed to provide a monthly pension upon retirement for substantially all its employees in Germany. There is no legal or governmental obligation to fund Neenah Germany's benefit plans and as such the Neenah Germany defined benefit plans are currently unfunded. As of September 30, 2015, Neenah Germany had investments of \$1.7 million that were restricted to the payment of certain post-retirement employee benefits. As of September 30, 2015, \$0.6 million and \$1.1 million of such investments are classified as prepaid and other current assets and other assets, respectively, on the condensed consolidated balance sheet.

FiberMark Acquisition

Defined benefit plans

FiberMark sponsors a qualified defined benefit plan covering certain U.S. employees. During 2009, FiberMark fully froze this plan so that additional benefits cannot be earned as a result of additional years of service or increases in annual earnings. Plan assets are invested principally in equity, government, corporate debt securities and other fixed income mutual funds. FiberMark sponsors a defined benefit plan covering all U.K. employees, which is designed to provide a monthly pension upon retirement. This plan became fully frozen during 2011 and plan assets are primarily invested in equity mutual funds.

Multi-Employer plan

The hourly employees at the Lowville, New York facility are covered by a multi-employer defined benefit plan. FiberMark's expense under this plan was \$0.1 million for the year ended December 31, 2014.

FiberMark contributes to the multi-employer pension plan under a collective bargaining agreement which provides retirement benefits for its various union employees. The risks of participating in multi-employer plans are different from single employer plans as assets contributed are available to provide benefits to employees of other employers and unfunded obligations from an employer that discontinues contributions are the responsibility of all remaining employers. In addition, in the event of a plan's termination or FiberMark's withdrawal from the plan, FiberMark may be liable for a portion of the plan's unfunded vested benefits. FiberMark does not anticipate withdrawal from the plan, nor is it aware of any expected plan terminations.

Edgar Filing: Neenah Paper Inc - Form 10-Q

The most recent Pension Protection Act zone status available in 2014 is for the plan's year-end at December 31, 2014. The zone status is based on information that the Company received from the plan and is certified by the plan's actuary. Among other factors, plans in the red zone are generally less than 65% funded, plans in the yellow zone are less than 80% funded, and plans in the green zone are at least 80% funded. Information for the multi-employer pension plan in which FiberMark participates is shown below. The FIP/RP Status Pending/Implemented column indicates plans for which a financial improvement plan (FIP) or a rehabilitation plan (RP) is either pending or has been implemented. For the year ended December 31, 2014, FiberMark's contributions to this plan were less than 5% of total plan contributions.

Pension Fund	EIN/Pension Plan Number	Pension Zone Status 2014	FIP/RP Status Pending or Implemented	Contributions 2014	Surcharge Imposed	Date of Collective Bargaining Agreement
PACE Industry Union Management Pension Fund	11-6166763	Red	Implemented	\$0.1 million	Yes	11/9/16

Defined contribution plans

FiberMark has several qualified defined contribution plans covering certain hourly and salaried employees. The plans permit employee salary deferrals, with the Company match ranging from 0% to 3% of salary, depending on the plan and the level of employee deferral.

The following table presents the components of net periodic benefit cost:

Components of Net Periodic Benefit Cost for Defined Benefit Plans

	Pension Benefits		Postretirement Benefits Other than Pensions	
	Three Months Ended		Ended September 30,	
	2015	2014	2015	2014
Service cost	\$ 1.5	\$ 1.3	\$ 0.5	\$ 0.4
Interest cost	3.7	3.8	0.4	0.4
Expected return on plan assets (a)	(5.0)	(4.1)		
Recognized net actuarial loss	1.6	1.0		
Amortization of prior service cost (benefit)	0.1	0.1	(0.1)	
Net periodic benefit cost	1.9	2.1	0.8	0.8
Less: Costs related to discontinued operations	0.2	0.2	0.1	0.1
Net periodic benefit cost related to continuing operations	\$ 1.7	\$ 1.9	\$ 0.7	\$ 0.7

Table of Contents

	Pension Benefits		Postretirement Benefits Other than Pensions	
	Nine Months Ended September 30,			
	2015	2014	2015	2014
Service cost	\$ 4.4	\$ 4.0	\$ 1.3	\$ 1.2
Interest cost	10.4	11.5	1.2	1.4
Expected return on plan assets (a)	(14.1)	(12.6)		
Recognized net actuarial loss	5.0	3.2	0.1	0.1
Amortization of prior service cost (benefit)	0.2	0.2	(0.2)	(0.1)
Net periodic benefit cost	5.9	6.3	2.4	2.6
Less: Costs related to discontinued operations	0.7	0.6	0.2	0.3
Net periodic benefit cost related to continuing operations	\$ 5.2	\$ 5.7	\$ 2.2	\$ 2.3

(a) The expected return on plan assets is determined by multiplying the fair value of plan assets at the prior year-end (adjusted for estimated current year cash benefit payments and contributions) by the expected long-term rate of return.

The Company expects to make aggregate contributions to qualified and nonqualified defined benefit pension trusts and to pay pension benefits for unfunded pension plans of approximately \$5 million (based on exchange rates at September 30, 2015) in calendar 2015. For the nine months ended September 30, 2015, the Company made \$1.3 million of such payments.

Note 7. Stock Compensation Plan

The Company established the 2004 Omnibus Stock and Incentive Plan (the 2004 Omnibus Plan) in December 2004 and reserved 3,500,000 shares of \$0.01 par value common stock (Common Stock) for issuance under the Omnibus Plan. Pursuant to the terms of the 2004 Omnibus Plan, the compensation committee of the Company's Board of Directors may grant various types of equity-based compensation awards, including incentive and nonqualified stock options, SARs, restricted stock, restricted stock units, restricted stock units with performance conditions and performance units, in addition to certain cash-based awards.

At the 2013 Annual Meeting of Stockholders, the Company's stockholders approved an amendment and restatement of the 2004 Omnibus Plan (as amended and restated the Omnibus Plan). The amendment and restatement authorized the Company to reserve an additional 1,577,000 shares of Common Stock for future issuance. As of September 30, 2015, the Company had 1,295,000 shares of Common Stock reserved for future issuance under the Omnibus Plan. The Company accounts for stock-based compensation pursuant to the fair value recognition provisions of ASC Topic 718, Compensation - Stock Compensation (ASC Topic 718).

Valuation and Expense Information

Substantially all stock-based compensation expense is recorded in selling, general and administrative expenses on the condensed consolidated statements of operations. The following table summarizes stock-based compensation expense and related income tax benefits.

Edgar Filing: Neenah Paper Inc - Form 10-Q

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2015	2014	2015	2014
Stock-based compensation expense	\$ 1.0	\$ 1.1	\$ 4.5	\$ 4.1
Income tax benefit	(0.5)	(0.5)	(1.8)	(1.6)
Stock-based compensation, net of income tax benefit	\$ 0.5	\$ 0.6	\$ 2.7	\$ 2.5

F-15

Edgar Filing: Neenah Paper Inc - Form 10-Q

Table of Contents

The following table summarizes total compensation costs related to the Company's equity awards and amounts recognized in the nine months ended September 30, 2015.

		Stock Options and SARs		Performance Shares and Restricted Stock
Unrecognized compensation cost	December 31, 2014	\$	1.1	\$ 2.2
Grant date fair value of current year grants			1.4	3.5
Compensation expense recognized			(1.5)	(3.0)
Unrecognized compensation cost	September 30, 2015	\$	1.0	\$ 2.7
Expected amortization period (in years)			1.7	1.5

Stock Options and SARs (Options)

The following tables present information regarding Options awarded during the nine months ended September 30, 2015:

Options granted	87,900
Per share weighted average exercise price	\$ 59.72
Per share weighted average grant date fair value	\$ 16.47

The weighted-average grant date fair value for Options granted during the nine months ended September 30, 2015 was estimated using the Black-Scholes option valuation model with the following assumptions:

Expected term in years	5.8
Risk free interest rate	1.4%
Volatility	34.4%
Dividend yield	2.0%

Volatility and the expected term were estimated by reference to the historical stock price performance of the Company and historical data for the Company's Option awards, respectively. The risk-free interest rate was based on the yield on U.S. Treasury bonds with a remaining term approximately equivalent to the expected term of the Option awards. Forfeitures were estimated at the date of grant.

The following table presents information regarding Options that vested during the nine months ended September 30, 2015:

Options vested	96,100
Aggregate grant date fair value of Options vested	\$ 1.0

Edgar Filing: Neenah Paper Inc - Form 10-Q

For the three and nine months ended September 30, 2015, the aggregate pre-tax intrinsic value of Options exercised was \$0.8 million and \$3.7 million, respectively. For the three and nine months ended September 30, 2014, the aggregate pre-tax intrinsic value of Options exercised was \$1.9 million and \$10.3 million, respectively.

As of September 30, 2015, certain participants met age and service requirements that allowed their Options to qualify for accelerated vesting upon retirement. As of September 30, 2015, such participants held Options to purchase approximately 90,000 shares of common stock that would have been exercisable if they had retired as of such date. The aggregate grant date fair value of Options subject to accelerated vesting was \$1.3 million. Options subject to accelerated vesting for expense recognition become exercisable according to the contract terms of the stock-based awards.

F-16

Table of Contents

The following table presents information regarding outstanding Options:

	September 30, 2015	December 31, 2014
Options vested or expected to vest	568,600	601,100
Aggregate intrinsic value	\$ 15.6	\$ 20.3
Per share weighted average exercise price	\$ 31.09	\$ 26.46
Exercisable Options	270,200	292,900
Aggregate intrinsic value	\$ 9.6	\$ 11.4
Unvested Options	302,900	311,100
Per share weighted average grant date fair value	\$ 12.14	\$ 10.37

Performance Units/RSUs

For the nine months ended September 30, 2015, the Company granted target awards of approximately 45,100 Performance Units. The measurement period for the Performance Units is January 1, 2015 through December 31, 2015. The Performance Units vest on December 31, 2017. Common Stock equal to not less than 40 percent and not more than 200 percent of the Performance Unit target will be awarded based on the Company's return on invested capital, consolidated revenue growth, the percentage of consolidated free cash flow to revenue and total return to shareholders relative to the companies in the Russell 2000® Value small cap index. As of September 30, 2015, the Company expects that Common Stock equal to approximately 150 percent of the Performance Unit targets will be earned. The market price on the date of grant for the Performance Units was \$59.72 per share. Based on the expected achievement of performance targets, the Company is recognizing stock-based compensation expense pro-rata over the vesting term of the Performance Units.

For the nine months ended September 30, 2015, the Company awarded 9,030 RSUs to non-employee members of the Board of Directors and 3,145 RSUs (net of forfeitures) to employees. The weighted average grant date fair value of such awards was \$61.64 per share and the awards vest one year from the date of grant. During the vesting period, the holders of the RSUs are entitled to dividends, but the RSUs do not have voting rights and are forfeited in the event the holder is no longer an employee or member of the Board of Directors on the vesting date.

Excess Tax Benefits

ASC Topic 718 requires the reporting of excess tax benefits related to the exercise or vesting of stock-based awards as cash provided by financing activities within the statement of cash flows. Excess tax benefits represent the difference between the tax deduction the Company will receive on its tax return for compensation recognized by employees upon the vesting or exercise of stock-based awards and the tax benefit recognized for the grant date fair value of such awards. For the nine months ended September 30, 2015 and 2014, the Company recognized excess tax benefits related to the exercise or vesting of stock-based awards of \$1.1 million and \$3.0 million, respectively.

Table of Contents**Note 8. Goodwill and Other Intangible Assets**

The following table presents changes in the carrying amount of goodwill for the nine months ended September 30, 2015. As of September 30, 2015, \$67.4 million, \$6.5 million and \$0.5 million of such goodwill is reported within the Technical Products, Fine Paper and Packaging and Other segments, respectively.

	Gross Amount		Cumulative Impairment Losses		Net
Balance at December 31, 2014	\$ 100.8	\$	(50.3)	\$	50.5
Acquisition of FiberMark	26.7				26.7
Foreign currency translation	(6.6)		3.8		(2.8)
Balance at September 30, 2015	\$ 120.9	\$	(46.5)	\$	74.4

The following table presents the gross carrying amount of intangible assets and the related accumulated amortization for intangible assets subject to amortization.

	Weighted- Average Amortization Period (Years)	September 30, 2015		December 31, 2014	
		Gross Amount	Accumulated Amortization	Gross Amount	Accumulated Amortization
Amortizable intangible assets					
Customer based intangibles	15	\$ 35.9	\$ (8.6)	\$ 22.7	\$ (8.1)
Trade names and trademarks	10 - 15	4.4	(1.7)	1.5	(1.3)

Acquired technology	8.7	13
Total	25.5	
Trademarks indefinite lived	1.4	
Total intangible assets	\$ 26.9	

Table of Contents

All other changes in the carrying value of the Company's intangible assets not specifically identified are due to foreign currency translation effects. As of September 30, 2015, \$50.9 million, \$28.6 million and \$1.1 million of such intangible assets are reported within the Technical Products, Fine Paper and Packaging and Other segments, respectively.

Note 9. Stockholders' Equity

Common Stock

The Company has authorized 100 million shares of Common Stock. Holders of the Company's Common Stock are entitled to one vote per share. As of September 30, 2015 and December 31, 2014, the Company had 16,730,000 shares and 16,748,000 shares of Common Stock outstanding, respectively.

In May 2015, the Company's Board of Directors authorized a program that would allow the Company to repurchase up to \$25 million of its outstanding Common Stock over the next 12 months (the 2015 Stock Purchase Plan). Purchases by the Company under the 2015 Stock Purchase Plan would be made from time to time in the open market or in privately negotiated transactions in accordance with the requirements of applicable law. The timing and amount of any purchases will depend on share price, market conditions and other factors. The 2015 Stock Purchase Plan does not require the Company to purchase any specific number of shares and may be suspended or discontinued at any time. The Company had a substantially identical \$25 million repurchase program in place during the preceding 12 months that expired in May 2015 (the 2014 Stock Purchase Plan). For the nine months ended September 30, 2015, the Company acquired approximately 42,100 shares of Common Stock at a cost of \$2.4 million and 60,900 shares of Common Stock at a cost of \$3.4 million pursuant to the 2015 Stock Purchase Plan and the 2014 Stock Purchase Plan, respectively. For the nine months ended September 30, 2014, there were no Common Stock purchases under the 2014 Stock Purchase Plan.

As of September 30, 2015, under the terms of the 2021 Senior Notes the Company has limitations on its ability to repurchase shares of its Common Stock. The Company can repurchase shares of its Common Stock by utilizing restricted payment baskets as defined in the indenture for the 2021 Senior Notes and the Third Amended and Restated Credit Agreement.

For the nine months ended September 30, 2015, the Company acquired approximately 2,200 shares of Common Stock at a cost of \$0.2 million for shares surrendered by employees to pay taxes due on vested restricted stock awards. For the nine months ended September 30, 2014, the Company acquired approximately 3,000 shares of Common Stock at a cost of \$0.1 million for shares surrendered by employees to pay taxes due on vested restricted stock awards.

Note 10. Contingencies and Legal Matters

Litigation

Edgar Filing: Neenah Paper Inc - Form 10-Q

The Company is involved in certain legal actions and claims arising in the ordinary course of business. While the outcome of these legal actions and claims cannot be predicted with certainty, it is the opinion of management that the outcome of any such claim which is pending or threatened, either individually or on a combined basis, will not have a material effect on the consolidated financial condition, results of operations or cash flows of the Company.

Income Taxes

The Company is continuously undergoing examination by the Internal Revenue Service (the IRS) as well as various state and foreign jurisdictions. These tax authorities routinely challenge certain deductions and credits reported by the Company on its income tax returns. No significant tax audit findings are being contested at this time with either the IRS or any state or foreign tax authority.

Employees and Labor Relations

Approximately 50 percent of salaried employees and 80 percent of hourly employees of Neenah Germany are eligible to be represented by the Mining, Chemicals and Energy Trade Union, Industriegewerkschaft Bergbau, Chemie und Energie (the IG BCE). In July 2015, the IG BCE and a national trade association representing all employers in the industry signed a collective bargaining agreement covering union employees of Neenah Germany that expires in June 2017. Under German law union membership is voluntary and does not need to be disclosed to the Company. As a result, the number of employees covered by the collective bargaining agreement with the IG BCE that expires in June 2017 cannot be determined. As of September 30, 2015, the Company had no employees covered by collective bargaining agreements that will expire in the next 12-months. The Company believes it has satisfactory relations with its employees covered by collective bargaining agreements.

Table of Contents

FiberMark acquisition

In the U.S. and the U.K., approximately 72% of FiberMark's hourly employees are union members and are covered under collective bargaining agreements which expire at various times from 2016 through 2017. The agreements at the Brattleboro, Vermont mill, the Reading, Pennsylvania mill and the Lowville, New York mill expire in August 2016, September 2016 and November 2016, respectively. The agreement at the Bolton, England mill expires in May 2016. As of September 30, 2015, employees covered under agreements that expire in the next 12-months represent approximately 38% of all hourly employees of the Company.

Note 11. Discontinued Operations and Assets Held for Sale*Discontinued Operations*

On September 7, 2015, the Company reached an agreement for the sale of the Lahnstein Mill to the Buyer, a privately-owned enterprise specializing in equity holdings in German medium-sized companies, for cash proceeds of approximately \$9 million. The sale was completed on October 31, 2015. The Buyer acquired all the assets and liabilities of the Lahnstein Mill, including pension and related liabilities of approximately \$20 million. The Lahnstein Mill, which had annual sales of approximately \$50 million, had been operating as a stand-alone business, manufacturing non-woven wallcoverings and various other specialty papers. The sale focuses the Company's portfolio on targeted growth markets such as filtration, premium fine papers and packaging and other performance materials.

Upon reaching an agreement for the sale of the Lahnstein Mill, the Company compared the carrying value of the Lahnstein Mill assets to the fair value of such assets reflected in the sales agreement. As a result, the Company recognized an estimated impairment charge of \$5.5 million to reduce the carrying value of the Lahnstein Mill assets to fair value. Such estimate will be subject to adjustment as a result of the true-up of the sales price to the October 31, 2015 values of cash and working capital and other differences in estimates of other balance sheet accounts as of that date. In addition, the Company recognized approximately \$1.4 million of estimated transaction costs related to the sale. For the three and nine months ended September 30, 2015, discontinued operations reported on the condensed consolidated statements of operations include the results of operations and the estimated loss on sale of the Lahnstein Mill. The condensed consolidated statements of operations for the three and nine months ended September 30, 2014 have been restated to report results of the Lahnstein Mill as discontinued operations. The results of the Lahnstein Mill were previously reported in the Technical Products segment. As of September 30, 2015 and December 31, 2014, the assets and liabilities of the Lahnstein Mill are classified as assets held for sale on the condensed consolidated balance sheet.

The following table presents selected financial information for discontinued operations:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2015	2014	2015	2014
Net sales	\$ 12.2	\$ 15.2	\$ 38.8	\$ 50.0

Deferred Income Taxes	0.6	0.7
Noncurrent Employee Benefits	20.9	22.2
Liabilities related to facilities held for sale	\$ 27.4	\$ 27.3

As of September 30, 2015, assets held for sale less liabilities related to facilities held for sale of \$10.7 million is composed of \$8.8 million related to the Lahnstein Mill and \$1.9 million related to the Fitchburg Mill.

Note 12. Business Segment Information

On July 1, 2015, the Company reorganized its internal management structure and, accordingly, addressed its segment reporting structure. As a result of this reorganization, the Other operating segment (composed of the non-premium Index, Tag and Vellum Bristol product lines acquired as part of the purchase of the Wausau brands) was combined with the Fine Paper and Packaging operating segment to reflect the manner in which this business is managed. Segment information for prior periods has been restated to conform to the current period presentation. In addition, as part of the FiberMark acquisition, the Company acquired certain product lines composed of non-strategic papers sold to converters for end uses such as covering materials for datebooks, diaries, yearbooks and traditional photo albums. Due to the non-strategic nature of these products, management decided that they would not be managed as part of either the existing Fine Paper and Packaging or Technical Material businesses. As a result, effective August 1, 2015, these product lines represent an operating segment which does not meet the quantitative threshold for a reportable segment and are accordingly reported as an Other operating segment.

The Company's reportable operating segments now consist of Technical Products, Fine Paper and Packaging and Other. The Technical Products segment is an aggregation of the Company's Filtration and Performance Material businesses which are similar in terms of economic characteristics, nature of products, processes, customer class and product distribution methods.

Edgar Filing: Neenah Paper Inc - Form 10-Q

The technical products business is an international producer of fiber-formed, coated and/or saturated specialized media that delivers high performance benefits to customers. Included in this segment are filtration media, tape and abrasives backings products, and durable label and specialty substrate products. The fine paper and packaging business is a supplier of branded premium printing, packaging and other high end specialty papers primarily in North America. Each segment employs different technologies and marketing strategies. Disclosure of segment information is on the same basis that management uses internally for evaluating segment performance and allocating resources. Transactions between segments are eliminated in consolidation. The costs of shared services, and other administrative functions managed on a common basis, are allocated to the segments based on usage, where possible, or other factors based on the nature of the activity. General corporate expenses that do not directly support the operations of the business segments are shown as Unallocated corporate costs.

The following table summarizes the net sales, operating income and total assets for each of the Company's business segments.

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2015	2014	2015	2014

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

*The following discussion and analysis presents the factors that had a material effect on our financial position as of September 30, 2015 and our results of operations for the three and nine months ended September 30, 2015 and 2014. You should read this discussion in conjunction with our consolidated financial statements and the notes to those consolidated financial statements included in our most recent Annual Report on Form 10-K. This Management's Discussion and Analysis of Financial Condition and Results of Operations contains forward-looking statements. See *Forward-Looking Statements* for a discussion of the uncertainties, risks and assumptions associated with these statements.*

Executive Summary

On August 1, 2015, we purchased all of the outstanding equity of FiberMark from American Securities for a purchase price of \$120 million. The purchase price of \$120 million, subject to adjustments for acquired cash and a working capital true up, resulted in a cash payment of \$123 million at closing, and was financed through \$80 million of cash on hand and the balance from available borrowing capacity on our Global Revolving Credit Facilities.

On September 7, 2015, we reached an agreement for the sale of our Lahnstein Mill to the Kajo Neukirchen Group for cash proceeds of approximately \$9 million. We completed the sale on October 31, 2015. For the three and nine months ended September 30, 2015, discontinued operations reported on the condensed consolidated statements of operations reflect the results of operations and the estimated loss on sale of the Lahnstein Mill. The condensed consolidated statements of operations for the three and nine months ended September 30, 2014 have been restated to report results of the Lahnstein Mill as discontinued operations. The results of the Lahnstein Mill were previously reported in the Technical Products segment.

For the three months ended September 30, 2015, consolidated net sales increased \$16.3 million from the prior year period to \$231.6 million as incremental technical products volume related to organic growth, the FiberMark acquisition and higher average net prices for our heritage businesses were partially offset by unfavorable currency exchange effects. Excluding currency exchange effects and incremental sales from FiberMark, consolidated sales increased \$1.7 million (1%) from the prior year.

Consolidated operating income of \$24.4 million for the three months ended September 30, 2015 increased \$2.7 million from the prior year period. The favorable comparison to the prior year was primarily due to higher net price for our heritage businesses, lower manufacturing input costs and organic volume growth in our technical products business. These favorable variances were partially offset by lower fine paper and packaging shipment volume, the timing of scheduled annual maintenance downtime for our German filtration operation and unfavorable currency exchange effects.

Cash provided by operating activities of \$35.0 million for the three months ended September 30, 2015 was \$14.3 million favorable to cash provided by operating activities of \$20.7 million in the prior year period primarily due to reduced investments in working capital and lower post-retirement benefit plan contributions.

Edgar Filing: Neenah Paper Inc - Form 10-Q

On July 1, 2015, we reorganized our internal management structure and, accordingly, addressed our segment reporting structure. As a result of this reorganization, the Other operating segment (composed of the non-premium Index, Tag and Vellum Bristol product lines acquired as part of the purchase of the Wausau brands) was combined with the Fine Paper and Packaging operating segment to reflect the manner in which this business is managed. Segment information for prior periods has been restated to conform to the current period presentation. In addition, as part of the FiberMark acquisition, we acquired certain product lines composed of non-strategic papers sold to converters for end uses such as covering materials for datebooks, diaries, yearbooks and traditional photo albums. Due to the non-strategic nature of these products, management decided that they would not be managed as part of either the existing Fine Paper and Packaging or Technical Material businesses. As a result, effective August 1, 2015, these product lines represent an operating segment which does not meet the quantitative threshold for a reportable segment and are accordingly reported as an Other operating segment. Our reportable operating segments now consist of Technical Products, Fine Paper and Packaging and Other.

Results of Operations and Related Information

In this section, we discuss and analyze our net sales, earnings before interest and taxes (which we refer to as operating income) and other information relevant to an understanding of our results of operations for the three months ended September 30, 2015 and 2014.

Analysis of Net Sales Three and nine months ended September 30, 2015 and 2014

The following table presents net sales by segment, expressed as a percentage of total net sales:

	Three Months Ended September 30,				Nine Months Ended September 30,			
	2015		2014		2015		2014	
Net sales								
Technical Products	\$ 108.9	47%	\$ 106.2	49%	\$ 321.2	49%	\$ 305.9	48%
Fine Paper and Packaging	116.9	50%	109.1	51%	330.3	50%	330.2	52%

Table of Contents

Commentary:

The following table presents our net sales by segment for the three months ended September 30, 2015 and 2014:

	Three Months Ended September 30,		Change in Net Sales Compared to Prior Period			
	2015	2014	Total Change	Volume	Average Net Price	Currency
Technical Products	\$ 108.9	\$ 106.2	\$ 2.7	\$ 12.4	\$ (0.2)	\$ (9.5)
Fine Paper and Packaging	116.9	109.1	7.8	5.8	2.0	
Other	5.8		5.8	5.8		
Consolidated	\$ 231.6	\$ 215.3	\$ 16.3	\$ 24.0	\$ 1.8	\$ (9.5)

Consolidated net sales for the three months ended September 30, 2015 were \$16.3 million (8%) higher than the prior year period as incremental technical products organic volume growth, the FiberMark acquisition and higher average selling prices more than offset unfavorable currency exchange effects and lower volumes for the heritage fine paper and packaging business. Excluding currency exchange effects and incremental FiberMark sales, consolidated sales increased \$1.7 million (1%).

- Net sales in our technical products business increased \$2.7 million (3%) from the prior period due to incremental organic volume, the FiberMark acquisition and higher selling prices, partially offset by unfavorable currency exchange effects and a lower value product mix. Unfavorable currency exchange effects resulted from the Euro weakening by more than 15 percent relative to the U.S. dollar in the third quarter of 2015 as compared to the prior year period. Excluding currency exchange effects and incremental sales from FiberMark, technical product sales increased \$2.1 million (2%). Excluding incremental sales of FiberMark, sales volumes increased approximately two percent from the prior year period as growth in filtration and labels more than offset lower shipments of backing products.
- Net sales in our fine paper and packaging business increased \$7.8 million (7%) from the prior year period primarily due to incremental FiberMark sales. Excluding acquired revenues, fine paper and packaging sales decreased \$0.4 million or less than one percent as higher average net price was offset by a two percent decrease in sales volumes. Sales volumes were unfavorable to the prior year as increases in premium packaging and retail products were more than offset by lower sales of other grades, including lower margin special make business. Average net price improved from the prior year due to both an increase in average selling prices and a more favorable product mix.

The following table presents our net sales by segment for the nine months ended September 30, 2015 and 2014:

Nine Months	Change in Net Sales Compared to Prior Period			
	Total Change	Volume	Average Net Price	Currency

Edgar Filing: Neenah Paper Inc - Form 10-Q

	Ended September 30,		Total Change	Volume	Average Net Price	Currency
	2015	2014				
Technical Products	\$ 321.2	\$ 305.9	\$ 15.3	\$ 47.8	\$ (0.1)	\$ (32.4)
Fine Paper and Packaging	330.3	330.2	0.1	(7.5)	7.6	
Other	5.8		5.8	5.8		
Consolidated	\$ 657.3	\$ 636.1	\$ 21.2	\$ 46.1	\$ 7.5	\$ (32.4)

Consolidated net sales for the nine months ended September 30, 2015 were \$21.2 million higher than the prior year period due to incremental technical products organic volume growth, the FiberMark acquisition, and higher average selling prices, partially offset by unfavorable currency exchange effects. Excluding incremental FiberMark sales and currency exchange effects, consolidated net sales increased \$29.5 million (5%) from the prior year period.

- Net sales in our technical products business increased \$15.3 million (5%) from the prior year due as incremental sales volume related to organic growth, incremental FiberMark sales and higher selling prices were only partially offset by unfavorable currency exchange effects. Unfavorable currency exchange effects resulted from the Euro weakening by approximately 18 percent relative to the U.S. dollar in the first nine months of 2015 as compared to the prior year period. Excluding currency exchange effects and incremental FiberMark sales, technical product sales increased \$34.2 million (11%) and volumes increased approximately 12 percent from the prior year period due to growth in shipments of filtration and specialty performance products.

Edgar Filing: Neenah Paper Inc - Form 10-Q

Table of Contents

- Net sales in our fine paper and packaging business were essentially unchanged from the prior year period as higher average net price and incremental FiberMark sales were offset by a five percent decrease in sales volumes. Average net price improved from the prior year due to an increase in average selling prices and a more favorable product mix. Sales volume was unfavorable to the prior year as growth in shipments of premium packaging and retail products was more than offset by lower sales of other papers, including lower margin special make business.

The following table sets forth line items from our condensed consolidated statements of operations as a percentage of net sales for the periods indicated and is intended to provide a perspective of trends in our historical results:

	Three Months Ended September 30, 2015	Three Months Ended September 30, 2014	Nine Months Ended September 30, 2015	Nine Months Ended September 30, 2014
Net sales	100.0%	100.0%	100.0%	100.0%
Cost of products sold	79.1	80.8	77.8	79.9
Gross profit	20.9	19.2	22.2	20.1
Selling, general and administrative expenses	9.2	8.7	9.4	8.9

-
- (a) Includes changes in selling price and product mix.
 - (b) Includes price changes for raw materials and energy.
 - (c) Includes other manufacturing costs, over (under) absorption of fixed costs, distribution and selling, general and administrative (SG&A) expenses, and acquisition integration/restructuring costs.

Consolidated operating income of \$24.4 million for the three months ended September 30, 2015 increased \$2.7 million (12%) from the prior year period. The favorable comparison was primarily due to higher net price for both businesses, lower manufacturing input costs and incremental technical products volume due to organic growth; partially offset by higher manufacturing costs in technical products, lower fine paper and packaging volume and unfavorable currency effects. Excluding results of the FiberMark acquisition, acquisition integration/restructuring costs and currency effects, consolidated operating income increased \$5.8 million (26%).

Table of Contents

- Operating income for our technical products business increased \$1.4 million (15%) from the prior year period primarily due to higher selling prices, incremental volume from organic growth and lower manufacturing input costs. These favorable variances were partially offset by unfavorable currency exchange effects and higher manufacturing costs related to the timing of scheduled annual maintenance downtime at our German filtration operation that occurred in the third quarter of 2015 and the fourth quarter of 2014. Results for the three months ended September 30, 2015 and 2014 include \$1.1 million for acquisition integration/restructuring costs. Excluding currency exchange effects and acquisition integration/restructuring costs, operating income for the technical products business increased \$2.5 million (23%).
- Operating income for our fine paper and packaging business increased \$1.9 million (12%) from the prior year period primarily due to lower input costs, higher net price and lower manufacturing costs. Excluding acquisition related integration costs, operating income increased \$2.8 million (18%).
- Unallocated corporate expenses for the three months ended September 30, 2015 of \$3.6 million were \$0.4 million unfavorable to the prior year period. The unfavorable comparison to the prior year period is primarily due to restructuring and acquisition costs in the current year period. Results for the three months ended September 30, 2014 include \$0.2 million of income associated with acquisition related activities.

The following table presents our operating income by segment for the nine months ended September 30, 2015 and 2014:

	Nine Months		Total Change	Change in Operating Income Compared to Prior Period Change Due To				
	Ended September 30, 2015	2014		Volume	Net Price (a)	Material Costs (b)	Currency	Other (c)
Technical Products	\$ 41.7	\$ 35.5	\$ 6.2	\$ 7.3	\$ 3.5	\$ 3.3	\$ (4.2)	\$ (3.7)
Fine Paper and Packaging	52.2	45.6	6.6	(5.0)	6.3	6.8	(0.1)	(1.4)
Other	(0.2)		(0.2)	(0.2)				
Unallocated corporate costs	(13.2)	(11.5)	(1.7)					(1.7)
Consolidated	\$ 80.5	\$ 69.6	\$ 10.9	\$ 2.1	\$ 9.8	\$ 10.1	\$ (4.3)	\$ (6.8)

(a) Includes changes in selling price and product mix.

(b) Includes price changes for raw materials and energy.

(c) Includes other manufacturing costs, over (under) absorption of fixed costs, distribution and SG&A expenses, and acquisition integration/restructuring costs.

Edgar Filing: Neenah Paper Inc - Form 10-Q

Consolidated operating income of \$80.5 million for the nine months ended September 30, 2015 increased \$10.9 million (16%) from the prior year period. The favorable comparison was primarily due to lower manufacturing input costs and higher selling prices for both businesses, partially offset by higher manufacturing, acquisition and restructuring costs and unfavorable currency effects.

- Operating income for our technical products business increased \$6.2 million (17%) from the prior year period primarily due to higher selling, lower manufacturing input costs and incremental volume related to organic growth. These favorable variances were partially offset by unfavorable currency exchange effects and higher manufacturing costs. Results for the nine months ended September 30, 2015 and 2014 include \$1.1 million and \$1.3 million, respectively, for acquisition integration/restructuring costs. Excluding incremental volume from the FiberMark acquisition, unfavorable currency exchange effects and acquisition integration/restructuring costs, operating income for the technical products business increased \$10.2 million or 28 percent.
- Operating income for our fine paper and packaging business increased \$6.6 million (14%) from the prior year period primarily due to lower manufacturing input costs principally as a result of lower natural gas prices and higher net price. Extreme winter weather conditions during the first quarter of 2014 resulted in a temporary increase in natural gas prices. These favorable variances were partially offset by lower shipment volume and higher manufacturing and SG&A costs.
- Unallocated corporate expenses for the nine months ended September 30, 2015 of \$13.2 million were \$1.7 million unfavorable to the prior year period. The unfavorable comparison to the prior year period is primarily due to the timing of certain corporate costs in the current year period. Results for the nine months ended September 30, 2015 and 2014, include acquisition integration/restructuring costs of \$0.6 million and \$0.1 million, respectively.

Table of Contents*Additional Statement of Operations Commentary:*

- SG&A expense of \$21.2 million for the three months ended September 30, 2015 was \$2.5 million higher than SG&A expense of \$18.7 million in the prior year period primarily due to incremental expenses related to the FiberMark acquisition. For the three months ended September 30, 2015, SG&A expense as a percent of sales increased to 9.2 percent from 8.7 percent in the prior year period.
- For the three months ended September 30, 2015, we incurred net interest expense of \$2.9 million which was \$0.2 million higher than the prior year period primarily due to incremental borrowings under our Global Revolving Credit Facilities to partially fund the FiberMark acquisition.
- In general, our effective tax rate differs from the U.S. statutory tax rate of 35 percent primarily due to the proportion of pre-tax income in jurisdictions with marginal tax rates that differ from the U.S. statutory tax rate. For the three months ended September 30, 2015 and 2014, we recorded an income tax provision of \$8.0 million and \$5.6 million, respectively. The effective income tax rate for the three months ended September 30, 2015 and 2014 was 37 percent and 29 percent, respectively. The increase in our effective tax rate was primarily due to the impact of federal and state research and development credits (R&D Credits). In 2015, the FiberMark acquisition reduced the amount of state R&D Credits which are expected to be utilized prior to expiration. In 2014, the effective income tax rate benefitted from recognition of 2013 tax credits.

Liquidity and Capital Resources

	Nine Months Ended September 30,	
	2015	2014
Net cash flow provided by (used in):		
Operating activities	\$ 79.5	\$ 72.6
Investing activities:		
Capital expenditures	\$ (25.7)	\$ (15.2)
Acquisitions	(118.2)	(72.4)
Purchase of equity investment		(2.9)
Other investing activities	0.4	(0.5)
Total	\$ (143.5)	\$ (91.0)
Financing activities	\$ (2.4)	\$ (30.7)
Net decrease in cash and cash equivalents (a)	\$ (67.1)	\$ (49.4)

(a) Includes the effect, if any, of exchange rate changes on cash and cash equivalents.

Operating Cash Flow Commentary

- Cash provided by operating activities of \$79.5 million for the nine months ended September 30, 2015 was \$6.9 million favorable to cash provided by operating activities of \$72.6 million in the prior year period. The favorable comparison primarily resulted from lower post-retirement benefit plan contributions.

Investing Commentary:

- For the nine months ended September 30, 2015 and 2014, cash used by investing activities was \$143.5 million and \$91.0 million, respectively. Cash used by investing activities for the nine months ended September 30, 2015 and 2014 include acquisition related spending of \$118.2 million and \$72.4 million, respectively. Capital expenditures for the nine months ended September 30, 2015 were \$25.7 million compared to spending of \$15.2 million in the prior year period. In general, we expect aggregate annual capital expenditures of approximately 3 to 5 percent of net sales. For 2015, we expect annual capital expenditures at the upper end of that range or approximately \$50 million due to incremental investments in filtration assets in the U.S. We believe that the level of our capital spending can be more than adequately funded from cash provided from operating activities and allows us to maintain the efficiency and cost effectiveness of our assets and also invest in expanded manufacturing capabilities to successfully pursue strategic initiatives and deliver attractive returns.

Table of Contents

Financing Commentary:

Our liquidity requirements are provided by cash generated from operations and short and long-term borrowings.

- For the nine months ended September 30, 2015 and 2014, cash used in financing activities was \$2.4 million and \$30.7 million, respectively.
- Availability under our revolving credit facility varies over time depending on the value of our inventory, receivables and various capital assets. As of September 30, 2015, we had \$62.3 million outstanding under our Global Revolving Credit Facilities and \$126.6 million of available credit (based on exchange rates at September 30, 2015).
- We have required debt principal payments through June 30, 2016 of \$1.3 million for principal payments on the Second German Loan Agreement.
- For the nine months ended September 30, 2015, cash and cash equivalents decreased \$67.1 million to \$5.5 million at September 30, 2015 from \$72.6 million at December 31, 2014. Total debt increased \$11.9 million to \$246.2 million at September 30, 2015 from \$234.3 million at December 31, 2014. Net debt (total debt minus cash and cash equivalents) increased by \$79.0 million primarily due to spending related to the FiberMark acquisition partially offset by cash flow from operations.
- As of September 30, 2015, our cash balance of \$5.5 million consists of \$1.9 million in the U.S. and \$3.6 million held at entities outside of the U.S. As of September 30, 2015 there were no restrictions regarding the repatriation of our non-U.S. cash and, we believe, the repatriation of these cash balances to the U.S. would not materially increase our income tax provision.

Transactions With Shareholders

- In November 2014, our Board of Directors approved an eleven percent increase in the annual dividend rate on our common stock to \$1.20 per share. Effective March 3, 2015, the dividend is being paid in four equal quarterly installments of \$0.30 per share. For the nine months ended September 30, 2015 and 2014, we paid cash dividends of \$0.90 per common share or \$15.2 million and \$0.75 per common share or \$12.6 million, respectively.

- In May 2015, our Board of Directors authorized the 2015 Stock Purchase Plan. The 2015 Stock Purchase Plan allows us to repurchase up to \$25 million of our outstanding Common Stock through May 2016. Purchases under the 2015 Stock Purchase Plan will be made from time to time in the open market or in privately negotiated transactions in accordance with the requirements of applicable law. The timing and amount of any purchases will depend on share price, market conditions and other factors. The 2015 Stock Purchase Plan does not require us to purchase any specific number of shares and may be suspended or discontinued at any time. The 2015 Stock Purchase Plan replaced the 2014 Stock Purchase Plan that expired in May 2015. For the nine months ended September 30, 2015, we acquired approximately 42,100 shares of Common Stock at a cost of \$2.4 million and 60,900 shares of Common Stock at a cost of \$3.4 million pursuant to the 2015 Stock Purchase Plan and the 2014 Stock Purchase Plan, respectively. As of September 30, 2015, we have made aggregate purchases of 125,500 shares of Common Stock at a cost of \$7.0 million under the 2015 Stock Purchase Plan and 2014 Stock Purchase Plan.

Other Items:

- In 2015, all remaining U.S. federal NOLs have been utilized and we expect to pay approximately \$10 million of U.S. federal income taxes. As of September 30, 2015, we had \$49.3 million of state NOLs. Our state NOLs may be used to offset approximately \$2.6 million in state income taxes. If not used, substantially all of the state NOLs will expire in various amounts between 2020 and 2030. In addition, we had \$27.1 million of U.S. federal and state R&D Credits which, if not used, will expire between 2025 and 2034 for the U.S. federal R&D Credits and between 2017 and 2030 for the state R&D Credits. As of September 30, 2015, we recorded a valuation allowance of \$3.3 million against a portion of the R&D Credits.

- In conjunction with the FiberMark acquisition, we acquired U.S. state NOLs of \$31.3 million, which may be used to offset approximately \$2.0 million in state income taxes. If not used, substantially all of these NOLs will expire in various amounts between 2015 and 2028. As of September 30, 2015, we reflected a valuation allowance of \$1.6 million against a portion of the NOLs. In addition, we have state tax credits of approximately \$0.8 million, of which approximately \$0.2 million, if not used, will expire in 2027. As of September 30, 2015, we recorded a valuation allowance of \$0.2 million against a portion of the state tax credits.

- On September 7, 2015, we reached an agreement for the sale of our Lahnstein Mill to the Kajo Neukirchen Group (the Buyer) for cash proceeds of approximately \$9 million. We completed the sale on October 31, 2015. The Buyer acquired all the assets and liabilities of the Lahnstein Mill, including pension and related liabilities of approximately \$20 million. The Lahnstein Mill, which had annual sales of approximately \$50 million, had been operating as a stand-alone business, manufacturing non-woven wallcoverings and various other specialty papers. The sale focuses our portfolio on targeted growth markets such as filtration, premium fine papers and packaging and other performance materials.

Table of Contents

Management believes that our ability to generate cash from operations and our borrowing capacity are adequate to fund working capital, capital spending and other cash needs for the next 12 months. Our ability to generate adequate cash from operations beyond 2015 will depend on, among other things, our ability to successfully implement our business strategies, control costs in line with market conditions and manage the impact of changes in input prices and currencies. We can give no assurance we will be able to successfully implement these items.

Critical Accounting Policies and Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of net sales and expenses during the reporting period. We believe that the estimates, assumptions and judgments described in Management's Discussion and Analysis of Financial Condition and Results of Operations Critical Accounting Policies of our most recent Annual Report on Form 10-K have the greatest potential impact on our financial statements, so we consider these to be our critical accounting policies. The critical accounting policies used in the preparation of the consolidated financial statements are those that are important both to the presentation of financial condition and results of operations and require significant judgments with regard to estimates used. These critical judgments relate to the timing of recognizing sales revenue, the recoverability of deferred income tax assets, pension benefits and future cash flows associated with impairment testing of long-lived assets. Actual results could differ from these estimates and changes in these estimates are recorded when known. We believe that the consistent application of these policies enables us to provide readers of our financial statements with useful and reliable information about our operating results and financial condition. There have been no significant changes in these policies, or the estimates used in the application of the policies, since December 31, 2014.

Cautionary Note Regarding Forward-Looking Statements

Certain statements in this Quarterly Report on Form 10-Q may constitute forward-looking statements as defined in Section 27A of the Securities Act of 1933 (the Securities Act), Section 21E of the Securities Exchange Act of 1934 (the Exchange Act), the Private Securities Litigation Reform Act of 1995 (the PSLRA), or in releases made by the SEC, all as may be amended from time to time. Statements contained in this quarterly report that are not historical facts may be forward-looking statements within the meaning of the PSLRA and we caution investors that any forward-looking statements we make are not guarantees or indicative of future performance. These forward-looking statements rely on a number of assumptions concerning future events and are subject to risks, uncertainties and other factors, many of which are outside of our control, that could cause actual results to materially differ from such statements. Such risks, uncertainties and other factors include, but are not necessarily limited to, those set forth under the captions Cautionary Note Regarding Forward-Looking Statements and/or Risk Factors of our latest Form 10-K filed with the SEC as periodically updated by subsequently filed Form 10-Qs (these securities filings can be located on our website at www.neenah.com). Unless specifically required by law, we assume no obligation to update or revise these forward-looking statements to reflect new events or circumstances. These cautionary statements are being made pursuant to the Securities Act, the Exchange Act and the PSLRA with the intention of obtaining the benefits of the safe harbor provisions of such laws.

You can identify forward-looking statements as those that are not historical in nature, particularly those that use terminology such as may, will, should, expect, anticipate, contemplate, estimate, believe, plan, project, predict, potential or continue, or the negative of the above. In evaluating these forward-looking statements, you should consider the following factors, as well as others contained in our public filings from time to time, which may cause our actual results to differ materially from any forward-looking statement:

- changes in market demand for our products due to global economic conditions;

Edgar Filing: Neenah Paper Inc - Form 10-Q

- the competitive environment;
- increases in commodity prices, (particularly for pulp, energy and latex) due to constrained global supplies or unexpected supply disruptions;
- fluctuations in (i) exchange rates (in particular changes in the U.S. dollar/Euro currency exchange rates) and (ii) interest rates;
- the availability of raw materials and energy;
- the loss of current customers or the inability to obtain new customers;
- our ability to control costs and implement measures designed to enhance operating efficiencies;
- strikes, labor stoppages and changes in our collective bargaining agreements and relations with our employees and unions;

F-29

Table of Contents

- capital and credit market volatility and fluctuations in global equity and fixed-income markets;
- unanticipated expenditures related to the cost of compliance with environmental and other governmental regulations;
- increases in the funding requirements for our pension and postretirement liabilities;
- changes in asset valuations including write-downs of assets including property, plant and equipment; inventory, accounts receivable, deferred tax assets or other assets for impairment or other reasons;
- our existing and future indebtedness;
- our tax planning strategies may not be effective; and
- other risks that are detailed from time to time in reports we file with the SEC.

Any subsequent written or oral forward-looking statements attributable to us or persons acting on our behalf are expressly qualified in their entirety by the cautionary statements set forth or referred to above, as well as the risk factors contained in our most recent Annual Report on Form 10-K. Except as required by law, we disclaim any obligation to update such statements or to publicly announce the result of any revisions to any of the forward-looking statements contained herein to reflect future events or developments.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

There have been no material changes to the disclosure on this matter made in our Annual Report on Form 10-K for the year ended December 31, 2014.

Item 4. Controls and Procedures

Disclosure Controls and Procedures

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in the reports we file or submit under the Exchange Act, as amended, is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the SEC, and that such information is accumulated and communicated to our management in a timely manner.

As of September 30, 2015, an evaluation was performed under the supervision and with the participation of our management, including the Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures.

Edgar Filing: Neenah Paper Inc - Form 10-Q

Based on that evaluation, our management, including the Chief Executive Officer and Chief Financial Officer, concluded that our disclosure controls and procedures were effective as of September 30, 2015.

Internal Controls over Financial Reporting

Our management, with the participation of our Chief Executive Officer and Chief Financial Officer, has evaluated whether any change in our internal control over financial reporting occurred during the three months ended September 30, 2015. Based on that evaluation, we have concluded that there has been no change in our internal control over financial reporting during the three months ended September 30, 2015 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II OTHER INFORMATION

Item 1. Legal Proceedings

See Note 10, *Contingencies and Legal Matters* of Notes to Condensed Consolidated Financial Statements of Item 1 *Financial Statements*.

Item 1A. Risk Factors

In addition to the other information set forth in this report, you should carefully consider the factors discussed in Part I, *Item 1A. Risk Factors* in our most recent Annual Report on Form 10-K, which could materially affect our business, financial condition or future results. The risks described in our Annual Report on Form 10-K are not the only risks facing our Company. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially adversely affect our business, financial condition and/or operating results.

Table of Contents**Item 2. Unregistered Sales of Equity Securities and Use of Proceeds*****Purchases of Equity Securities:***

The following table contains information about our purchases of our equity securities for the three months ended September 30, 2015.

Period	Total Number of Shares Purchased	Average Price Paid Per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Approximate Dollar Value of Shares that May Yet Be Purchased Under Publicly Announced Plans or Programs (a)
July 1, 2015 – July 31, 2015		\$		\$ 24,700,000
August 1, 2015 – August 31, 2015	10,600	\$ 55.53	10,600	\$ 24,100,000
September 1, 2015 – September 30, 2015		\$		\$ 24,100,000

(a) In May 2015, our Board of Directors authorized a program that would allow us to repurchase up to \$25 million of our outstanding Common Stock over the next 12 months (the 2015 Stock Purchase Plan). The 2015 Stock Purchase Plan replaced an identical \$25 million repurchase program that expired in May 2015 (the 2014 Stock Purchase Plan). As of September 30, 2015, the Company has purchased approximately 125,500 shares of Common Stock at an aggregate cost of \$7.0 million under the 2015 Stock Purchase Plan and 2014 Stock Purchase Plan.
