Indenture

On February 21, 2017, AECOM (the Company) completed an offering of \$1,000,000,000 aggregate principal amount of its 5.125% Senior Notes due 2027 (the Notes). The Notes were sold in the United States to qualified institutional buyers pursuant to Rule 144A under the Securities Act of 1933, as amended (the Securities Act), and outside the United States pursuant to Regulation S under the Securities Act. In addition, the Notes may be offered and sold to certain accredited investors (as defined in Rule 501 under the Securities Act).

The Notes were issued pursuant to an indenture, dated as of February 21, 2017 (the Indenture), by and among the Company, certain subsidiaries of the Company party thereto (the Guarantors) and U.S. Bank, National Association, as trustee (the Trustee). The Company intends to use the net proceeds of the offering of the Notes to repay a portion of the outstanding indebtedness under its senior secured credit facilities, to pay related fees and expenses and for general corporate purposes.

Interest will be payable on the Notes at a rate of 5.125% per annum. Interest on the Notes will be payable semi-annually on March 15 and September 15 of each year, commencing on September 15, 2017. The Notes will mature on March 15, 2027.

At any time and from time to time prior to December 15, 2026, the Company may redeem all or part of the Notes, at a redemption price equal to 100% of their principal amount, plus a make whole premium as of the redemption date, and accrued and unpaid interest to the redemption date. In addition, at any time and from time to time prior to March 15, 2020, the Company may redeem up to 35% of the original aggregate principal amount of the Notes with the proceeds of one or more qualified equity offerings, at a redemption price equal to 105.125%, plus accrued and unpaid interest. Furthermore, at any time on or after December 15, 2026, the Company may redeem on one or more occasions all or part of the Notes at a redemption price equal to 100% of their principal amount, plus accrued and unpaid interest.

The Indenture contains customary events of default, including, among other things, payment default, failure to provide certain notices thereunder and certain provisions related to bankruptcy events. The Indenture also contains customary negative covenants.

The Notes have not been registered under the Securities Act, or any state securities laws, and, unless so registered, may not be offered or sold in the United States absent registration or an applicable exemption from the registration requirements of the Securities Act and applicable state securities laws. This Current Report on Form 8-K does not constitute an offer to sell or the solicitation of an offer to buy, nor shall there be any offer, solicitation or sale of, the Notes in any jurisdiction in which such offer, solicitation or sale would be unlawful prior to registration or qualification under the securities laws of any such jurisdiction.

The description of the Indenture and the Notes in this Current Report on Form 8-K is a summary and is qualified in its entirety by reference to the text of the Indenture and the form of 2027 Note, which are filed as Exhibits 4.1 and 4.2, respectively, hereto and incorporated herein by reference.

Registration Rights Agreement

In connection with the offering of the Notes, the Company entered into a Registration Rights Agreement, dated as of February 21, 2017 (the Registration Rights Agreement), with the Guarantors, on the one hand, and Merrill Lynch, Pierce, Fenner & Smith Incorporated, as representative of the initial purchasers of the Notes (the Initial Purchasers), on the other hand.

Under the Registration Rights Agreement, the Company and the Guarantors have agreed to use their commercially reasonable efforts to (i) file with the U.S. Securities and Exchange Commission (the SEC) a registration statement (the Exchange Offer Registration Statement) relating to the registered exchange offer (the Exchange Offer) to exchange the Notes for a new series of the Company's exchange notes having terms substantially identical in all material respects to, and in the same aggregate principal amount as the Notes, (ii) cause the Exchange Offer Registration Statement to be declared effective by the SEC on or prior to the 390th day following February 21, 2017 (or if such 390th day is not a business day, the next succeeding business day (the Exchange Date)), (iii) cause the Exchange Offer Registration Statement to be effective continuously and keep the exchange offer open for a period not less than 30 days after the date notice of the exchange offer is mailed to the holders of the Notes and (iv) cause the Exchange Offer to be consummated in no event later than the Exchange Date.

Under certain circumstances, the Company and the Guarantors have agreed to use their commercially reasonable efforts to (i) file a shelf registration statement relating to the resale of the Notes on or prior to the Exchange Date (such date being the Shelf Filing Deadline), (ii) cause the shelf registration statement to be declared effective not later than the 60th day after the Shelf Filing Deadline (or if such 60th day is not a business day, the next succeeding business day) and (iii) keep such shelf registration continuously effective until two years after its effective date (or such shorter period that will terminate when all the Notes covered thereby have been sold pursuant thereto).

If the Company fails to meet any of these targets, the annual interest rate on the Notes will increase by 0.25%, and will increase by an additional 0.25% for each subsequent 90-day period during which the default continues, up to a maximum additional interest rate of 1.0% per year. If the Company cures the default, the interest rate on the Notes will revert to the original level.

The description of the Registration Rights Agreement in this Current Report on Form 8-K is a summary and is qualified in its entirety by reference to the complete text of the Registration Rights Agreement, which is filed as Exhibit 4.3 hereto and is incorporated herein by reference.
