### NOTE 1 - DESCRIPTION OF BUSINESS

WaterChef, Inc. (the "Company"), is a Delaware Corporation currently engaged in the design and marketing of water purification equipment both inside and outside the United States.

# Edgar Filing: WATER CHEF INC - Form 10QSB

## NOTE 2 - BASIS OF PRESENTATION AND ACCOUNTING POLICES

The accompanying unaudited condensed financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information. Accordingly these financial statements do not include all of the information and footnotes required by accounting principles generally accepted in the United States of America. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary to make the financial statements not misleading have been included. Operating results for the three and nine-month period ended September 30, 2004 are not necessarily indicative of the results that may be expected for the year ending December 31, 2004. These financial statements should be read in conjunction with the financial statements and footnotes thereto included in the Company's Annual Report on Form 10-KSB, filed on March 12, 2004, for the year ended December 31, 2003.

Stock-Based Compensation - In December 2002, the FASB issued SFAS No. 148, "Accounting for Stock-Based Compensation - Transition and Disclosure - an amendment of FASB Statement No.123." SFAS No. 148 amends SFAS No. 123, "Accounting for Stock-Based Compensation," to provide alternative methods of transition for a voluntary change to the fair value based method of accounting for stock-based employee compensation. In addition, SFAS No. 148 amends the disclosure requirements of SFAS No. 123 to require prominent disclosures in both annual and interim financial statements about the method of accounting for stock-based employee compensation and the effect of the method used on reported results. The disclosure requirements apply to all companies for fiscal years ending after December 15, 2002. The interim disclosure provisions are effective for financial reports containing financial statements for interim periods beginning after December 15, 2002. The Company will continue to account for stock-based compensation according to APB Opinion No. 25.

The following table summarizes relevant information as to reported results under the Company's intrinsic value method of accounting for stock awards, with supplemental information as if the fair value recognition provisions of FAS 123 had been applied for the following periods ended September 30, 2004 and 2003 as follows:

### NOTES TO CONDENSED FINANCIAL STATEMENTS (UNAUDITED)

#### NOTE 3 - GOING CONCERN

The accompanying condensed financial statements have been prepared assuming that the Company will continue as a going concern. The Company has suffered recurring losses and has a working capital deficiency at September 30, 2004. These conditions raise substantial doubt about the Company's ability to continue as a going concern. Management's plans with respect to these matters include restructuring its existing debt, settling its existing debt by issuing shares of its common stock and raising additional capital through future issuance of stock and or debentures. The accompanying financial statements do not include any adjustments that might be necessary should the Company be unable to continue as a going concern.

#### NOTE 4 - RECENT ACCOUNTING STANDARDS

In January 2003, the FASB issued Interpretation Number 46, "Consolidation of Variable Interest Entities" ("FIN No. 46"). This interpretation of Accounting Research Bulletin ("ARB") No. 51, "Consolidated Financial Statements," provides guidance for identifying a controlling interest in a variable interest entity ("VIE") established by means other than voting interests. FIN No. 46 also requires consolidation of a VIE by an enterprise that holds such a controlling interest. In December 2003, the FASB completed its deliberations regarding the proposed modification to FIN No. 46 and issued Interpretation Number 46(R), "Consolidation of Variable Interest Entities - an Interpretation of ARB No. 51" ("FIN No. 46(R)"). The decisions reached included a deferral of the effective date and provisions for additional scope exceptions for certain types of variable interests. Application of FIN No. 46(R) is required in financial statements of public entities that have interests in VIEs or potential VIEs commonly referred to as special-purpose entities for periods ending after December 15, 2003. Application by public small business issuers' entities is required in all interim and annual financial statements for periods ending after December 15, 2004.

The adoption of this pronouncement is not expected to have a material effect on the Company's financial statements.

#### NOTE 5 - COMMON STOCK ISSUED

On June 4, 2004, the Company convened a special meeting of its common, Series A Preferred, Series C Preferred, Series D Preferred, Series F Preferred stockholders (together the "Stockholders"). The Stockholders, voting as a single class, voted and approved a proposal to amend the Certificate of Incorporation to increase the Company's authorized capital stock from 100,000,000 shares to 200,000,000 shares, consisting of 190,000,000 shares of common stock and

## Edgar Filing: WATER CHEF INC - Form 10QSB

10,000,000 shares of preferred stock.

During the nine months ended September 30, 2004, the Company recorded the following transactions:

a. Cash

During 2002, the Company received \$200,000 for 4,000,000 shares of its common stock. These shares were issued during the June 2004 quarter upon the approval by the stockholders of the increase in the number of authorized common shares of the Company.

During the September 2004 quarter, the Company received \$207,600 for 2,541,595 shares of its common stock.

b. Non-Dilution Agreement Termination Cost

In 2002, the Company agreed to issue to the Company's President and Chief Executive Officer, and to related parties of such, an aggregate of 14,923,958 shares of its common stock in connection with the voluntary surrender of a non-dilution agreement that the President had entered into with the Company in June 1997.

NOTES TO CONDENSED FINANCIAL STATEMENTS  
(UNAUDITED)

NOTE 5 - COMMON STOCK ISSUED(Continued)

Since the issuance of these shares was subject to stockholder approval, the measurement date for purposes of valuation was established when such stockholder approval was obtained. Accordingly, the Company was utilizing variable accounting to determine the value of these shares. These shares were issued during the June 2004 quarter upon the approval by the stockholders of the increase in the number of authorized common shares of the Company. The value of these shares was \$2,462,451.

c. Services

During 2002, the Company agreed to issue to various parties an aggregate of 1,075,000 shares of its common stock for value of \$84,000 in connection with professional services. These shares were issued during the June 2004 quarter upon the approval by the stockholders of the increase in the number of authorized common shares of the Company.

During the September 2004 quarter, the Company issue to various parties an aggregate of 2,214,933 shares of its common stock for value of \$146,507 in connection with professional services. These shares were issued during the current quarter.

d. Debenture Liabilities

The Company was a defendant in an action brought by certain debenture holders (The "Bridge Loans") in New Hampshire Superior Court seeking

## Edgar Filing: WATER CHEF INC - Form 10QSB

repayment of \$300,000 of debenture principal together with interest from 1997, and the issuance of penalty shares for non payment of principal and interest. In addition, the plaintiffs claim that they had suffered by the Company's failure to register the shares issued under the warrant agreement.

The Company had interposed defenses and counterclaims. In June 1997, in connection with the debentures, the Company had issued 6,667 shares of common stock for every \$1,000 of debt at a price of \$0.15 per share. The Company claimed that it was owed the \$300,000 consideration for such shares. In addition, the Company had issued warrants for the purchase of 2,500,000 shares of common stock at an exercise price of \$0.15 per share originally exercisable until March 2002.

Furthermore, the Company had issued another 100,000 shares of common stock to each debenture holder, or 1,300,000 shares, at a price of \$0.15 per share.

In 2002, the Company and the Bridge Lenders participating in the legal action, settled this dispute requiring the Company to: (i) Issue a minimum of 3,000,000 shares of common stock valued at \$497,500 in lieu of the principal and interest owed to the debenture holders who participated ("participants") in this legal action. The Company recorded the debentures at \$300,000, plus accrued interest of \$39,400, for a total of \$339,400. The difference between the \$497,500 settlement and the \$339,400, or \$158,100, was recorded as a loss on settlement of debt; (ii) Extend the warrants attached to the participants' debentures for another two years until March 2004, for which the Company has recorded a non cash charge of \$111,000; (iii) In 2004, in connection with the issuance of the Bridge Lender shares, the Company further extended the term of the warrants for twelve months until March 2005 and recorded \$94,151 as a loss on settlement of debt in connection with such warrant extension; and (iv) Issued additional shares since the product of the \$497,500, as valued for the 3,000,000 shares above, divided by the average daily trading price for the 30 days subsequent to the settlement, was greater than the original 3,000,000 shares. Due to these requirements, the Company was obligated to issue an additional 14,037,671 shares. As of June 30, 2004, the Company has issued the 3,000,000 shares and the additional 14,037,671 shares originally valued at \$497,500. The Company recorded a loss on settlement of debt of \$2,313,716 since the total value of the shares on the date of issuance was \$2,811,216.

### NOTE 6 - NET LOSS PER SHARE OF COMMON STOCK

Basic net loss per share of common stock is computed based on the weighted average number of common shares outstanding during the periods presented.

Diluted net income per share of common stock is computed based on the weighted average number of common shares outstanding during the periods presented, plus any dilutive common stock equivalents. Common stock equivalents consisting of warrants and options were not included in the calculation of loss per share for the three and nine months ended September 30, 2004 and 2003 because their inclusion would have been antidilutive. Total potential shares issuable upon the exercise of options, warrants, the conversion of preferred stock, and payment of accrued dividends for the nine months ended September 30, 2004 and 2003 were 37,555,044 and 24,982,154, respectively.

### NOTE 7 - COMMITMENTS AND CONTINGENCIES (Continued)

On November 17, 2000, the Company entered into a three-year master distribution agreement for their "Pure Safe Water Station" with a distributor based out of Hong Kong ("the distributor"). Under this agreement, upon meeting minimum quantities of sales in each of the years of agreement, the distributor will receive a rebate of 20% of the total price for all products, parts and supplies purchased from the Company. Furthermore, the distributor, upon meeting these minimum sales quantities will have the right to purchase up to 30,000,000 shares of the Company's common stock at \$0.05 per share. The sales targets were never met and the agreement was cancelled on June 17, 2002.

### NOTE 8 - PREFERRED STOCK-SERIES F & SERIES C

During 2003, management authorized the Company to raise up to \$550,000 through a private placement by issuing 10% two-year convertible preferred instruments. The preferred, designated as Series F, and providing for one million shares in total, will be convertible into shares of Water Chef's common stock at such time as the stockholders of the corporation approve an increase in the authorized capital stock of the corporation, which occurred on June 4, 2004. All dividends are cumulative and are payable in cash or in shares of the Company's common stock valued at the then current market price per share, at the time of maturity, or upon conversion, whichever is earlier. The conversion rate for shares is 40 shares of common for each share of preferred stock. The Series F convertible preferred stockholders have voting rights equal to the common stockholders. The Series F convertible preferred stock has no stated rights in the assets of the Company upon liquidation.

Although there was a discount upon the issuance of all of the preferred stock in accordance with Emerging Issue Task Force ("EITF") 98-5, a security is not yet convertible if certain contingencies exist which are dependent upon the occurrence of a future event outside the control of the security holder. In this case, the shares could only be converted into common stock after the stockholders of the Company approve an increase in the authorized capital stock of the corporation. In accordance with EITF 98-5, any beneficial conversion (discount) feature is measured at the commitment date, but will not be recognized as an adjustment to earnings until the contingency is resolved, (the date the increase in shares are approved). On June 4, 2004, the Company voted and approved a proposal to amend the Certificate of Incorporation to increase the Company's authorized capital stock from 100,000,000 to 200,000,000 shares, consisting of 190,000,000 shares of common stock and 10,000,000 shares of preferred stock. During the June 2004 quarter, the Company recorded the deferred contingent beneficial conversion adjustment of \$2,072,697 as a deemed dividend since the contingency was resolved.

### Liquidity and Capital Resources

At September 30, 2004 the Company had a working capital deficiency. In addition the Company continues to suffer recurring losses. These conditions raise substantial doubt about the Company's ability to continue as a going concern. The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. Management's plans with respect to these matters include restructuring its existing debt, raising additional capital through future issuances of stock and/or equity, and finding sufficient profitable markets for its products to generate sufficient cash to meet its business obligations. The accompanying financial statements do not include any adjustments that might be necessary should the Company be unable to continue as a going concern.

During the nine months ended September 30, 2004 the Company raised \$412,756 from the sale of preferred stock and \$207,600 from the sale of common stock.

### Common Stock Issued

Since the issuance of these shares was subject to stockholder approval, the measurement date for purposes of valuation was established when such stockholder approval was obtained. Accordingly, the Company was utilizing variable accounting to determine the value of these shares. These shares were issued during the June 2004 quarter upon the approval by the stockholders of the increase in the number of authorized common shares of the Company. The value of these shares was \$2,462,451.

### d. Debenture Liabilities

The Company was a defendant in an action brought by certain debenture holders (The "Bridge Loans") in New Hampshire Superior Court seeking repayment of \$300,000 of debenture principal together with interest from 1997, and the issuance of penalty shares for non payment of principal and interest. In addition, the plaintiffs claim that they had suffered by the Company's failure to register the shares issued under the warrant agreement.

The Company had interposed defenses and counterclaims. In June 1997, in connection with the debentures, the Company had issued 6,667 shares of common stock for every \$1,000 of debt at a price of \$0.15 per share. The Company claimed that it was owed the \$300,000 consideration for such shares. In addition, the Company had issued warrants for the purchase of 2,500,000 shares of common stock at an exercise price of \$0.15 per share originally exercisable until March 2002.

Furthermore, the Company had issued another 100,000 shares of common stock to each debenture holder, or 1,300,000 shares, at a price of \$0.15 per

share.

In 2002, the Company and the Bridge Lenders participating in the legal action, settled this dispute requiring the Company to: (i) Issue a minimum of 3,000,000 shares of common stock valued at \$497,500 in lieu of the principal and interest owed to the debenture holders who participated ("participants") in this legal action. The Company recorded the debentures at \$300,000, plus accrued interest of \$39,400, for a total of \$339,400. The difference between the \$497,500 settlement and the \$339,400, or \$158,100, was recorded as a loss on settlement of debt; (ii) Extend the warrants attached to the participants' debentures for another two years until March 2004, for which the Company has recorded a non cash charge of \$111,000; (iii) In 2004, in connection with the issuance of the Bridge Lender shares, the Company further extended the term of the warrants for twelve months until March 2005 and recorded \$94,151 as a loss on settlement of debt in connection with such warrant extension; and (iv) Issued additional shares since the product of the \$497,500, as valued for the 3,000,000 shares above, divided by the average daily trading price for the 30 days subsequent to the settlement, was greater than the original 3,000,000 shares. Due to these requirements, the Company was obligated to issue an additional 14,037,671 shares. As of June 30, 2004, the Company has issued the 3,000,000 shares and the additional 14,037,671 shares originally valued at \$497,500. The Company recorded a loss on settlement of debt of \$2,313,716 since the total value of the shares on the date of issuance was \$2,811,216.

The debenture holders that did not participate ("non-participating debentures") in the above legal action had total debentures of \$75,000, plus accrued interest of \$9,850 as of the settlement date, totaling \$84,850. In conjunction with the above settlement, the Company settled these outstanding non-participating debentures, plus accrued interest, with the issuance of 750,000 shares of common stock valued at \$0.0292 per share, or \$21,900. During the June 2004 quarter, the 750,000 shares were issued.

e. Conversion of preferred stock into common stock

During the September 30, 2004 quarter, the Company agreed to issue to various parties an aggregate of 12,103,854 shares of its common stock in connection with the conversion of preferred stock.

Recent Accounting Standards  
-----

The following pronouncements have been issued by the Financial Accounting Standards Board ("FASB").

In January 2003, the FASB issued Interpretation Number 46, "Consolidation of Variable Interest Entities" ("FIN No. 46"). This interpretation of Accounting Research Bulletin ("ARB") No. 51, "Consolidated Financial Statements," provides

## Edgar Filing: WATER CHEF INC - Form 10QSB

guidance for identifying a controlling interest in a variable interest entity ("VIE") established by means other than voting interests. FIN No. 46 also requires consolidation of a VIE by an enterprise that holds such a controlling interest. In December 2003, the FASB completed its deliberations regarding the proposed modification to FIN No. 46 and issued Interpretation Number 46(R), "Consolidation of Variable Interest Entities - an Interpretation of ARB No. 51" ("FIN No. 46(R)"). The decisions reached included a deferral of the effective date and provisions for additional scope exceptions for certain types of variable interests. Application of FIN No. 46(R) is required in financial statements of public entities that have interests in VIEs or potential VIEs commonly referred to as special-purpose entities for periods ending after December 15, 2003. Application by public small business issuers' entities is required in all interim and annual financial statements for periods ending after December 15, 2004.

The adoption of this pronouncement is not expected to have a material effect on the Company's financial statements.

### ITEM 3 - CONTROLS AND PROCEDURES

#### Evaluation and Disclosure Controls and Procedures

The Company, under the supervision and with the participation of the Company's management, including the Company's Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of the design and operation of the Company's "disclosure controls and procedures," as such term is defined in Rules 13a-15e and 15d-15e promulgated under the Exchange Act as of this report. Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer has concluded that the Company's disclosure controls and procedures were effective as of the end of the period covered by this report to provide reasonable assurance that information required to be disclosed by the Company in reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in SEC rules and forms.

#### Changes in Internal Controls

There have been no changes in internal controls or in other factors that could significantly affect those controls subsequent to the date of their evaluation, including any corrective actions with regard to significant deficiencies and material weaknesses.

#### Limitations on the Effectiveness of Controls

A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within a Company have been detected.
