“EXFO’s 25th year anniversary provides me with a great deal of satisfaction since we now stand among the top global players in our field, we delivered robust growth across all our businesses and geographies, we improved our gross margin for an eighth consecutive year, and we generated strong increases in earnings and EBITDA,” said Germain Lamonde, EXFO’s Chairman, President and CEO. “With the acquisition of NetHawk, EXFO has become a major force in the wireless industry, while the recent divestiture of the Life Sciences and Industrial Division allows us to focus exclusively on the telecom space. It’s a sector in which we posted a five-year sales CAGR of 20.4% despite the recent economic recession — compared to an industry average of about 5%. We’re also definitely on track to achieve our three-year corporate performance objectives and even raised each one of them during the past year thanks to our strategic positioning.”

“Looking back on 25 years, I cannot thank enough all team members, customers and partners for having made EXFO the highly progressive organization it has become today. I look forward to working with all of them to take EXFO to the next level.”

Fiscal 2010 Highlights

§ IP Fixed and Mobile Network Convergence and Broadband Deployments — Telecom sales increased 32.4% to US\$202.8 million in fiscal 2010 due to market-share gains, a US\$14.5 million revenue contribution from recently acquired NetHawk, and improved market conditions. Optical, Protocol and Copper Access sales improved 14.2%, 43.3%, and 131.2%, respectively, in 2010. Geographically, Telecom sales increased 22.6% in the Americas, 41.2% in Europe, Middle East and Africa (EMEA), and 53.0% in Asia-Pacific in 2010. EXFO's largest telecom customer accounted for 4.9% of sales in 2010 while the company's top three customers represented 12.2% which reflects a strong account diversity.

§ Profitable Growth Path — EXFO increased EBITDA in dollars 88.8% to US\$27.3 million in fiscal 2010 on total sales\* of US\$228.1 million. EBITDA margin improved to 12.0% of sales in 2010 from 8.4% in 2009. Gross margin\* increased for an eighth consecutive year to reach 62.4% in 2010.

§ Acquisitions/Divestitures — In March 2010, EXFO acquired NetHawk Oyj, the second-largest provider of 2G, 3G and 4G/LTE protocol analyzers and network simulators, to expand its presence in the rapidly growing wireless test and service assurance market. This acquisition enables EXFO to provide end-to-end assessment of IP fixed and mobile networks. Following the fiscal year-end, EXFO sold its Life Sciences and Industrial Division for US\$24.3 million in cash to become a pure-play in the telecom sector.

Business Outlook

Despite only a one-month revenue contribution from the recently divested Life Sciences and Industrial Division for the first quarter of fiscal 2011, EXFO has maintained its sales forecast between US\$61 million and US\$66 million, while GAAP net earnings should range between US\$0.17 and US\$0.21 per diluted share. GAAP net earnings include US\$0.22 per share for the estimated gain on the disposal of the Life Sciences and Industrial Division and US\$0.05 per share in after-tax amortization of intangible assets and stock-based compensation costs. The company also anticipates a pre-tax, foreign exchange loss of US\$0.03 per share following the significant increase in the value of the Canadian dollar since August 31, 2010.

This guidance was established by management based on existing backlog as of the date of this press release, seasonality, expected bookings for the remaining of the quarter, as well as exchange rates as of the day of this press release.
