President Engineering and Product Operations for Tachyon Inc., a San Diego provider of satellite networking solutions. From 1997 to 1999 he was Senior Director for Program Management at IOMEGA and previously held engineering management positions at General Instrument and TRW. From November 2002 until being recruited by the Company, Mr. Jones was a self-employed entrepreneur developing technology based remote monitoring solutions. Mr. Jones obtained a M.S.E.E. degree in Digital Communications and Digital Signal Processing from USC in 1988 and a B.S.E.E. in Electrical and Computer Engineering from California State Polytechnic University in 1984.

A copy of the press release is attached to this report as Exhibit 99.1 and is incorporated herein by reference.

3. On September 17, 2003, the Company filed a complaint against eSOUNDideas, Inc. ("ESI") in the Superior Court of California, County of San Diego, alleging breach of contract and declaratory relief involving the Company's license agreement with ESI. The license agreement granted ESI an exclusive right to distribute the Company's patented and patent-pending HyperSonic Sound Technology ("HSS") products specifically targeted for the point of sale, kiosk, display, event, trade show and exhibit markets in North America. The agreement was terminated by the Company on May 23, 2003, as a result of the Company's allegation that ESI failed to devote reasonable resources and exercise reasonable efforts to develop and to maximize the distribution and sales of HSS products within the product categories and territory. Under the terms of the license agreement, the termination was effective immediately, but ESI had sixty days to cure conditions giving rise to termination and reinstate the agreement. ESI tendered no cure during the cure period or thereafter, and the Company considers the license agreement to be permanently terminated. ESI has retained legal counsel and disputed the grounds for termination, and the two principals of ESI have further disputed the termination in October 2002 of stock options to purchase 10,000 shares of common stock granted to each of them for consulting services that terminated in July 2002. The Company filed the complaint after the parties were unable to resolve the matter through non-binding mediation. The Company intends to pursue this action vigorously.
