The Company licenses a technology developed by its founder and significant stockholder. The technology provides for a more efficient and economical method to repair paint related damage to vehicles.

The Company conducts its business primarily in the province of Alberta.

(2) FOREIGN CURRENCY TRANSLATION AND TRANSACTIONS:

The financial position and results of operations of the Company are determined using local currency as the functional currency (Canadian dollar). Assets and liabilities are translated at the prevailing exchange rate in effect at each year end. Investments, property and equipment, due to stockholder and contributed capital accounts are translated using the historical rates of exchange when the transaction is completed. Income statement amounts are translated at the average exchange rate during the year. Translation adjustments arising from the use of different exchange rates from period to period are included in the cumulative translation adjustment account in stockholders equity under comprehensive income. Gains and losses resulting from foreign currency transactions are included in operations. There were no gains or losses from foreign currency transactions in 2003 or 2002.

(3) REVENUE RECOGNITION:

Revenue related to product sales is recognized when the products are shipped to customers and collection is reasonably assured. Revenue related to service repairs is recognized upon customer acceptance.

(4) CASH AND CASH EQUIVALENTS:

The Company considers all highly liquid investments with original maturities of three months or less to be cash equivalents.

(5) INVENTORIES:

Inventories are valued at the lower of cost or market. Cost is determined on a first-in, first-out method.

(6) PROPERTY AND EQUIPMENT:

Property and equipment are stated at cost, less accumulated depreciation. Depreciation is calculated using the straight-line method over the estimated useful lives of the assets, which range from 3 to 7 years. The Company reviews all significant estimates affecting the financial statements on a recurring basis and records the effect of any adjustments when necessary.

Notes to Financial Statements November 30,
2003 and 2002 (Unaudited)

1. BASIS OF PRESENTATION AND NATURE OF BUSINESS OPERATIONS BASIS OF PRESENTATION

The accompanying unaudited interim financial statements do not include all of the information and footnotes required by accounting principles generally accepted in the United States of America for complete financial statements. These financial statements and related notes should be read in conjunction with the Company's audited financial statements for the fiscal year ended August 31, 2003. In the opinion of management, these condensed financial statements reflect all adjustments which are of a normal recurring nature and which are necessary to present fairly the financial position of CSI as of November 30, 2003, and the results of operations and cashflows for the three-month periods ended November 30, 2003 and 2002. The results of operations for the three-month period ended November 30, 2003 are not necessarily indicative of the results which may be expected for the entire fiscal year.

NATURE OF BUSINESS OPERATIONS

CSI International, Inc. ("CSI" or the "Company") was incorporated in Calgary, Alberta Canada in 1992 under the name Chip Repair Systems of Canada,

Edgar Filing: NEOMEDIA TECHNOLOGIES INC - Form 8-K/A

Inc. In 1993, the Company changed its name to Chip Repair Systems International, Inc. and 1996, the Company changed its name to CSI International, Inc.

The Company licenses a technology developed by its founder and significant stockholder. The technology provides for a more efficient and economical method to repair paint related damage to vehicles.

The Company conducts its business primarily in the province of Alberta.

RECENT ACCOUNTING PRONOUNCEMENTS

On December 24, 2003, the FASB issued FASB Interpretation No. 46 (Revised December 2003), "Consolidation of Variable Interest Entities," (FIN-46R) primarily to clarify the required accounting for interests in variable interest entities. FIN-46R supercedes FIN-46 that was issued in January 2003. FIN-46R exempts certain entities from its requirements and provides for special effective dates for entities that have fully or partially applied FIN-46 as of December 24, 2003. In certain situations, entities have the option of applying or continuing to apply FIN-46 for a short period of time before applying FIN-46R. While FIN-46R modifies or clarifies various provisions of FIN-46, it also incorporates many FASB Staff Positions previously issued by the FASB. Management does not believe there will be any material impact to the Company's financial position, results of operations or liquidity resulting from the adoption of this interpretation.

INVESTMENT IN TRITON GLOBAL BUSINESS SERVICES, INC.

During the year ended August 31, 2003, the Company invested \$6,000 in exchange for 4,257 shares of common stock of Triton Global Business Services, Inc. ("Triton"), an unrelated third party. The general terms of the advances included repayment within 30 days with interest at a rate of 8% per annum. In connection with these advances, the Company received 61,684 restricted common shares of BSDS. In addition, the Company received an additional 48,160 shares of BSDS as consideration for extending the notes. As of the advance dates, the Company ascribed no value to the notes. The Company accreted the value of the notes as interest income over the repayment period (30 days). The Company received payment of \$13,000 during the year ended August 31, 2003, and wrote the remaining balance (\$32,000) off as noncollectible.

The Company ascribed a value of \$45,000 in connection with the advances based upon the share price at the date of each advance limited to the amounts advanced to BSDS. In addition, the Company ascribed a value of \$53,000 and a corresponding increase to interest income for the additional shares received as

consideration for extending the repayment date of the advances. As of August 31, 2003, the Company determined that a decline in the market value of such shares was other than temporary and recorded a loss of \$53,000 to reduce the value to its then market value. Likewise, the Company recorded an additional loss of \$19,000 during the three months ended November 30, 2003, to reduce the value to its market value as of November 30, 2003.

The two companies will centralize administrative and management functions at NeoMedia's headquarters in Fort Myers, Florida. Sales and operations will be based out of Calgary. The following unaudited pro forma condensed combined financial statements give effect to the acquisition by NeoMedia of CSI.
