(2) Borrowings and placements include securities sold under repurchase agreements and short and long-term borrowings and debt.

Although certain assets and liabilities may have similar maturities or periods of re-pricing, they may be impacted in varying degrees to changes in market interest rates. The maturity of certain types of assets and liabilities may fluctuate in advance of changes in market rates, while the maturity of other types of assets and liabilities may lag behind changes in market rates. In the event of a change in interest rates, prepayment and early withdrawal levels could deviate significantly from the maturities assumed in calculating the table above.

For information regarding the fair value disclosure of financial instruments, see Item 18, "Financial Statements," note 22. For information regarding the fair value of trading assets and liabilities of the Fund, See Item 18, "Financial Statements," notes 2(d) and 6.

93

Foreign Exchange Risk Management and Sensitivity

The Bank accepts deposits and raises funds principally in U.S. dollars, and makes loans mostly in U.S. dollars. Currency exchange risk arises when the Bank accepts deposits or raises funds in one currency and lends or invests the proceeds in another. In general, foreign currency-denominated assets are funded with liability instruments denominated in the same currency. In those cases where assets are funded in different currencies, forward foreign exchange or cross-currency swap contracts are used to fully hedge the risk resulting from this cross currency funding. During 2010, the Bank did not hold significant open foreign exchange positions. The Fund invests in securities denominated in foreign currency, as well as forward foreign currency exchange contracts and cross currency swap contracts, all for trading purposes. As of December 31, 2010, the Bank had an equivalent of \$35 million in non-U.S. dollar financial assets and \$183 million of non-U.S. dollar financial liabilities which are fully hedged.

Price Risk Management and Sensitivity

Price risk corresponds to the risk that arises from the volatility in the price of the financial instruments held by the Bank, which may result from observed transaction prices that fluctuate freely according to supply and demand or from changes in the risk factors used for determining prices (interest rates, exchange rates, credit risk spreads, etc.). The table below lists the carrying amount and fair value of the investment securities portfolio and the interest rate swaps associated with this portfolio as of December 31, 2010.

Not applicable.

PART II

Item 13.	Defaults, Dividend Arrearages and Delinquencies
None.	
Item 14.	Material Modifications to the Rights of Security Holders and Use of Proceeds
None.	
Item 15.	Controls and Procedures

a) Disclosure Controls and Procedures

The Bank maintains disclosure controls and procedures that are designed to ensure that information required to be disclosed in the reports it files under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms. Such controls include those designed to ensure that information for disclosure is accumulated and communicated to the members of the Board and Management, as appropriate to allow timely decisions regarding required disclosure.

The Chief Executive Officer, or CEO, and the Chief Financial Officer, or CFO, evaluated the effectiveness of the Bank's disclosure controls and procedures as of December 31, 2010, and concluded that they were effective as of December 31, 2010.

b) Management's Annual Report on Internal Control Over Financial Reporting

Management is responsible for establishing and maintaining adequate internal control over financial reporting, as defined in Exchange Act Rule 13a-15(f) or 15d-15(f). Management, with the participation and supervision of the Bank's CEO and CFO, has evaluated the effectiveness of its internal control over financial reporting as of December 31, 2010 and based its conclusion on such evaluation, which included (i) the documentation and understanding of the Bank's internal control over financial reporting and (ii) a test of the design and the operating effectiveness of internal controls over financial reporting. This evaluation was the basis of Management's conclusions.

Management's evaluation was based on the criteria set forth by the Internal Control-Integrated Framework of the Committee of Sponsoring Organizations of the Treadway Commission.

Internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. The Bank's internal control over financial reporting includes policies and procedures that:

(1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the Bank's transactions and dispositions of its assets;

(2) provide reasonable assurance that transactions are recorded as necessary to permit the preparation of financial statements in accordance with generally accepted accounting principles, and that the Bank's receipts and expenditures are being made only in accordance with authorizations of the Bank's Management and the Board; and

(3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the Bank's assets that could have a material effect on its financial statements.

Because of its inherent limitations, internal control over financial reporting determined to be effective can provide only reasonable assurance with respect to financial statement preparation and may not prevent or detect all misstatements. Also, projections of any evaluation of the effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Based on the assessment and criteria described above, the Bank's Management concluded that, as of December 31, 2010, the Bank's internal control over financial reporting was effective.

The Company's independent registered public accounting firm, Deloitte Inc, has issued an attestation report on the effectiveness of the Bank's internal control over financial reporting.

c) Attestation Report of the Registered Public Accounting Firm

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders of Banco Latinoamericano de Comercio Exterior, S.A. and Subsidiaries

We have audited the internal control over financial reporting of Banco Latinoamericano de Comercio Exterior, S.A. and Subsidiaries (the "Bank") as of December 31, 2010, based on criteria established in Internal Control - Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission. The Bank's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in Management's Annual Report on Internal Control over Financial Reporting. Our responsibility is to express an opinion on the Bank's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed by, or under the supervision of, the company's principal executive and principal financial officers, or persons performing similar functions, and effected by the company's board of directors, management, and other personnel to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of the inherent limitations of internal control over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may not be prevented or detected on a timely basis. Also, projections of any evaluation of the effectiveness of the internal control over financial reporting to future periods are subject to the risk that the controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, the Bank maintained, in all material respects, effective internal control over financial reporting as of December 31, 2010, based on the criteria established in Internal Control - Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated financial statements as of and for the year ended December 31, 2010 of Banco Latinoamericano de Comercio Exterior, S.A. and Subsidiaries and our report dated February 18, 2011 expressed an unqualified opinion on those financial statements.

/S/ Deloitte, Inc.

February 18, 2011 Panama, Republic of Panama

d) Changes in Internal Control over Financial Reporting

• There has been no change in the Bank's internal control over financial reporting during the fiscal year ended December 31, 2010 that has materially affected, or is reasonably likely to materially affect, the Bank's internal control over financial reporting, as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act.

Item 16.

[Reserved]

Item 16A.

Audit and Compliance Committee Financial Expert

The Board has determined that at least one member of the Audit and Compliance Committee is a "financial expert," as defined in the rules enacted by the SEC under the Sarbanes-Oxley Act. The Audit and Compliance Committee's financial expert is Mr. Gonzalo Menéndez Duque. Mr. Gonzalo Menéndez Duque is independent as defined by NYSE Rules.

See Item 6.A, "Directors and Executive Officers."

Item 16B.

Code of Ethics

The Bank has adopted a Code of Ethics that applies to the Bank's principal executive officer, principal financial and principal accounting officers. The Bank's Code of Ethics includes the information regarding its corporate governance practices necessary to comply with Section 303A of the NYSE Rules. A copy of the Bank's Code of Ethics was filed as an exhibit to the Form 20-F for the fiscal year ended December 31, 2009 filed with the SEC on June 11, 2010, and may also be found on the Bank's website (http://www.bladex.com) at Investor Center / Corporate Governance / Code of Ethics and Addenda to the Code of Ethics (For purposes of the section 406 of the Sarbanes-Oxley Act of 2002).

Item 16C.

Principal Accountant Fees and Services

The following table summarizes the fees paid or accrued by the Bank for audit and other services provided by Deloitte, Inc., the Bank's independent accounting firm, for each of the years ended December 31, 2010 and 2009:

97

	2010	2009
Audit fees	\$ 595,000	\$ 565,000
Audit-related fees	\$ 277,000	\$ 93,500
Tax fees	\$ 0	\$ 0
All other fees	\$ 0	\$ 0
Total	\$ 872,000	\$ 658,500

The following is a description of the type of services included within the categories listed above:

- •Audit fees include aggregate fees billed for professional services rendered by Deloitte, Inc. for the audit of the Bank's annual financial statements and services that are normally provided in connection with statutory and regulatory filings or engagements.
- •Audit–related fees include, aggregate fees billed for professional services rendered by Deloitte, Inc. related to the revision of the renewal of the Bank's EMTN Program in 2010. In 2009, aggregate fees billed for professional services rendered by Deloitte, Inc. related to the application of FASB ASC Topic 860.

Audit and Compliance Committee Pre-Approval Policies and Procedures

The Audit and Compliance Committee pre-approves all audit and non-audit services to be provided to the Bank by the Bank's independent accounting firm. All of the services related to the audit fees, audit-related fees, tax fees and all other fees described above were approved by the Audit and Compliance Committee.

Item 16D.	Exemptions from the Listing Standards for Audit Committees
Not applicable.	
Item 16E.	Purchases of Equity Securities by the Issuer and Affiliated Purchasers
Not applicable.	
Item 16F.	Change in Registrant's Certifying Accountant
Not applicable.	
Item 16G.	Corporate Governance

The corporate governance practices of the Bank and those required by the NYSE for domestic companies in the United States differ in two significant ways:

First, under Section 303A.04 of the NYSE Rules, a listed company must have a nomination/corporate governance committee comprised entirely of independent directors. However, it is common practice among public companies in Panama not to have a corporate governance committee. The Bank addresses all corporate governance matters in plenary meetings of the Board, and the Audit and Compliance Committee has been given the responsibility of improving the Bank's corporate governance practices and monitoring compliance with such practices.

Second, under Section 303A.08 of the NYSE Rules, stockholders must approve all equity compensation plans and material revisions to such plans, subject to limited exceptions. However, under Panamanian law, any contracts, agreements and transactions between the Bank and one or more of its directors or officers, or companies in which they have an interest, only need to be approved by the Board, including equity compensation plans. The Board must

inform stockholders of the equity compensation plans and/or material revisions to such plans at the next stockholders' meeting. In addition, stockholders may revoke the Board's approval of the equity compensation plans and/or material revisions to such plans at a meeting, if there is adequate justification and whenever convenient, by invoking the fiduciary duty of the directors that approved such plans and/or revisions.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders of Banco Latinoamericano de Comercio Exterior, S.A. and Subsidiaries

We have audited the accompanying consolidated balance sheets of Banco Latinoamericano de Comercio Exterior, S.A. and Subsidiaries (the "Bank") as of December 31, 2010 and 2009, and the related consolidated statements of income, changes in stockholders' equity and redeemable noncontrolling interest in the investment fund, comprehensive income (loss) and cash flows for each of the three years in the period ended December 31, 2010. These financial statements are the responsibility of the Bank's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, such consolidated financial statements present fairly, in all material respects, the financial position of Banco Latinoamericano de Comercio Exterior, S.A. and Subsidiaries as of December 31, 2010 and 2009, and the consolidated results of their operations and their cash flows for each of the three years in the period ended December 31, 2010, in conformity with accounting principles generally accepted in the United States of America.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the Bank's internal control over financial reporting as of December 31, 2010, based on the criteria established in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission and our report dated February 18, 2011 expressed an unqualified opinion on the Bank's internal control over financial reporting.

The accompanying consolidated financial statements have been translated into English for the convenience of readers outside of Panama.

/S/ Deloitte, Inc.

1.

Organization

Banco Latinoamericano de Comercio Exterior, S. A. ("Bladex Head Office" and together with its subsidiaries "Bladex" or the "Bank"), headquartered in Panama City, Republic of Panama, is a specialized supranational bank established to finance trade in Latin America and the Caribbean (the "Region"). The Bank was established pursuant to a May 1975 proposal presented to the Assembly of Governors of Central Banks in the Region, which recommended the creation of a multinational organization to increase the foreign trade financing capacity of the Region. The Bank was organized in 1977, incorporated in 1978 as a corporation pursuant to the laws of the Republic of Panama, and officially initiated operations on January 2, 1979. Under a contract signed in 1978 between the Republic of Panama and Bladex, the Bank was granted certain privileges by the Republic of Panama, including an exemption from payment of income taxes in Panama.

On April 15, 2009, the Bank's shareholders approved at its Annual Shareholders' Meeting some amendments to the Bank's Articles of Incorporation. The amendments, that were effective on June 17, 2009, include, among others:

-A change in the legal name of the Bank from Banco Latinoamericano de Exportaciones, S. A. to Banco Latinoamericano de Comercio Exterior, S. A.

- An extension of the scope of the Bank's activities to encompass all types of banking, investment, and financial or other businesses that support foreign trade and the development of Latin American countries.

-Authorization of: (1) an increase in the total share capital of the Bank to two hundred ninety million (290,000,000) shares, including up to ten million of new preferred stock, with a par value US\$10 each, to be issued in one or more series from time to time at the discretion of the Bank's Board of Directors; and (2) the establishment of a new class of common shares (Class F) that will only be issued to (a) state entities and agencies of non-Latin American countries, including, among others, central banks and majority state-owned banks in those countries, and (b) multilateral financial institutions either international or regional institutions. When the number of issued and outstanding Class F common shares is equal to or greater than 15% of the total number of issued and outstanding common shares, the Class F shareholders shall have the right to elect one director of the Bank.

The Bank operates under a general banking license issued by the National Banking Commission of Panama, predecessor of the Superintendency of Banks of Panama (the "SBP").

In the Republic of Panama, banks are regulated by the SBP through Executive Decree No.52 of April 30, 2008, which adopts the text of the Law Decree No. 9 of February 26, 1998, modified by the Law Decree No. 2 of February 22, 2008. Banks are also regulated by resolutions and agreements issued by this entity. The main aspects of this law and its regulations include: the authorization of banking licenses, minimum capital and liquidity requirements, consolidated supervision, procedures for management of credit and market risks, measures to prevent money laundering, the financing of terrorism and related illicit activities, and procedures for banking intervention and liquidation, among others.

Notes to consolidated financial statements

Bladex Head Office's subsidiaries are the following:

- -Bladex Holdings Inc., is a wholly owned subsidiary, incorporated under the laws of the State of Delaware, United States of America (USA), on May 30, 2000. Bladex Holdings Inc. exercises control over the following subsidiary companies:
- •Bladex Asset Management Inc., incorporated on May 24, 2006, under the laws of the State of Delaware, USA, serves as investment manager for Bladex Offshore Feeder Fund (the "Feeder") and Bladex Capital Growth Fund (the "Fund"). On September 8, 2009, Bladex Asset Management Inc. was registered as a foreign entity in the Republic of Panama, to establish a branch in Panama, which is mainly engaged in providing administrative and operating services to Bladex Asset Management Inc. in USA.
- •Clavex, LLC incorporated on June 15, 2006, under the laws of the State of Delaware, USA, a dormant company since February 2007.
- -The Feeder is an entity in which Bladex Head office owns 88.67% as of December 31, 2010, and 82.34% as of December 31, 2009. The Feeder was incorporated on February 21, 2006 under the laws of the Cayman Islands, and invests substantially all its assets in the Fund, which is also incorporated under the laws of the Cayman Islands. The Feeder and the Fund are registered with the Cayman Island Monetary Authority ("CIMA"), under the Mutual Funds Law of the Cayman Islands. The objective of the Fund is to achieve capital appreciation by investing in Latin American debt securities, stock indexes, currencies, and trading derivative instruments.
- -Bladex Representacao Ltda., incorporated under the laws of Brazil on January 7, 2000, acts as the Bank's representative office in Brazil. Bladex Representacao Ltda. is 99.999% owned by Bladex Head Office and the remaining 0.001% owned by Bladex Holdings Inc.
- -Clavex, S. A., is a wholly owned subsidiary, incorporated on May 18, 2006, under the laws of the Republic of Panama, to mainly provide specialized training.

Bladex Head Office has an agency in New York City, USA (the "New York Agency"), which began operations on March 27, 1989. The New York Agency is principally engaged in financing transactions related to international trade, mostly the confirmation and financing of letters of credit for customers of the Region. The New York Agency is also licensed by the State of New York Banking Department, USA, to operate an International Banking Facility ("IBF").

The Bank has representative offices in Buenos Aires, Argentina, in Mexico City, D.F., Mexico, in Porto Alegre, Brazil, and in Monterrey, Mexico, and an international administrative office in Miami, Florida, USA. The offices in Porto Alegre and Monterrey started operations in 2010.

Bladex Head Office owns 50% of the equity shares of BCG PA LLC, a company incorporated under the laws of the State of Delaware, USA. This company owns "Class C" shares of the Fund that entitle it to receive a performance allocation on third-party investments in the Feeder and in the Fund.

Notes to consolidated financial statements

On August 12, 2010, the Bank received authorization to open a representative office in the city of Lima, Peru. Additionally, on September 24, 2010, the Bank received authorization to open two new subsidiaries, one in Cayman Islands and the other in Brazil.

2.

Summary of significant accounting policies

a)

b)

Basis of presentation

These consolidated financial statements have been prepared under accounting principles generally accepted in the United States of America ("U.S. GAAP"). All amounts presented in the consolidated financial statements and notes are expressed in dollars of the United Stated of America ("US\$"), which is the Bank's functional currency. The accompanying consolidated financial statements have been translated from Spanish to English for users outside of the Republic of Panama.

The Accounting Standards Codification (the "ASC") issued by the Financial Accounting Standards Board (the "FASB") constitute the single official source of authoritative, non-governmental GAAP, other than guidance issued by the Securities and Exchange Commission ("SEC"). All other literature is considered non-authoritative.

Principles of consolidation

The consolidated financial statements include the accounts of Bladex Head Office and its subsidiaries. Bladex Head Office consolidates its subsidiaries in which it holds a controlling financial interest. All intercompany balances and transactions have been eliminated for consolidation purposes.

When Bladex holds an interest in investment companies under the "Feeder-Master" structure where the Feeder's shareholding is diluted and such entity is registered as a mutual fund with a regulatory body, it is considered an investment company. In those cases, the Feeder, and thereby Bladex indirectly, consolidates its participation in the Fund in one line item in the balance sheet, as required by the specialized accounting in the ASC Topic 946 - Financial Services – Investment Companies.

c)

Equity method

Investments in companies in which Bladex Head Office exercises significant influence, but not control over its financial and operating policies, and holds an equity participation of at least 20% but not more than 50%, are initially accounted for at cost, which is subsequently adjusted to record the participation of the investment in gains (losses) of the investee after the acquisition date.

d)

Specialized accounting for investment companies

The Feeder and the Fund are organized under a "Feeder-Master" structure. Under this structure, the Feeder invests all its assets in the Fund which in turn invests in various assets on behalf of its investor. Specialized accounting for investment companies requires the Feeder to reflect its investment in the Fund in a single line item equal to its proportionate share of the net assets of the Fund, regardless of the level of Feeder's interest in the Fund. The Feeder

records the Fund's results by accounting for its participation in the net interest income and expenses of the Fund, as well as its participation in the realized and unrealized gains or losses of the Fund.

F-11

Notes to consolidated financial statements

As permitted by ASC Topic 810-10-25-15 – Consolidation, when Bladex consolidates its investment in the Feeder, it retains the specialized accounting for investment companies applied by the Feeder in the Fund, reporting it within the "Investment fund" line item in the consolidated balance sheet, and presenting the third party investments in the Feeder in the "Redeemable noncontrolling interest in the investment fund" line item between liabilities and stockholders' equity. The Bank reports interest income and expense from the Fund in the Investment fund line item within interest income and expense, realized and unrealized gains and losses in the "Net gain (loss) from investment fund trading" line item, and expenses from the Fund are reported in "Expenses from the investment fund" line item in the consolidated statements of income.

e)

Use of estimates

The preparation of the consolidated financial statements requires management to make estimates and use assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the period. Material estimates that are particularly susceptible to significant changes relate to the determination of the allowances for credit losses, impairment of securities available-for-sale and held-to-maturity, and the fair value of financial instruments. Actual results could differ from those estimates. Management believes these estimates are adequate.

f) Cash equivalents

Cash equivalents include demand deposits in banks and interest-bearing deposits in banks with original maturities of three months or less, excluding pledged deposits.

g) Repurchase agreements

Repurchase agreements are generally treated as collateralized financing transactions. When the criteria set forth in the following paragraph are met to account for the transaction as secured financing, the transaction is recorded at the amounts at which the securities will be subsequently reacquired including interest paid, as specified in the respective agreements. Interest is recognized in the statement of income over the life of the transaction. The market value of securities to be repurchased is continuously monitored, and additional collateral is obtained or provided where appropriate, to protect against credit exposure.

The Bank's policy is to relinquish possession of the securities sold under agreements to repurchase. Despite such relinquishment of possession, repurchase agreements qualify as secured financings if and only if all of the following conditions are met: the assets to be repurchased are the same or substantially the same as those transferred; the transferor is able to repurchase them with the collateral received, keeping substantially the agreed terms, even in the event of default of the transferee; the agreement is to repurchase or redeem them before maturity, at a fixed and determinable price; and the agreement is entered into concurrently at the transfer date. In order to be able to repurchase assets on substantially the agreed terms, even in the case of default from the counterparty, the transferor must at all times, during the contract term, have obtained cash or other collateral sufficient to fund substantially all the cost of purchasing the transferred assets from other counterparties.

i)

Notes to consolidated financial statements

When repurchase agreements do not meet the above-noted conditions, they qualify as sales of securities, for which the related security is removed from the balance sheet and a forward purchase agreement is recognized for the obligation to repurchase the security. Changes in fair value of the forward purchase agreement as well as any gain or loss resulting from the sale of securities under repurchase agreements are reported in earnings of the period within net gain (loss) from trading securities.

h) Trading assets and liabilities

Trading assets and liabilities include bonds acquired for trading purposes, and receivables (unrealized gains) and payables (unrealized losses) related to derivative financial instruments which are not designated as hedges or which do not qualify for hedge accounting. These amounts include the derivative assets and liabilities net of cash received or paid, respectively, under legally enforceable master netting agreements. Trading assets and liabilities are carried at fair value, which is based upon quoted prices when available, or if quoted market prices are not available, on discounted expected cash flows using market rates commensurate with the credit quality and maturity of the security.

Unrealized and realized gains and losses on trading assets and liabilities are recorded in earnings as net gain (loss) from trading securities.

Investment securities

Securities are classified at the date of purchase based on the ability and intent to sell or hold them as investments. These securities consist of debt securities such as: negotiable commercial paper, bonds and floating rate notes.

Securities available-for-sale

These securities consist of debt instruments that the Bank buys with the intention of selling them prior to maturity and are subject to the same approval criteria as the rest of the credit portfolio. These securities are carried at fair value, based on quoted market prices when available, or if quoted market prices are not available, based on discounted expected cash flows using market rates commensurate with the credit quality and maturity of the security. Unrealized gains and losses are reported as net increases or decreases to other comprehensive income (loss) (OCI) in stockholders' equity until they are realized. Realized gains and losses from the sale of securities which are included in net gain on sale of securities are determined using the specific identification method.

Securities held-to-maturity

Securities classified as held-to-maturity represent securities that the Bank has the ability and the intent to hold until maturity. These securities are carried at amortized cost and are subject to the same approval criteria as the rest of the credit portfolio.

Interest on securities is recognized based on the interest method. Amortization of premiums and discounts are included in interest income as an adjustment to the yield.

Notes to consolidated financial statements

Impairment

The Bank conducts periodic reviews of all securities with unrealized losses to evaluate whether the impairment is other-than-temporary. Impairment of securities is evaluated considering numerous factors, and their relative significance varies case by case. Factors considered in determining whether unrealized losses are temporary include: the length of time and extent to which the market value has been less than cost, the severity of the impairment, the cause of the impairment and the financial condition of the issuer, activity in the market of the issuer which may indicate adverse credit conditions, the intent and ability of the Bank to retain the security for a sufficient period of time to allow of an anticipated recovery in the market value (with respect to equity securities) and the intent and probability of the Bank to sell the security before the recovery of its amortized cost (with respect to debt securities). If, based on the analysis, it is determined that the impairment is other-than-temporary, the security is written down to its fair value, and a loss is recognized through earnings as impairment loss on assets.

In cases where the Bank does not intend to sell a debt security and estimates that it will not be required to sell the security before the recovery of its amortized cost basis, the Bank periodically estimates if it will recover the amortized cost of the security through the present value of expected cash flows. If the present value of expected cash flows is less than the amortized cost of the security, it is determined that an other-than-temporary impairment has occurred. The amount of this impairment representing credit loss is recognized through earnings and the residual of the other-than-temporary impairment related to non-credit factors is recognized in other comprehensive income (loss).

In periods subsequent to the recognition of the other-than-temporary impairment, the difference between the new amortized cost and the expected cash flows to be collected is accreted as interest income. The present value of the expected cash flows is estimated over the life of the debt security.

The other-than-temporary impairment of securities held-to-maturity that has been recognized in other comprehensive income is accreted to the amortized cost of the debt security prospectively over its remaining life.

Interest accrual is suspended on securities that are in default, or on which it is likely that future interest payments will not be received as scheduled.

j)

Investment Fund

The Feeder records its investment in the Fund at fair value, which is the Feeder's proportionate interest in the net assets of the Fund.

The Fund invests in trading assets and liabilities that are carried at fair value, which is based upon quoted market prices when available. For financial instruments for which quoted prices are not available, the Fund uses independent valuations from pricing providers that use their own proprietary valuation models that take into consideration discounted expected cash flows, using market rates commensurate with the credit quality and maturity of the security. These prices are compared to independent valuations from counterparties. The Fund reports trading gains and losses from negotiation of these instruments as realized and unrealized gains and losses on investments.

Notes to consolidated financial statements

k)

Other investments

Other investments that mainly consist of unlisted stock are recorded at cost and are included in other assets. The Bank determined that it is not practicable to obtain the market value of these investments, as these shares are not traded in a secondary market. Performance of these investments is evaluated periodically and declines that are determined to be other-than-temporary are charged to earnings as impairment on assets (See Note 10).

1)

Loans

Loans are reported at their principal outstanding amounts net of unearned income, deferred fees and allowance for loan losses. Interest income is recognized using the interest method. The amortization of net unearned income and deferred fees are recognized as an adjustment to the related loan yield using the effective interest method.

Purchased loans are recorded at acquisition cost. The difference between the principal and the acquisition cost of loans, the premiums and discounts, is amortized over the life of the loan as an adjustment to the yield. All other costs related to acquisition of loans are expensed when incurred.

The Bank identifies loans as delinquent when no debt service and/or interest payment has been received for 30 days after such payments were due. The outstanding balance of a loan is considered past due when the total principal balance with one single balloon payment has not been received within 30 days after such payment was due, or when no agreed-upon periodical payment has been received for a period of 90 days after the agreed-upon date.

Loans are placed on a cash basis (non-accrual) when interest or principal is overdue for 90 days or more, or before if the Bank's management believes there is an uncertainty with respect to the ultimate collection of principal or interest.

Factors considered by the Bank's management in determining impairment include collection status, collateral value, the probability of collecting scheduled principal and interest payments when due, and economic conditions in the borrower's country of residence. Any interest receivable on non-accruing loans is reversed and charged-off against earnings. Interest on these loans is only recorded as earned when collected. Non-accruing loans are returned to an accrual status when (1) all contractual principal and interest amounts are current; (2) there is a sustained period of repayment performance in accordance with the contractual terms of at least six months; and (3) if in the Bank management's opinion the loan is fully collectible. When current events or available information confirm that specific impaired loans or portions thereof are uncollectible, such impaired loans are charged-off against the allowance for loan losses.

A loan is classified as a troubled debt restructuring if a significant concession is granted to the borrower due to the deterioration in its financial condition. Marketable securities received in exchange for loans under troubled debt restructurings are initially recorded at fair value, with any gain or loss recorded as a recovery or charge to the allowance, and are subsequently accounted for as securities available-for-sale.

The Bank maintains a system of internal credit quality indicators. These indicators are assigned depending on several factors which include: profitability, quality of assets, liquidity and cash flows, capitalization and indebtedness, economic environment and positioning, regulatory framework and/or industry, sensitivity scenarios and the quality of

debtor's management and shareholders. A description of these indicators is as follows:

Notes to consolidated financial statements

Rating 1 to 6	Classification Normal	Description Clients with payment ability to satisfy their financial commitments.
7	S p e c i a l Mention	Clients exposed to systemic risks specific to the country or the industry in which they are located, facing adverse situations in their operation or financial condition. At this level, access to new funding is uncertain.
8	Substandard	Clients whose primary source of payment (operating cash flow) is inadequate and who show evidence of deterioration in their working capital that does not allow them to satisfy payments on the agreed terms, endangering recovery of unpaid balances.
9	Doubtful	Clients whose operating cash flow continuously shows insufficiency to service the debt on the originally agreed terms. Due to the fact that the debtor presents an impaired financial and economic situation, the likelihood of recovery is low.
10	Unrecoverable	Clients with operating cash flow that does not cover their costs, are in suspension of payments, presumably they will also have difficulties to fulfill possible restructuring agreements, are in a state of insolvency, or have filed for bankruptcy, among others.

Loans with ratings between 1 and 4 are reviewed annually, ratings 5 and 6 are reviewed semi-annually, and those with greater ratings are reviewed quarterly.

The Bank's lending portfolio is summarized in the following segments: corporations, sovereign, middle-market companies and banking and financial institutions. The distinction between corporations and middle-market companies depends on the client's level of annual sales in relation to the country risk, among other criteria. Except for the sovereign segment, segments are broken down into state-owned and private.

The Bank's lending policy is applicable to all classes of loans.

m)

Transfer of financial assets

Transfers of financial assets, primarily loans, are accounted for as sales when control over the assets has been surrendered. Control over transferred assets is deemed to be surrendered when: (1) the assets have been isolated from the Bank even in bankruptcy or other receivership; (2) the transferee obtains the right (free of conditions that constrain it from taking advantage of that right) to pledge or exchange the transferred assets; and (3) the Bank does not maintain effective control over the transferred assets through an agreement to repurchase them before their maturity or does not have the right to cause the assets to be returned. Upon completion of a transfer of assets that satisfies the conditions described above to be accounted for as a sale, the Bank recognizes the assets as sold and records in earnings any gain or loss on the sale. The Bank may retain interest in loans sold in the form of servicing rights. Gains or losses on sale of loans depend in part on the carrying amount of the financial assets involved in the transfer, and its fair value at the date of transfer. The fair value of instruments is determined based upon quoted market prices when available, or are

based on the present value of future expected cash flows using information related to credit losses, prepayment speeds, forward yield curves, and discounted rates commensurate with the risk involved.

Notes to consolidated financial statements

n)

Allowance for credit losses

The allowance for credit losses is provided for losses derived from the credit extension process, inherent in the loan portfolio and off-balance sheet financial instruments, using the reserve method of providing for credit losses. Additions to the allowance for credit losses are made by accreting earnings. Credit losses are deducted from the allowance, and subsequent recoveries are added. The allowance is also decreased by reversals of the allowance back to earnings. The allowance attributable to loans is reported as a deduction of loans and the allowance for off-balance sheet credit risk, such as, letters of credit and guarantees, is reported as a liability.

The allowance for possible credit losses includes an asset-specific component and a formula-based component. The asset-specific component relates to the provision for losses on credits considered impaired and measured on a case-by-case basis. A specific allowance is established when the discounted cash flows (or observable market price of collateral) of the credit is lower than the carrying value of that credit. The formula-based component covers the Bank's performing credit portfolio and is established based in a process that estimates the probable loss inherent in the portfolio, based on statistical analysis and management's qualitative judgment. The statistical calculation is a product of internal risk classifications, probabilities of default and loss given default. The probability of default is supported by Bladex's historical portfolio performance complemented by probabilities of default provided by external sources, in view of the greater robustness of this external data for some cases. The loss given default is based on Bladex's historical losses experience and best practices. The reserve balances, for both on and off-balance sheet credit exposures, are calculated applying the following formula:

Reserves = $\sum (E \times PD \times LGD)$; where:

- Exposure (E) = the total accounting balance (on and off-balance sheet) at the end of the period under review.
- -Probabilities of Default (PD) = one-year probability of default applied to the portfolio. Default rates are based on Bladex's historical portfolio performance per rating category, complemented by Standard & Poor's ("S&P") probabilities of default for categories 6, 7 and 8, in view of the greater robustness of S&P data for such cases.
- -Loss Given Default (LGD) = a factor is utilized, based on historical information, same as based on best practices in the banking industry. Management applies judgment and historical loss experience.

Management can also apply complementary judgment to capture elements of prospective nature or loss expectations based on risks identified in the environment that are not necessarily reflected in the historical data.

The allowance policy is applicable to all classes of loans and off-balance sheet financial instruments of the Bank.

Notes to consolidated financial statements

o) Fair value of guarantees including indirect indebtedness of others

The Bank recognizes at inception a liability for the fair value of obligations undertaken such as stand-by letters of credit and guarantees. Fair value is calculated based on the present value of the premium to be received or a specific allowance for off-balance sheet credit contingencies, whichever is greater.

p) Fees and commissions

Loan origination fees, net of direct loan origination costs, are deferred, and the net amount is recognized as revenue over the contractual term of the loans as an adjustment to the yield. These net fees are not recognized as revenue during periods in which interest income on loans is suspended because of concerns about the realization of loan principal or interest. Underwriting fees are recognized as revenue when the Bank has rendered all services to the issuer and is entitled to collect the fee from the issuer, when there are no contingencies related to the fee. Underwriting fees are recognized net of syndicate expenses. In addition, the Bank recognizes credit arrangement and syndication fees as revenue after satisfying certain retention, timing and yield criteria. Fees received in connection with a modification of terms of a troubled debt restructuring are applied as a reduction of the recorded investment in the loan. Fees earned on letters of credit, guarantees and other commitments are amortized using the straight-line method over the life of such instruments.

q)

Premises and equipment

Premises and equipment, including the electronic data processing equipment, are carried at cost less accumulated depreciation and amortization, except land, which is carried at cost. Depreciation and amortization are charged to operations using the straight-line method, over the estimated useful life of the related asset. The estimated original useful life for building is 40 years and for furniture and equipment is three to five years.

The Bank defers the cost of internal-use software that has a useful life in excess of one year in accordance with ASC Topic 350-40 - Intangibles – Goodwill and Other – Internal-Use Software. These costs consist of payments made to third parties related to the use of licenses and installation of both, software and hardware. Subsequent additions, modifications or upgrades to internal-use software are capitalized only to the extent that they allow the software to perform a task it previously did not perform. Software maintenance and training costs are expensed in the period in which they are incurred. Capitalized internal use software costs are amortized using the straight-line method over their estimated useful lives, generally consisting of 5 years.

r)

Borrowings and debt

Short and long-term borrowings and debt are accounted for at amortized cost.

Notes to consolidated financial statements

s)

Capital reserves

Capital reserves are established as a segregation of retained earnings and are, as such, a form of retained earnings. Even though the constitution of capital reserves is not required by the SBP, their reductions require the approval of the Bank's Board of Directors and the SBP.

t)

Stock-based compensation and stock options plans

The Bank applies ASC Topic 718 – Compensation - Stock Compensation to account for compensation costs on restricted stock and stock option plans. Compensation cost is based on the grant date fair value of both stock and options and is recognized over the requisite service period of the employee. The fair value of each option is estimated at the grant date using the Black-Scholes option-pricing model. The options' expected term is calculated using the simplified weighted average method because the Bank does not have sufficient historical exercise data to provide for a reasonable basis to estimate expected term.

When options and stock are exercised, the Bank's policy is to reissue shares from treasury stock.

u)

Derivative financial instruments and hedge accounting

The Bank uses derivative financial instruments for its management of interest rate and foreign exchange risks. Interest rate swap contracts and cross-currency swap contracts have been used to manage interest rate and foreign exchange risks associated with debt securities and borrowings with fixed rates, and loans and borrowings in foreign currency. The accounting for changes in value of a derivative depends on whether the contract is for trading purposes or has been designated and qualifies for hedge accounting.

Derivatives held for trading purposes include interest rate swap, credit default swap and cross-currency swap contracts used for risk management purposes that do not qualify for hedge accounting. The fair value of trading derivatives is reported as trading assets or trading liabilities, as applicable. Changes in realized and unrealized gains and losses and interest from these trading instruments are included in net gain (loss) from trading securities.

Derivatives for hedging purposes primarily include forward foreign exchange contracts and interest rate swap contracts in U.S. dollars and cross-currency swaps. Derivative contracts designated and qualifying for hedge accounting are reported in the balance sheet as derivative financial instruments used for hedging - receivable and payable, as applicable, and hedge accounting is applied. In order to qualify for hedge accounting, a derivative must be considered highly effective at reducing the risk associated with the exposure being hedged. Each derivative must be designated as a hedge, with documentation of the risk management objective and strategy, including identification of the hedging instrument, the hedged item and the risk exposure, as well as how effectiveness will be assessed prospectively and retrospectively. The extent to which a hedging instrument is effective at achieving offsetting changes in fair value or cash flows must be assessed at least quarterly. Any ineffectiveness must be reported in current-period earnings. The Bank discontinues hedge accounting prospectively in the following situations:

1. It is determined that the derivative is no longer effective in offsetting changes in the fair value or cash flows of a hedged item.

2.

The derivative expires or is sold, terminated or exercised.

Notes to consolidated financial statements

3. The Bank otherwise determines that designation of the derivative as a hedging instrument is no longer appropriate.

The Bank carries all derivative financial instruments in the consolidated balance sheet at fair value. For qualifying fair value hedges, all changes in the fair value of the derivative and the fair value of the item for the risk being hedged are recognized in earnings. If the hedge relationship is terminated, then the fair value adjustment to the hedged item continues to be reported as part of the basis of the item and is amortized to earnings as a yield adjustment. For qualifying cash flow hedges, the effective portion of the change in the fair value of the derivative is recorded in OCI and recognized in the income statement when the hedged cash flows affect earnings. The ineffective portion is recognized in the consolidated statement of income as activities of derivative financial instruments and hedging. If the cash flow hedge relationship is terminated, related amounts in OCI are reclassified into earnings when hedged cash flows occur.

Foreign currency transactions

Assets and liabilities denominated in foreign currencies are translated into U.S. dollar equivalents using period-end spot foreign exchange rates. The effects of translation of monetary assets and liabilities into the U.S. dollar are included in earnings.

w)

v)

Income taxes

- •Bladex Head Office is exempted from payment of income taxes in Panama in accordance with the contract signed between the Republic of Panama and Bladex.
- The Feeder and the Fund are not subject to income taxes in accordance with the laws of the Cayman Islands. The Feeder and the Fund received an undertaking exempting them from taxation of all future profits until March 7, 2026.
 - Clavex, S. A. is subject to income taxes in Panama on profits from local operations.

Bladex Representacao Ltda. is subject to income taxes in Brazil.

•The New York Agency and Bladex's subsidiaries incorporated in USA are subject to federal and local taxation in USA based on the portion of income that is effectively connected with its operations in that country.

Such amounts of income taxes have been immaterial to date.

x) Redeemable noncontrolling interest in the investment fund

The redeemable noncontrolling interest in the Feeder represents the participation of other investors in the net assets of the Feeder.

ASC Topic 810 - Consolidation requires that a noncontrolling interest, previously referred to as a minority interest, in a consolidated subsidiary be reported as a separate component of equity and the amount of consolidated net income specifically attributable to the noncontrolling interest be presented separately, below net income in the consolidated statement of income.

Notes to consolidated financial statements

Furthermore, in accordance with ASC 480-10-S99, equity securities that are redeemable at the option of the holder and not solely within the control of the issuer must be classified outside of equity. The terms of third party investments in the Feeder contain a redemption clause which allows the holders the option to redeem their investment at fair value. Accordingly, the Bank retains its presentation of the noncontrolling interest in the investment fund between liabilities and stockholders' equity in the consolidated balance sheets. Additionally, net assets of the Feeder are measured and presented at fair value, given the nature of its net assets (i.e. represented mainly by cash and investments in securities). Therefore, when calculating the value of the redeemable noncontrolling interest under ASC Topic 810, such amount is already recorded at its fair value and no further adjustments under ASC 480-10-S99 are necessary.

y) Earnings per share

Basic earnings per share is computed by dividing the net income attributable to Bladex (the numerator) by the weighted average number of common shares outstanding (the denominator) during the year. Diluted earnings per share measure performance incorporating the effect that potential common shares, such as stock options and restricted stock units outstanding during the same period, would have on net earnings per share. The computation of diluted earnings per share is similar to the computation of basic earnings per share, except for the denominator, which is increased to include the number of additional common shares that would have been issued if the beneficiaries of stock purchase options and other stock plans could exercise their options. The number of potential common shares that would be issued is determined using the treasury stock method.

Z)

Recently issued accounting standards

During 2010, new accounting standards, modifications, interpretations, and updates to standards ("ASU"), applicable to the Bank, have been issued and are not in effect; or if effective, have not had an impact on the consolidated financial statements. These standards establish the following:

ASU 2010-10 - Consolidation (Topic 810)

The objective of this update is to defer the application of FAS 167 (ASU 2009-17 - Consolidations) for certain investment companies that have attributes subject to Topic 946 – Financial Services – Investment Companies.

This update is effective for financial statements beginning after November 15, 2009. This update has not had an impact on the Bank's consolidated financial statements.

ASU 2010-20 - Receivables (Topic 310)

This update requires that entities disclose information for financial receivables at disaggregated levels, roll-forward schedules of the allowance for credit losses and information regarding the credit quality of receivables, its aging, and disclosures about troubled debt restructurings.

The disclosures related to the credit quality of receivables are in effect as of December 31, 2010, and are included in Notes 7 and 8. The disclosures about the activity of the allowance for credit losses are effective for annual periods

beginning on or after December 15, 2010. The Bank is evaluating the potential impact of the disclosures for the allowance for credit losses. Disclosure requirements about troubled debt restructurings have been temporarily delayed as prescribed by ASU 2011-01 "Deferral of the effective date of disclosures about troubled debt restructurings".

Notes to consolidated financial statements

Cash and cash equivalents are as follows:

	December 31,		
(In thousands of US\$)	2010	2009	
Cash and due from banks	5,570	2,961	
Interest-bearing deposits in banks	431,144	421,595	
Total	436,714	424,556	
Less:			
Pledged deposits	16,075	22,582	
	420,639	401,974	

On December 31, 2010 and 2009, the New York Agency had a pledged deposit with a carrying value of \$3 million and \$5.5 million, respectively, with the New York State Banking Department, as required by law since March 1994. As of December 31, 2010, the Bank has pledged deposits of \$13.1 million to secure derivative financial instruments transactions and repurchase agreements.

As of December 31, 2009 the Bank had pledged deposits of \$17.1 million to secure derivative financial instruments transactions.

4.

Trading assets and liabilities

The fair value of trading assets and liabilities is as follows:

	Decemb	er 31,
	2010	2009
(In thousands of US\$)		
Trading assets:		
Sovereign bonds	45,058	44,875
Corporate bonds	5,354	5,400
Credit default swap	-	2
Total	50,412	50,277
Trading liabilities:		
Interest rate swaps	3,031	2,514
Cross-currency interest rate swaps	907	638
Total	3,938	3,152

Sovereign and corporate bonds outstanding as of December 31, 2010, have generated gains of \$0.1 million and \$3.3 million during 2010 and 2009, respectively, which have been recorded in earnings.

As of December 31, 2010, bonds with a carrying value of \$34.2 million secured repurchase agreements accounted for as secured borrowings.

Notes to consolidated financial statements

During 2010 and 2009, the Bank recognized the following gains and losses related to trading derivative financial instruments:

	December 31,		
(In thousands of US\$)	2010		2009
Forward repurchase agreements	-		2,570
Interest rate swaps	(2,091)	(551)
Cross-currency interest rate swaps	(1,662)	(638)
Credit default swap	13		110
Total	(3,740)	1,491

These gains (losses) are reported within the net gain (loss) from trading securities line in the consolidated statements of income.

In addition to the trading derivative financial instruments, the Bank has hedging derivative financial instruments that are disclosed in Note 20.

As of December 31, 2010 and 2009, trading derivative liabilities include interest rate swap and cross-currency interest rate swap contracts that were previously designated as fair value hedges of securities available-for-sale and foreign-currency loans, respectively, that no longer qualify for hedge accounting.

As of December 31, 2010 and 2009, information on the nominal amounts of derivative financial instruments held for trading purposes is as follows:

	2010			2009	
Nominal	Fair	Value	Nominal	Fair	Value
Amount	Asset	Liability	Amount	Asset	Liability
46,800	-	3,031	46,800	-	2,514

Venezuela	14,979	830	-	15,809

	361,208	20,755	1,442	380,521
Total	434,407	24,019	1,442	456,984

As of December 31, 2010 and 2009, securities available-for-sale with a carrying value of \$235.6 million and \$78.5 million, respectively, were pledged to secure repurchase transactions accounted for as secured financings.

Notes to consolidated financial statements

The following table discloses those securities that have had unrealized losses for less than 12 months and for 12 months or longer:

			Decembe	r 31, 2010			
(In thousands of							
US\$)	Less than	12 months	12 month	s or longer	Тс	Total	
		Unrealized		Unrealized		Unrealized	
	Fair	Gross	Fair	Gross	Fair	Gross	
	Value	Losses	Value	Losses	Value	Losses	
Corporate debt	13,756	290			13,756	290	
•	· · · · ·		-	-			
Sovereign debt	35,737	464	10,063	207	45,800	671	
	49,493	754	10,063	207	59,556	961	
			Decembe	r 31, 2009			
(In thousands of							
US\$)	Less than 1	2 months	12 months	or longer	То	tal	
		Unrealized		Unrealized		Unrealized	
	Fair	Gross	Fair	Gross	Fair	Gross	
	Value	Losses	Value	Losses	Value	Losses	
Sovereign debt	24,138	550	24,720	892	48,858	1,442	

Gross unrealized losses are related mainly to changes in market interest rates and other market factors and not due to underlying credit concerns by the Bank about the issuers. The sovereign debt that shows an unrealized gross loss for more than twelve months relates to a counterparty whose payment performance is and continues to be strong. The price of the bonds in question has seen a recovery during 2010. Historically, this counterparty has not failed to perform on its obligations. As of December 31, 2010 the Bank does not intent to sell and will not be required to sell the security available-for-sale showing a gross unrealized loss before the recovery of its amortized cost. As a result, the Bank does not consider this exposure to be other-than temporary impaired.

The following table presents the realized gains and losses on securities available-for-sale:

(In thousands of US\$) Year ended December 31,			31,
	2010	2008	
Gains	2,346	1,276	2,173
Losses	-	(730)	(2,106)
Net	2,346	546	67

Losses on securities available-for-sale during 2008 were mainly the result of transactions of securities sold under repurchase agreements accounted for as sales at the transfer date of those securities (see Note 12).

An analysis of realized losses is described below:

	Y	ear ended December 31,		
(In thousands of US\$)	2010	2009	2008	8
Realized losses on sale of securities				
available-for-sale	-	(730)	(79)
Realized losses for transfers of securities under repurchase agreements accounted for				
as sales (see Note 12)	-	-	(2,027)
Total realized loss	-	(730)	(2,106)

Notes to consolidated financial statements

The amortized cost and fair value of securities available-for-sale by contractual maturity as of December 31, 2010, are shown in the following table:

(In thousands of US\$)	Amortized Cost	Fair Value
Due within 1 year	18,417	18,788
After 1 year but within 5 years	306,960	324,576
After 5 years but within 10 years	10,115	9,886
	335,492	353,250

Securities held-to-maturity

The amortized cost, related unrealized gross gain (loss) and fair value of securities held-to-maturity by country risk and type of debt are as follows:

December 31, 2010				
Amortized	Unrealized	Unrealized	Fair	
Cost	Gross Gain	Gross Loss	Value	
8,500	-	-	8,500	
13,018	64	-	13,082	
5,025	-	12	5,013	
4,638	-	27	4,611	
2,000	-	-	2,000	
24,681	64	39	24,706	
33,181	64	39	33,206	
	Cost 8,500 13,018 5,025 4,638 2,000 24,681	Amortized Cost Unrealized Gross Gain 8,500 - 13,018 64 5,025 - 4,638 - 2,000 - 24,681 64	Amortized Cost Unrealized Gross Gain Unrealized Gross Loss 8,500 - - 13,018 64 - 5,025 - 12 4,638 - 27 2,000 - - 24,681 64 39	

Securities that show gross unrealized losses have had losses for less than 12 months; and therefore, such losses are considered temporary.

The amortized cost of securities held-to-maturity by contractual maturity as of December 31, 2010, are shown in the following table:

(In thousands of US\$)	Amortized Cost
Due within 1 year	13,525
After 2 years but within 5 years	19,656
	33,181

As of December 31, 2010, securities held-to-maturity with a carrying value of \$13 million, were pledged to secure repurchase agreements accounted for as secured financings.

6.

Investment fund

The balance in the investment fund for \$167.3 million in 2010 and \$197.6 million in 2009 represents the participation of the Feeder in the net asset value (NAV) of the Fund.

Notes to consolidated financial statements

The Fund's net assets are mainly composed by cash, investments in equity and debt instruments, and derivative financial instruments that are quoted and traded in active markets.

As of December 31, 2010, the Feeder owns 97.56% of the Fund with a total of 146,134.7 shares issued, divided in 9,090.9 "Class A" shares, 7,968.5 "Class A1" shares, 128,367.2 "Class B" shares and 708.1 "Class E1" shares.

As of December 31, 2009, the Feeder owned 98.42% of the Fund with a total of 164,925.2 shares issued, divided in 30,725.5 "Class A" shares, 133,491.6 "Class B" shares and 708.1 "Class E1" shares.

The Fund has issued "Class A", "Class A1", "Class B", "Class C", "Class D", "Class E" and "Class E1" shares and admini shares. "Class A", "Class A1" and "Class B" shares are participating shares in the net gains (losses) of the Fund, and only differ in relation to certain administrative fees. "Class C" and "Class D" shares do not participate in the net gains (losses) of the Fund; they are only entitled to the performance allocation from "Class A", "Class A1" and "Class B" shares. The "Class E" and "Class E1" shares are not subject to either administrative fees or performance allocation. The Bank owns the Feeder's and the Fund's administrative shares.

"Class A", "Class A1" and "Class E" shares can be redeemed monthly by investors with 30 day's notice. \$100 million of the "Class B" shares cannot be redeemed until December, 2011.

7.

Loans

The following table set forth details of the Bank's loan portfolio:

(In thousands of US\$)	December 31,		
	2010 2009		
Corporations:			
Private	1,772,232	1,152,834	
State-owned	312,154 193

Total	4,064,332	2,779,262

(1) December 31, 2009's current loans include unimpaired loans on non-accrual status for \$14,784 thousand.

Notes to consolidated financial statements

The following table provides a breakdown of loans by country risk:

(In thousands of US\$)	Decem	December 31,		
	2010	2009		
Country:				
Argentina	237,062	72,746		
Brazil	1,582,761	1,334,905		
Chile	328,447	258,257		
Colombia	584,549	200,490		
Costa Rica	87,537	82,906		
Dominican Republic	135,291	31,364		
Ecuador	18,121	23,097		
El Salvador	39,036	40,650		
Guatemala	92,104	73,809		
Honduras	37,518	22,984		
Jamaica	64,457	31,297		
Mexico	403,829	301,929		
Nicaragua	-	700		
Panama	47,485	41,492		
Peru	343,135	161,047		
Trinidad and Tobago	63,000	71,589		
Uruguay	-	30,000		
	4,064,332	2,779,262		

The fixed and floating interest rate distribution of the loan portfolio is as follows:

(In thousands of US\$)	December 31,	
	2010	2009
Fixed interest rates	2,003,631	1,310,754
Floating interest rates	2,060,701	1,468,508
	4,064,332	2,779,262

As of December 31, 2010 and 2009, 88% and 80%, respectively, of the loan portfolio at fixed interest rates has remaining maturities of less than 180 days.

Notes to consolidated financial statements

The following is a summary of information in non-accruing loans, and interest amounts on non-accruing loans:

(In thousands of US\$)	Ι		
	2010	2009	2008
Loans in non-accrual status			
Private corporations	28,000	39,000	-
Private middle-market companies	1,002	11,534	-
Total loans in non-accrual status	29,002	50,534	-
Foregone interest revenue at beginning of the year	928	-	-
Interest which would have been recorded if the loans had			
not been in a non-accrual status	3,403	1,775	-
Interest income collected on non-accruing loans	(3,335)	(847)	-
Foregone interest revenue at end of the year	996	928	-

An analysis of non-accruing loans with impaired balances as of December 31, 2010 and 2009 is detailed as follows:

As of December 31, 2010 and 2009, the Bank has credit transactions in the normal course of business with 25% and 18%, respectively, of its Class "A" and "B" stockholders (see Note 15). All transactions are made based on arm's-length terms and subject to prevailing commercial criteria and market rates and are subject to all of the Bank's corporate governance and control procedures. As of December 31, 2010 and 2009, approximately 15% and 20%, respectively, of the outstanding loan portfolio is placed with the Bank's Class "A" and "B" stockholders and their related parties. As of December 31, 2010, the Bank was not directly or indirectly owned or controlled by another corporation or any foreign government, and no Class "A" or "B" shareholder was the registered owner of more than 3.5% of the total outstanding shares of the voting capital stock of the Bank.

During the year 2010, the Bank sold loans with a book value of \$20 million, with a net gain of \$201 thousand. There were no loan sales during 2009.

8.

Allowance for credit losses

The Bank classifies the allowance for credit losses into two components:

a)

Allowance for loan losses:

(In thousands of US\$)	Ι	December 31,	
	2010	2009	2008
Balance at beginning of the year	73,789	54,648	69,643
Provision (reversal of provision) for loan losses	9,091	18,293	(18,540)
Loan recoveries	996	866	3,545
Loans written-off against the allowance for loan losses	(5,261)	(18)	-
Balance at end of the year	78,615	73,789	54,648
Components:			
Generic allowance	67,115	59,432	54,648
Specific allowance	11,500	14,357	-
Total allowance for loan losses	78,615	73,789	54,648

Notes to consolidated financial statements

Provision (reversal of provision) of generic allowance for credit losses are mostly related to changes in volume and composition of the credit portfolio. The increase in the generic allowance for loan losses in 2010 was primarily due to an increase in the loan portfolio mitigated by an improvement of the risk profile of the Region and a prudent portfolio management.

.

Following is a summary as of December 31, 2010 of loan balances and reserves for loan losses:

. .

(In thousands of US\$)

		Banking and financial	Middle-marke	t		
	Corporations	institutions	companies	Sovereign	Total	
Allowance for loan	1		I to I	8		
losses						
Specific allowance	11,200	-	300	-	11,500	
Generic allowance	42,960	18,790	4,965	400	67,115	
Total of allowance for						
loan losses	54,160	18,790	5,265	400	78,615	
Loans						
Loans with specific						
allowance	28,000	-	1,002	-	29,002	
Loans with generic						
allowance	2,056,386	1,701,062	223,756	54,126	4,035,330	
Total loans	2,084,386	1,701,062	224,758	54,126	4,064,332	
b)	Reserve for	losses on off-ba	alance sheet c	redit risk:	
(In thousands of U	US\$)			D	ecember 31,	
				2010	2009	
Balance at beginn	ing of the year		27,2	261	30,724	13,7
	al of provision) for	losses on off-b				
sheet credit risk				,926)	(3,463)	16,9
Balance at end of	the year		13,3	335	27,261	30,7

The reserve for losses on off-balance sheet credit risk reflects the Bank's management estimate of probable losses on off-balance sheet credit risk items such as: confirmed letters of credit, stand-by letters of credit, guarantees and credit commitments (see Note 18). The 2010's decrease in the reserve for losses on off-balance sheet credit risk was primarily due to changes in volume, composition, and improvement of the risk profile of the portfolio, together with the purchase of international insurance to mitigate exposures on the off-balance sheet credit risk portfolio.

Premises and equipment

9.

2008

A breakdown of cost and accumulated depreciation and amortization for premises and equipment as of December 31, 2010 and 2009 is as follows:

(In thousands of US\$)	Decemb	ver 31,	
	2010	2009	
Land	462	462	
Building and improvements	5,365	5,254	
Furniture and equipment	17,345	16,323	
	23,172	22,039	
Less: accumulated depreciation and amortization	16,640	14,290	
	6,532	7,749	

Notes to consolidated financial statements

In 2008, the Bank recorded impairment on a portion of a financial information system for \$968 thousand that was included in the depreciation, amortization and impairment of premises and equipment expense line.

10.

Other assets

As of December 31, 2010 and 2009, other assets include an equity investment in a private investment fund with a carrying value of \$1.7 million and \$1.9 million, respectively. During 2010, the Bank did not increase its participation in this fund.

11.

Deposits

The remaining maturity profile of the Bank's deposits is as follows:

(In thousands of US\$)	December	31,
	2010	2009
Demand	100,352	51,375
Up to 1 month	1,173,415	586,949
From 1 month to 3 months	286,806	324,702
From 3 months to 6 months	143,352	273,220
From 6 months to 1 year	117,000	20,000
	1,820,925	1,256,246

The following table presents additional information about deposits:

(In thousands of US\$)	December 31,		
	2010	2009	
Aggregate amounts of time deposits of \$100,000 or more	1,720,106	1,204,657	
Aggregate amounts of deposits in offices outside Panama	221,185	418,157	
Interest expense paid to deposits in offices outside Panama	2,746	5,821	

12.

Securities sold under repurchase agreements

The Bank's financing transactions under repurchase agreements amounted to \$264.9 million and \$71.3 million as of December 31, 2010 and 2009, respectively.

As of December 31, 2010, 2009 and 2008, interest expense related to financing transactions under repurchase agreements totaled \$1.5 million, \$5.9 million, and \$16.9 million, respectively, were recorded. These expenses are presented in the consolidated statements of income as interest expense –borrowings.

As of December 31, 2010 and 2009, all financing transactions under repurchase agreements qualified as secured financings. During 2008, the Bank entered into repurchase agreements that qualified as sales under ASC Topic 860 -

Transfers and Servicing. These transactions specifically referred to repurchase agreements on which the Bank was required to take larger discounts or "haircuts" than in the past, as a result of the outbreak of the liquidity and credit crisis in the financial markets near the end of 2008. These were short-term repurchase agreements with anticipated maturity dates within the first quarter of 2009, transacted with counterparties of high repute. The Bank reacquired all the securities that guaranteed these transactions.

Notes to consolidated financial statements

A summary of the repurchase agreements and their effect in the results of year 2008 is presented below:

(In thousands of US\$)	2008
Cash received from counterparties	147,301
Amortized cost of securities at the transfer dates	(192,907)
Fair value of forward repurchase agreements	36,451
Retained interest on securities transferred under repurchase agreements	7,128
Recognized loss in transfers of securities under repurchase agreements accounted for as sales	(2,027)

Changes in fair value of derivative financial instruments resulting from transfers of securities under repurchase agreements were reported in 2008 in the net gain (loss) from trading securities line item. Changes in fair value of sovereign bonds reacquired in repurchase transactions, which were included in the trading portfolio, were reported in the net gain (loss) from trading securities line item. The Bank discontinued hedge accounting for interest rate swaps that hedged securities transferred under these agreements and reported them as trading derivatives. Changes in fair value of these interest rate swaps were recorded in the net gain (loss) from trading securities line item.

A summary of the effect of these financial instruments in net income of year ended December 31, 2008 is presented below:

(In thousands of US\$)	2008	
Changes in fair value of forward repurchase agreements	(8,133)
Changes in fair value of sovereign bonds	(1,583)
Changes in fair value of interest rate swaps that hedged transferred securities	(11,219)
Total changes in fair value of financial instruments resulting from transfers of securities under repurchase agreements	(20,935)

The effects in the statement of income for the year ended December 31, 2008 of transfers of securities under repurchase agreements is summarized below:

	3	
repurchase agreements (20	27)
Total loss in transfers of securities under renurchase agreements (22	935)
10tal loss in transfers of securities under reputchase agreements (22	962)

Notes to consolidated financial statements

13.

Short-term borrowings

The breakdown of short-term borrowings due to financial institutions, together with contractual interest rates, is as follows:

	December :	31,
(In thousands of US\$)	2010	2009
Advances from financial institutions:		
At fixed interest rates	1,000,400	317,800
At floating interest rates	95,000	10,000
Total short-term borrowings	1,095,400	327,800
Average outstanding balance during the year	541,978	498,751
Maximum balance at any month-end	1,095,400	693,900
		0.85% to
Range of fixed interest rates on borrowings in U.S. dollars	0.69% to 1.65%	2.70%
	0.85% to	
Range of floating interest rates on borrowings in U.S. dollars	1.29%	2.66 %
Weighted average interest rate at end of the year	1.13 %	1.62 %
Weighted average interest rate during the year	1.20 %	3.34 %

The Bank has at its favor an unused commitment for short-term financing for \$50 million bearing a 0.25% annual fee, maturing in October 2011. In the event this commitment is used, a rate of LIBOR 6 months plus a margin according to prevailing market conditions would be applied.

14.

Borrowings and long-term debt

Borrowings consist of long-term and syndicated loans obtained from international banks. Debt instruments consist of Euro-Notes and another issuance in Latin America. The breakdown of borrowings and long-term debt (original maturity of more than one year), together with contractual interest rates, is as follows:

	December 31,			
(In thousands of US\$)	2010	2009		
Borrowings:				
At fixed interest rates with due dates from January 2011 to				
September 2013	26,892	83,334		

At floating interest rates with due dates from March 2011 to July		
2013	1,004,421	1,259,478
Total borrowings	1,031,313	1,342,812
Debt:		
At fixed interest rates with due dates in November 2014	43,827	42,575
At floating interest rates	-	5,000
Total debt	43,827	47,575
Total borrowings and long-term debt outstanding	1,075,140	1,390,387

Notes to consolidated financial statements

	December 31,				
(In thousands of US\$)	2010	2009			
Average outstanding balance during the year	1,240,750	1,208,007			
Maximum outstanding balance at any month-end	1,400,307	1,390,387			
Range of fixed interest rates on borrowings and debt in U.S. dollars	2.53% to 3.10%	2.25% to 4.64%			
Range of floating interest rates on borrowings and debt in U.S. dollars	0.53% to 2.52%	0.55% to 2.78%			
Range of fixed interest rates on borrowings in Mexican pesos	7.50% to 9.90%	8.20% to 9.90%			
Range of floating interest rates on borrowings in Mexican pesos	5.76% to 5.80%	5.93% to 5.96%			
Fixed interest rate on debt in Peruvian soles	6.50 %	6.50 %			
Weighted average interest rate at the end of the year	2.10 %	2.07 %			
Weighted average interest rate during the year	2.07 %	3.07 %			

The Bank's funding activities include a Euro-Note program, which may be used to issue notes for up to \$2.3 billion, with maturities from 90 days up to a maximum of 30 years, at fixed or floating interest rates, or at discount, and in various currencies.

The notes are generally sold in bearer or registered form through one or more authorized financial institutions.

Some borrowing agreements include various events of default and covenants related to minimum capital adequacy ratios, incurrence of additional liens, and asset sales, as well as other customary covenants, representations and warranties. As of December 31, 2010, the Bank was in compliance with all covenants.

The future remaining maturities of long-term debt and borrowings outstanding as of December 31, 2010, are as follows:

(In thousands of US\$) Due in:	Outstanding
Due III.	Outstanding
2011	388,775
2012	298,196
2013	344,342
2014	43,827
	1,075,140

Notes to consolidated financial statements

15. Common stock

3)

The Bank's common stock is divided into four categories:

- 1) "Class A"; shares may only be issued to Latin American Central Banks or banks in which the state or other government agency is the majority shareholder.
 - 2) "Class B"; shares may only be issued to banks or financial institutions.
 - "Class E"; shares may be issued to any person whether a natural person or a legal entity.
- 4) "Class F"; can only be issued to state entities and agencies of non-Latin American countries, including, among others, central banks and majority state-owned banks in those countries, and multilateral financial institutions either international or regional institutions.

The holders of "Class B" shares have the right to convert or exchange their "Class B" shares, at any time, and without restriction, for "Class E" shares, at a rate of one to one.

The following table provides detailed information on the Bank's common stock activity per class for each of the years in the three-year period ended December 31, 2010:

(Share units)	"Class A"	"Class B"	"Class E"	"Class F"	Total

Notes to consolidated financial statements

16.

Cash and stock-based compensation plans

The Bank established equity compensation plans under which it administers restricted stock, restricted stock units and stock purchase option plans to attract, retain and motivate Directors and top employees and compensate them for their contributions to the growth and profitability of the Bank. Vesting conditions for each of the Bank's plans are only comprised of specified requisite service periods.

A. 2008 Stock Incentive Plan - Directors and Executives

In February 2008, the Board of Directors of the Bank approved an incentive plan for Directors and Executives allowing the Bank to grant restricted stock, restricted stock units, stock purchase options, and/or other similar compensation instruments. The maximum aggregate number of shares which may be issued under this plan is two million "Class E" common shares. The 2008 Stock Incentive Plan is administered by the Board of Directors which has the authority in its discretion to select the Directors and Executives to whom the Award may be granted; to determine whether and to what extent awards are granted, and to amend the terms of any outstanding award under this plan.

During 2010, 2009 and 2008, the Board of Directors approved the grant of restricted stock to Directors and stock options and restricted stock units to certain Executives of the Bank, as follows:

Restricted stock - Directors

In July 2010, 2009 and 2008, the Board of Directors granted 38,115, 37,934 and 31,246, respectively, "Class E" common shares worth \$50 thousand for each Director and \$75 thousand to the Chairman of the Board. The fair value of restricted stock granted was based on the stock closing price in the New York Stock Exchange of the "Class E" shares on July 9, 2010, July 10, 2009 and July 11, 2008, respectively. The restricted stock vests in five years at a rate of 20% each year, beginning the year following the grant date. The fair value of restricted stock granted totaled \$475 thousand in 2010, 2009 and 2008, of which \$270 thousand, \$139 thousand and \$44 thousand were charged against income during 2010, 2009 and 2008, respectively. The remaining cost pending amortization of \$972 thousand will be amortized over 3.73 years.

A summary as of December 31, 2010 of the restricted stock granted to Directors during the years 2010, 2009 and 2008 is presented below:

	CI	Weighted average grant date fair	
	Shares		value
Outstanding at January 1, 2008	-		-
Granted	31,246	\$	15.20
Vested	-		-
Outstanding at December 31, 2008	31,246		15.20

Expected to vest			88,027	\$	13.07
	1 2000 0100 1	1	1 005 1	1	. 1

The fair value of vested stock during the years 2010 and 2009 was \$180 thousand and \$95 thousand, respectively.

Notes to consolidated financial statements

Restricted Stock Units and Stock Purchase Options granted to certain Executives

The Board of Directors approved the grant of stock purchase options and restricted stock units to certain Executives of the Bank with a grant date fair value of \$2.4 million in 2010, \$2.3 million in 2009 and \$1.6 million in 2008, where 50% were granted in restricted stock units, and 50% in stock purchase options.

The Bank grants one "Class E" share per each exercised option or vested restricted stock unit.

Restricted stock units:

The fair value of the stock units was based on the "Class E" stock closing price in the New York Stock Exchange on the grant date. These stock units vest 25% each year on the grant date's anniversary.

Compensation costs of these restricted stock units are amortized during the period of restriction. Costs charged against income during 2010, 2009 and 2008 due to the amortization of these grants totaled \$742 thousand, \$436 thousand and \$178 thousand, respectively. The remaining compensation cost pending amortization of \$1,752 thousand will be amortized over 2.53 years.

A summary as of December 31, 2010, 2009 and 2008 of the status of the restricted stock units granted to certain Executives and changes during the years 2010, 2009 and 2008 are presented below:

	av	Weighted verage gran date fair value	Weighted average t remaining contractual term	Aggregate intrinsic value (thousands)
Outstanding at January 1, 2008	-	-	term	(thousands)
Granted	52,982 \$	15.43		
Forfeited	(756)	15.43		
Outstanding at December 31, 2008	52,226	15.43		
Granted	132,020	8.67		
Forfeited	(5,713)	11.44		
Vested	(12,415)	15.43		
Outstanding at December 31, 2009	166,118	10.20		
Granted	101,496	12.04		
Forfeited	-	-		
Vested	(44,904)	10.59		\$ 162
Outstanding at December 31, 2010	222,710 \$	10.96	2.53 years	\$ 1,671
Expected to vest	222,710 \$	10.96		\$ 1,671

Notes to consolidated financial statements

The fair value of vested stock during the years 2010 and 2009 was \$476 thousand and \$192 thousand, respectively.

Stock purchase options:

The fair value of stock purchase options granted to certain Executives during 2010, 2009 and 2008 was estimated using the "Black-Scholes" option-pricing model, based on the following factors:

	2010		2009		2008	
Weighted average fair value per option	\$ 2.91	\$	1.90	\$	3.52	
Weighted average expected term, in years	4.75		4.75		5.50	
Expected volatility	37	%	37	%	37	%
Risk-free rate	2.32	%	1.79	%	2.72	%
Expected dividend	5.00	%	6.00	%	4.84	%

These options expire seven years after the grant date and are exercisable at a rate of 25% each year on the grant date's anniversary.

Related cost charged against income during 2010, 2009 and 2008 as a result of the amortization of these plans amounted to \$742 thousand, \$436 thousand and \$178 thousand, respectively. The remaining compensation cost pending amortization of \$1,752 thousand in 2010 will be amortized over a period of 2.53 years. A summary of stock options granted is presented below:

	Options		8	/eighted average rcise price	Weighted average remaining contractual term	Aggregate intrinsic value (thousands)
Outstanding at January 1, 2008	-			-		· · ·
Granted	232,403		\$	15.43		
Forfeited	(3,318)		15.43		
Outstanding at December 31, 2008	229,085			15.43		
Granted	601,985			10.15		
Forfeited	(27,076)		12.43		
Outstanding at December 31, 2009	803,994		\$	11.58		
Granted	420,777			13.52		
Forfeited	(646)		15.43		
Exercised	(82,106)		10.15		
Outstanding at December 31, 2010	1,142,019		\$	12.39	5.29 years 3	\$ 6,928
Exercisable	172,898		\$	13.46	4.12 years \$	\$ 865
Expected to vest	969,121		\$	12.20	5.44 years S	\$ 6,063

The intrinsic value of exercised options during the year ended December 31, 2010 was \$383 thousand. During the year ended December 31, 2010 the Bank received \$834 thousand from exercised options.

Notes to consolidated financial statements

B. Restricted Stock - Directors (Discontinued)

During 2003, the Board of Directors approved a restricted stock award plan for Directors of the Bank that was amended in 2007 and subsequently terminated in 2008. No grants were made after the 2007's grant. The restricted stock vests at a rate of 20% each year on the grant date's anniversary.

Related costs to outstanding restricted stock were charged against income totaled \$108 thousand, \$123 thousand and \$217 thousand in 2010, 2009 and 2008, respectively. As of December 31, 2010, the Bank had unrecognized compensation costs of \$139 thousand related to this plan that will be amortized over 1.49 years.

A summary as of December 31, 2010 of restricted stock granted to Directors under this plan and changes during 2010, 2009 and 2008 is presented below:

	Shares		ghted average ant date fair value
Non vested at January 1, 2008	44,456	\$	17.87
Granted	-		-
Vested	(23,037)	15.83
Non vested at December 31, 2008	21,419		20.07
Granted	-		-
Vested	(6,746)	19.25
Non vested at December 31, 2009	14,673		20.45
Granted	-		-
Vested	(5,756)	19.95
Non vested at December 31, 2010	8,917	\$	20.77
Expected to vest	8,917	\$	20.77

The total fair value of vested stock during the years ended December 31, 2010, 2009 and 2008 was \$115 thousand, \$130 thousand and \$365 thousand, respectively.

C. Stock Option Plan 2006 - Directors and Executives (Discontinued)

The 2006 Stock Option Plan was terminated in 2008. The options granted under this plan expire seven years after the grant date and are exercisable at a rate of 25% each year on the grant date's anniversary. No grants were made after the 2007's grant.

Related cost charged against income as a result of the amortization of options granted under this compensation plan amounted to \$221 thousand in 2010 and 2009, and \$236 thousand in 2008. As of December 31, 2010, unrecognized compensation cost of \$25 thousand related to this plan will be amortized over 1.4 months.

A summary as of December 31, 2010 of the share options granted to Directors and certain Executives and changes during 2008, 2009 and 2010 is presented below:

Notes to consolidated financial statements

D. Indexed Stock Option Plan (Discontinued)

During 2004, the Board of Directors approved an indexed stock purchase option plan for Directors and certain executives of the Bank, which was subsequently terminated in April 2006. The indexed stock options expire in ten years and are vested at a rate of 25% each year on the grant date's anniversary. The exercise price is adjusted based on the change in a customized Latin American general market index. As of December 31, 2010, there was no compensation cost pending amortization. Related costs charged against income amounted to \$17 thousand, \$241 thousand and \$440 thousand in 2010, 2009 and 2008, respectively.

A summary as of December 31, 2010 and changes during the years 2008, 2009 and 2010 of the indexed stock purchase options is presented below:

	Options		ghted average tercise price	Weighted average remaining contractual term	intri	ggregate insic value ousands)
Outstanding at January 1, 2008	504,885		14.47	term	(th	ousunus)

Exercisable at December 31, 2010	385,469	\$	17.98	4.45 years	\$	348

The intrinsic value of options exercised during the years ended December 31, 2009 and 2008 was \$252 thousand and \$41 thousand, respectively. During the years ended December 31, 2009 and 2008, the Bank received \$808 thousand and \$151 thousand, respectively, from exercised options. All options are available to be exercised as of December 31, 2010.

E. 1995 and 1999's Stock Option Plan (Discontinued)

During 1995 and 1999, the Board of Directors approved two stock option plans for employees. Under these plans, stock options were granted at a purchase price equal to the average market value of the common stock at the grant date. One third of the options may be exercised on each successive year after the grant date and expire on the tenth anniversary after the grant date. These plans were discontinued in 2003; therefore, no additional stock options have been granted.

Notes to consolidated financial statements

A summary of the status as of December 31, 2010 of the stock options granted and changes during 2010, 2009 and 2008 of these option plans is presented below:

	Options		hted average ercise price	Weighted average remaining contractual term	Aggregate intrinsic value (thousands)
Outstanding at January 1, 2008	38,163	\$	31.46		
Forfeited	(15,163)	27.63

Exercisable at December 31, 2010	8,120	\$	32.88	0.10 years	\$ 0

All options are available to be exercised as of December 31, 2010.

F. Deferred Compensation Plan (the "DC Plan")

In 1999, the Board of Directors approved the DC Plan, which was subsequently terminated in 2003. The Bank could grant a number of deferred equity units ("DEU"). Eligible employees would vest the DEU after three years of service, and distributions were made on the later of (i) the date the vested DEU were credited to the employee's account, and (ii) ten years the employee was first credited with DEU. Participating employees received dividends with respect to their unvested deferred equity units.

A summary on changes is presented below:

	2010	2009		2008
Outstanding at beginning of year	18,755	19,609		22,182
Exercised	(1,009) (854)	(2,573)
Outstanding at end of year	17,746	18,755		19,609

Related cost charged against income related to this plan amounted to \$11 thousand in 2010 and 2009, and \$18 thousand in 2008.

G. Other plans - Expatriate Officer Plan

The Bank sponsors a defined contribution plan for its expatriate top executives based in Panama, which are not eligible to participate in the Panamanian social security system. The Bank's contributions are determined as a percentage of the annual salaries of top executives eligible for the plan, each contributing an additional amount withheld from their salary. Contributions to this plan are managed by a fund manager through a trust. The executives are entitled to the Bank's contributions after completing at least three years of service in the Bank. During the years 2010, 2009 and 2008, the Bank charged to salaries expense \$117 thousand, \$116 thousand and \$241 thousand, respectively, that correspond to the Bank's contributions to this plan. As of December 31, 2010 and 2009, the accumulated liability payable amounted to \$307 thousand and \$386 thousand, respectively.

Notes to consolidated financial statements

17.

Earnings per share

The following table presents a reconciliation of the income and share data used in the basic and diluted earnings per share ("EPS") computations for the dates indicated:

(In thousands of US\$, except per share amounts)	Year end	led December 31,	
	2010	2009	2008
Net income attributable to Bladex for both basic and diluted	12 2 4 4	54.060	55 110
EPS	42,244	54,862	55,119
Weighted everyons common shores outstanding combined to			
Weighted average common shares outstanding - applicable to	26.647	26 402	26.200
basic EPS	36,647	36,493	36,388
Basic earnings per share	1.15	1.50	1.51
Weighted average common shares outstanding			
applicable to diluted EPS	36,647	36,493	36,388
Effect of dilutive securities (1):			
Stock options and restricted stock units plans	167	78	52
Adjusted weighted average common shares outstanding			
applicable to diluted EPS	36,814	36,571	36,440
Diluted earnings per share	1.15	1.50	1.51

(1) As of December 31, 2010, 2009 and 2008, weighted average options of 760,284, 769,790 and 943,051, respectively, were excluded from the computation of diluted earnings per share because the option's exercise price was greater than the average quoted market price of the Bank's common stock.

18.

Financial instruments with off-balance sheet credit risk

In the normal course of business, to meet the financing needs of its customers, the Bank is party to financial instruments with off-balance sheet credit risk. These financial instruments involve, to varying degrees, elements of credit and market risk in excess of the amount recognized in the consolidated balance sheet. Credit risk represents the possibility of loss resulting from the failure of a customer to perform in accordance with the terms of a contract.

The Bank's outstanding financial instruments with off-balance sheet credit risk were as follows:

(In thousands of US\$)	December 31,		
	2010	2009	
Confirmed letters of credit	196,287	206,953	
Stand-by letters of credit and guarantees:

Uruguay	170	15,788
Venezuela	78,441	92,193
	353,560	330,785

Letters of credit and guarantees

The Bank, on behalf of its client base, advises and confirms letters of credit to facilitate foreign trade transactions. When confirming letters of credit, the Bank adds its own unqualified assurance that the issuing bank will pay and that if the issuing bank does not honor drafts drawn on the credit, the Bank will. The Bank provides stand-by letters of credit and guarantees, including country risk guarantees, which are issued on behalf of institutional customers in connection with financing between its customers and third parties. The Bank applies the same credit policies used in its lending process, and once issued the commitment is irrevocable and remains valid until its expiration. Credit risk arises from the Bank's obligation to make payment in the event of a customer's contractual default to a third party. Risks associated with stand-by letters of credit and guarantees are included in the evaluation

of the Bank's overall credit risk. The Bank issues stand-by letters and guarantees to provide coverage for country risk arising from the risk of convertibility and transferability of local currency of countries in the Region into hard currency, and to provide coverage for country risk arising from political risks, such as expropriation, nationalization, war and/or civil disturbances.

Notes to consolidated financial statements

Credit commitments

Commitments to extend credit are binding legal agreements to lend to customers. Commitments generally have fixed expiration dates or other termination clauses and require payment of a fee to the Bank. As some commitments expire without being drawn down, the total commitment amounts do not necessarily represent future cash requirements.

Credit derivative

Credit derivative represented a guarantee issued by the Bank to the buyer of the derivative instrument, where the Bank guaranteed the payment of principal if the underlying financial instrument was impaired and its original issuer would have not complied with principal payments; therefore, the impairment risk was taken by the Bank, which received commission income during the term of this derivative. The credit derivative matured in July 2010. As of December 31, 2009, the fair value of this derivative instrument was \$2 thousand, and reported in trading assets, in the consolidated balance sheet.

19.

Leasehold commitments

As of December 31, 2010, a summary of leasehold commitments is as follows:

(In thousands of US\$)

Year	
2011	561
2012	261
2013	243
2014	243
2015	203
	1,511

Occupancy expense for years ended December 31, 2010, 2009 and 2008, amounted to \$875 thousand, \$770 thousand, and \$809 thousand, respectively.

20.

Derivative financial instruments for hedging purposes

As of December 31, 2010 and 2009, quantitative information on derivative financial instruments held for hedging purposes is as follows:

		2010			2009

For control purposes, derivative instruments are recorded at their nominal amount ("notional amount") in memorandum accounts. Interest rate swaps are made either in a single currency or cross currency for a prescribed period to exchange a series of interest rate flows, which involve fixed for floating interest payments. The Bank also engages in

certain foreign exchange trades to serve customers' transaction needs and to manage the foreign currency risk. All such positions are hedged with an offsetting contract for the same currency. The Bank manages and controls the risks on these foreign exchange trades by establishing counterparty credit limits by customer and by adopting policies that do not allow for open positions in the credit and investment portfolio. Derivative and foreign exchange instruments negotiated by the Bank are executed mainly over-the-counter (OTC). These contracts are executed between two counterparties that negotiate specific agreement terms, including notional amount, exercise price and maturity.

The maximum length of time over which the Bank has hedged its exposure to the variability in future cash flows on forecasted transactions is 3.9 years.

The Bank estimates that approximately \$169 thousand of losses reported in OCI as of December 31, 2010 related to forward foreign exchange contracts are expected to be reclassified into interest income as an adjustment to yield of hedged loans during the twelve-month period ending December 31, 2011.

Types of Derivatives and Foreign Exchange Instruments

Interest rate swaps are contracts in which a series of interest rate flows in a single currency are exchanged over a prescribed period. The Bank has designated a portion of these derivative instruments as fair value hedges and a portion as cash flow hedges. Cross currency swaps are contracts that generally involve the exchange of both interest and principal amounts in two different currencies. The Bank has designated a portion of these derivative instruments as fair value hedges and a portion as cash flow hedges. Forward foreign exchange contracts represent an agreement to purchase or sell foreign currency at a future date at agreed-upon terms. The Bank has designated these derivative instruments as cash flow hedges.

Notes to consolidated financial statements

In addition to hedging derivative financial instruments, the Bank has derivative financial instruments held for trading purposes that have been disclosed in Note 4.

21.

Accumulated other comprehensive income (loss)

As of December 31, 2010, 2009 and 2008 the breakdown of accumulated other comprehensive income (loss) related to investment securities available-for-sale and derivative financial instruments is as follows:

(In thousands of US\$)	Securities Available- for-Sale		Derivative Financial Instruments		Total
Balance as of January 1, 2008	(7,631)	(2,010)	(9,641)
Net unrealized gains (losses) arising from the year	(58,453)	(2,433)	(60,886)
Reclassification adjustment for (gains) losses included in net					
income (1)	(67)	(1,521)	(1,588)
Balance as of December 31, 2008	(66,151)	(5,964)	(72,115)
Net unrealized gains (losses) arising from the year	63,556		1,971		65,527
Reclassification adjustment for (gains) losses included in net					
income (1)	(649)	1,077		428
Balance as of December 31, 2009	(3,244)	(2,916)	(6,160)
Net unrealized gains (losses) arising from the year	2,325		1,391		3,716
Reclassification adjustment for (gains) losses included in net					
income (1)	(2,825)	(1,172)	(3,997)
Balance as of December 31, 2010	(3,744)	(2,697)	(6,441)

(1)Reclassification adjustments include amounts recognized in net income during the current year that had been part of other comprehensive income (loss) in this and previous years.

22.

Fair value of financial instruments

The Bank determines the fair value of its financial instruments using the fair value hierarchy established in ASC Topic 820 - Fair Value Measurements and Disclosure, which requires the Bank to maximize the use of observable inputs (those that reflect the assumptions that market participants would use in pricing the asset or liability developed based on market information obtained from sources independent of the reporting entity) and to minimize the use of unobservable inputs (those that reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability developed based on the best information available in the circumstances) when measuring fair value. Fair value is used on a recurring basis to measure assets and liabilities in which fair value is the primary basis of accounting. Additionally, fair value is used on a non-recurring basis to evaluate assets and liabilities for impairment or for disclosure purposes. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Depending on the nature of the asset or liability, the Bank uses some valuation techniques and assumptions when estimating fair value. The Bank applied the following fair value hierarchy:

Level 1 – Assets or liabilities for which an identical instrument is traded in an active market, such as publicly-traded instruments or futures contracts.

Notes to consolidated financial statements

Level 2 – Assets or liabilities valued based on observable market data for similar instruments, quoted prices in markets that are not active; or other observable inputs that can be corroborated by observable market data for substantially the full term of the asset or liability.

Level 3 – Assets or liabilities for which significant valuation assumptions are not readily observable in the market; instruments measured based on the best available information, which might include some internally-developed data, and considers risk premiums that a market participant would require.

When determining the fair value measurements for assets and liabilities that are required or permitted to be recorded at fair value, the Bank considers the principal or most advantageous market in which it would transact and considers the assumptions that market participants would use when pricing the asset or liability. When possible, the Bank uses active and observable markets to price identical assets or liabilities. When identical assets and liabilities are not traded in active markets, the Bank uses observable market information for similar assets and liabilities. However, certain assets and liabilities are not actively traded in observable markets and the Bank must use alternative valuation techniques to determine the fair value measurement. The frequency of transactions, the size of the bid-ask spread and the size of the investment are factors considered in determining the liquidity of markets and the relevance of observed prices in those markets.

When there has been a significant decrease in the volume or level of activity for a financial asset or liability, the Bank uses the present value technique which considers market information to determine a representative fair value in usual market conditions.

A description of the valuation methodologies used for assets and liabilities measured at fair value on a recurring basis, including the general classification of such assets and liabilities under the fair value hierarchy is presented below:

Trading assets and liabilities and securities available-for-sale

When quoted prices are available in an active market, available-for-sale securities and trading assets and liabilities are classified in level 1 of the fair value hierarchy. If quoted market prices are not available or they are available in markets that are not active, then fair values are estimated based upon quoted prices of similar instruments, or where these are not available, by using internal valuation techniques, principally discounted cash flows models. Such securities are classified within level 2 of the fair value hierarchy.

Investment fund

The Fund is not traded in an active market and, therefore, representative market quotes are not readily available. Its fair value is adjusted on a monthly basis based on its financial results, its operating performance, its liquidity and the fair value of its long and short investment portfolio that are quoted and traded in active markets. Such investment is classified within level 2 of the fair value hierarchy.

Derivative financial instruments

The valuation techniques and inputs depend on the type of derivative and the nature of the underlying instrument. Exchange-traded derivatives that are valued using quoted prices are classified within level 1 of the fair value hierarchy.

Notes to consolidated financial statements

For those derivative contracts without quoted market prices, fair value is based on internal valuation techniques using inputs that are readily observable and that can be validated by information available in the market. The principal technique used to value these instruments is the discounted cash flows model and the key inputs considered in this technique include interest rate yield curves and foreign exchange rates. These derivatives are classified within level 2 of the fair value hierarchy.

Adjustments for credit risk of the counterparty are applied to those derivative financial instruments where the internal credit risk rating of said counterparties deviates substantially from the credit risk implied by the London Interbank Offered rate ("LIBOR"). Not all counterparties have the same credit rating that is implicit in the LIBOR curve; therefore, it is necessary to take into account the current credit rating of the counterparty for the purpose of obtaining the true fair value of a particular instrument. In addition, adjustments to bilateral or own risk are adjusted to reflect the bank's credit risk when measuring all liabilities at fair value. The methodology is consistent with the adjustments applied to generate the counterparty credit risk.

Financial instruments measured at fair value on a recurring basis by caption on the consolidated balance sheets using the fair value hierarchy are described below:

ASC Topic 825 - Financial Instruments requires disclosure of fair value of financial instruments including those assets and liabilities for which the Bank did not elect the fair value option. Bank's management uses its best judgment in estimating the fair value of the Bank's financial instruments; however, there are limitations in any estimation technique. The estimated fair value amounts have been measured as of their respective year-ends, and have not been

re-expressed or updated subsequent to the dates of these consolidated financial statements. As such, the estimated fair values of these financial instruments subsequent to the respective reporting dates may be different than the amounts reported at each year-end.

Notes to consolidated financial statements

The following information should not be interpreted as an estimate of the fair value of the Bank. Fair value calculations are only provided for a limited portion of the Bank's financial assets and liabilities. Due to a wide range of valuation techniques and the degree of subjectivity used in making the estimates, comparison of fair value information of the Bank and other companies may not be meaningful for comparative analysis.

The following methods and assumptions were used by the Bank's management in estimating the fair values of financial instruments whose fair value are not measured on a recurring basis:

Financial instruments with carrying value that approximates fair value

The carrying value of certain financial assets, including cash and due from banks, interest-bearing deposits in banks, customers' liabilities under acceptances, accrued interest receivable and certain financial liabilities including customer's demand and time deposits, securities sold under repurchase agreements, accrued interest payable, and acceptances outstanding, as a result of their short-term nature, are considered to approximate fair value.

Securities held-to-maturity

The fair value has been based upon current market quotations, where available. If quoted market prices are not available, fair value has been estimated based upon quoted price of similar instruments, or where these are not available, on discounted expected cash flows using market rates commensurate with the credit quality and maturity of the security.

Loans

The fair value of the loan portfolio has been determined based upon discounted cash flow models that consider the market's credit margins on comparable debt instruments.

Borrowings and short and long-term debt

The fair value of short-term and long-term debt and borrowings is estimated using discounted cash flow analysis based on the current incremental borrowing rates for similar types of borrowing arrangements, taking into account the changes in the Bank's credit margin.

Commitments to extend credit, stand-by letters of credit, and financial guarantees written

The fair value of commitments is estimated using the fees currently charged to enter into similar agreements, taking into account the remaining terms of the agreements and the present creditworthiness of the counterparties. For loan commitments, fair value also considers the difference between current levels of interest rates and the committed rates. The fair value of guarantees and letters of credit is based on fees currently charged for similar agreements which consider the counterparty risks.

Notes to consolidated financial statements

The following table provides information on the carrying value and estimated fair value of the Bank's financial instruments that are not measured on a recurring basis:

	December 31,

23.

Litigation

Bladex is not engaged in any litigation that is material to the Bank's business or, to the best of the knowledge of the Bank's management that is likely to have an adverse effect on its business, financial condition or results of operations.

24.Capital adequacy

The Banking Law in the Republic of Panama requires banks with general banking license to maintain a total capital adequacy index that shall not be lower than 8% of total assets and off-balance sheet irrevocable contingency transactions, weighted according to their risk; and primary capital equivalent that shall not be less than 4% of its assets and off-balance sheet irrevocable contingency transactions, weighted according to their risk. As of December 31, 2010, the Bank's capital adequacy ratio is 16% which is in compliance with the capital adequacy ratios required by the Banking Law in the Republic of Panama.

25.Business segment information

The Bank's activities are operated and managed in three segments, Commercial, Treasury and Asset Management. The segment information reflects this operational and management structure, in a manner consistent with the requirements outlined in ASC Topic 280 - Segment Reporting. The segment results are determined based on the Bank's managerial accounting process, which assigns consolidated balance sheets, revenue and expense items to each reportable division on a systematic basis.

Notes to consolidated financial statements

The Bank incorporates net operating income(3) by business segment in order to disclose the revenue and expense items related to its normal course of business, segregating from the net income, the impact of reversals of reserves for loan losses and off-balance sheet credit risk, and recoveries on assets. In addition, the Bank's net interest income represents the main driver of net operating income; therefore, the Bank presents its interest-earning assets by business segment, to give an indication of the size of business generating net interest income. Interest-earning assets also generate gains and losses on sales, such as for securities available-for-sale and trading assets and liabilities, which are included in net other income, in the Treasury and Asset Management segments. The Bank also discloses its other assets and contingencies by business segment, to give an indication of the size of business segment, segments and contingencies by business segment, to give an indication of the size of securities and contingencies by business segment, to give an indication of the size of business segment segments. The Bank also discloses its other assets and contingencies by business segment, to give an indication of the size of business that generates net fees and commissions, also included in net other income, in the Commercial Segment.

The Bank believes that the presentation of net operating income provides important supplementary information to investors regarding financial and business trends relating to the Bank's financial condition and results of operations. These measures exclude the impact of reversals (provisions) for loan losses and reversals (provisions) for losses on off-balance sheet credit risk (together referred to as "reversal (provision) for credit losses") which Bank's management considers distort trend analysis.

Net operating income disclosed by the Bank should not be considered a substitute for, or superior to, financial measures calculated differently from similar measures used by other companies. These measures, therefore, may not be comparable to similar measurements used by other companies.

Commercial incorporates all of the Bank's financial intermediation and fees generated by the commercial portfolio. The commercial portfolio includes book value of loans, acceptances and contingencies. Operating income from the Commercial Segment includes net interest income from loans, fee income and allocated operating expenses.

Treasury incorporates deposits in banks and all of the Bank's trading assets, securities available-for-sale and held-to-maturity. Operating income from the Treasury Segment includes net interest income from deposits with banks, trading securities and securities available-for-sale and held-to-maturity, derivative and hedging activities, gains and losses from trading securities, gains and losses on sale of securities available-for-sale, gain and losses on foreign currency exchange, and allocated income and operating expenses.

Asset Management incorporates the balance of the investment fund. Operating income from the Asset Management Segment includes net interest margin related to the Feeder's participation in the net interest margin of the Fund, net gains from the investment fund trading, fee income, and allocated operating expenses.

Notes to consolidated financial statements

The following table provides certain information regarding the Bank's continuing operations by segment:
