Approximate Date of Commencement of Proposed Sale of the Securities to the Public:

As soon as practicable after the effective date of this Registration Statement and the satisfaction or waiver of all other conditions to the merger described in the enclosed proxy statement/prospectus.

If the securities being registered on this Form are being offered in connection with the formation of a holding company and there is compliance with General Instruction G, check the following box. "

If this Form is filed to register additional securities for an offering pursuant to Rule 462(b) under the Securities Act, check the following box and list the Securities Act registration statement number of the earlier effective registration statement for the same offering. " _____

If this Form is a post-effective amendment filed pursuant to Rule 462(d) under the Securities Act, check the following box and list the Securities Act registration statement number of the earlier effective registration statement for the same offering. " _____

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer or a smaller reporting company. See the definitions of “large accelerated filer”, “accelerated filer” and “smaller reporting company” in Rule 12b-2 of the Exchange Act.

Large accelerated filer

Accelerated filer

Non-accelerated filer (Do not check if a smaller reporting company) Smaller reporting company

If applicable, place an X in the box to designate the appropriate rule provision relied upon in conducting this transaction:

Exchange Act Rule 13e-4(i) (Cross-Border Issuer Tender Offer)

Exchange Act Rule 143-1(d) (Cross-Border Third-Party Tender Offer)

CALCULATION OF REGISTRATION FEE

Title of each class of securities to be registered	Amount to be registered(1)	Proposed maximum offering price per share(2)	Proposed maximum aggregate offering price	Amount of registration fee(3)
Common stock, par value \$1.00 per share	116,617 shares	Not applicable	\$2,257,718.50	\$261.67

This amount is based upon the maximum number of shares of The First Bancshares, Inc. (“First Bancshares”) common stock anticipated to be issued upon completion of the transactions contemplated in the Agreement and Plan of Merger dated as of October 12, 2016 by and between First Bancshares, The First, A National Banking Association (“The First”) and Gulf Coast Community Bank (“Gulf Coast”), as described herein, which number may be higher or lower in accordance with the formula described below. This number is based on the total number of (1) shares of Gulf Coast Class A common stock, par value \$10.00 per share and Gulf Coast Class B common stock, par value \$1.00 per share (collectively, “Gulf Coast common stock”), issued and outstanding as of October 12, 2016, and the exchange of each such share of Gulf Coast common stock for shares of First Bancshares common stock valued at \$19.36 which is the estimated price of the First Bancshares common stock determined by the average of the closing prices of First Bancshares common stock as reported on the Nasdaq Stock Market on each of the thirty (30) trading days ending five (5) business days prior to the date of this registration statement.

The maximum dollar value of First Bancshares common stock to be issued in connection with the merger is (2) \$2,257,718.50. First Bancshares common stock price as determined by the formula in this registration statement does not have a maximum price per share.

(3) Determined in accordance with Section 6(b) of the Securities Act of 1933, as amended, at a rate equal to \$115.90 per \$1,000,000 of the proposed maximum aggregate offering price.

The registrant hereby amends this registration statement on such date or dates as may be necessary to delay its effective date until the registrant shall file a further amendment which specifically states that this registration statement shall thereafter become effective in accordance with Section 8(a) of the Securities Act of 1933, as amended, or until the registration statement shall become effective on such date as the Commission acting pursuant to said Section 8(a), may determine.

A registration statement relating to these securities has been filed with the Securities and Exchange Commission. Information contained herein is subject to completion or amendment. These securities may not be sold nor may offers to buy be accepted prior to the time the registration statement becomes effective. This document shall not constitute an offer to sell or the solicitation of any offer to buy nor shall there be any sale of these securities in any jurisdiction in which such offer, solicitation or sale would be unlawful prior to registration or qualification under the securities laws of any such jurisdiction.

PRELIMINARY—SUBJECT TO COMPLETION—DATED [], 2016

MERGER PROPOSED – YOUR VOTE IS VERY IMPORTANT

Dear Shareholder:

On October 12, 2016, The First Bancshares, Inc. (“First Bancshares”), First Bancshares’ wholly-owned subsidiary, The First, A National Banking Association (“The First”) and Gulf Coast Community Bank (“Gulf Coast”) announced a strategic business combination in which Gulf Coast will merge (the “merger”) with and into The First. We believe the proposed merger will result in a stronger financial institution, with a diverse revenue stream, a well-balanced loan portfolio and an attractive funding base. The combined company, which will retain The First’s name, will have approximately \$1.4 billion in assets and operate 28 full-service branches and one motorbank across the states of Mississippi, Alabama, Louisiana and Florida. We are sending you this proxy statement/prospectus to invite you to attend a special meeting of shareholders being held by Gulf Coast to allow you to vote on the merger agreement.

If the merger is completed, holders of Gulf Coast common stock will receive in exchange for each outstanding share of Gulf Coast common stock that is issued and outstanding (other than shares held by First Bancshares or Gulf Coast, or, shares with respect to which the holders thereof have perfected dissenters’ rights) their pro rata portion of the number of whole shares of First Bancshares common stock obtained by (i) dividing \$0.50 by (ii) the average of the closing prices of First Bancshares common stock as reported on the Nasdaq Stock Market on each of the thirty (30) trading days ending five (5) business days prior to the closing of the transaction and (iii) multiplied by the total number of shares of Gulf Coast common stock issued and outstanding. The total consideration to be paid in connection with the merger will be \$2,257,718.50, as more specifically described in this document.

We urge you to obtain current market quotations for First Bancshares (trading symbol “FBMS”) on the NASDAQ Stock Exchange.

The merger is intended to qualify as a “reorganization” within the meaning of Section 368(a) of the Internal Revenue Code of 1986, as amended, and holders of Gulf Coast common stock are not expected to recognize any gain or loss for U.S. federal income tax purposes on the exchange of shares of Gulf Coast common stock for shares of First Bancshares common stock in the merger, except with respect to any cash received in lieu of fractional shares of First Bancshares common stock..

At the special meeting of Gulf Coast shareholders to be held on [], 2016, holders of Gulf Coast common stock will be asked to vote to adopt and approve the Agreement and Plan of Merger dated as of October 12, 2016 by and between First Bancshares, The First and Gulf Coast, which we refer to as the merger agreement, and certain other matters. Approval of the merger agreement requires the affirmative vote of the holders of two-thirds of the outstanding shares of Gulf Coast common stock, assuming that a quorum is present.

The Gulf Coast board of directors recommends that Gulf Coast common shareholders vote “FOR” the adoption and approval of the merger agreement.

This document describes the special meeting, the merger, the documents related to the merger and other related matters. **Please carefully read this entire document, including “Risk Factors” beginning on page [] for a discussion of the risks relating to the proposed merger and owning First Bancshares common stock after the merger.**

If you have any questions concerning the merger, please contact Gulf Coast’s Walter J. Ritchie, Jr. at 850-434-9300.

/s/ M. Ray (Hoppy) Cole, Jr.
President and Chief Executive
Officer

The First Bancshares, Inc.

/s/ Walter J. Ritchie, Jr.

Chairman of the Board and Chief Executive Officer of Gulf Coast Community
Bank

Neither the Securities and Exchange Commission nor any state securities commission or bank regulatory agency has approved or disapproved of First Bancshares common stock to be issued under this document or passed upon the adequacy or accuracy of this document. Any representation to the contrary is a criminal offense.

The shares of First Bancshares common stock to be issued in the merger are not savings or deposit accounts and are not insured by the Federal Deposit Insurance Corporation or any other governmental agency.

This proxy statement/prospectus is dated [], 2016, and it is first being mailed to Gulf Coast shareholders, along with the enclosed proxy card, on or about [], 2016.

NOTICE OF SPECIAL MEETING OF SHAREHOLDERS

GULF COAST COMMUNITY BANK

40 N. PALAFOX ST.,

PENSACOLA, FL 32502

To be held on [], 2016

On [], 2016, Gulf Coast Community Bank (“Gulf Coast”) will hold a **Special Meeting of Shareholders** at the [] located at [] at [], local time, to consider and vote upon the following matters:

a proposal to approve the Agreement and Plan of Merger, dated as of October 12, 2016, by and among The First Bancshares, Inc. (“First Bancshares”), The First, A National Banking Association (“The First”) and Gulf Coast, as it may be amended from time to time (referred to as the “merger agreement”);

a proposal to approve the adjournment of the special meeting, if necessary or appropriate, in the event that there are not sufficient votes at the time of the special meeting to approve the foregoing proposal; and

any other business properly brought before the special meeting or any adjournment or postponement thereof.

The attached proxy statement/prospectus describes the terms and conditions of the merger agreement and includes the complete text of the merger agreement as Annex A. We urge you to read the enclosed materials carefully for a complete description of the merger agreement and the merger. The accompanying proxy statement/prospectus forms a part of this notice.

The Gulf Coast board of directors has fixed the close of business on [], 2016, as the record date for the special meeting. Only Gulf Coast shareholders of record at that time are entitled to notice of, and, if a holder of Gulf Coast common stock, to vote at, the special meeting, or any adjournment or postponement of the special meeting. Approval of the merger proposal requires the affirmative vote of the holders of two-thirds of the outstanding shares of Gulf Coast common stock and each of the other proposals requires the affirmative vote of a majority of the votes cast, in all cases assuming that a quorum is present.

Federal law provides that shareholders may dissent from the merger. Shareholders who wish to assert their dissenters’ rights and comply with the procedural requirements set forth in the governing statute will be entitled to receive payment of the value of their shares in accordance with applicable law. A copy of the relevant law governing dissenters’ rights is attached as Annex D hereto. For more information, see “THE MERGER—Gulf Coast Shareholders Have

Appraisal Rights in the Merger.”

Whether or not you plan to attend the special meeting, please submit your proxy with voting instructions. Please vote as soon as possible by submitting your proxy card by mail or in person. To submit your proxy by mail, please complete, sign, date and return the accompanying proxy card in the enclosed self-addressed, stamped envelope. This will not prevent you from voting in person, but it will help to secure a quorum. Any holder of record of Gulf Coast common stock who is present at the special meeting may vote in person instead of by proxy, thereby cancelling any previous proxy. In any event, a proxy may be revoked in writing at any time before the special meeting in the manner described in the accompanying document.

The Gulf Coast board of directors has unanimously adopted and approved the merger agreement and recommends that Gulf Coast shareholders vote “FOR” the approval of the merger agreement and “FOR” the adjournment of the Gulf Coast special meeting, if necessary or appropriate, to permit further solicitation of proxies.

By Order of the Board of Directors

/s/ Walter J. Ritchie, Jr.

Walter J. Ritchie, Jr.

Chairman of the Board and Chief Executive Officer

YOUR VOTE IS VERY IMPORTANT. WHETHER OR NOT YOU EXPECT TO ATTEND THE SPECIAL MEETING IN PERSON, PLEASE VOTE YOUR SHARES PROMPTLY.

QUESTIONS AND ANSWERS

The following are answers to certain questions that you may have regarding the Gulf Coast special meeting and the merger. We urge you to read carefully the remainder of this document (including the Risk Factors beginning on page []) because the information in this section may not provide all the information that might be important to you in determining how to vote. Additional important information is also contained in the annexes to this document.

Q: What are holders of Gulf Coast common stock being asked to vote on?

A: Holders of Gulf Coast common stock are being asked to vote (1) to adopt and approve an Agreement and Plan of Merger by and among First Bancshares, The First and Gulf Coast, attached hereto as Annex A and (2) to approve the adjournment of the special meeting, if necessary or appropriate, to solicit additional proxies in favor of the adoption and approval of the merger agreement. Throughout the remainder of this proxy statement/prospectus, the agreement and plan of merger is referred to as the “merger agreement.” In the merger, Gulf Coast will be merged with and into The First, and The First will be the surviving banking association. References to the “merger” refer to the merger of Gulf Coast with and into The First, unless the context clearly indicates otherwise.

Q: What do holders of Gulf Coast common stock need to do now?

A: After you have carefully read this document and have decided how you wish to vote your shares, indicate on your proxy card how you want your shares to be voted with respect to (1) the adoption and approval of the merger agreement and (2) approval of the adjournment of the Gulf Coast special meeting, if necessary or appropriate, to solicit additional proxies. When complete, sign, date and mail your proxy card in the enclosed postage-paid return envelope as soon as possible. Submitting your proxy by mail or directing your bank or broker to vote your shares will ensure that your shares are represented and voted at the Gulf Coast special meeting. Your proxy card must be received prior to the special meeting on [], 2016, in order to be counted. If you would like to attend the Gulf Coast special meeting, see “Can I attend the Gulf Coast special meeting and vote my shares in person?” below.

Q: Why is my vote as a holder of Gulf Coast common stock important?

A: If you do not vote by proxy or vote in person at the Gulf Coast special meeting, it will be more difficult for Gulf Coast to obtain the necessary quorum to hold its special meeting. In addition, approval of the merger agreement requires the affirmative vote of the holders of two-thirds of the outstanding shares of Gulf Coast common stock, assuming that a quorum is present. **The Gulf Coast board of directors recommends that you vote to adopt and approve the merger agreement.**

Q: If my shares are held in street name by my broker, will my broker automatically vote my shares for me?

A: No. Your broker cannot vote your shares without instructions from you. You should instruct your broker as to how to vote your shares, following the directions your broker provides to you. Please check the voting form used by your broker. Without instructions, your shares will not be voted and will not count toward a quorum.

Q: Can I attend the Gulf Coast special meeting and vote my shares in person?

A: Yes. All holders of Gulf Coast common stock, including shareholders of record and shareholders who hold their shares through banks, brokers, nominees or any other holder of record, are invited to attend the Gulf Coast special meeting. Holders of record of Gulf Coast common stock as of the record date can vote in person at the Gulf Coast special meeting. If you choose to vote in person at the special meeting and if you are a registered shareholder of record, you should bring the enclosed proxy card and proof of identity. If you hold your shares in street name, you must obtain and bring a broker representation letter in your name from your bank, broker or other holder of record and proof of identity. Even if you plan to attend the special meeting, Gulf Coast encourages you to vote by proxy through the mail so your vote will be counted if you later decide not to attend the special meeting.

Q: What constitutes a quorum for the Gulf Coast special meeting?

A: The presence at the Gulf Coast special meeting, in person or by proxy, of the holders of a majority of the stock issued and outstanding and entitled to vote thereat will constitute a quorum for the transaction of business. If a quorum is not present, the Gulf Coast special meeting will be postponed until the holders of the number of shares of Gulf Coast common stock required to constitute a quorum attend. If you submit a properly executed proxy card, even if you abstain from voting, your shares of Gulf Coast common stock will be counted for purposes of

determining whether a quorum is present at the Gulf Coast special meeting. If additional votes must be solicited to approve the merger agreement, it is expected that the Gulf Coast special meeting will be adjourned to solicit additional proxies.

Q: Is the merger expected to be taxable to Gulf Coast shareholders?

A: The merger is intended to qualify as a “reorganization” within the meaning of Section 368(a) of the Internal Revenue Code of 1986, as amended, which we refer to as the Code, and holders of Gulf Coast common stock are not expected to recognize any gain or loss for United States federal income tax purposes on the exchange of shares of Gulf Coast common stock for shares of First Bancshares common stock in the merger, except with respect to any cash received instead of fractional shares of First Bancshares common stock.

For further information, see “UNITED STATES FEDERAL INCOME TAX CONSEQUENCES OF THE MERGER.”

The U.S. federal income tax consequences described above may not apply to all holders of Gulf Coast common stock. Your tax consequences will depend on your individual situation. Accordingly, we strongly urge you to consult your tax advisor for a full understanding of the particular tax consequences of the merger to you.

Q: If I am a holder of Gulf Coast common stock, can I change or revoke my vote?

A: Yes. You may revoke any proxy at any time before it is voted in any of the following ways: (1) by personally appearing and choosing to vote at the special meeting, if you are the shareholder of record, or you obtain and bring a broker representation letter in your name from your bank, broker or the holder of record and, in all cases, you bring proof of identity; (2) by written notification to Gulf Coast which is received prior to the exercise of the proxy; or (3) by a subsequent proxy executed by the person executing the prior proxy and presented at the special meeting. Gulf Coast shareholders should send their written revocation letter to Gulf Coast Community Bank, Attention: Corporate Secretary, 40 N. Palafox Street Pensacola, FL 32503.

Any shareholder entitled to vote in person at the Gulf Coast special meeting may vote in person regardless of whether a proxy previously has been given, but the mere presence of a shareholder at the special meeting will not constitute revocation of a previously given proxy.

Q: Should I send in my Gulf Coast stock certificates now?

A: No. You should not send in your Gulf Coast stock certificates at this time. After completion of the merger, First Bancshares will cause instructions to be sent to you for exchanging Gulf Coast stock certificates for shares of First Bancshares common stock and/or cash to be paid in lieu of a fractional share of First Bancshares common stock. The shares of First Bancshares common stock that holders of Gulf Coast common stock will receive in the merger will be issued in book-entry form unless you specifically elect to receive your shares of First Bancshares common stock in certificated form (the instructions that First Bancshares provides you will give you the option to elect to receive certificated shares). Please do not send in your stock certificates with your proxy card.

Q: Whom can I contact if I cannot locate my Gulf Coast stock certificate(s)?

A: If you are unable to locate your original Gulf Coast stock certificate(s), you should contact Jean Nelson, Senior Vice President Investor Relations at 850-434-9300. Generally, merger consideration for lost certificates cannot be delivered except upon the making of an affidavit claiming such certificate to be lost, stolen or destroyed and the posting of a bond in such amount as First Bancshares may determine is reasonably necessary as indemnity against any claim that may be made with respect to such lost certificate.

Q: When do you expect to complete the merger?

A: We currently expect to complete the merger during the fourth quarter of 2016. However, we cannot assure you when or if the merger will occur. We must, among other things, first obtain the approvals of holders of Gulf Coast common stock at its special meeting and the required regulatory approvals described below in “The Merger—Regulatory and Third Party Approvals.”

Q: Whom should I call with questions?

A: Gulf Coast shareholders should contact Walter J. Ritchie, Jr., Gulf Coast’s President and CEO, by telephone at 850-434-9300.

SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

This proxy statement/prospectus and the documents that are made part of this proxy statement/prospectus by reference to other documents filed with the Securities and Exchange Commission, which is sometimes referred to as the SEC, include various forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 about First Bancshares and Gulf Coast that are subject to risks and uncertainties. Congress passed the Private Securities Litigation Reform Act of 1995 in an effort to encourage corporations to provide information about companies' anticipated future financial performance. This act provides a safe harbor for such disclosure, which protects the companies from unwarranted litigation if actual results are different from management expectations. This document reflects management's current views and estimates of future economic circumstances, industry conditions, company performance, and financial results. These forward-looking statements are subject to a number of factors and uncertainties which could cause First Bancshares', Gulf Coast's or the combined company's actual results and experience to differ from the anticipated results and expectations expressed in such forward-looking statements. Forward-looking statements speak only as of the date they are made and neither First Bancshares nor Gulf Coast assumes any duty to update forward-looking statements.

In addition to factors previously disclosed in reports filed with the SEC and those identified elsewhere herein, forward-looking statements include, but are not limited to, statements about (1) the expected benefits of the transaction between The First and Gulf Coast, including future financial and operating results, cost savings, enhanced revenues and the expected market position of the combined company that may be realized from the transaction, and (2) First Bancshares' and Gulf Coast's plans, objectives, expectations and intentions and other statements contained herein that are not historical facts. Other statements identified by words such as "expects," "anticipates," "intends," "plans," "believes," "seeks," "estimates," "targets," "projects" or words of similar meaning generally are intended to identify forward-looking statements. The statements are based upon the current beliefs and expectations of First Bancshares' and Gulf Coast's management and are inherently subject to significant business, economic and competitive risks and uncertainties, many of which are beyond their respective control. In addition, the forward-looking statements are subject to assumptions with respect to future business strategies and decisions that are subject to change. Actual results may differ materially from those indicated or implied in the forward-looking statements.

The following risks, among others, could cause actual results to differ materially from the anticipated results or other expectations expressed in the forward-looking statements:

- the businesses of First Bancshares, The First and Gulf Coast may not be integrated successfully or the integration may be more difficult, time-consuming or costly than expected;

- the expected growth opportunities or costs savings from the transaction may not be fully realized or may take longer to realize than expected;

- revenues following the transaction may be lower than expected as a result of losses of customers or other reasons;

deposit attrition, operating costs, customer loss and business disruption following the transaction, including difficulties in maintaining relationships with employees, may be greater than expected;

- governmental approvals of the transaction may not be obtained on the proposed terms or expected timeframe;
- the terms of the proposed transaction may need to be modified to satisfy such approvals or conditions;
 - Gulf Coast common stock shareholders may fail to approve the transaction;
 - reputational risks and the reaction of the companies' customers to the transaction;
 - diversion of management time on merger related issues;
 - changes in asset quality and credit risk;
 - inflation;
 - customer acceptance of the combined company's products and services;
 - customer borrowing, repayment, investment and deposit practices;

the introduction, withdrawal, success and timing of business initiatives;

the impact, extent, and timing of technological changes;

a weakening of the economies in which the combined company will conduct operations may adversely affect its operating results;

the U.S. legal and regulatory framework, including those associated with the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010, which we refer to as Dodd-Frank, could adversely affect the operating results of the combined company;

the interest rate environment may compress margins and adversely affect net interest income; and

competition from other financial services companies in the combined company's markets could adversely affect operations.

All subsequent written and oral forward-looking statements concerning First Bancshares, The First, Gulf Coast or the proposed merger or other matters and attributable to First Bancshares, The First, Gulf Coast or any person acting on either of their behalf are expressly qualified in their entirety by the cautionary statements above. First Bancshares and Gulf Coast do not undertake any obligation to update any forward-looking statement, whether written or oral, to reflect circumstances or events that occur after the date the forward-looking statements are made.

SUMMARY

This summary highlights the material information from this document. It may not contain all of the information that is important to you. We urge you to carefully read the entire document in order to fully understand the merger and the related transactions, including the risk factors set forth on page []. See “Where You Can Find More Information” on page []. We have included page references parenthetically to direct you to a more complete description of the topics presented in this summary.

In the Merger, Holders of Gulf Coast Common Stock Will Have a Right to Receive Shares of First Bancshares Common Stock Subject to Certain Conditions (see page [])

First Bancshares and Gulf Coast are proposing the merger of Gulf Coast with The First. If the merger is completed, Gulf Coast will merge with and into The First, with The First being the surviving banking association, and Gulf Coast common stock will no longer be outstanding. Under the terms of the merger agreement, holders of Gulf Coast common stock will receive in exchange for each outstanding share of Gulf Coast common stock that is issued and outstanding (other than shares held by First Bancshares or Gulf Coast, or, shares with respect to which the holders thereof have perfected dissenters’ rights) their pro rata portion of the number of whole shares of First Bancshares common stock obtained by (i) dividing \$0.50 by (ii) the average of the closing prices of First Bancshares common stock as reported on the Nasdaq Stock Market on each of the thirty (30) trading days ending five (5) business days prior to the closing of the transaction and (iii) multiplied by the total number of shares of Gulf Coast common stock issued and outstanding. The total consideration to be paid in connection with the merger will be \$2,257,718.50, as more specifically described in this document.

First Bancshares will not issue any fractional shares of First Bancshares common stock in the merger. Instead, a holder of Gulf Coast common stock who otherwise would have received a fraction of a share of First Bancshares common stock will receive an amount in cash. This cash amount will be determined by multiplying the fraction of a share of First Bancshares common stock to which the holder would otherwise be entitled by the average closing price of one share of First Bancshares common stock as reported on the NASDAQ for the 30 trading days prior to the 5th business day prior to the date on which the merger is completed, and then rounded to the nearest cent.

The merger agreement between First Bancshares and Gulf Coast governs the merger. The merger agreement is included in this document as Annex A. Please read the merger agreement carefully. All descriptions in this summary and elsewhere in this document of the terms and conditions of the merger are qualified by reference to the merger agreement.

The Merger Is Intended to Be Tax-Free to Holders of Gulf Coast Common Stock as to the Shares of First Bancshares Common Stock They Receive (see page [])

The merger is intended to qualify as a “reorganization” within the meaning of Section 368(a) of the Code. Accordingly, the merger generally will be tax-free to a holder of Gulf Coast common stock for U.S. federal income tax purposes as to the shares of First Bancshares common stock he or she receives in the merger, except for any gain or loss that may result from the receipt of cash instead of fractional shares of First Bancshares common stock that such holder of Gulf Coast common stock would otherwise be entitled to receive.

For further information, see “UNITED STATES FEDERAL INCOME TAX CONSEQUENCES OF THE MERGER” beginning on page [].

The U.S. federal income tax consequences described above may not apply to all holders of Gulf Coast common stock. Your tax consequences will depend on your individual situation. Accordingly, we strongly urge you to consult your tax advisor for a full understanding of the particular tax consequences of the merger to you.

Accounting Treatment of Merger (see page [])

The merger will be accounted for as an “acquisition,” as that term is used under accounting principles generally accepted in the United States of America, for accounting and financial reporting purposes.

Comparative Market Prices and Share Information (see pages [] and [])

First Bancshares common stock is listed on the NASDAQ under the symbol “FBMS.” The following table shows the closing sale prices of First Bancshares common stock as reported on the NASDAQ on October 13, 2016, the last trading day before we announced the merger, and on [], 2016, the last practicable trading day before the distribution of this document.

**First Bancshares
Common Stock**

October 13, 2016 \$17.82

[], 2016 \$[]

The market price of First Bancshares common stock will fluctuate prior to the merger. Gulf Coast shareholders are urged to obtain current market quotations for the shares prior to making any decision with respect to the merger.

Monroe Financial Partners, Inc. Has Provided an Opinion to the Gulf Coast Board of Directors Regarding the Merger Consideration (see page [] and Annex B)

On September 7, 2016, Monroe Financial Partners, Inc., sometimes referred to as Monroe, rendered its oral opinion to the board of directors of Gulf Coast, subsequently confirmed in writing, that, as of such date and based upon and subject to the factors and assumptions described to the Gulf Coast board of directors during its presentation and set forth in its written opinion, the consideration to be paid to the holders of Gulf Coast common stock in the proposed merger was fair, from a financial point of view, to holders of Gulf Coast common stock. The full text of Monroe's written opinion, which sets forth the assumptions made, matters considered and limits on the review undertaken in connection with the opinion, is attached as Annex B to this proxy statement/prospectus. Gulf Coast shareholders are urged to read the opinion in its entirety. Pursuant to an engagement letter between Gulf Coast and Monroe, Gulf Coast has agreed to pay Monroe a customary transaction fee in connection with the merger, which is payable upon completion of the merger. Monroe's written opinion is addressed to the board of directors of Gulf Coast, is directed only to the consideration to be paid in the merger and does not constitute a recommendation as to how any holder of Gulf Coast common stock should vote with respect to the merger or any other matter. Monroe has consented to the use of its opinion letter dated October 12, 2016, and the references to such letter in this proxy statement/prospectus.

Performance Trust Capital Partners Has Provided an Opinion to First Bancshares' Board of Directors Regarding the Merger Consideration (see page [])

In deciding to approve the merger, First Bancshares board of directors considered the opinion of its financial advisor, Performance Trust Capital Partners, sometimes referred to as Performance Trust, provided to First Bancshares' board of directors on August 18, 2016, (subsequently confirmed in writing) that as of the date of the opinion, and based upon and subject to the various assumptions, considerations, qualifications and limitations set forth in its written opinion, the merger consideration payable to holders of Gulf Coast common stock pursuant to the merger agreement was fair from a financial point of view to First Bancshares. The opinion of Performance Trust will not reflect any

developments that may occur or may have occurred after the date of its opinion and prior to the completion of the merger. Pursuant to an engagement letter between First Bancshares and Performance Trust, First Bancshares has agreed to pay Performance Trust fees in connection with the merger, which is contingent upon completion of the merger, and a fee for rendering its fairness opinion, which was due upon issuing its fairness opinion. Performance Trust addressed its opinion to First Bancshares' board of directors, and the opinion is not a recommendation as to any action that a shareholder should take relating to the merger.

The Gulf Coast Board of Directors Recommends that Holders of Gulf Coast Common Stock Vote “FOR” the Adoption and Approval of the Merger Agreement (see page [])

The Gulf Coast board of directors believes that the merger is in the best interests of Gulf Coast and its shareholders and has unanimously approved the merger and the merger agreement. The Gulf Coast board of directors unanimously recommends that holders of Gulf Coast common stock vote “FOR” the adoption and approval of the merger agreement. In reaching its decision, the Gulf Coast board of directors considered a number of factors, which are described in more detail in “THE MERGER—Gulf Coast’s Reasons for the Merger; Recommendation of the Gulf Coast Board of Directors.” The Gulf Coast board of directors did not assign relative weights to the factors described in that section or the other factors considered by it. In addition, the Gulf Coast board of directors did not reach any specific conclusion on each factor considered, but conducted an overall analysis of these factors. Individual members of the Gulf Coast board of directors may have given weights to different factors.

Gulf Coast’s Directors and Executive Officers May Receive Additional Benefits from the Merger (see page [])

When considering the information contained in this proxy statement/prospectus, including the recommendation of Gulf Coast’s board of directors to vote to adopt and approve the merger agreement, holders of Gulf Coast

common stock should be aware that Gulf Coast's executive officers and members of Gulf Coast's board of directors may have interests in the merger that are different from, or in addition to, those of Gulf Coast shareholders generally. Gulf Coast's board of directors was aware of and considered these interests, among other matters, in evaluating and negotiating the merger agreement and the merger (to the extent these interests were in existence at the time of the evaluation and negotiation of the merger agreement and the merger), and in recommending that the merger agreement be adopted and approved by holders of Gulf Coast common stock. For information concerning these interests, please see the discussion under the caption "THE MERGER—Interests of Gulf Coast's Directors and Executive Officers in the Merger."

Holders of Gulf Coast Common Stock Have Appraisal Rights (see page [])

A Gulf Coast stockholder who wishes to exercise dissenters' rights of appraisal with respect to the merger must (i) either give written notice to Gulf Coast prior to the special meeting that he or she dissents from the plan of merger or vote against the merger at the special meeting, and (ii) deliver to The First a written request for an appraisal of his or her shares, along with any certificates representing such shares, within thirty (30) days after the consummation of the merger. Failure to adhere strictly to the requirements and procedures of the applicable dissenters' rights provisions may result in the loss, termination or waiver of your right to dissent. The value of your shares determined for this purpose may be more or less than the per-share consideration to be paid in the merger. Pursuant to the merger agreement, First Bancshares's board of directors may terminate the merger agreement and abandon the merger if dissenters' rights of appraisal are properly asserted with respect to more than 10% of the outstanding shares of Gulf Coast common stock.

If you sign and send in your proxy card and do not indicate how you want to vote on the merger proposal, your proxy will be voted FOR the proposal to approve the merger agreement, and you will effectively waive your appraisal rights. Therefore, a Gulf Coast stockholder who submits a proxy and who also wishes to exercise appraisal rights must either (i) submit a proxy containing instructions to vote against the adoption of the merger agreement or (ii) abstain from voting on the adoption of the merger agreement and submit a written notice to Gulf Coast prior to the special meeting of his or her intent to dissent from the merger.

Appendix D includes the relevant statutory provisions regarding these rights. See "THE MERGER - Dissenters' Rights of Appraisal" for additional information on how to assert dissenters' rights. In view of the complexity of the procedures specified under applicable law, stockholders who wish to pursue dissenters' appraisal rights should promptly consult their legal, financial and tax advisors.

If you hold your shares of Gulf Coast common stock through a bank, brokerage firm, trust or other nominee and you wish to exercise dissenters' appraisal rights, you should consult with your bank, brokerage firm, trust or other nominee to determine the appropriate procedures for the making of a demand for appraisal through your nominee.

Conditions Exist That Must Be Satisfied or Waived for the Merger to Occur (see page [])

Currently, First Bancshares and Gulf Coast expect to complete the merger during the fourth quarter of 2016. As more fully described in this document and in the merger agreement, the completion of the merger depends on a number of conditions being satisfied or, where legally permissible, waived. These conditions include, among others, receipt of the requisite approvals of holders of Gulf Coast common stock, the receipt of all required regulatory approvals (including approval, or waiver therefrom, by the Board of Governors of the Federal Reserve System (the "Federal Reserve") and the Office of the Comptroller of the Currency (the "OCC").

First Bancshares and Gulf Coast cannot be certain when, or if, the conditions to the merger will be satisfied or waived, or that the merger will be completed.

Gulf Coast or First Bancshares May Terminate the Merger Agreement Under Certain Circumstances (see page [])

Gulf Coast and First Bancshares may mutually agree to terminate the merger agreement before completing the merger, even after Gulf Coast shareholder approval, as long as the termination is approved by each of the Gulf Coast and First Bancshares boards of directors.

The merger agreement may also be terminated by either party in the following circumstances:

if the merger has not been completed on or before April 30, 2017, unless the required regulatory approvals are pending and have not been finally resolved, in which event such date shall be automatically extended 60 days, unless the failure to complete the merger by that date is due to the breach of the merger agreement by the party seeking to terminate;

if there has been a final, non-appealable denial of required regulatory approvals or an injunction prohibiting the transactions contemplated by the merger agreement;

if the requisite shareholder vote in connection with the merger agreement is not obtained at the Gulf Coast shareholder meeting (or any adjournment or postponement thereof), unless the failure to obtain the requisite shareholder vote shall be due to the failure of the applicable party to perform or observe its agreements set forth in the merger agreement;

if there is a breach of the merger agreement that would result in the failure of any of the closing conditions or a material breach of a representation, warranty, covenant or other agreement and such failure or breach cannot or has not been cured within 30 days after the breaching party receives written notice of such breach;

by First Bancshares board of directors, if prior to receipt of the Gulf Coast's shareholder approval, the Gulf Coast board of directors (1) withdraws, changes or fails to make, the recommendation that its shareholders approve the merger agreement or (2) adopts, approves, recommends, endorses or otherwise declares advisable certain business combination proposals; or

by First Bancshares board of directors, if the Gulf Coast shareholders exercising dissenter's rights represent more than 10% in the aggregate of the Gulf Coast common stock immediately prior to the record date for the Gulf Coast shareholders' meeting.

Expenses and Termination Fees (see page [])

In general, each of Gulf Coast and First Bancshares will be responsible for all expenses incurred by it in connection with the negotiation and completion of the transactions contemplated by the merger agreement, subject to specific exceptions discussed in this document. Upon termination of the merger agreement under specified circumstances, Gulf Coast may be required to pay First Bancshares a termination fee of \$500,000. See "THE MERGER AGREEMENT—Termination Fee" for a complete discussion of the circumstances under which the termination fee will be required to be paid.

Regulatory Approvals Required for the Merger (see page [])

Gulf Coast and First Bancshares have agreed to use their reasonable best efforts to obtain all regulatory approvals required to complete the transactions contemplated by the merger agreement. The required regulatory approvals include approval, or waiver therefrom, from the Federal Reserve, the OCC, the United States Department of Justice, state securities authorities, and various other federal and state regulatory authorities and self-regulatory organizations. Gulf Coast and First Bancshares have filed all applications and notifications believed to be necessary to obtain the required regulatory approvals.

Although we do not know of any reason why we cannot obtain the required regulatory approvals in a timely manner, we cannot be certain when or if we will obtain them.

The Rights of Holders of Gulf Coast Common Stock Will Change as a Result of the Merger (see page [])

The rights of holders of Gulf Coast common stock are governed by Florida law, as well as Gulf Coast's Articles of Incorporation, as amended (which we refer to as the Gulf Coast Articles), and Gulf Coast's Bylaws (or, the Gulf Coast Bylaws). After completion of the merger, the rights of former Gulf Coast shareholders will be governed by Mississippi law and by First Bancshares' Amended and Restated Articles of Incorporation (which we refer to as the First Bancshares Articles), and First Bancshares' Amended and Restated Bylaws (or, the First Bancshares Bylaws).

Gulf Coast Will Hold its Special Meeting on [] (see page [])

The Gulf Coast special meeting will be held on [], 2016, at the [], located at [] at [] p.m., local time. At the special meeting, holders of Gulf Coast common stock will be asked to:

adopt and approve the merger agreement;

· approve the adjournment of the special meeting, if necessary or appropriate, in the event that there are not sufficient votes at the time of the special meeting to approve the foregoing proposal; and

· vote on any other business properly brought before the special meeting or any adjournment or postponement thereof.

Record Date. Only holders of record of Gulf Coast common stock at the close of business on [], 2016, will be entitled to vote at the special meeting. Each share of Gulf Coast common stock is entitled to one vote. As of the record date of [], there were 4,515,437 shares of Gulf Coast common stock entitled to vote at the special meeting.

Required Vote. Approval of the merger agreement requires the affirmative vote of the holders of two-thirds of the outstanding shares of Gulf Coast common stock, and the other proposals require the affirmative vote of a majority of the votes cast, in all cases assuming that a quorum is present.

All of the directors of Gulf Coast have entered into agreements with First Bancshares pursuant to which they have agreed, in their capacity as holders of Gulf Coast common stock, to vote all of their shares in favor of the adoption and approval of the merger agreement, subject to certain exceptions. As of the record date, these directors of Gulf Coast and their affiliates had the right to vote approximately 1,648,503 shares of Gulf Coast common stock, or approximately 36.5% of the outstanding Gulf Coast shares entitled to be voted at the special meeting. We expect these individuals to vote their Gulf Coast common stock in favor of the approval of the merger agreement in accordance with those agreements. If these directors each vote their shares in favor of the approval of the merger agreement, only approximately 1,361,788 additional shares will be needed to vote in favor of the merger agreement.

Information about the Companies (see page [])

Gulf Coast Community Bank

Gulf Coast is a Florida-chartered bank established in 2003. Its main office is located at 40 N. Palafox St., Pensacola, FL 32502 (Telephone Number: (850) 434-9300). As of September 30, 2016, Gulf Coast had total assets of approximately \$135.4 million, deposits of approximately \$116.6 million and total stockholders' equity of approximately \$5.79 million. Gulf Coast operates five banking offices in Escambia and Santa Rosa Counties, Florida. Gulf Coast's deposits are insured by the FDIC.

The First Bancshares, Inc.

First Bancshares is a Mississippi corporation incorporated in 1995 that is the owner of, The First, A National Banking Association, incorporated in 1996. As of September 30, 2016, First Bancshares had total assets of approximately \$1.3 billion, deposits of approximately \$1.1 billion and total shareholders' equity of approximately \$112.7 million. First Bancshares operates 28 full service branches, one motor branch and four loan production offices throughout central and south Mississippi, Louisiana and south Alabama. The First's deposits are insured by the FDIC.

The principal executive offices of First Bancshares are located at 6480 U.S. Hwy. 98 West, Hattiesburg, Mississippi 39402, and its telephone number is (601) 268-8998. See "WHERE YOU CAN FIND MORE INFORMATION."

Pending Acquisition with Iberville Bank

On October 12, 2016, we executed a Stock Purchase Agreement (the "Iberville Acquisition Agreement") with A. Wilbert's Sons Lumber and Shingle Co. ("Iberville Parent") pursuant to which, if consummated in accordance with its terms, the Company would acquire 100% of the common stock of Iberville Bank, Plaquemine, Louisiana, and immediately thereafter would merge Iberville Bank with and into The First. Under the terms of the Iberville Acquisition Agreement, the Company has agreed to pay Iberville Parent a total of \$31.1 million in cash. Approximately 8% of the purchase price payable to Iberville Parent would be held in escrow as contingency for flood-related losses in the loan portfolio that may be incurred due to recent flooding in Iberville Bank's market area.

At June 30, 2016, Iberville Bank had \$258.5 million in total assets, \$140.8 million loans net of allowance for loan losses, \$230.6 million in deposits and \$26.2 million in stockholders' equity.

SELECTED CONSOLIDATED HISTORICAL FINANCIAL DATA OF FIRST BANCSHARES

First Bancshares is providing the following information to help you analyze the financial aspects of the merger. First Bancshares derived this information from its audited financial statements for the years 2011 through 2015, and from its unaudited financial statements for the nine months ended September 30, 2016 and 2015. This information is only a summary, and you should read it in conjunction with the historical financial information for First Bancshares filed attached hereto as Annex E. You should not assume the results of operations for past periods and for any interim period indicate results for any future period.

There is no established public trading market in which shares of Gulf Coast common stock are regularly traded, nor are there any uniformly quoted prices for shares of Gulf Coast common stock. The last sale of Gulf Coast common stock prior to the execution of the merger agreement known to Gulf Coast management occurred on September 30, 2014, at \$1.00 per share. Gulf Coast has not paid any cash dividends on its shares of common stock.

RISK FACTORS

In addition to the other information included in this proxy statement/prospectus, including the matters addressed under the heading “SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS” of this proxy statement/prospectus, holders of Gulf Coast common stock should consider the matters described below in determining whether to adopt and approve the merger agreement. If any of the following risks or other risks, which have not been identified or which First Bancshares and Gulf Coast may believe are immaterial or unlikely, actually occur, the business, financial condition and results of operations of the combined company could be harmed. Many factors, including those described below, could cause actual results to differ materially from those discussed in forward-looking statements. For purposes of this section entitled Risk Factors, the terms “we”, “us”, “our”, “the Company” and similar words refer to First Bancshares unless the context clearly demonstrates otherwise.

Risks Related To The Merger

Holders of Gulf Coast common stock will have a reduced ownership and voting interest after the merger and will exercise less influence over management.

Holders of Gulf Coast common stock currently have the right to vote in the election of the Gulf Coast board of directors and on other matters affecting Gulf Coast. When the merger occurs, each holder of Gulf Coast common stock that receives shares of First Bancshares common stock will become a shareholder of First Bancshares with a percentage ownership of the combined organization that is smaller than such shareholder’s current percentage ownership of Gulf Coast. Because of this, holders of Gulf Coast common stock will have less influence on the management and policies of First Bancshares than they now have on the management and policies of Gulf Coast.

The market price of First Bancshares common stock after the merger may be affected by factors different from those affecting the shares of Gulf Coast or First Bancshares currently.

Upon the effective time of the merger, holders of Gulf Coast common stock will become holders of First Bancshares common stock. First Bancshares’ business differs from that of Gulf Coast, and, accordingly, the results of operations of the combined company and the market price of the combined company’s shares of common stock may be affected by factors different from those currently affecting the independent results of operations of each of First Bancshares and Gulf Coast. For a discussion of the business of Gulf Coast and of certain factors to consider in connection with that business, see “CERTAIN INFORMATION ABOUT GULF COAST.” For a discussion of the business of First

Bancshares and of certain factors to consider in connection with that business, "INFORMATION ABOUT FIRST BANCSHARES."

First Bancshares may not be able to successfully integrate Gulf Coast or realize the anticipated benefits of the merger.

The First's merger with Gulf Coast involves the combination of two banks that previously have operated independently. A successful combination of the operations of the two entities will depend substantially on First Bancshares' and The First's ability to consolidate operations, systems and procedures and to eliminate redundancies and costs. First Bancshares and The First may not be able to combine the operations of Gulf Coast with their operations without encountering difficulties, such as:

- the loss of key employees and customers;
- the disruption of operations and business;
- inability to maintain and increase competitive presence;
- deposit attrition, customer loss and revenue loss;
- possible inconsistencies in standards, control procedures and policies;
- unexpected problems with costs, operations, personnel, technology and credit; and/or

problems with the assimilation of new operations, sites or personnel, which could divert resources from regular banking operations.

Additionally, general market and economic conditions of governmental actions affecting the financial industry generally may inhibit First Bancshares' and The First's successful integration of Gulf Coast.

Further, First Bancshares entered into the merger agreement with the expectation that the merger will result in various benefits including, among other things, benefits relating to enhanced revenues, a strengthened market

position for the combined company throughout First Bancshares' footprint, cross-selling opportunities, technology, cost savings and operating efficiencies. Achieving the anticipated benefits of the merger is subject to a number of uncertainties, including whether First Bancshares and The First integrate Gulf Coast in an efficient and effective manner, and general competitive factors in the marketplace. First Bancshares also believes that its ability to successfully integrate Gulf Coast with The First's operations will depend to a large degree upon its ability to retain Gulf Coast's existing management personnel. Although First Bancshares has entered into retention agreements with certain key employees of Gulf Coast since the merger agreement was signed, there can be no assurances that these key employees will not depart. See "THE MERGER—Interests of Certain Gulf Coast Directors and Executive Officers in the Merger."

First Bancshares' failure to achieve these anticipated benefits could result in increased costs, decreases in the amount of expected revenues and diversion of management's time and energy and could materially impact its business, financial condition and operating results. In addition, the attention and effort devoted to the integration of Gulf Coast with The First's existing operations may divert management's attention from other important issues and could seriously harm its business. Finally, any cost savings that are realized may be offset by losses in revenues or other charges to earnings.

The merger agreement limits Gulf Coast's ability to pursue an alternative acquisition proposal and requires Gulf Coast to pay a termination fee of \$500,000 under limited circumstances relating to alternative acquisition proposals.

The merger agreement prohibits Gulf Coast from soliciting, initiating, encouraging or facilitating certain alternative acquisition proposals with any third party, unless the directors determine in good faith (after consultation with legal and financial advisors) that (1) a proposed acquisition transaction with an entity other than First Bancshares would be required in order for its directors to comply with their fiduciary duties and (2) that such alternative transaction is reasonably likely to be consummated and would result in a transaction more favorable to Gulf Coast's shareholders from a financial point of view than the merger with First Bancshares. See "THE MERGER Agreement—No Solicitation." The merger agreement also provides for the payment by Gulf Coast to First Bancshares of a termination fee in the amount of \$500,000 in the event that Gulf Coast terminates the merger agreement for certain reasons. These provisions might discourage a potential competing acquiror that might have an interest in acquiring all or a significant part of Gulf Coast from considering or proposing such an acquisition. See "THE MERGER AGREEMENT—Termination Fee."

Gulf Coast has not obtained an updated fairness opinion from Monroe Financial Partners reflecting changes in circumstances that may have occurred since the signing of the merger agreement.

Gulf Coast has not obtained an updated opinion as of the date of this document from Monroe Financial Partners, which is Gulf Coast's financial advisor, regarding the fairness, from a financial point of view, of the consideration to be paid in connection with the merger. Changes in the operations and prospects of First Bancshares or Gulf Coast,

general market and economic conditions and other factors which may be beyond the control of First Bancshares and Gulf Coast, and on which the fairness opinion was based, may have altered the value of First Bancshares or Gulf Coast or the prices of shares of First Bancshares common stock and shares of Gulf Coast common stock as of the date of this document, or may alter such values and prices by the time the merger is completed. The opinion does not speak as of any date other than the date of that opinion. For a description of the opinion Gulf Coast received from its financial advisor, please refer to “THE MERGER—Opinion of Gulf Coast’s Financial Advisor.” For a description of the other factors considered by Gulf Coast’s board of directors in determining to approve the merger, please refer to “THE MERGER—Gulf Coast’s Reasons for the Merger; Recommendation of the Gulf Coast Board of Directors.”

The merger is subject to the receipt of consents and approvals from government entities that may impose conditions that could have an adverse effect on the combined company following the merger.

Before the merger may be completed, various approvals or consents must be obtained from the Federal Reserve, the OCC, and various bank, securities, antitrust and other regulatory authorities. These government entities, including the Federal Reserve, may impose conditions on the completion of the merger or require changes to the terms of the merger. Although First Bancshares and Gulf Coast do not currently expect that any material conditions or changes would be imposed, there can be no assurances that they will not be. Such conditions or changes could have the effect of delaying completion of the merger or imposing additional costs on or limiting the revenues of the combined company following the merger, any of which might have an adverse effect on the combined company following the merger.

If the merger is not completed, First Bancshares and Gulf Coast will have incurred substantial expenses without realizing the expected benefits of the merger.

Each of First Bancshares and Gulf Coast has incurred substantial expenses in connection with the negotiation and completion of the transactions contemplated by the merger agreement, as well as the costs and expenses of filing, printing and mailing this proxy statement/prospectus and all filing and other fees paid to the SEC in connection with the merger. If the merger is not completed, First Bancshares and Gulf Coast would have to recognize these expenses without realizing the expected benefits of the merger.

Gulf Coast's directors and certain executive officers have interests in the merger that may differ from the interests of Gulf Coast's shareholders including, if the merger is completed, the receipt of financial and other benefits.

Gulf Coast's directors and certain of Gulf Coast's executive officers have interests in the merger that are in addition to, and may be different from, the interests of Gulf Coast shareholders generally. In the case of directors, they will receive ongoing indemnification for their acts as directors. In the case of certain executive officers, these interests are eighteen (18) month employment agreements to continue their employment under certain circumstances. See "THE MERGER—Interests of Certain Gulf Coast Directors and Executive Officers in the Merger" for a discussion of these interests.

The shares of First Bancshares common stock to be received by Gulf Coast shareholders as a result of the merger will have different rights from the shares of Gulf Coast common stock.

Upon completion of the merger, Gulf Coast shareholders will (unless dissenters' rights are properly exercised) become First Bancshares shareholders and, in such event, their rights as shareholders will be governed by First Bancshares Articles and First Bancshares Bylaws. The rights associated with Gulf Coast common stock are different from the rights associated with First Bancshares common stock. Please see "COMPARISON OF RIGHTS OF SHAREHOLDERS OF GULF COAST AND FIRST BANCSHARES" for a discussion of the different rights associated with First Bancshares common stock.

Risks Related To First Bancshares

We may be vulnerable to certain sectors of the economy.

A significant portion of our loan portfolio is secured by real estate. If the economy deteriorates and real estate values depress beyond a certain point, as happened during the recent recession, the collateral value of the portfolio and the revenue stream from those loans could come under stress and possibly require additional loan loss accruals which would negatively impact our earnings. Our ability to dispose of foreclosed real estate at prices above the respective carrying values could also be adversely affected, causing additional losses.

Our use of appraisals in deciding whether to make a loan on or secured by real property does not ensure the value of the real property collateral.

In considering whether to make a loan secured by real property, we generally require an appraisal of the property. However, an appraisal is only an estimate of the value of the property at the time the appraisal is made. If the appraisal does not reflect the amount that may be obtained upon any sale or foreclosure of the property, we may not realize an amount equal to the indebtedness secured by the property.

Difficult market conditions in past years have adversely affected the industry in which we operate.

The capital and credit markets are subject to volatility and disruption. Dramatic declines in the housing market in years past caused home prices to fall and increased foreclosures, unemployment and under-employment. These events, if they were to happen again, could negatively impact the credit performance of our mortgage loans and result in significant write-downs of asset values, including government-sponsored entities as well as major commercial and investment banks. Still wary about the stability of the financial markets generally and the strength of counterparties, many lenders still have reduced funding to borrowers, including to other financial institutions. Further market turmoil and tightening of credit could lead to an increased level of commercial and consumer delinquencies, lack of consumer confidence and widespread reduction of business activity generally. A worsening of these conditions would have an adverse effect on us and others in the financial institution industry generally, particularly in our real estate markets, as lower home prices and increased foreclosures would result in higher charge-offs and delinquencies.

The Company participates in the U.S. Treasury's Community Development Capital Initiative ("CDCI").

The Company received \$17,123,000 in funding under the CDCI in exchange for preferred stock and common stock warrants on September 29, 2010. Participation in this program constrains the Company's ability to raise dividends and also places certain constraints on executive compensation arrangements. The dividend rate on the preferred stock issued under the CDCI increases from two percent (2%) to nine percent (9%) in 2018, and therefore the Company may have to repay these funds if it would like to avoid this increased payment. The CDCI is part of the Troubled Asset Relief Program ("TARP") and the Company may repay the preferred stock at any time without penalty. The rules that govern the TARP include restrictions on certain compensation to executive officers and a number of others in the Company. Among other things, these rules include a prohibition on golden parachute payments, a prohibition on providing tax gross-ups, a bonus claw-back provision, and a prohibition on paying any bonus payment to the Company's most highly compensated employee. It is possible that compensation restrictions imposed on TARP participants could impede our ability to attract and retain qualified executive officers. Our participation in the TARP limits our annual dividend payments to no more than \$0.15 per share. Our ability to repurchase our common stock would also be restricted in the event that we failed to make our dividend payments.

General economic conditions in the areas where our operations or loans are concentrated may adversely affect our customers' ability to meet their obligations.

A sudden or severe downturn in the economy in the geographic markets we serve in the states of Mississippi, Louisiana, or Alabama may affect the ability of our customers to meet loan payment obligations on a timely basis. The local economic conditions in these areas have a significant impact on our commercial, real estate, and construction loans, the ability of borrowers to repay these loans and the value of the collateral securing such loans. Changes resulting in adverse economic conditions of these market areas could negatively impact the financial results of the Company's banking operations, earnings, and profitability.

Additionally, adverse economic changes may cause customers to withdraw deposit balances, thereby causing a strain on our liquidity.

We are subject to a risk of rapid and significant changes in market interest rates.

Our assets and liabilities are primarily monetary in nature, and as a result we are subject to significant risks tied to changes in interest rates. Our ability to operate profitably is largely dependent upon net interest income. Unexpected movement in interest rates markedly changing the slope of the current yield curve could cause net interest margins to decrease, subsequently decreasing net interest income. In addition, such changes could adversely affect the valuation of our assets and liabilities.

At present the Company's one-year interest rate sensitivity position is slightly asset sensitive, but a gradual increase in interest rates during the next twelve months should not have a significant impact on net interest income during that period. However, as with most financial institutions, the Company's results of operations are affected by changes in interest rates and the Company's ability to manage this risk. The difference between interest rates charged on interest-earning assets and interest rates paid on interest-bearing liabilities may be affected by changes in market interest rates, changes in relationships between interest rate indices, and/or

changes in the relationships between long-term and short-term market interest rates. A change in this difference might result in an increase in interest expense relative to interest income, or a decrease in the Company's interest rate spread.

Greater loan losses than expected may adversely affect our earnings.

The First, as lender, is exposed to the risk that its customers will be unable to repay their loans in accordance with their terms and that any collateral securing the payment of their loans may not be sufficient to assure repayment. Credit losses are inherent in the business of making loans and could have a material adverse effect on operating results. Credit risk with respect to our real estate and construction loan portfolio will relate principally to the creditworthiness of corporations and the value of the real estate serving as security for the repayment of loans. Credit risk with respect to its commercial and consumer loan portfolio will relate principally to the general creditworthiness of businesses and individuals within our local markets.

The First makes various assumptions and judgments about the collectability of its loan portfolio and provides an allowance for estimated loan losses based on a number of factors. The First believes that its current allowance for loan losses is adequate. However, if our assumptions or judgments prove to be incorrect, the allowance for loan

losses may not be sufficient to cover actual loan losses. We may have to increase the allowance in the future in response to the request of the OCC to adjust for changing conditions and assumptions, or as a result of any deterioration in the quality of the loan portfolio. The actual amount of future provisions for loan losses cannot be determined at this time and may vary from the amounts of past provisions.

Certain changes in interest rates, inflation, or the financial markets could affect demand for our products and our ability to deliver products efficiently.

Loan originations and refinancings, and therefore loan revenues, could be adversely impacted by sharply rising interest rates. Conversely, sharply falling rates could increase prepayments within our loan and securities portfolio lowering interest earnings from those assets. An unanticipated increase in inflation could cause operating costs related to salaries and benefits, technology, and supplies to increase at a faster pace than revenues.

The fair market value of the securities portfolio and the investment income from these securities also fluctuates depending on general economic and market conditions. In addition, actual net investment income and/or cash flows from investments that carry prepayment risk, such as mortgage-backed and other asset-backed securities, may differ from those anticipated at the time of investment as a result of interest rate fluctuations.

Changes in the policies of monetary authorities and other government action could adversely affect our profitability.

The results of operations of the Company are affected by credit policies of monetary authorities, particularly the Board of Governors of the Federal Reserve System, which we refer to as the Federal Reserve Board. The instruments of monetary policy employed by the Federal Reserve Board include open market operations in U.S. government securities, changes in the discount rate or the federal funds rate on bank borrowings and changes in reserve requirements against bank deposits. In view of changing conditions in the national economy and in the money markets, particularly in light of the continuing threat of terrorist attacks, Great Britain's vote to leave the European Union, unrest in Eastern Europe and the current military operations in the Middle East, we cannot predict possible future changes in interest rates, deposit levels, loan demand or the Company's business and earnings. Furthermore, the actions of the United States government and other governments in responding to these developing situations may result in currency fluctuations, exchange controls, market disruption and other adverse effects.

Natural disasters could affect our ability to operate.

Our market areas are susceptible to natural disasters such as hurricanes and tornados. Natural disasters can disrupt operations, result in damage to properties that may be securing our loan assets and negatively affect the local economies in which we operate. The Company cannot predict whether or to what extent damage caused by future hurricanes, tornados or other natural disasters will affect operations or the economies in our market areas, but such weather events could cause a decline in loan originations, a decline in the value or destruction of properties securing the loans and an increase in the risk of delinquencies, foreclosures or loan losses.

The Company may need to rely on the financial markets to provide needed capital.

The Company's common stock is listed and traded on the NASDAQ stock market. Although the Company anticipates that its capital resources will be adequate for the foreseeable future to meet its capital requirements, at times we may depend on the liquidity of the NASDAQ stock market to raise equity capital. If the market should fail to operate, or if conditions in the capital markets are adverse, the Company may be constrained in raising capital. Should these risks materialize, the ability to further expand its operations through internal growth may be limited.

We are subject to regulation by various Federal and State entities.

The Company and The First are subject to the regulations of the Securities and Exchange Commission ("SEC"), the Consumer Financial Protection Bureau, the Federal Reserve Board, the Federal Deposit Insurance Corporation, and the OCC. New regulations issued by these agencies may adversely affect the Company's ability to carry on its business activities. The Company is subject to various Federal and state laws and certain changes in these laws and regulations may adversely affect operations.

The Company and The First are also subject to the accounting rules and regulations of the SEC and the Financial Accounting Standards Board. Changes in accounting rules could adversely affect the reported financial statements or results of operations of the Company and may also require extraordinary efforts or additional costs to implement.

Any of these laws or regulations may be modified or changed from time to time, and we cannot be assured that such modifications or changes will not adversely affect the Company.

We may engage in acquisitions of other businesses from time to time, which may not be well-received.

On occasion, the Company may engage in acquisitions of other businesses. Acquisitions may result in customer and employee turnover, thus increasing the cost of operating the new businesses. The acquired companies may also have legal contingencies, beyond those that the Company is aware of, that could result in unexpected costs. Difficulty in integrating an acquired business or company may cause the Company not to realize expected revenue increases, cost savings, increases in geographic or product presence, or other anticipated benefits from any acquisition. The integration could result in higher than expected deposit attrition (run-off), loss of key employees, disruption of the Company's business or the business of the acquired company, or otherwise adversely affect the Company's ability to maintain relationships with customers and employees or achieve the anticipated benefits of the acquisition. The Company may need to make additional investment in equipment and personnel to manage higher asset levels and loan balances as a result of any significant acquisition, which may adversely impact earnings.

We are subject to industry competition which may have an adverse impact upon our success.

The profitability of the Company depends on its ability to compete successfully with other financial services companies. We operate in a highly competitive financial services environment. Certain competitors are larger and may have more resources than we do. We face competition in our regional market areas from other commercial banks, savings and loan associations, credit unions, internet banks, finance companies, mutual funds, insurance companies, brokerage and investment banking firms, and other financial intermediaries that offer similar services. Some of the nonbank competitors are not subject to the same extensive regulations that govern the Company or The First and may have greater flexibility in competing for business.

Another competitive factor is that the financial services market, including banking services, is undergoing rapid changes with frequent introductions of new technology-driven products and services. Our future success may depend, in part, on our ability to use technology competitively to provide products and services that provide convenience to customers and create additional efficiencies in operations.

Future issuances of additional securities could result in dilution of shareholders' ownership.

The Company may determine from time to time to issue additional securities to raise additional capital, support growth, or to make acquisitions. Further, the Company may issue stock options or other stock grants to retain and

motivate our employees. Such issuances of Company securities could dilute the ownership interests of the Company's shareholders.

Anti-takeover laws and certain agreements and charter provisions may adversely affect share value.

Certain provisions of state and federal law and the Company's articles of incorporation may make it more difficult for someone to acquire control of the Company. Under federal law, subject to certain exemptions, a person, entity, or group must notify the federal banking agencies before acquiring 10% or more of the outstanding voting stock of a bank holding company, including the Company's shares. Banking agencies review the acquisition to determine if it will result in a change of control. The banking agencies have 60 days to act on the notice, and take into account several factors, including the resources of the acquiror and the antitrust effects of the acquisition. There also are Mississippi statutory provisions and provisions in the Company's articles of incorporation that may be used to delay or block a takeover attempt. As a result, these statutory provisions and provisions in the Company's articles of incorporation could result in the Company being less attractive to a potential acquiror.

Securities issued by the Company, including the Company's common stock, are not FDIC insured.

Securities issued by the Company, including the Company's common stock, are not savings or deposit accounts or other obligations of any bank and are not insured by the FDIC, the Deposit Insurance Fund, or any other governmental agency or instrumentality, or any private insurer, and are subject to investment risk, including the possible loss of principal.

The failure of other financial institutions could adversely affect the Company.

The Company's ability to engage in routine funding transactions could be adversely affected by the actions and potential failures of other financial institutions. Financial institutions are interrelated as a result of trading, clearing, counterparty and other relationships. As a result, defaults by, or even rumors or concerns about, one or more

financial institutions or the financial services industry generally have led to market-wide liquidity problems and could lead to losses or defaults by the Company or by other institutions.

Concern by customers over deposit insurance may cause a decrease in deposits and changes in the mix of funding sources available to the Company.

With increased concerns about bank failures, customers increasingly are concerned about the extent to which their deposits are insured by the FDIC. Customers may withdraw deposits in an effort to ensure that the amount they have on deposit with their bank is fully insured and some may seek deposit products or other bank savings and investment products that are collateralized. Decreases in deposits and changes in the mix of funding sources may adversely affect the Company's funding costs and net income.

Evaluation of investment securities for other-than-temporary impairment involves subjective determinations and could materially impact the Company's results of operations and financial condition.

The evaluation of impairments is a quantitative and qualitative process, which is subject to risks and uncertainties, and is intended to determine whether declines in the fair value of investments should be recognized in current period earnings. The risks and uncertainties include changes in general economic conditions, the issuers' financial condition or future recovery prospects, the effects of changes in interest rates or credit spreads and the expected recovery period. Estimating future cash flows involves incorporating information received from third-party sources and making internal assumptions and judgments regarding the future performance of the underlying collateral and assessing the probability that an adverse change in future cash flows has occurred. The determination of the amount of other-than-temporary impairments is based upon the Company's quarterly evaluation and assessment of known and inherent risks associated with the respective asset class. Such evaluations and assessments are revised as conditions change and new information becomes available.

Additionally, the Company's management considers a wide range of factors about the security issuer and uses its reasonable judgment in evaluating the cause of the decline in the estimated fair value of the security and in assessing the prospects for recovery. Inherent in management's evaluation of the security are assumptions and estimates about the operations of the issuer and its future earnings potential. Impairments to the carrying value of our investment securities may need to be taken in the future, which would have a material adverse effect on our results of operations and financial condition.

The Company may be required to pay additional insurance premiums to the FDIC, which could negatively impact earnings.

Pursuant to the Dodd-Frank Act, the limit on FDIC coverage has been permanently increased to \$250,000, causing the premiums assessed to the Bank by the FDIC to increase. Depending upon any future losses that the Deposit Insurance Fund may suffer, there can be no assurance that there will not be additional premium increases in order to replenish the fund. The FDIC may need to set a higher base rate schedule or impose special assessments due to future financial institution failures and updated failure and loss projections. Potentially higher FDIC assessment rates than those currently projected could have an adverse impact on the Company's results of operations.

Risks Related to Our Common Stock

Our common stock is not insured by the FDIC.

Shares of our common stock are not bank deposits and, therefore, are not insured against loss by the FDIC, any other deposit insurance fund or by any other public or private entity. Investment in our common stock is inherently risky for the reasons described in this section and elsewhere in this prospectus and is subject to the same market forces that affect the price of securities in any company. As a result, if you acquire our common stock, you may lose some or all of your investment.

The price of our common stock is volatile and may decline.

The trading price of our common stock may fluctuate widely as a result of a number of factors, many of which are outside our control. In addition, the stock market is subject to fluctuations in the share prices and trading volumes that affect the market prices of the shares of many companies. These broad market fluctuations have adversely affected and may continue to adversely affect the market price of our common stock. Among the factors that could affect our stock price are:

- actual or anticipated quarterly fluctuations in our operating results and financial condition;

• changes in revenue or earnings estimates or publication of research reports and recommendations by financial analysts or actions taken by rating agencies with respect to our securities or those of other financial institutions;

- failure to meet analysts' revenue or earnings estimates;
- speculation in the press or investment community;
- strategic actions by us or our competitors, such as acquisitions or restructurings;
 - actions by institutional shareholders;
- fluctuations in the stock price and operating results of our competitors;

• general market conditions and, in particular, developments related to market conditions for the financial services industry;

- proposed or adopted regulatory changes or developments;
- anticipated or pending investigations, proceedings or litigation that involve or affect us; or
- domestic and international economic factors unrelated to our performance.

A significant decline in our stock price could result in substantial losses for individual shareholders and could lead to costly and disruptive securities litigation.

Sales of a significant number of shares of our common stock in the public markets, or the perception of such sales, could depress the market price of our common stock.

Sales of a substantial number of shares of our common stock in the public markets and the availability of those shares for sale could adversely affect the market price of our common stock. In addition, future issuances of equity securities, including pursuant to outstanding options, could dilute the interests of our existing stockholders, including you, and could cause the market price of our common stock to decline. We may issue such additional equity or convertible securities to raise additional capital. The issuance of any additional shares of common or preferred stock could be substantially dilutive to shareholders of our common stock. Moreover, to the extent that we issue restricted stock units, phantom shares, stock appreciation rights, options or warrants to purchase our common stock in the future and

those stock appreciation rights, options or warrants are exercised or as the restricted stock units vest, our shareholders may experience further dilution. Holders of our shares of common stock have no preemptive rights that entitle holders to purchase their pro rata share of any offering of shares of any class or series and, therefore, such sales or offerings could result in increased dilution to our shareholders. We cannot predict the effect that future sales of our common stock would have on the market price of our common stock.

We may issue debt and equity securities or securities convertible into equity securities, any of which may be senior to our common stock as to distributions and in liquidation, which could negatively affect the value of our common stock.

In the future, we may attempt to increase our capital resources by entering into debt or debt-like financing that is unsecured or secured by all or up to all of our assets, or by issuing additional debt or equity securities, which could include issuances of secured or unsecured commercial paper, medium-term notes, senior notes, subordinated notes, preferred stock or securities convertible into or exchangeable for equity securities. In the event of our liquidation, our lenders and holders of our debt and preferred securities would receive a distribution of our available assets before distributions to the holders of our common stock. Because our decision to incur debt and issue securities in our future offerings will depend on market conditions and other factors beyond our control, we cannot predict or estimate the amount, timing or nature of our future offerings and debt financings. Further, market conditions could require us to accept less favorable terms for the issuance of our securities in the future.

Risks Related to Our Banking Operations

Our results of operations depend upon the results of operations of our subsidiaries, primarily, The First.

We are a bank holding company that conducts substantially all of our operations through our subsidiary bank, The First. As a result, our ability to make dividend payments on our common stock will depend primarily upon the receipt of dividends and other distributions from The First.

The ability of The First to pay dividends or make other payments to us is limited by its obligation to maintain sufficient capital and by other general regulatory restrictions on its dividends. If these requirements are not satisfied, we will be unable to pay dividends on our common stock. Additionally, our participation in the CDCI program constrains our ability to raise dividends by limiting our annual dividend payments to no more than \$0.15 per share annually. For more information, see “Dividend Policy” below.

We are subject to significant competition within our market area as well as through financial technology companies.

The First faces increased competition from both federally-chartered and state-chartered financial and thrift institutions, as well as credit unions, consumer finance companies, insurance companies, and other institutions in The First's market area. Some of these competitors are not subject to the same degree of regulation and restriction imposed upon The First. Many of these competitors also have broader geographic markets and substantially greater resources and lending limits than The First and offer certain services such as trust banking that The First does not currently provide. In addition, many of these competitors have numerous branch offices located throughout the extended market areas of The First that may provide these competitors with an advantage in geographic convenience that The First does not have at present. Currently there are numerous other commercial banks, savings institutions, and credit unions operating in The First's primary service area.

We also compete with numerous financial and quasi-financial institutions for deposits and loans, including providers of financial services over the internet and through mobile applications. Recent technology advances and other changes have allowed non-bank parties to effectuate financial transactions that previously required the involvement of banks. For example, consumers can maintain funds in brokerage accounts or mutual funds that would have historically been held as bank deposits. Consumers can also obtain loans from non-regulated companies over the internet or through mobile applications that have historically been originated at a bank. Consumers can also complete transactions such as paying bills and transferring funds directly without the assistance of banks. The process of eliminating banks as intermediaries, known as “disintermediation,” could result in the loss of fee and interest income, as well as the loss of customer deposits and the related income generated from those deposits. The loss of these revenue streams and access to lower cost deposits as a source of funds could have a material adverse effect on our financial condition and results of operations.

We may invest or spend the proceeds in this offering in ways with which you may not agree and in ways that may not earn a profit.

We intend to use the net proceeds from this offering to finance a portion of the Iberville Bank Acquisition and pay related expenses, to support our capital ratios in connection with the Iberville Bank and Gulf Coast Acquisitions and for general corporate purposes. To the extent either the Iberville Bank Acquisition or the Gulf Coast Acquisition is not completed, the shares will remain outstanding and we will use the proceeds of this offering for general corporate purposes to support our growth strategy, which may include organic growth, funding acquisition opportunities, *de*

novo branching into new markets or other organic expansion of our business and/or redeeming the preferred stock issued under the CDCI program, although we do not anticipate redeeming the CDCI preferred stock at this time. For more information, see “Use of Proceeds.” Accordingly, in the event the Iberville Bank Acquisition is not completed, we will retain broad discretion over the use of the proceeds from this offering and may use them for purposes other than those contemplated at the time of this offering. In such event you may not agree with the ways we decide to use these proceeds, and our use of the proceeds may not yield any profits.

A failure or breach of our operational or security systems or infrastructure, or those of our third party vendors and other service providers or other third parties, including as a result of cyber-attacks, could disrupt our businesses, result in the disclosure or misuse of confidential or proprietary information, damage our reputation, increase our costs, and cause losses.

The Company and The First rely heavily on communications and information systems to conduct business. Information security risks for financial institutions such as the Company and The First have generally increased in recent years in part because of the proliferation of new technologies, the use of the internet and telecommunications technologies to conduct financial transactions, and the increased sophistication and activities of organized crime, hackers, nation-states, terrorists, activists, and other external parties. As customer, public, and regulatory expectations regarding operational and information security have increased, our operating systems and infrastructure must continue to be safeguarded and monitored for potential failures, disruptions, and breakdowns. Our business, financial, accounting, and data processing systems, or other operating systems and facilities, may stop operating

properly or become disabled or damaged as a result of a number of factors, including events that are wholly or partially beyond our control. For example, there could be electrical or telecommunication outages, natural disasters such as earthquakes, tornadoes, and hurricanes, disease pandemics, events arising from local or larger scale political or social matters, including terrorist acts, and as described below, cyber-attacks.

As noted above, our business relies on our digital technologies, computer and email systems, software and networks to conduct our operations. Although we have information security procedures and controls in place, our technologies, systems and networks and our customers' devices may become the target of cyber-attacks or information security breaches that could result in the unauthorized release, gathering, monitoring, misuse, loss, or destruction of ours or our customers' or other third parties' confidential information. Third parties with whom we do business or that facilitate our business activities, including financial intermediaries, or vendors that provide service or security solutions for our operations, and other unaffiliated third parties, could also be sources of operational and information security risk to us, including from breakdowns or failures of their own systems or capacity constraints.

While we have disaster recovery and other policies and procedures designed to prevent or limit the effect of the failure, interruption or security breach of our information systems, there can be no assurance that any such failures, interruptions or security breaches will not occur or, if they do occur, that they will be adequately addressed. Our risk and exposure to these matters remain heightened because of the evolving nature of these threats. As a result, cyber security and the continued development and enhancement of our controls, processes, and practices designed to protect our systems, computers, software, data, and networks from attack, damage or unauthorized access remain a significant focus for us. As threats continue to evolve, we may be required to expend additional resources to continue to modify or enhance our protective measures or to investigate and remediate information security vulnerabilities. Disruptions or failures in the physical infrastructure or operating systems that support our businesses and clients, or cyber-attacks or security breaches of the networks, systems or devices that our clients use to access our products and services could result in client attrition, regulatory fines, penalties or intervention, reputation damage, reimbursement or other compensation costs, and/or additional compliance costs, any of which could have a material effect on our results of operations or financial condition.

Anti-takeover laws and provisions in our amended articles of incorporation could make a third party acquisition of us difficult.

In addition to certain provisions of state and federal law, provisions of our articles of incorporation may make it more difficult for someone to acquire control of the Company. Our articles of incorporation include a "control share acquisition" provision requiring any person who plans to acquire a control block of outstanding common stock (generally defined as 10%) to obtain approval by the majority vote of disinterested shareholders or the affirmative vote of 75% of eligible members of the Board in order to vote the control shares. If a control share is made without first obtaining this approval, all stock beneficially owned by the acquiring person in excess of 10% will be considered "excess stock" and will not be entitled to vote. Any person who proposes to make or has made a control share acquisition may deliver a statement to the Company describing the person's background and the control share acquisition and requesting a special meeting of shareholders of the Company to decide whether to grant voting rights to the shares acquired in the control share acquisition. The acquiring person must pay the expenses of this meeting. If

no request is made, the voting rights to be accorded the shares acquired in the control share acquisition shall be presented to the next special or annual meeting of the shareholders. If the acquiring person does not deliver his or her statement to the Company, the Company may elect to repurchase the acquiring person's shares at fair market value. Control shares acquired in a control share acquisition are not subject to redemption after an acquiring person's statement has been filed unless the shares are not accorded full voting rights by the shareholders. Additionally, our articles of incorporation provide for a Board composed of three separate classes, with each class being elected for a three-year term. These provisions and other provisions of state and federal banking laws could result in our Company being less attractive to a potential acquiror and could limit the price that investors might be willing to pay in the future for shares of our common stock. See "Description of Capital Stock – Common Stock" in the accompanying prospectus.

Our growth and financial performance may be negatively impacted if we are unable to successfully execute our growth plans.

There can be no assurances that we will be successful in continuing our organic or internal growth, which depends upon economic conditions, our ability to identify appropriate markets for expansion, our ability to recruit and retain qualified personnel, our ability to fund growth at a reasonable cost, sufficient capital to support our growth initiatives, competitive factors, banking laws, and other factors.

We expect to seek to supplement our internal growth through other acquisitions. We cannot predict the number, size or timing of such acquisitions, or whether any such acquisition will occur at all. Our acquisition efforts have traditionally focused on targeted banking entities in markets in which we currently operate and markets in which we believe we can compete effectively. However, as consolidation of the financial services industry continues, the competition for suitable acquisition candidates may increase. We may compete with other financial services companies for acquisition opportunities, and many of these competitors have greater financial resources than we have and may be able to pay more for an acquisition than we are able or willing to pay. We also may need additional debt or equity financing in the future to fund acquisitions. We may not be able to obtain additional financing or, if available, it may not be in amounts and on terms acceptable to us. If we are unable to locate suitable acquisition candidates willing to sell on terms acceptable to us, or we are otherwise unable to obtain additional debt or equity financing necessary for us to continue making acquisitions, we would be required to find other methods to grow our business and we may not grow at the same rate we have in the past, or at all.

In evaluating potential acquisition opportunities we may seek to acquire failed banks through FDIC-assisted transactions. While the FDIC may, in such transactions, provide assistance to mitigate certain risks, such as sharing in exposure to loan losses, and providing indemnification against certain liabilities, of the failed institution, we may not be able to accurately estimate our potential exposure to loan losses and other potential liabilities, or the difficulty of integration, in acquiring such institution.

We must generally receive federal regulatory approval before we can acquire a bank or bank holding company. In determining whether to approve a proposed bank acquisition, federal bank regulators will consider, among other factors, the effect of the acquisition on the competition, financial condition, and future prospects. The regulators also review current and projected capital ratios and levels, the competence, experience, and integrity of management and its record of compliance with laws and regulations, the convenience and needs of the communities to be served (including the acquiring institution's record of compliance under the Community Reinvestment Act) and the effectiveness of the acquiring institution in combating money laundering activities. We cannot be certain when or if, or on what terms and conditions, any required regulatory approvals will be granted. We may also be required to sell banks or branches as a condition to receiving regulatory approval, which condition may not be acceptable to us or, if acceptable to us, may reduce the benefit of any acquisition.

In addition to the acquisition of existing financial institutions, as opportunities arise we plan to continue de novo branching as a part of our internal growth strategy and possible entry into new markets through de novo branching. De novo branching and any acquisition carries with it numerous risks, including the following:

• significant costs and anticipated initial operating losses associated with establishing a de novo branch or a new bank;

- the inability to secure the services of qualified senior management;

-

failure of the local market to accept the services of a new bank owned and managed by a bank holding company headquartered outside of the market area of the new bank;

- economic downturns in the new market;
- the inability to obtain attractive locations within a new market at a reasonable cost;
- the additional strain on management resources and internal systems and controls; and
- the inability to obtain all required regulatory approvals.

We have experienced to some extent many of these risks with our *de novo* branching to date.

Acquisitions may not produce revenue or earnings enhancements or cost savings at levels or within timeframes originally anticipated and may result in unforeseen integration difficulties.

Difficulty in integrating an acquired business or company may cause us not to realize expected revenue increases, cost savings, increases in geographic or product presence, or other anticipated benefits from any acquisition. The integration could result in higher than expected deposit attrition (also known as run-off), loss of key employees, disruption of our business or the business of the acquired company, or otherwise adversely affect our ability to maintain relationships with customers and employees or achieve the anticipated benefits of the acquisition. We are likely to need to make additional investment in equipment and personnel to manage higher asset levels and loan balances as a result of any significant acquisition, which may adversely impact our earnings. Also, the negative

effect of any divestitures required by regulatory authorities in acquisitions or business combinations may be greater than expected.

Depending on the condition of any institution that we may acquire, any acquisition may, at least in the near term, adversely affect our capital, financial condition, and results of operations, and, if not successfully integrated following the acquisition, may continue to have such effects.

THE GULF COAST SPECIAL MEETING

This section contains information about the special meeting of Gulf Coast shareholders that has been called to consider and approve the merger agreement. Together with this document, Gulf Coast also is sending you a notice of the special meeting and a form of proxy that the Gulf Coast board of directors is soliciting. The Gulf Coast special meeting will be held on [], 2016, at [], located at [] at [], local time.

Matters to Be Considered

The purpose of the special meeting is to vote on:

- a proposal to adopt and approve the merger agreement;
- a proposal to approve the adjournment of the special meeting, if necessary or appropriate, in the event that there are not sufficient votes at the time of the special meeting to approve the foregoing proposal; and
- any other business properly brought before the special meeting or any adjournment or postponement thereof.

Proxies

Each copy of this document mailed to holders of Gulf Coast common stock is accompanied by a form of proxy with instructions for voting by mail. If you hold stock in your name as a shareholder of record and are voting by mail, you should complete, sign, date and return the proxy card accompanying this document in the enclosed postage-paid return envelope to ensure that your vote is counted at the special meeting, or at any adjournment or postponement of the special meeting, regardless of whether you plan to attend the special meeting.

If you hold your stock in “street name” through a bank or broker, you must direct your bank or broker to vote in accordance with the instructions you have received from your bank or broker.

If you hold common stock in your name as a shareholder of record, you may revoke any proxy at any time before it is voted by signing and returning a proxy card with a later date, delivering a written revocation letter to the Gulf Coast Corporate Secretary, or by attending the special meeting in person and voting by ballot at the special meeting.

Any shareholder entitled to vote in person at the special meeting may vote in person regardless of whether a proxy previously has been given, but the mere presence of a shareholder at the special meeting will not constitute revocation of a previously given proxy.

Written notices of revocation and other communications about revoking your proxy should be addressed to:

Gulf Coast Community Bank
Attn: Corporate Secretary
40 N. Palafox Street

Pensacola, FL 32502

If your shares are held in “street name” by a bank or broker, you should follow the instructions of your bank or broker regarding the revocation of proxies. All shares represented by valid proxies that Gulf Coast receives through this solicitation, and that are not revoked, will be voted in accordance with your instructions on the proxy card. If you make no specification on your proxy card as to how you want your shares voted before signing and returning it, your proxy will be voted “FOR” approval of the merger agreement and merger and “FOR” approval of the proposal to adjourn the special meeting, if necessary or appropriate, to solicit additional proxies.

Solicitation of Proxies

Gulf Coast will bear the entire cost of soliciting proxies from holders of Gulf Coast common stock. In addition to solicitation of proxies by mail, Gulf Coast will request that banks, brokers, and other record holders send proxies and proxy material to the beneficial owners of Gulf Coast common stock and secure their voting instructions. If necessary, Gulf Coast may use several of its regular employees, who will not be specially compensated, to solicit proxies from holders of Gulf Coast common stock, either personally or by telephone, facsimile, letter or other electronic means.

Record Date

The close of business on [], 2016 has been fixed as the record date for determining the Gulf Coast shareholders entitled to receive notice of and to vote at the special meeting. At that time, 4,515,437 shares of Gulf Coast common stock were outstanding, held by approximately 475 holders of record.

Quorum

In order to conduct voting at the special meeting, there must be a quorum. A quorum is the number of shares that must be present at the meeting, either in person or by proxy. To have a quorum at the special meeting requires the presence of holders of Gulf Coast common stock or their proxies who are entitled to cast at least a majority of the votes that all holders of common stock are entitled to cast.

Votes Required

Approval of the merger agreement requires the affirmative vote of the holders of two-thirds of outstanding shares of Gulf Coast common stock, assuming that a quorum is present. You are entitled to one vote for each share of Gulf Coast common stock you hold as of the record date.

Approval of the proposal to adjourn the special meeting if necessary or appropriate in order to solicit additional proxies requires the affirmative vote of a majority of the votes cast, assuming that a quorum is present. Assuming there is a quorum, your failure to vote, an abstention or a broker non-vote will have no effect on either proposal.

The Gulf Coast board of directors urges Gulf Coast shareholders to promptly vote by completing, dating, and signing the accompanying proxy card and returning it promptly in the enclosed postage-paid envelope. If you hold your stock in “street name” through a bank or broker, please vote by following the voting instructions of your bank or broker.

If you are the registered holder of your Gulf Coast common stock or you obtain a broker representation letter from your bank, broker or other holder of record of your Gulf Coast common stock and in all cases you bring proof of identity, you may vote your Gulf Coast common stock in person by ballot at the special meeting. Votes properly cast at the special meeting, in person or by proxy, will be tallied by Gulf Coast’s inspector of elections.

As of the record date, directors of Gulf Coast had the right to vote approximately 1,648,503 shares of Gulf Coast common stock, or approximately 36.5% of the outstanding Gulf Coast shares entitled to vote at the special meeting. All of the directors of Gulf Coast have entered into agreements with First Bancshares pursuant to which they have agreed, in their capacity as holders of Gulf Coast common stock, to vote all of their shares in favor of the adoption and approval of the merger agreement, subject to certain exceptions. We expect these individuals to vote their Gulf Coast common stock in accordance with these agreements.

Recommendation of the Gulf Coast Board of Directors

The Gulf Coast board of directors has unanimously adopted and approved the merger agreement and the transactions it contemplates, including the merger. The Gulf Coast board of directors determined that the merger, merger agreement and the transactions contemplated by the merger agreement are advisable and in the best interests of Gulf Coast and its shareholders and recommends that you vote “FOR” approval of the merger agreement and “FOR” the proposal to adjourn the special meeting, if necessary or appropriate, to solicit additional proxies. See “THE MERGER—Gulf Coast’s Reasons for the Merger; Recommendation of the Gulf Coast Board of Directors” for a more detailed discussion of the Gulf Coast board of directors’ recommendation.

Attending the Special Meeting

All holders of Gulf Coast common stock, including shareholders of record and shareholders who hold their shares through banks, brokers, nominees or any other holder of record, are invited to attend the special meeting.

Gulf Coast reserves the right to refuse admittance to anyone without proper proof of share ownership and without proper photo identification. Everyone who attends the special meeting must abide by the rules for the conduct of the meeting. Even if you plan to attend the special meeting, we encourage you to vote by mail proxy so your vote will be counted if you later decide not to attend the special meeting.

INFORMATION ABOUT FIRST BANCSHARES

The First Bancshares, Inc. was incorporated on June 23, 1995, to serve as a bank holding company for The First (which may be referred to herein as the “Bank”) located in Hattiesburg, Mississippi. The First began operations on August 5, 1996, from its main office in the Oak Grove community, which was on the outskirts of Hattiesburg but now is included in the city of Hattiesburg. The First Bancshares and its subsidiary bank engage in a general commercial and retail banking business characterized by personalized service and local decision-making, emphasizing the banking needs of small to medium-sized businesses, professional concerns and individuals. The First is a wholly-owned subsidiary bank of First Bancshares. At September 30, 2016, The First had total assets of \$1.3 billion, which represented virtually all of the consolidated assets of First Bancshares.

Through The First, First Bancshares operates as a financial services organization providing banking and other financial solutions through approximately 33 offices and 308 full-time equivalent associates located in the states of Mississippi, Louisiana and Alabama.

As of September 30, 2016, on a consolidated basis, First Bancshares had total assets of approximately \$1.3 billion, total net loans of approximately \$856.3 million, total deposits of approximately \$1.1 billion, and shareholders’ equity of approximately \$112.7 million.

The principal executive offices of First Bancshares are located at 6480 U.S. Hwy. 98 West, Hattiesburg, Mississippi 39402, and its telephone number is (601) 268-8998.

Banking Services

Through The First, First Bancshares strives to provide its customers with the breadth of products and services comparable to those offered by large regional banks, while maintaining the quick response and personal service of a locally owned and managed bank. In addition to offering a full range of deposit services and commercial and personal loans, The First offers products such as mortgage loans. The following is a description of the products and services offered or planned to be offered by the Bank.

Deposit Services. The Bank offers a full range of deposit services that are typically available in most banks and savings and loan associations, including checking accounts, NOW accounts, savings accounts, and other time deposits of various types, ranging from daily money market accounts to longer-term certificates of deposit. The transaction accounts and time certificates are tailored to the Bank's principal market area at rates competitive to those offered by other banks in the area. All deposit accounts are insured by the Federal Deposit Insurance Corporation (the "FDIC") up to the maximum amount allowed by law. The Bank solicits these accounts from individuals, businesses, associations and organizations, and governmental authorities. In addition, the Bank offers certain retirement account services, such as Individual Retirement Accounts (IRAs).

Loan Products. The Bank offers a full range of commercial and personal loans. Commercial loans include both secured and unsecured loans for working capital (including loans secured by inventory and accounts receivable), business expansion (including acquisition of real estate and improvements), and purchase of equipment and machinery. Consumer loans include equity lines of credit and secured and unsecured loans for financing automobiles, home improvements, education, and personal investments. The Bank also makes real estate construction and acquisition loans. The Bank's lending activities are subject to a variety of lending limits imposed by federal law. While differing limits apply in certain circumstances based on the type of loan or the nature of the borrower (including the borrower's relationship to the Bank), in general the Bank is subject to a loans-to-one-borrower limit of an amount equal to 15% of the Bank's unimpaired capital and surplus. The Bank may not make any loans to any director, executive officer, or 10% shareholder unless the loan is approved by the Board of Directors of the Bank and is made on terms not more favorable to such a person than would be available to a person not affiliated with the Bank.

Mortgage Loan Divisions. The Bank has mortgage loan divisions which originate loans to purchase existing or construct new homes and to refinance existing mortgages.

Other Services. Other bank services we offer include on-line internet banking services, voice response telephone inquiry service, commercial sweep accounts, cash management services, safe deposit boxes, travelers checks, mobile deposit, direct deposit of payroll and social security checks, and automatic drafts for various accounts. We are associated with the MasterCard, Cirrus, Pulse, and Community Cash networks of automated teller machines that may be used by our customers throughout our market area and other regions. The First also offers VISA credit card services through a correspondent bank.

Competition

The Bank generally competes with other financial institutions through the selection of banking products and services offered, the pricing of services, the level of service provided, the convenience and availability of services, and the degree of expertise and the personal manner in which services are offered. Pursuant to Dodd-Frank, federal law generally permits statewide branching by banks and savings institutions, and many financial institutions in the state have branch networks. Consequently, commercial banking in Mississippi, Louisiana and Alabama is highly competitive. Many large banking organizations currently operate in First Bancshares' market areas, several of which are controlled by out-of-state ownership. In addition, competition between commercial banks and thrift institutions (savings institutions and credit unions) has been intensified significantly by the elimination of many previous distinctions between the various types of financial institutions and the expanded powers and increased activity of thrift institutions in areas of banking which previously had been the sole domain of commercial banks. Federal legislation, together with other regulatory changes by the primary regulators of the various financial institutions, has resulted in the almost total elimination of practical distinctions between a commercial bank and a thrift institution. Consequently, competition among financial institutions of all types is largely unlimited with respect to legal ability and authority to provide most financial services.

The First Bancshares faces increased competition from both federally-chartered and state-chartered financial and thrift institutions, as well as credit unions, consumer finance companies, insurance companies, and other institutions in First Bancshares' market area. Some of these competitors are not subject to the same degree of regulation and restriction imposed upon First Bancshares. Many of these competitors also have broader geographic markets and substantially greater resources and lending limits than First Bancshares and offer certain services such as trust banking that First Bancshares does not currently provide. In addition, many of these competitors have numerous branch offices located throughout the extended market areas of First Bancshares that may provide these competitors with an advantage in geographic convenience that First Bancshares does not have at present.

Currently there are numerous other commercial banks, savings institutions, and credit unions operating in The First's primary service area.

Employees

As of September 30, 2016, First Bancshares had 303 full-time employees and 10 part-time employees.

Supervision And Regulation

The First Bancshares and the Bank are subject to state and federal banking laws and regulations which impose specific requirements or restrictions on and provide for general regulatory oversight with respect to virtually all aspects of operations. These laws and regulations are generally intended to protect depositors, not shareholders. To the extent that the following summary describes statutory or regulatory provisions, it is qualified in its entirety by reference to the particular statutory and regulatory provisions. Any change in applicable laws or regulations may have a material effect on the business and prospects of First Bancshares. Beginning with the enactment of the Financial Institutions Reform, Recovery and Enforcement Act of 1989 ("FIRREA") and following with the Federal Deposit Insurance Corporation Improvement Act of 1991 ("FDICIA"), and now, most recently the sweeping Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010 (the "Dodd-Frank Act"), numerous additional regulatory requirements have been placed on the banking industry in the past several years, and additional changes have been proposed. The operations of First Bancshares and the Bank may be affected by legislative changes and

the policies of various regulatory authorities. The First Bancshares is unable to predict the nature or the extent of the effect on its business and earnings that fiscal or monetary policies, economic control, or new federal or state legislation may have in the future.

Legislative and Regulatory Initiatives and First Bancshares Participation

The Congress, Treasury Department and the federal banking regulators, including the FDIC, have taken broad action since early September 2008 to address volatility in the U.S. banking system. In October 2008, the Emergency Economic Stabilization Act of 2008 (“EESA”) was enacted. The EESA authorized the Treasury Department to purchase from financial institutions and their holding companies up to \$700 billion in mortgage loans, mortgage-related securities and certain other financial instruments, including debt and equity securities issued by financial institutions and their holding companies in a troubled asset relief program (“TARP”). The purpose of TARP was to restore confidence and stability to the U.S. banking system and to encourage financial institutions to increase their lending to customers and to each other. The Treasury Department allocated \$250 billion towards the TARP Capital Purchase Program (“CPP”), pursuant to which the Treasury Department purchased debt or equity securities from participating institutions. The TARP also included the Community Development Capital Initiative (“CDCI”), which was made available only to certified Community Development Financial Institutions (“CDFIs”) and imposed a lower dividend or interest rate, as applicable, than the CPP funding. Participants in the TARP are subject to executive compensation limits and are encouraged to expand their lending and mortgage loan modifications.

On February 6, 2009, as part of the CPP, First Bancshares entered into a Letter Agreement and Securities Purchase Agreement (collectively, the “Purchase Agreement”) with the Treasury Department, pursuant to which First Bancshares sold (i) 5,000 shares of First Bancshares’ Fixed Rate Cumulative Perpetual Preferred Stock, Series UST (the “CPP Preferred Stock”) and (ii) a warrant (the “Warrant”) to purchase 54,705 shares of First Bancshares’ Common Stock for an exercise price of \$13.71 per share. On September 29, 2010, after successfully obtaining CDFI certification, First Bancshares exited the CPP by refinancing its CPP funding into lower-cost CDCI funding and also accepted additional CDCI funding. In connection with this transaction, First Bancshares retired its CPP Preferred Stock and issued to the Treasury Department 17,123 shares of First Bancshares’ Fixed Rate Cumulative Perpetual Preferred Stock, Series CD (the “CDCI Preferred Stock”). Including refinanced funding and newly obtained funding, First Bancshares’ total CDCI funding is \$17,123,000.

The CDCI Preferred Stock qualifies as Tier 1 capital and, provided that First Bancshares maintains its CDFI eligibility and certification, is entitled to cumulative dividends at a rate of 2% per annum until 2018, and 9% per annum thereafter. The Warrant has a 10-year term and is immediately exercisable upon its issuance, and its exercise price is subject to anti-dilution adjustments.

In order to benefit from the lower dividend rate associated with the CDCI Preferred Stock, First Bancshares is required to maintain compliance with the eligibility requirements of the CDFI Program. These eligibility requirements include the following:

The First Bancshares must have a primary mission of promoting community development, based on criteria set forth in 12 C.F.R. 1805.201(b)(1);

The First Bancshares must provide Financial Products, Development Services, and/or other similar financing as a predominant business activity in arm's-length transactions, as provided in 12 C.F.R. 1805.201(b)(2);

The First Bancshares must serve a Target Market by serving one or more Investment Areas and/or Targeted Populations, substantially in the manner set forth in 12 C.F.R. 1805.201(b)(3);

The First Bancshares must provide Development Services in conjunction with its Financial Products, either directly, through an Affiliate, or through a contract with a third-party provider, as provided in 12 C.F.R. 1805.201(b)(4);

The First Bancshares must maintain accountability to residents of the applicable Investment Area(s) and/or

Targeted Population(s) through representation on its governing Board of Directors or otherwise, as provided in 12 C.F.R. 1805.201(b)(5); and

The First Bancshares must remain a non-governmental entity, which is not an agency or instrumentality of the United States of America, or any State or political subdivision thereof, as described in 12 C.F.R. 1805.201(b)(6) and within the meaning of any supplemental regulations or interpretations of 12 C.F.R. 1805.201(b)(6) or such supplemental regulations published by the Fund.

As used in the discussion above, the terms “Affiliate,” “Financial Products,” “Development Services,” “Target Market,” “Investment Area(s),” and “Targeted Population(s)” have the meanings ascribed to such terms in 12 C.F.R. 1805.104.

American Reinvestment and Recovery Act of 2009. The America Reinvestment and Recovery Act of 2009 (“ARRA”) contained expansive new restrictions on executive compensation for financial institutions and other companies participating in the TARP. These restrictions apply to First Bancshares and are further detailed in implementing regulations found at 31 CFR Part 30. (Any reference to “ARRA” herein includes a reference to the implementing regulations.)

ARRA prohibits bonus and similar payments to the most highly compensated employee of First Bancshares. The prohibition does not apply to bonuses payable pursuant to “employment agreements” in effect prior to February 11, 2009. “Long-term” restricted stock is excluded from ARRA’s bonus prohibition, but only to the extent the value of the stock does not exceed one-third of the total amount of annual compensation of the employee receiving the stock, the stock does not “fully vest” until after all TARP-related obligations have been satisfied, and any other conditions which the Treasury may specify have been met.

ARRA prohibits any payment to the principal executive officer, the principal financial officer, and any of the next eight most highly compensated employees upon departure from First Bancshares for any reason for as long as any TARP-related obligations remain outstanding.

Under ARRA TARP-participating companies are required to recover any bonus or other incentive payment paid to the principal executive officer, the principal financial officer, or any of the next 23 most highly compensated employees on the basis of materially inaccurate financial or other performance criteria.

ARRA prohibits TARP participants from implementing any compensation plan that would encourage manipulation of the reported earnings of First Bancshares in order to enhance the compensation of any of its employees.

ARRA requires the principal executive officer and the principal financial officer of any publicly-traded TARP-participating company to provide a written certification of compliance with the executive compensation restrictions in ARRA in First Bancshares' annual filings with the SEC beginning in 2010.

ARRA requires each TARP-participating company to implement a company-wide policy regarding excessive or luxury expenditures, including excessive expenditures on entertainment or events, office and facility renovations, aviation or other transportation services.

ARRA directs the Treasury to review bonuses, retention awards, and other compensation paid to the principal executive officer and the next four other highest paid executive officer of First Bancshares and the next 20 most highly compensated employees of each company receiving TARP assistance before ARRA was enacted, and to "seek to negotiate" with the TARP recipient and affected employees for reimbursement if it finds any such payments were inconsistent with TARP or otherwise in conflict with the public interest.

ARRA also prohibits the payment of tax gross-ups; required disclosures related to perquisite payments and the engagement, if any, by the TARP participant of a compensation consultant; and prohibits the deduction for tax purposes of executive compensation in excess of \$500,000 for each applicable senior executive.

These standards could change based on subsequent guidance issued by the Treasury or the Internal Revenue Service. As long as the Treasury continues to hold equity interests in First Bancshares issued under the TARP, First Bancshares will monitor its compensation arrangements and modify such compensation arrangements, agree to limit and limit its compensation deductions, and take such other actions as may be necessary to comply with the standards discussed above, as they may be modified from time to time. The First Bancshares does not anticipate that any material changes to its existing executive compensation structure will be required to comply with the executive compensation standards included in the TARP.

Dodd-Frank Act. The enactment during 2010 of Dodd-Frank has resulted in increased regulation for the financial services industry. Provisions affecting the activities of First Bancshares and the Bank include, without limitation, the following:

Asset-based deposit insurance assessments. FDIC deposit insurance premium assessments are based on bank assets rather than domestic deposits.

Deposit insurance limit increase. The deposit insurance coverage limit has been permanently increased from \$100,000 to \$250,000.

Limitation on federal preemption. Limitations have been imposed on the ability of national bank regulators to preempt state law. Formerly, the national bank and federal thrift regulators possessed preemption powers with regard to transactions, operating subsidiaries and attorney general civil enforcement authority. These preemption requirements have been limited by the Dodd-Frank, which will likely impact state banks by affecting activities previously permitted through parity with national banks.

Changes to regulation of bank holding companies. Under Dodd-Frank, bank holding companies must be well-capitalized and well-managed to engage in interstate transactions. In the past, only the subsidiary banks were required to meet those standards. The Federal Reserve Board's "source of strength doctrine" has now been codified, mandating that bank holding companies, such as First Bancshares, serve as a source of strength for their subsidiary banks, meaning that the bank holding company must be able to provide financial assistance in the event the subsidiary bank experiences financial distress.

Executive compensation limitations. The Dodd-Frank codified executive compensation limitations similar to those previously imposed on TARP recipients.

Summary. The foregoing is a brief summary of certain statutes, rules and regulations affecting First Bancshares and the Bank. It is not intended to be an exhaustive discussion of all the statutes and regulations having an impact on the operations of such entities. Additional bills may be introduced in the future in the United States Congress and state legislatures to alter the structure, regulation and competitive relationships of financial institutions. It cannot be predicted whether and what form any of these proposals will be adopted or the extent to which the business of First Bancshares and the Bank may be affected thereby.

First Bancshares

Because it owns the outstanding capital stock of the Bank, First Bancshares is a bank holding company within the meaning of the Federal Bank Holding Company Act of 1956 (the "BHCA"). First Bancshares has also elected to be treated as a Financial Holding Company under the BHCA as discussed below.

The BHCA. Under the BHCA, First Bancshares is subject to periodic examination by the Federal Reserve and is required to file periodic reports of its operations and such additional information as the Federal Reserve may require. The First Bancshares' and the Bank's activities are limited to banking, managing or controlling banks, furnishing services to or performing services for its subsidiaries, and engaging in other activities that the Federal Reserve determines to be so closely related to banking or managing or controlling banks as to be a proper incident thereto.

Dodd-Frank removed many limitations on the Federal Reserve Board's authority to make examinations of banks that are subsidiaries of bank holding companies. Under Dodd-Frank, the Federal Reserve Board is generally permitted to examine bank holding companies and their subsidiaries, provided that the Federal Reserve Board must rely on reports submitted directly by the institution and examination reports of the appropriate regulators (such as the OCC) to the fullest extent possible; must provide reasonable notice to, and consult with, the appropriate regulators before commencing an examination of a bank holding company subsidiary; and, to the fullest extent possible, must avoid duplication of examination activities, reporting requirements, and requests for information.

Investments, Control, and Activities. With certain limited exceptions, the BHCA requires every bank holding company to obtain the prior approval of the Federal Reserve before (i) acquiring substantially all the assets of any bank, (ii) acquiring direct or indirect ownership or control of any voting shares of any bank if after such acquisition it would own or control more than 5% of the voting shares of such bank (unless it already owns or controls the majority of such shares), or (iii) merging or consolidating with another bank holding company.

In addition, and subject to certain exceptions, the BHCA and the Change in Bank Control Act, together with regulations thereunder, require Federal Reserve approval (or, depending on the circumstances, no notice of disapproval) prior to any person or company acquiring "control" of a bank holding company, such as First Bancshares. Control is conclusively presumed to exist if an individual or company acquires 25% or more of any class of voting securities of the bank holding company. Control is rebuttably presumed to exist if a person acquires 10% or more but less than 25% of any class of voting securities and either First Bancshares has registered securities under Section 12 of the Exchange Act (which First Bancshares has done) or no other person owns a greater percentage of that class of voting securities immediately after the transaction. The regulations provide a procedure for challenge of the rebuttable control presumption.

Under the BHCA, a bank holding company is generally prohibited from engaging in, or acquiring direct or indirect control of more than 5% of the voting shares of any company engaged in nonbanking activities, unless the Federal Reserve Board, by order or regulation, has found those activities to be so closely related to banking or managing or controlling banks as to be a proper incident thereto. Some of the activities that the Federal Reserve Board has determined by regulation to be proper incidents to the business of a bank holding company include making or servicing loans and certain types of leases, engaging in certain insurance and discount brokerage activities, performing certain data processing services, acting in certain circumstances as a fiduciary or investment or financial adviser, owning savings associations, and making investments in certain corporations or projects designed primarily to promote community welfare.

The Federal Reserve Board has imposed certain capital requirements on First Bancshares under the BHCA, including a minimum leverage ratio and a minimum ratio of "qualifying" capital to risk-weighted assets. These requirements are described below under "Capital Regulations." Subject to its capital requirements and certain other restrictions, First Bancshares may borrow money to make a capital contribution to the Bank, and such loans may be repaid from dividends paid from the Bank to First Bancshares (although the ability of the Bank to pay dividends is subject to regulatory restrictions as described below in "The Bank - Dividends"). The First Bancshares is also able to raise capital for contribution to the Bank by issuing securities without having to receive regulatory approval, subject to

compliance with federal and state securities laws.

Source of Strength; Cross-Guarantee. In accordance with Federal Reserve Board policy, First Bancshares is expected to act as a source of financial strength to the Bank and to commit resources to support the Bank in circumstances in which First Bancshares might not otherwise do so. Under the BHCA, the Federal Reserve Board may require a bank holding company to terminate any activity or relinquish control of a nonbank subsidiary (other than a nonbank subsidiary of a bank) upon the Federal Reserve Board's determination that such activity or control constitutes a serious risk to the financial soundness or stability of any subsidiary depository institution of the bank holding company. Further, federal bank regulatory authorities have additional discretion to require a bank holding company to divest itself of any bank or nonbank subsidiary if the agency determines that divestiture may aid the depository institution's financial condition.

The Bank

The Bank operates as a national banking association incorporated under the laws of the United States and subject to examination by the Office of Comptroller of the Currency ("OCC"). Deposits in the Bank are insured by the FDIC up to a maximum amount (generally \$250,000 per depositor, subject to aggregation rules). The OCC and the FDIC regulate or monitor virtually all areas of the Bank's operations, including security devices and procedures, adequacy of capitalization and loan loss reserves, loans, investments, borrowings, deposits, mergers, issuances of securities, payment of dividends, interest rates payable on deposits, interest rates or fees chargeable on loans, establishment of branches, corporate reorganizations, maintenance of books and records, and adequacy of staff training to carry on safe lending and deposit gathering practices. The OCC requires the Bank to maintain certain capital ratios and imposes limitations on the Bank's aggregate investment in real estate, bank premises, and furniture and fixtures. The Bank is required by the OCC to prepare quarterly reports on their financial condition and to conduct an annual audit of their financial affairs in compliance with minimum standards and procedures prescribed by the OCC.

Under FDICIA, all insured institutions must undergo regular on-site examinations by their appropriate banking agency. The cost of examinations of insured depository institutions and any affiliates may be assessed by the appropriate agency against each institution or affiliate as it deems necessary or appropriate. Insured institutions are required to submit annual reports to the FDIC and the appropriate agency (and state supervisor when applicable). FDICIA also directs the FDIC to develop with other appropriate agencies a method for insured depository institutions to provide supplemental disclosure of the estimated fair market value of assets and liabilities, to the extent feasible and practicable, in any balance sheet, financial statement, report of condition, or any other report of any insured depository institution. FDICIA also requires the federal banking regulatory agencies to prescribe, by regulation, standards for all insured depository institutions and depository institution holding companies relating, among other things, to: (i) internal controls, information systems, and audit systems; (ii) loan documentation; (iii) credit underwriting; (iv) interest rate risk exposure; and (v) asset quality.

National banks and their holding companies which have been chartered or registered or undergone a change in control within the past two years or which have been deemed by the OCC or the Federal Reserve Board, respectively, to be troubled institutions must give the OCC or the Federal Reserve Board, respectively, thirty days prior notice of the appointment of any senior executive officer or director. Within the thirty day period, the OCC or the Federal Reserve Board, as the case may be, may approve or disapprove any such appointment.

Deposit Insurance. The FDIC establishes rates for the payment of premiums by federally insured banks and thrifts for deposit insurance. A Deposit Insurance Fund ("DIF") is maintained for commercial banks and thrifts, with insurance premiums from the industry used to offset losses from insurance payouts when banks and thrifts fail. Since 1993, insured depository institutions like the Bank have paid for deposit insurance under a risk-based premium system. Assessments are calculated based on the depository institution's average consolidated total assets, less its average amount of tangible equity.

Transactions With Affiliates and Insiders. The Bank is subject to Section 23A of the Federal Reserve Act, which places limits on the amount of loans to, and certain other transactions with, affiliates, as well as on the amount of advances to third parties collateralized by the securities or obligations of affiliates. The aggregate of all covered transactions is limited in amount, as to any one affiliate, to 10% of the Bank's capital and surplus and, as to all

affiliates combined, to 20% of the Bank's capital and surplus. Furthermore, within the foregoing limitations as to amount, each covered transaction must meet specified collateral requirements.

The Bank is also subject to Section 23B of the Federal Reserve Act, which prohibits an institution from engaging in certain transactions with affiliates unless the transactions are on terms substantially the same, or at least as favorable to such institution, as those prevailing at the time for comparable transactions with nonaffiliated companies. The Bank is subject to certain restrictions on extensions of credit to executive officers, directors, certain principal shareholders, and their related interests. Such extensions of credit (i) must be made on substantially the same terms, including interest rates and collateral, as those prevailing at the time for comparable transactions with third parties and (ii) must not involve more than the normal risk of repayment or present other unfavorable features.

Dividends. A national bank may not pay dividends from its capital. All dividends must be paid out of undivided profits then on hand, after deducting expenses, including reserves for losses and bad debts. In addition, a national bank is prohibited from declaring a dividend on its shares of common stock until its surplus equals its stated

capital, unless the bank has transferred to surplus no less than one-tenth of its net profits of the preceding two consecutive half-year periods (in the case of an annual dividend). The approval of the OCC is required if the total of all dividends declared by a national bank in any calendar year exceeds the total of its net profits for that year combined with its retained net profits for the preceding two years, less any required transfers to surplus. In addition, under FDICIA, the banks may not pay a dividend if, after paying the dividend, the bank would be undercapitalized. See "Capital Regulations" below.

Branching. National banks are required by the National Bank Act to adhere to branch office banking laws applicable to state banks in the states in which they are located. Under current Mississippi, Alabama and Louisiana law, banks may open branches throughout these states with the prior approval of the OCC or other primary federal regulator. In addition, with prior regulatory approval, banks are able to acquire existing banking operations in Mississippi, Alabama and Louisiana. Furthermore, federal legislation permits interstate branching.

Community Reinvestment Act. The Community Reinvestment Act requires that, in connection with examinations of financial institutions within their respective jurisdictions, the Federal Reserve, the FDIC, the OCC, or the Office of Thrift Supervision shall evaluate the record of the financial institutions in meeting the credit needs of their local communities, including low and moderate income neighborhoods, consistent with the safe and sound operation of those institutions. These factors are also considered in evaluating mergers, acquisitions, and applications to open a branch or facility.

Other Regulations. Interest and certain other charges collected or contracted for by the Bank are subject to state usury laws and certain federal laws concerning interest rates. The Bank's loan operations are subject to certain federal laws applicable to credit transactions, such as the federal Truth-In-Lending Act, governing disclosures of credit terms to consumer borrowers; the Home Mortgage Disclosure Act of 1975, requiring financial institutions to provide information to enable the public and public officials to determine whether a financial institution is fulfilling its obligation to help meet the housing needs community it serves; the Equal Credit Opportunity Act, prohibiting discrimination on the basis of creed or other prohibited factors in extending credit; the Fair Credit Reporting Act of 1978, governing the use and provision of information to credit reporting agencies; the Fair Debt Collection Practices Act, concerning the manner in which consumer debts may be collected by collection agencies; and the rules and regulations of the various federal agencies charged with the responsibility of implementing such federal laws. The deposit operations of the Bank also are subject to the Right to Financial Privacy Act, which imposes a duty to maintain confidentiality of consumer financial records and prescribes procedures for complying with administrative subpoenas of financial records, and the Electronic Funds Transfer Act and Regulation E issued by the Federal Reserve Board to implement that Act, which governs automatic deposits to and withdrawals from deposit accounts and customers' rights and liabilities arising from the use of automated teller machines and other electronic banking services.

Capital Regulations. The federal bank regulatory authorities have adopted risk-based capital guidelines for banks and bank holding companies that are designed to make regulatory capital requirements more sensitive to differences in risk profile among banks and bank holding companies, account for off-balance sheet exposure, and minimize disincentives for holding liquid assets. The resulting capital ratios represent qualifying capital as a percentage of total

risk-weighted assets and off-balance sheet items. The guidelines are minimums, and the federal regulators have noted that banks and bank holding companies contemplating significant expansion programs should not allow expansion to diminish their capital ratios and should maintain ratios well in excess of the minimums. The current guidelines require all bank holding companies and federally-regulated banks to maintain a minimum risk-based total capital ratio equal to 8%, of which at least 6% must be Tier 1 capital. Tier 1 capital includes common shareholders' equity, qualifying perpetual preferred stock, and minority interests in equity accounts of consolidated subsidiaries, but excludes goodwill and most other intangibles and excludes the allowance for loan and lease losses. Tier 2 capital includes the excess of any preferred stock not included in Tier 1 capital, mandatory convertible securities, hybrid capital instruments, subordinated debt and intermediate term-preferred stock, and general reserves for loan and lease losses up to 1.25% of risk-weighted assets.

Under the guidelines, banks' and bank holding companies' assets are given risk-weights of 0%, 20%, 50% and 100%. In addition, certain off-balance sheet items are given credit conversion factors to convert them to asset equivalent amounts to which an appropriate risk-weight will apply. These computations result in the total risk-weighted assets. Most loans are assigned to the 100% risk category, except for first mortgage loans fully

secured by residential property and, under certain circumstances, residential construction loans, both of which carry a 50% rating. Most investment securities are assigned to the 20% category, except for municipal or state revenue bonds, which have a 50% rating, and direct obligations of or obligations guaranteed by the United States Treasury or United States Government agencies, which have a 0% rating.

The federal bank regulatory authorities have also implemented a leverage ratio, which is Tier 1 capital as a percentage of average total assets less intangibles, to be used as a supplement to the risk-based guidelines. The principal objective of the leverage ratio is to place a constraint on the maximum degree to which a bank holding company may leverage its equity capital base. The minimum required leverage ratio for top-rated institutions is 4%, but most institutions are required to maintain an additional cushion of at least 100 to 200 basis points.

FDICIA established a capital-based regulatory scheme designed to promote early intervention for troubled banks and requires the FDIC to choose the least expensive resolution of bank failures. The capital-based regulatory framework contains five categories of compliance with regulatory capital requirements, including "well capitalized," "adequately capitalized," "undercapitalized," "significantly undercapitalized," and "critically undercapitalized." To qualify as a "well capitalized" institution, a bank must have a leverage ratio of no less than 5%, a common equity Tier 1 risk-based capital ratio of no less than 6.5%, a Tier 1 risk-based ratio of no less than 8%, and a total risk-based capital ratio of no less than 10%, and the Bank must not be under any order or directive from the appropriate regulatory agency to meet and maintain a specific capital level. As of September 30, 2016, First Bancshares and The First, were qualified as "well capitalized."

Under the FDICIA regulations, the applicable agency can treat an institution as if it were in the next lower category if the agency determines (after notice and an opportunity for hearing) that the institution is in an unsafe or unsound condition or is engaging in an unsafe or unsound practice. The degree of regulatory scrutiny of a financial institution will increase, and the permissible activities of the institution will decrease, as it moves downward through the capital categories. Institutions that fall into one of the three undercapitalized categories may be required to (i) submit a capital restoration plan; (ii) raise additional capital; (iii) restrict their growth, deposit interest rates, and other activities; (iv) improve their management; (v) eliminate management fees; or (vi) divest themselves of all or part of their operations. Bank holding companies controlling financial institutions can be called upon to boost the institutions' capital and to partially guarantee the institutions' performance under their capital restoration plans.

These capital guidelines can affect First Bancshares in several ways. If First Bancshares continues to grow at a rapid pace, a premature "squeeze" on capital could occur making a capital infusion necessary. The requirements could impact First Bancshares' ability to pay dividends. The First Bancshares' present capital levels are more than adequate; however, rapid growth, poor loan portfolio performance, or poor earnings performance could change First Bancshares' capital position in a relatively short period of time.

Failure to meet these capital requirements would mean that a bank would be required to develop and file a plan with its primary federal banking regulator describing the means and a schedule for achieving the minimum capital

requirements. In addition, such a bank would generally not receive regulatory approval of any application that requires the consideration of capital adequacy, such as a branch or merger application, unless the Bank could demonstrate a reasonable plan to meet the capital requirement within a reasonable period of time.

Enforcement Powers. FIRREA expanded and increased civil and criminal penalties available for use by the federal regulatory agencies against depository institutions and certain "institution-affiliated parties" (primarily including management, employees, and agents of a financial institution, independent contractors such as attorneys and accountants, and others who participate in the conduct of the financial institution's affairs). These practices can include the failure of an institution to timely file required reports; the filing of false or misleading information; or the submission of inaccurate reports. Civil penalties may be as high as \$1,000,000 a day for such violations. Criminal penalties for some financial institution crimes have been increased to twenty years. In addition, regulators are provided with greater flexibility to commence enforcement actions against institutions and institution-affiliated parties. Possible enforcement actions include the termination of deposit insurance. Furthermore, FIRREA expanded the appropriate banking agencies' power to issue cease and desist orders that may, among other things, require affirmative action to correct any harm resulting from a violation or practice, including restitution, reimbursement, indemnifications, or guarantees against loss. A financial institution may also be ordered to restrict its growth,

dispose of certain assets, rescind agreements or contracts, or take other actions as determined by the ordering agency to be appropriate.

Effect of Governmental Monetary Policies. The earnings of the Bank are affected by domestic economic conditions and the monetary and fiscal policies of the United States government and its agencies. The Federal Reserve Board's monetary policies have had, and are likely to continue to have, an important impact on the operating results of commercial banks through its power to implement national monetary policy in order, among other things, to curb inflation or combat a recession. The monetary policies of the Federal Reserve Board have major effects upon the levels of bank loans, investments, and deposits through its open market operations in United States government securities and through its regulation of the discount rate on borrowings of member banks and the reserve requirements against member bank deposits. It is not possible to predict the nature or impact of future changes in monetary and fiscal policies.

Significant Legislation. The Riegle-Neal Interstate Banking and Branching Efficiency Act of 1994 (the "Interstate Banking Act") permits eligible bank holding companies in any state, with regulatory approval, to acquire banking organizations in any other state. The Interstate Banking Act allows banks with different home states to merge, unless a particular state opts out of the statute. In addition, the Interstate Banking Act permits national and state banks to establish de novo branches in another state if there is a law in that state which applies equally to all banks and expressly permits all out-of-state banks to establish de novo branches.

The Gramm-Leach-Bliley Act of 1999 (the "Financial Services Modernization Act") repealed the two affiliation provisions of the Glass-Steagall Act: Section 20, which restricted the affiliation of Federal Reserve Member Banks with firms "engaged principally" in specified securities activities; and Section 32, which restricts officer, director, or employee interlocks between a member bank and any company or person "primarily engaged" in specified securities activities. In addition, the Financial Services Modernization Act also contains provisions that expressly preempt any state law restricting the establishment of financial affiliations, primarily related to insurance. The general effect of the law is to establish a comprehensive framework to permit affiliations among commercial banks, insurance companies, securities firms, and other financial service providers by revising and expanding the BHCA framework to permit a holding company system to engage in a full range of financial activities through a new entity known as a Financial Holding Company. "Financial activities" is broadly defined to include not only banking, insurance, and securities activities, but also merchant banking and additional activities that the Federal Reserve, in consultation with the Secretary of the Treasury, determines to be financial in nature, incidental to such financial activities, or complementary activities that do not pose a substantial risk to the safety and soundness of depository institutions or the financial system generally.

Generally, the Financial Services Modernization Act:

- Repeals historical restrictions on, and eliminates many federal and state law barriers to, affiliations among banks, securities firms, insurance companies, and other financial service providers;

Provides a uniform framework for the functional regulation of the activities of banks, savings institutions, and their holding companies;

Broadens the activities that may be conducted by national banks, banking subsidiaries of bank holding companies, and their financial subsidiaries;

- Provides an enhanced framework for protecting the privacy of consumer information;

Adopts a number of provisions related to the capitalization, membership, corporate governance, and other measures designed to modernize the Federal Home Loan Bank system;

- Modifies the laws governing the implementation of the Community Reinvestment Act ("CRA"); and

Addresses a variety of other legal and regulatory issues affecting both day-to-day operations and long-term activities of financial institutions.

In order for a bank holding company to take advantage of the ability to affiliate with other financial services providers, that company must become a "Financial Holding Company" as permitted under an amendment to the BHCA. To become a Financial Holding Company, a company would file a declaration with the Federal Reserve, electing to engage in activities permissible for Financial Holding Companies and certifying that it is eligible to do so because all of its insured depository institution subsidiaries are well-capitalized and well-managed. In addition, the Federal Reserve must also determine that each insured depository institution subsidiary of a company has at least a "satisfactory" CRA rating. First Bancshares has chosen to become a Financial Holding Company.

The Financial Services Modernization Act also permits national banks to engage in expanded activities through the formation of financial subsidiaries. A national bank may have a subsidiary engaged in any activity authorized for national banks directly or any financial activity, except for insurance underwriting, insurance investments, real estate investment or development, or merchant banking, which may only be conducted through a subsidiary of a Financial Holding Company. Financial activities include all activities permitted under new sections of the BHCA or permitted by regulation.

A national bank seeking to have a financial subsidiary, and each of its depository institution affiliates, must be "well-capitalized" and "well-managed." The total assets of all financial subsidiaries may not exceed the lesser of 45% of a bank's total assets, or \$50 billion. A national bank must exclude from its assets and equity all equity investments, including retained earnings, in a financial subsidiary. The assets of the subsidiary may not be consolidated with the bank's assets. The bank must also have policies and procedures to assess financial subsidiary risk and protect the bank from such risks and potential liabilities.

The Financial Services Modernization Act amended the Federal Deposit Insurance Act governing subsidiaries of state banks that engage in "activities as principal that would only be permissible" for a national bank to conduct in a financial subsidiary. It expressly preserves the ability of a state bank to retain all existing subsidiaries. Because Mississippi permits commercial banks chartered by the state to engage in any activity permissible for national banks, the state bank competitors of The First are permitted to form subsidiaries to engage in the activities authorized by the Financial Services Modernization Act, to the same extent as The First. In order to form a financial subsidiary, a state bank must be well-capitalized, and the state bank would be subject to the same capital deduction, risk management and affiliate transaction rules as applicable to national banks.

The Uniting and Strengthening America by Providing Appropriate Tools Required to Intercept and Obstruct Terrorism Act of 2001 (USA Patriot Act) broadened the application of anti-money laundering regulations to apply to additional types of financial institutions, such as broker-dealers, and strengthened the ability of the U.S. Government to detect and prosecute international money laundering and the financing of terrorism. The principal provisions of Title III of the USA Patriot Act require that regulated financial institutions, including state member banks: (i) establish an anti-money laundering program that includes training and audit components; (ii) comply with regulations regarding

the verification of the identity of any person seeking to open an account; (iii) take additional required precautions with non-U.S. owned accounts; and (iv) perform certain verification and certification of money laundering risk for their foreign correspondent banking relationships. The USA Patriot Act also expanded the conditions under which funds in a U.S. interbank account may be subject to forfeiture and increased the penalties for violation of anti-money laundering regulations. Failure of a financial institution to comply with the USA Patriot Act's requirements could have serious legal and reputational consequences for the institution. The Bank has adopted policies, procedures and controls to address compliance with the requirements of the USA Patriot Act under the existing regulations and will continue to revise and update its policies, procedures and controls to reflect changes required by the USA Patriot Act and implementing regulations.

The Sarbanes-Oxley Act of 2002 addresses, among other issues, corporate governance, auditing and accounting, executive compensation, and enhanced and timely disclosure of corporate information. Section 404 of the Sarbanes-Oxley Act, and regulations adopted by the SEC require First Bancshares to include in its Annual Report, a report stating management's responsibility to establish and maintain adequate internal controls over financial reporting and management's conclusion on the effectiveness of the internal controls at year end.

From time to time, various bills are introduced in the United States Congress with respect to the regulation of financial institutions. Certain of these proposals, if adopted, could significantly change the regulation of banks

and the financial services industry. The First Bancshares cannot predict whether any of these proposals will be adopted or, if adopted, how these proposals would affect First Bancshares.

Properties

The First Bancshares' main office, which is the holding company headquarters, is located at 6480 U.S. Hwy 98 West in Hattiesburg, Mississippi. The First Bancshares operates 28 full service banking and financial services offices (which we refer to as branches) and one motor bank facility as well as four loan production offices (which we refer to as LPOs). The First Bancshares maintains leases on the following branches: Hardy Court Branch, the Gulfport Downtown Branch, the Pascagoula Branch, the Ocean Springs Branch, the Fairhope Branch, the Bay Minette Branch, the Theodore Branch, the Dauphin Island Branch, the Ocean Springs LPO, the Madison LPO, the Bayley's Corner Branch, the Brandon LPO and the Madison (LPO) (formerly of The Mortgage Connection, LLC). Management ensures that all properties, whether owned or leased, are maintained in suitable condition.

Legal Proceedings

From time to time First Bancshares and/or the Bank may be named as defendants in various lawsuits arising out of the normal course of business. At present, First Bancshares is not aware of any legal proceedings that it anticipates may materially adversely affect its business.

Market Information

Information about First Bancshares' common stock and Gulf Coast's common stock market price and dividends is set forth above in "COMPARATIVE PER SHARE MARKET PRICE INFORMATION."

The principal sources of funds to First Bancshares to pay dividends are the dividends received from The First. Consequently, dividends are dependent upon the Bank's earnings, capital needs, regulatory policies, as well as statutory and regulatory limitations. Federal and state banking laws and regulations restrict the amount of dividends and loans a bank may make to its parent company. Approval by First Bancshares regulators is required if the total of all dividends declared in any calendar year exceed the total of its net income for that year combined with its retained

net income of the preceding two years.

DESCRIPTION OF CAPITAL STOCK

General

First Bancshares has 20,000,000 shares of authorized common stock, \$1.00 par value. As of October 31, 2016 there were 5,428,017 shares of common stock issued and outstanding. First Bancshares has 10,000,000 shares of authorized preferred stock, no par value. As of October 31, 2016 there were 17,123 shares of Series CD preferred stock outstanding and 5,563,380 of Series E Preferred Stock outstanding.

Common Stock

The material terms and provisions of First Bancshares' common stock are summarized as set forth below. The following summary is not intended to be relied upon as an exhaustive list or a detailed description of the provisions discussed and is qualified in its entirety by the Mississippi Business Corporation Act ("MBCA") and by the Amended and Restated Articles of Incorporation ("Articles") and Bylaws of First Bancshares. Copies of our Articles and Bylaws are available upon request from First Bancshares. See "Where You Can Find More Information."

Voting Rights; Cumulative Voting. Pursuant to the MBCA and First Bancshares' Bylaws, each outstanding share of First Bancshares' common stock is entitled to one vote on each matter submitted to a vote. Holders of First Bancshares' common stock do not have cumulative voting rights. Article 2.6 of First Bancshares' Bylaws provides that unless otherwise required by the MBCA or the Articles, all classes or series of First Bancshares shares entitled to vote generally on a matter shall for that purpose be considered a single voting group.

Limitations on Directors' and Officers' Liability. Article 7 of First Bancshares' Articles provide that no director of First Bancshares shall be personally liable to First Bancshares or its shareholders for monetary damages for breach of fiduciary duty as a director, except for any appropriation in violation of fiduciary duties of any business

opportunity; for acts or omissions not in good faith or involving intentional misconduct or a knowing violation of law, under Section 79-4-8.33 of the MBCA, or for any transaction from which the director derived an improper personal benefit. Article 8 of First Bancshares' Bylaws provide for indemnification of directors and officers as discussed below under the caption "Indemnification."

Supermajority Voting Requirements; Business Combinations or Control Share Acquisition. The MBCA states that in the absence of a greater requirement in the articles of incorporation, a sale, lease, exchange, or other disposition of all, or substantially all, a corporation's property requires approval by a majority of the shares entitled to vote on the transaction. First Bancshares' Articles do not provide for a greater than majority vote on such a transaction.

First Bancshares' Articles do include a "control share acquisition" provision requiring any person who plans to acquire a control block of stock (generally defined as 10%) to obtain approval by the majority vote of disinterested shareholders or the affirmative vote of 75% of eligible members of the board of directors in order to vote the control shares. If a control share is made without first obtaining this approval, all stock beneficially owned by the acquiring person in excess of 10% will be considered "excess stock" and will not be entitled to vote.

Any person who proposes to make or has made a control share acquisition may deliver a statement to First Bancshares describing the person's background and the control share acquisition and requesting a special meeting of shareholders of First Bancshares to decide whether to grant voting rights to the shares acquired in the control share acquisition. The acquiring person must pay the expenses of this meeting. If no request is made, the voting rights to be accorded the shares acquired in the control share acquisition shall be presented to the next special or annual meeting of the shareholders. If the acquiring person does not deliver his or her statement to First Bancshares, it may elect to repurchase the acquiring person's shares at fair market value. Control shares acquired in a control share acquisition are not subject to redemption after an acquiring person's statement has been filed unless the shares are not accorded full voting rights by the shareholders.

Removal of Directors. Article 11 of First Bancshares' Articles provide that no director of First Bancshares may be removed except by the shareholders for cause; provided that directors elected by a particular voting group may be removed only by the shareholders in that voting group for cause. Article 3.3 of First Bancshares' Bylaws provides further that removal action may only be taken at a shareholders' meeting for which notice of the removal action has been given. A removed director's successor may be elected at the same meeting to serve the unexpired term.

Board of Directors. Under Article 10 of First Bancshares' Articles, the Board of Directors of First Bancshares is divided into three classes — Class I, Class II, and Class III as nearly equal in numbers of directors as possible. Article 3.2 of the Bylaws establishes a minimum of 9 directors, and a maximum of 25 directors. At present there are a total of 9 directors divided as follows: 3 Class I directors, 3 Class II directors, and 3 Class III directors. The terms of the Class I directors will expire at the 2017 Annual Shareholders' Meeting. The terms of the Class II directors will expire at the 2018 Annual Shareholders' Meeting. The terms of the Class III directors will expire at the 2019 Annual Shareholders' Meeting.

Vacancies in the Board of Directors. Under First Bancshares' Bylaws, any vacancy, may be filled for the unexpired term by the affirmative vote of a majority of the remaining directors, provided that, if the vacant office was held by a director elected by a particular voting group, only the shares of that voting group or the remaining directors elected by that voting group shall be entitled to fill the vacancy; and further provided that, if the vacant office was held by a director elected by a particular voting group, the other remaining directors or director (elected by another voting group or groups) may fill the vacancy during an interim period before the shareholders of the vacated director's voting group act to fill the vacancy.

Amendment of the Articles of Incorporation or Bylaws. Under the MBCA, the board of directors has the power to amend or repeal the bylaws of a Mississippi corporation such as First Bancshares, unless such power is expressly reserved for the shareholders. Article 10 of First Bancshares' Bylaws provide that the Bylaws may be amended, altered, or repealed by the board of directors, except with regard to the provisions establishing the number of directors and process for removal of directors, which may only be amended by the affirmative vote of holders of outstanding shares entitled to more than 80% of the votes entitled to be cast on the alteration, amendment, or repeal.

Under the MBCA, amendments to the Articles that result in dissenters' rights require the affirmative vote of a majority of the outstanding shares entitled to vote on the amendment. Otherwise, the Articles may be amended by a

majority vote of the shares present at a meeting where a quorum is present.

Special Meetings of Shareholders. Under First Bancshares' Bylaws, special meetings of the shareholders, for any purpose or purposes, may be called by the Chairman of the Board, the Chief Executive Officer, or the board of directors, or within 75 days of a written request of shareholders holding in the aggregate 10% or more of the total voting power entitled to vote on an issue. Such a request must state the purpose or purposes of the proposed special meeting.

Shareholder Proposals and Nominations. First Bancshares' Bylaws provide procedures that must be followed to properly nominate candidates for election as directors. At least 60 days prior to the Annual Meeting, or 10 days after notice of the Annual Meeting is provided to shareholders, notice must be given to the Secretary of First Bancshares if a shareholder intends to nominate an individual for election to the Board of Directors or propose any shareholder action. These Bylaw provisions also require information to be supplied about both the shareholder making such nomination or proposal and the person nominated.

Indemnification. Section 79-4-8.50 through 79-4-8.59 of the MBCA provide First Bancshares with broad powers and authority to indemnify its directors and officers and to purchase and maintain insurance for such purposes and mandate the indemnification of First Bancshares' directors under certain circumstances. First Bancshares' Articles also provide it with the power and authority, to the fullest extent legally permissible under the MBCA, to indemnify its directors and officers, persons serving at the request of First Bancshares or for its benefit as directors or officers of another corporation, and persons serving as First Bancshares' representatives or agents in certain circumstances. Pursuant to such authority and the provisions of First Bancshares' Articles, First Bancshares intends to purchase insurance against certain liabilities that may be incurred by it and its officers and directors.

The Articles of First Bancshares contain a provision which, subject to certain exceptions described below, eliminates the liability of a director or officer to it or its shareholders for monetary damages for any breach of duty as a director or officer. This provision does not eliminate such liability to the extent the director or officer engaged in willful misconduct or a knowing violation of criminal law or of any federal or state securities law, including, without limitation, laws proscribing insider trading or manipulation of the market for any security.

Under its Bylaws, First Bancshares must indemnify any person who becomes subject to a lawsuit or proceeding by reason of service as a director of First Bancshares or The First or any other corporation which the person served as a director at the request of First Bancshares. Except as noted in the next paragraph, directors are entitled to be indemnified against judgments, penalties, fines, settlements, and reasonable expenses actually incurred by the director in connection with the proceeding. Directors are also entitled to have First Bancshares advance any such expenses prior to final disposition of the proceeding, upon delivery of (1) a written affirmation by the director of his good faith belief that the standard of conduct necessary for indemnification has been met, and (2) a written undertaking to repay the amounts advanced if it is ultimately determined that the standard of conduct has not been met.

Under the Bylaws, indemnification will be disallowed if it is established that the director appropriated, in violation of his duties, any business opportunity of First Bancshares, engaged in acts or omissions not in good faith or which involve intentional misconduct or a knowing violation of law, approved dividends or other distributions in violation of the MBCA, or engaged in any transaction in which the director derived an improper personal benefit. In addition to the Bylaws of First Bancshares, the MBCA requires that a corporation indemnify a director who was wholly successful, on the merits or otherwise, in the defense of any proceeding to which he or she was a party because he is or was a director of the corporation against reasonable expenses incurred by him or her in connection with the proceeding. The MBCA also provides that, upon application of a director, a court may order indemnification if it determines that the director is entitled to such indemnification under the applicable standard of the MBCA.

The board of directors of First Bancshares also has the authority to extend to officers, employees, and agents the same indemnification rights held by directors, subject to all of the accompanying conditions and obligations. The Board of Directors has extended or intends to extend indemnification rights to all of its executive officers.

Insofar as indemnification for liabilities arising under the Securities Act may be permitted to directors, officers,

and controlling persons of First Bancshares pursuant to the Articles or Bylaws, or otherwise, First Bancshares has been advised that, in the opinion of the SEC, such indemnification is against public policy as expressed in the Act and is, therefore, unenforceable.

Preferred Stock

Our Articles authorize our board of directors to establish one or more series of preferred stock. Our board of directors, without further approval of the shareholders, has the authority to fix the dividend rights and terms, conversion rights, voting rights, redemption rights and terms, liquidation preferences, sinking funds and any other rights, preferences, privileges and restrictions applicable to each series of preferred stock.

Series CD Preferred Stock. We have designated 17,123 shares of our preferred stock as Series CD (the “CDCI Preferred Shares”) which were issued as part of the CDCI.

Dividends Payable on Shares of the CDCI Preferred Shares. The CDCI Preferred Shares entitle the holder to an annual dividend of 2% of the liquidation value of the shares, payable quarterly in arrears. Dividends on the CDCI Preferred Shares are cumulative.

Priority of Dividends; Consequences of Missed Dividends. With respect to the payment of dividends, the CDCI Preferred Shares will rank senior to our common stock and all other equity securities designated as ranking junior to the CDCI Preferred Shares (“junior stock”), and will rank at least equally with all other equity securities designated as ranking on a parity with the CDCI Preferred Shares (“parity stock”).

Restriction on Dividends. Generally, so long as any CDCI Preferred Shares remain outstanding, neither we nor any of our subsidiaries may pay any per share dividend or distribution on common stock or other capital stock or equity securities at a rate that is in excess of 100% of the aggregate per share dividends and distributions for the immediately prior fiscal year, provided that no increase in the aggregate amount of dividends or distributions on common stock shall be permitted for any twelve (12) month period, including, without limitation, as a result of any dividends or distributions paid in shares of common stock, any stock split or any similar transaction.

Additional Restrictions. Our ability to declare or pay dividends or repurchase our common stock, or other equity or capital securities, or any trust preferred securities will be subject to restrictions in the event that we fail to declare and pay (or set aside for payment) full dividends on the CDCI Preferred Shares.

Voting Rights. In general, the holders of the CDCI Preferred Shares shall not have any voting rights except as set forth in the terms of the CDCI Preferred Shares or as otherwise required by law.

Preemptive Rights. The CDCI Preferred Shares do not have preemptive rights as to any of our securities, or any warrants, rights or options to acquire any of our securities.

Liquidation Rights. In the event that we voluntarily or involuntarily liquidate, dissolve or wind up our affairs, holders of the CDCI Preferred Shares shall be entitled to receive for each share of CDCI Preferred Shares, out of our assets or proceeds thereof available for distribution to shareholders, subject to the rights of any creditors, payment in full in an amount equal to the liquidation amount per share, which is \$1,000 per share, and the amount of any accrued and unpaid dividends on each share. Holders of CDCI Preferred Shares would be entitled to receive this amount before any distribution of assets or proceeds to holders of our common stock and any other stock ranking junior to the CDCI Preferred Shares. If in any distribution described above our assets are not sufficient to pay in full the amounts payable with respect to the outstanding shares of CDCI Preferred Shares and any outstanding shares of parity stock, holders of the CDCI Preferred Shares and parity stock would share ratably in any such distribution in proportion to the full respective distributions to which they are entitled.

For purposes of the liquidation rights of the CDCI Preferred Shares, neither the sale, conveyance, exchange or transfer of all or substantially all of our property and assets, nor the consolidation or merger by us with or into any other corporation or by another corporation with or into us, will constitute a liquidation, dissolution or winding-up of our affairs.

Series E Preferred Stock. The board of directors has established out of the authorized preferred stock a series of preferred stock entitled Series E Mandatorily Convertible Non-Cumulative Non-Voting Perpetual Preferred Stock.

Mandatory Conversion. The Series E Preferred Stock will convert into shares of common stock on the third business day following the approval by the holders of our common stock of the conversion as required by the applicable NASDAQ rules. Assuming shareholder approval is obtained, the number of shares of common stock into which each share of Series E Preferred Stock shall be converted will be the same number of shares of Series E Preferred Stock outstanding.

In connection with obtaining shareholder approval for the issuance of the common stock resulting from the conversion of the Series E Preferred Stock, First Bancshares filed preliminary proxy materials on Schedule 14A on October 24, 2016 and plans to file definitive proxy materials which will be sent to shareholders of the Company as soon as practicable following approval by the SEC, and intends to hold a special meeting of its shareholders on December 7, 2016 for this purpose.

Dividends. The Series E Preferred Stock carries a non-cumulative cash dividend at a per annum rate equal to 6%. The dividend will not be declared or paid if the Series E Preferred Stock is converted into shares of common stock before April 12, 2017. Beginning on June 30, 2017, if the Series E Preferred Stock is still outstanding, dividends will be payable semi-annually in arrears on June 30 and December 31, if declared by the Board. If all dividends payable on the Series E Preferred Stock have not been declared and paid for an applicable dividend period, First Bancshares shall not declare or pay any dividends on any stock which ranks junior to the Series E Preferred Stock, or redeem, purchase or acquire any stock which ranks *pari passu* or junior to the Series E Preferred Stock, subject to customary exceptions. If all dividends payable on the Series E Preferred Stock have not been paid in full, any dividend declared on stock which ranks *pari passu* to the Series E Preferred Stock shall be declared and paid pro rata with respect to the Series E Preferred Stock and such *pari passu* stock.

Participation in Dividends on Common Stock. So long as any shares of Series E Preferred Stock are outstanding, if we declare any dividends on our common stock or make any other distribution to our common shareholders, the holders of the Series E Preferred Stock will be entitled to participate in such distribution on an as-converted basis.

Ranking. The Series E Preferred Stock ranks senior to all of First Bancshares' common stock, *pari passu* to the Series CD Preferred Stock, and junior to First Bancshares' outstanding trust preferred securities. The Series E Preferred Stock will rank *pari passu* or senior to all future issuances of First Bancshares' preferred stock.

Voting Rights. Shares of Series E Preferred Stock generally have no voting rights other than as required by law except that the approval of the holders of a majority of the Series E Preferred Stock, voting as a single class, will be required with respect to certain matters, including (i) charter amendments adversely affecting the rights, preferences or

privileges of the Series E Preferred Stock and (ii) the creation of any series of senior equity securities.

Liquidation. In the event First Bancshares liquidates, dissolves or winds up, the holders of the Series E Preferred Stock shall be entitled to liquidating distributions equal to the greater of \$17.75 per share plus any declared and unpaid dividends, and the amount to which such holders would be entitled if the Series E Preferred Stock were converted into common stock immediately before such liquidation (before any distributions to holders of any junior securities).

Redemption. The Series E Preferred Stock will not be redeemable at the option of First Bancshares or any holder of Series E Preferred Stock at any time.

Anti-dilution Provisions. The conversion price of the Series E Preferred Stock is also subject to customary anti-dilution adjustments, including in connection with stock dividends and distributions, stock splits, subdivisions and combinations, distributions of cash, debt or assets and tender offers and exchange offer.

Preemptive Rights. Holders of the Series E Preferred Stock have no preemptive rights.

Fundamental Change. If First Bancshares enters into a transaction constituting a consolidation or merger of First Bancshares or similar transaction or any sale or other transfer of all or substantially all of the consolidated assets of First Bancshares and its subsidiaries, taken as a whole (in each case pursuant to which its common stock will be converted into cash, securities or other property) or for certain reclassifications or exchanges of its common stock, then each share of Series E Preferred Stock will convert, effective on the day on which such share would automatically convert into common stock of First Bancshares, into the securities, cash and other property receivable

in the transaction by the holder of the number of shares of common stock into which such share of Series E Preferred Stock would then be convertible, assuming receipt of any applicable regulatory approval..

Financial Statements of First Bancshares

The (i) audited consolidated financial statements of First Bancshares as of December 31, 2015 and December 31, 2014 and for each of the years in the three-year period ended December 31, 2015 and (ii) unaudited consolidated financial statements of First Bancshares as of and for the nine-month period ended September 30, 2016, are attached hereto as Annex E.

Management's Discussion and Analysis of Financial Condition and Results of Operations of First Bancshares

First Bancshares Management's Discussion and Analysis of Financial Condition and Results of Operation (i) as of December 31, 2015 and December 31, 2014 and for each of the years in the three-year period ended December 31, 2015 and (ii) as of and for the nine-month period ended September 30, 2016, are attached hereto as Annex F.

Changes In and Disagreements with Accountants on Accounting and Financial Disclosure

During each of First Bancshares' fiscal years ended December 31, 2015 and December 31, 2014, there were no changes in or disagreements with First Bancshares' accountants on Accounting and Financial Disclosures.

CERTAIN INFORMATION CONCERNING GULF COAST

General

Gulf Coast is a Florida-chartered bank established in 2003. Its main office is located at 40 N. Palafox St., Pensacola, FL 32502 (Telephone Number: (850) 434-9300). As of September 30, 2016, Gulf Coast had total assets of approximately \$135.42 million, deposits of approximately \$116.62 million and total stockholders' equity of approximately \$5.79 million. Gulf Coast operates five banking offices in Escambia and Santa Rosa Counties, Florida. Gulf Coast's deposits are insured by the FDIC.

Gulf Coast Activities

Gulf Coast is a commercial bank that serves the needs of residents of Escambia and Santa Rosa Counties, Florida and contiguous counties. Gulf Coast operates as a community bank with directors, management and personnel known to and who live in the community.

Gulf Coast focuses its marketing efforts on consumer banking products, commercial services to small businesses, and residential mortgage lending. Gulf Coast offers traditional retail deposit products with a strong emphasis on relationships with customers, both individuals and businesses. Gulf Coast focuses on the banking needs of the markets of Escambia and Santa Rosa Counties, Florida and contiguous counties. As a community bank, Gulf Coast believes that Gulf Coast provides more personalized service than is generally available in the markets it serves. Gulf Coast offers the following types of products and services:

personal checking and or savings accounts;

money market accounts;

NOW accounts;

certificates of deposit;

individual retirement accounts;

bill pay;

stop payment;

telephone banking;

commercial checking or savings accounts;

commercial money market accounts;

Internet banking;

ATM service;

safe deposit boxes;

cashier's checks;

Remoted deposit capture;

collection of monetary items;

43

bank-by-mail service;

night depository;

ATM cards;

credit cards (through another agency/correspondent bank);

automatic payroll deposit; and

automatic bill payment transfers (ACH).

Gulf Coast offers the following types of commercial and consumer loan products and services:

real estate loans (residential loans, construction and land development loans, real estate investment loans and owner occupied commercial real estate loans);

equipment financing loans;

accounts receivable and inventory financing loans;

revolving lines of credit;

lmerchant services;

Internet cash management;

commercial loans;

personal loans;

automobile loans;

home equity loans; and

44

Competition

The banking business is highly competitive, and Gulf Coast's profitability is dependent on the ability to compete in its market area. Gulf Coast competes with other commercial banks, savings banks, savings and loan associations, credit unions, finance companies, certain other non-financial entities, and certain governmental organizations which may offer more favorable financing than Gulf Coast offers. Gulf Coast expects competition from both financial and non-financial institutions to continue. Gulf Coast's competitive edge is built upon superior customer service and its long-term deposit and loan relationships.

Facilities

Gulf Coast operates from its main branch located at 40 N. Palafox St., Pensacola, Florida 32502. The following table sets forth specific information on Gulf Coast's offices:

Real Estate		
Banking Office	Owned or Leased	Location
Gulf Breeze	Owned	2871 Gulf Breeze Parkway, Gulf Breeze, FL 32561
Pace Branch	Owned	4911 Highway 90, Pace, Florida 32571
Main Office	Leased	40 North Palafox Street, Pensacola, FL 32502
Cordova Branch	Owned	1177 College Boulevard, Pensacola, FL 32504
Nine Mile Road Branch	Owned	1554 West Nine Mile Road, Pensacola, FL 32534

All of Gulf Coast's branches offer full banking operations provided by a full complement of lobby staff (including tellers, customer service representatives, and lending professionals on site), safe-deposit boxes, an automated teller machine, and drive-through banking services.

Employees

As of September 30, 2016, Gulf Coast had 50 full-time and 1 part-time employees. Management of Gulf Coast considers its relations with its employees to be good.

Legal Proceedings

Gulf Coast is from time-to-time involved in legal proceedings arising in the normal course of business. Other than proceedings incidental to its business, Gulf Coast is not a party to, nor is any of its property the subject of, any material legal proceedings. Although the amount of any ultimate liability with respect to such matters cannot be determined, in the opinion of Gulf Coast's management, any such liability will not have a material adverse effect upon Gulf Coast's financial condition, results of operations, or cash flows.

THE MERGER

The discussion in this proxy statement/prospectus of the merger and the principal terms of the merger agreement is subject to, and qualified in its entirety by reference to, the merger agreement, a copy of which accompanies this proxy statement/prospectus as Annex A. References in this discussion and elsewhere in this proxy statement/prospectus to the "merger" are to the merger of Gulf Coast into The First, unless the context clearly indicates otherwise.

General

On September 7 and October 7, 2016, Gulf Coast's board of directors and First Bancshares' board of directors, respectively, unanimously approved the merger agreement and the merger. If all of the conditions set forth in the merger agreement are satisfied or waived (to the extent permitted by law) and if the merger is otherwise completed, Gulf Coast will merge with and into The First, and The First will be the surviving banking association.

Under the terms of the merger agreement, holders of Gulf Coast common stock will receive in exchange for each outstanding share of Gulf Coast common stock that is issued and outstanding (other than shares held by First Bancshares or Gulf Coast, or, shares with respect to which the holders thereof have perfected dissenters' rights) their pro rata portion of the number of whole shares of First Bancshares common stock obtained by (i) dividing \$0.50 by

(ii) the average of the closing prices of First Bancshares common stock as reported on the Nasdaq Stock Market on each of the thirty (30) trading days ending five (5) business days prior to the closing of the transaction and (iii) multiplied by the total number of shares of Gulf Coast common stock issued and outstanding. The total consideration to be paid in connection with the merger will be \$2,257,718.50, as more specifically described in this document.

First Bancshares will not issue any fractional shares of First Bancshares common stock in the merger. Instead, a holder of Gulf Coast common stock who otherwise would have received a fraction of a share of First Bancshares common stock will receive an amount in cash. This cash amount will be determined by multiplying the fraction of a share of First Bancshares common stock to which the holder would otherwise be entitled by the average closing price of one share of First Bancshares common stock as reported on the NASDAQ for the 30 trading days prior to the 5th business day prior to the date on which the merger is completed, and then rounded to the nearest cent.

Background of the Merger

Gulf Coast opened for business in 2003, as a state chartered commercial bank serving Pensacola, FL and surrounding markets. Through the following years, Gulf Coast experienced good growth and financial performance as it grew to five offices in Escambia and Santa Rosa Counties and over \$275 million in total assets.

When the financial and market crisis began and the economic recession developed in Gulf Coast's market area in 2008, Gulf Coast's lending slowed and the quality of its loan portfolio began to deteriorate. Earnings decreased as loan losses grew, and Gulf Coast's capital shrank rapidly. Gulf Coast was further impacted by the BP Deepwater Horizon spill (the "BP Oil spill") in the Gulf of Mexico in April 2010 which also impacted multiple financial institutions in the Florida Panhandle.

Gulf Coast reported its first loss of \$1.7 million in 2008 and has lost money in every year since then. All of Gulf Coast's losses have been due to Gulf Coast's asset quality problems due to the adverse market conditions and the BP Oil spill. Gulf Coast's net losses peaked at \$12.1 million in 2010, the same year that non-performing assets peaked at nearly 23% of assets. On January 29, 2010, Gulf Coast entered into a Consent Order (the "Order") with the FDIC and the OFR. The Order required Gulf Coast to take a number of measures related to the resolution of problem assets, increasing regulatory capital, improving earnings, and other actions to improve Gulf Coast's financial condition. The Order also required Gulf Coast to achieve and maintain a Tier 1 leverage capital ratio of at least 8% of total assets and a total risk based capital ratio of at least 12%. The Order was modified in May 2015 to include deficiencies in Bank Secrecy Act and Information Technology, which have subsequently been addressed and improved substantially.

Since 2010, Bank management and the board have spent considerable time and effort to achieve compliance with the Order, including a capital offering that raised nearly \$3.2 million in additional capital in 2014 at a common equivalent price of \$1.00 per share.

While asset quality has slightly improved, Gulf Coast has not established sustainable recurring earnings to enhance its regulatory capital ratios and remains in non-compliance of certain mandates of the Order, particularly regulatory capital and earnings. At June 30, 2016, Gulf Coast's Tier 1 leverage capital ratio was 4.46%, and the total risk based capital ratio was 6.43%, both below the Order mandates of 8% and 12%, respectively. Non-performing assets, primarily Other Real Estate Owned ("OREO"), were 16.58% of total assets at June 30, 2016.

The Board has determined that it will be unable to get the Order lifted without additional capital and further resolution of OREO properties. Management determined that Gulf Coast needs more than \$6 million in capital to comply with the Order and provide for future growth. One source of capital was expected to be potential proceeds from the BP Oil spill as to which Gulf Coast had filed suit against BP and others related to the spill. Gulf Coast's legal advisers in this matter had advised Gulf Coast that a claim of up to \$15 million, inclusive of punitive damages, may be justified given Gulf Coast's losses that could be attributed to the spill. While many affected parties had begun receiving settlements from BP in 2012, no financial institutions had yet to receive settlements in late 2015 and Gulf Coast's legal advisers expected it could take several more years before Gulf Coast's case was considered or any settlement received. Recognizing these challenges, the board has spent great time and effort since the Order was issued considering and carefully analyzing a number of strategic alternatives, including various potential capital raises and merger transactions.

Gulf Coast has from time to time been contacted by potential investors and possible merger partners over this time period. While none of these inquiries resulted in any offers, the board asked management to seek out advice on Gulf Coast's ability to successfully achieve either a capital infusion or merger transaction given its current circumstances. Gulf Coast management contacted Monroe Financial Partners, Inc. ("Monroe") in mid July 2015 to discuss Gulf Coast's position. Representatives of Monroe discussed with the Bank board the difficult environment for raising capital or consummating mergers for banks with significant asset quality problems and noted that any successful transactions that had taken place were at significant discounts to book value or were highly dilutive to existing shareholders.

On October 23, 2015, the board officially hired Monroe to perform a formal "market check" to identify and negotiate with potential strategic partners, including financial institutions and potential investors regarding an affiliation with Gulf Coast and the potential terms for such an affiliation. In late 2015 and early 2016, Monroe contacted 21 parties that it believed may have an interest in a transaction with Gulf Coast. Confidentiality agreements were signed by four of the parties, including FBMS, and the parties were provided with a detailed package of financial information on Gulf Coast. Two of the interested parties met with the Gulf Coast management team in Pensacola in February 2016 but ultimately did not make any formal offer for Gulf Coast.

On March 1, 2016, M. Ray (Hoppy) Cole, Jr., Vice Chairman, President and CEO of FBMS, and four other FBMS representatives, including their financial adviser, met with the Gulf Coast management team including Walter J. Ritchie (Chairman, President and CEO), Thomas R. Bailey (Chief Financial Officer), Debi Williams (Chief Operating Officer) and a representative from Monroe, its financial adviser. At that meeting, the FBMS representatives expressed their interest in putting an offer together for Gulf Coast but identified several issues in completing an offer. Those issues included how to value Gulf Coast given the likely need to further write down problem assets including OREO, purchase accounting adjustments potential write downs of Gulf Coast's branches, and the capital needs of Gulf Coast. Mr. Ritchie expressed an interest in considering an offer from FBMS but indicated that it needed to be a minimum of \$1 per share, the value of the most recent stock offering. Over the next several weeks, FBMS reviewed Gulf Coast's information and held discussions with its management and financial adviser.

On April 20, 2016, Mr. Cole and two other FBMS representatives, including their financial adviser, met with the Gulf Coast management team, Richard Baker (a Gulf Coast director), and a representative from Monroe. At that meeting, FBMS discussed its preliminary review of Gulf Coast including information from third party firms regarding the costs to divest Gulf Coast's OREO properties and the indicated write downs on Gulf Coast's branch offices. FBMS provided an initial indication of value of \$0.50 per share, which was below the minimum level previously indicated by Mr. Ritchie. FBMS also indicated that it was amenable to preserving the BP settlement for Gulf Coast's shareholders as it had done for two of their previous acquired banks and that this offer could be in cash or stock. Mr. Ritchie expressed a greater interest in receiving FBMS stock with the potential for future value increases for Gulf Coast shareholders. He also indicated that Gulf Coast had a board meeting the following week and would discuss the FBMS preliminary offer at that meeting.

On April 27, 2016, the FBMS preliminary offer was discussed at Gulf Coast's regularly scheduled board meeting. At that meeting, Monroe made a presentation to the board outlining the process it had undertaken to solicit an offer, certain financial and market information regarding FBMS and a valuation of Gulf Coast common stock considering

current market conditions. Following Monroe's presentation and exit from the meeting, Mr. Ritchie informed the board that it had received a settlement offer from BP of approximately \$101,000, well below the amount that had been anticipated previously in discussions with their legal adviser on that matter. This legal adviser noted that there had been several adverse court rulings, in a ruling excluding punitive damages, relating to financial institutions and that most of their financial institution clients were reluctantly accepting their respective settlement offers. This legal adviser also reassured Gulf Coast that it was willing to continue to pursue a higher settlement but would need additional upfront funds to continue that effort. After much discussion, the board authorized Mr. Ritchie to solicit from and enter into a formal letter of intent (the "LOI") with FBMS should the terms be as previously indicated.

FBMS subsequently submitted a preliminary LOI on April 29, 2016 which reflected a price of \$0.50 per share in FBMS stock for all of the common and common equivalent shares of Gulf Coast. The offer was subject to satisfactory completion of FBMS's due diligence and proposed an exclusivity period of 90 days, among other

conditions. Mr. Ritchie board consulted with Smith Mackinnon, PA, its legal adviser, and Monroe, its financial adviser, regarding the financial and legal terms of the LOI. Following additional negotiations, FBMS submitted a revised LOI on May 5, 2016 which was also signed by Gulf Coast on May 5, 2016.

Over the next three months, FBMS conducted its due diligence review of Gulf Coast with much of this diligence related to the potential divestiture of Gulf Coast's OREO properties to an unrelated third party. Gulf Coast also conducted its due diligence review of FBMS including an on-site visit by Mr. Ritchie and Ms. Williams on June 24, 2016. Concurrent with the respective due diligence reviews, Gulf Coast and FBMS began negotiations of the Agreement. In mid July 2016, FBMS sent a draft of the Agreement to Gulf Coast's legal counsel.

On July 29, 2016, Mr. Cole and the FBMS financial adviser met with the Gulf Coast management team and Monroe (via telephone) to update the due diligence process and the status of negotiations related to the Agreement. At that meeting, Mr. Cole asked for an extension of the LOI noting that the exclusivity period was set to expire within the week. Mr. Cole informed the parties that it was in advanced negotiations to acquire another bank and conducting a stock offering to supplement its capital position. Mr. Cole indicated that neither of these transactions would preclude FBMS from moving forward on the transaction with Gulf Coast but expressed a desire to be able to announce all three transactions simultaneously. Mr. Cole requested a 30 day extension to the LOI with a target announcement date for all three transactions of September 9, 2016. On August 1, 2016, FBMS submitted a revised LOI requesting an extension of the exclusivity period. All other terms of the original LOI remained as agreed to in the original LOI executed on May 5, 2016. Gulf Coast's board accepted the terms of the revised LOI on August 3, 2016.

Over the next six weeks, FBMS, Gulf Coast and their advisers negotiated the terms of the Agreement and reviewed the related disclosure schedules. During this time period, Gulf Coast's directors had various discussions, including with Bank counsel and Monroe, regarding the status of the merger negotiations, agreement issues, employee issues, and related matters. At a special meeting on September 7, 2016, the board met, along with a Monroe representative and Bank counsel, to review the terms of the proposed Agreement and related agreements. At the meeting, Gulf Coast's legal counsel reviewed a memorandum relating to the board's fiduciary duties and responsibilities under law. The Monroe representative reviewed information relating to its fairness opinion and then advised that Monroe was issuing its oral opinion to the effect that the consideration in the proposed transaction was fair, from a financial point of view, to Gulf Coast's shareholders. Gulf Coast's legal counsel then reviewed the most recent draft of the proposed Agreement and related transaction documents. Gulf Coast's legal counsel also reviewed a draft of proposed board resolutions relating to the Merger, the Agreement and related issues. Following extensive discussion, the board approved the terms of the draft Agreement and the transactions contemplated by the Agreement and authorized management and Gulf Coast's advisers to complete the negotiation process and sign the final Agreement. The Board also recommended that Bank shareholders vote to approve the Agreement and the Merger. The FBMS board met on October 7, 2016 and approved the terms of the Agreement with Gulf Coast.

Over this same time period, FBMS continued its negotiations to acquire Iberville Bank, a \$258 million in assets bank based in Plaquemine, LA ("Iberville"), and a potential stock offering. FBMS originally intended to announce all three transactions on September 9, 2016 which was then revised to September 13, 2016. However in mid August 2016, the Baton Rouge, LA market, including Iberville's primary market, experienced unprecedented catastrophic flooding

causing a delay in the Iberville negotiations. While none of these events impacted the transaction with Gulf Coast, FBMS asked to delay the announcement of the Agreement while it finalized its negotiations with Iberville and completed its stock offering.

On October 12, 2016, the Agreement was formally signed by FBMS and Gulf Coast. A joint press release was issued, announcing the execution of the Agreement and the terms of the Merger on October 14, 2016. The press release also included the announcement of an agreement by FBMS to acquire Iberville Bank in a \$31.1 million all cash transaction and the private placement of approximately \$63.3 million in FBMS capital stock.

Reasons for the Merger and Recommendation of Gulf Coast's Board of Directors

The Gulf Coast board of directors, with the assistance of its financial and legal advisors, evaluated the financial, legal and market considerations bearing on the decision to recommend the Merger. The terms of the Merger, including the Merger consideration, are a result of arm's-length negotiations between the representatives of Gulf

Coast and FBMS. In reaching its conclusion that the Agreement is in the best interest of Gulf Coast and its shareholders, the Board of Directors considered a number of factors, as noted below:

The value of the per share consideration to be received by Gulf Coast shareholders exceeds the value of Gulf Coast as an independent entity and the FBMS shares to be received provide a source of liquidity to Gulf Coast shareholders.

Monroe has provided a fairness opinion that the consideration to be received by the Shareholders is fair from a financial point of view.

It will be difficult for Gulf Coast to remain an independent community bank without raising capital to comply with the Consent Order and to provide opportunities for growth. Any capital that Gulf Coast raises will be further dilutive to the current Shareholders. As of June 30, 2016, Gulf Coast's Tier 1 leverage capital ratio was 4.46% and its total risk based capital ratio was 6.43%, which are both below the mandate in the Order of 8% and 12%, respectively.

Gulf Coast could be subject to additional, heightened regulatory enforcement actions, including possible receivership, if additional capital is not raised or if Gulf Coast's financial condition deteriorates

It will be difficult to remain an independent community bank in the current regulatory environment and enhance shareholder value in the face of limited earnings capacity, high level of OREO and regulatory pressure to raise capital levels in connection with the Order.

The current and prospective economic, regulatory, competitive and interest rate environment facing the financial services industry generally, and independent community banks like Gulf Coast in particular remains challenged with new capital requirements emerging as well as higher compliance-related costs due to new consumer protection regulations.

Gulf Coast's customers will have a wider range of products and services to achieve their financial goals.

FBMS has strong financial performance and the regulatory standing to undertake the transaction. FBMS also has the resources to further our growth in the market and expansion in contiguous markets.

The assessment of the likelihood that the merger would be completed in a timely manner without regulatory conditions or requirements.

The review by the Gulf Coast board of directors with its legal and financial advisors of the provisions of the Agreement.

During its deliberations, the Board of Directors did not assign any relative or specific weight to any of the factors that are discussed above, and individual members of the Board of Directors may have given different weights to different factors as they were discussed. In addition, the discussion of the information above and factors considered is not intended to be an exhaustive list of the factors considered.

The Board believes that the merger is fair to and in the best interest of the shareholders. Accordingly, the Board has approved the merger agreement and the transactions contemplated thereby (including the merger), and recommends that you vote “FOR” the proposal to approve the merger agreement and the transactions contemplated thereby (including the merger).

In considering the recommendation of the Gulf Coast board of directors with respect to the proposal to adopt the merger agreement, holders of Gulf Coast common stock should be aware that Gulf Coast’s directors and executive officers have interests in the merger that may be different from, or in addition to, those of other Gulf Coast

shareholders. The board of directors was aware of and considered these interests, among other matters, in evaluating and negotiating the merger agreement and the merger (to the extent such interests existed at that time), and in recommending that the merger agreement be adopted by the holders of Gulf Coast common stock. See “THE MERGER—Interests of Certain Gulf Coast Directors and Executive Officers in the Merger.”

It should be noted that this explanation of the reasoning of Gulf Coast’s board of directors and other information presented in this section is forward-looking in nature and, therefore, should be read in light of the factors discussed under the heading “SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS.”

Opinion of Gulf Coast’s Financial Advisor

Gulf Coast retained Monroe to act as its financial advisor in connection with the merger and participated in certain negotiations leading to the merger. As part of its engagement, Gulf Coast requested that Monroe provide it an opinion as to the fairness, from a financial point of view, of the merger consideration to be received by the shareholders of Gulf Coast. Monroe is a nationally-recognized investment banking firm that provides specialized corporate finance and investment research services to financial institutions. In the ordinary course of its investment banking business, Monroe is regularly engaged in the valuation of financial institutions and their securities in connection with mergers and acquisitions and other corporate transactions. Gulf Coast selected Monroe as its financial advisor based upon Monroe’s qualifications, expertise, and reputation in such capacity.

On October 12, 2016, Monroe rendered its written fairness opinion to the board of directors of Gulf Coast that, as of such date and based upon and subject to various matters set forth in its opinion, the merger consideration was fair, from a financial point of view, to the shareholders of Gulf Coast. The full text of Monroe’s written opinion, which sets forth the assumptions made, matters considered and limits on the review undertaken in connection with the opinion, is attached as Annex B to this proxy statement/prospectus and is incorporated by reference herein. Gulf Coast shareholders are urged to read the opinion in its entirety.

In performing its analyses, Monroe made numerous assumptions with respect to industry performance, general business, economic, market and financial conditions and other matters, many of which are beyond the control of Monroe, Gulf Coast and First Bancshares. Any estimates contained in the analyses performed by Monroe are not necessarily indicative of actual values or future results, which may be significantly more or less favorable than suggested by these analyses. Accordingly, these analyses and estimates are inherently subject to substantial uncertainty.

The summary that follows is not a complete description of the analyses underlying the Monroe opinion or the presentation made by Monroe to Gulf Coast board of directors, but summarizes the material analyses performed and presented in connection with its opinion. The preparation of a fairness opinion is a complex analytical process

involving various determinations as to the most appropriate and relevant methods of financial analysis and the application of those methods to the particular circumstances. Therefore, a fairness opinion is not readily susceptible to partial analysis or summary description.

In arriving at its opinion, Monroe did not attribute any particular weight to any analysis or factor that it considered, but rather made qualitative judgments as to the significance and relevance of each analysis and factor. Monroe believes that its analyses and the summary of its analyses must be considered as a whole, and that selecting portions of its analyses and factors or focusing on the information presented below in tabular format, without considering all analyses and factors or the full narrative description of the financial analyses, including the methodologies and assumptions underlying the analyses, could create a misleading or incomplete view of the process underlying its analyses and opinion. The tables alone do not constitute a complete description of the financial analyses.

The Monroe opinion was among several factors taken into consideration by the Gulf Coast board of directors in making its determination to adopt the merger agreement and the related transactions. Consequently, the analyses described below should not be viewed as determinative of the decision of the Gulf Coast board of directors, or the decision of management, with respect to the fairness of the merger consideration to Gulf Coast shareholders.

Summary of the Proposed Merger. Pursuant to the merger agreement, holders of Gulf Coast common stock will receive in exchange for each outstanding share of Gulf Coast common stock that is issued and outstanding their pro rata portion of the number of whole shares of First Bancshares common stock obtained by (i) dividing \$0.50 by (ii) the average of the closing prices of First Bancshares common stock as reported on the Nasdaq Stock Market on each of the thirty trading days ending five business days prior to the closing of the transaction and (iii) multiplied by the total number of shares of Gulf Coast common stock issued and outstanding.

Based upon financial information at or for the twelve months ended June 30, 2016 and market information as of October 11, 2016, Monroe calculated the following merger transaction ratios:

<u>Merger Consideration</u>	Stock		
Gulf Coast Shares Exchanged	4,515,437		
Indicated Per Share Value	\$0.50		
Indicated Consideration Value	\$2,257,719		
First Bancshares 30-Day Avg. Price (10/11/16)	\$18.12		
Exchange Ratio	0.0276		
First Bancshares Shares Received	124,626		
Merger Multiples			
(6/30/16)			
Stated Book Value	39.0	%	
Tangible Book Value	39.0	%	
Last Twelve Months Earnings	NM		
Total Assets	1.7	%	
Total Deposits	2.0	%	
Core Deposit Premium	(3.7	%)	

Contribution Analysis. In rendering its fairness opinion, Monroe computed the contribution of First Bancshares and Gulf Coast to various elements of the pro forma company. The following table compares the pro forma ownership in the combined company, based upon the exchange ratio, to each company's respective contribution to various financial components of the pro forma company.

Balance Sheet at June 30, 2016	Contribution	
	First Bancshares	Gulf Coast
Total Assets	90.2%	9.8%
Total Gross Loans	90.6%	9.4%
Total Nonperforming Assets	38.9%	61.1%
Total Deposits	89.9%	10.1%
Total Equity	95.0%	5.0%
Tangible Common Equity	94.2%	5.8%

Income Statement Twelve Months Ended June 30, 2016

Net Interest Income	89.1%	10.9%
Net Income	103.1%	(3.1%)

Pro Forma Ownership (at \$0.50)	97.8%	2.2%
--	--------------	-------------

Comparable Whole Bank Transaction Analysis. In rendering its fairness opinion, Monroe analyzed the consideration paid in selected financial institution merger transactions that it deemed were similar to Gulf Coast and the terms of the merger. The objective of Monroe's analysis was to determine an appropriate value for Gulf Coast common stock by analyzing data related to actual sales transactions of similar entities.

Monroe selected a group of comparable distressed bank transactions and compared their implied pricing multiples to the multiples implied by the merger. Specifically, Monroe selected 14 bank merger transactions that were announced between January 1, 2014 and October 11, 2016 in which the selling bank had a nonperforming assets to assets ratio greater than 10% (the “Distressed Bank Transactions”). Monroe then compared the implied transaction multiples of the merger to certain of Gulf Coast’s financial indicators with the same multiples for the Distressed Bank Transactions. The following table compares the mean, median, high, and low multiples of the those transactions with those of the merger.

Comparable Whole Bank Transaction Analysis

Distressed Bank Transactions

Pricing Multiples	Gulf Coast Indicators	Comparable Transactions				
		Mean	Median	High	Low	
Purchase Price % of Tangible Book Value	39.0	% 25.4	% 35.5	% 297.7	% 6.7	%
Purchase Price as a Multiple of LTM Earnings	NM	11.3	x 12.9	x 17.5	x 8.3	x
Purchase Price % of Total Assets	1.7	% 4.1	% 1.6	% 12.9	% 0.3	%
Purchase Price % of Total Deposits	2.0	% 4.4	% 1.7	% 14.0	% 0.3	%
Core Deposit Premium	(3.7)	% (2.3)	% (3.3)	% 9.5	% (9.7)	%

Monroe also applied the median multiples from the Distressed Bank Transactions to the appropriate Gulf Coast financial indicators, to determine an indicated value for Gulf Coast as shown in the following table.

Value Indicated by Comparable Whole Bank Transactions

Valuation Approach	Distressed Bank Transactions	
	Median Transaction Multiple	Indicated Value
Tangible Book Value	35.5	% \$0.46
LTM Earnings	12.9	x NM
Total Assets	1.6	% \$0.46
Total Deposits	1.7	% \$0.44
Core Deposit Premium	(3.3)	% \$0.59
Average Indicated Value		\$0.49

Monroe noted that the indicated values ranged from \$0.44 per share to \$0.59 per share with an average of \$0.49 per share, slightly below the merger consideration of \$0.50 per share.

Discounted Cash Flow Analysis. In rendering its opinion, Monroe utilized a discounted cash flow analysis, an income-based valuation approach, to value Gulf Coast common stock utilizing future financial projections derived by Monroe and Gulf Coast management. These projections are discounted back to present value utilizing a certain cost of capital or required rate of return that is currently available in the market on alternative investments with comparable risk. The discount rate is derived from market evidence that includes current interest rates and equity returns for the market, adjusted for the risks inherent in the banking industry and for Gulf Coast.

Under the discounted cash flow analysis, Monroe assumed that Gulf Coast remains independent for approximately five years (until December 31, 2020) and then is sold at the median pricing multiples of the Distressed Bank Transactions. The value of Gulf Coast common stock is thus the present value of the cash flows received, i.e. dividends, and the present value of the proceeds received upon the sale of Gulf Coast, i.e. the terminal value. Monroe noted that it is unlikely that Gulf Coast could pay any dividends to its shareholders given Gulf

Coast's distressed condition and the Consent Order. Thus, the only value to be discounted to present value is the terminal value.

In order to derive the terminal value of Gulf Coast common stock in the discounted cash flow analysis, Monroe applied the median price to last twelve months earnings multiple of 12.9x to projected fiscal year 2020 earnings and the median price to tangible book value multiple of 35.5% to projected fiscal year 2020 tangible book value. These pricing multiples were derived from Distressed Bank Transactions. The resulting terminal values were then discounted to the present value at a discount rate of 14.0%, chosen to reflect the desired return for the risk of owning Gulf Coast common stock in the current environment. These values were averaged to derive a single indicated value under the discounted cash flow analysis. On the basis of these assumptions, Monroe calculated that the present value of Gulf Coast common stock under the discounted cash flow analysis, at a 14.0% discount rate, was \$0.35 per share, which is below the merger consideration of \$0.50 per share.

In order to determine the impact of changes in price to tangible book value multiples and discount rates to the terminal value of the Gulf Coast common stock, Monroe applied multiples of tangible book value ranging from 25% to 125% to projected fiscal year 2020 tangible book value, and discount rates ranging from 12.0% to 16.0%. The imputed range of per share values of Gulf Coast common stock, based on this range of tangible book value multiples, is illustrated below.

Price to Tangible Book Multiples					
Discount Rate	25%	50%	75%	100%	125%
12%	\$0.21	\$0.41	\$0.62	\$0.83	\$1.03
14%	\$0.19	\$0.38	\$0.57	\$0.76	\$0.96
16%	\$0.18	\$0.35	\$0.53	\$0.71	\$0.88

Monroe noted that the total merger consideration provided for in the merger is \$0.50 per share, which is within the range of per share values determined.

In order to determine the impact of changes in price-to-earnings multiples and discount rates to the terminal value of the Gulf Coast common stock, Monroe applied multiples of last twelve months' earnings ranging from 10.0x to 18.0x to projected fiscal year 2020 earnings, and discount rates ranging from 12.0% to 16.0%. The imputed range of per-share values of Gulf Coast common stock, based on this range of last twelve months' earnings multiples, is illustrated below.

Price to Earnings Sales Multiples

Discount Rate	10.0x	12.0x	14.0x	16.0x	18.0x
12%	\$0.36	\$0.43	\$0.50	\$0.57	\$0.64
14%	\$0.33	\$0.40	\$0.46	\$0.53	\$0.59
16%	\$0.30	\$0.37	\$0.43	\$0.49	\$0.55

Monroe noted that the total merger consideration provided for in the merger is \$0.50 per share, which is within the range of per-share values determined.

Monroe also considered the overall sensitivity to Gulf Coast's projected 2020 earnings based on variations in Gulf Coast's projected earnings, ranging from a 50% discount to a 50% premium from the base forecast. Monroe then applied last twelve months' earnings multiples ranging from 10.0x to 18.0x to derive the terminal value at the discount rate of 14.00%. The imputed range of per-share values of Gulf Coast common stock, utilizing these different terminal earnings scenarios, is illustrated below.

Price to Earnings Sales Multiples					
Discount Rate	10.0x	12.0x	14.0x	16.0x	18.0x
(50.0%)	\$0.16	\$0.20	\$0.23	\$0.26	\$0.30
(25.0%)	\$0.25	\$0.30	\$0.35	\$0.40	\$0.44
(10.0%)	\$0.30	\$0.36	\$0.42	\$0.47	\$0.53
0.0%	\$0.33	\$0.40	\$0.46	\$0.53	\$0.59
10.0%	\$0.36	\$0.44	\$0.51	\$0.58	\$0.65
25.0%	\$0.41	\$0.49	\$0.58	\$0.66	\$0.74
50.0%	\$0.49	\$0.59	\$0.69	\$0.79	\$0.89

Monroe noted that the total merger consideration provided for in the merger is \$0.50 per share, which is within the range of per-share values determined.

Monroe noted that the discounted cash flow analysis is a widely used valuation methodology, but the results of such methodology are highly dependent on the numerous assumptions that must be made, and the results thereof are not necessarily indicative of actual values or future results.

Recent Financial Performance – Gulf Coast. As part of its analyses, Monroe reviewed Gulf Coast’s recent financial performance, including balance sheet and income statement trends, profitability and net interest margin ratios, asset quality and capitalization levels. Monroe’s analysis included an assessment of the Gulf Coast’s current capital position, especially its compliance with the regulatory minimums and the mandates in the Consent Order. Monroe noted that as of June 30, 2016, Gulf Coast’s Tier 1 leverage ratio was 4.46% and total risk-based capital ratio was 6.43%, well below the Consent Order mandate ratios of 8% and 12%, respectively.

Selected Peer Group Analysis – Gulf Coast. As part of its analyses, Monroe used publicly available information to compare selected financial information for Gulf Coast to a peer group of publicly traded financial institutions that Monroe deemed relevant for purposes of its analysis. Monroe compared selected operating results of Gulf Coast to those of nine commercial banks in the U.S. with a ratio of nonperforming assets to assets greater than 10% (the “Gulf Coast Peer Group”). Monroe noted the following financial performance based on results for the six months ended June 30, 2016 for Gulf Coast and the Gulf Coast Peer Group, and October 11, 2016 market data.

	Gulf Coast	Gulf Coast Peer Group Average
Assets (\$ millions)	\$133	\$352
Return on Avg. Assets	0.04%	0.17%
Return on Avg. Equity	0.9%	(4.8%)

Edgar Filing: FIRST BANCSHARES INC /MS/ - Form S-4

Tang. Equity/Assets	4.3%	11.1%
Net Interest Margin	4.42%	3.69%
Efficiency Ratio	101.8%	82.5%
Adj. NPAs/Assets ⁽¹⁾	16.58%	6.75%
NCOs/Avg. Loans	0.12%	0.61%
Price to LTM Earnings (x)		9.9x
Price to Tangible Book Value (%)		83%

(1) NPAs include loans past due 90 days or more, nonaccrual assets, OREO and restructured loans, adjusted for any government guarantees

Monroe noted that Gulf Coast was less profitable, had a higher level of nonperforming assets, a higher efficiency ratio, and lower capital levels than the Gulf Coast Peer Group. However, Gulf Coast had a higher net interest margin and a lower level of charge offs than the Gulf Coast Peer Group.

Recent Financial Performance – First Bancshares. As part of its analyses, Monroe reviewed the recent financial performance of First Bancshares, including balance sheet and income statement trends, profitability and net interest margin ratios, asset quality, and capitalization levels. Monroe’s analysis included an assessment of the current capital position of First Bancshares, especially its compliance with the regulatory minimums. Monroe noted that as of June 30, 2016, First Bancshares had a Tier 1 leverage ratio of 8.50% and a total risk-based capital ratio of 11.28%.

Selected Peer Group Analysis – First Bancshares. As part of its analyses, Monroe used publicly available information to compare selected financial information for First Bancshares to a peer group of publicly traded financial institutions that Monroe deemed relevant for purposes of its analysis. Monroe compared selected operating results of First Bancshares to those of 25 commercial banks in the Southeast with total assets between \$1 and \$3 billion (the “First Bancshares Peer Group”). Monroe noted the following financial performance was based on results for the six months ended June 30, 2016 for First Bancshares and the First Bancshares Peer Group and October 11, 2016 market data.

	<i>First Bancshares</i>	<i>First Bancshares Peer Group Average</i>
Assets (\$ millions)	\$1,225	\$1,630
Return on Avg. Assets	0.87%	0.85%
Return on Avg. Equity	10.0%	8.0%
Tang. Equity/Assets	7.8%	10.1%
Net Interest Margin	3.63%	3.70%
Efficiency Ratio	67.1%	68.1%
Adj. NPAs/Assets ⁽¹⁾	1.13%	1.15%
NCOs/Avg. Loans	(0.03%)	0.12%
Price to LTM Earnings (x)	10.5x	17.2x
Price to Tangible Book Value (%)	128%	148%

(1) NPAs include loans past due 90 days or more, nonaccrual assets, OREO and restructured loans, adjusted for any government guarantees

Monroe noted that although First Bancshares had lower capital levels and a lower net interest margin, it was more profitable, with better efficiencies and better asset quality compared to the Southeast Peer Banks. In addition, the common shares of First Bancshares trade at a discount based on price to last twelve months’ earnings and price to tangible book value multiples compared to the Southeast Peer Banks.

Stock Performance – First Bancshares. As part of its analyses, Monroe evaluated the stock performance based on price to last twelve months’ earnings and price to tangible book value multiples of First Bancshares since 2006

compared to the KBW Bank Index and the First Bancshares Peer Group. Monroe also evaluated the stock performance of First Bancshares over the past year. Monroe noted that, over this period, the shares of First Bancshares generated a total return of approximately 8%, its share price ranged from \$15.32 per share to \$19.55 per share and its average daily trading volume equaled 4,944 shares.

Financial Impact Analysis. As part of its analyses, Monroe evaluated the pro forma effects of the merger on selected financial data of Gulf Coast and First Bancshares, assuming management's projections for both and certain merger-related accounting adjustments. The analysis indicated that the merger is expected to be accretive to the estimated earnings per share of both Gulf Coast and First Bancshares. The analysis also showed that the merger is expected to be initially dilutive to tangible book value per share for First Bancshares with a tangible book value

earn-back period of less than 3 years and that the pro forma entity would maintain well-capitalized capital ratios. For all of the above analyses, the actual results achieved by First Bancshares following the merger may vary from the projected results, and the variations may be material.

Conclusion. Based on the results of the various analyses described above and all of the other relevant factors and information deemed appropriate in its professional judgment, Monroe concluded that the total merger consideration to be received under the terms of the merger is fair, from a financial point of view, to Gulf Coast's shareholders.

In rendering its fairness opinion, Monroe made numerous assumptions with respect to industry performance, business and economic conditions and other matters. While Monroe believes that these projections and the assumptions upon which they were based were reasonable, Monroe has no control over the future occurrence of any of the events upon which the projections were based. Certain of the projections are based on factors, such as general and local economic conditions, that are beyond the control of First Bancshares, Gulf Coast and Monroe. In addition, estimates of values of other companies used in rendering the fairness opinion do not purport to be appraisals of those companies or necessarily reflect the prices at which those companies or their securities may actually be sold. Monroe selected comparable public companies and comparable whole bank acquisitions on the basis of various factors, including the size and similarity of selected companies, their business mix and similar characteristics of the transactions; however, no company or transaction utilized as a comparison in these analyses summarized above is identical to Gulf Coast or the transaction.

Monroe's opinion is necessarily based on financial, economic, regulatory, market and other conditions as in effect on, and the information made available to Monroe as of, the date of its opinion. Events occurring after the date of its opinion could materially affect Monroe's views. Monroe has not undertaken to update, revise, reaffirm or withdraw its opinion or otherwise comment upon events occurring after the date of the opinion. Monroe expressed no opinion as to any of the legal, regulatory, tax or accounting matters relating to the merger or any other transactions contemplated in connection with the merger.

Opinion of First Bancshares' Financial Advisor

First Bancshares' board of directors requested that Performance Trust evaluate the fairness, from a financial point of view, to the shareholders of First Bancshares of the consideration to be paid by First Bancshares in connection with the proposed merger of Gulf Coast Community Bank with and into First Bancshares pursuant and subject to the merger agreement.

At an August 18, 2016 meeting of First Bancshares' board of directors, Performance Trust provided the board an overview of its analyses performed as of the date of the meeting. Performance Trust advised the board of directors that its analyses were as of such date and based upon and subject to various qualifications and assumptions described in

the meeting. At this meeting, Performance Trust rendered its fairness opinion to the board of directors of First Bancshares that, as of such date, the merger consideration was fair, from a financial point of view, to the common shareholders of First Bancshares.

The full text of the Performance Trust opinion, dated August 18, 2016, which sets forth assumptions made, matters considered, and limits on the scope of review undertaken, is attached as Annex C to this registration statement. The summary of the opinion set forth in this registration statement is qualified in its entirety by reference to the full text of such opinion.

In connection with rendering its opinion, Performance Trust, among other things:

- (i) reviewed a draft, dated August 9, 2016, of the Acquisition Agreement;

- (ii) reviewed certain publicly available business and historical financial information relating to FBMS and Gulf Coast;

- (iii) met with, either by phone or in person, certain members of the management of FBMS and Gulf Coast to discuss the business and prospects of FBMS and Gulf Coast and the proposed Acquisition;

- (iv) reviewed and compared certain financial metrics of FBMS with certain financial metrics of Gulf

Coast that PTCP deemed relevant;

(v) reviewed certain other business, financial and operating information relating to FBMS and Gulf Coast and any respective subsidiaries provided to us by the management of the respective companies, including financial forecasts and estimates regarding certain pro forma financial effects of the Acquisition on FBMS (including without limitation the cost savings and expenses associated with the Acquisition);

(vi) reviewed certain financial terms of the proposed Acquisition and compared certain of those terms with the publicly available financial terms of certain merger transactions that have recently been effected or announced in the banking industry;

(vii) performed a comparison of certain financial and stock market information of FBMS and certain financial information of Gulf Coast with similar information for certain other publicly traded equity securities we deemed relevant; and

(viii) considered such other information, financial studies, analyses, investigations and financial, economic and market criteria that we deemed relevant.

In this review, Performance Trust has relied, without independent verification, upon the accuracy and completeness of the historical and projected financial information and all other information reviewed by Performance Trust for purposes of this opinion. Performance Trust did not make an independent review of Gulf Coast Community Bank's assets or liabilities but was provided with certain appraisals of Gulf Coast Community Bank's assets and liabilities upon which it relied for this opinion. Performance Trust relied solely on First Bancshares and Gulf Coast Community Bank for information as to the adequacy of Gulf Coast Community Bank's loan loss reserves and values of other real estate owned. This opinion was necessarily based upon market, economic and other conditions as they existed on, and could be evaluated as of, the date hereof. In rendering this opinion, Performance Trust has, with First Bancshares' consent, assumed that in all respects material to its analysis the merger will be consummated in accordance with the terms described in the merger agreement it has examined, without any material waiver, amendment or delay of any terms, condition or agreement. Performance Trust also has assumed that all governmental, regulatory or other consents and approvals necessary for the consummation of the merger will be obtained without any material adverse effects on First Bancshares.

This fairness opinion has been approved and authorized for issuance by Performance Trust's Fairness Opinion Review Committee. The opinion is provided solely for the benefit and use of the board of directors of First Bancshares, in their capacity as directors of First Bancshares, in connection with and for the purposes of their consideration of the proposed Merger.

The following summarizes the material financial analyses presented by Performance Trust to First Bancshares' board of directors at its meeting on August 18, 2016, which material was considered by Performance Trust in rendering the opinion described below.

Transaction Overview

Based on the terms and conditions pursuant to the merger agreement, the merger consideration per share was \$0.50. Performance Trust calculated the total merger consideration of Gulf Coast Community Bank pursuant to the merger agreement to be approximately \$2.3 million. Based upon financial information for Gulf Coast Community Bank for the twelve months ended June 30, 2016, Performance Trust calculated the following transaction multiples:

Transaction Multiples

	<u>Gulf Coast Community Bank</u>
Price/Tangible Book Value per Share	39.0%
Price/Last Twelve Months Earnings per Share	NM
Price/Assets per Share	1.7%
Price/Deposits per Share	2.0%
Tangible Book Premium/Core Deposits per Share ⁽¹⁾	(3.7%)

(1) Core deposits (defined as total deposits less time deposits > \$100,000 and all brokered deposits).

Selected Public Companies Analysis

Performance Trust used publicly available information to perform a comparison of Gulf Coast Community Bank's financial performance and condition to the following institutions traded on the New York Stock Exchange ("NYSE"), NYSE Market Equities, NASDAQ, or OTC Markets and headquartered in the United States with total assets less than \$1.0 billion, a nonperforming assets to total assets ratio greater than 3.0% ("Public Peer Group"). Performance Trust noted that none of the companies reviewed was identical to Gulf Coast and that, accordingly, the analysis of such companies necessarily involved complex qualitative considerations and judgments concerning differences in the business, operating and financial characteristics of each company, and other factors that affect the public market values of such companies. Companies included in this group were:

First Financial Northwest, Inc. Northern States Financial Corporation
 Parke Bancorp, Inc. Village Bank and Trust Financial Corp.
 Porter Bancorp, Inc. Liberty Bell Bank
 United Security Bancshares Security First Bank
 Peoples Financial Corporation Independence Bancshares, Inc.

The analysis compared publicly available financial information for Gulf Coast Community Bank and the 25th percentile, median, and 75th percentile financial performance and condition and market trading data for the Public Peer Group as of and for the twelve months ended June 30, 2016. The following table sets forth the data for Gulf Coast Community Bank and the 25th percentile, median, and 75th percentile data for the Public Peer Group as of and for the twelve months ended June 30, 2016 with pricing data as of August 17, 2016.

Regional Public Peer Group Analysis

	Gulf Coast Community Bank.	Public Peer Group <u>25th Percentile</u>	Public Peer Group Median	Public Peer Group <u>75th Percentile</u>
Total Assets (\$000s)	\$ 133,444	\$ 138,204	\$ 584,112	\$ 918,537
Total Common Equity	\$ 5,794	\$ 14,362	\$ 49,152	\$ 101,504
Tangible Common Equity/Tangible Assets	4.3 %	7.3 %	12.4 %	14.2 %
LTM Return on Average Assets	(0.22 %)	0.00 %	0.43 %	1.26 %
LTM Return on Average Common Equity	(5.16 %)	1.10 %	4.05 %	10.08 %
LTM Net Interest Margin	4.30 %	3.27 %	3.46 %	4.09 %
LTM Efficiency Ratio	106.2 %	65.4 %	85.9 %	96.2 %
Noninterest Income/Average Assets	1.01 %	0.48 %	0.60 %	0.82 %

Edgar Filing: FIRST BANCSHARES INC /MS/ - Form S-4

NPAs/Assets	16.58	%	3.48	%	3.86	%	4.32	%
Price/Tangible Book Value per Share			79.9	%	97.9	%	117.8	%

Performance Trust then compared the transaction multiples implied in the acquisition with the corresponding trading multiples for the selected companies. A summary of the implied multiples is provided in the following table:

	Implied Transaction Multiples per Share	Regional Public Peer Group <u>25th Percentile</u>	Regional Public Peer Group Median	Regional Public Peer Group <u>75th Percentile</u>
Price/Tangible Book Value per Share	39.0	% 79.9	% 97.9	% 117.8 %

Performance Trust calculated the implied per share value based on the trading multiples of the Public Peer Group and compared such values to the per share value in the acquisition. The implied per share values are summarized in the following table:

Implied per Share Value

Regional Public Peer Group

25th Percentile Median 75th Percentile

Price/Tangible Book Value per Share	\$ 1.03	\$ 1.26	\$ 1.51
-------------------------------------	---------	---------	---------

Selected Acquisition Transactions Analysis

Performance Trust reviewed publicly available information related to selected acquisitions of national banks and thrifts announced between January 1, 2011 and August 17, 2016, with target total assets less than \$500 million, a tangible equity to tangible assets ratio less than 5.0%, and a nonperforming assets to assets ratio greater than 5.0% at announcement (“Transaction Peer Group”). Performance Trust chose these acquisitions involving target companies that possessed general business, operating, and financial characteristics representative of companies in the industry in which Gulf Coast Community Bank operates. Performance Trust noted that none of the acquisitions or subject target companies reviewed was identical to the acquisition of Gulf Coast Community Bank, respectively, and that, accordingly, the analysis of such acquisitions necessarily involved complex qualitative considerations and judgments concerning differences in the business, operating, and financial characteristics of each subject target company and each acquisition and other factors that affect the values implied in such acquisitions. The transactions included in the group were:

Acquiror:

United Community Banks, Inc.

Target:

Tidelands Bancshares, Inc.

First National Bankers Bankshares, Inc.	Independent Bankers' Bank of Florida
First Sound Bank	Eastside Commercial Bank, NA
D.L. Evans Bancorp	Idaho Banking Company
Central Bancompany, Inc.	Bank of Belton
Park Sterling Corporation	Provident Community Bancshares, Inc.

59

Wintrust Financial Corporation	Diamond Bancorp, Inc.
C&F Financial Corporation	Central Virginia Bankshares, Inc.
BBCN Bancorp, Inc.	Foster Bankshares, Inc.
Home BancShares, Inc.	Premier Bank
SKBHC Holdings LLC	Viking Financial Services Corporation
SCJ, Inc.	Santa Lucia Bancorp
Palco Bankshares Inc.	Midwest Community Bank
Sequatchie Valley Bancshares, Inc.	Citizens Bank of Spencer

As illustrated in the following table, Performance Trust compared the total consideration paid for Gulf Coast Community bank to the 25th percentile, median, and 75th percentile bank level pricing multiples of the comparable transactions.

	Gulf Coast Community Bank		Transaction Peer Group <u>25th Percentile</u>		Transaction Peer Group Median		Transaction Peer Group <u>75th Percentile</u>	
Total Assets (\$000s)	\$ 133,444		\$ 84,979		\$ 205,218		\$ 392,110	
LTM Return on Average Assets	(0.22 %)		(2.53 %)		(1.92 %)		(0.53 %)	
LTM Return on Average Equity	(5.16 %)		(60.74 %)		(46.34 %)		(26.75 %)	
Tangible Equity/Tangible Assets	4.3 %		1.8 %		3.3 %		3.7 %	
NPAs/Assets	16.58 %		6.10 %		10.01 %		13.92 %	
Price/Tangible Book Value per Share			28.8 %		55.9 %		67.9 %	
Price/Assets per Share			0.5 %		1.9 %		2.8 %	
Price/Deposits per Share			0.5 %		1.6 %		2.5 %	
Tangible Book Premium/Core Deposits			(2.5 %)		(1.3 %)		2.2 %	

Performance Trust then compared the transaction multiples implied in the acquisition with the corresponding pricing multiples for the selected companies. A summary of the implied multiples is provided in the following table:

	Gulf Coast Community Bank		Transaction Peer Group <u>25th Percentile</u>		Transaction Peer Group Median		Transaction Peer Group <u>75th Percentile</u>	
Price/Tangible Book Value per Share	39.0 %		28.8 %		55.9 %		67.9 %	
Price/Assets per Share	1.7 %		0.5 %		1.9 %		2.8 %	
Price/Deposits per Share	2.0 %		0.5 %		1.6 %		2.5 %	
Tangible Book Premium/Core Deposits	(3.7 %)		(2.5 %)		(1.3 %)		2.2 %	

Discounted Cash Flow Analysis

Performance Trust analyzed the discounted present value of each of Gulf Coast Community Bank’s projected free cash flows to equity for the years ending December 31, 2016 through December 31, 2021 on a standalone basis. PTCP calculated cash flows based on dividendable tangible common equity, which is defined as the tangible common equity in excess of a minimum 8.0% tangible common equity to tangible assets ratio. This analysis was based on the financial forecasts for Gulf Coast Community Bank approved for use in this analysis by First Bancshares management.

PTCP applied price to tangible book value multiples, ranging from 80% to 160%, to Gulf Coast Community Bank’s projected December 31, 2021 tangible book value and price to earnings multiples, ranging from 8.0x to 12.0x, to Gulf Coast Community Bank’s projected calendar year 2021 net income in order to derive a range of projected terminal values for each bank at December 31, 2021. The projected cash flows and terminal values were discounted using rates ranging from 15.18% to 19.18%, which reflected the cost of equity capital using a discount rate build-up method based on the sum of the risk-free free rate, industry equity risk premium, size premium, and specific company risk factors. The resulting range of present values was divided by the number of common shares outstanding in order to arrive at a range of present values per share of common stock for Gulf Coast Community Bank. The results of the dividend discount analysis are summarized below.

	Proposed Merger Consideration	Implied Value Per Share <u>Midpoint</u>	Implied Value Per Share <u>Minimum</u>	Implied Value Per Share <u>Maximum</u>
Terminal Value Based on TBV Multiple	\$ 0.50	\$ 2.85	\$ 2.19	\$ 3.62
Terminal Value Based on P/E Multiple	\$ 0.50	\$ 4.66	\$ 3.71	\$ 5.77

Additional Considerations

Additionally, Performance Trust used publicly available information to perform a comparison of First Bancshares’ financial performance and condition to the following institutions traded on the NYSE, NYSE Market Equities, or NASDAQ and headquartered in Alabama, Arkansas, Louisiana, and Mississippi with total assets between \$1 billion and \$10 billion as of August 10, 2016 (“First Bancshares Public Peer Group”). Companies included in this group were:

Home BancShares, Inc.	National Commerce Corporation
Renasant Corporation	Home Bancorp, Inc.
Simmons First National Corporation	First Guaranty Bancshares, Inc.
ServisFirst Bancshares, Inc.	Investar Holding Corporation
Bear State Financial	Citizens Holding Company
MidSouth Bancorp, Inc.	

The analysis compared publicly available financial information for First Bancshares and the 25th percentile, median, and 75th percentile financial and market trading data for First Bancshares Public Peer Group as of and for the twelve months ended June 30, 2016. The following table sets forth the data for First Bancshares and the 25th

percentile, median, and 75th percentile data for First Bancshares Public Peer Group as of and for the twelve months ended June 30, 2016 with pricing data as of August 10, 2016.

First Bancshares' Board of Directors retained Performance Trust to provide it with financial advisory services in connection with the merger and to render a fairness opinion in connection with the fairness of the merger consideration based upon Performance Trust's reputation, experience and qualifications in mergers and acquisitions in the banking industry. Performance Trust has an investment banking division and is regularly engaged in the valuation of businesses and securities in connection with mergers and acquisitions. Performance Trust will receive a fee upon delivery of this opinion, no portion of which is contingent upon the consummation of the merger. Performance Trust will also receive an additional fee that is contingent upon the consummation of the merger. First Bancshares has agreed to reimburse Performance Trust for its expenses and to indemnify it for certain liabilities that may arise in connection with the merger. In the two years prior to the date hereof, Performance Trust and its affiliates have provided other services to First Bancshares and its subsidiary bank and have received fees for those services. Performance Trust and its affiliates have not provided services to Gulf Coast Community Bank within the last two years and have not received fees for any such services. Performance Trust is a broker-dealer engaged in securities trading and brokerage activities as well as providing investment banking and other financial services. In the ordinary course of business, Performance Trust and its affiliates may acquire, hold or sell, for its and its affiliates own accounts and the accounts of customers, equity, debt and other securities and financial instruments (including bank loans and other obligations) of First Bancshares, Gulf Coast Community Bank and certain of their affiliates as well as provide investment banking and other financial services to such companies and entities.

Dissenters' Rights of Appraisal in the Merger

A stockholder of Gulf Coast may dissent from the merger and receive in cash the appraised value, as of the effective time of the merger, of the shares of Gulf Coast common stock held by such stockholder pursuant to Section 215a of the United States Code (the “Dissent Provisions”). Section 215a of the United States Code is the controlling provision relating to the dissent rights of Gulf Coast stockholders in light of Section 658.41(2) of the Florida financial institution codes (collectively, the “Florida Banking Code”), which provides that federal law, rather than Florida law, will be controlling with respect to stockholders’ rights in the merger of a Florida bank into a national bank. The appraised value of the Gulf Coast common stock may differ from the consideration that a

stockholder of Gulf Coast is entitled to receive in the merger. The following is a summary of the Dissent Provisions, the full text of which is set forth as Appendix D to this proxy statement-prospectus.

Under the Dissent Provisions, a stockholder of Gulf Coast may dissent from the merger by (i) voting against the merger or by giving notice in writing to Gulf Coast at or prior to the special meeting of Gulf Coast stockholders that he or she dissents from the merger, and (ii) making a written request to First Bancshares to receive the value of such stockholder's shares of Gulf Coast common stock, which request must be made within thirty (30) days after the effective time of the merger and must be accompanied by the surrender of the stockholder's stock certificates.

The value of the shares held by any dissenting stockholder shall be determined as of the effective time of the merger by an appraisal made by a committee of three persons, composed of one person selected by the holders of a majority of the shares of Gulf Coast common stock for which rights of dissent are being asserted, one selected by the board of directors of The First and the third selected by the other two. The valuation agreed upon by any two of the three appraisers shall govern. However, if the value so fixed is not satisfactory to any dissenting stockholder who has requested payment, that stockholder may, within five days after being notified of the appraised value of his or her shares, appeal to the Comptroller of the Currency, who shall cause a reappraisal to be made, which shall be final and binding as to the value of the shares of the dissenting stockholder who has appealed to the Comptroller.

If, within ninety days from the effective time of the merger, for any reason one or more of the three appraisers is not selected as provided by the Dissent Provisions, or the appraisers shall fail to determine the value of the shares, the Comptroller shall upon written request of any interested party cause an appraisal to be made, which shall be final and binding on all parties. In any event, the value of shares ascertained under the Dissent Provisions shall be promptly paid to the dissenting stockholders by First Bancshares. In addition, the First Bancshares common stock that would have been delivered to the dissenting stockholders but for their dissent may, if required by law, be sold at an advertised public auction at which First Bancshares may bid. If the shares are auctioned and are sold at a price greater than that paid to the dissenting stockholders, such excess amount would be remitted to the dissenting stockholders.

Any stockholder of Gulf Coast who perfects the right to be paid the fair value of his or her shares will recognize gain or loss, if any, for federal income tax purposes upon the receipt of cash for such shares. The amount of gain or loss and its character as ordinary or capital gain or loss will be determined in accordance with applicable provisions of the Internal Revenue Code. See "UNITED STATES FEDERAL INCOME TAX CONSEQUENCES OF THE MERGER."

The foregoing summary is not intended to be a complete statement of the procedures for exercising appraisal rights under the Dissent Provisions and is qualified in its entirety by reference to the full text of such provisions, a copy of which is attached to this proxy statement-prospectus as Appendix D. Gulf Coast urges any stockholder wishing to exercise appraisal rights to read this summary and the text of the Dissent Provisions carefully, and to consult legal counsel before attempting to exercise appraisal rights. Failure to comply strictly with all of the procedures set forth in the Dissent Provisions may result in the loss of your statutory appraisal rights.

Accounting Treatment of the Merger

First Bancshares will account for the merger using the acquisition method of accounting. The assets (including identifiable intangible assets) and liabilities (including executory contracts and other commitments) of Gulf Coast will be recorded, as of completion of the merger, at their respective fair values and added to those of First Bancshares. Any excess of the purchase price over fair values will be recorded as goodwill. Consolidated financial statements and reported results of operations of First Bancshares issued after completion of the merger will reflect these values but will not be restated retroactively to reflect the historical financial position or results of operations of Gulf Coast.

Regulatory and Third-Party Approvals

Completion of the merger is subject to prior receipt of all approvals and consents required to be obtained from applicable governmental and regulatory authorities. First Bancshares and Gulf Coast also have agreed to cooperate and use all reasonable best efforts to prepare as promptly as possible all documentation, to make all requisite

regulatory filings and to obtain any necessary permits, consents approvals or authorizations of governmental entities necessary to consummate the transactions contemplated by the merger agreement as soon as practicable.

There can be no assurance that regulatory approvals will be obtained, that such approvals will be received on a timely basis, or that such approvals will not impose conditions or requirements that, individually or in the aggregate, would or could reasonably be expected to have a material adverse effect on the financial condition, results of operations, assets or business of First Bancshares or Gulf Coast following completion of the merger. There can likewise be no assurance that any state attorney general or other domestic regulatory authority will not attempt to challenge the merger on antitrust grounds or for other reasons, or, if such a challenge is made, as to the result thereof. The merger is conditioned upon the receipt of all consents, approvals and actions of governmental authorities and the filing of all other notices with such authorities in respect to the merger. See “THE MERGER AGREEMENT—Conditions to the Completion of the Merger”.

Office of the Comptroller of the Currency. Consummation of the merger is subject to receipt of the approval of the OCC under the Bank Merger Act. On October 20, 2016, The First filed an application with the OCC – Southern District in Dallas, Texas to obtain approval of the bank merger. Application for approval of the bank merger is subject to a 30-day public notice and comment period, as well as review and approval by the OCC. In evaluating an application filed under the Bank Merger Act, the OCC generally considers the financial and managerial resources of the banks, the convenience and needs of the community to be served, the banks’ effectiveness in combating money-laundering activities as well as the import of the transaction on financial stability. In connection with its review, the OCC will provide an opportunity for public comment on the application for the bank merger, and is authorized to hold a public meeting or other proceeding if they determine that would be appropriate.

Federal Reserve. Consummation of the merger is also subject to the approval, or waiver therefrom, of the Federal Reserve. First Bancshares believes the merger is exempt from the Federal Reserve’s application process under 12 C.F.R. 225.12(d)(1). First Bancshares filed a notice of waiver request with the Federal Reserve on November 2, 2016.

First Bancshares and Gulf Coast are not aware of any governmental approvals or compliance with banking laws and regulations that are required for the merger to become effective other than those described above. First Bancshares and Gulf Coast intend to seek any other approval and to take any other action that may be required to complete the merger. There can be no assurance that any required approval or action can be obtained or taken prior to the meeting.

Interests of Certain Gulf Coast Directors and Executive Officers in the Merger

When considering the recommendation of Gulf Coast’s board of directors that are holders of Gulf Coast common stock and vote to approve the merger agreement, holders of Gulf Coast common stock should be aware that Gulf Coast’s executive officers and members of Gulf Coast’s board of directors may have interests in the merger that are different

from, or in addition to, those of Gulf Coast shareholders generally. Gulf Coast's board of directors was aware of and considered these interests, among other matters, in evaluating and negotiating the merger agreement and the merger, to the extent these different interests existed at the time of the negotiation, evaluation and approval of the merger agreement, and in recommending that the merger agreement be approved by holders of Gulf Coast common stock.

Retention Agreements. During negotiations of the proposed merger, representatives of First Bancshares and Gulf Coast discussed certain executive officers and other key employees of Gulf Coast remaining with the combined company in order to preserve the value of the proposed transaction. The following executive officer of Gulf Coast has agreed to enter into employment agreements with The First: Walter J. Ritchie, Jr. These agreements, all of which are contingent on the completion of the merger, are intended to incent these Gulf Coast executive officers to continue their employment with First Bancshares following completion of the merger.

Indemnification of Directors and Officers; Insurance. The merger agreement provides that following the closing date of the merger First Bancshares will indemnify and hold harmless from liability duly elected current or former directors and officers of Gulf Coast and Gulf Coast (as well as their heirs and estates). Gulf Coast directors and officers are entitled to indemnity if such persons allow First Bancshares to participate in or completely assume the defense of any claim for which indemnification may be sought. The indemnification applies to acts or omissions occurring at, prior to or after the closing date of the merger. First Bancshares will provide indemnification to the same extent as such Gulf Coast directors or officers would be indemnified under First Bancshares Articles or First Bancshares Bylaws as if they were directors or officers of First Bancshares.

Gulf Coast also has agreed to obtain a six year “tail” prepaid directors’ and officers’ liability insurance policy or policies. The insurance policy(ies) must cover acts or omissions occurring prior to the closing date of the merger. The policy(ies) must be on terms and in amounts substantially similar to those in effect for Gulf Coast on the date of the merger agreement.

Directors and Executive Officers Following the Merger, If Approved

If the merger agreement and the merger are approved, following the effective time of the merger, no directors or executive officers of Gulf Coast will be directors or executive officers of First Bancshares.

Restrictions on Resales by Affiliates

The shares of First Bancshares common stock to be issued to Gulf Coast shareholders in the merger have been registered under the Securities Act of 1933, as amended, or the Securities Act. These shares may be traded freely and without restriction by those shareholders not deemed to be “affiliates” of Gulf Coast as that term is defined under the Securities Act. An affiliate of a corporation, as defined by the rules promulgated under the Securities Act, is a person who directly or indirectly, through one or more intermediaries, controls, is controlled by, or is under common control with, that corporation. Affiliates generally include directors, executive officers and beneficial owners of 10% or more of a company’s capital stock. Any shareholder deemed to be an affiliate of Gulf Coast may resell shares of First Bancshares common stock issued in the merger only in transactions permitted by Rule 144 promulgated under the Securities Act or as otherwise permitted under the Securities Act.

COMPARISON OF RIGHTS OF SHAREHOLDERS OF GULF COAST AND FIRST BANCSHARES

This section of the proxy statement/prospectus describes material differences between the current rights of the holders of Gulf Coast common stock and rights those shareholders will have as First Bancshares shareholders following the merger. The rights of the holders of Gulf Coast common stock are governed by Florida law, as well as the Gulf Coast Articles and the Gulf Coast Bylaws. Upon completion of the merger, the rights of the holders of Gulf Coast common stock who become First Bancshares shareholders as a result of the merger will become governed by Mississippi law and the MBCA and will thenceforth be governed by the First Bancshares Articles and the First Bancshares Bylaws.

The following summary does not purport to be a complete statement of the provisions affecting the rights of a holder of Gulf Coast common stock and the rights of a First Bancshares shareholder. Rather, it is intended only to highlight certain aspects of the MBCA and certain material differences between the rights of First Bancshares shareholders and the holders of Gulf Coast common stock. Further, the identification of specific provisions or differences is not meant

to indicate that other equally or more significant differences do not exist. The summary is qualified in its entirety by reference to the ABCL, the MBCA, First Bancshares Articles and First Bancshares Bylaws, and Gulf Coast's Articles and Gulf Coast's Bylaws.

Authorized Capital Stock

First Bancshares

First Bancshares' authorized capital stock consists of 20,000,000 shares of common stock, par value \$1.00 per share, and 10,000,000 shares of preferred stock, par value \$1.00 per share. The First Bancshares Articles authorize First Bancshares' board of directors to issue shares of preferred stock in one or more series and to fix the designations, preferences, rights, qualifications, limitations or restrictions of the shares of First Bancshares preferred stock in each series. As of October 31, 2016, there were 5,428,017 shares of First Bancshares common stock outstanding and 17,123 shares of First Bancshares preferred stock outstanding.

Gulf Coast

Gulf Coast's authorized capital stock consists of 5,000,000 shares of Gulf Coast Class A common stock, par value \$10.00 per share, 30,000,000 shares of Gulf Coast Class B common stock (the Gulf Coast Class A common stock and the Gulf Coast Class B common stock are collectively referred to as the Gulf Coast common stock), par value \$1.00 per share, and 2,000,000 shares of preferred stock, par value \$1.00 per share. The Gulf Coast Articles authorize the Gulf Coast board of directors to issue shares of preferred stock in one or more series and to fix the designations, preferences, rights, qualifications, limitations or restrictions of the shares of Gulf Coast preferred stock in each series. As of October 31, 2016, there were 1,272,437 shares of Gulf Coast Class A common stock

outstanding and 3,243,000 shares of Gulf Coast Class B common stock outstanding. No shares of Gulf Coast preferred stock are outstanding..

Dividends and Other Distributions

First Bancshares

The MBCA prohibits a Mississippi corporation from making any distributions to its shareholders, including the payment of cash dividends, that would render the corporation unable to pay its debts as they become due in the usual course of business. Also prohibited is any distribution that would result in the corporation's total assets being less than the sum of its total liabilities plus the amount that would be needed, if it were to be dissolved at the time of the distribution, to satisfy the preferential rights upon dissolution of shareholders whose preferential rights are superior to those receiving the distribution.

First Bancshares must also pay in full all dividends accrued on First Bancshares CDCI Preferred Stock prior to paying any dividends on its common stock. Subject to certain adjustments, dividends accrue on First Bancshares CDCI Preferred Stock at a rate of 2% per year until September 29, 2018 (which is the eighth anniversary of the issuance of First Bancshares CDCI Preferred Stock) and at a rate of 9% per year thereafter Only after all accrued dividends on First Bancshares CDCI Preferred Stock have been paid in full may First Bancshares pay cash dividends to holders of its common stock, which are also limited under the terms of First Bancshares CDCI Preferred Stock.

Gulf Coast

The Florida Business Corporation Act provides that no distribution may be made if, after giving it effect: (1) The corporation would not be able to pay its debts as they become due in the usual course of business; or (2) The corporation's total assets would be less than the sum of its total liabilities plus, unless the articles of incorporation permit otherwise, the amount that would be needed, if the corporation were to be dissolved at the time of the distribution, to satisfy the preferential rights upon dissolution of shareholders whose preferential rights are superior to those receiving the distribution.

The ability of First Bancshares and Gulf Coast to pay distributions to their respective shareholders depends to a large extent upon the amount of the dividends each company receives from its subsidiary bank. The First must obtain the approval of the OCC prior to paying dividend. Gulf Coast remains under a Consent Order which prohibits it from paying any dividends without the approval of the FDIC and Florida Office of Financial Regulation.

Board of Directors; Election of Directors

The First Bancshares Bylaws provide for a board of directors consisting of between 9 and 25 directors as fixed from time to time by First Bancshares' board, while the Gulf Coast Bylaws provide that the number of directors should be between five (5) and 20. Currently, there are 9 directors on First Bancshares' board of directors and 10 directors on Gulf Coast's board of directors. The FBMS board of directors is classified into three classes, with one-third of the directors elected at each year's annual meeting of shareholders. The Gulf Coast board of directors has one class, elected annually at the meeting of Gulf Coast shareholders.

In the election of directors, First Bancshares and Gulf Coast shareholders do not have the right to cumulate their votes. The candidates in each class up for election who receive the highest number of votes cast, up to the number of directors to be elected in that class, are elected.

Shareholder Nominations and Proposals

Rule 14a-8 promulgated by the SEC under the Exchange Act establishes the rules for shareholder proposals intended to be included in a public company's proxy statement. Rule 14a-8 applies to First Bancshares. Under the rule, a shareholder proposal must be received by the subject company at least 120 days before the anniversary of the date on which the company first mailed the previous year's proxy statement to shareholders. If, however, the annual meeting date has been changed by more than 30 days from the date of the prior year's meeting, or for special meetings, the proposal must be submitted within a reasonable time before the subject company begins to print and mail its proxy materials.

First Bancshares

The First Bancshares Bylaws set forth advance notice procedures for the nomination, other than by First Bancshares' board of directors or one of its committees, of candidates for election as directors and for other shareholder proposals. The bylaws provide that, for any shareholder proposal to be presented in connection with an

annual meeting, the shareholder must give timely written notice thereof to First Bancshares' Secretary in compliance with the advance notice and eligibility requirements contained in First Bancshares Bylaws. To be timely, a shareholder's notice must be delivered to or mailed to and received by the Secretary at First Bancshares' corporate headquarters on or before the later to occur of (i) 60 days prior to the annual meeting or (ii) 10 days after notice of the meeting is provided to the shareholders pursuant to First Bancshares' Bylaws.

First Bancshares Bylaws also provide that special meetings of the shareholders, for any purpose or purposes, may be called by the Chairman of the board of directors, the Chief Executive Officer, or the board of directors, or within 75 days of a written request of shareholders holding in the aggregate 10% or more of the total voting power entitled to vote on an issue. Such request must state the purpose or purposes of the proposed special meeting.

The notice must contain the detailed information specified in First Bancshares Bylaws about the shareholder making the nomination or proposal and, as applicable, each nominee or the proposed business. Nominations that are not made in accordance with the foregoing provisions may be ruled out of order by the presiding officer or the chairman of the meeting.

Gulf Coast

Under the Gulf Coast Bylaws, a nomination for the election of a director at an annual meeting may be made by a shareholder only if written notice of such nomination or proposal has been received by Gulf Coast's Corporate Secretary and the FDIC and the Florida Office of Financial Resulation not less than 14 days prior to the meeting. The notice must contain the detailed information specified in the Gulf Coast Bylaws.

Removal of Directors; Vacancies

Removal. The First Bancshares Bylaws provide that a director may only be removed for cause at a meeting of the shareholders for which notice of the removal action has been given.

The Gulf Coast Bylaws provide that a director may be removed for any purpose at a meeting of the shareholders called for that purpose upon the majority vote of the shareholders so entitled to vote.

Vacancies. Under First Bancshares Bylaws, if during the year a vacancy in the board of directors should occur, the remaining directors on First Bancshares' board may appoint a First Bancshares shareholder to serve until the next

annual meeting of shareholders; provided however, that if the vacant director was elected by a particular voting group, then only the remaining directors elected by the voting group, or if none, the voting group, may elect the new director.

Gulf Coast treats vacancies differently. Under the Gulf Coast Bylaws, if a vacancy occurs on the Gulf Coast board at any time, that vacancy may be filled by a majority vote of the remaining directors.

Special Meetings of Shareholders

The First Bancshares Bylaws provide that a special meeting of shareholders may be called by First Bancshares board of directors, the Chairman of the board of directors, the Chief Executive Officer, or by First Bancshares shareholders owning at least 10% of First Bancshares' stock entitled to be voted at such a meeting.

Under the Gulf Coast Bylaws, special meetings of shareholders may be called for any purpose by the Chairman of Gulf Coast, or by the board, or by shareholders owning at least 49% of the capital stock of Gulf Coast entitled to vote on the matter proposed to be considered at the special meeting.

Indemnification

First Bancshares

The First Bancshares Bylaws require First Bancshares to indemnify its directors (referred to in this subsection as the indemnitees) against liability and reasonable expenses (including attorneys' fees) incurred in connection with any proceeding an indemnitee is made a party to if he or she met the required standard of conduct. To meet the standard of conduct, the indemnitee must have conducted himself or herself in good faith, and he or she must have reasonably believed that any conduct was in First Bancshares' best interests, or in any criminal proceeding, the indemnitee had no reasonable cause to believe his or her conduct was unlawful. Unless otherwise ordered by a court, First Bancshares is not obligated to indemnify an indemnitee in connection with (1) any appropriation, in violation of his duties, of any business opportunity of the Corporation, (b) acts or omissions not in good faith or

which involve intentional misconduct or a knowing violation of law, (c) under Section 79-4-8.33 of the MBCA, or (d) any transaction from which the director derived an improper personal benefit.

The First Bancshares is allowed to extend its indemnification rights to any other officer, employee, or agent of the company upon a resolution of the board of directors to that effect.

An indemnitee may apply to the court conducting the proceeding, or to another court, for indemnification or advance for expenses. The court shall (1) order indemnification if the court determines that the indemnitee is entitled to mandatory indemnification under applicable provisions of the MBCA or (2) order indemnification or advance for expenses if the court determines that (a) the indemnitee is entitled to indemnification or advance for expenses under First Bancshares Bylaws or (b) in view of all relevant circumstances it is fair and reasonable to indemnify or advance expenses to such indemnitee even if he or she has not met the standard of conduct described above. First Bancshares must indemnify an indemnitee who is wholly successful, on the merits or otherwise, in the defense of any proceeding to which the indemnitee was a party against reasonable expenses incurred in the proceeding. First Bancshares generally must advance funds to pay for or reimburse the reasonable expenses incurred by an indemnitee who is a party to a proceeding.

Gulf Coast

Under the Gulf Coast Bylaws, Gulf Coast must indemnify any director or officer to the fullest extent allowed by law.

Limitations on Director Liability

The First Bancshares Articles provide that no director of First Bancshares will be personally liable to the Corporation or its shareholders for monetary damages for breach of fiduciary duty as a director, unless he or she has (i) appropriated any business opportunity that rightly belonged to First Bancshares, (ii) acted or omitted to act not in good faith or which involves the intentional misconduct or a knowing violation of law, (iii) provided under Section 79-4-8.33 of the MBCA, or (iv) derived an improper personal benefit for any transaction.

Under Miss. Code Ann. § 81-5-105(1), the duties of a director or officer of a bank or bank holding company to the bank or bank holding company and its shareholders are to discharge the director's or officer's duties in good faith and with the diligence, care, judgment and skill as provided in subsection (2). Under Miss. Code Ann. § 81-5-105(2), a director or officer of a bank or bank holding company cannot be held personally liable for money damages to a corporation or its shareholder unless the officer or director acts in a grossly negligent manner or engages in conduct that demonstrates a greater disregard of the duty of care than gross negligence. In addition, Miss. Code Ann. §

81-5-105(4) provides that the provisions of Miss. Code Ann. § 81-5-105 are the sole and exclusive law governing the relation and liability of directors and officers to their bank or bank holding company, or their successor, or to the shareholders thereof, or to any other person or entity.

If the MBCA were applicable in defining the fiduciary duties of officers and directors, Miss. Code Ann. § 79-4-8.31 provides that a director is not liable to a corporation or its shareholders for any decision to take or not take action, or any failure to take any action, as a director, unless the party asserting liability proves certain matters. The party must show that (1) the director was a party to or had a direct or indirect financial interest in a transaction, which transaction was not otherwise approved in accordance with the MBCA, and (2) the challenged conduct consisted or was a result of (a) action not in good faith; (b) a decision which the director did not reasonably believe to be in the best interests of the corporation or as to which the director was not appropriately informed; (c) a lack of objectivity, due to familial, financial or business relationships, or a lack of independence, due to the director's domination or control by another interested person, where such relationship, domination or control could reasonably be expected to have affected the director's judgment respecting the challenged conduct in a manner adverse to the corporation, and after a reasonable expectation to such effect has been established, the director cannot demonstrate that he reasonably believed the challenged conduct to be in the best interests of the corporation; (d) the director's sustained failure to stay informed about the corporation's business and affairs or otherwise discharge his oversight functions; or (e) receipt of a financial benefit to which the director was not entitled or any other breach of the director's duty to deal fairly with the corporation and its shareholders that is actionable under law.

The Florida Business Corporation Act generally provides that a director is not personally liable for monetary damages to a corporation or any other person for any statement, vote, decision or failure to act regarding corporate management or policy, unless the director breached or failed to perform his duties as a director and the director's breach or failure to perform those duties constitutes: (i) a violation of the criminal law, unless the director had

reasonable cause to believe his conduct was lawful or had no reasonable cause to believe his conduct was unlawful; (ii) a transaction from which the director derived any improper personal benefit, either directly or indirectly; (iii) an unlawful distribution; (iv) in a proceeding by or in the right of the corporation or in the right of a stockholder, conscience disregard for the best interest of the corporation, or willful misconduct; or (v) in a proceeding by or in the right of someone other than the corporation or stockholder, recklessness or an act or omission which was committed in bad faith or with malicious purpose or in a manner exhibiting wanton and willful disregard of human right, safety or property.

Vote on Extraordinary Corporate Transactions; Anti-Takeover Provisions

Under the MBCA, a merger, share exchange, sale, lease, exchange or other disposal of all or substantially all of a Mississippi corporation's assets, or its dissolution, is approved if the votes cast in favor of the transaction exceed the votes cast against the transaction at a meeting of the shareholders of the corporation where a quorum is present and acting throughout, except approval of a merger by shareholders of the surviving corporation is not required in the instances specified in the MBCA. Unless the Florida Business Corporations Act or the articles of incorporation require a greater or lesser vote or a vote by voting groups, or the board of directors requires a greater vote or a vote by voting groups, a plan of merger or share exchange to be authorized must be approved by each voting group entitled to vote separately on the plan by two thirds of all the votes entitled to be cast on the plan by that voting group; but in no case may the vote required for shareholder approval be set at less than a majority of the votes entitled to be cast on the plan by each voting group.

First Bancshares

The First Bancshares Articles do include a Control Share Acquisition provision requiring any person who plans to acquire a control block of stock (generally defined as 10%) to obtain approval by the majority vote of disinterested shareholders or the affirmative vote of 75% of eligible members of the board of directors in order to vote the control shares. If a control share is made without first obtaining this approval, all stock beneficially owned by the acquiring person in excess of 10% will be considered "excess stock" and will not be entitled to vote.

Any person who proposes to make or has made a control share acquisition may deliver a statement to First Bancshares describing the person's background and the control share acquisition and requesting a special meeting of shareholders of First Bancshares to decide whether to grant voting rights to the shares acquired in the control share acquisition. The acquiring person must pay the expenses of this meeting. If no request is made, the voting rights to be accorded the shares acquired in the control share acquisition shall be presented to the next special or annual meeting of the shareholders. If the acquiring person does not deliver his or her statement to First Bancshares, it may elect to repurchase the acquiring person's shares at fair market value. Control shares acquired in a control share acquisition are not subject to redemption after an acquiring person's statement has been filed unless the shares are not accorded full voting rights by the shareholders.

Gulf Coast

The Florida Bank Code provides that no person or group of persons may purchase or acquire a controlling interest in a Florida bank and thereby change the control of that bank without obtaining a certificate of approval of such proposed change from the Florida Office of Financial Regulation. Under the Florida Banking Code, a rebuttable presumption of control arises if the acquirer: (i) owns, controls, or has power to vote 25% or more of any class of voting securities of the bank; (ii) controls in any manner the election of a majority of the directors of the bank; (iii) owns, controls, or has power to vote 10% or more of any class of voting securities of the bank and exercises a controlling influence of the management or policies of the bank; or (iv) is determined by the Florida Office of Financial Regulation, after notice and opportunity for hearing, to directly or indirectly exercise a controlling influence over the management or policies of the bank.

Amendments to Articles of Incorporation

The MBCA provides that a corporation's articles of incorporation may be amended by the board of directors without shareholder approval: (1) if the corporation has only one class of shares outstanding, (a) to change each issued and unissued authorized share of the class into a greater number of whole shares of that class or (b) increase the number of authorized shares of the class to the extent necessary to permit the issuance of shares as a share dividend; or (2) to accomplish certain ministerial tasks.

The Florida Business Corporations Act provides that a corporation's board of directors may adopt one or more amendments to the corporation's articles of incorporation without shareholder action to: (1) extend the duration of

the corporation if it was incorporated at a time when limited duration was required by law; (2) delete the names and addresses of the initial directors; (3) delete the name and address of the initial registered agent or registered office, if a statement of change is on file with the Secretary of State; (4) change the corporate name by substituting the word “corporation,” or “incorporated,” or an abbreviation of one of the words for a similar word or abbreviation in the name, or by adding, deleting, or changing a geographical attribution for the name; (5) delete information solely of historical significance, (6) delete a class or series of shares if none are outstanding, (7) change to par value of shares, or (8) make any other change expressly permitted by the Florida Business Corporations Act to be made without shareholder action.

Neither First Bancshares governing documents nor the Gulf Coast governing documents amends the voting requirements set forth in the MBCA and Florida Business Corporations Act, respectively.

THE MERGER AGREEMENT

The following is a summary of the material provisions of the merger agreement. This description does not purport to be complete and is qualified in its entirety by reference to the merger agreement, a copy of which is attached as Annex A to this proxy statement/prospectus. This summary may not contain all of the information about the merger agreement that may be important to you. We urge you to read the merger agreement carefully and in its entirety, as it is the legal document governing the merger.

Terms of the Merger

Each of First Bancshares' and The First's board of directors and the Gulf Coast board of directors has unanimously approved the merger agreement, which provides for the merger of Gulf Coast with and into The First. The First will be the surviving banking association in the merger. First Bancshares' Articles and First Bancshares Bylaws as in effect immediately prior to the completion of the merger will be the articles of incorporation and bylaws of the surviving corporation.

Under the terms of the merger agreement, holders of Gulf Coast common stock will receive in exchange for each outstanding share of Gulf Coast common stock that is issued and outstanding (other than shares held by First Bancshares or Gulf Coast, or, shares with respect to which the holders thereof have perfected dissenters' rights) their pro rata portion of the number of whole shares of First Bancshares common stock obtained by (i) dividing \$0.50 by (ii) the average of the closing prices of First Bancshares common stock as reported on the Nasdaq Stock Market on each of the thirty (30) trading days ending five (5) business days prior to the closing of the transaction and (iii) multiplied by the total number of shares of Gulf Coast common stock issued and outstanding. The total consideration to be paid in connection with the acquisition will be \$2,257,718.50, as more specifically described in this document.

First Bancshares will not issue any fractional shares of First Bancshares common stock in the merger. Instead, a holder of Gulf Coast common stock who otherwise would have received a fraction of a share of First Bancshares common stock will receive an amount in cash. This cash amount will be determined by multiplying the fraction of a share of First Bancshares common stock to which the holder would otherwise be entitled by the average closing price of one share of First Bancshares common stock as reported on the NASDAQ for the 30 trading days prior to the 5th business day prior to the date on which the merger is completed, and then rounded to the nearest cent.

The merger agreement allows First Bancshares to change the structure of the merger. No such change may alter the amount or kind of merger consideration to be provided under the merger agreement, materially impede or delay consummation of the potential business combination or cause any of the closing conditions to the merger to not be

capable of being fulfilled unless duly waived by the party entitled to the benefits thereof.

Effective Time of the Merger

The merger will be completed on the fifth business day, or such later date as the parties mutually agree, following the receipt of all necessary approvals and consents of all governmental entities, the expiration of all statutory waiting periods and the satisfaction or waiver of all other conditions to the merger set forth in the merger agreement. See “Conditions to the Completion of the Merger” below. Articles of Merger will be filed in the offices of the OCC as required under the Bank Merger Act and will establish the effective time of the merger.

Treatment of Gulf Coast Stock Options and Other Equity-Based Awards of Gulf Coast

The merger agreement provides that, upon completion of the merger, each outstanding option or similar right to purchase Gulf Coast common stock granted under Gulf Coast’s equity incentive plans (each of which we refer to as a Gulf Coast Stock Option) will be cancelled.

Conversion of Shares; Exchange of Certificates

The conversion of Gulf Coast common stock, which we refer to herein as Gulf Coast capital stock, into the right to receive the applicable merger consideration will occur automatically upon completion of the merger. At or promptly after the effective time of the merger, Computershare Inc., which we refer to herein as the exchange agent, will exchange certificates representing shares of Gulf Coast capital stock for the merger consideration, without interest, to be received by holders of Gulf Coast capital stock in the merger pursuant to the terms of the merger agreement.

As soon as reasonably practicable after the completion of the merger, the exchange agent will mail a letter of transmittal to each holder of Gulf Coast capital stock at the effective time of the merger. This mailing will contain instructions on how to surrender Gulf Coast capital stock in exchange for the applicable merger consideration.

If a certificate for Gulf Coast capital stock has been lost, stolen or destroyed, the exchange agent will issue the consideration properly payable under the merger agreement upon receipt of an affidavit of that fact by the claimant and the posting of a bond in such amount as First Bancshares or the exchange agent determine is reasonably necessary as indemnity.

Each of First Bancshares and the exchange agent will be entitled to deduct and withhold from the cash in lieu of fractional shares payable to any holder of Gulf Coast capital stock the amounts it is required to deduct and withhold under any federal, state, local or foreign tax law. If First Bancshares or the exchange agent withholds any amounts, these amounts will be treated for all purposes as having been paid to the shareholders from whom they were withheld.

Dividends and Distributions

Until shares of Gulf Coast capital stock represented by certificates are surrendered for exchange, any dividends or other distributions with a record date on or after the effective time of the merger with respect to First Bancshares capital stock into which shares of Gulf Coast capital stock may have been converted will accrue but will not be paid. First Bancshares will pay to former Gulf Coast shareholders any unpaid dividends or other distributions with respect to First Bancshares shares, without interest and less any taxes withheld, only after they have duly surrendered their Gulf Coast shares.

Gulf Coast has agreed that, prior to the completion of the merger, it will not declare or pay any dividend or distribution on its capital stock.

Representations and Warranties

The merger agreement contains generally customary representations and warranties of First Bancshares and Gulf Coast relating to their respective businesses that are made as of the date of the merger agreement and as of the closing date of the merger. In addition, these representations and warranties:

have been qualified by information set forth in confidential disclosure schedules in connection with signing the merger agreement — the information contained in these schedules modifies, qualifies and creates exceptions to the representations and warranties in the merger agreement;

· will not survive consummation of the merger;

· may be intended not as statements of fact, but rather as a way of allocating the risk to one of the parties to the merger agreement if those statements turn out to be inaccurate;

· are in some cases subject to a materiality standard described in the merger agreement which may differ from what may be viewed as material by you; and

· were made only as of the date of the merger agreement or such other date as is specified in the merger.

First Bancshares and Gulf Coast have made representations and warranties regarding, among other things:

· corporate matters, including due organization and qualification;

· capitalization;

· authority relative to execution and delivery of the merger agreement and the absence of conflicts with, or violations of, organizational documents or other obligations as a result of the merger;

· its subsidiaries;

· required governmental filings and consents;

· financial statements and the absence of undisclosed liabilities, and in the case of First Bancshares, SEC filings;

· legal proceedings; and

· broker's fees payable in connection with the merger.

The merger agreement includes additional representations of Gulf Coast regarding, among other things:

- the accuracy of information supplied for inclusion in this proxy statement/prospectus and other similar documents;

- the absence of certain changes or events;

- compliance with applicable laws and permits;

- tax matters;

- certain material contracts;

- insurance matters;

- real and personal property;

- matters relating to loans, the allowance for loan losses and other real estate owned;

- deposit insurance and other bank regulatory matters;

- Community Reinvestment Act compliance;

- employee and employee benefit matters;

- labor matters;

- environmental matters; and

- intellectual property matters.

None of the parties' representations and warranties in the merger agreement survive the effective time of the merger.

Certain representations and warranties of First Bancshares and Gulf Coast are qualified as to “materiality” or “material adverse effect.” For purposes of the merger agreement, a “material adverse effect,” when used in reference to First Bancshares or Gulf Coast, means a material adverse effect on the business, operations, assets or financial condition of the applicable party and its subsidiaries, taken individually or as a whole. In determining whether a material adverse effect has occurred or would reasonably be expected to occur, First Bancshares and Gulf Coast will disregard any effects resulting from:

the act of actions or omissions of Gulf Coast or First Bancshares or any of their respective subsidiaries taken with the prior written consent of the other party in contemplation of the transactions contemplated by the merger agreement;

- changes in laws or interpretations thereof that are generally applicable to the banking industry;
- changes in generally accepted accounting principles; and
- expenses incurred in connection with the merger agreement and the merger.

The representations and warranties of Gulf Coast are generally contained in Article 5 of the merger agreement. The representations and warranties of First Bancshares are generally contained in Article 6 of the merger agreement.

Covenants and Agreements

Gulf Coast has undertaken customary covenants that place restrictions on it and its respective subsidiaries until the completion of the merger. Gulf Coast has agreed not to, and not permit its subsidiaries to, among other things:

- amend their articles of incorporation, bylaws or other governing instruments;

incur any additional debt obligation or other obligation for borrowed money except in the ordinary course of business of Gulf Coast consistent with past practices and in no event greater than \$100,000 (which shall include creation of deposit liabilities, purchases of federal funds, advances from the Federal Reserve Bank or Federal Home Loan Bank, and entry into repurchase agreements fully secured by U.S. government or agency securities), or impose, or suffer the imposition, on any asset of any Gulf Coast entity of any lien or permit any such lien to exist (other than in connection with deposits, repurchase agreements, bankers acceptances, “treasury tax and loan” accounts established in the ordinary course of business, the

satisfaction of legal requirements in the exercise of trust powers, and liens in effect as of the date of the merger agreement);

repurchase, redeem, or otherwise acquire or exchange, directly or indirectly, any shares, or any securities convertible into any shares, of Gulf Coast's capital stock, or declare or pay any dividend or make any other distribution in respect of Gulf Coast's capital stock other than as set forth in the merger agreement;

issue, sell, pledge, encumber, authorize the issuance of, enter into any contract to issue, sell, pledge, encumber, or authorize the issuance of, or otherwise permit to become outstanding, any additional shares of Gulf Coast common stock or any other capital stock of any Gulf Coast entity, or any rights, or other equity right, or voting debt;

adjust, split, combine or reclassify any shares of Gulf Coast common stock or issue or authorize the issuance of any other securities in respect of or in substitution for shares of Gulf Coast common stock, or sell, lease, mortgage or otherwise dispose of or otherwise encumber any asset other than in the ordinary course of business for reasonable and adequate consideration;

purchase any securities or make any material investment of more than \$250,000, either by purchase of stock or securities, contributions to capital, asset transfers, or purchase of any assets, in any person, or otherwise acquire direct or indirect control over any person, other than in connection with foreclosures in the ordinary course of business;

enter into or amend any employment or change of control contract with any person (unless such amendment is required by law or the merger agreement);

adopt any new employee benefit plan or terminate or withdraw from, or make any change in or to, any existing employee benefit plans of any Gulf Coast entity other than any such change that is required by law or that, in the opinion of counsel, is necessary or advisable to maintain the tax-qualified status of any such plan, except as contemplated by the merger agreement;

make any significant change in any tax or accounting methods or systems of internal accounting controls, except as may be appropriate to conform to changes in tax laws or regulatory accounting requirements or GAAP;

increase (except for increases of not more than 5% consistent with past practices) the compensation including wages, salary, fees, bonuses, profit sharing, incentive, pension, retirement, severance of any such person whose work compensation would, following such increase, exceed \$50,000;

commence any litigation other than in accordance with past practice, or settle any litigation involving any liability of any Gulf Coast entity for over \$25,000 in money damages or any restrictions upon the operations of any Gulf Coast entity;

except in the ordinary course of business, enter into, modify, amend or terminate any contract (including any loan contract with an unpaid balance) or waive, release, compromise or assign any right or claim in an amount exceeding \$25,000 or that would otherwise be considered material under the merger agreement;

change its existing deposit policy other than changes made in the ordinary course of business consistent with past practice with respect to interest rates paid on deposits; incur deposit liabilities, other than deposit liabilities incurred in the ordinary course of business consistent with past practice; or accept any brokered deposits;

make any unsecured extension of credit to a borrower in excess of \$25,000 or make any secured extension of credit to a borrower in excess of \$250,000;

permit the commencement of any construction of new structures or facilities upon, or purchase or lease any real property in respect of any branch or other facility, or file any application, or otherwise take any action, to establish, relocate or terminate the operation of any banking office of any Gulf Coast entity;

enter into any new line of business; introduce any new products or services; change its lending, investment, underwriting, pricing, servicing, risk and asset liability management and other material banking and operating policies or otherwise fail to follow such policies, except as required by applicable law, regulation or policies imposed by any regulatory authority, or the manner in which its investment securities or loan portfolio is classified or reported; or invest in any mortgage-backed or mortgage-related security that would

be considered “high risk” under applicable regulatory guidance; or file any application or enter into any contract with respect to the opening, relocation or closing of, or open, relocate or close, any branch, office, service center or other facility;

- introduce any marketing campaigns or any new sales compensation or incentive programs or arrangements;

take any action that is intended to, would or would be reasonably likely to result in any of the conditions set forth in Article 9 of the merger agreement not being satisfied or prevent or materially delay the consummation of the transactions contemplated thereby, except, in every case, as may be required by applicable law; or

agree to, or make any commitment to, take, or adopt any resolutions of board of directors of Gulf Coast in support of, any of the actions prohibited by the above.

In addition to the general covenants above, Gulf Coast has further agreed not to withdraw, modify or qualify, or propose publicly to withdraw, modify or qualify, in a manner adverse to First Bancshares, the approval of the merger agreement or the recommendation of the Gulf Coast board of directors, except as permitted under the merger agreement, principally in the exercise of the Gulf Coast board of directors’s fiduciary duty.

No Solicitation

Gulf Coast has agreed that neither it, nor any of its respective officers, directors, managers, employees, agents, representatives or affiliates, including any investment banker, attorney, financial advisor, accountant or other representative retained by Gulf Coast, will solicit or hold discussions or negotiations with, or provide any information to, any person, entity or group concerning any acquisition proposal. An “acquisition proposal” is defined in the merger agreement to mean an offer or proposal by a person or entity other than First Bancshares or The First for (1) a merger, tender offer, recapitalization or consolidation or similar transaction involving Gulf Coast that would result in such person acquiring 20% or more of the Gulf Coast capital stock, (2) a purchase, lease, exchange, transfer, license, acquisition or disposition of any business or assets that constitute or account for 20% or more of the consolidated net revenues, net income or assets of Gulf Coast or (3) any substantially similar transaction.

The merger agreement does not prevent Gulf Coast, or its board of directors, from, prior to the receipt of Gulf Coast shareholder approval:

providing information in response to a request by a person who has made an unsolicited bona fide written proposal to engage in any acquisition proposal after receipt from such person of an executed confidentiality agreement;

engaging in any negotiations or discussions with a person who has made an unsolicited bona fide acquisition proposal;

failing to recommend, or withdrawing its recommendation of, the merger agreement and the merger and/or failing to hold the special meeting to consider this agreement; or

recommending an acquisition proposal to the shareholders of Gulf Coast.

The board of directors of Gulf Coast, however, may only undertake any of the foregoing actions after it has determined in good faith, after consultation with outside legal counsel or its financial advisers, as appropriate, that (1) such action would be required in order for the directors to fulfill their fiduciary duties and (2) such acquisition proposal both is likely to be consummated, taking into account all aspects of the proposal and the person making the proposal, and, if consummated, would result in a transaction more favorable to Gulf Coast's shareholders from a financial point of view than the merger with First Bancshares. Any proposal satisfying (1) and (2) is a "superior proposal" under the merger agreement.

Gulf Coast must communicate in writing to First Bancshares the terms of any proposal it receives to engage in an acquisition transaction no more than 48 hours after receipt. Within 5 days of receipt of such communication, First Bancshares has the right to match or better any superior proposal of which it has been notified. Upon such amendment, Gulf Coast may not terminate the merger agreement and must notify the party making the superior proposal that such proposal has been matched or bettered and that the merger agreement has been amended to reflect this fact. After such amendment to the merger agreement, Gulf Coast must, and must cause Gulf Coast and its

representatives to, cease and terminate all discussions and negotiations regarding the superior proposal that has been matched or bettered. New proposals from the third party may be made, and First Bancshares retains the same rights set forth above regarding such new proposals. If Gulf Coast determines that the acquisition proposal is still a superior proposal, Gulf Coast may terminate the merger agreement and proceed with the superior proposal but it will be obligated to pay a termination fee to First Bancshares in the amount of \$500,000 upon the consummation of the transaction contemplated by the superior proposal.

Board Recommendation

Except to the extent as it would cause the directors on Gulf Coast's board of directors to breach their fiduciary duties under applicable law (as determined after consultation with legal counsel), the Gulf Coast board of directors, and any committee of such board, shall not:

withdraw, modify or qualify in any manner adverse to First Bancshares the approval of the merger agreement and/or its recommendation to shareholders of the approval of the merger agreement, or publicly propose to do any of the foregoing, or take any action or make any statement in connection with the special meeting inconsistent with such approval or its recommendation to the shareholders of Gulf Coast (collectively, a "change in recommendation")

· approve or recommend, or publicly propose to approve or recommend, any acquisition proposal; or

cause Gulf Coast to enter into any letter of intent, agreement in principle or similar agreement related to an acquisition transaction.

A change in recommendation shall also include the failure by Gulf Coast's board of directors to recommend against an unsolicited bona fide written proposal to engage in an acquisition transaction.

Reasonable Best Efforts

First Bancshares and Gulf Coast have agreed to use reasonable best efforts to take all actions that are necessary, proper or advisable under the merger agreement and applicable laws to consummate and make effective the merger and the other transactions contemplated by the merger agreement as promptly as practicable. First Bancshares and Gulf Coast have also agreed to cooperate and use all reasonable best efforts to prepare as promptly as possible all documentation, to make all requisite regulatory filings and to obtain any necessary permits, consents, approvals or authorizations of governmental entities necessary to consummate the transactions contemplated by the merger agreement as soon as practicable, except that neither First Bancshares nor Gulf Coast is required to take any such action if such action is reasonably likely to result in a material adverse effect.

Employee Matters

Employees of Gulf Coast immediately prior to the effective time of the merger who become employees of First Bancshares or its subsidiaries will be covered by First Bancshares employee benefit plans on substantially the same basis as the other employees of First Bancshares and its subsidiaries performing services in a comparable position. First Bancshares will recognize transferred employees' service with Gulf Coast as service with First Bancshares or The First, as the case may be, for purposes of eligibility to participate and vesting under the benefit plans, policies or arrangements, subject to applicable break-in-service rules.

Gulf Coast has agreed to (i) terminate any and all 401(k) Plans effective as of the date immediately preceding the date on which the Effective Time occurs; (ii) with respect to each 401(k) plan that is a multiple employer plan, provide to the sponsor of such multiple employer plan any and all documentation and information required to confirm the revocation and withdrawal from participation in such plan, 100% vest all affected participants in their accounts balances thereunder and entitle the participants to distribution of their vested account balances following such revocation and withdrawal; (iii) with respect to any 401(k) plan being terminated, amend the 401(k) Plan, as necessary, to accomplish the termination and reserve the power in the Committee to further amend the 401(k) Plan following the date of termination to the extent necessary to comply with all applicable laws or to facilitate the termination thereof and obtain a favorable determination letter as to the effect of the termination on the qualified status of the 401(k) Plan; (iv) authorize the filing of the 401(k) Plan, other than a multiple employer plan, by the Committee with the IRS for a determination letter as to the effect of the termination on the qualified status of the Plan, and authorize the payment of the application fee in connection therewith; and (v) provide for the distribution of benefits from the 401(k) Plan as permitted under applicable law in connection with such termination after receipt of such favorable determination letter.

Directors' and Officers' Insurance and Indemnification

The merger agreement provides that First Bancshares will indemnify and hold harmless the duly elected current and former directors and officers of Gulf Coast and Gulf Coast, and their heirs, personal representatives and estates, to the same extent as such persons would have been indemnified under the Gulf Coast Articles or the Gulf Coast Bylaws. The indemnification applies to acts or omissions occurring at or prior to the closing date of the merger. The agreement also requires such officer or director to cooperate in the defense of any action for which indemnification is sought. First Bancshares will indemnify such individuals against, and shall advance or reimburse any and all costs and expenses of, any judgments, interest, fines, damages or other liabilities, or amounts paid in settlement, as such are incurred in connection with any claim, action, suit or proceeding based upon or arising from the indemnified party's capacity as an officer or director of Gulf Coast or Gulf Coast.

Gulf Coast has also agreed to obtain a six year "tail" prepaid directors' and officers' liability insurance policy(ies). The insurance policy(ies) must cover acts or omissions occurring prior to the closing date of the merger. The policy(ies) must be on terms and in amounts substantially similar to those in effect for Gulf Coast on the date of the merger agreement.

Other Agreements

Each director of Gulf Coast signed an agreement with First Bancshares on the date of the merger agreement obligating such person, in his or her capacity as a holder of Gulf Coast common stock, to vote his or her shares of Gulf Coast common stock in favor of the merger agreement.

Conditions to the Completion of the Merger

First Bancshares' and Gulf Coast's respective obligations to complete the merger are subject, but not limited, to the fulfillment or, in certain cases, waiver of the following conditions:

The requisite shareholder approval of Gulf Coast shall have been obtained.

All consents of, filings and registrations with, and notifications to, all regulatory authorities required for consummation of the merger shall have been obtained or made and shall be in full force and effect and all waiting periods required by law shall have expired. No consent obtained from any regulatory authority that is necessary to consummate the transactions contemplated by the merger agreement shall be conditioned or restricted in a manner

(including requirements relating to the raising of additional capital or the disposition of assets) which in the reasonable judgment of the board of directors of either party would so materially adversely impact the economic or business benefits of the transactions contemplated by the merger agreement that, had such condition or requirement been known, such party would not, in its reasonable judgment, have entered into the merger agreement.

Each party shall have obtained any and all consents required for consummation of the merger (other than as set forth otherwise in the merger agreement) or for the preventing of any default under any material contract or permit of such party which, if not obtained or made, is reasonably likely to have, individually or in the aggregate, a material adverse effect on Gulf Coast or First Bancshares, as applicable. No consent which is necessary to consummate the transactions contemplated under the merger agreement shall be conditioned or restricted in a manner which in the reasonable judgment of the board of directors of either party would so materially adversely impact the economic or business benefits of the transactions contemplated by the merger agreement that, had such condition or requirement been known, such party would not, in its reasonable judgment, have entered into the merger agreement.

No court or governmental or regulatory authority of competent jurisdiction shall have enacted, issued, promulgated, enforced or entered any law or order (whether temporary, preliminary or permanent) or taken any other action that prohibits, restricts or makes illegal consummation of the transactions contemplated by the merger agreement.

The Form S-4 shall have become effective under the Securities Act of 1933 and shall not be the subject of any stop order suspending the effectiveness of the Form S-4 nor shall proceedings for that purpose have been threatened.

The obligations of First Bancshares under the merger agreement to complete the merger also are subject, but not limited, to the fulfillment, on or prior to the closing date of the merger, of the following conditions (any one or more of which may be waived by First Bancshares to the extent permitted by law):

The representations and warranties of Gulf Coast being true and correct in all material respect as of the Effective Time.

All other agreements and covenants of Gulf Coast that are required to be fulfilled prior to the Effective Time have been so fulfilled.

- First Bancshares shall have received employment agreements from certain employees.

- First Bancshares shall have received a restrictive covenant agreement from each director of Gulf Coast.

- Gulf Coast's classified assets shall not exceed \$28,510,763 on the Effective Date.

- Gulf Coast shall have obtained the tail coverage specified in the merger agreement.

We cannot provide assurance as to when or if all of the conditions to the merger can or will be satisfied or waived by the appropriate party. As of the date of this proxy statement/prospectus, we have no reason to believe that any of these conditions will not be satisfied.

Amendment, Waiver and Termination of the Merger Agreement

Subject to applicable law, the parties may amend the merger agreement by written agreement if so authorized by their respective boards of directors. However, after any approval of the transactions contemplated by the merger agreement by holders of Gulf Coast common stock, there may not be, without further shareholder approval, any amendment of the merger agreement that requires such further shareholder approval under applicable law. Either party to the merger agreement may, subject to applicable law, extend the time for performance of any obligation of the other party, waive any inaccuracies in the representations and warranties of the other party, or may waive compliance by the other party with any of the other agreements or conditions contained in the merger agreement.

Subject to certain limitations, the merger agreement may be terminated at any time prior to the closing date of the merger, whether before or after approval of the merger agreement by First Bancshares' and/or Gulf Coast's shareholders:

- by mutual written consent of First Bancshares, The First and Gulf Coast;

by First Bancshares or Gulf Coast if:

the closing date of the merger shall not have occurred on or prior to April 30, 2017, unless delayed because approval by a governmental entity is pending and has not been finally resolved, in which event such date shall be automatically extended for 60 days, unless the failure to complete the merger by that date is due to the breach of the merger agreement by the party seeking to terminate;

o Holders of Gulf Coast common stock do not approve the merger agreement at the applicable special meeting;

any consent of any regulatory authority required for consummation of the merger and the other transactions contemplated thereby shall have been denied by final nonappealable action of such authority or if any action taken by such authority is not appealed within the time limit for appeal;

any of the conditions precedent to the obligations of either party to consummate the merger cannot be satisfied or waived by April 30, 2017 (unless extended), provided that the failure to consummate the merger is not caused by the party electing to terminate; or

there has been a breach by the other party of (1) any covenant or undertaking in the merger agreement or (2) any representation or warranty of the other party contained in the merger agreement, where such breach prevents the breaching party from satisfying a condition to closing in the merger agreement and cannot be or has not been cured within 30 days following delivery of written notice of the breach.

by First Bancshares if:

Gulf Coast's board of directors withdraws or qualifies the recommendation in this proxy statement/prospectus that Gulf Coast's shareholders vote to adopt and approve the merger agreement, or resolves to do either of the foregoing;

Gulf Coast approves or recommends, or publicly proposes to approve or recommend, an acquisition proposal by a third party; or

if dissenting shares represent more than 10% in the aggregate of the Gulf Coast common stock outstanding immediately prior to the record date of the special meeting.

by Gulf Coast if:

the board of directors of Gulf Coast effect a change in recommendation as allowed under the terms of the merger agreement.

Termination Fee

In the event the following conditions are met, Gulf Coast will have to pay First Bancshares a termination fee of \$500,000 by wire transfer of immediately available funds. First, prior to any event allowing either party to terminate the merger agreement, an acquisition proposal must have been publicly announced or otherwise made known to Gulf Coast's senior management, board of directors or shareholders generally. Second, Gulf Coast's shareholders fail to approve the merger agreement or Gulf Coast affirmatively approves an alternative transaction. Third, First Bancshares terminates the merger agreement because of a willful breach by Gulf Coast of any covenant, undertaking, representation or warranty contained in the merger agreement. Fourth, prior to the date that is 18 months after the date of such termination, Gulf Coast consummates an alternative transaction or enters into any letter of intent, agreement in principle, acquisition agreement or other similar agreement related to an alternative transaction.

UNITED STATES FEDERAL INCOME TAX CONSEQUENCES OF THE MERGER

The following is a general discussion of certain material U.S. federal income tax consequences of the merger to “U.S. holders” (as defined below) of Gulf Coast common stock that exchange their shares of Gulf Coast common stock for shares of First Bancshares common stock in the merger. The following discussion is based upon the Code, the U.S. Treasury regulations promulgated thereunder and judicial and administrative authorities, rulings, and decisions, all as in effect on the date of this proxy statement/prospectus. These authorities may change, possibly with retroactive effect, and any such change could affect the accuracy of the statements and conclusions set forth in this discussion. This discussion does not address any tax consequences arising under the unearned income Medicare contribution tax pursuant to the Health Care and Education Reconciliation Act of 2010, nor does it address any tax consequences arising under the laws of any state, local or foreign jurisdiction, or under any U.S. federal laws other than those pertaining to the income tax.

The following discussion applies only to U.S. holders of shares of Gulf Coast common stock who hold such shares as a capital asset within the meaning of Section 1221 of the Code (generally, property held for investment). Further, this discussion does not purport to consider all aspects of U.S. federal income taxation that might be relevant to U.S. holders in light of their particular circumstances and does not apply to U.S. holders subject to special treatment under the U.S. federal income tax laws (such as, for example, dealers or brokers in securities, commodities or foreign currencies, traders in securities that elect to apply a mark-to-market method of accounting, banks and certain other financial institutions, insurance companies, mutual funds, tax-exempt organizations, holders subject to the alternative minimum tax provisions of the Code, partnerships, S corporations or other pass-through entities or investors in partnerships, regulated investment companies, real estate investment trusts, controlled foreign corporations, passive foreign investment companies, former citizens or residents of the United States, U.S. expatriates, holders whose functional currency is not the U.S. dollar, holders who hold shares of Gulf Coast common stock as part of a hedge, straddle, constructive sale or conversion transaction or other integrated investment, holders who acquired Gulf Coast common stock pursuant to the exercise of employee stock options, through a tax qualified retirement plan, or otherwise as compensation, holders who exercise appraisal rights, or holders who actually or constructively own more than 5 percent of Gulf Coast common stock).

For purposes of this discussion, the term “U.S. holder” means a beneficial owner of Gulf Coast common stock that is for U.S. federal income tax purposes (1) an individual citizen or resident of the United States, (2) a corporation (or entity treated as a corporation for U.S. federal income tax purposes) organized in or under the laws of the United States or any state thereof or the District of Columbia, (3) a trust if (a) a court within the United States is able to exercise primary supervision over the administration of the trust and one or more U.S. persons have the authority to control all substantial decisions of the trust or (b) such trust has made a valid election to be treated as a U.S. person for U.S. federal income tax purposes or (4) an estate, the income of which is includible in gross income for U.S. federal income tax purposes regardless of its source.

If an entity or an arrangement treated as a partnership for U.S. federal income tax purposes holds Gulf Coast common stock, the tax treatment of a partner in such partnership generally will depend on the status of the partner and the activities of the partnership. Any entity treated as a partnership for U.S. federal income tax purposes that holds Gulf

Coast common stock, and any partners in such partnership, should consult their own tax advisors.

Determining the actual tax consequences of the merger to you may be complex and will depend on your specific situation and on factors that are not within our control. You should consult with your own tax advisor as to the specific tax consequences of the merger in your particular circumstances, including the applicability and effect of the alternative minimum tax and any state, local, foreign and other tax laws and of changes in those laws.

Tax Consequences of the Merger Generally

The parties intend for the merger to qualify as a “reorganization” for U.S. federal income tax purposes. First Bancshares and Gulf Coast have not sought and will not seek any ruling from the IRS regarding any matters relating to the merger, and as a result, there can be no assurance that the IRS will not assert, or that a court would not sustain, a position contrary to any of the conclusions set forth below.

Provided the merger qualifies as a “reorganization” within the meaning of Section 368(a) of the Code, upon exchanging your Gulf Coast common stock for First Bancshares common stock, you generally will not recognize

gain or loss, except with respect to cash received instead of fractional shares of First Bancshares common stock (as discussed below). The aggregate tax basis of the First Bancshares common stock that you receive in the merger, including any fractional shares deemed received and redeemed for cash as described below, will equal your aggregate adjusted tax basis in the shares of Gulf Coast common stock that you surrender in the merger. Your holding period for the shares of First Bancshares common stock that you receive in the merger (including any fractional share deemed received and redeemed for cash as described below) will include your holding period for the shares of Gulf Coast common stock that you surrender in the merger. If you acquired different blocks of Gulf Coast common stock at different times or at different prices, the First Bancshares common stock you receive will be allocated pro rata to each block of Gulf Coast common stock, and the basis and holding period of each block of First Bancshares common stock you receive will be determined on a block-for-block basis depending on the basis and holding period of the blocks of Gulf Coast common stock exchanged for such block of First Bancshares common stock.

Cash Instead of Fractional Shares

If you receive cash instead of a fractional share of First Bancshares common stock, you will be treated as having received such fractional share of First Bancshares common stock pursuant to the merger and then as having received cash in redemption for such fractional share of First Bancshares common stock. Subject to the discussion below, you generally will recognize gain or loss equal to the difference between the amount of cash received and the basis in your fractional share of First Bancshares common stock as set forth above. Such gain or loss generally will be capital gain or loss and will be long-term capital gain or loss if, as of the effective date of the merger, the holding period for such fractional share (including the holding period of shares of Gulf Coast common stock surrendered therefor) exceeds one year. Long-term capital gains of individuals are generally eligible for reduced rates of taxation. The deductibility of capital losses is subject to limitations.

The cash you receive instead of a fractional share of First Bancshares common stock may in certain cases be treated as a dividend for U.S. federal income tax purposes to the extent of your ratable share of First Bancshares' current and accumulated earnings and profits, without any reduction for your basis in the fractional share redeemed. In general, the determination of whether the deemed redemption results in the recognition of gain or loss as discussed above or in the receipt of a dividend distribution depends upon whether and to what extent the redemption reduces your deemed percentage share ownership of First Bancshares prior to the merger. The deemed redemption generally will result in the recognition of gain or loss as discussed above if the deemed redemption is (1) "substantially disproportionate" with respect to you or (2) "not essentially equivalent to a dividend."

The deemed redemption will generally be "substantially disproportionate" with respect to you if the percentage described in (2) below is less than 80% of the percentage described in (1) below. Whether the deemed redemption is "not essentially equivalent to a dividend" depends upon your particular circumstances. At a minimum, however, in order for the deemed redemption to be "not essentially equivalent to a dividend," the deemed redemption must result in a "meaningful reduction" in your deemed percentage share ownership of First Bancshares. In general, that determination requires a comparison of (1) the percentage of the outstanding shares of First Bancshares that you are deemed actually and constructively to have owned immediately before the deemed redemption and (2) the percentage of the outstanding shares of First Bancshares that is actually and constructively owned by you immediately after the

redemption. This comparison will take into account the dilution. In applying the above tests, you may, under the constructive ownership rules, be deemed to own stock that is owned by other persons or stock underlying an option to purchase in addition to the stock actually owned by you.

The IRS has ruled that a stockholder in a publicly held corporation whose relative stock interest is minimal (e.g., less than 1%) and who exercises no control with respect to corporate affairs is generally considered to have a “meaningful reduction” if that stockholder has a relatively minor (e.g., approximately 3%) reduction in its percentage stock ownership under the above analysis; accordingly, in such case, the gain recognized in the exchange by such a stockholder would be treated as capital gain.

These rules are complex and dependent upon the specific factual circumstances particular to each U.S. holder. Consequently, you should consult your own tax advisor as to the potential application of these rules to the particular facts relevant to you.

Information Reporting and Backup Withholding

If you are a non-corporate holder of Gulf Coast common stock, you may be subject, under certain circumstances, to information reporting and backup withholding (currently at a rate of 28 percent) on any cash

payments you receive. You generally will not be subject to backup withholding, however, if you:

- furnish a correct taxpayer identification number, certify that you are not subject to backup withholding and otherwise comply with all the applicable requirements of the backup withholding rules; or
- provide proof that you are otherwise exempt from backup withholding.

Any amounts withheld under the backup withholding rules are not an additional tax and will generally be allowed as a refund or credit against your U.S. federal income tax liability, provided you timely furnish the required information to the IRS.

This discussion of certain material U.S. federal income tax consequences is for general information purposes only and is not tax advice. Holders of Gulf Coast common stock are urged to consult their tax advisors with respect to the application of U.S. federal income tax laws to their particular situations as well as any tax consequences arising under the U.S. federal estate or gift tax rules, or under the laws of any state, local, foreign or other taxing jurisdiction or under any applicable tax treaty

CERTAIN BENEFICIAL OWNERS OF GULF COAST COMMON STOCK

As of October 31, 2016, Gulf Coast had 475 shareholders of record of its common stock. The following tables list the stock ownership of Gulf Coast’s directors, its executive officers, all directors and executive officers as a group, and those persons who, to Gulf Coast’s knowledge beneficially owned 5% or more of Gulf Coast’s common stock outstanding as of October 31, 2016. According to Securities and Exchange Commission rules, a “beneficial owner” of securities has or shares the power to vote securities or to direct their investment. The number of issued and outstanding shares used to calculate the percentage of total ownership for a given individual includes any shares covered by the exercisable options and warrants issued to that individual.

Names of Directors, Executive Officers and 5% Shareholders:	Amount, and Nature of	Percent of Total Class	
	Beneficial Ownership of Gulf		
	Coast Common Stock (1)		
Directors:	0.94	%	
Diane P. Appleyard	42,500	1.21	%
Richard R. Baker	54,433	9.23	%

Edgar Filing: FIRST BANCSHARES INC /MS/ - Form S-4

Lewis Bear, Jr.	416,850	5.81	%
Scott J. Bell	262,313	1.74	%
Eric L. Gleaton	78,358	0.91	%
Douglas C. Halford	40,925	1.93	%
Robert C. Harbour	87,313	3.45	%
Janice R. Miller	155,750	3.52	%
Susan K. O'Connor	158,813	6.80	%
Walter J. "Buzz" Ritchie, Jr.	307,248	0.97	%
John R. "Jack" Williams	44,000	0.94	%
Executive Officers who are not directors:			
Debi Williams	35,586	0.79	%
Tom Bailey	35,000	0.78	%
Directors and Executive Officers as a Group	1,719,089	38.07	%
Other 5% Shareholders:			
Quintan D. Studer and Mary P. Studer	300,000	6.64	%

(1) Under SEC rules for determination of “beneficial ownership,” shares are considered to be “beneficially owned” where a person has, either alone or together with others, the power to vote or to direct the vote of shares, or the power to dispose or to direct the disposition of shares, or where a person has the right to acquire any such power within 60 days after the date for the determination of beneficial ownership. Shares which a beneficial owner has the right to acquire within 60 days upon exercise of an option are considered outstanding for computing the percentage ownership, but not for the beneficial ownership of any other person. Shares set forth below also include as to each director the following presently exercisable stock options; however, under the terms of the merger agreement all options will be cancelled prior to the effective time of the merger.

In addition, the directors of Gulf Coast currently have options to acquire shares of Gulf Coast common stock in the following amounts. However, pursuant to the terms of the merger agreement, Gulf Coast has agreed that as a condition precedent to the closing of the merger, Gulf Coast will have cancelled each such outstanding option.

Name of Director	Common Shares Underlying Outstanding Options and Warrants
Diane Appleyard	4,000
Dick Baker	4,000
Lewis Bear, Jr.	4,000
Scott Bell	4,000
Eric Gleaton	4,000
Doug Halford	4,000
Bob Harbour	4,000
Jan Miller	4,000
Susan O'Connor	4,000
Buzz Ritchie	10,000
Jack Williams	4,000

DIRECTORS AND EXECUTIVE OFFICERS OF FIRST BANCSHARES

The following sets forth certain information with respect to each person who will serve as a director or an executive officer of First Bancshares following the merger.

Directors

David W. Bomboy, M.D., 70, is a lifelong resident of Hattiesburg, Mississippi. He graduated with honors in Pre-Medicine from the University of Mississippi in 1968 and earned an M.D. degree from the University of Mississippi Medical Center in 1971. Dr. Bomboy completed his orthopedic surgical training at the University of Mississippi in 1976. He is a board-certified orthopedic surgeon and has practiced orthopedics in southern Mississippi for 39 years. Dr. Bomboy is a member of the Mississippi State Medical Association, the American Medical Association, and the Mississippi Orthopedic Society and is past president. He served as president of the Methodist Hospital Medical Staff. Dr. Bomboy has been a director of First Bancshares since 1995 and is also a director of the bank.

Experience/Qualifications/Skills: Dr. Bomboy has served on the board of First Bancshares since its inception in 1995. He is the sole physician on First Bancshares' board which enables him to bring a different perspective to the challenges the board faces. His background, experience, and knowledge of the medical and business communities

are important in the board's oversight of management. His past involvement in real estate development adds another perspective to board discussions.

E. Ricky Gibson, 59, has been president and owner of N&H Electronics, Inc., a wholesale electronics distributor, since 1988 and of Mid South Electronics, a wholesale consumer electronics distributor, since 1993. He attended the University of Southern Mississippi. He is a member of Parkway Heights United Methodist Church. Mr. Gibson serves as Chairman of the Board and has been a director of First Bancshares since 1995 and is also a director of the bank.

Experience/Qualifications/Skills: Mr. Gibson has served on the board of First Bancshares since its inception in 1995. As the owner of wholesale electronics distributorships, Mr. Gibson is knowledgeable about all aspects of running a successful business and he understands the challenges business owners face. Also, he has developed an understanding of First Bancshares' bank and the banking industry in general, particularly in the area of audit and executive compensation. He serves as Chairman of the Board of both First Bancshares and the bank and has served as chairman of the bank audit committee and is chairman of the compensation committee.

M. Ray (Hoppy) Cole, Jr., 54, currently serves as CEO and President of the bank and First Bancshares. Prior to joining the bank in September 2002, Mr. Cole was Secretary/Treasurer and Chief Financial Officer of the Headrick Companies, Inc. for eleven years. Mr. Cole began his career with The First National Bank of Commerce in New Orleans, Louisiana and held the position of Corporate Banking Officer from 1985-1988. In December of 1988, Mr. Cole joined Sunburst Bank in Laurel, Mississippi serving as Senior Lender and later as President of the Laurel office. Mr. Cole graduated from the University of Mississippi where he earned a Bachelor's and Master's Degree in Business Administration. Mr. Cole also attended the Stonier Graduate School of Banking at the University of Delaware. He served as director of First Bancshares from 1998 to 1999, and then from 2001 through the present. He also served as a director of First Bancshares' Laurel bank prior to consolidation and currently serves on the board of the bank.

Experience/Qualifications/Skills: Mr. Cole has served on the board of First Bancshares for more than ten years. Mr. Cole's years of experience in banking as well as his experience as CFO of a large company lend expertise to the board. His insight is an essential part of formulating First Bancshares' policies, plans and strategies.

Fred A. McMurry, 51, is a lifetime resident of the Oak Grove area. He is currently President and General Manager of Havard Pest Control, Inc. with over 33 years of experience in this family-owned business. He also serves on the board of the Bureau of Plant Industry of the Mississippi Department of Agriculture and Commerce and the Dixie National Junior Livestock Sales Committee. He served as President of the Lamar County 4-H. In addition, he is President of West Oaks, LLC. and Vice President of Oak Grove Land Company, Inc. Mr. McMurry has been a director of First Bancshares since 1995 and is also a director of the bank.

Experience/Qualifications/Skills: Mr. McMurry has been a director of First Bancshares since its inception in 1995. He contributes his extensive knowledge of the Lamar County area of Mississippi, which is one of First Bancshares' primary markets. His many years of experience in family-owned businesses give him a broad understanding of the needs of First Bancshares' customers as well as insight into the economic trends in the area. He also has been involved in real estate development which adds value to loan discussions.

Charles R. Lightsey, 76, owns his own business as a Social Security Disability Representative. Mr. Lightsey worked with the Social Security Administration for 39 years, serving as District Manager of the Laurel Office for 32 years. He is a recipient of The Commissioner's Citation, the highest accolade accorded by the SSA. His community involvement includes serving as a former deacon of the First Baptist Church of Laurel, member and Board of Directors of the Laurel Kiwanis Club, president of the Laurel-Jones County Council on Aging, member of the Pine Belt Mental Health Association Council and Chairman of the Federal, State and Local Government United Way. He received his degree in Management and Real Estate from the University of Southern Mississippi in 1961. Mr. Lightsey has been a director of First Bancshares since 2003 and served on the board of the Laurel bank prior to consolidation. He currently serves on the Laurel Advisory Board and the board of the bank.

Experience/Qualifications/Skills: Mr. Lightsey has served on First Bancshares' board since 2003. His background as a manager with the Social Security Administration and his ownership of a business provide the board with a broad range of knowledge and business acumen.

Gregory H. Mitchell, 75, former Mayor of Picayune, Mississippi, retired as procurement manager for Mississippi Space Services at Stennis Space Center. Mr. Mitchell is a member of Salem Baptist Church and the National Management Association (NMA) and former member of the Board of Trustees for Pearl River Community

College where he was elected President in January, 2008, for a two year term. He also served on the Board of Directors for the Picayune Chamber of Commerce; the Field Advisory Council, Division of Housing and Urban Development. Mr. Mitchell has been a director of First Bancshares since 2003 and also serves on the Picayune Advisory Board and on the board of the bank.

Experience/Qualifications/Skills: Mr. Mitchell has served on the board of First Bancshares since 2003. His experience as Mayor of the City of Picayune, MS , small business owner, and also as procurement manager provide the board with valuable insight in board discussions.

Ted E. Parker, 56, attended the University of Southern Mississippi and served as a licensed commodity floor broker at the Chicago Mercantile Exchange. He has been in the stocker-grazer cattle business for more than 30 years. He is currently serving on Bayer Animal Health Advisory Board and on the Marketing and International Trade Committee of the National Cattleman's Beef Association. He has served as a board member of Farm Bureau Insurance. He is a member of the National Cattlemen's Association, the Texas Cattle Feeders Association, Covington County Cattlemen's Association, and the Seminary Baptist Church. Mr. Parker has been a director of First Bancshares since 1995 and is also a director of the bank.

Experience/Qualifications/Skills: Mr. Parker has served on the board of First Bancshares since its inception in 1995. His experience in the cattle business provides the board with insight into the needs of the agricultural community in First Bancshares' markets. He is very familiar with the market in which he lives and works and is also very involved in his community.

Andrew D. Stetelman, 55, is the third generation of his family in London and Stetelman Realtors. He graduated from the University of Southern Mississippi in 1983. He has served in many capacities with the National, State, and Hattiesburg Board of Realtors, and is past president and the Realtor of the Year in 1992 of the Hattiesburg Board of Realtors and the first Mississippi Commercial Realtor of the Year. He presently serves as the chairman of the Hattiesburg Convention Center, is a board member for the Area Development Partnership, and is a member of the Kiwanis International. Mr. Stetelman has been a director of First Bancshares since 1995 and is also a director of the bank.

Experience/Qualifications/Skills: Mr. Stetelman has been a director of First Bancshares since its inception in 1995. His experience in commercial real estate and real estate investments provides the board with insight in the trends and risks associated with residential, rental, and commercial real estate within all of First Bancshares' markets. His advice on all real estate issues is very valuable to the board.

J. Douglas Seidenburg, 56, is the owner and president of Molloy-Seidenburg & Co., P.A. He has been a CPA for more than 30 years. Mr. Seidenburg is involved in many civic, educational, and religious activities in the Jones

County area. Past activities include serving as president of the Laurel Sertoma Club, president of the University of Southern Mississippi Alumni Association of Jones County, one of the founders of First Call for Help, a local United Way Agency started in 1990, treasurer of St. John's Day School, director of Leadership Jones County and Future Leaders of Jones County. Mr. Seidenburg is a graduate of the University of Southern Mississippi, where he earned a B.S. degree in Accounting. Mr. Seidenburg has been a director of First Bancshares since 1998 and served as director of the Laurel bank prior to consolidation. He also serves on the board of the bank.

Experience/Qualifications/Skills: Mr. Seidenburg has served on the board of First Bancshares since 1998. He is Chairman of the Audit Committee and serves as the Financial Expert. His experience as a CPA and his knowledge of corporate governance help provide the board with an understanding of financial and accounting issues that are faced in today's business environment.

Non-Director Executive Officer

Dee Dee Lowery, CPA, 49, serves as Executive Vice President and Chief Financial Officer of First Bancshares and the bank. Prior to joining the bank in February 2005, Mrs. Lowery was Vice President and Investment Portfolio Manager of Hancock Holding Company for 4 years. Mrs. Lowery began her career in 1988 with McArthur, Thames, Slay and Dews, PLLC as a staff accountant until joining Lamar Capital Corporation in 1993. From 1993 until the merger in 2001 with Hancock Holding Company, Mrs. Lowery held several positions beginning with Internal Auditor for 2 years, Comptroller for 3 years and then Chief Financial Officer and Treasurer for 3 years. Mrs. Lowery graduated from the University of Southern Mississippi where she earned a Bachelor's Degree in Business Administration with an emphasis in Accounting. Mrs. Lowery is on the Advisory Board for the Business School at the University of Southern Mississippi. Mrs. Lowery is a member of the MS Society of Certified Public Accountants

and the American Institute of Certified Public Accountants. Mrs. Lowery is a member of the Rotary Club of Petal and the Petal Children's Task Force. Mrs. Lowery is also an active member of The Turning Pointe Church.

Family Relationships

M. Ray (Hoppy) Cole, Jr., Director, CEO and President of First Bancshares and the Bank, is the son of Ellen Cole, President, Pascagoula Branch and the father of Milton R. (Mit) Cole, III, President, Laurel Branch.

Director Independence

First Bancshares currently has eight independent directors out of nine. The independent directors are David W. Bomboy, E. Ricky Gibson, Charles R. Lightsey, Fred A. McMurry, Gregory H. Mitchell, Ted E. Parker, J. Douglas Seidenburg, and Andrew D. Stetelman. The Board of Directors has satisfied, and expects to continue to satisfy, its objective that at least a majority of the Board of Directors should consist of independent directors. For a director to be considered independent, the Board of Directors must determine that the director does not have any direct or indirect material relationship with First Bancshares. The Board of Directors has established guidelines to assist it in determining director independence which conform to the independence requirements of the NASDAQ listing standards. In addition to applying these guidelines, the Board of Directors will consider all relevant facts and circumstances in making an independence determination.

In the course of the Board of Director's determination regarding independence, it considers any transactions, relationships and arrangements as required by First Bancshares' independence guidelines.

All members of the Audit Committee, Compensation Committee, and Nominating Committee must be independent directors as defined by NASDAQ. Members of the Audit Committee also must satisfy a separate SEC independence requirement, which provides that they may not accept directly or indirectly any consulting, advisory or other compensatory fee from First Bancshares or its subsidiaries other than their directors' compensation.

Certain Relationships and Related Transactions

Officers and directors of First Bancshares and their associates, including members of their families or corporations, partnerships, or other organizations in which such officers and directors have a controlling interest, are customers of the bank and have transactions with the banks in the ordinary course of business, and may continue to do so in the

future. First Bancshares has no beneficial owners of 10% or more of its common stock.

All outstanding loans and commitments included in such transactions were made in the ordinary course of business on substantially the same terms, including interest rates and collateral, as those prevailing at the time for comparable transactions with other persons, and did not involve more than normal risk of collectability or present other unfavorable features. All directors other than M. Ray (Hoppy) Cole, Jr are independent as defined in pertinent Nasdaq rules.

EXECUTIVE COMPENSATION OF FIRST BANCSHARES

Compensation Discussion and Analysis

The Compensation Committee (for purposes of this analysis, the “Committee”) of the Board of Directors has responsibility for establishing, implementing and continually monitoring adherence with First Bancshares’ compensation philosophy. The Committee ensures that the total compensation paid to the named executive officers is fair, reasonable and competitive. Generally, the types of compensation and benefits provided to the named executive officers are similar to those provided to other executive officers in publicly traded financial institutions.

On February 6, 2009, First Bancshares became a participant in the U.S. Treasury’s Troubled Asset Relief Program (“TARP”) by participating in the Capital Purchase Program. On September 29, 2010, First Bancshares refinanced First Bancshares’ Capital Purchase Program funding into Community Development Capital Initiative funding. The Community Development Capital Initiative is also a TARP program. As a result of First Bancshares’ participation in TARP, The First Bancshares, Inc. and certain of First Bancshares’ employees are subject to compensation related limitations and restrictions for the period that we continue to participate in TARP (referred to herein as the “TARP Period”). The TARP compensation limitations and restrictions include the following:

Except in limited circumstances, First Bancshares’ most highly compensated employee (as determined on an annual basis) is prohibited from receiving cash bonus payments during the TARP period. Mr. Cole was subject to this limitation during 2014.

Except in limited circumstances, First Bancshares' Named Executive Officers (NEOs) and First Bancshares' next five most highly compensated employees (each as determined on an annual basis) are prohibited from receiving any severance payments upon a termination of employment or any payments triggered by the occurrence of a change in control.

First Bancshares' NEOs and next 20 most highly compensated employees are subject to a "clawback" of incentive compensation if that compensation is based on materially inaccurate financial statement or performance metrics. Further, no one in this group of employees may receive any tax gross-up payment during the TARP period.

First Bancshares is limited to an annual tax deduction of \$500,000 with respect to the compensation paid to each of First Bancshares' NEOs.

The TARP rules further required First Bancshares to adopt an "Excessive or Luxury Expenditure Policy." First Bancshares' Board of Directors has complied with this requirement and the policy is located on First Bancshares' website, www.thefirstbank.com on the Investor Relations page. It is the intent of First Bancshares' Board of Directors that the policy remain in full force and effect for the duration of the TARP period. The policy covers, in particular, entertainment or events, office and facility renovations, aviation or other transportation services and other similar items, activities or events for which First Bancshares may reasonably anticipate such expenditures that are not reasonable expenditures for staff development, reasonable performance incentives, or other similar reasonable measures conducted in the normal course of First Bancshares' business operations. All of First Bancshares' employees are required to comply with the policy. First Bancshares' Chief Executive Officer and Chief Financial Officer are primarily accountable for ensuring adherence to the policy and for certifying that prior approval for any expenditure requiring such prior approval was properly obtained.

In addition to the foregoing limitations and restrictions, the TARP rules and regulations require the Committee to undertake a semi-annual risk assessment with respect to certain of the compensation plans, programs and arrangements maintained by First Bancshares, regardless of whether the individual employee(s) covered by the plan, program or arrangement is a NEO. The risk assessments are intended to reduce the chance that any employee will be incentivized to take unacceptable risks in order to maximize his or her compensation under such plans, programs and arrangements.

As the TARP final rules were implemented in 2009, the Committee regularly discussed its compliance obligations with respect to First Bancshares' executive compensation programs at each committee meeting. The Committee has depended upon guidance from First Bancshares' legal counsel to fully interpret the extent of the application of each of these requirements in First Bancshares' executive compensation programs.

On a related note, in June 2010 federal banking regulators issued final interagency guidance that set forth a framework for assessing the soundness of incentive compensation plans, programs and arrangements maintained by financial institutions. The guidance focuses on balanced risk-taking incentives, compatibility with effective controls and risk

management, and strong corporate governance.

The Compensation Committee believes that an awareness and assessment of the impact of risk has always been, and will continue to be, a component of its analysis of executive compensation. As such, the Committee recognizes the role of risk assessment in the overall processes and procedures for establishing such executive compensation. In this regard, the Committee believes that the TARP semi-annual risk assessment and the Federal Reserve's rules will serve as a framework for reconfirming the appropriateness of the process and procedure the Committee has previously followed in reaching its decisions with respect to compensation related matters.

Throughout this proxy statement/prospectus, the individuals who served as First Bancshares' Chief Executive Officer and Chief Financial Officer during fiscal 2015 as well as the other individuals included in the Summary Compensation Table below are referred to as the "named executive officers" or "NEO"s.

Compensation Philosophy and Objectives

The Committee believes that the most effective executive compensation program is one that is designed to reward the achievement of specific annual, long-term and strategic goals by First Bancshares, and which aligns the interests of the executive officers with First Bancshares' overall business strategy, values and management initiatives. First Bancshares' compensation policies are intended to reward executives for strategic management and the enhancement of shareholder value and support a performance-oriented environment that rewards achievement of

internal goals. First Bancshares has also adopted a Compensation Philosophy that provides guidance to the Committee when making decisions surrounding the compensation of the NEOs. Our philosophy generally targets near the market (peer) median for NEO base salaries with a strong emphasis on incentive compensation programs that provide an alignment between pay and performance.

The Committee evaluates both performance and compensation to ensure that First Bancshares maintains its ability to attract and retain superior employees in key positions and that compensation provided to key employees remains competitive relative to the compensation paid to similarly situated executives of peer companies. To that end, the Committee believes in rewarding the NEOs with reasonable incentive compensation awards if First Bancshares performance meets budget and is comparable to peer group data. This is a critical piece in the compensation plan design at First Bancshares and is realized through the ability of the NEOs to annually earn both short-term (cash) and long-term (stock-based) incentive payouts when performance justifies such awards.

Role of Executive Officers in Compensation Decisions

The Committee makes all compensation decisions for the named executive officers and approves recommendations regarding equity awards to all named executive officers of First Bancshares. Decisions regarding the non-equity compensation of other executive officers are made by the Committee and the Chief Executive Officer.

The Committee and the Chief Executive Officer annually review the performance of each member of the named executive officers (other than the Chief Executive Officer whose performance is reviewed by the Committee). The conclusions reached and recommendations based on these reviews, including with respect to salary adjustments and annual award amounts, are presented to the Committee. The Committee can exercise its discretion in modifying any recommended adjustments or awards to executives.

Setting Executive Compensation

At our annual meeting of shareholders held in 2016 and as required by the “say-on-pay” rules of the Securities and Exchange Commission, we sought the approval, on an advisory basis, of our shareholders, concerning our executive compensation program as described in the proxy statement/prospectus for that meeting. A vast majority (more than 99%) of our shareholders whose shares were present at the 2016 annual meeting and who voted (or affirmatively abstained from voting (excluding broker non-votes)) on the say-on-pay proposal voted to approve such compensation. As a result, the Compensation Committee did not implement any specific changes to our executive compensation programs as a result of the 2016 shareholder advisory vote. The Compensation Committee intends to monitor the results of this year’s “say-on-pay” proposal vote and to incorporate such results as one of many factors considered in connection with the discharge of its responsibilities, although no such factor will likely be assigned a quantitative weighting.

Based on the foregoing objectives, the Committee has structured First Bancshares' annual and long-term incentive-based cash and non-cash executive compensation to motivate executives to achieve the business goals set by First Bancshares and reward the executives for achieving such goals. To that end, the Committee has retained Blanchard Consulting Group, an independent third party consultant, to provide research for benchmarking purposes related to executive compensation. Additionally, First Bancshares subscribes to and participates in the Mississippi Bankers Association survey, which provides the Committee with comparative compensation data from First Bancshares' market areas and its peer groups. This information is used by the committee to ensure that it is providing compensation opportunities comparable to its peer group, thereby allowing First Bancshares to retain talented executive officers who contribute to First Bancshares' overall and long-term success.

The services provided by the independent third-party consultant , Blanchard Consulting Group, were used as the basis of comparison of compensation between First Bancshares and the companies in the Compensation Peer Group. Blanchard Consulting Group had no conflicts of interests.

In 2013 the Committee engaged Blanchard Consulting Group to conduct an executive total compensation review. This review focused on salary, cash compensation (salary plus bonus and/or annual cash incentive), direct compensation (cash compensation plus long-term incentives), and total compensation (direct compensation plus retirement benefits and any other compensation) for the NEOs. Results from this 2013 study were reviewed by the Committee in considering salary adjustments and executive total compensation targets for 2013, 2014, and 2015. In late 2014, the Committee again utilized Blanchard Consulting Group to assess CEO base salary as compared to a peer group of eight publicly traded banks. The peer companies include the following:

- 1MSL MidSouth Bancorp Inc.
- 2FFKT Farmers Capital Bank Corp.
- 3WBHC Wilson Bank Holding Company
- 4FGBI First Guaranty Bancshares Inc.
- 5HBOS Heritage Financial Group Inc.
- 6CBAN Colony Bankcorp Inc.
- 7FFMH First Farmers and Merchants Corporation
- 8CHFV Charter Financial Corporation

Independent Compensation Consultant

Blanchard Consulting Group is a national firm with an exclusive focus on the banking and financial services industry. Blanchard Consulting Group does not provide any services to First Bancshares besides compensation consulting services. Blanchard Consulting Group reports directly to the Compensation Committee. The Compensation Committee and executive management utilized Blanchard Consulting Group's reports and reviews to assist with decisions during 2015 but did not solely rely on them. The ultimate decisions made by the Committee and management were a balance between internal views and strategy along with the outside perspective of our independent consultant.

Compensation Policies and Practices as They Relate to Risk Management

As participants in TARP, First Bancshares is subject to the executive compensation requirements of the Emergency Economic Stabilization Act of 2008 ("EESA") and as amended by the American Recovery and Reinvestment Act of 2009 ("ARRA"). In compliance therewith the Committee of the Board of Directors of First Bancshares meets at least semi-annually to discuss and evaluate employee compensation plans in light of its assessment of risk posed to First Bancshares from such plans and to ensure compliance with executive compensation rules and regulations implemented under EESA and ARRA. The Committee met twice in 2015 to review First Bancshares' compensation plans and determined that First Bancshares had no compensation plans that would encourage manipulation of reported earnings to enhance compensation or encourage unnecessary or excessive risk-taking. The compensation plans at the Bank also use a proper balance of profitability and strategic goals (such as core deposit growth, asset quality, and audit/compliance) to ensure the officers of the Bank are focusing both on profits and strategic goals that are linked to the long-term viability of the organization. The Committee has determined that there are no compensation policies or procedures that are likely to have a material adverse effect on First Bancshares.

In addition, the Committee has incorporated restricted stock into the compensation package for the top executive officers to tie a portion of their total compensation package to the long-term performance of the Bank. The Committee

utilizes a vesting provision with these equity grants to help retain key officers and allow these amounts to be eligible for any clawback policies implemented by the Board.

2015 Executive Compensation Components

Historically, and for the fiscal year ended December 31, 2015, the principal components of compensation for named executive officers were:

- base salary;

- performance-based cash incentive bonus compensation;

- equity incentive compensation;

- retirement and other benefits; and

- perquisites and other personal benefits.

Base Salary

First Bancshares provides named executive officers and other employees with base salary to compensate them for services rendered during the fiscal year. When determining salary increases, the Committee uses a Compensation Philosophy that targets the median (50th percentile) of the competitive market for executives that are meeting performance expectations and the upper quartile of market (or the base salary range) for executives that are high performers or exceeding performance expectations. Base salary ranges for named executive officers are determined for each executive using market research and based on his or her position and responsibility.

During its review of base salaries for executives, the Committee primarily considers: 1) performance of First Bancshares; 2) market data provided by First Bancshares' outside consultants; 3) internal review of the executive's compensation, both individually and relative to other officers; and 4) individual performance of the executive. Salary levels are typically considered annually as part of First Bancshares' performance review process as well as upon a promotion or other change in job responsibility. Merit based increases to salaries of the named executive officers are based on the Committee's assessment of the individual's performance. The Committee recommended to the Board that the CEO's and each named executive officer's 2015 salary be disclosed in the Summary Compensation Table (shown later in this document), and the Board accepted this recommendation. The base salary adjustments for each named executive officer for 2015 (as compared to their base salaries in 2014) ranged from approximately 2.74% up to 10% of salary.

Performance-Based Cash Incentive Bonus Compensation

First Bancshares has established an incentive bonus compensation plan that is based upon individual performance as well as team and corporate performance. All named executive officers, except for the Chief Executive Officer, as he did not have a cash incentive plan for 2015, in First Bancshares have unique performance goals in up to seven (7) categories. The incentive plan provides each eligible officer with a "balanced scorecard" for their short-term cash incentive award. The "balanced scorecard" establishes specific corporate and shareholder-related performance goals balanced by the officer's area of responsibility, his or her business unit, and his or her expected individual level of contribution to First Bancshares' achievement of its corporate goals. Cash incentive payments that are authorized to be paid to eligible officers under the Executive Incentive Plan are payable on an annual basis during the year following the year in which the services were performed and are contingent only upon such executive officer's continued employment with First Bancshares through the date of payment.

During the first quarter of 2015, the Board (by the vote of the members of the Board who are not "interested directors" within the meaning of NASDAQ's independence rules, and at the recommendation of the Committee) established short-term cash incentive awards for executive officers as percentages of their 2015 base salary (with maximum earning opportunities that ranged from 10% to 30% of base salary, depending upon the executive). The individual measures utilized in the plan design include a balance of profitability and strategic bank goals that relate primarily to sales, service quality, regulatory compliance, timeliness, and financial goals. The particular measures on an

individual's performance depend on the actions that are determined to be most important for that individual to achieve for the current year. The estimated bonus payouts are accrued throughout the year. Cash bonuses may be granted to executives at each year end depending on the achievement of performance targets that include growth, profitability, and quality control measures. First Bancshares' Chief Executive Officer did not have a cash incentive plan during 2015. Performance goals for the NEOs included in the cash-based incentive plan for 2015 include Bank net income, loan growth, deposit growth, credit quality, audit results, compliance results, branch income, and individual performance. The Bank exceeded profitability goals and met or exceeded a majority of the department and individual goals in 2015; therefore the cash-based annual incentive payouts for the NEOs were near the maximum payout levels for most officers.

For the year ended December 31, 2015, the following cash bonuses were awarded:

M. Ray (Hoppy) Cole, Jr.	\$0.00
Dee Dee Lowery	18,251.75
David A. Bush (1)	39,427.20
Ray L. Wesson, Jr. (1)	12,263.72
Douglas Eric Waldron (1)	12,551.00

(1) David A. Bush, Ray L. Wesson, Jr. and Douglas Eric Waldron are executive officers of the bank and not the holding company.

Equity Incentive Compensation

2007 Stock Incentive Plan

In 2007, First Bancshares adopted The First Bancshares, Inc. 2007 Stock Incentive Plan (the "2007 Plan"), and in 2014, the plan was amended to add an additional 300,000 shares. The 2007 Plan provides for the issuance of up to 615,000 shares of First Bancshares common stock, \$1.00 par value per share. Shares issued under the 2007 Plan may consist in whole or in part of authorized but unissued shares or treasury shares.

Awards of First Bancshares common stock under the 2007 Plan may take the form of a stock option, including an incentive stock option (a stock option which meets the applicable requirements of the Internal Revenue Code), stock appreciation rights (an award entitling a holder to receive an amount in cash, First Bancshares Common Stock, or a combination of both determined by reference to the excess of the fair market value of a specified number of shares of First Bancshares Common Stock over a specified price which shall not be less than the fair market value of such shares as of the date of the grant), restricted stock awards (a transfer of shares subject to certain restrictions on transfer or other incidents of ownership or subject to specified performance standards), dividend equivalent rights (an award entitling a holder to receive an amount in cash, First Bancshares common stock, or a combination of both determined by reference to the cash dividends paid on a specified number of shares of First Bancshares common stock from the date of grant), performance unit awards, restricted stock units or other stock-based awards (including without limitation, awards entitling recipients to receive shares of First Bancshares common stock to be delivered in the future) (collectively referred to as "Awards").

During the first quarter of 2016, the Board (by the vote of the members of the Board who are not "interested directors" within the meaning of NASDAQ's independence rules, and at the recommendation of the Committee) established long-term equity incentive awards for executive officers using shares of restricted stock (with maximum earning opportunities that ranged from up to 10,717 shares for the CEO and up to 4,000 shares for the other NEOs). The Committee utilized restricted stock to help preserve shares in the 2007 Plan as compared to using stock options and to have a stronger immediate retention vehicle for key officers. Similar to the cash-based annual incentive plan, a pay-for-performance approach is used to determine the amount of equity awards granted to each plan participant. The performance goals utilized in the long-term plan design are linked to both corporate and shareholder performance criteria and include bank net income, asset growth and credit quality. For each of these criteria, the maximum performance level was achieved in 2015; therefore, based upon the recommendation from the Committee, the Board approved the maximum amount of shares to be granted to each officer.

For the year ended December 31, 2015, the following restricted stock grants were awarded:

	Granted for 2015	Granted for Acquisition
M. Ray (Hoppy) Cole, Jr.	8,778	1,903
Dee Dee Lowery	3,276	-
David A. Bush (1)	3,276	-
Ray L. Wesson, Jr. (1)	3,276	-
Douglas Eric Waldron	3,276	-

As of December 31, 2015, there were a total of 280,605 restricted stock awards which have been granted under the 2007 Plan and no other type awards have been granted under the 2007 Plan.

Vesting and Retention Provisions Applicable to Equity Awards

First Bancshares has implemented a policy that all shares granted through the 2007 Plan will include at least a three year vesting provision, unless extraordinary circumstances are determined by the Board. The Equity Awards

earned beginning in 2014 (consisting of the Restricted Stock Awards) will vest and be paid, assuming the continued service of each of the holders through such vesting date, as follows: Awards will vest five years from date of grant. Vesting of such Equity Awards will be accelerated in the event of the holder's death or disability while in the service of First Bancshares or upon such other event as determined by the Committee in its sole discretion. First Bancshares has also implemented a double trigger change-in-control provision in the 2007 Plan where unvested shares of stock granted through the plan will be accelerated upon a change in control if the executive is terminated without cause as a result of the transaction (as long as the shares granted remain part of the company or are transferred into the shares of the new company). Unvested shares issued as Restricted Stock Awards must be retained by the executive officer subject to the clawback and forfeiture provisions applicable to such shares, and therefore may not be sold, pledged or otherwise transferred or hedged during the vesting periods.

In addition, the committee has established expectations for ownership of our common stock by our CEO and Corporate Officers. Under these guidelines, our CEO is expected to attain an investment position in our common shares equal to two times his or her base salary and our Corporate Officers are expected to attain an investment position in our common shares equal to one times his or her base salary. Exceptions to these ownership guidelines may be approved by Compensation Committee for good reason.

Clawback, Repricing, Underwater Grant Buyback and Hedging Policies

As a matter of policy, we expect incentive awards of executive compensation that are made on the basis of financial metrics to be structured with “clawback” provisions that would allow First Bancshares to recoup awards under certain circumstances such as a material misstatement of financial performance. The Committee plans to include “clawback” provisions in all short-term and long-term incentives utilized in 2016.

We also have a philosophy that we will not reprice options, stock appreciation rights, or other equity awards, the value of which derives from the value of our common shares, on account of declines in our stock price, or buy back “underwater” stock options from those who hold option grants for cash. First Bancshares’ Board has approved an amendment to the 2007 Plan to prohibit repricing of equity awards granted under the plan and to prohibit the cash buyback or exchange for other stock awards of underwater options and stock appreciation rights.

Certain transactions in First Bancshares’ equity securities, or which are linked to the value of First Bancshares’ equity securities, may be considered “short term” or “speculative” in nature. These transactions may create the appearance that they were based on non-public information or that the incentives of the employees are no longer aligned with, and may in fact be opposed to, the interests of First Bancshares and its shareholders. As a result, the Board of Directors has implemented a policy that prohibits Directors and Corporate Officers from undertaking these types of transactions, including hedging, holding stock in a margin account, or pledging stock as collateral for a loan.

Retirement and Other Benefits

All employees of First Bancshares, including named executive officers, are eligible to participate in the The First Bancshares, Inc. 401K Plan and Trust. We adopted the 401(k) plan to enable employees to save for retirement through a tax-advantaged combination of employee and First Bancshares contributions and to provide employees the opportunity to directly manage their retirement plan assets through a variety of investment options. The 401(k) plan allows eligible employees to elect to contribute up to 100% of their eligible compensation, up to the annual IRS dollar limit. Eligible compensation generally means all wages, salaries and fees for services paid by us. We contribute 50% of employee's deferral (up to a maximum of 6%) for each eligible employee per year to their 401(k) plan. We may also elect to make a discretionary profit sharing contribution for each eligible employee. In 2015, our employer contribution was \$287,054.51, which was the employer matching contribution.

First Bancshares sponsors an Employee Stock Ownership Plan (ESOP), which was established in 2006 for employees who have completed one year of service for First Bancshares and attained age 21. Employees become fully vested after five years of service. Contributions to the plan are at the discretion of the Board of Directors. At December 31, 2015, the ESOP held 5,902 shares of First Bancshares common stock and had no debt obligation. In 2015 our contribution to the ESOP was \$7,400.00.

Supplemental Executive Retirement Plans.

Mr. Cole and Ms. Lowery participate in a Supplemental Executive Retirement Plan (SERP) with First Bancshares that provides for a supplemental retirement benefit in the fixed amount of \$98,039 for Mr. Cole and \$53,252 for Ms. Lowery per year for fifteen years. Mr. Cole and Ms. Lowery are both 10% vested in the benefit and amounts become payable upon their death, disability, termination of employment, or retirement. The arrangement

constitutes a non-qualified deferred compensation plan. The benefit is forfeited in the event of termination for "Cause" as described in the agreement. Except in cases of death or disability, the benefit will commence on the first day of the month following their 65th birthday. This plan is in technical compliance with requirements of section 409A of the Internal Revenue Code of 1986.

Perquisites and Other Personal Benefits

First Bancshares provides named executive officers with perquisites and other personal benefits that First Bancshares and the Committee believe are reasonable and consistent with its overall compensation program to better enable First Bancshares to attract and retain superior employees for key positions. The Committee periodically reviews the levels of perquisites and other personal benefits provided to named executive officers.

The named executive officers participate in First Bancshares' broad-based employee benefit plans, such as medical, dental, supplemental disability and term life insurance programs. Some of the named executive officers are provided use of company automobiles. The vehicles are provided primarily for their business travel. Personal use is taxed through First Bancshares' payroll process. Certain named executive officer and other members of senior management are entitled to receive a cash payment upon such executive's death through the split dollar death benefit funded by bank owned life insurance.

Attributed costs of the personal benefits described above for the named executive officers for the fiscal year ended December 31, 2015, are included in the "Summary Compensation Table" on page 17.

First Bancshares has entered into a change of control agreement as part of the Employment Agreement with its President and CEO, and First Bancshares has agreed to take certain actions upon a change of control with respect to other key employees. The change of control provisions are designed to promote stability and continuity of senior management. Information regarding applicable payments under such agreements for the named executive officers is provided under the heading "Potential Payments Upon Termination or Change in Control" on pages 23 - 25.

Deductibility of Executive Compensation

As part of its role, the Committee reviews and considers the deductibility of executive compensation under Section 162(m)(5) of the Internal Revenue Code, which provides that First Bancshares may not deduct compensation of more than \$500,000 that is paid to certain individuals. First Bancshares believes that compensation paid under the incentive plans are generally fully deductible for federal income tax purposes.

Board of Directors and Compensation Committee Discretion; Adjustments

Additional performance bonuses, restricted stock, and other stock-based awards may be made within the discretion of the Compensation Committee and the Board of Directors. The Compensation Committee also may consider other factors, and may change the basis of assessing our performance in the future, based upon our annual or longer-term goals.

The First Bancshares, Inc.**Summary Compensation Table (SCT)****For the Year Ended December 31, 2015**

Name and Principal Position	Year	Salary	Non-equity Incentive Plan Compensation	Stock Awards (2)	All other Compensation	Total

- (1) David A. Bush, Ray L. Wesson, Jr., and Douglas Eric Waldron are executive officers of the Bank and not First Bancshares.
- (2) In the event of disability of Executive, salary will continue for 6 months or, if earlier, until date payments begin under disability insurance policy.
Lump sum severance payment and continuation of health benefits to end of term in the amount of \$346,530
- (3) which includes one year's salary of \$337,654 plus health benefits of \$8,876 through the end of the expiration of the second contract term, 5-31-17.
- (4) Lump sum severance in the amount of 2x current annual salary, and bonuses, etc. that would have been paid.
All non-vested restricted stock awards will become fully vested at the retirement or death of the NEO's. None of
- (5) the NEO's have reached retirement age under the RSA Agreement. Calculated based on 12-31-15 stock closing price of \$18.34 per share.
All non-vested restricted stock awards will become fully vested in the event of a change of control in which First
- (6) Bancshares is not the survivor or if the acquirer does not assume the obligations. Calculated based on 12-31-15 stock closing price of \$18.34 per share.
- (7) Agreement provides for 1 ½ x current annual salary.
All non-vested restricted stock awards will become fully vested if termination without cause occurs with 24
- (8) months of a change in control in which First Bancshares is the survivor or the acquirer has assumed the obligations. Calculated based on 12-31-15 stock closing price of \$18.34 per share.
- (9) Upon separation from Service following attainment of age 65, Normal Retirement Benefit shall be \$98,039 per year for 15 years, payable in 180 equal monthly installments
- (10) Upon Separation from Service following attainment of age 65, Normal Retirement Benefit shall be \$53,252 per year for 15 years, payable in 180 equal monthly installments
In the event of death while in active service of the bank, beneficiary(s) shall be paid \$1,470,585 and \$798,780,
- (11) respectively. In the event of death during benefit payment period, beneficiary(s) shall receive remaining installment payments.
- (12) The SERP Agreement includes a benefit provision for Change in Control and Disability. The actual benefit payable would be calculated upon such an event.
- (13) Upon Separation from Service prior to age 65, the benefit shall be equal to the vested portion of the Accrued Liability Balance calculated as of the date of Separation from Service.

Under the Emergency Economic Stabilization Act of 2008 and its implementing regulations, executive compensation restrictions will prohibit First Bancshares from making "any payment" for services performed or benefits accrued, including a prohibition on making any payments upon a change of control.

Compensation Committee Interlocks and Insider Participation

No member of the Compensation/Human Resources Committee, which we refer to as the Committee, was an officer or employee of First Bancshares or any of its subsidiaries during its most recently completed fiscal year ended December 31, 2015, nor has any member of the Committee ever been an officer or employee of First Bancshares or any of its subsidiaries. No current member of the Committee or executive officer of First Bancshares had a

relationship during its most recently completed fiscal year ended December 31, 2015 requiring disclosure in this proxy statement/prospectus under Item 404 or Item 407(e)(4) of SEC Regulation S-K.

QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The information concerning quantitative and qualitative disclosures about market risk of First Bancshares is included in First Bancshares' Management's Discussion and Analysis of Financial Condition and Results of Operations as of and for the nine month period ended September 30, 2016 under the heading "Liquidity and Market Risk Management" which is included in this proxy statement/prospectus as Annex F.

EXPERTS

The consolidated financial statements of First Bancshares appearing in First Bancshares Annual Report (Form 10-K) as of December 31, 2015 and December 31, 2014, and for each of the years in the three-year period ended December 31, 2015, have been audited by T. E. Lott & Company, independent registered public accounting firm, as set forth in their report thereon, included therein, and included herein as Annex E. Such consolidated financial statements have been so included in reliance upon such report given on the authority of such firm as experts in accounting and auditing.

LEGAL MATTERS

The validity of First Bancshares common stock to be issued in connection with the merger will be passed upon for First Bancshares by Jones Walker LLP, Jackson, Mississippi, First Bancshares' outside legal counsel. Jones Walker LLP also provides legal advice to First Bancshares on a regular basis.

OTHER MATTERS

Even though the Gulf Coast Bylaws limit business to be conducted at the special meeting to the subjects stated in the notice of the special meeting, as of the date of this proxy statement/prospectus, management of Gulf Coast was unaware of any other matters to be brought before the Gulf Coast special meeting, other than those set forth herein. However, if any other matters are nonetheless properly brought before the special meeting, the persons named in the enclosed form of proxy for Gulf Coast will have discretionary authority to vote all proxies with respect to such matters in accordance with their best judgment.

WHERE YOU CAN FIND MORE INFORMATION

First Bancshares has filed with the SEC a registration statement on Form S-4 that registers the distribution of the shares of First Bancshares common stock to holders of Gulf Coast common stock in connection with the merger. This proxy statement/prospectus is a part of that registration statement and constitutes a prospectus of First Bancshares and a proxy statement of Gulf Coast for the Gulf Coast special meetings.

First Bancshares files annual, quarterly and current reports, proxy statements and other information with the SEC. You may read and copy this registration statement and any reports, statements or other information that First Bancshares files with the SEC at the SEC's Public Reference Room at 100 F Street, N.E., Room 1580, Washington, D.C. 20549. Please call the SEC at 1-800-SEC-0330 for further information on the Public Reference Room. First Bancshares' SEC filings are also available to the public from commercial document retrieval services and at the website maintained by the SEC at www.sec.gov. Reports, proxy statements and other information that First Bancshares files with the SEC are also found on its website, www.thefirstbank.com, under the link "Investor Relations."

Except where otherwise indicated First Bancshares has supplied all information contained in this proxy statement/prospectus relating to First Bancshares, and Gulf Coast has supplied all such information relating to Gulf Coast.

Documents are available from First Bancshares and Gulf Coast without charge. You can obtain documents by requesting them in writing or by telephone from the appropriate company at the following addresses:

The First Bancshares, Inc.

6480 U.S. Hwy. 98 West

Hattiesburg, Mississippi 39402

Attn: Donna T. (Dee Dee) Lowery Pensacola, FL 32502

Tel: (601) 268-8998

Gulf Coast Community Bank

Attn: Corporate Secretary

40 N. Palafox Street

Gulf Coast shareholders requesting documents should do so by [], 2016, in order to receive them before the special meetings. You will not be charged for any of these documents that you request.

Neither First Bancshares nor Gulf Coast has authorized anyone to give any information or make any representation about the merger or our companies that is different from, or in addition to, that contained in this document. Therefore, if anyone does give you information of this sort, you should not rely on it. If you are in a jurisdiction where offers to exchange or sell, or solicitations of offers to exchange or purchase, the securities offered by this document or the solicitation of proxies is unlawful, or if you are a person to whom it is unlawful to direct these types of activities, then the offer presented in this document does not extend to you. The information contained in this document speaks only as of the date of this document unless the information specifically indicates that another date applies.

The representations, warranties and covenants described in this document and included in the merger agreement were made only for purposes of the merger agreement and as of specific dates, are solely for the benefit of First Bancshares and Gulf Coast, may be subject to limitations, qualifications or exceptions agreed upon by the parties, including those included in confidential disclosures made for the purposes of, among other things, allocating contractual risk between First Bancshares and Gulf Coast rather than establishing matters as facts, and may be subject to standards of materiality that differ from those standards relevant to investors. You should not rely on the representations, warranties or covenants or any description thereof as characterizations of the actual state of facts or condition of First Bancshares, Gulf Coast or any of their respective subsidiaries or affiliates. Moreover, information concerning the subject matter of the representations, warranties and covenants may change after the date of the merger agreement, which subsequent information may or may not be fully reflected in public disclosures by First Bancshares or Gulf Coast.
