Telenor`s Board of Directors today decided to deconsolidate Kyivstar and to present Telenor`s interests in the company in one line, as an investment in the 2006 Annual Report. Telenor owns 56.5 per cent of Kyivstar. The Board will next week consider Telenor`s 2006 Annual Report in its entirety.

Telenor`s Board of Directors today decided to deconsolidate Kyivstar and to present Telenor`s interests in the company in one line, as an investment in the 2006 Annual Report. Telenor owns 56.5 per cent of Kyivstar. The Board will next week consider Telenor`s 2006 Annual Report in its entirety.

The Alfa Group affiliate Storm LLC, owning 43.5 per cent of Kyivstar, has persistently boycotted Kyivstar`s shareholder and Board meetings for the past two years. As a result, there has not been a valid quorum at either shareholder meetings or Board meetings in Kyivstar for the whole of 2006. Telenor has nevertheless remained in control of the operations in Kyivstar throughout the period up to 29 December 2006.

Alfa Group affiliates, Storm and Alpren, commenced legal actions in Ukrainian courts in late December 2006 and in January and February 2007 disputing Kyivstar`s authority to appoint auditors. These actions have led to injunctions purporting to prohibit Kyivstar`s management from providing financial information to Kyivstar`s international auditors and shareholders, including Telenor. The injunctions also purport to prohibit the use of financial information already provided by Kyivstar, and to prohibit Kyivstar and Telenor`s auditors from carrying out any audit work in relation to Kyivstar`s year-end IFRS financial statements. A third injunction purports to prohibit Kyivstar from disseminating any financial information that has not been approved by Kyivstar`s board or shareholders, and to prohibit anyone from using any such financial information in their consolidated accounts.

Telenor is contesting these actions in the context of its ongoing arbitration proceedings in New York, as well as, to the extent permitted by the Kyivstar shareholders agreement, by seeking alternative legal redress.

Although Telenor is attempting to remedy the situation, the injunctions at present prevent Telenor from controlling or exercising significant influence over Kyivstar. Accordingly, Telenor`s Board of Directors has decided to temporarily deconsolidate Kyivstar in Telenor`s accounts with effect from 29 December 2006, and present the majority stake in one line as an investment. Kyivstar has been consolidated in the income statement up to 29 December 2006. Telenor`s auditor has informed Telenor that, since they have been prevented from carrying out audit work in relation to Kyivstar`s year-end financial information, their audit report for the Telenor Group will contain a scope limitation in respect to Kyivstar`s financial information. The entire Annual Report for 2006 will be considered by the Board of Directors next week.

Adjustment of outlook 2007:

Assuming that Kyivstar is reported as a deconsolidated operation throughout 2007, we expect reported revenue growth of 0-5 per cent, a reported EBITDA margin before other income and expenses of around 32 per cent and CAPEX/Sales at around 20 per cent.

The reason for lowering the revenue and EBITDA expectations is that Kyivstar is included in the 2006 numbers but not included in the outlook for 2007. For 2006, Kyivstar reported revenues of NOK 10 956 million and an EBITDA margin of 59.5 per cent.

When adjusting for Kyivstar numbers in 2006, the revenue growth is expected to be 15-20%.

For further details related to the outlook for 2007, see Telenor's Q4 report.
