## EXHIBIT 1

### SGL Carbon Corporate Bond Successfully Placed

WIESBADEN, January 28, 2004. SGL Carbon has announced the pricing of a (euro)270 million corporate bond to be issued via its wholly owned subsidiary SGL Carbon Luxemburg S.A. Because the net proceeds from the capital increase were higher than expected, the size of the bond issue could be reduced to (euro)270 million. The bond will be solely denominated in Euros due to the high demand. The notes will mature in February 2012, and will bear interest at a rate of 8.50%.

The bond is part of a comprehensive financing package approved by the Executive Committee and the Supervisory Board which was published on December 5, 2003. The refinancing is intended to strengthen the company's equity base and provide for its financing in the long term. In addition to the bond, the financing package consists of a capital increase of approximately (euro)245 million and a new syndicated loan facility of approximately (euro)330 million.

The capital increase was approved by a substantial majority of shareholders at an Extraordinary General Meeting on January 15, 2004. The capital increase will raise net proceeds of approximately (euro)245 million instead of the initially scheduled (euro)200 million. The subscription period for the 2-for-3 capital increase ends on February 5, 2004. The comprehensive financing package is anticipated to be completed by early February 2004.
