Report of Independent Registered Public Accounting Firm

To the Savings Plan Committee

Pfizer Savings Plan for Employees Resident in Puerto Rico:

We have audited the accompanying statements of net assets available for plan benefits of the Pfizer Savings Plan for Employees Resident in Puerto Rico (Plan) as of December 31, 2013 and 2012, and the related statements of changes in net assets available for plan benefits for each of the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for plan benefits of the Plan as of December 31, 2013 and 2012, and the changes in net assets available for plan benefits for the years then ended, in conformity with accounting principles generally accepted in the United States of America.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2013 and Schedule H, Line 4j - Schedule of Reportable Transactions for the Year Ended December 31, 2013 are presented for the purpose of additional analysis and are not a required part of the basic financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. These supplemental schedules are the responsibility of the Plan's management. The supplemental schedules have been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

PFIZER SAVINGS PLAN  
FOR EMPLOYEES RESIDENT IN PUERTO RICO  
Notes to Financial Statements  
December 31, 2013 and 2012

1. Description of the Plan

The Pfizer Savings Plan for Employees Resident in Puerto Rico (the Plan), originally adopted in 1990 as the Pfizer Savings and Investment Plan for Employees Resident in Puerto Rico, is a defined contribution retirement savings plan. Participation in the Plan is open to any employee of Pfizer Pharmaceuticals LLC (the Plan Sponsor) or an affiliate which has, with the consent of the Plan Sponsor or Pfizer Inc. (the Parent), adopted the Plan (Participating Employers) and who is included within a group or class designated by the Plan Sponsor as set forth in the Plan document. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA), and the New Puerto Rico Internal Revenue Code, Act No. 1 of January 31, 2011 (the Puerto Rico Code).

Under the Puerto Rico Code, any qualified plan involving pre-tax contributions of cash or deferred compensation arrangements must comply with one of two nondiscrimination tests. For the years ended December 31, 2013 and 2012, the Plan complied with both tests.

On June 24, 2013, the Parent completed the full disposition of its Animal Health business. The full disposition was completed through a series of steps, including, in the first quarter of 2013, the formation of Zoetis Inc. (Zoetis) and an initial public offering of an approximate 19.8% interest in Zoetis and, in the second quarter of 2013, an exchange offer for the remaining 80.2% interest. In connection with the exchange offer, Plan participants holding Pfizer common stock units within the Plan were offered the opportunity to exchange all or a portion of their Pfizer common stock units held in the Plan for units of Zoetis common stock under a new Zoetis Stock Fund within the Plan. In June 2014, actions were taken to eliminate the Zoetis Stock Fund. See Note 11, Subsequent Events, for additional information.

The following is a general description of certain provisions of the Plan. Participants should refer to the Plan document for more complete information.

Plan Administration

The Savings Plan Committee of the Parent monitors and reports on the selection and termination of the trustee, custodian, and investment managers, and on the investment activity and performance of the Plan.

Administrative Costs

In general, except for investment management fees associated with certain investment fund options, in-service withdrawal fees and loan fees, costs and expenses of administering the Plan are paid and absorbed by the Plan or the Plan Sponsor and Participating Employers (collectively, the Company). The Plan's administrative expenses may be paid for through offsets and/or payments associated with one or more of the Plan's investment options. However, beginning January 1, 2013, fees associated with loans and in-service withdrawals (for active participants) and check fees (for separated participants) were paid by participants.

Contributions

Participants may elect to contribute (i) 1%-20% of eligible compensation on a before-tax basis, up to the maximum before-tax amount permitted by the Puerto Rico Code; and (ii) 1% to 10% of your eligible compensation on an

after-tax basis. Total combined before-tax and after-tax contributions may not exceed 20%, but total after-tax, including spillover from before-tax, cannot exceed 10 percent. Contributions are subject to certain legal limits set forth by the Puerto Rico Department of the Treasury and the Puerto Rico Code.

Any contributions, for which the participant does not provide investment direction, are invested in the Plan's Qualified Default Investment Alternative (QDIA) fund, which is a Vanguard Target Retirement Fund based on the participant's year of birth. For all participants, contributions of up to 3% of compensation are matched 100% by the Company and the next 3% are matched 50% by the Company. Participant contributions in excess of 6% are not matched.

Effective January 1, 2011, the Plan was amended to include a retirement savings contribution (RSC) for employees hired, rehired, or transferred from certain positions on or after January 1, 2011 who are not eligible for the Pfizer Consolidated Pension Plan for Employees Resident in Puerto Rico. On May 8, 2012, the Company announced to employees that as of January 1, 2018, the Company will transition its U.S. and Puerto Rico employees from its defined benefit plans to an enhanced defined contribution savings plan. The RSC provides an additional annual employer-provided contribution based on age and service and is generally subject to a three-year cliff vesting period. In February 2013, the Company funded the RSC for Plan year 2012 in the amount of approximately \$84,000. In February 2014, the Company funded the RSC for Plan year 2013 in the amount of approximately \$145,000.

Section 1081.01(d) of the Puerto Rico Code contains provisions to gradually increase the maximum limits that may be deferred by participants as before-tax cash contributions to a qualified plan as follows:

| Years                        | Amount    |
|------------------------------|-----------|
| Beginning on January 1, 2012 | \$ 13,000 |
| Beginning on January 1, 2013 | 15,000    |
| Beginning on January 1, 2014 | 15,000    |

#### Participant Accounts and Vesting

Each participant's account is credited with the participant's contributions, allocations of the Company's matching contributions, and Plan earnings/(losses). Allocations are based on participant earnings/(losses) or account balances, as defined in the Plan. Participants are immediately vested in the full value of their account (i.e., participant's and Company's matching contributions) other than the RSC. Forfeited balances of terminated participants' nonvested accounts are used to reduce future Company contributions. At December 31, 2013 and 2012, forfeited nonvested accounts available to reduce future employer contributions totaled approximately \$70,000 and \$62,000, respectively.

#### Rollovers into Plan

Participants may elect to rollover one or more account balances from Pfizer sponsored or other qualified plans.

Pfizer –

Preferred  
Stock Fund

This fund holds investments in the preferred stock of Pfizer Inc. which were allocated to participants in the Pharmacia Savings Plan for Employees Resident in Puerto Rico before the merger of that plan into the Plan on December 31, 2009. Dividends paid to a participant's Pfizer Preferred Stock Fund account are substituted for an allocation of Pfizer Inc. common stock.

Participant-Directed Funds – Each participant in the Plan elects to have his or her contributions invested in any one or combination of investment funds in the Plan. Transfers between funds must be made in whole percentages or dollar amounts. Based on the investment option, certain short-term redemption fees may apply.

The Plan's trust agreement provides that any portion of any of the investment funds may, pending its permanent investment or distribution, be invested in short-term investments.

#### Eligibility

All employees of the Company who are employed within the Commonwealth of Puerto Rico are eligible to enroll in the Plan on their date of hire, except for certain employees who (i) are covered by a collective bargaining agreement and have not negotiated to participate in the Plan or (ii) are employed by a unit not designated for participation in the Plan.

On December 31, 2009, the Pharmacia Savings Plan for Employees Resident in Puerto Rico (Pharmacia Puerto Rico Savings Plan) was merged into the Plan. Participants eligible to participate in or who held balances in the Pharmacia Puerto Rico Savings Plan became eligible to participate in the Plan. Participant balances of the Pharmacia Puerto Rico Savings Plan were transferred into investment options offered by the Plan as of the merger date.

On October 1, 2010, the Wyeth Savings Plan – Puerto Rico was merged into the Plan. Participants eligible to participate in or who held balances in the Wyeth Savings Plan – Puerto Rico became eligible to participate in the Plan. Participant balances of the Wyeth Savings Plan – Puerto Rico were transferred into investment options offered by the Plan as of the merger date.

Effective January 1, 2012, the former participants in the Pharmacia Savings Plan for Employees Resident in Puerto Rico and the Wyeth Savings Plan – Puerto Rico began receiving matching contributions in accordance with the Pfizer match contribution formula instead of the legacy-Pharmacia or legacy-Wyeth matching contribution formula.

Effective January 1, 2012, participants in the Searle Puerto Rico Savings Plan 1081(d) (Searle Plan), other than those participants located in Caguas, Puerto Rico, began participating in the Plan. The balances of these participants remained in the Searle Plan until October 1, 2013 when they were merged into the Plan. Participants located in Caguas remained in the Searle Plan until the merger with the Plan on October 1, 2013.

On October 1, 2013, the Searle Puerto Rico Savings Plan 1081(d) was merged into the Plan. Participants located in Caguas, Puerto Rico eligible to participate in or who held balances in the Searle Puerto Rico Savings Plan 1081(d) became eligible to participate in the Plan. Participant balances of the Searle Puerto Rico Savings Plan 1081(d) were transferred into investment options offered by the Plan as of the merger date. See Note 3, Transfers Into the Plan, for additional information.

On December 31, 2013, the King Pharmaceuticals, Inc. 1165(e) Plan was merged into the Plan. Participants eligible to participate in or who held balances in the King Pharmaceuticals, Inc. 1165(e) Plan became eligible to participate in the Plan. Participant balances of the King Pharmaceuticals, Inc. 1165(e) Plan were transferred into investment options offered by the Plan as of the merger date. See Note 3, Transfers Into the Plan, for additional information.

### Notes Receivable from Participants

Plan participants are permitted to borrow against their account balances. The minimum amount a participant may borrow is \$1,000 and the maximum amount is the lesser of 50% of the account balance reduced by any current outstanding loan balance, or \$50,000, reduced by the highest outstanding loan balance in the preceding 12 months.

Under the terms of the Plan, loans must be repaid within five years, unless the funds are used to purchase a primary residence. Primary residence loans must be repaid within 15 years. The interest rate on all loans is based on the prime rate plus 1%. Interest rates on outstanding loans ranged from 4.00% to 9.50% and 4.25% to 9.50% at December 31, 2013 and 2012, respectively.

Interest paid by the participant is credited to the participant's account. Interest income from notes receivable from participants is recorded by the trustee as earned in the investment funds in the same proportion as the original loan issuance. Repayments may not necessarily be made to the same fund from which the amounts were borrowed. Repayments are credited to the applicable funds based on the participant's investment elections at the time of repayment.

In the event of termination, participants will have 90 days to repay the loan before the loan is considered taxable to the participant. An additional 10% penalty tax may also apply.

### Benefit Payments

Upon separation from service, retirement, or disability, a participant is entitled to receive the full value of their account balance in the form of a lump sum distribution. A participant generally may elect to receive his or her account balance at any time up to the later of 13 months after termination or age 65, subject to the provisions of the Plan. In the event of a participant's death, a spouse beneficiary generally may elect an immediate lump sum payment or defer payments until the later of 13 months from the date of death or when the participant would have reached age 65. A non-spouse beneficiary generally may elect an immediate lump sum payment or defer payment until 13 months from the date of the participant's death.

### In-Service Withdrawals

Participants in the Plan may make in-service or hardship withdrawals from their account balances subject to the provisions of the Plan.

### Plan Termination

The Plan Sponsor and the Parent expect to continue the Plan indefinitely, but reserve the right to amend, suspend or discontinue it in whole or in part at any time by action of the Plan Sponsor's Management, the Board of Directors of the Parent, or the authorized designee(s) of either of them. In the event of termination of the Plan, each participant shall be entitled to the full value of his or her account balance as though he or she had retired as of the date of such termination. No part of the invested assets established pursuant to the Plan will at any time revert to the Company, except as otherwise permitted under ERISA.

## 2. Summary of Significant Accounting Policies

### Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting. Benefit payments are recorded when paid. For treatment on Form 5500 of benefits processed and approved for payment prior to December 31st but not yet paid as of that date, refer to Note 10, Reconciliation of Financial Statements to Form 5500.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. As required, the accompanying statements of net assets available for plan benefits present the fair value of the investment contracts, as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statements of changes in net assets available for plan benefits are prepared on a contract value basis.

#### Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP) requires Plan management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements, the reported amounts of increases and decreases to net assets during the reporting period, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

#### Investment Valuation

Common stock is valued at the closing market price on the last business day of the year. Common/collective trust funds (CCTs), except for the investment in the T. Rowe Price Stable Value Common Trust Fund, are stated at redemption value as determined by the trustees of such funds based upon the underlying securities stated at fair value. The T. Rowe Price Stable Value Common Trust Fund represents a common/collective trust fund with an underlying investment in Guaranteed Investment Contracts (GICs), Bank Investment Contracts (BICs), Synthetic Investment Contracts (SICs), and Separate Account Contracts (SACs), collectively, investment contracts. The T. Rowe Price Fixed Income Fund represents direct investments in GICs. The investment contracts within the T. Rowe Price Stable Value Common Trust Fund, as well as the GICs held directly by the plan, are reported at fair value by the issuer insurance companies and banks with an appropriate adjustment to report such contracts at contract value because these investments are fully benefit-responsive. Mutual funds are recorded at fair value based on the closing market prices obtained from national exchanges of the underlying investments of the respective fund as of the last business day of the year. See Note 6, Investment Contracts, for additional information.

Pfizer Inc. preferred stock provides dividends at the annual rate of 6.25% and is convertible at the holder's option into 2.57487 shares of Pfizer Inc. common stock. The preferred stock may also be redeemed by Pfizer Inc. at a per-share equivalent stated value of \$40.30. Pfizer Inc. preferred stock is valued using the higher of the per-share equivalent stated value of \$40.30 or the quoted market price of Pfizer Inc. common stock multiplied by 2.57487 on the last business day of the Plan year (preferred stock share balances maintained by the Plan's trustee and record keeper are on a basis equal to a multiple of 1,000 of the share balance and one-thousandth of the \$40,300 stated value). Pfizer Inc. preferred stock was valued at \$78.87 per share and \$64.58 per share at December 31, 2013 and 2012, respectively, based on the closing Pfizer Inc. common stock price of \$30.63 per share and \$25.08 per share on December 31, 2013 and 2012, respectively.

See Note 8, Fair Value Measurements, for additional information regarding the fair value of the Plan's investments.

#### Notes Receivable from Participants

Notes receivable from participants, which are subject to various interest rates, are recorded at amortized cost.

#### Risks and Uncertainties

Investment securities, including Pfizer Inc. common and preferred stock and Zoetis Inc. common stock, are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in their fair values could occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for plan benefits.

## Investment Transactions

Purchases and sales of securities are reflected on a trade-date basis. Dividend income is recorded on the ex-dividend date. Interest income is recorded as earned.

## Net Appreciation in Investments

The Plan presents, in the statements of changes in net assets available for plan benefits, the net appreciation in the value of its investments which consists of the realized gains and losses and the unrealized gains and losses on those investments and the change in contract value of the fund holding investments in GICs, BICs, SICs, and SACs. Realized gains and losses on sales of investments represent the difference between the net proceeds and the cost of the investments (average cost if less than the entire investment is sold). Unrealized gains and losses on investments represent the difference between the cost of the investments and their fair value at the end of the year.

### 3. Transfers Into the Plan

On October 1, 2013, the Searle Puerto Rico Savings Plan 1081(d) was merged into the Plan. The net assets of the Searle Puerto Rico Savings Plan 1081(d), in the amount of \$42.0 million, were transferred into the Plan.

In 2011, the Plan Sponsor completed an acquisition of King Pharmaceuticals, Inc. In 2013, the net assets of the King Pharmaceuticals, Inc. 1165(e) Plan, in the amount of \$0.6 million were transferred into the Plan.

### 4. Tax Status

The Puerto Rico Department of the Treasury has determined and informed the Plan Sponsor by letter dated May 28, 2008 that the Plan and related trust are designed in accordance with the applicable sections of the Puerto Rico Code. The Plan has been amended since receiving the determination letter. However, the Company's counsel believes the Plan is designed and is currently being operated in compliance with all of the applicable requirements of the Puerto Rico Code. Accordingly, no provision has been made for Puerto Rico income taxes in the accompanying financial statements.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Puerto Rico Department of the Treasury. The Company's counsel has confirmed that there are no uncertain positions taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is generally no longer subject to income tax examinations for years prior to 2010.

Contributions made to the Plan by the Company, including pre-tax contributions made on a participant's behalf and any appreciation on all funds in a participant's accounts, are not taxable to a participant under current Puerto Rico income tax law while these amounts remain in the Plan and the Plan maintains its qualified status.

## 5. Investments

The fair value of individual investments that represented 5% or more of the Plan's net assets available for plan benefits were as follows:

| (thousands of dollars)                                             | December 31, |           |

## 6. Investment Contracts

Participants in the Plan have a stable value investment option which consists of investing in (i) fully benefit-responsive GICs (referred to as the T. Rowe Price Fixed Income Fund) and (ii) the T. Rowe Price Stable Value Common Trust Fund, which is a collective trust fund that invests primarily in fully benefit-responsive contracts such as GICs, BICs, SICs, and SACs. The contract value of the investment contracts represents contributions made under the contract and related earnings offset by participant withdrawals. There are no reserves against contract value for credit risk of the contract issuers or otherwise.

At December 31, 2013 and 2012, the Plan held GICs directly with insurance companies with a contract value of approximately \$6 million and \$12 million, respectively. The average portfolio yields for the years ended December 31, 2013 and 2012 were approximately 5.49% and 5.22%, respectively. The crediting interest rates for the years ended December 31, 2013 and 2012 were approximately 5.78% and 5.65%, respectively.

At December 31, 2013 and 2012, the contract value of the Plan's investments in the T. Rowe Price Stable Value Common Trust Fund was approximately \$70 million and \$57 million, respectively. The average portfolio yields for the years ended December 31, 2013 and 2012 for the T. Rowe Price Stable Value Common Trust Fund were approximately 2.06% and 2.36%, respectively. The crediting interest rates for the years ended December 31, 2013 and 2012 were approximately 2.29% and 2.45%, respectively.

Traditional investment contracts, such as GICs or BICs, provide for a fixed return on principal invested for a specified period of time. The issuer of a traditional contract is a financially responsible counterparty, typically an insurance company, bank, or other financial services institution. The issuer accepts a deposit from a benefit plan or collective trust fund and purchases investments, which are held by the issuer. The issuer is contractually obligated to repay principal and interest at the stated coupon rate to the plan or collective trust fund and guarantees liquidity at contract value prior to maturity for routine permitted participant-initiated withdrawals from a stable value fund that holds these investment contracts. "Permitted participant-initiated withdrawals" refers to withdrawals from the stable value fund which directly result from participant transactions allowed by a benefit plan, such as participant withdrawals for benefits, loans, or transfers to other funds or trusts within the benefit plan.

In contrast to traditional investment contracts, the investments underlying a synthetic structure are owned by the Plan. SICs consist of a portfolio of underlying assets owned by a benefit plan and a wrap contract issued by a financially responsible third party, typically an insurance company, bank, or other financial services institution. The issuer of the wrap contract provides for unscheduled withdrawals from the contract at contract value, regardless of the value of the underlying assets, in order to fund routine permitted participant-initiated withdrawals from a stable value fund. SICs provide for a variable crediting rate, which typically resets at least quarterly, and the issuer of the wrap contract provides assurance that future adjustments to the crediting rate cannot result in a crediting rate less than zero.

SACs share certain attributes of both traditional and synthetic investment contracts. A SAC is a contract with a financially responsible counterparty, typically an insurance company. The issuer guarantees liquidity at contract value for permitted participant-initiated withdrawals from the collective trust fund and provides for a variable crediting rate, not less than zero, based on performance of an underlying portfolio of investments. The issuer accepts a deposit of cash and/or securities from the collective trust fund to create the underlying fixed income portfolio. The underlying portfolio holdings are owned by the issuer but are required to be segregated in a separate account and are designed to be protected from the claims of the issuer's general creditors in the event of issuer insolvency. As with a SIC, to the extent the portfolio underlying a SAC is insufficient to cover payment obligations under the contract, the issuer is contractually obligated to make such payments in full. The SAC provides that gains and losses on the underlying portfolio accrue to the benefit of the trust. SACs have no stated maturity but may be discontinued by either party subject to any notice period under the terms of the SAC.

The crediting rate is based, in part, on the relationship between the contract value and the market value of the underlying assets, as well as previously realized gains and losses on underlying assets. The crediting rate will generally reflect, over time, movements in prevailing interest rates. However, at times the crediting rate may be more or less than prevailing rates or the actual income earned on the underlying assets. In most cases, realized and unrealized gains and losses on the underlying investments are not reflected immediately in the net assets of a stable value fund, but rather are amortized either over the time to maturity or the duration of the underlying investments, through adjustments to the future interest crediting rate.

The existence of certain conditions can limit a benefit plan's or collective trust fund's ability to transact at contract value with the issuers of its investment contracts. Specifically, any event outside the normal operation of a benefit plan or collective trust which causes a withdrawal from an investment contract may result in a contract value adjustment with respect to such withdrawal. Examples of such events include, but are not limited to, partial or complete legal termination of the plan or collective trust fund, tax disqualification, certain plan or trust amendments if issuers' consent is not obtained, improper communications to participants, group terminations, group layoffs, early retirement programs, mergers, sales, spin-offs, and bankruptcy.

In addition to the limitations noted above, issuers of investment contracts have certain rights to terminate a contract and settle at an amount which differs from contract value. For example, certain breaches by a benefit plan or the investment manager of their obligations, representations, or warranties under the terms of an investment contract can

result in its termination at market value, which may differ from contract value. Investment contracts may also provide for termination with no payment obligation from the issuer if the performance of the contract constitutes a prohibited transaction under ERISA or other applicable law. SICs and SACs may also provide issuers with the right to reduce contract value in the event an underlying security suffers a credit event or terminate the contract in the event certain investment guidelines are materially breached and not cured.

## 7. Nonparticipant-Directed Investments

Information about the net assets and significant components of the changes in net assets relating to the nonparticipant-directed investments in the Pfizer Stock Match Fund and the Pfizer Preferred Stock Fund is as follows:

#### 8. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. There are three levels of inputs to fair value measurements - Level 1 meaning the use of quoted prices for identical instruments in active markets; Level 2 meaning the use of quoted prices for similar instruments in active markets or quoted prices for identical or similar instruments in markets that are not active or are directly or indirectly observable; and Level 3 meaning the use of unobservable inputs.

See Note 2, Summary of Significant Accounting Policies: Investment Valuation, for information regarding the methods used to determine the fair value of the Plan's investments. These methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2013 and 2012:

#### 9. Related-Party Transactions

The trustee of the Plan, Banco Popular de Puerto Rico is deemed a party-in-interest and a related party. The custodian of the Plan, Northern Trust Company, manages investments in their sponsored funds and, therefore, each is deemed a party-in-interest and a related party. The record keeper of the Plan, Fidelity Management Trust Company, manages investments in its sponsored funds and, therefore, is deemed a party-in-interest and a related party. The Plan also invests in shares of the Parent; therefore, these transactions qualify as party-in-interest transactions.

#### 10. Reconciliation of Financial Statements to Form 5500

Amounts allocated to withdrawing participants are recorded as benefits paid on Form 5500 for benefit claims that have been processed and approved for payment prior to December 31st but not yet paid as of that date. Deemed distributions, representing withdrawing participants with outstanding loan balances for which no post-default payment activity has occurred, are not reported on Form 5500 in net assets available for plan benefits. Also, investments in the T. Rowe Price Stable Value Common Trust Fund are reported on Form 5500 at fair value, whereas the net assets available for plan benefits in the financial statements report such investments at contract value.

The following is a reconciliation of net assets available for plan benefits per the financial statements to the Plan's Form 5500 filed for 2012 and expected to be filed for 2013:

## 11. Subsequent Events

Effective April 1, 2014, Company matching contributions are deposited into the Plan each quarter, rather than on each pay date. In addition, generally participants must be actively employed on the last day of the quarter to receive the match; however, if the participant separates from the Company prior to the last day of the quarter due to retirement (defined at age 55 with 10 years of service or age 65), death, or disability, such participant may still receive the match.

At the close of business on June 25, 2014, the fiduciary and investment manager of the Zoetis Stock Fund, Evercore Trust Company, N.A. (Evercore), directed the Northern Trust Company, the Plan's custodian, to liquidate the shares of Zoetis stock in the Zoetis Stock Fund. Once the sale of the Zoetis stock is completed, Evercore has directed Fidelity Management Trust Company, the Plan's record keeper, to transfer the remaining assets in the Zoetis Stock Fund to each participant's QDIA fund. This transaction is expected to be complete by July 7, 2014.

The Plan Sponsor has evaluated subsequent events from the statement of net assets available for plan benefits date through June 26, 2014, the date at which the financial statements were available to be issued, and determined there were no additional items to disclose.
