AMARIN CORPORATION REPORTS FIRST-QUARTER SALES AND  
EARNINGS

## Edgar Filing: AMARIN CORP PLC\UK - Form 6-K

Revenues Advanced 165 Percent to \$17.6 Million

---

Net Income Grew 34 Percent to \$1.6 Million,  
Diluted Earnings per ADS Increased 27 Percent to \$0.14

---

First Quarter Impacted By Amortisation Expense (\$0.09 per ADS)

LONDON, United Kingdom, May 14, 2002 -- Amarin Corporation plc (NASDAQ: AMRN) today reported that total revenues grew 165 percent to \$17.6 million for the first quarter ended March 31, 2002. For the quarter, net income rose 34 percent to \$1.6 million and diluted earnings per American depository share (ADS) increased 27 percent to \$0.14. This is compared with revenues of \$6.6 million, net income of \$1.2 million and diluted earnings per ADS of \$0.11 for the same period a year ago.

Diluted earnings per ADS were impacted by increased amortisation expense of \$1.1 million, or \$0.09 per ADS, associated with the recently announced acquisition of the remaining rights to Permaxr. As a result of exercising the Permaxr option, there will be no further exceptional amortisation charges related to the original twelve month distribution agreement. Amarin initially gained exclusive U.S. marketing, sales and distribution rights to Permaxr in May 2001.

"Our recent strategic actions have secured our neurology franchise, simplified our financial reporting and set the stage for clear expectations going forward," said Rick Stewart, chief executive officer. "In the first quarter, Amarin achieved strong growth in sales and cash flow. Our growth was driven by the continued success of Permaxr."

In the first quarter, Permaxr achieved sales of \$11.8 million. The corresponding increase in direct cost of sales reflects the cost of goods associated with the Permaxr revenues. Permaxr (pergolide mesylate tablets) is a dopamine receptor agonist indicated as adjunctive therapy in the management of Parkinson's disease.

"We are very encouraged by evidence of growth in new prescriptions for Permaxr among high-prescribing physicians," Mr. Stewart said. "Acquiring the remaining rights to Permaxr now permits Amarin to better manage the product's life cycle."

For the quarter, increased selling, general and administrative expense resulted primarily from the expansion of Amarin's sales and marketing infrastructure in the U.S. and the launch of the Company's U.S. neurology sales force. The increase in research and development expense reflected, in part, new development projects undertaken in Sweden by Amarin Development AB.

"Through the acquisition of Permaxr and the creation of a specialty sales force, we have established a solid foundation upon which to build our neurology franchise," Mr. Stewart said. "The potential approval and launch of ZelaparT will expand our presence in this important therapeutic category and permit us to better leverage our new sales and marketing infrastructure." ZelaparT (Zydisr selegiline tablets), an MAO-B inhibitor, is a potential treatment for Parkinson's disease. A New Drug Application for ZelaparT is expected to be filed with the U.S. Food and Drug Administration in the first half of 2002.

In other recent developments, Amarin Corporation:

## Edgar Filing: AMARIN CORP PLC\UK - Form 6-K

? exercised its purchase option to acquire the remaining rights from Elan Pharmaceuticals, Inc. to be the exclusive licensee for Permaxr in the U.S.;

? announced the conversion of 2,129,819 shares of its convertible preference stock into 21,298,190 shares of Amarin ordinary stock (equivalent to 2,129,819 American depository shares) by Elan International Services, Ltd., a subsidiary of Elan Corporation plc.;

? established a strategic technology partnership with NanoCarrier Company, Ltd., Chiba, Japan, to develop novel controlled release technologies for use in pharmaceutical products; and

? strengthened senior management by recruiting and appointing Jonathan S. Lamb as general counsel and company secretary.

Amarin Corporation plc is a specialty pharmaceutical company focused on neurology and pain management. The company plans to become a leader in these therapeutic categories by providing innovative products and solutions that address significant unmet medical needs. For press release and other Company information, visit our website at <http://www.amarincorp.com>.

Amarin Development AB, based in Malmo, Sweden, is a wholly owned subsidiary of Amarin Corporation. It is dedicated to the research and development of advanced controlled release and site-specific technology solutions to create improved outcome formulations of both new and existing drugs.

Statements in this press release that are not historical facts are forward-looking statements that involve risks and uncertainties which may cause the Company's actual results in future periods to be materially different from any performance suggested herein. Such risks and uncertainties include, without limitation, risks associated with the inherent uncertainty of pharmaceutical research, product development and commercialisation, the impact of competitive products and patents, as well as other risks and uncertainties detailed from time to time in periodic reports. For more information, please refer to Amarin Corporation's Annual Report for 2001 on Form 20-F and its Form 6-Ks as filed with the U.S. Securities and Exchange Commission. The company assumes no obligation to update information on its expectations.
