On December 10, 1992, Parent changed its name to Millennium Entertainment Corp. In 1993, Parent changed its name to New Horizon Education, Inc. Also during 1993, Parent organized a wholly owned subsidiary with the sole purpose of merging with Ruff Network Marketing, Inc. On December 31, 1997, Parent sold its wholly owned subsidiary to Phoenix Ink, LLC, a company controlled by Howard J. Ruff. On June 17, 2002, Parent changed its name to American Hospital Resources, Inc. Prior to 2002, Parent was considered a development stage company as defined in Statement of Financial Accounting Standards No. 7.

American Hospital Resources, Inc. ("Subsidiary") was organized under the laws of the State of Delaware on August 27, 1999 as Frozen Enterprises, Inc. On February 16, 2002, Subsidiary changed its name to American Hospital Resources, Inc.

Edgar Filing: AMERICAN HOSPITAL RESOURCES INC - Form 10QSB

will depend upon the financial requirements of the Company and other relevant factors.

CONDENSED FINANCIAL STATEMENTS - The accompanying financial statements have been prepared by the Company without audit. In the opinion of management, all adjustments (which include only normal recurring adjustments) necessary to present fairly the financial position, results of operations and cash flows at September 30, 2002 and 2001 and for the periods then ended have been made.

Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles in the United States of America have been condensed or omitted. It is suggested that these condensed financial statements be read in conjunction with the financial statements and notes thereto included in the Company's December 31, 2001 audited financial statements. The results of operations for the periods ended September 30, 2002 and 2001 are not necessarily indicative of the operating results for the full year.

CONSOLIDATION - The consolidated financial statements include the accounts of Parent and its wholly-owned Subsidiary. All significant intercompany transactions have been eliminated in consolidation.

CASH AND CASH EQUIVALENTS - The Company considers all highly liquid debt investments purchased with a maturity of three months or less to be cash equivalents.

AMERICAN HOSPITAL RESOURCES, INC. AND SUBSIDIARY (Formerly New Horizon Education, Inc.)

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES [CONTINUED]

ACCOUNTS AND LOANS RECEIVABLE - The Company records accounts and loans receivable at the lower of cost or fair value. The Company determines the lower of cost or fair value of nonmortgage loans on an individual asset basis. The Company recognizes interest income on an account receivable based on the stated interest rate for past-due accounts over the period that the account is past-due. The Company recognizes interest income on a loan receivable based on the stated interest rate over the term of the loan. The Company accumulates and defers fees and costs associated with establishing a receivable to be amortized over the estimated life of the related receivable. The Company estimates allowances for doubtful accounts and loan losses based on the aged receivable balance and historical losses. The Company records interest income on delinquent accounts and loans receivable only when payment is received. The Company first applies payments received on delinquent accounts and loans receivable to eliminate the outstanding principal. The Company charges off uncollectible accounts and loans receivable when management estimates no possibility of collecting the related receivable. The Company considers accounts and loans receivable to be past-due or delinquent based on contractual terms.

PROPERTY AND EQUIPMENT - Property and equipment are stated at cost. Expenditures for repairs and maintenance are charged to operating expense as incurred. Expenditures for additions and betterments that extend the useful lives of property and equipment are capitalized, upon being placed in service. When assets are sold or otherwise disposed of, the cost and

Edgar Filing: AMERICAN HOSPITAL RESOURCES INC - Form 10QSB

related accumulated depreciation or amortization is removed from the accounts and any resulting gain or loss is included in operations. Depreciation is computed using the straight-line method over the estimated useful lives of the assets of five years [See Note 3].

WEBSITE COSTS - The Company has adopted the provisions of Emerging Issues Task Force 00-2, "Accounting for Web Site Development Costs." Costs incurred in the planning stage of a website are expensed as research and development while costs incurred in the development stage are capitalized and amortized over the life of the asset, estimated to be two years. As of September 30, 2002 the Company has capitalized a total of \$1,541 of website costs which are included in property and equipment. The Company did not incur any planning costs and did not record any research and development costs for the nine months ended September 30, 2002 and 2001.

INTANGIBLE ASSETS - The Company accounts for its intangible assets in accordance with Statement of Financial Accounting Standards No. 142, "Goodwill and Other Intangible Assets" [See Note 5].

REVENUE RECOGNITION - The Company's revenue comes from the management of hospitals and from the sale of hospital property. Revenue from the management of hospitals is recognized over the term of the managing agreement. A portion of the managing services is subcontracted out by the Company to third party vendors. These direct costs are recorded by the Company as general and administrative expenses. Revenue from the sale of hospital property is recorded when property is sold. The Company has purchased the right to receive a portion of the revenues from a consulting and asset sale agreement. Revenue derived from the purchased contract rights is recorded on a net basis. On a net basis, only the share of revenue belonging to the Company is recorded as revenue.

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES [CONTINUED]

STOCK BASED COMPENSATION - The Company accounts for its stock based compensation in accordance with Statement of Financial Accounting Standards No. 123 "Accounting for Stock-Based Compensation." This statement establishes an accounting method based on the fair value of equity instruments awarded to employees as compensation. However, companies are permitted to continue applying previous accounting standards in the determination of net income with disclosure in the notes to the financial statements of the differences between previous accounting measurements and those formulated by the new accounting standard. The Company has adopted the disclosure only provisions of SFAS No. 123. Accordingly, the Company has elected to determine net income using previous accounting standards.

EARNINGS (LOSS) PER SHARE - The computation of earnings (loss) per share of common stock is based on the weighted average number of shares outstanding during the periods presented, in accordance with Statement of Financial Accounting Standards No. 128, "Earnings Per Share" [See Note 12].

ACCOUNTING ESTIMATES - The preparation of financial statements in conformity with generally accepted accounting principles in the United States of America requires management to make estimates and assumptions

Edgar Filing: AMERICAN HOSPITAL RESOURCES INC - Form 10QSB

that effect the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimated by management.

RECENTLY ENACTED ACCOUNTING STANDARDS - Statement of Financial Accounting Standards ("SFAS") No. 141, "Business Combinations", SFAS No. 142, "Goodwill and Other Intangible Assets", SFAS No. 143, "Accounting for Asset Retirement Obligations", SFAS No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets", SFAS No. 145, "Rescission of FASB Statements No. 4, 44, and 64, Amendment of FASB Statement No. 13, and Technical Corrections", SFAS No. 146, "Accounting for Costs Associated with Exit or Disposal Activities", and SFAS No. 147, "Acquisitions of Certain Financial Institutions - an Amendment of FASB Statements No. 72 and 144 and FASB Interpretation No. 9", were recently issued. SFAS No. 141, 142, 143, 144, 145, 146 and 147 have no current applicability to the Company or their effect on the financial statements would not have been significant.

RESTATEMENT - In July 2000, the Company effected a 1 for 50 reverse stock split. The financial statements have been restated, for all periods presented, to reflect this stock split [See Note 8].

RECLASSIFICATION - The financial statements for periods prior to September 30, 2002 have been reclassified to conform to the headings and classifications used in the September 30, 2002 financial statements.

NOTE 8 - CAPITAL STOCK [CONTINUED]

In January 2001, the Company entered into a stock subscription agreement with Jean Hullinger, a former director of the Company. The agreement was originally for the sale of 7,500,000 shares of the Company's common stock for \$15,000, or \$.002 per share. However, on August 3, 2001, the Company renegotiated the stock transaction and both parties agree that only 750,000 shares should have been issued for \$15,000 or \$.02 per share. Accordingly, the additional 6,750,000 shares have been cancelled. The financial statements have been restated to reflect the issuance of 750,000 shares as of February 2001.

In August 2000, the Company issued 1,500,000 shares of common stock to Steve White, the Company's former president, for cash in the amount of \$30,000, or \$.02 per share. This issuance resulted in a change in control of the Company, the Company's officers and directors resigned and new officers and directors were appointed.

In July 2000, the Company effected a 1 for 50 reverse stock split and issued 1,300 shares of common stock as part of the stock split.

From February through July 2000, the Company issued 377,184 shares of common stock for cash of \$18,859, or \$.05 per share.

STOCK OPTIONS - In March 2002, the Company granted 10,000 stock options each to two of the Company's directors, totaling 20,000 options. The options vested immediately and are exercisable at \$.05 per share for two years. The Company has adopted the disclosure only provisions of Statement of Financial Accounting Standards No. 123, "Accounting for Stock-Based Compensation." No Compensation cost has been recognized for the stock options under APB 25 since the market value of the Company's common stock was less than the exercise price of the options on the date of grant. Had compensation cost for the Company's stock options been determined based on the fair value at the grant date consistent with the provisions of SFAS No. 123, the Company's net income (loss) and earnings (loss) per share would have been reduced to the pro forma amounts indicated below:

		For the Three Months Ended September 30,		For the Nine Months Ended September 30,	
		2002	2001	2002	2001
Net Income (Loss) . .	As reported	\$ 3,827	\$ (9,562)	\$ (25,052)	\$ (36,483)

common share					
	As reported	\$.00	\$ (.00)	\$ (.00)	\$ (.01)
	Pro forma	\$.00	\$ (.00)	\$ (.00)	\$ (.01)

The fair value of each option granted is estimated on the date granted using the Black-Scholes option pricing model, with the following assumptions used for the grants during March 2002: risk-free interest rate of 3.58%, expected dividend yield of zero, expected lives of 2 years and expected volatility of 100%.

NOTE 9 - INCOME TAXES

The Company accounts for income taxes in accordance with Statement of Financial Accounting Standards No. 109 "Accounting for Income Taxes". SFAS No. 109 requires the Company to provide a net deferred tax asset/liability equal to the expected future tax benefit/expense of temporary reporting differences between book and tax accounting methods and any available operating loss or tax credit carryforwards.

The Company has available at September 30, 2002 and December 31, 2001 unused operating loss carryforwards of approximately \$139,000 and \$92,000, respectively, which may be applied against future taxable income and which expire in various years through 2022. The amount of and ultimate realization of the benefits from the deferred tax assets for income tax purposes is dependent, in part, upon the tax laws in effect, the future earnings of the Company, and other future events, the effects of which cannot be determined. Because of the uncertainty surrounding the realization of the deferred tax assets, the Company has established a valuation allowance equal to the tax effect of the deferred tax assets and, therefore, no deferred tax assets have been recognized. The net deferred tax assets, which consist of accrued compensation and net operating loss carryovers, are approximately \$83,000 and \$31,000 as of September 30, 2002 and December 31, 2001, respectively, with an offsetting valuation allowance of the same amount resulting in a change in the valuation allowance of approximately \$52,000 during the nine months ended September 30, 2002. Due to a change in control, the amount of the net operating loss carryforward available to offset taxable income is subject to an annual limitation. Because of this limitation, approximately \$16,000 of taxable income could not be offset, creating a tax expense of \$3,659 for the nine months ended September 30, 2002.

NOTE 10 - GOING CONCERN

The accompanying financial statements have been prepared in conformity with generally accepted accounting principles in the United States of America, which contemplate continuation of the Company as a going concern. However, the Company has just recently commenced operations and all of their revenues have been from one customer. These factors raise substantial doubt about the ability of the Company to continue as a going concern. In this regard, management is proposing to raise any necessary additional funds not provided by operations through loans or through sales of their common stock or through a possible business combination with another company. There is no assurance that the Company will be successful in raising this additional capital or achieving profitable operations. The financial statements do not include any adjustments that might result from the outcome of these uncertainties.

DESCRIPTION OF BUSINESS

("American Hospital Resources" or the "Company") originally incorporated in the State of Utah on May 9, 1972, under the name High-Line Investment & Development Company. In 1977, the Company changed its name to Gayle Industries, Inc., and in 1978 the Company merged into its subsidiary, Swing Bike, keeping the Swing Bike name. In 1993 the Company changed its name to New Horizon Education, Inc. and implemented a business plan focusing on marketing computer education programs. Later that year, the Company formed a new subsidiary, Sunset Horizon, Inc. for the purpose of merging with Ruff Network Marketing, Inc. The subsidiary, Sunset Horizon, Inc., owned the marketing rights to the computer education programs and Ruff Network Marketing, Inc. provided the marketing network. The Company was not successful in its marketing activities and in 1995 the Company sold its assets and suspended operations. In 1997 the Company sold its subsidiary and became essentially dormant from 1998 through 2000.

In 2001, the Company recommenced operations and in June of 2002, the Company

Edgar Filing: AMERICAN HOSPITAL RESOURCES INC - Form 10QSB

finalized an Agreement and Plan of Reorganization with American Hospital Resources, Inc. Under the Agreement, American Hospital Resources Inc. became a wholly owned subsidiary of the Company and the Company changed its name to American Hospital Resources, Inc. The Company also authorized a class of 10,000,000 shares of Preferred Stock at no par value per share and changed its business strategy to focus on providing health care services and management.

The Company's common stock is quoted on the OTCBB under the symbol "AMHR."

NATURE OF BUSINESS

American Hospital Resources is a healthcare services company that provides hospital and acute care consulting and management services including crisis management and financial re-structuring. The Company is currently focusing on the acquisition and consolidation of profitable pharmacy outsourcing businesses.

21

These consolidated pharmacy outsourcing and materials management companies provide pharmacy management services and pharmaceutical supplies to acute care hospitals and long-term care facilities such as nursing homes and hospices. As part of its business strategy, the Company has structured a program that allows profitable regional pharmacy outsourcers to merge into a national team, allowing them to benefit from the enhanced buying power and market presence of a consolidated healthcare entity.

Since resuming operations, the Company has been actively engaged in identifying pharmaceutical and healthcare companies to join its healthcare network. The Company is currently negotiating to acquire two pharmaceutical outsourcing companies based in Texas and another company based in Florida that provides pharmaceutical outsourcing and consulting services. The Company intends to continue seeking suitable healthcare and pharmaceutical companies for potential acquisition, consulting or management opportunities.

THREE MONTH AND NINE MONTH PERIODS ENDED SEPTEMBER 30, 2002 AND 2001

During the three months ended September 30, 2002, the Company generated revenue of \$118,200 and had general and administrative expenses of \$110,714. These expenses consisted of general administrative, legal and professional expenses, and accrued deferred salaries. As a result, the Company had pre-tax earnings of \$7,486 for the quarter ended September 30, 2002. The Company also had tax expense of \$3,659 resulting in net income of \$3,827 for the three months ended September 30, 2002.

Total revenue for the nine months ended September 30, 2002 was \$176,300. General and administrative expenses for this period were \$196,571 consisting of administrative, consulting, legal and accounting costs as well as accrued unpaid salaries. The Company also had tax expense of \$3,659 and interest expense of \$1,122 during this period, resulting in a net loss of \$25,052 through the first nine months of 2002.

By comparison, the Company did not generate any revenue during the three and nine month periods ended September 30, 2001. Increased revenue in 2002 is due to the Company entering into an agreement and plan of reorganization in which the Company acquired a subsidiary, retained new management and implemented its current business strategy.

General and administrative expenses consisting of corporate administration, legal and professional fees, accounting costs, and accrued compensation for the three month and nine month periods ended September 30, 2001, were \$9,118 and

Edgar Filing: AMERICAN HOSPITAL RESOURCES INC - Form 10QSB

\$36,039, respectively. The Company also had interest expense of \$444 during the three and nine months ended September 30, 2001. As a result of the foregoing factors, net loss was \$9,562 and \$36,483 for the three and nine months ended September 30, 2001, respectively.

Higher general and administrative expenses in 2002 are partially attributable to professional costs associated with the change in control of the Company and the implementation of its business plan. The Company also had consulting fees totaling \$103,229 during the first nine months of 2002. In addition, a portion of general and administrative expenses during the first nine months of 2002 and 2001 were the result of accrued unpaid salaries due to the Company's president under a non-formalized employment agreement. Management compensation expense for the nine months ended September 30, 2002 totaled \$37,500, representing approximately 19% of the Company's expenses for that period. By comparison, management compensation expense for the first nine months of 2001 was \$17,500, representing approximately 49% of the Company's expenses for that period. Total accrued salary payable at September 30, 2002 amounted to \$90,000 which includes amounts accrued prior to the acquisition of Subsidiary. The Company believes that its cash needs can be met for the next twelve months with cash on hand, short and long-term investments, anticipated cash collections from accounts receivable and continuing operations.
