Edgar Filing: HAEMONETICS CORP - Form DEF 14A

Quorum

The holders of a majority in interest of all Common Stock issued, outstanding and entitled to vote are required to be present in person or be represented by proxy at the Meeting in order to constitute a quorum for transaction of business. The election of the nominees for Director will be decided by plurality vote. The affirmative vote of the holders of at least a majority of the shares of Common Stock voting thereon in person or by proxy at the Meeting is required to approve item 2 listed in the Notice of Meeting. Abstentions and "non-votes" are counted as present in determining whether the quorum requirement is satisfied. A "non-vote" occurs when a nominee holding shares for a beneficial owner votes on one proposal, but does not vote on another proposal because the nominee does not have discretionary voting power and has not received instructions from the beneficial owner. Abstentions and broker non-votes will not be taken into account in determining the outcome of the election of directors. Abstentions will be counted in the tabulation of votes cast in item 2 presented to stockholders while broker non-votes will not be counted.

Solicitation of Proxies

The Company will bear the cost of this solicitation. It is expected that the solicitation will be made primarily by mail, but regular employees or representatives of the Company (none of whom will receive any extra compensation for their activities) may also solicit proxies by telephone, telegraph or in person and arrange for brokerage houses and their custodians, nominees and fiduciaries to send proxies and proxy materials to their principals at the expense of the Company.

- o The nominee's knowledge of one or more segments of the Company's business; and

In the case of current Directors being considered for re-nomination, the Nominating and Governance Committee will also take into consideration the Director's history of attendance at Board and committee meetings, the Director's tenure as a member of the Board and the Director's preparation for and participation in such meetings.

Director Nomination Process

The Company's nomination process for new Board members is as follows:

- o The Nominating and Governance Committee, the Chairman of the Board, the Chief Executive Officer, or other Board member identifies a need to add a new Board member who meets specific criteria or to fill a vacancy on the Board.

Compliance with Section 16(a) of the Securities Act of 1934

Section 16(a) of the Securities Exchange Act of 1934 (the "Act") requires the Company's directors, officers and persons who own more than 10% of the Company's Common Stock to file with the Securities and Exchange Commission and the New York Stock Exchange reports concerning their ownership of the Company's Common Stock and changes in such ownership. Copies of such reports are required to be furnished to the Company. To the Company's knowledge, based solely on a review of copies of such reports furnished to the Company during or with respect to the Company's most recent fiscal year, all Section 16(a) filing requirements applicable to persons who were, during the most recent fiscal year, officers or directors of the Company or greater than 10% beneficial owners of its Common Stock were complied with except that a report of the acquisition on December 3, 2003 of 5,000 shares of the Company's common stock by Brian Concannon, an executive of the Company, (which was brought to the Company's attention by Mr. Concannon) was not timely filed.

COMPENSATION AND MANAGEMENT DEVELOPMENT COMMITTEE REPORT ON EXECUTIVE COMPENSATION(1)

The Compensation Committee determines the compensation to be paid to the key executives of the Company and administers the Company's 1990 Stock Option Plan and its 1992 and 2000 Long-Term Incentive Plans.

In its deliberations, the Committee takes into account the recommendations of appropriate Company officials.

Compensation Program

The Company's executive compensation program is intended to attract and retain talented executives, and to motivate them to achieve the Company's business goals. To align executive compensation with stockholder interests and company performance, the program utilizes a combination of salary, stock options and cash bonuses awarded primarily for the achievement of pre-determined corporate performance objectives. The compensation received by its executive officers is thereby linked to the Company's performance. Within this overall policy, compensation packages for individual executive officers are intended to reflect the responsibilities of their position, current performance within their position, past achievements with the Company, as well as the Company's performance.

Base Salaries

Edgar Filing: HAEMONETICS CORP - Form DEF 14A

In arriving at the base salaries paid to the Company's executives for the year ended April 3, 2004, the Committee considered their individual contributions to the performance of the Company, their levels of responsibility, the executive's experience and potential, and the level of compensation necessary, in the overall competitive environment, to retain talented individuals. All of these factors were collectively taken into account by the Committee in making a subjective assessment as to the appropriate base salary for each of the Company's executive officers, and no particular weight was assigned to any one factor.

- (1) The material in this report is not "soliciting material," is not deemed filed with the Commission and is not to be incorporated by reference in any filing of the Company under the Securities Act of 1933, as amended, or the Securities Exchange Act of 1934, as amended, whether made before or after the date hereof and irrespective of any general incorporation language in any such filing.

12

Bonus Program

During the fiscal year ended April 3, 2004, the Company's executive bonus program was tied primarily to the achievement by the Company of predetermined earnings per share, operating income and revenue objectives. The Committee determined to pay partial bonuses to executive management because although the Company failed to reach the revenue and operating income targets, the Company reached its earnings per share objective. The Committee considered that management had achieved the earnings per share performance despite the mid-year acquisition by a competitor of the Company's largest plasma customer that cost the Company \$7 million in revenue. For the fiscal year 2005, pre-determined earnings per share, revenue and operating income objectives will continue to be the primary bases for the payment of executive bonuses.

Incentive Plans

The Company's stock option program is intended to provide additional incentive to build shareholder value, to reward long-term corporate performance, and to promote employee commitment through stock ownership. Information with respect to stock options held by executive officers is included in the tables following this report.

The view of investors generally regarding the design and size and accounting for long-term incentives for senior executives is changing. In FY03, the Company began a comprehensive review of its practices in this area to bring them more in line with developing shareholder expectations. The review is continuing, with the assistance of outside consultants, as the regulatory and investment community dynamics continue to be refined. In 2004, as a result of the review, the Company adopted a program to better manage the number of options granted to senior executives and other employees in any one year. In addition, in FY04 the Committee decided not to grant stock options to employees until corporate performance justified the reward of long term incentive compensation. As a result, the total options granted this year as a percentage of total shares outstanding decreased from 3.31% in 2003 to 2.43% in 2004, and the total outstanding options and options available for grant as a percentage of net shares outstanding decreased from 24.8% in 2003 to 19.0% in 2004. Stock options have been granted to individual executives for FY05. In determining the number of options granted to individual executives, the Committee reviewed competitive market data and the nature and scope of each executive position. The vesting of options granted for FY05 is time vested over four years rather than dependent

upon the achievement of predetermined performance goals, which is a design feature being considered by the Committee. The amount realized by a recipient from an option grant will depend on the future appreciation in the price of the Company's Common Stock.

The use of restricted stock as a component of the Company's long-term incentive program is not possible under existing shareholder-approved plans. The Company will consider including this additional alternative in any future long-term incentive plans submitted for shareholder approval.

Internal Revenue Code Limits on Deductibility of Certain Compensation

In 1993 the Internal Revenue Code was amended to limit the deduction a public company is permitted for compensation paid in 1994 and thereafter to the chief executive officer and to the four most highly compensated executive officers, other than the chief executive officer. Generally, amounts paid in excess of \$1.0 million to a covered executive, other than performance-based compensation, cannot be deducted. In order to qualify as performance-based compensation under the tax law, certain requirements must be met, including approval of the performance measures by the

13

stockholders. In its deliberations, the Committee considers ways to maximize deductibility of executive compensation, but nonetheless retains the discretion to compensate executive officers at levels the Committee considers commensurate with their responsibilities and achievements. The Company has not adopted a policy that all executive compensation be fully deductible.

Compensation of Chief Executive Officer

In recognition of Mr. Nutter's leadership and the Company's performance during the fiscal year ended April 3, 2004, the Compensation and Management Development Committee in May 2004 awarded Mr. Nutter a merit increase of 5% (which he declined to accept) and a cash bonus of \$225,000. The Committee also increased Mr. Nutter's target bonus for the 2005 fiscal year to \$350,000, tying payment of the bonus primarily to pre-determined revenue, operating income and earnings per share objectives.

Item 2. RATIFICATION OF THE APPOINTMENT OF INDEPENDENT PUBLIC ACCOUNTANTS

The Board of Directors recommends that the stockholders ratify the selection of Ernst & Young LLP, ("E&Y") as independent public accountants to examine the consolidated financial statements of the Company and its subsidiaries for the fiscal year ending April 30, 2005. Representatives of E&Y are expected to be present at the annual meeting, will have the opportunity to make a statement if they desire to do so and are expected to be available to respond to appropriate questions.

18

INDEPENDENT PUBLIC ACCOUNTANTS

On June 18, 2002, the Board of Directors, on the recommendation of the Audit Committee, terminated the engagement of Arthur Andersen LLP ("Andersen") as the Company's independent public accountants and appointed the firm of E&Y as its independent public accountants to examine the financial statements of the Company and its subsidiaries for the fiscal year ending March 29, 2003.

Andersen's reports on the Company's consolidated financial statements for the year ended March 30, 2002 did not contain an adverse opinion or disclaimer of opinion, nor were they qualified or modified as to uncertainty, audit scope or application of accounting principles.

During the Company's fiscal year ended March 30, 2002 and through the date of termination of the engagement, there were no disagreements with Andersen on any matter of accounting principles or practices, financial statement disclosure, or auditing scope or procedure which, if not resolved to Andersen's satisfaction, would have caused Andersen to make reference to the subject matter of the

Edgar Filing: HAEMONETICS CORP - Form DEF 14A

disagreement in connection with Andersen's report on the Company's consolidated financial statements for such year; and there were no reportable events as listed in Item 304(a)(1)(v) of Regulation S-K promulgated by the Securities and Exchange Commission.

During the Company's fiscal year ended March 30, 2002 and through the date of engagement, the Company did not consult E&Y with respect to the application of accounting principles to a specified transaction, either completed or proposed, or the type of audit opinion that E&Y might render on the Company's consolidated financial statements.

AUDIT COMMITTEE REPORT(1)

The Audit Committee is comprised of three or more directors who meet the applicable independence and experience requirements of the New York Stock Exchange and the Securities and Exchange Commission as determined by the Board, and operates under a written charter adopted by the Board (attached as Exhibit A). The Board has determined that all audit committee members are financially literate under the current listing standards of the NYSE. The Board also determined that Lawrence Best qualifies as an "audit committee financial expert" as defined by the SEC rules adopted pursuant to the Sarbanes-Oxley Act of 2002.

The primary responsibility of the Committee are to oversee the integrity of the Company's financial statements; the Company's compliance with legal and regulatory requirements; the independent auditor's qualifications and independence; and the performance of the Company's internal audit function and independent auditors. While

- (1) The material in this report, including the audit committee charter, is not "soliciting material," is not deemed filed with the Commission and is not to be incorporated by reference in any filing of the Company under the Securities Act of 1933, as amended, or the Securities Exchange Act of 1934, as amended, whether made before or after the date hereof and irrespective of any general incorporation language in any such filing.

19

the Committee has the responsibilities and powers set forth in its Charter, it is not the duty of the Committee to plan or conduct audits or to determine that the Company's financial statements are complete and accurate and are in accordance with generally accepted accounting principles. Management is responsible for the preparation, presentation, and integrity of the Company's financial statements and for the appropriateness of the accounting principles and reporting policies that are used by the Company. The independent auditors are responsible for auditing the Company's financial statements and for reviewing the Company's unaudited interim financial statements. In so doing, it is the responsibility of the Committee to maintain free and open communication between the Committee, independent auditors, internal auditors and management of the Company. The Audit Committee is also directly responsible for the appointment and termination (subject to shareholder ratification) and the compensation of the independent auditors.

In this context, the Audit Committee reviewed and discussed the Company's audited financial statements for the fiscal year ended April 3, 2004 with management and with the Company's independent auditors. Management represented to the Committee that the Company's consolidated financial statements were prepared in accordance with generally accepted accounting principles. Discussions about the Company's audited financial statements included the auditor's judgments about the quality, not just the acceptability, of the

Edgar Filing: HAEMONETICS CORP - Form DEF 14A

accounting principles, the reasonableness of significant judgments and the clarity of disclosures in its financial statements. The Committee also discussed with the auditors other matters required by Statement on Auditing Standards, ("SAS") No. 61 "Communication with Audit Committees," as amended by SAS No. 90, "Audit Committee Communications."

The Company's auditors provided to the Committee written disclosures required by the Independence Standards Board Standard No. 1 "Independence Discussion with Audit Committees." The Committee discussed with the auditors their independence from both management and the Company, and considered the compatibility of non-audit services with the auditor's independence. The Audit Committee's policy is to pre-approve all audit and permissible non-audit services provided by the independent auditors. All audit and non-audit services performed by E&Y LLP during the year ended April 3, 2004 were pre-approved in accordance with this policy.

Fees paid to the Company's independent auditors for fiscal 2004 and 2003 were comprised of the following:

	FY 2004	FY 2003
Audit Fees	\$551,000	\$504,000
Audit-Related Fees	24,000	19,000
Tax Fees	403,000	229,000
All other Fees	--	15,000
Total	\$978,000	\$767,000

Based on the Committee's discussion with management and the auditors, and the Committee's review of the representations of management and the report of the auditors to the Committee, the Committee recommended to the Board that the audited financial statements be included in the Company's Annual Report on Form 10-K for the year ended April 3, 2004 filed with the Securities and Exchange Commission.
