Press Release

Eltek Reports 2018 Third Quarter Financial Results

- Revenues of \$8.5 million
- Gross profit of \$973,000
- Net loss of \$463,000

PETACH-TIKVA, Israel, December 20, 2018 - Eltek Ltd. (NASDAQ: ELTK), a global manufacturer and supplier of technologically advanced solutions in the field of printed circuit boards, announced today its financial results for the quarter ended September 30, 2018.

Mr. Eli Yaffe, Chief Executive Officer, commented: "The third quarter of 2018 was the first quarter in my role as the CEO of Eltek. During this quarter our revenues were \$8.5 million, up 10% from Q3-2017 and the net loss decreased to \$463,000 from a net loss of \$1.2 million in Q3-2017.

"As recently announced, we have established a new leadership team to implement our turnaround plan. We have begun a process of identifying the products that were underpriced and they are being addressed. In addition efficiency measures have been implemented in order to reduce our break-even-point. Though there may be an initial reduction in sales volume, this should improve our on-time delivery performance, increase customer satisfaction and build sales from there and return to profitability."

"I see significant potential for Eltek in the high-end PCB market with our skilled engineers and experienced management. I am optimistic that we will be able to capitalize on our strengths in returning the Company to profitability and to renew our position as a leading high-end PCB manufacturer," Mr. Yaffe concluded.
