Each director who is not an employee of the Company is reimbursed for expenses incurred in attending meetings of the Board of Directors or a committee thereof and receives an annual retainer (paid on a quarterly basis) of \$15,000, plus a fee of \$1,000 for each meeting of the Board attended and \$500 for each meeting of a committee attended except for the Audit Committee Chairman, who shall receive \$2,500 per committee meeting beginning January 1, 2003. Director options become fully vested six months after the grant date. The option purchase price of Director options will be the fair market value of the stock on its effective grant date. Each director option automatically includes a stock appreciation right. Executive Compensation

All of PetroCorp's principal officers with the exception of Messrs. Christopher and Dunham, are employees of Kaiser-Francis helping Kaiser-Francis fulfill its management obligations under a management agreement with PetroCorp. In this capacity, these officers of PetroCorp do not receive compensation from PetroCorp, but instead receive compensation from Kaiser-Francis. This compensation reflects efforts, not only on behalf of PetroCorp, but also for the other companies they may serve, including Kaiser-Francis. As of January 1, 2002, Gary R. Christopher and Richard L. Dunham became employees of PetroCorp.

Instead of paying rent, certain other overhead costs and compensation to its principal officers other than Messrs. Christopher and Dunham, PetroCorp pays Kaiser-Francis a management fee. For the year ended December 31, 2002, PetroCorp paid Kaiser-Francis \$1,965,000 in management fees under the management agreement. Of that \$1,965,000, \$494,000 (or 25%) is considered by PetroCorp to be reimbursement of officers' salaries and expenses. The remaining 75% of management fees are related to other non-employee related costs and expenses. The table below sets forth for the three fiscal years ended December 31, 2002, 2001 and 2000 all compensation paid to the chief executive officer and Executive Vice President by PetroCorp. All executive officers which might otherwise be named executive officers are employees of Kaiser-Francis and are compensated by Kaiser-Francis, which in turn has a management agreement with PetroCorp.

Each director option automatically includes a stock appreciation right. All options granted under the 2000 Plan are incentive stock options. Other Employee Benefits

Pursuant to an agreement with the Company, Mr. Sargent will receive \$50,000 per year for ten years following his retirement from the Company, which was effective at the end of 1997. Should his death occur prior to the receipt of all benefits under this agreement, Mr. Sargent's surviving spouse or estate, as applicable, will receive the remainder of such payments.

Employment agreements are in effect between the Company and Messrs. Christopher and Dunham. Mr. Christopher's agreement provides that Mr. Christopher will be employed by the Company in the position of President and Chief Executive Officer. Mr. Dunham's agreement provides that Mr. Dunham will be employed by the Company in the position of Executive Vice President and Manager of Operations and Engineering. Both agreements are for three years beginning January 1, 2002. The Company may only terminate the agreements for cause. The agreements automatically terminate in the event of a business combination transaction as defined in the agreement, the effective date of which is to be mutually agreed upon by the executive and the Company, but in no event later than the first day of the third full calendar

12

month following the month in which the business combination transaction is consummated. The agreements provide for an annual incentive bonus based primarily upon growth of the Company. Such bonus may not exceed fifty percent of the executive's annual salary. In the event of a business combination transaction, Messrs. Christopher and Dunham are entitled to severance payments, the amounts of which are determined, in part, by the value of the Company at the time of the business combination transaction, as well as the transaction value. The amount of the severance payment may not exceed five times the executive's annual salary. The employment agreements of Messrs. Christopher and Dunham were filed as exhibits to the Company's Annual Report on Form 10-K, filed March 26, 2002.

Compensation Committee Report on Executive Compensation

With the implementation of the Company's Management Agreement with Kaiser-Francis, as described below under "Certain Transactions," no executive officers, other than Gary Christopher and Richard Dunham, will receive direct compensation from the Company in future years except pursuant to the 2000 Stock Option Plan.

The 2000 Plan is administered by the Compensation Committee. Subject to the terms of the 2000 Plan, the Compensation Committee selects the employees to be granted awards, determine the terms and provisions of awards, construes the 2000 Plan, prescribes and rescinds rules and regulations relating to the 2000 Plan and make any other determinations necessary or advisable for the administration of the 2000 Plan. With respect to the 2002 fiscal year, the awards granted during the 2002 fiscal year were based on the evaluation by the Compensation Committee of the performance of the Company and the performance of the

14

individual officer. The responsibility of each executive officer for the various established corporate goals and the performance in meeting those goals were considered in awarding options.

All forms of compensation under the 2000 Plan relate to the Common Stock of the Company. The maximum aggregate number of shares of Common Stock with respect to which options, directors options and stock appreciation rights may be granted from time to time under the Plan is 600,000; provided, however, that no more than 225,000 shares will be subject to new grants in any one year. During fiscal year 2002, 154,000 options were granted under the 2000 Plan to employees and directors of PetroCorp. The 2000 Plan will terminate on the tenth anniversary of its approval by shareholders; however, no awards shall be made pursuant to the 2000 Plan after December 31, 2005. In determining the compensation for PetroCorp's two employees, Messrs. Christopher and Dunham, the Compensation Committee retained PricewaterhouseCoopers, LLP to provide industry compensation information as part of its basis for determining executive compensation.

Audit Committee Report

The role of the audit committee is to assist the board of directors in its oversight of the Company's financial reporting process, system of internal controls, audit processes and compliance with laws, regulations and Company policies. In this capacity, the Audit Committee operates under a Charter, which sets forth the duties and responsibilities of the Audit Committee. The Audit Committee reviewed the Charter at its meeting on March 6, 2003, and changed it to reflect the impact of various law and regulatory changes on corporate governance and audit committee responsibilities. The full text of the Charter is included in the Proxy as Appendix A.

Management of the Company is responsible for the preparation, presentation and integrity of the Company's financial statements, the Company's accounting and financial reporting principles and its system of internal controls. The independent accountants are responsible for auditing the Company's financial statements and expressing an opinion as to their conformity with generally accepted accounting principles. The Audit Committee's responsibility is to monitor and review these processes.

In the performance of its oversight function, the Audit Committee addressed the following specific matters:

We reviewed the quarterly Forms 10-Q and the year-end financial statements included in the Form 10-K for the year 2002 and discussed them with management and the independent accountants,

We discussed with management and the independent accountant the current and potential future impact to the Company of the Sarbanes-Oxley Act of 2002, along with related regulatory changes by the Securities and Exchange Commission and the American Stock Exchange,

We discussed with the independent accountants the matters required to be discussed by Statement on Auditing Standards No. 61,

15

We received the written disclosures from the independent accountants required by Independence Standards Board Standard No. 1,

We discussed with the independent accountants matters relevant to the planning and implementation of their audit of the Company's financial statements,

We reviewed the fees paid to the independent accountants, PricewaterhouseCoopers LLP ("PwC"). Aggregate fees for professional services rendered for the Company by PwC for the years ended December 31, 2001 and 2002 were:

	2001	2002
	----	----
Audit	\$184,794	\$166,990
Audit Related	41,725	43,350
Tax	112,544	80,452

Edgar Filing: PETROCORP INC - Form DEF 14A

All Other	39,004	0
	-----	-----
Total	378,067	290,792

The Audit fees for the years ended December 31, 2001 and 2002, respectively, were for professional services rendered for the audits of the consolidated financial statements of the Company, audit work performed related to SMC Ecuador, Inc., interim reviews of the financial statements of the Company for inclusion in Form 10-Q and assistance relating to the filing of registration statements.

The Audit Related fees for the years ended December 31, 2001 and 2002, respectively, were for assurance and related services related to audits of schedules in connection with JBH acquisition, Westland WOGP acquisition, Freeport-McMoran/Mobil acquisition, Westland WPC acquisition, and PCC Energy, Inc.

Tax fees for the years ended December 31, 2001 and 2002, respectively, were for services related to tax compliance, including the preparation of tax returns and claims for refund; and tax planning and tax advice, including assistance with tax audits and appeals, advice related to mergers and acquisitions, or requests for technical advice.

All Other fees for the year ended December 31, 2001 related to the executive compensation study.

The Company's Audit Committee has not yet adopted/enacted pre-approval policies and procedures for audit and non-audit services. Therefore, the proxy disclosure does not include pre-approval policies and procedures and related information. The Company is early-adopting components of the proxy fee disclosure requirements; the requirement does not become effective until periodic annual filings for the first fiscal year ending after December 15, 2003.

Based on these reviews and discussions, the Committee recommended to the Board of Directors that the financial statements be included in the Company's Annual Report on Form 10-K, for filing with the Securities and Exchange Commission.

Certain Transactions

In connection with the purchase by Kaiser-Francis of PetroCorp common stock from two significant shareholders during 1996, Kaiser-Francis succeeded to rights under a registration rights agreement previously entered into between PetroCorp and those shareholders, which agreement is substantially similar to another registration rights agreement previously entered into between PetroCorp and two subsidiaries of St. Paul.

As part of a restructuring plan, on August 3, 1999, PetroCorp's board entered into the Kaiser-Francis management agreement, under which Kaiser-Francis provides management, technical, and administrative support services for all of PetroCorp's operations in the United States and Canada. The shareholders of

Edgar Filing: PETROCORP INC - Form DEF 14A

PetroCorp approved the management agreement in October 1999 and it took effect on November 1, 1999. A new slate of corporate officers was approved at that time.

The management agreement provides that Kaiser-Francis will perform oil and gas operations and administrative support functions with respect to PetroCorp's properties in both the United States and Canada.

Oil and gas operations to be performed by Kaiser-Francis include, for example:

- . geological and geophysical functions, including prospect generation and evaluation;
- . identification and evaluation of potential property acquisitions and divestitures;
- . engineering;
- . lease operations;
- . marketing;
- . contract negotiation and administration;
- . regulatory compliance; and
- . land functions.

In addition, Kaiser-Francis performs administrative functions on behalf of PetroCorp, including, for example:

- . land functions;
- . accounting, tax and audit functions;
- . insurance;
- . investor relations; and
- . retaining third party consultants, such as attorneys and accountants, on behalf of PetroCorp.

17

Under the management agreement, Kaiser-Francis may not make material decisions without the approval of PetroCorp's Board of Directors. Material decisions include:

- . expenditures in excess of \$250,000;
- . sales of PetroCorp assets valued in excess of \$500,000;
- . long term production sales agreements;
- . placement of certain liens on the Company's assets; and
- . initiation or settlement of material litigation.

PetroCorp's principal officers, who are approved by PetroCorp's Board

Edgar Filing: PETROCORP INC - Form DEF 14A

of Directors, are responsible for executing all contracts and other instruments on behalf of the Company.

For properties not operated by PetroCorp, the services fee payable to Kaiser-Francis is, in most cases, equal to \$50.00 per month per well. As to properties operated by PetroCorp, Kaiser-Francis receives as its services fee the administrative and overhead fees charged under applicable operating agreements.

During the year ended December 31, 2001, Kaiser-Francis received an additional service fee of \$12,500. Effective January 1, 2002, Gary Christopher and Richard Dunham left Kaiser-Francis and became employees of PetroCorp. At that time, the monthly service fees paid to Kaiser-Francis were reduced by a net, monthly amount of \$8,333.

For services of a non-routine nature that are performed in-house by Kaiser-Francis, Kaiser-Francis shall receive compensation at a mutually agreed rate that is competitive with the generally available rate charged for such services. PetroCorp also reimburses Kaiser-Francis for certain direct out-of-pocket expenses identified in the management agreement that are incurred by Kaiser-Francis in performing its obligations thereunder. For the year ended December 31, 2002, Kaiser-Francis received \$1,965,000 from PetroCorp for management fees under the management agreement.

Section 16 Beneficial Ownership Reporting Compliance

Under Section 16(a) of the Securities Exchange Act of 1934, the Company's directors, executive officers, and ten percent shareholders are required to report to the Securities and Exchange Commission, by specific due dates, transactions and holdings in the Company's Common Stock. The Company believes that during the fiscal year ended December 31, 2002, all such filing requirements were satisfied in a timely manner.

INDEPENDENT PUBLIC ACCOUNTANTS

Representatives of PricewaterhouseCoopers are expected to be present at the Shareholders' Annual Meeting, with the opportunity to make a statement if they desire to do so, and will be available to respond to appropriate questions.

18

Appendix A PETROCORP INCORPORATED AUDIT COMMITTEE CHARTER

Purpose

The primary purpose of the Audit Committee (the "Committee") is to assist the Board of Directors (the "Board") in fulfilling its responsibilities to oversee management's conduct of the Company's financial reporting process. This includes the review of financial reports and other financial information provided by the Company to any governmental or regulatory body, the public or other users thereof, the Company's systems of internal accounting financial and disclosure controls, and the annual independent audit of the Company's financial statements. This specifically includes monitoring the responsibilities of Kaiser-Francis Oil Company (provided that the management contract is in place) with respect to its financial reporting responsibilities for the company. In so doing, the Audit Committee will endeavor to maintain free and open means of communication between the Directors, the independent auditors and the financial management of the Corporation.

In discharging its oversight role, the Committee is empowered to investigate any matter brought to its attention with full access to all books, records, facilities and personnel of the Company and the power to retain outside counsel, auditors or other experts for this purpose. The Board and the Committee are in place to represent the Company's shareholders; accordingly, the outside auditor

Edgar Filing: PETROCORP INC - Form DEF 14A

is ultimately accountable to the Board and the Committee.

The Committee shall review the adequacy of the Charter on an annual basis.

Membership

The Committee shall be comprised of not less than three members of the Board, and the Committee's composition will meet the independence and experience requirements of the Section 10A(M) (3) of the Securities Exchange Act of 1934 and also the requirements of the American Stock Exchange at all times the company has shares listed on that exchange.

Accordingly, all of the members will be directors:

1. Who have no relationship to the Company that may interfere with the exercise of their independence from management and the Company; and
2. Who are financially literate or who become financially literate within a reasonable period of time after appointment to the Committee. In addition, at least one member of the Committee will have accounting or related financial management expertise.

Key Responsibilities

The Committee's job is one of oversight and it recognizes that the Company's management is responsible for preparing the Company's financial statements and that the outside auditors are responsible for auditing those financial statements. Additionally, the Committee recognizes that financial management, as well as the outside auditors, have more time, knowledge and more detailed information on the Company than do Committee members; consequently, in carrying out its oversight responsibilities, the Committee is not providing any expert or special assurances as to the Company's financial statements or any professional certification as to the outside auditor's work.

A-1

The following functions shall be the common recurring activities of the Committee in carrying out its oversight function. These functions are set forth as a guide with the understanding that the Committee may diverge from this guide, as appropriate, given the circumstances.

- . The Committee shall review with the management and the outside auditors the audited financial statements to be included in the Company's Annual Report on Form 10-K and review and consider with the outside auditors the matters required to be discussed by Statement on Auditing Standards ("SAS") No. 61.
- . As a whole, or through the Committee chair, the Committee shall review with the outside auditors the Company's interim financial results to be included in the Company's quarterly reports to be filed with Securities and Exchange Commission and the matters required to be discussed by SAS No. 61; this review will occur prior to the Company's filing of the Form 10-Q.
- . The Committee shall review with the independent auditors management's financial and accounting personnel, the adequacy and effectiveness of the accounting, financial and disclosure controls of the Corporation, and elicit recommendations for the improvement of such control procedures in particular areas where new and more detailed controls or procedures are desirable. Particular emphasis shall be given the adequacy of such controls to expose payments,

Edgar Filing: PETROCORP INC - Form DEF 14A

transactions, or procedures that might be deemed illegal or otherwise improper or provide for the possibility of the disclosure of untrue or misleading information.

The Committee shall:

- Request from the outside auditors annually a formal written statement delineating all relationships between the auditor and the Company consistent with Independence Standards Board Standard Number 1;
- Discuss with the outsider auditors any such disclosed relationship and the impact on the outside auditor's independence;
- Recommend that the Board take appropriate action in response to the outside auditor's report to satisfy itself of the auditor's independence; and
- Establish procedures to receive and evaluate confidential and/or anonymous submissions by employees or contractors to the company regarding internal, disclosure and accounting controls or accounting and auditing matters.

The Committee, subject to any action that may be taken by the full Board, shall have the ultimate authority and responsibility to select, evaluate and, where appropriate, replace the outside auditor.
