**Telecomunicações de São Paulo S.A. - TELESP**

São Paulo - SP

1. We have conducted a special review of the Quarterly Information (ITR) of Telecomunicações de São Paulo S.A and its subsidiaries for the quarter ended September 30, 2005, which comprised the balance sheets, statements of income, the performance report and other relevant information, prepared under responsibility of the Company's management and in accordance with the accounting practices adopted in Brazil.
2. Our review was conducted in accordance with specific standards established by the Brazilian Institute of Independent Public Accountants - IBRACON, in conjunction with the Federal Accounting Council, mainly comprising: (a) inquiries of and discussions with the officials responsible for the Company's Accounting, Financial and Operational areas, as to the main criteria adopted in preparing the quarterly information; and (b) review of information and subsequent events that had or might have had relevant effects on the Company and its subsidiaries' financial position and operations.
3. Based on our special review, we are not aware of any relevant change that should be made to the above mentioned quarterly information, in order for it to be in conformity with the accounting practices adopted in Brazil and standards established by the Brazilian Securities Commission (Comissão de Valores Mobiliários - CVM), specifically applicable to the preparation of quarterly information.
4. The individual and consolidated balance sheets as of June 30, 2005 presented for comparative purposes, were reviewed by us and our unqualified special review report was issued on July 22, 2005. The individual and consolidated statements of income for the quarter and nine-month period ended September 30, 2004, also presented for comparative purposes, were reviewed by other independent auditors, who issued an unqualified special review report dated October 29, 2004.

a) Ownership control and operations

Telecomunicações de São Paulo S.A. - Telesp, hereinafter referred to as the Company or Telesp, is controlled by Telefónica S.A. that, as of September 30, 2005, holds directly and indirectly 84.71% of the common shares and 88.90% of the preferred shares of the Company.

The Company is registered with the Brazilian Securities Commission (CVM) as a publicly held company and its shares are traded on the São Paulo Stock Exchange (BOVESPA). The Company is also registered with the US Securities and Exchange Commission (SEC) and its American Depository Shares (ADSs - level II) are traded on the New York Stock Exchange (NYSE).

The Company's activities are regulated by Brazil's telecommunications regulator (ANATEL), in accordance with the terms of the concession granted by the Brazilian Government.

The Company is a concessionaire of the fixed switch telephone service (STFC) in Region 3, which comprises the State of São Paulo, in Sectors 31, 32 and 34 established in the General Concession Plan (PGO).

The STFC Concession Agreement in effect until December 31, 2005 may be renewed, upon the Concessionaire's request, on a chargeable basis, only once for another 20 years, provided the Concessionaire meets the requirements of the agreement. The new agreement can contain new requirements and establish new universalization and quality targets, based on the conditions in force at the time of the renewal.

As provided for in the agreement, at June 30, 2003, the Company declared to Anatel an interest in the renewal of the concession. As such, as from January 1, 2006, Telesp will be governed by a concession agreement, which was submitted in 2002 to a Public Inquiry, showing the Company's comments and pronouncements.

Pre-operating expenses refer to costs incurred in the pre-operating stage of long-distance services; amortization began in May 2002, over a period of 60 months.

The goodwill paid on the acquisition of Ceterp S.A. is presented in deferred charges due to that company's merger on November 30, 2000. This goodwill, based on the expectation of future profitability, is being amortized over 60 months.

## Edgar Filing: TELESP HOLDING CO - Form 6-K

The goodwill on acquisition of the IP network in December 2002 refers to the acquisition of the assets for the Switched IP and Speedy Link services of Telefônica Empresas S.A. The portion considered as goodwill and recorded in deferred charges corresponds to the customer portfolio of the business. According to an appraisal report, the economic grounds of the goodwill is the expected future profitability, for an amortization period of 120 months.

## Edgar Filing: TELESP HOLDING CO - Form 6-K

On September 3, 2004, the Company announced a Securities Distribution Program ( Program ) and, under the Program, the first issue of Telesp debentures ( Offering ).

The Program amounts to R\$3.0 billion for a period of two years from the filing with the CVM on October 15, 2004, and contemplates the issuance of simple nonconvertible debentures, unsecured or subordinated, and/or promissory notes.

The Offering consisted of the issue of 150,000 simple nonconvertible unsecured debentures, with a face value of R\$10, in the total amount of R\$1,500,000, of a single series, maturing on September 1, 2010 (six years). The debentures bear interest with quarterly payments, equivalent to 103.5% of the DI (interbank deposit) average daily rate calculated and published by the CETIP (Clearing House for the Custody and Financial Settlement of Securities).

<b>Total</b>	<b>3,217,596</b>	<b>11,931</b>	<b>3,229,527</b>

Based on the assessment of the Company's legal counsel and management, a reserve amounting to R\$588,280 was recorded as of September 30, 2005. The principal tax contingencies, assessed as remote, possible and probable risk, are as follows:

Claims by the National Institute of Social Security (INSS), amounting to R\$804,249, referring to:

- a) Legal proceedings for the collection of Workers' Compensation Insurance (SAT) and joint liability of the Company for payment of social security contributions allegedly not made by contractors, considered possible risk, in the amount of R\$281,120. Based on a partially unfavorable court decision, management decided to provide for R\$98,291 relating to the portion of the total amount for which the likelihood of loss is probable.
- b) Discussion regarding social security contribution on certain amounts paid for compensation of salary losses resulting from economic plans (Plano Verão and Plano Bresser), in the approximate amount of R\$130,139 for which an unfavorable outcome is considered possible. Based on higher court decisions and an unfavorable court decision in a similar case involving another company of the group, the Company's management decided to provide for R\$90,611 to cover potential losses, despite the legal counsel's classification of possible risk.
- c) Notification demanding social security contributions, SAT and amounts for third parties (National Institute for Agrarian Reform and Colonization (INCRA) and Brazilian Mini and Small Business Support Agency (SEBRAE)) on the payment of various salary amounts for the period from January 1999 to December 2000, in the amount of approximately R\$54,021,

- d) Notification demanding social security contributions for joint liability in 1993, in the amount of approximately R\$176,987, for which the risk is considered possible. This process is at the 2nd administrative level. No provision was made based on the risk classification of this matter.
- e) Legal proceedings imposing fines of R\$161,982 for payment of dividends when the Company had allegedly a debt to the INSS. No provision was made for the balance, for which the likelihood of loss is deemed possible. This process is at the 2nd administrative level. No provision was made based on the risk classification of this matter.

Claims by the Finance Secretary of the State of São Paulo, totaling R\$769,541, referring to:

- f) Tax assessments on October 31 and December 13, 2001, related to ICMS (state VAT) allegedly due on international long-distance calls, amounting to approximately R\$19,196 for November and December 1996 and amounting to R\$143,114 from January 1997 to March 1998, at the second administrative level, assessed as possible risk, and R\$175,177 for the period from April 1998 to December 1999, at the second administrative level, assessed as remote risk. No provision was recorded based on the risk classification of these matters.
- g) Tax assessment on February 29, 2000 demanding payment of the ICMS allegedly due on cell phone activation tariff in the period from January 1995 to December 1997, plus fines and interest, amounting to approximately R\$274,877, assessed as remote risk. The claim is at the 1st administrative level. No provision was recorded based on the risk classification of this matter.
- h) Tax assessment on July 2, 2001 demanding the difference in ICMS paid without late-payment fine, amounting to R\$5,651, assessed as possible risk. The claim is at the higher court. No provision was recorded based on the risk classification of this matter.
- i) Tax assessment notice related to the untimely used credits in the period from January to April 2002, in the amount of R\$29,336, for which the risk is considered possible. The claim is at the 2nd administrative level. No provision was recorded based on the risk classification of this matter.

- j) Tax assessment notice related to the use of ICMS credits on acquisition of consumption materials, in the amount of R\$10,685, for which the risk is considered possible. The claim is at the 2nd administrative level. No provision was recorded based on the risk classification of this matter.
- k) Tax assessment notice related to the non-reversal of ICMS credits in proportion to tax-exempt and non-taxed sales and services in the period from January 1999 to June 2000, and July 2000 to December 2003, in addition to an ICMS credit unduly taken in March 1999. The total amount involved is R\$99,422. The risk is considered possible by legal counsel. The claim is at the 2nd administrative level. No provision was recorded based on the risk classification of this matter.
- l) Notifications of around R\$7,867 regarding the former Ceterp's loss of the tax benefit established by State Decree No. 48237/03, due to underpayment for an error in the calculation of the debt, assessed as possible risk. The claim is at the 2nd administrative level. No provision was recorded based on the risk classification of this matter.
- m) Tax collection lawsuits demanding about R\$4,216 of ICMS differences for the period from May 1999 to June 2003. The Company is gathering the documents to prove that the amounts have been effectively paid. Guarantee is being provided and defense is being prepared for presentation in the lower court. The risk is assessed as possible. No provision was recorded based on the risk classification of this matter.

Litigation at the Federal and Municipal levels in the amount of R\$378,043:

- n) The Company filed a lawsuit challenging the increase of the COFINS and PIS (taxes on revenue) tax basis (COFINS until February 2004 tax basis and PIS until November 2002 tax basis), requiring the inclusion of financial and securitization income and exchange gains, instead of only operating revenues. Despite the injunction obtained suspending the change in the calculation method and the risk assessed as possible, the Company recognized a provision of R\$254,046, in case it receives an unfavorable judgment.

- o) FINSOCIAL, currently COFINS, was a tax on gross operating revenues, originally established at a rate of 0.5% and gradually and subsequently raised to 2.0%. Such rate increases were judicially challenged with success by several companies, which resulted in tax credits from overpayments. These credits were offset by CTBC (company merged into the Company in November 1999) against current amounts of COFINS due. Claiming that those offsets made by CTBC were improper, the Federal Government made an assessment in the amount of R\$16,050, considered as a possible loss. The claim is at the higher court. No provision was recorded based on the risk classification of this matter.
- p) Litigation contesting the levy of corporate income tax, social contribution tax, PASEP and COFINS on telecommunications services of Centrais Telefônicas de Ribeirão Preto S.A. - CETERP, merged in November 2000, based on paragraph 3 of Article 155 of the Federal Constitution, according to which, with the exception of ICMS (state VAT) and taxes on exports and imports, no other taxation applies to services. The Company assesses this case as probable loss and has recorded a reserve of R\$70,625. The claim is in the higher court.
- q) Lawsuit seeking a court decision declaring the nonexistence of a legal tax relationship between Telesp and the Federal Government, the defendant, that would require the Company to pay the Federal Economic Intervention Contribution (CIDE) on remittances to be made based on contracts with foreign residents, since the unconstitutionality of said tax is clear. The lawsuit also seeks offset against other taxes payable, in the amount of R\$2,190, monetarily restated, related to the CIDE payment made in March 2002. The Company made an escrow deposit of R\$2,178 related to the remittance made on October 18, 2002. Despite the risk considered to be possible, the Company recognized a reserve for the unpaid amounts, in the amount of R\$13,276. The claim is at the lower court.
- r) Tax collection claim demanding differences regarding income tax, based on DCTF's (Declaration of Federal Tax Credits and Debits) for the first half of 1999, amounting to approximately R\$5,002, assessed as possible risk. These claims are at the 1st administrative level and no provision was recorded based on the risk classification.

- s) At the municipal level, the Company has contingencies related to the IPTU (municipal real estate tax), ISS (municipal service tax), fine and interest in the amount of R\$794, which have all been accrued due to the existence of favorable and unfavorable decisions regarding this matter.
- t) The Municipal Government of São Paulo assessed the Company, alleging differences in the payment of the ISS (municipal service tax), a fine of 20% not paid in the amount of R\$18,250. No reserve has been recorded for this contingency, since the attorneys responsible for this case believe that the risk is possible. The claim is at the second administrative level.

There are other contingencies that have also been accrued, in the amount of R\$49,952, for which the risk is assessed by management as probable.

*19.3 Civil contingencies*

<b>Total</b>	<b>2,239,736</b>	<b>1,946</b>	<b>2,241,682</b>

These contingencies assessed as possible risk involve various matters: unacknowledged title to telephone line, indemnity for material and personal damages, and other, in the amount of approximately R\$110,700.

## Edgar Filing: TELESP HOLDING CO - Form 6-K

In addition, the Company is also involved in civil class actions related to the Community Telephone Plan (PCT), where the telephone expansion plan buyers who did not receive shares in return for their financial investments seek an indemnity, in the municipalities of Diadema, São Caetano do Sul, São Bernardo do Campo, Ribeirão Pires and Mauá, involving a total amount of approximately R\$393,989. The risks involved were assessed as possible by legal counsel. The claims are in the higher court.

Occurrence of tariff adjustments affecting recorded revenue

On June 30, 2005, through Acts No.51300 and 51301, ANATEL approved tariff adjustment percentages for fixed-switch telephone service (STFC), based on the criteria established in the local and domestic long-distance concession contracts, effective July 3, 2005, Average increases were as follows:

Local: 7.27%

Long distance: 2.94%

Network usage fee for local interconnection (TU-RL): (-13.32%)

Network usage fee for long distance interconnection (TU-RIU): 2.94%

On June 29, 2004, through Acts No. 45011 and 45012, ANATEL approved tariff adjustment percentages for fixed-switch telephone service (STFC), based on the criteria established in the local and domestic long-distance concession contracts, effective July 2, 2004, except for Region 32 (former CETERP), effective from July 3, 2004. On July 2, approved percentages were applied on tariff bases determined by injunction. Average adjustments were the following:

Local: 6.89%

Long-distance: 3.20%

Network usage fee for local interconnection (TU-RL): (-10.47%)

Network usage fee for long distance interconnection (TU-RIU): 3.20%

On June 26, 2003, through Acts No. 37166 and 37167, ANATEL approved tariff adjustments for fixed-switch telephone service (STFC), based on the criteria established in the local and domestic long-distance concession contracts, effective June 30, 2003 and for the former CETERP s

Region 33, July 3, 2003. The local basic plan had an average increase of 28.75%, including a productivity gain of 1%, while the net tariffs for the long-distance services basic plan had an average increase of 24.84%, including a productivity gain of 4%, as established in the concession contract. Net charges for other STFC services and products were increased by 30.05% on average. However, a preliminary court order annulled ANATEL's resolutions and stipulated the IPC-A (Extended Consumer Price Index), of approximately 17%, in lieu of the IGP-DI (General Price Index - Internal Availability) for the calculation set forth in clauses 11.1 and 11.2 of the public telephone service concession contracts.

**29. Income and Social Contribution Taxes (Continued)****Reconciliation of tax expenses and standard rates (Continued)**

(i) For purposes of calculation of the tax credit arising from the merger, the income tax and social contribution tax rates used were 25% and 8%, respectively, in accordance with the legislation in effect at the date of the merger. As per changes introduced by Law No. 10637/02, beginning 2003, social contribution tax rate is 9%. The amortization of goodwill, net of reversal of accrual and the corresponding tax credit in the first quarter of 2004 increased the net income for the period, and consequently, generated a gain on mandatory minimum dividends.

The components of deferred tax assets and liabilities on temporary differences are shown in Notes 6 and 15, respectively.

**31. Post Retirement Benefit Plans**

Telesp, together with other companies of the former Telebrás System, sponsors private pension benefit plans and health care plans for retirees, managed by Fundação Sistel de Seguridade Social ( Sistel ). Until December 1999, the plans managed by Sistel were multiemployer benefit plans. On December 28, 1999, the sponsors of the plans managed by Sistel negotiated the conditions for the creation of plans separated by sponsor (PBS Telesp Plan) and the continuation of participation in the multiemployer plans only for participants who were already retired on January 31, 2000 (PBS-A), resulting in a proposal for restructuring the statutes and regulations of Sistel, which was approved by the Secretariat for Pension Plans on January 13, 2000.

In December 2004, the entity Visão Prev Sociedade de Previdência Complementar was formed to manage the Visão and PBS Telesp plans, which were transferred from Sistel to new entity. The process of transfer was approved by the Secretariat for Pension Plans (currently Previc) through Official Letter No. 123, of October 7, 2004. The transfer of assets and liabilities of the plans was made on February 18, 2005.

The transfer of plans did not result in any charge to the plan participants, because the wording of the regulations and all rights of the participants were maintained. Sistel will continue to manage the PBS-A and PAMA plans, and Telesp will continue to sponsor these plans jointly with other Sistel s sponsors.

Telesp individually sponsors a defined retirement benefit plan (PBS Telesp Plan), which covers approximately 1% of the Company s employees. In addition to the supplemental pension benefit, health care (PAMA) is provided to retired employees and their dependents, at shared costs. Contributions to the PBS Telesp Plan are determined based on actuarial valuations prepared by independent actuaries, in accordance with the rules in force in Brazil. The funding method is the capitalization method and the sponsor s contribution is 6.83% of payroll of employees covered by the plan, of which 5.33% is allocated to fund the PBS Telesp Plan and 1.5% to the PAMA Plan. In addition of this actuarially calculated contribution, the sponsor is making a contribution in Brazilian reais to amortize the past service cost, adjusted monthly based on accumulated INPC (national consumer price index), which amounted to R\$ 251 until September 2005 (R\$ 126 until June 2005).

For the other Telesp employees, there is an individual defined contribution plan - Visão Telesp Benefit Plan, established by Sistel in August 2000. The Visão Telesp Plan is funded by contributions made by the participants (employees) and by the sponsor which are credited to participants individual accounts. Telesp is responsible for

bearing all plan administrative and maintenance expenses, including participant's death and disability risks. The employees participating in the defined benefit plan (PBS Telesp Plan) were granted the option of migrating to the Visão Telesp Plan. The new Plan was also offered to the other employees who did not participate in the PBS Telesp Plan, as well as to new hires. The Company's contributions to the Visão Telesp Plan are equal to those of the employees, varying from 2% to 9% of the contribution salary, based on the percentage chosen by the participant.

Additionally, the Company supplements the retirement benefits of certain employees of the former CTB - Companhia Telefônica Brasileira.

In the period from January to September 2005, the Company made contributions to the PBS Telesp Plan in the amount of R\$ 331 (R\$ 200 in the same period in 2004) and to the Visão Telesp Plan in the amount of R\$16,097 (R\$ 14,111 in the same period in 2004).

Assist individually sponsors a defined contribution plan similar to that of Telesp, the Visão Assist Benefit Plan, which covers about 46% of its employees, Assist's contributions to that plan totaled R\$ 215 (R\$ 150 in the same period in 2004).

The actuarial valuation of the plans was made in December 2004 based on the employees' data as of September 2004 and the projected unit credit method was adopted. Actuarial gains or losses for each year were immediately recognized. The plans' assets relate to November 30, 2004. For multiemployer plans (PAMA and PSB-A), the apportionment of the plan assets was made based on the sponsoring entity's actuarial liabilities in relation to the plans' total actuarial liabilities.

The status of the plans as of September 30 and June 30, 2005, whose liabilities are recorded in the caption "Other" (Note 20), is as follows:

information, as well as the selection of methodologies, requires considerable judgment and reasonable estimates in order to produce adequate realizable values. As a result, the estimates presented do not necessarily indicate the amounts which might be realized in the current market. The use of different market approaches and/or methodologies for the estimates may have a significant effect on the estimated realizable values.

The Company has a direct interest of 0.69% and, through the subsidiary Aliança Atlântica, an indirect interest of 0.23% in Portugal Telecom (same percentage as of March 31, 2005), carried at cost. The investment, at market value, is based on the last quotation of September 2005 on the Lisbon Stock Exchange for Portugal Telecom, equivalent to 7.60 euros (7.84 euros in June 2005):

		Consolidated			
		September 2005		June 2005

		<b>127,746</b>	<b>216,435</b>	<b>131,161</b>	<b>237,819</b>

The principal market risk factors that affect the Company's business are detailed below:

a) Exchange rate risk

This risk arises from the possibility that the Company may incur losses due to exchange rate fluctuations, which would increase the balances of loans and financing denominated in foreign currency and the related financial expenses. To reduce this risk, the Company enters into hedge contracts (swaps) with financial institutions.

**Table of Contents****TELECOMUNICAÇÕES DE SÃO PAULO S.A. - TELESP**

## NOTES TO THE QUARTERLY INFORMATION (Continued)

September 30, 2005

(In thousands of reais, unless otherwise stated)

**33. Financial Instruments (Continued)**a) Exchange rate risk (Continued)

The Company's indebtedness and the results of operations are significantly affected by the foreign exchange rate risk. As of September 30, 2005, 45.16% (40.46% on June 30, 2005) of the debt was denominated in foreign currency (U.S. dollar, Canadian dollar and yen); 99.73% (99.76% on June 30, 2005) of this debt was covered by asset positions on currency hedge transactions (swaps for CDI). Gains or losses on these operations are recorded in income. As of September 30, 2005, these transactions generated a net loss of R\$ 388,902 (consolidated). As of September 30, 2005, the Company has recorded a liability of R\$ 421,788 to reflect the unrealized temporary loss.

The carrying value and fair value of the Company's net excess (exposure) to the exchange rate risk as of September 30, 2005 and June 30, 2005 are as follows:

	Consolidated			
	Sep/2005		Jun/2005	
	Carrying value	Fair value	Carrying value	Fair value
<b>Liabilities</b>				
Loans and financing	1,255,764	1,259,756	1,037,777	1,042,657
Purchase commitments	65,428	65,428	53,775	53,775
Asset position on swaps	1,312,010	1,322,873	1,088,898	1,101,752
<b>Net excess (exposure) (a)</b>	<b>(9,182)</b>	<b>(2,311)</b>	(2,654)	5,320

The valuation method used to calculate the fair value of loans, financing and hedge instruments (foreign exchange swaps) was the discounted cash flow method, considering expected settlement or realization of liabilities and assets, at market rates prevailing on the balance sheet date.

b) Interest rate risk

This risk arises from the possibility that the Company may incur losses due to internal and external interest rate fluctuations affecting the Company's results.

b) Interest rate risk (Continued)

As of September 30, 2005, the Company had R\$ 1,255,764 (R\$ 1,037,777 as of June 30, 2005) of loans and financing in foreign currency, of which R\$ 849,446 (R\$ 544,639 as of June 30, 2005) was at fixed interest rates and R\$406,318 (R\$ 493,138 as of June 30, 2005) was at variable interest rates (Libor). To hedge against the exchange risk on these foreign currency debts, the Company has hedge transactions in order to peg these debts to local currency, at floating rates indexed to the CDI (inter bank deposit rate), in a way that the Company's financial result is affected by the CDI. The balance of loans and financing also includes debentures issued in 2004 with interest based on the variation of the CDI of R\$1,522,173 (R\$ 1,523,477 on June 30, 2005), as described in Note 14. Loans in local currency, in the amount of R\$ 3,070 (R\$ 3,823 at June 30, 2005) are remunerated based on the CDI rate variation and long-term interest rate (TJLP). On the other hand, the Company invests its excess cash (temporary cash investments) of R\$ 1,738,960 (R\$ 541,152 as of June 30, 2005) mainly in short-term instruments, based on the CDI variation, which also reduces this risk. The carrying values of these instruments approximate fair values, since they may be redeemed in the short term.

The Company has a hedge against external variable interest rate risks on the financing obtained from JBIC - Japan Bank for International Cooperation. The Company continues monitoring market rates in order to evaluate the need to contract other derivatives to hedge against the volatility risk of external variable rates on the remaining balance.

Another risk to which the Company is exposed is the non-matching of the monetary restatement indices for its debt and for accounts receivable. Telephone tariff adjustments do not necessarily match increases in local interest rates which affect the Company's debt.

c) Debt acceleration risk

As of September 30, 2005, the Company's loan and financing agreements contain restrictive covenants, typically applicable to such agreements, relating to cash generation, indebtedness ratios and other. These restrictive covenants have been complied with by the Company and did not restrict the Company's capacity to conduct its regular business.

**33. Financial Instruments** (Continued)

d) Credit risk

This risk arises from the possibility that the Company may incur losses due to the difficulty of receiving amounts billed to its customers. The credit risk on accounts receivable is dispersed. The Company constantly monitors the level of accounts receivable and limits the risk of past-due accounts, interrupting access to telephone lines in case the customer bill has been overdue for more than 30 days. Exceptions are made for telecommunication services that must be maintained for security or national defense reasons.

As of September 30, 2005, the Company's customer portfolio had no subscribers whose receivables were individually higher than 1% of the total trade accounts receivable.

The Company is also subject to credit risk related to temporary cash investments and receivables from swap transactions. The Company reduces this exposure by dispersing it among creditworthy financial institutions.

1. The net operating revenue for the nine-month period ended September 30, 2005 amounted R\$10,639.8. When compared to the revenue of R\$ 9,862.1 registered in the same period of the prior year, there was an increase of R\$777.7, or 7.9%, due to the tariff readjustment in 2004 and 2005, to the launch of the *linha econômica* (economy line) campaign, the growth of the SPEEDY service, the long-distance service, the revenues from the facilities of the *linha inteligente* (intelligent line) (i.e. Detecta) and the revenues from the management of telecommunication services in commercial buildings, rendered by the Company's subsidiaries Assist Telefônica and Atrium Telecom.
2. The cost of services rendered grew R\$200.3 or 3.6%, mainly due to the increase in costs of outsourcing, in light of the increase in operating services for productive plant, Internet IP network traffic, administrative technical services and interconnection charges basically due to the increase in the fixed-to-mobile network usage, transportation and fixed-to-fixed network usage. Additionally, there was an increase in the payroll expenses due to the salary readjustment of 6% in September 2004 and the Career Plan that benefited an average of 3,000 employees in the first quarter of 2005, and the increase in post and infrastructure rent.
3. There was an increase in negative financial result by R\$344.1 million and, excluding interest on shareholders' equity, the variation amounted to R\$39.9 million, mainly due to debentures issue in October 2004. The indebtedness and the results from operations are substantially exposed to the exchange rate variation risk.

**7.2 Domestic and International Long-distance Licenses**

ANATEL recognized that the Company had achieved the universalization targets two years in advance, which allowed the Company to receive the licenses to provide STFC services for local, domestic and international long-distance throughout Brazil, thus expanding its bounds. Subsequently, ANATEL announced that the Company was authorized to provide STFC services throughout Brazil, for local and domestic long-distance in Regions I, II and Sector 33 of the Region III and international long-distance in all three regions. A legal injunction was granted by Embratel suspending the domestic long-distance calls originated in its concession areas to Regions I (Telemar) and II (Brasil Telecom); however, this legal injunction was later declared not valid by ANATEL, allowing the Company to provide services throughout Brazil.

In May 2003, the Company started to offer local call services in more than six states, in addition to São Paulo, its original concession area. Afterwards, the Company's operations expanded to the cities of Duque de Caxias, Nova Iguaçu and São Gonçalo (in the state of Rio de Janeiro), Aracajú (Sergipe), Vitória (Espírito Santo), Porto Alegre (Rio Grande do Sul), Curitiba (Paraná) and Florianópolis (Santa Catarina).

The operation in these cities starts of the progressive achievement of the targets established by ANATEL, as a result of the concession that was granted to provide local services in regions outside the State of São Paulo, representing an advance in the accomplishment of universalization targets based on which the Company has become the first concessionaire to offer local telephony services outside its original concession area.

On July 6, 2003, the wireless operators implemented the carrier selection code - CSC on domestic (VP2 and VP3) and international long-distance calls, under the SMP rules. The Company began to account the revenues from these services, and pay wireless operators for usage of their networks.

**8. iTelefônica**

The Company, by means of its subsidiary Assist Telefônica, started to provide Internet access services in the State of São Paulo (the list of cities is available on the website [www.itelefonica.com.br](http://www.itelefonica.com.br)).

After several tests in the São Paulo State interior cities since September 29, 2002, Telefônica officially launched iTelefonica Internet provider in all the São Paulo State on July 13, 2003.

**9. Alternative fixed telephony plans**

On March 21, 2005, Telesp announced the Linha Economia Família (Family Economy Line). This line offers an additional functionality in relation to prior economy lines, i.e. it allows each family member to use his own prepaid card, with exclusive control. Since launching, more than 830 thousand terminals have been enabled in the São Paulo State.

MANAGEMENT COMMENTS ON CONSOLIDATED PERFORMANCE

**(In millions of reais, unless otherwise stated)**

This product was devised for lower-income classes and allows better control over telephone expenses because long-distance calls or to cellular telephones are made through a prepaid card.

On May 12, 2005, Telefonica announced the Plano Internet Ilimitada (Unlimited Internet Access Plan). In this plan the customer pays a monthly fee of R\$ 29.90 (promotional fee to residential subscribers) and gets dial access to the web for unlimited time, any day and any time of the week. In this plan the user surf the web as long as he wants and achieve a simple and efficient way for expenditure control. Among other results, the average monthly connection time has increased 3,5 times. Since launching, more than 58 thousand customers have subscribed to this plan.

The alternative fixed telephony plans yield the installed capacity of Telesp and attend segments that did not have economic options to telephony access. It reflects the commitment of Telesp to the universalization of telecommunication services in the State of São Paulo, higher than the regulatory targets, and to the socialization of the communication and information access.
