RELIABILITY INCORPORATED

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

March 31, 2007

**1. NATURE OF OPERATIONS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

***Liquidity***

The Company has sustained significant negative financial results, including substantial decreases in revenues, net income, and cash flows from operating activities. The deterioration in the Company's financial condition and liquidity are generally attributable to operating losses sustained in each of the last six years.

Due to the deterioration in its financial position, the Company has undertaken significant restructuring to reduce the Company's expenses and improve the Company's liquidity. As a result of these actions, the Company repaid all its debt and produced sufficient cash to continue operations. However, the Company does not believe its remaining operation will return to profitability or generate positive cash flow in the foreseeable future. Based upon its current financial position, the Company has concluded that it should pursue one, or some combination, of the following courses of action: sell its remaining real estate holdings; sell its remaining business unit; invest in another line of business through a purchase or merger; make distributions to its shareholders of the proceeds of asset or business line sales, possibly through a corporate liquidation.

On April 1, 2007, the Company consummated the merger of its wholly owned subsidiary, Reliability-Medallion, Inc., a Florida corporation, into Medallion Electric Acquisition Corporation, a Florida corporation (MEAC), and the indirect acquisition, through MEAC, of Medallion Electric, Inc., a Florida corporation (Medallion Electric). All of the funds used for the initial payment to Medallion Electric were paid out of the Company's cash on hand. Additional payments will come from the Company's working capital, funds generated by the private placements, and funds generated by Medallion Electric's operations. However, there can be no assurances that the Company will be able to successfully raise enough funds or maintain sufficient liquidity over a period of time that will allow it to continue to service the acquisition commitments as disclosed in the Company's Form 10-KSB for the year ended December 31, 2006 and Form 8-K filed on April 6, 2007.

The accompanying financial statements for the three month period ended March 31, 2007, have been prepared assuming the Company will continue as a going concern. During 2007, management intends to seek additional debt and/or equity financing to fund future operations and to provide additional working capital. However, there is no assurance that such financing will be consummated or obtained in sufficient amounts necessary to meet the Company's needs.

The accompanying financial statements do not include any adjustments to reflect the possible future effects on the recoverability and classification of assets or the amounts and classifications of liabilities that may result from the possible inability of the Company to continue as a going concern.

***Basis of presentation***

The accompanying unaudited consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States for interim financial information and with instructions to Form 10-QSB and Item 10 of Regulation S-B. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States for complete financial statements. In the opinion of management, all adjustments considered necessary for a fair presentation have been included. Operating results for the interim period ended March 31, 2007 are not necessarily indicative of the results that may be expected for the year ending December 31, 2007.

The consolidated financial statements include the financial transactions and accounts of the Company and its wholly-owned subsidiary. All significant intercompany balances and transactions have been eliminated in consolidation. For further information, refer to the financial statements and footnotes thereto included in the Company's annual report on Form 10-KSB for the year ended December 31, 2006.

Certain expenses on the consolidated statement of operations for the three months ended March 31, 2006, related primarily to discontinued operations, have been reclassified to be consistent with the classifications adapted for the three months ended March 31, 2007. These reclassifications had no effect on net income.

**Table of Contents**

RELIABILITY INCORPORATED

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

March 31, 2007

***Accounting Estimates***

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires that management make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results may differ from those estimates.

***Stock Options***

January 1, 2006, the Company adopted the fair value recognition provisions of Statement of Financial Accounting Standards 123(R), *Share-Based Payment* ( SFAS 123(R) ). SFAS 123(R) requires that the compensation cost relating to stock-based payments, including grants of employee stock options, be recognized in financial statements. That cost is measured based on the fair value of the equity instruments issued. SFAS 123(R) allows two methods for determining the effects of the transition: the modified-prospective transition method and the modified-retrospective method of transition. The Company adopted the modified-prospective method. Under this transition method, the Company recognizes the fair value of stock-based compensation awards as compensation expense in its statement of operations on a straight line basis, over the vesting period, for awards granted after January 1, 2006 and for unvested awards outstanding as of December 31, 2005.

***Cash Equivalents***

For the purposes of the statements of cash flows, the Company considers all highly liquid cash investments that mature in three months or less when purchased, to be cash equivalents. Cash equivalents are stated at cost, which approximates fair value.

***Accounts Receivable***

Trade accounts receivable are recorded at the invoiced amount and do not bear interest. The Company does not require collateral for trade receivables, although the company will obtain a letter of credit on sales to certain foreign customers.

***Revenue Recognition***

Revenue is recognized when all four revenue recognition criteria have been met: persuasive evidence of an agreement exists; delivery has occurred or services have been rendered; seller's price to buyer is fixed or determinable; and collectibles are reasonably assured.

The Company generally has post-shipment obligations for installation and training and defers a portion of the sale price for the estimated fair value of these services, which are typically performed within a week of delivery of the product. A provision for the estimated cost of warranty is recorded when revenue is recognized. Revenues from the sale of spare parts are recorded at the time of shipment.

***Inventories***

Inventories are stated at the lower of standard cost (which approximates first-in, first-out) or market (replacement cost or net realizable value). The Company held no inventories at March 31, 2007.

***Property, Plant and Equipment***

Property, plant and equipment are stated at cost less accumulated depreciation. Depreciation is provided in amounts sufficient to relate the cost of depreciable assets to operations over their estimated service lives. For financial statement purposes, depreciation is computed principally on the straight-line method using lives of six years for leasehold improvements and the double-declining balance and straight-line methods using lives from two to eight years for machinery and equipment.

**Table of Contents**

## RELIABILITY INCORPORATED

## NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

March 31, 2007

**Income Taxes**

Deferred income taxes are provided under the liability method and reflect the net tax effects of temporary differences between the tax basis of assets and liabilities and their reported amounts in the consolidated financial statements. The Company establishes valuation allowances when the realization of specific deferred tax assets are subject to significant uncertainty. The Company recorded no tax benefits on its operating losses, as the losses will have to be carried forward and realization of any benefit is uncertain.

**2. COMPREHENSIVE LOSS**

The only difference between the total comprehensive loss and the net loss reported on the Consolidated Statements of Operations arises from unrealized gains and losses on marketable equity securities. The Company's total comprehensive loss (in thousands) for the periods indicated, are as follows:

	<b>Three Months Ended March 31,</b>	
	<b>2007</b>	<b>2006</b>
Net (loss)	\$ (274)	\$ (420)
Less reclassification adjustment for gains included in net income		(59)
<b>Total comprehensive (loss)</b>	<b>\$ (274)</b>	<b>\$ (479)</b>

**3. ACCRUED LIABILITIES**

Accrued liabilities as of March 31, 2007 consists of the following (in thousands):

	<b>March 31,</b>
	<b>2007</b>
Property taxes	\$ 20
Professional fees	146
Payroll related	122
Other	3
	<b>\$ 291</b>

**4. ASSETS HELD FOR SALE**

Assets held for sale consists of the following (in thousands):

Land and building - North Carolina	\$ 1,000
------------------------------------	----------

The Company shut down a Services facility in North Carolina in April 1998. The land and a building previously occupied by the Services operation are presented as assets held for sale in the accompanying consolidated balance sheet. The property has been actively marketed since

## Edgar Filing: RELIABILITY INC - Form 10QSB

1998 at an asking price that is estimated to be a price that would be paid by an end user, although no assurances can be given that they will be sold during 2007.

**5. SUBSEQUENT EVENTS AND DEFERRED ACQUISITION COSTS**

On April 1, 2007, the Company consummated the merger of its wholly owned subsidiary, Reliability-Medallion, Inc., a Florida corporation, into Medallion Electric Acquisition Corporation, a Florida corporation ( MEAC ), and the indirect acquisition, through MEAC, of Medallion Electric, Inc., a Florida corporation ( Medallion Electric ). Medallion Electric is an electrical contracting company for homebuilders in Florida, with its major assets consisting of contracts for services to be performed and accounts receivable.

MEAC is a privately held company owned by eight shareholders unrelated to the Company. Medallion Electric is owned by one shareholder unrelated to the Company or MEAC or any of MEAC s shareholders.

The Company issued 2,850,000 shares of its common stock to the shareholders of MEAC as consideration for the Merger. Under the Agreement of Merger and Plan of Reorganization, the Company is required to raise capital in one or more private placements of common stock to select accredited investors. If at least \$2,000,000 is not raised in such private placements by June 15, 2007, the 2,850,000 shares issued in connection with the Merger, as well as the 150,000 shares of the Company s common stock issued and paid in connection with MEAC s acquisition of Medallion Electric, described below, will be forfeited, but the Company will continue to own MEAC and Medallion Electric.

The Company funded \$750,000 to MEAC after the Merger. \$100,000 of such funds were to be made available to Medallion Electric as working capital; up to \$150,000 were to be used by MEAC to pay its expenses of the transaction. MEAC used the remaining \$500,000 to make the initial payment to the shareholder of Medallion Electric for his stock of Medallion Electric and delivered two notes for the remainder of the purchase price one for \$500,000 due in six months and one for \$1,500,000 due in six months. The Company secured the \$500,000 note with the pledge of its real property in North Carolina; the \$1,500,000 note is secured with the assets of Medallion Electric. In addition, the Company issued to the sole stockholder of Medallion Electric 150,000 shares of the Company s common stock; the stockholder directed that 30,000 of those shares be paid to his business broker. Finally, the selling stockholder of Medallion Electric is entitled to an earnout payment, the amount of which payment will depend on the gross profits of Medallion Electric for the next three years, with a minimum payment of \$250,000 for each of such years and an additional amount if gross profits for any such year exceed gross profits for the 12 month period ending October 2006.

All of the funds used for the initial payment to Medallion Electric were paid out of the Company s cash on hand. Additional payments will come from the Company s working capital, funds generated by the private placements, and funds generated by Medallion Electric s operations. However, there can be no assurances that the Company will be able to successfully raise enough funds or maintain sufficient liquidity over a period of time that will allow it to continue to service the acquisition commitments.

Effective April 1, 2007, the Company s Board of Directors ( Board ) amended the Company s bylaws to increase the size of the Board from four members to six members. Pursuant to the Agreement of Merger and Plan of Reorganization effecting the Merger, two new directors were appointed to the Board Alex Katz and David Kurland. Messrs. Katz and Kurland have agreed that if the Company is unable to raise additional capital of at least \$2,000,000 by June 15, 2007, each such person will resign from the Board. The Company has agreed that if Company is able to raise additional capital of at least \$2,000,000 by June 15, 2007, two of the Company s existing directors will resign from the Board and two new directors will be elected.

Mr. Katz s wife was a shareholder of MEAC and thus, as a result of the Merger, received 591,435 shares of the Company s common stock. In addition, the Company will pay Mr. Katz up to \$400,000 for fees and expenses incurred by Mr. Katz in connection with the transactions described above, but only if at least \$2,000,000 is raised in private placements of the Company s common stock to select accredited investors by June 15, 2007.

See also the Company s 8-K filing on April 6, 2007, further describing these events.

At March 31, 2007, the Company s expenses directly related to the merger and acquisition were approximately \$121,000 for professional fees.

**Table of Contents**

## RELIABILITY INCORPORATED

## NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

March 31, 2007

**6. STOCK OPTION PLAN**

Under the Company's Amended and Restated 1997 Stock Option Plan (Option Plan), stock option grants are available for officers, directors, and key employees. The objectives of the Option Plan are to promote the interest of the Company by providing an ownership incentive to officers, directors, and key employees, to reward outstanding performance, and to encourage continued employment. The Board of Directors, which acts as the Plan Administrator, determines to whom options are granted, the type of options, the number of shares covered by such options and the option vesting schedule. The Option Plan provides for the grant of stock options to purchase an aggregate of up to 1,500,000 shares of the Company's Common Stock. All options are issued at market value on the date of the grant and generally have a ten-year contractual term with graded vesting.

January 1, 2006, the Company adopted the fair value recognition provisions of Statement of Financial Accounting Standards 123(R), *Share-Based Payment* (SFAS 123(R)). SFAS 123(R) requires that the compensation cost relating to stock-based payments, including grants of employee stock options, be recognized in financial statements. The Company recognizes the fair value of stock-based compensation awards as compensation expense in its statement of operations on a straight line basis, over the vesting period, for awards granted after January 1, 2006 and for unvested awards outstanding as of December 31, 2005.

The fair value of each option is estimated on the date of grant using a Black-Scholes option-pricing model. Expected volatilities are based on a number of factors, including historical volatility of the Company's stock. The Company uses the shortcut method described in SAB Topic 14D.2 for determining the expected life used in the valuation model. The risk-free rate for periods within the contractual life of the option is based on the U.S. Treasury yield curve in effect at the time of the grant. As the Company has not declared dividends since it became a public entity, no dividend yield is used in the calculation. No options were granted during the three months ended March 31, 2007.

At March 31, 2007, there were no unvested option grants, thus no further stock option expense will be recorded until such time that additional grants are made. The weighted-average remaining contractual term, as of March 31, 2007, was 9.6 years for outstanding and exercisable options. The following table summarizes option activity for the three months ended March 31, 2007:

	Number of	Weighted Average
	Options	Price
Balance as of December 31, 2006	951,851	\$ 1.67
Expired or canceled	(581,851)	2.60
Exercised		
Granted		
Balance as of March 31, 2007	370,000	\$ .21

In addition to the options outstanding under The Company's Stock Option Plan, 100,000 options issued in connections with a business combination were outstanding and exercisable at December 31, 2006. These options are exercisable at \$1.50 per share and expire in July 2009.

**7. DISCONTINUED OPERATIONS**

On March 14, 2006, the Company sold its Power Sources Division to Reliability Power, Inc., an unaffiliated third party. Proceeds from the sale were \$300,000. A gain of \$108,000 was realized and is included in income from discontinued operations.

On April 18, 2006, the Company announced plans to close down its Services division located in Singapore. During the wind down of operations, the division has maintained a small number of employees to complete unfinished jobs, provide limited services for its customers while they seek alternative service providers, prepare equipment for sale and vacate the division's leased facility. The liquidation of the Company's former Services division is substantially complete as of March 31, 2007. The complete dissolution of this division is expected to be complete during the first half of 2007.

Results of operations for the Company's former Power Sources, and Services divisions are reported as discontinued operations in the accompanying Statement of Operations for each period presented. Net sales and the loss from discontinued operations are as follows (in thousands):

	<b>Three Months Ended March 31,</b>	
	<b>2007</b>	<b>2006</b>
<b>Revenues:</b>		
Power Sources		131

RELIABILITY INCORPORATED

MANAGEMENT'S DISCUSSION AND ANALYSIS

March 31, 2007

***Item 2. Management's Discussion and Analysis or Plan of Operations***

**FORWARD-LOOKING STATEMENTS**

This Management's Discussion and Analysis and other parts of this report contain forward-looking statements that involve risks and uncertainties, as well as current expectations and assumptions. From time to time, the Company may publish forward-looking statements, including those that are contained in this report, relating to such matters as anticipated financial performance, business prospects, technological developments, new products, research and development activities and similar matters. The Private Securities Litigation Reform Act of 1995 provides a safe harbor for forward-looking statements. In order to comply with the terms of the safe harbor, the Company notes that a variety of factors could cause the Company's actual results and experience to differ materially from the anticipated results or other expectations expressed in the Company's forward-looking statements. The risks and uncertainties that may affect the operations, performance, development and results of the Company's business include, but are not limited to, its ability maintain sufficient working capital, adverse changes in the economy, the ability to attract and maintain key personnel, the ability to sell its remaining real estate holdings or business line, its ability to identify and complete mergers or acquisitions, and future results related to acquisitions, mergers or investment activities. The Company's actual results could differ materially from those anticipated in these forward-looking statements, including those set forth elsewhere in this report. The Company assumes no obligation to update any such forward-looking statements.

**CRITICAL ACCOUNTING POLICIES AND COMMENTS RELATED TO OPERATIONS**

The Company has defined a critical accounting policy as one that is both important to the portrayal of the Company's financial condition and results of operations and requires the management of the Company to make difficult, subjective or complex judgments. Estimates and assumptions about future events and their effects cannot be perceived with certainty. The Company bases its estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments. These estimates may change as new events occur, as more experience is acquired, as additional information is obtained and as the Company's operating environment changes. There have been no material changes or developments in the Company's evaluation of the accounting estimates and the underlying assumptions or methodologies that it believes to be Critical Accounting Policies and Estimates as disclosed in its Form 10-KSB for the year ended December 31, 2006.

Management's Discussion included in the Form 10-KSB for the year ended December 31, 2006 includes discussion of various factors related to the decline in the Company's revenues and items related to the Company's results of operations, liquidity, merger and acquisition. There have been no other significant changes in most of the factors discussed in the Form 10-KSB and many of the items discussed in the Form 10-KSB are relevant to 2007 operations; thus the reader of this report should read Management's Discussion included in Form 10-KSB for the year ended December 31, 2006 and Form 8-K filed on April 6, 2007.

MANAGEMENT'S DISCUSSION AND ANALYSIS

March 31, 2007

**LIQUIDITY AND CAPITAL RESOURCES**

As a result of the continuing deterioration in its financial position, the Company has undertaken significant restructuring to reduce the Company's expenses and improve the Company's liquidity. As a result of these actions, the Company repaid all its debt and produced sufficient cash to continue operations. However, the Company does not believe its remaining operation will return to profitability or generate positive cash flow in the foreseeable future. Based upon its current financial position, the Company has concluded that it should pursue one, or some combination, of the following courses of action: sell its remaining real estate holdings; sell its remaining business unit; invest in another line of business through a purchase or merger; make distributions to its shareholders of the proceeds of asset or business line sales, possibly through a corporate liquidation.

On April 1, 2007, the Company consummated a merger of its wholly owned subsidiary, Reliability-Medallion, Inc., a Florida corporation, into Medallion Electric Acquisition Corporation, a Florida corporation (MEAC), and the indirect acquisition, through MEAC, of Medallion Electric, Inc., a Florida corporation (Medallion Electric). All of the funds used for the initial payment to Medallion Electric were paid out of the Company's cash on hand. Additional payments will come from the Company's working capital, funds generated by the private placements, and funds generated by Medallion Electric's operations. However, there can be no assurances that the Company will be able to successfully raise enough funds or maintain sufficient liquidity over a period of time that will allow it to continue to service the acquisition commitments as disclosed in the Company's Form 10-KSB for the year ended December 31, 2006 and its Form 8-K filed on April 6, 2007.

Net cash used by operating activities during the three months ended March 31, 2007 was \$98,000 compared to \$461,000 used by operations in the comparable period of 2006. The principal items contributing to the difference was a lower loss from continuing operations of \$183,000 and \$308,000 related to the timing of accrued liability payments partially offset by changes in other working capital items that consumed \$132,000.

Investing activities from the Company's April 1, 2007 merger and acquisition consumed \$121,000 of cash, compared to \$592,000 provided by the sale of assets in during the same period of 2006.

The Company had no financing activities, during the three months ended March 31, 2007. During the same period of 2006, financing activities consumed \$82,000 in cash as a result of borrowing under the Company's former credit agreements.

**RESULTS OF OPERATIONS**

**Three months ended March 31, 2007 compared to three months ended March 31, 2006.**

***Revenues.***

Revenues for the three months ended March 31, 2007 were \$6,000 compared to \$179,000 for the same period of 2006. The decline in revenues was due to no system upgrades during the 1st quarter of 2007. Revenues came from spare parts sales.

***Gross Profit***

Gross margin during the three months ended March 31, 2007 was \$4,000 compared with (\$13,000) during the same period of 2006. The change in gross margin is the result of a \$65,000 reduction in payroll and payroll related expenses, an \$11,000 decrease in reserve accruals for excess and obsolete inventory, and a \$42,000 reduction in general operating expenses offset by the reduction in revenues.

MANAGEMENT'S DISCUSSION AND ANALYSIS

March 31, 2007

***Marketing, General and Administrative***

Marketing, general and administrative expenses decreased from \$410,000 for the three months ended March 31, 2006 to \$221,000 for the first quarter of 2007. The expense reductions were primarily the result of a \$144,000 decrease in payroll related cost due to staff reductions, a \$40,000 decrease in corporate compliance and professional fees, and a \$74,000 reduction in general operating expenses due to lower business activity and the Company's relocation to a smaller facility.

***Interest Expense***

The Company had no interest expense for the three months ended March 31, 2007 compared with \$84,000 for the same period of 2006. In June of 2006, the Company's repaid all debt under its former credit and loan agreements as a result of the sale of the Company's headquarters facility.

***Interest and Other Income***

Interest and other income was \$17,000 for the three months ended March 31, 2007 compared with \$24,000 for the same period of 2006. The decrease results from a \$16,000 drop in rental income partially offset by a \$9,000 increase in interest income, as a result of the Company selling its headquarters facility.

***Item 3. Controls and Procedures.***

As of the end of the period covered by this report, the Company carried out an evaluation, under the supervision and with the participation of the Company's management, including the Company's Chief Executive Officer and Acting Chief Financial Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures pursuant to Rule 13a-5 under the Securities Exchange Act. Based on that evaluation, the Company's Chief Executive Officer and Acting Chief Financial Officer had concluded that the Company's disclosure controls and procedures provide reasonable assurance of their effectiveness.

There have been no significant changes in the Company's internal controls or in other factors that could significantly affect these controls subsequent to the date of the evaluation described in the preceding paragraph.
