PROXY STATEMENT

INFORMATION CONCERNING VOTING AND SOLICITATION

This Proxy Statement is being furnished to you in connection with the solicitation by the board of directors of ExlService Holdings, Inc., a Delaware corporation (us, we, our or the Company), of proxies to be used at the special meeting (the Special Meeting) of the Stockholders of the Company to be held at 350 Park Avenue, New York, New York 10022, at 10:00 am, Eastern Time, on January 29, 2009, and any adjournments or postponements thereof. This Proxy Statement and the accompanying form of proxy card are being mailed to stockholders on or about December 15, 2008.

Who Can Vote

Only stockholders who owned shares of our common stock at the close of business on _____, the record date for the Special Meeting, can vote at the Special Meeting. As of the close of business on the record date, we had _____ shares of common stock outstanding and entitled to vote. Each holder of common stock is entitled to one vote for each share held as of the record date for the Special Meeting. There is no cumulative voting in the election of directors.

How You Can Vote

If your shares are registered directly in your name with Registrar and Transfer Company, our transfer agent (which means you are a stockholder of record), you can vote your proxy by completing, signing, dating and returning the enclosed proxy card in the enclosed postage prepaid envelope. Please refer to the specific instructions set forth in the enclosed proxy card.

If you are the beneficial owner of shares held in the name of a brokerage, bank, trust or other nominee as a custodian (also referred to as shares held in street name), your broker, bank, trustee or nominee will provide you with materials and instructions for voting your shares.

Voting at the Special Meeting. Voting by mail will not limit your right to vote at the Special Meeting if you decide to attend in person. Our board of directors recommends that you vote by mail as it is not practical for most stockholders to attend the Special Meeting. If you are a stockholder of record, you may vote your shares in person at the Special Meeting. If you hold your shares in street name, you must obtain a proxy from your broker, bank, trustee or nominee giving you the right to vote the shares at the Special Meeting.

Revocation of Proxies

You can revoke your proxy at any time before it is exercised in any of the following ways:

by voting in person at the Special Meeting;

by submitting written notice of revocation to the inspector of elections prior to the Special Meeting; or

Table of Contents

by submitting another properly executed proxy of a later date to the inspector of elections prior to the Special Meeting.
Required Vote; Effect of Abstentions and Broker Non-Votes

Quorum

A quorum, which is a majority of the issued and outstanding shares of our common stock as of _____, must be present to hold the Special Meeting. As of the record date, there were _____ shares of our common stock issued and outstanding and entitled to vote at the Special Meeting. A quorum is calculated based on the number of shares represented by the stockholders attending the Special Meeting in person and by their proxy holders. If you indicate an abstention as your voting preference for all matters to be acted upon at the Special Meeting, your shares will be counted toward a quorum but they will not be voted on any matter.

The Proposal

The approval of the amendment to the ExlService Holdings, Inc. 2006 Omnibus Award Plan (the 2006 Plan) and each other item to be acted upon at the Special Meeting will require the affirmative vote of a majority of shares present in person or represented by proxy and entitled to vote at the Special Meeting. You may cast your vote in favor of or against this proposal or you may abstain from voting your shares. Abstentions will have the effect of a vote against this proposal.

If you submit your proxy, but do not mark your voting preference, the proxy holders will vote your shares **FOR** the approval of the amendment to the 2006 Plan and the approval of the performance-based provisions of the 2006 Plan.

Other Matters to be Acted upon at the Meeting

Our board of directors presently is not aware of any matters, other than those specifically stated in the Notice of Special Meeting, which are to be presented for action at the Special Meeting. If any matter other than those described in this Proxy Statement is presented at the Special Meeting on which a vote may properly be taken, the shares represented by proxies will be voted in accordance with the judgment of the person or persons voting those shares.

Adjournments and Postponements

Any action on the items of business described above may be considered at the Special Meeting at the time and on the date specified above or at any time and date to which the Special Meeting may be properly adjourned or postponed.

Solicitation of Proxies

We will pay the cost of printing and mailing proxy materials. Upon request, we will reimburse brokers, dealers, banks and trustees, or their nominees, for reasonable expenses incurred by them in forwarding proxy materials to beneficial owners of shares of our common stock.

THE PROPOSAL

**APPROVAL OF AN INCREASE TO THE SHARE POOL AND THE
PERFORMANCE BASED PROVISIONS OF THE 2006 OMNIBUS AWARD PLAN**

At the Special Meeting, you are being asked to approve (1) an increase to the overall share pool of 4,000,000 shares (which will bring the total number of shares reserved under the plan to 7,729,238), (2) the applicable performance goals and (3) other performance-based provisions of the 2006 Plan to ensure that enough shares will be available for awards under the 2006 Plan and to insure that awards made under the 2006 Plan based on the performance criteria set forth in the 2006 Plan will be deductible by the Company. A copy of the 2006 Plan, reflecting the increased overall share pool, is attached as Annex A hereto.

Section 162(m) of the Internal Revenue Code of 1986, as amended (the Code), and the regulations and guidance promulgated thereunder (collectively, Section 162(m)), generally do not allow a publicly held company to obtain tax deductions for compensation of more than \$1.0 million paid in any year to its chief executive officer, or any of its other three most highly compensated executive officers (other than its chief financial officer) (the Section 162(m) executive officers), unless these payments are performance-based in accordance with conditions specified under Section 162(m). One of those conditions requires the Company to obtain stockholder approval of each performance criterion that a committee of outside directors may use in granting an award under the 2006 Plan that is intended to satisfy the requirements of Section 162(m). In addition, if the committee has the authority to change the targets under a performance goal after stockholder approval of the goal, the material terms of the performance goals must be disclosed and reapproved by stockholders no later than five years after the stockholder approval was first received. Our compensation committee, which administers the 2006 Plan, has the authority to change the targets with respect to awards granted under the 2006 Plan.

Since the date of our initial public offering in October 2006, we have not been subject to the provisions of Section 162(m) because of a transitional relief exception under Section 162(m) that applies to newly-public companies. However, this transitional relief expires on the date of the Special Meeting. If this proposal is approved, and if the applicable performance goals are satisfied, this proposal would enable the Company to continue to issue awards under the 2006 Plan to its Section 162(m) executive officers and to obtain tax deductions with respect to these awards, without regard to the limitations of Section 162(m). If this proposal is not approved by stockholders, compensation attributable to grants of awards under the 2006 Plan to our Section 162(m) executive officers may not be tax deductible by us. Therefore, the compensation committee and the board of directors recommend that the stockholders approve in their entirety the material terms of the performance goals applicable to awards granted under the 2006 Plan that are intended to satisfy the requirements of Section 162(m) as described below. The compensation committee reserves the right to issue awards under the 2006 Plan to our Section 162(m) executive officers that are not tax deductible under Section 162(m).

Summary of the 2006 Plan

General. We adopted the 2006 Plan effective on April 20, 2006.

Purpose. The purpose of the 2006 Plan is to provide a means through which we and our affiliates may attract capable persons to enter and remain in our employ and to provide a means whereby our employees, directors and consultants can acquire and maintain ownership of our common stock, thereby strengthening their commitment to our welfare and our affiliates and promoting a common interest between stockholders and these employees.

Administration. The 2006 Plan is administered by a committee (which may be our board of directors or compensation committee). It is intended, but not required, that the directors appointed to serve on our compensation committee be Non-Employee Directors (within the meaning of Rule 16b-3 under the Securities Exchange Act of 1934, or the Exchange Act) and Outside Directors within the meaning of Section 162(m) of

Table of Contents

the Internal Revenue Code, or the Code, to the extent Rule 16b-3 and Section 162(m) are applicable. However, if a committee member fails to qualify under these requirements it will not invalidate any award that is otherwise validly granted under the 2006 Plan. Subject to the terms of the 2006 Plan, the committee has the authority to grant awards, to determine the number of shares of our common stock for which each award may be granted and to determine any terms and conditions pertaining to the exercise or to the vesting of each award. The committee has the power, in its sole discretion, to accelerate the exercisability of any option and to remove any restriction on any restricted stock or restricted stock unit granted under the 2006 Plan. The committee also has full power to construe and interpret the 2006 Plan and any award agreement executed pursuant to the 2006 Plan and to establish, amend, suspend or waive any rules for the proper administration of the 2006 Plan. The determination of the committee on all matters relating to the 2006 Plan or any award agreement will be conclusive.

Eligibility. Our officers, employees, directors and consultants and those of our subsidiaries or affiliates are eligible to be designated as participants under the 2006 Plan. The committee has the sole and complete authority to determine the participants to whom awards will be granted under the 2006 Plan, subject to certain limitations described below.

Number of Shares Authorized. If the amendment is approved, under the 2006 Plan, awards for a total of 7,729,238 shares of our common stock may be granted in the aggregate (including those shares reserved for issuance under our existing India sub plans). As of September 30, 2008, options to purchase 1,849,241 shares of our common stock were issued and outstanding. As of September 30, 2008, we had outstanding 656,042 restricted shares of common stock under our 2006 Plan. No person may be granted awards of options and/or stock appreciation rights, or SARs, during any calendar year with respect to more than 600,000 shares of common stock. No more than 600,000 shares of common stock may be granted under our 2006 Plan with respect to performance compensation awards in any one year. The maximum amount payable in any calendar year to any participant pursuant to a cash bonus under our 2006 Plan is \$1,000,000. As described more fully in the 2006 Plan, if an award expires or terminates or is forfeited or if any option terminates, expires or lapses without being exercised, the number of shares previously subject to such award will again be available for future grant.

If the committee determines that certain corporate transactions or events (as described in the 2006 Plan), such as a stock split, affect the shares of common stock such that an adjustment is to be consistent with such event and necessary or equitable to carry out the purposes of the 2006 Plan, the committee may, in its discretion, appropriately adjust the maximum number of shares and the classes or series of our common stock which may be delivered pursuant to the 2006 Plan, the number of shares and the classes or series of our common stock subject to outstanding awards, the price per share of all of our common stock subject to outstanding awards and any other provisions of the 2006 Plan. In addition, upon the occurrence of certain corporate events or transactions (as described in the 2006 Plan), such as a merger, consolidation, or reorganization, the committee may, in its discretion and with at least ten days prior notice to the participants, cancel all outstanding awards and pay the holders thereof the value of such awards in a form and an amount equal to what they would have received or been entitled to receive had they exercised all such awards immediately prior to the consummation of such corporate event or transaction.

The 2006 Plan will have a term of ten years and no further awards may be granted after that date.

Terms and Conditions of Awards. Under the 2006 Plan, the committee may grant awards of nonqualified stock options, or NSOs, incentive stock options, or ISOs, SARs, restricted stock, restricted stock units, stock bonus awards, performance compensation awards (including cash bonus awards) or any combination of the foregoing. The committee may, but is not required to, provide in an award agreement that there will be a vesting acceleration or payout of the award upon a change in control, as defined in the 2006 Plan.

Options. The committee is authorized to grant options to purchase shares of common stock that are either qualified, meaning they are intended to satisfy the requirements of Section 422 of the Code for incentive stock options, or nonqualified, meaning they are not intended to satisfy the requirements of Section 422 of the Code. An option provides a participant with the right to purchase, within a specified period of time, a stated number of

Table of Contents

shares of our common stock at the price specified in the award agreement. Options granted under the 2006 Plan will be subject to the terms, including the exercise price and the conditions and timing of exercise, not inconsistent with the 2006 Plan, determined by the committee and specified in the applicable award agreement or thereafter. The maximum term of an option granted under the 2006 Plan will be ten years from the date of grant (or five years in the case of an ISO granted to a 10.0% stockholder).

The exercise price per share paid by a participant will be determined by the committee at the time of grant but will not be less than 100.0% of the fair market value of one share on the date the option is granted (or no less than 110.0% of such fair market value in the case of an ISO granted to an employee who is a 10.0% stockholder). Payment in respect of the exercise of an option may be made in cash or by check, except that the committee may, in its discretion, allow such payment to be made by surrender of unrestricted shares of our common stock (at their fair market value on the date of exercise) which have been held by the participant for at least six months, or by such other method as the committee may determine and that is permitted by law. The committee may, in its discretion and to the extent permitted by law, allow such payment to be made through a broker-assisted cashless exercise mechanism. The committee may also establish rules permitting the deferral of shares of our common stock upon the exercise of options for tax planning purposes.

SARs. Our committee will be authorized to award SARs under the 2006 Plan. SARs will be subject to the terms and conditions established by the committee. A SAR is a contractual right that allows a participant to receive, either in the form of cash, shares of our common stock or a combination of the foregoing, the appreciation, if any, in the value of one share of our common stock over a certain period of time. An option granted under the 2006 Plan may include SARs, either on the date of grant or, except in the case of an ISO, by subsequent amendment. The committee may also award SARs to a participant independent of the grant of an option. SARs granted in connection with an option will become exercisable, be transferable and will expire according to the same vesting schedule, transferability rules and expiration provisions as the corresponding option. If SARs are granted independent of an option, the SARs will become exercisable, be transferable and will expire in accordance with the vesting schedule, transferability rules and the expiration provisions established by the committee and reflected in the award agreement.

No Repricing. The 2006 Plan prohibits the repricing of stock options or SARs awarded under the 2006 Plan.

Restricted Stock. Our committee will be authorized to award restricted stock under the 2006 Plan. An award of restricted stock is a grant of shares subject to conditions and restrictions set by the committee. The grant or the vesting of an award of restricted stock may be conditioned upon service to us or our affiliates or upon the attainment of performance goals or other factors, as determined in the discretion of the compensation committee. The committee may also, in its discretion, provide for the lapse of restrictions imposed upon an award of restricted stock. Holders of an award of restricted stock will have, with respect to the restricted stock granted, all of the rights of a stockholder, including the right to vote and to receive dividends.

Restricted Stock Units. The committee is authorized to award restricted stock units to participants. The committee establishes the terms, conditions and restrictions applicable to each award of restricted stock units, including the time or times at which restricted stock units will be granted or vested and the number of units to be covered by each award. The terms and conditions of each restricted stock award will be reflected in a restricted stock unit agreement. Each restricted stock unit (representing one share of our common stock) awarded to a participant will be credited with an amount equal to the cash or stock dividends paid by us in respect of one share of our common stock (dividend equivalents). At the discretion of the committee, dividend equivalents may either be paid currently to the participant or withheld by us for the participant's account and interest will be credited on such dividend equivalents withheld at rate to be determined by the committee. Upon expiration of the vesting period with respect to any restricted stock units covered by a restricted stock award, we will deliver to the participant or his beneficiary (i) one share of our common stock or, at the election of the committee, an amount in cash equal to the fair market value of that number of shares at the expiration of the period over which the units are to be earned for each restricted stock unit with respect to which the vesting period has expired and (ii) cash or shares of common stock equal to the dividend equivalents credited to the restricted stock unit and any interest accrued thereon.

Table of Contents

With respect to an award of restricted stock or restricted share units that is intended to qualify as performance-based compensation under Section 162(m) of the Code, the timing, establishment and adjustment of performance goals will be implemented by the committee in a manner designed to preserve the treatment of such award as performance-based compensation for purposes of Section 162(m) of the Code.

Stock Bonus Awards. The committee may, in its discretion, grant an award of unrestricted shares of our common stock, either alone or in tandem with other awards, under such terms and conditions as the committee in its sole discretion may decide. A stock bonus award shall be granted as, or in payment of, a bonus, or to provide special incentives or recognize special achievements or contributions.

Performance Criteria. The committee may, in its discretion, condition the vesting of any award granted under the 2006 Plan upon the satisfaction of certain performance goals. To the extent an award is intended to qualify as performance-based compensation under Section 162(m) of the Code, the performance goals will be established by the compensation committee with reference to one or more performance criteria set forth in the 2006 Plan, either on a company-wide basis or, as relevant, in respect of one or more of our affiliates, divisions or operations.

Performance Compensation Awards. The committee may grant any award under the 2006 Plan in the form of a performance compensation award by conditioning the vesting of the award on the satisfaction of certain performance goals. The committee may establish these performance goals with reference to one or more of the following:

net earnings or net income (before or after taxes);

basic or diluted earnings per share (before or after taxes);

net revenue or net revenue growth;

gross revenue;

gross profit or gross profit growth;

net operating profit (before or after taxes);

return measures (including, but not limited to, return on assets, capital, invested capital, equity or sales);

Transferability. Generally, each award may be exercised during the participant's lifetime only by the participant or, if permissible under applicable law, by the participant's guardian or legal representative, and such award may not be assigned, alienated, pledged, attached, sold or otherwise transferred or encumbered by a participant other than by will or by the laws of descent and distribution.

The committee may, in its discretion, however, provide that awards granted under the 2006 Plan that are not ISOs may be transferred by a participant without consideration to certain permitted transferees (as defined in the 2006 Plan), pursuant to the terms of the 2006 Plan and rules adopted by the committee.

Amendment. Our board of directors may amend, alter, suspend, discontinue, or terminate the 2006 Plan or any portion thereof at any time. No such action may be taken, however, without stockholder approval if such approval is necessary to comply with any regulatory requirement and no such action that would impair any rights under any previous award will be effective without the consent of the person to whom such award was made. In addition, the committee is authorized to amend the terms of any award granted under the 2006 Plan if the amendment would not impair the rights of any participant without his or her consent. No amendment may, however, reduce the exercise price of an option, cancel an existing option and replace it with a new option having a lower exercise price, or take any other action, that would result in such option being considered repriced for purposes of our proxy statement, or that would result in the option being accounted for under the variable method of accounting, without stockholder approval of such amendment.

U.S. Federal Income Tax Consequences. The following is a general summary of the material U.S. federal income tax consequences of the grant and exercise of awards under the 2006 Plan and the disposition of shares purchased pursuant to the exercise of such awards and is intended to reflect the current provisions of the Code and the regulations thereunder. This summary is not intended to be a complete statement of applicable law, nor does it address foreign, state, local and payroll tax considerations. Moreover, the U.S. federal income tax consequences to any particular participant may differ from those described herein by reason of, among other things, the particular circumstances of such participant.

Options. The Code requires that, for treatment of an option as a qualified option, shares of our common stock acquired through the exercise of a qualified option cannot be disposed of before the later of (i) two years from the date of grant of the option, or (ii) one year from the date of exercise. Holders of qualified options will generally incur no federal income tax liability at the time of grant or upon exercise of those options. However, the spread at exercise will be an item of tax preference, which may give rise to alternative minimum tax liability for the taxable year in which the exercise occurs. If the holder does not dispose of the shares before two years following the date of grant and one year following the date of exercise, the difference between the exercise price and the amount realized upon disposition of the shares will constitute long-term capital gain or loss, as the case may be. Assuming both holding periods are satisfied, no deduction will be allowed to us for federal income tax purposes in connection with the grant or exercise of the qualified option. If, within two years following the date of grant or within one year following the date of exercise, the holder of shares acquired through the exercise of a qualified option disposes of those shares, the participant will generally realize taxable compensation at the time of such disposition equal to the difference between the exercise price and the lesser of the fair market value of the share on the date of exercise or the amount realized on the subsequent disposition of the shares, and that amount will generally be deductible by us for federal income tax purposes, subject to the possible limitations on deductibility under Sections 280G and 162(m) of the Code for compensation paid to executives designated in those Sections. Finally, if an otherwise qualified option becomes first exercisable in any one year for shares having an aggregate value in excess of \$100,000 (based on the grant date value), the portion of the qualified option in respect of those excess shares will be treated as a non-qualified stock option for federal income tax purposes. No income will be realized by a participant upon grant of a non-qualified stock option. Upon the exercise of a non-qualified stock option, the participant will recognize ordinary compensation income in an amount equal to the excess, if any, of the fair market value of the underlying exercised shares over the option exercise price paid at the time of exercise. We will be able to deduct this same amount for U.S. federal income tax purposes, but such deduction may be limited under Sections 280G and 162(m) of the Code for compensation paid to certain executives designated in those Sections.

Table of Contents

Restricted Stock. A participant will not be subject to tax upon the grant of an award of restricted stock unless the participant otherwise elects to be taxed at the time of grant pursuant to Section 83(b) of the Code. On the date an award of restricted stock becomes transferable or is no longer subject to a substantial risk of forfeiture, the participant will have taxable compensation equal to the difference between the fair market value of the shares on that date over the amount the participant paid for such shares, if any, unless the participant made an election under Section 83(b) of the Code to be taxed at the time of grant. If the participant made an election under Section 83(b), the participant will have taxable compensation at the time of grant equal to the difference between the fair market value of the shares on the date of grant over the amount the participant paid for such shares, if any. Special rules apply to the receipt and disposition of restricted shares received by officers and directors who are subject to Section 16(b) of the Exchange Act. We will be able to deduct, at the same time as it is recognized by the participant, the amount of taxable compensation to the participant for U.S. federal income tax purposes, but such deduction may be limited under Sections 280G and 162(m) of the Code for compensation paid to certain executives designated in those Sections.

Restricted Stock Units. A participant will not be subject to tax upon the grant of a restricted stock unit award. Rather, upon the delivery of shares or cash pursuant to a restricted stock unit award, the participant will have taxable compensation equal to the fair market value of the number of shares (or the amount of cash) he actually receives with respect to the award. We will be able to deduct the amount of taxable compensation to the participant for U.S. federal income tax purposes, but the deduction may be limited under Sections 280G and 162(m) of the Code for compensation paid to certain executives designated in those Sections.

SARs. No income will be realized by a participant upon grant of a SAR. Upon the exercise of a SAR, the participant will recognize ordinary compensation income in an amount equal to the fair market value of the payment received in respect of the SAR. We will be able to deduct this same amount for U.S. federal income tax purposes, but such deduction may be limited under Sections 280G and 162(m) of the Code for compensation paid to certain executives designated in those Sections.

Stock Bonus Awards. A participant will have taxable compensation equal to the difference between the fair market value of the shares on the date the award is made over the amount the participant paid for such shares, if any. We will be able to deduct, at the same time as it is recognized by the participant, the amount of taxable compensation to the participant for U.S. federal income tax purposes, but such deduction may be limited under Sections 280G and 162(m) of the Code for compensation paid to certain executives designated in those Sections.

Section 162(m). In general, as noted above, Section 162(m) of the Code denies a publicly held corporation a deduction for U.S. federal income tax purposes for compensation in excess of \$1,000,000 per year per person to its chief executive officer and its three other officers (other than its chief financial officer) whose compensation is disclosed in its proxy statement, subject to certain exceptions. The 2006 Plan is intended to satisfy an exception with respect to grants of options to covered employees. In addition, the 2006 Plan is designed to permit certain awards of restricted stock units and other awards (including cash awards) to be awarded in a manner intended to qualify under either the performance-based compensation exception to Section 162(m) of the Code or applicable transitional rule requirements. The transitional rule will not be available for amounts paid and awards granted after the Special Meeting, although income in respect of stock awards granted before the Special Meeting will remain exempt from the Section 162(m) limit.

New Plan Benefits

Other than with respect to the grants of restricted stock and stock options that may be earned by our executive officers pursuant to their employment agreements if certain performance criteria are met, awards of restricted stock units to our non-employee directors upon joining the board of directors and annual restricted stock unit awards to our non-employee directors, if the performance-based provisions of the 2006 Plan are approved by stockholders, awards under the 2006 Plan will be determined by the Compensation Committee in its discretion and it is, therefore, not possible to predict the awards that will be made to particular officers in the future under the 2006 Plan. See Executive Compensation and Other Information Employment Agreements for a description of the material terms and conditions of the employment agreements for our Executive Officers.

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

We believe that the long-term success of companies that provide business processing outsourcing, or BPO, and transformation services globally and deliver high quality services to clients is linked closely with their ability to recruit, train and retain employees at every level. In addition, there is intense competitive pressure in our industry for qualified managers with a demonstrated track record of achievement and the potential for higher achievement. Accordingly, it is critical that we attract, motivate and retain highly talented individuals at all levels of the organization that are committed to our core values of accountability, innovation, excellence, urgency, integrity and mutual respect. We believe that our executive compensation programs are integral to achieving this end.

Our Compensation Committee bases its executive compensation programs on the following objectives, which guide us in establishing all of our compensation programs:

Compensation should reward performance. Our programs should deliver top-tier compensation in return for top-tier individual and company performance; conversely, where individual performance and/or our performance falls short of expectations, the programs should deliver lower-tier compensation. In addition, the objectives of pay-for-performance and retention must be balanced. Even in periods of temporary downturns in our performance, the programs should continue to ensure that successful, high-achieving employees remain motivated and committed.

Compensation should balance long-term focus that is linked with stockholder value and short-term financial objectives. Consistent with this philosophy, equity-based compensation should be higher for persons with higher levels of responsibility and greater influence on longer-term results, thereby making a significant portion of their total compensation dependent on long-term stock appreciation. In addition, compensation should focus management on achieving short-term performance goals in a manner that supports and ensures long-term success and profitability.

Compensation should be based on the level of job responsibility, individual performance and our performance. As employees progress to higher levels in the organization, they are able to more directly affect our results and strategic initiatives, and therefore an increasing proportion of their pay should be linked to our performance and stockholder value.

Compensation should reflect the value of the job in the marketplace. We compete for talent globally. In order to attract and retain a highly skilled work force, we must remain competitive with the pay of other employers who compete with us for talent in the relevant markets.

Compensation programs should be easy to understand. We believe that all aspects of executive compensation should be clearly, comprehensibly and promptly disclosed to employees in order to effectively motivate them. Employees need to easily understand how their efforts can affect their pay, both directly through individual performance accomplishments and indirectly through contributing to our achievement of our strategic and operational goals. We also believe that compensation for our employees should be administered uniformly across the company and should be administered with clear-cut objectives and performance metrics to eliminate the potential for individual supervisor bias.

Our Compensation Committee's Processes

Our Compensation Committee has established a number of processes to assist it in ensuring that our executive compensation programs are achieving their objectives. Among those are:

Edgar Filing: ExlService Holdings, Inc. - Form PRE 14A

Assessment of Company Performance. Our Compensation Committee uses financial performance measures to determine a significant portion of the size of payouts under our cash incentive bonus program. Our financial performance measures, chosen to focus employees on improving both top-line revenues and bottom-line earnings, are pre-agreed by our Compensation Committee annually at the

Table of Contents

beginning of the year and are applied uniformly across the company. When we achieve the pre-agreed financial measures that are set forth in our annual operating plan, our employees that are eligible for cash incentive bonuses receive amounts that are at target. The cash incentive bonus for senior executives that have responsibility for operating divisions is also tied to the financial performance of the operating division headed by such executives. These measures reflect targets that are intended to be aggressive but attainable. The remainder of an individual's payout under our cash incentive bonus program is determined by individual performance.

Assessment of Individual Performance. Individual performance has a strong impact on the compensation of all employees, including Messrs. Talwar and Kapoor, our founder executive officers, and our other executive officers. The evaluation of an individual's performance determines a portion of the size of payouts under our cash incentive bonus program and also influences any changes in base salary. At the beginning of each year, our Nominating and Governance Committee meets separately by itself and with the founder executive officers to set their respective performance objectives for the year. The performance objectives are initially proposed by the founder executive officers and modified by the Nominating and Governance Committee based on the performance assessment conducted for the preceding year as well as for important priorities for the current year. Each agreed-upon objective is supplemented with key performance indicators. Our Nominating and Governance Committee's goal is to design key performance indicators that are objective and easily measurable. At the end of the year, our Nominating and Governance Committee meets to conduct a performance review of our founder executive officers based primarily on their respective achievement of the agreed-upon objectives as well as the founder executive officers' contribution to our performance and other leadership accomplishments. This evaluation is shared initially by our Nominating and Governance Committee with our Compensation Committee and after that with our founder executive officers by the chairman and other members of our Compensation Committee. After the discussion, our Compensation Committee assigns a corresponding numerical performance rating that translates into specific payouts under our cash incentive bonus program and also influences any changes in base salary.

For our other named executive officers, our Compensation Committee receives a performance assessment and compensation recommendation from our founder executive officers. The performance assessments are based on self-evaluations by each of the direct reports of the founder executive officers, including the other named executive officers, and subsequent performance appraisals conducted by one or both founder executive officers in the presence of our Global Head of Human Resources. Our Compensation Committee reviews the performance assessments of these executives with and without our founder executive officers based on the achievement of pre-agreed objectives by each executive officer and his or her organization, his or her contribution to our performance and other leadership accomplishments as well as on an evaluation of the officer's competence. In determining the numerical performance rating that translates into specific payouts under our cash incentive bonus program and also influences any changes in base salary, our Compensation Committee may also exercise its judgment based on the board's interactions with such officers.

Benchmarking and Use of Compensation Consultant. Our Compensation Committee reviews our executive compensation programs relative to publicly available compensation data compiled directly for our Compensation Committee by our Global Head of Human Resources for a group of companies that provide business and technology services. Our Global Head of Human Resources prepares the information for our Compensation Committee based on input from Equilar, Inc., a compensation data provider that we have engaged for the sole purpose of providing such data. At the time that compensation decisions were taken for our U.S.-based executive officers in 2007, there were few public companies directly comparable to us. Accordingly, our Compensation Committee reviewed the publicly available information for recently public companies and other companies that provided similar services and that had similar market capitalizations and annual revenues. In addition, they considered companies that had recently become public companies since our initial public offering in the last quarter of 2006 and that were located in the most relevant geographic area for each executive officer. Different companies were considered for the compensation benchmark review of each executive

Table of Contents

officer. Where compensation information was not publicly disclosed for a specific management position, our Compensation Committee reviewed data corresponding to the most comparable position and also considered the comparative experience of executives. The list of companies against which we benchmarked the compensation of our U.S.-based executive and other senior officers in 2007 included the following companies:

Comparable Market		
Similar Business	Capitalization and Revenues	Newly Public Companies
Cognizant Technology Solutions Corporation	The Hackett Group, Inc.	Blackbaud, Inc.
Infosys Technologies Limited	CSC Covansys Corporation	Blackboard Inc.
Gevity HR, Inc.	Diamond Management & Technology Consultants, Inc.	Huron Consulting Group Inc.
CapGemini Financial Services International Inc.	FirstConsulting Group Inc.	Leadis Technology, Inc.
Syntel, Inc.	iGate Corporation	Salesforce.com, Inc.
Wipro Limited	LECG Corporation	Volterra Semiconductor Corporation
	MTC Technologies Inc.	
	Ness Technologies Inc.	

Our Compensation Committee will review and revise as appropriate from time to time the list of companies with publicly available compensation information against whom we will benchmark our compensation programs, to ensure that such list includes those companies that are most comparable to us with regard to services provided and relevant geographic areas. For geographic areas where we are not able to obtain reliable publicly available compensation data for our executive officers because such information is not legally required to be disclosed, such as India, our Global Head of Human Resources uses data from a variety of private and informal sources, none of which are paid for providing such data.

Our Compensation Committee uses the data primarily to ensure that our executive compensation programs, including for executive officers are competitive. We incorporate flexibility into our compensation programs and in the assessment process to respond to and adjust for the evolving business environment. Accordingly, our Compensation Committee adjusts individual executive compensation elements based on changes in job responsibilities of the executive, the performance of the executive or the combination of qualifications and skills that an executive uses to enhance our performance. Neither we nor our Compensation Committee has any contractual arrangement with any compensation consultant who has a role in determining or recommending the amount or form of director or executive officer compensation.

Total Compensation Review. Our Compensation Committee designs the categories and presentation of compensation information required to evaluate each executive's base pay, cash incentive bonus and equity incentives when changes in compensation are considered by our Compensation Committee and requests our Global Head of Human Resources to compile such information. Although many compensation decisions are made in the first quarter of the fiscal year, our compensation planning process neither begins nor ends with any particular Compensation Committee meeting. Compensation decisions are designed to promote our fundamental business objectives and strategy. Our Compensation Committee periodically reviews related matters such as succession planning, evaluation of management performance and consideration of the business environment and considers such matters in making compensation decisions.

Table of Contents

Each named executive officer and our other executive officers is party to an employment agreement or letter that sets forth the terms of his or her employment, including compensation. Our named executive officers in 2007 were our principal executive officer, our principal financial officers, and our three most highly compensated executive officers other than the above-named officers. The employment agreements for our founder executive officers have specified expiration terms. The employment letters for our other executive officers do not have specified expiration terms and are terminable by either the executive or us at will. If decisions are made by our Compensation Committee that materially change the terms of employment of an individual executive officer or modify existing compensation programs, we communicate the information to the concerned officer or company-wide, as the case may be.

Components of Executive Compensation for 2007

For 2007, the compensation of executive officers consisted of the following five primary components:

base salaries or, in the case of our executive officers based in India, fixed compensation;

cash incentive bonuses;

equity incentives of stock options and/or restricted stock;

benefits and perquisites; and

severance benefits.

Our mix of compensation elements is designed to reward recent results, motivate long-term performance and encourage our executives to remain with us for longer terms through a combination of cash and equity incentive awards. Base salaries and cash incentive bonuses are designed to reward annual achievements and be commensurate with the executive's scope of responsibilities, demonstrated leadership abilities, and management experience and expertise. Our other elements of compensation focus on motivating and challenging the executive to achieve sustained and longer-term results. We generally do not adhere to rigid formulas or necessarily react to short-term changes in business performance in determining the amount and mix of compensation elements. However, we do rely on the formulaic achievement of pre-agreed financial performance measures in connection with determining a significant portion of the cash incentive bonuses for our executive officers and other members of management. We believe the most important indicator of whether our compensation objectives are being met is our ability to motivate our executive officers to deliver superior performance and retain them to continue their careers with us on a cost-effective basis.

Our Compensation Committee believes that these programs balance both the mix of cash and equity compensation, the mix of currently-paid and longer-term compensation, and the security of comprehensive and severance benefits in a way that furthers the compensation objectives discussed above. The periodic review of each executive's base pay, cash incentive bonus and equity incentives by our Compensation Committee is intended to maintain the appropriate balance for each executive officer based on their roles and responsibilities. With the exception of compensation elements that are linked to individual performance, our Compensation Committee believes that our founder executive officers should receive similar compensation.

Following is a discussion of our Compensation Committee's considerations in establishing each of the compensation components for our executive officers.

Base Salary

Base salary is a fixed element of employees' annual cash compensation, the payment of which is not tied to our performance. We provide the opportunity for each of our named executive officers and other executive officers to earn a competitive annual base salary. We provide this opportunity to attract and retain an appropriate caliber of talent for the position and to provide a base wage that is not subject to our performance risk. We review base salaries for our named executive officers annually in the first half of each year and increases are

Table of Contents

based on our performance and individual performance. Base salary determinations reflect the individual's experience, knowledge, skill set and the market value of that skill set. In setting base salaries for 2007, our Compensation Committee considered the following factors:

Individual performance. As described above under Our Compensation Committee's Processes, base salary increases take into account individual performance and competence assessments.

Market data specific to the executive's position, where applicable. As noted above, our Compensation Committee used certain geographical and market data to test for reasonableness and competitiveness of base salaries, but we also exercised subjective judgment based on the rapid growth of our industry and in view of our compensation objectives.

Consideration of the mix of overall compensation. Consistent with our compensation objectives, as employees progress to higher levels in the organization, a greater proportion of overall compensation is directly linked to our performance and stockholder value. Thus, for example, the founder executive officers' overall compensation is more heavily weighted toward incentive compensation and equity compensation than that of the other executive officers.

Our founder executive officers entered into new employment agreements prior to our initial public offering in 2006 to more closely align the terms of such agreements with those of executives holding equivalent roles at other public companies, including periodic compensation adjustments and annual equity awards. At the time of the negotiation of the employment agreements with Messrs. Talwar and Kapoor in 2006, our Compensation Committee did not make any changes to the salary levels and increased the base pay for each of our founder executive officers to \$420,000 effective January 2007. In increasing the base pay of our founder executive officers, our Compensation Committee applied the principles described above under Our Compensation Committee's Processes.

The founder executive officers made recommendations for the other named executives and our Compensation Committee reviewed similar considerations for such named executives.

Mr. Appel joined us in February 2007. Mr. Appel's base salary was determined through an arm's-length negotiation during the hiring process and based upon his level of responsibility and our assessment of Mr. Appel's experience, skills and knowledge and our general compensation guidelines.

With regard to Mr. Shashank's performance, our Compensation Committee gave particular weight to Mr. Shashank's role in enhancing our compliance programs, improving productivity and controlling cost within the legal department and enabling us to meet our objectives for 2007. Our Compensation Committee also reviewed data from other companies and adjusted Mr. Shashank's compensation in light of such data. Our Compensation Committee increased Mr. Shashank's annual salary by 6% effective April 2007.

With regard to Mr. Bagai's performance, our Compensation Committee gave particular weight to his leadership of our BPO operations and the superior business and financial performance of the BPO service line and enabling us to meet our objectives for 2007. In light of a significant upward adjustment to Mr. Bagai's fixed compensation in October 2006, our Compensation Committee did not adjust Mr. Bagai's fixed compensation during 2007. As is customary in India, where Mr. Bagai is based, Mr. Bagai's base salary comprises a portion of his fixed compensation, which includes amounts such as payments for house rent and certain travel expenses.

With regard to Mr. Kini's performance, our Compensation Committee gave particular weight to his leadership of our risk advisory business. Our Compensation Committee also reviewed data from other companies and adjusted Mr. Kini's compensation in light of such data. Our Compensation Committee increased Mr. Kini's annual salary by 33.3% effective April 1, 2007.

Table of Contents

The following table sets forth the base salary earned during 2007 by each of our named executive officers.

Name	Salary (\$)
Vikram Talwar	416,667
Rohit Kapoor	416,667
Matt Appel	312,500
Amit Shashank	290,625
Narasimha Kini	192,520
Pavan Bagai	178,459

Cash Incentive Bonus

We have established an annual cash incentive bonus program in order to align executive officers' and employees' goals generally with our revenue and profitability objectives for the current year. A cash incentive bonus program was approved by our Compensation Committee in early 2007 with respect to the cash incentive bonuses to be paid in 2008 to all eligible employees worldwide. The aggregate amount of all cash bonuses paid for 2007 did not exceed the aggregate cash incentive bonus pool approved by our Compensation Committee in 2007. Under the plan, bonus target amounts, expressed as a percentage of base salary, are established for participants at the beginning of each year unless employment agreements contain different terms. Funding of possible bonus payouts for the year are determined by our financial results for the year relative to predetermined performance measures, and may be increased or decreased depending upon the executive's individual performance against his or her non-financial goals. When our performance falls short of target, our aggregate funding of the annual cash bonus incentive pool declines, with no funding of the bonus pool if we do not achieve 90% of each of our predetermined financial performance objectives. At the end of the performance period, our Compensation Committee has discretion to adjust an award payout from the amount yielded by the formula. For 2007, our Compensation Committee did not adjust an award payout for any executive officer. Our Compensation Committee considered the following when establishing the awards for 2007:

Bonus Targets. Bonus targets were based on job responsibilities and comparable market data. Our objective was to set bonus targets such that total annual cash compensation was within the broad middle range of market data and a substantial portion of that compensation was linked to our performance. Consistent with our executive compensation policy, individuals with greater job responsibilities had a greater proportion of their total cash compensation tied to our performance through the bonus plan. Thus, our Compensation Committee established the following bonus targets for 2007 (expressed as a percentage of base salary as well as maximum bonus targets) for each named executive officer:

Name	Bonus Target
Vikram Talwar	75% of base salary; maximum bonus of 150% of base salary
Rohit Kapoor	75% of base salary; maximum bonus of 150% of base salary
Matt Appel	50% of base salary; maximum bonus of 100% of base salary
Amit Shashank	40% of base salary; maximum bonus of 80% of base salary
Narasimha Kini	35% of base salary from January 1 through March 31, 2007; 50% of base salary from April 1 through December 31, 2007; maximum bonus equal to the sum of 70% of base salary from January 1 through March 31, 2007 and 100% of base salary from April 1 through December 31, 2007
Pavan Bagai	30% of fixed compensation from January 1 through March 31, 2007; 40% of fixed compensation from April 1 through December 31, 2007; maximum bonus equal to the sum of 60% of fixed compensation from January 1 to March 31, 2007 and 80% of fixed compensation from April 1 to December 31, 2007

Table of Contents

As employees progress to higher levels of management, they are able to more directly affect our results and strategic initiatives, and therefore an increasing proportion of their pay is linked to our performance measures. For 2007, the target bonus for each of our founder executive officers was 70% dependent on our performance and 30% dependent on individual performance and the percentage allocations were modified from 2006 to reflect a balance between near-term financial targets and longer-term objectives. For our other named executive officers, 60% was dependent on our performance and 40% was dependent on individual performance.

Our performance measures. For all employees, including our executive officers, our Compensation Committee established 2007 performance measures for us based on a weighting of 50% on gross revenue (target of \$181.0 million) and 50% on the profitability measure of earnings before interest and taxes adjusted to exclude the effect of expenses associated with stock compensation as well as the amortization of intangibles (Adjusted EBIT) (target of \$22.9 million). For each performance criteria, the amount of bonus pool funding decreases by 7.5% for each 1% by which we miss our target (and if we do not attain at least 90% of the gross revenue target or the Adjusted EBIT target, then there will be no bonus pool funding in respect of that performance criteria). For each 1% by which we exceed our gross revenue target (up to 105%), the bonus pool funding in respect of that criteria increases by 8%, and for each additional 1% by which we exceed our gross revenue target, the bonus pool funding in respect of that criteria increases by 12% (with a maximum of 200% funding for that criteria if we equal or exceed 110% of the gross revenue target). For each 1% by which we exceed our Adjusted EBIT target, the bonus pool funding in respect of that criteria increases on an increasing scale of 5% to 9% (with a maximum of 200% funding for that criteria if we equal or exceed 115% of the gross revenue target). Our Compensation Committee also set forth the 2007 performance measures for our operating divisions in connection with determining the incentive bonus for employees, including senior executives, whose incentive bonuses are also tied partially to the financial performance of the relevant operating division. With respect to Mr. Kini and Mr. Bagai, the 60% financial component is separated into two parts: 30% based on our financial performance against the targets as described above, and 30% based on the financial performance of our operating divisions (Advisory business in the case of Mr. Kini, and the BPO business in the case of Mr. Bagai) against the gross revenue targets of \$13.4 million and \$148.7 million for the Advisory and BPO businesses, respectively, and gross margin targets of \$4.2 million and \$53.9 million for the Advisory and BPO businesses, respectively, both of which were determined by our Compensation Committee in April 2007. Our Compensation Committee believes that this mix of performance measures encourages employees to focus appropriately on improving both top-line revenues and bottom-line earnings. The measures are also effective motivators because they are easy to track and clearly understood by employees. In 2007 payouts could have ranged from zero to 200% of target depending on our performance. Our Compensation Committee established the performance measures (that is, the thresholds at which the payouts would be 100% of target) for both revenue and Adjusted EBIT (and gross margin for the Advisory and BPO operating divisions) by applying the principles described above under Our Compensation Committee's Processes.

Individual performance measures. These goals are designed to balance the attention of our named executive officers between the achievement of near term objectives that improve specific processes or performance metrics and somewhat longer term objectives for us. While some of the goals are subjective, certain other goals are capable of objective measurement such as client and employee satisfaction measures. In 2007 payouts could have ranged from zero to 200% of target depending on individual performance as described above under Our Compensation Committee's Processes.

In establishing each of Mr. Talwar's and Kapoor's cash incentive bonus for 2007, our Compensation Committee applied the principles described above under Our Compensation Committee's Processes. Our Nominating and Governance Committee assessed each of our founder executive officer's performance for 2007. They considered each founder executive officer's accomplishment of objectives that had been established at the beginning of the year and the Nominating and Governance Committee's own assessment of their performance, including against pre-established goals. They noted that under the leadership of our founder executive officers, in

Table of Contents

2007, we achieved gross revenues of \$179.9 million and Adjusted EBIT of \$23.2 million. As a result of our not achieving the predetermined revenue target, only 93% of the target bonus for achievement of revenues was paid, while 105% of the target bonus for achievement of Adjusted EBIT was paid as a result of exceeding the predetermined Adjusted EBIT target. In awarding cash incentive bonuses of \$306,369 to each of our founder executive officers, our Compensation Committee also noted that our financial performance was especially commendable in light of the challenging macroeconomic environment, robust operations performance and strengthened client relationships, and reflected Mr. Talwar's and Kapoor's performance relating to their significant individual performance goals, which encompassed attrition management, succession planning, organization building and development and strengthening of the business development team.

Our founder executive officers made recommendations for our other named executive officers employed by us at the end of 2007 and our Compensation Committee reviewed similar considerations for such named executive officers.

In addition to the \$30,000 signing bonus provided to Mr. Appel in connection with his commencement of employment with us, our Compensation Committee awarded Mr. Appel a cash incentive bonus of \$186,375, which was less than the target bonus of \$187,500 as a result of our financial performance in 2007. Our Compensation Committee recognized Mr. Appel's individual performance goal achievements, including Mr. Appel's role in strengthening the finance department, leadership in designing and implementing processes with a view to achieving compliance with Section 404 of the Sarbanes-Oxley Act of 2002, collaborating with business operating leadership, contributing to the executive leadership team's strategic planning process, effectively engaging with investors and the broader investment community and enabling us to meet our objectives for 2007.

Our Compensation Committee awarded Mr. Shashank a cash incentive bonus of \$130,449, which was in excess of the target bonus of \$117,100. Our Compensation Committee recognized and gave additional weight to Mr. Shashank's individual performance goal achievements, including Mr. Shashank's role in enhancing our compliance programs, improving productivity and controlling cost within the legal department, contributing to the executive leadership team's strategic planning process, effectively engaging with and supporting the Board and enabling us to meet our objectives for 2007.

Our Compensation Committee awarded Mr. Bagai a cash incentive bonus of \$125,379, which was in excess of his target bonus of \$90,396. They noted that for the BPO business we achieved gross revenues of \$148.7 million and gross margin of \$56.9 million. Our Compensation Committee recognized and gave additional weight to Mr. Bagai's individual performance goal achievements, including Mr. Bagai's leadership of our BPO operations and the superior business and financial performance of the BPO service line, contributing to the executive leadership team's strategic planning process, contributing to increased employee and client satisfaction and attrition management and his contributions toward enabling us to meet our objectives for 2007.

Our Compensation Committee awarded Mr. Kini a cash incentive bonus of \$123,419, which was in excess of his target bonus of \$88,125. They noted that for the Advisory business we achieved gross revenues of \$13.4 million and gross margin of \$4.6 million. Our Compensation Committee recognized and gave additional weight to Mr. Kini's individual performance goal achievements, including leadership of our risk advisory business and the superior business and financial performance of that business, contributing to increased employee and client satisfaction and attrition management and his contributions toward enabling us to meet our objectives for 2007.

Equity Incentives

We provide the opportunity for our named executive officers and other executives to earn a long-term equity incentive award. Long-term incentive awards provide employees with the incentive to stay with us for longer periods of time, which in turn, provides us with greater stability during our period of growth. These incentives foster the long-term perspective necessary for continued success in our business because the value of the awards is directly linked to long-term stock price performance and also ensure that our executive officers are properly focused on stockholder value. We review long-term equity incentives for our named executive officers and other executives periodically and make grants to executive officers at one or more pre-scheduled meetings of our Compensation Committee in March or April.

Prior to our initial public offering, our stock option program was based on grants that were individually negotiated in connection with employment agreements and other grants to our executives. In 2007, we employed two forms of equity incentives to executive officers granted under our 2006 Omnibus Award Plan, which we refer to as the 2006 Plan: stock options and restricted stock.

Equity Incentives Stock Options

Stock options align employee incentives with stockholders because options have value only if the stock price increases over time. In this sense, stock options are a motivational tool. Our ten-year options under our 2006 Plan are granted at the average of the high and low price on the trading day immediately prior to the date of grant. Stock options granted under our 2006 Plan generally vest over a four year period with 10% vesting on the first anniversary of the date of grant, an additional 20% vesting on the second anniversary of the grant date, an additional 30% vesting on the third anniversary of the grant date and the remaining 40% vesting on the fourth anniversary of the grant date. Our Compensation Committee has, on occasion, altered the vesting cycle based on unique circumstances associated with a particular grant. For example, such occasions have arisen where there has been a delay in the finalization of an employee's employment agreement or where we determined that it was appropriate to credit an employee for service performed by such executive prior to our Compensation Committee's approval of such grant. The four year vesting period helps focus employees on long-term growth and helps to retain key employees. Our 2006 Plan prohibits the repricing of stock options under our 2006 Plan without the approval of our stockholders.

Our Compensation Committee considered the following in establishing our 2007 option grants to all employees, including our executive officers:

Grant size. In determining the number of options to be granted to senior executive officers, our Compensation Committee took into account the individual's position, scope of responsibility, ability to affect profits and stockholder value, the individual's historic and recent performance, the value of stock options in relation to other elements of total compensation and total compensation amounts paid by peer group companies.

Table of Contents

Grant Timing and Price. Our Compensation Committee's procedure for the timing of equity grants (stock options, restricted stock or any other form of equity award permitted under our 2006 Plan) ensures that grant timing is not being manipulated to result in a price that is favorable to employees. The annual equity grant date for all eligible employees, including executive officers, is in March or April (depending on when our Compensation Committee holds its pre-scheduled meeting or meetings discussed above). The grant date timing coincides with our calendar-year-based performance management cycle, allowing supervisors to deliver the equity awards close in time to certain aspects of individual performance appraisals, which increases the impact of the awards by strengthening the link between pay and performance. However, some exceptions to the annual grant date are expected. Under their respective employment agreements, equity incentive grants for Messrs. Talwar and Kapoor are considered in January of each year. Other exceptions to the annual equity grant date occur periodically for matters such as new hires of executive officers (including Mr. Appel in 2007). This primary annual grant date is established by our Compensation Committee well in advance typically in the calendar year prior to our Compensation Committee meeting and on the same date as the meetings of our board of directors and other committees. Scheduling decisions of our Compensation Committee meetings are made without regard to our anticipated earnings or other major announcements.

Grants for new hires are generally made at the next scheduled Compensation Committee meeting after the joining date of such hire. In connection with the entry into our employment agreement with Mr. Appel in February 2007, we granted Mr. Appel a stock option grant of 100,000 shares of our common stock, with a per-share exercise price of \$24.10. Mr. Appel's stock option grant in 2007 vests over a four year period with 10% vesting on the first anniversary of the date of grant, an additional 20% vesting on the second anniversary of the date of grant, an additional 30% vesting on the third anniversary of the date of grant and the remaining 40% vesting on the fourth anniversary of the date of grant, subject generally to continued employment through each such vesting date.

Equity Incentives Restricted Stock

Restricted stock awards offer executives the opportunity to receive shares of our common stock on the date that the restriction lapses and serve both to reward and retain executives since the value of the restricted stock awards is linked to the price of our stock on the date that the restriction lapses. In addition, restricted stock awards are potentially less dilutive to stockholders' equity since restricted stock awards are full value awards and our Compensation Committee can award fewer restricted stock awards than an equivalent value of stock options. As with stock options, restricted stock awards provide a significant degree of alignment of interests between our executive officers and stockholders. Restricted stock awards have only been issued under our 2006 Plan.

Grant values for individuals were determined based on individual performance and comparable market data. Consistent with our compensation philosophy, individuals at higher levels received a greater proportion of their total pay in the form of equity.

Consistent with our equity grants to each founder executive officer in the preceding year, we awarded 75,000 shares of restricted stock to each founder executive officer, 25% of which vest on January 26, 2008 and the remainder of which will vest in additional 25% increments on each of January 26, 2009, January 26, 2010, and January 26, 2011.

In connection with the entry into our employment agreement with Mr. Appel in February 2007, we granted Mr. Appel 17,000 restricted shares of our common stock, that vests over a four year period with 10% vesting on the first anniversary of the date of grant, an additional 20% vesting on the second anniversary of the date of grant, an additional 30% vesting on the third anniversary of the date of grant and the remaining 40% vesting on the fourth anniversary of the date of grant, subject generally to continued employment through each such vesting date.

The Government of India announced significant tax legislation affecting imposing a fringe benefit tax on the vesting of equity instruments on or after April 1, 2007 at approximately the time of the pre-scheduled meeting of

Table of Contents

our Compensation Committee in March or April when equity awards are traditionally considered. As a result of our evaluation of such legislation, we deferred equity grants to all employees, including our executive officers, until the pre-scheduled meeting of our Compensation Committee in June 2007. In June 2007, we approved a grant of 10,000 shares of restricted stock to each of Messrs. Shashank and Kini and 15,000 shares of restricted stock to Mr. Bagai. In order to keep the annual equity awards for each of our executive officers on approximately the same vesting cycle in each year, each of the restricted stock awards to Messrs. Shashank, Bagai and Kini vest over a four year period with 10% vesting on the first anniversary of the date of the April meeting of our Compensation Committee and an additional 20%, 30% and 40% vest on each successive anniversary of that date.

The following table sets forth the number of shares of restricted stock and stock options made to each of our named executive officers in 2007.

Name	Restricted Stock (#)	Stock Options (#)
Vikram Talwar	75,000	
Rohit Kapoor	75,000	
Matt Appel	17,000	100,000

Benefits and Perquisites

We offer employee benefits coverage in order to:

provide our global work force with a reasonable level of financial support in the event of illness or injury, and

enhance productivity and job satisfaction through programs that focus on work/life balance.

The benefits available for all U.S. employees and executive officers include customary medical and dental coverage, disability insurance and life insurance. In addition, our 401(k) Plan provides a reasonable level of retirement income reflecting employees' careers with us. A number of our U.S. employees, including executive officers, participate in these plans.

The cost of both employee and post-employment benefits is partially borne by our employees, including our executive officers.

We do not provide significant perquisites or personal benefits to executive officers other than our founder executive officers. Each founder executive officer is provided a limited number of perquisites whose primary purpose is to minimize distractions from his attention to our important initiatives and to be competitive. A discussion of the benefits provided to the founder executive officers is provided under *Employment Agreements* below.

Severance Benefits

We are obligated to pay severance or other enhanced benefits to our named executive officers upon termination of their employment under the terms of their respective employment agreements that were negotiated through arms-length contract negotiations. A discussion of the severance and other enhanced benefits provided to our named executive officers currently employed by us is provided under *Potential Payments Upon Termination or Change in Control* below.

We have provided change in control severance protection for certain of our executive officers, including our named executive officers. Our Compensation Committee believes that such protection is intended to preserve

Table of Contents

employee morale and productivity and encourage retention in the face of the disruptive impact of an actual or rumored change in control. In addition, for executive officers, the program is intended to align executive officers' and stockholder interests by enabling executive officers to consider corporate transactions that are in the best interests of our stockholders and other constituents without undue concern over whether the transactions may jeopardize the executive officers' own employment.

Senior executive officers, including our named executive officers, have enhanced levels of benefits based on their job level, seniority and probable loss of employment after a change in control. We also consider it likely that it will take more time for senior executive officers to find new employment. Therefore senior executive officers generally are paid severance for a longer period:

Accelerated vesting of equity awards. All executive officers receive an advancement of vesting by one year of all unvested equity awards at the time of termination of employment.

Covered terminations. Eligible executive officers are eligible for payments if, within one year of the change in control, their employment is terminated (i) without cause by us or (ii) for good reason by the executive officer.

Severance payment. Eligible terminated executive officers receive severance payments reflecting the expected duration for such executive officers to find new employment.

Benefit continuation. Eligible terminated executive officers receive basic employee benefits such as health and life insurance for up to two years following termination of employment.

Deductibility Cap on Executive Compensation

U.S. federal income tax law prohibits us from taking a tax deduction for certain compensation paid in excess of \$1,000,000 to our named executive officers. However, performance-based compensation, as defined in the tax law, is fully deductible if the programs are approved by stockholders and meet other requirements. Our policy is to qualify our incentive compensation programs for full corporate deductibility to the extent feasible and consistent with our overall compensation goals as reflected in the summary compensation table below.

We have taken steps to qualify stock options and performance awards under the 2006 Plan for full deductibility as performance-based compensation. Our Compensation Committee may make payments that are not fully deductible if, in its judgment, such payments are necessary to achieve our compensation objectives and to protect stockholder interests.

Potential Payments Upon Termination or Change of Control*Vikram Talwar and Rohit Kapoor*

Severance. If either Mr. Talwar's or Mr. Kapoor's employment is terminated by us without cause or by the executive for good reason (in each case, as described below), the executive will be entitled to severance consisting of:

continuation of his base salary for 24 months;

his actual bonus, if any, earned for the year of termination, determined as if he had been employed for the full year of termination, paid ratably over the remaining period and number of base salary payments; and

continuation of life insurance coverage for 18 months. The life insurance coverage will terminate at the time the executive commences employment with another employer.

Cause will occur when:

there is a final non-appealable conviction of or pleading of no contest to a felony, or a crime of moral turpitude which causes serious economic harm or injury to our reputation;

the executive engages in fraud, embezzlement, self-dealing, gross negligence, dishonesty or other gross and willful misconduct which causes serious and demonstrable injury to us;

the executive materially violates any of our material policies or materially and intentionally fails to comply with applicable laws;

the executive willfully fails to perform his duties for 15 days after we notify him in writing of his need to substantially improve his performance;

the executive fails to reasonably cooperate in a governmental investigation involving us;

the executive fails to follow our board of directors' lawful instructions and does not remedy the failure for 15 days after we give him written notice;

the executive's use of alcohol or drugs materially interferes with the performance of his duties; or

Table of Contents

the executive fails to take reasonable steps to end certain affiliations specified in his employment agreement within six months after a request by our board of directors.

Good reason means:

the executive's duties or responsibilities are substantially diminished, or he is required to report to anyone other than our board of directors;

the executive's title as our officer is adversely changed, except if the change occurs after a change in control and his new title and duties are similar to his old title and duties;

the executive's base salary is reduced, or his target annual bonus opportunity is reduced below 75% of his base salary, unless a Company-wide decrease in pay is implemented;

the location where the executive is based is moved more than 30 miles, and the new location is more than 30 miles from his primary residence; or

we breach any material term of the executive's employment agreement.

If the executive plans to terminate his employment for good reason, he must notify us within 30 days of the date the problem began and must allow us 15 days to remedy the problem.

Change in Control Severance. If a termination described above occurs within 12 months following a change in control, the executive will receive, in lieu of the severance described above, a lump sum payment of \$999,000 and full vesting of all unvested equity awards granted on or after September 30, 2006.

A change in control means any of the following events:

any person or group becomes a beneficial owner (within the meaning of Rule 13d-3 under the Exchange Act) of more than 50% of either (1) the combined voting power of our then-outstanding voting securities entitled to vote in the election of directors or (2) our outstanding shares of common stock, assuming all rights to acquire common stock through options, warrants, conversion of convertible stock or debt, and the like are exercised. Certain acquisitions by our stockholders, Oak Hill Partners, L.P., FT Ventures and their affiliates, will not trigger a change in control;

a majority of the members of our board of directors changes, except as allowed by the agreement;

our dissolution or liquidation;

the sale or disposition of all or substantially all of our business or our assets; or

consummation of a reorganization, recapitalization, merger, consolidation or similar transaction with another entity. A transaction will not be a change in control if after the transaction:

Edgar Filing: ExlService Holdings, Inc. - Form PRE 14A

more than 50% of the total voting power of the resulting entity or its ultimate parent is represented by what were our outstanding voting securities before the transaction in substantially the same proportion among holders;

no person or group is or becomes the beneficial owner of more than 50% of the total voting power of the outstanding voting securities eligible to elect members of the board of directors of the parent or surviving company; and

at least a majority of the members of the board of directors of the parent or surviving company following the transaction were our board members when our board first approved the transaction.

Death or Disability. If either Mr. Talwar's or Mr. Kapoor's employment terminates on account of death or is terminated by either the executive or us for Disability (as defined in the agreement), the executive will be entitled to a pro-rated portion of the projected bonus amount for the year of termination.

Post-Termination Health Benefits. When Mr. Talwar's or Mr. Kapoor's employment ends for any reason other than termination by us for Cause or a voluntary termination by the executive, we will pay on behalf of the executive and his eligible dependents the cost of continued coverage under our group health plan for 18 months in accordance with applicable federal law governing continuation group health plan coverage (COBRA). These payments will end when the executive becomes eligible for comparable health benefits from another employer. If the executive elects coverage under COBRA, we have agreed to help him obtain an individual health policy at his cost when his COBRA coverage expires.

Noncompete and Nonsolicit Provisions. Each of Messrs. Talwar and Kapoor is subject to confidentiality restrictions and noncompete, non-disparagement and nonsolicit/no-hire restrictions during his employment and for one year thereafter, unless his agreement ends because we do not renew the term. If we do not renew the term and we pay the executive an amount equal to his base salary for one year, the restrictions remain in place for one year following termination of employment.

Equity Award Treatment. If Mr. Talwar's employment ends at the expiration of the term of his employment agreement because we give a notice of nonrenewal of the term of that agreement, or if a change in control occurs (as defined in our 2006 Plan), any portion of the restricted stock which would have vested in the one year period following the termination of employment or change in control (as applicable) will become vested on the termination date or the consummation of the change in control (as applicable).

If Mr. Talwar's employment is terminated by us without cause (as defined in our 2006 Plan) in specific contemplation of or following a change in control or if Mr. Talwar resigns for good reason (as defined in the award agreement) following a change in control, the restricted stock award will become fully vested. Mr. Talwar will need to execute a standard release of employment-related claims in order for his restricted stock award to vest in such a case.

If Mr. Kapoor's employment ends at the expiration of the term of his employment agreement because we give a notice of nonrenewal of the term of that agreement or if a change in control occurs (as defined in our 2006 Plan), any portion of his stock options and restricted stock which would have vested in the one year period following the termination of employment or change in control (as applicable) will become vested on the termination date or the consummation of the change in control (as applicable).

If Mr. Kapoor's employment is terminated by us without cause (as defined in our 2006 Plan) in specific contemplation of or following a change in control, or if Mr. Kapoor resigns for good reason (as defined in the award agreement) following a change in control, his stock options and restricted stock will become fully vested and exercisable. Mr. Kapoor will need to execute a standard release of employment-related claims in order for his stock option and restricted stock to vest in such a case.

On a change in control (as defined using the same definition set forth above for Mr. Talwar and Mr. Kapoor), the vesting of all of Mr. Appel's outstanding equity awards will be advanced by one year. For example, since Mr. Appel's awards vest as to 10%, 20%, 30% and 40% of the award on each of the first four anniversaries of the date of grant, then if he were 10% vested in the award immediately prior to the change in control, Mr. Appel will be 30% vested in the award immediately after the change in control. In addition, if (i) Mr. Appel's employment is terminated without cause at any time after a change of control or in specific contemplation of a change of control or (ii) Mr. Appel resigns with good reason (as defined below) at any time following a Change of Control, Mr. Appel will also be entitled to immediate vesting of any unvested options to purchase common stock and any unvested shares of restricted stock.

- (4) Mr. Ostler joined our board of directors on December 6, 2007.

- (5) Mr. Karnik joined our board of directors on September 25, 2008.

Each member of our board of directors other than Messrs. Talwar, Kapoor and Ostler received a grant on the anniversary of his board service date of restricted stock units representing 4,000 shares of our common stock. The grants provide that the restricted stock units will vest on the earlier of:

the first anniversary of the date of grant,

the end of the reporting person's term on our board of directors, and

the occurrence of a change in control, as defined in the 2006 Plan,

Table of Contents

Holders of restricted stock units do not receive the underlying share of common stock until the units have vested and are settled. The restricted stock units issued to each of our directors other than Messrs. Talwar and Kapoor will settle on the earlier of:

such directors death;

the occurrence of a change in control, as defined in the 2006 Plan that satisfies the requirements of Section 409A of the Code; and

180 days following the end of such director's term on our board of directors.

On December 6, 2007, Mr. Ostler was granted an option to purchase 30,000 shares of our common stock, which vests 25% on each of the first four anniversaries of the date of grant.

On September 25, 2008, Mr. Karnik was granted an option to purchase 30,000 shares of our common stock, which vests 25% on each of the first four anniversaries of the date of grant.

Beginning in 2008, each member of the board of directors may elect to receive all or a portion of his or her annual fees earned for service on the board of directors during a subsequent calendar year, whether as part of the annual retainer or committee chairperson fee or otherwise, that would otherwise be payable in cash, in the form of a grant of stock options under our 2006 Omnibus Award Plan.

Directors who elect to receive any portion of their cash director fees in the form of stock options will receive a stock option grant effective as of the first business day of the following year. The stock option grant (i) will have a per share exercise price equal to the fair market value of a share of company common stock on the date of grant (under our 2006 Plan, this is currently determined as the average of the high and low prices on the trading day prior to the date of grant), (ii) will vest and become exercisable on December 31 of the year in which the option is granted, subject to the individual remaining as a member of the board on such date, and (iii) otherwise will be subject to the terms and conditions of the 2006 Plan. The number of shares of our common stock subject to the stock option will be set such that the Black-Scholes value (as determined by us) of the stock option is equal to the dollar amount of director fees the director is electing to defer.

The purpose of the Plan is to provide a means through which the Company and its Affiliates may attract able persons to enter and remain in the employ of the Company and its Affiliates and to provide a means whereby employees, directors and consultants of the Company and its Affiliates can acquire and maintain Common Stock ownership, or be paid incentive compensation measured by reference to the value of Common Stock, thereby strengthening their commitment to the welfare of the Company and its Affiliates and promoting an identity of interest between stockholders and these persons.
