**II The Business**

**(1) Operating Results**

The current financial crisis originated in the United States has spread across the world and the Company's outlook of the business environment has been extremely uncertain. The Company's business conditions have worsened particularly since last October, due mainly to the rapid appreciation of the yen, sluggish consumer spending worldwide and ever-intensified price competition. Under these severe circumstances, aiming at getting out of this difficult situation and getting growth back on original track, Panasonic is implementing initiatives for achieving further progress and strengthening management structure.

Consolidated group sales for the third quarter amounted to 1,879.9 billion yen. Explaining the third quarter results, sales decreased in all business segments due mainly to a rapid deterioration of the world markets conditions.

Regarding earnings, operating profit\* for the third quarter was 26.4 billion yen. This decrease was due mainly to the negative effects of sales declines caused by a sharp downturn of global economy, price declines and the appreciation of the yen. The Company's comprehensive cost reduction activities including materials costs and fixed costs were not sufficient to offset these negative factors.

In other income (deductions), the Company incurred impairment losses of fixed assets. As a result of these and other factors, pre-tax income for this period turned to a loss of 59.1 billion yen.

Provision for income taxes amounted to 25.2 billion yen, due mainly to an increase in valuation allowance to deferred tax assets as a result of a deterioration of financial results in certain subsidiaries.

Minority interests (losses) were 25.6 billion yen, and equity in losses of associated companies was 4.4 billion yen.

As a result of all the factors stated, the Company recorded a net loss of 63.1 billion yen.

- \* In order to be consistent with financial reporting practices generally accepted in Japan, operating profit (loss) is presented as net sales less cost of sales and selling, general and administrative expenses. Under U.S. generally accepted accounting principles, certain expenses such as impairment losses on long-lived assets and expenses associated with the implementation of early retirement programs at certain domestic and overseas companies are included as part of operating profit in the consolidated statements of income.

Notes to Consolidated Financial Statements

**(c) Principles of Consolidation**

The consolidated financial statements include the accounts of the Company and its majority-owned, controlled subsidiaries. The Company also consolidates entities in which controlling interest exists through variable interests in accordance with Financial Accounting Standards Board (FASB) Interpretation No. 46 (revised December 2003),

Consolidation of Variable Interest Entities. Investments in companies and joint ventures over which we have the ability to exercise significant influence (generally through an ownership interest of between 20% to 50%) are included in Investments and advances in the consolidated balance sheets. All significant intercompany balances and transactions have been eliminated in consolidation.

**(d) Use of Estimates**

Management of the Company has made a number of estimates and assumptions relating to the reporting of assets and liabilities and the disclosure of contingent assets and liabilities to prepare these financial statements in conformity with generally accepted accounting principles. Actual results could differ from those estimates.

**(e) Adoption of New Accounting Pronouncements**

In September 2006, FASB issued Statement of Financial Accounting Standards (SFAS) No. 157, Fair Value Measurements. SFAS No. 157 defines fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurements. The Company applied SFAS No. 157 on April 1, 2008. In February 2008, FASB issued Staff Position No. 157-2, Effective Date of FASB Statement No. 157, which partially delays the effective date of SFAS No. 157 by one year for certain nonfinancial assets and liabilities. The adoption of SFAS No. 157 is not expected to have a material effect on the Company's consolidated financial statements and the Company has omitted the disclosures required by SFAS No. 157.

In September 2006, FASB issued SFAS No. 158, *Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans* an amendment of FASB Statements No. 87, 88, 106, and 132(R). SFAS No. 158's provisions regarding the change in the measurement date of postretirement benefit plans require the fair value of plan assets and benefit obligations to be measured as of the date of the fiscal year-end consolidated balance sheet and the Company applied SFAS No. 158's provisions on April 1, 2008. In conformity with the provisions, the Company and certain subsidiaries changed the measurement date to March 31 for those postretirement benefit plans with a December 31 measurement date. With the change in the measurement date, beginning balances of Retained earnings and Accumulated other comprehensive income (loss) Pension liability adjustments at April 1, 2008 has been reduced by 3,727 million yen and 73,571 million yen, respectively.
