SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

FORM 10-Q

x **QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934**

For the quarterly period ended September 30, 2011

.. **TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934**

For the transition period from to

Commission file number 000-20557

THE ANDERSONS, INC.

(Exact name of the registrant as specified in its charter)

Edgar Filing: ANDERSONS INC - Form 10-Q

OHIO (State of incorporation or organization)	34-1562374 (I.R.S. Employer Identification No.)
480 W. Dussel Drive, Maumee, Ohio (Address of principal executive offices)	43537 (Zip Code)
(419) 893-5050 (Telephone Number)	

(Former name, former address and former fiscal year, if changed since last report.)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes ☒ No ☐

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files. Yes ☒ No ☐

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See definitions of large accelerated filer, accelerated filer and smaller reporting company in Rule 12b-2 of the Exchange Act.

Large accelerated filer <input checked="" type="checkbox"/>	Accelerated Filer <input type="checkbox"/>
Non-accelerated filer <input type="checkbox"/>	Smaller reporting company <input type="checkbox"/>

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes ☐ No ☒

The registrant had approximately 18.5 million common shares outstanding, no par value, at October 28, 2011.

The Andersons, Inc.

Notes to Condensed Consolidated Financial Statements

(unaudited)

1. Basis of Presentation and Consolidation

These condensed consolidated financial statements include the accounts of The Andersons, Inc. and its wholly owned and controlled subsidiaries (the Company). All significant intercompany accounts and transactions are eliminated in consolidation.

Investments in unconsolidated entities in which the Company has significant influence, but not control, are accounted for using the equity method of accounting.

In the opinion of management, all adjustments, consisting of normal recurring items, considered necessary for a fair presentation of the results of operations for the periods indicated, have been made. Operating results for the three and nine months ended September 30, 2011 are not necessarily indicative of the results that may be expected for the fiscal year ending December 31, 2011.

The year-end Condensed Consolidated Balance Sheet data at December 31, 2010 was derived from audited consolidated financial statements, but does not include all disclosures required by accounting principles generally accepted in the United States of America. A Condensed Consolidated Balance Sheet as of September 30, 2010 has been included as the Company operates in several seasonal industries.

The accompanying unaudited condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and notes thereto included in The Andersons, Inc. Annual Report on Form 10-K for the year ended December 31, 2010 (the 2010 Form 10-K).

New Accounting Standards

In May 2011, the Financial Accounting Standards Board (FASB) updated Accounting Standards Code (ASC) Topic 820, to clarify requirements on fair value measurements and related disclosures. This update is effective for interim and annual periods beginning after December 15, 2011. The additional requirements in this update will be included in the note on fair value measurements upon adoption in the first quarter of 2012. The new standard will have no impact on our financial condition or results of operations.

In June 2011, the FASB issued Accounting Standards Update No. 2011-05, Comprehensive Income (Topic 220): Presentation of Comprehensive Income (ASU 2011-05). The amendments in ASU 2011-05 eliminate the option to report other comprehensive income in the statement of shareholders' equity and require entities to present the total of comprehensive income, the components of net income, and the components of other comprehensive income either in a single continuous statement of comprehensive income or in two separate but consecutive statements. Additionally, the amendments in ASU 2011-05 require an entity to present on the face of the financial statements reclassification adjustments for items that are reclassified from other comprehensive income to net income in the statement(s) where the components of net income and the components of other comprehensive income are presented. ASU 2011-05 is effective for interim and annual periods beginning after December 15, 2011. Management does not expect material financial statement implications relating to the adoption of this ASU.

In September 2011, the FASB issued Accounting Standards Update No. 2011-08, Intangibles—Goodwill and Other (Topic 350): Testing Goodwill for Impairment (ASU 2011-08). ASU 2011-08 is intended to simplify the testing of goodwill for impairment by permitting an entity to first assess qualitative factors to determine whether it is more likely than not that the fair value of a reporting unit is less than its carrying amount as a basis for determining whether it is necessary to perform the two-step goodwill impairment test described in Topic 350. The amendments are effective for annual and interim goodwill impairment tests performed for fiscal years beginning after December 15, 2011, although early adoption is permitted. The Company plans to implement the requirements of ASU 2011-08 for the 2011 annual goodwill impairment analysis that will be completed in the fourth quarter.

Table of Contents**2. Inventories**

Major classes of inventories are as follows:

(in thousands)	September 30, 2011	December 31, 2010	September 30, 2010
Grain	\$ 253,246	\$ 497,267	\$ 312,919
Agricultural fertilizer and supplies	151,099	90,182	68,580
Lawn and garden fertilizer and corncob products	22,794	32,954	21,527
Retail merchandise	28,386	24,416	26,901
Railcar repair parts	2,434	2,058	2,212
Other	355	312	309
	\$ 458,314	\$ 647,189	\$ 432,448

3. Property, Plant and Equipment

The components of property, plant and equipment are as follows:

(in thousands)	September 30, 2011	December 31, 2010	September 30, 2010
Land	\$ 15,402	\$ 15,424	\$ 15,427
Land improvements and leasehold improvements	45,753	45,080	44,230
Buildings and storage facilities	144,834	141,349	137,652
Machinery and equipment	188,552	181,650	173,890
Software	10,873	10,306	10,224
Construction in progress	17,323	2,572	7,224
	422,737	396,381	388,647
Less accumulated depreciation and amortization	257,844	245,349	241,463
	\$ 164,893	\$ 151,032	\$ 147,184

Depreciation expense on property, plant and equipment amounted to \$15.0 million, \$18.7 million and \$13.9 million for the nine month period ended September 30, 2011, the year ended December 31, 2010 and the nine month period ended September 30, 2010, respectively.

Railcar assets leased to others

The components of Railcar and other assets leased to others are as follows:

(in thousands)	September 30, 2011	December 31, 2010	September 30, 2010
Railcars leased to others	\$ 256,219	\$ 234,667	\$ 233,537
Less accumulated depreciation	72,873	66,184	63,843
	\$ 183,346	\$ 168,483	\$ 169,694

Edgar Filing: ANDERSONS INC - Form 10-Q

Depreciation expense on railcar assets leased to others amounted to \$10.2 million, \$14.0 million and \$10.7 million for the nine month period ended September 30, 2011, the year ended December 31, 2010 and the nine month period ended September 30, 2010, respectively.

Table of Contents**4. Derivatives**

The margin deposit assets and liabilities which were shown net on the face of the balance sheet in previous periods are now included in short-term commodity derivative assets and liabilities, as appropriate. Prior periods have been reclassified to conform to current year presentation. The change in presentation had no effect on current or total assets and liabilities on the Consolidated Balance Sheets.

The Company's operating results are affected by changes to commodity prices. The Grain and Ethanol businesses have established unhedged position limits (the amount of a commodity, either owned or contracted for, that does not have an offsetting derivative contract to lock in the price). To reduce the exposure to market price risk on commodities owned and forward grain and ethanol purchase and sale contracts, the Company enters into exchange traded commodity futures and options contracts and over the counter forward and option contracts with various counterparties, primarily via a regulated exchange such as the Chicago Mercantile Exchange and, to a lesser extent, via over-the-counter contracts with various counterparties. The Company's forward purchase and sales contracts are for physical delivery of the commodity in a future period. Contracts to purchase commodities from producers generally relate to the current or future crop years for delivery periods quoted by regulated commodity exchanges. Contracts for the sale of commodities to processors or other commercial consumers generally do not extend beyond one year.

All of these contracts are considered derivatives. While the Company considers its commodity contracts to be effective economic hedges, the Company does not designate or account for its commodity contracts as hedges as defined under current accounting standards. The Company accounts for its commodity derivatives at estimated fair value, the same method it uses to value its grain inventory. The estimated fair value of the commodity derivative contracts that require the receipt or posting of cash collateral is recorded on a net basis (offset against cash collateral posted or received, also known as margin deposits) within commodity derivative assets or liabilities. Management determines fair value based on exchange-quoted prices and in the case of its forward purchase and sale contracts, estimated fair value is adjusted for differences in local markets and non-performance risk. For contracts for which physical delivery occurs, balance sheet classification is based on estimated delivery date. For futures, options and over-the-counter contracts in which physical delivery is not expected to occur but, rather, the contract is expected to be net settled, the Company classifies these contracts as current or noncurrent assets or liabilities, as appropriate, based on the Company's expectations as to when such contracts will be settled.

Realized and unrealized gains and losses in the value of commodity contracts (whether due to changes in commodity prices, changes in performance or credit risk, or due to sale, maturity or extinguishment of the commodity contract) and grain inventories are included in sales and merchandising revenues in the Condensed Consolidated Statements of Income.

Generally accepted accounting principles permit a party to a master netting arrangement to offset fair value amounts recognized for derivative instruments against the right to reclaim cash collateral or obligation to return cash collateral under the same master netting arrangement. Note 1 of the Company's 2010 Form 10-K provides information surrounding the Company's various master netting arrangements related to its futures, options and over-the-counter contracts. The following table presents at September 30, 2011, December 31, 2010 and September 30, 2010, a summary of the estimated fair value of the Company's commodity derivative instruments that require cash collateral and the associated cash posted/received as collateral. The net asset or liability positions of these derivatives (net of their cash collateral) are determined on a counterparty-by-counterparty basis and are included within short-term commodity derivative assets (or liabilities) on the Condensed Consolidated Balance Sheets:

	September 30, 2011		December 31, 2010		September 30, 2010	
	Net derivative asset position	Net derivative liability position	Net derivative asset position	Net derivative liability position	Net derivative asset position	Net derivative liability position
(in thousands)						
Collateral paid	\$	\$	\$ 166,589	\$	\$ 161,274	\$
Collateral received	(60,247)					
Fair value of derivatives	139,882		(146,330)		(102,662)	
Balance at end of period	\$ 79,635	\$	\$ 20,259	\$	\$ 58,612	\$

Certain of our contracts allow the Company to post grain inventory as collateral rather than cash. Grain inventory posted as collateral on our derivative contracts are recorded in Inventories on the Condensed Consolidated Balance Sheets and the estimated fair value of

Table of Contents

such inventory was \$89.3 million, \$27.3 million and \$1.6 million as of September 30, 2011, December 31, 2010 and September 30, 2010, respectively.

The gains included in the Company's Condensed Consolidated Statements of Income and the line items in which they are located for the three and nine months ended September 30, 2011 are as follows:

(in thousands)	Three months ended September 30, 2011	Nine months ended September 30, 2011
Gains on commodity derivatives included in sales and merchandising revenues	\$ 16,076	\$ 119,743

At September 30, 2011, the Company had the following bushels, tons and gallons outstanding (on a gross basis) on all commodity derivative contracts:

Commodity	Number of bushels (in thousands)	Number of tons (in thousands)	Number of gallons (in thousands)
Non-exchange traded:			
Corn	288,009		
Soybeans	30,819		
Wheat	6,618		
Oats	12,988

Interest Rate and Foreign Currency Derivatives

The Company periodically enters into interest rate contracts to manage interest rate risk on borrowing or financing activities. Information regarding the nature and terms of the Company's interest rate derivatives is presented in Note 15 Derivatives, in the Company's 2010 Form 10-K and such information is consistent with that as of September 30, 2011. The fair values of these derivatives are not material for any of the periods presented and are included in the Company's Condensed Consolidated Balance Sheet in either other current assets or liabilities (if short-term in nature) or in other assets or other long-term liabilities (if non-current in nature). The impact to the Company's results of operations related to these interest rate derivatives was not material for any period presented.

The Company holds a zero cost foreign currency collar to hedge the change in conversion rate between the Canadian dollar and the U.S. dollar for railcar leases in Canada. Information regarding the nature and terms of this derivative is presented in Note 15 Derivatives, in the Company's

Edgar Filing: ANDERSONS INC - Form 10-Q

2010 Form 10-K and such information is consistent with that as of September 30, 2011. The fair value of this derivative and its impact to the Company's results of operations for any of the periods presented were not material.

5. Earnings Per Share

Unvested share-based payment awards that contain non-forfeitable rights to dividends are participating securities and are included in the computation of earnings per share pursuant to the two-class method. The two-class method of computing earnings per share is an earnings allocation formula that determines earnings per share for common stock and any participating securities according to dividends declared (whether paid or unpaid) and participation rights in undistributed earnings. The Company's nonvested restricted stock are considered participating securities since the share-based awards contain a non-forfeitable right to dividends irrespective of whether the awards ultimately vest.

Benefit cost	\$ 549	\$ 465	\$ 1,649	\$ 1,394

In March 2010, the Patient Protection and Affordable Care Act (PPACA) was signed into law. One of the provisions of the PPACA eliminates the tax deductibility of retiree health care costs to the extent of federal subsidies received by plan sponsors that provide retiree prescription drug benefits equivalent to Medicare Part D coverage. As a result, the Company was required to make an adjustment to its deferred tax asset associated with its postretirement benefit plan in the amount of \$1.5 million during the first quarter of 2010. The offset to this adjustment was included in the provision for income taxes on the Company's Condensed Consolidated Statement of Income.

7. Segment Information

During the first quarter of 2011, management re-evaluated the Company's reportable segments. Based on that evaluation, the Company has separated the segment previously reported as Grain & Ethanol into two separate reportable segments for external

Table of Contents

financial reporting. The Company also evaluated the impact of this change on the recoverability of goodwill and no impairment charge was necessary. Corresponding items of segment information for earlier periods have been reclassified to conform to current year presentation.

The Company's operations include six reportable business segments that are distinguished primarily on the basis of products and services offered. The Grain business includes grain merchandising, the operation of terminal grain elevator facilities and the investment in Lansing Trade Group, LLC (LTG). The Ethanol business purchases and sells ethanol and also manages the ethanol production facilities organized as limited liability companies (ethanol LLCs) in which the Company has investments and various service contracts for these investments. Rail operations include the leasing, marketing and fleet management of railcars and locomotives, railcar repair and metal fabrication. The Plant Nutrient business manufactures and distributes agricultural inputs, primarily fertilizer, to dealers and farmers. Turf & Specialty operations include the production and distribution of turf care and corncob-based products. The Retail business operates large retail stores, a specialty food market, a distribution center and a lawn and garden equipment sales and service shop. Included in Other are the corporate level amounts not attributable to an operating segment.

Table of Contents

- (a) Operating income (loss), the operating segment measure of profitability, is defined as net sales and merchandising revenues plus identifiable other income less all identifiable operating expenses, including interest expense for carrying working capital and long-term assets and is reported net of the noncontrolling interest share of (income) loss.

8. Related Party TransactionsEquity Method Investments

The Company, directly or indirectly, holds investments in companies that are accounted for under the equity method. The Company's equity in these entities is presented at cost plus its accumulated proportional share of income or loss, less any distributions it has received. See Note 3 in the Company's 2010 Form 10-K for more information, including descriptions of various arrangements the Company has with certain of these entities.

For the quarters ended September 30, 2011 and 2010, revenues recognized for the sale of ethanol that the Company purchased from the ethanol LLCs were \$180.8 million and \$118.2 million, respectively. For the nine months ended September 30, 2011 and 2010, revenues recognized for the sale of ethanol that the Company purchased from the ethanol LLCs were \$507.5 million and \$328.3 million, respectively. For the quarters ended September 30, 2011 and 2010, revenues recognized for the sale of corn to the ethanol LLCs under these agreements were \$147.0 million and \$101.2 million, respectively. For the nine months ended September 30, 2011 and 2010, revenues recognized for the sale of corn to the ethanol LLCs were \$488.1 million and \$296.4 million, respectively.

The Company also sells and purchases both grain and ethanol with LTG in the ordinary course of business on terms similar to sales and purchases with unrelated customers.

From time to time, the Company enters into derivative contracts with certain of its related parties, including the ethanol LLCs and LTG, for the purchase and sale of corn and ethanol, for similar price risk mitigation purposes and on similar terms as the purchase and sale of derivative contracts it enters into with unrelated parties. At September 30, 2011, the fair value of derivative contracts with related parties was a gross asset and liability of \$4.9 million and \$1.9 million, respectively.

The following table summarizes income (losses) earned from the Company's equity method investments by entity:

	% ownership at				
	September 30, 2011	Three months ended		Nine months ended	
	(direct and indirect)	September 30, 2011	September 30, 2010	September 30, 2011	September 30, 2010
(in thousands)					
The Andersons Albion Ethanol LLC	50%	\$ 1,190	\$ (177)	\$ 3,720	\$ 3,745
The Andersons Clymers Ethanol LLC	38%	211	(108)	3,130	4,823
The Andersons Marathon Ethanol LLC	50%	1,868	(2,350)	4,516	34
Lansing Trade Group, LLC	52%	6,518	1,538	18,030	6,696
Other	7%-33%	(56)	1	93	178
Total		\$ 9,731	\$ (1,096)	\$ 29,489	\$ 15,476

Total distributions received from unconsolidated affiliates were \$0.5 million and \$15.8 million for the three and nine months ended September 30, 2011.

While the Company holds a majority of the outstanding shares of LTG, all major operating decisions of LTG are made by LTG's Board of Directors and the Company does not have a majority of the board seats. In addition, based on the terms of the LTG operating agreement, the minority shareholders have substantive participating rights that allow them to effectively participate in the decisions made in the ordinary course of business that are significant to LTG. Due to these factors, the Company does not have control over LTG and therefore accounts for this investment under the equity method.

Edgar Filing: ANDERSONS INC - Form 10-Q

The Company holds a majority interest (66%) in The Andersons Ethanol Investment LLC (TAEI). This consolidated entity holds a 50% interest in The Andersons Marathon Ethanol LLC (TAME). The noncontrolling interest in TAEI is attributed 34% of all gains and losses of TAME.

Table of Contents

The following table presents the Company's investment balance in each of its equity method investees by entity:

(in thousands)	September 30, 2011	December 31, 2010	September 30, 2010
The Andersons Albion Ethanol LLC	\$ 31,764	\$ 31,048	\$ 30,876

Other	1,898	1,733	1,430
Total	\$ 189,118	\$ 175,349	\$ 165,421

Investment in Debt Securities

During the second quarter of 2010, the Company paid \$13.1 million to acquire 100% of newly issued cumulative convertible preferred shares of Iowa Northern Railway Corporation (IANR), which operates a short-line railroad in Iowa. As a result of this investment, the Company has a 49.9% voting interest in IANR, with the remaining 50.1% voting interest held by the common shareholders. The preferred shares purchased by the Company have certain rights associated with them, including voting, dividends, liquidation, redemption and conversion. Dividends accrue to the Company at a rate of 14% annually whether or not declared by IANR and are cumulative in nature. The Company can convert its preferred shares into common shares of IANR at any time, but the shares cannot be redeemed until after five years. This investment is accounted for as available-for-sale debt securities in accordance with ASC 320 and is carried at estimated fair value in Other noncurrent assets on the Company's Condensed Consolidated Balance Sheet. The estimated fair value of the Company's investment in IANR as of September 30, 2011 was \$15.8 million.

Based on the Company's assessment, IANR is considered a variable interest entity (VIE). Since the Company does not possess the power to direct the activities of the VIE that most significantly impact the entity's economic performance, it is not considered to be the primary beneficiary of IANR and therefore does not consolidate IANR. The decisions that most significantly impact the economic performance of IANR are made by IANR's Board of Directors. The Board of Directors has five directors; two directors from the Company, two directors from the common shareholders and one independent director who is elected by unanimous decision of the other four directors. The vote of four of the five directors is required for all key decisions.

The Company's current maximum exposure to loss related to IANR is \$17.3 million, which represents the Company's investment at fair value plus unpaid accrued dividends to date of \$1.5 million. The Company does not have any obligation or commitments to provide additional financial support to IANR.

Related Party Transactions

In the ordinary course of business, the Company will enter into related party transactions with each of the investments described above, along with other related parties. The following table sets forth the related party transactions entered into for the time periods presented:

	Three months ended		Nine months ended	
(in thousands)	September 30, 2011	September 30, 2010	September 30, 2011	September 30, 2010
Sales and service fee revenues	\$ 183,269	\$ 119,510	\$ 611,125	\$ 353,641
Purchases of product	174,864	108,233	462,988	323,304
Lease income (a)	1,445	1,413	4,112	4,232
Labor and benefits reimbursement (b)	2,730	2,654	8,114	8,053
Other expenses (c)	59		104	
Accounts receivable at September 30 (d)	8,615	15,136		
Accounts payable at September 30 (e)	18,857	18,229		

Edgar Filing: ANDERSONS INC - Form 10-Q

- (a) Lease income includes the lease of the Company's Albion, Michigan and Clymers, Indiana grain facilities as well as certain railcars to the various LLCs and IANR.
- (b) The Company provides all operational labor to the ethanol LLCs, and charges them an amount equal to the Company's costs of the related services.
- (c) Other expenses include payments to IANR for repair shop rent and use of their railroad reporting mark.
- (d) Accounts receivable represents amounts due from related parties for sales of corn, leasing revenue and service fees.
- (e) Accounts payable represents amounts due to related parties for purchases of ethanol.

Table of Contents**9. Fair Value Measurements**

Table of Contents

The majority of the Company's assets and liabilities measured at fair value are based on the market approach valuation technique. With the market approach, fair value is derived using prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities.

The Company's net commodity derivatives primarily consist of futures or options contracts via regulated exchanges and contracts with producers or customers under which the future settlement date and bushels (or gallons in the case of ethanol contracts) of commodities to be delivered (primarily wheat, corn, soybeans and ethanol) are fixed and under which the price may or may not be fixed. Depending on the specifics of the individual contracts, the fair value is derived from the futures or options prices on the Chicago Mercantile Exchange (CME) or the New York Mercantile Exchange (NYMEX) for similar commodities and delivery dates as well as observable quotes for local basis adjustments (the difference, which is attributable to local market conditions, between the quoted futures price and the local cash price). Although nonperformance risk, both of the Company and the counterparty, is present in each of these commodity contracts and is a component of the estimated fair values, based on the Company's historical experience with its producers and customers and the Company's knowledge of their businesses, the Company does not view nonperformance risk to be a significant input to fair value for the majority of these commodity contracts. However, in situations where the Company believes that nonperformance risk exists, based on past or present experience with a customer or knowledge of the customer's operations or financial condition, the Company classifies these commodity contracts as level 3 in the fair value hierarchy and, accordingly, records estimated fair value adjustments based on internal projections and views of these contracts.

During the second quarter of 2010, the Company invested in cumulative convertible preferred shares of Iowa Northern Railway Corporation. These shares are carried at estimated fair value in Other noncurrent assets on the Company's balance sheet. Changes in estimated fair value are recorded within other comprehensive income. See Note 8 for further information.

Fair Value of Financial Instruments

The fair value of the Company's long-term debt is estimated using quoted market prices or discounted future cash flows based on the Company's current incremental borrowing rates for similar types of borrowing arrangements.

(in thousands)	September 30, 2011	December 31, 2010
Fair value of long-term debt	\$ 288,331	\$ 305,708
Fair value in excess of carrying value	7,431	4,359

The fair value of the Company's cash equivalents, accounts receivable and accounts payable approximate their carrying value as they are close to maturity.

10. Debt

The Company is party to borrowing arrangements with a syndicate of banks. See Note 8 in the Company's 2010 Form 10-K for a complete description of these arrangements. Total borrowing capacity for the Company under all lines of credit is currently at \$1.1 billion. At September 30, 2011, the Company had a total of \$989.2 million available for borrowing under its lines of credit.

The long-term portion of the syndicate line can be drawn on and the resulting debt considered long-term when used for long-term purposes such as replacing long-term debt that is maturing, funding the purchase of long-term assets, or increasing permanent working capital when needed. The expectation at the time of drawing is that it will be kept open until more permanent replacement debt is secured, until other long-term assets are sold, or earnings are generated to pay it down.

Table of Contents

The Company drew \$20.0 million on the long-term syndicate line at the end of the first quarter, and again in the second quarter of 2011 as a partial replacement for \$25.0 million in long-term private placement debt that was becoming a current maturity and another \$17.0 million that was maturing. In the third quarter, a combination of reduced borrowings due to a drop in commodity prices, increasing earnings and working capital, and lower capital spending than originally planned resulted in pay down of \$26.5 million of long-term debt. Total payments of long-term debt are \$66.2 million year-to-date.

On February 26, 2010, the Company entered into an Amended and Restated Note Purchase Agreement for its Senior Guaranteed Notes. The Amended and Restated Note Purchase Agreement changed the maturity of the \$92 million Series A note, which was originally due March 2011, into Series A - \$17 million due March 2011; Series A-1 - \$25 million due March 2012; Series A-2 - \$25 million due March 2013; and Series A-3 - \$25 million due March 2014. The Series A note was paid off during the first quarter of 2011.

The Company's long-term debt at September 30, 2011, December 31, 2010 and September 30, 2010 consisted of the following:

	September 30, 2011	December 31, 2010	September 30, 2010
Current maturities of long-term debt nonrecourse	\$ 2,806	\$ 2,841	\$ 3,081
Current maturities of long-term debt recourse	42,365	21,683	20,872
Total current maturities of long-term debt	45,171	24,524	23,953
Long-term debt, less current maturities nonrecourse	6,971	13,150	13,853
Long-term debt, less current maturities recourse	228,758	263,675	250,496
Total long-term debt, less current maturities	235,729	\$ 276,825	\$ 264,349

11. Commitments and Contingencies

The Company is party to litigation, or threats thereof, both as defendant and plaintiff with some regularity, although individual cases that are material in size occur infrequently. As a defendant, the Company establishes reserves for claimed amounts that are considered probable, and capable of estimation. If those cases are resolved for lesser amounts, the excess reserves are taken into income and, conversely, if those cases are resolved for larger than the amount the Company has accrued, the Company records a charge to income. The Company believes it is unlikely that the results of its current legal proceedings for which it is the defendant, even if unfavorable, will be material. As a plaintiff, amounts that are collected can also result in sudden, non-recurring income. Litigation results depend upon a variety of factors, including the availability of evidence, the credibility of witnesses, the performance of counsel, the state of the law, and the impressions of judges and jurors, any of which can be critical in importance, yet difficult, if not impossible, to predict. Consequently, cases currently pending, or future matters, may result in unexpected, and non-recurring losses, or income, from time to time. Finally, litigation results are often subject to judicial reconsideration, appeal and further negotiation by the parties, and as a result, the final impact of a particular judicial decision may be unknown for some time, or may result in continued reserves to account for the potential of such post-verdict actions. In the second quarter, 2011, the Company received a trial verdict in the amount of \$2.9 million in a civil suit, for which both the Company and the defendant have subsequently filed appeals. No income has been recorded to-date due to uncertainty of the final amount and overall collectability of any amount against the defendant.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Forward Looking Statements

The following Management's Discussion and Analysis of Financial Condition and Results of Operations contains forward-looking statements which relate to future events or future financial performance and involve known and unknown risks, uncertainties and other factors that may cause actual results, levels of activity, performance or achievements to be materially different from those expressed or implied by these forward-looking statements. You are urged to carefully consider these risks and others, including those risk factors listed under Item 1A of our Annual Report on Form 10-K for the year ended December 31, 2010 (2010 Form 10-K). In some cases, you can identify forward-looking statements by terminology such as may, anticipates, believes, estimates, predicts, or the negative of these terms or other comparable terminology. These statements are only predictions. Actual events or results may differ materially. These forward-looking statements relate only to events as of the date on which the statements are made and the Company undertakes no obligation, other than any imposed by law, to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise. Although we believe that the expectations reflected in the forward-looking statements are reasonable, we cannot guarantee future results, levels of activity, performance or achievements.

Critical Accounting Policies and Estimates

Our critical accounting policies and critical accounting estimates, as described in our 2010 Form 10-K, have not materially changed during the first nine months of 2011.

Executive Overview

Grain Business

The Grain business operates grain elevators in various states, primarily in the U.S. Corn Belt. In addition to storage, merchandising and grain trading, Grain performs risk management and other services for its customers. Grain is a significant investor in Lansing Trade Group, LLC (LTG), an established grain merchandising business with operations throughout the country and internationally. LTG continues to increase its capabilities, including ethanol trading, and is exposed to many of the same risks as the Company's Grain business. This investment provides the business with a further opportunity to expand outside of its traditional geographic regions.

The agricultural commodity-based business is one in which changes in selling prices generally move in relationship to changes in purchase prices. Therefore, increases or decreases in prices of the agricultural commodities that the business deals in will have a relatively equal impact on sales and cost of sales and a much less significant impact on gross profit. As a result, changes in sales for the period may not necessarily be indicative of the overall performance of the business and more focus should be placed on changes to merchandising revenues and service income.

Grain inventories on hand at September 30, 2011 were 42.8 million bushels, of which 50 thousand bushels were stored for others. This compares to 68.1 million bushels on hand at September 30, 2010, of which 20.0 million bushels were stored for others. At September 30, 2010, Grain had a significant number of bushels on delivery with the CME, which was not the case at September 30, 2011.

According to the October 31, 2011 Crop Progress Report published by the U. S. Department of Agriculture, the corn and soybean harvest is ahead of last year, but slightly behind the five year average in the Company's primary region of Indiana, Illinois, Michigan, Ohio and Nebraska. Next year's winter wheat crop is approximately 86% planted in the Company's primary region with Nebraska being 100% planted.

In the third quarter, the Grain Division entered into a grain merchandising agreement with Trotter, Inc., of Arcadia, Nebraska, which provided the Grain Division with an additional 3.3 million bushels of storage space in Nebraska. In addition, multiple operational updates were made at several grain facilities resulting in increased storage capacity. Two new bins at the grain facility in Delphi, Indiana increased the amount of storage capacity by 1.5 million bushels. The Reading and White Pigeon, Michigan facilities increased capacity by an additional 1.5 million and 730 thousand bushels, respectively. Several handling agreements were terminated that removed 5.3 million bushels of capacity. The total storage capacity is approximately 109 million bushels as of September 30, 2011 compared to 107 million bushels at December 31, 2010.

Also during the quarter, the Grain Division began construction of a new grain elevator train loader facility in Anselmo, Nebraska. The 3.8 million bushel capacity grain elevator will primarily handle corn and soybeans and is expected to open in the fall of 2012.

Table of Contents

Ethanol Business

The Ethanol business operates the three ethanol production facilities in which the Company has investments. The business also offers facility operations, risk management, corn origination, ethanol and distillers dried grains (DDG) marketing to the ethanol plants it operates as well as third parties.

In the third quarter, the Ethanol business' investments in the three ethanol LLCs had favorable results compared to the same period in 2010. Physical corn purchases were secured in advance of the spot period at significant discounts to spot market basis. This securing of physical corn basis in advance enabled the ethanol LLCs to yield better margins.

Rail Business

The Rail business buys, sells, leases, rebuilds and repairs various types of used railcars and rail equipment. The business also provides fleet management services to fleet owners. Rail has a diversified fleet of car types (boxcars, gondolas, covered and open top hoppers, tank cars and pressure differential cars) and locomotives and also serves a wide range of customers.

Railcars and locomotives under management (owned, leased or managed for financial institutions in non-recourse arrangements) at September 30, 2011 were 22,268 compared to 22,644 at September 30, 2010. The average utilization rate (railcars and locomotives under management that are in lease services, exclusive of railcars managed for third party investors) has increased significantly to 85.1% for the quarter ended September 30, 2011 compared to 72.9% for the quarter ended September 30, 2010. Third quarter traffic on the railways was slightly better over the same period of 2010, but the rate of improvement has slowed down. There continue to be many uncertainties in the overall economy which has an impact on the overall traffic.

During the third quarter, new railcar repair shops were opened in San Diego, California and Aberdeen, Washington on the Rail America rail lines and Waterloo, Iowa on the Iowa Northern Railway Corporation rail lines. Rail plans to continue pursuing growth opportunities through portfolio purchases, expansion of repair facilities, and other possible prospects.

Plant Nutrient Business

The Company's Plant Nutrient business is a leading manufacturer, distributor and retailer principally of agricultural plant nutrients and pelleted lime and gypsum products in the U.S. Corn Belt and Florida. It operates 30 facilities in Ohio, Michigan, Indiana, Illinois, Florida, Wisconsin, Minnesota and Puerto Rico. Plant Nutrient provides warehousing, packaging and manufacturing services to basic manufacturers and other distributors. The business also manufactures and distributes a variety of industrial products in the U.S. including nitrogen reagents for air pollution control systems used in coal-fired power plants, water treatment products, and de-icers and anti-icers for airport runways, roadways, and other commercial applications. The major nutrient products sold by the business principally contain nitrogen, phosphate, potassium and sulfur.

Fertilizer prices have been relatively steady despite the significant volatility in the grain sector and the uncertainty of the European debt crisis. The Company is closely monitoring fertilizer prices as well as its inventory positions and has policies in place to monitor and control price risk to avoid potential lower-of-cost-or-market issues. In regards to the fourth quarter, the Group has strong volumes booked and is depending on favorable weather to allow for fall nutrient application.

Turf & Specialty Business

The Turf & Specialty business produces granular fertilizer products for the professional lawn care and golf course markets. It also sells consumer fertilizer and weed and turf pest control products for do-it-yourself application to mass merchandisers, small independent retailers and other lawn fertilizer manufacturers and performs contract manufacturing of fertilizer and weed and turf pest control products. Turf & Specialty is one of a limited number of processors of corncob-based products in the United States. These products primarily serve the weed and turf pest control and feed ingredient carrier, animal litter and industrial markets, and are distributed throughout the United States and Canada and into Europe and Asia. The turf products industry is highly seasonal, with the majority of sales occurring from early spring to early summer. Corncob-based products are sold throughout the year.

Retail Business

Edgar Filing: ANDERSONS INC - Form 10-Q

The Retail business includes large retail stores operated as The Andersons and a specialty food market operated as The Andersons Market . It also operates a sales and service facility for outdoor power equipment. The retail concept is *More for Your Home* ® and the conventional retail stores focus on providing significant product breadth with offerings in home improvement and other mass merchandise categories, as well as specialty foods, wine and indoor and outdoor garden centers.

Table of Contents

The retail business is highly competitive. The Company competes with a variety of retail merchandisers, including home centers, department and hardware stores, as well as local and national grocers. Retail continues to work on new departments and products to maximize the profitability.

Other

The Other business segment of the Company represents corporate functions that provide support and services to the operating segments. The results contained within this segment include expenses and benefits not allocated back to the operating segments.

The Ohio Tax Credit Authority approved job retention tax credits and job creation tax credits for the Company in relation to upcoming capital projects. To earn these credits, the Company has committed to invest a minimum amount in new machinery and equipment and property renovations/improvements. In addition to the capital investment, the Company will retain 636 and create a minimum of 20 full-time equivalent positions.

Operating Results

The following discussion focuses on the operating results as shown in the Condensed Consolidated Statements of Income with a separate discussion by segment. Additional segment information is included in the Notes to the Condensed Consolidated Financial Statements herein in Note 7. Segment Information.

(in thousands)	Three months ended		Nine months ended	
	September 30,		September 30,	
	2011	2010	2011	2010
Sales and merchandising revenues	\$ 938,660	\$ 706,825	\$ 3,278,501	\$ 2,239,822

Comparison of the three months ended September 30, 2011 with the three months ended September 30, 2010:

Grain Division

(in thousands)	Three months ended	
	September 30,	
	2011	2010
Sales and merchandising revenues	\$ 538,723	\$ 388,981
Cost of sales and merchandising revenues	517,966	370,532
Gross profit	20,757	18,449
Operating, administrative and general expenses	16,881	15,479
Interest expense	2,674	1,952

Edgar Filing: ANDERSONS INC - Form 10-Q

Equity in earnings of affiliates	6,459	1,538
Other income, net	652	664
Operating income	\$ 8,313	\$ 3,220

Operating results for the Grain Division increased \$5.1 million over the results of the same period last year. Sales and merchandising revenues increased \$149.7 million and is the result of higher average price per bushels sold, as volume has declined for corn, soybeans and wheat compared to the third quarter of 2010. Gross profit increased \$2.3 million compared to the third quarter of 2010 and is a result of increased space income for wheat, and more specifically basis income. Basis is defined as the difference between the cash price of a commodity in one of the Company's facilities and the nearest exchange traded futures price.

Table of Contents

Operating expenses increased \$1.4 million over the same period in 2010 and is spread among several expense categories related primarily to acquisitions, including labor and incentive compensation.

Interest expense increased \$0.7 million over the same period in 2010 due to greater need to cover margin deposit requirements. Other income did not change significantly quarter over quarter.

Equity in earnings of affiliates increased \$4.9 million over the same period in 2010, primarily due to the investment in LTG.

Ethanol Division

(in thousands)	Three months ended	
	September 30, 2011	2010
Sales and merchandising and service fee revenues	\$ 179,331	\$ 109,264
Cost of sales and merchandising revenues	176,252	106,341
Gross profit	3,079	2,923
Operating, administrative and general expenses	1,444	1,655
Interest expense	194	468
Equity in earnings (loss) of affiliates	3,270	(2,635)
Other income, net	38	45
Operating income (loss) before noncontrolling interest	4,749	(1,790)
Income (loss) attributable to noncontrolling interest	306	(1,026)
Operating income (loss)	\$ 4,443	\$ (764)

Operating results for the Ethanol Division increased \$5.2 million over the results of the same period last year. Sales and merchandising and service fee revenues increased \$70.1 million or 64% and is primarily due to an increase in the average price per gallon sold, as volume for the quarter increased only 2% over the same quarter last year. Gross profit, which primarily represents service fee income, increased \$0.2 million over the third quarter of 2010.

Operating expenses decreased \$0.2 from the same period last year and can be attributed to a decrease in the reserve for bad debt expense as well as various fixed costs. There were no significant changes in interest expense and other income.

Equity in earnings of affiliates increased \$5.9 million over the nine months ended September 2010 and relates to income from the investment in three ethanol LLCs.

Rail Group

(in thousands)	Three months ended	
	September 30, 2011	2010
Sales and merchandising revenues	\$ 24,067	\$ 22,314
Cost of sales and merchandising revenues	18,887	19,737
Gross profit	5,180	2,577
Operating, administrative and general expenses	3,047	2,995
Interest expense	1,614	1,279

Edgar Filing: ANDERSONS INC - Form 10-Q

Other income, net	604	1,782
Operating income	\$ 1,123	\$ 85

Operating results for the Rail Group improved by \$1.0 million compared to the results from the same period last year. Leasing revenues increased \$2.8 million, car sales decreased \$1.2 million, and sales in the repair and fabrication shops increased \$0.2 million. The increase in revenues is primarily attributed to the higher utilization rates achieved during the third quarter of 2011 compared to the third quarter of 2010.

Rail gross profit increased by \$2.6 million compared to the third quarter of 2010. Gross profit in the leasing business increased \$2.9 million and is attributed to the increased utilization and decreased storage costs and lease expense compared to the same period last year. Gross profit on car sales decreased \$0.7 million and gross profit in the repair and fabrication shops increased \$0.4 million.

There were no significant changes in operating expenses or interest expense quarter over quarter. Other income was higher in 2010 primarily due to gains from the sale of certain assets of \$0.8 million.

Table of Contents***Plant Nutrient Group***

(in thousands)	Three months ended	
	September 30,	
	2011	2010
Sales and merchandising revenues	\$ 137,637	\$ 129,109
Cost of sales and merchandising revenues	116,660	114,883
Gross profit	20,977	14,226
Operating, administrative and general expenses	13,699	11,933
Interest expense	940	1,065
Equity in earnings of affiliates	2	1
Other income, net	282	233
Operating income	\$ 6,622	\$ 1,462

Operating results for the Plant Nutrient Group increased \$5.2 million over the same period last year. Sales and merchandising revenues increased \$8.5 million due primarily to a 35% increase in the average price per ton sold as sales volumes declined 21% compared to the same quarter last year. Gross profit increased \$6.8 million due to margin improvement as a result of price appreciation resulting from strong world demand creating a tight supply situation.

Operating expenses increased \$1.8 million over the same period last year primarily due to lower expense absorption as a result of the lower volume and an increase in labor and benefits, including performance incentives. There were no significant changes in interest expense, equity in earnings of affiliates and other income.

Turf & Specialty Group

(in thousands)	Three months ended	
	September 30,	
	2011	2010
Sales and merchandising revenues	\$ 23,051	\$ 23,156
Cost of sales and merchandising revenues	18,337	17,939
Gross profit	4,714	5,217
Operating, administrative and general expenses	5,853	5,415
Interest expense	273	337
Other income, net	167	244
Operating loss	\$ (1,245)	\$ (291)

Operating results for the Turf & Specialty Group for the third quarter decreased \$1.0 million compared to results from the same period last year. Although sales and merchandising revenues are comparable year over year, gross profit decreased \$0.5 million or 10% due to lower volumes for all lines of business as well as softness in the margin per unit within the professional lines.

Operating expenses increased \$0.4 million over the same period last year and is spread among various expense categories including rent, repairs and maintenance and other variable expenses. There were no significant changes in interest expense and other income quarter over quarter.

Retail Group

(in thousands)	Three months ended	
	September 30, 2011	2010
Sales and merchandising revenues	\$ 35,851	\$ 34,001
Cost of sales and merchandising revenues	25,594	24,284
Gross profit	10,257	9,717
Operating, administrative and general expenses	11,382	11,184
Interest expense	238	312
Other income, net	130	128
Operating loss	\$ (1,233)	\$ (1,651)

Operating results for the Retail Group increased \$0.4 million compared to the same period last year. Sales and merchandising revenues increased \$1.9 million. Customer counts decreased less than 1%, while the average sale per customer increased by 6.5%. As a result, gross profit increased \$0.5 million, or 6%.

Operating expenses increased \$0.2 million and is spread among several expense categories including labor and benefits, and depreciation. There were no significant changes in interest expense and other income.

Table of Contents**Other**

(in thousands)	Three months ended	
	September 30, 2011	2010
Sales and merchandising revenues	\$	\$
Cost of sales and merchandising revenues		
Gross profit		
Operating, administrative and general expenses	2,180	1,482
Interest income	(222)	(788)
Other income (loss), net	(656)	465
Operating loss	\$ (2,614)	\$ (229)

Net corporate operating loss not allocated to business segments increased \$2.4 million over the same period last year. Operating, administrative and general expenses increased mainly due to benefits and performance incentive related expenses. The change in interest income from the third quarter of 2010 to 2011 is due to lower yields on cash and short-term investment balances. Other income was higher in 2010 due to higher income on deferred compensation plan assets.

As a result of the above, income attributable to the Company of \$10.9 million for the third quarter of 2011 was \$9.5 million higher than income attributable to the Company of \$1.4 million recognized in the third quarter of 2010. Income tax expense of \$4.5 million was provided at 28.5%. In the third quarter of 2010, income tax expense of \$0.4 million was provided at a rate of 54.4%, of which 30.5% related to pass-through entity losses that did not provide any tax benefit. The Company anticipates that its 2011 effective annual rate will be 35.5%. The Company's actual 2010 effective tax rate was 37.7%. The higher effective rate for 2010 was due primarily to a one time adjustment to increase tax expense by \$1.5 million as a result of the Patient Protection and Affordable Care Act which was signed into law in the first quarter of 2010. The 2011 effective tax rate also benefits from increased deductions related to domestic production activities.

Comparison of the nine months ended September 30, 2011 with the nine months ended September 30, 2010:**Grain Division**

(in thousands)	Nine months ended	
	September 30, 2011	2010
Sales and merchandising revenues	\$ 1,973,820	\$ 1,151,984
Cost of sales and merchandising revenues	1,870,291	1,085,656
Gross profit	103,529	66,328
Operating, administrative and general expenses	52,072	42,141
Interest expense	11,373	4,183
Equity in earnings of affiliates	18,117	6,869
Other income, net	1,754	1,918
Operating income	\$ 59,955	\$ 28,791

Operating results for the Grain Division increased \$31.2 million over the results of the same period last year. Sales and merchandising revenues increased \$821.8 million and is the result of higher average price per bushel sold due to increasing commodity prices as volume has decreased 3% from prior year. Corn and wheat volumes are down due to lower yields and steady domestic demand. Gross profit increased \$37.2 million

Edgar Filing: ANDERSONS INC - Form 10-Q

over the first nine months of 2010 and relates primarily to an increase in space income, and more specifically basis appreciation. Basis is defined as the difference between the cash price of a commodity in one of the Company's facilities and the nearest exchange traded futures price.

Operating expenses increased \$9.9 million over the same period in 2010, primarily in labor and benefits related to growth and incentive compensation expense.

Interest expense increased \$7.2 million from the same period in 2010 due to the greater need to fund margin deposit requirements as commodity prices are still higher than the same period in 2010, despite the drop in the price of corn, beans, and wheat during the current quarter.

Equity in earnings of affiliates increased \$11.2 million over the same period in 2010 and relates to income from the investment in LTG. There were no significant changes in other income for this period from 2010 to 2011.

Table of Contents**Ethanol Division**

(in thousands)	Nine months ended	
	September 30, 2011	2010
Sales and merchandising and service fee revenues	\$ 476,783	\$ 340,830
Cost of sales and merchandising revenues	464,410	329,780
Gross profit	12,373	11,050
Operating, administrative and general expenses	4,903	4,842
Interest expense	880	920
Equity in earnings of affiliates	11,366	8,602
Other income, net	133	88
Operating income before noncontrolling interest	18,089	13,978
Income (loss) attributable to noncontrolling interest	1,245	(25)
Operating income	\$ 16,844	\$ 14,003

Operating results for the Ethanol Division increased \$2.8 million over the results of the same period last year. Sales and merchandising and service fee revenues increased \$136.0 million as a result of an increase in the average price per gallon sold, as volume was relatively consistent with the same period last year. Gross profit increased \$1.3 million over the first nine months of 2010 and relates to an increase in ethanol service fee income.

There were no significant changes in operating expenses, interest expense and other income compared to the same period in 2010.

Equity in earnings of affiliates increased \$2.8 million over the same period in 2010 and relates to income from the investment in three ethanol LLCs.

Rail Group

(in thousands)	Nine months ended	
	September 30, 2011	2010
Sales and merchandising revenues	\$ 82,478	\$ 72,639
Cost of sales and merchandising revenues	63,766	61,709
Gross profit	18,712	10,930
Operating, administrative and general expenses	8,906	9,872
Interest expense	4,572	3,923
Other income, net	2,198	4,090
Operating income	\$ 7,432	\$ 1,225

Operating results for the Rail Group increased \$6.2 million compared to the results of the same period last year. Leasing revenues increased \$5.0 million, car sales increased \$4.0 million and sales in the repair and fabrication shops increased \$0.8 million. The increase in revenues is attributable to the higher utilization rates achieved year to date for 2011 compared to 2010.

Edgar Filing: ANDERSONS INC - Form 10-Q

Gross profit increased \$7.8 million compared to the nine months of 2010. Gross profit in the leasing business increased \$5.0 million and is attributed to the increased utilization rates and decreased lease expense compared to the same period last year. Gross profit on car sales increased \$2.1 million and is due to higher volume of lease transactions. Gross profit in the repair and fabrication shops increased \$0.7 million year over year.

Operating expenses decreased nearly \$1.0 million from the same period in 2010 due to lower bad debt expense along with a decrease in various other expense categories. Interest expense has increased by \$0.6 million over prior year due to increased working capital use for railcar purchases. Other income was higher in 2010 primarily due to settlements received from customers for railcars returned at the end of a lease that were not in the required operating condition, as well as gains from the sale of certain assets.

Table of Contents***Plant Nutrient Group***

(in thousands)	Nine months ended	
	September 30,	
	2011	2010
Sales and merchandising revenues	\$ 521,109	\$ 460,671
Cost of sales and merchandising revenues	442,797	402,886
Gross profit	78,312	57,785
Operating, administrative and general expenses	40,290	34,127
Interest expense	2,756	3,331
Equity in earnings of affiliates	6	5
Other income, net	541	866
Operating income	\$ 35,813	\$ 21,198

Operating results for the Plant Nutrient Group increased \$14.6 million over the same period last year. Sales and merchandising revenues increased \$60.4 million due to a combination of a 30% increase in the average price per ton sold, partially offset by a 13% decrease in volume. The increase in the average price per ton sold is a result of the escalating prices of the core nutrients used. Gross profit increased \$20.5 million as a result of the wider margins achieved through price appreciation on tons sold offset by a decrease in volume.

Operating expenses increased \$6.2 million over the same period last year primarily due to lower expense absorption due to lower volumes and an increase in labor and benefits, including performance incentives.

Interest expense decreased \$0.6 million due to lower borrowings. There were no significant changes in equity in earnings of affiliates and other income.

Turf & Specialty Group

(in thousands)	Nine months ended	
	September 30,	
	2011	2010
Sales and merchandising revenues	\$ 111,872	\$ 105,971
Cost of sales and merchandising revenues	91,414	84,282

Interest expense	1,094	1,379
Other income, net	716	1,038
Operating income	\$ 3,811	\$ 4,859

Operating results for the Turf & Specialty Group decreased \$1.0 million compared to the same period last year. Sales in the lawn fertilizer business increased \$4.8 million due primarily to an increase in the average selling price. Sales in the cob business increased \$1.1 million over the first nine months of 2010 due to a 9.3% increase in the average price per ton sold. Volume for the Group was down due to poor weather and adverse economic conditions. Gross profit decreased \$1.2 million compared to prior year. Gross profit in the lawn fertilizer business was down 6.3% per ton due to softness in the margins within the consumer and industrial lines, however, the cob business experienced a 4% increase in gross profit per ton over last year.

Edgar Filing: ANDERSONS INC - Form 10-Q

There were no significant changes in operating expenses, interest expense and other income.

Retail Group

(in thousands)	Nine months ended	
	September 30,	2010
	2011	2010
Sales and merchandising revenues	\$ 112,439	\$ 107,727
Cost of sales and merchandising revenues	79,402	76,296

Operating, administrative and general expenses	34,782	33,367
Interest expense	705	868
Other income, net	430	404
Operating loss	\$ (2,020)	\$ (2,400)

Table of Contents

Operating results for the Retail Group for the first nine months of 2011 increased by \$0.4 million over the nine months ending September 30, 2010. Sales and merchandising revenues increased \$4.7 million or 4%. Same store customer counts decreased 1%; however, same store average sale per customer increased 5.8%. Gross profit increased by \$1.6 million or 5% as a result of the increased sales.

Operating expenses increased \$1.4 million and is spread among several expense categories including labor and benefits, and depreciation. There were no significant changes in interest expense and other income.

Other

(in thousands)	Nine months ended	
	September 30, 2011	2010
Sales and merchandising revenues	\$	\$
Cost of sales and merchandising revenues		
Gross profit		
Operating, administrative and general expenses	8,701	5,815
Interest income	(771)	(681)
Other income (loss), net	(231)	692
Operating loss	\$ (8,161)	\$ (4,442)

Net corporate operating expenses not allocated to business segments increased \$3.7 million over the same period last year due primarily to increased expenses related to performance incentives, which are reflected in the operating, administrative and general expenses line item. There were no significant changes in interest income compared to prior year. Other income was higher in 2010 due to higher income on defined contribution plan assets and short term interest income.

As a result of the above, income attributable to The Andersons, Inc. of \$73.4 million for the first nine months of 2011 was \$34.6 million higher than income attributable to The Andersons, Inc. of \$38.8 million recognized in the first nine months of 2010. Income tax expense of \$40.3 million was provided at 35.0%. In the first nine months of 2010, income tax expense of \$24.4 million was provided at a rate of 38.6%. The Company anticipates that its 2011 effective annual rate will be 35.5%. The Company's actual 2010 effective tax rate was 37.7%. The higher effective rate for 2010 was due primarily to a one time adjustment to increase tax expense by \$1.5 million as a result of the Patient Protection and Affordable Care Act which was signed into law in the first quarter of 2010. The 2011 effective tax rate also benefits from increased deductions related to domestic production activities.

Table of Contents**Liquidity and Capital Resources****Working Capital**

At September 30, 2011, the Company had working capital of \$315.8 million, an increase of \$14.0 million from December 31, 2010 and a \$42.7 million increase from September 30, 2010. This increase is attributed to changes in the following components of current assets and current liabilities (in thousands):

	September 30, 2011	September 30, 2010	Variance
Current Assets:			
Cash and cash equivalents	\$ 38,510	\$ 25,732	\$ 12,778
Restricted cash	11,920	2,915	9,005
Accounts receivables, net	158,757	143,591	15,166
Inventories	458,314	432,448	25,866
Commodity derivative assets current	143,010	177,100	(34,090)
Deferred income taxes	17,233	13,385	3,848
Other current assets	41,559	35,268	6,291
Total current assets	\$ 869,303	\$ 830,439	\$ 38,864
Current Liabilities:			
Borrowings under short-term line of credit	\$ 105,000	\$ 101,400	\$ 3,600
Accounts payable for grain	77,813	131,138	(53,325)
Other accounts payable	137,872	164,475	(26,603)
Customer prepayments and deferred revenue	82,785	48,575	34,210
Commodity derivative liabilities current	55,354	47,968	7,386
Accrued expenses	49,487	39,776	9,711
Current maturities of long-term debt	45,171	23,953	21,218
Total current liabilities	553,482	557,285	(3,803)
Working capital	\$ 315,821	\$ 273,154	\$ 42,667

In comparison to the same period of the prior year, current assets increased largely as a result of higher inventories, accounts receivable and cash, offset by a decrease in commodity derivative assets. The increase in inventory was driven by higher volumes and costs of inventory in the Plant Nutrient Group compared to prior year. Accounts receivable has increased significantly for our grain and plant nutrient businesses and tends to fluctuate with the timing of shipments along with variations in the prices of grain and nutrients. See the discussion below on sources and uses of cash for an understanding of the increase in cash from prior year. The change in commodity derivative assets represents the net position by customer adjusted for potential credit risk on purchase contracts. Total current liabilities decreased only slightly compared to prior year, with the most significant decrease in accounts payable for grain due to the timing of harvest and grain prices. The decrease in accounts payable was offset by an increase in customer prepayments and deferred revenue driven by significantly higher deferred income for the wholesale nutrient business.

Sources and Uses of Cash**Operating Activities**

The Company's operations provided cash of \$222.0 million in the first nine months of 2011 compared to cash used in operations of \$146.6 million in the first nine months of 2010.

The Company made income tax payments of \$21.2 million and \$46.5 million in the third quarter and nine months to date of 2011, respectively, and expects to make additional payments totaling approximately \$0.6 million for the remainder of 2011.

Investing Activities

Total capital spending for 2011 on property, plant and equipment in the Company's base business is expected to be approximately \$55 million, \$25 million of which is to increase capacity efficiency at existing locations in the Grain and Plant Nutrient businesses. Through the nine months of 2011, the Company has spent \$29.6 million. There is currently a project in process to build a grain elevator in Custer County, Nebraska.

In addition to spending on conventional property, plant and equipment, the Company expects to spend \$55.4 million for the purchase of railcars, locomotives and related leases and capitalized modifications of railcars. The Company expects to offset a portion of this

Table of Contents

amount through proceeds from the sales and dispositions of other railcars. Through September 30, 2011, the Company has invested \$38.4 million in the purchase of additional railcars and related leases, offset by proceeds from car sales of \$19.8 million.

Financing Arrangements

The Company has significant committed short-term lines of credit available to finance working capital, primarily inventories, margin calls on commodity contracts and accounts receivable. The Company is party to a borrowing arrangement with a syndicate of banks, which was increased at the Company's request during the first quarter of 2011, to provide the Company with an additional \$92 million for a total of \$992.3 million in short-term lines of credit and \$115 million in long-term lines of credit. Increase in borrowings, due to the rising volatility for grain and fertilizer prices, is the reason the Company elected to increase the line of credit. At September 30, 2011, the Company had \$105.0 million drawn on its short-term line of credit. The Company continues to feel that it has adequate capacity to meet its funding needs going forward. Peak short-term borrowings for the Company to date are \$601.5 million on April 26, 2011. Typically, the Company's highest borrowing occurs in the spring due to seasonal inventory requirements in the fertilizer and retail businesses, credit sales of fertilizer and a customary reduction in grain payables due to the cash needs and market strategies of grain customers. Secondly, borrowing is also increased during the fall harvest time as the Company builds both grain and fertilizer inventories.

The Company drew \$20.0 million on the long-term syndicate line at the end of the first quarter, and again in the second quarter of 2011 as a partial replacement for \$25.0 million in long-term private placement debt that was becoming a current maturity and another \$17.0 million that was maturing. In the third quarter, a combination of reduced borrowings due to a drop in commodity prices, increasing earnings and working capital, and lower capital spending than originally planned resulted in pay down of \$26.5 million of long-term debt. Total payments of long-term debt are \$66.2 million year-to-date.

The Company paid \$0.0875 per common share for the dividends paid in January 2010, \$0.090 per common share for the dividends paid in April, July and October 2010, and \$0.11 per common share for the dividends paid in January, April and July 2011. On August 18, 2011, the Company declared a cash dividend of \$0.11 per common share payable on October 24, 2011 to shareholders of record on October 3, 2011. During the first nine months of 2011, the Company issued approximately 137,000 shares to employees and directors under its equity-based compensation plans.

Certain of the Company's long-term borrowings include covenants that, among other things, impose minimum levels of equity and limitations on additional debt. The Company was in compliance with all such covenants at September 30, 2011. In addition, certain of the long-term borrowings are collateralized by first mortgages on various facilities or are collateralized by railcar assets. The Company's non-recourse long-term debt is collateralized by railcar and locomotive assets.

Because the Company is a significant consumer of short-term debt in peak seasons and the majority of this is variable rate debt, increases in interest rates could have a significant impact on the profitability of the Company. In addition, periods of high grain prices and/or unfavorable market conditions could require the Company to make additional margin deposits on its exchange traded futures contracts. Conversely, in periods of declining prices, the Company receives a return of cash.

Off-Balance Sheet Transactions

The Company utilizes leasing arrangements that provide off-balance sheet financing for the Rail business activities. The Company leases railcars from financial intermediaries through sale-leaseback transactions, the majority of which involve operating leasebacks. Railcars owned by the Company or leased by the Company from a financial intermediary are generally leased to a customer under an operating lease. The Company also arranges non-recourse lease transactions under which it sells railcars or locomotives to a financial intermediary and assigns the related operating lease to the financial intermediary on a non-recourse basis. In such arrangements, the Company generally provides ongoing railcar maintenance and management services for the financial intermediary and receives a fee for such services. On most of the railcars and locomotives that are not on its balance sheet, the Company holds an option to purchase the equipment at the end of the lease.

Table of Contents

The following table describes the Company's railcar and locomotive positions at September 30, 2011:

Method of Control	Financial Statement		Number
Owned-railcars available for sale	On balance sheet	current	87
Owned-railcar assets leased to others	On balance sheet	noncurrent	14,177
Railcars leased from financial intermediaries	Off balance sheet		5,958
Railcars non-recourse arrangements	Off balance sheet		1,922
Total Railcars			22,144
Owned-containers leased to others	On balance sheet	noncurrent	639
Total Containers			639
Locomotive assets leased to others	On balance sheet	noncurrent	44
Locomotives leased from financial intermediaries	Off balance sheet		4
Locomotives leased from financial intermediaries under limited recourse arrangements	Off balance sheet		
Locomotives non-recourse arrangements	Off balance sheet		76
Total Locomotives			124

In addition, the Company manages 492 railcars for third-party customers or owners for which it receives a fee.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

For further information, refer to our Annual Report on Form 10-K for the year ended December 31, 2010. There were no material changes in market risk, specifically commodity and interest rate risk during the nine months ended September 30, 2011.

Item 4. Controls and Procedures

The Company is not organized with one Chief Financial Officer. Our Vice President and Controller is responsible for all accounting and information technology decisions while our Vice President, Finance and Treasurer is responsible for all treasury, insurance and credit functions and financing decisions. Each of them, along with the President and Chief Executive Officer (Certifying Officers), are responsible for evaluating our disclosure controls and procedures. These Certifying Officers have evaluated our disclosure controls and procedures as defined in the rules of the Securities and Exchange Commission, as of September 30, 2011, and have determined that such controls and procedures were effective.

Our Certifying Officers are primarily responsible for the accuracy of the financial information that is reported to the Commission. To meet their responsibility for financial reporting, they have established internal controls and procedures which they believe are adequate to provide reasonable assurance that the Company's assets are protected from loss. These procedures are reviewed by the Company's internal auditors in order to monitor compliance. In addition, our Board of Directors Audit Committee, which is composed entirely of independent directors, meets regularly with each of management and our internal auditors to review accounting, auditing and financial matters.

There were no changes in internal controls over financial reporting or in other factors that have materially affected or could materially affect internal controls over financial reporting, in each case, during the third quarter of 2011.

Table of Contents**Part II. Other Information****Item 1. Legal Proceedings**

The Company has received, and is cooperating fully with, a request for information from the United States Environmental Protection Agency (U.S. EPA) regarding the history of its grain and fertilizer facility along the Maumee River in Toledo, Ohio. The U.S. EPA is investigating the possible introduction into the Maumee River of hazardous materials potentially leaching from rouge piles deposited along the riverfront by glass manufacturing operations that existed in the area prior to the Company's initial acquisition of its land in 1960. The Company has on several prior occasions cooperated with local, state and federal regulators to install or improve drainage systems to contain storm water runoff and sewer discharges along its riverfront property to minimize the potential for such leaching. Other area land owners and the successor to the original glass making operations have also been contacted by the U.S. EPA for information. No claim or finding has been asserted thus far.

The Company is also currently subject to various claims and suits arising in the ordinary course of business, which include environmental issues, employment claims, contractual disputes, and defensive counter claims. The Company accrues liabilities where litigation losses are deemed probable and estimable. The Company believes it is unlikely that the results of its current legal proceedings, even if unfavorable, will be materially different from what it currently has accrued. There can be no assurance, however, that any claims or suits arising in the future, whether taken individually or in the aggregate, will not have a material adverse effect on our financial condition or results of operations.

Item 1A. Risk Factors

Our operations are subject to risks and uncertainties that could cause actual results to differ materially from those discussed in this Form 10-Q and could have a material adverse impact on our financial results. These risks can be impacted by factors beyond our control as well as by errors and omissions on our part. The significant factors known to us that could materially adversely affect our business, financial condition or operating results are described in the 2010 10-K (Item 1A). There have been no material changes in the risk factors set forth therein.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

In 1996, the Company's Board of Directors began approving the repurchase of shares of common stock for use in employee, officer and director stock purchase and stock compensation plans, which reached 2.8 million authorized shares in 2001. The Company purchased 2.2 million shares under this repurchase program. The original resolution was superseded by the Board in October 2007 with a resolution authorizing the repurchase of 1.0 million shares of common stock. Since the beginning of the current repurchase program, the Company has repurchased 0.2 million shares in the open market. The following table presents the Company's share purchases during the third quarter of 2011.

Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Number of Shares that May Yet Be Purchased Under the Plans or Programs
July		\$		
August	26,000	36.77		
September	46,421	35.78		
Total	72,421	\$ 36.28
