Information Statement

January , 2012

To the Stockholders of RAM Energy Resources, Inc.:

This information statement is being furnished to the holders of common stock of RAM Energy Resources, Inc., to provide our stockholders with notice of corporate action to be effected by us on or about February , 2012.

On December 21, 2011, RAM and Halcon Resources LLC, a Delaware limited liability company, which we refer to as Halcon, entered into a Securities Purchase Agreement, which we refer to as the purchase agreement, providing for the issuance to, and acquisition by, Halcon of:

220,000,000 shares of our common stock;

\$275,000,000 principal amount of our 8% senior convertible note due 2017, which will be convertible after two years into shares of our common stock at a conversion price of \$1.50 per share, which we refer to as the note; and

five year warrants entitling the holders to purchase up to 110,000,000 shares of our common stock at an exercise price of \$1.50 per share, which we refer to as the warrants.

As the consideration for these securities, Halcon has agreed to pay us a total of \$550,000,000 in cash at the closing, of which \$275,000,000 is attributable under the purchase agreement to the shares of common stock and \$275,000,000 is attributable to the warrants and the note.

In addition, the purchase agreement requires us to:

amend our certificate of incorporation to increase the number of authorized shares of our common stock from 100,000,000 shares to 1,010,000,000 shares, change our corporate name to Halcon Resources Corporation, and authorize an amendment to our certificate of incorporation to effect a 1:3 reverse stock split of our common stock;

amend our 2006 Long-Term Incentive Plan to increase the shares of our common stock that may be issued thereunder from 7,400,000 shares to 11,100,000 shares; and

obtain stockholder approval, on an advisory, non-binding basis, of certain payments that will be made to our named executive officers in connection with the Halcon transaction.

We collectively refer to the transactions contemplated by the purchase agreement as the Halcon transaction. The Halcon transaction was approved by our board of directors on December 21, 2011 and subsequently was approved on January , 2012 by written consent in lieu of a meeting signed by stockholders holding a majority of our outstanding common stock. Accordingly, no other action or approval by our stockholders is required in order to consummate the Halcon transaction. The closing of the Halcon transaction is scheduled to occur on or about February , 2012, and such closing is the corporate action with respect to which this information statement is being provided. Our stockholders do not have appraisal or similar rights with respect to the Halcon transaction.

Edgar Filing: RAM ENERGY RESOURCES INC - Form PRE 14C

Consummation of the Halcon transaction will result in a change of control of RAM. Immediately following the closing of the Halcon transaction, Halcon will hold approximately 73.6% of our outstanding voting securities. In addition, upon conversion of the note and exercise of all of the warrants, Halcon would hold approximately 86.7% of our voting securities assuming no other shares are issued prior to those actions.

SUMMARY OF INFORMATION STATEMENT

The following is a summary of certain information contained elsewhere in this information statement. This summary is not intended to be a complete description of the matters covered in this information statement and is qualified in its entirety by reference to the more detailed information contained or incorporated by reference in this information statement or in the documents attached as appendices hereto.

*This information statement contains forward-looking statements that involve risks and uncertainties. Actual results could differ materially from those discussed in the forward-looking statements as a result of certain factors. See the section of this information statement entitled *Forward-Looking Statements*.*

The Halcon Transaction

On December 21, 2011, we entered into a securities purchase agreement (which we generally refer to as the purchase agreement) with Halcon pursuant to which we agreed to issue to Halcon for an aggregate of \$550,000,000 in cash:

220,000,000 shares of our common stock at \$1.25 per share;

8% senior convertible note due 2017 in the aggregate face amount of \$275,000,000, which will be convertible after two years into shares of our common stock at a conversion price of \$1.50 per share, which we refer to as the note; and

five year warrants to purchase up to an additional 110,000,000 shares of our common stock at an exercise price of \$1.50 per share, which we refer to as the warrants.

Consummation of the Halcon transaction will require amendments to our certificate of incorporation, which under Delaware law requires the approval of holders of a majority of the outstanding shares of our common stock. In addition, because (i) the transaction involves the issuance by us of more than 20% of our outstanding common stock in a private transaction for a price that may be less than the greater of the book or market value of our common stock; (ii) the issuance of shares of our common stock to Halcon in connection with this transaction will result in a change of control of RAM and (iii) we are approving a material amendment to our 2006 Long-Term Incentive Plan, referred to as the 2006 Plan, we are required by the rules of The NASDAQ Stock Market to obtain stockholder approval of these actions. Because the Halcon transaction will result in compensation being paid to our named executive officers that is based on or otherwise relates to the Halcon transaction (which we refer to as golden parachute payments), we were required by federal securities laws to have an advisory (non-binding) vote of the stockholders on the golden parachute payments. Stockholders owning 50.5% of our outstanding common stock, whom we refer to in this information statement as our majority stockholders, have approved the Halcon transaction, the related amendments to our certificate of incorporation and our 2006 Plan and approved, on an advisory basis, the golden parachute payments, by written consent in lieu of meeting. The record date for determining our stockholders entitled to sign a written consent to approve the Halcon transaction, as well as the amendments to our certificate of incorporation and our 2006 Plan, was January 13, 2012. On that date, we had _____ shares of common stock issued and outstanding.

The transactions contemplated by the purchase agreement are required to be consummated at a closing. We expect the closing of the Halcon transaction to occur on or about February _____, 2012.

The proceeds from the sale of the securities will be used to pay off or pay down our outstanding long-term debt, with the remainder to be added to our working capital and made available for the acquisition, development and exploration of oil and gas properties.

Table of Contents

Background of Transaction (see discussion beginning on page 10)

For a description of the events leading to the approval by our board of directors of the Halcon transaction and the agreements related thereto, see [The Halcon Transaction](#) [Background of the Halcon Transaction](#) below.

Jefferies Fairness Opinion (see discussion beginning on page 17)

In connection with its consideration and approval of the Halcon transaction, our board of directors received an opinion from Jefferies & Company, Inc. (which, together with its affiliates, we refer to as Jefferies), a global securities and investment banking group, that, as of December 19, 2011, and based upon and subject to the various assumptions made, procedures followed, matters considered and limitations on the review undertaken as set forth in Jefferies' opinion, the aggregate purchase price to be received by us under the Halcon transaction in consideration for 220,000,000 shares of our common stock, the note and the warrants was fair, from a financial point of view, to us. For important information regarding the Jefferies opinion, including the limitations of the opinion, see [The Halcon Transaction](#) [Jefferies Fairness Opinion](#), below.

Certain Risks Associated with the Halcon Transaction (see discussion beginning on page 8)

The Halcon transaction involves risks, including risks related to:

the dilutive effect on the ownership interests and voting power of existing stockholders;

the ability of Halcon and its affiliates to control us and our board of directors following the transaction;

the substantial increase in our outstanding long-term indebtedness;

our ability to deploy profitably the new capital that will be invested by Halcon;

the possible deterrence of any other offers to acquire us;

a market overhang which may be presented by the outstanding warrants and convertible note which could restrict or limit increases in the market value of our common stock;

restrictions on our ability to utilize our net operating loss carryforwards for federal income tax purposes that will result from the ownership change contemplated by the transaction; and

limitations on our growth opportunities prior to November 1, 2012 due to the noncompetition provisions under the Executive Retention Agreement of Mr. Floyd C. Wilson, who will become our new chairman of the board, chief executive officer and president, with Petrohawk Energy Corporation, which we refer to as Petrohawk.

For detailed information regarding these risks, see [The Halcon Transaction](#) [Certain Risks Associated with the Halcon Transaction](#) below.

Interests of Certain Persons in the Halcon Transaction (see discussion beginning on page 28)

In considering the recommendation of our board with respect to the Halcon transaction, stockholders should be aware that upon the closing of the transaction, the employment of each of our senior executive officers, Messrs. Larry E. Lee, G. Les Austin, Larry Rampey and Drake Smiley,

Edgar Filing: RAM ENERGY RESOURCES INC - Form PRE 14C

will be terminated and each such officer will be entitled to receive a severance benefit under either an employment agreement or under our 2009 Change in Control Separation Benefit Plan, referred to as our 2009 CIC Plan. In addition, pursuant to the terms of our 2006 Plan, upon closing of the Halcon transaction, the unvested restricted stock awards previously granted to Messrs. Lee, Austin, Rampey and Smiley will vest in their entirety. Also, upon closing of the Halcon transaction, all stock appreciation rights, or SARs, previously granted to such executive officers under the 2006 Plan, whether or not vested, will vest in their entirety and will be deemed exercised as of the day immediately preceding the

Table of Contents

closing. The exercise price for the SARs is \$1.73 per share, meaning that if the closing price of our common stock on the day before closing is equal to or less than \$1.73 per share, no payment will be required by us with respect to the SARs. However, if and to the extent the closing price of our common stock on the day before the closing of the transaction is greater than \$1.73 per share, then each executive officer will be entitled to receive a cash payment equal to the amount by which the closing price exceeds \$1.73 per share multiplied by the number of SARs held by such executive officer.

Our 2009 CIC Plan also covers our five vice presidents, each of whom will be deemed to have resigned for Good Reason, as defined in our 2009 CIC Plan, upon closing of the Halcon transaction, and as a result will receive at closing a cash severance benefit equal to one times such officer's base salary. Pursuant to the terms of our 2006 Plan, upon the closing of the Halcon transaction, all unvested restricted stock awards previously granted to such officers will vest in full, and all SARs previously granted to such officers will vest in their entirety and will be deemed exercised as of the day immediately preceding the closing. All SARs held by such officers have the same exercise price and will be treated in the same manner as the SARs held by our executive officers. Our 2009 CIC Plan requires us to provide each officer covered by the 2009 CIC Plan (Mr. Lee is not covered by our 2009 CIC Plan) certain continuing health and dental insurance benefits for the executive (and the executive's dependents, if applicable) and certain continuing life and disability insurance benefits for the executive.

Under the terms of Mr. Lee's employment agreement, we will provide Mr. Lee a gross-up payment in an amount equal to any excise tax, or interest or penalties related to any excise tax, assessed against Mr. Lee pursuant to Section 4999 of the Internal Revenue Code of 1986, or the Code, based upon the payments discussed above, the vesting of any stock or SARs under our 2006 Plan and the payment of the gross-up amount. In addition, Mr. Lee and his family will be entitled to continue to participate in any welfare benefit plan offered by us through the end of the current term of his employment agreement, which expires April 30, 2013, to the same extent as if Mr. Lee continued to be employed by us through the expiration of the term.

Pursuant to the terms of our 2006 Plan, upon closing of the Halcon transaction, the unvested restricted stock awards previously granted to Messrs. Sean P. Lane, Gerald R. Marshall and John M. Reardon, the three independent directors on our board of directors, and Mr. Lawrence S. Coben, an outside consultant to our board of directors, will vest in their entirety; however, all of these unvested shares are scheduled to vest in their entirety in May 2012, whether or not the Halcon transaction is consummated.

Our board of directors was aware of these interests and considered them along with the other matters described herein in approving the Halcon transaction and determining to recommend the Halcon transaction to our majority stockholders for approval by written consent. With the exception of Mr. Lee, no member of our board of directors will be entitled to receive any payment or other economic benefit as a result of the closing of the Halcon transaction, other than the acceleration of vesting of restricted stock awards previously granted to such directors and scheduled to vest in May 2012.

Purchase Agreement (see discussion beginning on page 30)

The issuance of the securities and the other transactions contemplated by the purchase agreement are subject to several closing conditions, including:

the approval by a majority in interest of our stockholders by written consent, on or before January 20, 2012, of the issuance of the common stock, the note and the warrants, the amendments to our certificate of incorporation and our 2006 Plan contemplated by the Halcon transaction, and the approval, on an advisory (non-binding) basis, of the golden parachute payments (these conditions were satisfied by the execution by our majority stockholders of a written consent in lieu of meeting on January 17, 2012); and

the resignation of our existing executive officers and board of directors.

Table of Contents

We are required to pay a termination fee of \$2,500,000 if the purchase agreement is terminated by Halcon because of a material breach of the representations and warranties made by us in the purchase agreement which is not cured within 10 business days.

We are required to pay a termination fee of \$5,000,000 if the purchase agreement is terminated by Halcon other than pursuant to the provision described in the preceding paragraph because of a material breach of the covenants or agreements made by us in the purchase agreement which is not cured within 10 business days.

Halcon is required to pay us a termination fee of \$5,000,000 if we terminate the purchase agreement because of a material breach of the representations, warranties, covenants or agreements made by Halcon in the purchase agreement which is not cured within 10 business days.

Convertible Note (see discussion beginning on page 40)

The note will be issued in the original principal amount of \$275,000,000, will be unsecured and will mature on the fifth anniversary of the closing. The note will bear interest at an annual rate of 8%, payable quarterly and include a payment-in-kind option for payment of interest by addition to principal through March 31, 2014.

Any time after the two-year period following the closing, we may prepay the note without penalty or premium. Also at any time after (i) the two-year period following the closing or (ii) a change in control of RAM, the holder of any note may convert the outstanding principal and accrued but unpaid interest on such note into shares of our common stock at a conversion price of \$1.50 per share, subject to adjustment for stock dividends, stock splits and similar events.

Warrants (see discussion beginning on page 42)

The warrants entitle the holder, upon exercise, to purchase up to 110,000,000 shares of our common stock at an exercise price of \$1.50 per share, subject to adjustments for stock dividends, stock splits and similar events. The warrants are exercisable, in whole or in part, at any time before the fifth anniversary of the closing. The warrant exercise price may be paid in cash, by relinquishing or delivering to us warrants or common stock having a fair market value equal to the warrant exercise price, by offsetting the principal balance of the convertible note, or a combination of the foregoing.

Registration Rights (see discussion beginning on page 42)

At the closing, we will enter into a registration rights agreement with Halcon which will give Halcon and its affiliates the right to require us, on up to three occasions, to register for public sale the shares of common stock acquired at the closing and any shares of common stock acquired upon the exercise of the warrants and conversion of the note. The registration rights agreement also provides Halcon and its affiliates with piggyback registration rights with respect to registrations of the offer and sale of any shares of common stock we may effect for our own account or for the benefit of other selling stockholders.

New Board of Directors and Management (see discussion beginning on page 53)

Under the purchase agreement, a new board of directors will be appointed effective upon the closing. There will be ten directors, all of whom will be designated by Halcon. At the closing, all of our officers and all of our directors are required to deliver their resignations. Mr. Floyd C. Wilson will become the new chairman of the board, president and chief executive officer. It is expected that our headquarters will be moved to Houston, Texas within a short time following the closing.

Table of Contents

Amendments to Our Certificate of Incorporation

The following amendments to our certificate of incorporation will become effective upon filing with the Delaware Secretary of State in connection with the closing of the Halcon transaction. All the amendments are subject to approval by the holders of a majority of the outstanding shares of our common stock, and our majority stockholders have given such approval by executing a written consent in lieu of meeting on January 10, 2012. In the event the closing of the Halcon transaction does not occur, no amendments will become effective.

Increase in Authorized Capital Stock (see discussion beginning on page 49)

In order to provide a sufficient number of shares of capital stock to meet our current and future needs, including shares of common stock to be issued and reserved for issuance in the Halcon transaction, our board of directors approved and recommended to our majority stockholders an amendment to our certificate of incorporation to increase our authorized shares of common stock from 100,000,000 shares to 1,010,000,000 shares (prior to the reverse stock split discussed below).

Change of Our Corporate Name (see discussion beginning on page 49)

In order to reflect the significant infusion of capital by Halcon and to identify us more closely with the new ownership and management structure resulting from the majority stock ownership of Halcon subsequent to the closing, at Halcon's request our board of directors approved and recommended to our majority stockholders an amendment to our certificate of incorporation changing our corporate name to Halcon Resources Corporation.

The following amendment to our certificate of incorporation will become effective upon filing with the Delaware Secretary of State at a time determined by our board of directors following the closing of the Halcon transaction. In the event the closing of the Halcon transaction does not occur, this amendment will not become effective.

Reverse Stock Split (see discussion beginning on page 49)

To provide a stock price that is attractive and suitable to a broader range of potential investors, at Halcon's request, our board of directors approved and recommended to our majority stockholders a one-for-three reverse stock split of our common stock to become effective on a date following the closing of the Halcon transaction, meaning that from and after the effective time of the reverse stock split, each share of our common stock outstanding immediately prior to the filing of the amendment to our certificate of incorporation effecting the reverse stock split will represent one-third of one share of our common stock, or each three shares held prior to the split will result in one post-split share. This will result in each holder of our common stock immediately prior to the reverse stock split owning one-third the number of shares of common stock owned by such holder prior to the reverse stock split, but with each such new share having three times the value as the pre-split shares, subject, of course, to such changes in the trading prices of the post-split shares as may result from open market trading. No fractional shares or scrip of our common stock will be issued in connection with the reverse stock split. In lieu of a fractional share, we will pay cash equal to the product of such fraction multiplied by the per share stock price of one share of our common stock on the effective date of the reverse stock split.

Amendment to Our 2006 Plan

Our 2006 Plan requires the affirmative vote by holders of a majority of our outstanding common stock to amend the 2006 Plan in order to increase the number of shares of common stock that may be issued in conjunction with awards granted under the plan. On January 10, 2012, the required written consent of our majority stockholders approving the amendment to the plan was executed and delivered to us. The amendment will become effective upon the closing of the Halcon transaction. See Amendment to Our 2006 Plan.

Table of Contents

Approval of the Halcon Transaction, the Amendments to Our Certificate of Incorporation and Our 2006 Plan and Advisory Approval of Golden Parachute Payments; Stockholder Action by Written Consent

After careful consideration, our board of directors unanimously approved the Halcon transaction, as well as amendments to both our certificate of incorporation and our 2006 Plan, each conditioned upon the closing of the Halcon transaction. Under the Delaware General Corporation Law, approval of the amendments to our certificate of incorporation requires stockholder approval. Since the Halcon transaction results in (i) the issuance by us of more than 20% of our outstanding common stock in a private transaction for a price that may be less than the greater of the book or market value of our common stock and (ii) our change of control, and since we are approving a material change to our 2006 Plan, NASDAQ rules also require stockholder approval. Because the Halcon transaction will result in golden parachute payments to our named executive officers, we were required by federal securities laws to have an advisory (non-binding) vote of the stockholders on the golden parachute payments. On January 10, 2012, the required written consent of our majority stockholders was executed and delivered to us approving the Halcon transaction, the amendments to both our certificate of incorporation and our 2006 Plan and approving, on an advisory basis, the golden parachute payments to be made to our named executive officers as a result of the Halcon transaction. Accordingly, no further vote of our stockholders is required in connection with any of these matters.

Generally, these statements relate to business plans or strategies, projected or anticipated benefits or other consequences of such plans or strategies or other actions taken or to be taken by us, including the impact of such plans, strategies or actions on our results of operations or components thereof, projected or anticipated benefits from operational changes, acquisitions or dispositions made or to be made by us, or projections involving anticipated revenues, costs, earnings or other aspects of our results of operations. These forward-looking statements are not guarantees of future performance but rather are based on currently available competitive, financial and economic data and management's operating plans. These forward-looking statements involve risks and uncertainties that could render actual results materially different from management's expectations. Such risks and uncertainties include, without limitation, whether the Halcon transaction will be consummated, as well as business conditions and growth and consolidation in the oil and gas industry and the energy business generally and in the economy in general, risks related to our ability to generate capital to complete our planned drilling and exploration activities, risks inherent in oil and gas acquisitions, exploration, drilling, development and production, fluctuations in oil and gas prices, government regulations and environmental matters and other risk factors described from time-to-time in our reports filed with the SEC as well as the risks associated with the Halcon transaction which are described below under "The Halcon Transaction - Certain Risks Associated with the Halcon Transaction."

All statements in this information statement that are not statements of historical fact are forward-looking statements. Although we believe that the expectations reflected in such forward-looking statements are reasonable, there can be no assurance that those expectations will prove to have been correct. Certain other important factors that could cause actual results to differ materially from management's expectations are disclosed in this information statement and in our other filings with the SEC. Events could turn out to be significantly different from what management currently expects.

THE HALCON TRANSACTION

Pursuant to the purchase agreement entered into with Halcon on December 21, 2011, at the closing of the Halcon transaction we will issue to Halcon:

220,000,000 shares of our common stock;

our 8% senior convertible note due 2017 in the original principal amount of \$275,000,000 which will be convertible after two years into shares of our common stock at a conversion price of \$1.50 per share, subject to adjustment as described below under "Terms of the Note;" and

warrants entitling the holder to purchase up to 110,000,000 shares of our common stock at an exercise price of \$1.50 per share of common stock, subject to adjustment as described below under "Terms of the Warrants."

As the consideration for these securities, Halcon has agreed to pay us a total of \$550,000,000 in cash at the closing, of which \$275,000,000 is attributable under the purchase agreement to the shares of common stock and \$275,000,000 is attributable to the warrants and the note. For a description of the events leading to the approval by our board of directors of the Halcon transaction and the agreements related thereto, see "Background of the Halcon Transaction" below.

We have agreed that we will, upon Halcon's request on up to three occasions, register with the SEC the public offering and sale by Halcon and its affiliates of the shares of common stock that Halcon will purchase

Table of Contents

from us, including the shares issuable upon exercise of the warrants and upon conversion of the note, and that we will include those shares in certain other registration statements we may file with the SEC. See [Terms of the Registration Rights Agreement](#) below.

We have also agreed to reimburse Halcon for all documented and reasonable out-of-pocket fees, expenses and disbursements incurred by Halcon in connection with the Halcon transaction.

Certain Risks Associated with the Halcon Transaction

Our stockholders will experience substantial dilution. The consummation of the Halcon transaction will have an immediate dilutive effect on the ownership interests and voting power of our existing stockholders. Upon closing the Halcon transaction, Halcon will own approximately 73.6% of our outstanding shares of common stock. As a consequence, for as long as Halcon retains over 50% of our total outstanding voting shares, Halcon will have complete control over the election of directors and many other matters that may be presented to our stockholders from time to time. Conversion of the note into common stock or exercise of the warrants will further dilute the ownership interests and voting rights of existing stockholders.

Halcon will assume control of our management. Following the closing, our board of directors is expected to consist of ten members. Under the terms of the purchase agreement, Halcon will designate all of the members of our board. In addition, Floyd C. Wilson, the president and chief executive officer of Halcon, will become our chairman of the board, president and chief executive officer. See [Director and Executive Officer Information](#) [Directors](#) for information regarding Mr. Wilson and the other persons who will become members of our board of directors. All of our senior executive officers are expected to have their employment with us terminated or to resign at and as of the closing.

The amount of our indebtedness will increase significantly. At December 31, 2011, our long-term indebtedness was \$202.0 million. As a result of the Halcon transaction, our long-term indebtedness is expected to increase by \$73.0 million, which represents the original principal amount of the convertible note of \$275.0 million to be issued to Halcon less the amount of our existing long-term debt of \$202.0 million, which we expect to pay down with the proceeds from the Halcon transaction. See [Terms of the Note](#) and [Unaudited Pro Forma Consolidated Financial Information](#) below.

We may not be able to profitably deploy the funds that we will receive. If we complete the Halcon transaction, our growth and profitability will be largely dependent upon our ability to deploy the \$550.0 million in new capital that we will receive (approximately \$345.0 million on a net basis, before transaction expenses but after we pay down our existing long-term debt). Our success is dependent upon our being able to profitably invest our capital in projects and properties that produce commercial quantities of oil and natural gas and generate acceptable returns on investment. The oil and natural gas exploration and production business is inherently risky and we cannot be certain that the additional capital invested by Halcon will result in acquiring or finding additional oil and natural gas reserves in commercial quantities. In addition, the oil and natural gas exploration and production industry is dependent to a significant extent on commodity prices received for oil and natural gas, which historically are volatile and dependent upon factors not within our control. The funds provided in the Halcon transaction may not be adequate to complete a specific acquisition or acquisitions we may pursue, in which case we may be required to seek additional funds by incurring additional indebtedness, issuing additional equity securities, or by other means. This could increase even more the risks of being able to produce a profitable return for our stockholders.

Halcon's ownership position could inhibit takeover offers from other companies. After the closing, the significant ownership interests of Halcon could effectively deter a third party from making an offer to buy us, which might involve a premium over the current stock price or other benefits for stockholders, or otherwise prevent changes in the control or management of us. Halcon will have the ability to accept or reject any offer to buy us, or to buy all or substantially all of our equity securities or assets, in its sole discretion, even if such offer

would be in the best interests of our other stockholders. Except as described under Terms of the Purchase Agreement Covenants Protection of Minority Stockholders, there are no restrictions, in the form of a standstill agreement or otherwise, on the ability of Halcon or its affiliates to purchase additional RAM securities and thereby further consolidate its controlling ownership interest.

The warrants and the conversion rights under the note could result in significant market overhang which could restrain or limit increases in the market value of our stock. The 110,000,000 warrants to be issued to Halcon will be exercisable at any time over the five-year period beginning with the closing at an exercise price of \$1.50 per share. Additionally, beginning with the second anniversary of the closing and until its maturity five years after closing, the note will be convertible into shares of our common stock at a conversion price of \$1.50 per share. Although we have the right to prepay the note in whole or in part at any time after the second anniversary of the closing, such right will be subordinate to the right of the noteholders to elect in lieu of payment to convert the note into shares of our common stock. The availability of the warrant shares and the conversion shares at \$1.50 per share could discourage potential investors in our common stock from paying as much for our shares as they would if these conversion and exercise rights did not exist. This could restrict increases in the market value of our common stock that might otherwise occur without this market overhang.

Consummation of the Halcon transaction will substantially limit our ability to use our net operating loss carryforwards to offset future income for federal income tax purposes. Because Halcon will obtain more than 50% of the value of our outstanding capital stock, we will be limited in the amount of our net operating loss carryforwards that we will be able to use on an annual basis to offset our taxable income for federal income tax purposes. See Tax Consequences below. This will defer to a material extent, and could eliminate altogether, a portion of the future economic benefit that we would otherwise be entitled to under the current federal income tax laws as a result of our past operating losses.

The terms of Mr. Wilson's Executive Retention Agreement may limit our growth opportunities prior to November 1, 2012. Upon closing the Halcon transaction, Floyd C. Wilson will become one of our principal stockholders, as well as our director, chairman of the board, chief executive officer and president. Mr. Wilson is subject to certain noncompetition provisions set forth in his Executive Retention Agreement dated as of July 14, 2011 with Petrohawk Energy Corporation. As a result of his ownership status and director and officer positions with us, these noncompetition provisions will generally prohibit us from pursuing any oil and gas operations within a 50-mile radius of any oil and gas operations of BHP Billiton Petroleum (North America) Inc. (the successor to Petrohawk) or its affiliates, prior to November 1, 2012. The terms of the Executive Retention Agreement also prohibit Mr. Wilson, and as a result, us, from soliciting certain specified customers, employees and contractors of BHP Billiton prior to November 1, 2012. Halcon has represented and warranted to us that none of our four principal operating areas, that is, our (i) Electra/Burkburnett properties, located in Wichita and Wilbarger Counties, Texas, (ii) South Texas properties, located in Starr and Wharton Counties, Texas, (iii) Fitts and Allen properties, located in Coal, Hughes, Pontotoc and Seminole Counties, Oklahoma, or (iv) Osage concession, would be adversely affected by the noncompetition provisions of the Executive Retention Agreement. However, these noncompetition provisions may limit our ability to pursue advantageous acquisition or leasing opportunities in the near future, which may limit increases in the market value of our stock.

If the Halcon transaction is not completed, we will have nonetheless incurred substantial costs and our results of operations and the market price of our common stock may be adversely affected. We have incurred and expect to continue to incur substantial costs in connection with the Halcon transaction. In addition, we have diverted significant management resources in an effort to complete the Halcon transaction and are subject to restrictions contained in the purchase agreement on the conduct of our business. If the Halcon transaction is not completed, we will receive little or no benefit from these costs. Additionally, if the Halcon transaction is not completed, we may experience negative reactions from the financial markets and our customers, suppliers and employees. Each of these factors may adversely affect the trading price of our common stock.

The completion of the Halcon transaction is subject to the satisfaction or waiver of conditions. The completion of the Halcon transaction is subject to the satisfaction or waiver of a number of conditions set forth in

Table of Contents

the purchase agreement. If these conditions are not satisfied or waived, the Halcon transaction will not be completed. Also, even if all of these conditions are satisfied or waived, the proposed transactions may not be completed, as either we or Halcon have the right to terminate the purchase agreement prior to the closing of the Halcon transaction under certain circumstances specified in the purchase agreement. Also, under certain circumstances, we may be obligated to pay a termination fee of up to \$5,000,000 in the event the purchase agreement is terminated. See Terms of the Purchase Agreement Termination of the Purchase Agreement and Effect of Termination below.

Use of Proceeds

The net proceeds (after expenses of the transaction, which we estimate to be approximately \$327,600,000) from the sale of the securities will be applied to pay in full the \$75.0 million balance outstanding under our second lien term loan (which bears interest at LIBOR plus 9.0% with a 2.0% LIBOR floor and matures in September 2016) and pay down to zero the \$202.0 million balance under our revolving credit facility (which bears interest at LIBOR plus a margin ranging from 2.5% to 3.25% and matures in March 2016), with the balance to be added to our working capital and available for the acquisition, development and exploration of oil and gas properties and for general corporate purposes. As a result of the issuance of the note, our long-term debt is expected to increase by approximately \$73.0 million, which represents the original principal amount of the convertible note of \$275.0 million to be issued to Halcon less the amount of our existing long-term debt of \$202.0 million at December 31, 2011, which we expect to pay down with the proceeds from the Halcon transaction. We currently have no agreements, arrangements or understandings with respect to an acquisition of any entity or business.

Background of the Halcon Transaction

Since late 2008, our board of directors and our management team, and many of our stockholders, have been disappointed with our stock price and the manner in which the capital markets have valued us and our properties. Beginning in the summer of 2009, our board of directors and our management team began discussing the strategic alternatives available to us, which included (a) raising equity, either privately or through a public stock issuance, (b) refinancing our existing debt with a combination of bank debt and high yield notes, (c) executing a significant acquisition and funding it with a combination of equity and one or more new credit facilities, (d) entering into a strategic partnership with a financial or industry partner, and (e) a sale or merger of our company. Over the past two years, our board of directors and our management team have regularly reviewed and evaluated the implementation of these strategies with the goal of enhancing stockholder value.

In early 2010, our management team took part in several meetings and conference calls with Jefferies to discuss valuation estimates, possible sale and refinancing alternatives, and procedures and timing of a possible transaction. In May 2010, our board of directors approved the engagement of, and we engaged, Jefferies as our exclusive financial advisor to assist us with respect to our review and investigation of the strategic alternatives available to us, including the pursuit of a dual track project involving the refinancing of our senior secured credit facility, with a possible combination of high yield debt and a traditional bank credit facility, and a potential sale of our company if, upon receipt of expressions of interest indicating a receptive market and a favorable price, our board of directors decided to proceed with the initiation of a sale process.

As authorized by our board of directors, during May and June of 2010, Jefferies conducted due diligence, identified third parties potentially interested in acquiring us (which we refer to as potential acquirors), and worked with us to complete a Confidential Acquisition Opportunity Memorandum (which we refer to as the Confidential Memorandum) that would be appropriate for a potential acquiror to receive at the first stage of the process of exploring a potential acquisition of our company. During that time frame, we also received proposals from various entities regarding the refinancing of our long term debt.

As authorized by our board of directors, in June 2010, upon completion of the Confidential Memorandum, Jefferies began soliciting interest from potential acquirors. Jefferies made initial contact with over 80 potential

Table of Contents

acquirors. Although more than 20 potential acquirors executed confidentiality agreements, received the Confidential Memorandum and conducted some level of due diligence investigation, we received limited and unsatisfactory expressions of interest during the following months.

Specifically, during the late summer and early fall of 2010, we received the following preliminary offers and expressions of interest with respect to acquiring our company, none of which constituted a firm offer, all of which were conditioned upon additional due diligence and some conditioned on available financing (during the period from August 2 through September 30, 2010, our stock traded on the NASDAQ Global Market at closing prices ranging from \$2.01 to \$1.37 per share, with the closing price on August 2 being \$1.99 and the closing price on September 30 being \$1.55):

A preliminary offer from a capital management fund to acquire all of our outstanding capital stock for a purchase price within a range of \$1.65 to \$1.80 per share, subject to extensive due diligence and other terms. This offer was considered by our board of directors and rejected due to price and uncertainty of execution.

An expression of interest from a small, private, oil and gas exploration and production company, which we call an E&P company, to acquire all of our outstanding capital stock for a purchase price within a range of \$0.70 to \$1.33 per share, subject to extensive additional due diligence. This offer was considered by our board of directors and rejected due to price and uncertainty of execution.

A preliminary, oral expression of interest from an E&P subsidiary of a large public company to acquire all of our outstanding capital stock for a purchase price to be determined after considerable due diligence, but which, based on the total enterprise valuation indicated, would have been well below the then current market price. This proposal was not pursued by our senior management team due to price.

A preliminary, oral expression of interest from a small, private E&P company to acquire all of our outstanding capital stock for a purchase price to be determined after considerable due diligence, but which, based on the total enterprise valuation indicated, would have been well below the then current market price. The potential acquiror refused our request for additional details of its valuation analysis, essentially terminating the discussions.

Our board of directors met on September 7, 2010, September 10, 2010, September 16, 2010, September 30, 2010, and October 13, 2010 to obtain updates from our management team as to expressions of interest and offers received and to discuss the results of our review of our strategic options. Our board of directors determined that based on the broad solicitation of interest conducted by Jefferies and weak responses received from potential acquirors, a sale of the company at an acceptable price did not appear to be feasible. Our board of directors further determined that, under such circumstances, deleveraging our balance sheet through targeted asset sales and refinancing our existing debt would provide the greatest benefit to our stockholders. Accordingly, our board of directors directed management to pursue targeted assets sales, specifically the divestiture of select non-core, non-operated shale gas assets in Texas and in Oklahoma, with the cash sale proceeds to be applied to reduce our outstanding debt. Our board of directors also determined to continue to evaluate refinancing alternatives with respect to our remaining outstanding debt while asset sales were being completed.

Consistent with this direction and as authorized by our board of directors, Jefferies advised potential acquirors that we would be interested in receiving offers with respect to specific assets packages. As a result, during the fall of 2010 we received the following preliminary offers and expressions of interests from potential acquirors:

A preliminary offer from a small, recently formed, private E&P company to acquire all of our natural gas properties for \$115.0 million, subject to additional due diligence and an independent third party reserve report. This offer was considered by our senior management team and rejected due to strategic impact on our property portfolio, insufficient price and adverse income tax consequences.

A preliminary offer from a private E&P company to acquire all of our natural gas properties in South Texas for \$41.0 million, subject to additional due diligence and an independent third party reserve

report. The offer was reduced during the due diligence investigation to \$35.0 million. The offer was considered by our senior management team and rejected due to insufficient price, uncertainty of execution at the offered price and adverse income tax consequences.

Two preliminary inquiries regarding potential acquisitions of our South Texas properties for indicated prices ranging from \$40.0 to \$65.0 million, subject to additional due diligence. The \$65.0 million offer was subsequently reduced to \$25.0 million. We responded to these preliminary inquiries but the potential acquirors did not pursue these potential transactions.

A preliminary inquiry from a private E&P company regarding our Fitts Allen properties indicating a value of approximately \$100.0 million, subject to additional due diligence. The offer was subsequently reduced after additional diligence. The offer was considered by our management team and rejected due to insufficient price and adverse income tax consequences.

A preliminary offer from a private E&P company regarding our Fitts Allen and South Texas properties for potential acquiror a price of \$157.3 million, subject to additional due diligence and available financing. Subsequently the potential acquiror revised its offer to only include the Fitts Allen properties. This offer was considered by our management team and rejected due to insufficient price and adverse income tax consequences.

A preliminary offer from a private E&P company regarding our Fitts Allen properties for an indicated price range of \$60.0 to \$80.0 million, subject to additional due diligence. The offer was considered by our senior management team and rejected due to insufficient price and adverse income tax consequences.

A preliminary offer from a private E&P company regarding our Fitts Allen properties for an indicated price range of \$110.0 to \$120.0 million, subject to additional due diligence. The offer was subsequently reduced after additional diligence. The offer was considered by our management team and rejected due to insufficient price and adverse income tax consequences.

A preliminary offer from a private E&P company regarding our Fitts Allen, Boonsville/Newark East and South Texas properties assets for an indicated price range of \$185.0 to \$231.0 million, subject to additional due diligence. This offer was considered by our management team and rejected due to insufficient price and adverse income tax consequences.

An offer from Milagro Producing, LLC, a private E&P company, to acquire our North Texas shallow gas and Barnett Shale properties for a price range between \$40.0 and \$50.0 million. The offer was confirmed by additional due diligence and approved by our board of directors, and the transaction was closed on December 8, 2010 for a purchase price of \$43.7 million, subject to customary closing adjustments.

An offer from a private E&P company to acquire our non-operated natural gas shale properties in eastern Oklahoma for \$8.0 million. The transaction was closed on December 30, 2010 for a purchase price of \$8.0 million, subject to customary closing adjustments.

Throughout the winter of 2010-11, under the direction of our board of directors, Jefferies continued to contact prospective acquirors, both with respect to potential asset sales and a possible sale of the company. Contacts were made with several additional potential acquirors, but no offers or expressions of interest were received for the company and no acceptable offers or expressions of interest were received for specific assets packages. Throughout this period, our board of directors continued to receive updates from our management team and to evaluate our strategic alternatives and business plan for going forward. As a result of these discussions, it became evident to the board of directors that, absent a sale of the company, our path forward would likely be limited to organic growth within our existing asset base, with our ability to access the debt and equity markets dependent to a significant extent on commodity prices and success in our Osage concession.

On February 3, 2011, we announced that our non-acquisition capital budget for 2011 would be \$35.0 million and would be funded by internally generated cash flow. On August 8, 2011, we announced that we were reducing

Table of Contents

our non-acquisition capital budget to \$29.0 million, and on November 7, 2011, we announced a further reduction to \$27.5 million. Absent acquisitions, our ability to grow our reserves, production and revenues is primarily dependent on the successful implementation of our capital budget program.

On February 28, 2011, at a meeting of our board of directors, Mr. Lee reported that our proved reserves at December 31, 2010, were 24.4 million barrels of oil equivalent, which we refer to as BOE, down 28% from 33.9 million BOE at December 31, 2009. He noted that a significant portion of the decline was due to the properties sold in December 2010 and to reserve revisions relating to previously booked proved undeveloped locations. Mr. Lee advised the board of directors that in order to reverse the trend of declining reserves, we would have to access the credit and capital markets in order to support strategic acquisitions and the full development of our Osage concession. At the conclusion of the meeting, Mr. Lee summarized our strategic plan as consisting of three components: (i) making value-accretive acquisitions that could be financed under our senior secured credit facility; (ii) continue our exploration program, particularly in our Osage concession area, and (iii) continue to maximize value from our existing asset base. The board of directors acknowledged that in order to implement this plan, we would, as Mr. Lee stated, have to access the credit and capital markets in order to provide adequate funding.

On March 10, 2011, Mr. Lee advised the board of directors that we had received a preliminary expression of interest from an investment banking firm for the underwriting of a public offering of up to \$50.0 million of our common stock, conditioned on the capital markets becoming more receptive to E&P company equity offerings. On that date the closing market price of our stock was \$2.09 per share. Our board of directors directed Mr. Lee to continue discussions with the investment banking firm and to be prepared to pursue a possible public offering if and when market conditions permitted. Instead, the market continued to deteriorate and, by late June, the market price of our stock was less than \$1.30 per share.

On March 14, 2011, we entered into new senior secured credit facilities. The new facilities, which replaced our previous facility, included a \$250.0 million revolving credit facility and a \$75.0 million second lien term loan facility.

On March 17, 2011, we entered into an equity distribution agreement with an underwriter and filed a prospectus supplement under our existing shelf registration statement under which we may, from time to time, issue and sell shares of our common stock on the open market up to an aggregate gross sales price of \$25.0 million through an at-the-market equity distribution program. Shortly after the filing of the registration statement for the at-the-market offering, the market price of our common stock began a steady decline until, by early August, the price was less than \$1.00 per share. As a result we did not then utilize, and have never utilized, the at-the-market facility to sell any shares of our common stock.

In May 2011, we were approached by an investment banking firm expressing an interest in the possible sale of a 90% working interest in our Electra/Burkburnett field in Wichita and Wilbarger Counties, Texas, to a to-be-formed Canadian energy trust in anticipation of its effecting a public offering of trust units. The price range discussed by the investment banking firm was attractive and, accordingly, our board of directors approved going forward with further investigation of the transaction. Argent Energy Trust was formed in the summer of 2011 and filed a preliminary prospectus for an initial public offering with the Alberta Securities Commission in August 2011. Almost immediately after the initial filing, the market for Canadian energy trust units softened and the transaction was put on hold. We continued to pursue the potential sale to Argent through early December 2011 when it was determined that market factors were not favorable for Argent to launch its initial public offering and the transaction could not be completed.

In September 2011, we entered into a confidentiality agreement with a privately held E&P company that expressed interest in acquiring us; however, shortly thereafter and prior to the commencement of a concerted due diligence investigation, the potential acquiror advised us that due to other commitments it no longer was interested in pursuing a transaction.

Table of Contents

Between January and November 2011, we entered into six confidentiality agreements with companies expressing an interest in acquiring various of our oil and natural gas properties. Due diligence was conducted but none of the prospective acquirors submitted a satisfactory offer.

In late October 2011, Mr. Lee was contacted by Mr. Mike Mitchell of Mitchell Energy Advisors, Dallas, Texas, to discuss a proposal for a significant transaction between us and a then-unidentified investment group. On November 1, 2011, Mr. Mitchell and Mr. Lee met in our Tulsa office, at which time Mr. Mitchell laid out the possible terms of a potential recapitalization of us pursuant to a transaction with Halcon, a Delaware limited liability company recently formed by Mr. Floyd C. Wilson for the purpose of recapitalizing an existing, publicly owned, oil and gas exploration company, with the objective of taking control of such company and using the recapitalized company to continue to develop its existing properties and, more importantly, to participate in other, more capital-intensive emerging resource plays. Because Mr. Lee found the potential transaction interesting and was aware of Mr. Wilson's transactional history, excellent reputation, many successes, and likely access to substantial capital resources, he agreed to meet with Mr. Wilson to discuss the potential transaction.

On November 9, 2011, Mr. Lee, Mr. Wilson and Mr. Mitchell met in Dallas, Texas to discuss the proposed Halcon transaction, including a recapitalization involving \$250.0 million in equity, a \$250.0 million convertible note, and 100 million warrants, at which time Mr. Wilson and Mr. Mitchell presented a set of slides outlining the broad terms of the Halcon transaction. Mr. Wilson stated that he was prepared to start the company-building process again with a new operating and asset base, and that he had identified us as his first choice as the platform for going forward.

On November 10, 2011, Mr. Lee met with Mr. David Stinson of McAfee & Taft, our outside legal counsel, in our Tulsa office to discuss the terms of the proposal. Mr. Lee and Mr. Stinson discussed the similarities of the existing proposal with Mr. Wilson's 2004 recapitalization of Beta Oil & Gas, later renamed Petrohawk Energy Corporation, the success of Petrohawk over the next seven years and the eventual sale of Petrohawk to BHP Billiton in August 2011. They also discussed valuation issues, timing, effect on pending and planned transactions and the mechanics of how the transaction might be consummated if a deal could be made. As a result of that meeting, Mr. Lee telephoned Mr. Mitchell and suggested some changes to the proposed deal terms, essentially increasing the initial equity price from \$1.10 to \$1.25 per share, a 54% premium over both the 30-day and 90-day average price and a 32% premium to the previous day's closing price, increasing the conversion price of the note from \$1.25 to \$1.50 per share and increasing the warrant exercise price from \$1.10 to \$1.50 per share. Later that day, Mr. Mitchell responded with revised slides reflecting the changes proposed by Mr. Lee. As a result of these developments, Mr. Lee concluded that the transaction as proposed was likely to enhance the potential for an increase in stockholder value and should be presented to the board of directors for a determination as to whether management should proceed with further negotiations toward consummating a transaction.

On November 16, 2011, a special meeting of our board of directors was held at the Dallas-Fort Worth International Airport, and after extensive review and discussion of, among other things, Mr. Wilson and his history of success in the oil and gas business, the revised slide presentation outlining the proposed terms of the transaction, valuations, timing, and potential effect of the transaction on existing projects and plans, the board of directors determined that we should continue to pursue the proposed transaction.

On November 17, 2011, we contacted Jefferies to inform Jefferies of the proposed Halcon transaction. Jefferies, which together with its affiliates is our largest stockholder, owns approximately 21.8% of our outstanding common stock. Based on this conversation, we believed Jefferies would be in favor of continuing to pursue the transaction. Following this initial contact, we continued to keep Jefferies apprised of material developments with respect to the Halcon transaction.

On November 18, 2011, we received drafts of a term sheet and an exclusivity letter with respect to the Halcon transaction. The material terms proposed in the term sheet were essentially as discussed in the preliminary discussions between Mr. Lee and Mr. Wilson; however, we proposed and Halcon accepted certain

Table of Contents

clarifications with respect to the use of proceeds, terms of the payment-in-kind option under the note, the number of demand registration rights and the timing for delivery of written consents by our majority stockholders. Counsel for Halcon explained that Halcon also desired an exclusivity agreement to ensure we would not seek other purchasers or recapitalization partners during a relatively brief due diligence period, and we accepted the proposal subject to a reciprocal agreement by Halcon to not pursue an investment in another public company during the exclusivity period.

On November 21 and 22, 2011, Mr. Lee discussed by telephone with Mr. Wilson on several occasions the terms of the proposed transaction and of the requested exclusivity agreement.

On November 22, 2011, a special meeting of our board of directors was called and conducted by telephone conference call to update the members of the board concerning the status of the Halcon transaction. The board members discussed the drafts of the term sheet and exclusivity letter furnished to them in advance of the meeting and other factors, including the required fairness opinion. The board of directors determined that management should continue to pursue the proposed Halcon transaction on the terms outlined in the term sheet, execute the exclusivity agreement, and contact Jefferies to prepare a fairness opinion for the board of directors with respect to the transaction. Later that day, the parties acknowledged an agreement in principle with respect to the terms set out in the term sheet and executed and delivered the exclusivity letter. On that day our common stock closed at \$1.12 per share, which was the highest closing price in four months.

On November 23, 2011, Halcon commenced its extensive due diligence investigation of us and our properties. The due diligence investigation continued through December 21, 2011, when the definitive securities purchase agreement was executed and delivered by and between us and Halcon.

On November 28, 2011, Mr. Lee traveled to Houston and met in Jefferies' offices to discuss the proposed transaction and the preparation of a fairness opinion for the board of directors.

On November 29, 2011, Mr. Wilson and a due diligence team from Halcon visited our Tulsa offices and met with Mr. Lee and the management team.

On December 1, 2011, Mr. Lee was contacted by Mr. Mitchell and advised that Mr. Wilson desired to increase the size of his investment in us by \$50.0 million, split evenly between the initial common stock purchase and the convertible note and warrants. Mr. Mitchell then provided a revised pro forma analysis reflecting the increased deal size. Mr. Lee discussed the proposal with Mr. Les Austin, our senior vice president and chief operating and financial officer, and Mr. Stinson and advised the members of the board of the updated terms of Halcon's proposal. The following day Mr. Lee further discussed by telephone the upsizing proposal with Mr. Mitchell and on December 5, 2011, participated in telephone conversations with both Mr. Mitchell and Mr. Wilson concerning the upsized transaction.

On December 6 and 7, 2011, Mr. Lee participated in several telephone calls with Mr. Mitchell and Mr. Wilson concerning issues identified in the ongoing due diligence investigation undertaken by Halcon. Also on December 7, 2011, Mr. Lee telephoned Jefferies to discuss the status of the fairness opinion and the need to enter into a new engagement letter with Jefferies regarding the Halcon transaction and delivery of Jefferies' fairness opinion because the May 6, 2010 engagement letter between us and Jefferies was terminated effective November 28, 2011.

On December 12, 2011, Mr. Lee telephoned Mr. Mitchell to discuss the status of the Halcon due diligence investigation and documentation of the transaction.

On December 13, 2011, Mr. Lee, Mr. Stinson and Mr. Gerald Marshall, a member of our board of directors, met in our Tulsa, Oklahoma office with Ms. Britani Talley Bowman, the beneficial owner of 9,500,000 shares of our outstanding common stock, for the purpose of informing Ms. Bowman of the proposed transaction,

Table of Contents

furnishing Ms. Bowman a preliminary draft of this information statement and discussing in detail the terms of the proposed transaction and the possible timeline for accomplishing it.

Later on December 13, 2011, Mr. Lee, Mr. Mitchell and Mr. Wilson participated in a status update telephone conference call, which calls continued on a daily basis through December 16, 2011.

On December 16, 2011, we entered into a new engagement letter with Jefferies whereby we engaged Jefferies to be our exclusive financial advisor in connection with the Halcon transaction and to provide a fairness opinion with respect to the consideration to be received by us under the Halcon transaction.

On December 17, 2011, Mr. Lee and Mr. Mitchell exchanged telephone calls concerning pending issues in connection with the transaction.

On December 19, 2011, our board of directors met in Dallas, Texas with representatives of Jefferies where Jefferies rendered its opinion that, as of December 19, 2011, and based upon and subject to the various assumptions made, procedures followed, matters considered and limitations on the review undertaken as set forth in Jefferies' opinion, the aggregate purchase price to be received by us under the Halcon transaction in consideration for 220,000,000 shares of our common stock, the note and the warrants was fair, from a financial point of view, to us. Our board of directors then received a report from Mr. Lee and Mr. Stinson regarding the status of the transaction and issues remaining to be negotiated under the purchase agreement. Our board then engaged in a detailed analysis and discussion of the proposed transaction and determined to review all documents and reconvene on Wednesday, December 21, by telephone conference call, for further discussion and consideration.

On December 19, 2011, following our board of directors meeting, Mr. Lee telephoned Mr. Wilson and Mr. Mitchell for a status update and to advise that Jefferies had rendered its fairness opinion. On December 20, 2011, Messrs. Lee and Austin, along with Mr. Stinson and other members of our outside counsel team, participated in a lengthy drafting session conference call with Mr. Mize, Halcon's chief financial officer, and members of Halcon's outside counsel team, during which substantially all outstanding issues under the purchase agreement were resolved and considerable progress was made toward finalizing the transaction documents.

On December 21, 2011, our board of directors met by telephone conference call and after thoroughly discussing our current situation, the alternatives available to us, the benefits of the proposed transaction, the terms of the transaction and the procedures to effect same, and the transaction documents, approved the Halcon transaction and all matters related thereto requiring board approval, and resolved to recommend to our stockholders approval of those aspects of the transaction that require stockholder approval.

We executed and delivered the definitive purchase agreement with Halcon on December 21, 2011. Contemporaneously with the execution of the purchase agreement, our majority stockholders executed and delivered to Halcon an agreement whereby such stockholders agreed to sign a written consent or otherwise vote in favor of approving all aspects of the Halcon transaction and related matters that require approval by our stockholders and to deliver the signed written consent to us not later than January 20, 2012. On December 22, 2011, we issued a press release announcing the transaction and filed a Form 8-K with the SEC disclosing the transaction and including the material agreements as exhibits. On January 3, 2012, we delivered to Halcon the written consent in lieu of meeting described above, whereby our majority stockholders approved the Halcon transaction, the amendments to our certificate of incorporation described under Amendments to our Certificate of Incorporation below and related matters. With the exception of Mr. Lee, who will receive severance benefits under his employment agreement, and the members of our board of directors and the outside consultant to our board who will receive the acceleration of vesting of restricted stock awards previously granted to such persons and scheduled to vest in May 2012, no stockholder signing the written consent will be entitled to receive any payment or other economic benefit in connection with the closing of the Halcon transaction.

Table of Contents

On January 4, 2012, we and Halcon amended the purchase agreement to more accurately reflect each party's intention that the period of time during which we may consider acquisition proposals from other parties terminates upon delivery of the written consent by the majority stockholders.

Reasons for the Halcon Transaction and Board Recommendation

Our board of directors determined that the Halcon transaction would be the most suitable and obtainable means to pursue our accelerated growth strategy, and that the transaction was fair to and in the best interests of both us and our stockholders. In making this determination, our board of directors considered all of the risk factors described above under the sub-caption "Certain Risks Associated with the Halcon Transaction" and the following additional important factors:

the significant amount of new capital to be contributed by Halcon should allow us to accelerate our growth strategy with respect to our existing properties;

the significant amount of new capital to be contributed by Halcon should allow us to participate in emerging resource plays and further broaden the geographical and economic scope of areas, plays and prospects in which we are financially capable of participating;

the Halcon transaction will result in a substantial increase in our liquidity and will result in our being financially well positioned for growth and success without third party constraints and restrictions because, although our overall indebtedness will increase by approximately \$73.0 million, our working capital will increase by approximately \$331.0 million;

Mr. Wilson, the principal member and manager of Halcon, is experienced and has a successful track record in attracting an experienced and effective management team and aggressively growing the stockholder value of energy companies;

our board's determination that an accelerated growth strategy should be pursued as soon as practicable;

the terms of the Halcon transaction, and our board's determination that the purchase prices for the securities were reasonable and fair to us and to our stockholders;

the investment and growth objectives of Halcon;

the opinion of Jefferies that, as of December 19, 2011, and based upon and subject to the various assumptions made, procedures followed, matters considered and limitations on the review undertaken as set forth in Jefferies' opinion, the aggregate purchase price to be received by us under the Halcon transaction in consideration for 220,000,000 shares of our common stock, the note and the warrants was fair, from a financial point of view, to us; and

the absence of any third party offer or proposed transaction providing comparable benefits to us, and the risk that such an alternative transaction might not be available in the foreseeable future, and that we would not have sufficient capital to fund our long-term operations and growth strategy.

The board of directors did not assign relative weight to these factors or consider that any factor was of overriding importance. The board of directors evaluated the Halcon transaction based upon the totality of the factors and all of the information available to it for consideration.

Recent Developments

Edgar Filing: RAM ENERGY RESOURCES INC - Form PRE 14C

Halcon has advised us that, following consummation of the Halcon transaction, RAM will concentrate its acquisition, exploration and development efforts in emerging liquids-rich resource plays, in which relatively recent technological developments such as three-dimensional (3D) seismography, horizontal drilling and multi-stage hydraulic fracturing have proven to be effective in enhancing production in unconventional resource plays at attractive rates of return. Halcon also expects to continue evaluation and development of RAM's existing large

Table of Contents

oil and natural gas projects in the Electra/Burkburnett field in Wichita and Wilbarger Counties, Texas and the Fitts-Allen field in Pontotoc and Seminole Counties, Oklahoma and anticipates that we will begin horizontal development of the Mississippian Lime formation on our acreage position in Osage County, Oklahoma.

Based on the foregoing, we expect that, following consummation of the Halcon transaction, capital spending for both acquisitions and drilling will be substantially higher than our historical capital expenditures. We cannot assure you that we will be successful in economically acquiring or developing any new acreage, in growing our reserves or production or otherwise profitably deploying the capital invested in us by Halcon.

Jefferies Fairness Opinion

We retained Jefferies to provide us with financial advisory services in connection with the Halcon transaction and an opinion as to the fairness to us of the consideration to be received by us in connection with the Halcon transaction. At the meeting of our board of directors on December 19, 2011, Jefferies rendered its opinion to our board of directors to the effect that, as of December 19, 2011, and based upon and subject to the various assumptions made, procedures followed, matters considered and limitations on the review undertaken as set forth therein, the aggregate purchase price to be received by us under the Halcon transaction in consideration for 220,000,000 shares of our common stock, the note and the warrants was fair, from a financial point of view, to us.

The full text of the written opinion of Jefferies, dated as of December 19, 2011, is attached hereto as Appendix G. The opinion sets forth, among other things, the assumptions made, procedures followed, matters considered and limitations on the scope of the review undertaken by Jefferies in rendering its opinion. We encourage you to read the opinion carefully and in its entirety. Jefferies' opinion is directed to our board of directors and addresses only the fairness from a financial point of view of the consideration to be received by us under the Halcon transaction for 220,000,000 shares of our common stock, the note and the warrants as of the date of the opinion. It does not address any other aspects of the Halcon transaction and does not constitute a recommendation as to how any stockholder should vote with respect to the issuance of 220,000,000 shares of our common stock, the note and the warrants in connection with the Halcon transaction or any matter relating thereto. The summary of the opinion of Jefferies set forth below is qualified in its entirety by reference to the full text of the opinion.

Except as otherwise expressly provided in Jefferies' engagement letter with us, Jefferies' opinion may not be used or referred to by us, or quoted or disclosed to any person in any matter, without Jefferies' prior written consent. Jefferies has expressly consented to the inclusion of its opinion in this information statement.

In arriving at its opinion, Jefferies, among other things:

reviewed a draft dated December 14, 2011 of the purchase agreement;

reviewed certain publicly available financial and other information about us;

reviewed certain information furnished to Jefferies by our management, including financial forecasts and analyses relating to our business, operations and prospects;

held discussions with members of our senior management concerning the matters described in the prior two bullet points;

reviewed the share trading price history and valuation multiples for common stock and compared them with those of certain publicly traded companies that Jefferies deemed relevant;

compared the proposed financial terms of the Halcon transaction with the financial terms of certain other corporate-level transactions that Jefferies deemed relevant;

compared the proposed financial terms of the Halcon transaction with the financial terms of certain other asset transactions that Jefferies deemed relevant;

performed a premiums paid analysis based on the premiums paid in certain corporate-level transactions Jefferies deemed relevant and the historical trading prices of shares of our common stock;

performed a discounted cash flow analysis, based on projections provided by our management to analyze the present value of the future unlevered cash flow streams that our management expects to generate;

performed a net asset value analysis, based on the sum of (i) the present value of the field level before-tax future cash flows expected from proved reserves (applying a range of discount rates, commodity prices and market risk factors based on reserve category), (ii) estimated market value of undeveloped acreage (based on precedent transactions and Jefferies' experience as M&A professionals in the oil & gas industry) and (iii) the present value of oil and gas hedges;

reviewed certain proved oil and gas reserve data as of December 31, 2010 furnished to Jefferies by us and available in our public filings and certain proved oil and gas reserve data as of October 1, 2011 prepared and furnished to Jefferies by us; and

conducted such other financial studies, analyses and investigations as Jefferies deemed appropriate.

In Jefferies' review and analysis and in rendering its opinion, Jefferies assumed and relied upon, but did not assume any responsibility to independently investigate or verify, the accuracy and completeness of all financial and other information that was supplied or otherwise made available by us to Jefferies or that was publicly available (including, without limitation, the information described above), or that was otherwise reviewed by Jefferies. Jefferies relied on assurances of our management that management was not aware of any facts or circumstances that would make such information inaccurate or misleading. In its review, Jefferies did not obtain any independent evaluation or appraisal of any of our assets or liabilities, nor did Jefferies conduct a physical inspection of any of our properties or facilities. Jefferies was not furnished with any such evaluations or appraisals and did not assume any responsibility to obtain any such evaluations or appraisals.

With respect to the financial forecasts provided to and examined by Jefferies, Jefferies' opinion noted that projecting future results of any company is inherently subject to uncertainty. We informed Jefferies, however, and Jefferies assumed, that such financial forecasts were reasonably prepared on bases reflecting the best currently available estimates and good faith judgments of our management as to our future financial performance. Jefferies expressed no opinion as to our financial forecasts provided to Jefferies by us or the assumptions on which they were made.

Jefferies' opinion was based on economic, monetary, regulatory, market and other conditions that existed and could be evaluated as of the date of its opinion. Jefferies has not undertaken to reaffirm or revise its opinion or otherwise comment upon events occurring after the date of its opinion and expressly disclaims any undertaking or obligation to advise any person of any change in any fact or matter affecting Jefferies' opinion of which Jefferies became aware after the date of its opinion.

Jefferies made no independent investigation of any legal or accounting matters affecting us, and Jefferies assumed the correctness in all respects material to Jefferies' analysis of all legal and accounting advice given to us and our board of directors, including, without limitation, advice as to the legal, accounting and tax consequences to us of the terms of, and transactions contemplated by, the purchase agreement. In rendering its opinion, Jefferies assumed that the final form of the purchase agreement would be substantially similar to the last draft reviewed by Jefferies. Jefferies also assumed that in the course of obtaining the necessary regulatory or third party approvals, consents and releases for the Halcon transaction, no delay, limitation, restriction or condition would be imposed that would have an adverse effect on us or the contemplated benefits of the Halcon transaction.

Jefferies' opinion was for the use and benefit of our board of directors in its consideration of the Halcon transaction, and Jefferies' opinion did not address the relative merits of the transactions contemplated by the

Table of Contents

purchase agreement as compared to any alternative transaction or opportunity that might be available to us, nor did it address the underlying business decision by us to engage in the Halcon transaction or the terms of the purchase agreement or the documents referred to therein. Jefferies opinion does not constitute a recommendation as to how any stockholder should vote with respect to the issuance of 220,000,000 shares of our common stock in connection with the Halcon transaction or any matter relating thereto. In addition, Jefferies was not asked to address, and its opinion did not address, the fairness to, or any other consideration of, the holders of any class of our securities, our creditors or our other constituencies. Jefferies expressed no opinion as to the price at which shares of our common stock, the note or the warrants will trade at any time. Jefferies did not express any view or opinion as to the fairness, financial or otherwise, of the amount or nature of any compensation payable or to be received by any of our officers, directors or employees, or any class of such persons, in connection with the Halcon transaction, whether relative to the consideration to be received by us or otherwise. Jefferies' opinion was authorized by the Fairness Committee of Jefferies & Company, Inc.

In preparing its opinion, Jefferies performed a variety of financial and comparative analyses. The preparation of a fairness opinion is a complex process involving various determinations as to the most appropriate and relevant quantitative and qualitative methods of financial analysis and the applications of those methods to the particular circumstances and, therefore, is not necessarily susceptible to partial analysis or summary description. Jefferies believes that its analyses must be considered as a whole. Considering any portion of Jefferies' analyses or the factors considered by Jefferies, without considering all analyses and factors, could create a misleading or incomplete view of the process underlying the conclusion expressed in Jefferies' opinion. In addition, Jefferies may have given various analyses more or less weight than other analyses, and may have deemed various assumptions more or less probable than other assumptions, so that the range of valuations resulting from any particular analysis described below should not be taken to be Jefferies' view of our actual value. Accordingly, the conclusions reached by Jefferies are based on all analyses and factors taken as a whole and also on the application of Jefferies' own experience and judgment.

In performing its analyses, Jefferies made numerous assumptions with respect to industry performance, general business, economic, monetary, regulatory, market and other conditions and other matters, many of which are beyond our and Jefferies' control. The analyses performed by Jefferies are not necessarily indicative of actual values or actual future results, which may be significantly more or less favorable than suggested by such analyses. In addition, analyses relating to the per share value of shares of our common stock do not purport to be appraisals or to reflect the prices at which shares of our common stock may actually be sold. The analyses performed were prepared solely as part of Jefferies' analysis of the fairness, from a financial point of view, of the aggregate purchase price to be received by us under the Halcon transaction in consideration for the 220,000,000 shares of our common stock, the note and the warrants, and were provided to our board of directors in connection with the delivery of Jefferies' opinion.

The following is a summary of the material financial and comparative analyses performed by Jefferies in connection with Jefferies' delivery of its opinion to our board of directors on December 19, 2011. The financial analyses summarized below include information presented in tabular format. In order to fully understand Jefferies' financial analyses, the tables must be read together with the text of each summary. The tables alone do not constitute a complete description of the financial analyses. Considering the data described below without considering the full narrative descriptions of the financial analyses, including the methodologies and assumptions underlying the analyses, could create a misleading or incomplete view of Jefferies' financial analyses.

Transaction Overview

Jefferies valued the issuances of each of the 220,000,000 shares of our common stock, the note and the warrants based on the cash consideration for 220,000,000 shares of our common stock, the premium/discount at which the note is issued to the estimated fair market value of the note based on the Kynex convertible valuation model and the Black-Scholes options pricing model for the warrants. Using the Kynex convertible valuation model and based on the note's \$275 million principal amount, Jefferies determined that the premium/discount to

Table of Contents

the estimated fair market value of the note would range from a \$3.6 million premium to a \$25.7 million discount, for a range of note values from \$271.4 million to \$300.7 million. Using the Black-Scholes options pricing model, Jefferies determined that the value of the warrants would range from \$10.2 million to \$19.4 million. Combining these two ranges together, Jefferies calculated that the combined value of the note and the warrants ranged from \$281.6 million to \$320.1 million. Jefferies then subtracted this aggregate range of values to determine how much of the total \$550 million purchase price should be allocated to the purchase of 220,000,000 shares of our common stock. As a result of this calculation, Jefferies determined that \$229.8 million to \$268.4 million should be allocated to the purchase of 220,000,000 shares of our common stock, resulting in net consideration per share of common stock of \$1.04 to \$1.22.

Selected Public Company Analysis

Table of Contents

Using a reference range of \$13.00 to \$15.00 per Boe, and based on our December 31, 2010 proved reserves figure of 24.4 MMBoe (as we reported in our Annual Report on Form 10-K as of December 31, 2010 (the 2010 Annual Report)), Jefferies determined an implied enterprise value for us, then subtracted approximately \$200 million of indebtedness, net of cash and cash equivalents (Net Indebtedness) as we reported in our Quarterly Report on Form 10-Q as of September 30, 2011 (the Third Quarter Report) to determine an implied equity value. Based on approximately 78 million shares of our common stock that were outstanding as of November 30, 2011 on a fully diluted basis (Fully Diluted Shares), this analysis indicated a range of implied values per share of our common stock of approximately \$1.50 to \$2.12, compared to the consideration of \$1.04 to \$1.22 per share of our common stock.

Using a reference range of \$70,000 to \$90,000 per Boe/d, and based on our average daily production of 3.9 MBoe for the third quarter of 2011 (as we reported in the Third Quarter Report), Jefferies determined an implied enterprise value for us, then subtracted Net Indebtedness to determine an implied equity value. Based on the number of Fully Diluted Shares, this analysis indicated a range of implied values per share of our common stock of approximately \$0.95 to \$1.96, compared to the consideration of \$1.04 to \$1.22 per share of our common Stock.

Using a reference range of 5.5x to 6.5x our 2011E EBITDA and 5.0x to 6.0x our 2012E EBITDA, and based on our 2011E EBITDA of \$46.0 million and our 2012E EBITDA of \$54.5 million (in each case, as projected by management), Jefferies determined an implied enterprise value for us, then subtracted Net Indebtedness to determine an implied equity value. Based on the number of Fully Diluted Shares, this analysis indicated a range of implied values per share of our common stock of approximately \$0.67 to \$1.26 using our 2011E EBITDA and \$0.92 to \$1.62 using our 2012E EBITDA, compared, in each case, to the consideration of \$1.04 to \$1.22 per share of our common stock.

None of the Selected Public Companies utilized in the selected public company analysis is identical to us. In evaluating the selected public companies that would comprise the Selected Public Companies, Jefferies made judgments and assumptions with regard to industry performance, general business, economic, market and financial conditions and other matters, many of which are beyond our and Jefferies' control. Mathematical analysis, such as determining the mean or median, is not in itself a meaningful method of using comparable company data.

Selected Corporate-Level Transactions Analysis

Using publicly available information, Jefferies examined the following nine corporate-level transactions, which consisted of domestic exploration and production company transactions announced since January 1, 2005 with a target company transaction value between \$100 million and \$2 billion and involving a change of control of the target company (the Selected Comparable Corporate-Level Transactions). Similar corporate-level transactions that involved related parties, non-domestic targets or targets with no securities traded on a domestic national securities exchange were not included for purposes of this analysis. Furthermore, transactions that did not involve a change of control were not included for purposes of the analysis. Hess Corporation's acquisition of American Oil & Gas, Inc. was also not included in the analysis because relevant metrics were not meaningful.

The following table sets forth the Selected Comparable Corporate-Level Transactions considered and their respective dates of announcement:

Date	Buyer	Seller
06/02/2010	SandRidge Energy, Inc.	Arena Resources, Inc.
12/23/2009	Alta Mesa Holdings, LP	The Meridian Resource Corporation

Using information provided by our management and publicly available financial information for each of these transactions, Jefferies analyzed our transaction multiples and the corresponding transaction multiples of the target companies in the foregoing Selected Comparable Corporate-Level Transactions. In its analysis, Jefferies derived and compared multiples for us and such target companies, calculated and referred to as follows:

the transaction value divided by last twelve months, or LTM, EBITDA immediately preceding announcement of the transaction, which is referred to as *Transaction Value / LTM EBITDA* ;

the transaction value divided by proved reserves (based on the most recently available public data at the date of announcement), which is referred to as *Transaction Value / Proved Reserves* ; and

the transaction value divided by daily production as of the immediately preceding quarter, which is referred to as *Transaction Value / Daily Production*.

This analysis indicated the following:

Selected Comparable Corporate-Level Transactions Multiples

Benchmark	High	Low	Mean	Median
<i>Transaction Value / LTM EBITDA</i>	9.5x	2.7x	6.5x	6.6x
<i>Transaction Value / Proved Reserves (\$/Boe)</i>	27.99	10.07	19.38	18.51
<i>Transaction Value / Daily Production (\$/Boe/d)</i>	156,009	24,731	74,650	71,968

Using a reference range of 5.0x to 7.0x our LTM EBITDA, and based on our LTM EBITDA of \$48.5 million, Jefferies determined an implied enterprise value for us, then subtracted Net Indebtedness to determine an implied equity value. Based on the number of Fully Diluted Shares, this analysis indicated a range of implied values per share of our common stock of approximately \$0.54 to \$1.78, compared to the consideration of \$1.04 to \$1.22 per share of our common stock.

Using a reference range of \$17.50 to \$22.50 per Boe, and based on our December 31, 2010 proved reserves figure of 24.4 MBoe (as we reported in the 2010 Annual Report), Jefferies determined an implied enterprise value for us, then subtracted Net Indebtedness to determine an implied equity value. Based on the number of Fully Diluted Shares, this analysis indicated a range of implied values per share of our common stock of approximately \$2.90 to \$4.47, compared to the consideration of \$1.04 to \$1.22 per share of our common stock.

Using a reference range of \$65,000 to \$75,000 per Boe/d, and based on our average daily production of 3.9 MBoe for the third quarter of 2011 (as we reported in the Third Quarter Report), Jefferies determined an implied enterprise value for us, then subtracted Net Indebtedness to determine an implied equity value. Based on the number of Fully Diluted Shares, this analysis indicated a range of implied values per share of our common stock of approximately \$0.70 to \$1.20, compared to the consideration of \$1.04 to \$1.22 per share of our common stock.

No Selected Comparable Corporate-Level Transaction utilized as a comparison in the selected transaction analysis is identical to the Halcon transaction. In evaluating the Halcon transaction, Jefferies made numerous judgments and assumptions with regard to industry performance, general business, economic, market, and financial conditions and other matters, many of which are beyond our and Jefferies' control. Mathematical analysis, such as determining the mean or median, is not in itself a meaningful method of using selected transaction data.

Discounted Cash Flow Analysis

Jefferies performed a discounted cash flow analysis to estimate the present value of our unlevered free cash flows through the fiscal year ending December 31, 2016. In this analysis, unlevered free cash flow, which is our projected earnings before interest and taxes, or EBIT, minus cash taxes, minus its projected capital expenditures, minus the projected changes in net working capital and plus depreciation and amortization, was calculated using the forecasts we provided to Jefferies. Jefferies prepared this analysis based on (i) the weighted average cost of capital calculated using the median of the Selected Public Companies' unlevered beta and debt to total capitalization and (ii) the weighted average cost of capital calculated using our unlevered beta and debt to total capitalization.

Using financial projections provided by our management, discount rates from 18.2% to 19.2% (based on the 18.7% weighted-average cost of capital calculated using the median of the Selected Public Companies' unlevered betas of 1.58 and debt to total capitalization of 29% as derived by Jefferies), and, for the purpose of calculating our terminal value at the end of the forecast period, a range of terminal exit multiples of 5.0x to 7.0x, Jefferies derived a range of implied enterprise values for us. Jefferies then subtracted Net Indebtedness to the implied enterprise value for us to determine a range of our implied equity values. Based on the number of Fully Diluted Shares, this analysis indicated a range of implied values per share of our common stock of approximately \$0.00 to \$0.21, compared to the consideration of \$1.04 to \$1.22 per share of our common stock.

Using financial projections provided by our management, discount rates from 8.9% to 9.9% (based on the 9.4% weighted-average cost of capital calculated using our unlevered beta of 0.57 and debt to total capitalization of

Table of Contents

69% as derived by Jefferies), and, for the purpose of calculating our terminal value at the end of the forecast period, a range terminal exit multiples of 5.0x to 7.0x, Jefferies derived a range of implied enterprise values for us. Jefferies then subtracted Net Indebtedness to the implied enterprise value for us to determine a range of our implied equity values. Based on the number of Fully Diluted Shares, this analysis indicated a range of implied values per share of our common stock of approximately \$0.55 to \$1.48, compared to the consideration of \$1.04 to \$1.22 per share of our common stock.

Net Asset Value Analysis

Jefferies performed a net asset value, or NAV, analysis for us by combining the present value of the future before-tax cash flows expected from our proved reserves, the estimated market value of our undeveloped acreage and the present value of our oil and gas hedges. Using our estimated proved reserves of 22.5 MMBoe as of October 1, 2011 (as provided by management), a range of discount rates, commodity prices and market risk factors based on reserve category, a range of estimated market values for our 56,320 undeveloped Mississippian acres (as provided by management), as estimated by Jefferies based on precedent transactions and its experience as M&A professionals in the oil and gas industry, and a present value of our oil and gas hedges of \$4.5 million, Jefferies derived a range of implied enterprise values for us. Jefferies then subtracted Net Indebtedness to the implied enterprise value for us to determine a range of our implied equity values. Based on the number of Fully Diluted Shares, this analysis indicated a range of implied values per share of our common stock of approximately \$0.83 to \$1.85, compared to the consideration of \$1.04 to \$1.22 per share of our common stock.

For each of the Selected General Corporate-Level Transactions, Jefferies calculated the premium represented by the offer price or merger consideration over the target company's closing share price one trading day, 30 trading days and 60 trading days prior to the transaction's announcement. This analysis indicated the following premiums for those time periods prior to announcement.

Time Period Prior to Announcement	High	75% Percentile Premium	25% Percentile Premium	Low
1 trading day	59.2%	43.8%	14.6%	0.2%
30 trading days	68.4%	46.2%	17.7%	(36.5%)
60 trading days	79.2%	51.7%	18.1%	(31.5%)

Using a reference range of the 25th percentile to the 75th percentile premiums for each time period listed above, Jefferies performed a premiums paid analysis using the closing prices per share of our common stock one trading day, 30 trading days and 60 trading days prior to December 19, 2011.

Applying a one trading day prior premium reference range of 14.6% and 43.8% to our closing price of \$1.17 on December 16, 2011, which was the date that was one trading day prior to the date of Jefferies' opinion, this analysis indicated a range of implied values per share of our common stock of approximately \$1.34 to \$1.68, compared to the consideration of \$1.04 to \$1.22 per share of our common stock.

Applying a 30 trading days prior premium reference range of 17.7% and 46.2% to our closing price of \$0.78 on November 4, 2011, which was the date that was 30 trading days prior to the date of Jefferies' opinion, this analysis indicated a range of implied values per share of our common stock of approximately \$0.92 to \$1.14, compared to the consideration of \$1.04 to \$1.22 per share of our common stock.

Applying a 60 trading days prior premium reference range of 18.1% and 51.7% to our closing price of \$0.80 on September 23, 2011, which was the date that was 60 trading days prior to the date of Jefferies' opinion, this analysis indicated a range of implied values per share of our common stock of approximately \$0.94 to \$1.21, compared to the consideration of \$1.04 to \$1.22 per share of our common stock.

No Selected General Corporate-Level Transaction utilized as a comparison in the selected premiums paid analysis is identical to the Halcon transaction.

General

Jefferies' opinion was one of many factors taken into consideration by our board of directors in making its determination to approve the Halcon transaction and should not be considered determinative of the views of our board of directors or management with respect to the Halcon transaction or the consideration to be paid to us in the Halcon transaction.

Jefferies was selected by our board of directors based on Jefferies' qualifications, expertise and reputation. Jefferies is an internationally recognized investment banking and advisory firm. Jefferies, as part of its investment banking business, is regularly engaged in the valuation of businesses and securities in connection with mergers and acquisitions, negotiated underwritings, competitive biddings, secondary distributions of listed and unlisted securities, private placements, financial restructurings and other financial services.

We have engaged Jefferies to act as our financial advisor in connection with the Halcon transaction, and Jefferies will receive an aggregate fee of \$4 million for its services, \$1.5 million of which was paid upon execution of the purchase agreement and \$2.5 million of which is payable contingent upon consummation of the Halcon transaction. Jefferies also will be reimbursed for expenses incurred. We have agreed to indemnify Jefferies against liabilities arising out of or in connection with the services rendered and to be rendered by

Table of Contents

Jefferies under such engagement. Jefferies has, in the past, provided financial advisory and financing services to us, including in connection with a public offering of our equity securities and the disposition of certain of our assets, for which Jefferies received fees of \$308,000 and \$423,000, respectively. Jefferies has also provided financial advisory services to Petrohawk Energy Corporation, a former affiliate of Halcon, and received fees for the rendering of such services, including in connection with a public offering of Petrohawk Energy Corporation's equity securities. Furthermore, Jefferies is currently providing, and has in the past provided, financial advisory services to EnCap Investments L.P. and certain of its affiliates and has received fees for the rendering of such services. Encap Investments L.P. is a significant equity investor in Halcon. Jefferies may continue to provide financial and advisory services to us, Petrohawk Energy Corporation and EnCap Investments L.P. and may receive fees for the rendering of such services. In the ordinary course of Jefferies' business, Jefferies and its affiliates may trade or hold our securities or securities of Halcon and/or their respective affiliates for Jefferies' own account and for the accounts of its customers and, accordingly, may at any time hold long or short positions in those securities. Furthermore, as of the date of Jefferies' opinion, Jefferies owned 17,198,366 shares of our common stock, representing approximately 22% of the outstanding shares of our common stock (before giving effect to the Halcon transaction). In addition, Jefferies may seek to, in the future, provide financial advisory and financing services to us, Halcon or entities that are affiliated with us or Halcon, for which Jefferies would expect to receive compensation.

Interests of Certain Persons in the Halcon Transaction

In considering the recommendation of our board of directors with respect to the Halcon transaction, stockholders should be aware that upon the closing of the transaction, the employment of each of our senior executive officers, Messrs. Lee, Austin, Rampey and Smiley, will be terminated. Each such officer will be entitled to receive a severance benefit, under either an employment agreement or under our 2009 CIC Plan. The cash severance payments and accrued termination benefits to be received by Messrs. Lee, Austin, Rampey and Smiley are: Larry E. Lee \$1,169,270; G. Les Austin \$792,941; Larry G. Rampey \$846,880; and Drake N. Smiley \$791,709. In addition, pursuant to the terms of our 2006 Plan, upon the closing of the Halcon transaction the unvested restricted stock awards previously granted to Messrs. Lee, Austin, Rampey and Smiley will vest in the following amounts: Larry E. Lee 275,000 shares; G. Les Austin 187,500 shares; Larry G. Rampey 132,500 shares; and Drake N. Smiley 207,500 shares. Also upon closing of the transaction all SARs previously granted to such executive officers, whether or not vested, will vest in their entirety and will be deemed exercised as of the day immediately preceding the closing. Total vested and unvested SARs held by our executive officers are as follows: Larry E. Lee 150,000 shares; G. Les Austin 75,000 shares; and Drake N. Smiley 75,000 shares. The exercise price for the SARs is \$1.73 per share, meaning that if the closing price of our common stock on the day before closing is equal to or less than \$1.73 per share, no payment will be required by us with respect to the SARs. However, if and to the extent the closing price of our common stock on the day before the closing of the transaction is greater than \$1.73 per share, then each executive officer will be entitled to receive a cash payment equal to the amount by which the closing price exceeds \$1.73 per share times the number of SARs held by such executive officer.

Our 2009 CIC Plan also covers our five vice presidents, each of whom will be deemed to have resigned for "Good Reason," as defined in our 2009 CIC Plan, upon closing of the Halcon transaction, and as a result will receive at closing a cash severance benefit equal to one times such officer's base salary. Pursuant to the terms of our 2006 Plan, upon the closing of the Halcon transaction, all unvested restricted stock awards previously issued to such officers will vest in full, and all SARs previously issued to such officers will vest in their entirety and will be deemed exercised as of the day immediately preceding the closing. All SARs held by such officers have the same exercise price and will be treated in the same manner as the SARs held by our executive officers. Our 2009 CIC Plan requires us to provide each officer covered by the 2009 CIC Plan (Mr. Lee is not covered by our 2009 CIC Plan) for the period allowed under Section 4980B of the Code (not less than 18 months), the same level of health and dental insurance benefits for the executive (and the executive's dependents, if applicable) upon substantially similar terms and conditions (including contributions required by the executive for such benefits) as existed immediately before the date of termination; and for a period of 18 months, the same level of life and

Table of Contents

disability insurance benefits for the executive, upon substantially similar terms and conditions (including contributions required by the executive for such benefits) as existed immediately before the date of termination.

Under the terms of Mr. Lee's employment agreement, we will provide Mr. Lee a gross-up payment in an amount equal to any excise tax, or interest or penalties related to any excise tax, assessed against Mr. Lee pursuant to Section 4999 of the Code, based upon the payments discussed above, the vesting of any stock or SARs under our 2006 Plan and the payment of the gross-up amount. In addition, Mr. Lee and his family will be entitled to continue to participate in any welfare benefit plan offered by us through the end of the current term of his employment agreement, which expires April 30, 2013, to the same extent as if Mr. Lee continued to be employed by us through the expiration of the term.

Also pursuant to the terms of our 2006 Plan, upon closing of the Halcon transaction the unvested restricted stock awards previously granted to Messrs. Sean P. Lane, Gerald R. Marshall and John M. Reardon, the three independent directors on our board, and Mr. Lawrence S. Coben, an outside consultant to our board, will vest in their entirety in the following amounts: Mr. Lane 46,242 shares; Mr. Marshall 46,242 shares; Mr. Reardon 46,242 shares; and Mr. Coben 36,694 shares; however, all of these unvested shares are scheduled to vest in their entirety in May 2012, whether or not the Halcon transaction is consummated.

Our board of directors was aware of these interests and considered them along with the other matters described in this information statement in approving the Halcon transaction and determining to recommend the Halcon transaction to our majority stockholders for approval by written consent. With the exception of Mr. Lee, who will receive severance benefits under his employment agreement, and the members of our board of directors and the outside consultant to our board, who will receive the acceleration of vesting of restricted stock awards previously granted to such persons and scheduled to vest in May, 2012, no stockholder signing the written consent will be entitled to receive any payment or other economic benefit in connection with the closing of the Halcon transaction.

The summary reflects the amendments to the purchase agreement pursuant to the first amendment to the purchase agreement, a copy of which is attached as Appendix A-2. Factual disclosures about Halcon and RAM contained in this information statement or in our public reports filed with the SEC, as applicable, may supplement, update or modify the factual disclosures about Halcon and RAM contained in the purchase agreement. In particular, in your review of the representations and warranties contained in the purchase agreement and described in this summary, it is important to bear in mind that the representations and warranties were negotiated with the principal purposes of establishing the circumstances in which a party to the purchase agreement may have the right not to consummate the Halcon transaction if the representations and warranties of the other party prove to be untrue due to a change in circumstance or otherwise, and allocating risk between the parties to the purchase agreement, rather than establishing matters as facts. The representations and warranties may also be subject to a contractual standard of materiality different from those generally applicable to stockholders and reports and documents filed with the SEC and in some cases were qualified by disclosures that were made by each party to the other, which disclosures were not reflected in the purchase agreement. Moreover, information concerning the subject matter of the representations and warranties, which do not purport to be accurate as of the date of this information statement, may have changed since the date of the purchase agreement and subsequent developments or new information qualifying a representation or warranty may have been included in this information statement.

enter into any commitment or agreement to license or purchase seismic data other than pursuant to an agreement or commitment existing on the date of the purchase agreement; or

take any action or agree to take any of the foregoing actions or any action which would make any representation or warranty in the purchase agreement untrue or incorrect.

Written Consent; Information Statement. Promptly after the execution of the purchase agreement we shall have furnished to a majority in interest of our stockholders a form of written consent approving the transactions contemplated by the Halcon transaction that require stockholder approval, and such written consent shall have been executed and delivered by the subject stockholders within 20 business days following the date of execution of the purchase agreement. We also shall have filed an information statement with the Securities and Exchange Commission in the form of this information statement and promptly thereafter shall have furnished such information statement to all of our stockholders. We have fully performed and satisfied both of these covenants.

Continuation of Indemnification. After the closing, for a period of at least five years, we will, and Halcon will use all reasonable efforts to cause us to, continue to indemnify, defend and hold harmless the officers, directors and employees of us and our subsidiaries who were officers, directors or employees prior to the closing from and against all losses or liabilities which are due to such positions or arising out of the Halcon transaction. We have agreed to maintain our officers and directors liability insurance in effect for the same five-year period, and Halcon has agreed to use all reasonable efforts to cause us to do so.

No Shop Covenant; Superior Proposals. We agreed that following the execution of the purchase agreement, we and our subsidiaries (i) would terminate all then-ongoing discussions and negotiations with other parties with respect to or which could reasonably be expected to lead to an acquisition proposal by such parties and (ii) would not take any action to enter into any agreement that could lead to a company acquisition proposal or solicit, negotiate, encourage or otherwise take any actions to pursue a company acquisition proposal. Additionally, we agreed to use our reasonable best efforts to cause our stockholders, representatives and agents to do the same.

Notwithstanding the foregoing, we were expressly permitted, subject to certain restrictions, at any time prior to the time we received written consent to the Halcon transaction from our majority stockholders, to provide information to and negotiate with other persons who provided an unsolicited bona fide written company acquisition proposal that our board determined constituted or was reasonably expected to lead to a proposal more advantageous to us and our stockholders than the Halcon transaction, which is defined in the purchase agreement as a superior proposal. Upon receipt of a superior proposal, the board was required to provide five-days written notice of such superior proposal to Halcon and negotiate in good faith with Halcon to enable Halcon to adjust the terms and conditions of the Halcon transaction to be at least as favorable as such superior proposal. If at the end of such five-day period Halcon did not adjust the terms of its proposal to make it as or more attractive to us than the competing proposal, our board could terminate or withdraw its previous recommendation to the stockholders that they approve the Halcon transaction or cause us or a subsidiary to enter into an agreement with respect to such superior proposal; provided that the board determined in good faith, after consultation with our legal and financial advisers, that taking such action was necessary to comply with its fiduciary duties to our stockholders. In the event we accepted such a superior proposal, either we or Halcon could have terminated the purchase agreement, which would have also caused the stockholders agreement requiring our majority stockholders to approve the Halcon transaction to terminate.

Table of Contents

We received no superior proposals prior to the date that stockholders holding a majority in interest of our common stock executed the written consent and, as a result, these superior proposal provisions were never triggered.

Tax Matters. We and Halcon agreed that the note and the warrants together shall constitute an investment unit within the meaning of Section 1273(c)(2) of the Code and, within a reasonable time following the closing of the transaction, that we and Halcon would agree upon an allocation for federal income tax purposes of the \$275,000,000 issue price of the note between the note and the warrants.

Protection of Minority Stockholders. Halcon has agreed that during a period of two years after the date of closing, unless a proposed transaction described below is approved by a majority of the minority stockholders, Halcon and its affiliates will not vote its or their shares in favor of:

any transaction that would result in RAM going private such as through a transaction commonly referred to as a freeze-out merger;

a high-ratio reverse stock split, with any reverse stock split in which more than 100 shares of our common stock are converted into one share of common stock, or any reverse stock split with similar consequences, to be considered a high-ratio reverse stock split; or

any other transaction that would constitute a Rule 13e-3 transaction as defined in Rule 13e-3(a)(3) promulgated under the Securities Exchange Act of 1934.

Termination of the Purchase Agreement

The purchase agreement may be terminated:

by mutual written consent of Halcon and us;

by either Halcon or us if the closing has not occurred on or before April 30, 2012, provided that the party seeking to terminate the purchase agreement shall not have breached in any material respect its obligations under the purchase agreement in any manner that shall have proximately contributed to the failure to close the Halcon transaction;

by Halcon if there has been a material breach by us of any representation, warranty, covenant or agreement in the purchase agreement which cannot be cured or has not been cured within 10 business days following receipt by us of notice of such breach;

by us if there has been a material breach by Halcon of any representation, warranty, covenant or agreement in the purchase agreement which cannot be cured or has not been cured within 10 business days following receipt by Halcon of notice of such breach;

by either us or Halcon, if any applicable law, rule or regulation makes consummation of the Halcon transaction illegal or if any judgment, injunction, order or decree of a court or other governmental authority restrains or prohibits the consummation of the Halcon transaction, and such judgment, injunction, order or decree becomes final and nonappealable;

by Halcon if we failed to deliver the written consent of a majority in interest of our stockholders on or prior to the day that was 20 business days after the execution of the purchase agreement (this provision is no longer applicable as we delivered the required written consent within the time provided); or

by either us or Halcon if we accept a superior proposal.

Effect of Termination

If:

the purchase agreement is terminated by Halcon because of a material breach of the representations and warranties made by us in the purchase agreement which is not cured within 10 business days, then we will be required to pay Halcon a termination fee of \$2,500,000;

Table of Contents

the purchase agreement is terminated by Halcon other than pursuant to the above because of a material breach of the covenants or agreements made by us in the purchase agreement which is not cured within 10 business days, then we will be required to pay Halcon a termination fee of \$5,000,000;

the purchase agreement is terminated by us because there has been a material breach by Halcon of its representations, warranties, covenants or agreements in the purchase agreement and the breach is not cured within 10 business days, then Halcon will be required to pay us a termination fee of \$5,000,000;

the purchase agreement is terminated by us or by Halcon because we have accepted a superior proposal, then we will be required to pay Halcon a termination fee of \$5,000,000 (this provision is no longer applicable, as we did not accept a superior proposal prior to the time we delivered to Halcon the written consent of a majority in interest of our stockholders); or

a third party makes, or publicly announces its intention to make a company acquisition proposal, and the purchase agreement is subsequently terminated by us or Halcon because the Halcon transaction has not closed by April 30, 2012 (unless Halcon terminates the purchase agreement and we have not breached any of our obligations under the purchase agreement) or by Halcon because there has been a material breach by us of our representations, warranties, covenants or agreements in the purchase agreement, and within 12 months after such termination, either (i) we are acquired by a third party in a transaction that, if offered during the term of the purchase agreement, would have been subject to the purchase agreement's restrictions on alternative acquisition proposals, or (ii) the third party who made or announced its intention to make such a company acquisition proposal, or any of its affiliates, or any group that includes such third party or any of its affiliates, acquires beneficial ownership of 50% or more of our outstanding voting securities, and our board of directors has taken any action to facilitate such acquisition of beneficial ownership, then we will be required to pay Halcon a termination fee of \$5,000,000.

Indemnification

We have agreed to indemnify, defend and hold harmless Halcon for losses it may incur as a result of any breach of our representations and warranties. There are several limitations on our indemnity obligations which include:

we are not liable to Halcon until the losses for which indemnification would otherwise apply exceeds \$2,000,000 and we are liable only for amounts in excess of the \$2,000,000 threshold;

if the loss for which Halcon seeks indemnification results from a breach of our representations or warranties that, if it had been known to Halcon prior to closing, would have resulted in a reduction in the amount that was, for purposes of determining the purchase price in the Halcon transaction, assumed to be the post-closing net asset value of RAM, then (i) the amount to which our indemnification obligation applies is limited to the amount by which the amount of such reduction exceeds the \$2,000,000 threshold, up to a maximum of \$50,000,000, which is referred to as the adjustment amount, and (ii) our indemnification obligation is limited to the adjustment amount multiplied by Halcon's percentage ownership interest in our outstanding common stock immediately after closing; and

all claims for indemnification must be submitted within one year from the date of closing.

We are not obligated to make any cash payments to Halcon in respect of our indemnification obligations. Any indemnification obligation we have shall be satisfied by crediting the amount of the indemnifiable loss to the amounts otherwise payable by Halcon upon exercise of the warrants. If the amount of the indemnified loss exceeds the aggregate amount of the warrant exercise price of all warrants held by Halcon at the time of the determination of the indemnified loss, we will have no obligation to pay or credit Halcon an amount in excess of such aggregate warrant exercise price.

Table of Contents

Except to the extent provided in other provisions of the purchase agreement (including the provisions requiring us to pay a termination fee as described above), and except for claims for actual fraud, Halcon's right to indemnification is its sole remedy with respect to breaches of the purchase agreement by us.

Halcon has also agreed to indemnify, defend and hold us harmless for losses we may incur as a result of breaches of Halcon's representations and warranties.

Description of Our Common Stock

Authorized Capital

Our authorized capital stock consists of 100,000,000 shares of common stock, par value \$0.0001 per share, and 1,000,000 shares of preferred stock, par value \$0.0001 per share. On January 13, 2012, our record date for approval of the Halcon transaction and the amendment to our certificate of incorporation, there were _____ shares of our common stock and no shares of our preferred stock outstanding. Also on such date there were no warrants, options, convertible securities or other rights to acquire any of our capital stock outstanding.

Common Stock

The holders of our common stock are entitled to one vote per share on all matters voted on by stockholders. Holders of our common stock are entitled to such distributions as may be declared from time to time by our board of directors from funds available for distributions, subject to the preferential rights of our preferred stockholders, if any. Upon liquidation, holders of our common stock are entitled to receive pro rata all of our assets available for distribution to our stockholders, subject to any preferential rights of our preferred stockholders, if any. All shares of our common stock issued in the Halcon transaction will be fully paid and nonassessable and the holders of that stock, like the existing holders of our common stock, will not have preemptive rights to purchase additional shares. Because we have a classified board of directors, only one of the three classes of directors is subject to election by our stockholders each year.

Terms of the Note

We will issue to Halcon a convertible promissory note in the original principal amount of \$275,000,000. Below is a summary of the terms of the note.

Maturity

The note will be unsecured and will mature on the fifth anniversary of the closing date, at which time all of the outstanding principal and accrued but unpaid interest will be due and payable. No installments of principal will be due prior to maturity absent a default.

Interest

Interest on the note will be payable at a rate of 8% per annum payable quarterly. The interest rate will increase to 15% if we default on any payment obligation under the note. Provided that no event of default has occurred and is continuing, with respect to any interest payment date through March 31, 2014, we may elect to borrow from the noteholder all or a portion of the interest due and payable and apply such borrowing to the payment of interest due. Any amounts we borrow from the noteholder to make an interest payment will automatically be added to the principal of the note.

Prepayment

We may prepay all or any portion of the principal of the note with 30-days notice to the noteholder at any time after two years after the closing; provided, however, that in the event we notify the noteholders that we wish

Table of Contents

to prepay all or any portion of the note, the noteholders will have the right to elect to convert the principal amount that we have elected to prepay into shares of our common stock at the conversion price then in effect, effectively preventing us from making such prepayment.

Ranking

The note will be our senior unsecured obligation and is intended to rank equally in right of payment with all of our other existing and future senior unsubordinated debt. Except as may be agreed in writing by the noteholder, the note shall not rank junior in right of payment to any of our other debt. However, the rights of the noteholder will be effectively subordinated to the rights of the lenders under our existing revolving credit facility, and to the rights of any subsequent lenders under any replacement secured first lien facility, with respect to the assets and properties pledged as collateral therefor, to the extent that a lien or security interest is validly created and perfected in such assets and properties. As a result of the issuance of the note, our long-term debt is expected to increase by approximately \$73.0 million, which represents the original principal amount of the note minus the amount of our existing debt at December 31, 2011.

Conversion

At any time after the earlier of (i) two years after the closing, or (ii) a change in control of RAM, the noteholder may convert all or any portion of the outstanding principal and accrued but unpaid interest into common stock at a conversion price of \$1.50 per share, subject to adjustment for stock dividends, stock splits and similar events. Also, if we notify the noteholder that we intend to prepay all or any portion of the principal of the note, the noteholder may convert the principal amount that we have elected to prepay into shares of our common stock at such conversion price at any time after it receives our prepayment notice and prior to prepayment.

Events of Default

An event of default will occur under the note upon the happening of any of the following events:

our failure to pay any principal or interest when due;

any representation, warranty, certification or statement made by us in the purchase agreement or the other Halcon transaction documents is proven to have been incorrect in any material respect when made or at closing but only if the noteholder would have a valid claim for indemnification against us therefor under the purchase agreement;

a default under the terms of any document evidencing, securing or otherwise relating to any debt of us or our subsidiaries with a principal balance of \$500,000 or more, including under our revolving credit agreement and second lien term loan agreement;

we or a subsidiary commence or authorize a voluntary proceeding with respect to liquidation, reorganization or other relief under any bankruptcy, insolvency or other similar law or seeking the appointment of a trustee, receiver, liquidator, custodian or similar official of us or any substantial part of our property or we consent to such relief or to the appointment of or taking possession by such official in an involuntary proceeding;

we make or authorize a general assignment for the benefit of creditors;

we generally fail to pay our debts as they become due;

an involuntary case or proceeding is commenced against us or a subsidiary seeking liquidation, reorganization or other relief under any bankruptcy, insolvency or other similar law, or seeking the appointment of a trustee, receiver, liquidator, custodian or other similar official or us or any substantial part of our or a subsidiary's property, and such involuntary case or other proceeding remains

undismissed and unstayed for a period of 60 days;

an order for relief is entered against us under the federal bankruptcy laws;

Table of Contents

one or more judgments or orders in excess of \$500,000 in the aggregate are rendered against us or any of our subsidiaries and continue unsatisfied and unstayed for 30 days, or are not fully paid at least ten days prior to the date on which any of our or a subsidiary's assets may be lawfully sold to satisfy such judgment or order; or

any change of control other than as caused by any sales of the common stock purchased from us in the Halcon transaction or obtained upon conversion of the note or exercise of the warrants by the noteholder or any of its affiliates.

If an event of default has occurred and is continuing, the noteholder may declare the entire unpaid indebtedness under the note due and payable and may exercise any other remedy permitted by the purchase agreement, the Halcon transaction documents and law, provided that, in connection with the events of default relating to bankruptcy and insolvency matters described above, such acceleration of our indebtedness under the note would be automatic. Notwithstanding the foregoing, with respect to events of default that do not involve our failure to pay principal or interest when due under the note or a bankruptcy or insolvency matter, only a majority in interest of the holders of the notes (including the original note issued at closing and any notes issued upon transfer or exchange of all or a portion of the principal of such original note) may accelerate payment of the notes.

Terms of the Warrants

The warrants will expire on the fifth anniversary of the closing date. The warrants will be exercisable in whole or in part at any time after closing to purchase up to 110,000,000 shares of common stock at an exercise price of \$1.50 per share of common stock, subject to adjustment for stock splits, stock dividends and similar events. The warrant exercise price may be paid in cash, by relinquishing or delivering to us warrants or common stock having a fair market value equal to the warrant exercise price, by offsetting the principal balance of one or more of notes held by the holder of the warrant, or a combination of the foregoing.

Terms of the Registration Rights Agreement

General. The shares that are the subject of the registration rights agreement include the common stock to be purchased by Halcon at closing as well as the common stock issuable upon conversion of the note and upon exercise of the warrants. These shares of common stock are referred to as registrable securities.

Registration. Under the registration rights agreement, Halcon and any of its affiliates who own registrable securities have the right to demand, on three separate occasions, that we use our best efforts to cause registration for sale in a public offering of all or a portion of the registrable securities. We have also granted Halcon piggyback registration rights under the registration rights agreement. Under these piggyback registration rights, if we decide to file a registration statement on our own behalf or the behalf of other selling stockholders, holders of the registrable securities have the right to require us to include shares they own in the registration, subject to an underwriter's judgment that inclusion of these shares would exceed the number of shares that can be sold within the price range acceptable to us or to a majority of the stockholders who have requested the registration, as the case may be. We have the right to require Halcon to refrain from offering or selling any shares of common stock that it owns that are not included in any such registration statement for a reasonable time period, not to exceed 90 days, as may be specified by any managing underwriter of the offering to which such registration statement relates.

We will pay the registration expenses relating to Halcon's registrable securities that are included in any registration. We have also agreed to indemnify the holders of registrable securities for losses they may incur, under federal securities law or otherwise, that are based upon any untrue statement or omission, or alleged untrue statement or omission, of material fact contained in the registration statement or prospectus used in connection with any such registration (except to the extent made in reliance upon and in conformity with written information provided by such holders specifically for inclusion in the registration statement or prospectus), and to reimburse them for related expenses.

Material nonrecurring items that result directly from this transaction and will be included in our income within twelve months following this transaction and are not included in the above pro forma statement of operations are as follows:

The issuance of stock contemplated by this transaction will result in a change of control. The officers will receive change in control payments of approximately \$5.1 million.

The change in control will result in the exercise of all share appreciation rights and accelerated vesting for all unvested restricted stock shares issued to employees and officers of the Company. Expense to be recorded upon the change in control is approximately \$4.9 million assuming no share appreciation rights are exercised between December 31, 2011 and the date of the change in control and a market price of \$3.13 per share for the Company's stock on the date of settlement.

Prepayment of the second lien term facility will result in a prepayment fee of approximately \$1.5 million.

The Company will expense unamortized debt issue costs related to the second lien term loan and the revolving credit facility of \$3.1 million and \$3.2 million, respectively, due to termination of the facilities upon the change in control. Assumes the facilities will both terminate pursuant to the contractual terms of the agreements.

The Company is a party to a special retainer agreement with its outside law firm. The retainer agreement provides for a termination payment in the event of a change in control of approximately \$840,000.

Tax Consequences

Halcon's purchase of our common stock will constitute an ownership change under Section 382 of the Code because it will acquire more than 50% of our outstanding voting shares after the transaction is closed. As a consequence, we will be limited in our ability to use the net operating losses we have accrued before Halcon's purchase, which we refer to as pre-change losses, as a deduction against any taxable income we realize after the purchase. At September 30, 2011, we had available, to reduce future taxable income, an estimated federal net operating loss carryforward of approximately \$45,235,274, which expires in the years 2021 through 2029. Our pre-change losses also will include a portion of any losses we accrue for the year in which the Halcon transaction closes.

The rules under section 382 provide generally that the annual maximum amount of our pre-change losses that we can use against our post-change income is equal to our value before Halcon's purchase multiplied by a benchmark interest rate published monthly by the Internal Revenue Service. If the transaction were consummated as of January 4, 2012, our value would be \$245,868,499 and the interest rate multiplier would be 3.77%, so that the maximum amount of our pre-change losses that we could use in any post-change year would be \$9,269,242. That amount may be increased by our unrealized built-in gains and reduced by our unrealized built-in losses that we recognize during the five years following the Halcon stock purchase. Built-in gains and built-in losses are the amounts by which the values of our assets as of the date of Halcon's stock purchase exceed or are exceeded by our tax basis in the assets. We will make an appraisal of our assets prior to the closing of the Halcon transaction to determine the amounts of our unrealized built-in gains and built-in losses.

The estimate above assumes total shares issued of 78,552,236 and a trade value of those shares on the day before the change in control of \$3.13 per share. The limitation also assumes that the applicable federal rate continues to decline slightly in January such that the highest three month average of the long term federal exempt rate applicable for the limitation would be 3.77%.

AMENDMENTS TO OUR CERTIFICATE OF INCORPORATION

Our authorized capital stock consists of 101,000,000 shares, of which 100,000,000 are common stock and 1,000,000 are preferred stock. On December 21, 2011, our board of directors approved amendments to our certificate of incorporation to (i) increase the number of authorized shares of our capital stock from 101,000,000 to 1,011,000,000 shares, of which 1,010,000,000 will be common stock and 1,000,000 will be preferred stock, (ii) change our corporate name to Halcon Resources Corporation, and (iii) effect a one-for-three reverse stock split of our common stock. The amendment to our certificate of incorporation increasing the number of shares of our authorized capital stock and changing our name will be filed with the Delaware Secretary of State and will become effective in connection with the closing. The text of the proposed amendment to be filed at closing is included in the Second Amended and Restated Certificate of Incorporation attached as *Appendix F* to this information statement. The amendment to our certificate of incorporation effecting a one-for-three reverse stock split will be filed at some time following the closing, as determined by our board of directors. The amendments have been approved by written consent by the holders of a majority of our outstanding common stock on January 13, 2012. In the event the closing of the Halcon transaction does not occur, the amendments will not be filed and will be of no force or effect.

Reasons for the Amendments

Under Delaware corporate law, we are required to obtain approval from our stockholders to amend our certificate of incorporation in the manner discussed above. Our certificate of incorporation currently authorizes the issuance of up to 101,000,000 shares of capital stock, consisting of 100,000,000 shares of common stock and 1,000,000 shares of preferred stock.

As of January 13, 2012, the record date for approving the Halcon transaction, we had _____ shares of common stock available for future issuances in excess of the outstanding common stock and shares of common

stock that have been reserved for issuance under our 2006 Plan. If the Halcon transaction is consummated, there would be an aggregate deficit of shares of common stock on a fully diluted basis after consideration of shares reserved for issuance under our 2006 Plan and upon conversion or exercise of the note and warrants issued in the Halcon transaction.

Our board of directors believes that it is very important to have available for issuance a number of authorized shares of common stock that will be adequate to provide for future stock issuances to meet our obligations described above and for future corporate needs. The additional authorized shares would be available for issuance from time-to-time at the discretion of the board of directors without further stockholder action except as may be required for a particular transaction by law, the policies of NASDAQ or other relevant securities exchange, or other agreements and restrictions, including restrictions pursuant to the terms of outstanding preferred stock, if any. The shares would be issuable for any proper corporate purpose, including future acquisitions, capital raising transactions involving the issuance of either equity or convertible debt, stock splits or issuances under current and future employee or director benefit plans. The board of directors believes that these additional shares will provide us with needed flexibility to issue shares in the future without potential expense and delay incident to obtaining stockholder approval for a particular issuance. Except for the Halcon transaction and other matters described herein, and in accordance with our 2006 Plan, we do not currently have any plans, understandings or agreements for the issuance or use of the additional shares of common stock or preferred stock.

At Halcon's request, our board of directors approved and recommended to our stockholders a one-for-three reverse stock split of our common stock effective on a date that is after the closing of the Halcon transaction. The reverse stock split will be implemented to provide a stock price that is attractive and suitable to a broader range of potential investors following the closing of the Halcon transaction.

Also at Halcon's request, our board of directors approved an amendment to our certificate of incorporation changing our corporate name to Halcon Resources Corporation. The reason for the change of our corporate name is to reflect the significant infusion of capital by Halcon and to identify us more closely with the new ownership and management structure resulting from the closing of the Halcon transaction.

Principal Effects on Outstanding Common Stock

Holders of our common stock have the rights specified under "The Halcon Transaction Description of Our Common Stock." The increase in the authorized capital stock will affect the rights of existing holders of common stock to the extent that issuances pursuant to the Halcon transaction and future issuances of common stock will reduce each existing stockholder's proportionate ownership.

Although not a factor in the decision by the board of directors to increase our authorized capital stock, one of the effects of such increase may be to enable the board of directors to render more difficult or to discourage an attempt to obtain control of us by means of a merger, tender offer, proxy contest, or otherwise, and thereby protect the continuity of then present management. Our board of directors would have additional shares of common stock available to effect, unless prohibited by the regulations of NASDAQ, applicable law or other agreements or restrictions, a sale of shares (either in public or private transactions), merger, consolidation or similar transaction in which the number of our outstanding shares would be increased and would thereby reduce the interest of a party attempting to obtain control of us.

As a result of the one-for-three reverse stock split of our common stock effective on a date that is after the closing of the Halcon transaction, each share of our common stock outstanding immediately prior the filing of the amendment to our certificate of incorporation effecting the reverse stock split will represent one-third of one share of our common stock, or each three shares held prior to the split will result in one post-split share. This will result in each holder of our common stock immediately prior to the reverse stock split owning one-third of the number of shares of common stock owned by such holder prior to the reverse stock split, but with each such

new share having three times the value as the pre-split shares, subject, of course, to such changes in the trading prices of the post-split shares as may result from open market trading. No fractional shares or scrip of our common stock shall be issued in connection with the reverse stock split. In lieu of a fractional share, we shall pay cash equal to the product of such fraction multiplied by the per share stock price of one share of our common stock on the effective date of the reverse stock split.

AMENDMENT TO OUR 2006 PLAN

After careful consideration, our board of directors unanimously approved an amendment to our 2006 Plan, which we refer to as the Third Amendment, to increase the number of shares available under the 2006 Plan effective as of the closing date of the Halcon transaction. On January 11, 2012, our majority stockholders executed a written consent approving the Third Amendment effective as of the closing date of the Halcon transaction. Our 2006 Plan was originally approved by our stockholders on May 8, 2006.

Increase in Shares Available under the 2006 Plan

Our 2006 Plan provides that a maximum of 7,400,000 shares of common stock may be issued in conjunction with equity-based incentive awards granted to our officers, directors, employees and consultants under our 2006 Plan. At December 31, 2011 1,474,351 shares of our common stock remained available for awards to be granted under 2006 Plan. Our board of directors considers our 2006 Plan to be an important attraction, retention and motivational tool for eligible participants and believes that the number of shares currently available under our 2006 Plan would be insufficient to continue our 2006 Plan in future periods following the Halcon transaction. Therefore, our board of directors approved and recommended to our stockholders, and our majority stockholders approved, the Third Amendment to increase the total number of shares of our common stock authorized to be issued in conjunction with awards made under our 2006 Plan by an additional 3,700,000 shares, for a new share limit of 11,100,000 shares, effective as of the closing date of the Halcon transaction and before giving effect to the one-for-three reverse stock split, which will result in a proportionate reduction in the number of shares available for issuance under the 2006 Plan. We cannot determine the benefits to be received by our directors or officers as a result of the amendment to the 2006 Plan, or the benefits which would have been received by our directors and officers in prior years had the amendment to the 2006 Plan been in effect in those years.

For a summary of the principal terms of our 2006 Plan, see Executive Compensation- 2006 Long-Term Incentive Plan. The full text of the Third Amendment to our 2006 Plan is set forth on Appendix E to this information statement. A copy of our original 2006 Plan document was filed with the SEC as Exhibit C to our proxy statement on April 18, 2006. A copy of the First Amendment to the 2006 Plan was filed with the SEC as Exhibit A to our proxy statement on April 8, 2008. A copy of the Second Amendment to the 2006 Plan was filed with the SEC as Exhibit A to our proxy statement on April 4, 2010. Copies of the original 2006 Plan, the First Amendment to the 2006 Plan and the Second Amendment to the 2006 Plan may be obtained without charge by written request to:

Independence of Directors

We adhere to the rules of The NASDAQ Stock Market in determining whether a director is independent. Our board of directors also consults with our counsel to ensure that the board's determinations are consistent with those rules and all relevant securities and other laws and regulations regarding the independence of directors. The NASDAQ listing standards define an independent director generally as a person, other than an officer or employee of a company or any other individual having a relationship which, in the opinion of our board of directors, would interfere with the director's exercise of independent judgment. Consistent with these considerations, our board of directors has affirmatively determined that Messrs. Lane, Marshall and Reardon are independent directors. Mr. Lee is not independent.

Board Meetings and Committees

Our board of directors has the responsibility for establishing our broad corporate policies and for our overall performance. However, the board of directors is not involved in our day-to-day operations. The board of directors is kept informed of our business through discussions with the chairman, president and chief executive officer and other officers, by reviewing analyses and reports provided to it on a regular basis, and by participating in board of directors and committee meetings.

Our board of directors held 18 meetings during 2011, including telephonic meetings, and all of our directors were in attendance at each of these meetings. Our board of directors has established an Audit Committee, a Compensation Committee, and a Nominating and Corporate Governance Committee. In accordance with our bylaws, the board of directors annually elects from its members the members of each Committee.

Audit Committee

Members of our Audit Committee are Sean P. Lane, Gerald R. Marshall and John M. Reardon, with Mr. Marshall acting as chairman.

The Audit Committee is composed of non-employee directors, all of whom currently meet the independence standards of The NASDAQ Stock Market and of Rule 10A-3 promulgated under the Securities

Table of Contents

Exchange Act of 1934, as amended, or the Exchange Act. The Audit Committee annually considers the qualifications of our independent auditor and selects and engages our independent auditor. The Audit Committee meets quarterly with representatives of the independent auditor and is available to meet at the request of the independent auditor.

During these meetings, the Audit Committee receives reports regarding our books of accounts, accounting procedures, financial statements, audit policies and procedures, internal accounting and financial controls, and other matters within the scope of the Audit Committee's duties. The Audit Committee reviews the plans for and the results of audits for us and our subsidiaries. The Audit Committee reviews the independence of the independent auditor, and considers and authorizes the fees for both audit and non-audit services provided by the independent auditor. In 2011, our Audit Committee held six meetings, including telephonic meetings, and all members of our Audit Committee were in attendance at each of these meetings. The Audit Committee has adopted a written charter which is available on our website at <http://www.ramenergy.com>.

Compensation Committee

Members of our Compensation Committee are Sean P. Lane, Gerald R. Marshall and John M. Reardon, with Mr. Reardon acting as chairman.

The members of our Compensation Committee are non-employee directors who meet the independence standards of The NASDAQ Stock Market, but are eligible to participate in any of the plans or programs that the board of directors administers. The Compensation Committee reviews and approves the compensation of our officers. The Compensation Committee also administers our 2006 Plan and approves restricted stock awards, SAR awards and other stock-based grants for our executive officers and other employees. Our Compensation Committee adopted a written charter which is available on our website at <http://www.ramenergy.com>. In 2011, our Compensation Committee held seven meetings, including telephonic meetings, and all members of our Compensation Committee attended each meeting. Our Compensation Committee also took action by written consent one time in 2011.

Our Compensation Committee engaged Pearl Meyer & Partners, an outside compensation consulting firm, to assist the board of directors and the Compensation Committee in crafting our total compensation program for our executive officers for 2011 and to assist the board of directors in determining compensation for our directors. In connection with its engagement, Pearl Meyer was tasked with (i) providing the Compensation Committee with a report and competitive salary analysis showing market average compensation for executive officers and directors in companies similar to ours, and (ii) making recommendations to the Compensation Committee with respect to the compensation paid to our executive officers and directors.

Nominating and Corporate Governance Committee

Members of our Nominating and Corporate Governance Committee are Sean P. Lane, Gerald R. Marshall and John M. Reardon, with Mr. Lane acting as chairman.

Each member of our Nominating and Corporate Governance Committee is a non-employee director who meets the independence standards of The NASDAQ Stock Market. The Nominating and Corporate Governance Committee is responsible for overseeing the selection of persons to be nominated to serve on our board of directors. The Nominating and Corporate Governance Committee will consider persons identified by our board members, management, stockholders, investment bankers and others.

We do not have any restrictions on stockholder nominations under our certificate of incorporation or bylaws. The Nominating and Corporate Governance Committee will consider stockholder nominees for election as directors. Any stockholder nominations must be received by us not less than sixty (60) days nor more than ninety (90) days prior to the annual meeting; provided however, that in the event that less than seventy (70) days

notice or prior public disclosure of the date of the meeting is given or made to stockholders, notice by the stockholder, to be timely, must be received no later than the close of business on the tenth (10th) day following the day on which such notice of the date of the meeting was mailed or such public disclosure was made, whichever first occurs. Nominations should be delivered to the Nominating and Corporate Governance Committee at the following address: The RAM Energy Resources Nominating and Corporate Governance Committee, c/o Sean P. Lane, Committee Chairman, RAM Energy Resources, Inc., 5100 East Skelly Drive, Suite 650, Tulsa, Oklahoma 74135. The stockholder's nomination notice shall set forth: (i) as to each person whom the stockholder proposes to nominate for election or reelection as a director: (a) the name, age, business address and residence address of the person; (b) the principal occupation or employment and business experience of the person for at least the previous five years; (c) the class and number of shares of our capital stock which are beneficially owned by the person; and (d) any other information relating to the person that is required to be disclosed in solicitations for proxies for election of directors pursuant to the rules and regulations of the SEC under Section 14 of the Exchange Act; and (ii) as to the stockholder giving the notice: (a) the name and record address of the stockholder; and (b) the class and number of shares of our capital stock which is beneficially owned by the stockholder. Such submission must be accompanied by the written consent of the proposed nominee to be named as a nominee and to serve as a director, if elected. We may require any proposed nominee to furnish such other information as may reasonably be required by us to determine the eligibility of such proposed nominee to serve as a director.

Our Nominating and Corporate Governance Committee is responsible for identifying qualified candidates to be presented to our board of directors for nomination as directors, ensuring that our board of directors and our organizational documents are structured in a way that best serves our practices and objectives, and developing and recommending a set of corporate governance principles. The charter for the Nominating and Corporate Governance Committee requires that the Committee consist of no fewer than three board members that satisfy the independence requirements of The NASDAQ Stock Market. In 2011, our Nominating and Corporate Governance Committee held six meetings, and all members of the Committee were in attendance at the meeting. A copy of the current charter of the Nominating and Corporate Governance Committee is available on our website at <http://www.ramenergy.com>.

In considering possible candidates for election as a director, the Nominating and Corporate Governance Committee is guided by the principles that each director should be an individual of high character and integrity and have:

independence;

wisdom;

an understanding and general acceptance of our corporate philosophies;

business or professional knowledge and experience that can bear on our challenges and deliberations and those of our board of directors;

a proven record of accomplishment with an excellent organization;

an inquiring mind;

a willingness to speak one's mind;

an ability to challenge and stimulate management; and

a willingness to commit time and energy to our business affairs.

Edgar Filing: RAM ENERGY RESOURCES INC - Form PRE 14C

Our Nominating and Corporate Governance Committee does not have a formal policy with regard to considering diversity in its identification of director candidates; however, our Nominating and Corporate Governance Committee does consider diversity in its identification of director candidates. Diversity in business and professional experience, education, and background benefits us by increasing the range of skills and

Table of Contents

perspectives available to our board of directors. Members will be selected without regard to race, gender, religious belief, ancestry, national origin or disability. Our board of directors believes that adherence to these principles will provide an environment and practices that will yield the best return for our shareholders.

In addition to considering possible candidates for election as directors, the Nominating and Corporate Governance Committee may, in its discretion, review the qualifications and backgrounds of existing directors and other nominees (without regard to whether a nominee has been recommended by stockholders), as well as the overall composition of our board of directors, and recommend the slate of directors to be nominated for election at the ensuing annual meeting of stockholders. Currently, we do not employ or pay a fee to any third party to identify or evaluate, or assist in identifying or evaluating, potential director nominees.

The charter of our Nominating and Corporate Governance Committee provides that the Committee will evaluate our corporate governance effectiveness and recommend such revisions as it deems appropriate to improve our corporate governance. The areas of evaluation may include such matters as the size and independence requirements of our board of directors, board committees, management succession and planning, and regular meetings of our non-employee directors without management in executive sessions.

Annual Meeting Attendance

We do not have a policy requiring members of our board of directors to attend annual meetings of our stockholders. All of our directors attended our 2011 annual meeting.

Leadership Structure of the Board

As prescribed by our bylaws, the chairman of our board of directors has the power to preside at all meetings of the board. Larry E. Lee, our chief executive officer and president, serves as the chairman of our board of directors. Although our board of directors believes that the combination of the chairman and chief executive officer positions is appropriate for our company in the current circumstances, there is no corporate policy requiring that those positions be held by the same person.

Our chief executive officer is appointed by the board of directors to manage our daily affairs and operations. We believe that Mr. Lee's extensive industry experience and direct involvement in our operations make him best suited to serve as chairman in order to (i) lead the board of directors in productive, strategic planning, (ii) determine necessary and appropriate agenda items for meetings of the board of directors with input from both our independent directors and management, and (iii) determine and manage the amount of time and information devoted to discussion and analysis of agenda items and other matters that may come before the board. Our board structure also fosters strong oversight by our independent directors. Mr. Lee is the only member of management who serves on the board of directors, and all of the other directors are fully independent. Each of the committees of the board of directors is chaired by an independent director.

Stockholder Communication with the Board of Directors

Our board of directors believes that direct access to our independent directors, who constitute our Nominating and Corporate Governance Committee, our Compensation Committee and our Audit Committee, is essential to ensuring that corporate governance concerns, recommendations for director nominees, questions concerning our accounting functions, internal controls or auditing practices and compensation policies, and reports of potential violations of law or our policies, are addressed at the highest level within the organization. Accordingly, our board of directors has established certain contact procedures, which can be found on our website at <http://www.ramenergy.com>.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Exchange Act requires our directors, executive officers and persons who beneficially own more than 10% of our common stock to file certain reports with the SEC concerning their beneficial ownership of our equity securities. The SEC's regulations also require that a copy of all such Section 16(a) forms filed must be furnished to us by the executive officers, directors and greater than 10% stockholders. Brandon Lee, the son of our chairman, president and chief executive officer, serves as our Manager of Business Development. Total compensation paid to Brandon Lee as a result of base salary, bonus, award grants under our 2006 Plan, and other benefits totaled \$162,331 in 2011.

Our bylaws require that no contract or other transaction shall be made or entered into between us and (i) any of our directors or executive officers, (ii) any person known to be a beneficial owner of more than 5% of any class of our voting securities (a 5% owner), or (iii) any immediate family member of any director, executive officer or 5% owner unless (y) the contract or transaction is on terms no less favorable to us than may reasonably be available to us from an unaffiliated third party, and (z) if material in amount, is approved by vote of a majority of our disinterested directors.

We have and will continue to reimburse our officers and directors for any reasonable out-of-pocket business expenses incurred by them in connection with certain activities on our behalf, such as identifying and investigating possible target businesses and business combinations.

EXECUTIVE COMPENSATION

While our board of directors strives to create incentives that encourage a level of risk-taking behavior consistent with our business strategy, we believe our compensation policies and practices do not create risks that are reasonably likely to have a material adverse effect on our operations or financial condition.

Compensation Discussion and Analysis

Overview of Compensation Program

Our board of directors has overall responsibility for establishing compensation for our directors and executive officers. Our board of directors has delegated to the Compensation Committee of the board of directors the responsibility for establishing, implementing and continually monitoring adherence with our compensation philosophy with respect to our executive officers. The Committee ensures that the total compensation paid to our executive officers is fair, reasonable and competitive. Throughout this information statement, the individuals who served as our chief executive officer and chief financial officer during fiscal 2011, as well as the other individuals included in the Summary Compensation Table provided below, are referred to as our named executive officers. With the exception of our president and chief executive officer, Larry E. Lee, and our chief operating officer and chief financial officer, G. Les Austin, the types of compensation and benefits provided to our named executive officers are similar to those provided to other executive officers. Compensation and benefits provided to Mr. Lee, and certain benefits provided to Mr. Austin, are controlled by their employment agreement or arrangement described below.

Compensation Philosophy and Objectives

The Committee believes that the most effective executive compensation program is one designed to obtain and retain our key executives, reward longevity of employment, reward the achievement of annual, long-term and strategic goals, align the executives' interests with those of the stockholders and ultimately improve stockholder value. The Committee evaluates both performance and compensation to ensure we maintain our ability to attract and retain superior employees in key positions and that compensation provided to our key employees remains competitive relative to the compensation paid to similarly situated executives of our peer companies. To that end, the Committee believes that the executive compensation packages provided to our executives, including our named executive officers, should include both cash and stock-based compensation. The Committee's philosophy concerning the grant of equity awards under our 2006 Plan is as follows:

our most important asset is a highly educated, well-trained, experienced and dedicated management, professional and support staff;

in the current environment in the oil and natural gas exploration and production industry, attracting and retaining top quality management, professional and support staff is more competitive than ever;

in order to build and preserve this most important asset, we must offer attractive compensation and equity-based incentives to our key management, professional and support staff;

equity-based awards create an identity of interest between our key employees and our stockholders; and

equity-based awards incentivize award recipients to give their best efforts toward maximizing the value of our oil and natural gas assets and controlling costs, thereby creating the circumstances most likely to result in stock price natural appreciation for the benefit of all equity holders.

During 2011, the Committee continued its commitment to granting equity-based awards in the form of restricted stock rather than stock options or other types of equity-based awards available under the 2006 Plan because:

restricted stock awards are more desirable, from the employee's standpoint, because they are more immediate and substantive than options;

Table of Contents

employees receiving stock awards are stockholders with voting rights and the right to receive current dividends, instead of just option holders with the possibility of becoming stockholders in the future, thereby creating an immediate identity of interest with the public stockholders; and

restricted stock awards are more attractive to us because fewer shares are required to achieve the same incentive result.

During 2011, the Committee also granted equity-based awards in the form of SARs because of the decreasing number of shares of restricted stock available for issuance under the 2006 Plan and because it concluded that granting our officers a mix of restricted stock and SARs awards would be the most effective way to accomplish our equity incentive award objectives for 2011.

Effective January 1, 2010, the Committee approved the framework of an annual cash bonus incentive program for our officers (the Annual Bonus Program) designed to reward performance measured by the attainment of specified short-term goals set by the Committee on an annual basis, subject, in all respects, to the discretion of the Committee based upon the individual contribution of each named executive officer.

Role of Executive Officers in Compensation Decisions

The Committee makes all compensation decisions for all of our executive officers and, after consultation with our president and chief executive officer, approves equity awards to all of our employees. Decisions regarding the non-equity compensation of other employees are made by our president and chief executive officer after consultation with the Committee.

Our president and chief executive officer annually reviews the performance of each executive officer (other than himself, whose performance is reviewed by the Committee). The conclusions reached as the result of and recommendations based on these reviews, including recommendations with respect to salary adjustments and annual bonus or equity award amounts, are presented to the Committee. The Committee then exercises its discretion in determining adjustments or awards to executive officers.

Setting Executive Compensation

Our Compensation Committee engaged Pearl Meyer & Partners, an outside compensation consulting firm, to assist the board of directors and the Committee in crafting our total compensation program for our executive officers and to assist the board of directors in determining compensation for our directors.

In its reports, Pearl Meyer provided the Committee with relevant market data and alternatives to consider when making both cash compensation and equity-based compensation decisions for our executive officers, and in making recommendations to our board of directors for cash compensation and equity-based awards to our non-employee directors. The reports included a competitive salary analysis of general industry and energy compensation surveys showing market average salaries for executive officers and directors in companies similar to ours. Utilizing in part this report, the Committee approved the increase in our other executive officers' base salaries and made recommendations to our board of directors regarding director compensation, which recommendations subsequently were approved. Bonuses paid pursuant to our Annual Bonus Program were based upon the attainment of only one of the 2011 performance goals set by the Committee. See Performance-Based and Incentive Compensation Annual Bonus Program below for a more detailed description of the Annual Bonus Program.

The Committee monitors the results of the advisory say-on-pay proposal vote and incorporates such results as one of many factors considered in connection with the discharge of its responsibilities, although no such factor is assigned a quantitative weighting. Because a majority (65%) of our stockholders approved the compensation program described in our proxy statement in 2011, the Committee did not implement changes to our executive compensation program as a result of the stockholder advisory vote.

Table of Contents

2011 Executive Compensation Components

The Committee designs cash and stock-based incentive compensation awards intended to accomplish the following goals:

improve our operating performance and financial results;

maintain competitive levels of compensation in order to retain key employees due to the continuing competitive environment in the energy industry;

reward key employees for job performance over the past year;

recognize longevity as an important aspect of the officer ranks, which results in more predictable leadership and more efficient and productive employees throughout our organization;

provide incentive to continue the provision of high-level job performance; and

in all matters involving compensation of our officers and employees, provide fairness to the officers and employees on the one hand, and to our stockholders on the other hand, by setting compensation in a manner that aligns the interests of the parties with the ultimate goal of enhancing our long-term performance.

For the fiscal year ended December 31, 2011, the principal components of compensation for our named executive officers were:

base salary;

performance-based incentive compensation; and

perquisites and other personal benefits.

Base Salary

We provide our named executive officers with base salary to compensate them for services rendered during the fiscal year. The base salary is designed to provide a competitive fixed rate of pay recognizing different levels of responsibility and performance within our company. Base salary ranges for our named executive officers are determined for each executive based on his or her position and responsibility, by using market data, and by performance evaluations. Base salary ranges are designed so that salary opportunities for a given position generally will be within the 50th percentile of the market salary surveyed.

During its review of base salaries for executives, the Committee primarily considers:

market data provided by our outside consultant;

Edgar Filing: RAM ENERGY RESOURCES INC - Form PRE 14C

internal review of the executive's compensation, both individually and relative to other officers; and

individual performance of the executive.

Salary levels are typically considered annually as part of our performance review process as well as upon a promotion or other change in job responsibility. Merit-based increases to salaries of named executive officers are based on the Committee's assessment of the individual's performance based upon recommendations of our chief executive officer.

For 2011, the Committee approved base salary increases for the named executive officers, other than our chief executive officer, in percentages ranging from 5.0% to 8.0%, which were based on such factors as the amount of shortfall of such officers' base salary compared to the market median as shown in the Pearl Myer report, individual performance, responsibilities, peer salaries, longevity and overall value to the Company.

Table of Contents

Effective October 4, 2011, the Committee appointed Mr. Austin to a newly established position of chief operating officer of the Company. Along with the new title and new responsibilities incident to the position, our board and the Committee also approved an increase in Mr. Austin's base salary from \$299,250 to \$350,000 per year. Mr. Austin now holds the offices of chief operating officer, chief financial officer, senior vice president, secretary, treasurer and chief accounting officer. The Committee approved the appointment and increase in Mr. Austin's base salary recognizing that Mr. Austin has done an excellent job as our chief financial officer since joining us in 2008, that he has developed a good understanding of all aspects of our business, and that he, therefore, has the ideal set of skills to fill the chief operating officer position, which was designed to strengthen our management team and to enhance the coordination among our various departments in order to assure prompt and efficient execution of our business plan.

We believe that a competitive base salary is essential to retain our named executive officers and that the increases in such officers' base salaries for 2011 fit into our overall compensation objectives of retaining our named executive officers, rewarding them for their performance, and incentivizing them to continue the provision high-level job performance. We supplement our executive officers' base salary with the other elements of compensation discussed below in order to achieve an overall compensation package that aligns the interests of our officers and our stockholders.

Performance-Based and Incentive Compensation

We pay performance-based and incentive compensation to our named executive officers pursuant to the 2006 Plan and the Annual Bonus Program, both of which are described below.

2006 Plan

Performance-based and incentive compensation under the 2006 Plan may be paid in the form of cash bonuses, grants of restricted stock, share units, stock options, SARs, performance units and performance bonuses, or some combination of these awards. In granting these awards, the Committee may establish any conditions or restrictions it deems appropriate. Stock-based awards will generally vest between one and five years after the date of the grant. Ownership of restricted stock granted under our 2006 Plan by our named executive officers is set forth under the heading Security Ownership of Certain Beneficial Owners and Management. We believe that these awards fit into our overall compensation objectives by motivating employees and rewarding achievement of financial and other performance measures and, in the case of stock-based awards, providing incentive for long-term creation of stockholder value and aligning the interests of our named executive officers and our stockholders.

All stock-based awards under our 2006 Plan are made at the market price of our common stock at the time of the award. The Committee may grant awards of stock options, SARs, or restricted stock awards to executives at any regularly scheduled or special meeting. The grant date of any stock option, SARs, or restricted stock award will be determined in accordance with FASB ASC TOPIC 718.

The following table sets forth awards granted under our 2006 Plan to named executive officers in 2011:

Named Executive Officers	Restricted Shares	SARs
Larry E. Lee	100,000	200,000
Drake N. Smiley	100,000	100,000
G. Les Austin	100,000	100,000
	300,000	400,000

On May 5, 2011, after considering the information provided by Pearl Meyer and reviewing Mr. Lee's recommendations, the Committee approved the grant to our officers of 1,415,000 SARs and of restricted stock awards for 595,000 shares of our common stock, with such awards effective May 5, 2011. The grants to our

Table of Contents

named executive officers are reflected above. The awards are subject to a four-year vesting schedule, with the first vesting scheduled to occur on January 1, 2012. The market price of our common stock on the grant date was \$1.73 per share. Also on May 5, 2011, our board of directors approved and granted restricted stock awards to our independent directors totaling 138,726 shares of our common stock, or 46,242 shares each, in payment of the equity component of our independent directors' annual compensation. The grants to our independent directors are scheduled to vest in full one year from the date of grant, or May 5, 2012.

See [Grants of Plan-based Awards in 2011](#) and [Director Compensation](#) below for more information about award grants to our named executive officers and directors.

Annual Bonus Program

We provide short-term, performance-based cash incentives to our named executive officers in the form of cash bonuses under our Annual Bonus Program. Payment of cash bonuses under the Annual Bonus Program is generally linked to our attainment of certain financial and operational goals, but in all cases is subject to individual performance evaluations. The Annual Bonus Program is intended to provide a framework and guidelines for the administration of short-term incentive cash bonus awards to our executive officers. Final awards, if any, are made in the sole discretion of the Committee.

The Annual Bonus Program was established by the Committee to accomplish several important objectives:

improve our operating performance and financial results;

promote the successful completion of drilling programs;

promote growth in production volumes over the short and long-term;

motivate and reward plan participants for achievements in relation to the metrics of the plan; and

enable us to attract, motivate and retain high-caliber talent.

Incentive opportunity ranges are used to provide an opportunity for incentive awards to our named executive officers in relation to their responsibility levels. Each incentive opportunity range has a Threshold (minimum award), a Target (expected award), and an Outstanding (maximum award) level. These levels are designed to correspond to performance goals in relation to the performance measurements of the plan. Incentive opportunity ranges for our named executive officers are as follows:

Incentive Opportunity Range (% Salary)

Name and Title	Threshold	Target	Outstanding
Larry E. Lee, President and Chief Executive Officer	45.0	90.0	180.0
Larry G. Rampey, Sr. Vice President, Operations	35.0	70.0	140.0
G. Les Austin, Chief Operating Officer and Chief Financial Officer	35.0	70.0	140.0
Drake N. Smiley, Sr. Vice President, Land & Exploration	32.5	65.0	130.0

Incentive award payments are calculated as a percentage of a participant's base salary payable during the fiscal year. For example, our chief executive officer might expect an award of 90.0% of base salary when targeted performance levels are achieved, and no award when less than the threshold level of performance is achieved.

Awards under the Annual Bonus Program are based on performance in relation to weighted performance measurements. The performance measurements and the weight assigned to such measurements are recommended annually by management and approved by the Committee.

Edgar Filing: RAM ENERGY RESOURCES INC - Form PRE 14C

Based on the weighting of each measurement, a threshold, target and outstanding performance goal is determined. The performance goals are set in good faith based on our historical performance, internal forecasts, budgets and various other factors. The goals require us to

Table of Contents

execute our business plans and are subject to outside market forces. Management and the Committee use diligent efforts to set the performance goals for the Annual Bonus Program at levels that will result in the target level of performance being achieved 50% of the time, or three times in each six-year period, with each of the threshold and outstanding levels being achieved once in each six-year period and performance below the threshold level, and therefore no awards earned, once in each six-year period. Actual performance in relation to the measurements is interpolated between the three performance goal levels.

The Committee approves performance measurements and sets performance goals tied to the measurements that it believes will benefit our stockholders the most if those performance goals are met. Because of the expected benefits to us and our stockholders if such performance goals are met, the Committee believes it is appropriate to tie the ability of our named executive officers to receive cash bonuses under the Annual Bonus Program to the attainment of such performance goals. Based upon recommendations by management, the Committee established the following weighted performance measurements and corresponding performance goals for fiscal year 2011:

Performance Measurements and Performance Goals

Objective Measure	Weight	2011		Target	Outstanding
		Budget Or Prior Year Actual	Threshold		
Successful Refinancing of Senior Secured Credit Facility	20%	Yes/No	N/A	Yes	N/A
Acquire Producing Assets (Proved PV-10 Values)	20%	\$ 50,000	\$ 25,000	\$ 50,000	\$ 100,000
Production Growth (MBOE) (% of growth from prior year level)	10%	1,786	0.0%	5.0%	10.0%
Projected Current Year Modified EBITDA	30%	\$ 52,000	\$ 52,000	\$ 55,000	\$ 60,000
G&A Expense Reduction per BOE (% reduction from prior year level / net of incentive compensation)	10%	\$ 6.84	-11.8%	-13.5%	-16.5%
LOE Expense Reduction per BOE (% reduction from prior year level / net of incentive compensation)	10%	\$ 17.24	-6.8%	-8.5%	-11.7%

The Modified EBITDA target was set at a number 6% in excess of the Modified EBITDA projected in the current year business plan, to encourage and award above-budgeted performance. The production growth, debt reduction, general and administrative expense reduction and lease operating expense reduction targets were set at levels to encourage increasing production while reducing debt and controlling costs. With the exception of the refinancing of our senior secured credit facility and the acquisition of producing assets measures, all of the objective measures identified are essentially self-funding with respect to the Annual Bonus Program, inasmuch as the achievement of those measures provides additional cash to fund the award amounts. This combination of these incentive measures and targets was believed by the Committee to provide a framework for rewarding growth and enhancing stockholder value while encouraging efficient and economic operating practices.

In 2011, the only performance measurement we achieved was the measurement related to refinancing of our senior secured credit facility, which we closed in March 2011 and, as specified in the above table, carries a 20% weighting factor. After evaluating each named executive officer's contribution to achieving the refinancing of our senior secured credit facility performance, the Committee awarded the following cash bonuses to our named executive officers consistent with the metrics under the Annual Bonus Program in 2011:

Named Executive Officers	Cash Bonuses
Larry E. Lee	\$ 99,000
Larry G. Rampey	44,800
Drake N. Smiley	38,350
G. Les Austin	37,050
	\$ 219,200

Retirement and Other Benefits

Our 401(k) Profit Sharing Plan is a tax-qualified retirement savings plan pursuant to which all employees, including the named executive officers, are able to contribute the lesser of up to 100% of their annual salary or the limit prescribed by the Internal Revenue Service to the plan on a before-tax basis. For 2009, 2010 and 2011, our Compensation Committee determined that we would make a safe harbor match of 100% of employee contributions up to 6% of the employee's salary. All contributions to the plan as well as any matching contributions are fully vested upon contribution.

Perquisites and Other Personal Benefits

We provide our executive officers with perquisites and other personal benefits that we believe are reasonable and consistent with our overall compensation program to better enable us to attract and retain superior employees for key positions. The Committee periodically reviews the levels of perquisites and other personal benefits provided to our executive officers. The perquisites provided to our named executive officers are set forth in footnote 6 of the Summary Compensation Table below. Attributed costs of the personal benefits for the named executive officers for the fiscal year ended December 31, 2011 are included in column (i) and footnote 6 of the Summary Compensation Table below.

Executive Employment Agreements and Arrangements

Larry E. Lee. In connection with the consummation of our merger with RAM Energy in May 2006, we entered into an employment agreement with Larry E. Lee, under the terms of which Mr. Lee serves as our president and chief executive officer. The initial term of the employment agreement was three years. Pursuant to an amendment to the employment agreement effective March 8, 2011, the term of the employment agreement was extended through April 30, 2013. Under the terms of the employment agreement, we pay the annual premium on a term life insurance policy owned by Mr. Lee, the costs of his annual physical examinations, and certain country club dues and expenses. Mr. Lee also may be awarded a bonus for any fiscal year during the employment term, either pursuant to an incentive compensation plan maintained by us or as otherwise may be determined by our board of directors.

The employment agreement provides for certain payments in the event of Mr. Lee's termination. The termination payments are discussed below under the heading Potential Payments Upon Termination or Change of Control.

The employment agreement contains certain restrictive covenants that prohibit Mr. Lee from disclosing information that is confidential to us and our subsidiaries and generally prohibits him, during the employment term and for one year thereafter, from soliciting or hiring our employees and those of our subsidiaries. The employment agreement does not contain any restrictive covenants that otherwise limit Mr. Lee's ability to compete with us and our subsidiaries following his employment.

G. Les Austin. Effective April 1, 2008 we entered into a compensation arrangement with G. Les Austin, our senior vice president, chief operating officer, chief financial officer, treasurer and secretary, which provides for the following continuing benefits: (i) a term life insurance policy providing a death benefit of \$700,000 during the term of his employment, (ii) substantially the same perquisites provided to our other senior vice presidents, and (iii) certain severance and change of control protections. Effective March 23, 2011, we extended the severance and change of control protections under Mr. Austin's compensation arrangement through April 1, 2012. These protections are described below under the heading Potential Payments Upon Termination or Change of Control.

Tax and Accounting Implications

The Committee reviews and considers the deductibility of executive compensation under Section 162(m) of the Code, which provides that we may not deduct compensation of more than \$1,000,000 paid to certain

Table of Contents

individuals in any taxable year. We believe compensation paid by us is generally fully deductible for federal income tax purposes. However, in certain situations, the Committee may approve compensation that will not meet these requirements in order to ensure competitive levels of total compensation for our executive officers. For fiscal year 2011, all amounts paid to our named executive officers were deductible.

Beginning on January 1, 2006, we began accounting for stock-based payments including grants and awards under our 2006 Plan in accordance with the requirements of FASB ASC TOPIC 718.

Compensation Committee Report

The Compensation Committee has reviewed and discussed the Compensation Discussion and Analysis required by Item 402(b) of Regulation S-K with management and, based on such review and discussions, the Compensation Committee recommended to the board of directors that the Compensation Discussion and Analysis be included in this information statement.

Table of Contents**Summary Compensation Table**

The table below summarizes the total compensation paid to or earned by each of the named executive officers for the fiscal year ended December 31, 2011. Substantially all of the compensation paid to our president and chief executive officer, Larry E. Lee, results from the terms of his employment agreement. We have not entered into any employment agreements with any of the other named executive officers, although we do have an agreement with Mr. Austin that provides for certain prerequisites and benefits, along with severance and change-in-control protections through April 1, 2013.

Based on the fair value of equity awards granted to our named executive officers in 2011 and the base salary of the named executive officers, salary accounted for approximately 47% of the total compensation of the named executive officers, bonus incentive compensation accounted for approximately 7%, stock awards accounted for 16%, option awards accounted for approximately 16% and other compensation accounted for 14% of the total compensation of the named executive officers.

Potential Payments Upon Termination or Change of Control

Our employment agreements with Messrs. Lee and Austin obligate us to pay certain separation benefits to them in the event of termination of such executive's employment or upon a change of control. In addition, effective March 10, 2009, we adopted a separation benefit plan entitled the Change in Control Separation Benefit Plan of RAM Energy Resources, Inc, and Participating Subsidiaries, or the 2009 CIC Plan. The 2009 CIC Plan provides certain separation benefits to our senior vice presidents and our vice presidents (including our named executive officers, other than Mr. Lee), as well as the senior vice presidents and vice presidents of our affiliates. The terms of the 2009 CIC Plan are described below.

Mr. Lee's Employment Agreement

The amount of separation benefits payable to Larry E. Lee, as set forth in his employment agreement, upon voluntary termination, termination for cause, termination for good reason and termination in the event of disability or death is shown below. The amounts shown assume that such termination is effective as of January 31, 2012, and thus includes amounts earned through such time and are estimates of the amounts which would be paid out to Larry E. Lee upon his termination. The actual amounts to be paid out can only be determined at the time of his separation from us.

The term "disability" means disability (either physical or mental) which (i) materially and adversely affects Mr. Lee's ability to perform his duties required of his office, and (ii) at least 26 weeks after its commencement, is determined to be total and permanent by a physician selected by us or our insurers and acceptable to Mr. Lee or his legal representative. The term "cause" means termination for one of the following reasons:

the conviction of Mr. Lee of a felony by a federal or state court of competent jurisdiction;

an act or acts of dishonesty taken by Mr. Lee and intended to result in substantial personal enrichment of Mr. Lee at our expense; or

Mr. Lee's failure to follow a direct, reasonable and lawful written order from the board of directors, within the reasonable scope of his duties, which failure is not cured within 30 days.

The term "good reason" means:

the assignment to Mr. Lee of any material duties inconsistent in any respect with his position (including status, offices, titles and reporting requirements), authority, duties or responsibilities as contemplated by the employment agreement;

Edgar Filing: RAM ENERGY RESOURCES INC - Form PRE 14C

any other action taken by us which results in a diminution in Mr. Lee's position, compensation, authority, duties or responsibilities, excluding for this purpose an isolated, insubstantial and inadvertent action not taken in bad faith and which we remedy within ten (10) days after receipt of notice thereof given by Mr. Lee;

Table of Contents

any material failure by us to otherwise perform our obligations under the employment agreement, other than an isolated, insubstantial and inadvertent failure not occurring in bad faith and which we remedy within ten (10) days after receipt of notice thereof given by Mr. Lee;

our requiring Mr. Lee to be based at any office or location other than that described in the employment agreement, except for periodic travel reasonably required in the performance of his responsibilities;

any purported termination by us of Mr. Lee's employment otherwise than as expressly permitted by the employment agreement; or

any failure by us to cause any successor entity to assume our obligations to Mr. Lee under the employment agreement.

Payments Made Upon Termination Other Than for Cause, Death or Disability, or by Mr. Lee for Good Reason. In the event Mr. Lee is terminated for reasons other than cause, death or disability, or Mr. Lee complies with the requirements to permit him to resign, and he does resign, for good reason:

we will be obligated to pay to Mr. Lee in a lump sum payment the following amounts:

his annual base salary through the date of termination to the extent not already paid;

the highest bonus paid to Mr. Lee during his employment term for a full fiscal year, pro rated for that portion of the year of termination in which Mr. Lee is employed by us;

an amount equal to 200% of Mr. Lee's base salary in effect on the date of termination;

any deferred compensation and accrued vacation pay;

if Mr. Lee qualifies for accelerated vesting of stock options, restricted stock awards or other employee benefits, but the acceleration would adversely affect the tax status of the plan or other participants in the plan, an amount equal to the benefit he would receive had accelerated vesting occurred; and

a gross-up payment in an amount equal to any excise tax, or interest or penalties related to any excise tax, assessed against Mr. Lee pursuant to Section 4999 of the Code, based upon the payments discussed above, the vesting of any stock or option rights under any benefit plan and the payment of the gross-up amount;

all of Mr. Lee's stock options and restricted stock awards will vest; and

Mr. Lee and his family, if applicable, may continue to participate in any welfare benefit plan offered by us through the term of the employment agreement to the same extent as if Mr. Lee continued to be employed by us through the full term of the employment agreement.

Payments Made Upon Termination for Cause or by Mr. Lee for other than Good Reason. In the event Mr. Lee is terminated for cause, or Mr. Lee resigns for other than good reason, we have no further obligations to Mr. Lee other than a lump sum payment of the following amounts:

his annual base salary through the date of termination to the extent not already paid;

any deferred compensation; and

a gross-up payment in an amount equal to any excise tax, or interest or penalties related to any excise tax, assessed against Mr. Lee pursuant to Section 4999 of the Code, based upon the payments discussed above and the payment of the gross-up amount.

Payments Made Upon Death or Disability. In the event of Mr. Lee's death or disability:

we will be obligated to pay to Mr. Lee in a lump sum payment the following amounts:

his annual base salary through the date of termination to the extent not already paid;

Table of Contents

the bonus paid to Mr. Lee for the last full fiscal year, pro rated for that portion of the year of termination during which year Mr. Lee is employed by us;

an amount equal to Mr. Lee's base salary in effect on the date of termination for the lesser of twelve (12) months or the remaining term of the employment agreement;

any deferred compensation and accrued vacation pay;

if Mr. Lee qualifies for accelerated vesting of stock options, restricted stock awards or other employee benefits, but the acceleration would adversely affect the tax status of the plan or other participants in the plan, an amount equal to the benefit he would receive had accelerated vesting occurred;

a gross-up payment in an amount equal to any excise tax, or interest or penalties related to any excise tax, assessed against Mr. Lee pursuant to Section 4999 of the Code, based upon the payments discussed above, the vesting of any stock or option rights under any benefit plan and the payment of the gross-up amount; and

all of Mr. Lee's stock options and restricted stock awards will vest.

The following table shows the potential payments upon termination of Mr. Lee's employment with us as set forth in his employment agreement:

(2) Average monthly cost is \$1,482, with approximately 13 months remaining under the term of the employment agreement.

(3) Mr. Lee has no accrued vacation pay.

Payments of separation benefits may be delayed if (i) Mr. Lee is a specified employee within the meaning of Section 409A of the Code (Section 409A) as of the date of his separation from service and (ii) the amount of any separation benefits payable to him are subject to Section 409A. In such instance, the separation benefits will not be paid to Mr. Lee until six months after the date of separation from service (or, if earlier, the date of his death). Any delayed payment will be paid in a single lump sum in cash on the first day of the seventh month following Mr. Lee's separation from service (or, if earlier, upon his death).

Mr. Austin's Compensation Arrangement

Edgar Filing: RAM ENERGY RESOURCES INC - Form PRE 14C

If, during the period ending April 1, 2012, either (i) Mr. Austin's employment with us is terminated (in a manner that constitutes a separation from service under Section 409A) by us other than for cause or (ii) a change of control occurs, and upon such change of control or within six months thereafter, his employment with us is

Table of Contents

terminated (in a manner that constitutes a separation from service under Section 409A) either (y) by us other than for cause, or (z) by him for good reason, then we must pay to Mr. Austin as a severance benefit an amount equal to the sum of:

his then current base salary; plus

a bonus payment equal to the average of his three then most recent annual cash bonuses.

The term **change of control** means any change in the composition of our board of directors such that the incumbent directors comprise less than one-half of the membership of our board. The term **incumbent directors** means those persons currently serving as our directors, any person selected by the current directors to replace a director who dies, resigns or is removed as a director (and any such person shall thereafter be deemed to be a current director), or any person nominated by the current directors, or whose nomination is supported by the current directors, and who thereafter is elected by the stockholders as a director (and any such person shall thereafter be deemed to be a current director).

The term **cause** means:

conviction of a felony;

an act or acts of dishonesty intended to result in personal enrichment at our expense; or

failure to follow a reasonable and lawful order from our chief executive officer or the board, within the reasonable scope of his duties and responsibilities, which failure is not cured within ten (10) days after notice.

The term **good reason** means the termination by Mr. Austin of his employment within the period ending six (6) months following a change of control for any of the following events, unless he has consented in writing to such event:

a material diminution of his base annual salary;

his assignment of any duties materially inconsistent with his position as chief financial officer (including status, offices, titles, and reporting requirements), or any material diminution of his authority, duties, or responsibilities, other than an isolated, insubstantial, or inadvertent action not taken in bad faith and which we remedy promptly after receipt of notice from Mr. Austin; or

any required relocation of his principal office to a location more than fifty (50) miles from Tulsa, Oklahoma.

The following table shows the potential payments upon termination of Mr. Austin's employment with us as provided in his compensation arrangement:

	Change of Control Event	Involuntary Not For Cause Termination
Executive Benefits and Payments Upon Separation		
Base Salary(1)	\$ 350,000	\$ 350,000
Bonus	53,950	53,950
Accruals(2)	48,630	48,630

- Mr. Austin's employment arrangement contemplated the adoption of the 2009 CIC Plan, and includes specific provisions that address potential differences in the payment of change of control separation benefits. If circumstances under which the change of control separation benefit payable to Mr. Austin in the 2009 CIC Plan

Table of Contents

are substantially similar to the circumstances specified under his employment agreement, then the provisions of the 2009 CIC Plan will control. If, however, events subsequently occur that would have entitled Mr. Austin to the payment of change of control separation benefits under his employment agreement that are greater than those payable under the 2009 CIC Plan, we must make a cash payment to Mr. Austin equal to the increase in benefits payable. Assuming a termination as of January 31, 2012, the severance benefit payable to Mr. Austin under the 2009 CIC Plan would be greater than the benefit payable under his employment agreement.

Any payments of separation benefits may be delayed to ensure compliance with Section 409A in the same manner as described above under Mr. Lee's employment agreement.

Change in Control Separation Benefit Plan of RAM Energy Resources, Inc, and Participating Subsidiaries

We adopted the 2009 CIC Plan to assure that we will have the continued dedication of each of our senior vice presidents and vice presidents (Executives), notwithstanding the possibility, threat, or occurrence of a change in control. Our board of directors believed it was important to diminish the inevitable distraction of these Executives by virtue of the personal uncertainties and risks created by a pending or threatened change in control, and to encourage these Executives' full attention and dedication to our affairs during the term of the 2009 CIC Plan and upon the occurrence of such event. Our board of directors also believed that we are best served by providing these Executives with compensation arrangements upon a change in control which provide these Executives with individual financial security and which are competitive with those of other corporations. The principal provisions of the 2009 CIC Plan are as follows.

Change in Control

For purposes of the 2009 CIC Plan, a change in control shall be deemed to have occurred as of the first day that any one or more of the following conditions shall have been satisfied:

at the close of business day next following the day on which we learn of the acquisition by any unaffiliated person of beneficial ownership, within the meaning of Rule 13d-3 promulgated under the Exchange Act, of 50% or more of the then outstanding shares of our common stock;

at any time the incumbent directors (defined below) shall cease for any reason to constitute a majority of our board;

upon the consummation of a reorganization, merger or consolidation, or a sale or other disposition of all or substantially all of our assets, with certain limited exceptions where our stockholders continue to control the resulting entity (or the entity which purchases our assets) and the incumbent directors control the board of directors of the resulting entity (or the entity which purchases our assets); or

approval by our stockholders of a plan of complete liquidation or dissolution.

The incumbent directors are the members of the board of directors on the date of adoption of the 2009 CIC Plan, together with any person who thereafter becomes our director and whose election or nomination for election was approved by a vote of at least a majority of the incumbent directors (including directors so appointed or elected by incumbent directors) then on the board; provided, however, that no individual initially elected or nominated as our director as a result of an actual or threatened election contest (as described in Rule 14a-11 under the Exchange Act) or other actual or threatened solicitation of proxies or consents by or on behalf of any person other than the board, including by reason of any agreement intended to avoid or settle any such election contest or solicitation of proxies or consents, shall be deemed an incumbent director.

Reasons for Termination of Employment of an Executive

Termination Upon Death or Becoming Disabled. An Executive's employment shall terminate immediately upon the Executive's death and we will have no further obligation under the 2009 CIC Plan to the deceased Executive or such Executive's legal representatives. If the Executive's employment is terminated due to the

Table of Contents

Executive becoming disabled, we will have no further obligation under the 2009 CIC Plan to the Executive or such Executive's legal representatives. The term "disabled" means, with respect to any Executive, that (i) such Executive has received disability payments under our long-term disability plan for a period of three months or more, or (ii) based upon the written report of a mutually agreeable qualified physician designated by us and the Executive or the Executive's representative, our Compensation Committee determines, in accordance with Section 409A, that the Executive has become physically or mentally incapable of performing the Executive's essential job functions with or without reasonable accommodation or job protection as required by law for a continuous period expected to last not less than twelve months.

Termination by the Company; Cause. We may terminate an Executive's employment at any time whether with or without cause. For purposes of the 2009 CIC Plan, "cause" means the termination of Executive's employment due to:

the failure of the Executive to perform in any material respect the Executive's prescribed duties to us (other than any such failure resulting from the Executive becoming disabled);

the commission by the Executive of a wrongful act that caused or was reasonably likely to cause damage to us;

an act of gross negligence, fraud, unfair competition, dishonesty or misrepresentation in the performance of the Executive's duties on our behalf;

the conviction of or the entry of a plea of nolo contendere by the Executive to any felony or the conviction of or the entry of a plea of nolo contendere to any offense involving dishonesty, breach of trust or moral turpitude; or

a breach of the Executive's fiduciary duty involving personal profit.

If we terminate the Executive's employment for cause within the year following a change in control (the "Change in Control Period"), then such termination for cause shall not be effective for purposes of determining that the Executive is not entitled to payment of the separation benefit under the 2009 CIC Plan unless and until two-thirds of the board of directors adopt a resolution approving the termination of the Executive for cause, following notice and an opportunity to the Executive to be heard at a meeting called by the board of directors to discuss the Executive's employment.

Termination by the Executive; Good Reason. The Executive may terminate the Executive's employment at any time whether with or without good reason. The term "good reason" means the termination by the Executive of the Executive's employment during the Change in Control Period for any of the following events, unless the Executive has consented in writing to such event:

any material diminution in the Executive's annual base salary;

the assignment to the Executive of any duties materially inconsistent with the Executive's position (including status, offices, titles, and reporting requirements), authority, duties, or responsibilities, other than an isolated, insubstantial, or inadvertent action not taken in bad faith and which we remedy promptly after receipt of notice from the Executive;

any failure by us to require any successor or assignee to assume the obligations under the 2009 CIC Plan; or

any relocation of the Executive's principal office to a location more than fifty (50) miles from the Executive's principal office prior to such relocation.

Edgar Filing: RAM ENERGY RESOURCES INC - Form PRE 14C

No termination of employment for good reason shall be effective for purposes of determining that the Executive is entitled to payment of the separation benefits under the 2009 CIC Plan unless (i) following receipt of proper notice, we fail to either cure the offending cause or notify the Executive of our intended method of cure, and (ii) the Executive timely delivers a notice of termination.

Table of Contents

Termination Prior to a Change in Control. If we terminate the Executive's employment other than for cause, the Executive's death or the Executive becoming disabled, and a change in control occurs within six (6) months following the date of termination, then for purposes determining eligibility for payment of the separation benefits under the 2009 CIC Plan, such change in control shall be deemed to have occurred immediately prior to the date of termination if either (i) the date of termination occurs following the execution of an agreement (including a letter of intent) that provides for a transaction that subsequently is consummated and constitutes such change in control, or (ii) the Executive reasonably demonstrates that such termination was effected in connection with, or in anticipation of, such change in control.

Separation Benefits Upon Termination of the Executive under the 2009 CIC Plan

Accrued Obligations. Upon any termination of the Executive's employment for any reason, we will pay the Executive any unpaid portion the Executive's annual base salary through the date of termination and any accrued, unused vacation through the date of termination (the *Accrued Obligations*).

Termination for Good Reason; Other Than for Cause, Death, or Becoming Disabled. If during the Change in Control Period (i) we terminate the Executive's employment other than for cause, the Executive's death, or the Executive becoming disabled, or (ii) the Executive terminates the Executive's employment for good reason, then we will, in addition to the payment of the *Accrued Obligations*, pay the following separation benefits to the Executive:

If the Executive is a vice president, we will pay the Executive a lump sum in cash equal to one times the sum of the greater of (x) the Executive's annual base salary as of the date of termination, and (y) the Executive's annual base salary at any time during the one-year period before the change in control.

If the Executive is a senior vice president, we will pay the Executive a lump sum in cash equal to two times the sum of the greater of (x) the Executive's annual base salary as of the date of termination, and (y) the Executive's annual base salary at any time during the one-year period before the change in control.

We will also provide the Executive:

with limited exceptions and for the period allowed under Section 4980B of the Code (not less than 18 months), the same level of health and dental insurance benefits for the Executive (and the Executive's dependents, if applicable) upon substantially similar terms and conditions (including contributions required by the Executive for such benefits) as existed immediately before the date of termination; and

for a period of 18 months, the same level of life and disability insurance benefits for the Executive, upon substantially similar terms and conditions (including contributions required by the Executive for such benefits) as existed immediately before the date of termination.

Cause; Other than for Good Reason. If during the Change in Control Period the Executive's employment is terminated for cause, or by reason of death or disability, or the Executive terminates the Executive's employment without good reason, then the Executive shall have no further rights and we will have no further obligations to the Executive under the 2009 CIC Plan, other than for payment of the *Accrued Obligations*.

Director Compensation

Our board of directors determines all cash and non-cash compensation paid to our independent directors. Mr. Lee, our only management director, receives no compensation as a director. We use a combination of cash and stock-based incentive compensation to attract and retain qualified candidates to serve on our board of directors. In March of 2010, our Compensation Committee reviewed the Director Compensation Review prepared by Pearl Meyer & Partners that reflected that our independent directors were paid significantly less than directors of peer group companies, both in total cash compensation and in equity grants. The Compensation Committee determined that because each of our independent directors is a committee chair, and each member serves on each board committee, the independent members of our board of directors have considerably more responsibility than the average director on a much larger board. The Committee also noted that because we have such a small board of directors in comparison with the peer group, our overall board compensation burden is substantially less than the peer group. After consideration of these and other factors, the Committee recommended, and the board of directors approved, the payment of annual compensation to our independent directors for 2011 as follows:

Cash compensation of the following:

an annual base retainer of \$50,000;

a meeting fee of \$1,000 per meeting attended for all in-person and telephonic meetings of the board of directors and each board committee subject to a \$15,000 per-year cap on meeting fees;

an additional annual retainer of \$15,000 for the chairman of the Audit Committee;

an additional annual retainer of \$15,000 for the chairman of the Compensation Committee; and

Edgar Filing: RAM ENERGY RESOURCES INC - Form PRE 14C

an additional annual retainer of \$15,000 for the chairman of the Nominating and Corporate Governance Committee; and

Equity-based awards in the form of shares of restricted stock under our 2006 Plan having a fair market value on the date of grant equal to \$80,000.

On May 5, 2011, we granted restricted stock awards of 46,242 shares to each of Messrs. Lane, Marshall and Reardon. The market price of the shares of our common stock on the date of grant was \$1.73 per share. The fair market value of these awards totaled approximately \$80,000 as of the date of grant. All of the shares granted vest one year from the date of grant.

The table below summarizes the compensation paid by us to independent directors for the fiscal year ended December 31, 2011.

2006 Long-Term Incentive Plan

The purposes of our 2006 Plan are to promote our growth and profitability, to provide our executives, directors and other employees, and persons who, by their position, ability and diligence are able to make important contributions to our growth and profitability, with an incentive to assist us in achieving our long-term corporate objectives, to attract and retain executives and other employees of outstanding competence, and to provide such persons with an opportunity to acquire an equity interest in us.

Under our 2006 Plan, we may grant restricted stock, stock options, SARs or other awards to any of our directors, officers or full-time employees or those of our subsidiaries, and to any independent contractors and consultants who by their position, ability and diligence are able to make important contributions to our future growth and profitability. Generally, all classes of our employees are eligible to participate in our 2006 Plan.

Our 2006 Plan currently provides that a maximum of 7,400,000 shares of our common stock may be issued in conjunction with awards granted under our 2006 Plan. At December 31, 2011, 1,474,351 shares of our common stock remained available for awards to be granted under our 2006 Plan. Awards that are forfeited under the 2006 Plan will again be eligible for issuance as though the forfeited awards had never been issued. Similarly, awards settled in cash will not be counted against the shares authorized for issuance upon exercise of awards under the 2006 Plan.

Administration

The Compensation Committee of our board of directors administers our 2006 Plan. The members of our Compensation Committee serve at the pleasure of our board of directors. With respect to equity-based awards to be made to any of our directors, the Compensation Committee will make recommendations to our board of directors as to:

which of such persons should be granted equity-based awards;

the terms of proposed grants or awards to those selected by our board of directors to participate;

the exercise price for options and grant date value of SARs; and

any limitations, restrictions and conditions upon any equity-based awards.

Any equity-based award to any of our directors under our 2006 Plan must be approved by our board of directors.

In connection with the administration of our 2006 Plan, the Compensation Committee, with respect to equity-based awards to be made to any officer, employee or consultant who is not one of our directors, will:

determine which employees and other persons will be granted equity-based awards under our 2006 Plan;

Table of Contents

grant the equity-based awards to those selected to participate;

determine the exercise price for options and grant date value of SARs; and

prescribe any limitations, restrictions and conditions upon any equity-based awards.

In addition, our Compensation Committee will:

interpret our 2006 Plan; and

make all other determinations and take all other actions that may be necessary or advisable to implement and administer our 2006 Plan.

Types of Awards

Our 2006 Plan permits the Compensation Committee to make several types of awards and grants, the principal types of which are awards of shares of restricted stock, the grant of options to purchase shares of our common stock, and awards of SARs.

Restricted Stock. Restricted shares of our common stock may be granted under our 2006 Plan subject to such terms and conditions, including forfeiture and vesting provisions, and restrictions against sale, transfer or other disposition as our board of directors or the Compensation Committee may determine to be appropriate at the time of making the award. In addition, our board of directors or the Compensation Committee may direct that share certificates representing restricted stock be inscribed with a legend as to the restrictions on sale, transfer or other disposition, and may direct that the certificates, along with a stock power signed in blank by the employee, be delivered to and held by us until such restrictions lapse. Our board of directors or the Compensation Committee, in its discretion, may provide for a modification or acceleration of shares of restricted stock in the event of a change in control, death or permanent disability of the employee, or for such other reasons as our board of directors or the Compensation Committee may deem appropriate in the event of the termination of employment of the covered employee.

Stock Options. Stock options are contractual rights entitling an optionee who has been granted a stock option to purchase a stated number of shares of our stock at an exercise price per share determined at the date of the grant. Options are evidenced by stock option agreements with the respective optionees. The exercise price for each stock option granted under our 2006 Plan will be determined by our board of directors or the Compensation Committee at the time of the grant. Either our board of directors or the Compensation Committee will also determine the duration of each option; however, no option may be exercisable more than ten years after the date the option is granted. Within the foregoing limitations, either our board of directors or the Compensation Committee may, in its discretion, impose limitations on the exercise of all or some options granted under our 2006 Plan, such as specifying minimum periods of time after grant during which options may not be exercised. Our 2006 Plan also contains provisions for our board of directors or Compensation Committee to provide for acceleration of the right of an individual employee to exercise his or her stock option or restricted stock award in the event we experience a change of control. No cash consideration is payable to us in exchange for the grant of options.

Our 2006 Plan provides that the stock options may either be Incentive Stock Options within the meaning of Section 422 of the Code, or Non-Qualified Options, which are stock options other than Incentive Stock Options within the meaning of Sections 82 and 421 of the Code.

Incentive Stock Options. Incentive Stock Options may be granted only to our employees or employees of our subsidiaries, and must be granted at a per share option price not less than the fair market value of our common stock on the date the Incentive Stock Option is granted. In the case of an Incentive Stock Option granted to a stockholder who owns shares of our outstanding stock of all classes representing more than 10% of the total combined voting power of all of our outstanding stock of all classes entitled to vote in the election of directors, the per share option price may not be less than 110% of the fair market value of one share of our common stock

Table of Contents

on the date the Incentive Stock Option is granted and the term of such option may not exceed five years. As required by the Code, the aggregate fair market value, determined at the time an Incentive Stock Option is granted, of our common stock with respect to which Incentive Stock Options may be exercised by an optionee for the first time during any calendar year under all of our incentive stock option plans may not exceed \$100,000. The maximum number of shares of our common stock underlying Incentive Stock Options granted under our 2006 Plan may not exceed 2,400,000.

Non-Qualified Options. Non-Qualified Options are stock options which do not qualify as Incentive Stock Options. Non-Qualified Options may be granted to our consultants and independent contractors, as well as to our employees. The exercise price for Non-Qualified Options will be determined by the Compensation Committee at the time the Non-Qualified Options are granted, but may not be less than 75% of the fair market value of our common stock on the date the Non-Qualified Option is granted. Non-Qualified Options are not subject to any of the restrictions described above with respect to Incentive Stock Options. Incentive Stock Options and Non-Qualified Options are treated differently for federal income tax purposes as described below under Tax Treatment.

The exercise price of stock options may be paid in cash, in whole shares of our common stock, in a combination of cash and our common stock, or in such other form of consideration as our board of directors or the Compensation Committee may determine, equal in value to the exercise price. However, only shares of our common stock which the optionee has held for at least six months on the date of the exercise may be surrendered in payment of the exercise price for the options.

Stock Appreciation Rights. Awards of SARs entitle the recipient to receive a payment from us equal to the amount of any increase in the fair market value of the shares of our common stock subject to the SAR award between the date of the grant of the SAR award and the fair market value of these shares on the exercise date. Our 2006 Plan provides for payment in the form of shares of our common stock or cash.

Performance Unit Awards. Performance units entitle the recipient to receive a certain target, maximum or minimum value in cash or common stock per unit upon the achievement of performance goals established by our board of directors or our Compensation Committee.

Transferability

Restricted stock awards and awards of SARs are not transferable during the restriction period. Incentive Stock Options are not transferable other than by will or by the laws of descent and distribution. Non-Qualified Stock Options are transferable on a limited basis. In no event may a stock option be exercised after the expiration of its stated term.

Termination

Rights to restricted stock, SARs and stock options which have not vested will generally terminate immediately upon the holder's termination of employment with us or any of our subsidiaries for any reason other than retirement with our consent, disability or death. Our board of directors or the Compensation Committee may determine, at the time of the grant, that a holder's stock option agreement may contain provisions permitting the optionee to exercise the stock options for a specified period after such termination, or for any period our board of directors or the Compensation Committee determines to be advisable after the optionee's employment terminates by reason of retirement, disability, death, termination without cause, or following a change in control. Incentive Stock Options will, however, terminate no more than three months after termination of the holder's employment, twelve months after termination of the holder's employment due to disability and three years after termination of the holder's employment due to death. Our board of directors or the Compensation Committee may permit a deceased holder's stock options to be exercised by the holder's executor or heirs during a period acceptable to our board of directors or the Compensation Committee following the date of the optionee's death but such exercise must occur prior to the expiration date of the stock option.

Table of Contents

Dilution; Substitution

Our 2006 Plan provides protection against substantial dilution or enlargement of the rights granted to holders of restricted stock and options in the event of stock splits, recapitalizations, mergers, consolidations, reorganizations or similar transactions. New option rights may, but need not, be substituted for the stock options granted under our 2006 Plan, or our obligations with respect to stock options outstanding under our 2006 Plan may, but need not, be assumed by another corporation in connection with any merger, consolidation, acquisition, separation, reorganization, sale or distribution of assets, liquidation or like occurrence in which we are involved. In the event that our 2006 Plan is assumed, the stock issuable upon the exercise of stock options previously granted under our 2006 Plan will thereafter include the stock of the corporation granting such new option rights or assuming our obligations under the 2006 Plan.

Amendment

Our board of directors may amend our 2006 Plan at any time. However, without stockholder approval, our 2006 Plan may not be amended in a manner that would increase the number of shares that may be issued under our 2006 Plan, extend the term of our 2006 Plan, or otherwise disqualify our 2006 Plan for coverage under Rule 16b-3 promulgated under the Exchange Act. Restricted stock or stock options previously granted under our 2006 Plan may not be impaired or affected by any amendment of our 2006 Plan, without the consent of the affected grantees.

Accounting Treatment

Under current generally accepted accounting principles, when we make a grant of restricted stock, an amount equal to the fair market value of the restricted stock at the date of grant is charged to our compensation expense over the period of the restriction. The fair value of any stock option or SARs as of the date of grant will likewise be charged to our compensation expense over the requisite service period of the option or SAR. The cash we receive upon the exercise of stock options would be reflected as an increase in our capital. No additional compensation expense will be recognized at the time stock options or SARs are exercised.

Tax Treatment

The following is a brief description of the federal income tax consequences, under existing law, with respect to restricted stock and stock options that may be granted as awards under our 2006 Plan.

Restricted Stock. A recipient of restricted stock generally will not recognize any taxable income until the shares of restricted stock become freely transferable or are no longer subject to a substantial risk of forfeiture. At that time, the excess of the fair market value of the restricted stock over the amount, if any, paid for the restricted stock is taxable to the recipient as ordinary income. If a recipient of restricted stock subsequently sells the shares, he or she generally will realize capital gain or loss in the year of such sale in an amount equal to the difference between the net proceeds from the sale and the price paid for the stock, if any, plus the amount previously included in income as ordinary income with respect to such restricted shares.

A recipient has the opportunity, within certain limits, to fix the amount and timing of the taxable income attributable to a grant of restricted stock. Section 83(b) of the Code permits a recipient of restricted stock, which is not yet required to be included in taxable income, to elect, within 30 days of the award of restricted stock, to include in income immediately the difference between the fair market value of the shares of restricted stock at the date of the award and the amount paid for the restricted stock, if any. The election permits the recipient of restricted stock to fix the amount of income that must be recognized by virtue of the restricted stock grant. We will be entitled to a deduction in the year the recipient is required (or elects) to recognize income by virtue of receipt of restricted stock, equal to the amount of taxable income recognized by the recipient.

Table of Contents

Incentive Stock Options. An optionee will not realize any taxable income upon the grant or the exercise of an Incentive Stock Option. However, the amount by which the fair market value of the shares covered by the Incentive Stock Option (on the date of exercise) exceeds the option price paid will be an item of tax preference to which the alternative minimum tax may apply, depending on each optionee's individual circumstances. If the optionee does not dispose of the shares of our common stock acquired by exercising an Incentive Stock Option within two years from the date of the grant of the Incentive Stock Option or within one year after the shares are transferred to the optionee, when the optionee later sells or otherwise disposes of the stock, any amount realized by the optionee in excess of the option price will be taxed as a long-term capital gain and any loss will be recognized as a long-term capital loss. We generally will not be entitled to an income tax deduction with respect to the grant or exercise of an Incentive Stock Option.

If any shares of our common stock acquired upon exercise of an Incentive Stock Option are resold or disposed of before the expiration of the prescribed holding periods, the optionee would realize ordinary income instead of capital gain. The amount of the ordinary income realized would be equal to the lesser of (i) the excess of the fair market value of the stock on the exercise date over the option price; or (ii) in the case of a taxable sale or exchange, the amount of the gain realized. Any additional gain would be either long-term or short-term capital gain, depending on whether the applicable capital gain holding period has been satisfied. In the event of a premature disposition of shares of stock acquired by exercising an Incentive Stock Option, we would be entitled to a deduction equal to the amount of ordinary income realized by the optionee.

Non-Qualified Options and Stock Appreciation Rights. As a general rule, no federal income tax is imposed on the holder upon the grant of a Non-Qualified Option or SARs, and we are not entitled to a tax deduction by reason of the grant. Generally, upon the exercise of a Non-Qualified Option, the optionee will be treated as receiving compensation taxable as ordinary income in the year of exercise in an amount equal to the excess of the fair market value of the shares at the time of exercise over the exercise price paid for the shares. In the case of the exercise of SARs, the holder will be treated as receiving compensation taxable as ordinary income in the year of exercise in an amount equal to the cash received and the fair market value of any shares distributed to the holder. Upon the exercise of a Non-Qualified Option or a SAR, and subject to the application of Section 162(m) of the Code as discussed above, we may claim a deduction for compensation paid at the same time and in the same amount as compensation income is recognized by the optionee or holder assuming any federal income tax reporting requirements are satisfied. Upon a subsequent disposition of the shares received upon exercise of a Non-Qualified Option or a SAR, any difference between the fair market value of the shares at the time of exercise and the amount realized on the disposition would be treated as capital gain or loss. If the shares received upon the exercise of a Non-Qualified Option or a SAR are transferred to the optionee or holder subject to restrictions, then the taxable income realized by the optionee or holder, unless such person elects otherwise, and our tax deduction (assuming any federal income tax reporting requirements are satisfied) would be deferred and measured with reference to the fair market value of the shares at the time the restrictions lapse. The restrictions imposed on officers, directors and 10% stockholders by Section 16(b) of the Exchange Act is such a restriction during the period prescribed thereby if the exercise and any subsequent disposition could result in liability under Section 16(b).

(c) The Company shall, as promptly as practicable after receipt thereof, provide the Investor copies of any written comments, and advise the Investor of any oral comments, with respect to the Information Statement received from the Commission, and advise the Investor of any request by the Commission for amendment of the Information Statement. The Company shall provide Investor with a reasonable opportunity to review and comment on any amendment or supplement to the Information Statement and any communications prior to filing such with the Commission and will promptly provide Investor with a copy of all such filings and communications made with the Commission.

(d) If at any time prior to the Closing, any event or change occurs, or information is discovered, with respect to the Company, or any of its Affiliates, the Majority Stockholders, officers or directors, which should, in the Company's reasonable discretion upon advice of counsel, be set forth in an amendment of, or supplement to, the Information Statement in order to ensure such document does not include any misstatement of a material fact or omit to state any material fact necessary to make the statements therein, in light of the circumstances under which they were made, not misleading, the Company shall file as promptly as practicable with the Commission an amendment of, or supplement to, the Information Statement and, to the extent required by Law, disseminate the information contained in such amendment or supplement to the holders of Common Stock. If at any time prior to the Closing, any event or change occurs, or information is discovered, with respect to the Investor, or any of its Affiliates, members, officers or directors which, if not described or included in the Information Statement, should be described or included in the Information Statement in order to ensure such document does not include

any misstatement of a material fact or omit to state any material fact necessary to make the statements therein, in light of the circumstances under which they were made, not misleading, the Investor shall promptly so notify the Company and provide full particulars with respect to such information. In the event the Company, upon the advice of counsel, determines that such information should be included in the Information Statement, the Company shall file as promptly as practicable with the Commission an amendment of, or supplement to, the Information Statement and, to the extent required by Law, disseminate the information contained in such amendment or supplement to the holders of Common Stock.

(e) The Company shall use its reasonable efforts to have the Information Statement cleared by the Commission as promptly as practicable after the filing thereof, and the Company will cause the Information Statement to be mailed to the holders of Common Stock as promptly as practicable, but in any event within five (5) Business Days, after the date it is cleared by the Commission and the record date for the Written Consent has occurred.

Section 9.12 *Continuation of Indemnification.*

(a) From and after the Closing for a period of at least five (5) years (the DO Indemnification Period), the Company will, and Investor will use all reasonable efforts to cause the Company to, continue to indemnify, defend and hold harmless the officers, directors and employees of the Company and any of its Subsidiaries who were such at any time prior to the Closing (the Indemnified Parties) from and against all losses, expenses, claims, damages or liabilities to which they may be subject due to their positions as such officers, directors or employees or which arise out of the transactions contemplated by this Agreement to the fullest extent permitted or required under applicable Law and the Company s Charter Documents. If an Indemnified Party makes or asserts a claim hereunder, any determination required to be made with respect to whether an Indemnified Party s conduct complies with the standards set forth under applicable Law and the Company s Charter Documents shall be made by independent counsel mutually acceptable to the Company and the Indemnified Party. If any claim or claims are brought against any Indemnified Party such Indemnified Party may select counsel for the defense of such claims, which counsel shall be reasonably acceptable to the Company. All rights to indemnification existing in favor of the directors, officers or employees of Company and any of its Subsidiaries as provided in Company s Charter Documents, as in effect as of the date of this Agreement, with respect to matters occurring through the Closing, will survive the Closing and will continue in full force and effect thereafter.

(b) After the Closing, the Company will, and Investor will use all reasonable efforts to cause the Company to, maintain in effect for the said DO Indemnification Period the current policies of directors and officers liability insurance maintained by Company; *provided, however,* that the Company may substitute therefor policies of at least the same coverage (with carriers comparable to Company s existing carriers) containing terms and conditions which are no less beneficial to the Indemnified Parties, such substitute policies to be approved in advance by the chief executive officer of the Company serving at the date of this Agreement or his designee, such approval to not be unreasonable withheld.

(c) Investor covenants with the Company during the DO Indemnification Period, Investor will not vote its shares of Common Stock in favor of a transaction which would result in the Company assigning or transferring all or substantially all its assets, other than in the ordinary course of business, unless the acquiring party assumes the indemnity obligations hereunder related to the employees, officers and directors of the Company and, in connection with any such transaction, the Investor causes the Company to prepay the premium on the then current policies of directors and officers liability insurance maintained by Company for the benefit of former officers and directors of the Company for a term ending not prior to the expiration of the day that is five years from and after the Closing.

(d) In the event that any action, suit, proceeding or investigation relating hereto or to the transactions contemplated by this Agreement is commenced by a third party, whether before or after the Closing, the parties hereto agree to cooperate and use their respective reasonable efforts to vigorously defend against and respond thereto.

Table of ContentsSection 9.13 *Acquisition Proposals.*

(a) The Company shall, and shall cause its Subsidiaries and its and their respective members, officers, employees and directors, and use reasonable best efforts to cause its stockholders (including without limitation the Majority Stockholders), representatives and agents (collectively, the Restricted Parties) to, immediately cease and cause to be terminated any discussions or negotiations with any parties (other than the parties to this Agreement and their Affiliates, representatives and advisors) that may be ongoing with respect to, or that would be reasonably expected by the parties to lead to, a Company Acquisition Proposal. The Company shall not and shall cause its Subsidiaries and its and their respective members, officers, employees and directors, and shall use reasonable best efforts to cause its stockholders (including without limitation the Majority Stockholders), representatives and agents not to, directly or indirectly, (x) take any action to enter into any agreement with respect to any Company Acquisition Proposal, or (y) solicit, negotiate, furnish information to, accept, encourage, consider, participate in negotiations or discussions relating to, or otherwise pursue, any Company Acquisition Proposal, other than the transactions contemplated by this Agreement; provided, however, that at any time prior to the date that is 20 Business Days after the date of this Agreement, in response to a bona fide written unsolicited Company Acquisition Proposal received after the date hereof that the Board of Directors of the Company determines in good faith (after consultation with outside counsel and a financial advisor of nationally recognized reputation) constitutes, or is reasonably expected to lead to, a Superior Proposal, and which Company Acquisition Proposal was not, directly or indirectly, the result of a breach by any Restricted Party of this Section 9.13(a), the Company may, subject to compliance with Section 9.13(b) and Section 9.13(c), (i) furnish information with respect to the Company and its Subsidiaries to the Person making such Company Acquisition Proposal (and its representatives) pursuant to a customary confidentiality agreement not less restrictive of such Person than the Confidentiality Agreement (provided that all such information has previously been delivered or made available to Investor or is delivered or made available to Investor prior to or concurrently with the time it is delivered or made available to such Person), and (ii) participate in discussions or negotiations with the Person making such Company Acquisition Proposal (and its representatives) regarding such Company Acquisition Proposal.

(b) The Board of Directors of the Company has adopted a resolution declaring that this Agreement, the issuance of the Securities to the Investor as contemplated herein, the amendments to the Company s certificate of incorporation as contemplated by the Written Consent, and the amendment to the Company s 2006 Long-Term Incentive Plan are advisable, fair to and in the best interests of the Company and its stockholders, recommending that the Company s stockholders approve and adopt this Agreement, the issuance of the Securities to the Investor as contemplated herein, the amendments to the Company s certificate of incorporation as contemplated by the Written Consent, and the amendment to the Company s 2006 Long-Term Incentive Plan and directing that such items be submitted for consideration by the Company s stockholders (the Company Recommendation). Neither the Board of Directors of the Company nor any committee thereof shall (i) (A) withdraw (or modify in a manner adverse to Investor), or publicly propose to withdraw (or modify in a manner adverse to Investor), the Company Recommendation or (B) recommend, adopt or approve, or publicly propose to recommend, adopt or approve, any Company Acquisition Proposal, or (ii) approve or recommend, or publicly propose to approve or recommend, that any of the Restricted Parties execute or enter into, any letter of intent, memorandum of understanding, agreement in principle, merger agreement, acquisition agreement, option agreement, joint venture agreement, partnership agreement or other agreement constituting or related to, or that is intended to or would be reasonably expected to lead to, any Company Acquisition Proposal (other than a confidentiality agreement referred to in and as permitted by Section 9.13(a)) (an Acquisition Agreement) (each of the items set forth in each subsection of this sentence, a Company Adverse Action). Notwithstanding the foregoing, at any time prior to the close of business on the day that is 20 Business Days after the date of this Agreement (such 20-Business Day period, the Consent Delivery Period), the Board of Directors of the Company (or any committee thereof) may approve or allow the Company or a Subsidiary to enter into an Acquisition Agreement with respect to a Superior Proposal, and/or may withdraw or modify (including in a manner adverse to Investor) the Company Recommendation and/or recommend a transaction with respect to a Superior Proposal (each an Adverse Recommendation Change), if, in each case, such Board of Directors (or any committee thereof) determines in good faith (after consultation with outside counsel and a financial advisor of nationally recognized reputation) that taking such action is necessary for the members of the Board of Directors of the Company to comply with their fiduciary duties to the

holders of the Common Stock under applicable Law (such determination, a Fiduciary Duty Determination); provided, however, that (i) no action described in the preceding portion of this sentence shall be taken until after the fifth (5th) Business Day following Investor's receipt of written notice (a Notice of Adverse Recommendation Change) from the Company advising Investor that the Board of Directors of the Company (or a committee thereof) intends to take such action and specifying the reasons therefor, including the material terms and conditions of any Superior Proposal that is the basis of the proposed action by the Board of Directors or committee (it being understood and agreed that any amendment to the financial terms or any other material term of such Superior Proposal shall require a new Notice of Adverse Recommendation Change and a new five (5) Business Day period) and representing that the Company has complied, in all material respects, with its obligations under this Section 9.13, (ii) during such five (5) Business Day period, the Company shall (A) negotiate with Investor in good faith to make such adjustments to the terms and conditions of this Agreement as would enable the Company to proceed with its recommendation of this Agreement and (B) not take any further actions described in clauses (x) or (y) of Section 9.13(a) except insofar as the Board of Directors of the Company (or a committee thereof) makes a Fiduciary Duty Determination that such further action is necessary, and (iii) the Company shall not take any further actions described in (x) or (y) of Section 9.13(a) (except insofar as the Board of Directors of the Company (or a committee thereof) makes a Fiduciary Duty Determination that such further action is necessary) if, prior to the expiration of such five (5) Business Day period, Investor makes a proposal in writing to adjust the terms and conditions of this Agreement, which adjusted terms the Company's Board of Directors determines in good faith (after consultation with its legal and financial advisors) to be at least as favorable as the Superior Proposal (the Investor Amended Proposal), provided the restrictions of this clause (iii) shall be applicable only for so long (including the five (5) Business Day review period provided above) as the prior Superior Proposal is not amended to result in a proposal that constitutes a Superior Proposal to the Investor Amended Proposal, in which event the process will be continued until either the Investor or the Person making a Superior Proposal fails or refuses to amend the terms of such party's proposal to top the other party's proposal. In the event that a Superior Proposal is received by the Company, and a Notice of Adverse Recommendation with respect to such Superior Proposal is delivered to the Investor, before the expiration of the Consent Delivery Period, the duration of the Consent Delivery Period shall be extended and shall not expire until after five (5) Business Days shall have elapsed from the date Investor has received such Notice of Adverse Recommendation (or any subsequent Notice of Adverse Recommendation in response to any Amended Investor Proposal) and has not delivered to the Company an Amended Investor Proposal. Nothing in this Agreement shall obligate the Board of Directors of the Company or any committee thereof to make or cause to be made, or to fail to make or cause to be made, any public disclosure or communication with any stockholder or stockholders of the Company, if such disclosure or communication, or lack thereof, would constitute a breach of such Board's or committee's duties under applicable Laws.

(c) Each of the Company and Investor shall promptly advise the other party orally and in writing of receipt by such party of (i) any request for information relating to a Company Acquisition Proposal, (ii) any Company Acquisition Proposal or (iii) any inquiry with respect to any Company Acquisition Proposal and the material terms and conditions of any such request, Company Acquisition Proposal or inquiry (including the identity of the Person or group making any such request, Company Acquisition Proposal or inquiry and a copy of any correspondence relating thereto). Each of the Company and Investor agrees that it shall keep the other party informed of the status and material details (including material amendments or material proposed amendments and a copy of any correspondence relating thereto) of any such request, Company Acquisition Proposal or inquiry and keep the other reasonably informed as to the material details of any information requested of the Company or Investor, as the case may be, and as to the material terms and conditions of any Company Acquisition Proposal.

(d) Nothing contained in this Section 9.13 shall prohibit the Company or its Board of Directors from (i) taking and disclosing to the stockholders of the Company a position contemplated by Rule 14e-2 promulgated under the Exchange Act or (ii) making any disclosure to the stockholders of the Company if, in the good faith judgment of the Company's Board of Directors (after consultation with outside counsel), such disclosure would be required under applicable Law (including Rule 14d-9 and Rule 14e-2 promulgated under the Exchange Act).

(e) Each of the Company and Investor acknowledge and agree that in the event any of their respective Restricted Parties takes any action which, if taken by the Company or Investor, as applicable, would constitute a breach of this Section 9.13, then the Company or Investor, as applicable, shall be deemed to be in breach of this Section 9.13 for such action by its Restricted Parties.

Section 9.14 *Tax Matters*. The Company and Investor acknowledge that the Note and the Warrants together shall constitute an investment unit within the meaning of Section 1273(c)(2) of the IRC. Within a reasonable period of time following Closing, the Company and Investor hereby agree to allocate the issue price between the Note and Warrants based on their relative fair market values (to be initially determined by Investor, subject to approval by the Company in its reasonable discretion) pursuant to Treasury Regulation Section 1.1273-2(h). The parties further agree that they will use such allocation to prepare and file all Tax Returns and other reports with, and to prepare or file any other information provided to, any Tax Authority for federal income tax purposes, including but not limited to, for purposes of reporting the allocation of the issue price pursuant to Treasury Regulation Section 1.1273-2(h)(2). The Company agrees to provide Investor with the information required to be provided pursuant to Treasury Regulation Section 1.1275-2(e) promptly upon request. The Company and Investor acknowledge that this Section 9.14 is intended to establish the allocation of the issue price of the investment unit in accordance with Treasury Regulation Section 1.1273-2(h)(1) and Section 1273(c)(2) of the IRC, which allocation is binding on the parties hereto pursuant to Treasury Regulation Section 1.1273-2(h)(2), but this Section 9.14 does not constitute recognition by any of them that the amount allocated to each component shall be treated as its issue price for any purpose other than as expressly provided herein.

Section 9.15 *Protection of Minority Shareholders*. Investor covenants with the Company, expressly for the benefit of the stockholders of the Company other than the Investor, its successors and assigns, that during period ending on the second anniversary of the Closing date, Investor will not, and will obligate its successors and assigns with respect to the Securities to not, vote its or their shares of Common Stock in favor of (i) a transaction that would result in the Company going private such as through a transaction commonly referred to as a freeze-out merger, (ii) a high ratio reverse stock split (for this purpose, any reverse stock split in which more than 100 shares of Common Stock are converted into one share of Common Stock with fractional shares paid in cash, or any reverse stock split with similar consequences, shall be considered a high ratio reverse stock split), or (iii) any similar transaction that would constitute a Rule 13e-3 transaction as that term is defined in Rule 13e-3 (a)(3) promulgated under the Exchange Act; unless such proposed transaction is approved by holders of a majority of the issued and outstanding Minority Common Stock.

Section 11.2 *No Waivers*. No failure or delay by any holder of Securities in exercising any right, power or privilege hereunder or under any other Transaction Document shall operate as a waiver thereof nor shall any single or partial exercise thereof preclude any other or further exercise thereof or the exercise of any other right, power or privilege. The rights and remedies herein provided shall be cumulative and not exclusive of any rights or remedies provided by Law or in any of the other Transaction Documents.

Section 11.3 *Expenses; Indemnification*.

(a) Except as provided in Section 6.1(d) and Article X, all expenses incurred in connection with this Agreement shall be paid by the party incurring such expenses.

(b) The Company agrees to indemnify, defend and hold harmless, Investor, from and against losses in excess of the Basket Amount that Investor may incur resulting from any misrepresentation or breach of warranty by the Company made in this Agreement (including without limitation any certificate or instrument delivered in connection herewith) (the *Indemnified Losses*), subject to the other provisions of this Section 11.3.

(i) For purpose of this Section 11.3 the terms shall have the following meaning:

Assumed Post-Closing Net Asset Value of the Company shall mean an amount equal to the Common Stock Shares Purchase Price divided by Investor's Common Stock Ownership Percentage.

Basket Amount is \$2,000,000 of losses that would otherwise be *Indemnified Losses*.

Investor's Common Stock Ownership Percentage shall mean that percentage which results by dividing (A) the number of shares of Common Stock issued to Investor at the Closing pursuant to this Agreement by (B) the total amount of shares of Common Stock outstanding immediately after the Closing.

(ii) Investor may make a claim that it has incurred an *Indemnified Loss* due to a misrepresentation or breach of warranty or covenant by the Company made in the Agreement that had such event occurred or the misrepresented facts been known to Investor at Closing, would have resulted in a reduction in the *Assumed Post-Closing Net Asset Value of the Company* in excess of the *Basket Amount* (*Adjustment Amount*). Notwithstanding anything to the contrary herein, in no event shall the aggregate *Adjustment Amount* for all indemnification claims hereunder exceed \$50,000,000.

(iii) The value of the *Indemnified Loss* shall be an amount equal to the product of Investor's Common Stock Ownership Percentage multiplied by the *Adjustment Amount*.

Edgar Filing: RAM ENERGY RESOURCES INC - Form PRE 14C

(iv) The amount of the value of the Indemnified Loss shall be paid by the Company exclusively by crediting such amount to the amount of the Warrant Exercise Price payable by Investor upon the exercise of any of the Warrants held by Investor. In the event that the amount of the Indemnified Loss exceeds the

aggregate amount of the Warrant Exercise Price of all Warrants held by Investor at the time of the determination of the Indemnified Loss, the Company shall not have any obligation to pay or credit Investor with that portion of the Indemnified Loss in excess of such aggregate Warrant Exercise Price.

(c) At any time within a period of one year from the date of Closing that Investor believes that it has incurred an Indemnified Loss, it shall promptly provide notice thereof to the chairman of the audit committee of the Company (or any member of the audit committee if no member has been designated as chairman), describing fully the facts and basis for its claim, including the asserted amount thereof (which shall include information regarding the amount of the asserted losses constituting the Basket). No claims for an Indemnified Loss may be submitted on or after the first anniversary of the Closing Date.

(d) All matters relating to any claims for Indemnified Losses shall be presented to and decided on behalf of the Company by a majority of independent members of the Company's Board of Directors (or a committee of independent directors, which may be the Company Audit Committee). In discharging its obligation hereunder said independent directors (or committee of independent directors) shall be free to employ outside counsel and such other experts and advisors, and to conduct their review of the claims in such manner, as they deem appropriate to comply with their duties and responsibilities to the Company and all of its stockholders hereunder and under applicable corporate Laws.

(e) Investor hereby covenants and agrees with the Company that Investor shall indemnify the Company and hold it harmless from, against and in respect of any and all costs, losses, claims, liabilities, fines, penalties, damages and expenses (including interest which may be imposed in connection therewith and court costs and reasonable fees and disbursements of counsel) incurred by it resulting from any misrepresentation, breach of warranty or nonfulfillment of any agreement, covenant or obligation by Investor made in this Agreement (including without limitation any certificate or instrument delivered in connection herewith).

(f) Except as otherwise expressly provided in this Agreement, from and after the Closing the right of Investor to make claims against the Company under this Section 11.3 shall be the sole and exclusive remedy available to Investor against the Company with respect to any and all claims for indemnification, damages or otherwise under this Agreement; provided, however, that the foregoing limitation shall in no way limit any remedies available to Investor with respect of actual fraud.

Section 11.4 *Amendments and Waivers; Sale of Interest.* Any provision of this Agreement and the other Transaction Documents may be amended or waived if, but only if, such amendment or waiver is in writing and is signed by the Company and Investor. The Company hereby consents to any participation, sale, assignment, transfer or other disposition which complies with Article V, at any time or times hereafter, of any Securities, this Agreement and any of the other Transaction Documents, or of any portion hereof or thereof, including, without limitation, Investor's rights, title, interests, remedies, powers, and duties hereunder or thereunder, subject to compliance with applicable Laws and the provisions of the Senior Debt Documents subject to the requirement that any such assignee, transferee or purchaser shall agree in writing to become bound by the terms of this Agreement and the other Transaction Documents and that Investor shall not thereby be released from its obligations, liabilities and commitments hereunder and thereunder.

Section 11.5 *Survival.* Except for the provisions of Section 9.12 and Section 9.15, all representations, warranties and covenants made by the Company herein or in any certificate or other instrument delivered by it or in its behalf under the Transaction Documents shall be considered to have been relied upon by Investor and shall survive for a period of one (1) year after the delivery to Investor of such Transaction Documents and the purchase of the Securities. The covenants made by the Company and by the Investor as set forth in (i) Section 9.12 and Section 9.15 shall be considered to have been relied upon by the Company and made for the express benefit of its officers, directors and stockholders, and (ii) Section 9.15 shall be considered to have been relied upon by the Majority Stockholders in connection with their approval of the transaction contemplated hereby and their execution and delivery of the Written Consent, and such covenants shall survive the Closing and continue for the respective periods provided for therein.

Section 11.6 *Limitation on Interest*. Regardless of any provision contained in the Transaction Documents, neither Investor nor any other holder of the Note (Noteholder) shall ever be entitled to receive, collect, or apply, as interest on the Note, any amount in excess of the Maximum Lawful Rate, and in the event any Noteholder ever receives, collects or applies as interest any such excess, such amount which would be deemed excessive interest shall be deemed a partial prepayment of principal and treated hereunder as such; and if the Note is paid in full, any remaining excess shall promptly be paid to the Company. In determining whether or not the interest paid or payable under any specific contingency exceeds the Maximum Lawful Rate, the Company and the Noteholder shall, to the extent permitted under applicable Law, (a) characterize any nonprincipal payment as an expense, fee or premium rather than as interest, (b) exclude voluntary prepayments and the effects thereof, and (c) amortize, prorate, allocate and spread, in equal parts, the total amount of the interest throughout the entire contemplated term of the Note, so that the interest rate is the Maximum Lawful Rate throughout the entire term of the Note; *provided, however*, that, if the unpaid principal balance thereof is paid and performed in full prior to the end of the full contemplated term thereof, and if the interest received for the actual period of existence thereof exceeds the Maximum Lawful Rate, the Noteholder shall refund to the Company the amount of such excess and, in such event, the Noteholder shall not be subject to any penalties provided by any Laws for contracting for, charging, taking, reserving or receiving interest in excess of the Maximum Lawful Rate.

Section 11.7 *Invalid Provisions*. If any provision of the Transaction Documents is held to be illegal, invalid, or unenforceable under present or future Laws effective during the term thereof, such provision shall be fully severable, the Transaction Documents shall be construed and enforced as if such illegal, invalid, or unenforceable provision had never comprised a part thereof, and the remaining provisions thereof shall remain in full force and effect and shall not be affected by the illegal, invalid, or unenforceable provision or by its severance therefrom. Furthermore, in lieu of such illegal, invalid, or unenforceable provision there shall be added automatically as a part of the Transaction Documents a provision as similar in terms to such illegal, invalid, or unenforceable provision as may be possible and be legal, valid and enforceable.

Section 11.8 *Successors and Assigns*. The provisions of this Agreement shall be binding upon and inure to the benefit of the parties hereto and their respective successors and assigns, except that neither may not assign or otherwise transfer any of its rights or obligations under this Agreement except as otherwise provided in this Agreement.

Section 11.9 *GOVERNING LAW; FORUM SELECTION; CONSENT TO JURISDICTION AND SERVICE*. APPENDIX A-2

FIRST AMENDMENT TO

SECURITIES PURCHASE AGREEMENT

THIS FIRST AMENDMENT TO SECURITIES PURCHASE AGREEMENT (this First Amendment) is entered into effective this 4th day of January, 2012, by and between Halcon Resources LLC, a Delaware limited liability company (Investor) and RAM Energy Resources, Inc., a Delaware corporation (the Company).

WITNESSETH:

WHEREAS, the Company and Halcon are parties to that certain Securities Purchase Agreement dated December 21, 2011 (the Agreement); and

WHEREAS, capitalized terms used but not defined herein have the meanings ascribed to such terms in the Agreement; and

WHEREAS, the Company and Halcon desire to amend the Agreement to more accurately reflect the intention of the parties that the Consent Delivery Period shall terminate upon delivery by the Majority Stockholders to the Company of the Written Consent.

NOW, THEREFORE, in consideration of the premises and the mutual covenants herein contained, and intending to be legally bound hereby, the parties hereto agree as follows:

1. Paragraphs (a) and (b) of Section 9.13 of the Agreement shall be deleted in their entirety and the following substituted therefor:

(a) The Company shall, and shall cause its Subsidiaries and its and their respective members, officers, employees and directors, and use reasonable best efforts to cause its stockholders (including without limitation the Majority Stockholders), representatives and agents (collectively, the Restricted Parties) to, immediately cease and cause to be terminated any discussions or negotiations with any parties (other than the parties to this Agreement and their Affiliates, representatives and advisors) that may be ongoing with respect to, or that would be reasonably expected by the parties to lead to, a Company Acquisition Proposal. The Company shall not and shall cause its Subsidiaries and its and their respective members, officers, employees and directors, and shall use reasonable best efforts to cause its stockholders (including without limitation the Majority Stockholders), representatives and agents not to, directly or indirectly, (x) take any action to enter into any agreement with respect to any Company Acquisition Proposal, or (y) solicit, negotiate, furnish information to, accept, encourage, consider, participate in negotiations or discussions relating to, or otherwise pursue, any Company Acquisition Proposal, other than the transactions contemplated by this Agreement; provided, however, that at any time prior to the expiration of the Consent Delivery Period, in response to a bona fide written unsolicited Company Acquisition Proposal received after the date hereof that the Board of Directors of the Company determines in good faith (after consultation with outside counsel and a financial advisor of nationally recognized reputation) constitutes, or is reasonably expected to lead to, a Superior Proposal, and which Company Acquisition Proposal was not, directly or indirectly, the result of a breach by any Restricted Party of this Section 9.13(a), the Company may, subject to compliance with Section 9.13(b) and Section 9.13(c), (i) furnish information with respect to the Company and its Subsidiaries to the Person making such Company Acquisition Proposal (and its representatives) pursuant to a customary confidentiality agreement not less restrictive of such Person than the Confidentiality Agreement (provided that all such information has previously been delivered or made available to Investor or is delivered or made available to Investor prior to or concurrently with the time it is delivered or made available to such Person), and (ii) participate in discussions or negotiations with the Person making such Company Acquisition Proposal (and its representatives) regarding such Company Acquisition Proposal.

(b) The Board of Directors of the Company has adopted a resolution declaring that this Agreement, the issuance of the Securities to the Investor as contemplated herein, the amendments to the Company s

certificate of incorporation as contemplated by the Written Consent, and the amendment to the Company's 2006 Long-Term Incentive Plan are advisable, fair to and in the best interests of the Company and its stockholders, recommending that the Company's stockholders approve and adopt this Agreement, the issuance of the Securities to the Investor as contemplated herein, the amendments to the Company's certificate of incorporation as contemplated by the Written Consent, and the amendment to the Company's 2006 Long-Term Incentive Plan and directing that such items be submitted for consideration by the Company's stockholders (the Company Recommendation). Neither the Board of Directors of the Company nor any committee thereof shall (i) (A) withdraw (or modify in a manner adverse to Investor), or publicly propose to withdraw (or modify in a manner adverse to Investor), the Company Recommendation or (B) recommend, adopt or approve, or publicly propose to recommend, adopt or approve, any Company Acquisition Proposal, or (ii) approve or recommend, or publicly propose to approve or recommend, that any of the Restricted Parties execute or enter into, any letter of intent, memorandum of understanding, agreement in principle, merger agreement, acquisition agreement, option agreement, joint venture agreement, partnership agreement or other agreement constituting or related to, or that is intended to or would be reasonably expected to lead to, any Company Acquisition Proposal (other than a confidentiality agreement referred to in and as permitted by Section 9.13(a)) (an Acquisition Agreement) (each of the items set forth in each subsection of this sentence, a Company Adverse Action). Notwithstanding the foregoing, at any time prior to the first to occur of (i) the delivery to the Company of the Written Consent executed by the Majority Stockholders, or (ii) the close of business on the day that is 20 Business Days after the date of this Agreement (the period from the date of this Agreement to the first to occur of (i) or (ii) being referred to herein as the Consent Delivery Period), the Board of Directors of the Company (or any committee thereof) may approve or allow the Company or a Subsidiary to enter into an Acquisition Agreement with respect to a Superior Proposal, and/or may withdraw or modify (including in a manner adverse to Investor) the Company Recommendation and/or recommend a transaction with respect to a Superior Proposal (each an Adverse Recommendation Change), if, in each case, such Board of Directors (or any committee thereof) determines in good faith (after consultation with outside counsel and a financial advisor of nationally recognized reputation) that taking such action is necessary for the members of the Board of Directors of the Company to comply with their fiduciary duties to the holders of the Common Stock under applicable Law (such determination, a Fiduciary Duty Determination); provided, however, that (i) no action described in the preceding portion of this sentence shall be taken until after the fifth (5th) Business Day following Investor's receipt of written notice (a Notice of Adverse Recommendation Change) from the Company advising Investor that the Board of Directors of the Company (or a committee thereof) intends to take such action and specifying the reasons therefor, including the material terms and conditions of any Superior Proposal that is the basis of the proposed action by the Board of Directors or committee (it being understood and agreed that any amendment to the financial terms or any other material term of such Superior Proposal shall require a new Notice of Adverse Recommendation Change and a new five (5) Business Day period) and representing that the Company has complied, in all material respects, with its obligations under this Section 9.13, (ii) during such five (5) Business Day period, the Company shall (A) negotiate with Investor in good faith to make such adjustments to the terms and conditions of this Agreement as would enable the Company to proceed with its recommendation of this Agreement and (B) not take any further actions described in clauses (x) or (y) of Section 9.13(a) except insofar as the Board of Directors of the Company (or a committee thereof) makes a Fiduciary Duty Determination that such further action is necessary, and (iii) the Company shall not take any further actions described in (x) or (y) of Section 9.13(a) (except insofar as the Board of Directors of the Company (or a committee thereof) makes a Fiduciary Duty Determination that such further action is necessary) if, prior to the expiration of such five (5) Business Day period, Investor makes a proposal in writing to adjust the terms and conditions of this Agreement, which adjusted terms the Company's Board of Directors determines in good faith (after consultation with its legal and financial advisors) to be at least as favorable as the Superior Proposal (the Investor Amended Proposal), provided the restrictions of this clause (iii) shall be applicable only for so long (including the five (5) Business Day review period provided above) as the prior Superior Proposal is not amended to result in a proposal that constitutes a Superior Proposal to the Investor Amended Proposal, in which event the process will be continued until either the Investor or the Person making a Superior

Table of Contents

Proposal fails or refuses to amend the terms of such party's proposal to top the other party's proposal. In the event that a Superior Proposal is received by the Company, and a Notice of Adverse Recommendation with respect to such Superior Proposal is delivered to the Investor, before the expiration of the Consent Delivery Period, the 20 Business Day alternative termination date of the Consent Delivery Period shall be extended and shall not expire until after five (5) Business Days shall have elapsed from the date Investor has received such Notice of Adverse Recommendation (or any subsequent Notice of Adverse Recommendation in response to any Amended Investor Proposal) and has not delivered to the Company an Amended Investor Proposal. Nothing in this Agreement shall obligate the Board of Directors of the Company or any committee thereof to make or cause to be made, or to fail to make or cause to be made, any public disclosure or communication with any stockholder or stockholders of the Company, if such disclosure or communication, or lack thereof, would constitute a breach of such Board's or committee's duties under applicable Laws.

2. In all other respects the Agreement shall remain unchanged and in full force and effect.

IN WITNESS WHEREOF, the parties have caused this First Amendment to be duly executed by their respective Authorized Officers on the day and year first above written.

CONVERTIBLE PROMISSORY NOTE

THE OFFER AND SALE OF THIS NOTE AND THE ISSUANCE OF THE SECURITIES ISSUABLE UPON CONVERSION OF THIS NOTE HAVE NOT BEEN REGISTERED UNDER THE SECURITIES ACT OF 1933, AS AMENDED (THE SECURITIES ACT), OR ANY APPLICABLE STATE SECURITIES LAWS, AND MAY NOT BE TRANSFERRED, SOLD, ASSIGNED, PLEDGED, HYPOTHECATED, OFFERED OR OTHERWISE DISPOSED OF UNLESS THEY HAVE BEEN REGISTERED UNDER THE SECURITIES ACT AND ANY APPLICABLE STATE SECURITIES LAWS OR UNLESS AN EXEMPTION FROM REGISTRATION IS AVAILABLE AND THE TRANSFER, SALE, ASSIGNMENT OR PLEDGE IS MADE IN STRICT COMPLIANCE WITH SUCH EXEMPTION.

\$275,000,000 [], 2012
 FOR VALUE RECEIVED, the undersigned, RAM ENERGY RESOURCES, INC., a Delaware corporation (Maker or the Company) hereby promises to pay to HALCON RESOURCES, LLC, a Delaware limited liability company, or its registered assigns (Payee), not later than 2:00 P.M. (Houston, Texas time), on the date when due, in immediately available funds at Payee's offices at 1000 Louisiana, Suite 6905, Houston, Texas, or such other address given to Maker by Payee, the principal sum of TWO HUNDRED SEVENTY-FIVE MILLION AND NO/100 DOLLARS (\$275,000,000), together with interest, as hereinafter described. Whenever any payment of principal of, or interest on, this Note shall be due on a day that is not a Business Day, the date for payment thereof shall be extended to the next succeeding Business Day. If the date for payment of principal is extended by operation of law or otherwise, interest thereon shall be payable for such extended time.

This Note has been executed and delivered pursuant to, and is subject to and governed by, the terms of that certain Securities Purchase Agreement dated as of December 21, 2011, by and between Maker and Payee (the Agreement). This Note is the Note referred to in the Agreement. Unless otherwise defined herein or unless the context hereof otherwise requires, each term used herein with its initial letter capitalized has the meaning given to such term in the Agreement.

Maker reserves the right to prepay without premium or penalty, after thirty (30) days prior written notice to the Noteholder, the principal amount of this Note, in whole or in part, at any time after [], 2014 [two years after Closing]. The Noteholder shall have the right to convert the principal amount that the Company has elected to prepay into shares of Common Stock, at the Conversion Price (as defined below), at any time after its receipt from the Company of such a prepayment notice and prior to prepayment, whether or not this Note would otherwise be convertible at such time in accordance with its terms.

Maker promises to pay interest on the outstanding principal balance hereof, prior to the occurrence of an Event of Default, at a rate equal to eight percent (8%) per annum (the Fixed Rate). Interest shall accrue on any amounts of principal or interest past due and owing on the Note from the date due until paid at the rate of fifteen percent (15%) per annum (the Default Rate); provided, however, that in no event shall the rate of interest charged hereunder exceed the Maximum Lawful Rate. Interest shall be payable on the Note as it accrues on March 31, 2012 and continuing on each June 30, September 30, December 31 and March 31 thereafter (each, an Interest Payment Date) until maturity.

Notwithstanding the foregoing, and provided that no Event of Default (as hereinafter defined) has occurred and is continuing, Maker may, with respect to any Interest Payment Date through and including March 31, 2014, elect to borrow from Payee all or any portion of the interest due and payable on such Interest Payment Date and to apply such borrowing to the payment of such interest, in which event such borrowing shall automatically be added to the principal of this Note. Any such election must be made by Maker by written notice (a PIK Election) to the Noteholder not later than five (5) days prior to such Interest Payment Date. If Maker delivers a PIK Election to the Noteholder on a timely basis, then (i) the principal amount of this Note shall automatically be increased by an amount equal to the amount of interest to which the PIK Election relates on the specified Interest

Table of Contents

Payment Date, and (ii) such amount of interest shall no longer be deemed due and payable on such Interest Payment Date. Upon request from the Noteholder at any time, Maker shall deliver to the Noteholder, as specified by the Noteholder, one or more promissory notes of like tenor to this Note that, in the aggregate, restate this Note to accurately reflect the increased principal amount.

Interest shall be computed on this Note on the basis of the number of actual days elapsed, assuming that each calendar year consists of 360 days. The entire outstanding principal balance of this Note and all accrued but unpaid interest thereon shall be due and payable in full in a single installment on [], 2017 [*five years after Closing*].

At any time, and from time to time, after [], 2014 [*two years after Closing*], the Noteholder may elect to convert all or any portion of the amount of principal and accrued but unpaid interest on this Note as hereinafter provided.

Each \$1.50 (the Conversion Price) of principal and accrued but unpaid interest on this Note shall be convertible into one share of Common Stock. The Conversion Price is subject to adjustment from time to time upon the occurrence of any of the events enumerated below:

1. In the event that the Company shall (a) declare a dividend on the Common Stock in shares of its capital stock (whether shares of such Common Stock or of capital stock of any other class of the Company), (b) split or subdivide the outstanding Common Stock, or (c) combine the outstanding Common Stock into a smaller number of shares, then (as a result of an event described in (a), (b) or (c)) the Conversion Price shall be adjusted to equal the product of the Conversion Price in effect immediately prior to such event multiplied by a fraction the numerator of which is equal to the number of shares of Common Stock outstanding on a Fully Diluted Basis immediately prior to such event and the denominator of which is equal to the number of shares of Common Stock outstanding on a Fully Diluted Basis immediately after the event.
2. In the event of any capital reorganization of the Company, or of any reclassification of any Common Stock for which this Note is convertible (other than a subdivision or combination of outstanding shares of such Common Stock), or in case of the consolidation of the Company with or the merger of the Company with or into any other corporation or entity or of the sale of the properties and assets of the Company as, or substantially as, an entirety, each amount of principal and accrued but unpaid interest outstanding under the Note equal to the Conversion Price then in effect shall, after such capital reorganization, reclassification, consolidation, merger or sale, be convertible, upon the terms and conditions specified in this Note and in the Agreement, into the number of shares of stock or other securities or assets to which a holder of the number of shares of Common Stock into which such amount of principal and accrued but unpaid interest payable under the Note is convertible (at the time of such capital reorganization, reclassification, consolidation, merger or sale) would have been entitled upon such capital reorganization, reclassification, consolidation, merger or sale (in the case of a sale of properties and assets, either directly or upon any subsequent liquidation of the Company); and in any such case, if necessary, the provisions set forth in this section with respect to the rights thereafter of a holder of this Note shall be appropriately adjusted so as to be applicable, as nearly as may reasonably be, to any shares of stock or other securities or assets thereafter deliverable upon the conversion of the Note. The Company shall not effect any such consolidation, merger or sale, unless prior to or simultaneously with the consummation thereof, the successor or surviving entity (if other than the Company) resulting from such consolidation or merger or the entity purchasing such assets shall assume, by written instrument, the obligation to deliver to the Noteholder the shares of stock, securities or assets to which, in accordance with the foregoing provisions, such Noteholder may be entitled pursuant to this section.
3. If any event occurs that is similar to the types of events contemplated by the provisions of the foregoing subparagraphs 1 and 2, but is not expressly provided for by such provisions, then the Board of Directors of the Company shall make an appropriate adjustment to the Conversion Price or the terms of this Note (including, if appropriate, in the number and type of securities that may be obtained upon conversion hereof) so as to protect the rights of the Noteholder and give effect to the purpose and intent of the Agreement and

Table of Contents

this Note; *provided, however*, that no such adjustment shall increase the Conversion Price as otherwise determined pursuant to the foregoing subparagraphs 1 and 2. Without the prior approval of the Noteholder, the Company will not take any action (including but not limited to entering into any agreement, increasing the par value per share of Common Stock, or decreasing the number of authorized but unissued shares of Common Stock) that would interfere with the full exercise of the conversion rights in accordance with this Note.

4. If any question shall at any time arise with respect to the Conversion Price or the number of shares issuable upon conversion of this Note, such question shall be determined by an independent firm of certified public accountants of recognized national standing selected by the Noteholder and acceptable to the Company.
5. Notwithstanding anything in this Note to the contrary, the Company shall not be permitted to take any action described in subparagraphs 1 through 3 above, if such action is prohibited under any other provision of this Note or the Agreement.
6. Upon any adjustment of the Conversion Price, the Company shall promptly, but in any event within thirty (30) days thereafter, cause to be given to the Noteholder, at its address appearing on the Note Register, by first class mail, postage prepaid, a certificate signed by the Company's Chief Financial Officer setting forth the Conversion Price as so adjusted and describing in reasonable detail the facts accounting for such adjustment and setting forth the calculation of such adjustment. Where appropriate, such certificate may be given in advance and included as part of the notice required to be mailed under the following provisions of subparagraph 7 below.
7. If at any time while the Note is convertible in accordance with its terms (or would become convertible as a result of the consummation of any transaction or action specified below that involves a Change of Control):
 - (a) the Company shall authorize the issuance to any or all holders of its Common Stock of any additional shares of Common Stock or any other capital stock or other securities of the Company, or of rights or warrants to subscribe for or purchase capital stock or other securities of the Company, or of any other subscription rights or warrants; or
 - (b) any consolidation or merger to which the Company is a party and for which approval of any stockholders of the Company is required, or the conveyance or transfer of the properties and assets of the Company substantially as an entirety, or any capital reorganization or reclassification or change of the Common Stock (other than a change in par value, or from par value to no par value, or from no par value to par value, or as a result of a subdivision or combination) is authorized or proposed; or
 - (c) the voluntary dissolution, liquidation or winding up of the Company is authorized or proposed; or
 - (d) the Company proposes to take any other action that would require an adjustment of the Conversion Price;

then the Company shall cause to be given to the Noteholder at its address appearing on the Note Register, by first class mail, postage prepaid, a written notice describing the material terms and conditions of such proposed action or transaction at least twenty (20) days prior to the applicable record or effective date on which a Person would need to hold Common Stock in order to participate in or vote with respect to such action or transaction, and the Company shall take all steps reasonably necessary in order to ensure that such Noteholder is given the practical opportunity to convert the Note prior to such time so as to be able participate in or vote with respect to such action or transaction.

If the Noteholder elects to convert all or a portion of the outstanding principal and accrued but unpaid interest under this Note, then the Noteholder shall deliver the Note to the Company in exchange for a certificate or certificates for the number of whole Conversion Shares to which the Noteholder is entitled under the terms hereof. In the event that the Noteholder has elected to convert less than all of the outstanding principal and accrued but unpaid interest under the Note, the Noteholder will also receive a restated promissory note of like tenor setting forth the remaining balance of principal and any accrued but unpaid interest. To the extent permitted

Table of Contents

by law, such conversion shall be deemed to have been made immediately prior to the close of business on the date on which the Noteholder delivers the Note to the Company for exchange for the Conversion Shares and, if applicable, the restated promissory note, and the Noteholder shall be treated for all purposes as the record holder of such shares of Common Stock on such date.

Notwithstanding any other provision of this Note or the Agreement, immediately prior to the occurrence of a Change of Control (other than a Change of Control caused by or resulting to any material extent from any sales of the Common Stock Shares, Conversion Shares or Warrant Shares by the Noteholder or any of its Affiliates), and at any time, and from time to time, thereafter the entire principal balance of this Note and all accrued but unpaid interest may, at the election of the Noteholder, be converted into Conversion Shares at the Conversion Price.

No fractional shares or script of Common Stock shall be issued upon conversion of all or a portion of the outstanding principal and accrued but unpaid interest under this Note. In lieu of a fractional share of Common Stock to which the holder would otherwise be entitled, the Company shall pay cash equal to the product of such fraction multiplied by the Per Share Stock Price of one share of Common Stock on the date of conversion.

The Noteholder may elect at any time, and from time to time, by written notice to Maker (which notice may be combined with or delivered as part of the exercise notice contemplated by the Warrant Certificate), to apply all or any portion of the outstanding principal balance of this Note to the payment of all or a portion of the aggregate Warrant Exercise Price (as defined in the Warrant Certificate) to purchase Warrant Shares pursuant to the exercise by the Noteholder of outstanding Warrants, whether or not the Noteholder would have the right at the time of such exercise to convert such principal into Conversion Shares under this Note. Upon the effectiveness of any such Warrant exercise, the specified amount of principal shall automatically be deemed to be applied to the payment of the applicable portion of the aggregate Warrant Exercise Price and the outstanding principal balance of this Note shall automatically be reduced by such amount.

If one or more of the following events (collectively, Events of Default and individually, an Event of Default) shall have occurred and be continuing:

(a) the Company shall fail to pay when due any principal or interest on this Note;

(b) any representation, warranty, certification or statement made or deemed to have been made by the Company in the Agreement or any of the other Transaction Documents or by the Company or any other Person on behalf of the Company in any certificate, financial statement or other document delivered pursuant to the Agreement or any of the other Transaction Documents, shall prove to have been incorrect in any material respect when made or at the time of Closing, but only if the Noteholder would have a valid claim for indemnification against the Company therefor under the Agreement;

(c) a default or event which, with the giving of notice, lapse of time or both could (unless cured or waived) become a default, shall occur under the terms of any document evidencing, securing or otherwise relating to any Debt of the Company or any of its Subsidiaries having a principal balance of \$500,000 or more (including, without limitation, the Senior Debt or any Debt intended to replace the Senior Debt);

(d) the Company or any of its Subsidiaries shall commence a voluntary case or other proceeding seeking liquidation, reorganization or other relief with respect to itself or its debts under any bankruptcy, insolvency or other similar Law now or hereafter in effect or seeking the appointment of a trustee, receiver, liquidator, custodian or other similar official of it or any substantial part of its property, or shall consent to any such relief or to the appointment of or taking possession by any such official in an involuntary case or other proceeding commenced against it, or shall make a general assignment for the benefit of creditors, or shall fail generally to pay its debts as they become due, or shall take any corporate action to authorize any of the foregoing;

(e) an involuntary case or other proceeding shall be commenced against the Company or any of its Subsidiaries seeking liquidation, reorganization or other relief with respect to it or its debts under any bankruptcy, insolvency or other similar Law now or hereafter in effect or seeking the appointment of a

Table of Contents

trustee, receiver, liquidator, custodian or other similar official of it or any substantial part of its property, and such involuntary case or other proceeding shall remain undismissed and unstayed for a period of sixty (60) days; or an order for relief shall be entered against the Company under the federal bankruptcy Laws as now or hereafter in effect;

(f) one (1) or more judgments or orders for the payment of money aggregating in excess of \$500,000 shall be rendered against the Company or any of its Subsidiaries and such judgment or order (i) shall continue unsatisfied and unstayed for a period of thirty (30) days, or (ii) is not fully paid and satisfied at least ten (10) days prior to the date on which any of its assets may be lawfully sold to satisfy such judgment or order; or

(g) any Change of Control other than a Change of Control caused by any sales of the Common Stock Shares, Conversion Shares or Warrant Shares by the Noteholder or any of its Affiliates;

then, so long as any such event is continuing, the Noteholder shall have the right, without notice or demand of any kind (including, without limitation, demand, presentment, notice of demand or dishonor and nonpayment, protest, notice of protest, notice of intention to accelerate, and declaration or notice of acceleration), all of which are hereby waived, to take any and all actions as may be permitted by the Transaction Documents.

Without limiting the foregoing, upon the occurrence and during the continuance of an Event of Default, the holder hereof may, at its option, declare the entire unpaid principal of and accrued but unpaid interest on this Note immediately due and payable (a Declaration of Acceleration) (provided that, upon the occurrence of an Event of Default specified in clause (d) or (e) of the preceding paragraph, such acceleration shall be automatic), without notice or demand of any kind (including, without limitation, demand, presentment, notice of demand or dishonor and nonpayment, protest, notice of protest, notice of intention to accelerate, and declaration or notice of acceleration), all of which are hereby waived, and the holder hereof shall have the right to offset against this Note any sum or sums owed by the holder hereof to Maker. Notwithstanding the foregoing, with respect to an Event of Default specified in paragraph (b), (c), (f) or (g) above, a Declaration of Acceleration may be made only by the holder or holders of a majority of the aggregate then outstanding principal amount of this Note and all then-outstanding promissory notes that shall have been issued upon the transfer or exchange of any portion of the principal of the original Note dated [], 2012, in the original principal amount of Two Hundred Seventy-Five Million and no/100 dollars (\$275,000,000), issued to Payee pursuant to the Agreement or any successor promissory note.

After the occurrence of an Event of Default, interest shall accrue on the outstanding principal balance of this Note and, to the extent permitted by applicable Law, on accrued but unpaid interest, at the Default Rate.

After the occurrence of an Event of Default, all amounts collected or received by the Noteholder in respect of the Obligations shall be applied, first, to the payment of all proper costs incurred by the Noteholder in connection with the collection thereof (including reasonable fees, expenses and disbursements of counsel for the Noteholder), second, to the payment of all accrued but unpaid interest on the Note, third, to unpaid principal under the Note, and fourth, to the Noteholder, the Company or any other Person entitled to such proceeds under applicable Law.

The Company shall maintain, at the principal offices of the Company, the Note Register for registration of the Note and transfers thereof. On the Closing Date, the Company shall register this Note issued to Payee. The Company may deem and treat the registered Noteholder as the absolute owner of the Note registered to such Noteholder and (notwithstanding any notation of ownership or other writing on the Note made by any Person) for the purpose of any conversion thereof or any payment or distribution to the Noteholder, and for all other purposes.

Upon satisfaction of each condition set forth in Article V of the Agreement, the Company shall register the transfer of any portion of this Note in the Note Register upon surrender of this Note to the Company at the offices of the Company, accompanied (if so required by it) by a written instrument or instruments of transfer in form

satisfactory to it, duly executed by the registered Noteholder or by the duly appointed legal representative thereof. Upon any such registration of transfer, a new promissory note of like tenor evidencing the transferred portion of this Note shall be issued to the transferee and the surrendered Note shall be canceled. If less than the entire principal amount of this Note is to be transferred, a new promissory note of like tenor shall be issued to the Noteholder evidencing such remaining principal balance.

This Note may be exchanged at the option of the Noteholder, when surrendered to the Company at the principal offices of the Company, for another promissory note or multiple promissory notes of like tenor and representing in the aggregate a like principal amount. Upon surrender for exchange, this Note shall be canceled.

If this Note shall be mutilated, lost, stolen or destroyed, the Company shall issue, in exchange and substitution for and upon cancellation of the mutilated Note, or in lieu of and substitution for the Note lost, stolen or destroyed, a new promissory note of like tenor and representing the same outstanding principal, but only upon receipt of evidence satisfactory to the Company of such loss, theft or destruction of this Note and, if requested, indemnity satisfactory to it. No service charge shall be made for any such substitution, but all expenses and reasonable charges associated with procuring such indemnity and all stamp, Tax and other governmental duties that may be imposed in relation thereto shall be borne by the Noteholder.

If this Note is placed in the hands of an attorney for collection, or if it is collected through any legal proceedings, Maker agrees to pay the court costs, reasonable attorneys' fees, and other costs of collection of the holder hereof.

Maker, and each surety, endorser, guarantor, and other party ever liable for payment of any sums of money payable on this Note, jointly and severally waive notice or demand of any kind (including, without limitation, demand, presentment, notice of demand or dishonor and nonpayment, protest, notice of protest, notice of intention to accelerate, and declaration or notice of acceleration), and agree that their liability on this Note shall not be affected by any renewal or extension in the time of payment hereof, by any indulgences, or by any release or change in any security for the payment of this Note, and hereby consent to any and all renewals, extensions, indulgences, releases, or changes, regardless of the number of such renewals, extensions, indulgences, releases or changes.

This Note is a senior unsecured obligation of Maker and is intended to rank *pari passu* with all other existing and future senior unsubordinated Debt of the Company. Except as may be agreed in writing by the holder of this Note, this Note shall not rank junior in right of payment to any other Debt. Notwithstanding the foregoing, Payee understands that this Note may be effectively subordinated to existing or future secured indebtedness of the Company with respect to the assets and properties pledged as collateral therefor, to the extent that a lien or security interest is validly created and perfected in such assets and properties.

Except as expressly set forth herein, this Note may be amended only by means of a written instrument executed by the Company and by the registered holder hereof.

THIS NOTE AND THE OTHER TRANSACTION DOCUMENTS COLLECTIVELY REPRESENT THE FINAL AGREEMENT BETWEEN THE PARTIES AND MAY NOT BE CONTRADICTED BY EVIDENCE OF PRIOR, CONTEMPORANEOUS OR SUBSEQUENT ORAL AGREEMENTS BETWEEN THE PARTIES. THERE ARE NO UNWRITTEN ORAL AGREEMENTS BETWEEN THE PARTIES.

Original Issue Date: [], 2012

RAM Energy Resources, Inc., a Delaware corporation (the Company), for value received, hereby certifies that this Warrant Certificate (Warrant Certificate) entitles Halcon Resources, LLC, a Delaware limited liability company (Halcon), or registered assigns, to purchase ONE HUNDRED TEN MILLION (110,000,000) shares of common stock, par value \$.0001 per share, of the Company (Common Stock) in accordance with the terms and conditions set forth herein. Each such right to purchase a share of Common Stock is referred to herein as a Warrant, and such rights are referred to herein collectively as Warrants. This is the Warrant Certificate referred to in that certain Securities Purchase Agreement between Halcon and the Company dated December 21, 2011 (the Agreement). Unless defined in this Warrant Certificate, capitalized terms used herein shall have the meanings given them in the Agreement. Each Warrant entitles the holder, subject to the conditions set forth herein and in the Agreement, to purchase from the Company at any time, and from time to time, before 5:00 P.M., Houston, Texas time, on [], 2012 [five years after the Closing Date] (the Warrant Expiration Date), one fully paid and nonassessable share of Common Stock (collectively, the Warrant Shares) at a price (the Warrant Exercise Price) of One Dollar and Fifty Cents (\$1.50) per Warrant Share. The Warrant Exercise Price and number of Warrant Shares purchasable upon exercise of the Warrants are subject to adjustment prior to the Warrant Expiration Date upon the occurrence of certain events as set forth herein. The Warrants shall be exercisable at the Company's offices located at 5100 East Skelly Drive, Suite 650, Tulsa, Oklahoma 74135, or at such other address as the Company may specify in writing to the registered holder(s) of the Warrants evidenced hereby (the Warrant Office).

1. *Exercise of Warrants.*

(a) The Warrants may be exercised in whole or in part at any time and from time to time until the Warrant Expiration Date, at which time the Warrants shall expire and shall thereafter no longer be exercisable.

(b) The Warrants shall be exercised by presentation of the Warrant Certificate evidencing the Warrants to be exercised, with the form of notice of exercise attached as Exhibit A hereto duly completed and signed, to the Company at the Warrant Office, together with payment of the aggregate Warrant Exercise Price for the number of Warrant Shares in respect of which such Warrants are being exercised in a manner permitted by paragraph (c) of this Section 1. The Company shall, promptly after such presentation and payment (and in no event later than three Business Days thereafter) issue or cause to be issued and deliver or cause to be delivered to or upon the written order of the registered holder of such Warrants and in such name or names

Table of Contents

as such registered holder may designate, a certificate or certificates for the aggregate number of Warrant Shares issued upon such exercise of such Warrants. Any Person so designated shall be deemed to have become holder of record of such Warrant Shares as of the date of exercise of such Warrants; *provided*, that, no Warrant holder will be permitted to designate that such Warrant Shares be issued to any Person other than such Warrant holder unless each condition to transfer contained in Article V of the Agreement that would be applicable to a transfer of Warrants or Warrant Shares has been satisfied.

(c) The aggregate Warrant Exercise Price for all Warrant Shares in respect of which Warrants are being exercised shall be paid in full at the time of exercise (i) in cash (including check, bank draft or money order payable to the order of the Company), (ii) by delivering to the Company outstanding shares of Common Stock having a fair market value equal to the aggregate Warrant Exercise Price, (iii) by relinquishing to the Company Warrants evidenced by this Warrant Certificate (or one or more other Warrant Certificates issued pursuant to Section 4 in replacement or upon subdivision hereof) having a fair market value equal to the aggregate Warrant Exercise Price (a Net Exercise), (iv) by offsetting the principal balance of the Note, or (v) any combination of (i), (ii), (iii) and (iv). For purposes hereof, the fair market value of a share of Common Stock shall mean the Per Share Stock Price of one share of Common Stock on the date of exercise, and the fair market value of a Warrant shall mean the difference between such Per Share Stock Price and the Warrant Exercise Price.

(d) If less than all of the Warrants evidenced by a Warrant Certificate are exercised at any time, a new Warrant Certificate or Certificates shall be issued for the remaining number of Warrants evidenced by such Warrant Certificate. All Warrant Certificates surrendered upon exercise of Warrants shall be canceled.

(e) The Company shall not be required to issue fractional shares of Common Stock upon exercise of any Warrants, but shall pay for any such fraction of a share to which the holder exercising the Warrants would otherwise be entitled an amount in cash equal to the product of such fraction multiplied by the Per Share Stock Price of one share of Common Stock on the date of exercise.

(f) The Company will pay all Taxes attributable to the initial issuance of Warrant Shares upon the exercise of the Warrants issued by it; *provided*, that each Warrant Holder shall use its reasonable efforts to avoid any such Tax on the issuance of Warrant Shares; and *provided further*, that the Company shall not be required to pay any income Tax or any other Tax that may be payable in respect of any transfer involved in the issuance of any Warrant Certificate or any certificate for Warrant Shares in a name other than that of the registered holder of a Warrant Certificate surrendered upon the exercise of such a Warrant, and the Company shall not be required to issue or deliver such certificates unless or until the Person or Persons requesting the issuance thereof shall have paid to the Company the amount of such Tax or shall have established to the satisfaction of the Company that such Tax has been paid.

(g) If the issuance of the Warrant Shares deliverable upon exercise have not been registered pursuant to the Securities Act, the Warrant holder shall deliver to the Company, as a condition to such issuance, a duly executed certificate substantially in the form of Exhibit B hereto.

2. *Adjustment of Number of Warrant Shares Purchasable.* The number of Warrant Shares purchasable upon the exercise of each Warrant is subject to adjustment from time to time upon the occurrence of any of the events enumerated below.

(a) In the event that the Company shall at any time after the date of this Warrant Certificate declare a dividend on the Common Stock in shares of its capital stock (whether shares of such Common Stock or of capital stock of any other class of the Company), split or subdivide the outstanding Common Stock, or combine the outstanding Common Stock into a smaller number of shares, the number of Warrant Shares purchasable upon an exercise of each Warrant on or after the record date for such dividend or from and after the effective time of such split, subdivision or combination shall be adjusted to equal the number of shares of Common Stock and other capital stock, if applicable, that a holder of a number of shares of Common Stock equal to the number of Warrant Shares for which each Warrant is exercisable immediately prior to such record date or effective time, as the case may be, would own and be entitled to receive after such record date or effective time.

Table of Contents

(b) The Warrant Exercise Price in effect immediately prior to any adjustment of the number of Warrant Shares for which each Warrant is exercisable shall be simultaneously adjusted (but not below the par value of the Common Stock) by multiplying the Warrant Exercise Price immediately prior to such adjustment by a fraction, the numerator of which shall be the number of Warrant Shares for which each Warrant is exercisable immediately prior to such adjustment, and the denominator of which shall be the number of Warrant Shares for which each Warrant is exercisable immediately after such adjustment.

(c) In the event of any capital reorganization of the Company, or of any reclassification of any Common Stock for which any Warrant is exercisable (other than a subdivision or combination of outstanding shares of such Common Stock), or in case of the consolidation of the Company with or the merger of the Company with or into any other Person or of the sale of the properties and assets of the Company as, or substantially as, an entirety, each Warrant shall after such capital reorganization, reclassification, consolidation, merger or sale be exercisable, upon the terms and conditions specified in this Warrant Certificate, for the number of shares of stock or other securities or assets to which a holder of the number of Warrant Shares purchasable (at the time of such capital reorganization, reclassification, consolidation, merger or sale) upon exercise of such Warrant would have been entitled upon such capital reorganization, reclassification, consolidation, merger or sale (in the case of a sale of properties and assets, either directly or upon any subsequent liquidation of the Company); and in any such case, if necessary, the provisions set forth in this section with respect to the rights thereafter of a holder of such Warrant shall be appropriately adjusted so as to be applicable, as nearly as may reasonably be, to any shares of stock or other securities or assets thereafter deliverable on the exercise of such Warrant. The Company shall not effect any such consolidation, merger or sale, unless prior to or simultaneously with the consummation thereof, the successor or surviving Person (if other than the Company) resulting from such consolidation or merger or the Person purchasing such assets shall assume, by written instrument, the obligation to deliver to each Warrant holder the shares of stock, securities or assets to which, in accordance with the foregoing provisions, such Warrant holder may be entitled pursuant to this paragraph (c).

(d) If any question shall at any time arise with respect to the adjusted number of Warrant Shares or Warrant Exercise Price, such question shall be determined by an independent firm of certified public accountants of recognized national standing selected by the Warrant holder.

(e) Notwithstanding anything in this section to the contrary, the Company shall not be permitted to take any action described in this section (such as, but not by way of limitation, any dividend, consolidation, merger or reorganization) if such action is prohibited under any other provision of this Warrant Certificate or the Agreement.

(f) Notwithstanding that the number of Warrant Shares purchasable upon the exercise of each Warrant may have been adjusted pursuant to the terms hereof, the Company shall not be required to issue fractions of Warrant Shares upon exercise of any Warrant or to distribute certificates that evidence fractional shares, but instead shall pay to the holder of each Warrant who would be otherwise entitled to receive such fractional Warrant Shares the amount contemplated by Section 1(e).

(g) If any event occurs that is similar to the types of events contemplated by the provisions of this Section 2 but not expressly provided for by such provisions, then the Board of Directors of the Company shall make an appropriate adjustment to the terms of this Warrant Certificate (including, if appropriate, in the number and type of securities that may be purchased upon exercise of the Warrants) so as to protect the rights of the Warrant holders and give effect to the purpose and intent of the Agreement and this Warrant Certificate; *provided, however*, that no such adjustment shall decrease the number of Warrant Shares that may be purchased upon exercise of the Warrants except as otherwise determined pursuant to this Section 2. Without the prior approval of each Warrant holder, the Company will not take any action (including but not limited to entering into any agreement, increasing the par value per share of Common Stock, or decreasing the number of authorized but unissued shares of Common Stock) that would interfere with the full exercise of the Warrants in accordance with this Warrant Certificate.

Table of Contents

3. *Notices to Warrant Holders.* Upon any adjustment of the number of Warrant Shares issuable upon an exercise of the Warrants or any adjustment of the Warrant Exercise Price, the Company shall promptly, but in any event within thirty (30) days thereafter, cause to be given to each Warrant holder, at its address appearing on the Warrant Register, by first class mail, postage prepaid, a certificate signed by the Company's Chief Financial Officer setting forth the number of Warrant Shares issuable upon the exercise of each Warrant as so adjusted and the Warrant Exercise Price as so adjusted, and describing in reasonable detail the facts accounting for such adjustment and setting forth the calculation of such adjustments. Where appropriate, such certificate may be given in advance and included as part of the notice required to be mailed under the other provisions of this section.

In the event that:

(a) the Company shall authorize the issuance to any or all holders of its Common Stock of any additional shares of Common Stock or any other capital stock or other securities of the Company, or of rights or warrants to subscribe for or purchase capital stock or other securities of the Company, or of any other subscription rights or warrants; or

(b) any consolidation or merger to which the Company is a party and for which approval of any stockholders of the Company is required, or the conveyance or transfer of the properties and assets of the Company substantially as an entirety, or any capital reorganization or reclassification or change of the Common Stock (other than a change in par value, or from par value to no par value, or from no par value to par value, or as a result of a subdivision or combination) is authorized or proposed; or

(c) the voluntary dissolution, liquidation or winding up of the Company is authorized or proposed; or

(d) the Company proposes to take any other action that would require an adjustment of the Warrant Exercise Price of the Warrants issued by it pursuant to this Warrant Certificate;

then the Company shall cause to be given to each Warrant holder at such Warrant holder's address appearing on the Warrant Register, by first class mail, postage prepaid, a written notice describing the material terms and conditions of such action or transaction at least twenty (20) days prior to the applicable record or effective date on which a Person would need to hold Common Stock in order to participate in or vote with respect to such action or transaction, and the Company shall take all steps reasonably necessary in order to ensure that such holder is given the practical opportunity to exercise the Warrants prior to such time so as to be able participate in or vote with respect to such action or transaction.

4. *Registration, Transfer and Exchange of Warrants.*

(a) The Company shall maintain, at the Warrant Office, the Warrant Register for registration of the Warrants and Warrant Certificate and transfers thereof. On the Closing Date, the Company shall register this Warrant Certificate and the Warrants represented hereby in the name of Halcon. The Company may deem and treat the registered holders of the Warrants as the absolute owners of the Warrants registered to such holders (notwithstanding any notation of ownership or transfer or other writing on the Warrant Certificates made by any Person) for the purpose of any exercise thereof or any distribution to the Warrant holders, and for all other purposes.

(b) Upon satisfaction of each condition set forth in Article V of the Agreement, the Company shall register the transfer of any outstanding Warrants in the Warrant Register upon surrender of the Warrant Certificate evidencing such Warrants to the Company at the Warrant Office, accompanied (if so required by it) by a written instrument or instruments of transfer in form satisfactory to it, duly executed by the registered Warrant holder or by the duly appointed legal representative thereof. Upon any such registration of transfer, new Warrant Certificate(s) evidencing such transferred Warrants shall be issued to the transferee(s), and the surrendered Warrant Certificate(s) shall be canceled. If less than all the Warrants evidenced by a Warrant Certificate(s) surrendered for transfer are to be transferred, a new Warrant Certificate(s) shall be issued to the Warrant holder surrendering such Warrant Certificate(s), evidencing the Warrants not being transferred.

Table of Contents

(c) Warrant Certificates may be exchanged at the option of the Warrant Holder(s) thereof, by surrender to the Company at the Warrant Office, for another Warrant Certificate or other Warrant Certificates of like tenor and representing in the aggregate a like number of Warrants. Warrant Certificates surrendered for exchange shall be canceled.

(d) No charge shall be made for any such transfer or exchange or the issuance of new Warrant Certificates in connection therewith except for any Tax or other governmental charge imposed in connection therewith.

5. *Mutilated or Missing Warrant Certificates.* If any Warrant Certificate shall be mutilated, lost, stolen or destroyed, the Company shall issue, in exchange and substitution for and upon cancellation of the mutilated Warrant Certificate, or in lieu of and substitution for the Warrant Certificate lost, stolen or destroyed, a new Warrant Certificate of like tenor and representing an equivalent number of Warrants, but only upon receipt of evidence satisfactory to the Company of such loss, theft or destruction of such Warrant Certificate and, if requested, indemnity satisfactory to it. No service charge shall be made for any such substitution, but all expenses and reasonable charges associated with procuring such indemnity and all stamp, Tax and other governmental duties that may be imposed in relation thereto shall be borne by the holder of such Warrant Certificate.

6. *Reservation of Warrant Shares.* The Company covenants that it will at all times reserve and keep available out of the aggregate of its authorized but unissued and otherwise unreserved Common Stock, solely for the purpose of enabling it to issue Warrant Shares upon exercise of the Warrants as herein provided, the number of Warrant Shares that are then issuable and deliverable upon the exercise of all the Warrants evidenced by this Warrant Certificate, free from preemptive rights or any other contingent purchase rights of Persons other than the Warrant holders (taking into account the adjustments and restrictions of Section 2). The Company covenants that all Warrant Shares so issuable and deliverable shall, upon issuance and the payment of the applicable Warrant Exercise Price in accordance with the terms hereof, be duly authorized, validly issued, fully paid and nonassessable. If the approval of the Company's shareholders is required for the issuance of the Warrants or the Warrant Shares, and such approval has not yet been obtained, the Company shall seek such approval as promptly as practicable after the original issue date of this Warrant Certificate, *provided, however*, that the Company's obligation to issue and deliver Warrant Shares in accordance with the terms hereof is absolute and unconditional, irrespective of whether such shareholder approval is ultimately obtained, and irrespective of any other circumstance that might otherwise limit such obligation of the Company to issue the Warrant Shares. Nothing herein shall limit a Warrant holder's right to pursue any remedies available to it hereunder, at law or in equity including, without limitation, a decree of specific performance and/or injunctive relief with respect to the Company's failure to timely deliver certificates representing Warrant Shares upon exercise of Warrants as required pursuant to the terms hereof.

7. *Miscellaneous.*

(a) This Warrant Certificate shall be binding upon and inure to the benefit of the Company, Halcon and each Person who hereafter becomes a holder of any of the Warrants evidenced hereby, and their respective successors and assigns. Subject to the preceding sentence, nothing in this Warrant Certificate shall be construed to give to any Person other than the Company and the Warrant holders (including any subsequent holder as contemplated herein) any legal or equitable right, remedy or cause of action hereunder. This Warrant Certificate may be amended only in writing signed by the Company and the registered holder of the Warrants evidenced hereby.

(b) This Warrant Certificate shall be governed by and construed in accordance with the laws of the State of Delaware, without giving effect to any choice or conflict of law provision or rule (whether of the State of Delaware or any other jurisdiction) that would cause the laws of any jurisdiction other than the State of Delaware to apply.

REGISTRATION RIGHTS AGREEMENT

This Registration Rights Agreement (this Agreement) dated as of [], 2012, is entered into by and between RAM ENERGY RESOURCES, INC., a Delaware corporation (the Company), and HALCON RESOURCES, LLC, a Delaware limited liability company (Halcon).

RECITALS

WHEREAS, pursuant to that certain Securities Purchase Agreement by and between the Company and Halcon executed on December 21, 2011 (the Purchase Agreement), Halcon will receive the number of shares of Common Stock, Note and Warrants as set forth on Schedule 1 attached hereto; and

WHEREAS, as a condition to Halcon s obligation to consummate the transactions contemplated by the Purchase Agreement, the Company has agreed to grant to the Stockholders certain registration rights with respect to their Registrable Securities as set forth herein.

NOW, THEREFORE, in consideration of the mutual promises contained herein and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties hereto agree as follows:

Section 1. *Definitions.*

For purposes of this Agreement, the following terms shall have the respective meanings assigned to them in this Section 1. All capitalized terms used but not defined in this Agreement shall have the meanings assigned to them in the Purchase Agreement.

Registrable Securities shall mean (i) the shares of Common Stock issued to the Stockholders pursuant to the Purchase Agreement (which, for purposes hereof, shall mean the Common Stock Shares, the Warrant Shares issuable upon subsequent exercise(s) of the Warrants, and the Conversion Shares issuable upon subsequent conversion(s) of the Note, as such terms are defined in the Purchase Agreement) and (ii) any securities issued or issuable with respect to the shares described in clause (i) above by way of a stock dividend or stock split or in connection with a combination of shares, recapitalization, merger, consolidation or other reorganization, *provided, however*, that as to any particular Registrable Securities, such securities shall cease to be Registrable Securities when (i) a registration statement with respect to the sale of such securities shall have become effective under the Securities Act and such securities shall have been disposed of in accordance with such registration statement or (ii) such securities shall have been sold to the public pursuant to Rule 144 (or any successor provision) under the Securities Act.

Stockholders shall mean Halcon and all Affiliates of Halcon that become holders of Registrable Securities.

Section 2. *Demand Registration Rights.*

2.1 The Company hereby grants to the Stockholders, and to each of them, the right to require the Company to use its reasonable best efforts to cause the registration for sale in a public offering of all or a portion of the Stockholders Registrable Securities in accordance with this Section 2; *provided, however*, that the Company shall not have any obligation to effect more than a total of three (3) effective registrations pursuant to this Section 2 or effect more than one (1) in any twelve (12) month period. If the Company shall have received a written request submitted by one or more Stockholders owning at least a majority of the Registrable Securities outstanding at the time of such request (the Requisite Holders) that such Stockholders desire to have the Company register Registrable Securities for sale and specifying the number

of Registrable Securities proposed to be sold (for the purposes of this Section 2, together with the Registrable Securities referred to in subsection 2.1.2 below, Shares), which request shall in no event cover Shares with less than a \$10 million estimated offering price, and the proposed plan for distribution of the Shares, the Company will:

2.1.1 Give prompt (but in any event within fifteen (15) days after the receipt of the Requisite Holders notice) notice to all other Stockholders of such request and of such other Stockholders rights to have their Registrable Securities included in such registration.

2.1.2 Upon the request of any such Stockholder made within fifteen (15) days after the receipt by such Stockholder of the notice given pursuant to subsection 2.1.1 (which request shall specify the Registrable Securities intended to be included in such registration by such Stockholder and the intended method or methods of disposition thereof), the Company will use its reasonable best efforts to effect the registration of all Shares which the Company has been so requested to register pursuant to this subsection 2.1.

2.1.3 Prepare and file as soon as practicable, but in no event later than thirty (30) days from the Company s receipt of the last Stockholder s request to have such Stockholder s Registrable Securities included in such registration within the time period specified in Section 2.1.2, a registration statement under the Securities Act (Registration Statement) with the Securities and Exchange Commission (Commission) on Form S-1 (or Form S-3, if the Company is entitled to use such form, or other appropriate forms available for use by the Company) and use its reasonable best efforts to cause such Registration Statement to become effective in order that the Stockholders may sell the Shares in accordance with the proposed plan of distribution.

2.1.4 Prepare and file with the Commission such amendments and supplements to such Registration Statement and the prospectus used in connection therewith including any preliminary prospectus or supplemental or amended prospectus (the Prospectus) as may be necessary to keep such Registration Statement continuously effective and to comply with the provisions of the Securities Act with respect to the offer of the Shares during the period required for distribution of the Shares, which period shall not be in excess of the earlier of (i) nine months from the effective date of such Registration Statement, and (ii) the sale or other disposition of all Shares covered by such Registration Statement.

2.1.5 Furnish to each Stockholder such number of copies of the Prospectus (including any preliminary prospectus or supplemental or amended prospectus) as such Stockholder may reasonably request in order to facilitate the sale and distribution of the Shares.

2.1.6 Notwithstanding the foregoing, if the Company shall furnish to each Stockholder a certificate signed by the President of the Company stating that, in the good faith judgment of the Board of Directors of the Company, it would be seriously detrimental to the Company and its stockholders for such Registration Statement to be filed and it is therefore essential to defer the filing of such Registration Statement, the Company shall have the right to defer such filing for a period of not more than sixty (60) days after receipt of the request of the Stockholder; *provided, however*, that the Company may not utilize this right with respect to a request under Section 2 more than once in any twelve (12) month period.

2.2 The right of each Stockholder to require the Company to register Shares pursuant to the provisions of this Section 2 shall be subject to the condition that if a request for registration is made within sixty (60) days prior to the conclusion of the Company s then current fiscal year, the Company shall have the right to delay the filing of the Registration Statement until the Company files with the Commission its audited financial statements for such fiscal year.

2.3 If the Requisite Holders intend to distribute the Registrable Securities covered by the notice pursuant to section 2.1 by means of an underwriting, the Requisite Holders shall so advise the Company as a part of the notice made pursuant to section 2.1 and provide the name of the managing underwriter or underwriters that the Requisite Holders propose to engage in connection with the proposed public offering.

Table of Contents

If the managing underwriter of such underwritten offering shall inform the Company and the Stockholders requesting that their Shares be registered pursuant to this Section 2 by letter of its belief that the amount of Shares requested to be included in such registration exceeds the amount which can be sold in (or during the time of) such offering within a price range acceptable to the Requisite Holders, then the Company will include in such registration such amount of Shares which the Company is so advised can be sold in (or during the time of) such offering *pro rata* on the basis of the amount of such Shares so proposed to be sold and so requested to be included by the respective Stockholders.

2.4 A registration shall not be deemed to have been effected (i) unless it has become effective and remained effective for the period specified in subsection 2.1.4, (ii) if, after it has become effective, such registration is terminated by a stop order, injunction or other order of the Commission or other governmental agency or court, or (iii) if the conditions to closing specified in any purchase agreement or underwriting agreement entered into in connection with such registration are not satisfied for any reason, other than as a result of the voluntary termination of such offering by the Requisite Holders or any failure by the Requisite Holders to satisfy or perform the conditions or covenants on their part to be satisfied or performed.

Section 3. *Piggy-Back Registration Rights.*

3.1 If the Company proposes to file, on its own behalf or on behalf of any holder of Common Stock or other securities of the Company, a Registration Statement under the Securities Act on Form S-1 or S-3 or similar forms available for use by the Company, other than pursuant to Section 2 of this Agreement or on Form S-8 in connection with a dividend reinvestment, employee stock purchase, option or similar plan or on Form S-4 in connection with a merger, consolidation or reorganization, the Company shall give written notice to each Stockholder at least ten (10) days before the filing with the Commission of such Registration Statement. Such notice shall offer to include in such filing all or a portion of the Registrable Securities owned by each Stockholder. If a Stockholder desires to include all or a portion of its Registrable Securities in such Registration Statement, it shall give written notice to the Company within three (3) business days after the date of mailing of such offer specifying the amount of Registrable Securities to be registered (for purposes of this Section 3, Shares). The Company shall thereupon include in such filing the Shares, subject to priorities in registration set forth in this Agreement, and subject to its right to withdraw such filing, and shall use its reasonable best efforts to effect the registration under the Securities Act of the Shares.

3.2 The right of a Stockholder to have Shares included in any Registration Statement in accordance with the provisions of this Section 3 shall be subject to the following conditions:

3.2.1 The Company shall have the right to require that the Stockholder agree to refrain from offering or selling any shares of Common Stock that it owns which are not included in any such Registration Statement in accordance with this Section 3 for any reasonable time period, not to exceed ninety (90) days, as may be specified by any managing underwriter of the offering to which such Registration Statement relates.

3.2.2 If (i) a registration pursuant to this Section 3 involves an underwritten offering of the securities being registered to be distributed (on a firm commitment basis) by or through one or more underwriters of recognized standing under underwriting terms appropriate for such a transaction and (ii) the managing underwriter of such underwritten offering shall inform the Company and the Stockholders who have requested that their Shares be registered pursuant to this Section 3 by letter of its belief that the amount of Shares requested to be included in such registration exceeds the amount which can be sold in (or during the time of) such offering within a price range acceptable to the Company or a majority of such requesting Stockholders, then the Company will include in such registration such amount of securities which the Company is so advised can be sold in (or during the time of) such offering as follows: *first*, the securities being offered by the Company for its own account; *second*, the Shares of the Stockholders which are requested to be included in such registration

pro rata on the basis of the amount of such Shares so proposed to be sold and so requested to be included by such Stockholders; and *third*, the securities of the Company, if any, proposed to be included in the registration by any other holders of the Company's securities (whether or not such holders have contractual rights to include such securities in the registration).

3.2.3 The Company shall furnish each Stockholder with such number of copies of the Prospectus as such Stockholder may reasonably request in order to facilitate the sale and distribution of its Shares.

3.3 Notwithstanding the foregoing, the Company in its sole discretion may determine not to file the Registration Statement or proceed with the offering as to which the notice specified in Section 3.1 is given without liability to the Stockholders.

Section 4. *Participation in Underwritten Registrations.* A Stockholder may not participate in any registration hereunder which relates to an underwritten offering unless such Stockholder (a) agrees to sell its Shares included in such registration on the basis provided in any underwriting arrangements approved by the holders of at least a majority of the Registrable Securities to be included in such registration, or by a Person appointed by such holders to act on their behalf to approve such arrangements, and (b) completes and executes all questionnaires, powers of attorney, indemnities, underwriting agreements and other documents reasonably required under the terms of such underwriting arrangements, *provided, however*, that no Stockholder shall be required to make any representations or warranties to, or agreements with, the Company or any underwriters other than such representations, warranties or agreements as are customary and reasonably requested by the underwriters.

Section 5. *Exclusive Registration Rights and Transfer.*

The rights of Halcon, as the initial Stockholder under this Agreement, may upon notice to the Company be transferred to any of Halcon's equity owners to which any Registrable Securities are transferred. However, the rights of the Stockholders under this Agreement may not be assigned or transferred otherwise without the Company's written consent. Except as provided in this Section 5, the rights granted under this Agreement are granted specifically to and for the benefit of the Stockholders and shall not pass to any other transferee of Registrable Securities. From and after the date of this Agreement, the Company will not, without the prior written consent of Stockholders holding at least a majority of the Registrable Securities then outstanding, enter into any agreement with respect to its securities that violates or is detrimental to the rights granted to the Stockholders in this Agreement. The foregoing shall not restrict or prevent the Company from entering into any other agreement with any party pertaining to the registration by the Company of such party's Common Stock, *provided, however*, that no such agreement shall grant to any Person registration rights that are superior or preferential to the rights granted to the Stockholders hereunder or that would otherwise frustrate the purposes of this Agreement. Except as set forth in Schedule 2 attached hereto, the Company represents and warrants to the Stockholders that, as of the date hereof, the Company is not a party to any agreement, other than this Agreement, pertaining to the registration by the Company of Common Stock.

Section 6. *Expenses.* The Company shall bear all the expenses in connection with any Registration Statement under this Agreement, other than transfer taxes payable on the sale of Shares, the fees and expenses of counsel engaged by the Stockholders and fees, commissions and discounts of brokers, dealers and underwriters.

Section 7. *Recall of Prospectuses, etc.* With respect to a Registration Statement or amendment thereto filed pursuant to this Agreement, if, at any time, the Company notifies the Stockholders that an amendment to such Registration Statement or an amendment or supplement to the prospectus included therein is necessary or appropriate, the Stockholders will forthwith cease selling and distributing Shares thereunder and will, upon the Company's request, forthwith redeliver to the Company all copies of such Registration Statement and prospectuses then in its possession or under its control. The Company will use its reasonable best efforts to cause any such amendment or supplement to become effective as soon as practicable and will furnish the Stockholders with a reasonable number of copies of such amended or supplemented prospectus (and the period during which

the Company is required to use its best efforts to maintain such Registration Statement in effect pursuant to this Agreement will be increased by a number of days equal to the number of days in the period from the date on which the Stockholders were required to cease selling and distributing Shares thereunder to the date on which the Company delivers copies of such effective amendment or supplement to the Stockholders).

Section 8. *Cooperation.* The Company shall be entitled to require the Stockholders to cooperate with the Company in connection with a registration of Registrable Securities pursuant to this Agreement and each Stockholder will furnish (i) such information concerning such Stockholder as may be required by the Company or the Commission in connection therewith and (ii) such representations, undertakings and agreements as may be required by the Commission in connection therewith.

Section 9. *Registration Procedures.* Upon the receipt of a request for registration of any Registrable Securities pursuant to Section 2 or Section 3 of this Agreement, the Company will use its reasonable best efforts to effect the registration of the Registrable Securities in accordance with the intended method of disposition thereof, and pursuant thereto the Company will as expeditiously as possible:

9.1.1 Prepare and file with the Commission a Registration Statement on an appropriate form under the Securities Act and use its reasonable best efforts to cause such Registration Statement to become effective at the earliest practicable date; *provided*, that before filing a Registration Statement or prospectus or any amendments or supplements thereto, including documents incorporated by reference after the initial filing of any Registration Statement, the Company will promptly furnish to the holders of Registrable Securities to be registered pursuant to this Agreement (the Registered Holders) and the underwriters, if any, copies of all such documents proposed to be filed, which documents will be subject to the review of the Registered Holders and the underwriters, and the Company will not file any Registration Statement or amendment thereto, or any prospectus or any supplement thereto (including such documents incorporated by reference) to which the Registered Holders or the underwriters, if any, shall reasonably object in light of the requirements of the Securities Act and any other applicable laws and regulations.

9.1.2 Prepare and file with the Commission such amendments and post-effective amendments to the Registration Statement as may be necessary to keep such Registration Statement effective for the applicable period; cause the related prospectus to be filed pursuant to Rule 424(b) (or any successor provision) under the Securities Act; cause such prospectus to be supplemented by any required prospectus supplement and, as so supplemented, to be filed pursuant to Rule 424(b) (or any successor provision) under the Securities Act; and comply with the provisions of the Securities Act with respect to the disposition of all securities covered by such Registration Statement during the applicable period in accordance with the intended methods of disposition set forth in such Registration Statement or prospectus or supplement to such prospectus.

9.1.3 Notify the Registered Holders and the managing underwriters, if any, promptly, and (if requested by any such Person) confirm such advice in writing, (i) when a prospectus or any prospectus supplement or post-effective amendment has been filed, and, with respect to a Registration Statement or any post-effective amendment, when the same has become effective, (ii) of any request by the Commission for amendments or supplements to a Registration Statement or related prospectus or for additional information, (iii) of the issuance by the Commission of any stop order suspending the effectiveness of a Registration Statement or the initiation of any proceeding for that purpose, (iv) if at any time the representations and warranties of the Company contemplated by subsection 9.1.10 cease to be true and correct, (v) of the receipt by the Company of any notification with respect to the suspension of qualification of any of the Registrable Securities for sale in any jurisdiction or the initiation of any proceeding for such purpose, (vi) of the happening of any event which requires the making of any changes in a Registration Statement or related prospectus so that such documents will not contain any untrue statement of a material fact or omit to state any material fact required to be stated therein or necessary to make the statements therein not misleading and (vii) of the Company s

reasonable determination that a post-effective amendment to a Registration Statement would be appropriate or that there exist circumstances not yet disclosed to the public which make further sales under such Registration Statement inadvisable pending such disclosures and post-effective amendment.

9.1.4 Make reasonable efforts to obtain the withdrawal of any order suspending the effectiveness of a Registration Statement, or the lifting of any suspension of the qualification of any of the Registrable Securities for sale in any jurisdiction, at the earliest possible moment.

9.1.5 If requested by the managing underwriters or the Registered Holders in connection with an underwritten offering, immediately incorporate in a prospectus supplement or post-effective amendment such information as the managing underwriters and the Registered Holders agree should be included therein relating to such sale and distribution of Registrable Securities, including, without limitation, information with respect to the number of shares of Registrable Securities being sold to such underwriters and the purchase price being paid therefor by such underwriters and with respect to any other terms of the underwritten (or best efforts underwritten) offering of the Registrable Securities to be sold in such offering; make all required filings of such prospectus supplement or post-effective amendment as soon as notified of the matters to be incorporated in such prospectus supplement or post-effective amendment; and supplement or make amendments to any Registration Statement if requested by the Registered Holders or any underwriter of such Registrable Securities.

9.1.6 Furnish to the Registered Holders and each managing underwriter, if any, without charge, at least one signed copy of the Registration Statement, any post-effective amendment thereto, including financial statements and schedules, all documents incorporated therein by reference and all exhibits (including those incorporated by reference).

9.1.7 Deliver without charge to the Registered Holders and the underwriters, if any, as many copies of the prospectus or prospectuses (including each preliminary prospectus) and any amendment or supplement thereto as such Persons may reasonably request; and the Company consents to the use of such prospectus or any amendment or supplement thereto by such Registered Holders and the underwriters, if any, in connection with the offer and sale of the Registrable Securities covered by such prospectus or any amendment or supplement thereto.

9.1.8 Prior to any public offering of Registrable Securities, register or qualify or cooperate with the Registered Holders, the underwriters, if any, and respective counsel in connection with the registration or qualification of such Registrable Securities for offer and sale under the securities or Blue Sky laws of such jurisdictions as the Registered Holders or an underwriter reasonably requests in writing; keep each such registration or qualification effective during the period the Registration Statement is required to be kept effective and do any and all other acts or things necessary or advisable to enable the disposition in such jurisdictions of the Registrable Securities covered by the applicable Registration Statement; *provided, however*, that the Company will not be required in connection therewith or as a condition thereto to qualify generally to do business or subject itself to general service of process in any such jurisdiction where it is not then so subject.

9.1.9 Upon the occurrence of any event contemplated by subsection 9.1.3(ii)-(vii) above, prepare, to the extent required, a supplement or post-effective amendment to the applicable Registration Statement or related prospectus or any document incorporated therein by reference or file any other required document so that, as thereafter delivered to the purchaser of the Registrable Securities being sold thereunder, such prospectus will not contain an untrue statement of a material fact or omit to state any material fact necessary to make the statements therein, in light of the circumstances under which they were made, not misleading.

9.1.10 Enter into such agreements (including an underwriting agreement) and take all such other actions in connection therewith in order to expedite or facilitate the disposition of such Registrable Securities and in such connection, whether or not an underwriting agreement is entered into and whether or not the Registrable Securities to be covered by such registration are to be offered in an underwritten offering: (i) make such representations and warranties to the Registered Holders as to the

Registration Statement, prospectus and documents incorporated by reference, if any, in form, substance and scope as are customarily made by issuers to underwriters in underwritten offerings and confirm the same if and when requested; (ii) obtain opinions of counsel to the Company and updates thereof with respect to the Registration Statement and the prospectus in the form, scope and substance which are customarily delivered in underwritten offerings; (iii) in the case of an underwritten offering, enter into an underwriting agreement in form, scope and substance as is customary in underwritten offerings and obtain opinions of counsel to the Company and updates thereof (which counsel and opinions (in form, scope and substance) shall be reasonably satisfactory to the managing underwriters and the Registered Holders) addressed to the Registered Holders and the underwriters, if any, covering the matters customarily covered in opinions delivered in underwritten offerings and such other matters as may be reasonably requested by the Registered Holders and such underwriters; (iv) obtain comfort letters and updates thereof from the Company's independent certified public accountants addressed to the Registered Holders and the underwriters, if any, such letters to be in customary form and covering matters of the type customarily covered in comfort letters by accountants in connection with underwritten offerings; (v) if any underwriting agreement is entered into, the same shall set forth in full the indemnification provisions and procedures customarily included in underwriting agreements in underwritten offerings; and (vi) the Company shall deliver such documents and certificates as may be requested by the Registered Holders and the managing underwriters, if any, to evidence compliance with clause (i) above and with any customary conditions contained in the underwriting agreement or other agreement entered into by the Company. The above shall be done at each closing under such underwriting or similar agreement or as and to the extent required thereunder.

9.1.11 Make available for inspection by a representative of the Registered Holders, any underwriter participating in any disposition pursuant to such registration, and any attorney or accountant retained by the Registered Holders or such underwriter, all financial and other records, pertinent corporate documents and properties of the Company, and cause the Company's officers, directors and employees to supply all information reasonably requested by any such representative, underwriter, attorney or accountant in connection with such registration; *provided*, that any records, information or documents that are designated by the Company in writing as confidential shall be kept confidential by such Persons unless disclosures of such records, information or documents is required by court or administrative order.

9.1.12 Otherwise use its reasonable best efforts to comply with all applicable rules and regulations of the Commission and make generally available to its security holders earning statements satisfying the provisions of Section 11(a) of the Securities Act and Rule 158 thereunder, no later than 90 days after the end of any 12-month period (i) commencing at the end of any fiscal quarter in which Registrable Securities are sold to underwriters in a firm or best efforts underwritten offering and (ii) beginning with the first day of the Company's first fiscal quarter next succeeding each sale of Registrable Securities after the effective date of a Registration Statement, which statements shall cover said 12-month periods.

9.1.13 Use its reasonable best efforts to list all Registrable Securities covered by the Registration Statement on the Nasdaq Global Market and any other securities exchange or trading market on which any of the equity securities of the Company of the same class as the Registrable Securities are then listed.

9.1.14 At all times during the term of this Agreement, maintain the effectiveness of the registration of the Common Stock under the Exchange Act and use its reasonable best efforts to prepare and file in a timely manner all documents and reports required by such Act.

9.1.15 If the Company, in the exercise of its reasonable judgment, objects to any change requested by the Registered Holders or the underwriters, if any, to any Registration Statement or prospectus or any amendments or supplements thereto (including documents incorporated or to be incorporated therein by reference) as provided for in this Section 9, the Company shall not be obligated to make any

such change and such Registered Holders may withdraw their Registrable Securities from such registration, in which event (i) the Company shall pay all registration expenses (including its counsel fees and expenses) incurred in connection with such Registration Statement or amendment thereto or prospectus or supplement thereto, and (ii) in the case of a registration being effected pursuant to Section 2, such registration shall not count as one of the registrations the Company is obligated to effect pursuant to Section 2.

Section 10. *Indemnification.*

10.1 In the event of any registration of any securities under the Securities Act pursuant to this Agreement, the Company will indemnify and hold harmless the Stockholders, any underwriter and each other Person, if any, who controls a Stockholder or underwriter within the meaning of the Securities Act, and the respective officers, directors, partners, members and employees of such Stockholders, underwriters and controlling Persons, from and against any and all losses, claims, damages or liabilities, joint or several, to which any such indemnified Person may become subject, under the Securities Act or otherwise, insofar as such losses, claims, damages or liabilities (or action in respect thereof) arise out of or are based upon any untrue statement or alleged untrue statement of any material fact contained in a Registration Statement or preliminary prospectus or final or summary prospectus contained therein, or any amendment or supplement thereto, and any other document prepared by the Company and provided to Registered Holders for their use in connection with the registered offering, or arise out of or are based upon the omission or alleged omission to state therein a material fact required to be stated therein or necessary to make the statements made therein (in the case of a prospectus or preliminary prospectus, in light of the circumstances under which they were made) not misleading, and will reimburse such indemnified Persons for any reasonable legal and other expenses incurred by them in connection with investigating or defending any such action or claim, excluding any amounts paid in settlement of any litigation, commenced or threatened, if such settlement is effected without the prior written consent of the Company; *provided, however*, that the Company will not be liable to an indemnified Person in any such case to the extent that any such loss, claim, damage, liability or expense arises out of or is based upon an untrue statement or omission or alleged untrue statement or omission made in a Registration Statement, preliminary prospectus or final or summary prospectus or any amendment or supplement thereto or other document, in reliance upon and in conformity with written information furnished to the Company by or on behalf of such indemnified Person, specifically for use in the preparation thereof; and *provided further*, that the indemnity agreement contained in this Section 10 with respect to any preliminary prospectus shall not inure to the benefit of any indemnified Person using the same in respect of any loss, claim, damage, liability or action asserted by someone who purchased shares from such Person if a copy of an amended preliminary prospectus or prospectus supplement was delivered by the Company to the Registered Holders and the underwriters, if any, prior to the pricing of the sale of the securities (if an underwritten offering) or prior to the effectiveness of the Registration Statement, but was not delivered to the purchaser of the securities from the indemnified Person, and the untrue statement or omission or alleged untrue statement or omission of a material fact contained in such preliminary prospectus was corrected in the amended preliminary prospectus or prospectus supplement.

10.2 In the event of any registration of securities under the Securities Act pursuant to this Agreement, the Registered Holders, severally and not jointly, will indemnify and hold harmless the Company, each of its directors and officers, any underwriter and each other Person, if any, who controls the Company or such underwriter within the meaning of the Securities Act, against any losses, claims, damages or liabilities to which any such indemnified Person may become subject, under the Securities Act or otherwise, insofar as such losses, claims, damages or liabilities (or action in respect thereof) arise out of or are based upon any untrue statement or alleged untrue statement of any material fact contained in such Registration Statement or preliminary prospectus or final or summary prospectus contained therein, or any amendment or supplement thereto, or arise out of or are based upon the omission or alleged omission to state therein a material fact required to be stated therein or necessary to make the statements made therein (in the case of a prospectus or preliminary prospectus, in light of the circumstances under which they were made) not misleading, and will reimburse such indemnified Persons for any reasonable legal and other expenses

incurred by them in connection with investigating or defending any such action or claim, excluding any amounts paid in settlement of any litigation, commenced or threatened, if such settlement is effected without the prior written consent of the indemnifying Registered Holder; but in all cases only if, and to the extent that any such loss, claim, damage, liability or expense arises out of or is based upon an untrue statement or alleged untrue statement or omission or alleged omission therein made in reliance upon and in conformity with written information furnished to the Company by or on behalf of the indemnifying Registered Holder specifically for use in the preparation thereof. Notwithstanding the foregoing, the amount of the indemnity provided by each Registered Holder pursuant to this Section 10 shall not exceed the net proceeds received by such Registered Holder in the related registration and sale.

10.3 Promptly after receipt by a party entitled to indemnification under subsection 10.1 or 10.2 hereof of notice of the commencement of any action, such indemnified party will, if a claim in respect thereof is to be made against the indemnifying party under either of such subsections, notify the indemnifying party in writing of the commencement thereof. In case any such action is brought against the indemnified party and it shall so notify the indemnifying party of the commencement thereof, the indemnifying party shall be entitled to participate in, and, to the extent that it so chooses, to assume the defense thereof with counsel reasonably satisfactory to such indemnified party, and, after notice from the indemnifying party that it so chooses, such indemnifying party shall not be liable for any legal or other expenses subsequently incurred by such indemnified party in connection with the defense thereof, *provided, however*, that if the indemnifying party fails to take reasonable steps necessary to diligently defend such claim within twenty (20) days after receiving notice from the indemnified party that the indemnified party believes the indemnifying party has failed to take such steps, the indemnified party may assume its own defense and the indemnifying party shall be liable for any expenses therefor. The indemnity and contribution agreements in this Section 10 are in addition to any liabilities which the indemnifying parties may have pursuant to law.

10.4 If the indemnification provided for in this Section 10 from the indemnifying party is unavailable to an indemnified party hereunder in respect of any losses, claims, damages, liabilities or expenses referred to herein, or is insufficient to hold the indemnified party harmless therefrom, then the indemnifying party, in lieu of indemnifying such indemnified party, shall contribute to the amount paid or payable by such indemnified party as a result of such losses, claims, damages, liabilities or expenses in such proportion as is appropriate to reflect the relative fault of the indemnifying party and indemnified parties in connection with the actions which resulted in such losses, claims, damages, liabilities or expenses, as well as any other relevant equitable considerations. The relative fault of such indemnifying party and indemnified parties shall be determined by reference to, among other things, whether any action in question, including any untrue or alleged untrue statement of a material fact or omission or alleged omission to state a material fact, has been made by, or relates to information supplied by, such indemnifying party or indemnified parties, and the parties' relative intent, knowledge, access to information and opportunity to correct or prevent such action. The amount paid or payable by an indemnified party as a result of the losses, claims, damages, liabilities and expenses referred to above shall be deemed to include, subject to the limitations set forth in this Section 10, any legal or other fees or expenses reasonably incurred by such party in connection with any investigation or proceeding.

The parties hereto agree that it would not be just and equitable if contribution pursuant to this Section 10 were determined by pro rata allocation or by any other method of allocation which does not take into account the equitable considerations referred to in the immediately preceding paragraph. No Person guilty of fraudulent misrepresentation (within the meaning of Section 11(f) of the Securities Act) shall be entitled to contribution from any Person who was not guilty of such fraudulent misrepresentation.

Section 11. *Sales under Rule 144.* With a view to making available to the Stockholders the benefits of Rule 144 promulgated under the Securities Act and any other similar rule or regulation of the Commission that may at any time permit the Stockholders to sell the Registrable Securities without registration, the Company agrees to:

- (a) make and keep available adequate current public information, as those terms are understood and defined in Rule 144 (or any successor provision);
- (b) file with the Commission in a timely manner all reports and other documents required to be filed by the Company under the Securities Act and the Exchange Act; and

Section 13. *Notices.* Any notice to be given by any party hereunder to any other shall be in writing, mailed by certified or registered mail, return receipt requested, or via overnight delivery service and shall be addressed to the other parties at the addresses listed on the signature pages hereof. Section 14. *Modification.* Notwithstanding anything to the contrary in this Agreement or otherwise, no modification, amendment or waiver of any of the provisions of this Agreement shall be effective unless in writing and signed by the Company and the Stockholders holding not less than 75% of the Registrable Securities then outstanding. Any such modification, amendment or waiver shall be binding on all holders of Registrable Securities and all Persons who may thereafter acquire any Registrable Securities.

Section 15. *Non-Waiver.* The failure to enforce at any time any of the provisions of this Agreement, or to require at any time performance by any other party of any of the provisions hereof, shall in no way be construed to be a waiver of such provisions.

Section 16. *Partial Invalidity.* If any clause, sentence, paragraph, section or part of this Agreement shall be deemed invalid, unenforceable or against public policy, the part that is invalid, unenforceable or contrary to public policy shall not affect, impair, invalidate or nullify the remainder of this Agreement, but the invalidity, unenforceability or contrariness to public policy shall be confined only to the clause, sentence, paragraph, section or part of this Agreement so invalidated, unenforceable or against public policy.

Section 17. *Termination of Registration Right.* No Stockholder shall be entitled to exercise any right provided for in this Agreement after the fifth anniversary of the Closing of the transactions contemplated by the Purchase Agreement (the Termination Date). Notwithstanding any other provision of this Agreement to the contrary, the registration rights granted under Section 2 will terminate prior to the Termination Date as to any Stockholder upon the first day the Stockholder is able to sell all of the Registrable Securities owned by such Holder under Rule 144 within any given three-month period.

Section 18. *Construction.* The language in all parts of this Agreement shall in all cases be construed simply, according to its fair meaning, and shall not be construed strictly for or against either of the parties hereto.

the voting power of all of the then outstanding shares of the capital stock of the Corporation entitled to vote generally in the election of directors (the Voting Stock), voting together as a single class, without a separate vote of the holders of the Preferred Stock, or any series thereof, unless a vote of any such holders is required pursuant to any Preferred Stock Designation.

B. Common Stock. Except as otherwise required by law or as otherwise provided in any Preferred Stock Designation, the holders of the Common Stock shall exclusively possess all voting power and each share of Common Stock shall have one vote.

SIXTH: The following provisions are inserted for the management of the business and for the conduct of the affairs of the Corporation, and for further definition, limitation and regulation of the powers of the Corporation and of its directors and stockholders:

A. Election of directors need not be by ballot unless the by-laws of the Corporation so provide.

C. The directors in their discretion may submit any contract or act for approval or ratification at any annual meeting of the stockholders or at any meeting of the stockholders called for the purpose of considering any such act or contract, and any contract or act that shall be approved or be ratified by the vote of the holders of a majority of the stock of the Corporation which is represented in person or by proxy at such meeting and entitled to vote thereat (provided that a lawful quorum of stockholders be there represented in person or by proxy) shall be as valid and binding upon the Corporation and upon all the stockholders as though it had been approved or ratified by every stockholder of the Corporation, whether or not the contract or act would otherwise be open to legal attack because of directors' interests, or for any other reason.

D. In addition to the powers and authorities hereinbefore or by statute expressly conferred upon them, the directors are hereby empowered to exercise all such powers and do all such acts and things as may be exercised or done by the Corporation; subject, nevertheless, to the provisions of the statutes of Delaware, of this Certificate of Incorporation, and to any by-laws from time to time made by the stockholders; provided, however, that no by-law so made shall invalidate any prior act of the directors which would have been valid if such by-law had not been made.

If the GCL is amended to authorize corporate action further eliminating or limiting the personal liability of directors, then the liability of a director of the Corporation shall be eliminated or limited to the fullest extent permitted by the GCL, as so amended. Members of the Board of Directors:

We understand that RAM Energy Resources, Inc. (the Company) and Halcon Resources, LLC (the Investor), propose to enter into a Securities Purchase Agreement (the Securities Purchase Agreement), pursuant to which the Company will issue (a) 220 million shares (the Shares) of Common Stock, par value \$0.0001 per share, of the Company (the Common Stock); (b) a senior subordinated convertible note with a principal amount of \$275 million, due 2017 (the Note); and (c) warrants to purchase 110 million shares of Common Units (the Warrants). In consideration for the issuance of the Shares, the Note and the Warrants, the Investor will pay the Company an aggregate purchase price of \$550 million in cash (the Purchase Price) from the Investor (the Transaction). The terms and conditions of the Transaction are more fully set forth in the Securities Purchase Agreement.

You have asked for our opinion as to whether the Purchase Price to be received by the Company in consideration for the Shares, the Note and the Warrants pursuant to the Transaction is fair, from a financial point of view, to the Company.

In arriving at our opinion, we have, among other things:

- (i) reviewed a draft dated December 14, 2011 of the Securities Purchase Agreement;
- (ii) reviewed certain publicly available financial and other information about the Company;
- (iii) reviewed certain information furnished to us by the management of Company, including financial forecasts and analyses, relating to the business, operations and prospects of the Company;

- (vi) compared the proposed financial terms of the Transaction with the financial terms of certain other corporate and asset transactions that we deemed relevant, including a premiums paid analysis;
- (vii) performed a discounted cash flow analysis, based on projections provided by the management of the Company, to analyze the present value of the future unlevered cash flow streams that the management of the Company expects to generate;

- (viii) performed a net asset value analysis, based on the sum of (A) the present value of the field level before-tax future cash flows expected from proved reserves (applying a range of discount rates, commodity prices and market risk factors based on reserve category), (B) estimated market value of undeveloped acreage (based on precedent transactions and our experience as M&A professionals in the oil & gas industry) and (C) the present value of oil and gas hedges;
- (ix) reviewed certain proved oil and gas reserve data as of December 31, 2010 furnished to us by the Company and available in the Company's public filings and certain proved oil and gas reserve data as of October 1, 2011 prepared and furnished to us by the Company; and

In our review and analysis and in rendering this opinion, we have assumed and relied upon, but have not assumed any responsibility to independently investigate or verify, the accuracy and completeness of all financial and other information that was supplied or otherwise made available by the Company or that was publicly available to us (including, without limitation, the information described above), or that was otherwise reviewed by us. We have relied on assurances of the management of the Company that it is not aware of any facts or circumstances that would make such information inaccurate or misleading. In our review, we did not obtain any independent evaluation or appraisal of any of the assets or liabilities of, nor did we conduct a physical inspection of any of the properties or facilities of, the Company. We have not been furnished with any such evaluations or appraisals of such physical inspections, nor do we assume any responsibility to obtain any such evaluations or appraisals.

With respect to the financial forecasts provided to and examined by us, we note that projecting future results of any company is inherently subject to uncertainty. The Company has informed us, however, and we have assumed, that such financial forecasts were reasonably prepared on bases reflecting the best currently available estimates and good faith judgment of the management of the Company as to the future financial performance of the Company. We express no opinion as to the financial forecasts provided to us by the Company or the assumptions on which they are made.

Our opinion is based on economic, monetary, regulatory, market and other conditions that exist and can be evaluated as of the date hereof. We do not undertake to reaffirm or revise our opinion or otherwise comment upon events occurring after the date hereof, and we expressly disclaim any undertaking or obligation to advise any person of any change in any fact or matter affecting our opinion of which we become aware after the date hereof.

We have made no independent investigation of any legal or accounting matters affecting the Company, and we have assumed the correctness in all respects material to our analysis of all legal and accounting advice given to the Company and the Board of Directors of the Company (the Board of Directors), including, without limitation, advice as to the legal, accounting and tax consequences of the terms of, and transactions contemplated by, the Securities Purchase Agreement to the Company and its stockholders. In addition, in preparing this opinion, we have not taken into account any tax consequences of the transaction to any holder of Common Stock. We have assumed that the final form of the Securities Purchase Agreement will be substantially similar to the last draft reviewed by us. We have also assumed that in the course of obtaining the necessary regulatory or third party approvals, consents and releases for the Transaction, no delay, limitation, restriction or condition will be imposed that would have an adverse effect on the Company or the contemplated benefits of the Transaction.

It is understood that our opinion is for the use and benefit of the Board of Directors in its consideration of the Transaction, and our opinion does not address the relative merits of the transactions contemplated by the Securities Purchase Agreement as compared to any alternative transaction or opportunity that might be available to the Company, nor does it address the underlying business decision by the Company to engage in the Transaction or the terms of the Securities Purchase Agreement or the documents referred to therein. Our opinion does not constitute a recommendation as to how any holder of shares of Common Stock should vote with respect to the issuance of shares of Common Stock in connection with the Transaction or any matter related thereto. In addition, you have not asked us to address, and this opinion does not address, the fairness to, or any other consideration of, the holders of any class of securities, creditors or other constituencies of the Company, other than the holders of shares of Common Stock. We express no opinion as to the price at which shares of Common Stock will trade at any time. Furthermore, we do not express any view or opinion as to the fairness, financial or otherwise, of the amount or nature of any compensation payable or to be received by any of the Company's officers, directors or employees, or any class of such persons, in connection with the Transaction, whether relative to the Purchase Price or otherwise. Our opinion has been authorized by the Fairness Committee of Jefferies & Company, Inc.

We have been engaged by the Company to act as financial advisor to the Company in connection with the Transaction and will receive a fee for our services, a portion of which is payable upon delivery of this opinion

and a significant portion of which is payable contingent upon consummation of the Transaction. We also will be reimbursed for expenses incurred. The Company has agreed to indemnify us against liabilities arising out of or in connection with the services rendered and to be rendered by us under such engagement. We have, in the past, provided financial advisory and financing services to the Company and Petrohawk Energy Corporation, a former affiliate of the Investor, including in connection with public offerings of the Company's and Petrohawk Energy Corporation's equity securities and the disposition of certain Company assets, and may continue to do so and have received, and may receive, fees for the rendering of such services. In the ordinary course of our business, we and our affiliates may trade or hold securities of the Company or the Investor and/or their respective affiliates for our own account and for the accounts of our customers and, accordingly, may at any time hold long or short positions in those securities. Furthermore, as of the date hereof, we own 17,198,366 shares of Common Stock, representing approximately 22 % of the outstanding shares of Common Stock (before giving effect to the Transaction). In addition, we may seek to, in the future, provide financial advisory and financing services to the Company, the Investor or entities that are affiliated with the Company or the Investor, for which we would expect to receive compensation. Except as otherwise expressly provided in our engagement letter with the Company, our opinion may not be used or referred to by the Company, or quoted or disclosed to any person in any matter, without our prior written consent.

Based upon and subject to the foregoing, we are of the opinion that, as of the date hereof, the Purchase Price to be received by the Company in exchange for the Shares, the Note and the Warrants pursuant to the Transaction is fair, from a financial point of view, to the Company.

Very truly yours,

/s/ JEFFERIES & COMPANY, INC.
