Item 8.01 Other Events

Diebold, Incorporated (the Company) entered into an Integrated Services Agreement (the Agreement) with TD Bank Group (TD), one of the largest financial institutions in North America, in the fourth quarter of 2011. Pursuant to the Agreement, the Company will provide support to TD's multivendor network of more than 4,400 automated teller machines (ATMs) in North America. The Company believes that the Agreement is one of the largest North American integrated services agreements in the ATM industry to date, representing the Company's growing services business.

As part of the comprehensive services provided under the Agreement, Diebold will deploy its ATM Endpoint Protection by Symantec solution, as well as software deployment services that provide the latest system patches and updates required by Payment Card Industry (PCI) compliance standards. The ATM Endpoint Protection solution provides threat protection against logical attacks by leveraging Diebold's turnkey, proactive technologies that automatically analyze application behaviors and network communications to detect and block suspicious activities.

Diebold's technology will enable proactive monitoring, enhanced data security and remote repairs for TD's complete ATM network, transforming it into a fully integrated system managed by a single service provider. To optimize the network, Diebold will deploy its industry-leading availability management service, which uses real-time terminal data and analytics to provide optimal network uptime, while allowing financial institutions to leverage their ATM network as a strategic channel by increasing efficiency and offering an enhanced customer experience. In addition, Diebold will implement campaign solutions that enable targeted marketing at ATMs for more personalized user experiences.
