VOTING SECURITIES AND PRINCIPAL HOLDERS THEREOF

The close of business on March 19, 2012 has been fixed as the record date for determination of the shareholders entitled to notice of, and to vote at, the Meeting. On that date there were outstanding and entitled to vote 10,616,771 shares of common stock, par value \$.10 per share, of the Company's common stock (the "Common Stock") each of which is entitled to one vote on each matter at the Meeting.

Holders of shares of Common Stock represented by a properly signed, dated and returned proxy will be treated as present at the Meeting for purposes of determining a quorum. Proxies relating to street name shares that are voted by brokers will be counted as shares present for purposes of determining the presence of a quorum, but will not be treated as votes cast at the Meeting as to any proposal as to which the brokers do not have voting instructions and discretion. Committees and Meeting Data

During 2011, the full Board of Directors held thirteen meetings. The Company's Board of Directors has established a process whereby shareholders may send communications to the board. That process is set forth in the Policy for Shareholder Communications with Board Members, a copy of which is attached as Exhibit A.

The Audit Committee of the board currently consists of Messrs. Casciano, Constantino, Dubnik, and Gould, all of whom are independent as defined under SEC rules. The Audit Committee, which met eight times during the year, appoints and oversees the work of the Company's independent auditors, overseeing the establishment and maintenance by the Corporation of reliable accounting policies, financial reporting and disclosure, and performing such other duties as are set forth in its Charter, a copy of which is available at <http://www.veramark.com/Company/InvestorRelations/>. Mr. Casciano's formal education and experience qualify him as an Audit Committee Financial Expert, as that term is defined by SEC rules.

The Compensation Committee of the board currently consists of Messrs. Collins, Constantino, and Dubnik, all of whom are independent as defined by SEC rules. The Compensation Committee, which met five times during the year, reviews and sets compensation for the Chief Executive Officer (CEO), all other executive officers of the Company and members of the Company's Board of Directors, establishes compensation, incentive and benefit plans for the CEO and all other executive officers and directors of the Company and approves payments under such incentive plans. The Charter of the Compensation Committee is available at <http://www.veramark.com/Company/InvestorRelations/>. The Compensation Committee has broad authority to review management's performance, assess market competition and set guidelines for compensation of our directors and executive officers. The Committee does not delegate its authority regarding compensation, but does periodically seek input from our chief executive officer. The Committee does periodically seek the advice of outside consultants regarding executive compensation.

The Governance and Nominating Committee consists of all members of the board who are independent as defined by SEC rules. Currently, those individuals are Messrs. Casciano, Collins, Constantino, Dubnik, and Gould. The Nominating Committee identifies the slate of director nominees for election to the Company's board, recommends candidates to fill vacancies occurring between annual shareholder meetings, and otherwise establishes and oversees the process for nominations for election to the Company's Board, in accordance with applicable laws, rules, and its charter. The Nominating Committee officially met three times separately from regular Board meetings. In addition, when circumstances necessitated, matters pertaining to nominees and vacancies were reviewed and discussed as part of scheduled Board meetings. The Charter of the Nominating Committee is available at <http://www.veramark.com/Company/InvestorRelations/>.

The Governance and Nominating Committee will consider candidates recommended by shareholders and determine the procedures to be followed by shareholders in submitting such recommendations. The Nominating Committee continually seeks to identify qualified candidates for nomination to the Company's board; however, it has not established any formal procedure in that regard. All candidates identified as potential nominees for election to the board, whether identified by a shareholder or otherwise, are evaluated in the same manner. Although neither the board nor the Nominating Committee has established any minimum qualifications for director nominees, any potential nominee must have sufficient experience, knowledge, ability and time to fulfill the obligations of a member of the Company's board. The current practice has resulted in a broad range of experience and qualifications among the members of the Company's Board of Directors.

Each of the Audit, Compensation, and Governance and Nominating Committees operate under a written charter approved by the Board. The charter is reviewed regularly by the respective committees which may recommend appropriate changes for approval by the Board. Copies of the charters for the Audit, Compensation, and Governance and Nominating Committees are posted on the Company's website and a printed copy of these documents may be obtained without charge by written request. Requests can be made via the internet or by mail. The respective website and address for making such requests for printed copies of these and other available documents may be found under the heading "Available Information" on page 22 of this Proxy Statement.

The Company encourages all directors to attend annual meetings, but has not established any formal policy with respect to such attendance. All members of the Company's board attended last year's annual meeting.

During 2011, all directors nominated for reelection attended no less than 75% of the total number of meetings of the Board of Directors and any board committee on which he served, with the exception of Mr. Collins, who did not meet this threshold in regards to the Nominating committee.

The Board's Leadership Structure

The leadership responsibilities of the Board are shared among the Chairs of the Board's three standing Committees, and our Chairman of the Board. The current Board is comprised of five independent Directors and a single management Director. The single management Director is Anthony C. Mazzullo, who serves as President, Chief Executive Officer, and Chairman of the Board.

Our governance processes and the decisions of our Board are managed and controlled by our independent Directors. All members of the three standing Committees of the Board are independent Directors, and all members sit on at least one committee. Mr. Mazzullo may be invited to attend Committee meetings, but he does not have a vote on any Committee matter.

Our Board holds executive session meetings of our independent Directors. These sessions allow our independent Directors, to privately, discuss the effectiveness of management, as well as other issues and concerns challenging the Corporation and the Board.

Our Board believes this governance structure is well suited to our Company. Our classification as a smaller reporting company, and our focused target market, favors having a governance structure that is nimble and overlapping, thus encouraging the transfer of information, rather than a complex governance structure that can be overbearing, particularly for a company that is attempting to move beyond its current target market.

We believe the Company benefits from combining the position of Chief Executive Officer and Chairman of the Board. As the only member of the Company's management on the Board, it provides the Chief Executive Officer with a status and visibility that we believe enhances his ability to communicate the concerns, opinions, and recommendations of management to the various Board members.

The Board's Role in the Oversight of Risk

The Board recognizes that the Company is subject to various strategic, operational, and financial risks that can affect the Company's performance, including its ability to provide value to its shareholders. While the Audit Committee is primarily responsible for overseeing the policies of the Company, with respect to risk assessment, the Board as a whole takes a role in assessing the strategic and operational risks of the Company.

The Board reviews strategic and operational plans in great length, not only during the budget process, but during the course of the year, as they review corporate performance each quarter. Those reviews include not only an assessment of the potential opportunities afforded the Company, but also include discussion of the potential risks and hazards the Company may face.

Audit Committee Report.

The Audit Committee of the Board of Directors is responsible for providing independent, objective oversight of the Company's accounting functions and policies, internal controls, the selection and oversight of the Company's independent accountants, and overseeing that the Company has established and maintained processes for assuring that the Company has complied with applicable laws, regulations, policies, and established processes, relating to the Company's accounting and reporting practices and relating to the quality and integrity of the Company's financial reports. The Audit Committee is currently composed of four directors, Messrs. Casciano, Constantino, Dubnik, and Gould, each of whom is independent as defined for purposes of the rules and regulations promulgated under the Securities Exchange Act of 1934, as amended. The Audit Committee operates under a written charter approved by the Board of Directors, a copy of which is available at <http://www.veramark.com/Company/InvestorRelations/>.

Management is responsible for the Company's financial reporting process including its system of internal controls, and for the preparation of financial statements in accordance with accounting principles generally accepted in the United States (GAAP). The Company's independent auditors are responsible for auditing those financial statements. The Committee's responsibility is to monitor and review these processes. It does not have the duty or responsibility to conduct auditing or accounting reviews or procedures. Members of the Committee are not employees of the Company and may not be, nor may they represent themselves to be or to serve as, accountants or auditors by profession or experts in the fields of accounting or auditing. Therefore, the Committee has relied, without independent verification, on management's representation that the financial statements have been prepared with integrity and objectivity and in conformity with GAAP and on the representations of the independent auditors included in their report on the Company's financial statements. The Committee's oversight does not provide it with an independent basis to determine that management has maintained appropriate accounting and financial reporting principles or policies, or appropriate internal controls and procedures designed to assure compliance with GAAP and applicable laws and regulations. Furthermore, its considerations and discussions with management and the independent auditors do not assure that the Company's financial statements are presented in accordance with GAAP, that the audit of the Company's financial statements has been carried out in accordance with generally accepted auditing standards or that the Company's independent accountants are in fact independent.

In this context, the Audit Committee reviewed and discussed with management the Company's audited financial statements as of and for the year ended December 31, 2011. The Audit Committee also met with representatives of the Company's auditors to discuss and review the results of the independent auditors' examination of the financial statements for the year ended December 31, 2011 and the matters required to be discussed by Statement on Auditing Standards No. 61, Communications With The Audit Committee, as amended. In addition, the Audit Committee reviewed with management and representatives of the Company's auditors, each Quarterly Report on Report 10-Q prior to its filing with the SEC.

The Audit Committee has also received from the Company's auditors the written disclosures required pursuant to the Independence Standards Board Standard No. 1 (Independent Discussions with Audit Committees) addressing all relationships between the auditors and the Company that might bear on the auditors' independence and has discussed the same with representatives of the Company's auditors.

Based upon the Audit Committee's discussions with management and the independent auditors, and the Audit Committee's review of the representations of management and the report of the independent auditors to the Audit Committee, the Audit Committee recommended that the Board of Directors include the audited financial statements in the Company's Annual Report on Form 10-K for the year ended December 31, 2011, for filing with the SEC.

Effective 2005, in lieu of an annual grant of 10,000 stock options, each outside director received an annual retainer of \$10,000, payable quarterly, in addition to fees for each meeting attended. Outside directors receive \$1,000 for each regular board meeting attended and \$200 for each committee meeting attended. In 2006, the one-time grant of 30,000 stock options to new directors was reduced to 10,000 stock options. Since 2008, a non-officer chairperson receives an additional retainer of \$10,000 payable quarterly. Effective January 1, 2011, the annual retainer for outside directors has been increased to \$20,000, payable quarterly, in addition to fees for each meeting attended. Further, each outside director will receive 2,500 stock options upon each anniversary date of his or her election to the board.

In 2005, the Board of Directors adopted a Directors' Deferred Compensation Plan, pursuant to which a director may elect to defer any portion of the annual retainer and meeting fees. Deferred amounts, until paid pursuant to the plan, will earn interest quarterly at the same rate as the Company earns on its invested cash during the same period.

PROPOSAL NO. 2 RATIFICATION OF APPOINTMENT OF INDEPENDENT AUDITORS

The Audit Committee has appointed EFP Rotenberg LLP as independent auditors for the fiscal year ending December 31, 2012. EFP Rotenberg LLP, as successor by merger to Rotenberg & Co., LLP, effective October 1, 2009, acted as the independent auditors for the fiscal years ending December 31, 2004 through December 31, 2011. Representatives of EFP Rotenberg LLP are expected to be present at the Meeting. They will be available to respond to appropriate questions and will have an opportunity to make a statement if they so desire.

Although the appointment of independent auditors is not required to be submitted to a vote by shareholders, the Audit Committee believes as a matter of policy that it is appropriate that the shareholders ratify the Board's appointment. If the shareholders should not ratify the appointment of EFP Rotenberg LLP, the Audit Committee will consider other certified public accountants for appointment.

Audit Fees. During fiscal years 2011 and 2010, the aggregate fees billed to the Company by its independent auditors were \$77,600 and \$75,500, respectively, for the annual audit of the financial statements and review of the financial statements included in the Company's Quarterly Reports on Form 10-Q.

Audit Related Fees. During fiscal years 2011 and 2010, the aggregate fees billed to the Company by its independent auditors were \$5,400 and \$5,300, respectively, for the annual audit of the Veramark Technologies, Inc. 401K Plan and the preparation of its annual report on Form 5500, and an additional \$13,700 in 2010, for fees related to the acquisition of Source Loop, LLC.

Tax Fees. The aggregate fees billed to the Company by its independent auditors for professional services rendered to the Company during fiscal years 2011 and 2010, other than the audit services referred to above, were \$8,100 and \$8,000, respectively, all of which was for tax preparation and tax consulting fees.

The Audit Committee of the Board of Directors has considered whether provision of the non-audit related services described above is compatible with maintaining the independent accountants' independence and has determined that those services have not adversely affected EFP Rotenberg LLP's independence.

It is the Audit Committee's policy, as reflected in its Charter, to pre-approve all audit and non-audit services performed by the Company's independent auditors. Following a presentation by management to the Audit Committee describing the types of services to be performed in connection with, and the projected budget for, a particular engagement, the Audit Committee informs management whether it approves the engagement and the budget.

PROPOSAL NO. 3 OTHER MATTERS

As of the date of this proxy statement, the Board of Directors does not intend to present, and has not been informed that any other person intends to present, any matter for action at the Meeting other than those described above. If any other matters properly come before the Meeting, it is intended that the persons named in the enclosed proxy will vote the shares of Common Stock represented by signed proxies in accordance with their best judgment.
