Corporate Governance

Enstar is committed to sound governance, and we employ a number of practices that the Board believes are in the best interest of the Company and our shareholders. Highlights of these practices are listed below.

Maintain separate roles for the Chairman of the Board and the Chief Executive Officer

Five of seven directors are independent directors

Hold executive sessions of independent directors at each regular Board meeting

Hold annual shareholder advisory votes on executive officer compensation

Executive officer change in control payments are double trigger in nature

Promote a strong Code of Conduct that requires all employees and directors to adhere to high ethical standards

Conduct annual Board and Committee Self-Evaluations
An independent director serves as Chairman of the Board

Formed Nominating and Governance Committee in 2012

Majority voting standard in uncontested elections

Prohibit hedging transactions with respect to Enstar securities (applicable to directors and all employees)

Perform robust risk assessment of compensation programs

Maintain independent Audit, Compensation, and Nominating and Governance Committees

No tax gross-ups on change of control

Executive Compensation

Edgar Filing: Enstar Group LTD - Form DEF 14A

Philosophy: We are a rapidly growing company operating in an extremely competitive and changing industry. Our goal is to maintain an executive compensation program that will induce performance consistent with our corporate objectives.

Performance-Based Compensation: Our annual incentive plan is funded based on enterprise-wide net after-tax profits, which we believe reflects and promotes our primary corporate objective of increasing our net book value per share over the long term.

Executive incentive award payments are determined after the performance year by our Compensation Committee based on an evaluation of individual performance and contribution to operating results and advancement of our long-term strategic objectives.

Decisions are subjective and not based on mandated, pre-established pay-out formulas, which we believe provides necessary flexibility for compensation in line with our program objectives.

Alignment of Long-term Interests: Our executive officers are the three co-founders of the Company and the Chief Financial Officer, who has served in that role with us since 2003. Each member of the executive team has substantial equity holdings (and in aggregate our executive officers own approximately 19% of our ordinary shares outstanding). We believe that this meaningful level of ownership creates alignment with the long-term interests of our shareholders, and the Compensation Committee took this into account in setting compensation, including by choosing not to make new equity-based awards for the 2012 year (other than allowing for executives to choose whether to receive incentive awards in cash, ordinary shares, or a combination of both).

Key Decisions for 2012 Performance Year:

Incentive bonuses to each executive officer were kept at 2011 levels.

For the second year in a row, base salaries remained flat, with no increases awarded from 2011/2012 levels for 2013.

Summary Compensation Table: See page 30 for detailed information regarding our executive compensation over the last three years.

PROXY STATEMENT

FOR

2013 ANNUAL GENERAL MEETING OF SHAREHOLDERS

QUESTIONS AND ANSWERS

Why am I receiving these proxy materials?

We have made these proxy materials available to you on the internet or, in some cases, have delivered printed copies of these proxy materials to you by mail in connection with the solicitation of proxies by the Board of Directors (the Board) of Enstar Group Limited (the Company) for use at the 2013 Annual General Meeting of Shareholders of the Company to be held on Wednesday, May 8, 2013 at 8:30 a.m. local time at the Tucker's Point Hotel located at 60 Tucker's Point Drive, Hamilton Parish, Bermuda and at any postponement or adjournment thereof. These proxy materials will first be sent or given to shareholders on March 27, 2013. You are invited to attend the Annual General Meeting and are requested to vote on the proposals described in this proxy statement.

Why did I receive a one-page notice in the mail regarding the internet availability of proxy materials instead of a full set of proxy materials?

Pursuant to rules adopted by the Securities and Exchange Commission (the SEC), we have elected to provide access to our proxy materials via the internet. Accordingly, we are sending a Notice of Internet Availability of Proxy Materials (the Notice) to our shareholders. All shareholders will have the ability to access the proxy materials on the website referred to in the Notice or request to receive a printed set of the proxy materials. Instructions on how to access the proxy materials over the internet or to request a printed copy may be found in the Notice. In addition, shareholders may request proxy materials in printed form by mail or electronically by email on an ongoing basis.

We believe that providing access to our proxy material via the internet will expedite shareholders' receipt of materials, while lowering costs and reducing the environmental impact of our Annual General Meeting because we will print and mail fewer full sets of materials.

What is included in these proxy materials?

These proxy materials include this proxy statement, our Annual Report to Shareholders for the year ended December 31, 2012 and, if you received printed copies of the proxy materials by mail, the proxy card. We have included the Annual Report for informational purposes and not as a means of soliciting your proxy.

What matters are being voted on at the Annual General Meeting?

Shareholders will vote on the following proposals at the Annual General Meeting:

1. Election of three Class I Directors nominated by our Board to hold office until 2016.
2. Advisory approval of a resolution on our executive compensation.
3. Ratification of the appointment of KPMG Audit Limited (KPMG) as our independent registered public accounting firm for 2013 and authorization for the Board, acting through the Audit Committee, to approve the fees for the independent registered public accounting firm.
4. Acting on the election of directors for our subsidiaries.
5. Such other business as may properly come before the meeting and any postponement or adjournment thereof.

Table of Contents

What are the Board's voting recommendations?

The Board recommends that you vote your shares:

1. FOR the nominees to serve on our Board (Proposal No. 1).
2. FOR advisory approval of the resolution on our executive compensation (Proposal No. 2).
3. FOR the ratification of the appointment of KPMG as our independent registered public accounting firm for 2013 and the authorization of our Board, acting through the Audit Committee, to approve the fees for the independent registered public accounting firm (Proposal No. 3).
4. FOR each of the subsidiary director nominees (Proposal No. 4).

Where are the Company's principal executive offices located and what is the Company's main telephone number?

Our principal executive offices are located at Windsor Place, 3rd Floor, 22 Queen Street, Hamilton, HM JX, Bermuda. Our main telephone number is (441) 292-3645.

How can I get electronic access to the proxy materials?

The Notice will provide you with instructions regarding how to:

View on the internet our proxy materials for the Annual General Meeting; and

Instruct us to send future proxy materials to you by email.

Our proxy materials are also available on our website at <http://www.enstargroup.com/financial-information>.

Choosing to receive future proxy materials by email will save us the cost of printing and mailing documents to you. If you choose to receive future proxy materials by email, you will receive an email message next year with instructions containing a link to those materials and a link to the proxy voting website. Your election to receive proxy materials by email will remain in effect until you terminate it.

Who may vote at the Annual General Meeting?

Only holders of record of our voting ordinary shares as of the close of business on March 14, 2013 (the record date) are entitled to notice of and to vote at the Annual General Meeting. Holders of our non-voting convertible ordinary shares are welcome to attend, but not vote at, the Annual General Meeting. References in this proxy statement to ordinary shares do not refer to our non-voting convertible ordinary shares, which are not entitled to vote at the Annual General Meeting or any postponement or adjournment thereof. As of the record date, there were 13,898,733 ordinary shares issued and outstanding and entitled to vote at the meeting. Except as set forth in our bye-laws, each ordinary share entitles the holder thereof to one vote. In accordance with our bye-laws, certain shareholders whose shares constitute 9.5% or more of the voting power of our ordinary shares are entitled to less than one vote for each ordinary share held by them.

What is the difference between a shareholder of record and a beneficial owner of shares held in street name?

Shareholder of Record. If your shares are represented by certificates or book entries in your name so that you appear as a shareholder on the records of American Stock Transfer & Trust Company, our stock transfer agent, you are considered the shareholder of record with respect to

Edgar Filing: Enstar Group LTD - Form DEF 14A

those shares, and the Notice or, in some cases, the proxy materials, were sent directly to you. If you request printed copies of the proxy materials, you will receive a proxy card.

Beneficial Owner of Shares Held in Street Name. If your shares are held in an account at a brokerage firm, bank, broker-dealer or other similar institution, then you are the beneficial owner of shares held in street name and the Notice was forwarded to you by that institution. The institution holding your account is considered the shareholder of record for purposes of voting at the Annual General Meeting. As a beneficial owner, you have the right to instruct that institution on how to vote the shares held in your account.

Table of Contents

What do I do if I received more than one Notice or proxy card?

If you receive more than one Notice or proxy card because you have multiple accounts, you should provide voting instructions for all accounts referenced to be sure all of your shares are voted.

How do I vote?

We hope that you will be able to attend the Annual General Meeting in person. Whether or not you expect to attend the Annual General Meeting in person, we urge you to vote your shares at your earliest convenience by one of the methods described below, so that your shares will be represented.

Shareholders of record can vote any one of four ways:

1. *Via the Internet:* You may vote by proxy via the internet by following the instructions provided in the Notice.
2. *By Mail:* If you received printed copies of the proxy materials, you may vote by proxy by filling out the proxy card and sending it back in the envelope provided.
3. *By Telephone:* You may vote by proxy by calling the telephone number found on the internet voting site or on the proxy card, if you received a printed copy of the proxy materials. However, if you plan to vote for subsidiary directors on an individual basis under Proposal No. 4, you can do so only via internet or mail, or in person.
4. *In Person:* You, or a personal representative with an appropriate proxy, may vote by ballot at the Annual General Meeting. We will give you a ballot when you arrive. If you need directions to the Annual General Meeting, please call our offices at (441) 292-3645.

If you own shares in street name, you will receive instructions from the holder of record that you must follow in order for your shares to be voted. Internet and/or telephone voting also will be offered to shareholders owning shares through most banks and brokers. If you own shares in street name and you wish to attend the Annual General Meeting to vote in person, you must obtain a legal proxy from the institution that holds your shares and attend the Annual General Meeting, or send a personal representative with the legal proxy, to vote by ballot. You should contact your bank or brokerage account representative to learn how to obtain a legal proxy.

What is the voting deadline if voting by internet or telephone?

If you vote by internet or by telephone, you must transmit your vote by 11:59 p.m. Eastern Time on May 7, 2013.

How can I attend the Annual Meeting?

You may attend the Annual General Meeting if you were an Enstar shareholder of record as of the close of business on March 14, 2013 or you hold a valid proxy for the Annual General Meeting. You should be prepared to present photo identification for admittance. If you are a shareholder of record, your name will be verified against the list of shareholders of record on the record date prior to your being admitted to the Annual General Meeting. If you are not a shareholder of record but hold shares through a broker, trustee or nominee, you should provide proof of beneficial ownership on the record date, such as a recent account statement showing your ownership, a copy of the voting instruction card provided by your broker, trustee or nominee, or other similar evidence of ownership.

What is the quorum requirement for the Annual General Meeting?

Two or more shareholders present in person or by proxy and entitled to vote at least a majority of the shares entitled to vote at the meeting constitute a quorum for the transaction of business at the meeting. Abstentions and broker non-votes will be included in determining the presence of a quorum at the meeting. A broker non-vote occurs when a beneficial owner of shares held in street name does not provide voting

Edgar Filing: Enstar Group LTD - Form DEF 14A

instructions and, as a result, the institution that holds the shares is prohibited from voting those shares on certain proposals. Shares that are properly voted on the internet or by telephone or for which proxy cards are properly executed and returned, but lacking voting directions, will be counted towards the presence of a quorum.

Table of Contents

How are proxies voted?

Shares that are properly voted on the internet or by telephone or for which proxy cards are properly executed and returned will be voted at the Annual General Meeting in accordance with the directions given or, in the absence of directions, will be voted in accordance with the Board's recommendations as set forth in "What are the Board's voting recommendations?" above. If any other business is brought before the meeting, proxies will be voted, to the extent permitted by applicable law, in accordance with the judgment of the persons voting the proxies.

The manner in which your shares may be voted depends on how your shares are held. If you own shares of record, you may vote by proxy, meaning you authorize individuals named on the proxy to vote your shares. If you do not vote by proxy or in person at the Annual General Meeting, your shares will not be voted. If you own shares in street name, you may instruct the institution holding your shares on how to vote your shares. If you do not provide voting instructions, the institution may nevertheless vote your shares on your behalf with respect to the ratification of the appointment of KPMG as the Company's independent registered public accounting firm for 2013, but not on any other matters being considered at the meeting.

What are the voting requirements to approve each of the proposals?

The election of directors and the ratification of KPMG as our independent registered public accounting firm for 2013 each require the affirmative vote of a majority of the votes cast by the shareholders at the meeting. The vote on executive compensation, sometimes referred to as "say-on-pay," is advisory only, but our Board will consider carefully the results of the vote. A majority of votes cast for or against the say-on-pay proposal will determine whether you approve of our executive compensation practices. With respect to Proposal No. 4, regarding the election of directors of our subsidiaries, our Board will cause our corporate representative or proxy to vote the shares of those subsidiaries in the same proportion as the votes received at the meeting from our shareholders.

Abstentions and broker non-votes will have no effect on the outcome of voting on any proposals.

Can I change my vote after I have voted?

You may revoke your proxy and change your vote at any time before the final vote at the Annual General Meeting. You may vote again on a later date via the internet or by telephone (in which case only your latest internet or telephone proxy submitted prior to 11:59 p.m. Eastern time on May 7, 2013 will be counted), by filling out and returning a new proxy card bearing a later date, or by attending the Annual General Meeting and voting in person. However, your attendance at the Annual General Meeting will not automatically revoke your proxy unless you vote again at the Annual General Meeting or specifically request that your prior proxy be revoked by delivering to our Corporate Secretary a written notice of revocation prior to the Annual General Meeting.

Who is paying for the cost of this proxy solicitation?

We will bear the cost of preparing and soliciting proxies, including the reasonable charges and expenses of brokerage firms or other nominees for forwarding proxy materials to the beneficial owners of our ordinary shares. In addition to solicitation by mail, certain of our directors, officers and employees may solicit proxies personally or by telephone or other electronic means without extra compensation, other than reimbursement for actual expenses incurred in connection with the solicitation.

Table of Contents

Previous Arrangements

On January 31, 2007, in connection with the Merger, we also completed a recapitalization transaction. Pursuant to the terms of the agreement governing the recapitalization, each of Paul J. O'Shea (who is nominated for election at the Annual General Meeting), Dominic F. Silvester, and T. Whit Armstrong was named a director of the Company.

On April 20, 2011, we entered into an Investment Agreement (the "Investment Agreement") with certain affiliates of Goldman, Sachs & Co. ("Goldman Sachs") and, pursuant to its terms, Sumit Rajpal was named a director of the Company.

Independence of Directors

Our Board currently consists of seven directors, of which five are non-management directors. The Board determined that all of the non-management directors, Messrs. Akre, Armstrong, Campbell, LeStrange and Rajpal, are independent as defined by Nasdaq Marketplace Rule 5605(a)(2). The Board made this determination based primarily on a review of the responses of the directors to questions regarding employment and compensation history, family relationships and affiliations, and discussions with the directors. For details about certain relationships and transactions among us and our executive officers and directors, see "Certain Relationships and Related Transactions" beginning on page 17.

Board Leadership Structure

The Board has separated the positions of Chairman and CEO. Robert J. Campbell, an independent director, has served as Chairman since November 2011 (when our then Chairman and CEO, Dominic F. Silvester, recommended the separation of the positions). The Board believes that separating the roles of Chairman and CEO and having Mr. Campbell serve as Chairman is the most effective leadership structure for us at this time. Mr. Campbell has served on our Board for over five years and the Board believes he is well suited to assist with the execution of strategy and business plans, to play a prominent role in setting the Board's agenda, to act as the liaison between the Board and our senior management, and to preside at Board and shareholder meetings.

The Board believes that our corporate governance structure appropriately satisfies the need for objectivity, and includes several effective oversight means, including:

the roles of Chairman and CEO are separated;

the Chairman is an independent director;

the Board is comprised of a majority of independent directors;

before or after regularly scheduled Board meetings, the independent directors meet in executive session without Messrs. Silvester and O'Shea present to review, among other things, the performance of our executive officers; and

various committees of the Board comprised only of independent directors perform key oversight functions, such as overseeing the integrity and quality of our financial statements, overseeing risk assessment and management, establishing senior executive compensation, reviewing director candidates and making recommendations for director nominations, and overseeing our corporate governance structure and practices.

The Audit Committee, Compensation Committee and Nominating and Governance Committee are each comprised solely of independent directors. Three of the five members of the Investment Committee are independent directors and an independent director serves as its chairman.

The Board recognizes, however, that no single leadership model is right for all companies at all times and that, depending on the circumstances in the future, other leadership models might be appropriate for us.

Board Committees

Our Board currently maintains an Audit Committee, a Compensation Committee, a Nominating and Governance Committee and an Investment Committee. Each of our committees operates under a written charter that has been approved by our Board. The charters are reviewed annually by each respective committee, which recommends any proposed changes to our Board. Current copies of the charters for all of our committees are available on our website at <http://www.enstargroup.com/corporate-governance>. In addition, any shareholder may receive copies of these documents in print, without charge, by contacting Investor Relations at P.O. Box HM 2267, Windsor Place, 3rd Floor, 22 Queen Street, Hamilton, HM JX, Bermuda.

Audit Committee

The Audit Committee is comprised of Messrs. Akre, Armstrong, Campbell and LeStrange, with Mr. Campbell serving as Chairman. The Audit Committee met six times during the year ended December 31, 2012. This committee has responsibility for the oversight of our accounting and financial reporting process, including our internal controls over financial reporting, the quality and integrity of our financial statements, the qualifications and independence of our independent auditor, the performance of our internal audit function and independent auditor, any related party transactions, and our compliance with legal and regulatory requirements. The committee appoints, retains and approves the compensation for our independent auditors, pre-approves fees and services of the independent auditors and reviews the scope and results of their audit. The Audit Committee periodically reviews and discusses with management our Company's guidelines and policies with respect to the process by which we undertake risk assessment and risk management, including discussion of our financial risk exposures and the steps management has taken and is taking to monitor and control such exposures. Each member of the Audit Committee is a non-management director and is independent as defined in Nasdaq Marketplace Rule 5605(a)(2) and under the Securities Exchange Act of 1934, as amended (the Exchange Act). Our Board has determined that each of our Audit Committee members qualifies as an audit committee financial expert pursuant to the definition set forth in Item 407(d)(5)(ii) of Regulation S-K, as adopted by the SEC.

Compensation Committee

The Compensation Committee is comprised of Messrs. Akre, Armstrong, Campbell and LeStrange, with Mr. Akre serving as Chairman. The Compensation Committee met two times during the year ended December 31, 2012. The Compensation Committee has general responsibility for the compensation of our executive officers. The committee establishes our compensation philosophy and oversees the development and implementation of our compensation programs, including our incentive plans and equity plans, and oversees risks associated with the design and operation of our compensation programs, policies and practices. The committee also periodically reviews the compensation of our directors and makes recommendations to our Board with respect thereto. Each member of the Compensation Committee is a non-management director, is independent as defined in Nasdaq Marketplace Rule 5605(a)(2), and meets the enhanced independence standards applicable to compensation committee members in Nasdaq Marketplace Rule 5605(d)(2) and the Exchange Act. Additional information on the Compensation Committee and the role of management in setting compensation is provided below in Executive Compensation Compensation Discussion and Analysis beginning on page 20.

Nominating and Governance Committee

Our Board formed the Nominating and Governance Committee in November 2012, and the committee's first meeting was in February 2013. The Nominating and Governance Committee is comprised of Messrs. Akre, Armstrong, Campbell and LeStrange, with Mr. Akre serving as Chairman. The Nominating and Governance Committee has general responsibility for identifying individuals qualified to become directors, recommending to the Board individuals to serve as directors, and advising the Board with respect to corporate governance-related matters. Each member of the Nominating and Governance Committee is a non-management director and is independent as defined in Nasdaq Marketplace Rule 5605(a)(2). Prior to November 2012, we did not have a nominating committee, although we did have a formal nominations process in accordance with Nasdaq Marketplace Rule 5605(e)(1), whereby the independent directors, rather than a separate committee comprised of independent directors, recommended director candidates and otherwise performed all nominating-related functions.

Table of Contents

Investment Committee

The Investment Committee of our Company is comprised of Messrs. Akre, Campbell and Rajpal, as well as Richard J. Harris, our Chief Financial Officer, and David Rocke, one of our Executive Vice Presidents. Mr. Campbell serves as Chairman. The Investment Committee met four times during the year ended December 31, 2012. The committee has general responsibility for determining our investment strategy and reviewing and monitoring the investment activities, policies, guidelines and risk limits of the Company and our subsidiaries. The committee is also responsible for developing and reviewing our investment guidelines and overseeing compliance with these guidelines.

Board Oversight of Risk Management

Effective risk oversight is an important priority for the Board, which has placed strong emphasis on ensuring we have a robust risk management framework to identify, measure, manage, report and monitor risks that affect the achievement of strategic, operational and financial objectives of the Company and our subsidiaries. The Board has an active role, as a whole and also at the committee level, in overseeing management of risks facing our Company. The Board and its committees regularly review information regarding, among other things, our operations, loss reserves, acquisitions, credit, liquidity and investments and the risks associated with each. Management is responsible for the Company's risk management, including identifying, monitoring, prioritizing, and addressing risks, and management reports to the Board and its committees with respect thereto.

The Audit Committee, pursuant to its charter, regularly reviews and discusses with management our Company's guidelines and policies with respect to the process by which we undertake risk assessment and risk management, including discussion of our financial risk exposures and the steps management has taken and is taking to monitor and control such exposures. The Company's Head of Internal Audit reports directly to the Audit Committee, meets with the committee on a quarterly basis and maintains an open dialogue with the Audit Committee Chairman.

The Compensation Committee oversees compensation-related risks, as discussed in *Executive Compensation Compensation Discussion and Analysis Compensation Risk Assessment* on page 29. On an annual basis, the committee undertakes a risk assessment of our compensation programs to ensure they are properly aligned with Company performance and do not provide incentives for our employees to take inappropriate or excessive risks.

The newly formed Nominating and Governance Committee considers risk relating to management succession planning and other corporate governance matters.

The Company's Investment Committee is responsible for overseeing investment-related risk. The committee regularly evaluates and tests our portfolio and strategy under various stress scenarios and also oversees development of, and compliance with, our investment guidelines, which assist us in monitoring our investment-related risks. The Investment Committee is responsible for selecting, monitoring and evaluating our internal investment management department and external investment managers, as well as overseeing the Company's investment systems and technology resources and any associated risks.

Board and Committee Meetings; Annual Meeting Attendance

We expect our directors to attend all meetings of our Board, all meetings of all committees of the Board on which they serve and each annual general meeting of shareholders, absent exigent circumstances. Our Board met a total of five times during the year ended December 31, 2012. In 2012, during the time they were serving, all of the directors except Mr. Rajpal attended at least 75% of the meetings of the Board and the committees of the Board on which the director served. Mr. Rajpal participated in additional meetings by phone as an observer, which, when combined with meetings attended in person would have brought his total attendance over 75%, but due to our policy requiring in-person attendance for meetings (other than any telephonic meetings), these were not considered formally attended. All directors then serving attended the 2012 annual general meeting of shareholders except Messrs. Rajpal and O'Shea. In addition, in 2012, our independent directors met each quarter in executive sessions without management.

Table of Contents

Director Nominations, Qualifications and Recommendations

When identifying and reviewing director nominees, our Nominating and Governance Committee considers the nominees' personal and professional integrity, judgment, ability to represent the interests of the shareholders, and knowledge regarding insurance, reinsurance and investment matters, as well as other factors discussed below. For incumbent directors, the committee reviews each director's overall service to the Company during the director's term, including the director's level of participation and quality of performance. The Nominating and Governance Committee considered and nominated the candidates proposed for election as directors at the Annual General Meeting, with the Board unanimously agreeing on all nominees.

We seek to identify candidates who represent a mix of backgrounds and experiences that will improve the Board's ability, as a whole, to serve the needs of our Company and the interests of our shareholders. While we do not have a formal diversity policy for selection of directors, we consider diversity broadly to include differences of professional experience, individual attributes and skill sets, perspective, knowledge and expertise in substantive matters pertaining to our business and industry. Given the complex nature of our business and the insurance and reinsurance industry, we seek to include directors whose experiences, although varying and diverse, are also complementary to and demonstrate a familiarity with the substantive matters necessary to lead the Company and navigate the run-off business.

Shareholders may recommend candidates to serve as directors by submitting a written notice to the Nominating and Governance Committee at Enstar Group Limited, P.O. Box HM 2267, Windsor Place, 3rd Floor, 22 Queen Street, Hamilton, HM JX, Bermuda. Shareholder recommendations must be accompanied by sufficient information to assess the candidate's qualifications and contain the candidate's consent to serve as director if elected. Shareholder nominees will be evaluated by the Nominating and Governance Committee in the same manner as nominees selected by the committee.

Compensation Committee Interlocks and Insider Participation

No member of the Compensation Committee is or was during 2012 an employee, or is or ever has been an officer, of the Company. During the year ended December 31, 2012, no executive officer served as a member of the compensation committee or as a director of another entity having an executive officer serving on our Compensation Committee or as one of our directors.

Code of Conduct

We have adopted a Code of Conduct that applies to all of our directors and employees, including all senior executive and financial officers. A copy of our Code of Conduct is available on our website at <http://www.enstargroup.com/corporate-governance>. In addition, any shareholder may receive a copy of this document in print, without charge, by contacting Investor Relations at Enstar Group Limited, P.O. Box HM 2267, Windsor Place, 3rd Floor, 22 Queen Street, Hamilton HM JX, Bermuda. We intend to post any amendments to our Code of Conduct on our website. In addition, we intend to disclose any waiver of a provision of the Code of Conduct that applies to our senior executives and financial officers, by posting such information on our website or by filing a Form 8-K with the SEC within the prescribed time period.

Shareholder Communications with the Board

Shareholders and other interested parties may send communications to our Board by sending written notice to our Corporate Secretary at Enstar Group Limited, P.O. Box HM 2267, Windsor Place, 3rd Floor, 22 Queen Street, Hamilton, HM JX, Bermuda. The notice may specify whether the communication is directed to the entire Board, to the independent directors, or to a particular Board committee or individual director. Our Corporate Secretary will handle routine inquiries and requests for information. If our Corporate Secretary determines the communication is made for a valid purpose and is relevant to the Company and its business, our Corporate Secretary will forward the communication to the entire Board, to the independent directors, to the appropriate committee chairman or to the individual director as the notice was originally addressed. At each regular meeting of our Board, our Corporate Secretary will present a summary of all communications received since the last meeting that were not forwarded and will make those communications available to the directors on request.

Table of Contents**DIRECTOR COMPENSATION****Director Compensation Program in 2012**

Our director compensation program includes retainers payable quarterly for non-employee directors and each committee chairman, as well as meeting fees for all Board and committee meetings attended. Directors who are employees of the Company receive no fees for their services as directors. Mr. Rajpal has waived all fees for his services as a director.

For 2012, our director retainer and meeting fees were as follows:

Retainer Fees(1)	Annual Amounts Payable	Meeting Fees(1)	Amounts Payable for Attendance
Non-employee Directors	\$ 60,000	Board Meetings	\$ 3,500
Audit Committee Chairman	\$ 10,000	Telephonic Board Meetings	\$ 1,000
Compensation Committee Chairman	\$ 5,000	Audit Committee Meetings	\$ 1,500
Investment Committee Chairman	\$ 5,000	Compensation Committee Meetings	\$ 1,250
		Investment Committee Meetings	\$ 1,250

(1) With respect to the newly formed Nominating and Governance Committee, the Compensation Committee and Board determined that, at the present time, no retainer or meeting fees would be payable.

Program Changes for 2013

In 2013, our Compensation Committee undertook a review of the director compensation program, including a review of competitive conditions in the Bermuda market, and recommended two changes, which were adopted by the Board and are in effect for the 2013 year. We increased the annual retainer fee for non-employee directors from \$60,000 to \$70,000. The director retainer had not been changed since 2007. We also established an annual retainer fee for the Chairman of the Board of \$50,000. The two previous chairmen were executive officers who received no additional fees for their service as directors. Having separated the roles of Chairman and CEO, the Compensation Committee and Board believe it is appropriate to provide a retainer to Mr. Campbell, the current independent Chairman, in recognition of the considerable time and effort related to his role.

Deferred Compensation Plan

The Enstar Group Limited Deferred Compensation and Ordinary Share Plan for Non-Employee Directors (the "Deferred Compensation Plan") provides each non-employee director with the opportunity to elect (i) to defer receipt of all or a portion of his compensation until retirement or termination and (ii) to receive all or a portion of his compensation for services as a director in the form of our ordinary shares instead of cash. Non-employee directors electing to defer compensation have such compensation converted into share units payable as a lump sum distribution after the director's separation from service as defined under Section 409A of the Internal Revenue Code of 1986, as amended (the "Internal Revenue Code"). The lump sum share unit distribution will be made in the form of ordinary shares, with fractional shares paid in cash. Non-employee directors electing to receive compensation in the form of ordinary shares would receive whole ordinary shares (with any fractional shares payable in cash) as of the date compensation would otherwise have been payable.

Table of Contents**Director Compensation Table**

The following table summarizes the compensation of our non-employee directors who served in 2012. All fees were earned in cash and deferred by the directors under our Deferred Compensation Plan; no stock awards, option awards, or other compensation were paid.

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

Related-Party Transaction Procedures

From time to time, we have participated in transactions in which one or more of our directors, executive officers or large shareholders has an interest. These transactions are described below. All related party transactions require the approval of our Audit Committee (a committee comprised entirely of independent directors), which reviews the transaction for fairness, business purpose, and reasonableness. Each transaction involving the Company and an affiliate entered into during 2012 was approved by our Audit Committee.

In addition, our Board has adopted a Code of Conduct, which states that our directors, officers and employees must avoid engaging in any activity that might create a conflict of interest or a perception of a conflict of interest. These individuals are required to raise for consideration any proposed or actual transaction that they believe may create a conflict of interest. Our Board requires that any conflict of interest transactions be approved by the Audit Committee. In any situation where an Audit Committee member could be perceived as having a potential conflict of interest, that member would be expected to recuse himself from the matter, and the non-interested members of the committee would review the transaction.

On an annual basis, each director and executive officer completes a Directors and Officers Questionnaire that requires disclosure of any transactions with the Company in which he, or any member of his immediate family, has a direct or indirect material interest. A summary of responses from the questionnaires is reported to the Audit Committee.

Investments and Transactions Involving Affiliates of Certain Shareholders

Investments in Trident Affiliates

Following several private transactions occurring from May 2012 to July 2012, Trident V, L.P. and certain of its affiliates (Trident) acquired approximately 9.7% of our ordinary shares. Prior to Trident's acquisition of our ordinary shares, we invested in two funds in which Trident affiliates have ownership interests. As of December 31, 2012, the fair values of our investments in Sky Harbor Capital Management and Prima Mortgage Investment Trust were approximately \$42.7 million and \$16.2 million, respectively. Additional allocations to these investments have been approved by our Audit and Investment Committees and are expected to be made in 2013.

From time to time, certain of our directors and executive officers have made significant personal commitments and investments in entities that are affiliates of or otherwise related to Trident.

Investment in Goldman Sachs Affiliates

In February 2013, our Audit and Investment Committees both approved an investment of up to \$15.0 million in Vintage Fund VI, L.P., a fund affiliated with Goldman Sachs, and we expect this investment to be funded during 2013. Affiliates of Goldman Sachs own approximately 4.8% of our ordinary shares, and Mr. Rajpal has been appointed to our Board in connection with their investment in the Company.

Investments in the Flowers Funds and Entities Affiliated with J. Christopher Flowers

J. Christopher Flowers ceased to be one of our largest shareholders in May 2012, and is no longer a related party of the Company. He had been a member of our Board until May 2011. We and certain of our subsidiaries have entered into transactions with companies and partnerships affiliated with Mr. Flowers, including J.C. Flowers II L.P. (Fund II) and J.C. Flowers III L.P. (Fund III). Fund II and Fund III are private investment funds advised by J.C. Flowers & Co. LLC (JCF & Co.). Mr. Flowers is the founder, Chairman and Chief Executive Officer of JCF & Co. As of December 31, 2012, excluding our investment in Varadero International Ltd. (Varadero) discussed below, we had investments in entities affiliated with Mr. Flowers with a total value of \$112.5 million. No fees or other compensation are payable by us to Mr. Flowers, or his affiliates, in connection with any of the investments described below.

Table of Contents

We have committed to invest up to \$100.0 million in Fund II. As of December 31, 2012, our remaining outstanding commitment to Fund II was approximately \$2.2 million. We received management fees in the amount of \$0.5 million for advisory services provided to Fund II for the year ended December 31, 2012. We have also committed to invest up to \$100.0 million in Fund III. As of December 31, 2012, our remaining outstanding commitment to Fund III was approximately \$55.6 million.

As of December 31, 2012, we had invested \$53.9 million in Varadero, a hedge fund. The investment manager of Varadero is Varadero Capital, L.P., of which Varadero GP, LLC is the general partner. Both the investment manager and general partner were partially owned by an entity affiliated with Mr. Flowers until December 31, 2012, when the entity sold its interests to Varadero. As a result of this sale, Varadero is no longer affiliated with Mr. Flowers.

In years preceding 2012, we made various investments in certain entities affiliated with JCF & Co., and we continue to hold these investments. Certain of our directors and executive officers have previously made significant personal commitments and investments in entities that are affiliates of or otherwise related to Mr. Flowers and in which we also have commitments or investments.

Transactions / Noncontrolling Interests

As of December 31, 2012, we included \$187.4 million as part of noncontrolling interest on our balance sheet relating to five companies acquired in 2008 in which Fund II co-invested.

Through our wholly-owned U.K.-based subsidiary, Shelbourne Group Limited (Shelbourne), we invest in reinsurance to close transactions (RITC transactions) with Lloyd s of London insurance and reinsurance syndicates in run-off. Shelbourne was originally formed in December 2007 in conjunction with a newly-hired executive management team and JCF FPK I L.P. (a joint investment program between Fox-Pitt, Kelton, Cochran, Caronia & Waller (USA) LLC and Fund II). Shelbourne owns 100% of Shelbourne Syndicate Services Limited, the Managing Agency for Lloyd s Syndicate 2008 (S2008), a syndicate approved by Lloyd s of London to undertake RITC transactions with Lloyd s syndicates in run-off.

On January 1, 2012, S2008 transferred the assets and liabilities relating to its 2009 and prior underwriting years of account into its 2010 underwriting year of account by means of an RITC transaction. Following the transfer, the existing noncontrolling interest held by JCF FPK I L.P. and Fund II ceased, resulting in the Company now providing 100% of the underwriting capacity for S2008. We paid JCF FPK I L.P. and Fund II an aggregate of \$25.7 million total in settlement of their accumulated noncontrolling interest balances.

Other Agreements with Directors and Executive Officers

On January 31, 2007, in connection with the Merger, we entered into a registration rights agreement with certain of our shareholders identified as signatories thereto. The agreement provides that either of Mr. Silvester and Mr. Flowers may make two requests that we effect the registration under the Securities Act of all or any part of his registrable securities, however, in May 2012, Mr. Flowers assigned all of his registration rights under the agreement to Trident. We also entered into a registration rights agreement with affiliates of Goldman Sachs in connection with our private placement in 2011, which provides that Goldman Sachs may make two requests that we effect the registration under the Securities Act of the ordinary shares and non-voting ordinary shares issued to them in the private placement. Mr. Silvester, Trident and Goldman Sachs all have piggyback registration rights under the respective registration rights agreements, which may result in their participation in an offering initiated by us.

In October 2010, we entered into share repurchase agreements (the Repurchase Agreements) with three of our executives and certain trusts and a corporation affiliated with the executives to repurchase an aggregate of 800,000 of our ordinary shares at a price of \$70.00 per share. We repurchased an aggregate of 600,000 ordinary shares from Mr. Silvester and a trust of which he and his immediate family are the sole beneficiaries, 100,000 ordinary shares from a trust of which Mr. O Shea and his immediate family are the sole beneficiaries and

100,000 ordinary shares from a corporation owned by a trust of which Mr. Packer and his immediate family are the sole beneficiaries. The aggregate purchase price of \$56.0 million was payable by us through promissory notes to the selling shareholders. The annual interest rate for the notes was fixed at 3.5%, and the notes were repayable in three equal installments on December 31, 2010, December 1, 2011 and December 1, 2012. The largest amount of principal of the notes outstanding during 2012 was \$18.7 million. On December 1, 2012, we fully repaid the outstanding amount of \$19.2 million under the promissory notes, inclusive of accrued interest, and accordingly, the notes are no longer outstanding.

Indemnification of Directors and Officers; Directors Indemnity Agreements

We have Indemnification Agreements with each of Messrs. Akre, Armstrong, Campbell, LeStrange, O Shea, Packer, Rajpal and Silvester. Each Indemnification Agreement provides, among other things, that we will, to the extent permitted by applicable law, indemnify and hold harmless each indemnitee if, by reason of such indemnitee's status as a director or officer of the Company, such indemnitee was, is or is threatened to be made a party or participant in any threatened, pending or completed proceeding, whether of a civil, criminal, administrative, regulatory or investigative nature, against all judgments, fines, penalties, excise taxes, interest and amounts paid in settlement and incurred by such indemnitee in connection with such proceeding. In addition, each of the Indemnification Agreements provides for the advancement of expenses incurred by the indemnitee in connection with any proceeding covered by the agreement, subject to certain exceptions. None of the Indemnification Agreements precludes any other rights to indemnification or advancement of expenses to which the indemnitee may be entitled, including but not limited to, any rights arising under the Company's governing documents, or any other agreement, any vote of the shareholders of the Company or any applicable law.

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

Executive Summary

In 2012, we delivered consistent results, both in terms of financial performance and execution of our strategy. We increased net book value per share, which we have identified as our primary corporate objective, by \$10.33 per fully diluted share to \$93.30 – an increase of 12.5% from 2011. The increase was driven primarily by our net earnings, which increased 9.3% from \$153.7 million to \$168.0 million in 2012, although our fully diluted earnings per share decreased moderately from \$10.81 to \$10.10 for the year.

During 2012, we acquired four portfolios of insurance and reinsurance business in run-off with total assets and liabilities of approximately \$422.7 million. Moreover, we signed definitive acquisition agreements with respect to SeaBright Holdings, Inc. and the U.S. and Canadian closed-life insurance operations of an affiliate of HSBC Holdings plc (the “HSBC Insurance Companies”). We also signed definitive agreements to assume portfolios of insurance business from Reciprocal of America and American Physicians Assurance Corporation, and we expect both transactions to close in the second quarter of 2013.

The SeaBright transaction, which we completed in February 2013, marked our first acquisition of a U.S. publicly traded company and our first acquisition of a company not in run-off at the time of the deal. The HSBC transaction, with respect to which we have received all required regulatory approvals and which we expect to close by the end of the first quarter of 2013, will materially expand our portfolio of life run-offs. We anticipate the completion of the SeaBright, HSBC, Reciprocal and American Physicians transactions to increase our total assets and liabilities by approximately \$2.6 billion and \$2.1 billion, respectively.

After considering these achievements, as well as Company and individual performance, the Compensation Committee (the “Committee”) made the following key compensation decisions with respect to the 2012 performance year for Dominic Silvester, Paul O’Shea, Nicholas Packer, and Richard Harris (our executive officers):

Incentive bonuses to each executive officer were kept at 2011 levels, despite increases to net book value per share and earnings, in order to align 2012 incentive compensation with the Committee’s view that our performance was relatively consistent with 2011, and in consideration of the higher number of employees participating in the incentive program for 2012.

For the second year in a row, base salaries remained flat, with no increases awarded from 2011/2012 levels for 2013, in recognition of what the Committee believed was steady performance, as well as our continued focus on managing expenses.

Objectives of our Executive Compensation Program

Our Committee is responsible for establishing the philosophy and objectives of our compensation programs, designing and administering the various elements of our compensation programs and assessing the performance of our executive officers and the effectiveness of our compensation programs in achieving their objectives. The Committee is comprised of four independent directors.

We are a rapidly growing company operating in an extremely competitive and changing industry. We believe that the skill, talent, judgment and dedication of our executive officers are critical factors affecting the long-term value of our company. Therefore, our goal is to maintain an executive compensation program that will:

induce performance consistent with clearly defined corporate objectives,

align our executives’ long-term interests with those of our shareholders,

fairly compensate our executives, and

retain and attract qualified executives who are able to contribute to our long-term success.

Table of Contents

We have specifically identified growth in our net book value per share as our primary corporate objective over the long term. We believe growth in our net book value is driven primarily by growth in our net earnings, which is in turn driven in large part by successfully completing new acquisitions and effectively managing companies and portfolios of business that we previously acquired. We also believe that the existing significant level of equity holdings of our executive officers creates alignment with our long-term interests, which the Committee takes into account in deciding what types of compensation to award, and which recently has resulted in a limited number of equity-based awards.

We have not identified specific metrics or financial targets against which we measure the performance of our executive officers because we believe the structure of our 2011-2015 Annual Incentive Compensation Program (the Annual Incentive Plan), as described below, induces performance consistent with our corporate objectives, aligns our executives' long-term interests with those of our shareholders, and allows for flexibility to respond to performance in a manner not solely based on financial measures when circumstances warrant.

Results of Shareholder Vote on Compensation

At our 2012 annual general meeting, our shareholders approved the compensation of our executive officers with 79.9% of the total votes cast in favor of our executive compensation. The Committee reviewed and discussed the voting results, as well as reports from certain proxy advisory firms. While the Committee recognized that the voting results had decreased slightly from 2011 results, the Committee considered the continued positive shareholder reaction as a factor in deciding to maintain the current compensation program. The Committee continues to believe that the current program remains the best structure to address the Company's unique needs at the present time, although it will continually review all aspects of the program.

We will continue to hold future shareholder votes on executive compensation on an annual basis, and the Committee will consider the outcome of our shareholder executive compensation votes each year.

Role of Executive Officers

The Committee makes compensation determinations for all of the executive officers. As part of the determination process, Mr. Silvester, our CEO, assesses our overall performance and the individual contribution of each member of the executive leadership team. On an annual basis, he reviews the prior year's compensation and presents recommendations to the Committee for salary and bonus awards for each executive officer. The Committee discusses these recommendations with Mr. Silvester and then meets in executive session to evaluate the recommendations, review the performance of all of the executive officers, discuss CEO compensation, and make final compensation decisions.

Our CEO and CFO also support the Committee in its work by providing information relating to our financial results and plans, performance assessments of our executive officers, and other personnel-related data. Mr. Harris, our CFO, regularly attends portions of the meetings of our Committee in connection with performing these functions.

Table of Contents**Principal Elements of Executive Compensation**

Our executive compensation program currently consists of three principal elements: base salaries, annual incentive compensation and long-term incentive compensation. Compensation Allocations among Elements / At-Risk Compensation

There is no pre-established policy or target for the allocation of the components of our program. Rather, the structure of our Annual Incentive Plan tends to dictate what percentage of our executives' annual compensation is derived from their bonuses as opposed to their base salaries and the value of their other benefits. The Committee considers all compensation components in total when evaluating and making decisions with respect to each individual component.

Table of Contents

Although it does not mandate a specific allocation among the components of pay, the Committee does believe that a meaningful portion of each executive's total compensation should be performance based / at risk, and our compensation program has traditionally reflected this principle. For the 2012 performance year, performance based / at-risk compensation constituted 54% of the CEO's total compensation excluding other benefits and perquisites and 63% of all other executive officers' total compensation excluding other benefits and perquisites.

Competitive Pay / Role of Compensation Consultants

The Committee has the authority under its charter to retain compensation consultants and outside legal counsel or other advisors, and before selecting a consultant or advisor, must consider its independence. The Committee did not engage any advisors in 2012, and has not used a compensation consultant since 2010, when it engaged Towers Watson to review our overall compensation arrangements for our executive officers and certain non-executive senior managers compared to the then most recently available compensation data for other publicly-traded Bermuda companies in the insurance and reinsurance industry. The Committee had also engaged PricewaterhouseCoopers LLP earlier in 2010 for advice regarding competitive pay. Both consultants included a peer group in their reports, which was used at the time for informational and overall comparison purposes.¹ There was no target percentile or precise position in which we aimed to fall other than to generally be competitive with the compensation we offered our executives. The Committee's decision not to engage a compensation consultant in 2012 was due primarily to the Committee's view that economic and competitive pay conditions in our industry had not materially changed since the 2010 analysis, that the fundamental take-aways from that analysis remained relevant, and that the Committee itself could effectively establish compensation consistent with our program objectives without expending additional Company resources on consulting fees.

The Committee did not rely on market studies or other data in establishing 2012 compensation. However, in making compensatory decisions with respect to the 2012 performance year, including assessing whether we were meeting our goal of providing competitive compensation, the analysis provided by Towers Watson at the end of 2010 was relevant insofar as it was a factor with respect to 2011 base salaries, which the Committee did not increase for either 2012 or 2013, and provided the Committee with a general view of total compensation in the marketplace, which helped it conclude that our pay program was competitive. With this general view as a backdrop, and with the Committee having decreased incentive bonuses in 2011 versus 2010 and maintained bonuses in 2012 at the same levels as 2011, the Committee believed that its 2012 decisions supported our goal of providing competitive compensation.

Base Salaries

The salaries of our CEO and our other executive officers are generally established based on the scope of the executives' responsibilities, taking into account what the Committee believes to be competitive market compensation for similar positions based on the results of analyses performed by its compensation consultants (if any) and publicly available, as well as anecdotal, information available to the Committee. Our goal is to provide base salary levels that are consistent with levels necessary to achieve our compensation objectives of fairly compensating our executives and retaining and attracting qualified executives who are able to contribute to our long-term success. Given the competitive market for highly qualified employees in our industry and our geographic location, we believe that below-market compensation could, in the long run, jeopardize our ability to retain our executive officers.

¹ The companies included in the peer group considered by Towers Watson included Allied World Assurance Company Holdings Limited, Argo Group International Holdings Ltd., Aspen Insurance Holdings Ltd., Assured Guaranty Ltd., AXIS Capital Holdings Ltd., CRM Holdings, Ltd., EMC Insurance Group Inc., Endurance Specialty Holdings Ltd., Hilltop Holdings Inc., Maiden Holdings, Ltd., Max Capital Group Ltd. (now Alterra Capital Holdings Limited), Mercer Insurance Group, Inc., Montpelier Re Holdings Ltd., NYMAGIC, Inc., Platinum Underwriters Holdings Ltd., RenaissanceRe Holdings Ltd. and RLI Corp. (collectively, the TW Peer Group). Towers Watson also updated peer compensation data provided in February 2010 by PricewaterhouseCoopers LLP (the PWC Peer Group) by providing more current compensation information for those companies. The PWC Peer Group included many of the companies in the TW Peer Group, as well as Arch Capital Group Ltd., Everest Re Group Ltd., PartnerRe Limited and White Mountains Insurance Group Ltd.

Table of Contents

Any base salary adjustments are generally based on competitive conditions, market increases in salaries, individual performance, our overall financial results and performance, estimates of the cost of living and changes in job duties and responsibilities. Once increased, the executive officer's annual salary cannot be decreased without his written consent. Pursuant to the employment agreements we have with our CEO and our other executive officers, base salaries are also subject to cost-of-living adjustments, which provide that an increase in an executive officer's base salary with respect to each subsequent year may not be less than the product of the executive officer's base salary multiplied by the annual percentage increase in the retail price index for the United States, as reported in the most recent report of the U.S. Department of Labor for the preceding year. Our executives waived any cost-of-living increases to base salaries for 2012.

Two years ago, the Committee increased 2011 base salaries to reflect what it believed were appropriate cost-of-living adjustments. In 2012, the Committee maintained salaries at their 2011 levels, both because the Committee believed that previous increases had already brought base salaries more appropriately in line with competitive practice and in furtherance of the enterprise-wide focus on managing expenses. For 2013, the Committee once again maintained salaries at their 2012 (and 2011) levels, primarily in recognition of what the Committee believed was relatively consistent performance with 2011, as well as the continued focus on managing expenses.

A summary of the recent annualized base salary levels for our executives is set forth below.

Name	2010 Base Salary Level plus Housing Allowance(1)	% Change(1)	2011 Base Salary Level	% Change	2012 Base Salary Level	% Change	2013 Base Salary Level
Dominic F. Silvester	\$ 1,968,667	6.7%	\$ 2,102,000		\$ 2,102,000		\$ 2,102,000
Richard J. Harris	\$ 1,102,000	4.5%	\$ 1,152,000		\$ 1,152,000		\$ 1,152,000
Paul J. O Shea	\$ 1,102,000	4.5%	\$ 1,152,000		\$ 1,152,000		\$ 1,152,000
Nicholas A. Packer	\$ 1,102,000	4.5%	\$ 1,152,000		\$ 1,152,000		\$ 1,152,000

- (1) Amount shown is the annualized base salary in effect from April 1, 2010 plus \$102,000 for each executive with respect to housing allowances then payable under the executive employment agreements. The 2010 base salary level did not include the housing allowances, which were provided to each executive as a separate benefit until January 1, 2011 when the separate benefit was eliminated and an equivalent amount was added to base salaries.

Annual Incentive Compensation*Operation of Annual Incentive Plan*

We provide performance-based incentive compensation through our Annual Incentive Plan, which sets aside 15% of our consolidated net after-tax profits (before bonus expense) to be allocated among our executive officers and participating employees. The Annual Incentive Plan is designed to reward performance that is consistent with our primary corporate objective of increasing our net book value per share over the long term through growth in our net earnings. The percentage of net after-tax profits comprising the bonus pool will be 15% unless the Committee exercises its discretion to decrease or increase the percentage no later than 30 days after the last day of the year.

The allocation of the Annual Incentive Plan pool among our executive officers and the other participants in the plan is the responsibility of the Committee and is based on individual performance and contribution to Company results, as determined by the Committee with significant input from our CEO.

After each year, our CEO assesses our enterprise results and achievements and the contribution of each member of our executive team and makes a recommendation to the Committee as to the allocation of bonuses out of the bonus pool. While the bonus pool is quantified as 15% of our net after-tax profits, there are no quantitative performance objectives for the recommendation as to individual allocations, nor are specific goals or targets for the executive team established in advance. With no pre-set formulas dictating threshold payouts, the Committee

Table of Contents

has the flexibility to consider both quantitative and qualitative factors of performance, and set pay appropriately in line with its view of outcomes, strategic objectives, and alignment with shareholder interests, which the Committee believes is appropriate given our unique business as an acquirer and manager of companies in run-off.

The factors considered in evaluating individual performance are the executive's contribution to our operating results, including the performance of the areas over which each executive has primary responsibility, and the executive's work towards achieving our long-term strategic goals. The allocations are discretionary and driven by the opinion of both the CEO and the Committee as to how each executive officer and the Company performed when looking back on the year.

The CEO and Committee have historically agreed that Mr. Silvester be paid a higher bonus in recognition of his efforts as CEO and that equal bonuses be paid to each other executive officer under the Annual Incentive Plan based on the CEO's assessment that all contributed equally, and as a reward and incentive for continued cohesiveness and teamwork. The Committee, however, has the ability to change this practice at any time in its discretion.

2012 Incentive Compensation

For the 2012 performance year, the Committee assessed enterprise results together with each individual's contribution during the year in making bonus decisions under the Annual Incentive Plan. On a Company-wide basis, the key factors evaluated were as follows:

We increased net book value per share, which we have identified as our primary corporate objective, by \$10.33 per fully diluted share to \$93.30 – an increase of 12.5% from 2011.

Net earnings attributable to Enstar increased 9.3% from \$153.7 million to \$168.0 million in 2012.

Although our total net earnings increased 9.3%, fully diluted earnings per share decreased moderately from \$10.81 to \$10.10 for the year.

We acquired four portfolios of insurance and reinsurance business in run-off, resulting in total assets and liabilities acquired of approximately \$422.7 million.

Definitive agreements for two key acquisitions, SeaBright and the HSBC Insurance Companies, were negotiated and signed in 2012, along with agreements for the acquisition of two additional portfolios of insurance and reinsurance business.

We made significant progress towards several long-term strategic goals, including continuing our U.S. growth and integrating certain of our seasoned senior managers into our U.S. locations and operations in order to instill the Enstar approach to managing run-offs. On an individual basis, several of the factors considered in assessing our executives' performance are described below.

For Mr. Silvester, who as CEO, has oversight responsibility for all areas of our business, the Committee considered his leadership in achieving each of the enterprise-wide results described above, as well as steps taken in furtherance of our growth strategy, and the solid performance of each of the executives reporting to him, as well as the continued cohesiveness demonstrated by the executive leadership team. Of particular note were the acquisitions negotiated and signed in 2012, with our acquisition of SeaBright in February 2013 marking our first acquisition of a U.S. publicly traded company and our first acquisition of a company not in run-off at the time of the transaction. Our acquisition of the HSBC Insurance Companies, pending completion, will be a material expansion of our closed-life insurance business and a key new segment of our business, which is expected to serve as an enhancement to our core focus of non-life property and casualty run-off business.

Mr. O'Shea, our Joint Chief Operating Officer and Executive Vice President, has responsibility for our acquisitions function. The Committee considered Mr. O'Shea's efforts in our acquisition of four portfolios of

Table of Contents

insurance and reinsurance businesses during the year, including a 100% quota share reinsurance agreement through our Lloyd's syndicate in which our syndicate assumed total gross insurance reserves of approximately \$313.3 million. Mr. O'Shea was also instrumental in all aspects of the negotiation and completion of the SeaBright acquisition, as well as the negotiation of the HSBC, Reciprocal of America and American Physicians transactions. In addition, Mr. O'Shea coordinates the ongoing due diligence of all of our potential acquisitions and new projects, which the Committee believes is key to executing our strategy for continued growth.

Mr. Packer, also a Joint Chief Operating Officer and Executive Vice President, has global responsibility for our insurance and reinsurance company operations, including oversight of claims management, acquisition integration, and oversight of commutation and policy buy-back activities. The Committee considered Mr. Packer's significant efforts with respect to our existing U.S. operations, overseeing the planning and operations for the integration of both the SeaBright and HSBC transactions, as well as his efforts in the completion of 101 commutations, including three related to our top ten insured and/or reinsured exposures, and one related to our top ten ceded reinsurance assets.

Mr. Harris, our CFO, has responsibility for our finance, actuarial, information technology and investment functions. For 2012, the Committee considered his work regarding capital planning and positioning of our resources to meet our future needs, our strong investment portfolio results, his leadership in overseeing our change in independent auditors, and his efforts in shareholder and investor relations matters.

After considering all of these factors, the Committee decided to maintain bonuses paid to executive officers under the Annual Incentive Plan at their 2011 levels, despite the overall bonus pool available for executive and employee bonuses being larger (\$29.6 million in 2012, compared to \$26.7 million in 2011). The decision was based primarily on the Committee's view that performance and achievements in 2012 were relatively consistent with 2011, reflecting steady performance overall. In addition, the decisions took into consideration that there were more employee participants eligible for incentive bonuses in 2012 than in 2011. Executive officer bonuses under the Annual Incentive Plan for the 2012 performance year are listed in the table below, along with 2011 and 2010 bonus amounts.

Name	2010 Bonus	% Change	2011 Bonus	% Change	2012 Bonus
Dominic F. Silvester	\$ 2,750,000	-10.9%	\$ 2,450,000		\$ 2,450,000
Richard J. Harris	\$ 2,250,000	-11.1%	\$ 2,000,000		\$ 2,000,000
Paul J. O'Shea	\$ 2,250,000	-11.1%	\$ 2,000,000		\$ 2,000,000
Nicholas A. Packer	\$ 2,250,000	-11.1%	\$ 2,000,000		\$ 2,000,000

After reviewing our performance and the individual performances described above, the Committee agreed with the CEO's recommendation that each other current executive officer receive an equal share of the bonus pool as each contributed equally to our performance and each was instrumental in the results achieved. The Committee also believed that awarding equal bonuses would promote accord and a willingness to strive for favorable results in the area over which each executive has primary responsibility.

As discussed under Long-Term Incentive Compensation, the Committee decided, as it had in the past, to permit our executive officers to choose whether to receive their 2012 bonuses under the Annual Incentive Plan in cash, ordinary shares, or a combination of both. For the year ended December 31, 2012, each recipient elected to receive his bonus in cash.

Alignment of Pay and Performance

We believe the structure of our Annual Incentive Plan and the decisions of our Committee with respect to bonus awards are strongly aligned with our primary corporate objective of increasing net book value per share, which is our key performance indicator, and net earnings attributable to Enstar. The plan also allows the Committee the flexibility to award bonuses based on its view of performance, including qualitative factors that

Table of Contents

may not always be reflected in the operating results, or that benefit our long-term objectives but may not be fully apparent when looking at a one-year period.

Long-Term Incentive Compensation

We have established the 2006 Equity Incentive Plan (the "Equity Incentive Plan") to provide our employees long-term incentive compensation in the form of share ownership, which we believe furthers our objective of aligning the interests of management and the other participants in the plan with the interests of our shareholders. The Equity Incentive Plan is administered by the Committee. The Committee currently expects that the majority of shares available for issuance under the Equity Incentive Plan will be used for the purpose of granting bonus shares, which may be issued in lieu of all or a portion of the cash bonus payments under the Annual Incentive Plan.

The Committee's decision to permit our executive officers to choose whether to receive their 2012 bonuses under the Annual Incentive Plan in cash, ordinary shares, or a combination of both reflected the fact that the executives hold meaningful shareholding positions, which the Committee presently believes are sufficient to drive long-term performance and alignment with shareholder interests.

In addition to funding bonuses under the Annual Incentive Plan with ordinary shares, the Equity Incentive Plan provides the Committee with the flexibility to make other awards at various times and in varying amounts in its discretion and where particular circumstances warrant. The Committee did not grant any such awards to executive officers for 2012; however, the Committee recognizes that awarding long-term equity-based compensation may be desirable and appropriate in the coming years, and may take such action in the future. In considering long-term equity-based compensatory awards, the Committee takes into account shareholder dilution issues and related concerns.

Other Benefits and Perquisites

We provide certain additional benefits in furtherance of our objective of retaining and attracting key talent to our Bermuda headquarters. Our executive officers participate in the same group insurance and employee benefit plans, including medical and dental insurance, long-term disability insurance and life insurance, on the same basis as our other Bermuda salaried employees. We pay the employee's share of Bermudian government payroll and social insurance taxes for all of our Bermuda employees, including our executive officers, which we believe is common practice at other Bermuda-based public companies. For Mr. Silvester, we provide reimbursement for the cost of one family trip to/from Bermuda, as well as the personal use of certain Enstar employees for financial, accounting and administrative matters. Our executive officers also receive payment in lieu of a retirement benefit contribution, as described below under "Retirement Benefits."

Executive Employment Agreements

Compensation of our executive officers is governed in part by the employment agreements we have in place with each of Messrs. Silvester, O'Shea, Packer, and Harris. The employment agreements originated with our 2007 merger with The Enstar Group, Inc. The agreements were a key part of the transaction, in recognition of the significance of securing the executive team for a number of years, which was deemed fundamental to our future success following the merger. The agreements were also designed to continue to motivate the executives by providing competitive compensation, while promoting a sense of security for the team as we entered into our next stage.

As the initial five-year term of the 2007 employment agreements came to an end in the early part of 2012, the Committee re-assessed the agreements, and decided to ask each executive to agree to an extension for an additional five-year term. In reviewing the original objectives of the contracts, the Committee determined that the management team, which consists of our three co-founders and the Chief Financial Officer (who has served in that role with us since 2003), remains essential to our success, as demonstrated by the substantial growth and success of the Company since 2007. The Committee believed that securing the executive leadership team for an additional five-year term, and re-establishing protective covenants for us regarding non-competition, non-solicitation, and con-

Table of Contents

Confidentiality, were of key importance to us. In addition, it was the Committee's judgment that renewing the agreements would continue to motivate the executives and promote their sustained level of high performance, and further was in line with the overall objectives of our executive compensation programs. See *Executive Compensation Tables* *Employment Agreements with Executive Officers* below for a summary of these employment agreements.

Post-Termination Payments

Our employment agreements with Messrs. Silvester, O'Shea, Packer and Harris each provide for certain benefits in the event of a change in control followed by termination of the executive's employment for specified reasons (referred to as a "double trigger"), including a cash payment, accelerated vesting of equity awards, family medical benefits, and, in certain circumstances, payment of incentive bonus. See *Executive Compensation Tables* *Employment Agreements with Executive Officers* below for a summary of these employment agreements. The terms of each employment agreement reflect arm's length negotiations between us and the executive officer.

Separately from our employment agreements and equally applicable to any employee participant, our Equity Incentive Plan and Annual Incentive Plan provide that plan participants receive certain vesting benefits upon a change in control, unless determined otherwise by the Committee. These benefits are described below in *Executive Compensation Tables* *Potential Payments upon Termination or Change in Control*.

Hedging Prohibition and Share Ownership Guidelines

Under our Code of Conduct, our employees, officers, and directors are prohibited from engaging in any hedging or monetization transactions involving our securities, such as zero-cost collars and forward sale contracts, and are also prohibited from trading in derivatives in our securities, such as exchange-traded put or call options and forward transactions.

We currently do not require our executive officers to own a particular amount of our ordinary shares. The Committee is satisfied that the substantial equity holdings of each of our executive officers are sufficient at this time to provide motivation and to align this group's interests with the interests of our shareholders without formal share ownership guidelines. As of the record date, our executive officers beneficially owned in aggregate approximately 19% of our ordinary shares outstanding, and each individual executive beneficially owned shares with a fair market value in excess of several multiples of his base salary.

Financial Restatements / Disgorgements

The Committee has not adopted a policy with respect to whether we will make retroactive adjustments to any cash- or equity-based incentive compensation paid to executive officers (or others) where the payment was predicated upon the achievement of financial results that were subsequently the subject of a restatement, although, as a publicly traded company, the mandates of the Sarbanes-Oxley Act requiring clawback of compensation under specified circumstances would apply to us. Our Committee believes that this issue is best addressed if the need actually arises, when all of the facts regarding the restatement are known. Once final rules are released regarding clawback requirements under the Dodd-Frank Act, we intend to consider adoption of responsive policies.

Our Equity Incentive Plan provides that the Committee has the authority to require disgorgement of any profit, gain or other benefit received in respect of restricted shares and options for a period of up to 12 months prior to the grantee's termination for cause.

Tax and Accounting Treatment of Compensation

Section 162(m) of the Internal Revenue Code places a limit of \$1,000,000 on the amount of compensation that we may deduct from our U.S. source income in any one year with respect to certain of our executive officers. As a Bermuda-based company with limited U.S. source income, this limitation has not historically impacted our decisions regarding executive compensation.

Table of Contents

We account for equity compensation paid to our employees based on the guidance of the Share-Based Payment topic of the Financial Accounting Standards Board Accounting Standards Codification, which requires us to estimate and record an expense for each award of equity compensation over the service period of the award. Accounting rules also require us to record cash compensation as an expense at the time the obligation is accrued.

Compensation Risk Assessment

As part of our risk management practices, the Committee reviews and considers risk implications and incentives created by our executive compensation program and our compensation policies and practices for the Company as a whole. At the Committee's direction, representatives from our risk management and legal departments conducted a risk assessment of our compensation policies and practices for executives and all employees, which was discussed and reviewed by the Committee. Through this review, the Committee has concluded that our compensation program does not create risks that are reasonably likely to have a material adverse effect on us.

In connection with this assessment, the following factors were noted:

With respect to executive officer compensation, the Committee has discretion in making bonus awards and other compensatory decisions based on both quantitative and qualitative factors, and is not tied into pre-established pay-out formulas that may not account for a subjective view of performance (thus taking risks to achieve a certain level of financial results is not incentivized).

Each executive has meaningful equity holdings, creating alignment between the executives' interests and our long-term objectives, which discourages inappropriate or excessive short-term risks.

The Committee believes that the bonus structure addresses current market conditions because the measure of net after-tax profits encompasses all aspects of our performance, including, among many other factors, market-sensitive areas such as the performance of our investment portfolio.

Because the bonus pool is funded annually based on a percentage of net after-tax profits, employees are not incentivized to take inappropriate or excessive risks in any particular year to the detriment of our long-term success, as doing so would negatively affect the amount of the bonus payments in future years.

The Committee believes that the executive team, which together has led us for a decade, has driven an enterprise-wide culture that has historically stressed that only appropriate risks should be undertaken and has instilled a level of discipline across the business.

Employees are made aware of the design of the Annual Incentive Plan and its discretionary and non-guaranteed nature.

The compensation program does not currently include complex equity-based awards, which have the potential to create a wide range of potential pay-outs under different scenarios or a lack of understanding by the recipients that could lead to misalignment with corporate objectives.

We have a no hedging policy, and employees are prohibited from trading in derivatives of our securities.

Compensation Committee Report

The Committee has reviewed and discussed the Compensation Discussion and Analysis set forth above with our management. Based on its review and discussions, the Committee recommended to our Board of Directors that the Compensation Discussion and Analysis be included in this proxy statement and incorporated by reference into our Annual Report on Form 10-K filed with the SEC for the year ended December 31,

2012.

Grants of Plan-Based Awards in 2012

There were no plan-based awards granted during 2012.

Employment Agreements with Executive Officers

We have employment agreements with Messrs. Silvester, O Shea, Packer and Harris, originally effective as of May 1, 2007. In April 2012, we and Messrs. Silvester, O Shea, Packer and Harris agreed to extend the employment agreements for additional five-year terms ending December 31, 2016.

Edgar Filing: Enstar Group LTD - Form DEF 14A

The material terms of each of the employment agreements are substantially the same, except as otherwise noted below. Under the employment agreements, the executives are each entitled to an annual base salary (which is set forth in the Summary Compensation Table above) and are eligible for incentive compensation under our incentive compensation programs. The executives are also entitled to certain employee benefits, including (i) life insurance benefits in the amount of five times base salary, (ii) medical and dental insurance for the executive, his spouse and any dependents, (iii) long-term disability insurance, and (iv) payment of an amount equal to 10% of the executive's base salary each year in lieu of a retirement benefit contribution. For Messrs. Silvester and Packer, the agreements also provide reimbursement for one family trip to/from Bermuda each year. The amount of these benefits paid to the executives for the years ended December 31, 2012, 2011 and 2010 is reflected in the All Other Compensation column of the Summary Compensation Table above.

Table of Contents

The employment agreements also provide for certain double trigger benefits upon termination of employment for various reasons, as described below in the section entitled Potential Payments upon Termination or Change in Control.

In addition, each employment agreement provides the Company with certain protections in the form of restrictive covenants, including that if the executive fails to remain employed through the current five-year term, he has agreed not to compete with us for an 18-month period following the date employment ceases (except in the event his employment is terminated by us without cause or by the executive with good reason). The agreements also include restrictive covenants regarding non-solicitation, confidentiality, and non-disparagement.

After the current five-year term ends, each agreement renews for additional one-year periods unless either party gives 120 days prior written notice to terminate the agreement.

Equity Incentive Plan

We maintain the Equity Incentive Plan, which provides that awards may be granted to participants in any of the following forms, subject to such terms, conditions and provisions as the Compensation Committee may provide: incentive stock options, nonqualified stock options, performance shares, performance share units, stock appreciation rights (SARs), restricted shares, restricted share units, bonus shares and dividend equivalents. Since the plan's approval by our shareholders and Board in 2006, our Compensation Committee has chosen to award only bonus shares and restricted shares, although it retains the flexibility to make other types of awards in the future.

The maximum aggregate number of ordinary shares subject to each of the following types of awards granted to an employee during any year under the plan is 120,000 shares: options, SARs, performance shares, performance share units and bonus shares. The Compensation Committee has broad authority to administer the plan, including the authority to select plan participants, determine when awards will be made, determine the type and amount of awards, determine any limitations, restrictions or conditions applicable to each award, and determine the terms of any agreement or other document that evidences an award.

Enstar Group Limited 2011-2015 Annual Incentive Compensation Program

The Annual Incentive Plan was adopted by the Board in 2011 to replace the substantially similar 2006-2010 Annual Incentive Program, which had expired. The purpose of the plan, which is administered by the Compensation Committee, is to motivate certain officers, directors and employees of the Company and its subsidiaries to grow our profitability, which we believe primarily drives growth in our net book value in furtherance of our primary corporate objective. The Annual Incentive Plan provides for the grant of annual bonus compensation (a bonus award) to certain officers and employees of the Company and its subsidiaries, including our executive officers. The aggregate amount available for bonus awards for each year from 2011 through 2015 will be determined by the Compensation Committee based on a percentage of our consolidated net after-tax profits (before bonus expense). The percentage will be 15% unless the Compensation Committee exercises its discretion to decrease or increase the percentage no later than 30 days after the last day of the year. The Compensation Committee determines, at its sole discretion, the amount of the bonus award paid to each participant. For the year ended December 31, 2012, the aggregate amount available for bonus awards under the Annual Incentive Plan was \$29.6 million, or 15% of our net after-tax profits before bonus expense.

Bonus awards are payable in cash, ordinary shares or a combination of both. Ordinary shares issued in connection with a bonus award will be issued pursuant to the terms and subject to the conditions of the Equity Incentive Plan.

Retirement Benefits

We maintain retirement plans and programs for our employees in Bermuda, Australia, the United Kingdom and the United States. We do not maintain a formal retirement plan for those Bermuda employees who are work permit holders. Instead, we pay out on an annual basis to employees, including each of Messrs. Silvester, O'Shea, Packer and Harris, an amount equal to 10% of their base salaries in lieu of a retirement benefit contribution. The

amounts paid to Messrs. Silvester, O Shea, Packer and Harris are included in the amounts shown in the All Other Compensation column of the Summary Compensation Table above.

Potential Payments upon Termination or Change in Control

Edgar Filing: Enstar Group LTD - Form DEF 14A

This section describes payments that would be made to our executive officers following termination of employment or upon a change in control of the Company. In the first part of this section, we describe benefits under employment agreements and general plans that apply to any executive officer participating in those plans. We then provide estimated amounts of benefits assuming the occurrence of certain hypothetical events as of December 31, 2012.

Executive Officer Employment Agreements

The executive officers are entitled to certain benefits under their employment agreements upon termination of their employment. Upon termination for any reason, each is entitled to any salary, bonuses, expense reimbursement and similar amounts earned but not yet paid.

Table of Contents

Under the employment agreements, *cause* means (i) fraud or dishonesty in connection with the executive's employment that results in a material injury to us, (ii) the executive officer's conviction of any felony or crime involving fraud or misrepresentation, (iii) a specific material and continuing failure of the executive officer to perform his duties following written notice and failure by the executive officer to cure such failure within 30 days, or (iv) a specific material and continuing failure of the executive officer to follow reasonable instructions of the Board following written notice and failure by the executive officer to cure such failure within 30 days.

Under the employment agreements, *without good reason* means resigning in circumstances other than (i) a material breach by us of our obligations under the agreement following written notice and failure by us to cure such breach within 30 days, (ii) the relocation of the executive officer's principal business office outside of Bermuda without his consent, or (iii) any material reduction in the executive officer's duties or authority.

Termination for Cause or Voluntary Termination without Good Reason. If we terminate the employment agreement of an executive officer for *cause*, or if an executive officer voluntarily terminates his employment agreement with us without *good reason*, we will not be obligated to make any payments to the executive officer other than amounts that have been fully earned by, but not yet paid to, the executive officer.

Termination without Cause / Termination with Good Reason. The executive officer is entitled to the benefits described below if: (i) we terminate the executive officer's employment *without cause* or (ii) the executive officer terminates his employment with *good reason* :

any amounts (including salary, bonuses, expense reimbursement, etc.) that have been fully earned by, but not yet paid to, the executive officer as of the date of termination;

a lump sum amount equal to three times the executive officer's base salary;

continued medical benefits coverage for the executive officer, his spouse and dependents at our expense for 36 months;

vesting of each outstanding unvested equity incentive award granted, if any, to the executive officer before, on or within three years of the effective date of the employment agreement; and

for the year in which the executive officer's employment terminates, provided that we achieve any performance goals established in accordance with any incentive plan in which the executive officer participates, an amount equal to the bonus that the executive officer would have received had he been employed by us for the full year (an *Incentive Plan Payment*). Because we currently do not tie incentive plan payments to a specific performance target, any *Incentive Plan Payment* would be made at the discretion of the Compensation Committee taking into account the executive officer's performance while employed by the Company.

Termination following a Change in Control. The employment agreements are *double trigger* in nature, meaning that in the event of a change in control as defined in the employment agreements, the executive officer is entitled to the prescribed employment agreement benefits only following termination of employment. Termination of employment must be either: (i) termination by us *without cause* or (ii) termination by executive *only with good reason* . The termination must also occur within one year of a change in control. If these conditions are met, the executive would be entitled to the same benefits described above under *Termination without Cause / Termination with Good Reason* .

If the executive ends his employment following a change in control without *good reason*, the executive would receive only earned but unpaid compensation as of the termination date under his employment agreement.

Death of Executive. If an executive officer passes away, his employment agreement automatically terminates, and his designated beneficiary or legal representatives are entitled to:

Edgar Filing: Enstar Group LTD - Form DEF 14A

a lump sum payment in the amount of five times of the executive officer's base salary upon his death pursuant to life insurance benefits we maintain;

an Incentive Plan Payment reduced on a pro rata basis to reflect the amount of calendar days during the year that he was employed (a Pro Rata Incentive Plan Payment); and

Table of Contents

continued medical benefits coverage under the employment agreement for the executive officer's spouse and dependents for a period of 36 months following his death.

Disability of Executive. Either the executive officer or we may terminate his employment agreement if the executive officer becomes disabled, by providing 30 days' prior written notice to the other party. Under the executive officer's employment agreements, disability means the executive officer has been materially unable to perform his duties for any reason for 120 days during any period of 150 consecutive days. If the executive officer's employment ends because of disability, then he is entitled to:

his base salary for a period of 36 months (with base salary payments being offset by any payments to the executive officer under disability insurance policies paid for by us);

a Pro Rata Incentive Plan Payment; and

continued medical benefits coverage for the executive officer, his spouse and dependents at our expense for 36 months.

Equity Incentive Plan

Under the Equity Incentive Plan, upon the occurrence of a change in control as defined in the plan: (i) forfeiture provisions and transfer restrictions with respect to restricted shares and restricted share units would immediately lapse; (ii) each option and SAR then outstanding would become immediately exercisable, and would remain exercisable throughout its entire term, unless exercised, cashed out or replaced; and (iii) any target performance goals or payout opportunities attainable under all outstanding awards of performance-based restricted stock, performance units and performance shares would be deemed to have been fully attained. Currently, the only type of award outstanding under the Equity Incentive Plan subject to these provisions is restricted shares; there are no stock options, stock appreciation rights, or performance-based equity awards outstanding.

Forfeiture provisions and transfer restrictions with respect to restricted shares granted under the Equity Incentive Plan generally lapse upon a participant's death or disability. Upon any other termination of employment, any unvested restricted shares or options are forfeited immediately. In addition, the Compensation Committee may require a grantee of restricted shares to disgorge any profit, gain or other benefit received in respect of the lapse of restrictions on any prior grant of restricted shares for a period of up to 12 months prior to grantee's termination for cause. The disgorgement authority applicable to restricted shares would also apply to stock options. The vesting of any outstanding stock options would accelerate upon retirement, death or disability.

Annual Incentive Plan

Under the Annual Incentive Plan, a change in control would accelerate payment of bonuses by changing the measurement period to determine bonuses from the calendar year to a period that begins on the first day of the calendar year and ends on the date of the change in control.

AUDIT COMMITTEE REPORT

The primary purpose of the Audit Committee is to assist the Board of Directors in its oversight of the integrity of the Company's financial statements, the Company's compliance with legal and regulatory requirements, the independent registered public accounting firm's qualifications, independence and performance and the performance of the Company's internal audit function. The Audit Committee is solely responsible for the appointment, retention and compensation of the Company's independent registered public accounting firm. It is not the responsibility of the Audit Committee to plan or conduct audits or to determine that the Company's financial statements are complete and accurate and are in accordance with generally accepted accounting principles and applicable rules and regulations. This is the responsibility of management and the independent auditors, as appropriate.

In performing its duties, the Audit Committee:

has reviewed the Company's audited financial statements for the year ended December 31, 2012 and had discussions with management regarding the audited financial statements;

has discussed with the independent registered public accounting firm the matters required to be discussed by Statement on Auditing Standards No. 61, as amended (AICPA, Professional Standards, Vol. 1 AU Section 380), under which such firm must provide us with additional information regarding the scope and results of its audit of the Company's financial statements;

has received the written disclosures and the letter from the independent registered public accounting firm required by applicable requirements of the Public Company Accounting Oversight Board regarding the independent accountant's communication with the Audit Committee concerning independence; and

has discussed with the independent registered public accounting firm their independence, the audited financial statements and other matters the Audit Committee deemed relevant and appropriate.

Based on these reviews and discussions, the Audit Committee recommended to the Board of Directors that the audited financial statements for the year ended December 31, 2012 be included in the Company's Annual Report on Form 10-K for that year.

PROPOSAL NO. 1 ELECTION OF DIRECTORS

Three Class I directors are to be elected at the Annual General Meeting to hold office until our annual general meeting in 2016:

Robert J. Campbell

Paul J. O Shea

Sumit Rajpal

All nominees are currently serving as directors, and their biographies are available above under Corporate Governance Board of Directors. Included in each nominee's biography above is an assessment of the specific qualifications, attributes, skills and experience of such nominee.

Our Board nominated Messrs. Campbell, O Shea and Rajpal following the recommendation by our Nominating and Governance Committee, a committee comprised entirely of independent directors. All nominees have consented to serve if elected. We do not expect that any nominees will become unavailable for election as directors, but if any nominee should become unavailable prior to the meeting, the proxies to vote for such nominee will instead either be voted for a substitute nominee recommended by our Board, or not voted, if the Board determines in its discretion that the position should remain vacant.

THE BOARD RECOMMENDS THAT YOU VOTE FOR THE ELECTION OF THE NOMINEES.

PROPOSAL NO. 2 ADVISORY VOTE TO APPROVE EXECUTIVE COMPENSATION

We hold an advisory vote on our executive compensation each year. Accordingly, we are asking our shareholders to cast an advisory vote to approve the compensation of our executive officers as disclosed in this proxy statement.

The Board recognizes that executive compensation is an important matter for our shareholders. The guiding principles of our executive compensation philosophy and practice continue to be to:

induce performance consistent with clearly defined corporate objectives;

align our executives' long-term interests with those of our shareholders;

fairly compensate our executives; and

retain and attract qualified executives who are able to contribute to our long-term success.

We have specifically identified growth in our net book value per share as our primary corporate objective over the long term. We believe growth in our net book value is driven primarily by growth in our net earnings, which is in turn driven in large part by successfully completing new acquisitions and effectively managing companies and portfolios of business that we previously acquired.

In 2012, we delivered consistent results, both in terms of financial performance and execution of our strategy. We increased net book value per share by \$10.33 per fully diluted share to \$93.30 – an increase of 12.5% from 2011. Net earnings attributable to Enstar increased 9.3% from \$153.7 million to \$168.0 million.

After considering these achievements, as well as Company and individual performance, the Compensation Committee made the following key compensation decisions with respect to the 2012 performance year:

Incentive bonuses to each executive officer were kept at 2011 levels, despite increases to net book value per share and earnings, in order to align 2012 incentive compensation with the Committee's view that our performance was relatively consistent with 2011, and in consideration of the higher number of employees participating in the incentive program for 2012.

For the second year in a row, base salaries remained flat, with no increases awarded from 2011/2012 levels for 2013, in recognition of what the Committee believed was steady performance, as well as our continued focus on managing expenses.

Before you vote, we urge you to read the Compensation Discussion and Analysis and the Executive Compensation Tables sections of this proxy statement for additional details on our executive compensation, including its governance, framework, components, and the compensation decisions for our executive officers for 2012.

As an advisory vote, the results of this vote will not be binding on the Board or the Company. However, the Board values the opinions of our shareholders, and will, as it did last year, carefully consider the outcome of the vote when making future decisions on the compensation of our executive officers and our executive compensation principles, policies and procedures.

We ask our shareholders to approve the compensation of our executive officers by voting **FOR** the following resolution:

RESOLVED, that the Company's shareholders approve, on an advisory basis, the compensation of the executive officers, as disclosed in the Company's proxy statement for the 2013 Annual General Meeting of Shareholders pursuant to the compensation disclosure rules of the Securities and Exchange Commission, including the Compensation Discussion and Analysis, the Summary Compensation Table and the other related tables and disclosure.

THE BOARD RECOMMENDS THAT YOU VOTE FOR APPROVAL OF THE COMPENSATION OF OUR EXECUTIVE OFFICERS, AS DISCLOSED IN THIS PROXY STATEMENT.

PROPOSAL NO. 3 RATIFICATION OF APPOINTMENT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Audit Committee of our Board has reappointed KPMG Audit Limited (KPMG), as our independent registered public accounting firm for the year ending December 31, 2013. At the Annual General Meeting, shareholders will be asked to ratify this appointment and to authorize our Board, acting through the Audit Committee, to approve the fees for KPMG. KPMG has served as our independent registered public accounting firm since our shareholders ratified its appointment at last year's annual general meeting. Representatives of KPMG are expected to be present at the meeting, will have the opportunity to make a statement if they desire to do so and are expected to be available to respond to appropriate questions.

THE BOARD RECOMMENDS THAT YOU VOTE FOR THE RATIFICATION OF THE APPOINTMENT OF KPMG AS OUR INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM FOR 2013 AND THE AUTHORIZATION OF OUR BOARD, ACTING THROUGH THE AUDIT COMMITTEE, TO APPROVE THE FEES FOR THE INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM.

Change in Independent Registered Public Accounting Firm during 2012

On April 17, 2012, the Audit Committee determined not to reappoint Deloitte & Touche Ltd., Bermuda (Deloitte), as the Company's independent registered public accounting firm for the Company's 2012 fiscal year. Deloitte had served as our independent registered public accounting firm for 2010 and 2011 and during the subsequent interim period in 2012 through the date of the 2012 Annual General Meeting. The Audit Committee's decision to appoint KPMG followed its review of our auditors and associated expenses, and its conclusion that KPMG's fee proposal was compelling and in line with the Company's focus on expense reduction.

During the years ended December 31, 2011 and 2010 and the subsequent interim period through the date of the Audit Committee's decision not to reappoint Deloitte, the Company had no disagreements with Deloitte on any matter of accounting principles or practices, financial statement disclosures, or auditing scope or procedure that, if not resolved to Deloitte's satisfaction, would have caused Deloitte to make reference to the subject matter thereof in connection with its report on the Company's consolidated financial statements for either year.

Deloitte's audit report dated February 24, 2012 on the Company's consolidated financial statements as of, and for the years ended, December 31, 2011 and 2010, did not contain an adverse opinion or a disclaimer of opinion, nor was it qualified or modified as to uncertainty, audit scope, or accounting principles.

During the years ended December 31, 2011 and 2010 and the subsequent interim period through the date of the Audit Committee's decision not to reappoint Deloitte, there were no reportable events within the meaning of Item 304(a)(1)(v) of Regulation S-K.

During the years ended December 31, 2011 and 2010 and the subsequent interim period through the date of the Audit Committee's decision not to reappoint Deloitte, neither the Company nor anyone on its behalf consulted with KPMG regarding (i) the application of accounting principles to a specific transaction, either completed or proposed, (ii) the type of audit opinion that might be rendered on the Company's consolidated financial statements, (iii) any matter that was the subject of a disagreement within the meaning of Item 304(a)(1)(iv) of Regulation S-K, or (iv) any reportable event within the meaning of Item 304(a)(1)(v) of Regulation S-K.

The Company provided Deloitte with a copy of the foregoing disclosure prior to filing it with the SEC and Deloitte has stated in response that it agrees with such disclosure in all respects.

Table of Contents**Audit and Non-Audit Fees**

Aggregate fees for professional services rendered to us by KPMG Audit Limited and other member firms for 2012 and for Deloitte & Touche Ltd. and other member firms for the years ended December 31, 2012 and 2011 are set forth below.

Audit Fees for the years ended December 31, 2012 and December 31, 2011 were for professional services rendered for the audit of our annual financial statements, for the review of our quarterly financial statements, for services in connection with the audits for insurance statutory and regulatory purposes in the various jurisdictions in which we operate and for the provision of consents relating to our filings with the SEC.

Audit-Related Fees for the years ended December 31, 2012 and December 31, 2011 consisted primarily of professional services rendered for financial accounting and reporting consultations.

There were no fees in the *All Other Fees* category for the years ended December 31, 2012 and December 31, 2011.

Consideration of Auditor Independence

The Audit Committee has concluded that the provision of the non-audit services by KPMG is compatible with maintaining its independence.

Procedures for Pre-Approval of Audit and Non-Audit Services.

Our Audit Committee has adopted a policy to pre-approve all audit and permissible non-audit services provided by our independent registered public accounting firm. For the year ended December 31, 2012, the Audit Committee approved all of these services by our independent registered public accounting firm on an individual basis as the need arose. The Audit Committee may instead choose to pre-approve a list of specific services and categories of services, including audit, audit-related, and other services, for the upcoming or current year, subject to a specified cost level, although this was not done in 2012. Any service that is not included in the approved list of services would need to be separately pre-approved by the Audit Committee. In addition, all audit and permissible non-audit services in excess of the pre-approved cost level, whether or not such services are included on the pre-approved list of services, would need to be separately pre-approved by the Audit Committee chairman.

We are submitting the election of the directors identified below for each subsidiary to our shareholders at the Annual General Meeting. Our Board will cause our corporate representative or proxy to vote the shares in these subsidiaries in the same proportion as the votes received at the meeting from our shareholders on these matters.
